## GERMANS RETREAT IN GREAT DISORDER FROM WARSAW VIGOROUS ATTACK AGAINST ALLIES' FRONT BEATEN BACK

### GERMANS FLEE AFTER REPULSE NEAR WARSAW

Russian Troops Making Energetic Advance Along Entire Front.

### FOES STILL ON VISTULA

Offensive Taken Against Austrians on San—Huge Battle Line.

**(RUSSIAN OFFICIAL)**

PETROGRAD, Oct. 21.—The Russian official statement issued tonight says: "The German troops which had occupied the roads leading to Warsaw, in the region north of the River Pilzta, have been repulsed and are now in full retreat, leaving their wounded on the battlefield."

"The Germans have abandoned the positions they had fortified in advance."

"The Russian troops are energetically advancing along the whole front. The enemy is still occupying the left bank of the Vistula, south of the Pilzta, and as far as Sandomir."

"The Russians who had been gallantly holding for eight days the region of Kozentz, under most unfavorable conditions and heavy artillery fire, achieved considerable success on October 20, and their position on the left bank of the Vistula is now secure. Advancing Over San."

"The attempt by the Austrians to cross the River San below Przemysl has been checked, and the Russians are assuming the offensive there."

"In the region south of Przemysl are found the remains of all the Austrian corps defeated in prior fights in Galicia. Here the Russian troops are energetically checking the advance of numerous bodies of the enemy."

"There is no essential change in East Prussia. We are at present in touch with an army of front covering over 400 vessels (about 267 miles) from the lower Buzura to the slopes of the Carpathian Mountains."

**RUSSIANS ON OFFENSIVE.**

Canadian Press Despatch. LONDON, Oct. 21.—Of the fighting in Russia the German official report today says no decision has yet been arrived at, but the Russians make a claim of victory which if not a decisive one comes very near being so.

### HURLED GERMANS BACK

Invaders Retired Nearly Five Miles—Fierce Fighting at Lille.

Canadian Press Despatch. FROM THE BATTLEFRONT, via Paris, Oct. 21, 11.35 p.m.—The Belgian army, which the English Channel on its extreme west, is showing a marvelous fighting spirit despite its long and hard campaigning and the bitterness of the loss of Antwerp and other large cities.

In the terrific open struggle which has been in progress along the frontier for several days, the Belgians with the allied French and British have repulsed with the greatest energy incessant German attacks. Today, the German artillery poured a heavy bombardment on the allied positions, but the Belgians, undeterred, delivered a counter-attack and forced the invaders to retire nearly five miles.

Further down the line on the Lys, the French were closely engaged, with general success.

Three French sharpshooters performed a brilliant feat in defending a bridge, the possession of which was of the greatest strategic importance to both armies. The Germans made a cavalry dash in an effort to seize the bridge, but the Frenchmen, behind a mill 75 yards away, poured their magazine fire into their ranks until the latter retired, leaving the bridge in the hands of the allies.

Around Lille, where the British are in action, there has been fierce fighting, particularly in the neighborhood of LaBasse, which threatens the German lines of houses connecting the sister towns of Roubaix and Tourcoing. A baker shop one of the German troops was found in an oven almost suffocated.

Along the centre, the artillery action continued today without great change, but several German trenches were captured.

### WAR PRISONERS NOW IN CANADA

Over Six Hundred German and Austrian Reservists Detained in Different Parts of Country.

By a Staff Reporter. OTTAWA, Oct. 21.—There are 603 German and Austrian prisoners of war in Canada, according to the latest reports which have been received by the government from the various places of detention thru the country. About 400 of these are Austrians and the rest are German reservists who were arrested while endeavoring to make their way to Europe to join the armies of the enemy.

It is double this number have been arrested, but many have been naturalized British subjects and have been allowed their freedom.

That there are more Austrians than German prisoners of war is due to the fact that many German reservists were notified several weeks before the outbreak of the war to report in Germany, and had left Canada before the declaration of hostilities.

The places of detention are: Halifax, St. John, Montreal, Kingston, Toronto, Sault Ste. Marie, Winnipeg, Regina, Lethbridge, Nanaimo and Victoria.

There are 206 prisoners at Fort Henry, Kingston; 106 at Halifax, 58 at Toronto, 3 or 4 at the immigration quarters in Montreal, and 5 in Winnipeg. One German is confined in a box car at Sault Ste. Marie, at Toronto and had left Canada before the war.

The prisoners will remain in detention until the war office decides to exchange them or until the end of the war.

By a Staff Reporter. OTTAWA, Oct. 21.—It is expected that the writs for the by-elections in Quebec and Champlain Counties, rendered necessary by the elevation of Hon. T. Chase Casgrain and Hon. P. E. Blondin to the Dominion Cabinet, will be issued tomorrow. It is not expected that there will be any contest, although there is a rumor that the Liberals may oppose Mr. Blondin.

Canadian Press Despatch. PARIS, Oct. 22, 1.52 a.m.—A despatch to the Havas Agency from Rome says that a report has been received there from Udine, Italy, which states that the Austrian general, Bruderman, the defender of Lemberg, has been deprived of his command and will be court-martialed.

German Submarines Seek Vainly to Prevent Shelling Along Coast.

Canadian Press Despatch. LONDON, Oct. 21, 9.20 p.m.—Although the allies and the Germans have been delivering attacks and counter attacks and fighting of a fierce character have been almost continuous for a week or more, no decision has yet been reached in any of the battles—in West Flanders, Northern France or in East Prussia, Poland and Galicia.

This is clearly evident from the reports issued officially at the various headquarters, which today content themselves with recounting the fact that violent attacks have been made. The French, however, claim that the allies have repulsed German offensive movements at various points in the west.

According to the French communication, the Germans made attacks (Continued on Page 2, Column 6.)

### GEN. ALDERSON VIEWED TROOPS

Princess Patricia's Regiment in Parade—Some Heavy Marches Undertaken by Canadians.

Canadian Associated Press Cable. LONDON, Oct. 21.—General Alderson held an informal inspection of a large portion of the Canadian contingent today, the parade including the Princess Patricia's Light Infantry. Most of the brigades are still one or two battalions short.

The greater part of the artillery did the journey from Plymouth today, and by tomorrow the contingent will be pretty fully established on the plains.

Some heavy marches have already been undertaken by the earlier arrivals.

Three days' leave passes have been fairly generously granted.

No rain has fallen since the camp has been established. The health and spirits of the entire contingent continue at the highest pitch.

### SERVIA REPORTS REPULSE OF FOE

More Successes Over Austrians Announced From Nish—Several Strong Attacks Fail.

Canadian Press Despatch. NISH, Oct. 21, via London, 10.20 p.m.—The following official announcement has been issued by the Serbian Government:

"On the night of Oct. 17-18 attacks by the enemy were repulsed near the Lomniza customs house and the principal positions on the Drina River to the south of that town. On the same night the enemy bombarded Banovlia from the Bejanja heights and also Topchidaleko. The Barbo bridge across the Save and the two Singanilda Islands. None of these operations met with success."

"On Oct. 18 fighting took place along the whole front occupied by our troops in Bosnia, and all the attacks made upon them were repulsed with heavy losses to the enemy."

"On the same day the enemy directed an attack against our right wing in the direction of Montchevo and against Erminoava. Both these attempts were repulsed, as well as one against the Serbians near Belgrade, on the left bank of the front there is nothing of importance to report."

"Nepeture's Daughter." "Nepeture's Daughter," with Annette Kellerman as the star, and which is regarded as the greatest of all picture plays, will be at the Princess Theatre next week, with daily matinees.

### ALLIES AGAIN TAKE ROULERS

Town Has Been Occupied by Both Sides Several Times, But Germans Finally Lost.

Special Direct Copyrighted Cable to The Toronto World. AMSTERDAM, Oct. 21.—The Telegram reports that 40,000 Germans have occupied Roulers, whence they set out last week for Nieuport and Dixmude, leaving one hundred men behind as a guard. Two hundred French dragoons arrived last Sunday and drove out the Germans. Then a few thousand French troops followed and occupied the town, bombarding it.

The Germans returned Monday, bombarded the town and forced an entry. A furious fight in the streets ensued and many citizens were killed. The French retired in good order, saving all their guns.

The Germans burned all the buildings along an entire street in order that their guns might have free play. Many people who had taken refuge in their cellars were burned in this way. The battle was renewed Tuesday, and it is rumored that the allies have retaken the town.

**SUBMARINES FOR TURKEY.**

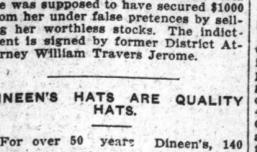

Special Direct Copyrighted Cable to The Toronto World. LONDON, Oct. 21.—A message from Athens states that two submarines and a number of aeroplanes are en route to Constantinople via Rusechnik on the northern border of Bulgaria.

The vessels and air craft are being shipped in sections and will be assembled in Turkey. It is supposed the shipment originated at some point in Germany.

### DINEEN'S HATS ARE QUALITY HATS.

For over 50 years Dineen's, 140 Yonge street, has been reckoned as the "Home of stylish quality hats." They deserve the title, for they are agents for such celebrated hat-makers as Dunlap, New York; Stetson, Philadelphia; Heath and Co., London, Eng., and the best of the best known manufacturers.

It is unreasonable to doubt the correctness and quality of such makers and sold only by Dineen's. Quality certainly counts in hats as all particular dress-makers know. Stetson's soft hats \$4; unbreakable stiff hats \$5. Dunlap's stiff hats are priced \$5. Heath's soft and stiff hats \$2.50 and \$7. The ultra smart styles are shown here, you needn't go farther.

Nothing more was heard of him until Detective Fuller located him at his office at 192 Victoria street, Toronto. From there he removed to 188 Jarvis street, where he was selling stocks in the Standard Radiating Co., Limited, which company is supposed to be incorporated under the Ontario act.

In the hands of the Toronto detective department are four stock certificates in this company, which Flower has sold to residents here. Flower has sold to residents here. Flower has sold to residents here. Flower has sold to residents here.

Wireless Telegraph Company says: "It is reported that Ostend is being bombarded by the British fleet."

The official war bureau makes the following announcement: "The statement from German sources, that there has been a rebellion in British Somaliland, and that Berbera, with all the British officers, has been taken, is entirely without foundation. The situation in the protectorate remains unchanged since the outbreak of the war."

BELGIANS MADE SPIRITED DEFENCE. The official press bureau issued the following statement at midnight: "Through yesterday the enemy made a vigorous attack against the allies' front, but were beaten back, suffering considerable losses. The Belgian army in particular distinguished itself by its spirited and brave defence of its position."

"In regard to the last part of the above announcement by the war office, the press bureau has received from an authentic source the following description of the Belgian army's work, which will be read with pride both by the many Belgians who have had to flee from their native land, and by those allies among whom they are now finding temporary rest and shelter:

"For the last four days the Belgian army have been in the trenches, holding a line of some 30 kilometres (18 1/2 miles) with the greatest determination against heavy odds. On several occasions they have made brave and successful counter-attacks against the German forces, attacking the position they hold, and have shown the soldier-like qualities that have distinguished the Belgian army during the long period they have been fighting against superior forces of the enemy in their country."

LILLE A SEETHING VORTEX.

The German right wing is wavering all along its tortuous length from the force of blows delivered by the allies. Lille is a seething vortex, and both sides seem bent on holding the town, now occupied by the Germans. The French and British troops are gradually closing in on the position, in the face of perhaps the most stubborn resistance which they have yet encountered. Every few yards German trenches and barbed wire entanglements render attacks extremely difficult. These latter have caused the most serious trouble, the time occupied in their destruction exposing assaulting forces to a withering fire from the German trenches. It has been suggested that the men called on to break down these entanglements be provided with such good advantage by the Parisian police in capturing the notorious automobile bandits who fortified themselves in houses on the outskirts of the capital, where they were almost impregnable.

It is also suggested that men be tolled off especially and provided with apparatus to tear down the barbed wire barricades. If this suggestion is acted upon they will become an integral part of each regiment, and will represent a distinct fighting corps of engineers, whose duty will be the most hazardous of almost any force in the army.

Included in the prisoners taken around Lille are a number of 18-year-old boys and men above the 50 mark, providing conclusively that the last German line is now on the field of hostilities. The older men are said to show the fatigue very plainly, many of them being in the greatest physical distress. Very few and distempers arising from the condition of the German trenches are much in evidence.

COMMUNICATION NOT CUT.

Just as the Germans have been unable to make good their advance along the channel, so have the allies failed to cut the line of communication between the Germans in France and those coming from Belgium. All efforts to hack thru the Kaiser's lines have met with repulse, and the allied commanders are loth to make the sacrifice of life which accompanies frontal attacks on a scale sufficient to accomplish this purpose. The flanking operations of General Joffre have proved the most effective in dealing with the invaders, and both the French and British are proving adept in whip-saw manoeuvres, which are marked by a demonstration in force at one point, and sudden, dare-devil drives a few miles away. With these tactics the centre of the German line between the two points attacked nearly always give ground, and a few more miles are gained.

It is declared by correspondents at widely-scattered points that the stand of the allies and the steady receding movement of the Kaiser's army at many points has caused the gravest anxiety among German officers, and something akin to alarm among the German people.

THE KAISER'S PREDICTION.

Both began to fear that the Kaiser's prediction that all of his troops will be in Germany before Christmas may be fulfilled in a way he had not anticipated. Indications of this anxiety are shown in the orders countermanding a big feast which was to have been held at Ghent, where as many officers as could be spared were to celebrate the victory of German arms. The plan has gone by the board, and it is now declared that all German civilians in Brussels have been instructed to leave the Belgian capital within 48 hours. There has been a great movement of German wounded from Bruges, just behind their fighting line in Belgium, and their most advanced base hospital.

From Arras to Roye desperate encounters took place throughout the day. Formidable forces oppose each other on this line, and the clash of the two armies is described as terrible by eye-witnesses. What success there was in this district rested with the allies today.

At La Bassee, Mametz, Peronne, Albert and Vaucouils, all in this zone, the French and British met and threw back vicious assaults of all arms. La Bassee was the scene of especially destructive combats.

In the neighborhood of St. Mihiel, the German crown prince continues to face a steadily tightening line of the republic's troops. His front here, which, to complete the simile, may be cut by a tidal wave advance at a point behind St. Mihiel.

THE NEXT BIG FIGHT.

Reports are persistent that the Germans are hurrying work on a new line of fortifications from Metz to Namur, and thence northward in the general direction of Antwerp. This is believed to be the next bulwark behind which the victors of a few weeks ago will attempt to stem the oncoming allies.

There is no information available of the fighting before Metz, if the French have really reached that fortress, and none of the reported German siege of Belfort on the eastern frontier of France. It was declared from Berlin today that the Germans have reduced sufficient of the outer forts at Verdun to permit the use of big guns on that stronghold. This is denied in French official circles, also it is freely acknowledged that the Kaiser's men are assaulting Verdun with great vigor. This action, the French commanders say, is intended to draw off the French advance toward Metz, or to bring troops from the west. Verdun is sufficiently strong to repel all such assaults without much trouble, they state.

VIOLENT ATTACKS REPULSED.

The official communique of the French War Office, issued this afternoon, was notably laconic: "During the day of yesterday the attacks of the enemy were particularly violent at Nieuport, Dixmunde and La Bassee. They were all repulsed by the allied armies with great energy. "At all other points the situation is without any notable change."

BATTLE BETWEEN LILLE AND OSTEND.

BORDEAUX, France, Oct. 21. (6.30 p.m.)—A great battle is now raging between Lille and Ostend, according to despatches received here this afternoon. The despatches add that the situation of the allies is considered eminently satisfactory thus far.

THREE HELD ON SERIOUS CHARGE.

Elizabeth Coxhead was arrested last night charged with committing an abortion on a young woman at 115 Gladstone avenue. In connection with the case Genevieve Gerard, 426 Dundas street, was arrested by Sergt. McKinnney of the medical department, and Nell Collier, 831 St. Clarens avenue, was arrested by Detective Levitt, both on charges of conspiring to procure an abortion.

CLAIMED TO BE INFLUENTIAL.

Alex. Marcovitch, 60 1/2 Chestnut street, and Urner Bornstein, were arrested yesterday on a complaint laid by people who claimed the prisoner owned a young woman at 115 Gladstone avenue. It was claimed that the police so that gambling joints would not be molested by the police.

WAS H. W. COPELAND.

The body of the man who dropped dead yesterday in the McCarron Hotel, Queen and Victoria streets, was identified last night as that of H. W. Copeland, who was employed at 83 Booth avenue.

The railway leading to Brussels was blown up by the Belgians, and the German line of communication thus was broken.

again are in direct conflict. The Russians say the Austrians have failed to cross the San River and that the Russians are taking the offensive, while near Przemysl the Russians repulsed numerous bodies of Austrians. The Austrians, on the other hand, claim that their attacks are progressing and that the Russians have been driven out of several places. It is thought possible here that the Austrians are taking place further to the south of Przemysl, but that it must be part of the whole operation to get the Russians out of Galicia and threaten their flank.

AUSTRIANS ENTRAPPED.

Canadian Press Despatch. (By way of London, 3.30 p.m.)—Correspondence from Warsaw, giving the details of the recent capture of an Austrian battalion in the region of Stry, Galicia, relates how the Austrians, hearing branches of trees and other foliage to screen their movements, advanced at nightfall. The Russians, feigning ignorance of their approach, lessened the musketry fire, allowing the Austrians to draw near, but meanwhile bringing their machine guns and light artillery into position.

Unexpected Volleys. In the morning, so the story goes, the Russian opened an unexpected and deadly fire upon the emboldened Austrians, who after the momentary confusion, surrendered without resistance before a Russian bayonet charge. Among the prisoners taken were 15 officers. Six machine guns were captured.

A correspondent on the East Prussian front says that activity has been resumed along the entire line from Suwalki to Lyck, where the Germans had been reinforced. German assaults were repulsed, and sharp Russian counter-attacks made. The Germans are engaged in skirmishing and fortification, and appear to have no intention of advancing in force.

FATAL EXPLOSION DUE TO ACCIDENT

Dynamite Discharge at Montreal Apparently Not Intentional—Woman Dies.

Canadian Press Despatch. MONTREAL, Oct. 21.—The mystery of the disastrous explosion in the Frontenac street tenement last night has not yet been solved, but inasmuch as the supposed Austrian bomb thrower, whose dead body was picked up at the scene of the wreckage last night, was a Russian by the name of Peter Ditchper, who is said to have been a boarder in Nickal Bey's portion of the tenement, No. 571 Frontenac street, and on friendly terms with all the inmates, it is thought the explosion may have been the accidental discharge of dynamite stored in the basement by one of the laborers who lived in the house.

Police Inspector McLaughlin, who has been working on the case, appears to regard the wreck as due to an accident. The inquest will open tomorrow. A second death, that of Mrs. Morris Jurinsky, occurred this morning, but it is thought she cannot recover. All the others injured are getting along well. It is believed that the bodies of two Jewish women and a baby are in the ruins.

PRINCE MAX IS KILLED

Body of Kaiser's Nephew Buried by Peasants Who Found It.

Special Direct Copyrighted Cable to The Toronto World. LONDON, Oct. 21.—In northeastern France the situation remains a bit vague, but the greatest optimism is noticeable everywhere. A staff officer just informed me that the Germans are quitting northeastern France as quickly as possible.

PRINCE MAX IS KILLED. (Continued) The body of Kaiser's Nephew Buried by Peasants Who Found It. (Continued) I am informed that allied troops found near Caestre the body of Prince Max of Hesse, killed by revolver shots. He was clad only in his tunic and socks. Up to the present the means by which he met his death is unexplained.

PRINCE MAX IS KILLED. (Continued) The body of Kaiser's Nephew Buried by Peasants Who Found It. (Continued) He was buried in a rough coffin made in a homely way by peasants of the neighborhood. No French priest could be found who would read the burial service over the dead man, a nephew of the Kaiser. Tuesday was his twentieth birthday.

PRINCE MAX IS KILLED. (Continued) The body of Kaiser's Nephew Buried by Peasants Who Found It. (Continued) It is remarkable how quickly conditions of life in the territory evacuated by the Germans returns to the normal. The day after the invaders left Hazebrouck the refugee population returned and resumed their affairs where they left off when the Germans came. Business began again in the usual way. The price of cauliflower, eggs and pigs was the negrosing topic with the fugitives of the day before. They completely dismissed the war from their minds.

PRINCE MAX IS KILLED. (Continued) The body of Kaiser's Nephew Buried by Peasants Who Found It. (Continued) Concerning the prospects of the allies, it may be said that the prospect of retaking Brussels within a month is in the bounds of possibility.

THURSDAY MORNING, OCT. 22.

More Haste, Less Speed

A question of veracity has arisen between Mr. George Gooderham, M.L.A., and Ald. McBride, and the city council evidently felt that the weight of the evidence lay with Ald. McBride. The matter would be of little moment in itself if more important affairs were not depending upon it.

The whole trouble arose in the first place apparently from the desire of Mr. Gooderham and his associates to rush things thru in the boss-like or kaiser-wise fashion which is more popular in Germany than in Toronto. The principle that the city council must have the last word in any agreement to which it is expected to commit the city must be respected.

Mr. Gooderham has explained that Mr. Johnston saw the agreement, and it is to be presumed he thought this was the same thing. Ald. McBride and the city council did not think that a hasty perusal just before the meeting of the council was at all equal to drawing the agreement, and hence the passage at arms.

We believe both parties desire to hasten the construction of the road and the employment of those out of work who are looking forward to this opportunity. Ald. McBride will undoubtedly assist to this end, but he cannot be blamed for seeing that everything was done in proper order.

The Tar Baby

If The Toronto Globe keeps on "squealing like a little pig caught in a gate," as Mr. Rogers rather neatly puts it, the Conservatives will be sorely tempted to go to the country. The first rule of strategy is always to do what the other side does not want you to do. No one hearing the piteous appeals of The Globe and The Star can escape the conviction that they are frightened to death at the thought of a general election.

But perhaps The Globe really wants an election and is taking its cue from the strategy of Br'er Rabbit, who found himself stuck in the tar and completely at the mercy of his old enemy, Br'er Fox. Br'er Rabbit, it will be remembered, pitifully pleaded not to be thrown into the bramble bush. He preferred any other punishment, indeed he seemed in such terror of the bramble bush that Br'er Fox finally threw him in. This was of course just what Br'er Rabbit wanted; he could clean off the tar at his leisure and the fox could not get at him. "I was bawny in a bramble bush," he called back to the wily but discomfited Br'er Fox.

It may be that the opposition, somewhat sticky and muzzed up from its squeaking with that tar baby, the naval aid bill, would just as lief be thrown into the bramble bush of a general election. It that be the case then The Globe is doing a great work.

That Flat Increase

The thirty-eight railroads operating north of the Ohio and east of the Mississippi are now busily engaged before the interstate commerce commission in an effort to get a flat increase of five per cent. in freight rates. Last summer the commission refused the flat increase east of Pittsburg, except as to certain commodity rates, but suggested that something might be done in the way of raising passenger rates. Since then the price of mileage

A POISONOUS FUNGUS

books has been advanced from \$20 to \$22.50. The roads for some reason did not avail themselves of the advance in freight rates accorded them by the commission in July, but insisted that they must be given the flat increase. President Wilson was won over to their views and there was an effort made to stampede the interstate commerce commission by a cry that the war had ruined business.

June in October

By a turn of the fairly diamond October was transformed into June yesterday. Toronto had such a day as only occurs in the most wonderful climate in the world. We had the balmy breezes which are reputed only to blow in semi-tropical lands. It is to be noted that our official temperature yesterday, taken at Dr. Stupar's clinic at noon, found us at 74 degrees.

Nothing is more deceptive than a June day in October. It is splendid to celebrate Trafalgar Day upon or to visit the country, but it is also the kind of a day that opens the pores and prepares one for gripe and other maladies if proper precautions are not observed.

To offset this, we have the universal remedy, quite as delightful as the June day in October, the glorious Ontario apple. An apple a day keeps the doctor away, and yesterday was just the sort of a day on which the doctor should have been thought about and entrenchments prepared against him.

War and the Street Cars

Before the Ontario Railway Board statements have been made about the falling off in the traffic of the street railway system, which throw much light on the effects of the war on local business. Confidential information obtained from employers of labor show that the reduction in the staffs of some of the largest firms in the city has reached serious proportions. The reduction quickly made its influence felt upon the receipts of the street railway company, and indirectly the city will feel the pinch again thru loss of revenue in the percentage of returns.

The judge remarked that he could not believe that the prisoner was not mentally sound and sane, and passed sentence as stated.

STANFORD—KENNEDY.

Trinity Church, Cornwall, was the scene of a happy event on Tuesday morning, Oct. 20, when Miss Eva May Kennedy, daughter of Mr. and Mrs. Alexander Kennedy, and Frederick W. Stanford, formerly of London, Eng., were married by Rev. W. Netten, M.A., rector of the church. The bride, who was given away by her father, looked very charming in a blue traveling costume, and carried a shower bouquet of white chrysanthemums. Mrs. Kennedy, sister-in-law of the bride, acted as matron of honor, her dress being of black silk with touches of green. Mr. Alexander Kennedy, brother of the bride, supported the groom. The bridal party afterwards drove to the home of the bride's parents, where a dainty luncheon was served. Mr. and Mrs. Stanford left on the International Limited express, on a wedding tour, embracing Toronto, London and Windsor, Ont., and on their return will be the recipient of many handsome presents, among them a set of sterling silver teaspoons from the choir of Trinity Church, of which the groom is a valued member.

PUZZLER FOR BOARD

Hearing Adjourned Last Night — Geary Presents Case for Toronto.

At the close of an adjourned hearing before the Ontario Railway Board this morning the Toronto Street Railway will know whether or not they must follow the board's original order calling for a capital expenditure of three millions in car and track extension. For two hours yesterday, counsel for the company presented reasons why the order should be retracted. They claimed an amazing decrease in passenger traffic in the last three months and urged the practical impossibility of raising the money demanded. In spite of the offer of Corporation Counsel Geary to assist in gaining necessary bonds thru civic co-operation, it was claimed that conditions did not warrant extension and that the present equipment would handle the crowds well. Chairman McIntyre acknowledged the basis of their argument to be worthy of consideration.

H. S. Osler, for the company, stated that figures from business firms showed that only 25,750 persons were now engaged in the downtown business district, in comparison with 46,100 of last year. This was a 40 per cent. decrease, but it was challenged by Mr. Geary, who claimed that a fair comparison would show an increase. \$100 Less a Week. In comparing the company revenue for August and September in 1913 and 1914, Mr. Osler found a decrease of \$1,000 for August and of \$25,000 for September. The present month continued the same decrease. This, claimed counsel, meant that 739,000 more passengers had traveled last year than this.

The chairman asked for the aggregate fall-off in revenue from passengers. On being told that it was \$55,000 he questioned the estimate. "That works out to over a million," he said, "and not to 73,000, as you quote. Your figures are wrong somewhere, on the basis of carrying 25 people for a dollar." Mr. Osler stated that whereas persons carried referred to actual passages; the money referred to formed the actual receipts. "We are actually taking in \$1000 per day less than we did last year," he said. "This is only the beginning of the decrease." After quoting figures to show this the counsel changed his tack, referring to the difficulty of raising funds for the company, which had but seven years to run, in examining C. R. Barnes, the expert who had reported, Mr. Osler asked him if he thought, in view of the conditions of the money market and the added arrears throughout the year, that the extra outlay was required. The answer was that conditions allowed the necessity.

Chairman McIntyre confessed some ground for the argument. He thought some of the re-routing matters should obtain first consideration because of this. "Anyone standing on the street corners can see that the street car traffic has fallen off enormously. The expenditure we ordered was large, so large that the company could not now raise it with ease. Not being able to see how long the conditions will continue we cannot know how long the money market will make it prohibitory for the company to raise the money. The question is a difficult one for the board."

Mr. Geary expostulated against the board "throwing up its hands." The company should raise the money as others had done. The citizens were not getting a reasonable service and the over-crowding menace still existed. "We should be moving in the opposite direction now that there is a war on," he said. "It is not fair to the public of Toronto to allow the company to back down now when the first pinch comes. Mr. Barnes stated that had similar conditions to those of the present existed when his report was made it would have modified his recommendation. The resumed hearing is at 11:30 this morning."

While attempting unobserved to  
board a passenger train here today

well-dressed Germans were arrested  
by G. T. R. Constable Anderson. One  
told the immigration officers that he

out on parole. Wolfe gave his address  
as 48 Elmwood street, Toronto. His com-  
panion said that he was Ernest Neefe,  
120 George street, Toronto. Both said  
that they had been in Canada since  
May 23, and had been as far west as  
Calgary. Wolfe is said to be a gradu-

scar on top across his right cheek. His  
father is a member of the German  
Government. The military authorities  
took charge of the two. Both were ap-

### M'MASTER EASY FOR ST. MICHAELS

Intermediate Champions Run  
Up Big Score — Canfield's  
Good Work.

St. Michael's College won their second game of the week when they swamped McMaster in an Intermediate Intercollegiate fixture at the Stadium yesterday 46 to 8.

The Saints had Canfield and Ryan, the two men who have been working with Varsity seniors, and St. Miqués supplied a starting brand of football. They showed some pretty trick plays that were pulled off with a snap that was good to look at. Their line held superbly, and they tackled like fiends and bucked for yards time without number.

Canfield worked as a half, and his running was a big factor in the victory. Coker, a new man this year, was very useful with some runs despite the handicap of a damaged hand, received in the game with Varsity on Monday. Broderick's kicking was up to his usual good style. He converted four tries in nice fashion. The Saints failed to show a weak spot anywhere, and look good to defend their title of champions.

The Saints opened with a dash. Broderick kicked and ran his wings inside. Canfield muffed five yards out and Colgan secured and went over for the second try, that was also converted by Broderick. Canfield was forced to route for McMaster's first point. Canfield fumbled one and McMaster were in possession ten yards out. Philpott kicked behind and Coker was forced to route. The quarter ended without further scoring and the Saints leading 12 to 2.

St. Michael's tried an end run but it resulted in a fumble. Hisey dribbled one to the 40-yard line and then Broderick booted to Bryan, who kicked. Campbell recovered for the Saints. There was no further scoring and at half time it was 12 to 2 for the Saints.

The third quarter was a lull for St. Michael's, and they ran their points up to 20. Broderick booted to Bryan for a route. Forster tried to get the ball when two McMaster backs failed to gather in Broderick's kick and fell on it for a try that was not converted. Canfield rode thru the centre for many yards, and the Saints bucked Colgan over from the 5-yard line for McMaster's second try. Hisey scored five for McMaster when he blocked a kick, grabbed the loose ball and went over for 8 to 8 at the end of the third quarter. By a succession of backs Nealon was shoved over center for a route. Canfield went round the end thirty yards to score another and then Canfield in-lined. **Federal Magnates Also Prefer Peace**

CHICAGO, Oct. 21.—James A. Gilmore, president of the Federal League, and E. E. Gates of Indianapolis, general counsel for the league, today postponed until tomorrow their departure for New York to attend the annual meeting of the organization on Friday.

Charles Weeghman, president of the Chicago Club of the Federal League, was authority for the statement that all differences between organized baseball and the Federals would be amicably adjusted at the New York meeting.

"Organized baseball is eager for peace," Weeghman said, "and our owners, altho determined to fight to a finish, would prefer some arrangement whereby club-owners of the National American and Federal Leagues might operate in harmony."

Charles Thomas, president of the Cubs, today confirmed the report that certain Chicago business men, whom he declined to name, have an option on the team.

"There are six of them; they are friends of mine, and if they take the club I will retain the presidency," said Thomas.

MULTIPLIED LOSSES JUST HUNDRED TIMES

Russians Make Reply to Fabrications of Berlin and Vienna.

CANADIAN PRESS DESPATCH. PETROGRAD, Oct. 21.—A statement regarding the claim of the Austrians that the Russian casualties around Premysl exceeded 40,000 men is made public here by the official news agency. It reads: "The German official communications have adopted a policy of grossly exaggerating the Russian losses. It is announced here that the records in this matter are kept and from it is known that the Austrian announcement that the Russian losses in Premysl are about 4,000, exceeds the real losses one hundred times."

OCCUPATION OF OSTEND OF LITTLE ADVANTAGE

CANADIAN PRESS DESPATCH. LONDON, Oct. 21.—(5 a.m.)—The correspondent of The Times in Northern France, in showing how the German plans have been deranged by the strong pressure of the allies on the left, says: "The occupation of Ostend had little strategic advantage. Dunkirk is strongly fortified and an attempt to move on it would be dangerous to the Germans, while Calais is well able to look after itself. The fighting in the daily has undergone variations which were totally undesigned."

PHONES IN POLAND USED BY GERMANS

Headquarters "Tipped Off" by Ingenious System—Russians on Alert.

CANADIAN PRESS DESPATCH. PETROGRAD, via London, 4.35 p.m., Oct. 21.—Refugees who have reached Petrograd from Russian Poland have brought information concerning a secret system of communication by telephone, of which the Germans have made extended use.

They relate that when German troops enter a town in Russian Poland, some officer at once asks to be directed to the home of a non-Polish resident, giving the man's name. In the house of this individual there is invariably found a telephone, and the cellar is well stocked with benzine or gasoline, canned soups and other provisions. By the use of this telephone the Germans endeavor to establish communication with their rear. They inform headquarters of their exact whereabouts and at times even seek from villages ahead of them information as to the best roads for their advance.

The Russians are now taking steps to destroy this system of communication, which is said to be widespread in Russian Poland.

MUNSTERBERG TO STAY AT HARVARD

Withdraws Resignation—University to Lose Ten Million Dollar Legacy.

CANADIAN PRESS DESPATCH. CAMBRIDGE, Mass., Oct. 21.—Prof. Hugo Munsterberg has withdrawn his resignation from the chair of psychology at Harvard University "at the request of the authorities," according to an announcement made tonight.

The resignation was submitted recently after Professor Munsterberg had learned that the university had received a communication from Major Clarence Wiener of London, threatening to withhold a legacy of ten million dollars to Harvard unless the professor was dismissed. According to information regarding Major Wiener's communication it is said that he had already provided in his will for such a legacy and had added a cancelling clause to take effect if his wishes regarding Professor Munsterberg were disregarded. His objection to the head of the university's psychological department was based on the latter's pro-German utterances since the opening of the European war. The announcement of the withdrawal of the resignation appeared in the columns of The Harvard Alumni Bulletin, and it was understood the bulletin's announcement would be the only thing approaching an official statement.

The Bulletin says categorically that the university cannot afford to admit "suggestion that it would be willing to accept money to abridge free speech," to remove a professor, or to accept his resignation.

The temporary quarters of the workmen's compensation commission provide a scene of great activity these days, as the returns from employers throughout the province come in.

These lists of assessment are liable to revision year by year, according as pay rates vary. The board at the present time is in possession of a tremendous amount of detailed information concerning the workers of Ontario, and a gratifying response is being made to employers. The latter are being advised this month as to their liability under the act.

It is understood that the appointment of auditors will be proceeded with shortly, so that the field staff may be put out into the province at the earliest possible opportunity.
