Children Cry for Pitcher's Castoria. A New Home Treatment for the Cure of Catarrh, Catarrhal Deafness and Hay Fever.

Poetry. A Parable on Lieutenant Thomas Armstrong, one of the S. A. Militaries Recently Sent to India.

Long years ago our father rose To whisper of the grave; And as he left this chosen care A charge to lead his grave.

Could he leave his own native land, The country that he loved; From all his friends and comrades dear Forever be removed?

THE RACE IS NOT WON BY THE SWIFT. The battle by the strong; And to the Lord of Hosts who conquers, Lieutenant Armstrong.

Select Literature. His "Little Gal." Well, sir, seeing as you mention it, I don't mind if I try to drop a smattering.

Well, sir, when my little gal was about six years old, Dan Maxwell wanted to break her in to ride with him. At first I wouldn't hear of it, but Mamie was so wailing for it.

country, or tryin' to put a bit of color into her cheek, but it never stayed there long.

Everybody was so kind and feeling, but they couldn't take the pain out of my heart. There ain't nothin' but God can do that.

Told in a Dream. 'It was madness and folly!' And as Julian Blair gave utterance to his exclamation he brought his hand down upon his desk with tremendous force.

'I made a fool of myself,' he said bitterly. 'Here I am, a young lawyer, without practice, in a little country town, and with no hope of bettering my condition.'

Mr. Blair, he said, 'I will not detail you with any particulars. You are the son of the estate of John Blair, one of your uncles who ran away from home when a mere boy, and settled in Liverpool.'

With this the strange visitor vanished, and Julian Blair, as he raised himself on his elbow and looked at the room, asked himself whether he was awake or dreaming.

DENTISTRY! A. J. McKenna, D.D.S. Annapolis from 1st to 8th, 17th to 24th, IN EACH AND EVERY MONTH.

the sidewalk. 'Had he made a mistake in telling the banker of his good fortune? If the whole thing was only a dream, as he sometimes suspected, he had done a very bad thing.'

The card to Julian's hand bore the address of Henry Morely, solicitor, Middle Temple, London, and as the owner of the card was ushered into the office, the young lawyer looked at him in blank surprise.

'My young friend,' he said, rather pompously, 'it is a genuine pleasure to me to be the bearer of good tidings, and I have been two weeks in the country looking you up. Your uncle John Blair, died recently in Liverpool, where he left a large estate, and there's a cool half million for you.'

'I don't understand,' said the Englishman, somewhat mystified. 'This is no dream; it is business.'

'I have never called on me before, have you?' asked Julian. 'Certainly not,' replied the visitor; 'I have just found you, and it was no easy matter, I can tell you.'

The Weekly Monitor.

WEDNESDAY, OCTOBER 3, 1888.

—Cape Cod, Massachusetts, produces 80,000 to 90,000 barrels of cranberries annually, worth the year \$7 per barrel, or \$600,000.

The same industry is capable of an equal, if not greater, development in this valley, and our people should not let the chance pass by them.

It happens to be a singular thing that nothing is done to protect the south entrance to the passenger bridge at this town. We have paid attention to the matter on one or two previous occasions, but it has been of no avail so far as we can see. It is positively unsafe to leave this entrance in the condition it is now in, and no more time should be lost in effecting the necessary repairs.

—They are still hunting for Capt. Kidd's money. The last batch of seekers have been at work at a place called Crow's Island, near Kingston. A letter from the place, containing a few particulars, is published in this issue.

—Mr. W. A. Calkin was in town this week. He has been busy for a long time, collecting and writing up the material for his forthcoming work on the history of the county.

—The assessors of town property for the water tax for the year, 1888, have just published their report. The result shows an increase of some \$52,000 during the year, which is most gratifying, and is an index of the solid progress of the town. Every patriotic citizen must feel a glow of pride in the contemplation of the above fact. Real estate in the town has taken a very decided rise in the past two years, and to all appearances will continue to increase in value. We do not mean that any fancy figures are asked or obtained, but a solid, substantial increase in value is everywhere evident.

—The Spectator commits an injurious mistake in publishing the following:—"Scarlet fever is raging in Bridgetown. On Friday last the public schools were closed on that account."

The only scarlet fever there is in the town is scarlet rash, the very mildest type of the disease, and there are not a dozen cases all told. Our contemporary should exercise a little judgment before publishing such reports. We published in our last issue the facts just as they exist, and if our contemporary desired to give the matter currency it should have copied our item in reference thereto.

The Provincial Exhibition.

We make the following extracts from the exhibition from the Halifax Herald:—"The only scarlet fever there is in the town is scarlet rash, the very mildest type of the disease, and there are not a dozen cases all told. Our contemporary should exercise a little judgment before publishing such reports. We published in our last issue the facts just as they exist, and if our contemporary desired to give the matter currency it should have copied our item in reference thereto."

—The Halifax Barristers' Society suspended Messrs. King and Barr from the society for six months for unprofessional conduct. The suspension was rightly imposed, and the firm had an agreement with W. H. Ferguson, who is not a solicitor, that he should share in all costs of suits that he gave them to collect.

—Mr. J. McLaughlin, of Halifax, was in town this week. He had with him one of the finest fowling pieces we have ever seen. It is a Scott's hammer and was made for exhibition purposes by the famous Lyndon maker. Mr. McLaughlin happened to see the gun and it pleased him so well that he purchased it. It cost between \$300 and \$400.

—The Bridgewater Steam Navigation Company have ordered the construction of the Clyde of a steamer of considerable size to be fitted with all modern improvements to ply as a passenger and freight vessel between Bridgewater and Halifax, calling at intermediate points. She will be launched in January next, and Capt. Joshua Oakes, a son of William Oakes, a native of this county, has been selected to command her.

—THE OYSTER TRADE.—The Summer sale of oysters has been very successful. The products of the fisheries and the mines, while the entries of the products of the soil of excellent quality, they are much fewer in number than those of last year. Nova Scotia manufacturers have done themselves great justice at this time. With few exceptions there is nothing here nodding from the sugar refinery, nothing from the cotton factories, nothing from the machine works, nothing from the shoe factories, the boot and shoe factories, the woolen factories, the cotton duck factories, etc. The live stock show is the best ever held in Nova Scotia, and the immense strides made by this province in raising horses, cattle and pigs during the last few years.

The exhibit of stock alone is worth coming to see, and will give one an idea of the possibilities in the way of opening up to Nova Scotia farmers. Draft horses, roadsters and trotter bred are here in large numbers; also Percherons, Clydesdales and other grades. In the entries for horses, Pictou county takes the lead, and exhibitors captured a good share of the prizes. There are some good horses in this county, and their special delight is in raising good horses, for they are beginning to realize that it pays to keep good stock, especially horse stock. The polled Angus, Ayrshire, Jersey, etc., are also doing very great improvement is noticeable in sheep, Mr. McKay, of Pictou county, taking the lead in prizes. The exhibit of sheep is a large one. In swine, the exhibits are better than for many years.

In manufactured goods the display was very meagre, so small as to hardly warrant notice, collectively speaking. In grain there were about 25 exhibits; cheese, 20; better though smaller in quantity. The fruit display was excellent—the show of plans never being excelled, Pictou and Windsor carrying off the prizes.

The exhibits of apples and peaches come from Kings, Hants, Annapolis, Colchester and Pictou, in the order named with a few specimens from Cumberland, Antigonish and Halifax. The first three counties of course maintain their reputations. But the display is not equal to that of previous years owing to the fact that the season of the year is later than usual and the exhibition is held one week earlier. Kings, Annapolis and Hants county fruit growers are surprised at the fine collection of fruit made by George McKenzie, of New Annapolis. Colchester men themselves are astonished to find such a display of fruit from the mountains. But Mr. McKenzie does not take a prize because his collection lacks standard varieties. There is a large display of magnificent potatoes and a good assortment of cabbage, turnips, carrots, mangolds, squash, marrow, etc.

The full prize list has not yet been published, but we find that among the prizes

Local and Other Matter.

—Several frosts are now occurring nearly every clear night.

—Alfred V. Neville, of Granville, has been appointed a Justice of the Peace.

—Flower Pots, in abundance at Shipley's.

—Advisors from Lunenburg say that there are great indications of typhoid fever in that part of the county.

—Schr. Temple Bar, Longmaire, arrived from St. John on Saturday last, and did, for same port yesterday.

A choice lot of Labrador herring in half barrels for sale at Murdoch & Nelly's.

—According to the laws of our Province trout fishing must now cease until April next.

—Hon. Thomas Johnston has been nominated as the Liberal candidate for Shelburne, to oppose Col. Laurie.

—The election in Montreal East last week was won by the gov't. candidate, Mr. Lepine, by a majority vote of 687.

—Remember our offer, which we extend for a week longer, a trial trip of the Monitor for three months from date of subscription, for 25 cents.

—Mrs. C. E. Fyfe returned to New York yesterday.

—Miss B. Tupper, of St. John, N. B., is in the city.

—Murdoch & Nelly still in the front on Sugars. They have just received Bright West India Refined and Granulated Sugars, which they offer low.

—The Coroner's jury on the body of H. M. Ivers of Bear River, who died suddenly at Bear Island, on the 16th ult., returned a verdict of "death from disease of the heart."

—A. J. Morrison, merchant tailor, of Middleton, N. S., left by steamer Secret last week, on route for New York, where he will take lessons in cutting and get posted in styles generally.

—The Monitor begs to extend congratulations and best wishes to Mr. Wm. W. Troop and his fair bride, Miss Eugenia P. Fellows of Granville, who were united in marriage by Rev. J. Arguin on the 27th inst. Mr. Troop is a son of Mr. Robt. Troop, and his bride is a daughter of Mr. J. Fellows.

—Attention is called to the advertisement of the Tea-meeting to be held at Round Hill, on the 10th inst. Our Round Hill friends cannot be beaten on good things to eat, and a jolly time will no doubt be had besides.

—Mr. J. G. Gibson, of Brookllyn, Hants county, on Wednesday purchased the well known grey trotting stallion Highland Chief from its owner, Mr. Chas. D. Road of Pictou. The price is said to have been \$1,000.

—A disastrous fire took place at Bedford Hill, Halifax, at 1 a. m. yesterday. A number of buildings were destroyed, among them being Hubby's Feed Store, Fader's and Henry's Victualling Stores, Thompson's Broom and Brush Factory. Total damage \$15,000, on which the insurance is small.

—Rumor says that one of the Post Office employees on the Windsor & Annapolis Railway has received \$15,000 for his share in the sale of certain gold mines which were being investigated.

—Mr. Geo. B. Hawksworth is said to be the fortunate individual. He has our congratulations, if such is the case.

—The Halifax Barristers' Society suspended Messrs. King and Barr from the society for six months for unprofessional conduct. The suspension was rightly imposed, and the firm had an agreement with W. H. Ferguson, who is not a solicitor, that he should share in all costs of suits that he gave them to collect.

—Mr. J. McLaughlin, of Halifax, was in town this week. He had with him one of the finest fowling pieces we have ever seen. It is a Scott's hammer and was made for exhibition purposes by the famous Lyndon maker. Mr. McLaughlin happened to see the gun and it pleased him so well that he purchased it. It cost between \$300 and \$400.

—The Bridgewater Steam Navigation Company have ordered the construction of the Clyde of a steamer of considerable size to be fitted with all modern improvements to ply as a passenger and freight vessel between Bridgewater and Halifax, calling at intermediate points. She will be launched in January next, and Capt. Joshua Oakes, a son of William Oakes, a native of this county, has been selected to command her.

—Edwd. Messenger of Centerville, estimates his crop of potatoes this year to be 200 bushels from four bushels planted.

—NOVA.—Mr. Morris Vidio, who shows a good deal of perseverance and enterprise, has built himself a new house nearly opposite the one built by his father a few years back.

—The writ for a new election in Shelburne has been issued. Nomination takes place on October 8th, and polling on the 10th.

—The Presbyterian Synod of the Maritime Provinces convened for the transaction of business at Charlottetown, P. E. I., on the 25th inst. Rev. Jno. McLeod, of Charlottetown, was chosen moderator.

—Don't forget that until further notice the New Brunswick will leave Boston every Monday at 8:30 a. m., and returning will leave Annapolis and Digby every Thursday p. m. The Saturday night trip of the New Brunswick is discontinued.

—The steamer Secret will leave St. John for Digby and Annapolis every Monday, Wednesday and Friday at 7:45 a. m., returning every Tuesday, Thursday and Saturday p. m., connecting with the I. S. Co.'s steamers for Boston via Exmouth and Portland, the next morning.

—A full and complete stock of Groceries and Hardware at Shipley's 11

A Happy Event.

The Digby Courier says:—"The happiest occurrence of the week was celebrated yesterday by a most elaborate display of music and fireworks in the town, on the occasion of the marriage of Miss Lizzie Burnham, daughter of E. Burnham, Esq., and one of Digby's most estimable young ladies, to Robert H. Herdwick, of Annapolis. The marriage ceremony was celebrated in the Methodist church, at 3 p. m., by the Rev. R. Moxham in the presence of a large gathering of friends and well-wishers. The bridal party entered the church, the bride, dressed in a cream colored dress, leaning on the arm of her father, looking pretty and ladylike. She was supported by her sister Mary. The groom was attended by his brother Mr. F. S. Herdwick.

After the nuptial knot had been securely tied, the party returned to the house of the bride's father, the church bells ringing a merry peal. After luncheon the pair drove to Annapolis, to their future home. The bride is the recipient of many valuable presents.

The Monitor wishes the happy couple life's choicest blessings.

Lawrencetown Items.

A meeting of the creditors of Bowley, Balfour & Co. was held in Temperance Hall on Friday, 29th. A statement submitted by the assignees shows liabilities over \$9,000, and assets over \$7,000. A committee of investigation was appointed and meeting adjourned to meet in two weeks.

Four cartons of Gravensteins were shipped from here last week for England.

C. B. Whitman is suffering severely from the good nuisance. He has had 10 or more sheep killed and mangled. Farmers need protection in this line.

Lawrencetown Milling Co.'s mill is kept busy with the flouring of wheat, sawing, etc. They have added a planer, stove and heating machinery and are now fully equipped for supplying lumber, timber, shingles, staves, heading, floor, etc.

The annual school meeting took a good sum for school purposes and one hundred and fifty dollars for repairs. Presumptive trustees will retain the services of our present efficient teacher, B. McMahon.

Nelson Diving was visited on Saturday evening by Mrs. J. M. Parker, of Crystal Stream Division, Salisbury N. B. Creation there will be a good representation at the Annapolis County Division, on the 2nd of October. Greenleaf is preparing for a good time.

NEW ADVERTISEMENTS.

J. W. Beckwith.

It gives me much pleasure to announce to the Public the completion of my

FALL AND WINTER IMPORTATIONS

Fresh from Manufacturers.

My trade has increased to the dimensions that enables me to buy in such large quantities that I can purchase from first hands. I am therefore placed in a position to sell at prices second to none in the two Provinces, and would respectfully request persons who are in the habit of going to other towns or to St. John or Halifax for the purpose of purchasing their supplies, to first call and give my Stock an inspection before doing so this year.

The verdict of my customers must determine the measure of my success; but I can say this much in my own behalf: that I have given every effort to the selection of a Stock which, in all respects, should have no superior. I consider that in this I have succeeded. A more elaborate display of Goods of every line belonging to my business, greater excellence in workmanship, or superiority of material, it would be hard to find anywhere. No department of my store has been neglected, and no class of customers slighted in my selection, and I feel justified in the belief that no buyer can leave my Store unsatisfied or unsatisfied.

I need not attempt any detailed enumeration of articles, indeed I could not pick out any one class of Goods for special mention, without a palpable slight of other equally important and equally cheap grades of goods. I must refer you to the Stock. A personal inspection of which can alone convey an adequate idea of its merits.

Your attention is directed to a choice, complete, and carefully selected assortment of the newest and most pleasing effects in Color and Fabrics in the line of

DRY GOODS AND NOTIONS, DRESS GOODS, FANCY GOODS, Etc.

In every department I offer unparalleled inducements to buyers in the way of High Class Goods of Quality beyond question. While I supplement this important feature by unlimited variety, including all novelties in the season's styles. To these inducements I add the strong inducement of

LOW PRICES.

I beg to draw attention to some of my Leading Lines:—

Dress Goods!

I am able to point with satisfaction to a display of Goods in this department that I am sure will please. My Stock is new, not just freshened up by the addition of a few new pieces of goods, but a clean, fresh, new stock, thoroughly representative in its materials, patterns, textures, weights, etc., of the best manufacture. I shall be pleased to see you and show you these goods.

This class of Goods becomes an object of interest to buyers at this season of the year. My customers will find that I show a fine and full line of these staple goods in colors and weights that will meet any requirement. These goods will have additional attraction in the eyes of buyers by virtue of the very low figures I have put on them. They are marked to sell, and I am confident that thirty buyers will not seek another market when once they have examined my goods.

You will find that my extensive stock in Sack Cloth makes choice a matter of difficulty, including as it does, so many handsome patterns, but none the less a choice once made is sure to satisfy. I give every lady a courteous invitation to examine the goods in this department, and prove in its completeness the liberality with which I cater to the taste of my customers in materials and price.

Flannels and Woollens!

What grade you require, whatever style, pattern, shade or weight you prefer, I can supply you and at such prices as make the ordinary expense of hosiery cut a reduced figure in the dress account. I solicit an examination of these goods, and am confident that they will please you.

HOSIERY!

I do not pretend to determine for my customers which is absolutely the best Corset. Instead of this I put in stock a representative line of the very best makes and styles, and leave my customers to choose that which best suits them. I carry all grades and every size, so that any figure can be fitted from my stock.

CORSETS!

In Cloths I am safe in saying I have the largest and most complete stock in the town. The goods are new, fashionable, and of the best value. My assortment is so large that I cannot fail to suit all tastes, and would at least respectfully solicit an inspection from all intending buyers.

READY-MADE CLOTHING,

in Men's Suits, Overcoats, Ulsters,

IN A VARIETY OF STYLES AND PRICES.

These Goods are all purchased from the largest manufacturers in the Dominion, whose specialty is style and accuracy of cut

BOOTS & SHOES

Long experience has taught me that the best goods are the cheapest in the end and give the most satisfaction to my customers, and all my fall importations are of the best quality of solid work, which I can warrant; amongst which are the famous Eagle Brand and the Amherst Boot and Shoe Co.'s make. Every thoughtful person knows that a good article cannot be bought as cheaply as a poor one. Quality in goods means always a relative advance in the price. For those who want a cheap line, regardless of any other condition, I can show goods that will compare favorably with any in the market, in the matter of price; while for those who combine the consideration of price and quality I can present a line of goods absolutely unexcelled in either regard. I invite special attention to my line of

seem an unnecessary one to some, and yet many messengers dispatched in such emergencies are so struck with terror they are incoherent, and about all the doctor can learn from them is that there has been an accident and that he is needed at once, and so he often leaves in haste, unprepared for the work before him. Choking is an accident here, in some instances, even if there is no apparent life, these yet escape. As has been said, 'if any one' case the body is yet warm, an effort should be made to revive the patient and one should bear in mind that the time is indefinite during which signs of the usual expressions of life are present and yet a spark of life may remain, and may be made to glow in the entire body.' - Boston Herald.

ALL ABOUT SPONGES. THE MEN WHO DIVE FOR THEM - SOME INTERESTING FACTS. 'Can you tell where and how the sponge is obtained?' asked a New York World reporter of a big dealer in the article.

What are the different grades of sponges, and whence do they come? 'Sheeps'-wool, grass, velvet and reed sponges can be obtained off the Florida coast. Sheeps'-wool also comes from Nassau, but it is not as good as the Florida article. It has large pores. The grass, velvet, reed and wire sponges are used for household purposes. The Mediterranean sponge is known as the Turkish bath sponge in this country and as the honeycomb in Europe. It is brought to this market after undergoing the process before described and bleached here. The bleaching is done by the use of manganese of potash. After this is applied, the sponge is placed in cleansing acids, washed in salt water, and finally colored to the desired tint by a solution of common washing soda. From Nassau we also receive the silk, surgeons' large cup, eye cup, toilet and Zimosa sponges.

COFFEE AS A DISINFECTANT. - Coffee is a handy and harmless disinfectant. Experiments have been made in Paris to prove this. A quantity of meat was hung up in a closing room until decomposed, and then a grammes of coffee thrown on the fire. In a few minutes the room was completely disinfected. In another room sulphuretted hydrogen and ammonia were developed, and ninety grammes of coffee destroyed the smell in about half a minute. It is also stated that coffee destroys the smell of musk, castoreum and sea-weed. As a proof that the noxious smells are really decomposed by the fumes of coffee and not merely covered over by them, it is stated that the first vapors of the coffee were not smelled at all, and are therefore chemically absorbed, while the other smells gradually diminish as the fumigation continues. The best way to effect this fumigation is to pound the coffee in a mortar, and then strew it on a hot iron plate, which, however, must not be too hot. - Globe Democrat.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

The 'champion frog eater' of Basle, France, recently waged 5 francs and a quantity of brandy that he could swallow three 4 x 8 live frogs at a sitting. He won, but was immediately seized with horrible internal pains, and nearly died before he could realize chemicals enough to get the frogs out of him. When they were ejected 15 of them were dead, but the rest were still alive. Constipation is nearly always induced by neglecting to keep the bowels regular, and is also a frequent sequel to dyspepsia or indigestion. Regulate the stomach and bowels by using Burdock Blood Bitters, which is certain to promptly relieve and ultimately cure the worst cases of constipation.

ALWAYS To the Front. THE THREE R'S are now in receipt of THE SHERRILL CAR LOADS. New Model BUCKEYE MOWER, THACA and TIGER RAKES. The Buckeye is considered by all to be the standard mower. To unprecedented success is due to its compactness and simplicity. Messrs. Frost & Wood have succeeded in making improvements that have enabled them to out-distance other makes of mowers. For instance, the TIGER is lighter, and has proved so successful that it has been adopted by the military service. The TIGER is lighter, and has proved so successful that it has been adopted by the military service.

BECKWITH, and by all first-class Grocers, and Dealers, and Wholesale by C. HARRISON & CO., Excelsior Dye Co., Cambridge, Kings Co., N. S.

Magical Illusions. Some amusing effects produced by chemical aid. Some pleasing illusions can be produced by the aid of chemicals, says the P. Tribune Dispatch. By wetting a piece of fine first sugar with phosphorized ether, and throwing it into a basin of water, the surface of the water will become luminous in the dark, and by greatly blowing upon it phosphorescent indications will be formed, which illuminate the air above the fluid to a considerable distance. In the water the phosphorized ether is kept from being oxidized by the phosphorized ether being applied to the hand or other warm object, it renders them luminous in the dark. Fix three pins in the table and lay a piece of money upon them; then place a heap of flour of sulphur below the piece of money, and another above it and set fire to them. When the flames are extinct, you will find that a thin plate of metal has become detached from the coin, thus making two out of one. Dissolve camphor in spirits of wine, and deposit the vessel containing the solution in a close closet where the spirits of wine will evaporate. If any one enters the room with a candle the air will inflame, making an effect as bright and sudden as lightning, but without any danger whatever from this sparkling effect. To melt lead in a piece of paper wrap up a smooth ball of lead in paper, taking care that there be no wrinkles in it, and that it be everywhere in contact with the ball; if it is held in this state over the flames of a lamp the lead will be melted without the paper being burnt. The lead, indeed, being once fused, will not fall, in a short time, to pierce the paper and run through.

SPECIAL BARGAINS. IN SILK, TAFFETA AND LISLE GLOVES, HOSE, LADIES', MISSES' AND CHILDREN'S CORSETS & WAISTS. DRY GOODS & GROceries, BOOTS & SHOES, READY MADE CLOTHING, SCOTCH AND CANADIAN TWEEDS, a fine selection always in stock. HAVING TOOLS sold at first prices. Also FLOUR and MEAL, etc. Mrs. S. - Oh law! 5 cents! I can buy it for three at the Cross. Proprietor - It cost me 41. Mrs. S. - Oh give you 3 cents. Proprietor - You can't have it for 3 cents. Mrs. S. - Any good calico? Proprietor - Yesum; here is a washer standing pattern, latest cut, 6 cents, nam. Mrs. S. - Oh, show! You don't know what to ask for your goods; make it 2 cents and I may take some. Proprietor - No man; cost 5 cents a yard. Mrs. S. - May be I'd give you 2, any other cut. Proprietor - Can't help it, I marked it too low now. Mrs. S. - Any shirting? Proprietor - Here you got, 3 cents. Mrs. S. - 9 cents! Jerusalem, Jerusalem! Are you losing your wits? Proprietor (a little ruffled) - I hope not. Mrs. S. - Got any muslin? Proprietor - Here you got, muslin. (She twists the corner up, cues at it for about a minute, spits into the wood box, sniffs two or three times, and asks the price.) Mrs. S. - Oh, Chummy, croaker! You surely don't ask 9 cents for that stuff? What has happened to you! I bought this 'Your head is a good deal off the horizontal. Got any 'reels' (spools)? Proprietor (getting thoroughly rattled) - Yes, yes, yes. Mrs. S. - Most odd wad, I spot; two hundred yards - print in wood; you can't cheat me in 'reels'; I got too many 'em for that. What are you sellin' for? Three cents! Do you suppose I come here to be robbed? Proprietor (calmly, but in sarcasm) - Mrs. S., you've cheated me; you've cheated in buying dry goods. Mrs. S. - Oh, hockey, no! I know too much about the business to be taken in. Proprietor (very solemnly) - Mrs. S., here you know a little about sin; as you do about dry goods, you will go to heaven and wear a crown. For the next five minutes the band played.

WEEKLY MONITOR Supplement, October 3rd, 1888.

London, Oct. 1.—Snow fell throughout England to-day.

Guayguil, Sept. 25.—Barque Curto Delap, Lewis, is stranded. No further particulars.

—Donna C. Rose defeated Major Bailey in the sword contest in Halifax on Monday.

—A Winnipeg despatch says the price of wheat has reached ninety five cents per bushel and the demand is still active.

Kingston, Ont., Sept. 25.—A most malignant type of typhoid fever is prevalent here. One hundred and forty persons are reported to be prostrate with the disease.

Quebec, Oct. 1.—It is very cold and snow fell on Saturday between here and River de Loup, on the line of the I. O. R., and also in parishes north of the city.

Montreal, Sept. 25.—John Jamieson & Co., varnish and oil manufacturers, made an assignment yesterday at the demand of the National bank. Liabilities, \$75,000.

Ottawa, Sept. 26.—The government has decided to abandon their appeal to the full bench of the supreme court from the decision of Chief Justice Ritchie in the Ayer case.

HARLEM AGAIN DEFEATED.—Sydney, N. S. W., September 28.—The race for the sculling championship between Peter Kemp and Edward Paulan, was rowed on the Parramatta river to day, and was won by Kemp.

—The steamer Yarmouth, which sailed from Yarmouth in the gale last Wednesday night, made wonderful progress to-day, reaching Boston, Mass., that port at 3 o'clock this morning, having suffered from the gale during the night. She arrived back at Yarmouth at 5 o'clock Saturday morning.

Springhill, September 27.—The helpless body of Joseph Ackles was found this morning in a ditch on Church street. Circumstances point very strongly to foul play and it is expected that something startling will be elicited when the inquest is resumed.

—A Toronto despatch says: "English and American grain markets are terribly excited. September wheat touched one dollar and fifty cents per bushel in Chicago this afternoon. Canadian millers are not this afternoon. There will be a probable advance of fifty cents per bushel."

—Stanley's second in command is Lieut. W. E. Stairs, R. E., a son of the late John Stairs, Esq., of Halifax. Lieut. Stairs is a graduate of the R. M. College, Kingston, and is about 26 years of age, and was selected from 250 applicants. Major Bartlett was Stanley's second, but it is presumed, Lieut. Stairs succeeds that unfortunate officer.—*Tribune.*

DEATH OF DR. CHAWLEY.—The death of Dr. Chawley who was so long connected with Acadia College, took place on Thursday evening, at about seven o'clock. He was in his ninetieth year, yet during the jubilee exercises spoke in a manner that justified the opinion that he possessed clearly of the talents he possessed which had never left him. Until within a short time he regularly attended the meetings of his church.—*Tribune.*

A NOVEL BATTLESHIP OF TWO NARRAZA FARMERS.—A strange written agreement in a betting case on the result of the national election, between two Swedish farmers named Ole Johanson and Hans Erickson, business men in this city as stakeholders, writes Chicago Tribune correspondent from Nebraska City, Neb. The agreement sets forth that in the event of Cleveland's re-election to Mr. Johanson, but if Harrison Johnson, to Mr. Erickson, but if Harrison Johnson "a Jersey cow valued at \$55." The bet is a bona fide one, and all parties concerned are sincere, Johanson expressing the hope that Mr. Cleveland may be re-elected. After securing a stakeholder, the two made merry and drank to the success of Cleveland and Harrison. Erickson is a widower and has long cut sheep's eyes at the "fair and forty" Johanson.

—Now that the fever scourge is sweeping over Florida, driving thousands from their homes and sending hundreds swiftly to rest, we Nova Scotians may be led to reflect that we possess one of the most pleasant and invigorating climates under heaven, in a land where peace and plenty abound. It is proverbial that men fail to appreciate their blessings until they lose them.—*Halifax Herald.*

GOLD FOUND IN CARB BAY.—North Sydney, September 27.—Parties here are jubilant over discovery of gold in Big Brae Carb Bay. The lead showing gold-bearing quartz is about five feet in width. The quartz is dark white, transparent, full of copper and iron pyrites, containing gold in alloy and nuggets. The mine is owned by Joseph McParson and A. G. Hamilton, of this place, who intend opening up at once. Other leads are expected to be discovered.

—On Wednesday, at West Caledonia, Queens, Michael McGlaty, st., was found dead in his bed. It appears he had taken the temperance pledge for two years and the temperance thought that he would indulge. He went to Caledonia Corner and purchased liquor from the only tavern in the place and drank freely. Another man accompanied him home and helped him to bed. Mr. McGlaty was unconscious of her husband's death until she tried to awake him in the morning when she found him cold and lifeless.

SUDDEN DEATH.—We are informed of the sudden death of a young man, Capt. Jeremiah O'Connell, who well and favorably known to the people of Windsor and other places in the county. We learn that yesterday night the Captain and his son were unloading grain from a cart, the former suddenly dropped his fork after pitching only a few seconds, and fell dead, caused by a heart trouble. The deceased was quite a prominent resident and widely respected and esteemed. He was about 45 years of age.—*Journal, 26th.*

—We have much pleasure in informing our readers that the local government have purchased the farm of Edward Blanchard, Bible Hill, with those adjoining owned by B. R. Crowe and C. P. Blanchard, and Rev. Dr. McOutloch, to be used and occupied as an experimental agricultural college. The provincial agricultural commission are to be congratulated upon the purchase of the farm, and most happy selection made. The farm comprises about 100 acres of the best and most beautifully situated land in the province. The completion of the purchase was announced by Mr. Fielding in his speech at the close of the agricultural exhibition.—*Free Guardian.*

London, Sept. 24.—Feron, Henry M., Stanley's Syrian interpreter, has arrived in London. He left Wrawhams on account of illness three days before Major Bartlett started on his journey. He conveys the reports as to Bartlett's hot temper and the brutality shown by him to the natives. He says he is isolated would be killed. Stanley he says, treated upon the natives being kindly treated. The acts of brutality began soon after Stanley left. Feron believes that Stanley reached Enba Bay, but admits that Stanley's anxiety concerning the explorer is justified. Tippee Tib, he says, hated Bartlett, and therefore obstructed the progress of the expedition.

GOOD EVIDENCE FOR HEN.—Ottawa, Sept. 21.—A horrible case of poisoning is reported on the shores of Temiscamingue. For some time past Mrs. Bell's has been anxious to get rid of her husband, and when, on Sunday, he complained of feeling unwell, she suggested a dose of strychnine, but instead prepared a dose of opium. The husband was suspicious, and refused to take the mixture. To satisfy his scruples the woman took a spoonful herself, and then the husband drank the full dose. The woman misconstrued the full dose, and when strength of the poison, however, and when a man named Greener called in shortly after, he found her muscles twitching from the effects of the poison, while the husband was in convulsions. The woman explained what was the matter and the man went for assistance, but when it arrived both were dead.

Toronto, Sept. 25.—Two cases of small-pox have been discovered in Toronto, making four in all. The patients have been removed to the smallpox hospital.

HEAVY FIGHTING IN AFRICA.—London, Oct. 2.—Advices from Africa say an expedition consisting of 300 men, led by English officers, left Wainabob on the gold coast to punish Togo negroes for murdering a met by a well armed force of natives and a severe engagement took place. The battle resulted in the defeat of the natives with a loss of 200 killed. The buxars also suffered heavily, 64 being killed and most of the survivors wounded.

A CANADIAN PACIFIC STEAMER.—The Glasgow Herald of September 28th gives a sketch of the new steamer "J. Anderson" built on the Clyde by Messrs. Shanks and Bell, to the order of the Canadian Pacific Navigation Company (Limited), of Victoria, B. C., and which will run between Victoria and Vancouver. The steamer has a length of 140 feet, a beam of 14 feet, a draught of 14 feet, and a gross tonnage of 1,000 tons. She is fitted with electric lights, magnificent saloons and comfortable staterooms. She will be commanded by Capt. Robertson, late of the Canadian service, and will be ready for service on the 1st of October.

TWO WOMEN MURDERED AND HORRIBLY BUTCHERED AT WHITECHAPEL, LONDON, Sept. 31.—Two women were found murdered near the scene of a night. They were recognized as disreputable characters who long frequented the streets of Whitechapel. One was found in a narrow street with her throat cut from ear to ear. The other was discovered lying on Miter square. She, like the first, had her throat cut, but in addition had been disembowelled and her nose cut off. The discovery of the bodies completely paralyzed the police, and general Sir Charles Warren, chief constable, immediately to the scene of the murders and gave orders to have the police force in that district strongly re-enforced. The inhabitants of Whitechapel are dismayed.

The Tobique, N. B. Murder.—The Victoria Circuit Court, at which the parties charged with the murder of Mrs. Howe are to be tried, opened on Tuesday at A. G. Dore, before His Honor Judge Wetmore. The grand jurors summoned were all present and answered to their names. In opening his charge, Judge Wetmore characterized the murder as most cruel and unnatural and startling to humanity itself. Sympathy should not enter into the case, but it must be felt for the unfortunate man deprived of the society of his wife, and the daughter deprived of a mother. He could not doubt but that the jury would find a true bill against Traffon and Phillips. He read extracts from the depositions of Annie Phillips to show that there was a prima facie case against them and that the murder was done advisedly and with calm deliberation.

On Wednesday afternoon, the Grand Jury returned a true bill against Traffon and Phillips for the murder of Mrs. Howe. On motion of Mr. Gregory, Day, against whom no indictment was presented, was discharged. Attorney-General Blair appears for the crown and Mr. Geo. F. Gregory for the prisoners. The man who is detailed to them appear to realize his position. All except Day, he says, can read and write, and when not engaged in telling their past experience and, at times, discussing what they will employ themselves during the winter. They relate between 8 and 9 o'clock during the night, and are calling for their breakfast occasionally long before it is ready. Phillips denies his sister's story and says she probably told it under the impression that it would shield him. A younger sister, whom the sheriff used as an important witness, was in hiding yesterday.

—In the hurricane, which swept over Turk's Island on Sunday, the 2nd September, more than 250 houses of the peasantry were entirely destroyed, and nearly every house left standing was more or less damaged. Over twenty-one lives were lost, and over 400,000 bushels of salt destroyed.

HALIFAX MARKET.—The following quotations are dated Sept. 28th, and are furnished us by Messrs. Mumford Bros., Argyle St. Butter, choice dairy, per lb., 19; butter in rolls, in boxes, per lb., 18 to 19; eggs per dozen, 16; beef, quarters, 5 to 7; hogs, lbs., 6 to 6; veal, by carcass, 4; fowls and chickens, 4; apples, bbl., \$1.60 to \$2.25; oats, bush., 4 to 5; parsnips, bbl., \$1.25; carrots, bbl., \$1.25; hay ton, \$12.00; Wool Skins, each, 45.

\$20,000 REWARD.—Dr. Young the U. S. Consul, has received from the Chief of Police of Chicago, a description of Wm. B. Scott, the supposed murderer of a Chicago millionaire, James J. Speller whose widow offers this large reward for his apprehension. He is about 22 years of age, 5 feet 8 inches high, weight 150 lbs, slim build, oval, full round face, heavy eye brows very fair, complexion light, brown hair, prominent nose and dark blue eyes. Further particulars may be obtained at the U. S. Consulate.—*Windsor Tribune.*

KILLED ON THE RAIL.—On Wednesday evening, as conductor Rhoads' express train was en route from Truro to New Glasgow, it ran into a moose about half a mile the other side of a pretty good speed, and when the locomotive struck his moose, the ship it "holsted" him as high as the smoke stack. On arrival at the station, the moose was taken down the track, and taken to a gun with him fired a bullet into the throat and killed him. The moose was then brought to the station and being weighed, turned the scales at 460 pounds. A moose was never known to have been run into by a train before. The incident will have all the moose meat they want for some weeks.

THE FIRST SON.—A despatch to the Morning Chronicle dated Canning, Sept. 27th, says: "Canning was rich with bustle this afternoon, to commemorate the commencement of the Cornwallis Valley railway, the first sod of which was not generally known, quite a number of people assembled one mile east of the village to witness the beginning of what will prove to be the greatest boon the agricultural and commercial interests of this part of Kings county has ever experienced." Mr. Westmore characterized the murder as most cruel and unnatural and startling to humanity itself. Sympathy should not enter into the case, but it must be felt for the unfortunate man deprived of the society of his wife, and the daughter deprived of a mother. He could not doubt but that the jury would find a true bill against Traffon and Phillips. He read extracts from the depositions of Annie Phillips to show that there was a prima facie case against them and that the murder was done advisedly and with calm deliberation.

ROBBERS DEATH.—Ottawa, Sept. 26.—A horrible and extraordinary fatality, resulting in the death of a young man named Wansley, occurred at the exhibition grounds here this evening within sight of six or seven thousand spectators. A huge balloon had been inflated for the use of Professor Williams, and was to be used to make his ascent and a parachute drop. Wansley, with a number of other men, was holding the balloon by the top when the balloon was lowered, until the signal to let go would be given. When the signal to let go would be given, Wansley was set free and shot upward and Wansley was seen clinging to it. The crowd called to him to let go, but from fright or some other cause, he held on and was carried up fully a thousand feet, when he was seen to fall and fall to the earth, being crushed into a jelly. He was picked up in a field near the exhibition grounds dead. Williams made his parachute drop in safety.
