TERRIFIC STORM VISITS HAMILTON

Telephone and Street Car Services Out of Commission - Barns Burned.

J. WEEDEN KILLED

Falling Scaffold Buried Engineer - Richard Gregg Overcome by Heat.

HAMILTON, Ont., Aug. 22.—This city was visited yesterday by one of the worst electrical storms in years. In many places telephones, poles, chimneys, orchards and fences were leveled to the ground. In the city the storm was mostly confined to a heavy rain, with terrific flashes of lightning, which put the telephone service out of commission and delayed the street and radial car lines.

On the mountain top, however, the storm assumed the proportions of a hurricane; the large barn of D. Gallagher, valued at \$4000, was struck by lightning and destroyed. Two brick houses belonging to D. A. Gallagher and Raymond Gallagher were struck by lightning, but owing to the heavy downpour the fires were quenched, but not before the chimneys had collapsed. A fire belonging to Peter Murray on the adjoining farm was struck by the same bolt and leveled to the ground. Fences in the vicinity were torn loose and scores of young trees were lifted up by their roots and thrown in all directions.

James Weeden was accidentally killed yesterday afternoon when a scaffold which was blown loose by the wind, fell upon him. Weeden, who was 35 years of age, was a stationary engineer and had charge of the service of a New Mercury Mills plant, for which Controller Churns has the contract. The accident was unwitnessed. Weeden is survived by a wife and child.

Scarcity of Labor. Scarcity of labor has been assumed as the cause of the delay in the completion of the Toronto-Hamilton highway. Controller Jutten yesterday declared that when the necessary secured men for the work they would be induced to leave by higher wages being offered elsewhere.

H. J. Waddie, president and general manager of the Canadian Drawn Steel Co., was struck by a structure on last night while attempting to cross the corner of Herkimer and MacNab streets. He was removed to the hospital, where it was ascertained that he had received severe injuries in the back.

Three Men in Casualty List. Yesterday's casualty list contained the names of three local men, one of whom is Sgt. Leslie R. Blay, reported seriously wounded. The other two, suffering from shell shock, and Pte. Thos. Bryer is slightly wounded.

After Better Days. The principal discussion at the meeting of the beach commissioners last night was the question of the adequate service to be rendered by the G.T.R. A committee was appointed to represent the city in a conference with the railroad officials, and if nothing is accomplished...

ANTI-BLACKLIST CLAUSE SCRUTINIZED BY ALLIES

Contention That It Violates Treaty Provisions May Be Made.

WASHINGTON, Aug. 22.—The so-called anti-blacklist provision in the administration ship bill authorizing customs officials to withhold clearance to any ship refusing American cargo except for the reason of being fully laden, has attracted the attention of the allied embassies, and they are making inquiries which may result in representations to the state department.

The provision was inserted in the senate at the last moment because of penalties attached to ships which carry blacklisted cargoes. The allied embassies may contend it violates treaty provisions.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

(Continued From Page 1.) donian front, the general situation in the Balkans is one to be viewed with optimism.

Recent developments on the Saloniki front have abundantly vindicated the judgment of ex-Premier Venizelos of Greece, and even King Constantine is showing signs of repudiating his obstinate refusal to lend active aid to the entente powers. Bilgar aggression has reached a point Greek troops are at last in clash with the invaders. While such reports are probably premature, it is generally recognized that Greece is in an impossible situation and must decide quickly.

Rumanian participation in the war on the side of the allies is again said to be imminent; in fact, a definite decision is reported already reached, with only waiting until the tide had clearly turned in the allies' favor to the entente allies, as popular demonstrations have frequently proved, but the cabinet has been sharply divided, hence inaction.

In the house of commons last night, Major Baird of the British Aerial Board made the interesting statement that 35 zeppelins have been destroyed by the allies since the war began and that Britain's air defenses have improved to a point that may well make the Germans pause before trying further raids.

Winston Churchill, always striking in his views on war policy, has come out with the proposal that Britain take control of the food supplies of the Ottoman empire in view of the admitted grain shortage. Recent Ottawa despatches have suggested the probability of further commandeering of wheat along the line taken last year.

"I think in the dim distance we can see the end," said David Lloyd George, British Minister of War, in the house of commons yesterday, during a speech on the extraordinary change in the past couple of months French and British, he stated, had captured positions on the Somme front, however, that in order to bring the war to a successful conclusion, all the resources of the allies would be required.

Between Martintup and Bazentin, British troops made another important advance yesterday, capturing a hundred yards of enemy trenches, in the Leipzig salient, near Thiepval, fighting was so intense that the enemy was forced to abandon the position, and that captured troops now are within 1,000 yards of Thiepval. At the other end of their line, in the same salient, the British troops are near Courlelette.

On the French front the situation is unchanged, according to official reports. An artillery duel is in progress on both flanks of the Somme and at Fleury in the Verdun section. Bombing attacks by the enemy in the Vaux-Chapire Wood were repulsed.

Further ground has been gained from the Turks by the Russians in the Caucasus, who have occupied considerable territory west of Lake Van, in Armenia.

BURIED SOLDIERS' PET CROW WITH FULL MILITARY HONORS

Sportsmen's Battalion Turned Out in Full Force to Take Part in Extraordinary "Ceremony."

CAMP BORDEN, Aug. 22.—When the members of the 180th (Sportsmen's) Battalion paraded in full force tonight to take part in the funeral of a pet crow, they staged one of the camp's strangest spectacles. Practically all the battalion, including the brass band, participated in the "ceremony."

The crow had met an untimely end at the hands of one of the officers because of its intruding in the mess tent. It was to show the battalion's resentment of the officer's rash act that the unit buried the bird in such an impressive manner.

LITTLE SON TELLS HOW MOTHER DIED

Verdict of Criminal Negligence in Death of Mrs. Bastable.

JURY ADDS RIDER Legislation Should Prevent People Learning to Drive in Parks.

"That Daisy Bastable died in Grace Road from injuries received by criminal negligence in being struck by an automobile driven by Albert Anderson for the McGuire man, Dr. Geo. W. Graham of Avenue road, conducted the post mortem and found that the injuries were such that the woman probably never regained consciousness after being struck. The neck of the body had been severely injured. The skull had been fractured, the left eye socket had been broken, the left leg was fractured and the pelvic bones were broken."

The accident occurred in High Park near the 12th Brigade road. Daisy Bastable, the 13-year-old son of the dead woman, gave the following evidence: "I was walking with my mother and sister, they went into High Park and sat on a bench facing the road with another bench in front of them. He heard a man shout, 'Look out' and had managed to get out of the way of the automobile, but his mother could not and was struck against the tree that was right at the back of the bench in which they were sitting. His sister and cousin were thrown and one of them was hurt. Robert McKay, foreman of High Park, saw the accident, having crossed in front of the car, he saw it being driven by Mr. McGuire, and was not going more than three miles an hour. It was apparently running into a hydro pole at the side of the road when he saw the car. The car then turned toward the tree, and the woman was struck. She was forty feet between the road and the tree. The 12th Brigade is coming from a woman was between the two benches and was crushed against the tree. Along with the car, she moved back the car and rendered what assistance he could."

Brakes Were in Good Shape. A Visick, motor expert for the crown, gave evidence regarding the condition of the car, which he had removed from the scene of the accident and had tested out. Everything was in good shape as far as the brakes and engine were concerned, and it was his opinion that the car could be stopped in half the distance from the road to the tree. In answer to the question as to whether the evidence might be summarized as gross incompetence being the cause of the accident.

FAREWELL TO SOLDIERS AT DEPOT LAST NIGHT Members of Canadian Field Artillery, Home on Last Leave, Go Back to Petawawa.

Toronto said good-bye last night to another group of sons who will shortly leave for training elsewhere. A special train of ten cars took the members of the 12th Brigade, Canadian Field Artillery, home on last leave, back to Petawawa, where the brigade holds itself in readiness to go overseas on short notice.

The train scene that Toronto has witnessed so often, the boys all brave and cheerful, succeeding in lightening the occasion with cheers and songs. A band to hand to say good-bye smiled a brave farewell to the train drew out and then retired quickly with heavy hearts.

The 12th Brigade is composed of the 47th, 48th, 49th and 53rd Batteries.

STILL ASK ARBITRATION No Weakening is Evident, But Decision Must Come Soon.

WASHINGTON, Aug. 22.—Eight presidents of important railway systems, who have been designated to draft the railroads' reply to President Wilson's appeal that they accept his plan for averting a nation-wide strike, were in almost continuous session today and tonight without solving their problem.

Late tonight three of the committee-men, Hale Holden of the Burlington, R. S. Lovett of the Union Pacific, and Daniel Willard of the Baltimore and Ohio, discussed the situation with President Wilson. They declined to talk about their view.

Although some of the sixty or more presidents are showing a disposition to accept the plan, there was a general feeling tonight that a definite answer to President Wilson's demand cannot be much longer postponed. The president is understood to have indicated that he desired his proposals to be fully debated among themselves, but he has failed so far to reach any concrete plan likely to win approval.

Although the president would discuss the situation tonight, they are insistent upon an arbitration of the matter with the employees. The conference continued there was less talk of action which would lead to a strike, but some of the executives are expected to fight to the last ditch any plan which would force an eight-hour day upon the roads without some form of arbitration.

MAJOR SYDNEY WILKES MENTIONED FOR BRAVERY Brantford Officer Fighting With British Forces in Egypt.

Special to The Toronto World. BRANTFORD, Aug. 22.—This morning's casualty list contained names of two more Brantford men who have been mentioned for bravery and Driver Art H. Lynn. Pte. EXPLOSION IN FACTORY WAS CAUSED BY FIRE

Workers Were Warned and Loss of Life Not So Great as Feared.

WORKS WERE DEMOLISHED Number of Firemen Were Killed When One of the Engines Burst.

LONDON, Aug. 22.—The munition factory in Yorkshire, in which an explosion occurred yesterday was demolished, but the loss of life was not as serious as first reported, says an official statement received this evening. The explosion was preceded by a fire, which gave sufficient warning to enable most of the workmen to escape. The statement follows:

"The explosion in the Yorkshire munition factory began with a fire outside one of the smaller magazines, which exploded. This was followed at short intervals by further explosions until the largest magazine exploded and caused the greater part of the damage. The loss of life is not so serious as it first seemed, due to the fact that the fire which preceded the first explosion, gave sufficient warning to enable most of the men and all of the women workers to escape."

"The munition works were virtually demolished and some works close by were set on fire and burned down. With this exception the neighboring works escaped substantial damage. A quantity of rolling stock on railway sidings was destroyed by fire and the bursting of one of the fire engines caused the death of a number of firemen."

Two battalions from Niagara Camp will take part in the funeral procession. Yesterday the first service was held in St. George's Church, Montreal, where the governor-general was represented by Major Sir Chad Gunning.

WILL YOUR WIDOW WRITE A LETTER LIKE THIS?

Will your widow have to write such a letter as follows received recently from one whose husband after taking on insurance refused to continue it?

"My husband met his death on May 22nd by accidental drowning and as I am a poor widow of five children left without any means of support, I would think you if you would advise me whether I am entitled to the insurance."

"A heart-breaking letter to answer," you say. It is indeed.

BUT WHAT ANSWER WILL YOUR WIDOW GET?

Ah! that's the question! Have you a policy? Is it in good standing? If not, man, see to it! See to it today! For to-day you may be insurable, to-morrow you may not be!

GREEKS ENGAGED WITH BULGARIANS

Unofficial Reports That Fighting is in Progress Around Seres.

ATHENS IS AROUSED

Arrival of Russians Has Caused Big Sensation in Greece.

LONDON, Aug. 22.—Greek troops have been fighting the Bulgarians in the vicinity of Seres since Sunday morning, says an Athens despatch to The Exchange Telegraph Company. The Greek commander at Seres has called to arms all the reservists in that locality, says the despatch. The fighting is of a stubborn character as indicated by the fact that a large number of Greek soldiers have been killed.

A despatch to The Evening News from Athens, filed yesterday, says the resistance of the Greek troops at Seres has created great excitement in Athens and that the newspapers there are referring to the "heroic division of Seres." It is understood at Athens, the despatch continues, the Greek army headquarters ordered the Seres division to retire. Orders have been given that all further hostilities must be avoided.

It was stated in a Paris despatch yesterday that the Fourth Greek Army Corps had taken back from Seres as well as from Kavala and Drama. Seres is an important city of about 30,000 population, 48 miles northeast of Saloniki. It is on the Bulgarian left wing, which is sweeping toward Kavala, an important port gained by the Greeks in the Balkan war, and long desired by Bulgaria.

Sensation at Athens. The correspondent of The Morning Post at Athens sends the following under date of August 19: The Bulgarian offensive along the whole Macedonian frontier has created a great sensation here. Yesterday's prolonged cabinet meeting discussed at some length the situation thus created for Greece, and three generals commanding Macedonian divisions, who are attending the annual army council here, were summoned to the cabinet meeting to give their views.

The cabinet finally decided to avoid further developments before arriving at definite decisions. Nevertheless it is not concealed in ministerial circles that the new complication resulting from this further Bulgarian invasion is not at all what the Zaimis Cabinet supposed it was called to power to deal with.

Another Athens despatch says: The arrival of the Russians has created a profound impression here. Even the Royalists, who have consistently opposed participation in the war by Greece on the side of the entente allies, seemed almost stunned by the news that Russian troops had arrived to take part in the campaign which under other conditions might have been taken by the Greek army.

The general feeling here is that the bringing of Russian troops has dispelled definitely the dream of a greater Greece which was conceived a year and a half ago by the then Premier, Venizelos, who carried Greece well on the way toward entrance in the war with the entente allies.

HIS HEART DAILY WEEK END LEAVE ONLY ONCE A MONTH AFFECTED

"Fruit-a-tives" Soon Relieved This Dangerous Condition.

R.R. CROSSING WATCHMAN HELD FOR NEGLIGENCE

William Walsh Accused of Failure to Lower Gates—Train Wrecked Milk Wagon.

632 Gerrard street east, Toronto. "For two years I was a victim of Acute Indigestion and Gas in the Stomach. It afterwards attacked my heart and I had pains all over my body so that I could hardly move around. I tried all kinds of medicine, but none of them did me any good. At last, I decided to try 'Fruit-a-tives.' I bought the first box last June, and now I am well, after using only three boxes. I recommend 'Fruit-a-tives' to anyone suffering from indigestion."

Special to The Toronto World. CAMP BORDEN, Aug. 22.—Arrangements are being completed whereby 14 of the battalions in camp here will be given four days' leave once each month instead of week-end leave twice monthly. These 14 battalions are the 14th, Haldimand, 132d Norfolk, 147th Grey, 272d, 500, 199th Hildesley, 164th Sudbury and Nipissing, 252d Sudbury and Nipissing, 119th Perth, 149th Lambton, 161st Huron, 168th Oxford, 142d London City, 11th Berlin, and 186th Kent.

Col. S. C. Mewburn, A.A.G. of this military district, stated today that this arrangement is being made to enable battalion members whose home towns are a long distance from Camp Borden to get four clear days at home once each month, and also to save the double railway fares. The battalions from Toronto and Hamilton will continue to have week-end leave twice a month as at present, which gives all battalions a total of four days at home each month.

The foregoing new system of leave for soldiers whose homes are at a distance is the general wish of the men in the battalions concerned. The previous arrangement was found by the soldiers to be very inconvenient and too expensive, owing to the long journeys they have to make.

Hon. P. B. McMurtry, under-secretary of the militia department, Ottawa, paid a visit to Camp Borden today. He was accompanied by Brig.-Gen. H. M. Elliott, master-general of the ordinance. An inspector of the various brigade areas and the general staff and dental clinic was made by Hon. McMurtry. At 2.30 in the afternoon he attended and spoke at the ceremony of presentation of the 147th Grey County Battalion. The presentation took place at the battalion drill area.

William Walsh, 159 Lippincott street, gateman at the G. T. R. crossing at Royce avenue, was arrested at his home last night by Acting Detective Todd, on a warrant charging him with criminal negligence. Shortly after 5 o'clock Tuesday morning, David Muir of 228 Oaker avenue, was driving over the Royce avenue crossing in his milk wagon, when he was struck by a G. T. R. train. The wagon was completely demolished, some of the parts being carried a distance of 82 yards by the engine. The driver escaped with a few slight bruises. The horse was uninjured. Muir declared that Walsh did not lower the gates when the train was coming. The police investigated the case, which was followed by the arrest.

HAMILTON, Wednesday, Aug. 23.—James Weedon of 347 Cumberland avenue, was accidentally killed yesterday afternoon when a scaffold which was pulled from among the wind fell upon him. Weedon, who was 25 years of age and a stationary engineer by trade, was in charge of a new Mercury Mills plant, which Controller Church has the contract for.

While no one noticed the accident, the scaffold was heard to fall and Weedon was pulled from among the debris. He is survived by a wife and child, and was a member of the Stationary and Holisting Engineers' Association, and also of the 83d Cross Knights. Dr. Stevenson will hold an inquest this morning.

William Elliott of Uxtonville in Markham is said to be the first man in this section to finish harvest, winding up the season's operations by the end of Saturday. The yield is said to have been fairly good, while the oats were of light weight. Farmers are busy threshing all over, and Saturday will see harvest practically all cleaned up.

TWO KILLED, ELEVEN WOUNDED ON LIST

Casualty Statement Bears Fifteen Names of Toronto Soldiers.

DEATHS UNOFFICIAL

War Office Hasn't Notified Relatives of Ptes. Fairclough and McCann.

Fifteen names of men who went overseas with Toronto units were published in yesterday's casualty list. Two have been killed in action; two are ill, and 11 are among the wounded.

Pte. E. R. J. Fairclough, 48 Hawthorne avenue, Rosedale, was killed in action on Aug. 11, according to word received by his parents, although official notification has not yet been received from Ottawa. He was a student before enlisting, and joined a second contingent battalion. He has been in the trenches for a year.

Pte. A. J. McCann, reported killed in action, went overseas with the 15th Battalion, and had been in the trenches less than three months. His next of kin are in Redcliffe, Alta.

Sergeant Wounded. Sgt. A. Hozack has been wounded. He enlisted last September and went overseas in January. He came to Canada six years ago and was married here, but his wife is at present in Ireland. He was admitted to the hospital at York on Aug. 14, suffering from a fractured clavicle.

Corp. Alex. Jerritt, 1125 Ossington avenue, has been shell shocked and was admitted to No. 3 Divisional Rest Station on July 17, but has since returned to duty. Before the outbreak of war he had been serving in Bermuda with the Royal Canadian Regiment, and has been at the front ten months.

Sgt. C. M. Hill, 41 Gladstone avenue, is reported as being dangerously ill and has been admitted to No. 3 Casualty Clearing Station. He enlisted with the 83rd Battalion last fall, after undergoing an operation in order to pass the medical officer. He was born in Toronto and formerly was employed in the parliament buildings.

Corporal Believed Dead. Lance-Corp. W. Bugshaw, missing since June 1, is now believed to have been killed. He enlisted in Toronto in February, 1916, and reached England in August of the same year. He was formerly employed as a silversmith at the Standard Silver Co. He has two brothers in uniform and his next of kin lives in Sheffield, England.

Private Is Ill. Pte. R. J. Nash, 292 Jones avenue, who left Toronto about five months ago with the 14th Battalion, is reported as being seriously ill. After arriving in England he was transferred to another unit. His next of kin live at Gormley, Ont.

PROHIBITION ONLY CAUSE OF DEFEAT

Ferguson and McGarry Claim Hydro and Nickel Unimportant Issues.

LIQUOR MEN ACTIVE

Government's Spokesmen Declare Campaign by Liquor Interests Won Fight.

Hydro and nickel had "not a particle" to do with the "Southwest Toronto" landslide, in the opinion of Hon. G. Howard Ferguson and Hon. T. W. McGarry yesterday. Prohibition, they said, was their one and only stumbling-block. To it, and it alone, they attributed their defeat. Everything else was just "hysterical screaming by one of the newspapers." The liquor men had worked against them, and had defeated them, that was, in the opinion of these ministers, the whole matter in a nut-shell. "The result demonstrated that the sober thinking men were not alarmed or stampeded by hysterical talk about nickel or hydro," said Hon. Mr. Howard Ferguson. "If they had responded to that criticism, you would have found more than fifty per cent. of the normal vote polled, and you would have found strong condemnation of the government in localities where these two issues were not befogged and overshadowed by the liquor question. There is no doubt that the carefully prepared campaign of the liquor men was responsible for the result. They have been working hard for this for some time and an analysis of the vote shows that where ever their influence dominated, Mr. Dewar secured his majority. The liquor interests were taking their revenge. I do not take the result as conclusive of any condemnation of the government."

"I'll give it to you frankly," said Mr. McGarry. "My opinion is that Southwest Toronto is the wettest riding in the province. Neither nickel or the hydro had anything to do with the result. The provincial treasurer. Here and there you could find a man who talked hydro or nickel, but it was the prohibition issue that did it. We have known for some time what the liquor interests had set out to do," he said, intimating that the landslide was not altogether unexpected.

PRIVATE STACKHOUSE DIED UNEXPECTEDLY

Member of Irish Battalion Was Suffering From Bronchitis.

The death occurred unexpectedly at the base hospital yesterday morning of Pte. G. Stackhouse of the 208th Battalion. Pte. Stackhouse had been admitted to the hospital two weeks ago suffering from bronchitis, and no cause has been ascertained for his sudden death. His wife was living close by at 110 Sumach street, but the hospital authorities were unaware of her address. She was out time later that she learned of her husband's death. Private Stackhouse was born in St. John, N.B., 38 years ago, and served with the 1st Canadian Dragoons. He was then employed as groom by Major-General Lessard. He enlisted with the 208th Battalion in May, and has been in the hospital two weeks. Funeral arrangements will be completed by the 208th. Besides his wife, he is survived by three little children, the eldest of whom is only six years old.

INFANTILE PARALYSIS SUSPECT IS WATCHED

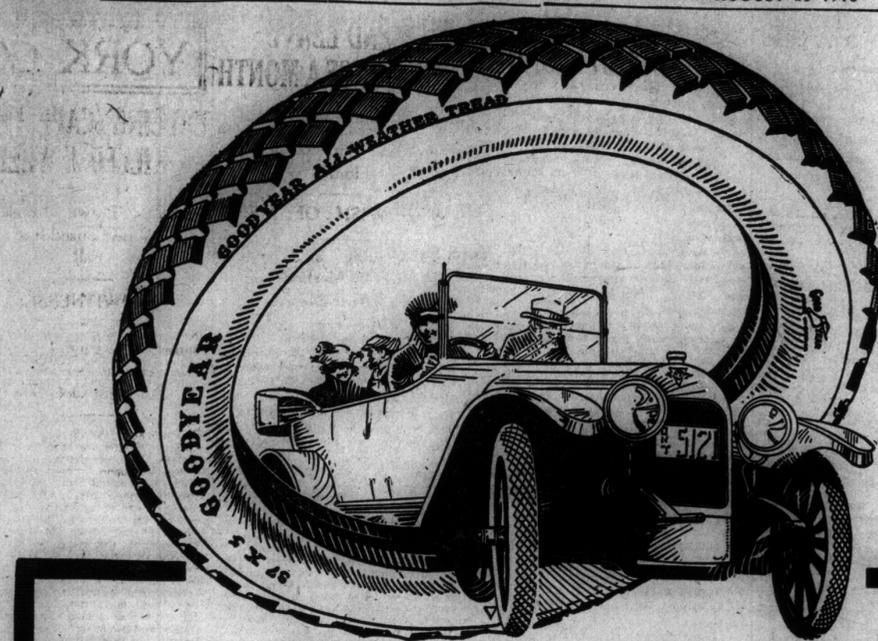

Officials Believe Child Contracted Disease at Resort Frequented by New Yorkers.

A suspected case of infantile paralysis has been discovered in the Oakwood district of the city. The sufferer is a little three-year-old girl who was visiting this summer at Alexandria Bay, N.Y., among the Thousand Islands. This place is a great resort for New Yorkers, and it is presumed that there she came in contact with some child exposed to the disease in New York.

The symptoms are not severe, and it may turn out that it is not infantile paralysis that she is afflicted with. In any event, however, Dr. Hastings, M.H.O., says there is no need for alarm as every precaution is being taken. This is the only case in the city.

CONDUCTOR FINED.

Sam Meyers, street car conductor, who hit Samuel Stockman on the head with a fare box on a Queen car, was fined \$10 and cost \$30 days in jail when he appeared in the police court yesterday.

Two Savings for You

"Made in Canada" Lowers the Price of Goodyear Tires

Goodyear Quality Lowers the Cost per Mile

Goodyear Tires cost you less because they are made in Canada—they are not imported. Therefore when you are offered imported tires at the same, or higher prices than Goodyears do not assume that they are of the same or higher quality.

If all tires gave equal mileage and service, Goodyears would still have the advantage of most imported tires by being lower in price. But Goodyear value does not stop at price—rather it does not begin at price. Long mileage is the first aim of Goodyear factories. Excess mileage is the aim of Goodyear Service Stations. We believe that there is not another tire manufactured today that will give so low a cost-per-mile as Goodyear.

For in the United States where these tires are manufactured, most of them sell for less than Goodyears. Now here is the most important point—though these tires sell for less than Goodyears in the United States, Goodyears are the biggest selling tire in the States.

Goodyears are now giving extraordinary mileage in Canada. You can make your decreased tire-cost-per-mile offset your increased gasoline-cost-per-mile.

There is an actual cash saving of considerable import because Goodyears are made in Canada. Compare the prices given here.

Hard and Prolonged Efforts Needed to Crush Prussian Militarism.

Premier Viviani, who is minister of justice in the present cabinet. In an address before the general council of the department of Creuse, held at Gueret, he said:

"Although victory is certain, it will require hard and prolonged efforts to break Prussian militarism and prevent recurrence of its crimes. There can be no peace before the attainment of victory, before adequate reparation is made and before justice triumphs." In an address before the general council of the department of Aube

BIENVENU MARTIN, THE FORMER MINISTER OF JUSTICE, SAID:

"The French will not submit to the peace of the German Emperor, who boasted he would force his adversaries to accept peace on bended knees. They will accept only such a peace as assures them legitimate reparations, as well as their independence and security, and they will bear patiently all sacrifices in order that, in conjunction with the efforts of their faithful allies, such a peace may be imposed."

CONNAUGHT PARK RACES Open Next Saturday

OTTAWA, Aug. 22.—With the summer meetings at Connaught Park just a few days off it opens on Saturday next, Aug. 26, and continues until the following Saturday, Sept. 2, when the season of local sportsmen will shift back to the ponies. "Done" sheets are being looked up, but not yet ready for publication.

Performances of many horses on outside tracks are being followed closely by the Ottawa racing community. The racing wind up this week, after which there will be the semi-annual invitational race for the big meet at Connaught Park. Several special cars for the occasion will be provided at the local track yesterday.

A special train from Fort Erie is due here Thursday, and one from Saratoga is expected tomorrow or Wednesday. By Saturday when the Connaught Park local club will start its season, there will be five or six hundred horses at the local track.

A staff of sixty men launched operations at Connaught Park toward the erection of new stables. They have been at it steadily ever since, and will have two or three new barns in readiness for the latter part of this week. If possible, accommodation will be rushed up for readiness by the first of September. The list is already filled to overflowing, applications continue to reach the secretary, and it is possible that the horses who wish to ship to Ottawa will be accommodated. Day Connaught Park all this week. In addition all the available stalls adjacent to the main stable have been placed for the meeting, as well as the fair grounds at Aymer. There is no doubt that the big meet at Connaught Park will be the most interesting and progressive made last week on the new steeplechase jumps and they, too, will likely make a hit with lovers of thorough racing. Many horses worked out yesterday, and some fine gallops were reported. Every morning this week will also see some preliminary training in preparation for the big meeting, which opens on Saturday.

Gala Day and Gally Head, the Seagraves juveniles, which finished one two in the double event at Windsor Saturday will be here; also the Dress and all the other famous ones from the stable of the Ontario Jockey Club president, John Lumsden, which finished one two in the double event at Windsor Saturday, will likewise be among the contestants here. Mr. Lumsden incidentally has entered Juanna II, Bessie Us, and, in fact, his complete stable.

Stock at Highest Point in Years—Reading Leads Railway List.

NEW YORK, Aug. 22.—The volume of business on the stock market today was larger with few exceptions than on any other day this year, the overturn reaching 1,800,000 shares.

Reading led the railway list on its gain of 1/2 point, the balance of the list holding back until the final hour, when that entire division, including the transcontinentals, westerns and northwesterns and coalers registered gains ranging from 1 to 3 points.

Altho the speculative element is not strong in the Toronto stock market at the present time and the hot weather has retarded trading on a large scale, yet the local issues are showing the effects of the bull market in New York and on small trading yesterday some moderate gains were registered.

CHICAGO MARKETS. J. P. Bickell & Co., Standard Bank Building, Chicago, Ill., Aug. 22.—At today's session 655 boxes were boarded; 750 sold at 19 1/2; balance at 19 1/2-16.

MINING MARKET DULL BUT HELD STEADY

Newray Gained a Point, Making New High Record—West Dome Higher.

The hot weather was an adverse factor in the mining market at the Standard Stock Exchange yesterday, the volume of business being small and the market dull, with little change in prices.

The fact, however, that the stocks are holding as well as they are during the admittedly dull period of the summer months speaks well for the underlying condition of the market, and when the usual big fall trading develops it ought to supply some interesting features.
