## HALIFAX IN RUINS

Over 3,000 Killed, 5,000 Seriously Injured and 25,000 Homeless

The City Was Shocked to Its Very Heart at Five Minutes Past Nine O'clock Thursday Morning by an Explosion Which Left a Trail of Death and Ruin Unparalleled in the History of This or any Other Canadian City.

On Thursday morning the French steamer Mont Blanc was steaming up the harbor with Pilot Frank Mackey in charge and reached a point opposite the northern terminals of the C. G. R., while the Belgian Relief steamer, Imo, was proceeding out in charge of Pilot William Hayes and they were approaching each other. For some inscrutable reason the Belgian steamer violated the rules of navigation and the result was that she collided with the Mont Blanc. Soon the Frenchman burst into flames. She was loaded with 5000 tons of high explosives. The crew abandoned her and all escaped safely to the Dartmouth shore.

Then, came the terrific explosion which destroyed the extreme north-eastern part of Halifax, caused the death of more than 2,000 persons, and perhaps double that number, rendered 25,000 people homeless; and involved a property loss of from \$15,000,000 to \$20,000,000—all it would seem, because some one had blundered, or worse.

Behind all, as responsible for disaster, is that arch criminal, the Kaiser of Germany, who forced our Empire and her allies into this fearful war.

### COLLISION WAS TERRIFIC

The collision was a terrific one, the munition boat being pierced on the port-side practically to the engine room. The relief vessel which was practically uninjured kept going ahead with the wounded craft and when fire was seen to break out aboard her, backed away as the crew started to abandon her.

The Mont Blanc drifted away a burning wreck, while the relief boat beached near Tuft's Cove on the Dartmouth side of the harbor. Seventeen minutes after the collision, the explosion occurred. Under the force of the explosion, houses crumbled like decks of cards, while the unfortunate residents were swept to death in the debris.

In the main portion of the city, where the buildings are more or less of stone or concrete, the damage was confined to the blowing in of windows and the injuries sustained by the citizens were due in the main to cuts owing to flying glass. Proceeding south to the extreme end of the city the same thing was observed.

### HOUSES BLOWN TO ATOMS

In the west end, and north west the damage was more extensive and the walls of houses were in places blown to atoms and the plaster and laths strewn on the streets more like a shell torn section of Flanders than a town or city of Canada.

The main damage, however, was done in the north end of the city, known as Richmond, which was opposite the point of the vessels' collision.

Here, the damage is so extensive as to be totally beyond the field of description. Street after street is in ruins and flames swept over the district.

In this section many of the larger buildings are a smouldering heap of ruins and the ordinary frame houses are a mere heap of shattered, flattened debris.

### TERROR-STRICKEN PEOPLE

Five minutes after the explosion occurred, the streets were filled with a terror-stricken mob of people, each one trying to make his or her way as best they might to the outskirts in order to get away out of the range of what they thought to be a German raid.

Women rushed in terror-stricken mobs through the streets, many of them with children clasped to their breasts. In their eyes was a look of terror as they struggled in mobs through the streets with blood-stained faces, horror-stricken, while they endeavored to get anywhere from the falling masonry and crumbling walls.

By the wire and lath-littered roadsides as they were passed, there could be seen the remains of what had once been human beings, now horribly cut to pieces, but beyond realization of

what had occurred. Here and there by a cracked and shattered telegraph pole was the cloth wrapped body of a tiny tot, scarred and twisted in the force of the horrible explosion which had wrenched all in its path.

By the side of many of the burning ruins, were women, who watched with horror, the flames as they consumed the houses which in many cases held the bodies of loved ones who would never more be seen.

### SAW NOTHING ON BATTLE FRONT LIKE IT

Colonel McKelvie Bell, who was over two years on the firing line in Flanders, says he never saw anything on the battle front to equal the scenes in Halifax today.

### FIRE CHIEF KILLED

In the early morning before the collision, fire broke out and the department apparatus was rushed to the scene. They were preceded by the fire chief, Edward Condon, Deputy Chief William Brunt and Peter Broderick, in the chief's automobile.

While on their way, the explosion occurred, instantly killing all of the occupants.

The flame-swept belt begins at what is known as the North street station and extends northward to Pier 8, Richmond, on the waterfront, and backward to a point running practically parallel with Gottingen street.

This embraces about two or two and a half square miles of territory.

In this portion of the city there is nothing recognizable.

A Friday's despatch says: A terrible northeast blizzard adds horror to the Halifax holocaust. The dead are being taken out crusted with snow and charred by fire. The estimate of 2,800 is believed to be correct. A child was found living today in the ruins, unhurt, and it is feared, this means that many have been burned alive. Two hundred children's bodies remain in the Dartmouth school. There are indescribable scenes at the morgue.

One man saw all that remained of two beautiful daughters, twenty-two and eighteen, in one small box; also his gallant son recently home from the front after three years' fighting, and his wife with bodies terribly mutilated, legs, arms and heads missing. A soldier on the train coming to the city was crying over the picture of his sweetheart taken two weeks ago, and who now has both eyes gouged out by the awful concussion. There are many cases like this.

All that could be seen for miles in circumference was burning buildings, bricks and iron lying in the streets, dead bodies strewn along the sidewalks, men, women and children lying dying on the streets, some with fractured skulls, others with broken limbs.

It is estimated that fully sixty per cent of the buildings of the city had been affected and at least forty per cent of them wrecked. Stores of all kinds were vacated, fruit, clothing, groceries and hundreds of other lines of goods were all over the streets and roads.

On a special train made up outside of Richmond and sent with wounded and refugees to Truro, people were dying in cars like flies. Some of them came to the place with noses shot off, eyes put out, faces slashed in all directions with flying glass, limbs torn and distorted. One man came in with blood streaming from what was originally his face. On one occasion while working around a wrecked building, a little baby was noticed fifty feet or more in and underneath burning masses, crying for aid. No one could get within thirty feet of him and they had to watch while he was burned to death.

Men, women and children were lying on the streets and hundreds are buried beneath wreckage who have not yet been accounted for.

Sunday's despatch says: Three days have passed since the blow struck and Halifax has hardly been able to grasp the magnitude of the calamity. More

dead are still in the ruins and the hospitals, filled with the serious cases, hourly add their toll to the gruesome rows in the morgue and mortuary chambers. It is realized that the correct total of dead may never be known but, it is believed, the approximate total will, at least reach 3,000, and that the property loss will run well up to but will not exceed \$20,000,000.

### GALLANT WORK OF VOLUNTEERS

An act of supreme duty was that of the 72nd battalion of Ottawa in charge of the magazine here. When the explosion occurred, the first thought of everybody was: "It will be the turn of the magazine next."

Had it been detonated or fired it would have meant the end of Halifax and everybody in it.

Anticipating the explosion of the magazine thousands of people who had rushed into the streets on hearing the first roar from the Mont Blanc flocked to the open spaces and waited trembling.

The area set on fire was on three sides of the magazine and the heat in from the blazing buildings soon became intense. The thing to do was to flood the magazine, though this would take time.

Lieutenant Olmstead, the officer in charge, called for volunteers to pump in the water and stand by until the work was completed. Every man in the battery volunteered.

Not until all danger of the explosion of the magazine was over did they leave their posts to take part in the general rescue work.

### A FEW OF THE MANY DAMAGED BUILDINGS

The business section from North street station south is not irreparably damaged nor is the damage confined to the mere breaking of windows. The floors in the new Casino are gone, and the interior of many fine stores is a total wreck. Drug stores supplies were pretty well broken up. The city hall itself is something of a wreck. The clock is smashed in, doors downstairs are wrenched off or hanging from one hinge. The King Edward Hotel is a total wreck and is unoccupied. The walls are standing. The Maritime Merchant plant is badly wrecked. Clayton's big clothing factory presents a picturesque appearance with every window gone. The city market, farther up the hill, is in much the same condition.

The roof of St. Patrick's church is caved in on one side of the ridge pole and there is great damage in the interior. Looking across to the C.G.R. elevator it is seen this structure had a narrow squeak. Pretty well up on the northern end the whole wall between two floors is missing and the remainder of the way up, has buckled out.

A portion of the roof of the station itself fell in and casualties there were heavy, only two of the people in the station at the time escaping without serious injury.

General Manager George Graham, of the Dominion Atlantic, with his wife and daughter, were breakfasting in their car at North street but escaped uninjured.

Superintendent J. I. Hallisey, of the C. G. R., was in his official car at North street at the time and was severely cut about the head and face.

The Dry Dock plant was wrecked and two steamers lying at the Dry Dock pier had their superstructures swept away and were riddled with fragments of flying steel. There was only one casualty on one of these steamers but on the other not a man of the crew of forty was found alive.

The Captain, Pilot, officers and crew of the Mont Blanc abandoned their ship after the collision and reached the Dartmouth shore with the loss of only one man. The tale of the crew of the Imo is still in doubt, but a newspaper reporter who boarded the steamer Sunday afternoon found the bodies of three men on the deck. The boat was found bottom up, and it is believed the crew were caught by the explosion as they were attempting to reach the shore.

Pilot William Hayes, who was on the Imo, is also missing. Pilot Frank Mackey, who was on the Mont Blanc, escaped unhurt.

The survivors of the Belgian relief ship Imo, which collided with the Mont Blanc, and Pilot McKay and Captain Lamedue, of the French vessel, are being detained by the British Admiralty authorities pending the official enquiry.

### HORRIBLE SIGHTS

There are horrible sights at Camp Hill Hospital. One young woman lies in agony, an attenuated form, both legs burned off close to the body. A soldier was brought here. His skin

had gone with his clothes but he was breathing and living and joking.

### ALMOST UNBELIEVABLE

Unbelievable things happened when the munition ship exploded. But the case of Third Officer Mayers, of the British Transport Middleton Castle, stands out as the most remarkable. The transport was not more than two hundred yards away from the Mont Blanc when the crash came. At that moment Mayers was on the deck, ready to step into a small boat to go ashore.

When Mayers came to he was prone on the high ground half a mile away, stark naked. There was not a piece of clothing on his body, when he was picked up and removed to a house near by.

The Middleton Castle was wrecked beyond repair and most of her crew and mechanics from the city at work in her engine room, were killed.

### STORIES OF THE CATASTROPHE

Stories of the incidental episodes connected with the catastrophe continue to pour in. At the Richmond school, where hundreds of children are believed to have been either killed by concussion or smothered beneath the roof and walls, a little boy was blown through the collapsing ruins and is practically unhurt.

As far as can be learned there were between fifty and sixty men at the Acadia Sugar Refinery when it collapsed. V. P. Patterson, the superintendent, is reported to be saved, and he is at one of the hospitals, it is thought.

One man came up on the street and asked to see if his wrist was broken because he could not feel anything in his hand. When a reporter took hold of the hand it came off; it had been hanging by the skin alone, which is only a sample of the terrible injuries that have befallen many of the citizens of Halifax, and unless a man saw it all, he could not form any idea of it.

At the Wellington street barracks, which were destroyed, nobody in the interior of the building was injured, though it contained more than 600 men. Six guards on the outside were killed by concussion.

Sunday, men of the naval forces here dredged the water front and recovered 200 bodies of sailors, soldiers and men working there.

### NO CHURCH SERVICES

At the suggestion of the mayor no church services were held Sunday in order to give the citizens an opportunity to render relief work. All the stores were kept open to facilitate the distribution of foodstuffs.

### HARBOR AROSE AND FELL TWENTY FEET

When the explosion took place the water in the harbor was swept down twenty feet, and when it flowed back it caused a great deal of damage by sweeping over the wharves.

All the men who came off the ships which collided were perfectly black. They got soaking wet getting ashore.

### USING NEW TERMINALS

They are now using the new terminals in Halifax since the North street depot was destroyed and the trains are not run in as they arrive, but are relayed, two cars at a time.

### SHOCK FELT FOR MANY MILES

The shock was felt at Charlottetown, P. E. I., 125 miles away and panes of glass were broken in Truro 60 miles distant.

### PROMPT RELIEF

A relief train left Truro one hour after the disaster, containing doctors, nurses and medical supplies together with food and clothing.

Soon after, relief trains arrived from Moncton and St. John, and have continued to arrive from Boston, New York, Washington, D. C., Toronto, Montreal and Vancouver, B. C.

A splendid spirit was shown by the towns of the province by the assistance so promptly given.

All outside towns contributing relief are requested to furnish as far as possible, the following articles: Glass, beaver board, tarred paper, lumber, putty, bedding and blankets.

### PRACTICALLY ALL THE GERMANS IN HALIFAX ARE TO BE ARRESTED

No information has been given out as to the reasons for the arrest, and the authorities refuse to say if it was done through any evidence they had secured in regard to the explosion.

### The Victory Loan

Canada's Victory Loan was a tremendous success. The Finance Minister asked for \$150,000,000 and got \$408,475,400. There were 707,113 subscribers or about one in every 11 of the population of Canada.

Ontario raised just about half of the total. Nova Scotia raised over \$18,000,000. Annapolis county subscribed about \$500,000. Digby county \$287,000 from 800 subscribers. Halifax city and county took five millions of the bonds. But Cumberland county perhaps deserves the honor for Nova Scotia, taking two millions, one in every eight of her population becoming a subscriber.

### U. S. Declares War on Austria Hungary

President Wilson has called a special meeting of Congress to officially declare war on Austria-Hungary, and he adds that any peace that America makes must include delivery of the peoples of Austria-Hungary, Turkey and the Balkans, as well as Northern France and Belgium, from Prussian domination.

BEAR RIVER SCHOOLS  
Report of First Quarterly Exams, Nov. 1917

A series of three examinations will be held during the year, viz., in Nov., Feb. and April. Reports have been sent to all parents, showing the results of the First Quarterly Examinations. It is the duty of each parent to examine this report carefully and if not satisfactory, call upon the teacher and see if some plan may not be devised by which it may be made better. High School Students qualifying in these examinations will be recommended for the Provincial Exams. An average of 50, with no subject below 30, is necessary for a pass. One essential of successful school work is that parents and teacher co-operate.

FALKLAND ISLANDS HAVE BEEN ISOLATED

As far as Commercial Intercourse is Concerned—The Islands Overrun With Rats

PORT STANLEY, Falkland Islands, December 10.—The war has completely isolated the Falkland Islands from the rest of the world, as far as commercial intercourse is concerned, in spite of the fact that the islands are the naval base of the British fleet for the South Atlantic and South Pacific. Since March 10 of this year not a single ship has stopped at the Falklands on its journey to England and correspondence for Buenos Ayres and Montevideo has been sent by way of Punta Arenas, while passengers for Buenos Ayres or Montevideo have had to go around to Valparaiso on the Pacific liners and then cross the Andes by train to get to their destinations. The British Government has bought up all the wool of the Falklands, giving the owners 55 per cent above pre-war prices. Some of this wool sold as high as two shillings sixpence a pound. Flour has risen to fifty shillings a sack and bread is selling at a shilling a loaf, weighing less than four pounds. Sugar is selling at eight pence a pound. The Islands have become so overrun with rats that the Government has offered an English penny a head for all those killed.

December Rod and Gun

Of particular interest is the December issue of Rod and Gun in Canada, which is already on the newsstand. Amongst the good things which this number offers are "A Naturalist's Christmas" by Bonnycastle Daic; "In the Sky Pastures," a story of mountain goats and cougars in the Selkirk, by H. C. Haddon; "My Bob," a realistic story of a dog's experiences with his master on the firing line, by Vincent Perry; "The Jumper," a New Brunswick guide's story of the French river drivers of that Province, by Leslie Marvin Hayward; etc., etc. The Kennel department this month contains the list of awards given at the Western Dog Show at London and the New Brunswick Kennel Club Show at St. John. The other departments, notably, Fishing Notes, Guns and Ammunition, and Along the Trap Line are up to standard and the whole number one that any Canadian sportsman will find of special interest. Rod and Gun is published at Woodstock, Ont., by W. J. Taylor.

Government Ownership of Railways Inevitable.

A decade ago the president of the Atchinson, Topeka and Santa Fe Railway, E. P. Ripley, said: "I am thoroughly convinced that I shall live to see the railroads of the country in the control of the government." He was then sixty-two. "The signs may not be plain to you-but they are to me." This remark was made to "Boersman," who, in his article on the subject of the future of the railroads, which appears in Hearst's Magazine for December, draws significant conclusions based on a searching analysis of the whole range of events, affecting the financial status of the railroads of the United States since the beginning of the war in Europe.

FOUR WEEKS IN HOSPITAL

No Relief—Mrs. Brown Finally Cured by Lydia E. Pinkham's Vegetable Compound.

Cleveland, Ohio.—"For years I suffered so sometimes it seemed as though I could not stand it any longer. It was all in my lower organs. At times I could hardly walk, for if I stepped on a little stone I would almost faint. One day I did faint and my husband was sent for and the doctor came. I was taken to the hospital and stayed four weeks but when I came home I would faint just the same and had the same pains.

A friend who is a nurse asked me to try Lydia E. Pinkham's Vegetable Compound. I began taking it that very day for I was suffering a great deal. It has already done me more good than the hospital. To anyone who is suffering as I was my advice is to stop in the first drug-store and get a bottle of Lydia E. Pinkham's Vegetable Compound before you go home." — Mrs. W. C. Brown, 2844 W. 12th St., Cleveland, Ohio.

PUBLIC AUCTION

For sale at public auction at the barn of Dr. L. G. DeBlois in Bridgetown on THURSDAY, the 13th day of December at one o'clock in the afternoon, carriages, work and driving harnesses, sleighs, truck wagon, hay cutter, horse rugs, robes, carpenters' tools, shingles, lumber, hay and other articles too numerous to mention. TERMS—\$20 and under, cash; over \$20, three months on approved joint notes.

L. D. BROOKS, Auctioneer.

A Cure for Bad Breath

"Bad breath is a sign of decayed teeth, foul stomach or unclean bowel." If your teeth are good, look to your digestive organs at once. Get Seigel's Curative Syrup at druggists. 15 to 30 drops after meals, clean up your food passage and stop the bad breath odor. 50c. and \$1.00 Bottles. Do not buy substitutes. Get the genuine.

EXECUTOR'S NOTICE

All persons having legal demands against the estate of William Riley Brooks, late of Centrelea, in the County of Annapolis, deceased, are requested to render the same duly attested within one year from the date hereof, and all persons indebted to the said estate are required to make immediate payment to Chas. R. Chipman, of Bridgetown, in the County of Annapolis, executor. Probate dated 25th day of June, 1917. Dated at Bridgetown, N. S., this 25th day of June, A.D., 1917. 14-264

E. A. RAWDING

Memories of "the nicest cup of tea I ever tasted" — KING COLE ORANGE PEKOE The "Extra" in Choice Tea

Halifax, N. S., Dec. 4, 1917. The Nova Scotia Board of Commissioners of Public Utilities in the matter of the application of the Bridgetown Electric Light, Heat and Power Company, Ltd.

NOTICE

A sitting of the Board of Commissioners of Public Utilities will be held at the Court House, Bridgetown, on Friday, December 14th, 1917, at the hour of three o'clock in the afternoon, for the purpose of considering an amendment to the rate schedule of the Bridgetown Electric Light, Heat and Power Co., Ltd., proposed by said company. Such proposed amendment may be seen at the office of the Town Clerk, Bridgetown, N. S. All persons desiring will be given an opportunity of being heard at such sittings. By order of the Board. L. B. TAYLOR, Clerk.

Final Tax Notice

Notice is hereby given that I have this day placed in the hands of the tax collector, a list of all unpaid taxes due the Town of Bridgetown for the current year, with the instructions to collect at once. Ratepayers will kindly settle with the collector when he calls, or at my office, on or before the 15th instant, to save the expense of a Summons which will be issued at that date. HARRY RUGGLES, Town Treasurer. Town Office, Dec. 1st, 1917.—3521

What Your Friends Cannot Buy

"Your friends can buy anything you give them except your photograph." The Bridgetown Photo Studio would remind its patrons that pictures should be taken NOW in order to be in time for Christmas. New and attractive styles at prices no higher than before the war. The only presents you can buy at the same old price and just as sure to please now as ever. 32-51

Gas Plant for Sale

To be sold at a bargain, one 50 light Heaton Acetylene Generator with piping and fixtures complete. Also a quantity of carbide. The fixtures include chandeliers and single jets with shades and holders complete. Very suitable for country dwellings. Apply to H. RUGGLES, Dated at Bridgetown, Dec. 4, 1917.—3521

EUROPEAN WAR

GENERAL BYNG'S TROOPS GO BACK
IN PERFECT ORDER

New British Front Lessened—Germans
Claim Big Victory—Enemy Striking
Italians Hard and Outcome of Bat-
tle is in Doubt—Another Air Raid
On London.

The carefully laid plans of General
Byng to withdraw his troops on var-
ious points on the Cambrai salient to
more tenable positions have been car-
ried out in perfect order and appar-
ently without the Germans even having
knowledge of the movement.

The falling back was made neces-
sary by wedges, driven into the salient
last week by the Germans, which on
several sectors threatened disaster to
the British should they continue to
hold their positions.

From an arc extending before Cam-
brai a distance of about eighteen miles
the new British front has been less-
ened to a length of about ten miles
with the bases resting in the north in
the region of Moeuvres and in the
south near Connelieu.

As a result of the backward move-
ment, the Germans claim the re-occu-
pation of Graincourt, Anneux, Novel-
les and the woods and heights north
of Marcoing, and that their uncontest-
ed gain has been to a depth of about
two and a half miles over the front of
six and a quarter miles.

The Berlin war office asserts that
since the German offensive in the
Cambrai region began, British prison-
ers in excess of 9,000 and 148 guns
have been taken.

STRIKING ITALIANS HARD

On the Italian front the Austro-
Germans are making attempts to
break through the Italian positions
and debouch upon the plain of Vene-
tia. In the Asiago Plateau region,
battles of almost unprecedented vio-
lence are taking place, the Teutonic
allies using a great array of guns and
countless thousands of men in their
efforts to overcome the Italian resist-
ance. On the Meletta sector the en-
emy made some slight advances, but
only through the sacrifice of large
numbers of men, the Italians resisting
determinedly, foot by foot. To the east
an enemy attempt to carry the Italian
line of defence in the upper Brenta
Valley met with repulse and heavy
casualties.

The Berlin war office in a commu-
nication announcing the taking of the
Meletta positions says that in the new
offensive of the Teutonic allies 11,000
Italians have been made prisoners and
that more than sixty of their guns
have been captured.

From Berlin comes the announce-
ment that an armistice of ten days to
begin Friday at noon, has been arrang-
ed for the entire Russian front.

In verification of previous reports
that the Rumanians were not seeking
an armistice with the enemy is a Rou-
manian official communication say-
ing that attempts made by the enemy
to fraternize with the Rumanian
troops were put down with shot and
shell. Denial is also made that the
new Ukrainian government had open-
ed negotiations for a separate peace
with the central powers.

Another air raid on East England,
the first in more than a month, was
made early Thursday morning by
some twenty-five German planes, six
of which reached the London area.

Two of the raiders were brought
down and their crews made prisoner.
The material damage was relatively
slight, but seven persons were killed
and twenty-one injured. Three of the
fatalities occurred in London.

HUNS LOSE MORE AIRPLANES

LONDON, Dec. 6.—An official state-
ment issued today by the British Ad-
miralty regarding naval airplane raids
on German military establishments in
Belgium follows:

"Yesterday naval aircraft carried out
a bombing raid on the Sparappelhoek
airstrome. Many bombs were dropped

on this objective and also on a train
leaving the Engel dump.

"Numerous engagements with ene-
my aircraft have taken place during
patrols with the result that three hos-
tile machines were destroyed and one
driven down out of control.

"During Tuesday in the course of
our patrols three enemy aircraft were
shot down out of control. All our ma-
chines returned safely."

War Summary

The attempt of the Bavarian Crown
Prince Rupprecht by an encircling
movement to make nil the brilliant
advance of the British General Byng
toward Cambrai, has resulted appar-
ently in complete failure.

Although at certain points the Ger-
mans pierced the British lines and
captured positions, men and guns, they
paid dearly for their enterprise in
casualties—the dead near LaVacquerie
during the course of twelve hours
having been greater in number than
during any similar period of fighting
since the war began.

Relatively the British line remains
as it was before the German drive.
Tactically, it is just as strong. The
enemy in great numbers, has endeav-
ored to pierce the front at Mastieres,
delivering in all ten attacks here, all
of which were successfully repulsed,
some of the enemy succeeded by dou-
bled efforts in penetrating the ad-
joining village of Les Ruesvertes, but
later were driven out in a counter at-
tack.

Salary Doubled, He is Exempted.

TORONTO, Dec. 10.—Exemption tri-
bunal No. 364 was the means of secur-
ing a big increase in salary for Harry
LeDrew, of the Rio Janeiro Company.
Secretary Smith, of the Rio Janeiro
Company, claimed LeDrew's services
were indispensable.
"How much do you pay him?" asked
the tribunal.
"Seventy dollars a month."
"Is he either not indispensable or
else you are not paying him enough.
If you raise his salary to \$150 a month
we will give him exemption till Feb-
ruary 15. If not we will send him im-
mediately."

This morning the Rio Janeiro Com-
pany sent in a letter saying they will
give LeDrew \$150 a month till Feb-
ruary 15. Meanwhile they will work
in some one else.

LEMON JUICE IS
FRECKLE REMOVER

Girls! Make This Cheap Beauty Lo-
tion to Clear and Whiten Your
Skin

Squeeze the juice of two lemons into
a bottle containing three ounces of
orchard white. Shake well, and you
have a quarter pint of the best freckle
and tan lotion, and complexion beau-
tiful, at very, very small cost.

Your grocer has the lemons and any
drug store or toilet counter will supply
three ounces of orchard white for a
few cents. Massage this sweetly frag-
rant lotion into the face, neck, arms
and hands each day and see how freck-
les and blemishes disappear and how
clear, soft and white the skin becomes.
Yes! It is harmless.

Fixing Coal Prices.

The Boston Globe, says: "One of
the best things about the fixing of
coal prices in Boston is the arrange-
ment making it possible for those who
cannot afford to buy in quantities to
get 25 pounds of coal for 11 cents, in-
stead of being compelled to pay per-
haps double the price of coal sold and
delivered to well-to-do people in ten
lots."

Jews Evacuated from Jerusalem.

AMSTERDAM, Dec. 3.—The Jewish
correspondence bureau at The Hague
says it is reported by the Budapest
press that all Jews have been evacu-
ated from Jerusalem.

The Kaiser invited the Devil,
To join in his dastardly revel;
The Devil looked stern,
And said by return
I could not descend to your level

WHO WILL WRITE THE
AMERICAN "TIPPERARY"

A Fortune is Waiting for Some One—
Thousands Trying for Fame and
Fortune—Some Songs Al-
ready Catching on

The expression "bought for a song,"
is generally used when one desires to
convey the impression that something
has been acquired very cheap. There
never was an expression so abused, if,
what we hear of the fabulous sums
paid in royalties to popular song writ-
ers is true.

Shortly after the war started, the
English "Tommies" adopted the now im-
mortal "Tipperary" song as their own
and the result is an important item in
the annals of musical history.

With the entrance of the United
States into the World War, hundreds
of patriotic and march songs have
made their appearance. Which one of
them will finally become the real fa-
vorite of our own soldier boys, and
bring fame and fortune to the lucky
writer?

Another question is—what type of
song will it be? Will it be of the sen-
timental order, or the syncopated rag
time variety? Four of the newer ones,
catching the fancy of our boys in
Khaki, are all of different styles.

"SET ASIDE YOUR TEARS TILL
THE BOYS COME MARCHING
HOME" may be termed a cheer-up bal-
lad. Its writer, Malvin Franklin, evi-
dently believes, as the chorus below
will show, that the man in uniform
wants to spread his optimism among
the folks at home. The fact that this
song is already very popular in some
of our camps seems to bear out his
opinion:

Set aside your tears for laughter,
'Till the boys come marching home,
For we'll all be happy after,
They return from 'cross the foam
Let us pray for fair weather,
For the ones who dared to roam—
Set aside your tears for laughter,
'Till the boys come marching home.

Another of these writer chaps, Carey
Morgan, has given the boys, and the
public at large, a syncopated version of
what we expect to do the Kaiser. Mr.
Morgan's idea is that American rag-
time is the proper music with which
to inject enthusiasm into the army.
"SO ME DAY SOMEBODY'S GONNA
TO GET YOU" is his contribution. No
wonder this ditty is a strong contend-
er for the honors. Read this chorus
addressed to the German Ruler:

Some day somebody's gonna get you
The day is not far off I'll bet you,
You've much to answer for,
The blame is at your door,
Those lives lost in this war through
you—that's true,
The Germans as a whole, are 'demo-
cratic,
But you and all your crew are auto-
cratic,
It's written on the wall,
You're just about to fall,
Some day somebody's gonna get you—
(You know you're through)

One of the most unique songs of the
war is responsible for has a soldier
boy composer. This is "WHEN THE
MOON IS SHINING SOMEWHERE IN
FRANCE." There is no doubt that it
is the big favorite at Camp Upton, New
York, where fifty thousand recruits are
in training and where the writer him-
self is getting in shape for a trip "over
there." Surely a man who is enthusi-
astic enough to fight for his country
should be sufficiently inspired to write
its favorite marching song. The chorus
follows:

When the moon is shining, somewhere
in France,
I'll send a wireless to you,
I will say, "I'm O. K. and I'm think-
ing of you, too"
Then when the moon goes sailing over
the sea,
It will carry my message through,
And every time you see the man in the
moon,
He'll bring my love and kisses back
to you.

Rolling Irish melodies are always
a source of good cheer. Perhaps this
is the reason that Chas. A. Bayha has
set his "I'M IN THE ARMY NOW," to
a spirited Irish march tune. The fol-
lowing chorus with his humorous ref-
erence to that favorite army dish,
beans, has found a very hearty welcome
at the different encampments:

I'm in the army now,
I'm in the army now,
You ought to see me in my uniform,
We'll bring the Kaiser down upon his
knees,
We'll shoot him full of holes just like
a piece of Schweitzer cheese,
Every night at dinner time I miss the
dear old scenes,
Sure that's when I get homesick and
you don't know what it means,
I hate the sight of coffee just because
it comes in beans,
For I'm in the army now,
Which one of these songs will our
boys be singing, as they gaily march
through Berlin?

British at the Mount of Olives.

A few days ago the British troops
marching on Jerusalem were almost
in the shadow of the Mount of Olives.
It was on the top of this elevation
that the Kaiser endowed what osten-
sibly was a hospital, but this "hos-
pital" has turned out to be a fort-
ress with guns commanding the sur-
rounding region.

Minard's Linalum Cures Diphtheria

What is Crushed Coffee?
Briefly, Crushed Coffee is coffee
that has had the beans crushed
between steel rollers with just
enough pressure exerted to break
the beans into clean, even grains from
which the bitter chaff and dust are
easily separated by air suction—
Resulting in a coffee so pure that
no egg is needed to settle it. Red
Rose Coffee is as easy to make as
Red Rose Tea, and its flavor, aroma
and smoothness are a delight as com-
pared with the ordinary ground
coffees.
Sold only in double-sealed air-tight
cans to keep it good.
The same price as it was three
years ago.

Address all matters of business and make all money orders payable to O. S. DUNHAM, Editor and Manager

WEDNESDAY, DEC. 12, 1917.

THE HALIFAX DISASTER

Few of us can realize the sad state of affairs which exist in Halifax today, the result of the terrible explosion, a condensed story of which appears on the first page of today's MONITOR. The news of this awful affair reached here Thursday morning, but even then we thought the figures concerning the loss of life and property must be exaggerated, but, unfortunately, later information proved that the first reports were below the actual facts instead of above.

Along the line, the towns got busy, Bridgetown, with the rest, gathering up and sending in relief to those in need. Mayor Longmire called a special meeting of the town council, \$500.00 was voted to purchase clothing, bedding, etc. Mr. T. B. Chipman, one of our enterprising townsmen, immediately added \$100.00 to this fund. Mr. Chas. DeWitt contributed a lot of supplies from the Grand Central Hotel and McKenzie, Crowe & Co., gave a large consignment of larrigans. But we are unable to publish the names of the givers, or of the committees and others who worked so diligently Saturday, Sunday afternoon and Monday morning and are still engaged in the same work. The first shipment of 26 big cases went forward Saturday and another Monday and again yesterday, the largest shipment of all.

This work was not confined entirely to the townspeople for those from the surrounding villages also got busy. Hampton people subscribed \$70.00 and St. Croix Cove over \$20.00; Round Hill sent a consignment of pillows, blankets and clothing of all sorts on Saturday, and contributed a special collection in all churches on Sunday. Digby, on Saturday shipped all the glass, tarred paper and other useful material which the merchants had on hand.

This work must continue and the suggestion offered by a correspondent in another column is a good one.

Among Our Advertisers

The MONITOR takes a deep interest in its advertisers and if we can be the means of sending extra orders to those who are represented in our columns we are determined to do so.

On the other hand our new advertisers are well satisfied with the MONITOR as an advertising medium for no matter whether the adv. is large or small, or on what page it appears, the advertiser soon begins to get results. Our two new ones this week are Walter Scott, who has had lots of experience with printers' ink in the past and knows how to write an attractive advertisement, and Albert J. Burns, who is one of Bridgetown's youngest grocers. He is modern in his ideas and we think has a successful future in store for him. He believes in keeping a good line of goods and giving his customers excellent service at a moderate cost.

While we appreciate the support given us by our new advertisers we are not forgetting our old reliable ones, many of whom have recently increased their regular spaces. We refer our readers to them all, and our wishes are that notwithstanding the strenuous times, with war and disaster on every hand, that the MONITOR'S present advertisers, and future ones, will have a profitable Xmas trade and a successful 1918.

Public Meetings

Dr. L. J. Lovett, the Union Liberal Win-the-War candidate, will address meetings during the week as follows: Middleton, Wednesday evening, Dec. 12th.

Bridgetown, in Court House, Thursday evening, Dec. 13th.

Lawrencetown, in Phinney's Hall, Friday evening, Dec. 14th.

He will be accompanied by Hon. E. H. Armstrong, M. P., Minister of Works and Mines; Hon. O. T. Daniels, M. P., Attorney General of Nova Scotia, and W. G. Clarke, Esq., Warden of Annapolis County, who will also speak at the meetings. All ladies most cordially invited.

Local Happenings

A late dispatch states that Jerusalem has surrendered to the British.

The recent snow storm has made excellent sleighing around town and throughout the county.

The first degree will be conferred on a candidate in Crescent Lodge of Oddfellows tomorrow night.

It has been found necessary for all the provincial undertakers to go to Halifax to assist in burying the dead.

In order to devote more space to the terrible disaster in Halifax, we have crowded out a quantity of village notes, and other local items.

Mr. Percy Carey, of the Yarmouth Light, received the 1st and 2nd prizes at the poultry show in Halifax last week for barred Plymouth Rocks.

The MONITOR'S subscription terms are cash in advance. We have a number owing us at present, from whom a remittance would be greatly appreciated during the present month.

All those wishing to make a cash donation towards the Halifax relief, will please pay their amounts to either of the local banks. The same will be acknowledged in our columns.

Bridgetown merchants have a number of prettily decorated windows. This, together with a good display adv. in the MONITOR is bound to attract buyers to our town and increase the Christmas sales.

Mr. A. J. Burns, of Bridgetown, has been appointed special agent for Rod and Gun, Canada's well known sporting magazine. A post card or call by phone will give you all the information you require.

The MONITOR would be pleased to receive the names of any of our residents who could accommodate one or more of the Halifax injured, should it become necessary to send any more of them to the various towns.

Rev. J. A. McGlashen, pastor of the Stairs Memorial Church, Dartmouth, will preach in the Presbyterian Church in Bridgetown next Sunday morning and evening. His residence was among the houses demolished in Dartmouth by the terrible explosion.

The annual meeting of the A. Y. P. A. (postponed from last Friday on account of the storm), will be held next Friday evening in St. James school room, and as election of officers for the ensuing year and other annual business is on the agenda, a full attendance is desired.

Death of Charles R. Rice.

The death of the late Charles R. Rice occurred at Bear River, Wednesday, November 28th, after a brief illness. Mr. Rice was one of Bear River's oldest citizens, being the youngest of a family of six, of the late David Rice, of that place. He was a member of the Baptist church for a number of years, always leading a quiet, consistent christian life. He was twice married, his first wife being Irene Dunn, daughter of the late Israel Dunn, the second was Annie Dunn, daughter of Richard Dunn. He leaves to mourn his loss, one son, C. D. Rice; three daughters, Miss Bertha and Mrs. Thad Davison, of Bear River, and Mrs. (Dr.) Rand, of Parrsboro, besides one brother, Wm. R., now critically ill, and one sister, Mrs. Ethelyn Clarke, both of that town. The deceased was eighty three years and five months old. The funeral took place on Friday afternoon, services conducted by the Rev. L. H. Crandall, assisted by Rev. J. H. Smith and J. W. O'Brien. Interment in Mount Hope Cemetery.

THE ELECTION NEWS

The Monitor Bulletin Board Will Announce the Results From Digby and Annapolis Counties

As was the editor's former custom in Digby, he is making arrangements to have the election news from Digby and Annapolis counties announced on bulletin boards from the front of the MONITOR building next Monday night. Special telephones will be installed upstairs and as good a service as possible will be given the public. While the returns are coming in, the doors in the building will be locked and the public cannot be allowed admission as this would not only interfere with the staff on duty, but would greatly interrupt the service.

Fire at Belleisle

Fire at Belleisle about nine o'clock Monday morning, Dec. 3rd, totally destroyed a barn belonging to Mr. Sylvester Bent, of that village, together with 50 tons of hay, all double and single harnesses, express wagon, sleigh and other contents. All the live stock, with the exception of a few hens, was saved, although Mr. Bent almost lost his own life in saving a valuable colt. The house, granary and other buildings were saved with great difficulty and only by the help of the neighbors.

Mr. Bent's loss is estimated at \$2000 with \$500 insurance.

A Patriotic Family.

Mrs. S. Henshaw, of Centrelea, has received word that her son, Pte. Percy Henshaw has arrived safely in England. She has two sons in England, Ptes. Fred P. and George S. Her son, Pte. Ralph, has been sent home suffering with heart trouble, and another son, Pte. Willis, died in Halifax three years ago. He was a stretcher bearer in the 35th Battalion. Besides having had five sons in the war, she has one daughter, Stella, aged 13 and one son, Lewis, aged 9, at home. There are no shirkers in Mrs. Henshaw's family.

Tribunal Appeal Court.

The Tribunal Appeal Court met in Bridgetown yesterday, Judge Ritchie presiding. He had with him: a military assistant, Major West, of Queens county, who recently returned from the front after considerable experience in some of the worst battles in France.

Military Wedding in Massachusetts

BEALS-MARSHALL

On Wednesday, Nov. 28th, the American Thanksgiving eve, the marriage took place at the home of Mr. and Mrs. William W. Marshall, Malden, Mass., of their only daughter, Viola Harriet Sophia, to Pte. Ellery Alexander Beals, of Battery "E," 301st Light Field Artillery, Camp Devens, son of Mr. and Mrs. Burpee Beals, Malden, Mass. in the presence of about 80 relatives and friends. The bride, who was gowned in Chinese hand embroidered batiste, with coronet veil, held in place by a wreath of orange blossoms, carried a shower bouquet of lilies of the valley. She was given away by her father. The ceremony was performed by the Rev. Dr. Charles H. Moss, of the First Baptist church, beneath an arbor of palms and laurel, entwined with white carnations, large American flags being draped from the sides and to the rear. The maid of honor, Miss Sarah E. Chase, was dressed in blue silk with silver trimmings and carried a bouquet of pink roses. Corpl. Allen G. Rhoades acted as best man. The double ring ceremony was used, the ring bearer being Baby Lillian Hodge, the bride's cousin, who carried the rings, tied with ribbon, on a white silk pillow in a basket of forget-me-nots. The ushers were Privates I. Roger Hunt and Kerwin Harding. The affair was in every way military, the groom, best man and ushers being in full regulation army uniform. The wedding march was rendered by the Misses Alice McPhee, Doris Beals and Hazel Cowdrey, who played the piano, violin and cornet respectively. The presents were costly and beautiful, consisting of cut-glass, silver, oil paintings, and gold coins of large denominations. The bride was the recipient of two one hundred dollar Liberty Bonds, one from her father and mother, and the other from her husband. The bride's gift to her husband was a military money belt and to her bride's maid a sapphire breast pin; the groom's gift to the best man, a box of cigars, to the ushers, military handkerchiefs.

Both the bride and groom are graduates of Malden High School. They both belong to the Malden Chapter Order Eastern Star No. 99 and various church societies. The groom is a member of Mt. Vernon Lodge, of Masons, A. F. & A. M.

The above wedding occurred on the twenty-second anniversary of the marriage of the bride's parents. The bride's father was born in Clarence and is the son of the late Alfred Marshall, and brother of Edw. M. Marshall, who now resides at the old home. Mr. Marshall left Clarence 27 years ago, going to Boston, where he learned the machinist's trade, having been employed for the last seven years by the United States Government at the Boston Navy yard as a first class tool maker. During all these years he has been a steady subscriber to the MONITOR.

A Big Job Completed

[Digby Courier.]

Mr. W. A. Chute, the hustling building mover and contractor, of Bear River, has just completed the job of placing the big smoke-stack at H. T. Warne's mill, in Digby. The stack is 50 feet in length, 33 inches in diameter and made of 3/4 iron. It was formerly a ship's spar, which made it very heavy. It was necessary to raise it 28 ft. from the ground, in order to place it on a chimney which was built for it, the chimney being 5 ft. square at top. It required some careful measuring, on the part of the old Commodore building mover, but everything went without a hitch, and not a man hurt. It necessitated using the best of gear, (which Mr. Chute always has at his command) in raising his big stack and placing it in position.

Death of Charlie Toole

[Outlook]

It was with sincere regret that we learned of the death recently of Charlie A. Toole, a native of Wilmot, N. S., and formerly station agent at Middleton.

His death was due to an accident. He was working for the Canadian Northern railway as telegraphic operator in Ontario at the time of his death. The body was brought here for burial on Wednesday.

In his capacity for rapid and accurate work and his never failing good nature Charlie had few superiors in a railway station and all who knew him will regret to hear of his death.

Interesting Addresses Sunday Evening

Capt. Philip Jensen, of Newfoundland, a member of the Canadian Highland Black Watch, gave a very interesting address in the Bridgetown Baptist church after the regular service Sunday evening. Rev. E. Underwood, the popular rector of St. James Parish, presided and introduced the speakers. Capt. Jensen was followed by Mr. Harry J. Crowe, of Toronto, recently of Newfoundland, who formerly resided in Bridgetown. Both proved very interesting.

Union Government Meeting

A Union Government meeting will be held in the Court House, Bridgetown, this Wednesday evening, Dec. 12th, at 8 o'clock. Addresses will be delivered by Cap. Philip Jensen, of the Canadian Highland Black Watch, and Mr. Harry J. Crowe, formerly a resident of this town. The ladies are especially invited to be present and hear these eloquent speakers on the great public issues of the day.

Painful Accident

We regret to report that Mrs. F. V. Young received painful injuries by falling on the ice while going along Washington street on her way to church Sunday evening. Besides having been compelled to have several stitches taken in a cut in her head, she is also suffering with a bruised arm.

J. W. Beckwith has just received for the Xmas trade a full assortment of Kid Gloves, lined and unlined for men, women and children.

CHRISTMAS! CHRISTMAS!

LET us celebrate the Season for others. We are more serious to-day, and 'tis fitting that we should be. But let this be a time of giving. Let us give others all possible pleasure.

Our usual Display in all lines FANCY and STAPLE

- China, Cut Glass Sets and odd pieces. Gloves, lined and unlined, for Men and Women. Xmas Handkerchiefs, Men's, Women's and Children's. Fancy boxes and by the single. Ideal gifts. Picture Frames. Books by good authors. Books for small boys and girls. Books for kiddies. Booklets, Cards, Tags, Seals. Toys and Games. A fine collection and an endless variety. Stationery, Soaps and Perfumes. Dolls. American and Canadian. You will be more than pleased with these.

Lines we cannot tell you about, but come in, we will take pleasure in showing them.

Personal Mention

Mr. C. B. Longmire has returned from a trip to Boston. Mr. Horace Bishop was a passenger to Bridgewater Wednesday. Mrs. Oliver Ruffee returned home from Boston last Wednesday. Mr. Norman Chute was a passenger to Kentville via Monday's express. Miss Edna Price has joined the local staff of the Royal Bank of Canada. Miss Baxter, of St. John, is the guest of her sister, Mrs. H. S. Magee, Church street. Mrs. Mary Blanchard left for Boston Wednesday, where she expects to spend the winter. Mrs. J. W. Ross will spend the winter in Grafton, Kings county, the guest of Grant R. Bowles. Mr. A. J. Morrison passed through Bridgewater yesterday en route to his home in Middleton. Mr. W. E. Reed, one of Bridgewater's undertakers, was a passenger to Halifax Monday morning. Miss Merna Marshall spent the week-end in Paradise, the guest of Rev. and Mrs. J. H. Balcom. Mr. Arnold McKenzie, of McKenzie, Crowe & Co., returned yesterday from a business trip to Winnipeg. Miss Grace Smith, of Nictaux, has returned home after a pleasant visit Mrs. G. O. Thies, Granville street. Mr. Harry Ruggles, Barrister, was a passenger to Halifax via yesterday's express. He expects to return today. Mr. Geo. Dixon went to Halifax Monday to look after the distribution of the supplies sent from this town and vicinity. Mr. W. A. Warren, one of Bridgewater's popular druggists, was a passenger to Middleton via yesterday's express. Mr. H. B. Hicks, of J. H. Hicks & Sons' undertaking establishment, was a passenger to Halifax via Monday's express. Hon. O. T. Daniels, of Bridgewater, Attorney General of Nova Scotia, was a passenger from Halifax to Digby on Thursday. Mrs. A. H. Trefry, who has been spending a week in Wolfville, returned to Yarmouth via Thursday's D. A. R. express. Col. LeCain's son, of Round Hill, reported to have been killed in the Halifax explosion, is in hospital with hopes of recovery. Among the passengers returning from Halifax Saturday were Mrs. R. L. Lessell, Sgt. Fred Gesner, and Mr. Barnaby Anderson. Mr. Joseph I. Foster, one of Bridgewater's popular grocers, was a passenger to Digby via yesterday's express, returning last night. Mr. and Mrs. Abner R. Daniels, Lawrencetown, will be at home to their friends on the afternoon and evening of Thursday, Dec. 20th. Mrs. Milton Munroe and daughters Mina and Aileen arrived yesterday from Halifax and are the guests of Capt. and Mrs. J. W. Salter, Park St. Lieut. Col. Thomas Seeley, returned to Yarmouth Monday from Halifax un-injured. Col. Seeley was at one time proprietor of the Annapolis Spectator. Mrs. Ronald Whiteway, of Bridgewater, who arrived in Halifax a few minutes after the explosion, did splendid work in rendering assistance to the suffering. Mr. Geo. F. Freeman, the popular district superintendent of the Maritime Telegraph & Telephone Co., was a passenger yesterday from Digby to Middleton. Messrs. Louis and Robt Crosskill, of New York, were in town last week, to attend their mother's funeral, a notice of whose death appeared in our last issue. Mr. John G. Clarke, of Berwick, passed through Yarmouth on Wednesday afternoon on his way to Allston, Mass., to spend four weeks with his son, Mr. John G. Clarke. Her many friends will be pleased to learn that Mrs. James Tupper and daughter Vera, who were in the Halifax explosion, returned home Saturday night un-injured. Mr. L. H. Outhouse, of Beaver Harbor, formerly of Tiverton, who for a time was one of Bridgewater's grocers, passed through here via yesterday's express, returning from a trip to Halifax. Mr. E. A. Hicks, of J. H. Hicks & Sons, Bridgewater's well known and successful contracting and building firm, left for Halifax yesterday morning in connection with the erection of houses for the homeless. Mr. E. G. Olds, who has been in Bridgewater three months, installing and operating the pumice drying plant in connection with M. W. Graves & Co.'s vinegar factory, leaves today for his home in Rochester, N. Y. Capt. and Mrs. Bayard Powell, of Little River, Digby county, who have been spending a few weeks in Boston, and other places in Massachusetts, arrived in Yarmouth on Wednesday morning and proceeded for home. Mr. Bernard Peters, who arrived from Halifax yesterday to visit his parents, Mr. and Mrs. J. W. Peters, Victoria street, returns to the city today. He was in Wellington barracks at the time of the explosion, but is un-injured. Rev. Father Grace, who conducted service in St. Alphonso church Sunday, returned to Annapolis via Monday's express. Father Grace is very popular among his parishioners from Digby to Bridgewater and is certainly a faithful attendant to all their needs. Mr. E. C. Nickerson, of Wood's Harbor, who has been with the Royal Bank of Canada in Bridgewater for more than a year, left for his home via Monday's express and will endeavor to enter the flying corps. During his stay here, Mr. Nickerson has made a host of friends who regret his departure, many of whom were at the railway station to say good bye and wish him every success in his future career. His place in the bank is being filled by Mr. S. J. Lovett, of Yarmouth, at one time a member of the staff in the Digby agency.

CORRESPONDENCE

A Good Suggestion
The Editor of the MONITOR:
Sir: If some of the ladies who collect for charitable objects would canvas Bridgewater, I am sure that the amount voted by the council can be easily duplicated.
The Red Cross Societies in the rich outlying districts might appoint some one to call upon the people when doubtless another \$1,000 could be raised. We are on the threshold of a long hard winter and unless every district does its best the suffering will be great. I will be glad to give twenty dollars to start the local canvas and if you could spare space to acknowledge amounts so received it would put the matter on a business basis.
Yours truly,
WALTER SCOTT
[The above is a good suggestion and the MONITOR would be pleased to acknowledge the various amounts subscribed. Mr. T. B. Chipman, of this town, has already donated \$100.00.—Editor.]

Christmas Groceries

Just arrived fresh from the wholesale house and gathered from the best stock available. Here are just a few of them:—
Sun-Kist Seeded Raisins Per Package 15c.
Sun-Kist Seedless Raisins (Grown without seeds, preferred by many to Currants.) Per Package 17c.
Goody-Goody Seeded Raisins Per Package 14c.
Raisins, bulk 14 c lb., 2 lbs. for 25c.

Ranges, Heaters  
and Hot-air Systems

*guarantee you this*

**HOW? WHY?**

Fawcett Grates are all made to admit an immense amount of air from below the fire which forces the fuel to burn entirely to a white ash. Fuel burns longer and the gases and smoke are converted into fuel, because the fire boxes in Fawcett Ranges and Heaters are all built with hot-blast, smoke-consuming devices which burn the hot gases and smoke, thereby saving half the fuel.

*These are only a few Fawcett features. Others can only imitate.*

**Care of Roots in Storage**

A great many tons of mangels, turnips and carrots are lost annually by neglect after being placed in storage. Everything may be done to insure a full crop and to harvest it at the proper time in good condition, yet, if not properly looked after during the winter months, a high percentage of this crop may become a total loss. Such loss can be prevented only by prompt attention to the details of storage requirements.

If a cellar is to be used for storage it should be thoroughly cleaned, the ventilators put into good working order, and thorough drainage and protection from frost assured some time before it is filled. Usually in filling cellars it is customary to dump the roots down through a trap door in the floor above, or roll them in over a shoot from windows at the ground level. No matter how much care is exercised in the performance of either of these operations, there is bound to be accumulations of broken and bruised roots and earth at the ends of the shoots, or beneath the trap doors. Unless frozen, the broken and badly bruised roots, in such a mixture, will invariably rot and by so doing generate heat that will help to spread the infection to the surrounding sound roots. It is therefore obvious that accumulations of this nature should be thoroughly cleaned out as soon as possible after the harvest has been completed, and the damaged roots fed before they have had a chance to decay.

Frequently, during the winter months, rotting will start among apparently sound roots, usually as the result of an unsound root becoming buried among the others. Infection spreads rapidly among roots in storage and all such infected areas should be thoroughly cleaned out whenever detected.

All classes of roots lose a certain amount of moisture soon after harvest, by evaporation or, as it is commonly called, sweating. If an adequate circulation of air among the roots has not been provided for, this moisture will condense and wet places will be formed which will favor the growth of moulds, and other plant life, which may directly, or indirectly, cause rotting. It is, therefore, imperative that during the first few weeks of storage, and in fact whenever the outside weather permits, thorough ventilation be maintained.

The temperature in the cellar should be such that the roots will neither grow to any appreciable extent, nor

yet freeze. From freezing to 40 degrees F may be considered as the extreme range. It is an excellent plan to hang a thermometer in a convenient place in the cellar and consult it daily. If the temperature is above say 38 degrees F, the ventilators should be opened and, when it drops sufficiently, closed. When the warmer weather of spring and early summer has set in it is advisable to keep the ventilators closed during the day and open during the night, so as to admit only cool air, thus keeping the cellar cool as long as possible.

If roots are to be pitted outside it is essential that thorough drainage is assured, either by choosing a location on sloping or sandy land, or by providing artificial drainage.

After the roots have been piled and the ventilators inserted the pile should be covered only with straw to a depth of about eight inches. Later in the season, when cooler weather has set in, about 4 inches of earth should be placed over the straw. Still later, when this earth has become frozen to a depth of about two inches, another covering of straw and earth should be made. When cold weather has finally set in the ventilators should be plugged with straw.

If the pit has been properly constructed and covered correctly there is little danger of the roots rotting. As a precaution, however, it is advis-

able to hang a thermometer in every second ventilator and to consult it occasionally. If the temperature in the pit gets higher than 45 degrees F, it is evident that heating is taking place, and the pit should be opened up and the infected area thoroughly cleaned out.

In the spring the layers of covering should be gradually removed, the ventilators opened and, generally speaking, the protection modified to suit the rising temperature.

**His Watchful Eye**

An Irish soldier lost his left eye in action, but was allowed to remain in the service on consenting to have a glass eye in its place. Being a typical "absent minded beggar," he appeared on parade one day minus his left lamp. "Noland," said the officer, "you are not properly dressed. Why is your official eye not in its proper place?" "Sure, sir," replied Noland. "I left it in my box to keep an eye on my kit."

**"Doing His Best."**

Dr. J. A. MacDonald, formerly editor of The Toronto Globe, in his Augustine sermon, said he disliked the expression "Doing his BIT." He suggested that "Doing his BEST" sounded better, and he is right.

**CANADA AND THE WORLD'S SUPPLY OF WHEAT**

(1) Reaping wheat in Portage-la-Prairie Manitoba. (2) Threshing wheat in Portage-la-Prairie.

It was with considerable satisfaction that readers in all Allied countries received the statement, made a short time ago by the Institute of Agriculture at Rome, that 1917 had seen an increase in the wheat crop of the principal countries of the world, outside of the Central Powers, of 3.3 per cent over 1916. These figures were based on returns from Spain, France, Scotland, Ireland, Switzerland, Canada, the United States, India, Japan and Algeria, which countries are this year estimated to show a total wheat production of 1,665,448,000 bushels. At the same time these same countries show an increase in their barley crop of 2.4 per cent; an increase in their rye crop of 10.7 per cent; an increase in their oat crop of 19.9 per cent, and an increase in their corn crop of 25.2 per cent. That such increases should be possible among nations, most of whom are engaged in war, is in itself a tribute to the productive energy of humankind.

The enormous total of 1,665,448,000 bushels of wheat is so great that it refuses to be grasped by the human mind without some units of comparison. If this crop of wheat were loaded into freight cars, 1,000 bushels to the car, and each car occupied forty feet of the railway track, it would represent one solid loaded train 12,617 miles in length—more than enough to reach half way around the world at the equator. These loaded cars, without engines, would occupy seven-eighths the entire track of the Canadian Pacific Railway, known as the world's greatest transportation company.

There is, however, another point of

view, and a very appropriate one at this particular period, when the agricultural countries are called upon to produce the utmost pound of food. While the countries mentioned have done well their accomplishment shrinks into insignificance when compared with their possibilities. For instance, the three Canadian provinces of Manitoba, Saskatchewan and Alberta could produce three times the total wheat crop above referred to! This statement may seem extravagant until submitted to the test of cold figures. Then we get data like this:

According to the Government of Canada there are in the provinces mentioned the following areas suitable for agricultural purposes:

Manitoba	74,216,000 acres
Saskatchewan	93,459,000 "
Alberta	195,217,000 "
	272,892,000 "

The average wheat crop in these provinces for the last ten years has been: Manitoba, 18.20 bushels per acre; Saskatchewan, 18.44 bushels per acre; Alberta, 20.19 bushels per acre. The average for the three provinces is therefore practically 19 bushels per acre. If you multiply the available acreage, as given above, by 19 you will find that these provinces, if entirely cultivated, are capable of producing in an average year 6,184,948,000 bushels of wheat—considerably more than three times the total which is being produced this year 1917, by Spain, France, Scotland, Ireland, Switzerland, Canada, United States, India, Japan and Algeria combined.

The population of Al-

berta can produce as much wheat as all of these countries and have more left over than was grown in 1917 in all Canada.

Of course, it is impossible, as a practicable manner, to put every arable acre of land in any country in wheat, but if we say for the sake of illustration that one-third of the arable land in these provinces is summer-fallowed, one-third sown to coarse grains or pasture, and one-third to wheat, the proportion that is sown to wheat will produce a greater crop than that already mentioned as being grown by all the countries before referred to.

These figures may be interesting generally for the great comparison which they afford, but they must also carry the conclusion that the world is a very long way from having exhausted its food producing possibilities. Any scarcity of food production which may at present exist is traceable almost entirely to an improper distribution of population. In the older countries population is compelled to exist on such limited areas that production on a relatively large scale is impossible, whereas in the newer countries such as Western Canada the population is as yet totally insufficient to bring the country under cultivation. These are conditions which will doubtless right themselves; in fact, the process of correction is going on very rapidly, and, whatever difficulties may be experienced in feeding the world during the next few years, there can be no question that they will be solved as soon as sufficient population is found for the great open plains which are still awaiting the husbandman.

**THE ONLY MEDICINE THAT HELPED HER**

**"Fruit-a-lives Again Proves Its Extraordinary Powers"**

ROCHON, Que., March 2nd, 1915.  
"I have received the most wonderful benefit from taking 'Fruit-a-lives'. I suffered for years from Rheumatism and change of life, and I took every remedy obtainable without results. I tried 'Fruit-a-lives' and it was the only medicine that really did me good. Now I am entirely well—the Rheumatism has disappeared, and the terrible pains in my body are all gone. I hope that others, who suffer from such distressing diseases, will try 'Fruit-a-lives'. MADAME ISABE ROCHON.  
50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

**Profit on a Small Flock of Ewes.**

(Experimental Farms Note)

In October, 1916, a flock of one hundred grade ewes were purchased at public auction from the C. P. R. Department of Natural Resources at Coaldale, Alberta. 50 Shropshire shearing ewes at \$11.75 apiece and 50 Merino three-year-olds at \$9.50 apiece and a pure bred Shropshire ram at \$42.50; also 6 old ewes at \$6 apiece. To this really should be added the price of a second ram as the service of one was obtained from a neighbor who was planning to lamb around six weeks or so later than were we.

**COST OF WINTERING**

A record of the cost of wintering was not attempted as they were pastured on the stubble fields and hay meadows most of the wintering. The feed that was given them during the severer part of the winter was damaged hay and odds and ends of roughage that had little or market value. The only class of feed given that would not be apt to be found on the ordinary farm was turnips. As we happened to have a surplus of these they were given a feed of sliced turnips daily for most of the winter. At lambing time a little grain was fed also some hay of good quality. They were fed grain (barley and oats mixed) from time of lambing until turned out on grass. Each one probably received about one pound of grain and two pounds of hay daily at this time.

**DOGS**

The danger from dogs is very real when sheep are kept under farm conditions and usually the closer one is located to a town the greater becomes the menace. Stringent laws arranging for the destruction of dogs which are not kept under the owners' close supervision are most commendable. The Lethbridge Station is only about three miles from the city of Lethbridge and consequently there are more stray dogs wandering about than might be the case in a farming community more remote from a large town.

One night in February the coral in which the ewes were confined at night was visited by two stray dogs. Their presence was not discovered until nearly daylight, and they succeeded in killing twelve ewes.

**LAMBING AND SUMMERING**

The ewes started to lamb on March 25th and the 84 ewes left after the trouble with the dogs, all had lambs, there being 118 born and 112 of these were saved.

The ewes and lambs were turned out on grass on May 13th, having been shorn May 26th, the average weight of fleece being 8.5 lbs. They had the run of about 18 acres of cultivated pasture grasses on the irrigated land and in addition about six or seven acres around a small artificial reservoir and on the canal bank. This supplied sufficient pasture until about the end of August when the feed became rather scarce. During the summer two ewes died, and nine lambs were killed by coyotes and dogs, leaving at weaning time Oct. 1st, 92 ewes and 103 lambs.

The following statement gives the financial returns from the investment:

Total cost, 106 ewes	\$1698.50
Cost of 1 ram	42.50
Cost 4300 lbs. grain	75.25
Cost of 4½ tons hay	40.50
Cost of shearing	11.40
Wool, 809 lbs. @ 6c.	517.76
92 ewes (present value)	1350.00
1 ram (present value)	40.00
102 lambs (present value)	918.00
Profit	1587.61

\$2855.76 \$2855.76

In the above statement nothing is allowed for labor. This is an important item but will vary with circumstances. On a farm fenced with woven wire it will be reduced to a small amount. The destruction of weeds that will be accomplished by the presence of the sheep on a farm will go a long way to compensate for the labor involved in their care.

**Economy Brings Revival of Lace.**

Henri Bendel, the Fifth Avenue couturier, writing in the December issue of Harper's Bazar, makes the following forecast:

"This is a season when the mode acknowledges the supremacy of old lace. Of course, real lace is always more or less 'fashionable,' though for the last few years it has not been used so extensively. But now as a war-time economy women have gone to, is not only a charming, but in many instances, a sumptuous trimming.

A word must be said about the cape. It is a growing factor in Paris this season. Its simple, straight lines, its warmth, and its splendid high fur collar give both utility and grace. Furthermore, the cape may be worn to give added warmth to the long coat, as well as to the tailored dress."

**This Man Tells When the War Will End!**

That's sure what we all want to know. And this man in Pittsburgh gets at the good news with this mathematical juggling:

President Wilson was born.... 1856  
Took office..... 1913  
Has been in office (years)..... 4  
Has lived (years)..... 61

3834  
King of England was born.... 1865  
Ascended throne..... 1910  
Has reigned (years)..... 7  
Has lived (years)..... 52

3834  
President of France was born... 1858  
Took office..... 1913  
Has been in office (years)... 4  
Has lived (years)..... 59

3834  
King of Italy was born..... 1869  
Ascended throne..... 1900  
Has reigned (years)..... 17  
Has lived (years)..... 48

3834  
King of Belgium was born.... 1875  
Ascended throne..... 1909  
Has reigned (years)..... 8  
Has lived (years)..... 42

3834  
Emperor of Japan was born... 1879  
Ascended throne..... 1912  
Has reigned (years)..... 5  
Has lived (years)..... 38

3834  
King of Serbia was born.... 1844  
Ascended throne..... 1903  
Has reigned (years)..... 14  
Has lived (years)..... 73

3834  
King of Montenegro was born.. 1841  
Ascended throne..... 1910  
Has reigned (years)..... 7  
Has lived (years)..... 76

3834  
King of Roumania was born... 1865  
Took office..... 1914  
Has reigned (years)..... 3  
Has lived (years)..... 52

3834  
But even these strange results are not enough, for our Pittsburgh friend goes on to say that as these rulers represent two hemispheres, the figures 3834 should be divided. And lo! you have 1917. Ergo: The war will end this year. Well, we don't have to wait very long to see. And we'll certainly say "Long years to the man from Pittsburgh," if his figures prove true.

**PERFECTLY SAFE**

After 45-Minute Swim, Five Men Prove Safety Suit Is Reliable and Warm

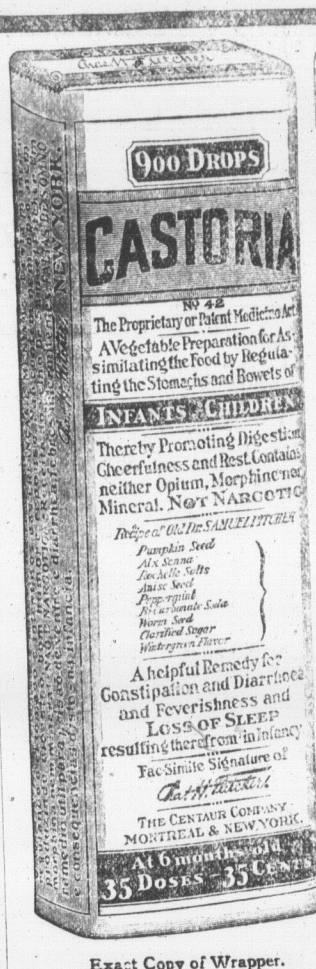

[Boston Herald]

Casual observers near the Leyland line docks were startled yesterday to see five men in strange looking black suits throw themselves off the wharf. They, however, all came up smiling, although they didn't go down very far, and for nearly 45 minutes they splashed around and chatted with each other, giving a demonstration of the latest thing in life saving suits. When they returned to land they were not only warm, but perspiring and could have remained in the water a dozen hours without feeling any ill effects. Capt. John Gardner and Chief Engineer Stanley of the steamer Etonia, were two of the five men who took to the water.

The safety suit is the result of one of the great sea disasters in the Atlantic in which more than 1000 lives were lost. At the time of this disaster, Oscar A. Youngren, then of Sheridan, Wyoming, but now of New York, saw confirmation of his conviction that the real life preserver must do two things—keep the wearer afloat until rescue arrives and protect him from exposure. He proceeded to work out the details of what he saw subsequently on an ocean voyage aboard the steamer Oscar II, a simple one-piece suit which could be put on quickly and which would keep one afloat indefinitely, while affording absolute protection from cold. It has been demonstrated that, even in rough water, the person in the suit can hold above his head an iron bar weighing 50 pounds. The suit is air tight and weighs but 16 pounds. There is a pocket in front which will hold flasks or bottles of pellets from which a person may take nourishment.

The inventor says that there need be no fear of a U-boat if persons on a torpedoed ship are clad in safety suits. Recently there left an American port bound for the war zone 100 nurses from base hospital No. 36, Detroit, and all were equipped with the suits.

## DIGBY

Mr. H. B. Short returned from Halifax Wednesday.  
 Dr. Dickie, of Barton, returned from Halifax Monday.  
 Mr. M. Lombard, of Annapolis Royal, was in town Thursday.  
 Mr. Alden Elliott, of Tiverton, was in St. John last week.  
 Mr. W. S. Troop was a passenger to Halifax Friday returning Monday.  
 Mayor Hayden was a passenger to Halifax Friday, returning Monday.  
 Capt. Joseph E. Shaw and son, Floyd were passengers to Halifax Saturday.  
 Dr. T. H. MacDonald, of Meteghan, was in town Monday, returning from Halifax.

Messrs. H. T. Warne and H. L. Denison were passengers from Halifax on Thursday.  
 Miss Mildred Dakin, who was in Halifax during the explosion, was but slightly injured.  
 Rev. Wm. Driffield attended the meeting of the Rural Deanery at Middleton last week.  
 Miss Marguerite McKay, of Barton, who was in Halifax at the time of the explosion, was uninjured.

Mr. Albert Hayford, who has been employed in Halifax, was a passenger to his home in Westport Monday.  
 Mrs. Charles S. Aymar, Aymar's Corner, is spending the winter with her daughter, Mrs. Byron A. Roney.  
 Mr. J. F. Rice, our popular and well known undertaker, went to Halifax last Friday to assist in the work there.  
 Rev. F. C. Simpson will occupy the pulpit of the Bay View Presbyterian church next Sunday morning and evening.

Mrs. A. B. Higgins was a passenger from Halifax Monday and is a guest of her parents, Mr. and Mrs. Jonathan Letteney.  
 Mrs. Charles VanTassel was a passenger from St. John Tuesday, accompanied by her daughter, Katherine, who has returned from Saskatoon, Sask.  
 Mrs. Eber Turnbull arrived home on Saturday, from a very pleasant month's visit with friends in Philadelphia, Washington and other American cities.

Mr. Malcolm Finnigan, of Freeport, who has been studying dentistry in Halifax, was a passenger from that city Monday en route to his home. He was somewhat injured in the explosion of last week.  
 Mr. and Mrs. James Hillman were passengers from Halifax Monday. Mrs. Hillman was buried in debris after the explosion, but fortunately got out and escaped with a severe shaking up and a few minor injuries.

Mr. Eugene Lent, who has been teaching school in Halifax, was a passenger from that city on Monday en route to his home in Freeport. His school was destroyed and several of his scholars injured in the explosion, which took place there last Thursday but Mr. Lent escaped without injury.  
 A reception was held in the Baptist vestry, last evening, under the auspices of the Y. W. P. A. and the Baptist Sunday School, for Private Arthur Baxter, who has recently returned from the front. A short musical programme was rendered, and a number of speeches by prominent men of the town. He was presented with a cane by the Y. W. P. A., and a fountain pen by members of the Baptist Sunday School.

On Monday evening, Dec. 3rd, quite a number gathered at the home of Mr. and Mrs. James E. Ellis to celebrate their 15th anniversary. Many pretty and useful gifts were received including cut-glass and linen. The evening was very pleasantly spent in music, singing and games. After this refreshments were served, and when all had partaken of the bountiful supply of good things, the guests at a late hour, having wished Mr. and Mrs. Ellis many more years of happiness, left for their homes.

Among those arriving from Halifax yesterday were Mr. and Mrs. Chas. P. Dunn and little sons Burgess and Douglas, and Miss Annie Walsh. Mrs. Dunn and the boys and Miss Walsh were all more or less injured during the terrible explosion, but none of them seriously. Mrs. Dunn is very badly cut about the face and body and it was feared at first she would lose the sight of her left eye. Miss Walsh received her injuries by being blown through her office window, striking the pavement head first.

### Farm Workers Will Be Exempted from Military Service.

Mr. Justice Duff's, first judgment rendered as Central Appeal Judge for Canada on Dec. 7th, makes it quite clear that farm workers are entitled to exemption on the grounds that production must be maintained in order to sustain the Military power of the Allies. This judgment of the Appeal Judge is binding as law upon appeal tribunals and local tribunals throughout the whole country.  
 Another judgment by Justice Duff, shows that exemption is favored for men with all brothers already at the front or in the service.

## WILL YOU BE ONE?

Thousands of thoughtless people neglect colds every winter. A cough follows; they get rundown—then stubborn sickness sets in. This can be prevented easier than it can be cured. If you will give your system the benefit of a few bottles of

you will find your whole system strengthened. It will fortify your lungs and throat and enrich your blood against rheumatism. Scott's is powerful concentrated nourishment without drugs or opiates.  
 Don't neglect taking Scott's—commence today.  
 Scott & Bowne, Toronto, Ont.

## BEAR RIVER

Mrs. Elroy Peck left last week for Halifax to join her husband.  
 Mr. Mansford Campbell and family are occupying the J. E. Troop house.  
 Stmr. Bear River, Capt. J. W. Woodworth, arrived from St. John on Friday.  
 Miss Ada and Selina Darres, of Victoria, arrived home from Halifax on Saturday.  
 Mr. Lewis Clarke was a passenger to Middleton the past week to consult Dr. Fales.

Mr. Alfred Munroe was among the successful moose hunters at the close of the season.  
 Miss VanBuskirk, of Bear River East, has accepted a position in Clarke Bros. store.  
 Miss Hazel Purdy and Mrs. B. C. Clarke were passengers to Deep Brook the past week.  
 Mrs. Allee B. Clarke, who has been on the sick list for some time, is slowly improving.

Mrs. J. L. Warren left on Saturday for Kentville, where she will undergo special treatment.  
 The ladies' circle of the Methodist church, met at the home of Mrs. John Yorke on Tuesday evening.  
 Mr. and Mrs. John Dunn, who were guests of Mrs. Geo. Nichol recently, went to Bridgewater last week, giving the ladies' circle of the Baptist church held a pie sale on Thursday evening at the home of Mrs. W. E. Reade. Owing to bad weather a small number was in attendance.

The ladies of the Red Cross opened up their rooms on Monday to receive and get ready to ship all articles of clothing, etc., that may be sent in to aid our stricken friends at Halifax.  
 Among the recent guests at the Commercial House were: N. E. Chute, Bridgetown; G. H. Peters, L. Y. Winchester, Digby; A. C. Orr, Montreal; R. M. Sanford, Canning; J. L. Bowby, Paradise; S. H. Payne, Granville Ferry.

The Rev. Mr. Richardson, of Bridgetown, was a guest of Rev. and Mrs. L. H. Crandall on Tuesday last, giving an interesting address at the Roll Call services, both afternoon and evening.  
 The dreadful disaster that has befallen our city of Halifax, has cast a sad dening gloom over our village and it seems nothing short of a miracle that among all the people who were formerly of Bear River and now located there, not one has so far been reported injured.

## CLEMENTSVALE

Miss Florence Danielson left on Dec. 1st for Boston.  
 Mr. George Ramsay spent a few days with friends in Perotte.  
 Mr. Fred Cummings, Middleton, spent Sunday with his wife and family.  
 Mr. Oscar Elliott returned home the 6th inst., after spending some time in Alberta.

Miss Teresa A. DeVaney, Upper Clements, is visiting her cousin, Miss Mary-L. Trimper.  
 Miss Goldie Long, Deep Brook, is visiting at the home of Mr. and Mrs. G. W. Trimper.  
 Mr. Chas. Sharkie has returned from Nokomis, Sask., and is the guest of his friend, Mr. Chas. Ramsay.  
 Miss Lydia Trimper gave a party to her friends on Tuesday evening. All reported a very pleasant time.

Miss Spears, who has been visiting her friend, Miss Mildred Brown has returned to her home in Bear River.  
 Miss Thurber, from Freeport, Digby Co., who has been visiting her friend, Miss Mable Long, has returned home.  
 Mrs. Margaret Trimper and Miss Lydia Trimper were in Middleton the past week taking medical treatment from Dr. A. C. Fales.

Mrs. R. Stanhope has returned to her home in Massachusetts after spending the summer with her parents Mr. and Mrs. Chas. Long.

### Royal Flying Corps.

Any one desirous of obtaining information regarding the "Royal Flying Corps," may do so by applying to the Rev. R. W. B. Muir, the Manse, Annapolis Royal. The age is between 18-25 (in special cases thirty years). An educational standard is also necessary applicants being required to have completed High school and matriculation and with either two years of college or two years executive position with some business given. The reason for this high standard is that the men when they have completed their course of training, will be given commissions in the Royal Flying Corps.  
 Full instructions may be obtained from Mr. Muir as regards transportation to the training depot.

Canada's second Victory Loan has equalled, in proportion to population, the wonderful record of the second Liberty Loan in the United States, which yielded \$4,617,532,300.

## MARINE NEWS

Schr. Scotia Queen, Capt. Tupper, is at St. John for Boston.  
 Nova Scotia Fish Co.'s arrive at Digby: 42,000 lbs. mixed fish from boat.

The Bridgetown schr. Jesse Ashley, while at Boston has been sold to Newfoundland parties.  
 The recent cold weather has closed navigation on the river between Annapolis and Bridgetown.  
 J. E. Snow's arrivals at Digby: Mixed fish from boatmen, 1,595 lbs., shipped 46 boxes haddock, 6 boxes fillets.

H. B. Hayden & Co., at Digby: Received from boatmen, 8,000 lbs. mixed fish; shipped 250 boxes finnan haddies, 1,000 lbs. cod.

Four Digby schooners arrived in Yarmouth, Nova Scotia, Friday for shelter. They had a fare of from 8,000 to 13,000 pounds of mixed fish.

Steamer North Land docked at Boston from Yarmouth at 8 o'clock Thursday morning, just 13 hours and fifty minutes from wharf to wharf.  
 Stmr. Valinda, Capt. E. H. Lewis, arrived here Thursday from St. John, after a very rough trip in the Bay. She is at present in Annapolis.

Maritime Fish Corporation arrivals at Digby: Per schr. Cora Gertie, 190-757 lbs. haddock, 3,344 lbs. hake, 1,558 lbs. cod, other sources, 29,555 lbs. fresh haddock, 2,388 lbs. cod, 504 lbs. hake.

The name of Capt. B. N. Melanson's new freight steamer recently launched at Church Point, has been changed from St. Anne to M. Sigogne. A description of this excellent steamer has already appeared in these columns.  
 Loss at sea of the British schr. Maple Leaf, built and owned in Nova Scotia, became known on Tuesday, with the arrival at Newport of the crew, rescued in mid-ocean, on a British freight steamer. A Russian schooner found the Maple Leaf adrift and took off the crew of eight men, transferring them to the British freighter on Nov. 26. The Maple Leaf was of 251 tons gross.

The Tug Hugh D. towed a raft of ten large Oregon pine spars from Weymouth to Meteghan. They were all 94 feet long and 2 feet square at the butt. These spars will be used in the large four-masted schooner being built by Dr. T. H. MacDonald, and the three masted schooner being built by John F. Deveson for Lunenburg parties, and the one which Capt. Thomas German is building for people in Grand Manan. They passed through Bridgetown via D. A. R.

The Yarmouth Telegram says: Owing to the delay in receiving the anchors and chains from England for the new schr. Racevel, at Meteghan River, her sale to Newfoundland parties has been cancelled. Parties from the south shore have been negotiating for her purchase, but her owners, the Clare shipping Co., Ltd., have practically decided to retain her for the present and have about closed a charter for her to take a cargo of dry pine to the West coast of Africa.

Following are the arrivals at Digby since last report: Dec. 3rd, schr. Cora Gertie, Crocker, with 6,000 lbs. haddock for Maritime Fish Corporation Ltd.; schr. Mercedes from Clements- port with 115 cords wood for Maritime Fish Corporation, Ltd.; Dec. 7th, schr. Cora Gertie, Crocker, with 50,000 lbs. haddock for Maritime Fish Corporation, Ltd.; Dec. 9th, schr. Dorothy P. Sarty, Longmeir, with 60,000 lbs. mixed fish for Maritime Fish Corporation, Ltd. Received by Maritime Fish Corporation, Ltd. from boats: 50,000 lbs. mixed fish.

Order now and make sure of getting your Edison Diamond Amberola before January 1st, when the prices of all Diamond Amberolas are to be advanced.

Freight is moving slowly. There is a possibility of freight embargoes. Place your order now so that you will be sure of getting a Diamond Amberola before January 1st. Remember the Diamond Amberola is the world's greatest value in phonographs.

C. B. TUPPER, Dealer. BRIDGETOWN, N. S.

## RURAL DEANERY

Interesting Sessions Held in Middleton Last Week.

The clergy of the Rural Deanery of Annapolis met in chapter at Middleton on Monday and Tuesday, Dec. 3 and 4. The Revs. E. Underwood, W. S. H. Morris, M. Taylor, J. Reeks and A. W. L. Smith were present at the opening. Mr. Pineo, of Middleton and Mr. H. L. Jones, of Weymouth, also attended. The Rev. Rural Dean was delayed by a funeral but was able to be present on the second day. The Revs. Dr. Ball and T. C. Mellor were kept at home by parochial duties.

The meeting was glad to welcome the Rev. Dr. Boyle, President of King's College, Windsor, who by his genial presence, added to the pleasure of the gathering, and who clearly and enthusiastically placed before the clergy, plans for the Forward Movement of that historic institution. The Deanery Service was held on Tuesday morning, when the Holy Communion was celebrated by the Rev. W. S. H. Morris, rector of the parish, and an able sermon ad clerum was preached by the Rev. M. Taylor.

At a special meeting of clergy and churchwardens, the Missionary Apportionment to the parishes of the Deanery was discussed, but owing to the small attendance of the laity no change was considered.

At the clerical chapter meeting a quantity of miscellaneous business was transacted and the Rural Dean gave an account of the recent meetings of the Diocesan Mission Board and the Board of Rural Deans.  
 As usual a portion of the Greek Testament was read and translated, and a valuable, critical and devotional comment on the passage was given by the Rev. W. S. H. Morris.

Other papers were read by the Rev. W. S. H. Morris on "The Miracle of Prayer," and by the Rev. A. W. L. Smith on "Possibilities of Co-operation with Religious Bodies Outside the Anglican Communion." Both proved valuable contributions and occasioned interesting discussions.

The clergy were cordially entertained by the genial Rector and Mrs. Morris and by various parishioners, and the whole gathering was voted a distinct success, being much enjoyed by all concerned.

The next meeting will be held (D. V.) at Digby on April 8 and 9.

We have just a few of the famous Hercules Silk Mattresses to be sold at \$20.00. The new price on this celebrated mattress is now \$25.75.

J. H. Hicks & Sons.

Have your pictures framed at J. H. Hicks & Sons. A new assortment of the latest novelties in framing just opened.

## The Body-Building Power of BOVRIL

In feeding experiments on human beings carried out by a well-known independent British Physiologist, when Bovril was added to the normal diet it produced an increase in flesh, bone and muscle equal to 10 to 20 times the amount of Bovril taken.

No increase in price since the War.

## SUGGESTIONS FOR Xmas Shopping

Choose your XMAS GIFTS now in any of the following lines to insure yourself of the completion of your list before the Xmas rush is on.

- Smoking Jackets, Mackinaw Coats, Coat Sweaters,
- Silk Mufflers in a beautiful variety of Paisley or Oriental patterns. Neckwear in both bright and subdued colorings. Negligee Shirts in colors and patterns that are examples of the newest shirt styles,
- Wool, Kid and Suede Gloves, Handkerchiefs, Suspenders and Gaiters in fancy boxes. Silk and Wool Hosiery, Fancy Vests, Club Bags, Suit Cases, etc.

### For the Boys at the Front

Khaki Shirts, Collars, Braces, Handkerchiefs, Gloves, Sweaters, etc.  
 A gift for a man should be selected at the store that knows what men like and appreciate. WE KNOW—that's why we offer these suggestions for Xmas gifts.

## DELCO-LIGHT

ELECTRICITY FOR EVERY FARM

DELCO-LIGHT helps to keep the young folks on the farm. It brings City Comforts and Conveniences and Economies to the farm home.

And it pays for itself in time and labor saved.

Delco-Light furnishes an abundance of clean, safe, economical electric light for house and barn.

It furnishes electric power to pump the water, wash the clothes, milk the cows, separate the cream, churn the butter, operate the electric fan and the vacuum cleaner.

Delco-Light is a simple, economical, highly efficient electric plant that requires almost no attention and that runs on kerosene, gas, or gasoline.
