## CO-SHARERS IN THE PAST SAYS EARL GREY OF CANADA-U.S. CO-PARTNERS OF FUTURE

### Governor-General's Cordial Message of International Good-Will as Delivered to Distinguished New York Gathering—Anglo-Saxon Co-Operation Bespeaks a Splendid Destiny.

New York, April 1.—There was a distinguished gathering at the dinner in honor of His Excellency Earl Grey, governor-general of Canada, by the Pilgrims of the United States, at the Waldorf-Astoria last night. There were about 400 seated at tables, decorated with vases of American Beauty roses and standards of American, British and Canadian flags. Individual standards were at each place. Behind the guests there were huge American and English flags, gracefully draped to hide almost the entire end of the room.

Morris K. Jesup, vice-president, in the absence of Bishop Potter, the president, opened the post-prandial part of the feast. He proposed a toast to the "President and the King," which was drunk standing, while the orchestra played "The Star Spangled Banner" and "God Save the King."

The boxes were filled with women spectators. Among them were Countess Grey and her party. Those at the guests table were: Mrs. K. Jesup, Earl Grey, Governor Higgins, Archbishop Farley, Horace Porter, Elihu Root, Joseph H. Choate, Hon. Sir F. W. Borden, Count Gleichen, Hon. Robert Shaw Oliver, Col. Hanbury Williams, Major-General Grant, Lieutenant-Governor Bruce, Dr. Weir Mitchell, ex-Mayor Low, Sir Caspar Purdon Clarke, Samuel Clemens, Rear Admiral Coghlan, J. G. Carlisle, George C. Holt, Major-General James F. Wade, Rev. H. M. McCracken, Controller Metz, Police Commissioner Bingham, Capt. F. E. Ryan, E. F. Darrell, St. George's Society Provost Charles C. H. Foster, Master Wilcox, Rev. J. Silverman, Dr. John H. Finley and Robert Fraser Murray, St. Andrew's Society.

Earl Grey arrived in company with his host, Joseph H. Choate. The other members of the Canadian party were: Lady Evelyn Grey (their daughter), Lady Alexandra Beauclerk (their niece, a sister of the Rev. St. Albans), Col. Hanbury Williams, military secretary, Sir Frederick W. Borden and Earl Grey's private secretary, Arthur F. Sladen. Mr. Choate presided. An invocation was delivered by Archbishop Farley. Shortly after a bugle blared, brought the formalities of the reception to a close, and the guests assembled in the grand ballroom. Mr. Jesup escorted the countess, and Mr. Choate and Elihu Root, secretary of state, came arm-in-arm.

### Flags Entwined.

The icons were in the form of Uncle Sam, Johnnie Bull and other figures emblematic of the two countries. The women in procession carried them around the room while the diners cheered.

The tables were decorated with sprays of trailing arbutus, the first flowers to bloom in the north, which they landed at Plymouth Rock, while, to add to the international aspect of the dinner, stands of small British tables. Among the other guests were Governor Higgins, General Horace Porter, Lieut-Governor Bruce, Sir Caspar Purdon Clarke and Samuel L. Clemens. The following letter was received from President Roosevelt:

"White House, Washington.  
The president regrets his inability to accept the dinner of the Pilgrims of the United States."

Lord Roberts sent this cablegram: "Warmest greetings. Hope to welcome American Pilgrims in London, May 29. (Signed) Roberts."

Bishop Potter, president of the American Pilgrims, sent a letter from Rome, expressing regret that he could not attend the dinner of the Pilgrims of the United States.

The toast, "The President and the King," was drunk standing, while the orchestra played "The Star Spangled Banner" and "God Save the King."

Incident of the War.  
In introducing Earl Grey, Mr. Clate said: "It was a remote ancestor of his—his great-grandfather, Major-General Charles Grey, who became the first earl—that I wish to speak of, because his experience in America furnishes us with an incident which ought to give satisfaction to all American people. Sir Charles was in possession of Franklin's home in Philadelphia at one time during the revolutionary war. In the confusion of their departure, a fine portrait of Franklin disappeared. Franklin himself was in Paris, forming that conquering alliance with France. I suppose the British regarded the picture as a suitable capture, since they could not get him. How the picture got free of England no body can tell, but it came into the first Lord Grey's possession, and has hung for 130 years in the Grey ancestral hall as a precious heirloom. Now Lord Grey, in full recognition of the desire for harmony and friendship, has decided to restore to the United States as a free-will offering this portrait, and a month ago he wrote to President Roosevelt, making the formal presentation. It is hoped that the portrait will reach Philadelphia in time for the celebration there next month."

Earl Grey said in part: "I recognize the distinguished compliment you have paid to me as not a compliment to me personally, but a compliment which, out of the fulness of the heart, you are glad to pay."

ONE CENT

### COAL STRIKE BEGINS TO-DAY WITH 400,000 MEN REFUSING WORK

### America's Coal Production Will Have Practically Ceased—What the Future May Bring.

ENCOURAGING.

Pittsburg, April 1.—Despatches from the west indicate tonight indicate almost a general announcement from the operators of Western Pennsylvania to pay the miners the advance of 33 1/2 per cent called for in the restoration of the scale of 1903. With notices posted at the majority of the mines, announcing the granting of the scale the strike in the soft coal field has lost the threatening aspect that has surrounded it since January.

Indianapolis, April 1.—With the dawn of Monday morning America will witness the beginning of the greatest industrial strike in its history. Official orders already have been issued, which in effect will close the coal mines of the country.

Of the 600,000 men employed in and around the coal mines in the United States approximately 400,000 will refuse to enter the shafts. About one-half of the remaining number will report for duty, only to perform such labor as will prevent a destruction of property. The actual production of coal practically will be stopped.

Minimized as the effects of the suspension have been by the decision of the United Mine Workers of America to work for any mine owner who is willing to pay the scale of wages in force in 1903, still the struggle is stupendous in its proportions. Especially is this true in the anthracite fields and in Western Pennsylvania and the Hocking Valley in Ohio, where the nature of the coal permits of its storage for months without appreciating in value to any extent.

In the west, especially in Illinois, the nature of the coal does not permit of its being stored for any length of time except at an immense loss to the owner. In sixty days the coal will lose 40 per cent in value because of the amount of "slack" produced by climatic exposure. It is probable, therefore, that the campaign against the strike, was arrested late last night for an attempt is made to run cars.

Louis Christman, the Chicago professional strike-breaker, supported by the company, was arrested late last night for an attempt is made to run cars. The conditions in the anthracite and the bituminous fields of the country show little similarity. In the bituminous fields the operators generally are on friendly terms with the United Mine Workers. The union organization is

## FATAL AMATEUR DOCTORING ONE DEAD; ONE DYING USED FREE SAMPLE

### Headache Powders Blamed for One Fatality and Too Powerful Cathartic Brings Young Man to Critical Condition.

On Friday, a coroner's jury at Cobourg declared that the death of a citizen there had been owing to his indulgence in headache powders, and a special despatch to The World last night from Belleville says: "A young man, Herbert Greatrix, about 24 years of age, is dying in the hospital here, as the result, it is alleged, of taking patent medicine, which had been distributed in free samples around the streets. It is said the young man had always been fond of taking medicine, and that on Wednesday last, having gotten hold of a free sample, which professed to be cathartic, he took a dose of it. On Thursday morning he suddenly stopped, and the bowels remained obstinately closed. On Friday a doctor was called in, and the young man had been seized with violent cramps and vomiting. No relief could be given him, and on Saturday, he was taken to the hospital and an operation was performed this (Sunday) morning, when it was found that he was suffering with a rupture of the bowels, caused by the violent diarrhoea. At present the doctors hold out no hope for his recovery. The unfortunate young man is the son of a G.T.R. engineer of this city."

### Amateur doctoring is one of the greatest evils existing. There is no doubt that the habitual use of drugs is the cause of a great deal of ill-health. No drug is of any use unless it is dangerous, and the ordinary man is incapable of deciding when he requires a drug," are the views of Provincial Analyst Dr. W. H. Ellis, who declined to make analysis of headache powder sent him. He is believed to have caused the death of James Roddick of Cobourg.

Commenting on the verdict of Dr. Elliott's jury, which Major J. W. Odell was foreman, which stated an overdose of acetanilide had brought about the fatal results, Dr. Ellis said the case was a most instructive one. "It is very unlikely that anyone could kill himself by following the instructions of the makers of headache powder," said Dr. Ellis. He spoke of the death of Roddick as a curious case. How he obtained the overdose Mr. Ellis wasn't aware. So far as could be learned he had only taken three powders, which should certainly not have a fatal outcome.

### GEN. MERRITT GETS PLACE.

Will Become Collector of Customs at Niagara Falls, N. Y.

Niagara Falls, N. Y., April 1.—(Special.)—The new collector of customs for the port of Suspension Bridge (Niagara Falls), to succeed the late James Low, will be General John A. Merritt, the present postmaster of the City of Washington, D. C.

When sent to-day at his old home in Lockport, N. Y., Gen. Merritt stated that the matter had been arranged with Congressman Wadsworth. The nomination will be sent to the senate shortly.

Gen. Merritt was third assistant postmaster-general during McKinley's first term. He has been postmaster at Washington the past five years. He has been the leader of the Republican party in Niagara County for the past twenty years.

## WINNIPEG PASTOR CALLED TO WALMER ROAD PULPIT

### Rev. John McNeill to Be Asked, So Congregation Decides, and Will Likely Accept.

Rev. John J. McNeill, B.A., one of the finest orators in the west, is likely to accept the pastorate of Walmer-road Baptist Church, left vacant by the resignation of Rev. Oliver C. Horsman.

At a meeting last night, when the committee decided that he was the desirable man. His views on the matter were ascertained and communicated to the congregation last night, when, at one of the largest meetings in the church's history, it was unanimously decided to extend a call. Rev. Mr. McNeill has been in Winnipeg seven years, and he feels now that his usefulness there is limited. In addition to that, he wishes to continue a course of theological studies, which can only be obtained at a denominational headquarters like Toronto.

He is 31 years of age and has a number of brilliant successes to his credit. He was one of the followers of Rev. Charles A. Eaton. After Dr. Eaton's departure from Toronto, he occupied the pulpit of the First Baptist Church for a year and a half. From this church he went to the First Baptist Church of Winnipeg. He felt that the world, so he was sent by his church on a tour around the world lasting over a year. During that time he preached in Rev. John MacLaren's Church of Manchester, England, and in Sydney, Australia. In both of these places he received great attention. Since his return he has made his influence felt in Winnipeg theological circles.

He is undoubtedly one of the most successful men in a successful province. His discourses are forceful and to the point. He is fearless and open-handed. The two discourses given before the Baptist Church were most successful. He is largely an extempore speaker.

## FAST DRIVER KILLS 2 WOMEN DRIVER SPEEDS ON HIS WAY

### In Spite of Authorities' Activity, Tragedy Occurs—Boy Killed in New York.

New York, April 1.—A large number of automobile accidents were reported in this city and suburbs to-day, the most serious resulting in the death of a six-year-old boy in Sixty-fifth-street, the killing of an elderly woman in New Rochelle, and the fatal injuring of another. The boy killed was Frederick Cullman, a son of Wm. Cullman, assistant treasurer of the Metropolitan Opera House. The woman was Mrs. Alvin Steinhilber, of St. Louis, Mo., who was killed, and Mrs. George J. Kuchler, a resident of the village, who will probably die. Mrs. Steinhilber had come to attend the celebration of her sister's 73rd birthday anniversary.

The women were walking in the road. The automobile in which were riding two men and three women. Mrs. Steinhilber and Mrs. Kuchler were hurriedly carried to a hospital. Mrs. Kuchler's skull was fractured and she suffered serious internal injuries. Mrs. Steinhilber's left arm was broken and she also suffered internal hurts.

The automobile was brought to a standstill. One of the men alighted. He was seen to run back, take a hurried look at the prostrate forms and then hurriedly entered the machine and was driven away at a rapid rate.

For several Sundays past the village authorities of New Rochelle have endeavored to curb the fast driving of automobiles thru the streets. Today ten persons were arrested and fined. In addition three of the more reckless drivers were held for further examination.

The death of young Cullman was witnessed by his father and mother. The chauffeur, Harry D. Graff, was who were seated at their front windows watching the boy and several companions at play in the street. An automobile approached at a moderate speed and the boy tried to cross the street in front of it.

The chauffeur turned the machine sharply but one of the lamps struck the lad and he fell to the ground. Quickly regaining his feet, he started for the sidewalk, but sank down to the pavement.

Parents Acquaint Chauffeur.  
When taken into his parents' home he was dead. There was no mark or abrasion on the body and an autopsy will have to be held to ascertain the exact cause of death.

## COMPANY TO DECIDE TO-DAY IF WAR WILL BE BITTER

### Latest Proposition of the Men Makes It Appear Truce Will Be Arranged.

Winnipeg, April 1.—(Special.)—The city to-day assumed its normal condition after the stormy scenes of three days. The soldiers were relieved from service last night. The company has announced that it will decide at a meeting in the morning as to whether it is willing to accept the men's demands, now that they have agreed not to ask for recognition of the union.

Ralph Connor and Principal Patrick presented the men's latest proposition to the company Saturday evening, holding a session until nearly midnight. The men or to arrange, across even more violent than those of last week will be enacted if an attempt is made to run cars.

Louis Christman, the Chicago professional strike-breaker, supported by the company, was arrested late last night for an attempt is made to run cars. The conditions in the anthracite and the bituminous fields of the country show little similarity. In the bituminous fields the operators generally are on friendly terms with the United Mine Workers. The union organization is

### DEATHS.

HARKER—On Saturday, March 31st, at 50 Bouverie-street, Pauline, daughter of the late John Jefferson Barker, aged 15 years. Funeral from above address on Monday, April 2nd, at 2:30 o'clock, to St. James' Cemetery.

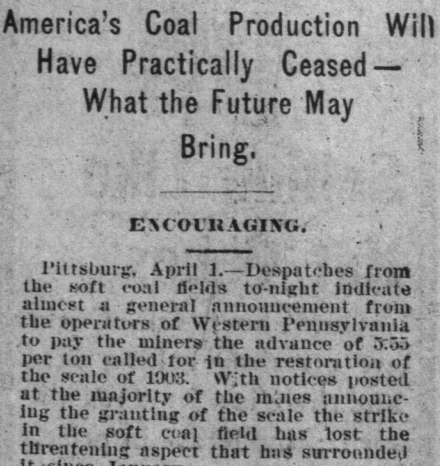

DANNY—Suddenly, at his residence, 39 Mercer-street, Toronto, on Saturday, the 31st March, 1906, William John Dandy, aged 54 years.

Fernal on Monday, the 2nd April, at 2:30 o'clock. Interment in Mount Pleasant Cemetery.

GREEN—At London, Ont., on Thursday, March 29th, 1906, Charles HezGoetz Green, aged 45 years.

HEYDON—On Sunday, April 1st, 1906, at 38 Rhoades-street, Francis Wilfrid Thomas, beloved child of Francis and Annie Heydon, aged 5 months.

FUNERAL TUESDAY, APRIL 3RD, AT 3 P.M. TO MOUNT PLEASANT CEMETERY.

Encouraging. Pittsburgh, April 1.—Despatches from the west indicate tonight indicate almost a general announcement from the operators of Western Pennsylvania to pay the miners the advance of 33 1/2 per cent called for in the restoration of the scale of 1903. LEAGUE OF FRONTIERSMEN HAS A PATRIOTIC OBJECT

League of Daring Spirits of Title and Fame Who Aim to Protect Empire.

London, March 31.—The Legion of Frontiersmen has now come into existence, with head offices in the Adelphi.

Probably no organization in the world possesses the elements of romance in so great a degree as this new legion. Its object is wholly patriotic and its members are associated for the promotion of imperial interests in time of peace and for imperial defence in time of war.

The official definition of the term "frontiersman" states it "includes men trained and qualified by previous completed military service, or by working, hunting or fighting in wild countries or at sea, or who for various reasons do not or cannot serve in the existing military forces of the empire, and who are not prepared by reason of temperamental weakness to submit themselves to the ordinary routine of military discipline except in the time of war."

Under such conditions the legion has already gathered into its ranks men whose collective adventures in all parts of the world would, if set down on paper, make more thrilling and absorbing reading than any volume of fact or fiction ever published.

The general council consists of experts, financial, military, judicial, and representatives of all vocations, of the wilderness and of the sea. The chairman is the Earl of Lonsdale, who himself has had experience in the field to the lot of few men, his collection of hunting trophies at Lower Castle being supposed to be the finest in the kingdom.

The chairman of the executive council, Sir Henry Seton-Karr, is a famous big game hunter and was one of the pioneers of the sport in Wyoming at a time when he was liable himself to be hunted by redskins.

M. H. De Horta's career furnishes one of the most remarkable stories of the present age. One of his exploits was the cutting out of the battleship Huescar from Peru, but that is by no means the most exciting of his adventures.

Have Many Vocations. Captain Walter Kirton has been a prospector, gold miner, engineer, guide, scout, hunter, seaman, correspondent and a soldier.

The founder of the legion, Roger Pocock, has the extraordinary record of having held thirty different vocations in his highly adventurous life, including those of trooper, cowboy, seaman with the Yokohama pirates and captain of a pack train and scout.

Morley Roberts, the distinguished novelist, is another member of the legion. He was a sailor the greater portion of his life and left the merchant service as a master mariner.

Two of the greatest journeys of recent times were those made by Captain De Windt and Captain E. S. St. Grogan, both of whom are in the legion.

R. Bowman Ballantyne is an old cowboy and a South American explorer whose name is known in Canada. He is the hero of remarkable exploits of which he has tamed the fighting tribes of Western Canada without fighting.

War Office Approves. General Sir Reginald Hart, Sir John French, Sir Edward Blythe, Sir B. H. Brabant, Admiral Prince Louis of Battenberg, Admiral Sir Edward Scott, Sir A. Conan Doyle, Rider Haggard and Sir Claude Crepsigny are a few who are aiding the legion.

The war office has recognized the value of such organization to the empire and has given its approval, and already it is stated that correspondence has elicited the fact that there are good men in different parts of the empire who are ready to enroll themselves in the legion.

OHIO INHERITANCE TAX KILLED. Columbus, Ohio, March 31.—The inheritance tax law has been repealed. Representative Bagless to-day moved that the Beatty repeal bill from the senate be taken out of its regular order. This was done, and the law was repealed by a vote of 30 to 20. The income from the tax was \$375,000 a year.

SHOTS HIMSELF. North Bay, March 31.—Levi Trevilian, formerly locomotive engineer on the G. T. R., running out of Allanvale, who was discharged from the force about a year ago, shot himself in his room at Donovan's boarding house here this afternoon.

Banquet to Herbert L. Clarke. The banquet tendered to Herbert L. Clarke by his old friends in Toronto at McConkey's on Saturday evening was enjoyable. A short musical program was rendered by Bert Harvey, Donald McGregor, George Smedley and others, all guests and friends of Mr. Clarke. Speeches followed in honor and praise of the guest of the evening, given by gentlemen representing associations formed during the years of Mr. Clarke's life in Toronto.

Ten Fires Every Day. London, March 31.—Ten fires daily were approximately last year's average in London, according to the annual report of the fire brigades, issued to-day. Out of a total of upward of 3500 fires, however, only 64 are classified as serious. Exactly 100 lives were lost during the year. The total insurance on property in the metropolis is \$5,115,297,350, while the expenditure for the fire brigade is \$1,575,000.

Get My Free Book—Rheumatism. It tells about Rheumatism, about the causes, the way to live to avoid it, and the symptoms of rheumatism—eases in desperate cases—with DR. SHOOP'S RHEUMATIC TABLETS. Sold by Dr. Shoop, 100 King St. W., Toronto.

300 YONGE STREET

CANADIAN SECTION REPORT MAY PROVE DRSITIC FACTORY

Joint Commission on Niagara River Affairs Will Thresh It Out April 26.

Buffalo, April 1.—(Special).—A meeting of the international waterways commission will be held in Buffalo on April 26 to agree on a joint report to be submitted to the American and Canadian governments relative to the use of water at Niagara Falls for power purposes and matters at the Soo will, perhaps, also be considered.

The American contingent has already submitted a report to congress in which it advised that the secretary of war be empowered to limit the amount of water taken from the American falls to 35,000 cubic feet per second for the next two years, after which the limitation remain a permanent law, provided that the Canadian government in the interim adopts a law limiting the amount of water taken from its side of the river to 36,000 cubic feet per second.

It is understood that on the other side of the river the Canadian government has not yet made public. It is intimated, however, that this report will prove satisfactory to the American commissioners for the reason that it suggests that it will be better for the Canadian government to limit the effect of the water under construction on its side of the river at the falls is shown before taking any action. It is claimed that the power company in Canada will not work injury to the American falls anyway, as in no case is water drawn from above the rapids. The Ontario Power Company gets its supply at the crest of the rapids and the other Canadian companies draw from below the crest.

The commissioners from both sides are anxious to preserve the beauty of the falls there is a disposition on the Canadian side to utilize to the full extent possible the vast volume of water passing over the Horseshoe Falls and a tinge of jealousy perhaps makes them wary of accepting any suggestion from this side as to the limitation on the amount of water which they should withdraw from the river.

The Soo controversy consists in trying to have the Canadian power company there control the water as those on the American side, so that for all water withdrawn from Saint Mary's River above the rapids, a corresponding check will be maintained on the water passing thru the rapids to preserve the levels of Lake Superior.

OPERATION IN AMBULANCE. Surgeon Amputates Girl's Leg While Driving to Hospital, Saving Life

New York, March 31.—While an ambulance sped for two miles over paved streets as fast as a horse could haul it, a Lebanon Hospital surgeon hauled it to an amputated leg of 4-year-old Lizette McGilroy, and probably saved the child's life.

The little girl had been run over by a street car and her leg terribly mangled. When the surgeon arrived he was unable to stop the flow of blood. He started for the hospital at full speed.

It became apparent shortly after the start was made that the child would bleed to death unless he acted without an instant's delay, as it was impossible to check the flow of blood from the lacerated limb.

The operation was performed, and the flow of blood checked, before the hospital was reached. The doctors believe the child has a fair chance of recovery.

UNREQUIRED AFFECTION. Leads an Owen Sound Lass to End Her Life

Owen Sound, March 31.—Miss Kate Boyd, a daughter of J. L. Boyd, ex-councillor of Sydenham, committed suicide Friday night by taking poison. She left a note reading, "Not to blame anyone. The cause of the rash act is said to have been unrequited affections."

HUDSON BAY SPRING SALES. London Financial News: Hudson Bay shares were largely bought during the week, and, also a large number of shares came on the market at various periods, they were quickly absorbed. In many quarters it is wrongly assumed that Hudson Bay shares are being bought on a speculative scheme. This is not the case, as influential Canadian circles such as a scheme is not altogether welcome. The steady demand for land and its steadily advance in price is quite sufficient reasons to account for the dealings in these shares. The question, which has been somewhat debated lately, as to whether the spring sales of shares will realize the \$300,000 predicted for them—a prediction attributed by the way to the Hon. Jefferson M. Levy—will begin to-day (Monday), and will conclude on Thursday evening. The March sales are always the most important, and this year the company's bill of sale contains particulars of 253,775 skins, as against 176,289 in 1905, an increase of 77,486. In regard to this year's sales, a correspondent writes: "As a result of a very accurate forecast it may be said that the Hudson Bay for sales for the season, from January 1 last to Thursday next, will total approximately, \$380,000."

'TAY PAY' TO FOUND MAGAZINE. Thomas Power O'Connor quits Post to Establish a Weekly.

London, March 31.—Thomas Power O'Connor (Tay Pay), long a member of parliament and a brilliant writer, announces that he is about to sever his connection with M. A. P. (Mainly About People), a weekly literary publication which he started eight years ago in conjunction with C. Arthur Pearson, in order to establish another periodical on the same lines as the entitled T. P. O.—his initials transposed. M. A. P. has a large circulation, and nets a profit of about \$50,000 a year. O'Connor will continue T. P. O. Weekly, which also is highly successful, but papers subsisting mainly on personality. His versatile editor says that he writes about 250,000 words annually—equivalent to several volumes—and regrets that his magazine preoccupations have prevented him from carrying out many literary projects.

Early Morning Fire. At 2:15 a.m. Sunday, fire, caused unknown, did \$400 damage at 1182 West Queen-street.

When you want BLACK ink, you don't say "a spoon of ink." When you want Windsor Table Salt, say—"WINDSOR."

THE WM. BLACKLEY CO Wholesale Millinery 25-30 WELLINGTON STREET WEST TORONTO.

W. H. STONE UNDERTAKER 32 Carlton St. Telephone N955.

TRAIN BROKEN TO PIECES. Chicago and Florida Special overturned, but no one killed.

Macon, Ga., March 31.—The south-bound Chicago and Florida special of the Southern Railway, Atlanta to Macon, was derailed at Holton to-day, dragged into a ditch and broken to pieces. All but the engine and dining-car were overturned. No one was killed, but Will Smith, the negro porter, was hurt so badly that he will not live. The railway officials are unable to explain the cause of the accident, which occurred at a curve.

OKENITE'S OXNARD STAKES KASSIL ON THE CHASE

Tom Cogan Outside the Money—Results at New Orleans Tracks and Entries for Monday.

Washington, D. C., March 31.—In a cold, penetrating rain, followed by a driving snowfall, the races were run to-day at Benning.

The Oxnard Dinner stakes for 2-year-olds, at 4 1/2 furlongs.

Eleven colts faced the barrier. August Belmont's favorite, Okenite, was at all times the favorite.

In the fifth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the sixth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the seventh race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the eighth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the ninth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the tenth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the eleventh race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the twelfth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the thirteenth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the fourteenth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the fifteenth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the sixteenth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the seventeenth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the eighteenth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the nineteenth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the twentieth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the twenty-first race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the twenty-second race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the twenty-third race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the twenty-fourth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the twenty-fifth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the twenty-sixth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the twenty-seventh race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the twenty-eighth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

In the twenty-ninth race, for the Potomac purse, Ben Hodder opened as favorite at 4 to 5, but Lackey was so heavily supported that his odds fell from 3 to 6 to 5 at post time.

9 FILING CABINETS SATURDAY EVENING

Baldwin, Christie, Walsh, Holt, Daly, Baker, McKenzie, Abley and White Won.

For those whose business does not warrant the expenditure of much money for filing cabinets, the famous "Macey" line includes a series which, for value, are absolutely beyond the reach of competition.

Made of solid quarter oak in sections of uniform size—26 1/2 inches wide, 15 1/2 inches deep and 12 inches high, they include every kind of filing device.

For instance, the 2-drawer vertical file section sells at \$9.00; a 6-drawer flat letter file \$6.00; a 4-drawer card index section \$4.95; a storage or electro section \$7.40, etc.—Bases and top cost \$1.80 and \$2.25 respectively.

If low prices and good goods interest you, be sure to see this line—Sold only at

CITY HALL SQUARE

GAMES AT WEST END Y.M.C.A.

Boys and Girls Have Busy Day at Basketball-Swimming Events.

These are busy days at the West End Y.M.C.A., as the season for the indoor work is being ended, and the various contests of the season close.

Every day there is a final for some event or other in one of the various classes.

Saturday was an especially big day of basketball in the afternoon, the program for school boys and girls in the west end was run off very successfully.

Queen Victoria girls won from the divines-street girls in a very clever game, well played on both sides, the former winning by the better goal-throwing and greater amount of combination play used.

In the tug-of-war for the schools, Ryerson, Queen Victoria and Glen won, and the semi-finals, in which Queen Victoria won after a good pull in the first, but rather easily in the second trial, Crawford and Gladstone also pulled.

The game between the Stratford and West End boys was a splendid affair, and was the event of the afternoon. Those who failed to see this game missed the best of the season, and the rapid combination, and the management of both sides were well pleased with the affair from start to finish.

The C.A.A. been on hand throughout the season, and have been very helpful in all matters connected with the C.A.A. work.

REFORMING RUGBY FOOTBALL

American Intercollegiate Committee Adopts New Playing Rules.

New York, March 31.—The American Intercollegiate Football Rules Committee, a consolidation of the old football rules committee and the representatives of colleges who attended the recent conference on football reform, meeting here, finally adopted today the new playing rules for 1906.

The committee has attempted to open the game wherever possible and to eliminate unnecessary roughness and brutality. At the same time, it has striven to retain some semblance of the game as it has been played in this country during the past several years.

One of the principal changes doubles the distance to be gained on a play, from ten yards now being required of the team on the offense, instead of five, as heretofore. Forward passes are to be allowed, whenever a forward pass crosses the goal line it shall count as a touch back.

Reforms in methods of tackling, holding and interference have been provided, and the penalties for fouls have been stiffened. Reforms in methods of tackling, holding and interference have been provided, and the penalties for fouls have been stiffened.

EARL GREY'S PILGRIMAGE

Aspirations after peace and concord, and the language of compliment are common enough at international social functions. Sometimes they are but pieces of periscope veiling antipathies and prejudices which, at the moment, it is convenient to ignore.

Which again means that if the British investor staked his money on Niagara power without being given bonus stock (probably he never heard of it), the Canadian investor should have been in the same position; the consumer shouldn't be compelled to pay dearly for electricity in order to pay dividends on unnecessary and parasitical stock.

Which is the quickest and best commercial route from civilization to Hudson Bay? The plebeian wealth of that inland sea must, as far as possible, be reserved for Canadian use. The schemes for direct communication between Ontario and the Bay are of enormous importance to the Dominion at large.

Of the arch thus symbolized, Canada will be the keystone, if she is true to the faith which is in her.

AT \$9 PER HORSEPOWER

A unique municipal deputations will see Premier Whitney on Wednesday week to urge him to take immediate and final action to secure to the municipalities of Ontario cheap Niagara-developed electrical power.

The deputations will have an unanswerable case. The public opinion behind them is so strong that the government will surely welcome the impulsion which the civic leaders of the province wish to supply.

After all the government will not be asked to act without being abundantly supplied with light and leading. The commissions which have sat for so long upon the power prob-

lem have threshed out every phase of it, with the assistance of the ablest experts who could be procured. Both commissions know their own minds, and feel their feet upon absolutely firm ground.

The statement of the Hon. Adam Beck to the Toronto board of trade last week that power can be supplied by the developing companies at Niagara for \$12 per horse power, is more than corroborated by a letter from a Niagara, published in The World this morning, who quotes an advertisement issued by his city to the effect that arrangements have been made to buy, for a period of twenty years, power at \$10 per horse power.

The primary benefit to Ontario might be that a port of problematical dimensions would arise near Fort Albany, and the fish trade, plus the mineral commerce which might also be developed, would give to the northern boundary of this province a population and wealth which it otherwise could not possess.

The argument for a direct route from the Arctic Circle to Chicago is that, in any case, the population of Ontario which could be served with Hudson Bay fish will not be large enough to consume a sufficient quantity of that edible to pay for a railroad; whereas, by making the direct communication with United States territory, there is immediately within commercial reach a population already of 30,000,000 people, to whom fresh fish is at present a costly luxury.

Col. Harvey and those who are associated with him do not propose to build an expensive railroad at the beginning. The great desideratum is to establish communication with the Bay at the least possible cost, and to improve the transportation as the trade provides the means.

Here, then, is a scheme which has many appearances of feasibility, and which the Ontario government may soon be invited to support. It may cause other parties interested in lines of communication with Hudson Bay to hurry up their plans.

WHOSE CANADA LIFE'S SHARES? The Armstrong investigation committee's report to the New York legislature contains, among other things, the following in reference to the Mutual Reserve, for whom Mr. Langmuir is trustee:

"The company has been involved in many difficulties by reason of the fact that it has with unsound and insufficient rates its policies were ambiguous and misleading, and its right to increase assessments was hidden in obscure phrases. The increasing cost of insurance as age advanced and the absolute necessity of providing funds adequate to pay claims were ignored, either thru design or lack of information. The subsequent efforts of the company to readjust its rates have embodied in obscure, and often contradictory, policy provisions, which had been led to believe not only that their rates would remain constant, but that they would have the advantage of large accumulations."

HUDSON BAY FOR THE YANKEE?

This company will have to come on the stand. It will have to be ascertained whether the assertions of the Armstrong committee about its New York business apply to Canada. A pretty thing it will be, if the commission, in reporting upon each company doing business in Canada, should feel compelled to condemn the Mutual Reserve as strongly as the Armstrong committee has done, and should have to say: "Mr. Langmuir, one of the trustees in Canada for this reprehensible company, is of vital importance."

Then Mr. Langmuir's third disqualification arises from the holding of \$20,000 of Canada Life stock by the company of which he is managing director. In order to make it easy for Mr. Langmuir to give the public details of this matter, it may be as well to say that in financial circles the current report is that this stock is held by the Toronto and General Trusts Corporation for Senator Cox. We may be told that in this case also Mr. Langmuir has no personal interest in the matter.

Well, first, the Mutual Reserve funds in Canada are vested in him because he is chief executive officer of a trust company. His company also has \$20,000 worth of Canada Life stock vested in it. He has no personal interest in either matter!!! Where does

west. Except in very few places, large steamers can travel from James Bay right up to where the rail line would strike the river. The fishing vessels, which would draw their harvest of unsurpassed quality from the clear, cold waters of the north, could unload into refrigerator cars at the mouth of the Albany, which would be taken on big boats up to the railroad; hauled over the line to a new harbor opposite Slate Island, and near Black River, the existing station on the C. P. R.; transferred to other steamers, ferried 150 miles across the lake; put on another railroad, and, within ten hours, be delivered in Chicago.

By which it seems that Col. Harvey's scheme means tapping Hudson Bay for the modest American. The primary benefit to Ontario might be that a port of problematical dimensions would arise near Fort Albany, and the fish trade, plus the mineral commerce which might also be developed, would give to the northern boundary of this province a population and wealth which it otherwise could not possess.

The argument for a direct route from the Arctic Circle to Chicago is that, in any case, the population of Ontario which could be served with Hudson Bay fish will not be large enough to consume a sufficient quantity of that edible to pay for a railroad; whereas, by making the direct communication with United States territory, there is immediately within commercial reach a population already of 30,000,000 people, to whom fresh fish is at present a costly luxury.

Holt, Renfrew & Co. 5 King St. East.

Mr. Langmuir's personal interest in his daily business, come in? Persons whose affairs are entrusted to Mr. Langmuir's company will quickly want to know whether all its trusteeships are without personal responsibility and interest to the managing director, who is understood to be the brains of the concern.

When is a trustee not a trustee? Apparently, when he is Mr. Langmuir. We have it on the authority of counsel for the Dominion, counsel for the Ontario policyholders, and of the gentleman himself.

Which ought to be satisfactory. But it is not. Mr. Langmuir is a courageous man. The trepidation which affects other mortals is alien to his hardy spirit. Edmund Burke once wrote, "I own that being a judge in my own cause makes me afraid." Who's afraid? Burke might have been; but we live among more valiant men.

BRITISH GOVERNMENT WEAKNESS

Already the disproportionate parliamentary majority which the curious electoral division of the United Kingdom enabled the British Liberal party to compile, is showing symptoms of disintegration. This was inevitable, so much on account of its size as of its heterogeneous character. United so far as Great Britain itself was concerned only by opposition to Mr. Chamberlain's proposals, and drawing support from the Irish Nationalists, who had their own axe to grind, no real bond of constructive policy existed.

The conflict between the Radical and Imperialist sections of the ministerial party began over the vexed question of Chinese labor in South Africa, an issue provocative of greater bitterness than has been displayed in the British political field for at least a generation. It is clear that the extreme spirits would have had it been possible, revoked the ordinances and shipped the yellow contingent back to their native home.

A more serious conflict within the cabinet seems to have occurred over the bill amending the law relating to trades unions. The main point demanded by the unions was the immunity of all their funds from liability for damages for acts done in support of strikes. This was consequent on the decision of the courts in the Taff-Vale railway litigation, which entirely altered the assumption on which the trades unions had proceeded in dealing with disputes between capital and labor.

Editor World: In his address to the Toronto Board of Trade, the Hon. Adam Beck is reported to have said: "It is pretty authentic and cannot be denied that this power is available at Niagara Falls to-day at \$12 per horsepower."

I would beg to call your attention to a folder recently issued by this city, which begins as follows: "The City of Niagara Falls, Canada, offers the following advantages to manufacturers: (1) Cheap electrical power in unlimited quantities, and has also a special agreement whereby they can purchase 1000 horsepower at \$10 per horsepower per annum for a period of twenty years."

NEED HARNESS?

If you're a horse owner you will have harness needs some time—perhaps now. Let's tell you something about harness that will put dollar bills in your pocket, put good strong harness on your horse and put satisfaction in your heart—GET YOUR HARNESS HERE.

And we would tell you something more—something just as truthful—something interesting and something profitable—read it. We know just how good our harness is because we make it.

We buy the very best harness leather obtainable on the American continent, and we buy it in such quantities that we strike the bottom rung on the price ladder—no doubt about that.

—THAT THE LEATHER'S UNBEATABLE, —THAT THE PRICE IS UNBEATABLE,

are two points that constitute half the virtue of a set of harness. Now for the rest of it: The best harness-makers we know of—the best services that the best wages will bring to us—are working on harness here all the time, and there's a large staff, too.

And there's a shrewd, sharp harness expert superintending that staff—a man who was practically born in a harness shop—a man who knows harness as a horseman knows his horse. And this man has a critical eye open every minute of every day looking for every possible defect, every inch of doubtful leather, every suggestion of imperfect workmanship.

Every set of harness that leaves the factory is right in every way—every inch of it—and the store follows it with its guarantee. That's the rest of the necessary part to good harness, so that in EATON harness you have

—UNBEATABLE LEATHER, —UNBEATABLE WORKMANSHIP, —UNBEATABLE VALUE.

Now, these are facts that have been proved by many men, and await the privilege of proving themselves to you.

And Here Are Price Suggestions

Put Them to the Test of Your Examination

NO. 10. STRONG EXPRESS HARNESS—made up to meet the demand of all expressmen—Traces 11-2 inches by 3 ply—Hames, high top, wool ball top or English cab with ring draft—Saddle, 6 inches, express weight, well padded with leather lining—Collars, thin sewn, leather faced—mountings brass and nickel. Price \$28.00.

NO. 10. TRUCK HARNESS is made for heavy work on road or van. Lines, 1 1/8 inches, good length—Collars, long straw cloth or leather faced—Hames, No. 10 Concord ball—Traces, 2 inches by 3 ply, very heavy and triple stitched, with heavy heel chain—Martingales and Breast Straps, 2 inch, extra heavy, with snaps and slides—Crutch Breaching, 2 inch folded seat, 1 1/4 inch layer—1 inch crotch strap to market tug—1 inch breaching straps—two 1 inch hip straps, from large ring on hip. The stock is best No. 1 leather. Price \$40.00.

NO. 1. GOOD GENERAL PURPOSE HARNESS—11-2 Traces, Martingales and Breast Straps—back bands well padded and leather lined with fancy housing—Hames, high top wood, steel bones, Calais cloth or leather faced. This harness is fit for any ordinary team work. Price \$31.00.

—Hame Tugs, Traces, Breast Straps and Martingales are 1 3/4 inches. Lines 1 inch. Price \$33.25. —BASEMENT.

# An Natural Laxative

Inward cleansing is as necessary as outward bathing. To keep the bowels free and regular is of even greater importance than to keep the skin-pores from becoming clogged. The neglect of either invites disease. Everyone needs a natural laxative occasionally, to free the bowels of accumulated impurities. For this purpose take

## BEECHAM'S PILLS

the greatest boon ever offered to those who suffer from the ills that follow constipation. For over fifty years Beecham's Pills have been famous as a Stomach corrector, a Liver regulator and a powerful laxative. They never gripe nor cause pain. Powerful purgatives are dangerous. Avoid them. Use Beecham's Pills. They give relief without doing violence to any organ. Their action is in harmony with physical laws. Take them regularly and the necessity for their use becomes less frequent. They act as a natural laxative and a positive cure for Constipation, Biliousness, Indigestion, Sick Headache and Dyspepsia.

Prepared only by the Proprietor, Thomas Beecham, St. Helens, Lancashire, Eng.  
Sold everywhere in Canada and U. S. America. In boxes 25 cents.

### PUBLIC AMUSEMENTS.

Sousa and his band delighted audiences in Massey Hall on Saturday which were limited in size apparently only by the accommodation of the auditorium. Both afternoon and evening every seat in the galleries was occupied, while hundreds stood, wedged in among the Pure Food booths on the ground floor, and listened attentively. In the afternoon the fantasia from "Stegfried," and the Rakovsky March from the "Damnation of Faust," were features. In the evening "The Ride of the Valkyries" was given with a fervor that was truly inspiring. Perhaps, too, the number that really "took" best was the march "Stars and Stripes Forever," which, with its piccolo and trombone finale, seemed to bring down the house. It followed Sousa's newest march, "The Diplomat," which well sustains him in his title as "March King." Herbert L. Clark gave as encore a beautiful rendition of "The Lost Chord." Miss Elizabeth Schiller herself, in a splendid soprano solo, while Miss Jeanette Powers quite captivated the audience, day and night, with Schubert's "Serenade" which was constantly applauded, and the programs were augmented with a liberal addition of encore numbers of a popular order.

The remarkable play of "Dr. Jekyll and Mr. Hyde" which that eminent and popular actor, Thomas E. Shea, will play during his engagement at the Grand this week, has been noted through out the length and breadth of the land, and many indeed have been the queries as to why Robert Louis Stevenson's play should achieve such distinction. The successful portrayal by Mr. Shea of the mild-mannered Jekyll and the vindictive Hyde is due entirely to the manner in which he presents them, and ranks with the best acting upon the American stage. During Mr. Shea's engagement he will present the following: Monday evening, "The Belle"; Tuesday evening, "Dr. Jekyll and Mr. Hyde"; Wednesday matinee, "Cardinal Richelieu"; Wednesday evening, "Napoleon the Great"; Thursday evening, "Othello"; Friday evening, "Napoleon the Great"; Saturday matinee, "The Belle"; Saturday evening, "Dr. Jekyll and Mr. Hyde."

"Woodland," which completes a quartet of meritorious and delightful comic opera productions, which have come from the pens of Frank Pixley and Gustav Luders, will be presented at the Princess Theatre, Henry W. Savage for one week, commencing to-night. The company that will be seen here is the only one singing this opera. The story of "Woodland" deals with the birds of the forest and not a single specimen of the genus homo intrudes his presence into the company of the feathered songsters. The spirit of the piece is one of dainty joyousness, and the play, both musically and scenically, is characterized by distinctly novel effects.

# STRENGTH FREE TO MEN

### How to Regain it Without Cost Until Cured

Strength of body—strength of mind! Who would not possess it if they could? It is nature's greatest gift—or our most valuable possession. Without this strength life is a failure with it everything is possible. Almost every man was made strong, but few have been taught how to preserve this strength. Many, through ignorance, have wasted it recklessly or used it up excessively, leaving the body exhausted, the nerves shaky, the eyes dull and the mind slow to act. There are thousands of these weak, puny, broken-down men dragging on from day to day who might be as strong and vigorous as ever were it they would only turn to the right source. Electricity cures these weaknesses. It gives you back the very element you have lost. It puts new life into the veins and renews the vigor of youth. For 40 years I have been curing men, and so certain am I now of what my method will do that I will give to any man who needs it my world-famed DR. SANDEN'S ELECTRIC BELT AND SUSPENSORY FREE UNTIL CURED. You pay nothing down, you deposit nothing, you risk nothing; but upon request I will furnish you with the Belt to use, and if it cures you pay me my price—in many cases not over \$5.00. If you are not cured or satisfied, return the Belt to me and that ends it. As I am the originator of this method of treatment and have made it a great success, there are many imitations of my Belt; but my great knowledge, based on 40 years' experience, is mine alone. My advice is given free with the Belt.

This offer is made especially to men who lack strength and vitality, who have drains, losses, impotency, various ailments, and who suffer from Rheumatism, Lame Back, Sciatica, Kidney, Liver and Stomach Troubles.

Call or write for a Belt to order, or if you want to look into the matter further, I have two of the best books ever written on Electricity and its medical uses, which I send free, sealed, by mail.

**DR. A. B. SANDEN,**  
140 Yonge Street, Toronto, Ontario  
Office Hours, 9 to 6; Saturdays until 9 p.m.  
DINEEN BUILDING, ENTRANCE 6 TEMPERANCE-STREET.

## AN ENCOURAGING INTEREST IN UNIVERSITY'S AFFAIRS

Manifested in Commission's Suggestions, Galt Alumni Are Told—Some Splendid Speeches.

Galt, March 31.—(Special.)—Four Toronto University professors were speakers at the Alumni Association banquet, which broke up at an early hour this morning. The addresses were perhaps the most noteworthy of recent public utterances ex cathedra on university topics.

Prof. Hutton, principal of University College, discussed the university situation, voicing sentiments of forbearance, toleration, gratitude and hopefulness that found echo in every heart. He foresaw no menace to the future well-being of our great institution in the proposed policy of the university commission, which had been presented somewhat earlier (should he say by a stroke of newspaper enterprise?) to the country than had been intended, rather he viewed the presentment as one that bespoke active, capable and encouraging interest in university concerns, together with the most intelligent and broad-minded sympathy with the work under its jurisdiction and for the development and enlargement of it. His series of allusions to the recent "collisions," to the relationship of faculty and students and of government and senate were in the happiest vein while his review of student life, its strenuousness, its associations and its possibilities, was courteously frank, kindly, indulgent and intensely cheering. Speaking of the purview of university spirit and genius, and of the trend of its educative sway, he declared that there was as much of true scientific and profound erudition of its kind in the successful propagation of a mammoth mandal as in learned and deer delving among ancient Greek toots.

**Past and Present.**  
Prof. Macaulay, speaking for the medical faculty, recalled the translations of medicine to the most lofty and conspicuous offices in the empire.

Prof. McCurdy was of opinion that the term "university" as confined to the graduates of the university, was a misnomer; the learned professions embraced all vocations in life in which it was possible for men to rise to honorable and useful distinction. He advanced a strong plea in extenuation of the follies and foibles of student days. He recalled the time when university students were content to depend upon their own resources and compared them with the present, when so much was done for them that the impression might wrongly be created that they were being pampered on spoon-feeding principles.

"They talk about federation sentiment, its intangibility and its lack in many places. I feel, gentlemen, that it is here in Galt to-night." In these words Prof. Macaulay closed a thoughtful, vigorous and wholly admirable speech. He affirmed the catholicity of university feeling; how it took cognizance of the merits of the college-bred men but also of the merits of the men of profession and walk of life, the farm and the workshop included. He reiterated the notion that the university was exclusive in its character, not that its influence on the student's mind was restrictive and discriminatory in recognition of human worth and of intellectual calibre and of the nobility of aims as well as in consistent with pride in university and love of alma mater.

**The Federation Idea.**  
He gave credit largely to Sir Wm. Mulock for the promotion of the federation idea, under which the University of Toronto was to be joined to the University of England, as the greatest of the century, not simply one of the greatest of the continent, but in the world. Any idea existing that the university is an institution set up in the clouds, reachable only by the wealthy and designed exclusively for them, and that a university professes a venerable and decrepit personage who spends most of his time on the roof-top, scraping the sky thin in spots looking for comets and things, could not prevail in the face of this attitude. The professor was revealed as an all-round, well-rounded, low, no less than a scholar and a gentleman.

**LITTLE WAR RENEWED.**  
Tartars and Armenians Cause Intervention of Troops.  
Elizabetopol, Caucasus, March 31.—A renewal of the Tartar-Armenian war, accompanied by revolutionary activity, has compelled the intervention of troops. Several skirmishes have occurred, during which a score of Armenians and Tartars were killed. The local authorities have seized a number of machine guns and over 500 rifles.

**MR. COLQUHOUN.**  
Editor World: W. H. Scott fails to recognize that my letter of Tuesday was in no sense a personal attack upon Mr. Colquhoun but a mild protest against his behavior against the ill-advised utterances of some of his friends. I have no desire to injure Mr. Colquhoun, but I will prove acceptable to both experts and non-experts, but his political sponsors would do well not to prejudge him on the eyes of those who ought to be his best friends. I will drop the subject amid a halo of love and charity.  
Pro-Expert.

**Low Rate to New York.**  
New York Central Railroad announce an excursion to New York for Easter time. Rate \$10.25 for the round trip from Suspension Bridge. Buffet; tickets good for return 10 days. Remember the date, April 12.

For further particulars, call on or write Louis Drago, Canadian Passenger Agent, 69 1-2 Yonge-street, Toronto. Telephone Main 4361.

**The Montreal Gazette.**  
The Toronto office of The Montreal Gazette, which has been located in the Saturday Night building, has been removed to the new Star office building, 123 Bay-street, at the corner of Adelaide-street.

## RHEUMATISM

Price 25c. Man's Rheumatism Cure seldom fails to relieve joints in a few hours. Positively cures in a few days. It does not put the disease to sleep, but drives it out of the system.

## BOTH NATIONS SATISFIED WITH MOROCCO AGREEMENT

France Will Police Four Ports, While Germany Carries Point of Integrity of State.

Algiers, March 31.—After a lengthy session lasting until 1 o'clock this evening, the conference on Moroccan reforms registered a complete accord and appointed a committee to embody this accord in a formal protocol. The consummation of the work of the conference was announced in the following official communication:

"The conference has terminated its labors and accord is established upon all points. It has adopted a definitive treaty for the remaining articles concerning the status of Morocco. The final article, regulating the distribution of police at ports, was France will police four ports, Algiers, Oran, Tangier and Casablanca, and Spain two, Tetan and Larache, and France and Spain will together police Tangier and Casablanca, subject to an inspector of police. The Dutch delegate announced that his government declined to appoint an officer. The conference has appointed a special committee to revise the text of the agreement. This committee meets Monday to consider the final formalities of the accord."

**Seek to Disrupt Union.**  
The anthracite coal operators always have refused to recognize the United Mine Workers as an organization, and are anxious to see the union destroyed. The miners there have asked for recognition, and for an eight-hour day such as they enjoy in the bituminous fields. They have demanded an increase in wages for the day laborers around the mines, who, they assert, received no benefit from the award of the commission appointed by President Roosevelt, which ended the strike of 1902. Probably the miners would be ready to waive most of the other demands if they could secure recognition. Their leaders do not hesitate to say that recognition is the chief object they are striving for.

**Will Try to Work.**  
Hazelton, Pa., March 31.—The mine officials in this region have received no orders to suspend operations on Monday. It is doubted if a single colliery will be in operation in the Lackawanna regions on that day.

Even the Oxford colliery, which operated during the whole part of the 1902 strike, is likely to be idle, according to Superintendent Shepherd. Many local unions have unanimously endorsed the suspension order. Every preparation is being made to test the loyalty of the men on Monday. Only about one-half of the Erie colliers in this district are working to-day. The rest have taken out their tools when they left the mines last night.

**Will Pay.**  
Altoona, Pa., April 1.—The Herwind-White Coal Mining Co., at Windber, has posted notices that it would pay the 1903 rate of wages.

**5000 Go Back.**  
Nelsonville, Ohio, March 31.—Eight thousand miners in the Hocking Valley suspended their work to-night, about 6000 resume work, as the operators can sign the 1903 scale.

**7000 Out.**  
Peoria, Ill., March 31.—Seven thousand coal miners in the Peoria fields struck last night.

**Railway Shops Affected.**  
Altoona, Pa., April 1.—Orders have been issued by the Pennsylvania R.R. Co., reducing the hours of its shopmen from 55 to 25 a week because of the coal strike.

**TO RECOVER THE GIFTS.**  
Mutual Life Intends to Ask Directors to Make Refunds.  
New York, March 31.—The Truesdale committee's report on the Mutual Life was made public to-day, and says it is advised that such of the company's funds as were donated for political or campaign purposes were unlawfully disbursed and recovery can be had in behalf of the company from the officers or trustees responsible therefor. The committee understands from the president that he has already consulted counsel with regard to what legal steps be taken to secure the recovery of these moneys and that he will act accordingly.

Coming starts at the Princess are Robert Marshall, week of April 16-21; E. N. O'Neil, week of April 23-28; E. S. Willard, two weeks, beginning May 14.

**To Resume To-Morrow.**  
Pittsburg, March 31.—Following an all-day session, the Pittsburg district miners' convention adjourned to-night

## COAL STRIKE BEGINS TO-DAY

Continued From Page 1.  
recognized by them and annual or biennial agreements are entered into, regulating wages and working conditions. The present struggle in the bituminous fields is characterized by the operators as an honest difference of opinion with their employees. The operators contended that conditions were possible for them to pay an advance in wages at this time. The miners contend that they are entitled to the scale they enjoyed in 1905, the highest ever paid in the history of the organization.

Altho differing on this vital question to such an extent as to cause a general national suspension of mining, the friendly feeling between the operators and the union miners still prevails. The operators have no desire to see the union dissolved, and the contrary they would regret it probably as much as the miners themselves if such a condition should grow out of the strike.

By agreement, the operators have agreed to suspend their operations for eight days, which has been in force for eight days, and was of immense practical value to the operators as well as to the miners. It has made competition between the operators fair, and without the co-operation of the miners thru their organization this equality could not be maintained. It is considered altogether improbable that the operators will attempt to work their mines with non-union men. Should they carry out that policy, as they now contemplate, it removes the possibility of violence during the strike, and may mean that the contest will be entirely one of endurance.

**Iowa Miners Out.**  
St. Louis, April 1.—Fourteen thousand miners, employed in coal mines in the Belleville, Ill. field, struck to-night. At the same hour 600 coal miners employed in the Edwardsville, Ill. field stopped work.

**Agree on Scale.**  
Louisville, Ky., March 31.—Coal miners and operators of Western Kentucky to-day agreed on a wage scale, and there will be no strike in district No. 23. The agreement is for the 1903 scale, and the contract is to continue until March 31, 1905.

**Ample Preparations.**  
The production of anthracite is approximately 75,000,000 tons a year. The coal stored for any length of time, and for more than six months the operators have been preparing for the struggle. Immense warehouses have been erected along the railroads and they have been filled with coal. The consumption of anthracite is greatly reduced in the summer, so that the visible supply, it is said, will hold out for several months. It is held that more than 20,000,000 tons of anthracite have been stored in anticipation of the suspension. The suspension here may be much larger, as the operators have not been publishing the details of their own preparations.

There are about 150,000 men employed in and around the anthracite mines of Pennsylvania. Their conditions of work and their wages are not nearly as good as those enjoyed by the bituminous miners. The average wages amount to less than \$30 a year, while the lowest average of bituminous men in Ohio is \$35 a year. In Illinois the average is close to \$50 a year, altho such averages are deceptive, do not tell the real conditions. Many of the miners in Illinois earn from \$6 to \$8 a day when they work full eight hours.

While present indications point to a protracted strike in the anthracite fields, it is believed that the suspension will be of short duration in the bituminous states. When the miners decided to permit work where the advanced scale was offered it virtually put Western Pennsylvania out of the strike. The suspension there perhaps will not last three days, and will not take the form of a strike.

**Mitchell's View.**  
Indianapolis, Ind., March 31.—In private conversation with President Roosevelt is reported as predicting a stamped-out of operators to sign the scale.

The executive committee of the operators of the southwestern district to-day sent a telegram to President Roosevelt, advising him that the operators had proposed arbitration, the miners had rejected it, and that the operators are still anxious to settle the difference in that way. It is announced by the district and board members that the miners will avail themselves of the opportunity to remedy many local grievances in making the separate contracts. They will also not enter into a contract with an operator unless, besides meeting all of the scale contract requirements, he proposes to attend and participate in the next interstate movement conference when it is called.

**How to Build a Home**  
In Two Weeks after the Foundation is Completed  
In all estimates for building, one of the principle items of cost, is labor. Delays on account of bad weather—long winter seasons—also mean a money loss. Metal Walls and Ceilings protect you against delays and excessive labor cost. A building may be put up at any time of the year regardless of weather conditions. The weather-resisting foundation may be erected, complete, above the ground in place. Metal Walls and Ceilings never need repairs, last as long as the house, and make rooms absolutely fireproof. To those building or remodeling homes, The Metal Shingle & Siding Co., Limited, of Preston, Ont., will send, free, if you mention this paper, their handsomely illustrated catalogue showing many of the beautiful designs they make in Art Metal Goods.

to meet again on Monday after appointing a new wage committee, with full authority to sign agreements with all operators who are willing to pay the 1903 scale. The mines will be closed Monday, but all the works of the Pittsburg Coal Company will resume operations on Tuesday. It is believed that a majority of the independent operators will eventually sign the 1903 scale.

**RECITING THE OLD POEM DROPS DEAD ON THE FLOOR**  
New York, March 31.—When Edward Chreslie, an old actor fallen upon evil days, went into John McNamara's saloon, on Amsterdam-avenue, to-day and met several acquaintances they coaxed him to recite for them. Standing with one elbow on the bar, Chreslie began to speak the lines of "The face upon the barroom floor."

Give me the chalk, bartender, That you use to mark score, And I'll draw you her picture Upon the barroom floor.

Suddenly he toppled over and died instantly. Heart disease killed him, Chreslie was well-known on the stage years ago.

"Checkers" is scheduled for the Grand, week of April 16, with the Black Patil Troubadours at the Maestic. "Sherlock Holmes" is coming week of April 23.

HEAD OFFICE—TORONTO STREET—TORONTO

COMPARE THE FOLLOWING ANY SUM FROM \$1 UPWARDS RECEIVED

AN INVESTMENT IN SPECULATIVE PRICES EXECUTION OF TRUSTS

Wall Street Assumes More General Buoyancy—The Toronto Market Generally Reviewed.

World Office. Saturday Evening, March 31. A gradual stiffening in quotations, with enough weak spots to encourage a cautious speculative liquidation, marks the course of the Wall Street list this last week.

Considerable capital is being made out of the supposition that money is about to pour very much easier now than it has been since the recession of 1902.

Entering on a new crop season, it has been usual with Wall Street to discount the coming year's operation in the wheat market.

The importation of a small amount of gold funds is reported to the statement that the balance of trade is in favor of the United States.

The whole situation hinges on the fact that a large amount of stocks have yet to be placed in weak hands.

The weakness of the Toronto speculative situation at the close of last week was modified in the dealings of the last few days, and better support was shown by the stocks.

The theory that insurance companies would have difficulty in profitably exploring their surplus funds had they not been in on the underwriting of numerous foreign notations does not accord with the financial record of the last three or four years.

LOTS OF HARD, LITTLE SOFT HOW COAL STRIKE HITS CITY

Conference of City Coal Dealers Will Be Held This Week to Talk Situation Over.

Judging by the opinion of the Toronto coal dealers, there is little likelihood that the prices of hard coal will be raised this year on account of the miners' strike just launched in the States.

A number of dealers were spoken to Saturday and all take an optimistic view of the situation, so far as coal for household use is concerned.

The supply of soft coal in Toronto which has not been augmented for the past ten days, will not equal a very prolonged demand, the most of the soft coal consumers have a large supply on hand, which they obtained at the old prices on the advice of their dealers.

If the strike does last for any length of time the price of soft coal will likely take an upward jump. The Toronto coal men will not be to blame for this, as they are really only middlemen, and the New York and Buffalo jobs which have all laid in a large supply will be the real gainers, as very little of the coal will come from the affected districts.

In the meantime a conference of city dealers will likely be held this week, and a statement as to their intentions, whatever the development may be, is expected.

REVIVAL AT OTTAWA.

Ottawa, April 1.—Dey's Rink has been secured in which to hold the Torrey-Alexander meetings.

The evangelists will arrive here to begin meetings June 10, which will continue until June 23.

Prayer circles are being formed in different parts of the city in connection with their coming.

OTTAWA PAINTERS STRIKE.

Ottawa, April 1.—The members of the International Painters' Union here will go on strike tomorrow to enforce the Saturday half holiday at present wages.

Practically only two shops are affected, with about 60 men. There is also a National Union in Ottawa.

Will Handle All Baggage.

Ottawa, April 1.—Commencing tomorrow the Canadian Transfer Company will, it is understood, take charge of all the transporting of baggage between Ottawa and Montreal, and Ottawa and Toronto over the C. P. R. and Grand Trunk Railways.

CASTORIA.

The Kind You Have Always Bought Bears the Signature of Castoria.

Two Great Spring Tailoring Values! Score's Business Suits, \$22.50. Score's Guineas Trousers (\$5.25). Score's 77 King St. West.

YORK COUNTY AND SUBURBS HEINTZMANS AFTER LAND

Preparing for Addition to Factory—North Toronto and East Toronto Teachers Resign.

Toronto Junction, April 1.—The Heintzman Piano Company are negotiating for the purchase of the 50 feet of land fronting on Van Horne-street and adjacent to their property.

James Serge of Weston-road fell off a load of wood on Saturday afternoon and received serious injuries. The 30 feet of land between the Bank of British North America and the post-office has been sold. A. C. Stanner of Queen-street, Toronto, owned the land, but the name of the purchaser is withheld.

A valuable horse owned by J. A. Tye, died last night of Jim Grey's livery stable last night. A meeting of the town council will be held to-morrow night. Councillor J. R. Ball, by-law, to abolish the police commission, will be given a third reading, and the report of the special committee on salaries will be received.

Dr. Macnamara is still confined to his bed. The mock parliament in connection with the Brotherhood of Andrew and Philip of Victoria Church will hold a session to-morrow night and discuss the government's Liquor Act.

Sarah Briggs, the only daughter of Mr. and Mrs. Wm. Briggs, aged 4 years, died last night of scarlet fever, and was this afternoon interred at Prospect Cemetery.

The funeral of the late John Beasley of Weston, who died on Friday night, in his 63rd year, took place yesterday afternoon at Mount Pleasant.

There were numerous brush and grass fires on the outskirts of the town to-day. Mrs. Wm. Speers of West Dundas-street is ill with a gripe.

There are sixty-three cars of cattle at the Union Stock Yards for tomorrow's market. Newmarket. The Methodist Church here has extended a call to Rev. T. W. Nell of King-street Church, Toronto.

The next meeting of the W.C.T.U. will be held at the home of Mrs. C. M. Hughes, at 3 o'clock, on Tuesday afternoon.

On Friday evening Hon. E. J. Davis will deliver an address before the members of the Epworth League. The United Factories will resume work this morning after being closed down for some time for repairs and stocktaking.

The Christian Sabbath School has an attendance of 155. Surveyors are in town arranging for the extension of the present electric line and the new extension to Lake Simcoe.

East Toronto. East Toronto, April 1.—In the Presbyterian Church to-night the Rev. Mr. Robertson, general superintendent of the Presbyterian Sunday schools in Canada, gave an address.

On Saturday afternoon at 3 o'clock in the rye field a game of golf will take place between H. Carman and P. Shaw and M. Thompson and H. B. Elmer. A. Murray will referee the match.

A young Scotch immigrant yesterday informed the local authorities that while in an unconscious condition he was relieved of some \$30 in a local hotel.

The positions on the public school staff, which will be vacated at Easter and the retirement of Miss Faircloth and Miss Beckett, have been satisfactorily arranged for. The young ladies staff have been employed on the teaching staff for some time, and their retirement is a matter for regret.

Tenders for the addition to the Mary-street school and the erection of the new building in the south end of the town will be called for in the near future. The estimated cost is \$27,000.

Inconsistency on the part of Chairman Carscallen and Messrs. Crawford and McKay was shown on Thursday morning committee on Thursday morning considering the private bill of the Town of East Toronto. One of the clauses of the bill refers to the Balm Beach Park, empowering the town council to purchase a further portion to the park commissioners to enable them to tide over temporary financial difficulties. Another clause sought power to invest some \$17,000 per cent. in their own debentures drawing the condition of selling at least 4 1/2 per cent. instead of 5 per cent. on the park property for \$4500, on made, and both Mr. Carscallen and Mr. McKay expressed strong doubt as to the validity of this mortgage.

A suggested amendment to the bill which gave Mr. Carscallen the right of permitting the town to invest \$4500 in their sinking fund in purchasing this same mortgage, and both he and Mr. Carscallen used strong endeavor to make the town's representatives accept the amendment. When unable to accomplish this they struck out the whole clause.

North Toronto.

A meeting of the water and light committee will be held to-night when will be sifted and a recommendation made to council.

It is stated that two of the lady teachers at the Davville school have decided to resign their positions. At the Eglington school the continuation of the members of the board will ask to have the existing arrangement changed.

The formation of a joint stock company to provide quarters for an athletic club in Eglington is now well in hand. It is not likely that the stock will be made dividend paying, as subscription assisting the youths for the purpose of healthy recreation than from an investment basis.

Tonsillitis is prevalent among children at the present time, and one case diagnosed as diphtheria was sent to the city Isolation Hospital for treatment.

The house famine, which has been quite pronounced for over two years, is now showing signs of relief. There are

STILL WAIT FOR PHILLIPS' CROWN AFTER SECRET FUNDS

Crown Attorney's Searching Questions Not Satisfactory—Big Amounts; No Details.

Joseph Phillips, president of the defunct York County Loan, spent Sunday "over the Don." On Saturday J. E. Jones, counsel for Phillips, was prepared to offer any amount for his freedom, but the magistrate refused to accept bail under any circumstances.

Phillips appeared in the dock with other prisoners, and, as it happened, stood between two men, one charged with drunkenness and the other with disorderly conduct, both notorious offenders. He was forced to wait for a seat, and was sitting there alone when his name was called. Then he was allowed to march out of the dock, under surveillance and seat himself beside his lawyer.

A doctor's certificate produced, stating that Miss Lillian Hudson was ill and unable to attend the session of the court, was declared unsatisfactory by Crown Attorney Curry.

"Perhaps there will be a more satisfactory one on hand before Monday," suggested Magistrate Denison. The crown attorney's attention was confined to an endeavor to find out about the secret deposits in banks or in safe depositories belonging to Joseph Phillips, Miss Georgina Hudson, however, declared that she knew nothing about them, and was of the opinion that her sister, who occupied a joint position with her, knew nothing. The investigation will continue along this line daily, according to Mr. Curry, if he comes across satisfactory evidence.

A Bogus Loan. Stewart Linn produced the books of the Toronto Life and upon being shown a cheque for \$5000 signed by Phillips said it was interest on a loan.

"How could it be interest on a loan that did not exist?" asked the magistrate, and Linn could not explain. "If this company's statement that this \$5000 was interest on a loan must have been bogus," continued Magistrate Denison. "In another instance the cheque on Dec. 31, 1904, for \$6502.36, was paid out by Burr and was indorsed by him right back to the York Loan."

Four cheques, Miss Lillian Hudson, real were produced in court. They were for \$488, December, 1904; one for \$5000 dated March 1, 1905; one for \$2500, dated Dec. 13, 1904, and one for \$496.35, dated September, 1905.

Mr. Linn was shown a cheque for \$2500, he said was received by the company. Linn ran over the books and finally announced that it had been given for the purchase of a house on Macdonnell avenue for Phillips.

Questioned in regard to a \$4000 cheque he said he had not cashed it at the bank because he needed cash in his till. "It was drawn from No. 3 account and paid back into No. 2 account," was his testimony.

"It was set aside for Burr and for the purchase of C.P.R. stock," said Mr. Curry.

Ladies Want Surprises.

Ottawa, April 1.—The ladies of St. Andrew's Choir Presbyterian, Dr. Herdridge's church, are petitioning for the surplice and mortar board.

Can You Resist Disease Germs?

Yes, and become "Germ-proof" by Driving Out Blood Humors and Restoring the System.

Why are doctors and hospitals so busy in spring-time? Easily answered. People haven't much surplus vigor in the spring; it was all used up fighting off colds through the winter.

With thin blood and low vitality, the germs of disease become active and cause fevers and debility. Your best protection is to get the abundant vigor that Ferrone so quickly supplies; it gives spring sickness that "tired feeling," restores nerve energy and instils vim and force into every ailing organ of the body.

No abler restorative is known than Ferrone; its influence is not temporary, but lasting, laying a sound foundation of health that lasts till old age.

Mr. Nazaire Begon of Watton, P.O. Que., who received enormous benefit from Ferrone, writes: "I cannot speak too highly in praise of Ferrone. If any one had told me that any remedy could build up my nervous system so well, I wouldn't have believed it."

"Before using Ferrone I was run down in nerve and vital energy, and in very weak health. I didn't get enough sleep at night and felt poorly in the day time. Ferrone has filled me up with energy and vim; increased my weight and made a new man of me. Your health through the summer depends on clearing away all traces of spring sickness; the remedy is Ferrone. Sold by all dealers, 50c per bottle or six boxes for \$2.50. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

CHANGES IN MINES BILL.

Now several houses awaiting occupancy in various parts of the municipality. The Radial Railway Co. has made no fresh advances to the council on the double track question since the special conference of two weeks ago, but one in close touch with the company makes the statement that a proposition is being favored which will shortly be submitted for consideration.

There is a general outcry against the bad state of the roads, especially the side street, which are now impassable except by very light loads. Yonge-street is being cut thru the macadam in various places, but a heavy coat of metal will be applied to this thoroughfare in a few weeks.

VERVILLE STILL FREE.

Attendance at Liberal Caucus for Labor Purpose Only. Montreal, April 1.—(Special.)—The fact of Alphonse Verville, M.P., having attended a caucus of the Liberal party was discussed last night at a meeting of labor men.

It was pointed out that Verville had been invited to the caucus to express his views on the subject if the indemnity. He explained to the Montreal labor leaders that he had in no way whatever identified himself with the Liberal party. As soon as he had expressed his opinion he left the caucus. He was only in the meeting about 15 minutes.

THE TORONTO WORLD

STILL WAIT FOR PHILLIPS' CROWN AFTER SECRET FUNDS

Joseph Phillips, president of the defunct York County Loan, spent Sunday "over the Don." On Saturday J. E. Jones, counsel for Phillips, was prepared to offer any amount for his freedom, but the magistrate refused to accept bail under any circumstances.

Phillips appeared in the dock with other prisoners, and, as it happened, stood between two men, one charged with drunkenness and the other with disorderly conduct, both notorious offenders. He was forced to wait for a seat, and was sitting there alone when his name was called. Then he was allowed to march out of the dock, under surveillance and seat himself beside his lawyer.

A doctor's certificate produced, stating that Miss Lillian Hudson was ill and unable to attend the session of the court, was declared unsatisfactory by Crown Attorney Curry.

"Perhaps there will be a more satisfactory one on hand before Monday," suggested Magistrate Denison. The crown attorney's attention was confined to an endeavor to find out about the secret deposits in banks or in safe depositories belonging to Joseph Phillips, Miss Georgina Hudson, however, declared that she knew nothing about them, and was of the opinion that her sister, who occupied a joint position with her, knew nothing. The investigation will continue along this line daily, according to Mr. Curry, if he comes across satisfactory evidence.

A Bogus Loan. Stewart Linn produced the books of the Toronto Life and upon being shown a cheque for \$5000 signed by Phillips said it was interest on a loan.

"How could it be interest on a loan that did not exist?" asked the magistrate, and Linn could not explain. "If this company's statement that this \$5000 was interest on a loan must have been bogus," continued Magistrate Denison. "In another instance the cheque on Dec. 31, 1904, for \$6502.36, was paid out by Burr and was indorsed by him right back to the York Loan."

Four cheques, Miss Lillian Hudson, real were produced in court. They were for \$488, December, 1904; one for \$5000 dated March 1, 1905; one for \$2500, dated Dec. 13, 1904, and one for \$496.35, dated September, 1905.

Mr. Linn was shown a cheque for \$2500, he said was received by the company. Linn ran over the books and finally announced that it had been given for the purchase of a house on Macdonnell avenue for Phillips.

Questioned in regard to a \$4000 cheque he said he had not cashed it at the bank because he needed cash in his till. "It was drawn from No. 3 account and paid back into No. 2 account," was his testimony.

Ladies Want Surprises.

Ottawa, April 1.—The ladies of St. Andrew's Choir Presbyterian, Dr. Herdridge's church, are petitioning for the surplice and mortar board.

THE ROBERT SIMPSON COMPANY, LIMITED. H. H. FUDGER, President; J. WOOD, Manager. Monday, April 2. STORE CLOSURES DAILY AT 5.30

The Simpson Wallpapers for Spring

Now that the housefurnishing season is opened it is time we introduced our immense stock of new Wallpaper. First let us remind you of the Wallpaper Department's location. A modern store is so big and changes in arrangement occurring from time to time, it is quite possible that people who last bought such an infrequently renewed article as Wallpaper may not now know just where to look for the Wallpaper Department. You know where the Millinery Department is? The Wallpaper Department is on the floor immediately above.

Now about our spring stock of papers. Suppose we confine ourselves in this space to an earnest invitation for you to come and see them. So many new designs and effects have been produced of recent years that it would be impossible to detail them fairly in anything short of a booklet. Suffice to say we have carloads of papers here, all of it carefully chosen from samples submitted by the world's foremost manufacturers in competition. England, France, Germany, Japan, the United States and Canada contribute. We have the very best papers produced, and an immense range at moderate prices. "Silks," Cretonnes, Linens, Chintzes, Tapestries, Damasks, Floral Stripes, Two-toned Papers, Gilt and Glimmer Decorations, Japanese Leathers, Burlap and Heavy Pressed Goods.
