high speed and portability. The TRIUMPH Adding Machine has a capacity of 999,999,99 and can especi ally be adapted for computation in ractions, inches, decimals and English currency.

It is not only an Adding Machine. It is a Computer of the highest degree. The mchine multiplies, divides and subtracts with the same ease that other machines add.

The TRIUMPH has a checking device that makes it indispensable to the man who counts his number of operations. This is an exclusive feature found only on the TRIUMPH. It is operated by pulling a chain with the finger. It thus brings the

possibility of error to a minimum. In short, the TRIUMPH offers simplicity, accuracy, speed, portability and moderateness in price; a group of features that no adding machine has yet presented. Come in and try it. No obligation to buy. We will be glad to demonstrate it.

PUT INTO NORTH HARBOR. The schooner Nellie Louise, Capt. Burke, now fifty-five days out to this port from Pernambuco in ballast, is at North Harbor, St. Mary's Bay, having put in there on Thursday last. This will be welcome news and also allay the anxiety that was begining to be felt for the vessel and her crew. Mr. George Adams, of Bowrings' office, who left here four months ago on the vessel on a health trip, came to town by train Saturday night from Whitbourne. Before he met the train he had to walk 20 miles. From North Harbor he covered 12 miles by foot to Colinet and then left for Whitbourne, a distance of 16 miles, part of which he also had to tramp. Mr. Adams looks well after his trip and

Adams looks well after his trip and put on a considerable amount of voirdupois. He reports that the Nellie Louise has been on this coast the past three weeks, experienced many storms, having her mizzen car-ried away and sails badly torn. No further damage was done and the ves-sel not being able to contend with the heavy ice that was met put into North Harbor, as mentioned. The crew are all well and as soon as the ice blackade clears away the vessel will try to make this port.

In our Indian Army the corresponding decoration to the Victoria Cross was the Order of Merit, a small eight-pointed star of gold. Military Mass at R. C. Cathedral

omposing the companies of the Nfld. Regiment (Reserve Force) yesterday morning attracted much attention, and there was general regret, that owing to the disagreeable walking, a march through the city did not take place. There were nearly 400 men on parade, under Captain E. S. Ayre, and they presented a very smart and soldierly appearance. The Roman Catholic members attended the Cathedral, where last mass was celebrated by the Rev. Thos. Nangle, who has already manifested considcrable interest in the spiritual welfare of the men. A guard of honor under Sergt.-Instructor L. C. Murphy occupied a position inside the Altar ails, and presented arms at the consecration, while the rolling of the lrums by drummer J. Ryan, was subtituted in place of the customary himes. Sergt.-Major J. Moore and nstructor J. J. O'Grady had seats the sanctuary. Rev. J. Sheehan ock the pulpit and after announcing he Papal Decree with regard to special religious functions for peace, ne addressed himself directly to the ads, exhorting them to live up to heir duty to the King of Kings, as vell as their earthly Sovereign, expressed his pleasure at the spirit of loyalty which prompted their volumteering, and assured them of the Prayers of their people for their safe eturn. The servitors were Lanceorporal E. Shea and E. Bennett rom the regiment, and at the conlusion of the mass, Organist Hutton played the National Anthem, the congregation standing, and the guard nost impressive, and many people were deeply moved by the preacher.
