Monitor's Belgian Relief

THE MONITOR RELIEF FUND is beginning to look like quite a respectable figure. But it's not yet the size worthy of the generosity of the good people of this Valley. We can do better and we must.

Mr. E. B. Robinette of Philadelphia, who has recently returned from a motor trip through Belgium, writes:

"People are dying in Belgium for want of proper food. Old men and women and young children are going to their graves merely because the right kind of nourishment cannot be obtained for those suffering from dysentery and other diseases. And before long, unless supplies of relief food keep pouring into the country, healthy Belgian men and women will die from actual starvation. Before that happens the pangs of hunger will probably drive them to measures, futile but desperate, which will bring upon them the terrible retribution of the army of occupation.

"At the present time there is no wheat, flour or salt in Belgium, except that which is shipped in by the Commission for Relief. The percentage of the people now absolutely destitute is over thirty per cent. Everywhere I went I was told that by the end of January it would be over fifty per cent. This information I got from reliable business men and bankers.

"The appreciation of the Belgian people for what is being done for them is evident everywhere. But the problem confronting the Commission is staggering. It must be remembered that it is not only the poor and destitute that must be provided for, it is all Belgium. No one is working in Belgium today; her wheels of industry have stopped, her trade has disappeared, her credit is smashed. Her government has been broken up, her ports are closed, and there are no exports and no imports, except such foodstuffs as the Commission gets in through Rotterdam. Supposing we allow five cents a day for each Belgian for food, it will be readily seen that with 7,000,000 people still in the country the cost to supply food will come close to \$10,000,000 per month."

What about helping to bear some of that amount? It may be only a small share. You may not be in a position to contribute a large amount, but you can give something each month, and it is of many small contributions that the whole amount must be made up.

H. C. Crowell, staff correspondent of the Halifax Chronicle, writing to his paper from Rotterdam, says:

"If there is anything that will thrill a Britisher it is the child-like faith the Belgian people have in us. They cling to the British people, whether from Canada or England, or the furthestmost parts of the Empire. Introduce a man to a Belgian as a British subject and the Belgian immediately becomes confident that care will be taken of him. It is one of the most touching features of the whole terrible catastrophe, and to witness the longing and hear them plead to be taken across to England where it seems to them there lies the only hope and sanctuary in the world, would turn the hardest heart to tears."

Thus far we of the British nation have proved to them that their confidence in us is well founded. Send in your contribution even though it may be small, that we may continue to prove that we are worthy of their confidence.

OBITUARY

The publisher of the best Farmer's paper in the Maritime Provinces in writing to us states:

Meeting of the Valley Medical Society

The midwinter meeting of the Valley Medical Society was held at the St. James' Hotel, Bridgetown on Wednesday last week and brought together upwards of twenty of the medical gentlemen of the Valley, Counties.

A good number came in by the train, others by teams but Dr. MacDonal, of Metcoven, County, accomplished the rather unusual feat of this season of the year of motoring from his town, and returned the same evening in his "Ford."

The afternoon session was devoted to business and a number of papers on medical and surgical subjects. Drs. MacKay and Hattie, of Halifax were present as guests of the society and contributed to the program.

A letter was read from Belgium telling of the absolute distress and complete loss of everything over one thousand Belgian doctors and assistance was solicited from the medical profession of Canada for these worthy men of their profession. Fifty dollars was voted by the society to be sent at once for this relief work.

The evening session, which was held in the Baptist Church, took the form of a public meeting. Dr. Armstrong, the President of the Society, presided. Dr. Hattie, Provincial Health Officer, Dr. Millar, of the Provincial Sanatorium, Kentville, and Dr. DeWitt, of Wolfville, gave interesting addresses on Tuberculosis which are referred to elsewhere in this issue. Afterward some discussion of the subject was participated in by the audience and medical men.

The cost of the church, enlightened the proceedings with a number of musical selections, that were much appreciated.

After the evening meeting a reception was held by Dr. and Mrs. Armstrong at their home, and the visiting physicians spent a social hour meeting a large number of our town people.

Civic Elections

Civic elections were held yesterday in three incorporated towns of this County, viz.: Bridgetown, Annapolis and Middleton. In Bridgetown the results of the polling were as follows: For Mayor—W. R. Longmire, 130; J. R. DeWitt, 36. For Councillors—E. C. Hall, 104; A. L. Beeler, 103; Clute, 96; S. F. Pratt, 78; H. G. Bishop, 73. The nomination papers of Mr. DeWitt for Mayor and Messrs. Hall and Bishop for Councillors were filed on Nomination Day without their knowledge or consent. In Middleton, F. E. Bentley was elected Mayor by acclamation. The vote to elect three Councillors resulted as follows: G. N. Reagh, 111; G. F. Freeman, 102; J. H. Charlton, 88; L. S. Turner, 83; L. B. Dodge, 76; Dr. A. C. Fales, 70.

At Annapolis, Augustus Robinson was elected Mayor by acclamation. A poll was held to elect Councillors, with the following result: J. Lombard, 115; Wm. Cummings, 95; B. B. Hardwick, 92; L. B. Shaw, 73; Dr. Byers, 16; F. J. Miller, 15.

Hockey Notes

The sport-loving public was favored on Saturday evening, Jan. 30th, with an exciting game of hockey, when the Macdonald School team, of Middleton, matched its knowledge of the game against that of the second team of the B. A. A. C. The game was played in two halves, each period being 25 minutes.

The game started with a showing of determination on both sides to win which was continued throughout the game. The first period was quite fast and many brilliant plays were made by each side, and ended in a score of 1-0 in favor of the visiting team.

In the second period many end-to-end rushes were made, but the two teams were so evenly matched that it seemed impossible for either to gain any decided advantage. About half-way through the period the home team were fortunate in making a goal which brought the score up to 1-1, at which it remained till time was called.

Both sides agreeing, it was decided to continue the game until one secured another goal to clear it of this. This was done and the home team secured it after a half minute of hard work on each side, making the standing score of 2-1 in favor of the home team.

We can safely say that if these two teams continue to play that with the right kind of practice it will not be long before there will be games played by them that will give credit to the town in which they live.

Again last evening a team from Middleton played the first team of the B. A. A. C., the home team winning with the score of 12-4.

DEATH—At Granville on 25th inst., George F. Fellows aged 75 years.

Since our last issue we have attended two Devotion visits, the first on the 20th inst., at the Methodist Parsonage. The night was intensely cold without but there were warm hearts within. The lady visitors furnished a most inviting tea. Mr. Minor Tupper presided and called up Mr. Edmund Bent who presented a purse of \$60.00 to the popular pastor and his amiable lady. On the following evening a similar gathering, aided by the Baptist Mission, was given for Rev. Mr. Clark. The Revs. Gordon and DesBrisay were among the warm hearted visitors. After tea was served Mr. Edmund Bent was called to the chair and addresses made by the various ministers and a good number of laymen among whom was Benj. Miller and Messrs. Minor Tupper and Joseph Wheelock of the Methodist Church. All sectarian fences were flat to the ground and a spirit of christian harmony prevailed. Mr. Clark and his good English wife received \$170.00.

To Open Old T Wharf

Final preparations are being made for the opening of a new wholesale fish market on T wharf, to be conducted in competition with the \$3,000,000 plant in South Boston. February 8 has been set as the date on which business will begin, although it was originally planned to open on the first of the month. Several stores, possibly as many as 10, will be opened on the first day, and it is expected that other stalls will be occupied by dealers before spring.

The Producers' Fish Company is the name of the new organization. It is capitalized for \$50,000, and was recently incorporated. J. O. Richards, who is in the provision business at 9 Blackstone Street, is president, and Oliver S. Hayward is treasurer. The latter is treasurer and general manager of the Metropolitan Ice Company with offices at 60 State Street, and with which is connected the Union Ice Company, which supplied ice to the fishing schooners and dealers at T Wharf before the removal of the business to South Boston last March. Sylvester Whalen, attorney, who is secretary of the Boston Fishing Masters' Association, is secretary of the new concern.

The Newspaper World.

The Newspapers of Canada have probably been struck harder by the present war than any other industry or enterprise in Canada. Three months of the war put the Vancouver World out of business. Its creditors lost heavily despite the fact that the World was one of the most widely circulated papers in that province.

The Montreal Star and dozens of other papers over Canada have found it necessary to increase their subscription and many other papers have been reduced in size.

The Winnipeg Telegram, which issued a morning and afternoon edition, announced that the morning issue would hereafter be discontinued. The reduction in advertising and the expense of telegraph tolls compelled the suspension of one of the issues.

The Regina Weekly and The Regina Leader have also followed the example of their Winnipeg contemporary.

Coming nearer home we note that quite recently there was an ambitious attempt to start a second daily in New Glasgow. It passed out of life after an existence of five or six months. The shrinkage of advertising in Canada—a

newspaper's chief source of revenue—in the past six months has totalled nearly twenty million dollars. This includes home and foreign advertising.

In ordinary industries or mercantile establishments there is a chance to economize when the revenue declines, but it is not so with a newspaper. With it a declining revenue almost inevitably means an increasing expenditure. If the war lasts many months the newspapers throughout Canada will have to begin considering ways and means to meet a difficult situation.

Sweden has suffered more heavily than any other northern country from the mine peril, her losses up-to the present time totalling eight vessels and from 50 to 60 lives. Denmark has lost six vessels and six lives and Norway five vessels and six lives. A computation of Sweden's monetary loss and vessels and cargo works out at nearly ten million crowns.

Fifty thousand horses are to be furnished the English and French Governments within six months, under a contract signed in San Antonio, Texas, on Friday. The first shipment of 5,000 is to be made Feb. 1st.

Aching Bones and Sore Joints Cured! All Rheumatic Tendencies Destroyed!

Away Go the Crutches, Every Sufferer Made Well Quickly.

Old age is usually afflicted with rheumatism. Very few past fifty escape its tortures.

Many it bends and deforms. Upon the countenances of others it, marks the effects of its awful suffering. Nervine will cure rheumatism. It takes the pain out of throbbing muscles and swollen joints. It untwists gnarled knuckles. It does this quickly and surely.

Nervine is not used internally. You just rub it on—lots of hard rubbing is required for a minute or two, and then you feel Nervine penetrating through the tissues; you feel it drawing out the congestion, feel it sink in deeper and deeper till at last it touches the core of the joint or the heart of the muscle affected.

You won't stay in pain with Nervine—no one ever does. Just try it—you will be amazed at its magical power over pain, a power it gets from the extracts and juices of certain rare herbs and roots it contains. It's harmless—any child can use Nervine, can rub it on for a sore throat, for a bad cold, for stiff neck, for headache. No family remedy half so useful.

The large 50 cent bottle is the most economical; trial size 25 cents. All dealers, or the Catarrhogene Co., Kingston, Canada.

He Has an Immense Capacity For Detail In Every Branch.
The stories that are told about George Bury, the new general manager of the Canadian Pacific, would fill many columns—stories that illustrate his alertness, his humor, his personal knowledge of the working force of the C. P. R. in all ranks and divisions, his uncanny knowledge of detail, which—and this one of the really remarkable things about the man—does not in the least clog the swift and accurate workings of his wonderfully efficient executive ability. They say "G. B." as he is called, sees and knows everything all along the line. As one C. P. R. man put it: "G. B. has a wireless receiving station under his hat." The result is that it has become an accepted fact that it is unwise to attempt to put anything over him.

He is an excellent judge of men, and has various ways of dealing with his subordinates in accordance with their individual characteristics. There is one official, for example, a good, efficient man, but in need of a little jacking up. G. B. liked him and took a friendly, effective way of doing the jacking up. In saying good-bye to him on a trip of inspection, G. B. slapped him on the back and said: "Well, Jim," only that is not his name, "you're mighty glad to see me going and to have this inspection over, aren't you?" Jim, of course, protested that he was nothing of the sort.

"Come, now, Jim," said G. B., "when you heard last week I was coming along, didn't you send out a wire to all the section bosses telling them to get busy and throw around a little gravel and do whatever else they could to make a good showing?" It was evident from Jim's countenance, as G. B. saw instantly, that this was a bull's eye. "Now, Jim," he said, "you know better than to do things like that. You know that's no way to maintain discipline and efficiency." The lecture then and there administered was bitter, pointed and yet kindly. It went home.

Another story of the same sort which illustrates G. B.'s attention to detail and his youthful high spirits has to do with the door of a grain car, a patented affair, which he saw lying by the side of the track. He told the official whose duty it was to attend to it to have it picked up. Passing the same place later, he saw the grain door still lying by the side of the track, and still later on seeing it for the third time, he stopped the train and had it lifted aboard. Coming to the office of the man who should have attended to it, G. B. ordered that it be carried in and laid on his desk, the official in question being then out on the line. It was necessary to take out a window to get the grain door in. There was no need for G. B. to leave any message with it as it reposed on the desk.

In 1904 when he went to Winnipeg as general superintendent of the western lines of the C. P. R., it was to find himself up against the snow blockade of January and February of that year, the like of which was never known before or after, since the beginning of railroading in the west. He was out in the southwestern part of Manitoba, working hard on the job of trying to restore operating conditions, and arrived one afternoon on an engine at Souris dog-tired. He went into the station and found a gang of snow shovelers who should have been out at work, loafing around the stove.

G. B. edged in among them and pretty soon the foreman remarked that all hands had better get out and give an imitation of a gang of men hard at work shoveling snow, as the blankety-blank new superintendent might be along from Winnipeg and would fire them all if he found them loafing around the stove.

G. B. spoke up and announced that the blankety-blank individual from Winnipeg referred to by the foreman was in their midst and that they were fired all right.

FORCES OF NATURE.

What They Do In Providing Power For Machinery.

In several ingenious ways the forces of nature are now exploited in order to provide power for machinery necessary for various human activities...

This novel device consists of a number of reflecting mirrors which concentrate the rays of the sun onto a glass-covered trough containing water...

Some idea of the enormous power which the sun machine conveys to the engine can be gauged by the fact that 3,000 gallons of water can be lifted 40 feet in one minute...

Many great waterfalls are now harnessed in such a fashion that two of the most important being the falls of the Rhine and those of Niagara...

Thought He Was Mad.

The late Count de Lesseps was traveling on one occasion in a French railway train in a compartment with two commercial travelers...

"I beg your pardon, sir," said one of them—"are you not a traveler?" "Certainly I am," said the count.

"What is your line?" "Isthmuses,"

"Wh-wh-what," asked the puzzled commercial—"what are they?" "I am introducing ship canals," said de Lesseps gravely.

The commercial travelers feared that they had fallen in with a lunatic and were making preparations to escape when the count handed them his card and put them at their ease.

"No more headache for you—take these"

Don't just "mother" the headache without removing the cause. Take Chamberlain's Stomach and Liver Tablets. They not only cure the headache but give you a buoyant, healthful feeling because they tone the liver, sweeten the stomach and cleanse the bowels. Try them.

CHAMBERLAIN'S TABLETS

A TALE OF TWO MOTHERS.

The Real Hardship of War Presses Upon the Ones at Home.

"Drawing us together—yes. Thank God for that!" This time the sentiment is what is upholding a lonely Ontario mother. She keeps a city rooming-house. The rent all last summer was \$38. It is owned by an aging widow, and its income is her only support.

Next rent day the landlady was on hand promptly, and the tenant's heart was in her mouth throughout most of a long interview. There was considerable reference to the great war, the mother remembers, as at last her landlady rose to go.

"That was my son," explained the old lady, wiping away the tears. "He was in the 90th of Winnipeg, and went through the Red rebellion. Then he took typhoid a year later—oh!"

"Rent my room, ma, that will give you five dollars extra a week and you'll be as well off as I am. Such a rent as the 'last word' given by one of the chaps now at Salisbury Camp. His mother had been 'fraying along' for some time before that, but although her son was out of work she had kept to herself the serious straits in reality she was in."

"Between the young lady's visits there are unpleasant, but very actual ponderings about auction sales and pawn-shops. How long she will be able to pull along, the widow most of the evenings when she is alone, she takes her fancy work that she sells at a Yonge street store, up to her lad's room. So far she has kept it her sanctuary. His things are on the dresser, the mantle, the table, just as he left them. It is a front room, the best in the house. "Rent my room, ma," often re-echoes in the widow's ears, but she keeps on with her stitching. Her future, like her boy's, is "on the way."

Got Past the Censor.

An American citizen, resident at Winnipeg, and well known in the business world there, recently received a letter from a life-long friend, now in Germany. The letter had been censored, but on the whole it was moderately optimistic.

The concluding paragraph had, to the recipient, a strange statement. "I remember how enthusiastic a stamp collector you are, this is the new issue and as one of the first it is worth keeping."

The recipient never had the "stamp fever," but tore off the stamp. Underneath he found lightly written in pencil: "We are starving."

Bounty System.

The bounty system had disastrous effects upon the sobriety of recruits in the old days. Take Mr. Fortescue's picture of the camp at Barham Downs in August, 1799: "The possession of 10 pounds filled the majority of the men with a pride which forbade them to walk to the rendezvous. They rolled up to the camp, riotously drunk, in post coaches, post chaises and six, caravans and every description of vehicle, leaving the officers to plod on foot with such few luckless men as had already left or spent their money."

Try this Thirsty Flour

A very thirsty flour. Absorbs a lot of water. Because it contains so much gluten. Manitoba wheat is wonderfully rich in sturdy gluten. And, think of it, FIVE ROSES is milled exclusively from the very cream of the Manitoba wheat berries. So FIVE ROSES must be awfully thirsty, don't you see. In your mixing bowl it greedily absorbs more water. So you get more loaves than usual without using more flour. You use less. Your flour lasts longer, doesn't it? Less trips to your dealer. That's how FIVE ROSES saves money. Actually saves YOU money. Use this economical flour.

Annapolis County District Division S. of T.

The Annapolis County District Division, S. of T., held their annual meeting at North Williamston on Wednesday afternoon and evening, Jan. 27th, D. W. P., Bro. H. G. Parker, of Belleisle, in the chair.
Meeting opened in due form, after which the order of business was taken up.
A large number of delegates and visitors from the different Divisions of the County were present, whose very presence gave expression to their faithfulness and loyalty to the cause of temperance.
Reports from ten subordinate divisions were received, and whilst in some cases the reports were not very encouraging, owing to outside attractions and lack of interest on the part of the older people in some of the sections, yet as a whole the work throughout the County was very encouraging indeed. The District Treasurer, Bro. A. B. Clarke of Bridgetown, reported in funds \$10.58, and by motion of the meeting \$5.00 of this was to be devoted to the work of the Temperance Alliance, and \$5.00 to the Agency Fund of the Grand Division.
Much comment was made on the good work of the Temperance Alliance, and a resolution was passed that this meeting heartily endorse the action of the Temperance Alliance in its efforts to substitute the Nova Scotia Temperance Act for the Scott Act in Annapolis County.
Bro. Hills of Halifax, representative of the Grand Division, being present, was then called upon, and after extending the greetings of the G. W. P. to this session, pointed out in a few forceful remarks the great work of the Grand Division, and the needs and claims of the Agency Committee. Bro. Hills said the Grand Division not being a law enforcement, but an educative order, to instruct people as to the evils of intemperance, and therefore these agents or representatives were necessary to bring before the minds of people in the different sections these great lessons of truth, and he urged upon his hearers to do their utmost to sustain this great movement in its great work, which he said he was glad to report was making great progress.
Bro. Hills also referred to the good work of the Divisions in the City of Halifax in co-operating with the churches in opening reading rooms and holding socials for the benefit of our soldier boys, in order to draw them away from the influence of the saloon.

The following officers were then elected for the ensuing year:—
Dist. W. P.—T. G. Bishop
Dist. W. A.—Mrs. H. C. Marshall
Dist. Scribe—A. H. Harris
Dist. Treas.—A. B. Clarke
Dist. Con.—Avar Longley
Dist. Chap.—L. W. Elliott
Dist. Sentinel—Jos. Annis, Jr.
Supt. Young People's Work—Miss Cora Parker.
Bro. Hills then proceeded to install the officers.
Meeting then adjourned till evening.
The evening session being in the form of a public meeting, was called to order at 7.30 by the new Dist. W. P. and was opened with singing by the choir and prayer by Bro. Hills. A most pleasing programme was then rendered to a full-house, consisting of vocal and instrumental music, recitations, dialogues and speeches. Those who seem to have grown weary in well doing in Temperance work, should have heard the stirring addresses given by Rev. Mr. Mellick of Lawrencetown, and of Bro. Hills. It certainly would have quickened them to new life and action for the cause of Temperance among the young people and I believe it will have a great and good effect on all Temperance workers present, in earnest in them, a greater zeal and earnestness for the cause.
Bro. I. G. Whitman of Round Hill then spoke in reference to the pleasing programme and the excellent talent displayed, and of the kind hospitality of the members of Ever Hopeful Division, moved a vote of thanks to them, and also to the speakers which was heartily endorsed by all present.
Meeting closed by singing of the National Anthem.
