RUSSIANS OFFER DETERMINED RESISTANCE TO GERMAN INVASION

Canada Will Be Called Upon for Greater War Sacrifices, Says Hon. J. A. Calder

RESISTANCE TO ENEMY BEGUN AROUND PSKOV

Bolehevik Red Guards Commence to Make Firm Stand.

TO FIGHT TO DEATH Revolutionaries Rapidly Mobilize Forces for Defence of Petrograd.

London, Feb. 26.—A Petrograd despatch to the Exchange Telegraph Company, dated Monday, says: "That resistance to the German advance is growing is shown by the reports of fighting which continue in the vicinity of Pskov. This town has been changed several times. The German detachments which first entered Pskov were very small, but they have since been reinforced. There is a general belief that the Germans are moving forward hastily because supplies of ammunition worth four hundred million rubles are concentrated in the neighborhood of Pskov. The Russians, however, are taking measures to guard the railway and are sending more soviet troops to Pskov."

Later advices say that the soviet armies are now everywhere resisting the invaders. At Narva, the garrison and workmen have formed an army of ten thousand and gone to Reval. There are similar reports from Walk. Soviet activity is also reported from Pskov. The Russians, however, are taking measures to guard the railway and are sending more soviet troops to Pskov."

Congratulations Over First Direct Wire Between Ottawa and Washington.

Ottawa, Feb. 26.—In order to facilitate the transaction of public business between the two countries, a direct wire connection has been established between the Canadian War Trade Board, Ottawa, and the Canadian War Mission, Washington. The inauguration of this direct service was marked by the following exchange of congratulatory telegrams between President Wilson and Sir Robert Borden: "The White House, Washington. 'May I not send you this word of gratification that direct connection between Ottawa and Washington has been established by wire, and express the hope that this means of direct conversation will contribute still further to promote a good understanding and lasting friendship between Canada and the United States.' (Signed) 'Woodrow Wilson.' To the president's message, Sir Robert Borden replied as follows: 'I appreciate very deeply your excellency's message, and I join cordially in the hope that the direct communication by wire, which has just been established, will serve to assist in the mutual understanding between the United States and Canada. It is a source of great gratification to the government and the people of Canada that those relations are so close and cordial, strengthened as they have been by a splendid comradeship in the supreme cause to which each country is consecrating its efforts.'"

FAMINE NEAR, OUTLOOK DARK, SAYS CALDER

Horizon is Very Black, and Worst Yet to Come.

NO BRITISH MONEY Canadians to Make Greater Food Sacrifices Soon, and Pay Way.

Warning that the war situation was "very serious," that the world was practically on the verge of starvation, and that the government of Canada might very shortly have to call upon Canadians to make special sacrifices in order to conserve food, that labor might have to be taken away from the cities and put on the farms, and that in spite of all this "danger of famine in all the allied countries was very great," and even if Canada did its utmost "there was the danger of people in Great Britain, France and Italy actually starving," were among the important statements made last night in Massey Hall by Hon. J. A. Calder, minister of immigration for Canada, who said he came to Toronto to address the Dominion Alliance convention as the representative of Sir Robert Borden and the Union government. The premier was unable to be present himself because he had been called to Washington D.C. on some business of great importance, and he could not return to Canada until the end of the week.

Should Get Together. Every opportunity should be grasped, declared Mr. Calder, to get eastern and western Canada together. During the last few years they had been rapidly growing more and more apart, making the situation a dangerous one. Already even in eastern Canada there was also something which was tending to separate the people here, and some way must be found to bridge over the difficulties which had the effect of separating the various parts of Canada. He said that the people of Ontario appreciated the action of the government, and of its announcements of what it proposed to do to further temperance reform in Canada. There were those who thought the government of Canada could "wobble" on the temperance question. He could say the government was very much in earnest, as the time for what might be called political juggle had gone by. The intention of the government was to implement the announcement made to the people of Canada, and there was no question about the feeling of Canadians on the matter.

Faith Must Be Kept. "Unless faith with one people is kept long, in making these statements Mr. Calder said he expressed the view of the members of the Dominion government. "What fight have you been in?" shouted a returned soldier from the gallery, when the speaker referred to the long fight (for temperance) he had helped to wage. Mr. Calder did not answer the interrupter. "Taking 'the war' as the next subject, after praising the part played by women and labor, said no country had had less war-time labor difficulty, told his audience not to live "under any misapprehension for the horizon to-day is very dark."

"We have had war for three years, bringing ruin, death, destitution appalling. We are only approaching the end—it is not finished—probably the worst is to come, nobody knows. 'Nobody can say victory is in sight. We all hope and believe we will win. Only because the Anglo-Saxon race has never yet been defeated.' Canada Must Continue. Canada must continue to play her part. He sometimes wondered if the people knew Canada was at war, and if they knew what would happen if they were defeated. "The situation is very serious," said the speaker. "Canada had not got her back into this war." He believed the country was ready to make any sacrifices. The government's duty was to show the way. "It may be that within comparatively short time it will have to call upon you to make further sacrifices. The world is practically upon the verge of starvation. Unless certain food articles are produced in greater quantities over here there is very great danger of famine in all the allied countries. It might be that even with the people of Canada doing their utmost people in Great Britain, France and Italy would actually starve. The Dominion Government, said the speaker, may have to call upon the people to make greater sacrifices in the way of conserving and producing food. To do this labor might have to be taken out to the farms. It was a call they might have to make very shortly. The money question was next dealt with by Mr. Calder. He declared Great Britain couldn't lend Canada a dollar. "It had not done so for two years. The money for the war

**Eczema Seemed To Be Incurable**

But After Twenty-Five Years of Suffering From Stinging, Burning Eczema Complete Cure Has Been Obtained—This Letter Tells How.

Forest, Ont., Feb. 26.—The regular practicing physician does not, as a rule, give much time to the study of skin diseases. Consequently when he is confronted with a serious case of eczema he scarcely knows what treatment to recommend, and seldom brings about a cure.

Mr. Roy Paisley, Forest, Ont., writes: "For 25 or 30 years I suffered from eczema on my legs. I consulted different doctors, followed their instructions, but could gain no benefit. At last I began to use Dr. Chase's Ointment, and after the first application the burning was relieved. I continued using it, and in spite of the fact that the eczema had been of so many years' standing, the Ointment effected a complete cure. I believe Dr. Chase's Ointment to be worth its weight in gold, and can certainly recommend it to anyone suffering from eczema."

Other People's Opinions

Freedom and Fair Play.

The general public want to see fair play, and are asking questions: Why are the drugless healers? Why exclude them from a monopoly to medical practitioners?

Exemption Taxation.

Hon. Mr. McGarry has announced that he would not interfere with the Assessment Act while the war lasted, and this may be interpreted as promising an unfavorable reception to the city's request to permit the assessment of exempted properties as a war measure.

The Indomitable.

There is nothing finer in the stories of the war than Dr. Park's account of the British prisoners in Germany who were placed by the Germans who were to be exposed to the British air raids.

His Record Bewrays Him.

If German statesmen possessed a reputation for truth and fair dealing the nations might pay some attention to such a speech as Von Hertling, the German chancellor's, yesterday.

Wind or Breeze?

It appears to us that Hon. W. J. Bryan has been given a great deal of unnecessary advertising. Papers which fill columns about the cross of gold orator will only help to fill the meetings he addresses, which does not seem to be what they are aiming at.

McCURDY RESIGNS.

Ottawa, Feb. 26.—Hon. P. E. McCurdy has resigned his position as parliamentary secretary of the militia department and today assumes his new duties as parliamentary secretary of the new department for the rehabilitation of returned soldiers, of which Sir James Lougheed is minister.

Railway Nationalization, Electrification, and the Poor Grand Trunk

The railways of Canada must be electrified. The steam locomotive engine is one of the most wasteful machines in the world. This is true everywhere, but strictly, even tragically true, in Canada.

Now, what is the history of the Grand Trunk, and how does the account stand between that corporation and the Dominion of Canada?

The original road was built with generous assistance from the old Province of Ontario. The road, however, did not pay very well, possibly because it was operated from England instead of from Toronto or Montreal.

In 1904 the Grand Trunk made a bargain with Canada. Our government undertook to build a railway between Montreal, N.E., and Winnipeg, which the Grand Trunk agreed to lease and operate.

For the distribution of this coal in Canada they rely at present upon steam railways, but to rely upon a steam railway for coal is like relying upon a steam railway for your supply of mutton.

That is not the fault of the railway companies, but of the steam motive power upon which they rely. The Grand Trunk is a perfect example of this. It was built by the Ontario Government, and it has been a failure ever since.

If instead of coal we had a motive power for our railways in the form of a small, clean, and efficient engine, we could get rid of the Grand Trunk as a relic of the past.

A. J. SMALL Wires to R. L. BORDEN

From the Canadian Moving Picture Digest. Mr. A. J. Small, one of Canada's leading figures in the amusement world of this country, recently sent the following telegram to the Premier, in which he vigorously protested against any drastic action on the part of the government to curtail the people's amusement.

"Sir Robert Borden, House of Commons, Ottawa. In connection with the rumored curtailment of theatrical performances we do not believe your government wishes to strangle our business, and we simply desire to point out to your honorable body at this time that the theatres and motion picture houses are being operated under a higher burden of taxation at present than any other business industry in this country."

Quite naturally the Dominion Government will look to Ontario for aid. The magnificent success of the West Coast and the Hydro-Electric in the Province of Ontario and the fact that the Dominion Government should generously aid the Hydro-Electric in carrying out its great plans for future development.

We now have the quasi-official announcement—we may say, the official announcement—that the government is going to nationalize the Grand Trunk. The property will be acquired by negotiation if possible, by expropriation if necessary.

But how about the claim that this country is under a great debt of gratitude to the old Grand Trunk, and therefore ought to assume its commitments in respect to the Grand Trunk Pacific, and allow the company to go ahead under its own steam at a time when the Grand Trunk lines in Ontario and Quebec? Mr. Purdon, K.C., The London Advertiser and The Montreal-Gazette take this view. The British investor of seventy years ago, we are told, discovered that Canada was being constructed the Grand Trunk Railway. The Montreal Star had a page article the other day about the Grand Trunk, which depicted that system as a sort of an "Old Black Joe," listening to the angel voices, and just a little deaf.

Washington, Feb. 26.—Government control of the fertilizer industry was ordered by President Wilson tonight, a proclamation requiring manufacturers and distributors to obtain licenses from the secretary of agriculture on or before March 20.

Dentals and Kitchener Tie 4 to 4 in First of Finals at Arena

KITCHENER HOLD DENTALS TO A TIE

Visitors Display Beautiful Combination in First Senior Final.

SCORE FOUR EACH Kitchener Get Tying Goal in Third Period—Close Checking.

Don't count your Allan Cup eggs until they are hatched. Kitchener have had good hockey teams in the past, but the aggregation trotted out by that city for the first battle of the senior finals with Dentals last night was a real forward package.

The ice after the first period was sticky and took a lot out of the players. Kitchener seemed to stand up better under the heavy going and always had a kick left to open up a pretty rush.

Kitchener played the right game from bell to bell. They must have spent a lot of time figuring out how to stop the dangerous men, and they did not waste their time shaking the local and took yeoman work on the part of Lafamme and Sheldon to carry them along.

Kitchener played the right game from bell to bell. They must have spent a lot of time figuring out how to stop the dangerous men, and they did not waste their time shaking the local and took yeoman work on the part of Lafamme and Sheldon to carry them along.

The Dentals forward line have played better hockey. They punched hockey in centre at times and the close checking broke up a lot of passing. Milan worked hard, but was out of sync.

Each club scored two goals in the opening period. Dentals got the only goal of the second round and the visitors outscored the Toronto team two to one in the last 20 minutes.

Many of the fans went expecting to see the Dentals run up a record, but were pleasantly surprised to find it a hard battle from bell to bell.

It is no doubt that the Dentals have played better hockey than they supplied last night, but this is not the excuse offered for the score.

The crowd were one of the largest that ever attended a final, and it was a game worthy of the prize.

Lafamme relieved a press and went down with Smylie. Smylie carried it and passed right across the ice to Lafamme. Hainsworth made a hair-raising stop of a hard shot.

Some excitement was caused at this stage by a returned player taking a fall while watching the game from the rafters.

VINES FOR FLOWERS

By SAMUEL A. HAMILTON

When considering vines for flowers, our thoughts turn first to the most beautiful of all—the large-flowering clematis. In recent years this has been greatly improved in ability to withstand diseases, and a number of the new varieties have been added. The large-flowering clematis is the best of the vines which are grown for their flowers. It is also the most difficult to establish. Once established, however, it is as hardy as an oak. It is best to let the nurseryman propagate the vines and bring them on to two or three years of age, either in pots or as field-grown specimens.

Strengthening the Keeping-Warm Muscle

The method of Baruch for training the vaso-motor nervous system to regulate the circulation under a varying conditions of exposure was described in this column the other day. Dr. Baruch employs water baths, at a comfortable temperature the first day, and one degree lower in temperature each succeeding day, until the patient reacts to a bath as low as 50 degrees F.—reacts by feeling nice and warm and braced by the bath. He calls it neuro-vascular training, and in medical instances, it is one of the most effective weapons at our disposal in the treatment of typhoid fever and various nervous and circulatory diseases.

HELD FOR JEWELRY THEFT.

New York, Feb. 26.—Henry Williams, of Buffalo, a dining car waiter, was held here today for the grand jury on the charge of having stolen \$50,000 worth of jewelry from Mrs. W. E. D. Stokes of this city, while she was coming here by train from Denver last October. The police allege that Williams, arrested in Buffalo Saturday, was found to have pawned there for \$133 some jewels which were identified by Mrs. Stokes as belonging to her. Williams claimed an agreement to be in Buffalo on another job, but said he had been smuggled into this country from Canada.

OVERCOME BY FUMES.

Peter Depew Has Narrow Escape From Death While Thawing Pipes.

Overcome by the fumes of alcohol which he and a companion were using to thaw the pipes in a gas main at the corner of Morse street and Eastern avenue yesterday afternoon, Peter Depew, 42 Dinevan avenue, had a narrow escape from death. According to the police, Depew and a companion, who was also overcome, were working in the man when Depew collapsed. His companion endeavored to lift him out of the manhole, but was himself overcome while in the act. Dr. Richardson of 647 Broadview avenue, who was passing in his car, witnessed the attempt and rescued both of the men. The doctor after rendering first aid, had the men removed to their homes in the emergency car of the Consumers' Gas Company.

SUGGESTS INVITING COUNCIL TO SUPPER

Advisory Committee on Industrial Education to Counteract Statements.

KEEP DOWN EXPENSES

Indignation is Expressed at Wrong Impressions Being Published.

Indignation was the keynote at the meeting of the advisory committee on industrial education yesterday afternoon. F. E. Bridgen, chairman, said that the public was misled almost every night by published statements charging mismanagement of technical education in Toronto. The statements were false and showed the ignorance of those who made them. Dr. A. C. McKay, principal of the technical school, said that one glaring instance of the false charges of extravagance made against the technical school was that it consumed 18 tons of coal a day. As a matter of fact, during the most severe weather the amount used had been about half of the quantity alleged, it being exactly 9.09 tons for each 24-hour period. Fortunately also the kind of coal best suited for the technical school furnaces was the cheapest grade of coal in the market.

Another example of thrift was the report on the school lunch room, which after providing lunches at cost for the pupils and meals at 35c each for the teachers, made a profit of \$412.31 for the year. The receipts were \$4220 and expenditures for supplies and service of all kinds \$3808.

Expenses Kept Down. In view of an arrangement with W. P. Ferguson to act as an additional assistant of evening classes, instead of as a teacher without additional salary, expenses had been kept down.

Various proposals to bring the facts before the members of the board of control and city council and the public at large were discussed. One was the appointment of a publicity committee. Dr. Noble suggested a supper for the members of the city council at the Technical School. If the mayor, controllers and aldermen attended and then made a careful investigation of the great work in progress it would have a great effect in diminishing the attacks upon this important educational institution.

Miss Constance Boulton said that the cost of education in Toronto had only advanced one mill on the dollar in ten years, but its necessary increases of salaries was used as a red herring to excite the much greater increases in other civic departments. The matter was left with the principal to report upon as he might think fit, also the question of a policy respecting adequate fuel for the Technical School for next winter.

Miss Constance Boulton raised the question of fees for the domestic science courses in the day classes. Dr. Mackay took the ground that \$5 a course was not too much for each of the special courses, as the expense was nominal, except in cases where pupils attempted to take more than one course at a time, which was not desirable.

ACTOR VISITS HOSPITAL.

Chauncey Olcott and several members of his company, which is appearing in the Princess Theatre this week, visited the four hundred convalescent soldiers at Dayville Orthopaedic Hospital yesterday afternoon and entertained the men in a manner not soon to be forgotten. Besides the songs by Mr. Olcott and Miss Wilson, Mr. Olcott distributed hundreds of packets of cigars and cigars.

BANISH LANGUAGE OF HUN FROM LAND

Dr. Forbes Godfrey Introduces to Legislature Bill With Radical Proposals.

COMPLETE PROHIBITION Measure Would Entirely Eliminate German From Province.

To wipe out the German language in Ontario for the purpose of a bill introduced in the legislature yesterday by Dr. Forbes Godfrey, West York. It is a most stringent measure and would eliminate the use of the enemy tongue in business, schools, universities, books or any other way in which it has been used up to the present.

It was the feature of another short session and was one of many bills which came up for introduction or second reading. There was little or no discussion of any of the matters before the house, and the day's business was concluded without delay or a hitch in the routine.

Dr. Godfrey's bill says that notwithstanding any previous act of the province or any instrument of incorporation of any university or seminary of learning or in the regulations of the department of education or the curriculum of studies for candidates for admission to a profession the degrees and other diplomas shall be granted without reference to the German standing in the study of the German language. After a day to be set it would be unlawful to place upon the course or curriculum for any degree or certificate any book or other publication in the German language or to require that the language be learned or taught as part of a course of study.

Complete Prohibition. Under the bill's provisions no person would be allowed to address public meetings, conduct a church service or speak at a meeting of any municipal or school council or corporation in German, and no minute books, records or documents of any kind would be permitted to be written or published in German.

A teacher in a public, separate or high school, or in any other place of learning would be prohibited from using the language in addressing pupils and would not be allowed to advise a student to study or peruse any book or documents written in German. Notices of any character or bylaws or regulations, if written in German, would be contrary to the law.

A penalty of not less than \$100 or more than \$1,000 is provided for persons who violate the bill, the sum to be recoverable by action by any person who may sue therefor and every action of such penalty would be tried by a judge without a jury. Where the offence is committed by a corporation and judgment is given against the corporation the lieutenant-governor in council might revoke, cancel and annul any letters patent, charter or instrument of incorporation issued in the Province of Ontario to such corporation.

Other Bills Presented. Erwin F. Hilliard, Dundas, moved the second reading of a bill to amend the Administration of Justice Act and it was passed on to the legal committee. A bill to amend the Jurors' Act was supported by J. E. Billkitt, West Middlesex, by which delays in the selection of juries would not occur. It was sent to the legal committee also.

William Proudfoot, leader of the opposition, was in his place again, having recovered from an attack of having recovered from an attack of a gripe. His bill to amend the Mortgagees and Purchasers Relief Act was given its second reading, as was one to amend the Mechanics' and Wage Earners' Lien Act, and both will be dealt with by the legal committee.

An amendment to the Statute Labor Act whereby municipalities

Sir William Hearst introduced a resolution which will provide for an appropriation of \$1,000,000 for provincial good roads work, the money previously voted having become almost exhausted. The matter was allowed to stand and there was no discussion relating to it.

OBSERVE PASSION WEEK WITH DAILY SERVICES

Methodists in Canada Will Answer Special Call Issued by General Superintendent.

Methodists in Canada will this year observe passion week with daily services. A special call is being issued by Rev. Dr. Chown, general superintendent, and signed also on behalf of the general conference committee by Rev. Dr. T. Albert Moore, Geo. H. Clark, M. H. Clair Fisher, B. E. Bull and W. G. Watson. A reason given for the widespread observance as requested by his majesty the King of January 6 as a day of prayer. The call expresses the trust that the observance of Holy Week by the Methodists will bring blessing to the church and nation.

FIRE OF UNKNOWN ORIGIN. Hunter-Ross Company Suffers Damage in Early Morning Blaze.

Originating in the bindery on the third floor fire caused damage to the extent of \$25,000 to the four-story brick building and contents of the Hunter-Ross Company, 12 Sheppard street, about 4 o'clock yesterday morning. It is a "mystery" fire as far as the police and fire departments are concerned. After investigation the reason for the outbreak cannot be understood. No electric wires, which so frequently cause night fires, were near the scene of the outbreak. Most of the damage was caused by water.

CHILD BURNED TO DEATH.

Ottawa, Feb. 25.—Cecilia Laehapelle, six years old, lost her life in a fire which destroyed the home of her foster-parents, Mr. and Mrs. Geo. Laehapelle, 129 Carruthers avenue, early Sunday morning. The husband, who went upstairs to get the child, found east by the stairway cut off and had to jump thru a window. He was severely burned.

FROZEN PIPES ARE WOMEN'S PROBLEM

Severe Winter Brings the Plumbing Question Into Women's Sphere.

Unusual weather conditions have brought to Toronto housewives many new problems to solve this winter. Perhaps none is more troublesome than that of the plumbing. Many a woman who never knew there were such things as pipes between the walls of her home has suddenly been introduced to the things in a manner that she will never forget.

It has been a very hard winter on plumbing, and many a tenant has found out the truth of the house which had such a fair outside. The department at the city hall has been kept busy investigating cases of frozen pipes and had to decide who would draw them out the tenant or the owner. The question is not so easily decided as may appear. "If it is so written in the bond" the tenant then need trouble no further about it. But if the tenant does not keep up fires and thus do all within reason to prevent the damage—and he or she must pay the plumber. Women are advised to read up the bylaws on this question and get posted before another winter comes so that the many troubles of this season will never be repeated.

Women are often advised to learn how to thaw out frozen pipes and to make little repairs, such as putting in a new washer or fixing a cap. Aid to this knowledge a little more—that of one's responsibility as to keeping out the frost.

# The Simpson Display of New Millinery

## Will Continue Today When We Shall Reveal Hats That Have Not Yet Been Shown

Millinery from Paris, millinery from New York, and millinery from our own workrooms, typifying the cleverest ideas in materials, shapes and trimmings, will continue as the Store's chief attraction today. The French Room, The Riviera Section, devoted to tailored millinery, the department devoted to matrons, and the one that aims to charm the already charming miss—all are in gala attire, displaying their most bewitching models for you to see today.

### Half-Price Clearance Sale of High-Grade Blouses

Values \$2.50 to \$15.00, for \$1.25 to \$7.50

Periodically we clear our show tables of all goods that have been exposed or that show any sign of handling. The present offer comprises a most varied and beautiful lot of Georgette crepe, crepe de chine, heavy habutai silks and fine lingerie. They are not individual models, but are nearly so, making them very desirable and sure of finding appreciation. Sizes in the lot 34 to 44. Regular prices \$2.50 to \$15.00. Today at half price, \$1.25 to \$7.50.

### Children's Wear Specials

No Phone or Mail Orders

#### Children's Spring Coats at Half Price

They are made of rich white velvet cord, lined with glossy white satin. The smart collars and cuffs come in either rose or Copen, velvet cord. Two dainty pouch pockets in front, lined with colored velvet cord to match. Four large pearl button fastenings. Sizes 2, 3 and 4 years in the lot. 60 to sell today at \$1.95.

Infants' Long Robes with Long Skirt to Match, made of beautiful fine white lawn of soft texture. Robe has hem-stitched yoke of lovely Swiss embroidery, and skirt of all-over Swiss embroidery to match, in exquisite floral and dot design, with fancy scalloped edge. Length 30 inches. Special today, per set, \$3.50.

Two Hundred and Forty Only, Children's Spring Weight Pure Wool Sweater Coats in a special clearance. They are knit in a pretty novelty weave and are button front style, with military collars, long sleeves and two patch pockets. Colors white, cardinal and Copen. Sizes 2 to 6 years. Value \$3.25. Sale price, each, \$1.65.

### Opening the Riviera Hat Section

A peep into our "Riviera" Section, the home of strictly tailored millinery, which reopens today, will reveal so many wonderful and altogether delightful surprises that you will find your visit a real joy.

They are hats of Liseret braid, Italian hemp, Italian milan and many other smart materials—sometimes alone, sometimes with Georgette facings or upper brims. The shapes were never simpler nor more chic—showing smart tricornes, styles that roll abruptly from the face, clever sailors, and close-fitting little models that will appeal to either miss or matron. And, of course, they display all the lovely colors that Fashion demands for Spring wear.

Trimmings there are indeed—but trimmings that but enhance their tailored smartness. Here you see novel lacquered wings and quills—there a crown with bright cherries dotted all over it—or again a pert ribbon bow. A few flowerets are also seen, in bright little, tight little bunches. By a host of such attractive methods do these "Riviera" hats gain a tailored elegance that will charm you.

For the purpose of creating special interest in this section today we are showing a number of "Riviera" Hats in a great variety of stunning styles and exemplifying such charming effects as we have already mentioned. Specially priced, too, for today, at \$10.00.

### The New Things to Wear for Women and Misses

Charming Suits at \$27.50 and \$35.00

Between the jaunty little suit, with its pleated jacket, for the miss, to the stunning dressy model for the matron, there is a delightful diversity of smart styles, in all the leading spring shades.

Pointed panniers that make an irregular neckline give a smart touch to one suit; the row of buttons that slip through fancy buttonholes from cuff to elbow is the chic note in another; a dressy shawl collar, with an over-collared of some lovely contrasting fabric, lends added beguilingness to still another. All have short, narrow skirts, with some new touch in the way of belts; pockets and buttons are fashioned.

### Coats That Are Extremely Smart

Soft wool velours, poplins, gabardines, coverlets and serges have found their way into most of the attractive coats we are displaying for women and misses. And such colors as navy, Pekin and Belgian blue, sand, chinichilla, taupe, green, etc.

Some are pleated from shoulder to hem, in a slightly fitted tailored style; others have fitted backs, rippling from normal waistline; but most of them are belted with the smartest and oddest little belts and girdles imaginable. Other smart features are loose panniers, soldierly-looking flaps over the hips, unique pockets, and over-collars of plain silk or fancy fabrics in contrasting colors, plaids or stripes. All are half-lined with silk or satin. Priced from \$32.50 to \$46.00.

### Fashion Favors Taffeta and Foulard for Frocks

Here Are Three Charming Styles

The first of taffeta has softly pleated tunic and a very striking bodice in pointed waistcoat effect, finished with long tailored bow at back, and satin shawl collar. Colors grey, beige or navy. Price, \$25.00.

Taffeta is seen in another handsome dress that has its bolero bodice entirely braided, and the new pointed draped tunic. Price, \$27.50.

An exquisite model of sand and white foulard has a wing draped tunic, and a bolero that falls over a broad crushed girde; finished with smartly pleated Georgette collar and cuffs. Price, \$37.50.

### Dressy Taffeta Skirts

With the returning spring and summer comes the need of a cool, dressy silk skirt. These soft taffeta are as smart as they are moderately priced. Attractive features are the softly-crushed girdles, high shirred waistlines and high waistline with novelty side flaps; also the pretty pockets, large and small, and the chic button trimmings; colors navy, taupe and black. Women's skirts, \$10.00, \$13.50 and \$12.50. Misses' skirts, \$6.95 to \$12.50.

## The Last Two Days of the Furniture and Rug Sale—Today and Tomorrow

### Their Importance to People Who Require New Furniture and Rugs Cannot Be Over-Emphasized

We cannot mention all the great bargains that are available in this sale—the few that are listed here represent but a small fraction of the total number of specially priced articles. They also serve to indicate the character of the savings you can effect. Just walk around the Furniture and Rug Departments today and look things over—read the price tickets—you will then know why we are so enthusiastic about this sale.

### The Home-Lovers' Club is Still Enrolling New Members

The sale is made even more important by the Home-Lovers' Club—a convenience enabling responsible persons to make their purchases during this sale—at the low sale cash prices—with only part cash payment. Suitable arrangements are made for spreading balance over a convenient period.
