## THE FAIR IMPOSTOR.

CHAPTER XXVIII.  
 SKELETON KEYS.  
 (Continued.)

Laura had been asked to be ready by twelve—it was now a quarter past.

She stood, looking extremely pretty notwithstanding that her costume was of local birth, tapping the window pane with her primrose-gloved hand, and looking expectantly down the road.

Presently she heard the gate swing open, and thinking it was some one from the Hall, opened the French window and stepped out.

But it was only an old man, a tramp, apparently.

He stood looking at the house hesitatingly, and at last, catching sight of Laura, hobbled up to the window.

Lillian Shook her parasol at him by the way of denial, but the tramp still hobbled toward her.

'I've nothing for you,' she said, in her thin voice. 'You had better go; you have no business to come in at this entrance, or any other, for that matter. Go away.'

But the tramp still approached, and when quite close stopped, and looking at her, with a quiet smile, said:

'Don't you know me, miss?'

Laura started and turned pale. She did not know him; it was Mr. Robert Green.

He looked at her with a quiet smile, evidently enjoying her astonishment.

'Hope I haven't frightened you, miss,' he said, coolly. 'Obliged to play a dark game sometimes. Wouldn't do for Mr. Robert Green to be seen too much about. Can I have a word or two with you, miss?'

Laura Warner stepped out of the lawn.

'Why have you come like—like this?' she asked. 'What is it you want?'

'Well, I've come to bring you a bit of news for one thing,' he said, quietly, leaning on his stick in the very attitude of a tramp.

'News! what news?'

'You haven't heard?' he said. 'Ah, I dare say not. I've only just got it from one of the servants who came over to Jones' for some cream. Miss Woodleigh is engaged to her cousin, Mr. Harold.'

Laura Warner stood motionless as a statue, and her face as white.

'When—when did you hear—is it true?' she asked, biting her lip.

'No doubt of it,' said Mr. Robert Green, quietly. 'It is well known at the Hall. I thought you would like to know.'

'Yes,' she assented, feeling the ground with her sunshade. 'Thank you, but are you sure?'

'Quite sure,' he said. 'They were engaged last night. Sir Talbot, the old man, brought it about; they were closeted together, he and the young lady, and Mr. Harold, for an hour in the library last night. Oh, there's no doubt. You'll see 'em driving together directly.'

'Yes, yes,' she said, her whole frame aching with disappointment and envy; 'I am going with them to

this hateful picnic. Why, why did you come—like this—to tell me, Mr. Green?' she asked, shrewdly. 'But you must not stay; they will be here directly, and I must go.'

'Don't go, miss,' he said, nodding his head. 'I came up here on purpose to ask you to stay behind. I want you to do something for me this morning.'

Laura stared. She had not forgotten her pledge to this man, but she had tried to do so, and the gentle reminder alarmed her.

'What do you mean?' she asked.

'Just this,' said Mr. Green, coolly. 'You haven't forgotten our little compact in the wood, miss? Well, I haven't troubled you much, you'll confess. I've done all the work up till now, but now I can't get on without you. I'm on the track—never mind to what—but I want a link or two, and I can't get on without your help. You won't refuse me unless you want this wedding to come off.'

Laura looked round nervously.

'What do you want?'

'I'll tell you, miss,' he said, quietly. 'You must stay away from this picnic, or whatever it is—make some excuse or other; ladies generally go in for headaches, and come round to the wood in half an hour's time.'

'Come round to the wood?' faltered Laura.

He nodded, keeping his eyes on her.

'Yes, miss, and I want you to bring a letter or two, any scrap of paper with Miss Woodleigh's writing on it.'

Laura thought a moment, struggling with her nervousness and agitation.

'Letters! I have only an invitation and one or two short notes,' she said.

'That will do,' he said, with evident satisfaction. 'You won't disappoint me, miss. I'll wait at the shrubbery for half an hour.'

'What do you want them for?'

Laura asked, trying to speak haughtily.

'Perhaps I'd better not tell you, miss, just yet,' he replied, coolly. 'But it's most important that I should have them.'

She hesitated another minute; then, without looking up, she said, in a low voice:

'I will come,' and went in.

Mr. Robert Green leaped away, and being met by a servant was told

to take himself off, which he did—the wood.

Laura Warner went up to her room and took off her outdoor things, and five minutes afterward the wagonette drove up to the door.

She did not send any message, but came down, a lace shawl thrown round her head, her face looking pale and full of disappointment.

'Not ready, Miss Warner?' cried Lord Rayburn.

'I am sorry,' she answered, 'but I am afraid I cannot come. I have an attack of neuralgia, and could not face the keen air on the cliff. I am awfully disappointed, but I dare not come.'

There were loud expressions of regret, but she stood firm.

'How is Miss Woodleigh?' she asked, looking down the road.

Lord Rayburn jerked his head in the other direction.

'All right, thanks. She and Harold have gone on in the mail phaeton, and he smiled significantly.'

Laura Warner's face went paler and her lips twitched.

'Give her my love, please, and tell her how sorry I am. I hope you will all enjoy yourselves; you must tell me all about it.'

They drove off, and she stood watching the cloud of dust for a moment before going in again.

'Gone on without calling,' she muttered, clenching her hand. 'He would not have done that before she came. I am nobody—nobody—in

### Badly Hurt In Thresher

Blood poison set in—Great suffering—Cure effected by DR. A. W. CHASE'S OINTMENT.

Mrs. G. Hopkins, St. George, Ont., writes:—'I feel like shouting the praises of Dr. Chase's Ointment. While threshing grain, my son got badly hurt. One of the men who was pitching sheaves, missed the sheaf and ran the prongs of the fork into my son's leg. He did not take much notice of it and in a day or two it got sore and very itchy and blood poison set in. We did everything for it but it would heal one place and break out at another and kept on this way for three months. Finally I thought of Dr. Chase's Ointment and in a week's time we noticed a wonderful change. By the use of three boxes he was completely cured, and the wounds healed up. There has not been a sign of a spot on him since.'

Wherever there is itching or irritation of the skin or a sore that refuses to heal you can apply Dr. Chase's Ointment with every assurance that the results will be prompt and satisfactory. 50 cents a box, at all dealers, or Edman, Bates & Co., Toronto. Write for free copy Dr. Chase's Recipes.

his eyes now.' Then she flung the shawl from her passionately and ran noiselessly upstairs.

She kept Mr. Robert Green waiting a quarter of an hour, but he was quite prepared for that, and more than satisfied when he looked at and saw the expression in her face. He was no longer a tramp, but a respectable-looking farm laborer in a billy-cock hat and a clean smock.

'I thought you'd come, miss,' he said touching his hat. 'I had to change my clothes, you see. One of your servants warned me off, and if I'd been caught as a tramp in the grounds again it might have been awkward. Well, miss, have you got them?'

She took three or four letters from under her jacket, but held them as she looked at him.

'You will not tell me what you are going to do with these?' she asked.

### The Scorcher.

By many a gasping man a-scud,  
 I whizz around a corner  
 And cover one chap's clothes with mud,  
 Thus leaving him forlorn.  
 I cut the muffler out, and leap  
 Along some darkened highway  
 And laugh at language hoarse and deep  
 From folk who hunt the byway.

I climb a hill and then I scoot  
 A-down and through the hollow;  
 My horn sends back a raucous toot  
 To those who fain would follow.  
 The smoke swirls in the atmosphere  
 And makes it mean and muggy;  
 I take a half an inch to clear  
 A plodding horse and buggy.

Through many a little town I blare,  
 While constables would halt me,  
 And timid people everywhere  
 Are willing to assault me.  
 Yet I am scorching on, you know,  
 For I am pretty clever.  
 For when I come then men must go  
 Or else they'll go for ever.

### HOUSEHOLD NOTES.

Flax cloth is much used this season for curtains and portiers for the summer home.

To make a Spanish omelet add sliced olives, mushrooms and pimientos to a tomato sauce and put this in the fold and around the plain omelet.

Currants and raspberries mixed in the proportion of two cups of raspberries and one of currants and sprinkled with sugar make a delicious sauce.

To cut a loaf of hot brown bread take a piece of twine, place it around the loaf, cross the ends and pull. There will be a clean cut without crumbs.

Add a piece of wax the size of a bean and a teaspoonful of powdered borax to your starch while it is boiling if it is desired to brighten the polish.

A few drops of ammonia in water will take the grease off of dishpans; a little put into warm water for washing paint will make it look like new.

When jelly is put into a kettle to boil, drop in a small agate marble. It will keep in constant motion in the bottom of the kettle and prevent burning.

The long celluloid collar stiffeners sold at notion counters are useful to give body to the floppy brims of children's hats, especially those made of linen.

When carrying oranges for a train or a picnic luncheon, a good way is to remove the skin and seeds at home, and carry the sections wrapped in waxed paper.

When steel knives and forks have become tainted with fish they can be rubbed with fresh orange or lemon peel, and the taint will disappear entirely.

Beauty doctors are now reinforcing the claims of vegetarians with a theory that meat hastens the approach of old age, and that fruit impedes the aging process.

A moist blotter will be much more effective than a dry one for removing ink stains from fabrics. If repeatedly applied, it will frequently take out the entire spot.

Eggs are good baked. Cover the bottom of a pie plate with a good gravy, break the eggs and drop the whole onto the gravy. Bake until the whites are set.

A delicious hard sauce is made with the usual tablespoonful of butter, creamed with a cupful of sugar and two tablespoonfuls of whipped cream beaten in at the last.

To clean soiled wallpaper, dip a whitewash brush into hot vinegar and brush all over it quickly. When the paper is dry it will appear as fresh as when first hung.

Learn to relax if you would be free from lines in your face and cheat old age. Most of us keep ourselves at tension, mental and physical, too much of the time.

Mosquitoes in the house may be killed by burning sulphur, but all delicately-colored fabrics and metal must be removed from the room where the sulphur is burned.

When troubled with snails, put large pieces of cut raw potato under a board, raised at one end a few inches from the ground, and in a few days all the snails in the neighbourhood will congregate there.

On wash-day when plenty of suds are left over, plunge all the brooms into the hot, soapy water, and shake them about in it. It will clean them, make them more flexible, and greatly prolong their lives.

### Boy Had Fits For 6 Years

Druggist advised DR. A. W. CHASE'S NERVE FOOD—Cure complete and lasting.

Mrs. J. D. Palmer, 38 Park St., Amsterdam, N. Y., writes: 'When six years of age my boy began to have fits. They came on in the night. He would make strange noises, stiffen out, froth at mouth, face would twitch and sometimes turned purple. After the fit he could not talk.'

'The family physician said all he could do was to keep them down somewhat. The second physician pronounced trouble Jeffersonian epilepsy, but could not cure him. He suffered for six years and before beginning the use of Dr. A. W. Chase's Nerve Food had three fits in about five days. Our druggist recommended Dr. A. W. Chase's Nerve Food. He has taken seven boxes and has not had the symptom of a fit since. His color has greatly improved; he is not nervous and irritable like he used to be, and we consider his cure complete.'

'Such results are only obtained by the use of the genuine Dr. A. W. Chase's Nerve Food—not from imitations or substitutes. 50 cents a box, all dealers or Edman, Bates & Co., Toronto.'

By RUTH CAMERON

Tired mother? Rather, dear. But why, mother—with only four of us and this small house and all the washing and ironing put out, and a woman to do the cleaning—there surely can't be such a great deal to do.  
"I seem to keep pretty busy."  
"Now, mother, do you know what I think? I think you putter. I've been watching you and it seems to me that you do lots of little things you don't really need. Now, for the next few days I wish you'd just try to let those little things go. Just do the regular routine of the things that positively have to be done, such as getting the meals, clearing them away, and do the chamber work, and let the rest go. Every time you start to do any one of these things that isn't really necessary, just stop and make up your mind to let it slide. I'm sure you wouldn't get half so tired if you'd do that sometimes!"

The little mother listened to her daughter's harangue at first indignant, then quizzical.  
Then an idea seemed to come to her.  
"Would you really like to have me try it, Marjorie?" she asked.  
"Of course, will you?"  
"I think I will," said the little mother slowly.

"Good, I'm sure that means that when I come home from work I'll find you much less tired. I'm sure you could be just as well as not if you didn't putter so."

The new order began the next day. The first recognition of its presence was by Marjorie that night.

"Mother, what ails Duke? He keeps coming in here and teasing for something."

"Perhaps he wants his supper Marjorie. I thought that was outside of the regular routine that you outlined, so I didn't do it."

"Oh," from Marjorie, as she followed Duke out into the kitchen and picked up his pan.

"Perhaps you'd better tend to the bird, too," called the little mother. "Of course, I didn't touch him and his cage is awfully dirty."

The next morning Marjorie overslept and came hurrying down to breakfast. "How much time have I got?" she demanded. "Why, what's the matter with that clock! It's stopped, mother."

"Yes," agreed the little mother serenely. "I didn't wind it, you know. I was afraid that was putting."

"Mother," this from big brother that evening, "I can't find a match in a single match box in the whole house."

"Mother," this from Marjorie the following morning. "I can't find my clean chemise. What did you say? You didn't think you ought to put away the clothes? Oh!"

"Mother," this was from father next day, "there hasn't been any soap in this bathroom for three days. What's the matter?"

"I can't find my clean collars, mother," this was from big brother. "You didn't send the laundry? Why not?"

"Mother," this was from Marjorie again, "what do you think has happened! The buttons weren't taken out of my white skirt and the washer-woman did it up with them in, and they rusted and most ruined the skirt. Putting? Oh, mother, that isn't fair. No, I'll take it all back if you'll just help me get the iron rust out of the skirt so that it will be fit to wear canoeing to-morrow."

And then little mother, being one of that wonderful sisterhood of almost superhuman forgivers that all good mothers belong to, suppressed a desire to tell her daughter that getting the rust out of a white skirt was out of the prescribed routine, and patiently worked away at the stains until she had gotten them out and then pressed the skirt neatly.

That was the end of the experiment. And Marjorie doesn't use the word "puttering" now.

I wonder if there is any suggestion in that little tale for any other Marjorie who can't see what her mother finds to keep her busy all day.

**Ends Dyspepsia in a Few Minutes**

Indigestion, Gas, Heartburn or Dyspepsia vanish in five minutes.

Every year regularly more than a million stomach sufferers in the United States, England and Canada take Pape's Diapepsin, and realize not only immediate, but lasting relief.

This harmless preparation will digest anything you eat and overcome a sour, gassy, out-of-order stomach five minutes afterwards.

If your meals don't fit comfortably, so what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of Indigestion.

Get from your Pharmacist a 50-cent case of Pape's Diapepsin, and take a dose just as soon as you can. There will be no more sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with noxious odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large 50-cent cases contain more than sufficient to thoroughly cure almost any case of Dyspepsia, Indigestion or any other stomach disorder.

English Professors Expect to Devote Two Years to the Work.

Prof. Worthman Allen and John Melbourne of London sailed yesterday for St. John's by the Red Cross liner Bornu to make a thorough exploration of the interior of Newfoundland. Prof. Allen said that although Newfoundland was the oldest English colony it was practically uninhabited in the interior. The two professors will work until the cold weather sets in and will then return to England, going back to Newfoundland in the spring to continue the work, which they believe will be completed in about two years. They will be assisted by Prof. Henry MacHenry of London, who is waiting for them at St. John's.—New York Sun, Aug. 21.

**Annual Fishery Report**

Mr. Goodridge, the Deputy Minister of Fisheries, in his report to his chief, Mr. Piccott, notes that the value of the fisheries exported in 1909 showed a decrease of \$452,104 compared with 1908. He also observes the increased quantity of fish sent away in casks, which has been growing during the past five years. About this he remarks: "There can be no doubt as to the advantage of the system, both to the shipper, who, sending by steamer or through bill of lading can estimate closely the time of arrival in the market, thus avoiding delay and deterioration, and to the buyer who receives the fish in better condition than the ordinary bulk cargo, gets full weight, besides escaping the broken, stained and damaged fish, cullage and loss in weight and handling so prevalent in bulk cargoes."

He also notes the increase in the shipment of small shipments of fish the consignee paying cash against document.

As to the destinations of the 1,800,000 qtls. of fish exported, the Mediterranean took nearly a million quintals. The Deputy reviews these shipments in these words: "Considering the amount of these shipments, which was abnormally large, the realization of this quantity of fish has been fairly successful as a whole, but much money has been lost on bulk cargoes, chiefly through injudicious shipping and the congestion resulting from over-cargoes on the part of shippers in rushing cargoes to market."

In connection with this market, we understand Mr. R. Grieve, who left by the last Allan steamer for England, intends to spend some time in the Mediterranean market, with a view of obtaining first hand information as to conditions actually prevailing there.

The Deputy reports that Brazil took 380,000 quintals, but owing to crop failure and depressed financial condition, the prices were poor for the first ten months. Better returns were realized for remainder of season.

**SAILED FOR WRECK.**—The D. P. Ingraham left here at 4 p.m. yesterday for the scene of the wreck of the whaler Cachet at the eastern end of the Straits of Belle Isle. Mr. D. A. Ryan went by her and will superintend the work of salvaging gear, machinery, etc., connected with the ship.

**FIVE PRISONERS ARRESTED.**—There was a good deal of drunkenness evident on the streets last evening and night, and four disorderlies and one drunk were jailed by the police.

**Silence!**

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indiscreet. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

**Obituary.**

**MR. RICHARD DEVERAUX.**  
On Thursday, at midnight, August 25th, Mr. Richard Deveraux, of Avondale, passed peacefully away after a tedious illness of eight months. Deceased was 52 years old, and until the present summer was engaged in the Labrador fishery where he toiled hard to provide for his family. He was of a very quiet disposition, and was beloved by all with whom he came in contact. He was attended by Dr. Jones who did all he could for him. He was visited frequently by Rev. Father Sheehan, who administered the last Sacraments a short time before his death. For the last three days previous to his death, he knew the end was near and wished to have all his friends around him, and he wanted them to pray aloud so that he could repeat the prayers, which he did until an hour before his death. He was resigned to the Holy Will of God, and it was a consolation to all his relatives to see him so happy and willing to die. Besides a widow and four children, he leaves four brothers and two sisters to mourn their sad loss. His funeral took place on Sunday at 2 o'clock, and was largely attended, testifying to the esteem in which the deceased was held. His remains were laid in Avondale cemetery to await the Resurrection morn. Avondale offers sincere sympathy to all the relatives

of the kind and generous departed one in their hour of bereavement. Requiescat in peace.

**L. O. A. Outing.**

The members of the L. O. A. with their sweethearts and wives, to the number of about 200, proceeded by yesterday's morning's train to Kelligrews where they held their annual outing and had a most enjoyable time of it. The weather was excellent and during the day varied sports and pastimes were indulged in, while all enjoyed a sumptuous dinner and tea at various hostilities, the proprietors of which provided for the occasion. At night a very enjoyable dance was held. Mr. Geo. Tilley, a capable violinist, furnished excellent dance music. The dance concluded at 10.30 and all left by train at midnight tired, but having enjoyed a very pleasant day. To Secretary B. Norman and the capable committee in charge great praise is due for conducting such a successful outing.

### Examiners' Report.

We have before us the general comments of the C. H. E. Examiners on the work presented by the candidates. The reports are on each subject in each grade. We purpose to give the pith of these remarks. To-day we deal with the Associate Grade. English Composition again reached a fairly high standard. The quality of the answers in English Literature varied greatly. Similar comments are made in regard to English History. A slight improvement is noted in Geography. The answers of many candidates in Algebra indicated they possessed "little more than a mechanical knowledge of the elements." In Geometry, a number of answers were unsatisfactory. Your correspondent was "thoroughly satisfactory." Navigation proved fairly satisfactory. The translation of the French pieces was not well done on the whole, few getting the sense and very few writing in good English. The best satisfactory part in the whole set of papers was the translation into French. High commendation is given in good English. The least almost in every case was excellent. The work in light and heat was of very fair quality. A very satisfactory standard was shown in Chemistry. The papers in Hygiene were, on the whole, only mediocre. In Theory and Practice of Education the average marks was considerably higher than in previous years.

### Bankers in Port.

The banker Armenia, Capt. Noseworthy, of St. Jacques, arrived in port yesterday looking for bait. She has been doing poorly and has only 600 qts. to her credit for 4 dorles. The Regal, of Fortune, also arrived to look for bait. She has done fairly well. The Sentinel, from Jersey Hr., also came here and is doing well. The Lucania, of Lunenburg, arrived here yesterday with nearly a load of green fish and to get a supply of salt to cure it. She got 800 qts. since leaving here, three weeks ago. She left a Newfoundland vessel near where she was getting all the bait she wanted. The Lucania has now 1,500 qts. to her credit for 7 dorles and will make a record voyage this season.

### Regulus to Blame.

We learn from Mr. Gerald Harvey that he had a short message from New York yesterday stating that the Marine Court of Inquiry held in connection with the ship's collision with the steamer Karema held the Regulus accountable for the accident, a fact which occasions a great deal of regret. Mariners generally, both here and in New York, from the reports published, premised that the Regulus would be held responsible for the collision. At least, both ships would be held equally liable. What the damages are is not yet known.

The engagement is announced of Miss Margaret James B. A., only daughter of the Rev. T. H. James, to the Rev. P. T. Mayer Wakes, M. A., P.H.D., of Biddulph, Coughston, England, now of Berlin, Miss. The marriage is to take place Sept. 9, at Hubbard, Mich., the home of Mr. and Mrs. Wm. Harry, the latter being a sister of the Rev. T. H. James.

## Cable News.

WILL BE BUILT IN GREAT BRITAIN.

Special Evening Telegram.  
LONDON, Aug. 31.—American and Continental shipbuilders who expected to compete for the construction of the new Chilean warships probably have been frozen out. The plans have been drawn up by Sir Philip Watts, chief naval constructor of the British navy, and specifying that the guns and certain machinery must be of English design and manufacture. It is believed that the terms of the recent Chilean loan, which was voted by the Rothschilds, stipulated the advantage to British builders.

LISBON, Aug. 31.—Returns from the recent Parliamentary elections with the exception of such as were invalidated by fraud or otherwise, show the following results: Ministers, 90; Monarchists in opposition, 40; Republicans, 14. This is a Republican gain, the party having elected five cabinet members in elections two years ago. The Republicans charge extensive frauds and made frequent contests of the returns.

Special Evening Telegram.  
PARIS, Aug. 31.—In his monoplane flight of last Monday, Leon Morane, the French Aviator, reached a height of 2,150 metres or 7,054 feet according to the official figures determined today. This constitutes a world's record height eclipsing the mark set by J. A. Drexel at Lanark, Scotland, on Aug. 12, when Drexel rose 6,752 ft.

OSAWATOMIE, Kas., Aug. 31.—In clear and emphatic fashion, Theodore Roosevelt announced his political creed to-day. It was a creed of progressive republicanism. It alighted him definitely with the progressive movement within the party as a whole. It placed him on record as an advocate of some policies which find favor with the insurgents and as an opponent of every special interest which he believes exercises a sinister influence on the affairs of the people. Col. Roosevelt declares himself in favor of wide increase in the power of the national government, so that it might assume greater activity in control of corporation and in working out the policies which he believes should be adopted. He declared for the new Nationalism as he termed such an increase in government power. Col. Roosevelt characterized the issue of the day as the struggle of free men to gain and hold the right of self-government as against the special interests which twist the methods of free government into machinery for defeating the popular will.

### Fever and Diphtheria.

A case of scarlet fever, the patient being a young woman, was removed yesterday from Cook Street to Hospital. A case of diphtheria was reported from No. 2 Brazil's Square yesterday and the patient is being nursed at home. A young woman was taken to Hospital yesterday for observation from Punch Cove. It is believed she is developing diphtheria. A young man developed diphtheria at his residence on LeMarchant Road this morning and was taken to Hospital.

### How He Was Drowned.

Though it was reported that the young man Walsh, of Outer Cove, who was drowned while poeie fishing, was swept overboard, we learn to-day that this is incorrect. Mrs. Carroll, his aunt, had a letter from men who fished with him yesterday saying that he was stooping from the poeie steamer into a seiner alongside when he went overboard and sank, never again coming to the surface. His cap floated on the water. It was believed that he was eaten by sharks, which infest the place. Though every means was tried to recover the body it could not be found, and this is what leads to the belief that he was killed under water by these fierce fish.

### Bad Labrador News.

Yesterday morning the Minister of Marine and Fisheries, Mr. Piccott had these messages from Indian Hr. via Cape Ray which speak for themselves.

From Capt. W. C. Winsor—"Arrived from Ryan's Bay. Worst fishery for past 20 years. No improvement from last time.

From Capt. W. R. Bartlett, from the same place—"Traps ashore; bait scarce. When fish and squid obtainable secure 2 to 3 qts. daily if good weather; nothing fishing; weather unsettled.

### Lack of Hospital.

Isaac Benson died at Harbor Grace on Tuesday. He took sick suddenly from appendicitis. He had two doctors attending him. He was too sick to be removed to St. John's and it was impossible to operate with any chance of success in his home. It shows the great necessity of the Guy Memorial Hospital in Hr. Grace. That man in all probability would be alive to-day if only the common, humane necessity was to be had in an important centre like the second city of Newfoundland.

## POLICE COURT NEWS.

In the police court to-day a drunk was fined \$1 or 5 days, and another who has appeared before, \$2 or 7 days. A couple of others were discharged.

Two charged with disorderly conduct were dismissed with a caution.

Fred Miller summoned Martha Oldford for beammering his fence with mud. The case was a trivial one and was dismissed. Mr. Ayre, for plaintiff; Mr. Higgins, for defendant.

GLENCOE'S PASSENGERS.—The Glencoe left Placentia at 3 a.m. to-day taking J. J. Sherman, W. H. Murray, Mrs. Moore and child, Mrs. (Dr.) Fitzgerald, Miss Parsons, Miss Malcolm, Mrs. McLean, Miss A. Hartigan, Miss Parsons, W. Rose, H. Gossa, Lieut. Anthony, Capt. Bowring, C. Curtis, T. Collier, A. Taylor, A. McDougall, A. Farrell, Mrs. W. Reid, S. A. Doyle, J. Burton, Miss O'Reilly, Miss Greene, Mrs. Moyal and 2 children, Mrs. Ryan, Miss K. Hartigan, Miss Power, Miss A. Quenaux, R. Quenaux and 2 second class.

The local arrived at 12.30 to-day. The express with a number of passengers got here at 12.45 p.m.

## Fire at Bell Island.

MEN ESCAPED SUFFOCATION. A couple of days ago at Bell Island a fire started in the pump house down in the D. I. S. Co's slope, and before it could be controlled the house was badly gutted. Fifteen men were working in the slope at the time and narrowly escaped suffocation from the dense smoke which filled it. They were imprisoned there from the late forenoon until 3 p.m., and so badly overcome were they by the smoke that they were almost suffocated when they were brought to the surface. They essayed to leave the pit several times by means of a ladder but could not get through the smoke and fire. One man, named Churchill, in rushing up the ladder fell a distance of ten feet severely injuring his spine and receiving injuries which it is feared may prove fatal. How the fire occurred is not known.

## Coastal Boats.

REID FIELD, CO.  
The Argyle left Burn at 4.50 p.m. yesterday, and is due at Placentia to-day.  
The Bruce left Basque at 2.35 a.m. to-day.  
The Clyde arrived at Lewisporte at 4.50 p.m. yesterday.  
The Ethie arrived at Clarendville at 7 p.m. yesterday.  
The Home left Bay of Islands at 6.40 p.m. yesterday. She reports a stormy voyage North.

## U.S. Sportsmen Arrive

Several American sportsmen came over by the Bruce, and after getting on the train left at Bay of Islands, Grand Lake and Glenwood, where they will go in the country shooting caribou and partridge. It is their first visit to Newfoundland, and they are delighted with the country.

## Train Notes.

By the Bruce express at 6 p.m. Tuesday there went His Lordship G. H. Bolt, Mr. O. Peters and wife, W. H. Taylor, Mr. and Mrs. Barron, Mrs. A. Kellows, H. Lever, T. D. McManus, Mr. Donnelly, W. Ashbourne, Rev. M. Madren, T. S. Poole, J. F. Fehan, Rev. Dr. McMillen, T. Smythe, A. Moulton, Mr. Wesley and wife and 250 others.

The local arrived here at 11.05 Tuesday night bringing C. and Mrs. Carter, Mr. Morris, Miss Fouts, Capt. and Mrs. Humphrey, Mrs. Holder and children, Geo. Davy, Mr. Kennedy, Mr. Oakley, Const. Martin, Masters Ted Walsh and T. Dunphy, Lizzie Dunphy and 50 others.

The 8.45 a.m. train yesterday took out 400 excursionists and 200 with the L.O.A.

The Shamrock Amusement Club left at 8 a.m., about 250 persons going with them.

In all about 1,400 passengers went over the line yesterday, and the greater portion of them were back by midnight, the day's outing being conducted without a single accident.

## Fishery News.

Lark Harbor—Fair fishing with trawls; squid plentiful.  
Nipper's Harbor—Boats 1/4 to 2 qts.  
Trinity—Boats 1 to 3 qts.; squid enough for bait.

The Clutha left Pernambuco for here Tuesday.  
The Rosalind left Sydney at 6 a.m. yesterday for here.

Misses Manning and Harley who spent a pleasant vacation at Kelligrews arrived here by last night's train.

SQUID PLENTIFUL.—Portugal Cove this morning was filled with squid. Bankers requiring bait should go there.

A PAINFUL ACCIDENT.—As Mrs. Jno. Raymond of the Goulds was out in the woods yesterday looking for her cow she tripped in a stump and falling heavily drove a stick completely through her hand, the sharp point entering the palm and coming out at the back of the hand. She was driven to the city and was treated by Dr. Campbell.

## Husband's Will Destroyed to Save Son From Gallows

Romantic Story of a Mother's Love Was Brought to Light by Suit in Illinois Probate Court.

AURORA, Ill., Aug. 22.—A mother's love for her erring son, her alleged yielding to his importunities to destroy her husband's will, which left all of his property to his grandchildren, in order that the son might have money to save him from the penitentiary or the hangman's rope, is the romantic story told in a petition filed in the Probate Court of Kane County by Kate Terry Prindle and Laura Terry Hunt, to recover the estate of their grandfather, Richard Terry, a wealthy Aurora land owner, who died in 1888.

The mother's alleged confession on her death bed that she destroyed the will so that her son might have money to fight a charge of murdering his wife led to the filing of the petition.

By the terms of the will, which, it is asserted, was destroyed by his widow and son, Arthur Terry, all of

## Richard Terry's estate was left to his grand-daughters, who are bringing the suit to recover property valued at thousands of dollars in the heart of Aurora's business district.

are returned by the banks for redemption, says the August Bookkeeper. For some time past the department has been redeeming and destroying about \$2,000,000 in bills daily, most of them being of one and two dollar denominations, and the idea of washing them and returning them to circulation was one of the economies suggested by Charles D. Norton—now secretary to the President—formerly assistant secretary of the Treasury. The machine now in use is the invention of Frank B. Churchill. Its method of operation is to take the bills, spread them on a screen, and pass them rapidly

## Uncle Sam's Money Will Be Washed.

Owing to the popular agitation in regard to the filthy condition of much of the paper money in circulation, the United States Treasury Department is now making the experiment of laundering all the grimy bills that

through a solution of soap and water, which takes off the grime. Another disc then carries them through a strong antiseptic solution which acts as a germ destroyer, after which a third bath removes all traces of the other two washes and prepares the bills for the "plater," which is similar in character to the roller used in pressing new money. It is claimed for the machine that, after the thoroughly cleansed bills have been run through the "plater," they are in almost every respect as good as new, and renovating process not only restoring the original colors of the ink but also the crispness of new money.

Before people became afraid of the germs that lurk in dirty currency, bills remained in circulation for from four to five years. Since the present agitation began, however, the average life of the bill has been less than fourteen months. According to J. D. Ralph, Director of the Bureau of Engraving and Printing, the life of a banknote will now be extended about 60 per cent which will mean an annual saving to the Government of nearly a million dollars.

## Narrowly Escaped Being Killed.

While at work discharging the S. S. Coban at the dry dock premises this morning a man named Samuel Piercy, 25 Cabot Street was the victim of a dangerous accident. A block which held up the large boom and derrick, had to hold the coal cargo from one of the holds gave out and the heavy boom came to the deck with a crash and struck the man after it rebounded on the shoulder, side and back. He received serious injury, was rendered unconscious for awhile. It was thought his back was broken and certainly it was badly hurt. The tips of the fingers of one hand were smashed and the flesh torn from them. Const. Walsh and Sgt. Savage were applied and summoned Dr. McPherson's phone. He quickly responded and treated the man who suffered great pain, after which the ambulance was summoned and he was conveyed to the Hospital. Had the derrick hit him squarely in the descent the man would have been killed instantly.

## Religious Profession.

The religious profession of Miss Mary Emeria Gaden, daughter of Mr. G. M. Gaden of this city, took place on the 17th inst. at the Sacred Heart Chapel of the Mount St. Joseph Convent, Peterboro, Ontario. Since entering the Order of the Sisters of St. Joseph, three years ago, she has distinguished herself in the musical profession, being teacher of music and organist. During that period she has sent up over twenty pupils to the Toronto Conservatory of Music, all of whom have passed successfully with first class honors. At present she is on a vacation so Montreal and will visit her parents here next summer. Miss Gaden assumes the name of Sister Mary Bonaventure.

## Mr. Herbert Booth Expected.

It is fully expected that Mr. Herbert Booth, who is on his way from England to the West for Evangelistic work, will arrive on Sunday, and will forthwith begin special services in Gower St. Church. Mr. Booth has for years been engaged in this work, and with gratifying success. His recent visit to the provinces was most favorably received and much good was accomplished. As a former leader in Salvation Army work, he will not be entirely new to St. John's people. Each night of the week following Sunday, he will lead service, attended by an organized choir, and as the shops are not open, no doubt large attendances are assured.

## Hump's Good Work.

Sunday last the whaler Hump captured two more whales at the mouth of Conception Bay, making ten fish taken for the week, so that her total was 92 up to that day. Since Sunday the ship has been hard at work, and with the same success for yesterday she towed six fish into Trinity, giving her a total of 98 to date. As we predicted a few days ago, it looks as if Capt. Davidson will be high liner this season.

## Belvidere Collection.

Next Sunday the annual collection for the Belvidere orphans will be taken up at all the Masses at the Cathedral, St. Patrick's, Kildriddle, Log Bay, Mount Cashel and Littledale. A generous response has always been made to the annual appeal for support of the noble work done by the Sisters of Belvidere, and this year an equally generous response is confidently awaited.

Dominion and Nova Scotia Teams Draw in Championship Football Game for the East End Members' Trophy.

Bell Island is a recognized sports little place and such it appeared on Saturday evening when the rival teams from the Dominion and Nova Scotia football associations met for the football championship of 1910. Referee N. Burke having sounded the whistle punctually at 6 p.m. the struggle for supremacy began. Both teams opened very fast and for several minutes play was divided evenly. At length the Nova Scotia forwards made an onslaught on the Dominion goal where a regular mix-up took place, the Dominion clearing amidst loud applause. The Dominion now rushed matters, Burke and Noonan in the forward line doing some very pretty combination, and but for the fine exhibition of Bastow in the N. S. goal their flag must necessarily have fallen. Play again fell to midfield with an odd rush on both sides, till the Dominion forwards made another gallant attempt, sending in another swift shot to Bastow, who cleared, though the goal judge's flag arose, showing a goal had been scored, he claiming that Bastow had saved the ball from inside the goal after the ball had passed the goal line. The referee did not contend this, so no goal was awarded, thereupon the Dominion decided to play on under protest. The Nova Scotians now rushed matters, and a corner being conceded them, Thomas sent in No. 1 amidst much applause. From this till half time play was fast and furious, no further scoring being done.

After a brief interval both teams appeared, each eager to win or die. The Nova Scotians soon got up in Dominion territory and Murphy, the Dominion custodian, who was playing immense all along, saved cleverly and cleared to midfield, where Burke making a rush towards Bastow shot splendidly, the result being only a corner. But why only a corner? From that corner kick the Dominion forwards scored the equalizer. Both teams now put forth their best efforts, and it is no exaggeration to say that a faster, cleaner and more exciting quarter of an hour, which was now left to play, could not be seen in the League games in St. John's. Time passed on, the quarter of an hour was reduced to 10 minutes, then 5 minutes. The supporters of both teams were yet sure of victory, till at last the referee's whistle terminated one of the most exciting games ever witnessed on the Iron Isle, the score standing 1-1.

## NOTES ON THE GAME.

Too bad about the disputed goal. We understand the Dominion will protest it, if so it is up to the Bell Island League to decide.

Another game between the teams would certainly prove interesting. The goalkeepers of both sides—Messrs. Murphy and Bastow—played exceptionally well.

## Death of Mr. Benson.

We noticed some of last year's "Star" city players, in the persons of Burke, Noonan and Barnes, playing on Dominion side.

Whyte, Thomas and Chancy for the Nova Scotians saved the game.

Yesterday when the shore train arrived at 2.30, fireman T. Benson was on hand with the ambulance, as his brother Isaac, who was very ill, he had been telegraphed, was coming from Harbor Grace to go to Hospital. When the train arrived he was not on board. The poor fellow had departed this life during the morning, and though Conductor Lee and the other train hands knew of this they would not tell Mr. Benson, not having the heart to do so. Instead they told him he was too weak to come. When Mr. Benson reached the fire station he had a telegram in his brother's death.

### Potato Canker on the Increase.

Within the past few days we learn that some of the suburban farmers—men who are practical and proficient agriculturists—have discovered evidences of canker in connection with potatoes which they have grown on their lands. On the South Shore of Conception Bay, at Kelligrews and neighbourhood including Upper and Lower Gullies, the crops of the tuber are prolific, and here, too, some of the potatoes are showing some signs of having been attacked by the disease. This goes to show that it is spreading, and farmers should give the best attention to the means to be taken of stopping the spread of this defect in their potatoes and obtain the best expert advice as to how they should act to prevent the disease from spreading.

### Cricketana.

#### Shamrocks Beat C. L. B.

The cricket match between the Shamrocks and C. L. B. officers, played on St. George's Field yesterday, was very interesting, and despite excursions and other attractions brought a goodly number of citizens to witness it. The C. L. B. went to the wickets first and were all retired for 54 runs, of which G. Winter put up 23, not out, and played a rattling innings. Capt. N. Snow of the hand showed that he had not forgotten the game at which he was once so proficient and contributed a well played 15 to the aggregate. The Shamrocks played a fine innings for 93 runs, of which Jimmy Foley batted a well played 21, G. McPherson 18, N. Vinnicombe 10, while the C. L. B. conceded 15 extras to swell the total. The C. L. B. in their second innings played a good, steady game to the difficult bowling of the Shamrock team, and to the aggregate J. Winter contributed 14, A. Winter 17, M. Miller (not out) 10, and W. H. Peters 5, while the Shamrocks only gave 3 extras. This gave the Shamrocks 42 to win, and of this C. Ellis contributed a dashing 24 (not out). The Shamrocks scored 46, with the loss of 6 wickets and the victory fell to them. The match was an excellent one and the promoters deserve the thanks of the city for giving such a fine cricket exhibition.

### Bell Island Notes.

#### OUR IRON ISLE.

The Field Sports under the management of the Regatta Committee takes place on Wednesday afternoon. Owing to unforeseen circumstances they were postponed last week. However, better late than never. As we only get one day each year on Bell Island to see our youths participate in the many pastimes of running, jumping, vaulting, etc.

The Misses Donnelly left last week on an extended tour abroad.

Rev. Monsignor Roache paid a short visit to the island last week, and was warmly welcomed.

An enjoyable ball was tendered the young ladies of the island last week by the gentlemen who were the guests of the ladies at a picnic held at the Highlands some time ago. A most enjoyable time was spent. Some even saying it was the best "time" they ever attend on the "rock."

Speaking of John Anderson's Daylight Bill, one of the Companies here have their time a half hour ahead of sun time, and it works splendidly.

Much interest is manifested as to which Company will win the Kent-Shea-Dwyer Football Cup for 1910.

The amusements of the summer season will soon be concluded, and everyone admits 'twas certainly a "sporty summer," it being one round of merriment.

A new drug store is about to be started here by Mr. Cantwell. At present there is only one here conducted by Mr. L. Lawton.

The race boat Hawk which did such good work here on Regatta Day, captured all the races at Broad Cove Regatta.

### First Aid Exams.

The members of the Constabulary and firemen of the Eastern Station were examined Tuesday before Drs. Duncan and Macpherson on "First Aid to the Injured." Both doctors were very well satisfied with the result of the examination, and it is now certain that the men of the fire and police departments of the city possess an excellent knowledge of first aid. This will be invaluable to them in accident cases where medical aid cannot be promptly availed of, and no doubt in years to come will be the means of saving many a valuable life.

**STATUE ERECTED.**—All the heavy tackle used to erect the statue of the Sacred Heart over the Chapel of Our Lady of Good Counsel was removed yesterday, and the figure standing high over the edifice presents a pretty sight from the street. It is greatly admired by people who pass that way.

## PUBLIC NOTICE!

The Newfoundland Agricultural Board has ascertained that certain plots of potatoes in the neighbourhood of St. John's are affected by the dreaded

### "Potato Canker" Disease.

This is the same disease that was first detected at Red Island, in Placentia Bay, about a year ago, and is so fatal in its effects that if not immediately checked the absolute impossibility of growing potatoes in Newfoundland for years to come, is sure to result.

The Agricultural Board therefore requests that all potato growers who may observe indications of disease in their crop will at once notify the Secretary of the Agricultural Board at the office of the Department of Agriculture and Mines.

The Agricultural Board recognizing the incalculable injury that must accrue to the country if this disease be not immediately stamped out earnestly requests all persons to aid the efforts now about to be made to effect this.

In February last the Agricultural Board issued an illustrated pamphlet from a special report by Professor Gussow on this disease. Some thousands of copies were sent to Outport Magistrates and Clergymen, and the Board now requests that potato growers in any affected Districts will procure a copy of this report and be guided by its recommendations.

By order,

FRANK H. SIMMS, Secretary Newfoundland Agricultural Board.

### Children Go Astray.

Just before 8 o'clock last evening it was reported to the police that two little lads named Healey, and a third named Norman, of the West End, had not reached home, and as they had gone berry picking on the South Side Hills it was feared that they had gone astray. Supt. Grimes got word of this from the men of the Western Station, and sent Constables Pugh and Pitcher on the search for the children. They went to the hill with lanterns accompanied by a few citizens, and after a search of nearly a half hour's duration Pugh discovered the children in the thicket. When discovered the children were exhausted from tramping through the bushes and badly frightened. A man who was passing over the hills heard children crying in the bush, but did not go to their aid, being content with coming to the city and reporting the matter to the police. People should be careful not to allow their children to roam these hills unless adult friends are with them, for there is always the danger of falling over cliffs or into ponds.

### Crazed with Liquor.

By Tuesday evening's express a mechanic belonging to the city who left here to go across country to do some work for the firm which employs him, drank too heavily as he went along the road, and eventually as the train proceeded up the shore he became maddened from the effects of his potations. Some of the passengers succeeded in quieting him for a while, but at Brigus Junction he broke through all restraint and went raving through the car in which he had a seat. He smashed out some of the windows, attacked every person he could lay hands on, and was badly cut by the glass about the hands and arms. Conductor Fushie and the trainmen then took a hand in, and throwing the man to the floor succeeded after a hard struggle in binding him with ropes but for which he might have done himself or others serious injury. He was kept under restraint until yesterday morning when he sobered up and was then released. Full particulars of the affair were sent to headquarters here, and as the Reid Nfld. Co. intend to protect passengers against outrage of this sort, the man when he returns will be vigorously prosecuted.

### Attending Consecration

By the Bruce express Tuesday evening His Lordship Bishop Jones with Revs. Canon White and G. H. Bolt left here for Halifax where they will attend the consecration of the Cathedral of All Saints, and will be guests of the Deanery there. When the ceremonies incident to the consecration are finalized a Congress of the Bishops and Clergy of the Anglican Communion of Canada will be held, lasting from the 6th to the 9th inst., at which His Lordship and the Clergy accompanying him will be present.

### A Plucky Boy.

Michael Dwyer, a lad of 13 residing at Upper Gullies, showed he possessed pluck and perseverance. Having picked 20 gallons of berries he hitched up his horse at 1 a.m. yesterday, and driving the 18 miles to the city where he sold the fruit of his industry quickly, and was back home by 4 p.m. Not many boys of such tender years would face such a long stretch of road at such an unearthly hour without company.

### Nutritive Hypophosphites

When a person feels "blue"—"all tired out"—"doesn't feel like doing anything"—cannot concentrate his mind on his work—feels weak mentally and physically—doubts his powers—complains of poor appetite and sleeplessness—suffers from headaches—then his nervous system is run-down and demands a good up-building tonic. Nervous exhaustion is a modern disease, caused by too close attention to business, overwork, worry, devotion to trying family cares overstudy, etc.

Nutritive Hypophosphites forms the best nerve and brain food known, and have restored thousands of sufferers to health. Large bottle, \$1.00.

### Accident on Topsail Rd

While Mr. Thomas Allan, of Topsail, was driving home at 9 o'clock last night, and when near Donovan's, a motor cycle coming towards him frightened his horse and caused the animal to bolt, and he was thrown heavily to the ground. People in the neighbourhood ran to his aid and brought him into Donovan's Hotel where fortunately Dr. Mitchell was. On examination the physician found that the man's collar bone was broken and he had several cuts on his face, while his body was also bruised. Dr. Mitchell set the broken bone and treated the wounds, after which he was assisted home by friends. Owing to the running of these cycles and motors along the Topsail Road and on the South Shore many people will not drive along there, especially at night, fearing that their horses will run away and cause them injury on meeting those machines.

### Loggers Hut Ablaze.

Yesterday evening three men who had been driving logs in the river near Maher's returned to their camp or hut drenched from their work, and taking off their wet clothing hung it up over their stove, in which they had kindled a big fire, to dry. Messrs. Geo. and E. Rose and J. Power, who were trouting at a pond near, suddenly discovered the roof of the shack in flames while its occupants were seated inside all unconscious of the danger to their habitation. The three St. John's men went to the place, seized pans and buckets, and one of the Messrs. Rose getting up on the roof, water was passed up to him by his brother and Power and after a determined fight the fire was extinguished. The roof, however, was practically burned off. The occupants of the hut removed all their belongings to a safe distance, fearing the erection would be destroyed. The men covered the roof temporarily with rhinds, &c., and will later effect permanent repairs.

KEEP MINARD'S LINIMENT IN THE HOUSE.

### The Rifle Range.

There was a large attendance at the South Side Rifle Range yesterday when no less than four prizes were competed for. In the forenoon the J. W. March senior prize and Geo. T. Carry junior trophy were competed for at 200, 500 and 600 yards. The former was won by Mr. P. W. Norman and the later by Mr. W. J. Higgins, both of whom were congratulated on their success with the rifle. The scores were:—

200	500	600	Total	
Norman	29	35	29	93
Higgins	28	32	23	83

During the afternoon there was keen competition at 800, 900 and 1,000 yards for the J. F. Murphy senior prize and E. McNab junior premium. Mr. E. Chafe captured the former and Mr. Higgins surprised his friends again by an excellent exhibition of shooting and captured the McNab prize. The scores were:—

800	900	1000	Total	
Chafe	22	19	22	63
Higgins	21	18	21	60

The meet was one of the most interesting held in the annals of the Rifle Club, and though a continuously changing light made high scoring impossible, taken all in all and the conditions which prevailed good scoring was accomplished.

### Accidents Prevent Excursion Yesterday

For some time past a number of young men had perfected an excursion by the Ingraham to Western Bay. It was set down for yesterday and advertised accordingly. As the Ingraham had been chartered to go down to Labrador she could not be availed of, so the Other was hired. She was hurriedly got ready for the voyage over the bay and sailed at 5 a.m. yesterday with about 70 persons on board. When off Chain Rock in the Narrows it was found that in the hurry no hole had been cut in some packing which had been put in the steam pipes, the water would not circulate through them and they had to return to have the defect remedied. This was done and she sailed again at 7 o'clock. When off Sugar Loaf one of the steam pipes burst with a loud report, and the Other was just barely able to cripple back to port. The excursion had to be called off much to the disappointment of all on board. Had a heavy wind been blowing there was danger of the little vessel getting in on a lee shore, and had such occurred a tragedy might have been enacted.

### Father Ashley's Garden Party.

The annual garden party given under the management of Rev. J. Ashley, Portugal Cove, was held at Callion Grove, near Major's Path, yesterday afternoon, and was far more successful than its predecessors. The weather was excellent, being cool and invigorating, and large numbers of people from the city and extern places attended. Football, racing and other sports were enjoyed. The ladies were kept busy all the evening serving teas, and those who were present say that the garden party was thoroughly enjoyed by all and that a goodly sum was realized.

The s.s. Coban arrived here yesterday to the Reid Nfld. Co. after a run of 2 days from Sydney with a cargo of coal.

## Be Sure to See Ours First

Where to Buy FURNITURE—Why at the **Big Furniture Store, of Course**

Our immense business gives us buying facilities which enable us to offer you bargains you can never obtain elsewhere. We have a lot of special values that once gone cannot be repeated. So come at once!

As prices have advanced to take effect in October, we would advise all those who possibly can to take advantage of the low prices as they are at present, and so save anywhere from 10 to 15 per cent., which will be the advance in a few weeks.

When in Doubt Buy of Us.
