HAMILTON HAPPENINGS

TWO MORE ARRESTS OVER EXPRESS ROBBERY

J. D. Chilman and Joseph Acheson
Accused of Theft of \$8000
Last September.

HAMILTON, Dec. 5.—(Special).—Two further arrests were made to-day in the mysterious Canadian express robbery, when J. Douglas Chilman, 140 Bold-street, was taken into custody at his home at 7 o'clock this morning, by plain clothesman Goodman, while at about the same hour, Joseph Acheson, a friend of Chilman, living at 124 Duke-street, was arrested by Constable McKay.

Both men were in bed when arrested, and as soon as they could dress, were taken to the central police station. They appeared before Magistrate Jelfs in the police court a few hours later, and were remanded for eight days, at the request of Crown Attorney Washington, who stated that the police were not quite ready to go on with the case.

Ball in the sum of \$18,000 was set on each case of each prisoner.

Watched for weeks, Chilman was at one time a trusted clerk in the Canadian Express Company's office, and was employed there temporarily a short time before the robbery was committed. He has been under surveillance for several weeks by a Thiel detective, brought into the case at the instance of Deputy Chief of Police Whitley, who has been quietly working on the case ever since the charges against Hughes and Kennough fell thru.

Acheson has also been closely watched by the Thiel operative, and two women detectives are also said to be engaged in trying to trap the two suspects. Yesterday afternoon the deputy chief decided that he was in possession of sufficient evidence to justify the arrest of the suspected men, and warrants were accordingly sworn out.

Spending Freely.

The police are extremely reticent about the evidence they have against Chilman and Acheson, and will say but little about the case. It is understood that both of the prisoners have been rather lavish in their expenditures of money lately, and this is said to have strengthened the suspicions of the police against them. Chilman, it is said, recently spent \$200 for a diamond ring for a young lady with whom he was friendly, and Acheson's extravagance is said to have run to motor cycles.

Both Well Known.

The accused men are each twenty-two years old, and both are well known in the city. Chilman is the proprietor of the Regal confectionery on King-street west, which he bought, soon after severing his connection with the Express Company. Acheson recently resigned a position as travel-

er with the Sammons Eves Co., to engage in the electrical supply business, but a few weeks ago disposed of this business, and at the time of his arrest was employed with the Canadian Reflector Co. Chilman was also a friend of Constable Goodman, who arrested him this morning.

Third Arrest Likely.

There were rumors to-day after the pair were arrested that another man would be taken into custody in connection with the robbery. It was also reported that the police had discovered the whereabouts of \$5,000 of the stolen money. Deputy Chief of Police Whitley was busy with a staff of men all day, but tonight declined to say what had been accomplished. "Nothing official will be given out tonight," he said, "I shall have a conference with the men at work on the case tomorrow morning, and will then make my report to Chief Smith in the matter," said the deputy.

The prisoners were unable to raise the heavy bail named by the crown, and spent the night in the central police station cells. C. W. Bell represented the accused men in police court this morning, and he and Geo. Lynch-Staunton, will defend them when their cases come to trial.

Eight Thousand Dollars Stolen.

The crime was committed on the morning of Sept. 28, last, and consists of the theft of more than \$8,000 from the vault in the local office of the Canadian Express Company. When one of the drivers arrived at the office on the morning of that day, he discovered Geo. Kennough, night clerk for the Co., bound and gagged, lying on the floor in the vault.

To the police Kennough told a story that while sitting at his desk he had suddenly been seized by three masked men, and that after the men secured the packages containing the money, he was bound, gagged, and thrown into the vault. He could give no satisfactory description of the alleged robbers, and certain discrepancies in his story led to his arrest, for complicity in the theft. John W. Hughes, another ex-employee of the company, was also arrested on a nominal charge of complicity, in connection with the case. After two remands, both men were discharged for want of evidence against them, but Kennough was convicted on another charge of stealing \$15 from the company, and sentenced to three months in jail.

MARY BOLAND IN HER DRESSING ROOM

By Margaret Bell.

With the door closed, the scene was ordinary enough. Just the regulation theatre paraphernalia, the little wire hooks on the wall, into which the postman drops his daily bits of parchment, the trunks, the route, the names of the occupants of the different dressing rooms, the thousand and one little et cetera which go to make up the great realm beyond the lights.

And then the door opened. What a babel of pinkness! Pink chintz coverlets, the same material made a tasty addition to one of the chairs, and there were daily bits of a dainty femininity, work-bags and play bags of all sizes and varieties, of the same shade and delicacy. And wonder of wonders, every bit of daintiness on the dressing table was arranged in perfect order. No, not wonder of wonders. It could not possibly have been otherwise. For this was the dressing room of the beautiful Boland, the beautiful leading lady who solves John Draw's mimic difficulties and shares the honors with him, the moment she walks on the stage. You must make the fancy chair. I always reserve that one for my guests.

It was the chintz-covered one. She went down directly opposite me, and never once glanced near the mirror, to my mind, rather unusual, don't you think, for a young woman so beautiful as Mary Boland.

But that is what impressed me about her first thing, her utter unconsciousness of herself. Or rather that impressed me, secondly. No one could possibly be being impressed first of all by her sweetness, her charming cordiality, half reserved, then you know, she is the most beautiful thing one would want to look at. And when one is face to face with beauty, charm and naturalness, what more can be said.

"Mustn't it be great to be able to write and have your things published?" You know, I've been writing for the last two years, but I never have seen a thing in print. Do you know, I believe they don't even look at manuscripts these days. I don't know if you think they just throw them in the waste basket without a thought?

"Alas, don't I! She simply bubbled when she spoke of my subject, and I thought fairly away within the recesses of my impression cavern danced and sang, and the sound of it murmuring was something like 'Thank heaven, she has enthusiasm.' This was still another epithet added to the foregoing list of adjectives.

And like all other followers of Eve, Miss Boland has a distinctly feminine weakness for all lace and silky frocks.

"I was shopping to-day," she continued, "and saw the dearest, softest, finestest negligee and cap. Isn't it funny how a display of diamonds attracts a woman so very much, but the moment she sees a cunning bit of lace fashioned into a morning cap or a bunch of soft silk—preferably pink—she loses interest completely. Oh, I'm so glad the shops are showing caps now. It solves woman's greatest difficulty, the problem of appearing at breakfast without looking a fright."

As if Mary Boland could possibly look like that if she tried her utmost, it just occurred to me. Perhaps this is the secret of her buoyancy and beauty. She walks from eight to ten miles every day and loves the fresh country air.

"Oh, I'm a regular country bumpkin," she laughed as I left her in the wings.

Well looks sometimes are deceiving.

INTEREST IN XMAS STAMP GROWS.

The pupils of the Toronto public schools hope to bring their sales of Xmas stamps this year up to at least \$2500, as against \$1800 last year. Public and high schools all over the Dominion are organizing for the campaign, which will mean real activity in every community.

The trustees of the Muskoka Free Hospital for Consumptives owe a great deal to the efforts put forth by children in and out of school. The Sunday school scholars are supplementing the work of the pupils in public schools, and little ones are, on their own initiative or on suggestion of their parents, taking up the work. Last year "Little Miss Baker," Guelph, put in some good work selling stamps. She writes that this year she wants to again embark in the work, and to "do more if possible this coming season."

Notwithstanding the many calls upon them, and their hands ever full, the clergymen of all denominations are responding heartily to the appeal for aid in this campaign. "Send me \$20 worth," is the phone message that comes from the Rev. Dr. Hinks of Broadway Tabernacle. The Rev. Frank Clarke writes from the rectory, Pakenham, Ont., asking that his year's order be sent to him. Mrs. Francis W. Bidwell, from the deaconsy, Kingston, orders a supply, writing a sympathetic and suggestive letter, among other things suggesting that the superintendents of the Sunday schools of the laud will doubtless lend a hand. The Rev. J. D. Richardson, Perth, will be an active worker in that district.

Decrease in In 1899 the deaths from consumption in Ontario were 3,405—a rate of 1.4 per 1,000 living estimated population, or, in other words, 11.8 per cent. of the total deaths. In 1908 the deaths from tuberculosis were 2,511—a rate of 1.1 per 1,000, or 7.6 per cent. of the total deaths—a decline of nearly 40 per cent.—the decade in which the work at Muskoka and Weston took on large growth.

Diamonds and Confidence

When a firm can establish itself in the hearts of the Canadian people within a short period of five years and do the enormous volume of business in diamonds exclusively that we enjoyed the past year, and can see its trade jump in leaps and bounds year by year, there must be much in both the firm and its diamonds to depend on. Stop and consider what this fact means. Isn't it evidence enough for the most skeptical that our diamonds must be exceptional to attract trade away from houses? If we retained diamonds at ordinary prices it would take us 20 years to build up the trade we now enjoy, and this encourages us to offer even greater values.

Our diamonds are not selected by a watchmaker or jeweler who constitutes himself an expert because he carries a handful of stones and sells on occasion, but by a practical, experienced expert, who has been a cutter himself.

We deal in precision stones exclusively.

See our \$25, \$50 and \$100 assortments, weighing almost 1/2, 1/4 and 1/8 respectively, blue white and neat possible cutting, shape and brilliancy.

These are as good value as any diamonds in Canada.

New Edinburgh And Edinburgh Vics For Stanley Cup

OTTAWA, Dec. 5.—(Special.)—The recalling of the Allen Cup may change the visit of the New Edinburgh team to Winnipeg from an exhibition feature into an amateur championship event.

Mr. Wm. Johnston of the New Edinburgh Club will in all probability communicate with the Interprovincial executive and will obtain their sanction for having the matches decide the amateur championship. If they agree negotiations will be entered into. The Winnipeg Victorias, the present amateur champions, want to have the games count for the amateur championship of Canada. New Edinburgh were denied the right to make a post season challenge by the Allen Cup trustees, and they now think that the withdrawal of the trophy is a good chance to gain their original point.

The New Edinburgh team will be at full strength for the games, having practically the same team as last season. Eddie Gervais, who was injured and is expected for a place with the Ottawa pro team, will very likely remain in the amateur ranks until after the trip.

DEATH OF VETERAN BASEBALL MANAGER.

CINCINNATI, Dec. 5.—Dr. John W. BORDEN FRIENDLY TO WELLAND CANAL SCHEME

Deputation of Boards of Trade Given Good Encouragement at Ottawa.

OTTAWA, Dec. 5.—A deputation representing the Ontario Associated Boards of Trade, saw the prime minister, and the ministers of finance, railways and public works this morning and asked for the immediate reopening of the Welland Canal.

"You will realize," said he, "that the project must receive consideration at the hands of the government. We had a deputation recently asking for the construction of the Georgian Bay Canal, and we had to tell them, as we tell you gentlemen, that the subject would require study and consideration."

As far as the object of improving the inland waters of Canada is concerned, needless to say, that policy has commended itself to me personally for many years, but we must carry it out in a business way and after the best business consideration.

The deputation was introduced by C. Macdonell of South Toronto, and the memorial of the board of trade was presented by W. J. Gage. The speakers included President R. S. Gourley of the Toronto board; John Hunt of London; E. W. Richardson of Kingston; P. E. Coates of Chatham, and H. J. Sims of Berlin.

C.P.R. READY TO BUILD LINE ALONG LAKE SHORE

Plans Filed With Railway Commission Mean Faster Toronto-Montreal Service.

MONTREAL, Dec. 5.—It looks as though the Canadian Pacific Railway would shortly begin work on its proposed new line from Montreal to Toronto, via the lake shore route. The route of the new line, which has been under consideration for many years, has been filed with the railway commission and it only waits for their approval for work to be started. Canadian Pacific officials say that the route surveyed from the main line at Glen Bay, just west of Perth, striking the lake shore about Belleville and following Lake Ontario to just outside the city limits of Toronto. At what exact point it will join the main line near Toronto, officials said has not yet been definitely decided, but it will probably be at Lesaie Junction.

NEW ST. ANDREW'S INSTITUTE Will Be Erected at Cost of \$60,000—New Jewish Mission.

The Toronto Presbytery at a meeting yesterday afternoon authorized the sale by the congregation of St. Andrew's Church, King-street, of St. Andrew's Institute, Stone-street, for \$18,000. It is the intention of the congregation to erect a new institute near the church at a cost of \$60,000. The million-dollar budget was discussed and passed. \$180,000 has been allotted as the Toronto church.

Farmer's Wife Suicides.

PETROLIA, Dec. 5.—(Special.)—Mrs. A. McLeish, aged 37, of Moore Township, who has been dependent for several days, was seen by one of her children to take a dose of Paris green today. The child ran to her father, who was in the barn. When he arrived the house she was taking the poison. A few minutes afterward he found her outside the house unresponsive. A doctor was called but she died.

BAZAAR AT CONVOCATION HALL.

A strenuous two-days campaign to raise money on behalf of the proposed alumnae building of University College was commenced yesterday afternoon and will continue this afternoon and evening. The young lady graduates are conducting a Christmas bazaar in the foyer of Convocation Hall where all sorts and conditions of curiosities and commodities are for sale. The public are invited, even welcomed, and there are a lot of useful things to see and buy. The bazaar will be open today from 3 p.m. to 10 p.m.

Labor Politician Coping.

George R. Roberts, a prominent labor politician in the English parliament, who is chief whip for his party, will arrive in Toronto Thursday. Mr. Roberts, who is a printer, will address the District Trades Council, Thursday evening on labor matters in general at the Labor Temple. Mr. Roberts is on his way home, having come to this country as a delegate from the British Trades Council to the American Federation of Labor convention, recently held in Atlanta, Ga. While in the city, Mr. Roberts will be the guest of Dave Carey.

WANTS FEDERAL BODY TO REGULATE TRUSTS

President Taft Demands Rigid Rules For Conduct of Corporations—Stop Stock Watering.

WASHINGTON, Dec. 5.—(Can. Press.)—President Taft's third annual message to congress, devoted exclusively to the Sherman Anti-Trust Act and the trust question in general, was read in congress today.

The feature of the message is the recommendation for the establishment of a federal corporation commission, and after noting that the drafting of the recent decrees in the dissolution of trusts, with a view to their reorganization into legitimate corporations, has made it especially apparent that the courts are not provided with the administrative machinery to make the necessary enquiries preparatory to reorganization. The president says:

"I do not set forth in detail the merits and sections of a statute which might supply the constructive legislation permitting and adding the formation of combinations of capital into federal corporations. They should be subject to rigid rules as to their organization and procedure, including effective publicity, and to the closest supervision as to the issue of stock and bonds by an executive bureau or commission in the department of commerce and labor, to which in times of doubt they might well submit their proposals for future business."

LIABLE TO PROSECUTION.

"It must be distinctly understood that incorporation under a federal law could not exempt the company thus formed and its incorporators and managers from prosecution under the Anti-Trust Law for subsequent illegal conduct, but the publicity of its procedure and the opportunity for frequent consultation with the bureau or commission in charge of the incorporation as to legitimate purpose of its transactions would offer it as great security against successful prosecutions for violations of the law as would be practical or wise."

BARRE CONSERVATIVES MEET.

BARRE, Dec. 5.—(Special.)—The election of A. E. Thompson, the Conservative candidate for the Ontario House, is certain. At a meeting this evening he met with great applause, and victory by a large majority is assured him. Dr. Felling W. A. Boys and the candidate were the speakers of the evening.

Dr. Felling devoted his time to the different views taken by the Ross and the Whitney governments towards the Toronto University, and showed how the latter government swept off great debts incurred by the former government. Mr. Boys declared that it was a shame for a Toronto lawyer to go to Premier Whitney's riding in order that Sir James should not be elected by acclamation. The candidate reviewed the progress of the hydro commission, and told of the great factor it is in the life of progressive Ontario.

C. N. O. TO CHANGE LINE

Negotiations are now under way between the C. P. R. and the Canadian Northern, in which the latter company are endeavoring to acquire further running rights on the C. P. R. tracks at Orillia, which would enable them to travel around the north end of the town where they wish to branch off and run a fine north connecting with their main line at a point near Sparrow Lake. The C. N. O. have already had a route map of this line approved, and it is almost certain that when this section is completed it will become a part of the Toronto-Parry Sound line. The section from Udney to the point which the new line intersects will in all probability be used only for freight traffic.

NEW CABINET OF P. E. I.

CHARLOTTETOWN, P.E.I., Dec. 5.—Much excitement prevailed here as to the outcome of the new government meeting this morning. The new government is formed as follows:

Premier and attorney-general—Hon. J. A. Matheson, commissioner of public works; Hon. James A. McNeil, commissioner of agriculture; Hon. Murdoch McKinnon. Members of the executive without portfolio: Hon. John McLean, Hon. Murdoch Kennedy, Hon. A. E. Arsenault, Hon. Charles Dalton, Hon. W. S. Stewart, Hon. John A. McDonald.

Of the above Messrs. Stewart and Dalton are the only two who did not occupy seats in the legislature. It was decided to hold a general election in January. The new members of the executive were sworn in this morning by Lieut.-Gov. Rogers.

ROWELL AT BRANTFORD.

BRANTFORD, Dec. 5.—(Special.)—The Liberal of South Brant were addressed here to-night by N. W. Rowell, Liberal leader, at a meeting in the Grand Opera House. Mr. Rowell did not supplement his previous address with anything new, dealing with what he regarded as main issues of the campaign, including New Ontario developments, reconstruction of educational system by re-establishing county model schools, taxation reform and the merits of school question.

Other addresses were delivered by Charles B. Heyd, Lloyd Harris, ex-M.P., and the candidate, Ald. Harris. John Muir was chairman. The attendance at the meeting was good and the speakers were well received.

SENATE WANTS BIGGER SHARE IN LEGISLATION

Believes Labors of Parliament Could Be Greatly Lightened—Sen. Lougheed Will Help.

OTTAWA, Dec. 5.—(Can. Press.)—That there should be a more equitable division of the public legislation between the two houses of parliament, was the unanimous opinion recorded in the Senate to-day. The resolution to that effect was moved by Senator Pope.

It said: "That, in the opinion of the senate, the initiation of private and public legislation ought to be more equitably divided between the two houses of parliament, with a view of curtailing the length of the sessions, but more particularly to prevent in future the depressing custom, known in parliamentary parlance as 'the railroading' of important measures at the end of a session and the question be considered by a joint committee of the two houses."

Senator Pope said that at the conclusion of each session bills of great importance were frequently railroaded through the commons and sent on to the senate too late to receive the consideration due them. The result often was imperfect and expensive legislation.

Sir Richard Cartwright approved of the proposal and suggested that Senator Lougheed induce the government to cooperate, otherwise he feared that the matter would not be favorably considered by the commons. Hon. M. Lougheed said that he personally sympathized and would bring the matter to the attention of the government. The resolution was adopted.

LOS ANGELES, Dec. 5.—(Can. Press.)—Alexander, good government candidate for mayor, was re-elected today by a 57-37 overwhelming majority over Job Harriman, Socialist. The count of ballots at 3:30 o'clock in 53 precincts out of a total of 317 gave Alexander 27,990 and Harriman 19,800. This shows a gain for Alexander about 3 to 1, compared with the primary vote.

In England the starting question is the object of a great deal of discussion in racing circles. Some advocate the walk-up system, others disagree with this. John Porter, the famous trainer, now retired, has written his opinion, and says that much of the trouble with running which is charged to the standing system of starts, causing some to be left, is not due to the starting method, but to horses being run unfit...

Ask any baseball enthusiast how fast an average grounder travels during its first 100 feet from the bat, and his answer will be any where from 20 to 30 miles an hour. Split second watches and careful timing of many grounders have established the fact that the average speed of ground balls—that is, those struck by the bat of the batsman from fair pitched ball, which strike the field before they land on a fielder's hands—go at the rate of almost sixty miles an hour.

Sixty miles an hour is almost per second. Aman who can run 100 yards in 11 seconds, which is fast running for any one, particularly so for a man with baseball shoes and uniform, can run 100 feet in 10 seconds. Is it any wonder that a ball which is pitched in its first 100 feet of travel usually reaches first base a fraction of a second before the runner can reach first base?

Every fan knows the many close decisions at first base from one of the fascinations of the game. The speed of the fielder can be a factor in his position at the point where he can meet and field the batted ball, the speed with which he can step on the base, the speed with which he can throw, the speed of the ball across the diamond from his throw, and the speed of the runner. It is always a question of whether or not the runner will get there in time for the fielder to see the umpire's hands go down, or whether he will face a thumb over a shoulder.

OLYMPIC ATHLETES MUST HAVE CREDENTIALS

Canadian Committee Organize With J. G. Merrick Chairman and N. H. Crow Secretary.

The first meeting of the Canadian Olympic committee was held here yesterday, the committee being formed on nomination of the Canadian representative on the International Olympic committee, Brigadier-General Sir John Hahbury Williams, who named Rev. Dr. D. Bruce Macdonald of Toronto, E. Herbert Brown of Montreal, R. Tasker Steele of Hamilton, and Jas. G. Merrick of Toronto, as the preliminary meeting yesterday Mr. Merrick was chosen chairman, and Mr. N. H. Crow secretary-treasurer.

It was decided that the committee should approach the Dominion Government with a view of obtaining a grant for financing a Canadian team to the Olympic games at Stockholm, Sweden, early next summer. The Dominion Rifle Association will be communicated with, and the suggestion made that a team of Canadian riflemen should be selected from the Bisley contingent, and sent to Stockholm to take part in the army rifle competitions, which are to be held at a time close to the Bisley gathering.

The presidents of the sectional branches of the Amateur Athletic Union of Canada were nominated as the committee's representatives for the holding of such trials as are deemed advisable for the selection of athletes. From these preliminary selections general trials would be held to determine those composing the team. The fact that an athlete may win one of these events in Canada will not, however, be a guarantee that he will have a place on the team, unless past performances and records made come within measurable distance of previous Olympic performances in point of merit. But no athletes or members of a team will be permitted to go without the endorsement of the Canadian committee.

Any athlete or any team desiring to be considered as prospective competitors should communicate with the secretary at the A.A.U. headquarters, 22 College-street, Toronto.

THE LATEST IN LACROSSE CAPS TO JOIN BIG FOUR

Sam Bitsky of Ottawa Gets Credit For Asking For Franchise in New League.

OTTAWA, Dec. 5.—While lacrosse is now a hing of the past for this year, the talk about the recent shake-up still goes on. The latest thing in the way of news concerns the players. Are the local team preparing to jump the old league and start a new one? Or are they planning to join the new Dominion Lacrosse League?

That is the question. From a conversation between Sam Bitsky, the local lacrosse manager and George Kennedy, the director of the destinies of the Club Athlete Canadian, yesterday, it appears that little that way. Mr. Bitsky and Mr. Kennedy had a short conversation last night in which the latter was pressed with a wish that he be able to obtain a franchise in the new league.

"Have you got any new franchises going around in your Big Four League?" Mr. Kennedy replied in a like manner, asking "What is the name of the club?" "The 'Little Six'." Then the conversation took more serious vein and it ended by Mr. Bitsky asking the Canadian manager to step in and have a talk with him. After the talk Mr. Kennedy remarked that the N. H. I. has their hopes of reforming their league on Lol Solman.

He hopes to get Solman to side with them and keep the Tecumsehs in the league, and also to consent to admitting the Canadian Club, there is no chance of that deal going thru. Solman only got out of the presidency in order to wiggle out of going back on his promise to stand by the old league, and that is why he gave Charlie Querie the handling of the team, declared Mr. Kennedy.

Dead Men. The man lacking in the vital power nature gave him, debarr'd by weakness from functional enjoyment, of his most important functions, merely a burlesque upon strong, robust, virile manhood, is, in a sense: A Dead Man. Life has lost its zest, the gold of enjoyment is absent, it is not worth the price of the pain it cost to live. Every weak man knows this is true. Thousands of men in all walks of life restored to full manhood. Do not delay, but consult me to-day.

THE COONS COMING DOWN.

The World does not say because W. F. Maclean spoke against press and cable tolls last Friday in the house of commons that what has happened since is all due to him; but it does say that he had something to do with it, and it also proves that he knew what he was talking about and had his subject in hand.

NO GLAD RAGS FOR ALLAN.

It seems that Mr. Allan Studholme, late labor member for Hamilton in the local legislature, does not believe in wearing a dress suit, being too democratic for that, and therefore declined the citizens' banquet to the Duke and Duchess of Connaught.

BANK OF MONTREAL.

Elsewhere in this issue of The World will be found the report of the proceedings at the ninety-fourth annual general meeting of the shareholders of the Bank of Montreal, including the profit and loss account and general statement. From these it will be seen that the profits for the year ended Oct. 31 last, after deducting charges of management and making full provision for all bad and doubtful debts, amounted to \$2,775,517.75.

WESTERN PAPERS AND RAILWAYS.

One of the best newspaper reports of the debate in the house last Friday touching railway rates, is contained in The Manitoba Free Press of the following morning. The Free Press has made a special department of railway matters of the west, and has made out a case for reduction of rates. It is largely due to The Free Press' agitation that the railway commission is to take up these rates in sessions to be held in Winnipeg after the new year.

To hear Ald. McBride talk one might think that the people of Toronto never traveled on any car lines except those between their own houses and King and Yonge-streets. Everybody in the city is interested in having rapid transit to every part of the city. Here is some of Ald. McBride's clap-trap:

"WAKE UP," CRIES REID TO EAST TORONTO VOTERS

Corrupt Ring Tells People How to Vote—Conventions Crooked, Declares Independent.

"The day of trafficking in nominations for a consideration must come to an end," declared J. B. Reid, independent Conservative candidate for seat B, East Toronto, at a meeting held in his interests at Armstrong's Hall, Pape-avenue, last night. "I have known when nominations for safe seats brought as high as \$10,000," he continued. "Is it any wonder that no man can represent the people faithfully under the present corrupt party system? The man who buys a nomination is worse than the thief who steals upon you in the street."

"Delegates have been stacked and conventions have been loaded. This can be denied, but the crookedness lies in the convention who chose Reid to vote for his views. The people have had no choice in the matter. They have been directed as to how they were to vote by a corrupt ring, which gathers about the government—what are you after a carcass—for what there is in it."

"There is no reason why East Toronto should not elect her own officers. The old line Conservatives say that a large enough hall cannot be secured. Why not wake the city hall? If you don't wake up now, you can sit still and watch your thumb for four years, and suffer the things you have been suffering for the past eight or more years."

"Mr. Birmingham and his satellites are scheming their heads off to defeat the will of the people. He is trying to get out every vote in East Toronto. But I believe the people of this district are sick and tired of the class of men that have been foisted upon them."

Joseph Russell, ex-M.P., spoke in behalf of Mr. Reid.

"Our candidate will tackle Sir James Whitney, Dr. Pyne or any of them on any question that may arise. He has the right sort of fighting spirit," he said.

The electorate were enjoined not to become confused when they cast their ballots. "You will have two ballots," said one of the speakers. "You can vote for one man for seat A and vote for one man for seat B."

Other speakers at the meeting were: George Gilmore, William Quinn and S. R. Hicks, chairman for the evening.

Five Minutes Sometimes Makes A Big Difference

If You Are Suffering the Tortures of Indigestion and Have to Wait Until Someone Runs to the Drug Store for a Box of Sturtevant's Dypespepsia Tablets.

Free Trial Package.

The instant relief afforded poor overburdened stomachs by the use of a Sturtevant's Dypespepsia Tablet should be a reason for constantly keeping a box in hand—at home and at the office as well. It costs 25c to 50c.

The Stomach Welcomes Quick Relief.

A Sturtevant's Tablet not only aids digestion but it actually does the digesting itself. In other words, the stomach actually receives the same elements for the digestion of food as the natural juices of the stomach. The stomach is not called upon to do any of the work except to churn the juices furnished by the tablet and then push the digested food into the intestines where it will be further digested and the strength taken up by the blood to carry to the muscles and nerves of the body.

So by taking a Sturtevant's Dypespepsia Tablet after a meal you give the stomach the rest it needs in which to mend itself and grow well again. And you absolutely prevent the souring of any food, the formation of any poisonous gases, belching, flatulence or constipation.

Sturtevant's Dypespepsia Tablets have done more for humanity and have caused more rejoicing than any other one personally recommends. Sturtevant's Dypespepsia Tablets. The price is 25 cents per box. If you first wish to try them a sample package will be sent you free if you write to F. A. Sturtevant Co., 150 Street Bldg., Marshall, Mich.

SAWDUST CONCRETE FOR INDOOR USES When sawdust or wood pulp is used as part of the aggregate in mixing, the resulting concrete is of light weight and low tensile strength, but has some special properties that commend it for certain indoor uses, states a writer in The Cement World. On account of its elasticity, combined with its practically non-absorbent character, it is said to be especially adapted as a floor renovator for markets, butcher shops, saloons, etc.

It may be laid without joints in a continuous layer one and a half inches deep, upon paper spread over the floor that is being treated. In cases where the customary proportions for mixing are one part cement, two sand and two parts of sawdust, the mixture will give the desired result; and 5,000 gallons of this mixture was laid. The thickness of the layer was one inch, and after four months of service indications are that the material is a success.

PROTECTION OF BIRDS.

The active movement, begun nine years ago, for the protection of bird life, has passed the era of sympathy and sentiment. Were there no other reasons than the beauty, the melody and the friendship of our natural right to life, liberty and the pursuit of happiness, these would be sufficient, with thoughtful and humane people, to secure their immunity from wanton destruction and almost complete extermination. But these were not sufficient to check the reckless and cruel, and other reasons are now set forth in their behalf, reasons more potent than those referred to, because they touch the most sensitive of all human nerves, the nerve that runs into the pocketbook.

The Newark Shade Tree Commission deplors the fact that our native song birds have been driven out; birds that would otherwise abound in our city streets and parks and would keep the tree borers and other injurious insects in check and make the world and the expense of protecting the shrubs and trees in our parks and streets a less onerous task.

Thus they affect the high cost of living. The national government has spent large sums of money to protect the birds and to inform the people of the value as friends and fellow-workers, and has compiled statistics showing the millions of dollars' worth of crops and trees destroyed every year because the birds were killed and the injurious insects were allowed to multiply and thrive. Thus they were related to depleted crops and profits.

Great tracts of land and whole islands have been bought by the government and by the states and set apart and guarded as bird retreats, not for sentimental reasons, but because living insect-eating birds are worth millions in actual dollars and cents. Germany, France, Italy, Denmark, Norway, Sweden and other European countries are now making bird protection. So are the South American countries, and there is not a state in the Union that does not have bird protecting laws of some kind. It has become a matter of financial necessity.

This accounts for the laws forbidding women to wear dead birds or the feathers thereof on their hats; laws forbidding farmers to shoot robins; laws providing heavy penalties for the killing of any kind of birds that are harmless and helpful. And this accounts, too, for the rapid growth of the National Association of Audubon Societies. The latter started nine years ago with a little band of bird lovers in Washington; now they are represented in practically every state, and last year they spent \$825 in behalf of wild life in this country. They influence legislatures, draft and secure the enactment of laws, and watch from the verge of extinction the terms, the gulls, the egret herons and other birds that commerce, cruelty and pride has almost annihilated.

It is gratifying to learn, from the reports made at the annual meeting of these societies, in New York City this week, that the birds are being better protected each year; that the people are being aroused to the danger which threatened bird life, with its damaging consequences, and that a pronounced public opinion is at last supporting the movement. Mercenary motives may be mixed with sympathetic sentiment in the new movement for the protection of bird life, but the main point is that the birds are being better protected.

And the man who tells fire stories usually manages to finish them in spite of interruption.

UNIQUE VIEW OF SOCIALIST ORGAN

The Call, the American capitalist daily, has this editorial comment on the McNamara's plea of guilty. It is the first socialist utterance of weight on the case.

"The confession of the McNamaras is the most dramatic and appalling arraignment of capital that could possibly have come, both as to the crimes involved and the methods used in obtaining the admission. It is a foul black charge against them, but a blacker fouler more horrible charge against the system that produced them. It is a terrible thing that men with such a sacred cause should have attempted to use the weapons of capitalism.

"Though thousands and thousands of workers yearly go to their death through the criminal recklessness of the employers, nothing is to be gained by blind, insane attempts to mete punishment for the wholesale crimes committed. But even in this case, the selfish cunning of the capitalists was in evidence. The desire was not so much to get the McNamaras at the present time as to strike a blow at the Socialist Party because its members, knowing the detestable work previously done, had demanded for the accused men at least a fair trial. But, exercising every possible cunning against them, by offering at this point to compromise the matter, instead of getting a verdict at the trial, the men were induced to confess dramatically a few days before the execution.

"They were parts of the best-geared most despicably indecent act ever perpetrated, and it was perpetrated by the very men responsible for the production of those conditions which bring about a state of affairs where McNamaras are inevitable. There need be no reservation in dealing with the question. Capitalism breeds murder, and here is murder bred of capitalism. Every corpse produced by it rests at the door of the employer, as do those numberless unnamed murdered, the members of the working class murdered in pursuits of profits.

"There has been a ceaseless class war, and when the members of the working class have been the victims but little has been said concerning it. Capitalism has fought every effort to avert those murders, and yet its whole teaching is that violence, disregard of the law, subversion of all order, are the shortest ways to wealth. Capitalism not only killed the members of the working class, but it has done its best to turn others into murderers. Here is the result, and it is a new indictment of present society."

Bank clearings show an increase of 50 to 70 per cent. over last year's figures.

An Investment Chance

The rapid growth of the city has had a marvelous effect on real estate values. Owing to the city's exceptional location and advantages Regina offers a particularly fine field for investment. The city is bound to be a great wholesale and manufacturing centre. We have a limited number of lots in a fine section between the G. T. R. shops and Government House. Prices \$175.00 to \$200.00 per lot. Write to-day for full particulars.

MANITOBA

Other western cities have had their day and made money for those who invested in them. The cream of the profit has been taken now in most cases though—and to secure a safe and profitable investment in the west, where you can now get in on the low prices, you must buy in Brandon. The boom is just starting there and the lot which we now have to offer at \$100, inside the City Limits, near the Street Car Line, in a High and Dry district, will not be obtainable at three times this price in the spring.

Mining Markets Still in Hands of Bears - Prices Easier

Downward Trend Still in Effect Lower Prices Are Recorded

Mining Markets Held Back by Renewal of Liquidation - Porcupines Weak - Further Drop in Timiskaming.

World Office, Tuesday Evening, Dec. 5.

The downward trend in values was again in effect in the mining exchanges today, the Porcupine issues almost without exception undergoing further declines under the weight of liquidation which was still under way.

Trading was of a broader character than during yesterday's session, but this was due more to a renewal of selling than to any improvement in the buying demand.

Public interest showed little, if any, signs of improvement, and while a responsible demand was put in an appearance early in the day, this was soon disposed of, after which the market drifted back again to lethargy.

Big issues up and down.

The big issues suffered in common with the lesser stocks, both Hollinger and Rea sinking to lower levels under the small sell-off which was offered there to time. Hollinger dropped 30 points at 311, but regained a portion of this and closed fairly strong at 312 1/2. Rea was back to the 33 mark again, and close offered there, with bid 2 points removed.

In the cheaper issues, small declines were generally shown. Dome Extension lost 9 points at 87, Preston got off to a new low record at 17, Swastika lost 1 1/2 at 26 1/2, and Vipond was also easier at 34 1/2, the closing slightly higher than that price.

Short covering in Foley-O'Brien carried this issue up 4 points to 48, but only a limited demand was in evidence at the higher figure.

One of the features of the day was American Goldfields, which added another fraction to its recent advance, selling up about 25. This represents an advance of about 10 points from the price of a week ago.

Sentiment Mainly Favorable.

In the Cobalt, the only feature displayed was in Timiskaming, which added another point to its decline, the shares selling back to 26 1/2, and closing with 26 the bid.

The market, however, acted in a rather disappointing manner, and did not come up to the expectations of traders who have been looking for the new week to bring in a turn for the better.

Public interest is expected to broaden at the lower prices, however, and it is again felt that the list will not long remain in its existent depressed state.

GUSSING PORCUPINE OUTPUT.

NEW YORK, Dec. 5.—An engineer who has gone over the ground very carefully predicts that the gold production of Porcupine in the calendar year 1917 will exceed \$2,000,000, others put it at \$3,000,000. This Porcupine ore is what is known as free milling and, barring placer propositions, it is the best kind of gold in the world to handle.

MINING IN SOUTH AMERICA

Prominent Canadian Interests in Venezuela Iron Proposition.

MONTREAL, Dec. 5.—A meeting of the shareholders of the Dominion Venezuelan Ore Company, Limited, was held today at the Windsor Hotel. This company, which consists of Montreal, Halifax and Toronto capitalists, have secured deposits of iron ore of the highest Bessemer quality on the Orinoco River, Venezuela.

Mr. W. B. Ford, formerly in charge of the mines, and Dominion Iron and Steel Company at Wabunan, New Brunswick, is the resident manager of the company in Venezuela.

The officers elected at today's meeting were as follows: P. Jones, president; Sir William Van Horne, vice-president; Sir Max Aitken, G. M. Bosworth, H. S. Holt, A. K. McLean, M. P. G. Ford, George John D. Patterson, and W. D. Ross, director.

PROVING UP THE HUGHES

Whitney Property Will Be Thoroughly Tested During Winter.

PORCUPINE, Dec. 5.—(From our Man Up North).—New camps are being built at the Hughes. The company, thru its engineer Mowry Bates, expects to operate a large force of men this winter and many new buildings are being put up. All the buildings are to be strictly up-to-date. A small steam plant for prospecting purposes is in use and core drills are to be operated. The main ridge is to be thoroughly prospected and tested out within as short a time as possible.

LA ROSE IN OCTOBER.

Operating profits of La Rose Consolidated Mines Co. in October are reported as \$75,541, bringing the operating profits for 10 months of 1917 to \$995,158, an average of practically \$100,000 a month. September profits were \$94,779, and August \$34,561.

Production in October was 225,000 ounces of silver, having a gross value of \$139,945. Other income brought the total up to \$141,930. Expenses amounted to \$66,389, leaving the operating profit of \$75,541. From Jan. 1 to Oct. 31, La Rose produced 3,011,932 ounces, valued at \$1,584,484. Expenses were \$1,167,928, leaving the operating profit for the 10 months \$995,158.

AMERICAN GOLDFIELDS.

Latest reports from this property show that eight distinct veins are now opened up and values are increasing as depth is attained, and at the 75 ft. level a very distinct improvement has taken place, and much higher values in sulphides.

These properties have created very much interest of late in the camp, some prominent engineers who have examined the locations so far as to predict that American Goldfields property will be the third best in Porcupine. Assays from one of the company's leads, now being allowed, have run up to and over \$100 to the ton.

Par value of the stock of this company is \$5 per share.

MONTREAL STOCK MARKET

Montreal Power Still Soaring—Other Signs of Strength.

MONTREAL, Dec. 5.—Montreal Power was again the leader in the trade on the Montreal stock market today, that issue alone contributing transactions of 1500 shares to the day's aggregate. The stock advanced to a high new price early at 138, as compared with 137 at the close yesterday, but later it reacted to 137 1/4, with that figure bid and 137 3/4 asked at the close.

Shawinigan was also strong, selling up to 122 1/2 with 122 1/4 bid at the close. Montreal Street showed strength, advancing to 237. The Shawinigan issue came into prominence by a show of strength, the common advancing from 32 1/2 to 33 1/2, and the preferred selling at 34 1/4 to 34 1/2. Laurentide was strong, advancing to 156, with that figure bid and none offering under 160. At the close Canadian Pacific weakly declined to 233 3/4, but recovered to 240. Richelleu sold at 121 1/4 to 121 1/2, RGO was stronger, advancing to 25 1/4, while the last sale was 25 1/2 and the preferred held at 50.

REORGANIZATION OF WABASH

NEW YORK, Dec. 5.—Reorganization of the Wabash R. Co. was determined upon today at a meeting of the directors. This implies that the reorganization plan of the Wabash-Pittsburg Terminal Co. and the Wheeling and Lake Erie Road, which would have relieved the Wabash of heavy financial responsibilities, was not accepted by the Wabash.

At the request of the Equitable Trust Co., trustee of the mortgage, Winslow Pierce was this afternoon elected chairman of the executive committee. He also was elected chairman of the reorganization committee, such having been appointed at the request of the trust company.

Kuhn, Loeb & Co. have consented to act as bankers for the committee. At the further request of the committee, the following directors are elected: Robert Goetz, Edwin Hawley, Alvin W. Kreh and Winslow Pierce.

ON WALL STREET

Erickson Perkins & Co. (J. G. Beatty) wired: The stock market took the Wabash break very well and soon was rallying again. It will be a good thing to reorganize this property. If it results in eliminating an undesirable interest a great deal will have been accomplished. The president's message on trusts should have a favorable sentimental effect. It will tend to calm congress and show the public that nothing very radical is likely to be accepted as responsible for the movement in the stock.

Some heavy selling of Maple Leaf preferred carried this issue down nearly a point to 88 1/4, and Duluth Superior, Russell common and Winnipeg, being a gain of a point at 74 and held the advance through, closing offered at that price. The earnings of the road are reported to be exceptionally good and this is accepted as responsible for the movement in the stock.

European Bourses. PARIS, Dec. 5.—Prices were firm on the bourse today. BERLIN, Dec. 5.—Prices closed lower on the bourse today.

Financier Morse is Dying. ATLANTA, Dec. 5.—Physicians at the Army Hospital hold out little hope for recovery of Charles W. Morse, the erstwhile exponent of high finance.

Canadian Marconi Soars. Montreal reports \$4.25 paid for Canadian Marconi this week. It is said English interests have been attracted to the stock, possibly in view of the rumor that the British Government is seeking control of the company's long distance station. For a couple of years the stock held around \$1.50 to \$1.75.

Wabash Reorganization. NEW YORK, Dec. 5.—(Canadian Press).—Financial readjustment and reorganization of the Wabash Railroad was determined upon at a meeting of the directors today. The announcement was something of a surprise to those who have followed the fortunes of this property, it having been generally believed that the reorganization plan of the Wheeling and Lake Erie-Wabash terminal roads would be accepted, thereby materially reducing Wabash's financial burden.

Winslow S. Pierce, once a prominent figure in all bond projects, returned to his early profession as chairman of the Wabash board and reorganization committee, succeeding E. T. Jeffrey, who continues as director.

New Move in Wabash Affairs The Main Factor in Wall Street

Only Languid Interest Taken in President's Message—Market Closes Lower—Toronto Market Apathetic.

NEW YORK, Dec. 5.—(Can. Press).—Wall-street displayed only a languid interest in stocks today. Professional operators spent the morning in waiting for the president's message. Only about 50,000 shares were handled during the morning and trading stopped entirely at frequent intervals. But when the message appeared, the operators did nothing. As a market, the developments at the Wabash meeting were of greater effect than the presidential utterance. When news of the proposed reorganization reached the street the only active movement of the day occurred. The Wabash securities tumbled to the lowest prices of several years, and the whole market weakened with them.

Prepared for Speech. Taking its cue from the president's brighten-up speech on the trust question, Wall-street was prepared for a message of the general tenor of that which was sent to congress today. The message was referred to generally as favorable from the standpoint of the business and financial interests.

Canadian Pacific became weak today, although the November gross earnings showed a gain of more than \$1,000,000. The pressure against this stock came largely from abroad.

TORONTO STOCK EXCHANGE

World Office. Tuesday Evening, Dec. 5. The Toronto stock market moved along in the even tenor of its way throughout the session today, trading being of a quiet nature, and little of interest being evolved in the usual active list.

Speculation showed no inclination to brighten up, and even in the South American traction issues, which have been most in the foreground of late, there was no material initiative displayed with the rest of the list, making decidedly little headway.

It is noticeable that such alterations in prices as occurred were toward a higher range of values, and toward the medium of firmness which was shown along this line was accepted as being in brokerage circles, though it was hard to find any ground for congratulation in the restricted movements which developed.

Rio and Sao Paulo attracted the greatest interest, but in neither instance was there anything particular doing. Rio, however, came in for a little better demand, and during the morning secured a small advance to 113 3/8, but lost all of it later, closing offered at 113, with 112 3/4 the best from yesterday.

Small dealings characterized the general list, and outside of a few special instances, there was little calling for comment in the transactions which were put thru.

C.P.R. under pressure of some selling reputed to be coming from London, and the price sagged both here and in New York. The shares got down to 239 1/2, and the local market, but were well taken on the decline, and closed with none offering under 240.

Porto Rico continued its advance, attaining another gain of a point at 74 and held the advance through, closing offered at that price. The earnings of the road are reported to be exceptionally good and this is accepted as responsible for the movement in the stock.

Some heavy selling of Maple Leaf preferred carried this issue down nearly a point to 88 1/4, and Duluth Superior, Russell common and Winnipeg, being a gain of a point at 74 and held the advance through, closing offered at that price.
