## GERMANS HELD UP AT KOVNO AND REPULSED SOUTH OF RIGA

### Bulgaria Demands Large Section of Macedonia From Serbia

#### MAJOR-GENERAL HUGHES FINNS CANADIANS IN EXCELLENT SPIRITS AT THE FRONT

### FIND CANADIANS IN MAGNIFICENT TRIM AT FRONT

General Sam Hughes and Party Pay Visit to Division's Fighting Men

POPULAR WITH OTHERS

British Soldier Displays Greatest Devotion and Courage in History

Canadian Associated Press Cable.  
LONDON, Aug. 13.—Major-General Sam Hughes received a number of newspapermen tonight to whom he gave a description of his visit extending over eight days to the front. His party crossed over to France and returned to England in destroyers, among those accompanying him being Lord Brooke, Sir Max Aitken, Colonel Carrick and Capt. Guest.

General Hughes paid a tribute to the efficiency of the transport service. While visiting the Canadian division, he was accompanied by Prince Alexander of Teck. He found the Canadians in excellent spirits. He remarked, "I gave the lads some cheery words, but really they did not need any cheering up."

He stayed three nights with Field Marshal Sir John French and he had the honor of being received by the King of the Belgians. He met General Joffre and General Foch.

French soldiers splendid. French soldiers splendid. French soldiers splendid. French soldiers splendid. French soldiers splendid. French soldiers splendid. French soldiers splendid. French soldiers splendid. French soldiers splendid. French soldiers splendid.

Referring to the British troops, Gen. Hughes said: "The British soldier has always been a marvelous man, but not in the history of the world and in some of Britain's wars have there been greater heroisms, pluck, devotion and courage displayed than in this war. The inspiration which they have is not simply to thrash the Germans, but to beat them to preserve the spirit of liberty."

Canadians Popular. Speaking of the relations between the Canadian troops and others at the front, Gen. Hughes remarked: "What charmed me was not only the popularity of the Canadians with the British forces, but also the excellent way in which the Canadians got on with the people of the country both in France and Belgium. There is no doubt about the popularity of the boys in England."

There will be an inspection of Canadian troops Monday by Princess Alexandra of Teck.

### ADMIRALTY TO BUY NOVA SCOTIA COAL

Sir Robert Borden Reveals New Source of Supply for Navy

LORD KITCHENER SEEN

Interview Held With War Minister and Chancellor of Exchequer

Canadian Associated Press Cable.  
LONDON, Aug. 13.—In the course of his discussions with the government departments here Sir Robert Borden, Canadian premier, has brought forward the ability of Nova Scotia to supply coal of equal quality to the best South Wales article. The provincial general is in communication with the admiralty on the same subject.

Sir Robert Borden had an interview today with Lord Kitchener and also the chancellor of the exchequer. Sir Robert also visited the Wandsworth Hospital and addressed a gathering of about 250 British Canadians and Australians. He afterwards met each of the Canadian officers and men. Sir Robert is going to Bexley Heath tomorrow to call on Sir Charles Tupper. He will also visit the hospitals in the vicinity.

### WEST'S CROPS BEST KNOWN

By a Staff Reporter.  
VANCOUVER, Aug. 13.—Just arrived. All indications are for a bumper crop in every province. Cannot describe the greatness of present prospects. An employee of the C. P. R. for the past eight years between Toronto and Vancouver says the present crop is the best ever. I saw grain cut in every province. The weather is fine and hot all the way. I never saw more optimistic Canadians than those interviewed from Winnipeg west. The Vancouverites are looking forward to a prosperous time this fall.  
T. Williamson.

### ITALIANS DESTROY ENEMY SUBMARINE

Austrian Undersea Boat U-3 Sunk in Lower Adriatic Sea

COAST BOMBARDED

Railway, Signal Stations, Factories, Towns Shelled by Huns

ROME, via Paris, Aug. 13.—The ministry of marine tonight made public the following official communication: "Yesterday morning in the lower Adriatic the Austrian submarine boat U-3 was sunk. The second officer and eleven men of the crew were saved and made prisoners."

AUSTRIAN COSTAL RAID

VIENNA, via London, Aug. 13.—The following official communication was issued today: "The naval commander reports that early Wednesday our ships bombarded the Italian littoral railway from Molitetta to Seno San Giorgio. At Molitetta four factories and two railway viaducts were heavily bombed. One viaduct was shattered and one factory set on fire. At San Spirito the station and several depots were burned to the ground. At Vari the castle signal station and five factories were bombarded. One of the latter was destroyed. The whole of Bari was covered with clouds of dust and some of the population was panic-stricken. Italian guns of medium calibre fired ineffectively on our destroyers. An attack by a hostile submarine also failed."

### BIG GOLD STRIKE REPORTED IN TOWNSHIP OF PECUD

NORTH BAY, Ont., Aug. 13.—Commissioner Lee is the authority for the statement that a big gold strike has been discovered at Mileage 153 on the T. & N. O. The whole Township of Pecud has been staked out, and the rush of prospectors is growing daily.

PLANT AT KINCARDINE DESTROYED BY FIRE

Patterns for Shell-Making Machinery Burned—Incendiarism Suspected

Special to The Toronto World.  
KINCARDINE, Ont., Saturday, Aug. 14.—Fire believed to be of incendiary origin, completely destroyed the three-story brick building and plant of the Hunter Bridge and Boiler Company early this morning. The company was about to start manufacturing shells. Patterns of the special machinery being installed were burned. It is thought that German sympathizers were responsible for the fire. The loss is estimated at \$20,000.

TURKS CLAIM GAIN NEAR SEDDUL BAHR

CONSTANTINOPLE, Aug. 13.—(Via London, Aug. 14.)—The war office today made public the following official communication: "Within three days we have captured eight machine guns and munitions near Avi Burnu (on the Gallipoli Peninsula). Our artillery has hit a hostile warship off Avi Burnu. "Near Seddul Bahr, on the right wing, we took trenches of a hundred yards by storm."

### THIRTY MILLION PEOPLE WILL BE ENROLLED SOON

Great Britain's National Registration Will Take Place Sunday Next

FORMS DISTRIBUTED

Machinery Rapidly Created for Great Task by Registrar-General

Special Cable to The Toronto World.  
LONDON, Aug. 13.—All the forms for Britain's national registration have now been distributed and must be filled out during Sunday. Bernard Mallet, registrar-general of Great Britain, who carried out the entire arrangements gave today some facts concerning the workings of the scheme. It is essential to remember that national registration, nothing of the kind has ever been attempted here. The censor applies only to householders who must give the names of all people staying in the house on a particular date. But these forms must be filled out by every person between the ages of 15 and 66.

New Machine Set Up. "We have no government machinery for such a task. No government department could handle it alone. We are far too overburdened with work, besides being mainly unassisted control. Consequently we have been obliged to set up new machinery, and, as the act of parliament was not passed until the end of July, we have scarcely had time to do the whole thing."

It is estimated that 25,000,000 must fill in the forms, but we have only 20,000,000 against contingencies. More than 200,000 enumerators will be employed in the distribution, explanation and collection of the forms. They have been printed in numerous languages, including Chinese. We hope to have the calculated results by the end of next week, while expecting that the 2000 local registers from which the central register will be compiled to be ready in fortnight later.

Cost Comparatively Small.

"Also the printing is enormous, we hope to complete the register for a comparatively small sum. I expect the total expense not to exceed \$250,000 but the outside limit which I do not believe it is possible to reach, will be \$500,000. We are able to do the work thus cheaply because of the enormous amount of voluntary help placed at our disposal. It seems as if the everyone with their time available has volunteered to aid us. "Also our time has been so short we have been able to establish a central instruction school for enumerators in London, later sending them out thru the provinces to give advice. By this means we expect to have the register completed in record time."

### KOVNO ATTACKS ABANDONED BY GERMAN FORCE

Teutons in Riga Region Also Driven Back by Russian Force

TOWNS EVACUATED

Sokolow, Siedlce, Lukow Given Up by Withdrawing Muscovites

PETROGRAD, via London, Aug. 13.—The Russian war office, in an official communication tonight, admits the evacuation of the Towns of Sokolow, Siedlce and Lukow, to the east of Warsaw, but announces that the Germans in the region of Riga have been driven back, and that near Kovno, under the pressure of the Russians, they have abandoned their attack. "The communication says: "In the region southeast of Mitan the Germans have been driven back by our troops beyond the River Aa. In the course of the enemy's retreat we made prisoners. In the direction of Jacobstadt, Dvinsk and Vilkomir we have also continued to press the enemy, overcoming his desperate resistance. "In the Kovno district the Germans have temporarily abandoned their attack. An artillery engagement continues. "Troops Make Good Retreat. "On the front between the Narew and the Bug our counter attack delivered on the 11th has helped our troops to advance."

(Continued on Page 2, Column 1).

### ITALY TO LIMIT PRICE OF WHEAT

Disclosure of Plan Led to Sharp Break at Chicago

CONTRACTS DROPPED

Italy Unlikely to Buy More U. S. Wheat for Some Time

CHICAGO, Aug. 13.—Authoritative explanation was obtained tonight for the sensational action of exporters in suddenly cancelling during the last 48 hours contracts for large amounts of wheat purchased in the United States, roundly estimated at two million bushels. The announcement of the cancellation caused wheat prices to break widely here today, the downward plunge at one time amounting to as much as 4c to 4 1/2c a bushel, smashing the market to \$1.07 for the September delivery. "Most of the contracts cancelled were on wheat that had been intended for Italy. The buyers, according to one of the largest exporters here, found all prospective profits cut off by a plan of the Italian Government to fix maximum prices or otherwise circumvent speculation. "How It Happened. A careful statement of the situation resulting was made this evening by an exporter. He says that what has happened is probably this: "There has been in the last few weeks quite a large amount of wheat bought by Italian firms or private individuals, and to such parties the Italian Government may have issued an order prohibiting or regulating speculation by the Italian grain dealers with millers and consumers thru the kingdom. On this account the Italian importer may have figured greater advantage in sacrificing his profit on purchases from the United States than in letting the contracts be shipped showing good paper profits, but which and more might be lost by efforts of the Italian Government to give the consumer as cheap wheat as possible. Much of the wheat bought by Italy last winter was sold to the consumer at cost. "Just now, the Government of Italy is not likely to buy wheat in the United States, not only because they think our prices are too high, but on account of high exchange."

### WILL ANOTHER BANK MERGER BE SANCTIONED AT OTTAWA?

The World announced yesterday that a Montreal bank was attempting to run off with an Ontario bank, or in other words a merger was in contemplation. We further announced that at a meeting of the directors of the Ontario bank concerned early this week, they had voted for the merger. Further enquiry yesterday elicited the fact that it was the Bank of Hamilton that was to be absorbed, and that the Royal Bank of Montreal was to do the absorbing.

The announcement created a great deal of interest in financial and business circles of Toronto, and there was an almost unanimous expression of opinion that the thing should not be allowed; that it was against public interest; that it was against the Province of Ontario, where all the capital of the Bank of Hamilton originated, to transfer the control of this capital to another province, and that it tended to create a consolidation of bank capital in a few hands, and perhaps in the hands of men who thought as much of floatations as of supplying banking facilities to the public of whose money they were the custodians. This same Royal Bank is the one that absorbed the "Traders' Bank of Toronto, not so long ago, and in that case also transferred the control of a large block of Ontario bank capital to Montreal. The people were assured in parliament that there would be no more such deals. Announcements in last night's evening papers threw a good deal of light on the transaction, one of them going so far as to say that the deal had been practically concluded, and the other that the minister of finance, who was in the city yesterday, knew nothing about the proposition, altho the law is that no such deal can take place without his consent in writing. Here is what was published in The Telegram:

Earlier reports attributed the sensational break in wheat to a belief that the Dardanelles would soon be forced.

### ALLIES EXERT FURTHER PRESSURE UPON SERBIA

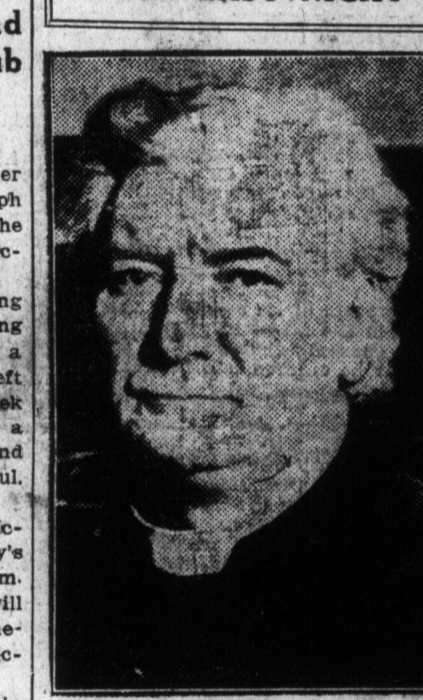

Assistance When Peace Negotiations Are Reached Promised in Return for Concessions to Bulgaria.

ROME, Aug. 13.—It was learned here today on good authority that representatives of Great Britain, France, Italy and Russia are exerting further pressure on Serbia in the hope of inducing her to make the desired territorial concessions to Bulgaria. Serbia has been reminded of the support which she has received since the beginning of her difficulties with Austria last year. Assurances have been given to Serbia that the allies will assist her at the time of peace negotiations provided she now yields to their desires.

### Monsignor Jos. J. McCann Passed Away Last Night

Late Vicar General Held Many High Positions in Catholic Church and Founded St. Mary's Club for Young Men.

DIED LAST NIGHT

Vicar-General McCann, well-known prelate, who succumbed to paralytic stroke.

After an illness extending over about three weeks, Monsignor Joseph McCann died at 7:15 last night at the residence of the vicar-general, McDonnell square. About three weeks ago, according to Dr. Charles McKenna, the attending physician, the late vicar suffered a hemorrhage of the brain, which left him quite ill. Another followed a week ago and since that time he was in a more or less comatose condition and his recovery was considered doubtful. "Body Lies in State. The body of the late Monsignor McCann will lie in state at St. Mary's Church, Bathurst street, from 1:30 p.m. Sunday till 10 a.m. Monday. It will then be taken to St. Michael's Cathedral, where His Grace Archbishop McNell will sing the Requiem Mass. "Mgr. Joseph J. McCann was born in Fort Hope, Ont., June 6, 1844. He was educated at St. Michael's College, Toronto, and the Grand Seminary, Montreal. His first pastorate was in St. Catharines in the years of 1867-8. He was stationed at Gore Parish, County of Peel, in 1869. "The late vicar-general was made a domestic prelate by his holiness in 1905, and was vicar-general of the diocese of Toronto for a number of years. He was widely known and respected, and was noted for his exceptional gifts as a speaker. For a number of years he was chairman of the separate school board, and was the founder and was bought by J. Phillips for the L. Coffee Company at \$110 a bushel. Farmer Stirling is evidently one of those trying to do his duty to the empire.

Farmer of Scarborough Township Has Won Envious Distinction

FIRST FALL WHEAT ON TORONTO MARKET

To J. Stirling of Agincourt, Scarborough Township, is awarded the honor of marketing the first load of fall wheat on the Toronto market. The wheat was harvested prior to the big rain and was an excellent sample. It weighed 62 pounds to the bushel and was bought by J. Phillips for the L. Coffee Company at \$110 a bushel. Farmer Stirling is evidently one of those trying to do his duty to the empire.

ITALIANS REPULSE AUSTRIAN ATTACKS

Enemy Made Great Artillery Preparations, But All in Vain

SOME GAINS MADE

Austrians Were Dislodged From Western Slopes of Monte Piana

ROME, via Paris, Aug. 13.—The following statement from the Italian general headquarters, dated Aug. 13, was made public tonight: "In Cadore the close proximity of our lines to those of the enemy, as a result of the progress made by our recent offensive movement, has resulted in slight attacks and counter-attacks by each side. "On the night of Aug. 11-12 the enemy, after great artillery preparation, advanced against our new positions on top of Colditana, on upper Cordevole, but was repulsed. "On the other hand our troops succeeded in dislodging the enemy, who was entrenched on the western slopes of Monte Piana at the head of Palterzen. "On the Isonzo front the enemy made demonstrations, which were easily repulsed, against our positions on the spurs of Riem and Melli in the Monte Nero range and against heights recently conquered by us east of Flava. "On the Carso front the night of the 12th during a violent storm the enemy tried to surprise our advance works, most menacing to him, but without any result."

### ITALIANS DESTROY ENEMY SUBMARINE

Austrian Undersea Boat U-3 Sunk in Lower Adriatic Sea

COAST BOMBARDED

Railway, Signal Stations, Factories, Towns Shelled by Huns

ROME, via Paris, Aug. 13.—The ministry of marine tonight made public the following official communication: "Yesterday morning in the lower Adriatic the Austrian submarine boat U-3 was sunk. The second officer and eleven men of the crew were saved and made prisoners."

CONTRACTS DROPPED

# GERMANS NAME CHIEF GENERAL TO TAKE KOVNO

## Brave Resistance of Russian Town Thwarts Plans of Enemy

### SETBACK IN NORTH

#### Czar's Men Drive Back Foe Considerable Distance in Baltic Area

LONDON, Aug. 13.—Field Marshal Von Hindenburg has personally taken command of the German army attacking Kovno, and, according to the latest German official report, has made further progress in the fighting against the Russians in that region.

The selection of Germany's national hero for the duty of capturing the fortress of Kovno, which stands between the Germans and Vilna and the Warsaw-Petrograd railway, is an indication of the importance of the Russian general staff attaches to the operation.

The news that the civilians had commenced to evacuate Kovno, as well as Vilna led to the belief in many quarters that the Russians either had decided to give them up or had no hope of holding them. Now, however, they are fighting hard to retain both cities and in the latest official report from Petrograd it is announced that the Russians have repulsed the German attacks, except at one point where a desperate artillery engagement is in progress.

**Germans Suffer Setback.**

Further north between Poniaweh and Dvinsk where Gen. von Euelow a week ago was advancing rapidly toward the railway, the Germans have suffered a setback. For the Russians now speak of pressing them, and declare they have re-occupied the Town of Tovin, which is considerably west of the point to which the Germans had penetrated.

South of Riga also, the Germans are said to be doing little more than holding their own, so that the talk of advancing toward Petrograd seems to be developing very slowly. It is reported that the occupation of Sledice, and within a short distance of the Bug River, one of the main supports of the East-Prussian line, which the Germans believed the Russians originally intended to hold, but which the German offensive to the north may prevent.

**Field Marshal Von Mackensen,** who commands the Germans in the south-east, between the Bug and the Vistula, again is reported to have been held up by a Russian counter-attack. Military circles declare that if he is not farther north than the Vistula, he certainly is not farther north.

A majority of the military critics credit the tardy news that Grand Duke Nicholas will try to hold the Brest-Litovsk front.

# GERMANS ABANDON ATTACK ON KOVNO

## Stout Resistance of Russians Proved Too Much for Teutons

(Continued From Page 1.)

troops in the sector north of this front in their retreat on the positions situated further back.

In the middle Vistula region, in conformity with the general situation, we have evacuated Sokolow, Sledice and Lukow.

"In general, the front on which our troops are operating on the bank of the Bug there was no important engagement yesterday. On the right bank of the Bug and on the Zlota Lipa and Dnieper Rivers there is no essential change in the situation."

# RUSSIANS MAKING GOOD RETREAT.

**AUSTRIAN HEADQUARTERS,** via London, Aug. 13.—Despite the resistance which the Russians are offering to the pressure of the Austro-German armies on the northern and southern flanks, the Russian armies in Poland are steadily being jammed and crowded together into a mass the orderly retreat of which is becoming more and more doubtful.

On the southern wing where signs of breaking were observed in the battle ground Lubow, the enveloping allied forces again have inflicted a number of severe blows and driven the Russians' rearwards in upon their main body. The Prussian guard corps particularly distinguished itself in the fighting in the difficult swamp and scrub country westward of the Bug. It has broken the most energetic Russian resistance in this region and accelerated Field Marshal Von Mackensen's whole advance against Brest-Litovsk.

A statement issued at Petrograd a few days ago said that the Russian forces in the southern sector of the Warsaw salient would disperse in small units and retreat at a secret rendezvous. It is probable that it is this operation that is deceiving the Austrian headquarters, hence this story.

# GRADUALLY RETIRING.

**VIENNA, Aug. 13.**—The following official communication was made public tonight:

"In eastern Galicia and the region of Vladimir Volynsky there is no change in the situation.

"Westward of the Bug the Austro-Germans continued their pursuit of the enemy, who is gradually retiring.

"Northward of the lower Vistepz the Austro-German troops have reached Rudzy and the Germans are approaching Vlodava.

# HOTEL TECK

The excellent service maintained merits the appreciation of the many business and professional men who lunch and dine at the Hotel Teck. Romanelli's orchestra 6 to 8 p.m.

# WILL ANOTHER BANK MERGER BE SANCTIONED?

(Continued From Page 1.)

## TENDENCY TO CENTRALIZE.

Evening Telegram, Aug. 13. Reports have been circulated in Toronto banking circles during the past few weeks that an effort is being made by a leading Montreal bank to absorb an institution well represented with branches in Ontario.

Canadian financial mergers within the past decade have revealed a tendency on the part of financiers to centralize the banking and insurance interests of the Dominion in Montreal. Such centralization can be of no more advantage to the merchants, manufacturers and farmers of the country than the would a centralization of the investment funds of the United States in Philadelphia, Boston or New York be to the merchants, manufacturers and farmers of the United States.

"Insurance mergers and bank mergers have been brooked lately with the result that enormous funds have been established in Montreal, and the control of the finances of the Dominion has largely been placed in the hands of a few men in that city," declared a prominent Toronto banker to The Telegram today.

"This should not be allowed to continue. It is not in the best interests of the country. The business community is even now suffering in consequence of these mergers. Funds are being hoarded in Montreal, and the important deposits of the banks are showing enormous increases. The trouble is that the money is being used in gigantic flotations and for the furtherance of the interests of big business, while the small borrower, he claims ever so legitimate, can not obtain loans save at prohibitive rates of interest."

The assets of the Ontario bank in question are over \$40,000,000 and the deposits are over \$20,000,000, practically all from Ontario. The bank which is said to contemplate the absorption of this institution has in recent years become one of the largest banks in the Dominion.

Hon. W. T. White, minister of finance, who in the city today, stated that he had heard nothing whatever as to another bank merger.

# Hasn't Heard of It.

**OTTAWA, Aug. 13.**—Finance department officials declared that they are without information as to the alleged interference of the department in a proposed merger of a Toronto bank. "I have no information on it," T. C. Boville, deputy minister of finance, remarked today. "I have heard of no such interference, and this is the first I have heard of the proposed merger."

Hon. W. T. White, minister of finance in Toronto today, and it is possible that the matter may have been taken up with him there. Department officials, however, are unsure whether such a course has been taken. Under the terms of the Bank Act, a merger of two banks requires the consent of the minister of finance. In writing, consents that such an agreement may be entered into between the two banks.

# Finance Minister's Statement.

The Hon. W. T. White, minister of finance, was in Toronto yesterday, and in an interview with The Telegram he said that the subject of the merger had not been before him either personally or officially in any way whatever. He left for Ottawa last night after a short vacation.

# A Secret Conference.

Not so many days ago a rather unusual kind of bank notice was received at the corner of King and Yonge streets, struggling with two large suits, one in each hand. He disappeared into a tall bank building, went up the elevator, and in a very quiet room opened his suit cases and drew out his papers and statements to the special officer of another bank, an officer in charge of the merger department—a kind of bank undertaker's conference was so solemn as a funeral and almost as quiet. Admissions had to be made of losses and solvencies were made in behalf of the bank. They would get so much on the dollar in the stock of the bank that would take their bank over.

"In general, the bank taking over the bank manager these days is: 'Neill I've got you,' and he ducks for the cellar immediately."

Reached a Climax.

Some time after the visiting banker disappeared with his suit cases; he was seen to come back with a very busy after that, and the climax was reached at the board meeting of the Bank of Hamilton when a resolution involving the merger was passed by the directors. When news of this resolution became known in Toronto on Thursday it said a protest was forwarded to Hon. W. T. White, minister of finance at Ottawa. He may not have received the telegram; it may not have been sent, and according to the above statement in The Telegram, and since confirmed by The World, he knew nothing of any such deal being made in any way. The funny part of these mergers is that the last one to hear about them is the minister of finance, and then the argument is put forward that the situation is so bad, or that the thing has got so far, that it would be impossible to call it off. Perhaps there ought to be a law against officials of a bank talking over to their managers without first getting a permit from the minister of finance.

# Will Government Consent?

A very prominent banker said yesterday that he was sure that the government, under the leadership of the minister of finance, would not consent to the deal. That even if the Bank of Hamilton had made a few losses in the west it would be a very serious matter to wipe them out at a great expense to the reserve, and go on and do a bigger and better business than ever. It did one of the best banking businesses in Ontario. It had been well managed for many years, and all it wanted was some fresh blood on the board and a fresh man at the helm, perhaps. He said it might under certain circumstances be a good thing to move head office to Toronto, while he also thought that there were other banks in Ontario that would be only too glad to take over the Bank of Hamilton on even better terms than those proposed by the Montreal absorber. And as for Sir John Hendrie, he was sure he would cry his eyes out before he would allow his pride in Hamilton to be questioned; before he would in any way consent to such a thing as to put the Bank of Hamilton on the list of the banks of Canada. It is now forgotten in seniority. He was also sure Sir John was busy signing papers in Government House, Toronto, or inspecting recruits, and that probably his own directors have taken

# CRIB WORK TORN RESULT OF STORM

## Wind and Wave Play havoc With Sea Wall at Sunnyside

### POSTS ARE IRREGULAR

#### Gaps Are Numerous, Giving Appearance of Having Suffered Considerably

Besides the defective work which it is alleged has been done at the eastern section of the harbor, the work in the neighborhood of Cherry street, it now appears that trouble is brewing in connection with the cribwork at Sunnyside.

The cribwork, of which there is 2700 feet, has been untouched since last fall and it is now in a bad way. It has been unprotected by cement caps. The consequence is that the weather has torn away some of the woodwork and it is in a bad state of repair.

On visiting the work yesterday afternoon a report was made that it was impossible to get nearer to the cribwork than a distance of about 200 feet, except at that part west of where dredging operations are being carried on. By walking over the newly deposited ground it was possible to get a little closer. Even at this section only the tops of the posts could be seen and these appeared above the water at irregular distances. In some places they were in groups of three or four, about three feet apart, and the next post would appear at a distance of twelve or fourteen yards.

# For Long Distance.

This irregularity appeared all the distance of 2700 feet. As far as could be ascertained the cribs had only been filled with stone and allowed to stay all the winter. From what could be seen it would appear that quite a large portion of the work had been broken up during the winter.

In an interview Charles Powers, the chief engineer of the Canadian Steamship Company, admitted that parts of the Sunnyside work had been damaged, but stated that it was no fault of the company, as cribs have to be given time to settle and they are not allowed to put the protecting cement caps on until given permission by the government inspectors. He stated that the breaking away of parts of the cribwork was the result of the storms which occurred during the fall.

# LIEUT. SCANDRETT, D.S.O. INJURED.

LONDON, Ont., Aug. 13.—Lieut. J. Herbert Scandrett, who is mentioned in tonight's casualty list as suffering from shock and loss of consciousness, fell in a trial flight in England, was recently transferred from the 12th Battery, 2nd Field Artillery Brigade. A few weeks ago he was awarded both the D.S.O. and the distinguished conduct medal for gallantry at the battle of Tond.

# LONDON GIVES FIVE GUNS.

LONDON, Ont., Aug. 13.—The board of control today recommended the purchase of five machine guns for the Canadian troops as the city's contribution. The city council, however, may order the number doubled. The medical men of the city are considering donating a gun.

# CANADIAN CASUALTIES

## Nine P.M. List

Third Battalion. Previously reported unofficially, now officially—Fred G. Harkin, Buffalo, N.Y. Prisoner at Glenside, Ontario. Wallace Avenue, Toronto; Alexander S. Rutherford, Ormiston, Ontario; Henry Green, 161 Hastings Avenue, Toronto.

Wounded—David H. Travis, Macocan, N.S.

Fourteenth Battalion. Died of wounds—Corp. Harry S. Higginson, England.

Fifteenth Battalion. Killed in action—Frank Ismay, Ghent, Belgium.

Royal Canadian Dragoons. Burnt on back—Sergeant Charles W. Smith, Stanley Barracks, Toronto.

Lord Strathcona's Horse. Died of wounds—Bernard Payne, England. Corp. Frank de Jongh, Switzerland.

Will Government Consent?

## AWARD OUT PRIZES TO SCARBORO FARMERS

The awards in the standing field trials completed at Scarboro Township, held yesterday, were distributed, given only to Scarboro Township and deal only with one kind of crop, namely, potatoes. The awards together with the variety and points scored by the several competitors are as follows:

1st prize—Robert McCowan, Scarboro, yellow Russian, with 89 1-2 points.

2nd—G. R. Gennie, Agincourt, O.A.C. No. 72, with 83 1-2 points.

3rd—R. M. Lovelless, Agincourt, Lincoln, with 86 1-2 points.

4th—John Kennedy, Agincourt, Lincoln, with 85 points.

5th—Robert Sterling, Agincourt, Lincoln, with 81 1-2 points.

6th—John Gaird, Scarboro Junction, Abundance, 84 points.

7th—Alan P. Wheeler, Agincourt, White Cluster, 83 1-2 points.

# YORK COUNTY AND SUBURBS

## NEWMARKET RALLY DREW LARGE CROWD

### Quiet, Sincere Work TO HELP THE SOLDIERS

#### Three Thousand Attended to Hear Recruiting Speeches and Fine Music

### OVERFLOWED TO STREET

#### Hall Could Not Accommodate Large Audience and Thoro-fares Filled

Three thousand people attended the recruiting rally held in Newmarket last night, and the town hall, which was scheduled as the place of meeting, was found to be wholly inadequate to accommodate the crowds, which overflowed into Main street and around town.

In the absence of Mayor Cane, who is in the west, Beave Keith presided. The presence of the 12th York Rangers Band, under the leadership of Albert Hartman, aroused the greatest enthusiasm. National and patriotic airs, together with a number of inspiring addresses, were given during the evening. Following the public meeting in the hall, recruiting was carried on among the big crowd on the streets, and the committee was unable at a late hour to state definitely how many recruits had been added.

# Col. Henderson Speaks.

Col. Henderson, formerly attached to the 12th York Rangers, and who has seen 35 years' service, was one of the speakers.

Other speakers were Capt. Taylor, 12th York Rangers; Sgt.-Major Knight, Col. Lloyd, Major Wajling, Lieut.-Col. Nicholas, Lieut. Campbell and Lieut.-Col. Bell.

Aubrey Davis of the Davis Leather Co. made a rousing appeal for recruits, emphasizing the fact that 12 of their employees had already gone to the front, and whose places and all others volunteering would retain their positions. He also volunteered the offer of a 100 per cent bonus to any recruit of Toronto who was one of the speakers, and a chorus of 40 male voices assisted in the music.

# MOUNT DENNIS LEADS IN MEN RECRUITED

## York Township Village Heads List in Proportion of En-listed Men

Mount Dennis claims the distinction of having sent more men to the front than any other village in the township. The population of Mount Dennis is about four thousand and up to date about 475 men have enlisted for overseas service.

# GIVES ENDORSEMENT FOR SOLDIERS' HOME

The provision proposed to be made by the York Township Council in the case of dependent soldiers in the township killed in action, and the amount to be paid to the sick and wounded, was discussed at a meeting of the township council last night. The township council, however, were questions debated at considerable length, at the meeting of the Fair-bank Liberal-Conservative Association, held last evening. President J. Badams occupied the chair.

# URGING CONTROLLERS TO SETTLE QUESTION

## Oakwood-Ossington Ratepayers Discuss Fire Department Organization at Their Meeting

At the meeting of the Oakwood-Ossington District Ratepayers' Association at McMurrich school last night, the attitude of the board of control in the case of dependent soldiers, and the appointment of a fire commissioner was adversely criticized and strongly condemned.

President Clifford Blackburn was of the opinion that it is unnecessary to go outside the ranks of the fire department, which is the greatest organization. A letter will be sent to the board of control, requesting that immediate action be taken in this matter.

A communication regarding the short burnt and reduced fares on the Toronto Suburban Railway's Dayenport line from Manager Royce, was read, in which he expressed regret at being unable to do more in the wishes of the association inasmuch as the cost of the service would hardly pay the cost of operation. He promised a twenty-hourly service in the place of the present half hourly service.

# WHITCHURCH'S CONTRIBUTIONS.

## Assistance Given Belgian and Red Cross Funds and More Help Planned.

The Township of Whitchurch has just made a contribution to the patriotic fund which is the greatest credit upon the committee who actively interested themselves and the people of Whitchurch in general. They have already raised \$148,465, and of this amount \$97,256 will go to the Belgian Relief Fund and \$48,272 to the Red Cross. The committee, who are planning further contributions of one kind or other in the near future.

# TEN NEW MEMBERS.

Secretary A. R. Ralph of the Earle-croft Business Men's Association, reports the enrolment of ten new members since the last meeting of the organization in the Dominion Bank Chambers.

# SPOILING FINE FLOWERS.

The well-kept garden adjoining the Earlecroft branch of the Dominion Bank, on St. Clair avenue, has been persistently pilfered of flowers and bushes have been pulled up by the roots and thrown on the lawn for the last two months by some unknown persons. Manager M. Holmes was compelled to call in the aid of the police and last evening a policeman and police officer kept watch and caught two small boys of the district in the act of taking away some choice blooms. The manager hopes that the detection of the culprits will have a deterrent effect on others.

# COMMISSION TALKS ON HYDRO-ELECTRIC

Members From New York Interview Sir Adam Beck, Who Dispel False Rumors

The members of the New York State Legislature Commission were interviewed by Sir Adam Beck at the commission office yesterday afternoon. Senator George F. Thompson of Middleport, New York, was spokesman for the commission, and suggested that all sorts of rumors had reached the States to the effect that Hydro Electric was a failure or would be. Sir Adam told him that that official report was all before him or the experts that he might care to send word discreetly to the States.

"All that we do," said Sir Adam, "was to take time by the forelock and set into the electricity business at a price as near cost as possible, and before the valuable properties had fallen into the hands of exploiters, promoters and corporations."

## LOCAL IMPROVEMENTS

### CONCRETE SIDEWALKS.

Take notice that the Council of the Corporation of the Township of York intends to construct, as local improvements, and intends to specially assess the whole or part of the cost upon the lands abutting directly on the work, viz:

(Cost payable in ten annual instalments.)

1. Westwood Avenue—A 4-ft. concrete sidewalk with 6-in. curb on the west side of Westwood Avenue from the east limit of Don Mills Road easterly, southerly and easterly to the east limit of said avenue, as shown on the plan 1517, an approximate distance of 1063 ft. 2 in. The estimated cost of the work is \$1300.00, of which \$200.00 to be paid by the corporation. The estimated annual special rate per foot frontage is 22¢.

2. Princes Avenue—A 4-ft. 6-in. concrete sidewalk with 6-in. curb on the west side of Princes Avenue from St. John's Road northerly to the north limit of registered plan 829, an approximate distance of 1063 ft. 2 in. The estimated cost of the work is \$1300.00, of which \$200.00 to be paid by the corporation. The estimated annual special rate per foot frontage is 22¢.

3. Markham Street—A 4-ft. 6-in. concrete sidewalk with 6-in. curb on the west side of Markham Street from the west city limits northerly to the north limit of registered plan 876, an approximate distance of 987 ft. 8 in. The estimated cost of the work is \$1185.00, of which \$200.00 to be paid by the corporation. The estimated annual special rate per foot frontage is 22¢.

A petition against the said works or any of them will not be received for their construction.

W. A. CLARKE, Clerk of York Township, Dated Aug. 14, 1915.

# PATRIOTIC MUSICAL.

On Wednesday afternoon a patriotic musicale will be held at Dundurn Heights, 850 St. Clair avenue, to consider the organization of a Women's Home Guard Regiment. At night a recruiting meeting will be held for the city regiment when Oliver Henderson, W. F. Maclean, M.P., Dr. Norman Allen and a number of returned soldiers will speak.

# POLES PROSCRIBED FROM CARRYING OF ARMS

## German Governor Threatens Death Penalty for Communication With Kaiser's Enemies

**COPENHAGEN, via London, Aug. 14.**—It is stated that the German governor-general of Poland has issued a proclamation forbidding the holding of meetings and the carrying of arms, and ordering the closing of shops at 8 o'clock in the evening and the theatres before 9 o'clock. The death penalty is prescribed for anyone communicating with Germany's enemies.

CHEQUES NO GOOD FRAUD IS CHARGED

Thomas Tough of Haileybury Alleged to Have Secured Much With Little

LARGE SUM INVOLVED

Charles Wright Under Arrest Charged With Fraud on Merchant

Thomas Tough of Haileybury only arrived in Toronto a week ago, but in that time, according to the police, he has attempted to defraud motor sales concerns and taxi drivers to the extent of over \$3000.

Charge of Fraud. Charles Wright, 491 Roxton road, was arrested by Detective Archibald last evening charged with obtaining \$700 by fraud.

Hurt by His Horse. James Merchant, a Scarborough farmer, was kicked into unconsciousness by a horse he was driving along Danforth avenue last evening when the animal became frightened by the noise of a concrete mixer.

OBSTINATE INDIGESTION CAN BE CURED

Dr. Williams' Pink Pills Go Right to the Root of the Trouble

No trouble causes more widespread suffering and discomfort than indigestion. The ailment takes various forms. Some victims are tormented by food, others turn sick at the sight of a meal.

Dr. Williams' Pink Pills cure indigestion because they go right to the root of the trouble. They make new, rich blood, which strengthens the system and the stomach does its own work and digests the food in a natural way.

You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

SHARP ATTACK REPULSED

Dangerous Condition Relieved Just in Time by "Fruit-a-tives"

MR. F. J. CAVEEN, 632 Gerrard St. East, Toronto. "For two years, I was a victim of Acute Indigestion and Gas in the Stomach. It afterwards attacked my heart, and I had pains all over the body, so I could hardly move around."

Simple indigestion often leads to Heart Attacks, Catarrh of the Stomach and constant distress of mind and body. If you are bothered with any Stomach Trouble, and especially if Constipation troubles you, take "Fruit-a-tives."

50c a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

was removed to St. Michael's Hospital, and will recover. Collapsed While Bathing. While bathing in four feet of water at the Sunnyside baths yesterday afternoon, Mrs. A. Blair, 12 Cross street, was seized with heart trouble and fell unconscious in the water.

Pedestrian Injured. Thomas Henderson, 864 Bathurst street, fell on the sidewalk on Yonge street near Adelaide last evening and fractured his right leg. He was removed to the hospital in a passing motor car.

Thomas Weir, 633 West Richmond street, was run down by a motor car on West Queen street last evening and sustained a broken leg. He was removed home.

Fred Belleville, 122 York street, was arrested by officer 336 last evening charged with the theft of two motor car tires from Loretto Cronin of the city.

John B. Henderson, 43 Jarvis street, was arrested by Detective Mitchell last evening on a charge of fraud. While swimming at the High Park Sanitarium yesterday afternoon, C. E. Robbins, 264 Concord avenue, was seized with heart failure and sank to the bottom of the tank. Although the body was recovered in two minutes all efforts to revive life were futile.

Three-year-old Morley Hill, 220 Gladstone avenue, fell a distance of 15 feet from a balcony at his home yesterday morning and sustained serious internal injuries. The child was removed to the Hospital for Sick Children.

J. H. Porter, of the Porter shoe stores, was yesterday committed for trial for not keeping a proper set of books in connection with his business, of which he recently made an assignment. The Criminal Code makes it a crime to not properly keep books when the liabilities are over \$1000, and it is now said that Porter has creditors to the extent of \$65,500, with assets of about \$55,000. The penalty is one year's imprisonment or \$500 fine.

YOUNG TURKS CONSIDER ACTION AGAINST ITALY

Italian Ambassador at Constantinople is Termed "Leading Spy"

ROME, Aug. 13, via Paris.—Reports have been received from Constantinople that the young Turks held a meeting at which Enver Pasha, the Turkish war minister, argued the necessity for breaking relations with Italy and thus free Turkey from the "leading spy," namely, the Italian ambassador and simultaneously adopting severe measures against the Italians.

ANOTHER ZEPPELIN ATTACK ON BRITAIN

Six Persons Were Killed and Twenty-Three Others Injured

ONE RAIDER CRIPPLED

Official Announcement Made is, as Usual, Carefully Guarded

LONDON, Aug. 13, 5:05 p.m.—Official announcement was made today of an airship raid last night on the east coast of England.

"Two Zeppelins visited the east coast last night between 9:30 p.m. and 11:45 p.m. dropping incendiary and explosive bombs in various places, resulting in the following casualties: killed, 4 men, 2 women; injured, 2 men, 11 women, 9 children, all civilians. Fourteen houses were seriously damaged."

"The Zeppelins were engaged at some points, but succeeded in getting away from our aircraft patrols. One of the Zeppelins was probably damaged by the mobile anti-aircraft section."

Last night's raid of Zeppelins was the second this week. On Monday night Zeppelin flew over the English coast and with their bombs killed 14 persons and wounded 14 others.

TEN-YEAR SENTENCE FOR DYNAMITARD

William Lefler Pleads Innocence of Conspiracy Before Hearing Sentence

BROKE DOWN IN COURT

Issues Statement Declaring Himself Victim of German Plotter

WINDSOR, Ont., Aug. 13.—"If I am to be convicted on this crime I am going down an innocent man."

"This man (pointing his finger above), knows I am innocent of wrong-doing. I never was in sympathy with the Germans and never shall be while I am on earth."

This was the declaration of William Lefler, who today was sentenced by Judge Dromgoole to ten years in Kingston Penitentiary, on the charge of being an accomplice in the dynamite explosion which partially wrecked the Peabody plant in Walkerville on June 21; and five years on the charge of conspiracy in attempt to blow up the Windsor arsenal. The sentence is to run concurrently, which means that the full term is ten years.

Both Lefler and his wife completely broke down when the court passed sentence. In a statement, Lefler briefly outlined his career since boyhood, which was spent in Oxford County, Ontario.

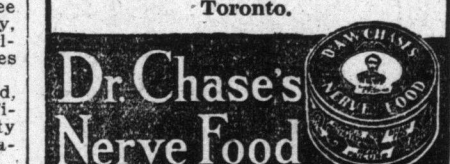

J. H. Porter, of the Porter shoe stores, was yesterday committed for trial for not keeping a proper set of books in connection with his business, of which he recently made an assignment. The Criminal Code makes it a crime to not properly keep books when the liabilities are over \$1000, and it is now said that Porter has creditors to the extent of \$65,500, with assets of about \$55,000. The penalty is one year's imprisonment or \$500 fine.

HIGHLANDERS MADE SPLENDID SHOWING

Major Warren Darling Compliments Troops on Having Comrades Oversea

CIVILIANS LED PARADE

Were Given Honor of Leading Regiment on Return March to the Armories

The 48th Highlanders had, nearly 1100 men as their parade last night, including those on guard duty, and this is about the record for the regiment. An unusually large number of spectators were at the armories to see the "48th" at drill.

Major Warren Darling was in command. He is a brother of Capt. Clifford Darling, who was killed at the front in Flanders. Before starting out for a route march the battalion was addressed by Major Darling, who complimented the regiment on having 400 overseas men on parade. By next drill night, he said, an additional 400 overseas men would be secured. The march-out was by way of Queen, Augusta, College and University avenue back to the armories.

At Augusta and College the battalion halted and the overseas men, dressed as civilians, were given the honor of heading the regiment on the return march.

Passed for Q.O.R. Thirty-three Q.O.R. overseas men were passed by the doctor in an hour and a half last night.

Weekly battalion drill is soon to be resumed by the Queen's Own. September 1 is spoken of as the likely date for the first battalion drill.

No. 2 and No. 12 Companies Canadian Army Service Corps paraded 180 men at the armories last night. Over three-fourths of these are on active service. In addition, each company last night obtained 20 more men for overseas.

The 10th Royal Grenadiers still need three more staff men (who are not able to go overseas) to do other sentry or orderly duty, and ask that applications be made to their orderly room at the armories this morning.

GREAT WAR ORDERS COMING TO CANADA

Contracts Call for Expenditure of Two Hundred Million Dollars

Four million dollars was paid this week on behalf of the British war order to the Electric Boat Company of the United States on account of a twenty million dollar contract for armed boats with a speed of over a mile a minute and capable of either ramming or shelling German submarines. The full order calls for five hundred of these armed speed patrol boats. They are really gasoline launches of the most powerful type. Fifty already delivered to the British admiralty are declared to have come up to the full requirements.

War orders aggregating two hundred million dollars are now being handled by Canadian corporations. The companies included are the Canadian Car and Foundry Company, Canadian Car and Foundry Company, Canadian Car and Foundry Company, Nova Scotia Steel and Coal Company of Canada, National Steel Company, Dominion Bridge Company, Dominion Steel Corporation, Laurentide Company, Canada Locomotive Company, Canadian Explosive Company, and the Russell Company of West Toronto.

First Vice-President T. A. Russell of the Russell Motor Car Company, of which he is also general manager, states that the new contract just received will keep the works busy at full capacity to the end of the year. This order is for shells for the British army.

Word has been received from Sheffield, England, that the Vickers Company will next month start up an immense plant near Petrograd for the Russian Government. The new plant will rival that of the Krupp in extent. The heavy calibre of the ordnance turned out will equal that of the gigantic German armament corporation—a dividend paying corporation backed by the government. It has been chartered as the Russian National Artillery Corporation, and will be run for several years by British managers.

Seeing Is Believing

The only way to decide if you should buy in Homestead Estate is to see it.

SEE the little farmers and their big crops. SEE the new water supply, the excellent roads, the beautiful surroundings. SEE the convenient location on Yonge, passed by the Metropolitan cars, only 40 minutes from downtown, and the Stores, Post-Office, School all within a few minutes' walk from the property.

Our automobiles leave this office at frequent intervals every day and you are welcome to a seat. A pleasant, interesting, and profitable trip awaits you. Telephone Main 7281, or sign and mail the coupon for further particulars.

Salesmen on the Property All Day Saturday.

Kindly send me further particulars of Homestead Estates.

ROBT. BOWIE BROCKVILLE BREWER, DIED YESTERDAY

Was One of Most Prominent Men in Eastern Ontario—Born in England

Special to The Toronto World. BROCKVILLE, Aug. 13.—Robert Bowie, for years one of the leading brewers of eastern Ontario and long associated with the firm of Bowie & Co. of this town, died today at the age of 76. He was struck with paralysis three weeks ago and never rallied. He was born in London, Eng., and lived in Brockville from boyhood. Here he was connected with several successful enterprises, but the greater part of his life up to the time of his retirement was given over to the brewing business.

TURKISH AMBASSADOR RECALLED FROM BERLIN

Offended, Kaiser by Reporting Germany in Last Stages of Exhaustion

ATHENS, Aug. 13.—Mukhtar Pasha, Turkish ambassador at Berlin, has been recalled at the Kaiser's request because he reported to Constantinople that Germany and Austria were in the last stages of exhaustion and that the first serious German repulse would bring destruction. He recommends the Porte to employ discretion, pointing out that if Germany lost, she would use Turkey as a scape goat. Von Der Goltz, on hearing the report, immediately cabled, demanding Mukhtar's recall.

FARM HANDS' EXODUS FROM WINNIPEG ON

Ten Thousand Men Already Go Out From Prairie Capital for Harvest

WINNIPEG, Aug. 13.—The exodus of farm hands from the city is daily increasing, and the total number who have gone out for the harvest to date is estimated at between 8000 and 10,000 men. This morning there were thirteen extra cars added to the trains leaving Winnipeg, and each one was crammed full of laborers. Over 1000 men left Winnipeg today for points in western and southern Manitoba.

This Certificate

For Making Money. SHOW YOUR PATRIOTISM IF YOU CAN'T FIGHT HELP TO FEED GROW SOMETHING. From the Soil.

Panel 2: "\$75 THROWN AWAY, GOSH-BLINK IT!" Panel 3: "\$75 A WEEK FOR A GUY? TEACH ME ETIQUETTE! AN' THAT SAPH-HEAD HIRED HIM? SEEMS Y ME HE'S TAKIN' A SUSPICIOUSLY BIG INTEREST IN MY MANNERS ALL OF A SUDDEN!" Panel 4: "BY-THE-WAY, DOODLE, HEAH'S YOURS WEEKS SALARY—\$25." Panel 5: "SO!" Panel 6: "QUITE A BIT BETTAN THAN WHAT YOU EARNED AT THE RIBBON-COUNTAIN, EH? WHAT?" Panel 7: "CLEAR TH' TRACK, GOL-BLAME IT! CLEAR TH' TRACK! THERES BLOOD ON TH' MOON, BY JINKS?"

WOMEN WILL HELP RECRUITING CAUSE

League Plans Recruiting Sunday in Co-Operation With Churches

HOLD KING GEORGE DAY

Service, Sermons and Collections Are to Be Devoted to Empire's Benefit

Responding to an invitation from the secretary, representatives from the women's organizations of the city met at the city hall yesterday afternoon to confer with the members of the finance committee of the Citizens' Recruiting League on the matter of raising funds for carrying on the work of the recruiting campaign.

Mr. T. O. Anderson was in the chair, and stated that it was the desire of the league to get opinions from the ladies on the matter in hand. Recruiting could not be carried on successfully without a certain outlay for bands, tents, publicity, advertising and other needs that might arise.

Tag Day Proposal. In response to a question from Mrs. Willoughby Cummings, the chairman stated that a "tag day" had been suggested by the mayor and that the labor representatives had also been in favor of a tag day in connection with King George Day.

Mrs. Ambrose Small suggested that a list be obtained of all the firms that were making munitions or filling large government orders, and that they be asked to contribute to a fund for recruiting purposes.

Seek Children's Help. The plan that carried was suggested by Mrs. G. R. Baker, who thought that a "Recruiting Sunday," to be known as "King George Day," on which service, sermons and collections would all be in the recruiting cause.

At their meeting the Western W.C.T.U. appointed a committee to raise \$100 towards purchasing a motor car, to be given to the Red Cross Society by the District W.C.T.U.

CHANGE OF NAME. At the request of Sturgeon Stewart, who came before the committee representing the residents, the name of High Park place will be changed to Indian Valley crescent.

Notes of Women's World

The Parkdale Soldiers' Aid Society report the results of the work for July. On Aug. 6 the society shipped thru the Red Cross Society to two Canadian hospitals in northern France 27 cases, containing: 3127 complete dressings, 58 large pads, 200 small pads, 24 assorted pads, 2057 compresses, 72 eye-wipes, 2658 bandages, 11 triangle bandages, 4 sheets, 14 towels, 5 hospital coats, 45 housewives, 74 pair socks, 96 short stories in envelopes, 29 booklets, 1 pair wristlets.

The society gratefully acknowledge the receipt of donations from Parkdale Chapter, I. O. E. E. St. Mark's Church, Cowan Avenue Presbyterian Church, North Parkdale Methodist Church, Church of Christ, Church of the Epiphany and numerous donations from individuals.

Mrs. Adshood and a band of young assistants held a garden party and bazaar at 28 Helena avenue, the home of the organizer, by which they realized \$42 for the Red Cross Society.

The postponed garden party of the I. O. E. E. the Beaches, York Chapter, which was to have taken place on Thursday, will be held this afternoon at the home of Mrs. George Ritchie, 18 Levey avenue. A good musical program has been provided and there will be speakers, general music and refreshments. Admission 10 cents.

The close of the Orchard Tea Garden, York Mills, which has been open for tourists since May 24, takes place today, when there will be a sale of china, cutlery, kitchen utensils, also maple syrup, jam, fruit cake and some made delicacies. A large number of visitors and buyers is hoped for, to greet the returns of the Red Cross, to which the proceeds will be devoted.

The women of Bowmanville have decided to give \$500 to the Red Cross and \$100 to the Women's Patriotic Society from the proceeds of their very successful garden party, held at the home of Mrs. Leigh Malloy.

A substantial sum was realized thru the efforts of the guests at the Marathon House, Balm Beach, during a successful program dance to invited friends. The proceeds being already forwarded to supply cigarettes.

At the meeting of the Citizens' Recruiting League yesterday afternoon, when ways and means were being discussed as to the best methods for promoting recruiting, Mrs. Willoughby Cummings took advantage of the opportunity to give it as her opinion from her experience in connection with the headquarters of the Women's Patriotic League, that the "women whose money is being kept back do more to hinder recruiting than anything else."

The money referred to was the allowance made to the wives of the men who have given their services to their home under the impression that the country they serve will see to the maintenance of those dependent upon them. Mrs. Cummings did not know whether it was from pressure of the department or those whose duty it was to see to the matter or how to explain the cases that had come to her notice, but the fact remained that such a list, an instance quoted being that in which the woman had got down to her last ten cents.

At their meeting the Western W.C.T.U. appointed a committee to raise \$100 towards purchasing a motor car, to be given to the Red Cross Society by the District W.C.T.U. They also appointed a committee to look after their work at the Exhibition and the annual bazaar to be held in Willard Hall in November.

Rosary Hall Sewing Circle will meet at Loreto Abbey at 2 o'clock Monday. A candle shower for the sisters at the front will also be held the same day and place.

I am a woman. I know her need of sympathy and help. I know her need of household duties, social pleasures, or daily employment, and tell me just how you suffer, and ask for my free ten day trial of a home treatment suited to your needs, with references to Canadian ladies who have had how they have regained health, strength, and happiness by its use. I will tell you all about this successful method of home treatment for yourself, my reader, for your daughter, your sister, or your mother, want to tell you how you yourself at home at trifling cost, and without aid from anyone. Men understand women's sufferings; what we women know from experience. I know better than any doctor; and thousands have proved that it is a home treatment in my method of home treatment. If you suffer from pain in the head, back, or bowels, feeling of weight and dragging down sensations, salivary displacement of internal organs, bladder irritation with frequent urination, obstinate constipation or piles, pain in the sides regularly or irregularly, bloating or unnatural enlargement of the breasts, nervousness, depression, melancholy, desire to cry, fear of something evil about to happen, creeping feeling up the spine, pain in the dark circles under the eyes, pain in the left breast or a general feeling that is not posted, to prove to yourself that these ailments can be easily and surely conquered at your own expense, without the expense of hospital treatment, or the dangers of an operation. Women all over the world are cured, my sister, I shall only ask you to pass the good word along to some other sufferer. My home treatment is for all. I will explain a simple home treatment which speedsily and effectually cures green-sickness, plumpness and health. Tell me if you are worried about your daughter. Remember it costs you nothing to give my method of home treatment a complete ten day's trial, and if you wish to hear the full details, send me a cent a week to do so, and I will send it in plain wrapper by return mail. To save time you can cut out this offer, mark the places that tell your feelings, and return to me. Write and ask for the free treatment to-day, as you may not see this offer again. Address: MRS. M. SUMMERS, Box 65, WINDSOR, ONTARIO.

SUMMER ART CLASS COMES TO A CLOSE

Many Teachers in Ontario Schools Took Advantage of Special Course

The summer class of 1915 taking a course in art at the Ontario College of Art, St. James' square, closed yesterday. For six weeks 247 teachers in Ontario schools have been in attendance, thus taking advantage of the training provided by the department of education for teachers in actual service for the purpose of furthering the cause of art in the public and high schools. This is the third session. A resolution marking the close was moved by H. W. Brown of the Berlin Collegiate Institute, Berlin, Ont., and seconded by C. W. Horton, Malvern staff, Toronto, as follows, which carried unanimously: "That a vote of sincere appreciation and thanks be tendered by the summer class of 1915 to the principal and staff of the Ontario College of Art and to their able assistants in recognition of the helpful, painstaking and competent services rendered by them during the term just closing. "That the wisdom of the honorable minister of education in providing so efficient a course of instruction be heartily commended, and his generosity in undertaking thru the department of education to bear the expense of such a course be gratefully acknowledged. "And that a copy of this resolution be forwarded to the deputy minister of education."

Principal G. A. Reid made a suitable reply.

BRITISH MAIL CLOSES. The next British and foreign mail (via England) will close at the General Postoffice at 6 p.m. Monday, Aug. 16, with a supplementary mail at 9 p.m.

HONOR JUNIOR MATRICULATION

The results of the examination of Toronto and York County candidates for honor junior matriculation are given below. The standing obtained in each subject is indicated after a candidate's name, indicating first-class, I. honor, II. second class honors, and III. third class honors respectively: Toronto City. W. G. Anderson, Chemistry II; W. F. Anson, French III; A. G. Anderson, History III; French III; W. S. Arthur, Latin III; French III; Chemistry I; R. G. Agnew, English I; French I; German I; W. B. The Toronto World

FOUNDED 1850. A weekly newspaper published every day in the year by The World News-Printer Company of Toronto, Limited...

Subscription rates: Daily World \$4.00 per year; Sunday World \$2.00 per year; Sunday World six per month...

Advertising rates: The World publishes a before 7 a.m. delivery in any part of the city...

It will prevent delay if letters containing "subscriptions," "orders for papers," "complaints," etc., are addressed to the Circulation Department.

The World promises a before 7 a.m. delivery in any part of the city or suburbs. World subscribers are invited to attend the circulation department in cases of irregular delivery.

SAURDAY MORNING, AUG. 14.

The Two Embargoes

Canada seems to have hobbled herself unnecessarily by two embargoes. Her intention was good, but she seems to have placed a handicap upon our farmers and live stock men which does not seem to the benefit of the empire.

By order-in-council the export of horses and foodstuffs was prohibited except to the motherland and allied countries. Export to the United States was forbidden because it was feared that the horses and grain alike might find their way to the enemy.

This left the Canadian farmer with only one customer, the Dominion Government. He could not go to the British and French buyers in the United States and they were not allowed to come to him in Canada.

So with wheat and flour. We forbid the export of wheat except to the mother country or her allies. But so little tonnage has been coming to Canadian ports that we could only ship to England via New York.

So far as the coming crop is concerned the situation will be helped a great deal, we understand, by the admirably diverting a number of vessels from other purposes to carrying Canadian grain direct from Canada to the motherland.

Our farmers and millers need a little prosperity just now; can stand a great deal of it. No unnecessary hardships upon them should be inflicted.

not say they did not think they were wanted. It brings home to the heart of many with a cold chill the realization of the fact that England itself is in peril of invasion to read the regulations that have been issued in Sussex in case the Germans make the landing they are preparing for.

When all the church bells jangle together everybody is at once to run to their homes and put on their warmest clothing, with as much under-clothing as they can wear, and great coats. Each person is to roll up a blanket, tie the two ends with string and carry it over one shoulder. Then they are to bring away all the food they can carry and a satepan, a kettle and a mug for each family.

Since the young men of Toronto sit around and read this and say it is none of their business. British soldiers and sailors have guaranteed the peace of Canada for a century without cost to Canada, but when England prepares for invasion Canadian-born young men say it is none of their business.

The Province of Alberta has contributed 3.78 per cent. of the population to the recruitment, Manitoba and Saskatchewan 2.78 per cent. British Columbia 2.53 per cent. and Ontario 1.44 per cent.

It is not to be forgotten, however, that we make up for this in another way. No province brags so loudly of its loyalty as Ontario.

Lost in the Jungle

After a contest extending over many months forty-one United States railroads operating west of Chicago and east of Denver have secured higher car load rates upon grain products, packing-house products, coal, coke and a few other commodities.

Strictly speaking nothing should be considered in fixing a rate except the value of the service rendered, but the profits of the carrier are naturally regarded as fairly indicating whether or not the prevailing rates are compensatory.

Undoubtedly it costs considerably more to construct and operate a railroad today than it did some years ago. Labor and material have gone up, while the burden of taxes has increased. Still many of the roads of late have succeeded in so cutting down the cost of operation as to show an increase in net earnings in spite of a decrease in gross earnings.

Operations in the Dardanelles

Operations in the Gallipoli Peninsula, originally regarded as a side issue to the main war, have now become crucial and possibly final in their bearing on the general campaign. Without commenting on the first purely naval attack about which much controversy turns, the later developments in Russia have made the forcing of the Dardanelles a matter of crucial importance.

directly destroy the foundations on which German strategy now rests.

When a brainy man is wanted in Toronto they send down to the maritime provinces. Mr. Wall is the latest, and he is to edit The Catholic Register. Do they raise any fire chiefs down in Nova Scotia?

A NOBLE MOTHER

By James L. Hughes. For my dead son so dear I shed a mother's tear. But in my heart I cheer, The eyes be dim, True-hearted, strong and free. A just kind man was he, A loving son to me. Why mourn for him?

When duty's call first came, He went with heart aflame, And won an honored name: My patriot son, Had I more sons, they, too, Would be I know, as true, As his, and his duty done, Till freedom won.

His place I cannot take, But for my dead son I make New efforts I will make, For home and right, No garb of mourning sad I'll wear, My heart is glad A son so true I had, No nobly fight.

Speakers with a PUNCH

Editor World: It is rumored that there is some difficulty experienced in securing capable speakers for recruiting meetings, and judging from the class of matter used by many of those who have addressed these meetings, it does not seem to have the desired effect of making converts.

One curious feature of the Manitoba election was the return of four French-Canadians to support Sir James Aikins. Of the five opposition members of the legislature four are French-Canadians.

GERMANS WILL DEBAR ROUMANIAN MAIZE

To Retailize in Effort to Induce Transit of Munition Shipments. BUCHAREST, via London, Aug. 13.—According to the local newspapers, Austria and Germany have decided on an endeavor to induce Roumania to consent to the transit thru Roumanian territory of munitions of war by prohibiting the importation of Roumanian maize unless Roumania yields within a few days.

Many Thousand Men Required for the Harvest of Western Canada

Thousands of men will be required from Ontario to help in the great work of harvesting the entire task of transporting this great army of harvesters to the west will fall to the lot of the Canadian Pacific Railway. Excursions from points in Ontario to Manitoba, Saskatchewan and Alberta will be run, and special trains operated, making the trip in about 36 hours and avoiding any change of cars or transfers.

POLITICAL INTELLIGENCE

The result in Manitoba had been so generally discounted that its announcement provoked little discussion. The Liberal press refrained from forecasting its effect upon the next election. But possibly the chief effect has been to put the election off almost indefinitely.

Since then the leading Conservative papers have carried what looked like an inspired despatch from Ottawa, declaring the willingness of the government to extend the life of the present parliament by three years if the Liberals made no objection. The Liberals, taking their cue from the chief, say that they do not wish to extend the life of the parliament, but that they will not run away from it. One of their leaders thus stated the position of his party.

One curious feature of the Manitoba election was the return of four French-Canadians to support Sir James Aikins. Of the five opposition members of the legislature four are French-Canadians.

While the proportion of French-Canadians amongst the few Conservative candidates returned is large, it is not entirely wrong to assume that the French-Canadian vote in the province went overwhelmingly Conservative. It would be more correct to say that it went preponderantly Liberal.

The public of Ontario pronounced upon the Ross Government and the public of Quebec upon the Mercier Government. The people value party affiliations when party gives them a chance, but they value honesty more. And this is the great safety of democracy.

HOLDS CONSTABLE IS ENTITLED TO PENSION

Justice Lennox Finds Police Committee Acted Unfairly Toward Officer Welsh. In a judgment handed out at Osgoode Hall yesterday, Justice Lennox holds that Constable John W. Welsh, who has completed 27 years and 10 months service on the Toronto Police Force, is entitled to draw half pay, and in addition one-nineteenth of his salary for each year exceeding 25 years.

COMMERCIAL TRAVELERS MUST PAY BIG INCREASE

In Some Instances Premium Will Be Six Hundred Per Cent. Higher. All members of the Commercial Travellers' Mutual Benefit Society who joined the organization before 1902 have to pay an increase in their insurance fees to that society commencing with the next assessment.

ONE CAN SAVE ENERGY AND TEMPER BY USING ONLY EDDY'S MATCHES

THEY DO NOT MISS FIRE IF PROPERLY STRUCK -- EVERY STICK IS A MATCH--AND EVERY MATCH A SURE, SAFE LIGHT.

"I do not know the officer, but I know that he has fought in a just cause and that he is a hero. If anyone here has the mentality to say that this war is not our business, and that Canada is not vitally concerned, I can only say that it is not my mentality. It is a war of absolutism against liberty. If you have liberty at heart, how can you say it is not our business?"

The Ottawa Evening Journal, owned and edited by F. D. Ross, is a Conservative paper, but one that is now and then handles a situation with almost brutal frankness. The Journal's comments upon the results in Manitoba.

The general election in Manitoba went the right way. The Conservative party, throwing off leaders who had been clearly proved unworthy of trust, had reorganized under clean and capable men with a good platform, but when the wrong was done in the name and interest of a political party, there should be penalties. The mass of a party may be guilty, but the individual is in utter ignorance of anything that was wrong, but if on such a plea the government is to follow a betrayal of public trust by the leaders of the party to be a change of leaders, further party action would be placed at a premium rather than the reverse.

As it is, the lesson is unmistakable and impressive. Conservative representation in the legislature has been almost wiped out. The public of Manitoba has pronounced upon the Roblin Government the same verdict.

WILLS PROBATED

An estate of Caleb Dike, who died on May 24 in East Gwillimbury, is to be shared by a sister, Selma, and two brothers, Albert and Uxbridge. When Mrs. Mary Curtis died Aug. 1 she left an equity in a property at 1875 Dundas street of \$400, eleven acres of land in Toronto Township worth \$1450 and personal effects amounting to \$300. A daughter, Millie Curtis, will receive the property.

ATTENTION PROOF

Callions of the city authorities is called to the poor protection at the Cherry street railway crossing by the bureau of municipal research.

BATHING SAND BAR. HANLAN'S POINT. Ladies and Gents' New Suits. Water Warm, Temperature 72. 67. DULUTH OARSMEN WIN SIX FIRTS AT OPENING. Bob Dibble Defends His Title of American Champion Today at Springfield.

SPRINGFIELD, Mass., Aug. 12.—The blue jersey oarsman from Duluth were the main rowers in the first day of the national regatta on the Connecticut today, making a perfect record for six firsts in six starts. From the time Hargreaves and Hall captured the intermediate double sculls which opened the day's sport, until Hoover outdistanced six competitors in the quarter mile sprint, which closed the afternoon, the Duluth crew except the intermediate sculls, in which they were not entered, made a good showing, especially in the intermediate single sculls which Helmer of the Montreal captured by three lengths, and the quarter mile dash, in which Smith of the New York Athletic Club was beaten by Hoover by half a length. Detroit showed well in the junior eight race, while the Boston crew made off in the intermediate double scull, in which the Union Boat Club pair rowed the Duluth men to a quarter of a length finish.

Bob Dibble of the Don Rowing Club, Toronto, defends his title tomorrow. The river and weather conditions were ideal. The Yorkshire Society Cricket Club are playing a friendly game with Mimico, Ontario, today at Mimico. The team will be chosen from the following: F. Joy (capt.), R. Woodhouse, J. W. Williams, W. all players be at Sunnyside not later than 1.15. Get off car at stop 23.

Evangelia C.C. play East Toronto C.C. last season's cup winners, in a C. & M. League game today at Riverdale Park at 2:30 p.m. Will all Evangelia players please be on hand sharp to time. Team to play will be selected on ground. St. Matthias' Club meet St. Edmunds C.C. in an exhibition game today at Trinity Park. St. Matthias players are: Cunningham, Seal (capt.), Arthur, Hooper, Cook, Dunning, Horton, Symonds, Littlejohn, Blatherwick, Stanley, Porter, Marriott.

St. Davids Cricket Club play a C. & M. League game on Saturday against Woodgreen C.C. at Riverdale Park. The following members be on hand early: C. Muckleston, P. Muckleston, H. Ellis, R. Baskin, F. Foxworthy, R. Goodson, A. Carnegie, S. Skipper, G. Thomas, R. Muckleston, W. Muckleston, W. Sanders, H. Griffiths, Taylor and Jones. Parkdale plays St. Barnabas at Exhibition Park today at 2:30 with the following team: Theford, Doncaster, McLure, Wills, McMillan, Wilson, Clarke, Haylor, Griffiths, Taylor and Jones.

THE CASE OF MARSANS. ST. LOUIS, Aug. 12.—The petition of August Marsans, the Cuban ballplayer, that the federal district court modify the injunction that prevents him from playing with the St. Louis Cardinals was heard in the federal district court here today. The case was not concluded. After evidence had been introduced regarding the claim of the Cincinnati Reds on Marsans, Judge J. Dyer announced that he would hear arguments Monday morning.

# Bowling

## Strowger and Hoover Win O.B.A. Finals

### ONE-SIDED SCORES IN BOWLING FINALS

#### Ontario Cup to Canadas, and Toronto Trophy to Guelph—Doubles Results

W. A. Strowger's Canadas rink won the Ontario Cup from Dr. Gallanough's Victoria rink on the Victoria lawn yesterday afternoon by the one-sided score of 22 to 5. Mr. Strowger was given all kinds of assistance by his men, and besides putting up a splendid game himself, he took all kinds of chances to make ends which his opponents could not break up. The early lead secured by Canadas was too big a handicap to overcome, and was secured on the first end and was only one less than the total secured by the Victoria rink.

J. B. Hoover of Guelph defeated Dr. Wylie's Rosedale rink in the Toronto Cup final by the score of 11 to 3. The Guelphites led from the first end and were never headed, at all times holding their opponents score.

All games in the doubles will be finished this afternoon, these games being played on Granite lawn, while the Buttrick games will be played at Victoria lawn, commencing this morning at 9 o'clock.

Third and fourth prizes were given in the Toronto Cup contest this year for the first time. Dr. Kilgour of Canadas and C. E. Boyd of the Thistles were the recipients.

**Ontario Cup—Semi-Finals**

Dr. Gallanough 17, C. E. Boyd 9

**Finals**

W. A. Strowger 22, Dr. Gallanough 5

W. Strowger 490, 142, 104, 212, 91-23

Dr. Gallanough 211, 200, 209, 200, 19-5

**Toronto Cup**

**Sixth Round at Victoria**

Dr. Wylie 13, W. Quigley 7

**Semi-Finals**

Dr. Wylie 10, C. E. Boyd 7

J. B. Hoover 15, Dr. Kilgour 7

**Finals**

J. B. Hoover 11, Dr. Wylie 8

Hoover 420, 011, 201, 000-11

Dr. Wylie 001, 100, 010, 113-8

**Second Round at Victoria**

### PLAYING DOWN TO O.A.L.A. FINALS

Shelburne and Southampton Win Intermediate Games—Today's Lacrosse Card

**SHELBURNE, Aug. 13**—By a score of 14 to 10, Shelburne defeated Hanover in a clean and exciting O. A. L. A. intermediate game here today. The visitors played a steady, aggressive game throughout, but after the first quarter the locals succeeded in securing and maintaining a lead on their opponents. The score by quarters was as follows: First quarter, Shelburne 3, Hanover 3; second quarter, Shelburne 3, Hanover 3; third quarter, Shelburne 3, Hanover 3; fourth quarter, Shelburne 5, Hanover 1. Shelburne's goalkeepers, Cameron, Cameron, and Cameron, were excellent. Shelburne's forwards, Cameron, Cameron, and Cameron, were excellent. Shelburne's backs, Cameron, Cameron, and Cameron, were excellent. Shelburne's fullbacks, Cameron, Cameron, and Cameron, were excellent. Shelburne's halfbacks, Cameron, Cameron, and Cameron, were excellent. Shelburne's threequarters, Cameron, Cameron, and Cameron, were excellent. Shelburne's fourquarters, Cameron, Cameron, and Cameron, were excellent. Shelburne's fivequarters, Cameron, Cameron, and Cameron, were excellent. Shelburne's sixquarters, Cameron, Cameron, and Cameron, were excellent. Shelburne's sevenquarters, Cameron, Cameron, and Cameron, were excellent. Shelburne's eightquarters, Cameron, Cameron, and Cameron, were excellent. Shelburne's ninequarters, Cameron, Cameron, and Cameron, were excellent. Shelburne's tenthquarters, Cameron, Cameron, and Cameron, were excellent.

### Divided the Bill With the Royals

McTigue Hit Hard in First Game—Luque to the Fore Again With Good Work

The Royals and the Leafs split yesterday's double-bill. McTigue was away below form in the opening engagement, and the Hotway boys had no trouble in winning, 9 to 2. Luque had another good day in the last game, and the Clymer crew won, 3 to 2.

The Royals opened up on McTigue in the third round of the first game, and banged out enough hits to score five runs. It was only a case of filling in the time after this, as Luque's arm by Flynn bounced over another for Montreal in the fourth.

The ninth was a three-run inning for the enemy. Toronto got their two in the same innings. Graham singled and Daley doubled. A wild pitch let Graham in. Luque's rep counted Daley.

# EATON'S

## ON SALE TODAY

### Young Men's Suits, Good Value Saturday at \$13.50

THE new models for fall have a few quite interesting innovations. The two and three-button suit styles with soft rolling lapels are still favorites, although there's more of the military erectness to the figure this season. The lapels are peaked, shaped, or square corners; coats are shaped at waist-line as before, only these are without the vent in back. The vests open a trifle lower than last season, although they still have six buttons. Some coats have patch pockets; others have top flaps. Trousers may be plain or with cuff. The materials are soft cassimere finished tweeds in small and indistinct checks and the new over-plaid's; fashion's latest designs. The colorings are green, olive and brown, the newest for young men's wear. Sizes 33 to 38 chest. Extra good value at \$13.50

### Men's Outing Suits, Marked for Quick Clearance, at Half Original Prices.

To make a quick clearance of these 2-Piece Summer Suits Saturday morning the whole lot has been marked down to one-half original price. Included are homespun, chevot tweeds, Palm Beach and English cravenetted mohairs. Not all sizes in every line or price; from 34 to 44 in the lot. Quantity is limited, so it means an early trip if you want one.

These suits are placed on tables for quick, easy choosing:

25 Suits at half price, \$2.50 12 Suits at half price, \$6.00  
8 Suits at half price, \$3.75 17 Suits at half price, \$7.50  
40 Suits at half price, \$5.00 10 Suits at half price, \$9.25  
18 Suits at half price, \$10.00

### WASHING VESTS, PRICE REDUCED FOR CLEARANCE

Broken lines and a number of good qualities, slightly soiled; mostly white grounds with small figure and stripe; regular and stout sizes. All sizes in the assortment from 34 to 46. Clearance price, Saturday 1.25

HOBBERLIN'S HIGH-GRADE TAILORING

\$20 SPECIAL

Saturday AND Monday

In the Suitsings put out for special selling these two days will be included a number of designs selected from the new season goods now on exhibition put in at twenty dollars, not as a regular, but as an introductory price for new goods.

Others include ends of past season goods that will not be repeated this season—very desirable lines—and at twenty dollars the value is exceptional.

Black and Blue Suitsings that are exceptional values at \$22.50 and \$25.

Specials in Trouserings, worth regular \$6.00, for \$3.50.

LOOKING AHEAD

We are making today an exhibit of new season goods. Our plans have been on a generous scale, for we are confident of a big demand for Hobberlin tailoring this fall. Our fabrics are the finest. Judge the style and fit as the mirror reflects them—"Justice without mercy."

ONLY TWO STARTED IN HANDICAP AT SARATOGA

Thornhill, at Odds-on, Beat Charter Maid, Only Other Starter in Handicap

SARATOGA, Aug. 13.—There were practically only four races here today. The third was a walk-over for Napier, the only starter in the feature race, the mile handicap, there were only two, Napier at 1 to 4, winning like that over Charter Maid. Three of the other favorites were beaten. Summary:

FIRST RACE—Fillies and geldings, 2-year-olds, selling, 5 1/2 furlongs: 1. Poppeo, 112 (Martin), 7 to 1, 1 to 3 and out. 2. Delina, 102 (O'D), 5 to 2, 4 to 5. 3. Little Alca, 107 (Garner), 1 to 2. Time 1:41 3/5. After Night and Edna, Kennas also ran. SECOND RACE—Three-year-olds and up, handicap, selling, 6 furlongs: 1. Pollux, 106 (J. McFarquhar), 17 to 10, 3 to 5 and 1 to 4. 2. Eagle, 95 (McAtee), 4 to 1, 3 to 2. 3. Mary Cassidy, 104 (Koderis), 1 to 4. Time 1:16 4/5. Liberator and Hawthorn also ran. THIRD RACE—Four-year-olds and up, selling, one mile: 1. Napier, 99 (Gardner), Time 1:49 1/5. Only one started. FOURTH RACE—Three-year-olds and up, handicap, one mile: 1. Thornhill, 110 (Turner), 1 to 4 and out. 2. Charter Maid, 95 (Garner), 18 to 5 and out. Time 1:46 2/5. Only two starters. FIFTH RACE—Three-year-olds and up, selling, one mile: 1. World's Wonder, 110 (Garner), 7 to 1, 2 to 1 and 4 to 5. 2. Eagle, 95 (McAtee), 7 to 5, 1 to 2 and 1 to 5. 3. Tinkle Bell, 105 (Hoffman), 10 to 1, 3 to 1 and 8 to 5. 4. Marston, Counterpart, Hapenny, Volant, Dengro, Col. Ashmeade and Jesse Jr., also ran. SIXTH RACE—Six furlongs: 1. Lord Rockville, 111 (Dugan), 3 to 1, 6 to 4 and 2 to 3. 2. Watercross, 114 (Garner), 15 to 1, 6 to 1 and 3 to 1. 3. Connolly, 111 (Connolly), 30 to 1, 10 to 1 and 5 to 1. Time 1:11 3/5. Belgian Trooper, Spur, Casco, Washburn, Weather, Plaintiff and Navigator also ran.

Estep Winning Jockey At King Edward Park

MONTREAL, Aug. 13.—Today's races were as follows: FIRST RACE—Purse \$300, for maiden three-year-olds and up, selling, six furlongs: 1. Chaser, 105 (McCullough), 3 to 1, even and 1 to 2. 2. Rip Van Winkle, 112 (Pickens), 4 to 5, 2 to 5 and out. 3. Endurance, 103 (Lafferty), 6 to 1, 2 to 1 and even. Time 1:16 2/5. Irish Mary, March Light, Turkey Trot and Uncle Bill also ran. SECOND RACE—Purse \$300, three-year-olds and up, selling, five furlongs: 1. Masurka, 115 (Dominick), 6 to 1, 2 to 1 and 1 to 1. 2. Odd Cross, 113 (Matthews), 6 to 5, 2 to 3 and 1 to 3. 3. Petit Bleu, 105 (Pickens), 2 to 1, 2 to 3 and 1 to 3. Time 1:10 2/5. Inlan, Col. Fred and Bat Masterson also ran. THIRD RACE—Purse \$300, three-year-olds and up, selling, six furlongs: 1. Stator, 112 (Estep), 3 to 2, 2 to 3 and 1 to 3. 2. H. Tate, 112 (Matthews), 10 to 1, 4 to 1 and 2 to 1. 3. Master Joe, 109 (Pickens), 5 to 2, even and 1 to 2. Time 1:51. Frog, Nino Muchacho, Malik and Mr. Mack also ran. FOURTH RACE—Purse \$300, three-year-olds and up, selling, six furlongs: 1. Spohn, 112 (Pickens), 2 to 1, 2 to 3 and 1 to 3. 2. O' The True, 112 (Manders), 3 to 2, 1 to 2 and out. 3. Minda, 110 (Young), 4 to 2, 2 to 1 and 2 to 2. Time 1:15 1/5. Marsand, Ormead, and Lamb's Tail also ran. FIFTH RACE—Purse \$300, four-year-olds and up, selling, six furlongs: 1. Freda Johnson, 102 (Labbell), 3 to 1, even and 1 to 1. 2. Hazel C., 97 (Dodd), 3 to 1, even and 1 to 2. 3. Hazel C., 104 (Dominick), 2 to 1, even and 1 to 2. Time 1:16 2/5. Gemzell, Swede Sam and Dromi also ran. Senator James, Inferno Queen scratched. SIXTH RACE—Purse \$300, three-year-olds and up, selling, six furlongs: 1. Ormar Lad, 113 (Estep), even, 2 to 3 and 1 to 3. 2. Big Lignum, 111 (Matthews), 15 to 1, 2 to 1 and 1 to 2. 3. Regular, 103 (Young), 3 to 1, even and 1 to 2. Time 1:15 1/5. Captain Elliott, Proctor, Robinson Adams, Nis also ran. Miss Primity and Bertha V. scratched. SEVENTH RACE—Purse \$300, for three-year-olds and up, selling, six furlongs: 1. Sarcolla, 110 (McCarthy), 2 to 1, 2 to 3 and 1 to 3. 2. Juna, 100 (Young), 4 to 1, 2 to 1 and even. 3. Dom Moran, 102 (Pickens), 4 to 1, 2 to 3 and 1 to 2. Time 1:17. Sir Giles, Glans, Tom Flanagan, Moss Rose also ran. Mortigle scratched.

Comstock Loses to Harrisburg Crew

At Providence (International)—Ralph Comstock, who has been sold to the Cincinnati Nationals, lost what was probably his last game to Harrisburg yesterday, 4 to 1. While the visitors only made ten hits, errors behind Comstock helped to pile up their score. The score: R.H.E. Harrisburg 2 0 0 0 0 0 2-4 8 2 Providence 0 0 0 0 0 0 0-0 4 8 2 Batteries—Goodread and Heckinger; Comstock and Haley.

Specials in Trouserings, worth regular \$6.00, for \$3.50.

Black and Blue Suitsings that are exceptional values at \$22.50 and \$25.

LOOKING AHEAD

We are making today an exhibit of new season goods. Our plans have been on a generous scale, for we are confident of a big demand for Hobberlin tailoring this fall. Our fabrics are the finest. Judge the style and fit as the mirror reflects them—"Justice without mercy."

FEW RASPBERRIES DEMAND IS GOOD

Price Held Firm, as Well as in Thimbleberries, Which Sold Well

LESS CHERRIES COME

Quantity Gradually Decreasing—Good Ones Bringing Fair Quotations

Raspberries were not very abundant yesterday, and as the demand was good the prices were firm, the best berries selling at 11c and 12c per box, the others ranging from 8c to 10c per box.

Cherries are gradually decreasing in quantity. Yesterday the good ones brought 50c to 60c per 11-quart basket; inferior ones 40c to 50c.

Plums were difficult to dispose of, as they are still of poor quality, the 6-quart baskets selling at from 17 1/2c to 20c; a few extra choice lozenge filled bringing a little more.

Corn was in especially good demand, the choice selling at 15c per dozen, and the other down as low as 10c per dozen.

Apples—Imported, \$1.25 per hamper; Canadian, 20c to 30c per 11-quart basket.

Wholesale Fruits. Apples—Imported, \$1.25 per hamper; Canadian, 20c to 30c per 11-quart basket.

Apples—Imported, \$1.25 per hamper; Canadian, 20c to 30c per 11-quart basket.

Apples—Imported, \$1.25 per hamper; Canadian, 20c to 30c per 11-quart basket.

Apples—Imported, \$1.25 per hamper; Canadian, 20c to 30c per 11-quart basket.

Apples—Imported, \$1.25 per hamper; Canadian, 20c to 30c per 11-quart basket.

SELL MEAT UNDER IDEAL CONDITIONS

New Refrigerator Sales Department Installed by Robt. Simpson Co. Perfect

FOOD CLEAN AND PURE

Excellent System for Handling Meat Without Being Touched by Hands

The Robert Simpson Company, Limited, will inaugurate on Monday one of the finest stores which have ever been offered for the benefit of Toronto shoppers.

The improvements are so many, so novel and so practical that it is hard to enumerate them all in a newspaper.

The entrance to the meat department is flanked quite appropriately by flower and vegetable departments.

CONTROLLERS NAME COL. LANGTON AGAIN

Council Has Already Turned Down Suggestion for Commissioner Three Times

ONE CONTRACTOR ONLY

Matter of Filling in Catfish Pond Brings Lengthy Discussion by Board

The board of control is evidently trying to immortalize the name of Col. J. P. Langton in connection with the commissioner of the fire department.

The resignation of Acting Chief Smith has evidently proved a bomb and forced the controllers into a position where they had to do something.

There was considerable acrimonious debate in the meeting, which was one of the liveliest that this year's board has held.

Because Commissioner Harris recommended that one contractor be given the work of filling in Catfish Pond and building the sewer thru the same, it occurred to Ald. McBride that it was a good idea to give the Canadian Stewart Company all the work, as it was pointed out that they were the only contractor in the city.

The discussion was brought on by the appointment of the Green Company to do the filling in Catfish Pond and building the sewer thru the same, it occurred to Ald. McBride that it was a good idea to give the Canadian Stewart Company all the work, as it was pointed out that they were the only contractor in the city.

BULGARIA TO WAGE WAR ON TURKEY

Greece Hears Ferdinand's Cabinet Favorable to Accepting Entente's Offers

CALL FOR VENIZELOS Athens Papers Intimidate Greek Government by Agitation

Special Cable to The Toronto World. ATHENS, Aug. 13.—The entry of Bulgaria into the war against Turkey is only a matter of time.

Serbia will be compensated in Albania, while Greece will be compensated in Smyrna and the Asia Minor hinterland.

German Influence Fails. Entente diplomats here are predicting that Bulgaria is finally on its way to abandon neutrality and say that German influence in Sofia has received a rude jolt.

Local railway officials gave some hope yesterday that the work would be started soon, and intimates that the contractor would open his office shortly.

Bulgar Integrity Assured. The integrity of Bulgaria is assured for a certain period after the war. A note received yesterday conveys the information that Serbia is not willing to cede to Bulgaria the territory directed, but offers instead Monastir and Adrianople in a quick rush on Chatala, to co-operate with the general military movement of the allies against Turkey.

MANY YOUNG MEN ENLIST. Special to The Toronto World. PORT COLBORNE, Aug. 13.—A large and enthusiastic recruiting detachment was held here this evening. Stirring addresses were made by several well-known speakers, including Major Williams of Niagara camp, Rev. C. E. Steele and L. E. Duff of Welland. Many young men joined the colors.

EXTENSION OF CANADIAN TRADE. The Bank will make enquiries into the possibilities and requirements of markets abroad for exporters or importers who desire to extend their trade with British colonies or possessions.

RATE REDUCTIONS DEPRESS STOCKS

Railway Shares Declined on New York Curb in Consequence. Demand for railway shares has been depressed since the rate reductions.

WAR SPECIALTIES UP

Sharp Break Occurs in Exchange on London and Paris. The overnight decision of the Interstate Commerce Commission directing sweeping reductions in rates now charged by the anthracite railroads was the event of primary speculative importance to today's stock market.

DOMINION IRON STOCKS MONOTONOUS

Shares Changed Hands Yesterday. The iron stock market was quiet, but the latent demand showed that there is no necessity to throw stocks away, as the present buyers are confident of their position.

NEW REFINING PLANT ESTABLISHED AT CHIPPEWA

Standard Smelting & Refining Co. of North Bay Starts Up New Plant. The Standard Smelting and Refining Company of North Bay is extending its business by the establishing of a plant just up the Niagara River from Chipewaga.

TECK-HUGHES SAMPLED BUT TURNED DOWN

Property Has Now Been Rejected by Two Prospective Buyers. The rumor in Wednesday's World that the Buffalo mine was about to be taken over by the Teck-Hughes was absolutely without foundation.

BIG STRIKE MADE ON DELORO CLAIMS

Rand Syndicate Open Up Vein Which Assays \$395 to the Ton. The Buffalo mine was about to be taken over by the Teck-Hughes was absolutely without foundation.

SHARP ADVANCE JUSTIFIED.

H. B. Willis, in his weekly letter says: "During the past few days the market in the gold securities has tightened up perceptibly, as a result of which substantial advances have been recorded in several of these issues."

ON THE PARIS BOURSE

PARIS, Aug. 13.—Prices were firm on the bourse today. Three per cent. rentes, 88 francs 50 centimes for cheques.

SALES CANCELED, WHEAT DECLINES

Entry of French and Italian Governments in Market Injures Speculation. Wild Rushes to Smash Values Occur in Chicago Pit.

NEW YORK, Aug. 13.—Heavy selling of bills of exchange on London and Paris caused another break today in remittance to those centres, the rates falling to the lowest quotations ever recorded since New York began to occupy a place of importance in the financial world.

STEAM PUMP COMPANY TO BE REORGANIZED

International Concern Calls for Assessment on Common and Preferred Stock. NEW YORK, Aug. 13.—The reorganization of the International Steam Pump Company, which went into effect a year ago, has been completed.

BOARD OF TRADE Official Market Quotations

Table with columns: No. 1 northern, No. 2 northern, etc.

WINNIPEG GRAIN MARKET

WINNIPEG, Aug. 13.—Wheat prices declined today in the extent of 1 1/2c. Dec. opened at \$1.04, being 1/2c lower than the previous day.

MONTREAL GRAIN AND PRODUCE

MONTREAL, Aug. 13.—There was a better demand for foreign buyers for Manitoba spring wheat today, and the decline in Winnipeg exporters were in a position to sell a few loads of old crop.

CHICAGO GRAIN MARKET

Table with columns: Sept., Oct., Nov., Dec., etc.

NORTHWEST CAR RECEIPTS

Table with columns: State, Receipts, etc.

Of Utmost Importance

The leading financiers, business and professional men in Canada and the United States realize the utmost importance of having the disposal of their estates accurately arranged beforehand. They not only have their wills carefully drawn up, but appoint a reliable Trust Company as Executor.

THE TORONTO GENERAL TRUSTS CORPORATION

HON. FEATHERSTON OSLER, K.C., President. HON. J. J. FOR, K.C., Vice-President. A. D. LANGRISH, General Manager.

ANOTHER SHARP BREAK IN FOREIGN EXCHANGE

Demand Sterling at Lowest Quotation Known in Many Years. NEW YORK, Aug. 13.—Heavy selling of bills of exchange on London and Paris caused another break today in remittance to those centres.

  - \*War Stamps Extra.

## Famous Brands on Some of These Saturday Sale Boots

A rare list of boots has been prepared for your choosing at 8.30 a.m. Saturday. It's a short day, too, and therefore the values have been set to do a day's business in 4 1/2 hours. Extra sales force at 8.30 a.m.

- FRANK A. SLATER'S "STRIDER" AND AYLMEYER-MADE BOOTS FOR MEN AT \$2.95. In button, lace and blucher boots, patent calf, gunmetal calf, vici kid, tan winter calf, mahogany and tan willow calf; best quality No. 1 oak sole leathers, three weights; recede, high, round and wide toe shapes; straight, swing and foot-form last shapes; steel gray, sand, black and brown cloth and dull calf leather uppers; sizes and half sizes 5 1/2 to 11. Values \$4.00 to \$6.00 Saturday ..... 2.95
- "DOROTHY DODD" AND "QUEEN QUALITY" SUMMER FOOTWEAR. 900 pairs, ladies' pumps, colonials and Oxfords; new foxings, latest lasts, best trimmings; patent calf, vici kid and black Russian leathers. Several widths, sizes 1 to 7. Values \$4.50 to \$6.00. No mail or 'phone orders. Dorothy Dodd and Queen Quality. Saturday ..... 1.99
- Also 400 pairs women's \$3.00 to \$4.50 boots. Saturday ..... 1.99
- LADIES' OXFORDS AND SLIPPERS, SATURDAY, \$1.39. Black kid lace low shoes and elastic front slippers, hand-turned soles, low heels, plain and toecap styles; house or street shoes; sizes 2 1/2 to 8. Saturday, at ..... 1.39
- SUMMER AND FALL WEIGHT BOOTS FOR BOYS, \$1.49. 400 pairs, strongly made, blucher lace boots; leathers are box kip, gunmetal calf, box calf and vici kid; reinforced soles; solid leather heels; sizes 11 to 13 and 1 to 5. Values \$2.50 to \$3.00. No mail orders. Saturday ..... 1.49
- FOR MISSES AND CHILDREN. 700 pairs, Weston's (Iron Clad Brand), button and blucher lace boots, made of selected polished mous leather soles (guaranteed), low and spring heels; college girl toe shapes. Sizes 8 to 10 1/2, Saturday \$1.49. Sizes 11 to 2, Saturday \$1.65.

## THE AUGUST FURNITURE SALE

- Items for This Morning**
- Brass Bedstead, continuous 2-inch posts; neatly designed husks; satin, bright or polette finishes; standard sizes. Regularly \$18.90. Saturday ..... 13.95
  - Extension Dining Table, in selected quarter-cut oak; fumed or golden finish; 45-inch top, extending to 6 feet; massive, round pedestal. Regularly \$18.50. Saturday ..... 9.95
  - Extension Dining Table, in solid quarter-cut oak; fumed or golden finish; 48-inch top, extending on easy running slides to 8 feet; neat pedestal and double locks. Regularly \$25.00. Saturday ..... 14.95
  - Buffet, genuine quarter-cut oak; fumed or golden finish; two shaped top drawers, double door cupboard, and deep linen drawers; British bevel mirror. Regularly \$28.50. Saturday ..... 18.75
  - Dining-room Chairs, in solid quarter-cut oak; fumed or golden finish; the box seats are upholstered and covered in leather; five side and one arm chair in set. Regularly \$17.50. Saturday ..... 12.85
  - Library Table, in solid quarter-cut oak; fumed or golden finish; has centre drawer and bookshelves at each end. Regularly \$20.50. Saturday ..... 12.15
  - Parlor Tables, in mahogany finish; neat design. Regularly \$5.00. Saturday ..... 2.45

- Drapery Fabrics in the Sale**
- American Art Silkolines at 14c Yard. Mixed colorings, in soft shades of rose, green, amber, etc.; floral and scroll patterns; 36 inches wide.
  - English Curtain Nets at 23c. Good quality Nottingham make; flit, block and floral designs; white or ivory; 40 to 45 inches wide.
  - Imported Velvets at \$1.50 Per Yard—Lustrous, mercerized finished velvets for portieres, window hangings, etc.; Havana brown, myrtle green, gold or blue, 50 inches wide.
  - All-wool English and French Tapestries, \$4.75 Yard—Nile, rose or gold, dark or light grounds, 50 inches wide.
  - Sunfast Assyrian Cloth at \$1.25 Yard—Granite weave, soft hanging cloth, old gold, dark brown, olive or Nile green, 50 inches wide.
  - English and French Printed Cretonnes and Chintzes, \$1.25 Yard—Taffeta, rep or jaspe grounds, large or small floral patterns, 50 inches wide. Regularly \$2.50 yard.
  - English Art Serges at 75c Yard—Heavy quality, some with mercerized mohair nap, 50 inches wide, olive or dark green, red or brown.
  - Casement Curtaining at 10c Per Yard—An assortment of frilled muslin, nets with insertion and lace edging, colored bordered scrims, plain scrim with insertion and point d'esprit, 30 and 40 inches wide.
  - Tapestry Curtains at 50c Each—Heavily fringed top and bottom, 40 inches wide, crimson only, 50 only to clear.
  - All of these special priced curtain nets, as well as other drapery materials, made up without charge during our August Sale. Also re-upholstering done at half price.

"DO IT NOW" has a special significance when applied to our HOMELOVERS' CLUB. By joining the Club now you will be able to secure the advantages of the wonderful August Sale prices on Furniture, Draperies, Carpets, Lighting Fixtures and other home-furnishings. It's an opportunity to draw interest on your income before you get it, for the savings amount to a very large part of the usual prices. ASK THE CLUB SECRETARY ABOUT IT, FOURTH FLOOR.

## Carpets, Rugs and Linoleums, Priced for a Morning's Big Selling

- Short lengths of Linoleums, suitable for bathrooms, vestibules, etc., at less than one-half price in some cases; useful small-sized rugs at big reductions, and many other special attractive features to crowd a day's selling into four and one-half hours.
- SHORT LENGTHS OF INLAIN 85c to \$1.25 LINOLEUMS SATURDAY AT 41c.
- Very short pieces up to about 4 square yards, which would do for vestibules, bathrooms, etc. Cannot promise 'phone or mail orders. Saturday, 8.30, square yard ..... 41
- REMNANTS LINOLEUM AND FLOOR CLOTHS. Short ends up to 6 square yards. Regular 27c to 50c. Cannot promise 'phone or mail orders. Saturday, square yard ..... 19
- 1,000 YARDS STAIR OILCLOTH, 15c AND 18c. 18 inch and 22 1/2 inch wide; painted back. 18 inch wide, 15c; 22 1/2 inch wide, 18c.
- 800 YARDS OAK BOARD AND 2-INCH BLUE TILE FLOOR CLOTH. The Oak Board is the regulation striped effect; 2 yards wide only. Special price for Saturday Morning Sale, per square yard ..... 21
- Tile Pattern, 2 yards wide only; extra heavy. Square yard ..... 25
- TAPESTRY RUGS, \$8.75. Three dozen rugs in various colors and styles; sizes 9 x 12 and 10.6 x 12. Regular \$9.75 to \$11.48 each. Saturday ..... 8.75
- JAPANESE MATTING RUGS AT 35c. A very useful size; 2 yards by 1 yard; colors of red, blue, brown and green; designs woven through. Saturday ..... 33

## Bundle Lots of Wall Paper

- Good assorted colorings and patterns. Regular, bundle, \$1.50. Saturday .99
- R. S. CO. PREPARED PAINTS. For inside or outside use; good assortment of colors. Regular 55c quart. Saturday ..... 49

- GROCERIES**
- TELEPHONE DIRECT TO DEPARTMENT, ADELAIDE 6100.
- 2000 lbs. Fresh Creamery Butter, White Clover Brand, per lb. .... 32
  - Toasted Crackers, 3 packages ..... 25
  - Leaf Sugar, 5 lbs. ..... 25
  - Clark's Pork and Beans, in Cans, large tin ..... 25
  - Choice Red Salmon, 2 tins ..... 11
  - Finest Milk Cheeses, per lb. ..... 25
  - Shirriff's Marmalade, 2-lb. jar ..... 20
  - Baker's Cocoa, 5-lb. tin ..... 25
  - Finest Canned Corn, Peas or Tomatoes, 3 tins ..... 25
  - Finest Canned Lobster, 1/2-lb. tin ..... 23
  - Crossed Fish Brand Sardines, 2 tins ..... 25
  - Gorton's H. P. Sauce, bottle ..... 25
  - Finest Canned Fruit, Raspberries, Strawberries ..... 18
  - Choice Olives, stuffed or plain, tin ..... 18
  - Pure Gold Salad Dressing, 3 bottles ..... 15
  - Dalton's Lemonade Syrup, 3 bottles ..... 25
  - 500 lbs. Peak Brand's Shortbread, per lb. ..... 25
  - Clark's Potted Meats, assorted, 5 tins ..... 25
  - Libby's Sweet Mixed Pickles, 20-oz. bottle ..... 25
  - 500 lbs. Fresh Fish Cakes, per lb. ..... 15
  - Fancy Mixed Biscuits, 2 lbs. ..... 25
  - FRESH ROASTED COFFEE, PER LB., 27c. 1000 lbs. Fresh Roasted Coffee, in the bean, ground pure or with chicory. Saturday, per lb. .... 27

The Robert Simpson Company, Limited

## PORCUPINE, CANADA'S GREATEST GOLD CAMP

### Geological Formation of Porcupine and Location

A Gold-Bearing Formation Extending Over 4500 Acres, Proving Itself to Be One of the Richest Gold-Producing Areas in the World.

Porcupine is south of the 49th parallel on the Hudson Bay slope, at an elevation of 1000 feet above the sea. The principal mining area contains approximately 4500 acres. It extends from the south boundary of Tisdale Township northward three miles, with an average width of over two miles to the extreme width from the Dome mines on the east to the Hollinger on the west is three and a half miles. The rocks of this area are all of Kewatin or Archean age, and form a complex of basic and acid volcanics including basalts porphyries and intermediate types.

The greater part of the region has been very much sheared, schistized and altered by great intrusions of granite and diabase in post-Temiskaming times. Minor portions of the area are less schistized, and here the rocks are for the most part massive basalts standing as hills 50 to 100 feet above the soft and schistose rocks adjoining.

There are scattered outcrops of Archean or pre-cambrian schists in other parts of the district, and a narrow band of sedimentary rock of later age stretches north-easterly from the Dome mines to Night Hawk lake, but the main area is in the basement igneous rock, and therefore not subject to change in the contents of the veins with depth.

**The Granite Magma.** According to Dr. W. G. Miller, the provincial geologist, this area may be described as an island of schistose rock in a sea of granite. This granite outcrops some miles away, and is believed to be the source of the gold. In writing on the Kolar field in southern India, which is also a pre-cambrian schist, J. Malcolm MacLaren, D. Sc., refers to the association there of auriferous veins with granite intrusions. He thinks that the granite underlies the schist, but a shaft down 5000 feet at the Mysore mine has not met with any change in the formation. And it may be that the granite at Porcupine will not be encountered for thousands of feet below the present surface.

**Identity with Other Pre-Cambrian Schists.** A perusal of the great work of Dr. MacLaren on "Gold, Its Geological Occurrence and Geographical Distribution," shows that the conditions at Porcupine conform very closely to those in the other pre-cambrian fields, including South Africa, and western Australia, as well as southern India. In all there are dikes of diabase and banded iron formation with granite as the fundamental rock and an igneous magma as the source of the gold.

In fact, Dr. MacLaren says that the pre-cambrian schists in all parts of the world form "a single petrological and metallogenetic province."

**The Origin and Formation of the Ore Bodies.** Assuming the schist at Porcupine occupies a great basin or syncline formed in the one plastic granite, it would appear that upheavals in this magma account for the shearing and vein formation. Peter MacLaren, F. G. S., who has for several years made a very careful study of these ore deposits, thinks that there were at least four separate igneous intrusions each followed by important depositions of gold. The last in point of time was an eruption of diabase which formed the cross courses and materially added to the gold contents of all the veins.

The igneous magma was the source of the gold. It probably did not occur there in sufficient quantity to be classed as ore. The metal was at later periods leached, or washed, from its matrix and deposited in the veins in more concentrated form, and the agent of solution and concentration was water highly heated and under great pressure. This water was derived from, or at all events set in circulation by the heat of the magma

and intrusions of granite and diabase. These intrusions also massed the schistose zones and vein systems, and altered the original rock to a soft and schistose one, as the hot channels were formed the heated waters brought up silica gold and other elements in solution, and deposited the same therein. And these processes occupied long periods of geological time and, involved great dynamical and chemical action and changes in the original rock and in the shear zones and vein systems.

**Form and Nature of the Ore Bodies.** Mathematical regularity was not a necessary element in the formation of these great ore bodies. Well defined veins of uniform width and length are the exception rather than the rule. Occasional masses of quartz are found in the veins, but the veins themselves are somewhat irregular in form, and the vein stone varies. The principal ore of the camp consists of interbedded quartz and schist with highly schistose bands of country rock very much impregnated with secondary quartz calcite and iron pyrites. The larger and usually lensular veins occur where the rocks are extremely schistose, while the narrower, better defined veins are found in less disturbed areas.

**Visible Gold and Payable Values.** Visible, or free gold does not necessarily mean payable values. It seems to be mainly of secondary origin. Spectacular specimens found upon the surface are no doubt due to a local enrichment from the concentration of surrounding values," is quoted by P. A. Robbins, M. E., general manager of the "Hollinger." And from the same authority we learn that payable values are commonly found where no visible gold has been observed.

**Changes in Value With Depth.** Underground, there is some oxidation—along recent watercourses, but surface oxidation is practically negligible. There is, however, a considerable change in the character of the ore at a moderate depth. The quartz masses tend to fade away and are already stated, mixed quartz and schist, or silicified and mineralized schist, becomes the prevailing gangue of the gold.

In depth the metal also is fine, invisible and evenly distributed, whereas, if it shows at all at the surface, it is coarse and "spotty." At the leading mines there has been a notable improvement in values below the 500-foot levels.

In elevated regions where there is considerable oxidation decreases in value are very marked at the ground water where concentration from weathering ceases. But there is practically nothing of this nature at Porcupine. The change in the ore with depth is not from external causes; it is inherent in the formation and is not a diminution, but an increase in value below the influence of surface conditions.

**Trunk and Branch Veins.** Peter MacLaren, F. G. S., holds that contiguous veins which on the surface may appear to be unconnected ore, in fact, generally branches from one main trunk vein at greater depth and this will carry more consistent values and be much larger and better defined than its branches or offshoots. Developments at several properties tend to strengthen this view.

**Irregular Ore Bodies.** Numerous small fissures running in many directions tend to great positions of metal. On this point Dr. MacLaren says that interlacing stringers or what is known as stockworks, "are favorable to ore deposition probably because opportunity is afforded for the intermingling of the solutions carrying the metallic salt and the precipitant, respectively." This form of ore body also promotes deposition by a rapid decrease in temperature

Dome Mines, Mill and Plant. (Photo by Tomkinson, South Porcupine.)

on account of the increased surface of the cooler country rock. On the same principle the richest ore is generally found along the walls or contacts of quartz and schist.

**At the "Dome Mines" there was the largest mass of quartz in Porcupine but in this the ore was low grade. With depth the percentage of silica decreased and the ore is of better grade than any mass of equal size in any part of the world.**

**Cross Veins.** Most of the veins at Porcupine have a northeast or southeast strike but at the time of the diabase eruption they were cut by many cross veins and the solutions thus set in motion traversed both systems and very materially added to their gold content. Dr. MacLaren emphasizes the constant association of diabase intrusions with the auriferous schist of the pre-cambrian era.

**Precipitants of Gold.** "Gold will be deposited wherever physical and chemical conditions are suitable irrespective of the nature of the walls of the fissure or cavity through which the auriferous solution happens at the time to be passing." Precipitants materially aid in deposition and of these the most important seem to be carbonates and sulphides. At Porcupine practically all the veins which are gold bearing contain considerable carbonate of varied composition. Wherever the enclosing rock is schistose it always carries dolomite or ankerite.

**Iron pyrite is by far the most prominent sulphide. It forms about four per cent of the auriferous schist and occurs also in the quartz and calcite. Other sulphides sometimes seen are copper pyrites, pyrrhotite, arsenopyrite, galena and zinc blende.**

**The most prominent vein stones are quartz, calcite, dolomite, sericite, chlorite and tourmaline. Occasionally we find perlite, serpentine, feldspar, molybdenite and scheelite.**

**Even Values to great Depths.** The older igneous rocks are favorable for large and permanent ore bodies, but not for specially high values. The accumulation of the precious metal was a gradual process of long duration, and now it is such below the original surface in a zone where there were no sudden changes of temperature or pressure at the time of precipitation. And changes in the tenor of the ore do not occur with the same rapidity or to the same extent as in more recent rock formations.

**No Values Apart From Ore Channels.** Some engineers not familiar with the ore deposits of Porcupine have looked for gold in the shear zones as such, but mere physical change in the originally massive rock is not sufficient.

There must also be chemical change from the action of the solutions which accompanied the later igneous eruptions. The dynamic agencies, however, opened the channels through which the heated waters circulated and deposited their precious burden. And the numerous fractures which ramified thru the schist were, as already pointed out, very favorable to the deposition of the gold.

**Surface Contour of the Ore Zone.** Rocks which have been much broken and fractured readily yield to the action of glaciers and atmospheric agencies. They weather down more rapidly than the hard massive complex. We may therefore expect to find the best ground practically level unless where there are masses of solid quartz. Owing to their superior resisting power these form "domes" of varying sizes, while alongside the shear zones, are often hills of amygdaloidal basalt. An even surface in this region may be evidence of intense dynamic agencies and much shearing and fracture.

**The Great Shear Zone.** Shearing has not taken place to the same extent over the whole mining area. But all the development indicates that the most promising ground is that which extends in a general south-easterly direction from the "Millerton" and "Hollinger" on the west to the "Dome Mines" on the east. In this belt the shearing has been more extensive than in any other pre-cambrian field, and there are as a result groups of three or more veins to each well defined zone of fracture.

**The Numerous Veins.** At the "Hollinger" development is well advanced and over fifty-four veins have been located. They are close together and can be worked from one central shaft. To this will be brought by electric locomotives, not only the ore from the 150 acres of the "Hollinger," but also that from the "Millerton" and "Acme" adjoining.

**The number of veins and the great volume of ore are important and unusual factors, and tend greatly to reduce the costs and increase the profits of mining.**

There is only a single fissure in the Kolar field, but Dr. MacLaren pronounces it the greatest ore shoot in the history of mining. Several large mines are operating on the shoot. A depth of about 5000 feet has been attained and the total output is over \$300,000,000.

**Importance of Pre-cambrian Schist.** Ontario is by far the greatest metal mining province in Canada, now leading in gold, silver, nickel, copper and iron. But Porcupine is its only great gold camp. Very rich ore has been found from time to time over wide areas in other parts of Ontario, but the production has been limited.

**Permanence of the Deposits.** In his third annual report on the "Hollinger," Mr. Robbins says: "We are located in one of the great pre-cambrian areas of the earth's crust, and the results of mining in similar areas in the other part of the world, Western Australia, Southern India, South Africa and Brazil have all contributed to a building up of knowledge concerning the occurrence of gold in deposits in these older rocks. And as pointed out by Dr. MacLaren before the recent Canadian meeting of the International Geological Congress, gold deposits of this type are deep seated in their origin, and persist in depth until some unfavorable change in rock formation may occur adversely affect the gold bearing zone."

**The Great Future of Porcupine.** When it is remembered that the new Canadian camp has larger ore bodies than any other field, there is a tendency to shrink from specifications as to its ultimate production. We know it must be very large, but we have no other region with which it may be fittingly compared. Elsewhere there are veins which also persist to great depths, but they are single fissures in ground not so intensely sheared as that at Porcupine. We have nowhere so many veins and vein systems. The camp is yet in its infancy, and it is impossible to say how many veins will be found as work proceeds. After four years' operations on the 100-foot level of the "Hollinger," occasional and unexpected bodies of ore are still being met with. But for the present only 12 of the 54 veins are being exploited. But since the last of July, 1912, production has been over \$7,000,000. Total dividends are \$3,550,000, and there is a surplus of \$1,270,000, notwithstanding heavy expenditures on betterments. It is now believed that there is \$100,000,000 in gold above the 775-foot level in the "Acme," "Millerton"

### War Demands Development of All British Gold Areas

World-Wide Necessity for More Gold Will Regard the Development of the Porcupine Camp as That of Part of the Work of Patriots.

Events have freely justified the wisdom of the call made soon after the outbreak of war for increased production and purchase of Canadian goods. That the effort in that direction has been successful is shown by the important and favorable change in the ratio between the imports and exports of the Dominion. In 1913 the surplus imports nearly reached \$200,000,000, and even last year to more than half that amount. Now a parity has been secured with the prospect that before long exports will exceed imports and provide a credit balance in Canada's international trade. Consideration for the future prosperity of the Dominion requires that this policy be continued and that every effort be taken to ensure the employment of capital on profitable enterprises only.

For the time being international credit has ceased to exist and the question for each nation engaged in this colossal war is how best to mobilize its wealth. Mr. Lloyd George, during the debate on the last war budget, is reported to have said that the difficulty of the chancellor of the exchequer was not that the United Kingdom was not rich enough to wage war for twenty years, if necessary, but that its assets had to be liquidated to pay for expenditure as the war went on. What counts now is not wealth in the forms that are associated with peace times but wealth that can be turned into armaments of war. It is very necessary too, that the British Empire live as far as possible within itself and make use of its own resources.

When war broke out the first concern of each of the great belligerent nations was to look after its credit and its gold. Germany has been assiduously combing the country for gold, even the women's wedding rings have been commandeered and added to the reserves in the Reichsbank. Britain, France and Russia have not found it necessary to go to this extreme but have each had serious indications of the quality and extent of the deposits it is reasonable to hold that Porcupine will before long take a high place among the gold producing districts of the world. It is as patriotic to produce gold for the empire as it is munitions and those assisting to the development of Porcupine present a double purpose to serve, first, the patriotic side, and second, the profitable side.

Labor and Capital are both necessary to make Porcupine, and Capital is the immediate necessity.

Also the great mines in the Rand District of the Transvaal and in Rhodesia were supposed to have passed the period of maximum output, there has, of late, been a marked increase in their production. In normal times an average of \$3,500,000 of the metal reaches London every week. On this basis during the forty-five weeks from the middle of last August to June 30 of this year, a total of \$157,500,000 would have been shipped. But, as matter of fact, the actual production for that period was \$388,000,000 with a value of \$174,000,000, an increase of \$17,100,000 over expectations. That increase continued during July and will probably be maintained unless the supply of native labor diminishes, of which there are some indications.

In order to avoid the risk attending shipments of gold in war times the Bank of England opened an agency at Cape Town about the middle of August for the deposit of gold from the South African mines. These deposits were estimated at the beginning of July to total between \$150,000,000 and \$180,000,000, or about sixty per cent of the bullion holdings of the Bank of England. As the gold shipped from the United States to Ottawa has nearly all been returned, the probability is that should further gold require to be sent to New York to strengthen exchange on London the bank will release the metal from its Cape Town deposits rather than from its vaults in London.

In these circumstances it is the duty of every British state possessing gold areas that can be profitably worked to utilize them to the best advantage. Among the known areas that are likely to repay wider development none is more promising than the Porcupine district of Northern Ontario. For the calendar year 1914 the total gold production was 252,327 bullion ounces valued at \$5,203,323. Every year since 1912, when real work began, has shown a progressive improvement in output and ore reserves of higher contents are looking forward. The indications of the quality and extent of the deposits it is reasonable to hold that Porcupine will before long take a high place among the gold producing districts of the world. It is as patriotic to produce gold for the empire as it is munitions and those assisting to the development of Porcupine present a double purpose to serve, first, the patriotic side, and second, the profitable side.

Labor and Capital are both necessary to make Porcupine, and Capital is the immediate necessity.

Another impressive fact as to the status of Porcupine is the result of mining the pre-cambrian in other parts of the world. Depths of 5000 feet have been attained in India, Africa and Brazil, and from rocks essentially the same as those at Porcupine have come the greater portion of the world's supplies of the precious yellow metal.

**Many Properties of Merit.** Porcupine is not a region of two or three mines. If the "Hollinger" and "Dome Mines" are at present the most prominent it is because they have been the most extensively developed. There are many other properties of equal merit now seeking capital. The mining and metallurgical problems have been solved in the camp. There is an efficient railway service and two hydro-electric power plants. The great war has added to the value of gold, and has shown the superlative stability of the industry. Many of the other gold fields of the world are nearing exhaustion, but Porcupine is still young, and when all its properties are being worked to capacity it will be the greatest producer of the twentieth century.

## South Porcupine of Today Settled Into Proper Stride

Extent and Magnitude of This Newest Gold Field Little Known—Six Towns in Distance of Thirty-Three Miles on Branch of T. and N. O. Railway.

Since Northern Ontario became a mining district, following the construction of the Temiskaming and Northern Ontario Railway from North Bay, and the consequent opening up of the now famous silver mines of that section, no name on the map of Ontario has been so significant from a mining point of view as that of Porcupine.

But few people, with the exception of those that are directly connected with the mining industry, know little of the extent and magnitude of this newest gold field of the north. So great has been the activity along

south, and, in fact, all around, the value of which will be proven under development.

Some idea of the wealth found in the camp may be gained from figures showing the production to the end of last year from 1910, during which period \$11,271,511. In bullion was shipped from the various mines. 562,239 tons of ore was treated, giving 578,484 ounces of gold bullion. Last year alone the production totalled \$5,263,229, only nine mines being on the producing list. In the year 1910 only \$35,539. In bullion was produced. At the outbreak of the war the work

for the last half of the year should be considerably increased.

The mines, of course, are the centres of activity in this wonderful northern part of Ontario, but any picture would be incomplete unless it took in the towns of the district. Timmins and Schumacher, the two newest, present perhaps the busiest appearance, but this is due largely to the fact that they were not started in the early days of the prospector, and as a result were not greatly overbuilt during the boom times.

Timmins is a thriving town of about 3500 people, and, aside from the business folk of the town, the population is largely made up of the men employed at the mines, the majority of whom, with their families, will be residents for years to come. The board of trade and council have carried out their municipal work with a view to permanency. The town is laid out on the square plan with wide streets and avenues; cement sidewalks have been laid; electric lights installed, and water service and fire protection that the town may be proud of is provided. Timmins today is the most thriving town of the district, due

## The Mines of Porcupine; Some Facts and Figures

What Has Been Done in the Way of Development on the Various Properties and a Prediction Regarding the Future of the Camp.

In a few years Porcupine will have several of the largest gold mines in the world. One of these will probably be known as the "Hollinger Consolidated." It will have a capitalization of \$10,000,000. A mining area of 575 acres, and annual profits of over \$5,000,000. There are a number of facts which point to the fulfilment of this prediction. The Canadian Mining and Finance Co., Ltd., are general managers of the "Hollinger," and own 51 per cent. of its stock. They also own the entire share capital of the Acme Gold Mines, Ltd. and of the Millerton Gold Mines Ltd.

not an insuperable obstacle, when the Canadian Mining and Finance Co. controls the "Hollinger," and owns absolutely the other properties. It is merely a question of fair terms to the holders of the 244,000 shares of the "Hollinger," now outstanding. To give an inkling of the probable output of gold from Porcupine it is pointed out that developments now indicate that in an area of 15 acres on the "Hollinger" there is at least \$20,000,000 in gold, above 1425 feet. And Mr. Robbins, the general manager, says there is \$100,000,000 above the 675-foot level, in the "Hollinger,"

cost of mining was \$2.59, and the profit, \$1.42 per ton.

The crushing capacity is being constantly increased at the "Hollinger." Last year there were 60 stamps, and the mill treated 208,886 tons of ore, which gave a gross value of \$2,685,354, and profits of \$1,786,679, or \$8.55 per ton. There are now 100 stamps dropping on ore from the "Hollinger" and "Acme." It is probable that the consolidated mines will have 250 in commission, and these should give a gross production of \$10,000,000 per year. The "Hollinger" has been producing \$45,000 per stamp, as against \$17,000 in the Rand.

The last annual report on the "Dome Mines" is up to March 31st, 1915. Ore reserves were then given as \$11,567,858, and operating costs at \$2.06. Development work so far has been within a zone 1500 x 400 feet. When work began in 1910 a portion of this was capped by large masses of quartz with intrusions of schist. A "glory hole," 300 x 250 feet, has been carried down several hundred feet and over 90 per cent. of the material removed was fed to the stamps, returning \$5.70 per ton. This must be all

of the mining area, as the "Hollinger," "Millerton" and "Porcupine Crown" do the west. The latter property is paying 12 per cent. per annum from a single vein carrying \$20 ore. It has only 40 acres, almost half of which is covered with sand. The "North Thompson" adjoining it on the east, is developing favorably and the "Vipond" is rapidly coming into a very strong position. Its veins are increasing in size and value with depth. It is evident that the "McIntyre" is a younger brother of the "Hollinger" and "Acme." It has a portion, at least, of their great vein systems. The same remark applies, tho, in a less degree, to the "Schumacher." On this property a hundred ton mill will soon be in operation.

There are many other properties of promise, not yet under development. The crying need of the camp is more capital. Whenever sufficient money has been wisely spent, results have been very satisfactory. In every case there seems to be a distinct improvement with depth, ore bodies become larger and richer and dividends come within the range of probability. Considering the many adverse influences heretofore met with, progress has been very remarkable, in fact, rapid and substantial than any other gold region of which we have any knowledge.

It has now every facility for economical mining. At the "Hollinger" costs are \$3.50 per ton, while at

Central view in the town of South Porcupine.

prospecting and mining lines that no less than six towns have sprung up within a distance of thirty-three miles since the prospecting first commenced in the winter of 1909. All of these towns: Golden City, Pottsville, Porcupine, South Porcupine, Schumacher and Timmins, are reached by a branch of the Temiskaming and Northern Ontario Railway, which connects with the main line about 450 miles by rail north from Toronto, a little more than

of further prospecting and development was considerably lessened on account of the depression in the money market. Despite this fact, however, extensive improvements and development works have been continued at the producing mines, and others are being rapidly brought into a position where they will be listed among the producers of bullion. The chief cause of the extensions and improvements at the producing mines has been the

fact that more mines are being operated close by than in the immediate neighborhood of the other towns.

The town of Schumacher, with its transient population of about 1500, is still in its infancy, but the future of the place is quite bright, since it is the centre of a mining section that is being actively developed, including the McIntyre Schumacher, and Vipond. Many of the miners will undoubtedly make their homes in this newer town, where there are now quite a number of business interests.

It is unfortunate for South Porcupine that one receives a bad impression of the town when leaving the train. This, however, is caused in the first instance by the location of the station, which is some little distance from the business section of the town, and which, so to speak, only gives an entrance by the back door. The second reason is that the town, like the majority of new mining towns, was greatly overbuilt by speculators in the early boom days, and these, having made their little pile, or lost it, have retired leaving the empty buildings to go to decay.

Upon closer investigation, however, one finds that the town of South Porcupine, which is about central for the whole district, has got into its proper stride and is now what might be termed a steady going home district. Many miners and others engaged in different walks of life make this the place of their habitation, and the business men have settled down to meet the demands of a town of homes, and not those of a transient horde of boomers.

The great conflagration of 1911, in which so many lost their lives, and at the news of which the outside world stood aghast with horror, may have been somewhat of a handicap to South Porcupine, but it did much good. All of the first boom town was wiped out, leaving it possible to reconstruct on more modern lines. Following the fire the layout was improved, and while many boom buildings were put up better buildings were erected, and, generally, the town was improved more than it could have been for years, had not the fire taken place.

Today South Porcupine has two of the finest hotels in the whole north country. Electric lighting, telephone service, and a adequate fire protection has been provided; and the business interests have been put on a sound and permanent basis and the consequent opening up of the known valuable gold properties around South Porcupine, together with those at present operating, including the big Dome and Dome Lake, will make South Porcupine one of the big towns of the district.

The later adjoins the "Hollinger" on the west, and the "Acme" on the east. The "Acme" is generally considered to be fully equal to its great neighbor. It has over \$10,000,000 in gold now in sight. The "Millerton" is not so fully developed. Its ore bodies are very large, but not so high in value as those of the "Hollinger" and "Acme." Then under the same ownership are four mining claims beginning on the east side of the "Acme," and running east one mile. These are undeveloped, but are considered very valuable.

When the Timmins Brothers sold all their remaining holdings in Porcupine to Bewick Mowbray & Co., they reserved these four claims because of their central position and proximity to the "Hollinger" and "Acme." On the north is the "Schumacher," and on the south the Porcupine Success Gold Mines, Ltd. and the "Dome Lake" Mine, Co., Ltd. In which E. P. Earle of the Nipissing Mines and D. Lorne McHugh of the La Rose Consolidated are heavily interested.

After a broad survey of the requirements of their various properties the Canadian Mining and Finance Co. have completed a large modern air compressing and water pumping plant of re-enforced concrete and steel, absolutely fireproof. They are also sinking a six-compartment central working shaft to a depth of 1250 feet, with stations at 425 and 800 feet. From each station cross cuts will be driven to tap the various ore bodies on the different properties, and electric locomotives operating in these cross cuts will collect the ore and deliver it at the central shaft.

The compressors will have a capacity of 13,500 cubic feet of free air per minute, with space for additional units while the mill is designed to crush 2000 tons per day.

The maximum of economy in operation and the minimum of capital expenditure for equipments can be secured by working the properties together, and the only difficulty at present in the way of consolidation is the equitable valuation of the various properties. The "Hollinger" has the most development, the "Acme" comes next. On the "Millerton" little work has been done, and the four claims are only partly prospected. Obviously, however, the apportionment of values between the different properties is

"Acme" and Millerton." But only a fraction of the whole area has as yet been explored, and even if this enormous sum were obtainable every 1000 feet, there would be \$500,000,000 at a depth of 5000 feet.

There is no doubt that these are prospectively very deep mines, while the record of the "Hollinger" is equal to that of any other mine working on unoxidized ore in any known mining region. It is true that the Gold Fields Consolidated in Nevada paid \$7,000,000 in dividends in 1911, but this was due to secondary enrichment. Its ore has now become of much lower grade. The same thing may be said of the once world famous "Mount Morgan" in Queensland, and as to the mines of the Rand, their large outputs are due to the enormous tonnages crushed. Altogether 10,000 stamps are in commission, 25,000,000 tons of ore are treated annually on which the profit is under \$2.40 per ton.

The Homestake in South Dakota has over 1000 stamps dropping. Its dividends last year were \$2,146,225. The ore averaged \$4.01 per ton. The

considered remarkable in view of the fact that all the rock was taken from the surface down on the non-selective system and that less than 10 per cent. was rejected as waste. Ore of much better grade has come in at a vertical depth of 250 feet. The tonnage available is not yet proved but there is every indication of an enormous body of high grade, as well as of low grade ore. At a vertical depth of 320 feet the shoot was found by diamond drill to be 320 feet long by 120 wide. A cross cut since driven shows ore at one point 45 feet wide averaging \$21.43. Another cross cut for 25 feet shows \$19 ore. This cross cut is following a diamond drill hole, which gave \$14.48 over a width of 153 feet. Definite information as to the full width and values here will not be obtainable until cross cutting is finished, but there is no doubt that the ore shoot now being developed is by far the richest ore body ever struck in the northern country. It is probable that within a year there will be over \$50,000,000 in gold ore blocked out in the "Big Dome."

The 80-stamp mill at this property is the most complete on the continent. Plans are now under way for a great increase in its capacity and it is certain that the "Dome Mines" will have an enviable record as one of the great producers of the camp. It represents the eastern extremity

of the "Dome Mines" they have during the past year been reduced from \$4.19 to 2.98 per ton. Further reductions are looked for at both properties. The country rock is soft, much broken up and easily mined, while the ore bodies are large. Besides adequate transportation and cheap power tend to a minimum in all outlays whether for mining or milling. And, above all, the camp is permanent and will, in the end, necessarily attract very large capital. Dr. Malcolin Maclaren, the greatest of the modern writers on gold, says that its two principal sources are granites and andesites. The latter was found mainly in the Andean and Rocky Mountain chains, and in them the primary gold is generally of low grade and cannot be worked without some very local enrichment. "Bonanzas" do occur, but most of these have already been exhausted. At Porcupine, on the other hand, practically all the gold is primary and is now evenly distributed just as it was derived from the granite magma. There are no sudden changes in quantity but below the zone of surface disturbance there seems to be a material increase in values. This is well illustrated at the "Dome," "McIntyre" and other mines. Porcupine is rapidly acquiring a strong status in the mining world, and there is likely to be a very pronounced movement of capital even before the end of the war.

Hotel Connaught, South Porcupine.

twenty-one hours' ride.

The principal mines of the district, and those being most actively operated, lie between South Porcupine on the east and Timmins on the west, in Tisdale Township, being divided into two districts, each district making one of the towns its headquarters.

Naturally the whole district has been thoroughly prospected, and there are properties lying to the north and

increased demand for gold, so that this year, unless something unforeseen should occur, the output figures will be much higher than any yet shown.

This is already evidenced by the reports for the first six months of the year, which show a marked increase over the same period last year, or even the last six months of 1914, and with other mines just about ready to be put on the producing list and production

### PORCUPINE DISTRICT

# TIMMINS, THE NEW TOWN OF THE PORCUPINE DISTRICT

In Close Proximity to Some of the Larger Mines, Timmins is a Town of Homes. Adequate Fire Protection Provided With Modern Civic Conveniences.

An abundant supply of electric energy has helped, perhaps more than anything else, to give the Town of Timmins a prosperous appearance, and at the same time has been the means of attracting industries that otherwise could find no place in the town's activities. This electric power, which is supplied by the Northern Ontario Light and Power Company, and is produced at their hydro-electric generating station at Sandy Falls on the Matagami River, furnishes light for all the streets of the town, and all the places of business as well as the residences are wired for and use electric light. It is hardly necessary to say that this excellent lighting and power service adds

operations thru having to work in them daily. At the present time many buildings are being erected, but so far the demand has exceeded the supply, and this is likely to be the case for some time as the population, which is now about 3500 is growing very rapidly. At the present time there are several new public buildings under way or mooted. The two most notable are the office building being erected by J. W. Reed and the hospital. The Reed building will occupy one of the most prominent corners in the town, having a frontage on the two main streets. It will be two stories high with a floor area 30x78 feet; of steel and tile construction with a Milton

When the gold mining camp to the south and west of Porcupine Lake began to open up one of the first things to be done was the locating of a townsite, since a town and mining camp have gone hand in hand from time immemorial and always will.

The present location of the thriving Town of Timmins gave every indication of being the choicest spot in Tisdale Township, where the business of the western portion of the Porcupine Camp might be centred, and it has not failed to live up to these early indications.

Some of the mines having done considerable development work before the early part of the year 1912. The Timmins townsite was laid out at that time, and in three years that the town has been in existence the growth and progress that has been made is nothing short of phenomenal.

Timmins is situated a little over 33 miles by rail west from the main line of the Temiskaming and Northern Ontario Railway in the Township of Tisdale, and is about seven miles west of the town known as South Porcupine, located at the south end of Porcupine Lake. The site, which is some square miles in extent, is a high sandy knoll, so that unlike the surrounding country, no great inconvenience is suffered by the spring thaw or during the rainiest days of the summer season, the roads being quite dry a short time after the heaviest rainfall.

The general lay-out of the streets was done in the best manner possible by the Timmins Townsite Company, Limited, and following its incorporation in 1912, at which time the major portion of the lots had been sold, the people started in to make the improvements they thought necessary to meet the demands they knew would, and which has since been made upon the place, to take care of the business that has resulted from the great mining development that has taken place. It was absolutely necessary to do this if the town was to grow as nearly all of the business is drawn from the mines and allied interests, where about 2000 men are employed.

The most notable feature, and one that has cost in the neighborhood of \$100,000, is the first-class water system that has been installed. The water is obtained from the Matagami River, lying about three-quarters of a mile from the west limits of the town, and before any work on the plant was done an inspection of the whole region was made by the provincial board of health for Ontario, which body approved the use of the water from the Matagami in which river there is quiet a rapid current, and together with its distance from the town, makes very remote the possibility of contamination of any kind whatever.

The town service is supplied by an immense standpipe, to which the water is pumped up a slight grade from the intake at the river, but the supply and service mains are so arranged that except in emergencies the water is pumped into the street mains direct at a pressure of about fifty pounds. In this way it is possible to keep a large supply in the standpipe, making available at all times a high pressure for fire purposes.

To supplement this the town is provided with a powerful portable fire engine of the Waterous build, as well as a hose-wagon of the latest design, and these are in charge of a competent engineer who is ready to answer a call at any time, together with a well trained volunteer fire-fighting force. In order to facilitate matters, a system of fire signal boxes has been installed so that the brigade can be called out from almost any part of the town. Hydrants are also provided and in close proximity to these fire-hose boxes are located, and as water mains have been laid on all except the streets opened up of late the town is practically removed from the danger of a large conflagration.

Bird's-Eye View of Timmins From the Water-Tower.

more than anything else in giving Timmins somewhat of a metropolitan appearance when night falls.

Among the other town improvements wide concrete sidewalks take an important place. These have been laid on the major thoroughfares and are of a width worthy of a city. The streets generally are a splendid width and grading has been done preparatory to the putting down of macadamized pavements, which latter work will likely be done before snow flies next winter.

The means of communication with the outside world are par excellence and there is now no such thing as being "buried alive" during the spring thaw or at any other time for that matter, as was the case in some of the mining camps of this northland only a few years ago, and is today even in some sections.

Direct telegraph and long distance telephone service is to be had at all times, not only to the outside world but to all parts of the surrounding territory, including the mines and neighboring towns of South Porcupine and Golden City.

The railway service is such that there is even no suggestion of improvement. The Temiskaming and Northern Ontario Railway run three passenger trains daily to and from Timmins to Porquus Junction on their main line, stopping at the intervening points of Schumacher, South Porcupine, Porcupine, Three Nations, Keys, Connaught and Kilburn. At all of these places there are either mining or lumbering operations being carried on. At Porquus Junction direct connection may be made for all points on the main line of the Temiskaming and Northern Ontario Railway from Cochrane to North Bay. Here, also, connection may be made with the thru trains for Ottawa, Montreal and Toronto over the Grand Trunk and Canadian Pacific, and with the putting on of the new transcontinental service connection may also be made with that train for Winnipeg, Toronto, or Montreal.

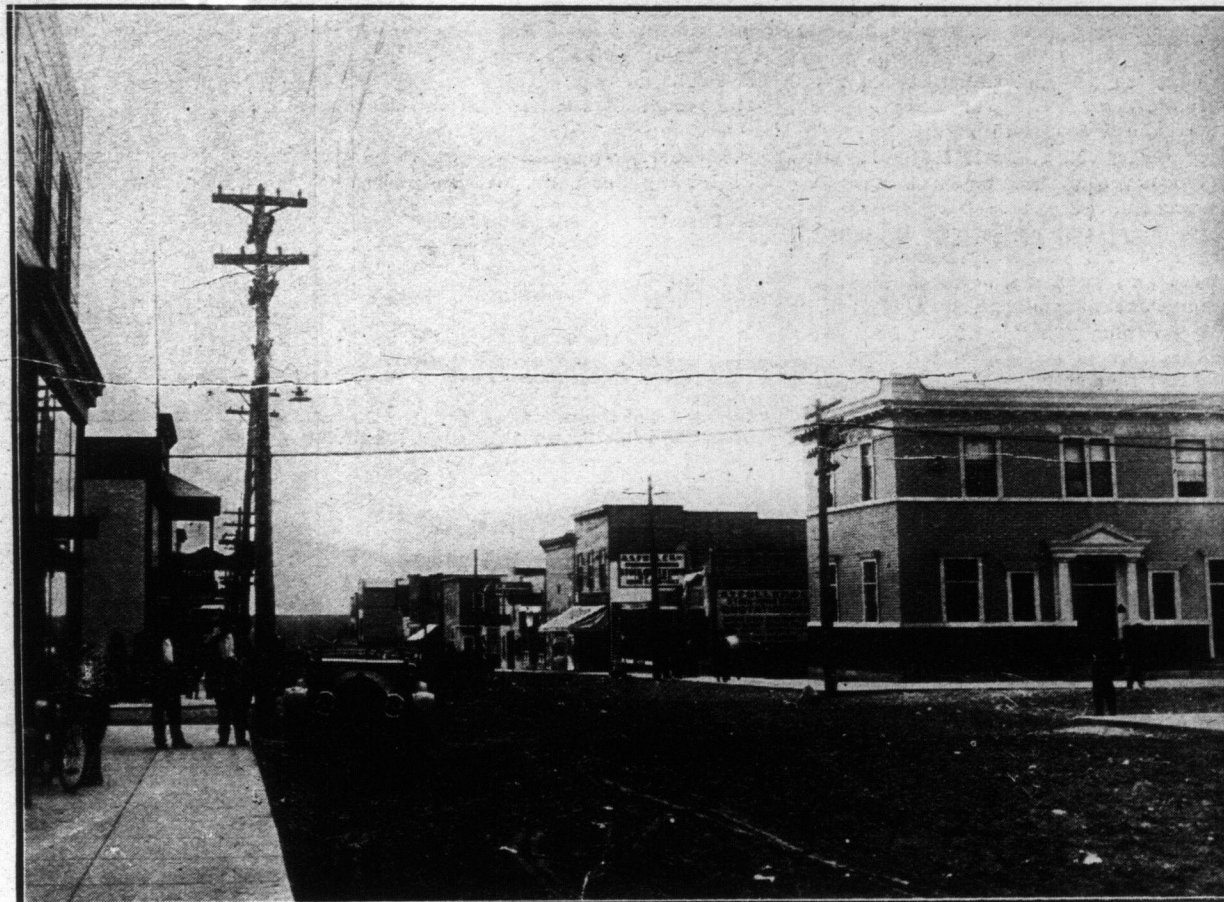

In connection with transportation facilities the new government road is of interest. This road, which is now nearing completion, will join up all the camps from Golden City on the east and extending

thru Timmins will run into the adjoining Township of Mountjoy, where the Ontario Government is opening up land to settlers. Some settlers have already gone in and it will be no great time before there is considerable of a farming community immediately west of the town, where the soil is quite fertile and where good crops of certain kinds may be grown despite the short summer season. This government road has been so run that it will be an easy matter for all the mines to connect up with it by short side roads, and in many cases the mining companies have already built these for their own use and convenience.

The prospective visitor to Timmins need not worry about his personal comforts since his bed and breakfast will be well provided by the host of the "Goldfields" hotel, which is of goodly dimensions. There are spacious and comfortable rooms and the service is of an excellent character. For those who are making Timmins their headquarters for some time, and who do not wish to make the hotel their home, many comfortable rooming and boarding houses have been provided, and the restaurants and quick lunch counters, of which there are a number, are first-class in every way, the meals being at least the equal of those served in city restaurants.

The fine residences in Timmins are particularly noticeable, especially on the hill to the north of the town, where many of the wealthier people have made their homes. These comprise some very pretty bungalows and two storey houses, some being frame while others are of cement and brick. The residential streets, also, have been laid out on the broad plan, and in most cases the homes have been kept a comfortable distance apart. A precaution that might well have been taken by many other mining towns.

The permanent nature of the camp as a mining proposition is evidenced in no better way than by the fact that many of the men employed at the mines have built and own their own homes within the town and today the total assessment is \$800,000. And just here it might be well to point out that if anyone should know the possibilities of the mines it is the men who keep in close touch with

3rd Avenue, Looking West.

pressed brick face on both streets. The cost is estimated at \$10,000 exclusive of the site. With the completion of the building the banking facilities of the town will be increased, the ground floor having been leased to the Canadian Bank of Commerce, who will open a branch here shortly. The second storey of the building will be given over to offices for brokers, etc.

The hospital, of which the concrete foundation has already been put in, has been planned large enough to take care of the town's needs for sometime to come, together with any cases that have to be sent in from the mines. It will be equipped with the most modern medical and surgical appliances so that patients will get treatment the equal of that received anywhere.

A new public school to cost \$8,000 has been planned and will be commenced as soon as the debentures are issued, and a fine Roman Catholic Church, costing in the neighborhood of \$25,000 is being completed. The other churches are Anglican and Presbyterian.

Residence District of Timmins.

The people of Timmins realize that business mixed with pleasure is a wholesome thing, and suitable recreation grounds have been provided as well as a recreation hall and one of the finest indoor skating rinks, having a floor area of 100x210 feet. A race track is just being finished; two baseball clubs, a football club, and three hockey teams are supported as well as two theatres, several pool rooms and bowling alleys.

From a business standpoint Timmins is one of the most prosperous towns in New Ontario today, and with perhaps the exception of a sash and door factory the requirements of the town are met within its own limits. Commercial men in all lines visit Timmins regularly, finding it good ground to work. The Imperial Bank has a branch here, and the Canadian Bank of Commerce is coming. Retail stores of all kinds are well represented, including large clothing, provision and hardware establishments. There are also branches of the larger mining machinery houses. The town has two live stock brokers; a weekly newspaper; two job printing studios and a good drug store, while there are two photograph studios.

Mayor W. H. Wilson and councillors, A. R. Globe, W. E. McCoy, E. LaFlamme, Dr. H. H. Moore, Chas. Dalton and Postmaster H. Peters, are to be congratulated on the excellent progress that has been made in the way of municipal improvements. The business interests have been ably taken care of by the board of trade of which Dayton Ostrosser is president and H. J. Marshall, Chas. Pearce, Saul Leub, J. P. McLaughlin, F. C. H. Simms, Dr. J. P. McInnis, S. Bucovetsky and T. F. King are the executive committee.

## A Mine With Unique History Surface Showings Meagre

Development at McIntyre Mine Done by Underground Work, and Property Has Proven to Be One of Richest in the Porcupine Camp.

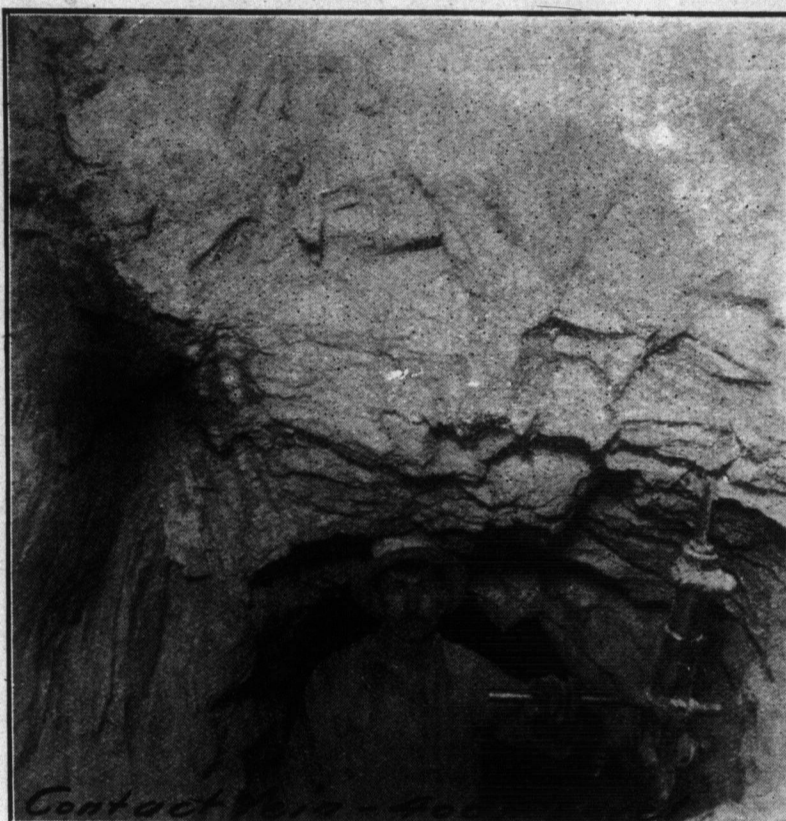

The McIntyre Mine has had a unique history. It was one of the properties to be opened up in the early days of the camp. The surface showings on this property were meagre and the development of the property had practically to be undertaken by underground work. This revealed the fact that the veins were erratic in their occurrence, being mostly lenticular with numerous faultings, which made the successful development of the property slow and expensive. It passed thru several years of financial distress and on many occasions was on the point of collapse. The McIntyre is a shining example of the fact that mines can be made and that they are not all found by chance or good luck. The underground development of the property was started in 1911 and three prospecting shafts were sunk at different parts of the property. In the latter part of that year a ten-stamp mill was erected for experimental purposes. The ores to the 200 foot level were found to be free milling and good results were obtained from the mill. When a depth of 200 feet was reached it was found that the ores were not free milling and a cyanide plant was installed in 1912. Two

conditions indicate that a large ad- have been made. No. 4 shaft is being operated to a depth of 600 feet and No. 5 shaft is now being sunk from the 500 to the 600-foot level. Developments at the present time are satisfactory and indicate that the ore bodies will go to great depth. The recent acquisition by the McIntyre Company of the adjoining property, formerly operated by the Pearl Lake Mining Company, will undoubtedly prove of great importance in the near future. A new company has been formed, called the McIntyre Extension Mines, Limited, of which the McIntyre Company owns control with the privilege of utilizing the shafts and workings of the old Pearl Lake property. The north ore bodies of the McIntyre Mine can readily be reached and operated from the Pearl Lake shaft, which has been sunk to a depth of 600 feet and is one of the best three compartment shafts in the camp. It is contemplated beginning operations immediately, when this shaft will probably be sunk to a depth of one thousand feet, and will become the main working shaft for both properties. Milling operations have been greatly extended and the mill is now treating over three hundred tons per day. The increased capacity of the mill has enabled the management to treat large lodes of ore which, with a mill of smaller capacity, could not have been handled profitably and the present

### Notes From Mine Manager's Report

**Exploration**  
In 1913 it was recognized that the location of the ore bodies on the south side of Pearl Lake was controlled by structural conditions, and that a close study of these conditions was necessary to carry on development work intelligently. A geological department was created at the beginning of the year to do this work and to assist in solving the serious faulting problems at No. 5 shaft. The work of the de-

velopment on the upper levels. Lateral development on the upper levels continues to encounter new ore bodies. The average width of No. 5 vein has increased from 8.5 ft. on the 300-ft. level to 12.5 ft. on the 400-ft. level with no change in values. This vein has been cut by diamond drill on the 500-ft. horizon, and is 12 ft. wide. Three bodies of ore have been encountered by diamond drill in the north contact below the 300-ft. level.

Slope at 400-ft. Level, Showing Lode Structure, at McIntyre.

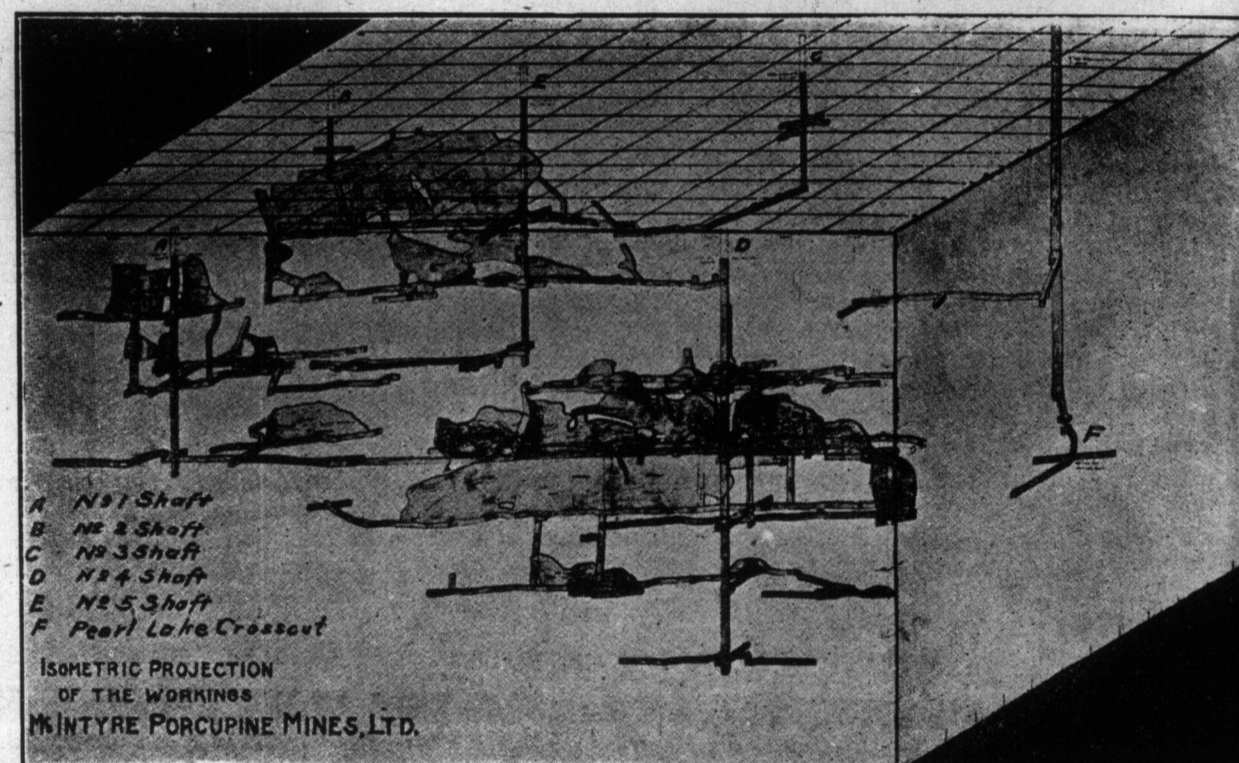

### EXTRACTS FROM ANNUAL REPORT

#### President Alex. M. Hay Makes Highly Interesting Statement to Shareholders.

In a report issued on July 15, 1915, Colonel Alexander M. Hay, recently elected president of McIntyre Porcupine Mines, Limited, says: The directors spent a few days at the property in the early part of last month, and were very favorably im-

more regular in their occurrences at greater depth. A policy of aggressive development work will be pursued, and increased milling capacity will be installed as required, to keep pace with development of ore. No. 5 shaft has reached a depth of 500 ft. and a station cut. So soon as work has progressed to a sufficient distance from the shaft, sinking will be resumed to 600 and thereafter to 700 ft., which depth is expected to be reached before the end of the present year. At No. 4 shaft on the 600-ft. level, ore bodies east and west of the shaft have been opened up, showing a width of from twelve to over twenty feet of pay ore. This shaft will be sunk to the 700-ft. level after No. 5 shaft has reached that depth. In view of certain statements recently circulated to the effect that the

holders or directors have been parties to such manipulations, if any. The directors cannot be responsible for any statements circulated without their authority. For the information of shareholders, and in their interest, official reports will be issued or published from time to time, setting forth the true position of the company. Development work to date has been confined to Claim No. 13307, upon which are located the shafts, mining plants and mill. Exploratory work on the rest of the property has been limited to a study of geological conditions, surface trenching on the West McIntyre lot and to a diamond drill hole in the water lot, put down at the narrow in Pearl Lake. Since the beginning of operations to

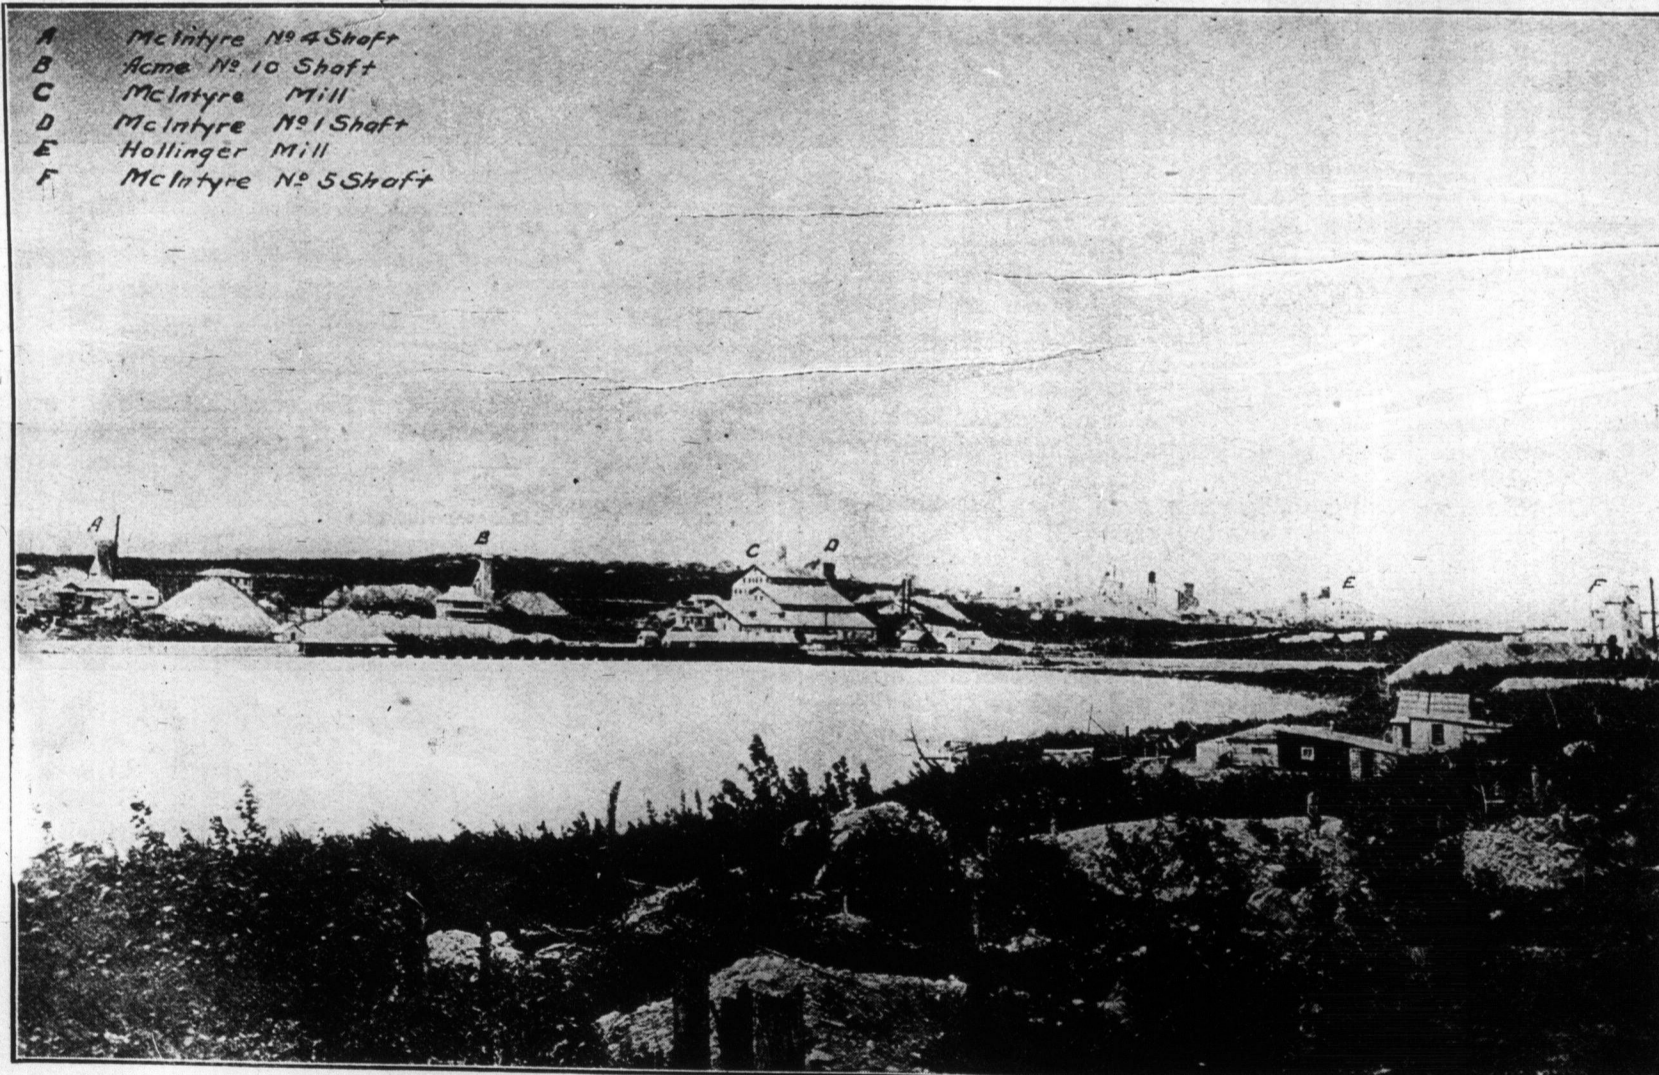

Isometric Projection of Workings, McIntyre Porcupine Mines.

pressed with the physical condition of the mine and the satisfactory operations being conducted at the mill. The ore bodies, which on account of their lenticular character and owing to numerous faultings near the surface, have been very irregular in their occurrence in the levels so far worked, appear to be improving in size and values as depth is reached. It is reasonable to expect that after the faulted zone has been passed thru, the ore deposits will be found to be

market in the shares of this company March 31st, 1915, the property has been manipulated by insiders, I produced \$1,020,250.54 in gold bullion, the result of milling 127,349 tons of ore.

The production and profits for the last three months have been as follows:-

	Tons Milled	Gross Value	Per Ton	Recovery	Total Costs	Net Profit
April .....	7,870	\$8.32	\$7.98	\$62,820	\$39,043—\$4.96 per ton	\$22,777
May .....	8,360	7.31	6.99	58,413	34,485— 4.12 per ton	23,928
June .....	9,180	8.00	7.71	70,800	39,474— 4.30 per ton	31,326

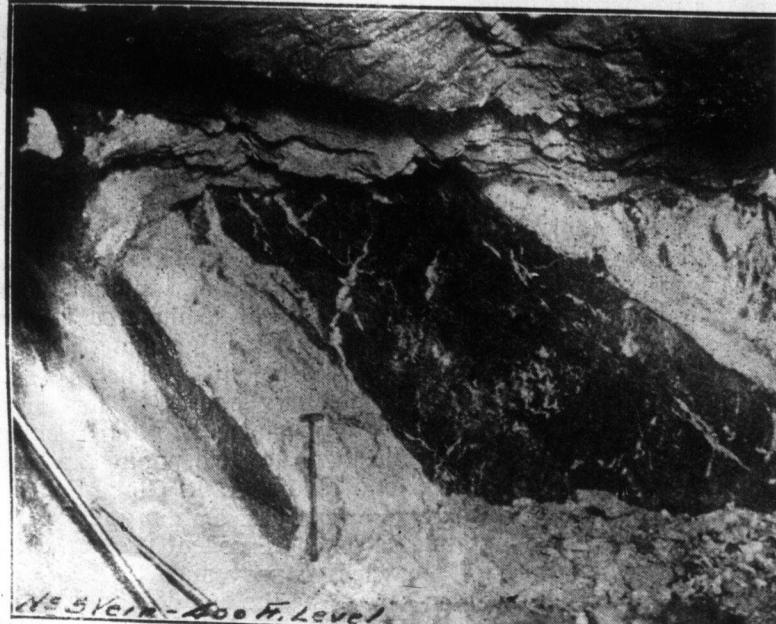

General View of the McIntyre Properties.

the shafts on the property were put down to 300 feet, where the ore bodies became stronger and richer. Since then extensive developments

tion to the milling plant will be required in the near future to deal with the ever increasing bodies of ore of this character which are being found as development work proceeds.

partment has been successful, and it has placed in the possession of the company data and deductions that will be valuable for the future development of the property. 3,306.6 ft. of diamond drilling was done in connection with the geological work.

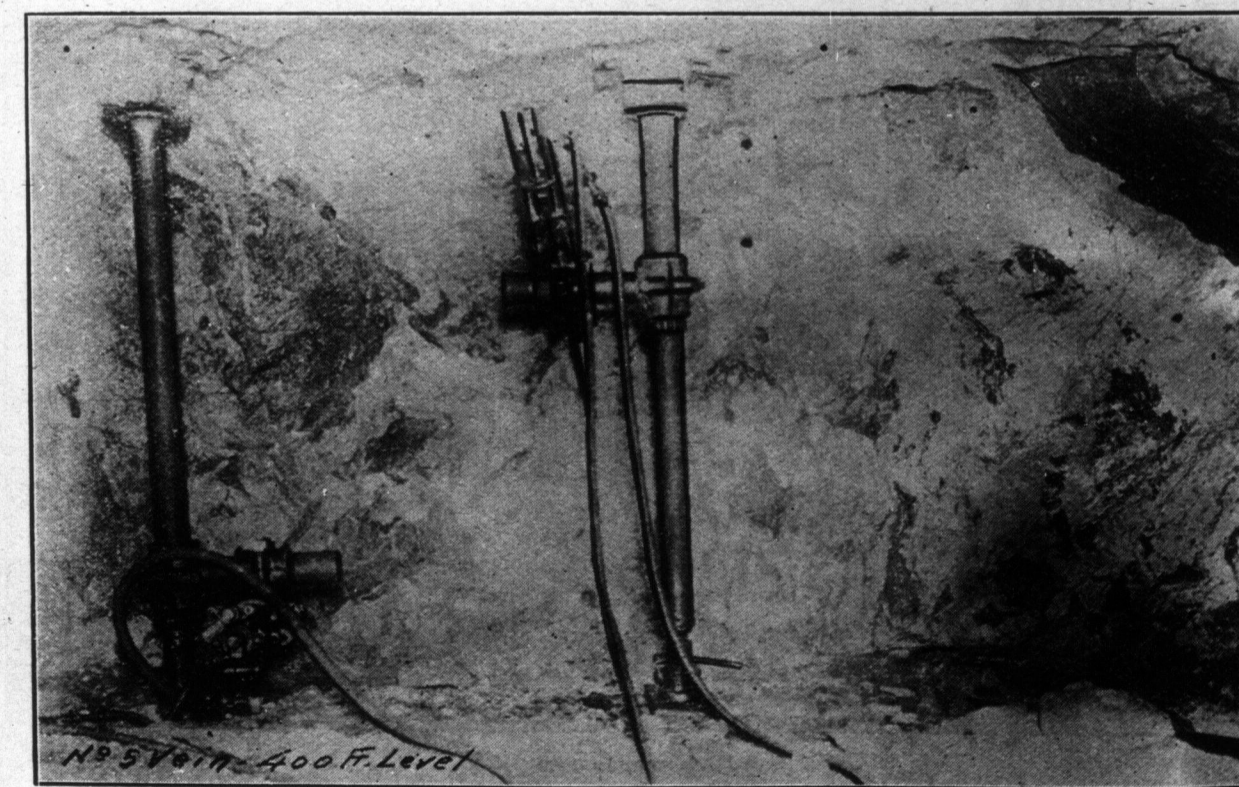

The north contact offers strong possibilities for payable ore bodies and development work is now being done in this direction. Underground and surface conditions are favorable for a steady improvement during 1915.

Showing Replacement Along an Old Fault Across Vein, and Banding Due to Incomplete Replacement, 400-ft. Level, McIntyre.

**Milling.**  
The ores of the property are remarkable in that they yield a larger per cent. of their gold content to the simple treatment of grinding them in cyanide solution, and giving them a short period of agitation. Our efforts have been to take full advantage of this fact and make the plants as simple as possible. In June work was started on a second unit of 150 tons capacity. This was completed in September at a cost of \$55,000. The same process of treatment was used in the new unit as had been in operation in the old unit for 18 months, except that continuous counter decantations was installed instead of filters. The continuous counter decantation process proved entirely satisfactory, reducing the cost of treatment 13 cents per ton. In January, 1915, the filters in the old unit were discarded and the counter decantation system installed.

**Conclusions.**  
During the year good progress has been made in solving the problems met in the operation of the property in the years 1912 and 1913. Mine development has been satisfactory and continues to show steady improvement. Development work of the 500 and 600 ft. levels of No. 4 shaft proves these levels to be as produc-

# PROFITS--ABSOLUTELY SURE--PROFITS

## Advance Information--Does It Pay? Convincing Proof

In my market despatch under date of February 18th, when Dome Mines stock was selling at \$6.00 per share, I stated:

"On what I saw on the 600-foot level in Dome Mines, there is an absolute security of about \$20.00 behind each share of this stock."

The above was positively the first announcement that Dome Mines had such an enormous body of phenomenally rich ore which has since been officially designated "the highest grade ore body in the North Country."

### I Know Something.

Under date of January 19th, my advice on PORCUPINE VIPOND, selling at that time at 25c per share, was as follows:

"Each share of Vipond has a proven value of over 45c, and as company earnings represent over 50 per cent. of its current market value, I urge every friend and client of mine to

### Buy all Vipond Stock Possible."

In this same issue I announced exclusively the discovery of the richest ore ever mined in Cobalt, at depth on Temiskaming, then selling around 10 cents per share and urged its immediate purchase.

My information on McIntyre on this date, when the stock was selling at 24 cents per share, forecasted the election of a new board of directors, and after reciting actual mine conditions, concluded with the following advice:

"McIntyre is destined to become one of the first five biggest gold mines of Porcupine, and while this security is selling far below actual demonstrated values, I urge its immediate purchase."

Now that the Canadian Government has decided to sell no more gold for commercial purposes, but to hoard the supply of precious yellow metal to assist in meeting the enormous costs of the present war, it is reasonable to expect that the output from all gold mines situated within the boundaries of the Dominion of Canada will rally to the national call during the present crisis, and send forth a larger volume of bullion than ever before.

### THE PORCUPINE CAMP MOST PRODUCTIVE OF ALL.

The monthly earnings of every producing mine in Porcupine is showing phenomenal increases and, from a physical viewpoint, the future output can easily be made double what it was six months ago, or, as one of the most prominent Mine Managers recently stated officially:

**"WE CAN MAKE ALMOST ANY PRODUCTION WHICH YOU MIGHT FEEL JUSTIFIED IN WISHING TO MAINTAIN."**

**THE ABOVE STATEMENT EXPLAINS EXACT MINE CONDITIONS IN PORCUPINE.**

As market values are influenced principally by mine earnings, I would urge on you the importance of obtaining as large a stock-ownership as is possibly to finance, around current quotations, as it is very evident

**A SPECTACULAR ADVANCE IN THE GOLD ISSUES IS CLOSE AT HAND.**

**YOU MAY CONFIDENTLY LOOK FOR PYROTECHNICS TO BEGIN IN THE GOLD SECURITIES.**

As the only medium upon which you can base an accurate decision and expect to make your mining investments profitable, I would strongly recommend that you

**SEND FOR MY MARKET DESPATCH IMMEDIATELY—YOURS FOR THE ASKING.**

The fact I maintain a corps of trained engineers on the spot, enables me to keep in direct touch with mine developments as recorded.

**INVALUABLE INFORMATION IN ADVANCE OF ALL OTHER SOURCES.**

## Advance Information--Does It Pay? Convincing Proof

Under date of January 16th, I announced Hollinger, selling at that time at \$21.00 per share, would positively advance to over \$25.00 before June 15th.

Since the beginning of this year I have repeatedly urged the purchase of Dome Extension, and to put the stock away, as Dome Mines would eventually take over this property. Dome Extension was selling at that time as low as five cents per share.

### I STRONGLY ADVISED THE SALE OF

Pearl Lake, since selling at 45c per share.

McKinley-Darragh, since selling at \$1.35 per share.

Crown Reserve, since selling at \$1.85 per share.

Buffalo, since selling at \$2.10 per share.

Peterson Lake, since selling at 47c per share.

La Rose, since selling at \$1.65 per share.

Bailey, since selling at 7c per share.

### I CONTINUE TO DO SO.

After carefully reading the above facts, a cursory examination of market quotations now prevailing will convince you not only that

# NORTHERN CANADA POWER COMPANY, LIMITED

## Electrical Energy Supplied Over Porcupine District

### Modern Hydro-Electric Generating Stations on Mattagami River Supply Power and Light to Mines and Towns, Using Thirty-five Miles of Main and Branch Transmission Lines.

Northern Canada Power Company, Limited, supplies electrical power to all the mines in the Porcupine district.

They have two developments on the Mattagami River, namely, Wawaiten Falls, 12 miles southwest, and Sandy Falls, 6 miles northwest from the Town of Timmins, Ont.

Wawaiten Falls plant is located in the Township of Thornloe at the foot of Lake Kenogamisse. A concrete dam 1,000 feet long at this point, diverts the water into a 1,200 foot canal. From intake at foot of canal, water is carried by two 9-foot wooden stave pipes, each 1,500 feet long, to a 40-foot diameter surge tank on top of the hill overlooking the power house. Two 8-foot iron pipes 1,300 feet long, lead from this surge tank down the side of the hill direct to the wheels in the power house. The power house is of reinforced concrete and contains two 3,300 h.p. Morgan Smith water wheels under head of 125 feet, direct connected to two 2,500 k.v.a., 3 phase, 12,000 volt Canadian Westinghouse alternators; two 70 k.w. exciter sets driven by independent water wheels and Westinghouse switching and switchboard apparatus. The original construction had one 12-foot iron pipe 1,500 feet long, from intake at foot of canal to the surge tank, but this was replaced during the season of 1913-14 by two 9-foot wooden stave pipes of 3-inch Oregon fir, erected by the Pacific Coast Pipe Company of Seattle, Wash., under the personal supervision of their engineers. By replacing the iron pipe by two wooden stave pipes, the company can almost double the present installation at this point for a very reasonable sum of money, and are making exhaustive examination of storage conditions to be ready for the increased development of the Porcupine Camp.

Sandy Falls plant is located in the Township of Mountjoy. A solid concrete dam and intake, approximately 1,500 feet long, diverts the water into one 8-foot steel pipe, direct connected to water wheel with surge tank to protect; and one 8-foot wooden stave pipe, direct connected to water wheel with surge tank also to protect. The power house is of wood covered on outside and roof with corrugated iron, and on inside completely sheeted with asbestos board and contains two 1,200 h.p. organ Smith wheels under a head of 33-feet direct connected to two 950 k.v.a., three phase, 12,000 volt, Canadian Westinghouse alternators with exciters on the same shaft. Switching and switchboard apparatus is of Canadian Westinghouse manufacture.

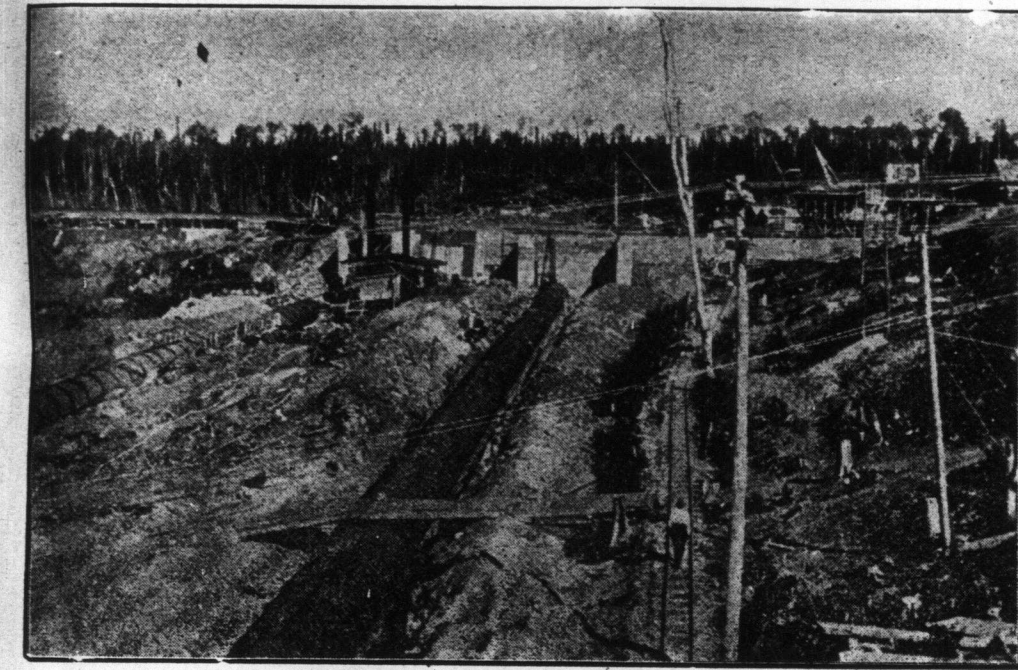

The power company has 35 miles of main and branch transmission lines now operating in the district. There are two separate transmission lines from Wawaiten Falls to the Hollinger and Dome, and one transmission line with two circuits from Sandy Falls to the Dome via the Hollinger, complete with switching towers so that the two plants work continually in parallel.

Since the present company took over what was considered two finished plants, they have spent over \$600,000.00 in new construction, replacements and betterments, so as to guarantee to their customers continuous and satisfactory service, and are preparing to take care of any increase in demand in the camp.

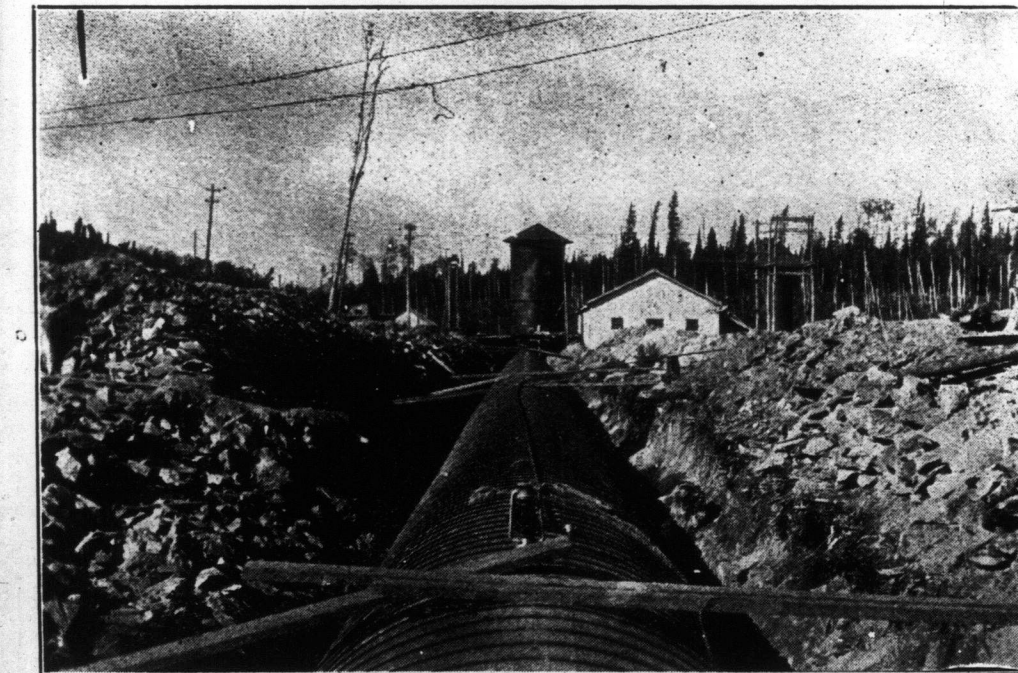

Mr. David Fasken, K.C., Toronto, Ontario, is president and Mr. J. H. Black, Cobalt and Timmins, Ont., is general manager.

### Geological and Mineral Notes

The Province of Ontario has an estimated area of 407,262 square miles. This area is three and a third times that of the British Isles, and over one and a half times that of Texas, the largest of the United States.

In the accompanying geological sketch map, the formations are broadly classified as follows:

1. Paleozoic (young) rocks, including limestones, shales and sandstones.
2. Pre-Cambrian (old) rocks, including granites, volcanic rocks, quartzites and other sediments.

The Paleozoic rocks, representing 30 per cent. of the area of the province, are divided into two sections of about equal extent, one occupying a large part of the southern Ontario and the other fronting James and Hudson Bays.

Pre-Cambrian formations are pre-eminently the metal-bearing rocks of America. In these rocks occur the phenomenally rich silver mines of Cobalt, the far famed nickel-copper deposits of Sudbury, the iron ore of Helen, Magpie and Moose Mountain mines, and the gold of Porcupine and Kirkland Lake.

The mineral resources of Ontario cover practically the entire list of metallics and non-metallics, with the exception of coal. Non-metallic products from the Paleozoic rocks include petroleum, natural gas, salt gypsum, lime, shale, for brick and lime manufacture, building stone, etc. Products from the Pre-Cambrian rocks are gold, silver, nickel, copper, iron, arsenic, corundum, feldspar, mica, graphite, talc, iron pyrites, etc.

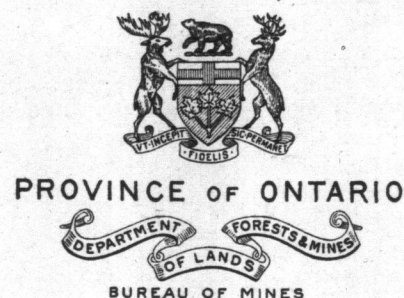

The rapid growth of Ontario's mineral industry during the last two decades is shown by the following figures:

Year	Value
1893	\$ 6,120,753
1903	12,870,593
1913	53,232,311

Ontario's mining laws are liberal. A miner's license costs \$5 per annum and entitles the holder to stake out three claims a year in each mining division. The Bureau of Mines issues annual reports dealing with the geology and mineral industry of Ontario.

### Mineral Statistics

#### SUDBURY

The Sudbury Region is the world's greatest producer of nickel, and an important producer of copper. Production is rapidly growing, and millions of tons of ore have been proved to exist, the presence of which was not known five years ago, although mining has been carried on in the camp for more than a quarter of a century.

#### SMELTER PRODUCTION OF NICKEL-COPPER ORES

YEAR	ORE MINED Tons	ORE SMELTED INTO MATTE		VALUE Matte Shipped
		Nickel Content Tons	Copper Content Tons	
1889	44,990	432	733	
1894	103,223	2454	2,604	766,422
1899	159,957	2,872	2,834	702,341
1904	203,338	5,274	2,455	2,193,198
1909	451,892	13,141	7,873	1,913,012
1914	1,000,364	22,759	14,448	7,189,031

Total value of copper produced in Ontario to the end of 1914—\$21,161,355.

Total value of nickel cobalt produced in Ontario to the end of 1914—\$51,400,370.

The Cobalt camp, discovered in 1903, has been a steady producer of silver.

Silver production by five year periods is as follows:

1904	\$ 11,877
1909	12,461,576
1914	12,765,461

The zenith of production was reached in 1912, when the value was \$17,408,935; while the total production to the end of 1914 has a valuation of \$111,050,557.

#### PORCUPINE AND KIRKLAND LAKE

The mines at Porcupine and Kirkland Lake lead in gold, as do the Sudbury mines in nickel and copper, and the Cobalt mines in silver.

Gold production in Ontario for the last five years is as follows:

1910	\$ 68,498
1911	42,637
1912	2,114,086
1913	4,558,518
1914	5,529,767

The total production of gold in Ontario since the beginning of mining operations to the end of 1914 amounts to \$14,822,998.
