VOL. XXXVIII.—No. 13,869 TWO CENTS

AUSTRIA QUITTING; TURKEY IS OUT

TURKEY SURRENDERS STUPENDOUS ITALIAN SUCCESS; AUSTRIANS COMPLETELY ROUTED

Quits Cold, Laying Down All Arms, Giving Allied Fleets Free Passage Thru the Dardanelles to the Black Sea, Occupation of Forts and Immediate Repatriation of Allied Prisoners.

London, Oct. 31.—Turkey is out of the war. She has surrendered unconditionally, and the last of her army fighting on the Tigris River has surrendered to the allied forces. Several days ago, General Townshend, captured at Kut-el-Amara, was released as a guarantee that Turkey meant business when she asked for an armistice, which was signed today. One of the terms of her capitulation is that the Dardanelles be free for the passage of allied warships, and it is probable that a fleet already has passed thru in order to attack the German fleet in the Black Sea.

An armistice between the allies and Turkey was signed today at Mudros, on the Island of Lemnos, in the Aegean Sea. Some of the Terms. The Turkish plenipotentiaries arrived at Mudros, Island of Lemnos, early this week, and an armistice was signed by Admiral Calthorp on behalf of the allied governments last night. It will come into operation at noon today. It is impossible as yet to publish the full terms of the armistice, but they include the free passage of the allied fleets thru the Bosphorus to the Black Sea, the occupation of forts on the Dardanelles and in the Bosphorus, necessary to secure the passage of the

ships, and the immediate repatriation of allied prisoners of war. Townshend Released. General Townshend, the British commander captured at Kut-el-Amara, was liberated several days ago by the Turks. Sir George Cave announced, in order to inform the British admiral in command in the Aegean that the Turkish Government asked that negotiations be opened immediately for an armistice. A reply was sent that if the Turkish Government sent fully accredited plenipotentiaries, Vice-Admiral Calthorp, the British commander, was empowered to inform them of the conditions upon which the allies would agree to stop hostilities, and could sign an armistice on these conditions in their behalf.

Fleet on the Way. Washington, Oct. 31.—Announcement from London that an armistice with Turkey which permits passage of allied warships thru the Dardanelles already is in operation, led naval officers here to believe that an allied fleet, if it has not already started, soon will pass thru to the Black Sea to attack the German naval forces there. These forces include ships of the Russian Black Sea fleet taken over by the Germans after the collapse of the provisional government in Russia. Official British reports revealed by Sir Eric Geddes, first lord of the admiralty, during his recent visit here,

show that the Germans obtained one super-dreadnought, several battleships of the pre-dreadnought type, and a score of fast destroyers. The German battle cruiser Goeben also is in the Black Sea. This vessel was in the Mediterranean when the war began and escaped to the Bosphorus, where it was reported to have been "sold" to Turkey before that country entered the war. The cruiser was badly damaged several times, but recent reports said it had been repaired again, taken over by the Germans and withdrawn to the Black Sea. Turks Surrender. The entire Turkish force which has been opposing the British on the Tigris has been captured. It was officially announced today. The text of the statement reads: "The hard fighting on the Tigris, which began on October 24, ended on the 30th with the capture of the entire Turkish force opposed to us on that river. The prisoners are estimated at about 7000, with much material."

No More for Turkey. The disposition of European Turkey and the Dardanelles is a question brought suddenly to the front by the armistice which has ended Turkey's career as an ally of Germany. One thing is regarded here as virtually certain—the Dardanelles will never again be under the domination of Turkey. Great Britain and France are determined upon this. In some quarters the belief prevails that the Dardanelles will be internationalized, thus opening the way to the commerce of the world, and giving Russia an outlet to the Mediterranean. BUY BONDS

Enemy Masses Streaming in Confusion Down the Mountain Valley in an Attempt to Reach Passes on the Tagliamento--Asiago Plateau and Other Important Ground Captured.

Austria Quits Next Italy at First Refuses Armistice, But Later Allows Austrian Deputation to Open Preliminaries.

Vienna, via London, Oct. 31.—An Austrian deputation has been permitted to cross the fighting line for preliminary parleys with the Italian commander, according to the official announcement tonight. Italian Army Headquarters on the Piave Front, Oct. 31.—The Italian army on the right is rapidly extending its lines in the valley of the upper Piave around Belluno, with the object of dividing the Austrian army and forcing a retreat of the mountain brigades and the troops from Bassano. The most notable fighting was occasioned by the third army's frontal attack along the lower Piave on the Austrian fifth army, which is resisting stubbornly to save itself from capture. This army is also being attacked by the fourth army, composed of two British, one Italian and one American division. As the left wing of the Austrian army rests upon marshes and the sea, its position is most precarious, and latest reports indicate that it is in flight wherever possible. The Italians are advancing rapidly virtually at all points along the front. The outposts are reported to be within 30 miles of Udine. The Austrians are retreating from their fortified mountain positions, blowing up munitions and fortresses and burning supplies. The great fortresses of Col Vezzena were destroyed in three successive explosions. Italian troops arriving along the Livenza River were greeted with great enthusiasm by the Italians. Twenty British and American units, which have been a ceaseless flow of cavalry, artillery, cyclists, supply wagons, members of the American Red Cross, Y. M. C. A. workers and refugees. Austrians Divided. Washington, Oct. 31.—Italian troops have reached Ponte delle Albi, northeast of the City of Belluno, thus definitely dividing the Austrian army, said an official wireless message received here tonight from Rome. The Austrian army has been completely routed east of the Piave, an earlier

despatch said, and are with great difficulty sustaining the incessant pressure of the Italian troops in the mountain region. In the plain and in the Alpine foothills of Venetia, enemy masses are described as "streaming in confusion" down the mountain valley in an attempt to reach passes on the Tagliamento. Prisoners, guns, war materials and stores, scarcely touched, fell into the hands of the Italians. Czecho-Slovak troops are operating with the third Italian army, which is pushing ahead overwhelmingly and capturing the enemy. In the Grappa region, the Italians renewed the attack today and captured the plateau of Asiago, the saddle of Solero, Monte Spioncica and Prassalona, Asolone and Col Caprile and Col Bonatto. The number of prisoners captured now exceeds 50,000, and of the guns captured more than 300 have been counted. Stupendous Successes. "The successes of our armies are becoming more and more stupendous," said the despatch. "The enemy is completely routed east of the Piave and he is with great difficulty sustaining the incessant pressure of our troops in the mountain region, in the plain and in the Alpine foothills of Venetia. Our armies are aiming irresistibly towards the objectives which have been designated. The enemy masses are streaming in confusion down the mountain valleys in an attempt to reach passes on the Tagliamento. Prisoners, guns, war materials and stores, scarcely touched, fell into our hands. The number of prisoners captured now exceeds 50,000, and of the guns captured over 300 were counted. Allies Reach Sacile. The Italian armies are pushing after the enemy in the mountains and on the plain. Allied troops have reached Sacile, 18 miles east of the Piave River. The Austrians on deserting Asiago left great quantities of ammunition behind them. The problem of the allied commanders now is to throw enough cavalry and light troops across the Piave River, which is still low, to overtake and capture the main sections of the Austro-Hungarian army. General Diaz, the Italian commander-in-chief, has issued the following bulletin to his troops: "Soldiers, forward! In Italy's name we will place the wreath of victory on the tombs of our glorious dead. Forward, our immortal country calls." Official Statement. The Italian communication follows: "The success of our arms is assuming great proportions. The routed enemy is retreating east of the Piave and can hardly withstand the close pressure of our troops on the mountain front. In the Venetian plains and the Alpine foothills our armies are irresistibly directed on the objectives assigned to them. Hostile masses are throught

POLICEMAN IS SHOT BY YOUTH IN A CAR

Second Officer Threatened at Sunnyside at One o'Clock This Morning. Policeman John May of Cowan avenue station was shot in the arm at 1:30 this morning by one of half a dozen youths firing in a stolen motor car which had stopped at Sunnyside. Later on a threat was made to shoot Policeman Courtney at the same place as the car was returning from the Humbly. Shortly before one o'clock reports were received that two cars had been stolen. May saw them passing Sunnyside, and attempted to jump on the running board of the larger car. One of the six or seven young men who were in the car pointed a revolver at May and pulled the trigger. The bullet entered the policeman's right forearm. He was alerted to shoot along 1324 West Queen street, and then taken to the Western Hospital. The cars went as far as the Humbly and returned. The larger car, outside the larger car was approached by Policeman Courtney. The same youth pointed his revolver at the policeman, but the driver swerved, put on speed, and got away.

MAKING GOOD PROGRESS WITH ARMISTICE TERMS

Representatives of Allied Powers Leave First Formal Meeting, Having Reached Substantial Accord. Paris, Oct. 31.—The representatives of the entente powers left Versailles after their first formal meeting today, visibly content with the results that had been achieved. They have not finished their work, but they have reached a substantial accord. Their task is moving, and they have had the satisfaction of seeing that they soon will be able to make an announcement. The Turkish armistice terms were chiefly the work of the British and French, in them the United States had no part. The decision in this instance is regarded as one of great importance. An informal conference took place at the home of Colonel E. M. House, President Wilson's personal representative, in the forenoon prior to the assembling at Versailles. Among others present were: M. Clemenceau and M. Pichon, respectively, the French premier and foreign minister; Signor Orlando and Baron Sonnino, the Italian premier and foreign minister, and David Lloyd George, the British prime minister. This gathering was preparatory to the formal meeting. In addition to the French, Italian and British representatives, Dr. M. R. Vissnich, the Serbian minister to France, and Eleutherios Venizelos, the Greek premier, attended. The last to arrive at the conference was Marshal Foch. He was alone, without aide or orderly. At Versailles the business was over in a couple of hours, and a long line of automobiles with the representatives of the powers returned to Paris. The reason for the trip to Versailles today was that it is the headquarters of the supreme war council, which theoretically takes no decision except at Versailles. There will be another informal meeting at the residence of Col. House tomorrow morning, and the business of the council will be pushed forward rapidly, either at formal or informal meetings, until it is concluded. The spirit of all the representatives appears to be favorable to the ironing out of all obstacles rather than to raising them.

DOWN WITH HAPSBURGS, THE CRY IN VIENNA

Riotous Demonstrations in Vienna and Budapest in Favor of a Republic. Amsterdam, Oct. 31.—The Berlin Tagblatt and Vossische Zeitung publish reports of serious demonstrations at Vienna, as well as at Budapest. An all-provisional soldiers' and officers' council has been established at Vienna, where the people are parading the streets shouting: "Down with the Hapsburgs!" The Lammasch Cabinet is expected to resign, according to reports received here, and the army is in course of full dissolution. Demonstrations continue in favor of a republic, and the people are shouting for a republic and the soldiers are replacing their imperial cockades by revolutionary colors. Revolutionary troops, it is added, govern the whole city. SIX TONS OF BOMBS DROPPED BY AMERICANS. Washington, Oct. 31.—Bombing units attached to the American first and second armies dropped six tons of explosives yesterday on Barricourt, Bayeville and Longvion, Gen. Pershing reports in his communique for this morning. BUY BONDS

ANOTHER BIG SLICE WRESTED FROM ENEMY

With the British Army in France and Belgium, Oct. 31.—Another big slice of important territory was torn from the enemy today along a wide front in Belgium between Deynze on the north and Aveleghem on the south, by an allied force composed of Belgian, British, French and American troops. The American units were fighting with the French north of the British. The attack was launched at 5:30 o'clock this morning, and by noon the British had jammed their way forward to a depth of some 4,000 yards. On their left the allies were battling for the high ground between the Lys and Escaut Rivers. The reports indicated that here also things were going well for the assaulting troops. Numerous towns and hamlets have been released by this drive, among them Bergwike, Tierghem, Ansegem and Winterken. BUY BONDS PANIC AND OUTBREAK IN RHINE PROVINCES. Amsterdam, Oct. 31.—There has been an outbreak and panic among the population in the Rhine provinces, arising from reports that the German army was preparing, if necessary, to allow enemy troops to occupy Cologne and Cologne, according to The Berlin Tagblatt. Grand total for province \$55,212,000 24.96

The following comment was made by G. H. Wood, provincial chairman for Ontario: Ontario has again come along with another good day's returns, the total from 54 units out of 58, including Toronto, being \$9,587,300 for today. At the close of the fourth day in the last campaign, the total for the province was \$84,820,700. Tonight it is \$55,212,900.

"On the surface this looks good, but a close examination reveals the fact that the bulk of the returns have come from the special subscriptions and from the cities and towns. Up to last night canvassing teams had reached only 11.26 of their objective, when they should have reached 16.66. This means that for the first three days they were only within 60 per cent. of their objective. It is up to the canvassing teams to put on a spurt, as they have a very long way to go to produce their share of the quota. This is particularly so in the rural sections, and we are counting on a big boost from this quarter during the balance of this week. The total so far is made up of 63,000 individual applications.

The Towns of Warton and Arnprior entered the honor list today, being entitled to their honor flag for passing 100 per cent. of their objective. Sheburne put in a claim for a second crown, having passed 150 per cent. of its objective. The County of Bruce is doing itself proud, being the first to have two honor flags within its borders."

Mr. Wood received the following telegram from Sir Thomas White today: "Thank you for your telegram. Am delighted to hear how well Ontario is doing."

Toronto has passed the 20 million dollar mark on her way to the \$0 million dollar objective in the Victory Loan campaign. Daily the enthusiasm is growing and the competition between teams in industrial plants is getting keener.

See Special Films. A good-natured crowd of several thousand people gathered in front of the Allen Theatre last night to see the special pictures made by some of the film stars specially for the Canadian Victory Loan. There was a splendid picture, entitled "Money Bags." It is an entirely Canadian film, and it makes plain to those seeing it that the prosperity of the country depends to a very large extent on how well the Victory bonds are subscribed to.

The crowd enjoyed the pictures immensely and cheered each picture. Messrs. Frank and McGillivuddy, war-scarred veterans of Canadian contingents, urged the crowd to help. Allens offered to buy \$5000 worth of bonds if the crowd would make up that amount, and in ten minutes the canvassers had \$2500. The bond sales increased and in ten minutes the canvassers had \$2500 they stuck. "If you'll make it \$27,500, we will boost it to \$30,000," said Jay J. Allen, and in a few minutes the \$30,000 was added. "I never saw a finer spirit of enthusiasm than has permeated this whole crowd tonight," said Mr. Allen. "Tonight other stars will appear and they did last night—that to every purchaser of a \$50 or a \$100 bond they will give a pass for two weeks to the Allen Theatre, for each purchaser of a \$500 bond a pass for one month, and for \$1000 a pass for two months."

INSPECTOR MULHALL GOES OFF THE FORCE

Request of Deputation Asking for His Reinstatement is Refused by Police Commissioners.

Despite the fact that they were armed with a petition signed by over 300 residents of West Toronto urging the reinstatement of Inspector Mulhall, who was asked to resign after the recent riot, the deputation, which appeared in his behalf at the meeting of the police commissioners yesterday, was informed that the board would not change its decision.

SENTENCED TO HANG FOR TUCKER'S DEATH

Hassen Neby Declares His Innocence, But Jury Finds Him Guilty.

Declaring that he knew nothing of the crime, Hassen Neby, the Albanian who was tried by Chief Justice Falconbridge, for the murder of George H. Tucker at Weston on May 19, was yesterday sentenced to be hanged on January 3, 1919. The jury was out for upwards of an hour.

In his summing up to the jury, Crown Attorney A. J. Agar related the story of the crime and declared that the evidence, in its itself, circumstantial, was nevertheless conclusive.

Neby was called to the stand in his own behalf late yesterday afternoon and his evidence consisted of a series of sweeping denials in reference to the clothes stolen from the boarding car which were found in his room at a lodging house on West King street. He swore that he had never been out of Canada during the four years of his residence here and he positively denied that he had ever faced a charge of attempted murder in the United States.

Neby stated that he never left the house on King street on the day of the murder and he knew nothing whatever of the murder.

DOCTORS EXPLAIN SOLDIER'S PLIGHT

Case of Corporal W. Parker at Newmarket Military Hospital.

INVESTIGATION IS MADE Reporter for The World Follows Complaint of the Patient's Brother.

Heartrending aptly describes the case of Corporal W. Parker, late of the 5th Battalion, an amputation case, and now a patient at the Newmarket Military Hospital. His brother, who lives at 1905 Dufferin street, having criticized the treatment meted out to the corporal at this institution, a reporter for The World visited the hospital yesterday afternoon to investigate the complaints made by the brother.

The complaint of the moment is that Corp. Parker is kept in a key-closed room in company with another patient who is covered with sores, that Parker has no bed to lie on, no mattress and no blanket, that the room is in a filthy condition, and that this mode of treatment is liable to make one worse rather than better. The brother stated last night that the corporal had arrived in Canada perfectly sound, and that the worry of bad treatment and army discipline had affected his mind, the treatment at Newmarket hospital and the alleged lack of pay due to him tending to finally bring him to his deplorable state.

Dr. Gunn, superintendent of the hospital, and Dr. Stevenson, house physician, accorded the reporter every courtesy and took him thru every ward, into the kitchen and thru the various treatment rooms. The cleanliness of the hospital in general was of a high order and was more than equal to any such institution seen in England. The whole effect was as though a speck of dust would destroy the picture. The sheets were spotless and the bathrooms were fitted with the most modern appliances. Finally the reporter visited room 208, in which Corp. Parker was domiciled under key with the patient of the sores and mental deficiencies.

No Ordinary Comforts. Room 208 is a small room with practically no ordinary comforts discernible. At the moment the room was fairly clean, but dilapidated. The walls were plaster-lathed, and large layers of plaster were smashed off, leaving bare lath places. Perhaps a third of the wall was in this condition. In one corner was an ordinary army bed and in it was a man who was wan of face and whose body was partly covered with sores. He had a blanket over him. In the other corner was a figure of a man partly covered with a blanket, his legs and a large part of his body nude. No mattress, no bed, no interior light. Nothing but a terrible mental depression, mumbling, and entirely devoid for the moment at least of any intelligence.

When the reporter returned he was informed by George H. Gustar, secretary of the G.W.V.A., that this same man, Corporal Parker, had visited him in his office some months ago and that he had discussed the various events of the day with intelligent discernment and had been perfectly normal in manner.

While the reporter was with Dr. Stevenson in this room an order came up with tea for the two patients. This consisted of two pieces of bread and butter, two apricots, tea, and half a bowl of soup. Parker, who looked very emaciated, dished the apricots into the bowl and ate everything ravenously. The reporter told the doctor that he had never seen anyone so emaciated in his life and the doctor said another course was on its way up.

Reason for Conditions. So much for the observations. Now for explanations offered. The two doctors were frank in these. They stated that by virtue of great mental stress at the front the mental condition of the corporal had become such that his habits were filthy, that he would destroy everything in his sight, that he had destroyed at least a dozen mattresses during the past two months and that he destroyed a blanket at least every three days. He rendered the ordinary army bed useless by the same treatment and they did not know of any mode of dress which would keep him clothed for any length of time. This, they stated, explained the reason for the state of the room.

Dr. Stevenson stated that the hospital provided a type of continuous hammock warm baths in which patients suffering from mental depression (such as Corp. Parker) were placed to soothe their nerves. Parker's case was of the extreme type. While his mind was practically lifeless, his hands were constantly on the move and this accounted for the fact that although he ate ravenously (he received two eggs-nogs a day besides the regular rations) he was emaciated.

The dinners at the hospital, Dr. Stevenson said, were always meat, and plenty, and the other two meals, the not meat, were nourishing. The quiring among the men in town, the reporter found them all satisfied in this respect.

BUY BONDS. On the eve of the supreme allied war council's meeting at Versailles the allied armies in Belgium gained important advantages in a series of local attacks yesterday. The Belgians forced a passage of the Canal de Dervion de la Lys and captured Dainmen; the British captured German positions near Audenarde in the region northeast of Courtrai, taking 1000 prisoners, and the French also made local advances. The allies evidently plan operations against the German right flank in continuance of their enveloping movement. It may be necessary to apply forcible means of persuading German leaders to accept their pending conditions of armistice and of peace. Because Germany tries to anticipate events a little by crying "peace" the allies have no reason for diminishing their demands. Upon them falls the task of settling the affairs of Europe in so stable a manner as to prevent at least for many years the recurrence of a general European war.

NEW LEASIDE YARDS WILL SOON BE READY

Progress at the big national railway yards at Leaside has reached the stage where track-laying will commence early next week. There are about 15 miles of rails to lay but for the present only the important tracks necessary for the operation of the yards and shops will be started and rushed thru as the officials are anxious to move out of the Don Valley before the severe weather sets in.

The installation of boilers and machinery in the coach and engine repair shops is proceeding as well as other interior work.

General Diaz, the Italian commander-in-chief, having broken the Austrian front, retook the Austrians an armistice, having received Austrian delegates, while he is pushing his armies forward in an attempt to achieve a military decision. Since the Italians have broken the front of the Austrians in the region east of the Piave has become ragged and disorderly. The pursuing allies have crossed the Piave river and are bearing down on the Tagliamento. The Austrians are streaming down the mountain valleys in an attempt to reach the Tagliamento passes. The battle has also extended to the mountains in the north, especially the Asiago Plateau. An Italian attack in the Grappa region has resulted in the capture of the Asiago Plateau, the Solato salient, Mount Spononci Prassadola, Asolone, Cappile and Roncato. The taking of 50,000 prisoners and 200 guns in the early part of the battle gives promise that the allies are about to excel the victory of the enemy at Caporetto a year ago.

BUY BONDS. Austria, internally, has begun to show all the characteristics of defeat. Her railway service has broken down, the Slav population has risen in arms, the insurgents control Fiume, they have cut communications between Vienna and Berlin, the hitherto trodden lower classes of Hungary are rioting thruout the country, soldiers are deserting in shoals, are turning marauders, and are turning the nobility. The government at Vienna, or rather the personal representative of Emperor Charles, has notified Berlin that Austria can no longer continue in the war. The supreme allied war council at Versailles will probably today formulate conditions of peace for Austria. She may collapse at any moment from this time forth.

BUY BONDS. Turkey, by getting out of the war at the present time, has perhaps secured easier terms than she would otherwise have secured, for the her surrender is said to be unconditional, owing to its timeliness towards her. They at any rate, have secured the control of the Dardanelles and the Bosphorus, and so their fleet can sail up the straits into the Black Sea, and clear the German naval forces from this inland water. Turkey, by stepping down, has saved the allies the expense of an expedition to Constantinople. Her surrender is another convincing argument to the German people that Germany has lost the war. The tottering of Austria-Hungary is another convincing argument to the German people to cut their losses, hand over their criminal military and naval leaders for their punishment, and capitulate unconditionally.

The tottering of Austria-Hungary is another convincing argument to the German people to cut their losses, hand over their criminal military and naval leaders for their punishment, and capitulate unconditionally.

BUY BONDS. On the eve of the supreme allied war council's meeting at Versailles the allied armies in Belgium gained important advantages in a series of local attacks yesterday. The Belgians forced a passage of the Canal de Dervion de la Lys and captured Dainmen; the British captured German positions near Audenarde in the region northeast of Courtrai, taking 1000 prisoners, and the French also made local advances. The allies evidently plan operations against the German right flank in continuance of their enveloping movement. It may be necessary to apply forcible means of persuading German leaders to accept their pending conditions of armistice and of peace. Because Germany tries to anticipate events a little by crying "peace" the allies have no reason for diminishing their demands. Upon them falls the task of settling the affairs of Europe in so stable a manner as to prevent at least for many years the recurrence of a general European war.

NEW LEASIDE YARDS WILL SOON BE READY

Progress at the big national railway yards at Leaside has reached the stage where track-laying will commence early next week. There are about 15 miles of rails to lay but for the present only the important tracks necessary for the operation of the yards and shops will be started and rushed thru as the officials are anxious to move out of the Don Valley before the severe weather sets in.

The installation of boilers and machinery in the coach and engine repair shops is proceeding as well as other interior work.

BUY BONDS. WAR SUMMARY The Day's Events Reviewed

General Diaz, the Italian commander-in-chief, having broken the Austrian front, retook the Austrians an armistice, having received Austrian delegates, while he is pushing his armies forward in an attempt to achieve a military decision. Since the Italians have broken the front of the Austrians in the region east of the Piave has become ragged and disorderly. The pursuing allies have crossed the Piave river and are bearing down on the Tagliamento. The Austrians are streaming down the mountain valleys in an attempt to reach the Tagliamento passes. The battle has also extended to the mountains in the north, especially the Asiago Plateau. An Italian attack in the Grappa region has resulted in the capture of the Asiago Plateau, the Solato salient, Mount Spononci Prassadola, Asolone, Cappile and Roncato. The taking of 50,000 prisoners and 200 guns in the early part of the battle gives promise that the allies are about to excel the victory of the enemy at Caporetto a year ago.

BUY BONDS. Austria, internally, has begun to show all the characteristics of defeat. Her railway service has broken down, the Slav population has risen in arms, the insurgents control Fiume, they have cut communications between Vienna and Berlin, the hitherto trodden lower classes of Hungary are rioting thruout the country, soldiers are deserting in shoals, are turning marauders, and are turning the nobility. The government at Vienna, or rather the personal representative of Emperor Charles, has notified Berlin that Austria can no longer continue in the war. The supreme allied war council at Versailles will probably today formulate conditions of peace for Austria. She may collapse at any moment from this time forth.

BUY BONDS. Turkey, by getting out of the war at the present time, has perhaps secured easier terms than she would otherwise have secured, for the her surrender is said to be unconditional, owing to its timeliness towards her. They at any rate, have secured the control of the Dardanelles and the Bosphorus, and so their fleet can sail up the straits into the Black Sea, and clear the German naval forces from this inland water. Turkey, by stepping down, has saved the allies the expense of an expedition to Constantinople. Her surrender is another convincing argument to the German people that Germany has lost the war. The tottering of Austria-Hungary is another convincing argument to the German people to cut their losses, hand over their criminal military and naval leaders for their punishment, and capitulate unconditionally.

McDONALD GETS NEW RAILWAY APPOINTMENT

Appointment is announced of J. McDonald as assistant general passenger agent, eastern region, United States Railway Administration. Mr. McDonald is a Canadian, who started on the Grand Trunk, when a boy, at Port Huron, Ontario, selling the tickets out of that depot. He had considerable experience at the Buffalo, N. Y., office of the Grand Trunk, and returned to Toronto as district passenger agent of the Ontario lines in 1902. He was previously assistant general passenger agent of the railway at Chicago, having charge of the territory from Port Huron west to the United States Government, and over the operation of the western lines, which have been taken up with the Pere Marquette, Detroit and Mackinac, Bay City and Western lines, under Federal Management. Mr. McDonald has formerly been president of the Ontario Railway Association, and made assistant general passenger agent of all these lines, with headquarters at Chicago. Mr. McDonald is now in a transfer service to Canadian National Railway, where he has been appointed general passenger agent for the United States lines of the United States Railway Administration, is also a Canadian.

FOUNDED 1880. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited.

A Democratic Reform. By-elections westward are hailed by some as omens of what is to be expected after the war.

Republican members of congress have loyally supported the president in his war policy. That is true, and probably no one of them rendered more signal service than Mr. Kahn of California.

The present is a great opportunity to make this necessary reform. If it is missed those responsible will be the first to have cause for regret.

Among the great incidents of the war, with the reconstruction of the world which it has involved, many of the social and political changes already accepted are almost passed without notice.

Political Notes. Sir Wilfrid Laurier's birthday will be celebrated by a banquet at London, Ont., at which the Liberal leader is expected to deliver a notable address.

Some months ago the Laurier Liberals mapped out a plan for organization by districts, and London is the centre for western Ontario.

Is President Wilson Right?

President Wilson declares that a Democratic defeat at the congressional elections next Tuesday would be interpreted in other countries as a want-of-confidence vote in the Wilson administration.

There is a vast difference between the congressional general elections in the United States and the parliamentary general elections in Canada, Great Britain, France and every other country which has parliamentary institutions.

Republican members of congress have loyally supported the president in his war policy. That is true, and probably no one of them rendered more signal service than Mr. Kahn of California.

Mr. Wilson was elected as a Democrat and is the head of the Democratic party. The defeat of the president's party following upon the fierce personal denunciation of the president himself by Colonel Roosevelt and others, would be interpreted only one way by the great majority of people in the great majority of foreign nations.

Republican members of congress have loyally supported the president in his war policy. That is true, and probably no one of them rendered more signal service than Mr. Kahn of California.

secret that Mr. Fandee declined a portfolio before the Dominion election a year ago, and it is said on good authority that he again declined when the offer was renewed last August.

Something has seriously delayed the long-promised cabinet reconstruction on a fifty-fifty basis, and one reason is said to be the disinclination of many leading Liberals to enter the government, although they supported conscription at the last election.

Sir Wilfrid up to date has stored a middle course. He has stood by his faithful supporters and has given them a free hand in organization work, but he has been careful not to quarrel with or even speak harshly of the Liberals who parted company with him on the issue of conscription.

Then again these apartments would be absolutely ideal for the newly-married. Of course, they would not be all practical for people who have young children, and it might be an excellent idea to make it impossible for the owners to rent them to people with families larger than the apartments could comfortably accommodate.

It is to be hoped that the members of the council will not persist in mixing "tenements" with these three or four-roomed apartments because there is no similarity whatever, and at the same time try and remember that this situation is not being proposed for the benefit of every citizen in Toronto, but just a few who are probably the most needy.

THE WIFE

By JANE PHELPS

Mrs. Curtis Gossips With Clara Roberts About Brian.

CHAPTER LXXVII

Brian had flushed when Kenyon Roberts had asked him where the business college was situated. Had he not, Kenyon would have thought nothing of it as the locality was one in which such a school might well be located.

They had a really gay time while eating the rabbit and Ruth felt sure she was going to be very happy again now that she was at home. Once more she thought: "I will ask Mr. Mandel not to send me away offener than is absolutely necessary; and not for so long a time."

"I hope not! Altho I recall being favorably impressed with Miss King. She seemed a good sort." "I liked her, too! Mrs. Curtis said everyone always liked her; and that her friends were astonished when Brian married Ruth. He had been going with Mollie so long, they thought he was going to marry her."

"Have you a good teacher?" "Fretty fair, I guess." Had Ruth been looking, she would have seen him flush as he had when Kenyon Roberts had questioned him. "Man or woman?" Ruth was brushing her hair and did not look up as she put the query.

"A woman! What pretty hair you have, Ruth," adroitly Brian changed the subject. "Do you think so?" pleased at his compliment. "Of course I do! Did you have a good game tonight?" "Very! Clara won, and you know how pleased she is when she does win."

"Roberts tell you any news? Has he any more new clients?" Brian unconsciously was a bit jealous of Kenyon Roberts, yet he liked him. "No—but he thought it fine you were studying typing," again Ruth veered around to the subject. "He said he had taught himself, but that he did not type correctly, altho he made good-looking letters and briefs."

"I am learning the touch system." "He said he wished he had! That it was the thing to do." Again Brian changed the subject.

Girl Had St. Vitus' Dance

MOST remarkable results are being obtained from the use of Dr. Chase's Nerve Food in the treatment of children who suffer from ailments arising from thin, watery blood and exhausted nerves, such as rickets, St. Vitus' dance and convulsions.

This food cure is so natural and gentle in action and yet so potent in restoring nervous energy that weak, puny children soon show the benefits of its use.

Mrs. Jos. Parks and Daughter.

Mrs. Jos. Parks, 72 Picton street east, Hamilton, Ont., writes:—"Five years ago my little girl was taken ill with St. Vitus' dance, and for four years we doctored her, trying several doctors and different remedies without curing her. She could not walk or get around at all, and we had to feed her, as she was unable to hold a spoon in her hand. Her tongue was affected so that we could scarcely understand her when she talked. One day a friend of mine who knew of the benefits of Dr. Chase's Nerve Food advised me to give my little girl some. I acted upon her advice, and soon could notice a difference. She was quieting down and commenced to eat better. I continued the treatment for some time, and she gradually got stronger and healthier. She recovered from her nervous trouble and was able to get around nicely. We are very grateful to Dr. Chase's Nerve Food for the cure it effected for our daughter."

School life seems to take too much out of many children who are naturally nervous and easily worried and excited. For such there is nothing like this great nerve restorative to revitalize the depleted nerve cells and to bring back the color and robust health of childhood.

Women waiting on the booths in connection with the Victory Loan campaign are finding themselves hampered by the restrictions placed upon them in the matter of selling bonds. They feel, too, that they are not being given a chance to have a worthy share in one of the biggest patriotic things that Canada has done since the war.

At the first general meeting at which the women were given an insight into what was required from them, and at which their patriotism was appealed to in order that they might take over the booths, they were told that the chief mission of the booth was to distribute literature and create an atmosphere favorable to the sale of bonds.

Someone present asked if they might not sell bonds if anyone wanted to buy, and was told by all means that this might be done, the point being still emphasized that publicity was to be the first work of the booths.

They were forgotten. Even when permission was given to sell, bringing all their enthusiasm to bear upon their work, despite the fact that the success of sales was not seen to it, had in some cases, forgotten or neglected to have a booth or even a table set out to mark the place where the worker should take up her stand.

Even with conditions greatly against them some of the booths are making good sales—something evidently not approved by the general committee. The success of sales was not found in an afternoon paper of yesterday, which said, in reference to the subject:

"It is pointed out that the booths are for publicity purposes only. If any woman's organization seeks subscriptions it seriously interferes with the work of the men who are doing the canvassing. Understanding this it would not be playing the game for the women to ask men friends to give them their subscriptions."

Writes Long Letter.

Letters were sent yesterday to the heads of the booth stopping the sale of bonds, or at least the sale of a very small margin. In a letter covering nearly two pages and expressing all kinds of appreciation of the work the women are doing, Dr. Abbott came to the pit of his communication when he said that it was particularly desirable that the workers should not canvass their friends to buy at the booths, but that they should use their influence to induce people to buy from the canvasser that sold out "street" stalls. The reason of this, the letter explained, was that the arrangements of the organization, which has provided for the canvassing of every house and every business place, would be broken in upon.

A letter was also sent out by H. R. Tudhope in which he said that the point should be "stressed" that women should not sell outside their booths. The consequence of all this limitation is that initiative has been destroyed, and enthusiasm, while it has not been lost for the cause, is considerably minimized on the work in which the worker finds so little upon which to spend her time.

Why Waste Time? If bonds are not to be sold, think the women, why pile up their tables with bonds of every denomination, with instructions ad infinitum as to their disposal? The anxiety of the committee to keep the sales within the province of the men is giving rise to some

under any condition, nor for any consideration. We prefer not to make it at all, rather than do that. There is no substitute for CEETEE Underclothing—it is in a class by itself. No other underwear like it is being made in America.

But, owing to the Government regulations regarding wool, which allow a very small percentage for civilian purposes, also the scarcity of available ships, we are only able to supply about half the demand for Ceetee, which is made from finest Australian Merino Wool.

However, if our many friends are unable to secure their usual CEETEE Underclothing, we suggest that they try some other Turnbull brand. We guarantee it will give excellent satisfaction.

Turnbull's underwear in all sizes is sold by most good dealers, for men, women and children.

We have been making high quality woollen underclothing for over 60 years.

SOCIETY

Conducted by Mrs. Edmund Phillips.

Mrs. Allen Cope leaves shortly for England to assist Lady Drummond with Canadian Red Cross work.

Mr. McFarlane gave a luncheon of twelve covers yesterday in the royal suite at the King Edward. Col. Noel Marshall and Mr. Z. Lash, K.C., were among the guests.

Mrs. Frank Cochrane and Miss Edith Cochrane, who have been in Atlantic City, have returned to Ottawa.

The ladies of the Secours National entertained 74 officers and men of the French navy at luncheon in the Louis XIV room at the King Edward, giving each man socks, cigars, etc., before leaving.

Mr. and Mrs. Hellmuth have taken Mrs. Campbell's house in Rosedale for the winter, the latter leaving for her winter house in St. Augustine, Florida.

Mrs. Arthur L. Sifton, Ottawa, and Mrs. Euston Slaye, Calgary, have arrived at the King Edward.

The marriage of Miss Aileen De Vany to Captain Gagner, Royal Naval Air Service, assistant provost marshal to the British Mission in New York, will take place on Nov. 12 at St. Vincent de Paul Church, Toronto.

Captain Earl Willmot, Royal Air Force, is recovering from a broken leg in hospital in London.

FOR THE FRENCH.

The following cable has been sent to M. Poincare, president of France, by the chairman of the central council, Red Cross Society: "I have the honor to inform you that the Canadian Red Cross Society desires you to accept a gift of fifty thousand pounds, which sum they wish you to have expended for the benefit of the refugee men, women and children of France. The funds are being cabled to our commissioner in London with instructions forward to you."

CAN'T PUNISH SOLDIER WHO MAKES COMPLAINT

Statement Issued by Major-Gen. Logie, Explaining Procedure in Such Cases.

In view of certain anonymous letters recently published in the press by soldiers making complaints, Major-General Logie has issued a statement in respect of the privileges of soldiers in this regard. "No soldier cannot in any way be punished for making a complaint under the Army Act or the King's Regulations, whether it is frivolous or not, and he will not in making a complaint be treated in any way with harshness or oppression. These principles, military headquarters states, are well understood by every soldier, but not so well understood by civilians, and in order that all complaints, if not redressed, may be forwarded to headquarters for investigation, stringent instructions have been issued by the A.A.G. that this must be done by all ranks. Should an officer or soldier not have his complaint redressed or forwarded within a reasonable time, he has the right to forward it direct to these headquarters where the matter will be fully investigated by an officer specially detailed for this purpose. Any complaint, whether with regard to medical treatment or otherwise, will be investigated, and if well founded will be redressed. The officer who has been detailed for this duty is Lieut.-Col. F. C. McCordick, of the 19th Regiment, late officer commanding 15th Battalion King's Own Yorkshire Light Infantry, who is an overseas officer of long experience.

both in the Canadian army, where he commanded the 35th Battalion, and afterwards a training brigade, and in respect of his complaint not being redressed or in respect of any other matter, he may complain thereof to the prescribed general officer, and every officer to whom a complaint is made in pursuance of the section shall cause such complaint to be inquired into, and shall, if on inquiry he is satisfied of the justice of the complaint so made, take such steps as may be necessary for giving full redress to the complainant in respect of the matter complained of. The King's Regulations and Orders for the Canadian Militia, 1917, paragraph 414, provide the manner in which an officer or soldier should proceed in order to obtain redress for any grievance under which he conceives himself to be suffering.

NOTICE TO SOLDIERS ON HARVEST LEAVE.

Attention is directed to a recent announcement published in the Press by the Military Service Branch, Department of Justice, regarding extensions to be granted to men EXEMPTED AS FARMERS.

It is pointed out that this DOES NOT IN ANY WAY AFFECT MEN WHO HAVE BEEN ORDERED BY THE REGISTRAR TO REPORT TO DEPOT BATTALIONS and who have thereafter received leave of absence from the Military Authorities.

Once a man has been ordered to report for duty by the Registrar he leaves the jurisdiction of the Registrar and comes under that of the Department of Militia and Defence, and is to be considered as a soldier. This applies to men of the 20 to 22 Class who have been ordered to report by the Registrar in virtue of the cancellation of exemptions by Order-in-Council of the 20th April last, as well as to those ordered to report in the usual way on refusal of claim for exemption, or on expiration of exemption granted.

All men, accordingly, who have been ordered to report, and are therefore SOLDIERS, and who have subsequently been granted harvest leave by the military authorities, MUST, NOTWITHSTANDING THE NOTICE ABOVE REFERRED TO, REPORT ON THE EXPIRATION OF THAT LEAVE, unless they are notified the contrary by their Commanding Officer or by general notice published by the Department of Militia and Defence.

With a light run of cattle at the Union Stock Yards yesterday, about 500 head in all, and a fairly good demand, the alleys were pretty well cleaned up by noon, and the odds and ends which always accumulate by Thursday were bought up at the market.

There was little or no change in the prices, practically all grades holding steady at Wednesday's prices. There were no extra choice cattle on the market, and anything in the line of good butchers found ready sale. It is questionable if there has been a load of real good steers on the market all week, outside the heavy consignments of western cattle received by one or two of the big plants. The "club" for next week is generally regarded as being like that show heavy shipments, with steady prices.

of the commission men is that the trade takes all round in better shape this class, and they are wanted.

The run of lambs and sheep was 1550 the lambs selling a trifle stronger for the bulk or the offerings. No some better prices were paid. The sheep trade was \$1 to \$1.25, and the market for some of a week ago, and hard to sell.

RALLY BY DOME; OPHIR IS ACTIVE

Dome Closes Strong in New York—Ophir Resists Pressure Well.

A sharp rally in Dome and great activity in Ophir were the leading incidents in yesterday's mining market. Followers of mining stocks are keeping their gaze fixed upon Dome these days, and the announcement that a strong pull had been formed to operate in the stock on the New York market is no surprise, in the light of the manner in which the stock has been behaving of late.

Apparently an attempt was made to aggressive bear clique to depress the stock further, but this was resisted by the support of the market.

One of the topics discussed on the mining exchange yesterday was the taking over of the Penamint by the McIntyre Company, and its significance as to the value of the property.

Large Oil Shipments from Mosca District

Interest has waned somewhat on the new Glencoe oil district, but this is not justified by the records being made by the operating companies in the Mosca Township field.

ADANAC VEIN WIDENS

The latest report from the Adanac is that the new vein is now fully 24 inches wide, which immediately raises the value of the property.

RUMOR IS DENIED

The rumor in circulation yesterday that the McIntyre Corporation had thrown up its option on the Ophir Mine, Cobalt, was denied at night by Murray Alexander, managing director of the mine.

CONIAGAS' GOOD YEAR

The fiscal year of the Coniagas Mines Ltd., which ended yesterday, is understood to have been very profitable.

ELK LAKE WAKING UP

Increased activity at Elk Lake during the coming winter is expected, not only because of brisk operations in the lowlands and Matatchewan districts, but because greater attention is being paid Elk Lake's possibilities as a silver producer.
