**EASTERN LEAGUERS READY.**

Toronto Opens the Season in the East.

FIRST HOME GAME MAY 20.

The Championship Will Be Decided by September 23.

President Powers Has the Selection of Empire, and as Yet Has Only Decided on Swartwood and Tim Keefe—Change in the Constitution—Important Meeting of the Canadian League Delegates in Hamilton.

New York, March 19.—The Eastern Baseball League concluded its spring meeting today, and after the transaction of routine business adopted the schedule for the coming season.

The first games of the series will be played April 22, when the Western clubs will meet those of the East in the territory of the latter. After a five months' period, the season will be brought to a conclusion on Sept. 27, when the Eastern men will play the final game of the league in the cities of Western clubs.

During the day's discussion, several important changes in the constitution were suggested, but action upon them was postponed. The question of the district cup was brought up. The gentleman present decided that if the club finishing first and second at the end of the season should desire to contest for the trophy, the president should be empowered to arrange for a series of matches. The cup is now held by the Providence team.

The question of umpires for the league was brought up, but it was unanimously decided to leave the selection of these officials to President Powers. Mr. Powers said that the league would have six umpires this year, and of this number he had only one far decided upon—Swartwood and Tim Keefe.

The meeting approved the transfer of the ownership of the Toronto Club from W. Kerr of Pittsburg to the Toronto Club (Limited), A. A. Irwin, manager.

Mr. Powers was instructed to draw up a form of contract for the players, which gives them a voice when the question of transferring them to another club comes up.

A resolution was adopted which provides that hereafter in the cases of all players who have been fined by the umpire, and whose fines have not been paid, such fines shall be taken by the president from the league's guarantee fund.

"WHERE DEVENTHY IS PAINLESS."

**New York Real Painless Dentists.**  
 Directly opposite Simpson's.  
 S.E. cor. Yonge and Queen Sts. over Imperio's.  
 Entrance No. 16 Queen St. East, Toronto.  
 Hours: 8 to 8; Sundays 8 to 4; Phone 1974.

**Your Features**  
 May be perfect, but if the hair that grows on the whole face, if your eyes are decayed, if your Plaster or Bridge work is the best style of the work, if they are decayed, if you fillings of Gold, Amalgam or Composition, Painless work and low prices.

**SIGN OF THE TIMES.**

A Busy Manufacturing Establishment at Toronto Junction—Running 15 Hours Per Day.

Toronto Junction, March 19.—The Dodge Pulley Company's works at Toronto Junction are running fifteen hours per day, with a full complement of men. The company tell us that never in the history of their eleven years' business in this territory have they been so crowded with work.

The manufacture of the Dodge pulleys is constantly increasing. Recently large shipments have been made to Montreal, and in the Central Ontario, while one order alone for the Dodge pulleys at present being prepared for shipment for the English market is valued at \$100,000.

The Dodge pulleys are also generally used in the manufacture of steam engines, and in the construction of machinery and mill work.

Mr. Prescott thanked the association for their work, and said that the Dodge pulleys were being used in the construction of the new bridge over the St. Lawrence river.

The Record.

considered a reliable and practical authority on business matters in general, give the following valuable suggestions in respect to life insurance:

"A policy should be purchased until maturity means profit. A policy allowed to lapse means loss."

"No new policy can compensate for the loss of one that is old."

The man who, after assuring his life, makes a greater mistake than the man who fails to renew his fire policy, for in the latter case, if his property is not insured, he can renew it on the same terms as before.

If you are contemplating a trip to the gold mining country, please consider the short and true route, via Detroit, Chicago and St. Paul.

Through the Western Express, a passenger leaving Toronto and points west by morning train reach St. Paul and Hot Springs, Ark.; Old Mexico, California, and all western points.

From any railroad agent, or J. A. Richardson, Canadian Passenger Agent, north-east corner King and Yonge-streets, Toronto.

Dr. J. H. Clark of Hamilton sent Mr. Harry Morgan of Jordan-street yesterday a fine basket of mountain trout, and fish are fully equal to speckled trout, and are said to abound in Hamilton and the surrounding country.

Cucumbers and melons are "forbidden fruit" to many persons so constituted that the least indulgence is followed by attacks of cholera, dysentery, griping, etc. These persons are not aware that the cause lies in their habit of eating this fruit on hand a bottle of Dr. J. D. Kellogg's "Cordial" medicine will give immediate relief, and is a sure cure for all summer complaints.

A Wonderful Restorative.

**ST. PAUL'S WARD CONSERVATIVES.**

A Night of Sociability—Presentation to Secretary of the Ward.

There was a large gathering of Conservatives at last night's meeting of the St. Paul's Ward Conservatives.

The president, on behalf of the association, presented Charles F. Prescott, who has been elected secretary of the ward.

Mr. Prescott thanked the association for their work, and said that the St. Paul's Ward Conservatives were being used in the construction of the new bridge over the St. Lawrence river.

The Record.

**HEBREW SYNAGOGUE.**

Hughson-street, this evening, and a number of "Christian" young men attended and tried to break up the service.

Richard McAllister White of Aberdeen-avenue, was pointed out as an offender, and was arrested. He was released, to appear before the magistrate in the morning.

THE VICTORIA'S SMOKER.

The Victoria Yacht Club held a smoking concert in its winter quarters to-night. About a hundred young sailors were present.

COX presided. A program of vocal and instrumental music was given by J. Barry, J. McMeekin, H. Stoneman, Alf Levy and George Allan. Mr. Passmore, Charles Burgess, William Robb, Eben Levy and George Allan. Mr. Passmore, the sporting editor of The Herald, took the audience into his confidence and told them "just how Pitt won the fight."

CHARLES IS DEAD.

Charles Curran, the switchman who got badly crushed in the G. T. R. station yard on Tuesday afternoon, died at the General Hospital about 6 o'clock this afternoon. None of his relatives were present, as his death was rather unexpected. The physicians in attendance, Rev. Canon Bland visited him late in the afternoon. Curran was a widow and a small family to mourn his untimely death. He was well liked by a large circle of friends.

"How Did She Burn Her Face?"

That Was What People Asked About Our Daughter

Dreadful Itching, Burning Eruptions Cured

Smooth, Soft, White Skin Now.

"C. I. Hood & Co., Lowell, Mass."

"Gentlemen: Our little daughter is now four years old. When she was about three months old, she had eruptions on her face which were very disagreeable, and itched so much, especially at night, that she had trouble a great deal. It was necessary to watch her during the day, and she would scratch herself when she had the chance, until her clothes would be covered with blood."

"We had a great many doctors to see her, but they did not help her in the least. It was a terrible task to care for her. When we took her away from home, people would ask, 'How did she burn her face?' She was completely covered with scabs for a long time. She suffered everything. At last we concluded to try Hood's Sarsaparilla, because I had great faith in it, and after awhile we could see that she was getting better. People said she would certainly be left with scars on her face, but she was not. It is now a year since she was cured by Hood's Sarsaparilla, and her face is as smooth and white and soft as that of any child. I believe Hood's Sarsaparilla to be the best family medicine that can be obtained. I take it myself for headache and that tired feeling, and I have found nothing to equal it. It is peculiarly adapted to Hood's Sarsaparilla, and it is pleasant to take and it is no trouble to induce children to take it. The doctors pronounced my little girl's disease to be eczema, or salt rheum." Mrs. WALTER WELLS, Warren, Connecticut.

"N. B. Do not be induced to buy any substitute. Be sure to get Hood's Sarsaparilla."

190 YONGE ST. TORONTO

THE TORONTO WORLD
ONE CENT MORNING PAPER
NO. 85 YONGE STREET, TORONTO.

THE TORONTO SUNDAY WORLD
of March 21, to be published this evening, will contain the seventh instalment of Mr. W. Speight's great story, 'The Heart of a Mystery'...

CITIZENS AND THE SUNDAY CAR VOYE.
While it is true, as we have shown in another article, that the proposed Island railway project was unfairly dealt with by the Private Bills Committee...

A LIBERAL SUBSIDY SHOULD BE GRANTED.
Although The Globe has recommended the Government to grant a bonus of some three million dollars towards the construction of the Crow's Nest Railway...

MEN AND THINGS.
The Hon. E. Blake O.C. has been trying his hand on Mr. Rhodes. It was like tugging the elephant with a straw...

THE CROW'S NEST RAILWAY.
In answer to our 'opinion' Mr. Oiler said that the C.P.R. would need a subsidy if it was to construct the road...

THE ISLAND RAILWAY.
What are the facts in regard to the Island Railway scheme and the proposed Sunday car service?...

Capitalists would sooner advance money towards an enterprise that promised profits on its own merits than towards one that is so weak as to require outside support.

Instrument at the saluting point, it ought to have a series of photographs taken for a period of one minute and a half to get in all details, approach and receding views included...

DR. PHILLIPS
Lates of New York City
Treats all chronic and acute diseases of both sexes; and the ordinary cases cured by a few days. Dr. Phillips, Toronto, 11 Queen St. West.

Vertical text on the far right edge of the page, including names and addresses.

HAPPENINGS OF A DAY.

Items of Passing Interest Gathered In and Around this Busy City.

Alexander Wallace stole \$20 from Barney Phillips. He will spend the next 60 days in jail.

The mass meeting of the Baptist Young People's Union will be held April 29 in this city.

Mike Callaghan stole an overcoat and the Police Magistrate gave him six months in the Central.

Prof. Bain lectures on "Oxford" in the Biological Department of Toronto University at 3 P.M. to-day.

Right Rev. William Avery, Bishop of Oshawa, Japan, will preach in St. Aidan's Cathedral on Sunday morning.

Samuel Rowatt, who is under arrest charged with shooting his wife, was committed for trial yesterday by Magistrate Deane.

At the request of the Northwest Board of Baptist Missions Rev. H. G. Melick will spend the next few months in the Maritime Provinces.

Mr. J. H. Cameron was received with unbounded delight by an audience of over 2000 people in the Grand Opera House, London, last Wednesday evening.

The Board of Trade Committee on Insolvency met yesterday to consider the articles to be taken in connection with a bill for the coming Parliament.

The Church of England in Canada will be represented at the Lambeth Conference in England by nearly all the members of the episcopate and the majority of the bishops.

The reception to Rev. Mr. McCaughan, the pastor-elect of St. Andrew's Presbyterian Church, will take place on Thursday evening next, and the induction on the following afternoon.

On Sunday, both morning and evening, the pupils of the Church of the Redeemer will be occupied by Rev. William Wade, rector of the Church of the Ascension, Hamilton.

An official of the Stonecutters' Union informed The World yesterday that another coal strike in Philadelphia, under the aegis of the United Brotherhood of Carpenters and Joiners of America, is not expected.

Dr. Hooper, the pastor of Beverley-street Baptist Church, gave his popular lecture on "The Faith Cure and Christian Science" in Walmer-road Baptist Church for the benefit of the Fort William Mission.

It is a good principle to buy the best article for the least money. In another column the Antelope Bicycle Company announces a special sale of second-hand high grade bicycles at exceptionally low figures.

The eighth annual concert of the Literary Society and Graduates' Association of Park Collegiate Institute held last evening, maintained the reputation of these pleasant occasions. The comedy, tableaux and music were all excellent.

Sanderson Bros have on exhibition at the stall, 7 St. Lawrence Market, one of the finest dogs ever displayed in Canada. The dog is of the Yorkshire White breed and weighs over 400 pounds, demonstrating the fact that Canada can improve on British breeds. Thousands can view this animal to-day.

The University Brides. Members of the old University Brides met last night at the Canadian Military Institute, and among those who presided: President London, Major Bruce, Major Ellis, Major Deane, Capt. Gaultier, Capt. Vander-Smissen, Capt. Ryerson, Capt. McKie, Capt. Brock, Capt. Baker, Dr. Neider, Dr. Scott, Dr. Porter, Dr. W. H. King, Dr. E. W. Hagarty, Principal MacLure and others.

A number of resolutions were passed, one regarding that the University Brides corps and go out of the city. Another committee to report as to reviving the corps. It was decided to hold a reunion of former members of the corps some time next June.

Teresa Carreno coming. Of the many important musical events announced for the Massey Hall, the announcement of the coming of such a popular artist as Teresa Carreno should create more than usual interest.

The success of the store in Silk selling seems to know no bounds. This fact was in evidence in the selling of the past week. Present store news is of stylish silks, at prices lower than we have ever sold them before.

The claim cannot be disputed that we have the largest and best stock of Silks in Canada.

1000 Yards of 2 1/2 in. Lyons Silk Robes, rich and brilliant finish, all pure silk, in twenty leading and fashionable colorings, manufactured to retail at \$1.25, to compare with the retail selling price marked the lot at, per yard, 85c.

Mobile, Ala., March 19.—The British schooner Margaret, 18, Smith broke a world's record on her trip from Ruan-

tan to Mobile, arriving here yesterday. The distance is 9000 miles, and the Smith made it in three days.

Monday's Wonders. In New Season Boots and Shoes.

A regular deluge of bargains is the program with this shoe store this spring. Manufacturers are having a hard time of it, and those interested look upon this big shoe business as the outlet for surplus stocks.

We get them, at any rate, and are enabled to give the people of Toronto boots and shoes at figures that are startling to old timers in the shoe business.

If you have not been in to see what we have, let us counsel you to come on Monday, when bargains will be equal to, nay better than, anything yet:

Women's Dongola Button Boots, patent tips, heels and coin toes, sewn soles, reg. \$2, special Monday 1.50

TO ABOLISH THE OLD SYSTEM

Changes Proposed in Local Improvement System.

GRAVEL IS THE STANDARD

Adopted for Roadways Unless People Want Better Ones.

Myrie Brothers Will Supply the Casket to Contain the Jubilee Address to Her Majesty The Design is Distinctly Canadian in Character—The Mayor Makes Another Effort to Get the Island Cars Agreement Through—City Hall Matters.

The question of abolishing the local improvement system, which was recommended by Ald. Shaw, was discussed at the special meeting of the Board of Works yesterday afternoon.

The report set forth that there are at present a mass of streets that have been paved under the local improvement system that are now worn out and unsafe for public travel.

The report set forth that there are at present a mass of streets that have been paved under the local improvement system that are now worn out and unsafe for public travel.

The report set forth that there are at present a mass of streets that have been paved under the local improvement system that are now worn out and unsafe for public travel.

It is finally decided the momentous question of what shall supply the market for the construction of the City of Toronto to the Queen in June next.

The board was for a considerable time at a loss to make a selection, but the choice ultimately fell upon design No. 6, which was submitted by Myrie Bros.

The Toronto Guild of Civic Art was represented by a delegation, composed of Myrie Bros. and others.

ABOUT THAT RESIGNATION.

Mr. Conmee's Action Again the Subject of Debate.

JUSTIFIED BY MR. HARDY

Leader of the Opposition Charges Improper Conduct by the Member.

West Algona Representative Pleads for a Charitable View of the Transaction.

In the Honor of the House at Stake?

Did the Government Take Advantage of a Mistake?—The Words Wrangle in a New Act and Correspondence Will Not Be Brought Down.

The alleged resignation of Mr. James Conmee was again ventilated in the Legislature yesterday.

Mr. J. K. Kerr, who for reasons of his own did not, it was claimed, forward the resignation to the proper quarter.

The Attorney-General denies that any responsibility rests upon the Government in the matter, and justified his refusal to accept the resignation in November last.

CENTRAL PRISON INDUSTRIES.

It is suggested that the Government should take as material purchased for Central Prison Industries.

THE LEADER OF THE OPPOSITION THEN opened the debate in reference to Mr. Conmee's resignation.

He stated that he had received an order of the House for a return of copies of all correspondence.

He said that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

He stated that he had received an answer to his question on the same subject which was not satisfactory.

yet hesitated to accept the statement of any member of the House, but he could not help remarking that Mr. Conmee had not given an account which removed all blame from his solicitor.

MR. ROSS UPHOLDS MR. HARDY. Hon. Mr. Ross resented the insinuation cast upon his leader by the member from Lantzburg.

Col. Matheson: Does the hon. member justify the advice given Mr. Conmee by the Attorney-General?

Mr. Ross: "Most certainly, I do." He stated the province, he conducted the election campaign.

Mr. Conmee's resignation was not a resignation, but a resignation of the House.

MR. HARDY'S MOTION. Mr. Hardy moved that the House do not receive the resignation of Mr. Conmee.

AN UNEXPECTED OPENING.

Politics in Winnipeg Speculating as to How the John Macdonald Government Chances in Ontario.

Winnipeg, March 19.—(Special.)—Though Mr. Crosby, the member for Dennis in the Manitoba Legislature, only died this morning, already the politicians are predicting that this unexpected vacancy will give Hugh John Macdonald, the leader of the Provincial Opposition, the desired opportunity of obtaining a seat in the Legislature.

DENNIS IS NOW OPEN.

The Patron Member Taken Off by Typhoid Fever—General News from Winnipeg.

Winnipeg, March 19.—(Special.)—Watson Crosby, the Patron member of the Manitoba Legislature for Dennis, died in the General Hospital here today of typhoid fever.

JURY DISAGREED. In the trial of Clarke, a deputy returning officer in the Macdonald Election case, charged with stuffing ballot boxes in Nat. Boyd's interest, the jury disagreed, and the case was postponed to the next assizes.

WILL CAUSE REGRRET. There are rumors here in railway circles that Superintendent Whyte of the Grand Trunk Railway, who is another of the men charged with the intention of Abbot's resignation, Mr. Whyte has become so popular in Manitoba that there will be much regret if the rumor should prove true.

ANOTHER DENIGRATION. Another denigration has developed out of the locally celebrated anti-speculation prosecutions. Dr. Bergmann, who is prosecutor of the case, has been charged with the intention of Abbot's resignation, Mr. Whyte has become so popular in Manitoba that there will be much regret if the rumor should prove true.

ENTIRELY UP-TO-DATE. To-night's Toronto Sunday World will be a Paper That Will Be Read From East to West.

Don't overlook to-night's Toronto Sunday World. If you do you will find yourself behind the times.

</

NO USE FOR THE CHINESE.

John Always Follows in the White Man's Tracks.

HE IS NEVER A DISCOVERER

And British Columbians Will Ask His Deportation by Wholesale.

The Chinaman Does Not Stay in This Country, But Carries His Gold and Silver Away With Him—The C.P.R. Will Build the Crow's Nest Pass in Any Event—Vancouver Benefited by the Mining Boom—The Boom at Grand Forks—B.C. Mining News.

Judging from the Government reports from the various countries into which the Chinaman has gone as a miner, he has proven, to say the least of it, a very poor citizen, and a public nuisance, and it cannot be long before the people of British Columbia demand his wholesale deportation.

Let us look first at the report of the British Columbia Minister of Mines for 1896. It shows that China Creek, which was at one time very rich in gold, has been completely worked out by the Chinese, who have taken at least \$1,070,000 out of the district.

A writer in The New Denver, B.C. Ledger, talking on this subject, observes: "Naturally we think our great wealth should, as far as possible, be spent by developing and utilizing the resources of our own country, and not that the Chinese should come in and secure the gold and silver to enrich China. This has been done at the present time. On the Empire steamship leaving here last September was a miserable, half-starved looking Chinaman. To look at him you would not think he was worth a cent, but notwithstanding he had from us \$178,000 in gold which he had himself obtained. I know this is true, for he was afraid to leave it with any Chinaman for safe keeping. He could not trust his countrymen, so he asked a friend of mine to look it up in his safe till the steamer left. This man is a fair sample of the whole. He came here under contract and then went mining. He has secured \$178,000 and Canada has had the amount of the duty paid upon the rice he ate and the clothes he wore."

The situation in other mining countries where the Chinese have been admitted is much the same. The report of the Royal Commissioner for Queensland, Australia, says: "Prior to the Chinese invasion a score of policemen spread over this wide district was sufficient. The miner after washing up his gold, left the result in a tin packed in sawdust, and the water's side. He then went back two or three miles, as the case might be, to get some more wash. The Anglo-Saxon drinks and eats and swears, but he will not steal. The moment the first hoards of Chinese arrived the European felt that he could no longer leave his camp where were all his worldly possessions. The weary digger finds when he comes to his humble home that Chinese men are squatting all round his camp, preparing to rob him of his goods."

An extract from a Colonial Government report reads: "They (the Chinese) are to be found from one end of California to the other. They are attracted from the country by Chinamen—many millions—goes to China."

G. P. R. GOES AHEAD.

That Road to Build the Crow's Nest Pass Line in Any Event.

A despatch from Lethbridge, N.W.T., says: "Dan Mann, railway contractor, arrived here this morning. In view of the contemplated building of the Crow's Nest road a staff of the Canadian Pacific Railway engineers, under the direction of M. H. McLeod, has been engaged during the past week in making final selection of various proposed surveys."

The Rossland Miner seems to have information that the C.P.R. will build the Crow's Nest Pass in any event. That journal remarks editorially: "The decision of the C.P.R. to build the Crow's Nest Pass Railroad and take its chances on getting a subsidy afterwards is a master stroke on the part of the directors that great corporations. While the politicians and newspapers of eastern Canada are questioning whether the Crow's Nest Railroad should be built at all, and if so whether it should be a Government undertaking, the railway company calmly goes ahead and builds it, thus getting a better clench than ever on the Dominion, and especially on the Pacific province."

Vancouver Bene-fitting. Vancouver World. The mining boom in Kootenay is affecting Vancouver in a satisfactory manner, the population increasing in a surprising manner. There are fewer empty houses in the city than for years past and rents are advancing. Realty is stiffening rapidly, as is being made daily. There will be considerable building this season.

Persons and Mining. According to a western journal "four persons have deserted their pupils in Kootenay to make filthy lucre out of mining."

W. A. Campbell, formerly an assessor in Toronto, is to run for a seat as alderman in the new Rossland City Council.

Divided Into "Two Friends." On March the Two Friends mine situated on Spring Creek, will declare a dividend of 2 1/2 per cent on all its shares, which have a net value of 30 cents. The transfer books will be closed on and after the 20th.

Coke for Lewistown Smelters. The Union Colliery Company of Comox has entered into contract with the Kootenay smelting companies to supply 1000 tons of Union coke per month for the next 15 months, and even this amount may probably be increased.

A Mine Sailed. There is a buzz of gossip among mining men from Spokane to Rossland about the ingenious, if not scandalous, ending of the boom over the Stanley mine near Chewelah, Wash. It

looks very much like a case of salting. The interesting question is who did the salting?

That's So, Too. New Denver Ledger. Now that the alien labor law is settled, Canadians should see that they are accorded the same privileges in the United States regarding mineral claims that are given to aliens on this side of the line.

WHAT "IN ON IT" IS.

The Phrase Construed to Mean One-Half of a Mining Property. The appellate court at Victoria has decided the celebrated Monitor mining case in favor of Wells, the appellant, and against Petty, the respondent. The case is a particularly interesting one, as it involves a question of ownership. It seems that in May, 1894, Petty discovered a vein of gold in the hills near Three Forks. He met Wells, who told him that he had found some gold and would find the ledge. It is said that before Petty started on the ledge Wells "in on it" meant, stating that it was too indefinite, conceding, however, that there was some sort of contract in which the plaintiff was entitled to something. The case was dismissed with the assessed against plaintiff. Wells appealed to the full court, which has just decided that Wells was entitled to one-half the claim.

Weather Bell Mine. The latest report from the Heather Bell gold mine at Sullivan Creek states that in the new drift, from the main shaft, extraordinarily large bodies of ore have been exposed, showing over 30 feet of solid ore and no sign of the hanging wall. It is doubtful if any other mine in the Kootenay has shown such solid mineral at the same stage of development. It is now shown in the Heather Bell. A second tunnel is being driven, which will largely do away with hoisting necessities. Roy Clarke, the superintendent of the Joele mine, upon being shown the Heather Bell, expressed himself as being confident that the Heather Bell was going to be a big bonanza for its owners.

PENNINGTON'S AWFUL CRIMES.

With a Shotgun He Killed Two People. Then Drove Over One. Osohoit, Ill., March 19—Yesterday Dave Pennington, a worthless character, who had been loafing about here all winter, loaded a shotgun and started out to kill a number of people who had incurred his enmity. He went to the house of Mrs. Johnson, a plasterer, and fired at Mrs. Johnson, seriously wounding her in the shoulder and back. He next emptied both barrels into Luther Traver, an aged citizen, living a block west of Johnson's, killing him instantly. These fired at Mrs. Frank Stoll, a neighbor, and fatally wounded her. Pennington retreated slowly across some vacant lots, leading his gun as he went. He then turned and fired at him, he placed the muzzle of the gun to his forehead and blew the top of his head off, scattering brains and pieces of skull 50 feet. Pennington was undoubtedly insane.

An Historic Competition.

A Large List of Valuable Prizes Offered For Correct Answers to the Questions Asked. Will You Be One of the Successful Winners? The Entertainment is Great and the Outlay Small.

1. In what year was Victoria made Queen of England? 2. In what year did the Battle of Waterloo take place? 3. In what year did the Battle of Quebec occur? 4. In what year did the British North America Act pass? 5. In what year was the British North America Act passed? 6. In what year was the British North America Act passed? 7. In what year was the British North America Act passed? 8. In what year was the British North America Act passed? 9. In what year was the British North America Act passed? 10. In what year was the British North America Act passed?

Grand Forks Boom.

Buildings Reported to be Going Up in All Parts of the New Town. Grand Forks, B.C., March 19.—Buildings are going up everywhere in Grand Forks and its several additions, while every day new buildings are started up in all directions. The past week has been one of unusual prosperity in all branches and the outlook is as encouraging as any.

The three stages arrive here daily loaded with passengers and upon special occasions passengers have been compelled to lay over at Rossburg and return to Grand Forks. In connection with the regular Rossburg route the main line has put on an extra stage from Rossburg in addition to the Marcus route. The extra stage will be run by the British North America and a half in Gold.

After these prizes will follow the middle list. To the sender of the middle list of correct answers in the whole competition will be given the correct sets of answers from first to last, will be given Number One of these.

Number One—a thoroughly up-to-date bicycle, same as No. 1, 50 and 51 in the list. Two to Twenty-Five—Each a set of one or two new leather plates for a bicycle. Twenty-Six to Forty—Each two Dollars in Gold. Forty-one to Fifty—Each a Lady's Gold Watch. Fifty-one to Sixty—Each a Bicycle. Sixty-one to Seventy—Each a half dozen silver plated Forks.

Then will follow the consolation prizes, which to the sender of the last set of correct answers will be given No. one (the bicycle), and on the condition that the last received up one hundred, when each sender of correct answers of any kind will be given the prizes as per this list.

Each person competing must send one dollar for one year's subscription to THE LADIES JOURNAL, which is an old established and widely circulated monthly publication. It consists of thirty-six large pages, with all the latest fashions, hand-drawn, serial and short stories department, our boys and girls, household and domestic, in short something to interest every member of the family. It is well worth the small subscription price even if you do not get a prize; but all the prizes offered above will be given. No charges of any kind will be made from prize winners.

Any person can compete any number of times. Each dollar must be sent with each set of answers and The Ladies Journal will be sent for a year to any desired address.

All five questions must be answered correctly to secure a prize. The competition will remain open from now till the last day of April next.

Prizes will be allowed after date of closing for letters to reach the General Office from distant points, but must not bear later postmark than 20th April. The decision of the publishers of The Ladies Journal must be considered final.

Full names and addresses of winners of prizes will be given in the April number of The Ladies Journal. No winner's name will be published, however, if a request is made not to do so.

Address and make all orders payable to The Ladies Journal, Toronto, Canada.

CELEBRATED MINING MAN

Mr. Sulman of London Passes Through Toronto.

FAMOUS AS THE INVENTOR

Of the Bromo-Cyanogen Process Used in Extracting Yellow Metal

From Mispickel Ores—Such is Now Used in North Hastings at the Deloro Mine—On His Way From Australia to London—Has Been Down to the Deloro Works and Will Sail From New York To-Day—General Mining Topics.

In the person of Mr. H. Livingstone Sulman, of 60 Grace Church-street, London, E. C., there passed through Toronto yesterday one of the most celebrated mining men who have ever visited this country. He was not only the inventor of the celebrated bromo-cyanogen process of extracting gold from mispickel ores, already used with success in Hungary and Australia, and now being employed in the reduction of the arsenic-laden iron pyrites of the Deloro mines, down in Hastings County.

Mr. Sulman, who is a short, slightly built gentleman of 45 years of age, is familiar with most of the gold mining districts of the eastern hemisphere, having visited each in turn, and supervised experiments with his treatment process, or in the interests of his capitalist friends. His practical acquaintance would indicate that he has gone through considerable hardships, and the world was not surprised to learn that he was on his way to England from the pest-diluted fields of West Australia, and the no less dangerous malarial jungles of the Malay Peninsula. He came from the Straits Settlements via Hong Kong, Yokohama and Vancouver, and thence across the continent over the C. P. R.

As he had been hastily summoned to London, he had not had time to take in the mines of the Kootenay and the Lake of the Woods. From Toronto, however, he ran down for a few hours to the Deloro works and here he endeavored to catch the Etruria, which sails from New York to-day.

Being drawn into conversation by the world, and asked concerning the various mining countries he had visited, Mr. Sulman observed that they all had their drawbacks. The famous Coolgardie district in West Australia, for instance, was not indicated by its inferior salty water, from which all the drinking water used had to be distilled, by the heavy transportation charges into the region, by the excessive cost of labor, and by the expensive living, that together had to be a very high grade one before it could pay dividends. Typhoid fever and pestiferous flies were also prevalent, and, in fact, the dissemination of the germs of contagion was to be attributed to the close quarters in which rested on the food consumed by the inhabitants.

Regarding South Africa, Mr. Sulman stated that he considered the Boer troubles were only just starting. He incidentally expressed a strong admiration for Chamberlain's stand in the premises, but believed that the pending difficulties would continue to interfere with the advance of the gold mining industry in the Transvaal.

Though not personally familiar with the gold fields of Canada, Mr. Sulman said that he believed in their future. Letters he had received from English capitalists during his absence indicated very strongly that Canada now has the attention of the mining world, and that she stands first in the list for a gigantic mining boom—particularly since she is free from the drawbacks experienced in other countries.

When questioned regarding the bromo-cyanogen process of extracting gold, invented by himself and now being employed in reducing the Deloro ores, the great expert declined to become communicative. From a medley of scientific terms, used no doubt to mystify the world, the latter gathered that he had discovered the process while experimenting in his London laboratory.

By passing bromine gas through cyanide of potassium he obtained the preparation known as bromo-cyanogen, which is a very powerful solvent in treating mispickel ores. When first used the preparation was expensive, but now it could be manufactured at a cost of 14¢ per lb. and by means of it ore could be treated for 12¢ a ton. One of the chief features of the method was that, being a wet process, it obviated the danger of arsenical fumes leaving the crude arsenic in a wet residual mass.

Continued on Page 16.

HAMILTON and ROSSLAND GOLD MINING CO., Ltd.

This Company owns three valuable mining properties, situated in the Rossland and the Salmon River District, B.C. One, the TENNESSEE, now known and spoken of as the famous TENNESSEE, on Quartz Creek, has ore on the dump ready to ship, and work is being rushed in the tunnel and will soon be in readiness for the tramway required for carrying ore to the railway. The assay on the surface of this mine is \$28 in gold to the ton, exclusive of silver and copper, and as the ledge will shortly be struck at a depth of 180 feet, it is only fair to presume that an assay taken at this depth will be a record breaker. See extracts from the press regarding this magnificent property, and convince yourselves before buying shares.

A limited number of SHARES are for sale at the extremely low price of 15 CENTS, but will soon be raised to 20 CENTS, from which price they will be rapidly raised to \$1 PER SHARE, and are a cheap and excellent purchase even at this figure.

No company has better prospects than the H. & R. Gold Mining Company, as the Trustees who guard the finances see that the shareholders' money goes into their mines for development purposes, and not into the promoters' or officers' pockets.

The following gentlemen are amongst its shareholders, which speaks for the high character and standing of the Company:

C. J. Myles, Esq., President of the H. G. & B. Electric Railway; E. C. Murton, Esq., Dr. Anderson, Major J. A. Y. Preston, E. J. Moore, Esq. of the D. Moore Co., Ltd.; J. Herron, Esq., Dr. G. Sheldon, Birmingham, W. J. Millican, Barrister, of Galt; W. T. Armour, Esq., Dr. R. R. Hopkins, A. Richardson, Esq., Banker, of Grand Valley; Dr. McKeivry, R. W. Biggar, Esq., T. Ramsay, Esq., E. H. Robson, Esq., J. Robinson, Esq., and many other influential gentlemen.

Write the Secretary for full information, also for stock and revised prospectus, which will be gladly given.

OFFICE—30 and 32 Main St. E., Hamilton.

SECOND VICE-PRESIDENT—Ewen Morrison, Esq., M.E., Sandon, B.C. SECRETARY and EASTERN MANAGER—Frederick S. Pope, Esq., late of B. C. WESTERN MANAGER—E. Morrison, Esq., M.E., Sandon, B.C. REGISTRAR and TRUSTEES of COMPANY'S STOCK—Trusts Corporation of Ontario, Toronto. BANKERS—Bank of British North America.

The first operations of the Company will be in proved and dividend paying camps. The Company has under contract for purchase and has made the first payment on three valuable silver claims, the Rosedale, Flower and May adjoining the famous Payne group in the Slocan District of B.C., and four rich placer claims on Canadian Creek, Cariboo, B.C. This is the most valuable combination of mining properties offered to the public to-day, and one from which early and satisfactory returns may be confidently expected. The Company is empowered by its Charter to carry on in all its branches the business of a Mining, Milling, Reduction, Prospecting and Development Company, also to conduct any other business which may directly or indirectly enhance the value of the Company's properties or rights. A limited number of shares are now offered for sale at ten cents each and allotment will be made strictly in the order in which applications are received. For Prospectus, Application Forms, Etc., apply to any of the Company's Agents or to THE CANADIAN MINING INVESTMENT COMPANY, Corner Toronto and Adelaide-Streets, TORONTO.

THE CANADIAN MINING INVESTMENT COMPANY, Corner Toronto and Adelaide-Streets, TORONTO.

WABIGOOON

Thousands, attracted by the wondrous reports of Wabigoon's great mineral wealth, will be exploiting the rich gold fields around the town this spring. Hundreds of farmers are now settling on the matchless agricultural fields at Wabigoon, and people are buying lots at Wabigoon and building houses, stores and hotels, because they see unflinching evidence of the growth of Wabigoon as the coming city of New Ontario.

We are now Selling Lots. For \$20 and \$25 in the Lakeside addition to Wabigoon which will be worth four or five times as much before summer. The property lies between the C.P.R. main line and Wabigoon Lake, and no lot is more than a few hundred feet distant from either the C.P.R. or the Lake. Terms are \$5 cash with order for each lot.

We Have Agents in many towns who are selling these lots, and we want agents in other towns where we are not represented. Our new townsite subdivision will be placed on the market early in April, and lots will be offered to first buyers at \$50 each. Orders for lots in the Lakeside property will be received now at \$20 and \$25 per lot. Prices will be advanced about April 1. If we have no agency in your town and you want a lot, or if you want agency, write for maps and papers filled with interesting information about Wabigoon. Write to R. S. KING, Treasurer.

THE WABIGOOON LAND AGENCY LTD. 17-19 Jordan St., Jordan Chambers, Toronto.

PROFIT SURE---AND NO RISK THE MINES DEVELOPMENT CO.

AUTHORIZED CAPITAL \$2,500,000. DIVIDED INTO 2,500,000 SHARES. FOR BEST RESULTS. The Company's plan is to acquire undeveloped properties—The Company will keep a staff of prospectors in the field discovering and locating claims—in this way, valuable properties will be secured at the very lowest prices—The Company will buy developed properties or mines of approved value—The Company will develop such properties as are considered by its experts to produce quick and best results—The Company will sell such developed properties as it is unable to develop as mines—The Company's management is a capable one—Four practical mining men on the Board of Management is a warrant that the Company's property will be among the most lucrative—The Company's plan of operation—The Company's rights will be carefully guarded—and all are on the same profit-sharing basis.

100,000 SHARES ARE NOW ON THE MARKET AT 10 CENTS A SHARE FULLY PAID UP AND NOT FURTHER ASSESSABLE.

# TEXADA MINING COMPANY LIMITED.

## AUTHORIZED CAPITAL, \$250,000.

Divided into 1,000,000 shares of the par value of 25 cents each.

PRESIDENT, J. M. MCKINNON, Esq., President The Golden Cache Mines Company, Vancouver, B.C. SECRETARY, JOHN McQUILLAN, Esq., Vancouver, B.C. CONSULTING ENGINEER, THOMAS H. FRASER, M.E., London, England.

This Company is formed for the purpose of working the SILVER TIP Mine and ALMA Claim, situated on Texada Island, B.C., and of acquiring and dealing in Mining Stocks and properties in conformity with the "Imperial Act," 1862. REPORTS: The property has been thoroughly examined for the Company by Mr. John Wolcott, M.E., of Seattle, Washington, and Mr. Thomas H. Fraser, M.E., of London, England, the latter having had large experience as a mining expert in Australia, New Zealand and South Africa.

I am instructed to offer TREASURY SHARES AT PAR, 25 CENTS, proceeds of sales to be used solely as working capital for further development. NOTE THE SMALL SHARE CAPITAL.

THE PERSONNEL: The personnel of the Company is an assurance that its affairs will be managed in an able, conservative and economical manner. The development of the property is being vigorously pushed and is under the personal direction of Mr. Thomas H. Fraser, M.E.

The Directors believe that with a few months' active work the SILVER TIP Mine will pay dividends. Maps, Prospectus and any information cheerfully supplied. Also shares in all leading mines at very lowest prices. Interests in Prospects and every kind of information obtainable from

eral on a property before he could obtain it as mining land.  
"Second, that there should be a given length of time allowed to have surveys made, and a given length of time for the money to be put either for lease or patent, and the work to be performed to date from the date of the application."

On March 20 Mr. W. A. Brown of H. J. & W. A. Brown, 17 Toronto-street, leaves for Wabigoon to do surveying work in the Manitowish country. Any one wanting work done may communicate with him.

### AUSTRALIAN MINERS.

Half of them are willing to come to B.C. Gold Fields.  
J. H. and R. R. Tighe, two prominent mining men of Australia, arrived in this country a few days ago, says the Spokane Spokesman, having come over on the Miowera on its last trip. They are bound for the gold fields of British Columbia, and state that many other Australian miners are preparing to come to this country as the prospects of mining in Australia are too great to make it either a desirable or a profitable pursuit.  
The Messrs. Tighe have been for the past three years around the mining camps of Colorado and Idaho, and they do not hesitate to say that both of these camps are declining. The thermometer has gone up 111 degrees in the past two years and, although a good deal of gold is still being dug out, the boom is a thing of the past. Fever, dysentery, scarcity of water and cost of transport have all tended towards its breaking up. The climate in summer is tropical in the extreme, the thermometer going up to 111 degrees in the shade and near the diggings natural shade is unknown.  
The mining laws there are very stringent, almost entirely preventing prospectors from doing any good. If a man locates a claim of 25 acres, he must at once put four men at work, one man to every five acres, at the worth \$142 per thousand at the diggings.  
They state that if British Columbia were advertised in Australia half the miners would come over here, especially if the mining laws were given, which enable any one to hold a claim without having a million back of him. The mining laws there are freezing poor men out, and it is certain that if the Government were to advertise the country in Australia good men would come here who understand mining and would help to develop the country.

### Ontario's New Gold Town.

Mr. Robinson, a well-known merchant of Stratford, has just returned from Wabigoon and predicts an extraordinary rush for the Wabigoon gold fields with the opening of the season.  
Mr. T. A. Kennedy of Toronto will have the contract for the erection of a block at Wabigoon, which will be built to suit the requirements of a bank and the postoffice. The other stores are intended for general business purposes.  
The first church to be erected at Wabigoon will be on the opposite side of the division of the Wabigoon Land Agency.  
Mr. E. F. Harbottle, one of the popular officers connected with the Niagara line of steamers, has gone to Wabigoon to take the custody of his new steamer which is to ply on the lake and to the Manitowish.  
The Fort William Daily Journal says: "Information received from the west states that the C.P.R. is making preparations for building a station at Blackwater Creek (opposite the Lake side property), and they have a surveyor at work laying out the property."  
A petition which will contain signatures of several hundred owners of property in and about Wabigoon, is being prepared to be sent to the Postmaster-General, asking for the establishment of a postoffice at Wabigoon, and the Wabigoon Land Agency has offered to fit up one of the stores in a new block, rent free, for the department.

### SHOULD THE TEXADA TRADE BE RE-EVALUATED?

The Free Press last evening published an account of a visit of Mr. Douglas to the far-famed Texada Island, in which there is a paragraph of deep significance to the people of this city. Up to the present Nanaimo has been naturally and rightly the base of supplies for the mining operations on Texada Island, but Mr. Douglas has been frank enough to state that Vancouver is not only making strong efforts to obtain the trade of that island, but has actually already diverted some of the trade that had previously been held by Nanaimo. If Nanaimo desires, and we confidently presume our citizens so desire, to retain not only the present trade, but to obtain the great prospective business of the near future, this city and

### GOLDEN TEXADA.

The Van Anda and Raven Mines Are Making an Excellent Showing.  
The General Indications of the Island Are Most Encouraging.  
The tug Vancouver having on board Col. E. G. Prior, M.P., Edward and J. B. Hewitt and J. L. V. Spratt, returned from Golden Texada last evening, bringing down most encouraging news of the glorious prospects of this island.  
In speaking to a Free Press representative about the island, Mr. Douglas remained over to make a close inspection of the several mines in operation, so that he could furnish a detailed report. If this report is favorable, and there is every reason to believe it will be, it will mean the influx of a large amount of capital to Texada. The statement was made that before the end of 1897 Texada Island would be a close rival, even if it did not excel, the now famous Yukon.

### Slocan-Cariboo Mining and Development Company, Limited.

In another column of this issue will be found the preliminary announcement of the Slocan-Cariboo Mining and Development Company (Limited), a new company which has been formed to develop the rich fields of British Columbia which are the immediate fields of the company. The Slocan-Cariboo Mining and Development Company is a new company which has been formed to develop the rich fields of British Columbia which are the immediate fields of the company. The Slocan-Cariboo Mining and Development Company is a new company which has been formed to develop the rich fields of British Columbia which are the immediate fields of the company.

### A Successful Company.

Attention is called to the advertisement of the Hamilton & Rosalind Gold Mining Company, which appears in another column. Their "Tennessee" Mine, which has been so favorably spoken of by the press, will shortly be in readiness for the transportation of the ore to the coast. This mine is itself, and considering the small amount of capital invested, is a very successful one. A limited number of shares have been placed on the market, and it is announced that the directors have received a bid for the mine, which is being promptly refused. The shares are being snapped up rapidly, and it is necessary, a further issue at the rate of 25 cents per share will be placed on the market. This is one of the best and safest investments that can be made, and it is a very safe investment if you want to secure a cheap block of stock.

### Interesting Account of a Visit to This Famous Island.

Mr. C. S. Douglas of Vancouver, who has just returned from a trip to Texada Island, gave The News-Advertiser the following account of his visit:  
The attention now being paid to that district is remarkable, no less than 15 people having gone up on the Comox on her last trip and about as many came down, and in a very short time there will be quite a large camp established. This will be of great benefit to Vancouver, as most of the companies purchase their supplies here. Formerly many bought their supplies in Nanaimo, Victoria and even Seattle, but they are beginning to realize that Vancouver is the natural distributing centre for the district, and many Mr. Blewitt, manager of the Van Anda mine, among the hundred owners of property in and about Wabigoon, is being prepared to be sent to the Postmaster-General, asking for the establishment of a postoffice at Wabigoon, and the Wabigoon Land Agency has offered to fit up one of the stores in a new block, rent free, for the department.

### Large Importation of Wine.

Mr. McConnell, wine merchant, Colburn-street, took into his wine vaults yesterday one of the largest shipments of wine that has ever been brought into Toronto. The shipment includes some of the finest ports, sherry, and champagne from the most celebrated vineyards in Europe. Consignees should not fail to sample Mr. McConnell's large and varied stock.

### Hay's Nominations Confirmed.

Washington, March 19.—At the Executive session of the Senate this afternoon, John C. Hay's nominations were confirmed. Mr. Hay's nominations were confirmed. Mr. Hay's nominations were confirmed.

### Against the Traffic Association.

New York, March 19.—Judge Wallace and Lacombe of the United States Circuit Court of Appeals, have decided in favor of the railroad companies in the suit of the Traffic Association. The Traffic Association has filed an application for an injunction restraining the companies from operating under the joint traffic agreement.

### A New Postal Guide.

The Queen's Printer has just issued a Canada Postal Guide, revised to date. It contains complete, reliable information on postal matters throughout Canada. The Guide is published by the Queen's Printer.

### AN EARLY CYCLOPE.

Delia, Texas, March 19.—Special telegram received to-day state that Northern Texas was swept by a wind-storm last night that at times developed the proportions of a cyclone. The worst damage reported so far occurred at Denton, where over one hundred houses were struck by the storm, and all more or less damaged. It is believed the storm in the vicinity of Denton caused damage to the extent of \$100,000. Jack Simmons was fatally injured. It is thought great damage to life and property has been done in the locality of Denton.

### The Bicycleers' Union.

Toledo, March 19.—The International Union of Bicycle Workers has elected the following officers: John Mulholland, Toledo, president; E. G. Henry, Cleveland, vice-president; W. Chas. Rausch, Toledo, secretary and treasurer. The next meeting of the union will be held at Buffalo, Toledo was designated as the headquarters of the union. A constitution providing for the death, sick and strike benefits, was adopted. A label was also adopted, which will in the future appear on all union-made wheels.

### Independent Foresters.

One of the best indications of the growth of this order is the increase in new courts. On March 19th no less than five new courts were reported to the Supreme office of the order. The Executive have organized at work in the Province and are completing this beautiful order. At which three candidates were initiated. Assistant Supreme Chief Ranger Thomas McCall of this city held his regular monthly meeting on Tuesday evening, at which three candidates were initiated. Assistant Supreme Chief Ranger Thomas McCall of this city held his regular monthly meeting on Tuesday evening, at which three candidates were initiated.

### Misses to a Bicycleist.

Arthur C. Cushing lives at 120 Pacific-avenue, Toronto Junction. He is a student at Victoria College, yesterday morning while riding his wheel in College-street he collided with a milk wagon and fell on his head. The shock turned his brain for the time, and he became violent. It took several men to hold him, while he was being attended to by Dr. Spence. He was taken to the Western Hospital, and remained unconscious for some time.

### Thirteen Horses Burned.

Orange, N. J., March 19.—Michael J. Cody's livery stable was burned early this morning. Thirteen horses perished in the flames.

### Costs a Little Less and is a Little Better.

SMITH & SCOTT  
Lst. M. E. Smith & Co., 6 & 8 Bay St. Toronto  
Sole Man'rs. Supplied through the Trade

### The Chartered Accountants.

The Secretary of the Institute of Chartered Accountants, in London, has issued a notice of a meeting of the Council of the Institute last evening that already the success of the recent applications and a number of enquiries. The degrees of the Institute will be conferred on the 27th of the month. The Institute of Chartered Accountants is a body of accountants and auditors, and its members are entitled to the title of Chartered Accountant.

### A Naval Enterprise.

The Toronto Window Cleaning Company is a new and novel institution that has been started by Mr. H. C. Hough. The company is a new and novel institution that has been started by Mr. H. C. Hough. The company is a new and novel institution that has been started by Mr. H. C. Hough.

### Rev. Charles Goodwin Wanted.

Wanted: Rev. Charles Goodwin, a minister of the Gospel, who has been absent from his duties for some time. He is a man of high character and ability, and his services are much needed. He is a man of high character and ability, and his services are much needed.

# WE BUILD BICYCLES EXCLUSIVELY

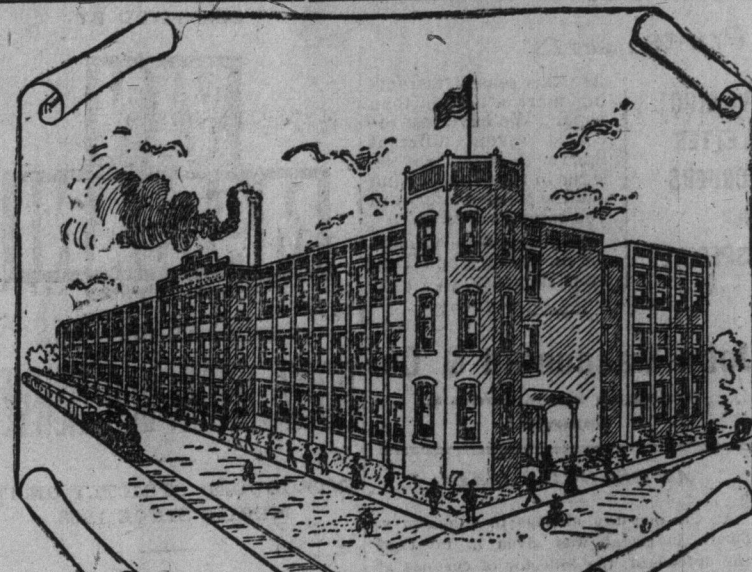

TOLEDO OHIO.

TORONTO, ONT.

2500 Skilled Operatives. Capacity 350 Finished Wheels per Day.

THOMPSONVILLE, CONN.

## We Employ the Strongest Aggregation of Bicycle Talent in the World. 32 Mechanical Engineers and Experts

(EXERCISING CONSTANT CARE AND SUPERVISION)

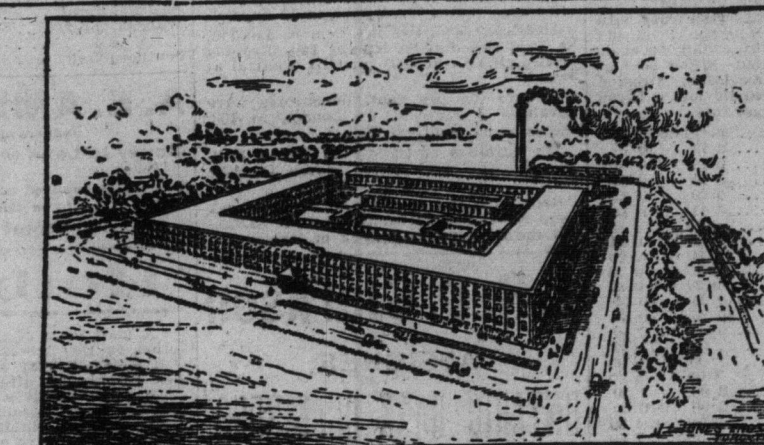

Have originated on the Cleveland the most popular improvements ever devised, such as large tubing, Burwell dust-proof bearings, narrow tread, cross thread tires, Cleveland unstretchable chains, wood and aluminum combinations (the strongest made), and many other distinctive features. All our improvements are our own. They are neither stolen, leased nor borrowed.

**Models 27-28**

**\$100**

Constructed in limited numbers to supply the demand for a fastidious element of society that exacts something more than ordinary in workmanship, material, and in elegance of design and finish. These models are pronounced to be the nearest attainable perfection in wheel-building, and fully reflect the numerous and costly changes and improvements only possible with manufacturers having enormous capacity, large experience, and exceptional facilities.

That they are "Favorites of Fashion" is attested by the ready sales to prominent members of society.

WESTFIELD, MASS.

### MODEL 29 - \$100

Track racer and light roadster. Track weight, 19 1-2; road weight, 21 1-2. The sensation of the New York and Chicago Shows. Built on entirely new lines. It has captured already this season 20 American records. In the California Road Race, out of 104 starters it finished 1, 2, 3, 4, and in the first ten wheels to finish there were nine Clevelands.

**Models 22-23**

**\$75.00**

We positively guarantee these to be the highest grade wheels in the world listed or sold at less than \$100. Dust-proof bearings, unstretchable chains, improved tires, chain guards, and other important features, will make these models greater favorites than ever.

No need to risk life, limb and health on the cheap conglomerations of assembling shops or cheap imported wheels when you can Buy a Cleveland at \$75.00. Our reputation as highest grade manufacturers will be fully sustained on Models 22-23.

## H.A. LOZIER & CO. SALESROOM 169 YONGE-ST

**RECEIVED THEIR DESERTS.**

Judge McDougall sends Lizzie Tucker to the Penitentiary for Three Years - Other Shorter Terms.

The grand jury which served at the Court of General Sessions yesterday made its presentation to Judge McDougall, having visited the Jail, Central Prison, the Asylum, General Hospital, Mercer Reformatory, Industrial School, Grace Hospital and the Victoria Hospital for Sick Children, all of which were found to be in a very satisfactory condition. The Children's Hospital came in for special praise, the jurymen saying that their visit to this institution was a revelation to them. In the Asylum there are 700 patients, and only 707 beds.

George W. Hurley, convicted of assault on his father-in-law, was yesterday sentenced to six months in the Central by Judge McDougall.

Elizabeth Tucker, convicted of theft, who has a long criminal record, was sent to Kingston for three years.

**DISHONESTY IN BUSINESS.**

Bishop Sullivan Gives a Scorching Address on this Rampant Evil of Commercial Life.

At the noon service in St. James' Cathedral yesterday Bishop Sullivan gave an address on "Dishonesty." Said he: "Someone has used the phrase, 'that rotten thing called commercial morality.' I do not endorse it; it is an indiscriminating term. If commercial morality had been the rotten thing that the phrase indicates, it would have fallen in on itself in ruins, like a tumbling house. It has been preserved from being this wholly rotten thing by a set of men of high tone, honor and integrity, who have been active in the promotion of business, and who have given stability to our social system and have lent their name to the name of merchant and broker. Despite their honorable dealings, frauds are practiced in business in the present day in which men, according to the customs of trade, neither blame themselves nor are severely censured by others.

"When we come down to details, brethren, how many examples we find of dishonesty! Stoles and pieces of cloth are marked with quantities which the manufacturers know to be unobtainable; false home-made goods, ticketed with foreign labels, and made to pass muster under a lie, never spoken, but acted every staple commodity of food subject almost in every case to adulteration, though not so universal as in years gone by, when Penrynspe told us that chalk, lime and plaster were sold to poor people for bread.

"Brethren, the whole structure of commercial life is pervaded and honey-combed by this spirit of dishonesty, almost the whole of it from summit to base.

"It will be told, doubtless, that business is business, and must be carried on recognized business customs and principles, that is, that dishonesties are essential to the successful conduct of business. Everyone does them;

competition is keen, we must live, and we cannot live without practicing it. Everyone does it; so much the worse, piracy universal, therefore no harm; dishonesty essential - yes, essential, by all means, I grant you, if a business man's motto be that of the ancients, 'Get money, honestly if you can; if not, get it in whatever way you can acquire it.'

In conclusion, the Bishop made an earnest appeal for honesty in all things.

**The Proposed Dairy Inspection.**

Editor World: In perusing the columns of your paper of March 10 my attention was drawn to your editorial and other matters of interest on this vexed question, the milk supply of Toronto. After reading carefully the leaflets and schedule issued by the Medical Health Office I came to the conclusion we were under desperate rule. I ask the question, is tuberculosis so prevalent in this province as to demand such proceedings? or is it the outcome of over-zealousness or the imagination of our people? It is that question that should come to the rescue, and assist in stamping out the plague, by appointing properly qualified veterinary surgeons, paying the same, making a home-to-home inspection, destroying all the cattle having the disease, repossessing the owners, and closing their lands to any representative of the British House of Commons they would at once confirm their actions in closing their ports to our live stock. They would conduct the disease and be transported that legislative measures had to be applied, in order to carry out these drastic measures proposed by our Medical Health Officer, and concurred in by our Local Board of Health. I do not think that anything more damaging to our live stock interests has ever been done in this matter, and these measures to be carried into effect, and which seem to aim chiefly at the poor man with few cows.

A man owning four cows has to submit to a man with twenty pays no more. Can any fair-minded man come to any other conclusion in the face of those facts than that the poor man is being discriminated against, either by the professionals or large producers, or possibly by the State? Our professionals are the most numerous and most to be dreaded microbes with which we are surrounded to-day. Our life's blood is being slowly extracted by the black-coated round our legislative halls, looking for some appointment whereby they may become parasites to prey on their more unfortunate brethren.

Who among us can give a reason for all this hubbub and red tapers? I see no use in alarming the public in this manner, especially when it has been demonstrated again and again that our country is one of the cleanest, as far as tubercular disease is concerned. If our milk is so contaminated that such drastic measures are required, it stands to reason that our butter and cheese must be affected and carry the bacilli to the Britisher, who may demand the price for such products.

Another question, How do the producers of cream escape this test? Are the cows in a healthy condition and their milk in a fit state for human food while the test is being applied? If not who pays for the loss of that milk? I am wondering how the Canadian has escaped. Possibly some one will be at our Legislative halls with a measure bringing her under the same law as the cow. It is an undoubted fact that poultry are more susceptible to tuberculosis than the cow. Time and space

will not permit us going minutely into the experiments that have been conducted by scientific men in Europe and America. I would suggest that sealed samples of milk be tested from the different dairies, and if bacilli be found in sufficient numbers to cause alarm then apply the test by Government analysts and doctors, men to whom entire confidence can be placed, and not by every Tom, Dick and Harry appointed by our Health Officer. What would be the sense of disturbing the equilibrium of a healthy herd of cows by such tests? Good proof can be given of many deaths having occurred in the human family by the Koch tests, which is the same. I believe it to be cruelty to animals, and our Humane Society should aid us in seeing that it is not practiced on healthy animals. John McArthur.

**Hon. John Sherman and Canada.**

New York Sun, March 17.

It appeared by last Sunday's Sun that the New York correspondent of The London Times had published an interview with the Hon. John Sherman, in which the Secretary of State repeated certain ideas held by him when he explained his political manoeuvres. In view of more recent events Mr. Sherman's opinions upon Canada and its relations to the United States call for particular notice. "I have already stated my views against the annexation of Canada," the report goes, "My dream for the remote and permanent future of the North American continent is the union of the Republics of Canada, United States and Mexico, but I would not take a step to a war which would bring about such a result."

Secretary Sherman's book, from which these expressions of last week were substantially a reproduction, was published two years ago. Since then, or, to be more precise, on the 14th of June, 1894, the Republican party, in its National Convention at St. Louis, adopted as its own, and as a part of its affirmation of the Monroe doctrine, the following broad principle of American aspiration:

"We hopefully look forward to the eventual withdrawal of the European powers from this hemisphere and to the ultimate union of all the English-speaking part of the continent by the free consent of its inhabitants."

Thus Mr. Sherman's old notions have been superseded. Continental union, so far as North America is concerned, is a principle of the Republican party. The last election made it a national doctrine. It is the duty of the members of the Administration, in which the Secretary of State is the most conspicuous figure after the President, to set aside all preconceived objections of their own and private talent to making Canada one with this Republic. Among the members of the new Cabinet even brother Sherman, the veteran, seems to be too free.

**A Keeping Critic.**

From The Hamilton Spectator.

We are going to carry the war into the "African" syndicate.

The Ontario Government is using Blue and White to play it on the green.

What Blue and White said was published in black and white, and was then dead.

When it comes to stealing gold mines at the rate of a township a haul, it is time to call the Ontario Government crowded down.

What with the assistance of Messrs. White and Blue, and the "African" complexion of the syndicate, that gold mining crowd should be able to "show color" in abundance.

It's Just This Way...

Windsor Salt. It is the only salt made in Canada by the "Vacuum" process.

TORONTO SALT WORKS CITY AGENTS.

A SQUEEZE IN CORN. Montreal Bulletin.

It seems that a Toronto firm has effectively cornered the market for yellow corn for the time being.

The market for yellow corn was depressed at 24c, and even higher rates in some instances.

Both Montreal and Toronto houses appear to have been in the market at the moment it looks as if settlements will have to be made at a pretty steady advance upon 24c.
