The Italian consul-general and his staff are busy day and night issuing passports to registrants, who are then examined at the Italian hospital in Bloomsbury to ascertain if they are medically fit.

All the London Italians are enthusiastic for war, but their departure is bringing to an acute stage the water problem at the Savoy and many other fashionable hotels and restaurants. The manager of the Savoy thinks the only solution is to employ women. Some waitresses are already earning \$25 weekly in wages and tips.

AUSTRALIANS ABOUT THE TURKS

Brilliant Charge After Twelve Hours on Defensive

ENEMY'S LOSS 7,000

Britishers Suffer Heavily, But Nothing in Comparison—More Men, Ships and Guns Arriving Daily For the Allies

London, May 28.—In a despatch to the Times from Mudros the allies are described as "boastfully optimistic" concerning the operations in the Dardanelles, owing to the daily arrival of reinforcements of troops, ships and guns.

The Turks are said to be short of heavy ammunition and to be using shrapnel filled with pebbles as well as shells with an inner casing of wood instead of more effective projectiles.

Men from the front report that the Turks on May 21 attempted to capture Australian positions at Gaba Tepe. Describing this attack the Times correspondent says: "The first onset began at 3 a. m. and for twelve hours the enemy attacked in series columns in a series of desperate assaults, yet at 4 p. m. the Australians were able to signal that they were 'holding easily' and at three o'clock they counter-attacked, driving the enemy back with the bayonet and pursuing him in the open to his encampments, with great slaughter. The Turks lost 2,000 killed and 5,000 wounded. The Australian casualties, though heavy, were light in comparison.

LOOKS LIKE THE WORK OF A TORPEDO
Liverpool, May 28.—While none of the crew of the American steamer Nebuchadnezzar saw a submarine, Captain Greene of the steamer says:—

"We were in the boats about an hour. The ship seemed to be heaving by the head and we decided to stay close to the stern. We had about three days' provisions, arrived, while none of us saw a submarine, the chief engineer believes he saw the wake of a torpedo on the fore-castle deck, which was a large, dark, oval-shaped object, about 10 feet long and 2 feet wide, and it disappeared in a few moments."

Coolshavers, Ireland, May 28.—Captain Hamilton, who was damaged by a fishing boat, says that he saw a submarine yesterday morning flying the American flag. The boat was followed by the steamer while calling for help. The fishermen saw two periscopes soon after the boat then they lost sight of the steamer.

Signs Point to Deliberate Attack on the Nebuchadnezzar by a German Submarine
At a meeting of the council of the board of trade today a communication was read asking for the support of the board in the matter of an increase of pay for one department of the civil service. The council thought the present an inopportune time to increase salaries.

Two resolutions from the British, Ontario board of trade were approved. One had to do with the consideration of the fee losses of the dominion by the Canadian Commission of Conservation, the other was a recommendation to the federal and provincial governments to give preference to ex-soldiers in the matter of public offices, irrespective of party allegiance, provided they possessed the qualifications.

The Minister of Railways replied to the C. W. R. elevator that no vote had been placed in the estimates this year for the work.

The Postmaster-General acknowledged the receipt of the council's recommendation in favor of a three-cent stamp.

The matter of an amendment to the postal system in Canada, which would allow United States vessels having auxiliary power to participate in the benefits of these licenses, was referred to a committee to enquire into.

Major Guthrie Shot

Fredericton M. P. Among Wounded; Probably in the Famous "Orchard" Fight

Fredericton, N. B., May 28.—Major Percy A. Guthrie, member of the N. B. legislature for York, who was recently promoted on the battlefield to commander of the 10th Battalion, has been wounded in action.

The Militia Department at Ottawa today notified his wife here that he had been wounded on May 28. It is expected he was shot while leading his battalion in the famous orchard fighting at Festenberg, where the 10th were on the right of the Canadian line and did wonderful work.

Major Guthrie was promoted to command the 10th Battalion when its former commander was killed. Several Fredericton men are in the 10th, and in their letters home have given high praise to Major Guthrie.

W. T. H. Fenety, of the Unique Theatre, Fredericton, is in receipt of the following letter under date of May 6 by his son, Ernest, who has been promoted to the rank of corporal in the 10th Battalion.

"We have been back from the trenches for a couple of days now, and are in high spirits. We had six days' rest, six nights on it, and I can tell you we are all glad to be back. You have no idea what a hell it is in the battle zone. You should see some of the holes these cursed Jack Johnsons make if they hit a church or house, it's good bye to it."

NOT IN FAVOR OF INCREASE JUST NOW
At a meeting of the council of the board of trade today a communication was read asking for the support of the board in the matter of an increase of pay for one department of the civil service. The council thought the present an inopportune time to increase salaries.

Two resolutions from the British, Ontario board of trade were approved. SENT DEBRIS A MILE UP IN AIR
Eye Witness Tells of Fearful Explosion That Wrecked the Princess Irene
London, May 28.—A naval officer who saw the explosion of the steamer Princess Irene, says:—

"The ship was moored seventy yards from the point on shore where it was standing. Suddenly I noticed a little white plume of smoke, which was followed by a great cloud of dust, smoke and flame rose a mile high. Amidst the smoke the eye could see huge pieces of the ship bursting into small pieces as they rose. The ship did not go down, it went up, distributing its remains in dust and jagged fragments over a radius of many miles.

There is no trace of a harbor steam launch which was moored alongside the ship, and it is assumed these five must be added to the list of dead. One possible survivor of the explosion is in a hospital suffering from shock. He was picked up in the water some time after the explosion, but has not been learned whether he was a member of the Princess Irene's crew or was blown out of some of the boats nearby. Only one body has been recovered. Two barges which were alongside the Irene were demolished.

EARLY RESULTS OF THE RECRUITING CAMPAIGN
Eight Men Offered Here This Morning, 16 at Sussex—Rev. Mr. Haughton Has Offered Services
Those interested in recruiting in St. John are of the view that last night's meeting in St. Andrew's rink will prove fruitful, and that as a result of it many men will join the colors. This morning eight presented themselves at the recruiting office in the armory, and will probably take the medical test this afternoon. Reports from other parts of the province continue satisfactory. At Sussex yesterday some sixteen were enrolled and several applications were received from French-Canadians in Gloucester and Restigouche counties.

At Westfield
An immediate result of last night's meeting at Westfield, at which Sergt. Stairs and Rev. R. J. Haughton spoke, were two prospective recruits and a prospective nurse. One of the men who will come to the city to take the medical examination is a South African veteran, and the other is a younger man equally eager to go. A young lady who before the meeting asked for information as to nurses, went up afterward and offered her services, and will be put in communication with the proper authorities.

Rev. Mr. Haughton said he was not asking anyone to do what he was not himself willing to do, as he had offered his own services. This evening he and Sergt. Stairs will speak at Jerusalem, where Rev. Mr. Watson, the Methodist minister, will occupy the chair.

Personal
Major E. C. Weyman returned to Sussex on the early train this morning.

The 28th Battalion conducted a route march this morning, returning to the armory by way of Carleton Order. They paraded in light marching order.

Russians on Defensive

But Make Enemy Pay Dearly For His Success

Believed That Germans Alone Lost One Hundred and Six Thousand Men in Western Galicia and Austrians Fared Even Worse

Petrograd, May 28.—Though forced to remain on the defensive in Galicia, the Russians are inflicting tremendous losses on the Austro-German armies. An official statement shows that the Teutonic allies are still on the offensive along the 300 mile front from the Baltic to Bukovina. On the San front and between the Dniester marshes in Galicia the titanic struggle between the Russians and Teutons continues.

The Austro-Germans have paid heavily for their successes in Galicia. According to estimates made here today the Germans alone lost 106,000 in Western Galicia. The Austrians losses are believed to have been much heavier.

Allies Succeed; Though Fighting Hard
Paris, May 28.—The French War Office reports:—

"The counter attacks of the enemy against the positions taken by us near Angres continued last night, but were repulsed.

"At Ablain, St. Nazaire, our troops yesterday followed up their offensive movement with distinct success. They became masters of the cemetery and took possession of all the group of houses nearby, and especially of the park, which had been strongly protected by the enemy. Subsequently they took by assault the German trenches along the road which runs from Ablain St. Nazaire to Moulins Malon to the southeast.

"Here they were subjected to a violent counter attack during the night, but they held all the ground in their possession and they inflicted heavy losses on the enemy. At the break of day they moved out in an easterly direction and took possession, in the direction of Souchez, of an important German work called the Fort Des Quatre Bouquettes. Here the fighting was very spirited, and the enemy suffered a serious check. The number of prisoners reported yesterday evening is considerably more than 400 and includes seven officers. We captured in addition about twelve machine guns.

"This morning at the taking of the fort, we made some more prisoners. The exact number has not yet been reported. We also captured some war material.

"The bombardment reported yesterday by the Germans from Scirie and Bouchoncourt continued all night long, but it was not followed up by an infantry attack.

"In the environs of the forest of lePrete we delivered an attack last evening which resulted in our gaining ground. At the same time we took about sixty prisoners, including several officers. There has been nothing new on the remainder of the front."

Taking Bank Deposits

FILL UP THE RANKS

Why this spathy in New Brunswick in the matter of filling up the ranks of the 25th Battalion?

Can it be that there are still people who do not realize what German victory would mean for Canada and the world?

Or is it that the spirit of the Loyalists is losing its driving force in this generation?

Are the men from New Brunswick who have already died on the battlefield to be unavenged? Is it nothing to us that our wounded are bayoneted to death by German murderers, and that men we have known are dying of poison from the deadly gases used by the Germans in defiance of all the usages of civilized warfare?

Not merely the 25th Battalion but other battalions must be recruited in New Brunswick. The safety as well as the honor of the province demands it.

THE WAR NEWS

Canadians will rejoice to learn of the gallantry of the Australians, who at the Dardanelles stood fast hour after hour and held the Turks at bay, and at the last hurled them back in defeat, and pursued them with the bayonet to their entrenchments.

The Italians have advanced further into Austrian territory and have been victorious in such skirmishes as have taken place. They have yet, however, to encounter the enemy in force, and as both Austrian and German armies are being rapidly moved to the danger point we soon expect to hear of a great battle.

The news from the Russian front is still very conflicting. The Austro-Germans have undoubtedly made substantial gains, but Petrograd reports deny that the Russian situation is at all desperate. In the west the French, British and Belgians hold their own, and the French claim to have gained some ground. As one reads the news from day to day there is borne upon the mind more and more strongly the magnitude of the task before the armies and fleets of the Allies. More and more men and munitions must be provided. The whole British Empire must be organized for war, and war to the bitter end.

PRISON REFORM

The humanizing tendency in prison reform in the United States, appears to be having excellent results. It is said that when the warden of Sing Sing recently asked for sixty-six volunteers from among the 1786 prisoners to go to Auburn prison, because Sing Sing was overcrowded, not one responded, and it was necessary to draft the required number. The fact is explained by saying that the new order of things at Sing Sing is pleasing to the men. Another illustration comes from the New Jersey State Prison. An old man who had refused to accept a parole a year and a half ago, because he declared himself innocent, and would not go out without a free pardon, was granted it recently, but refused to go for some days because the deputy of the wash house where he worked was short of help, and only when the necessary help was provided did he go forth "feeling out of place and homesick." Commenting further on the change that has come about in prisons where humanity first has replaced safety first the Boston Globe says:

"At Jackson, Mich, the men are making their plans and are preparing to construct for themselves a dormitory, which sounds as attractive as those given to educational institutions by beneficent alumni. They will have apartments for four and six men each, with shower baths, and with thin window screens instead of bars between the men and outdoors and liberty. Long-term prisoners work on prison farms far from the walls and without guards. Others handle the business administration of the prison and its industries, with a profit of thousands of dollars annually to the state. The prisoners receive daily more newspapers than the Boston Public Library receives and the papers are not censored. When the men leave Jackson on parole or at the end of sentences they succeed because they are not handicapped and have learned more than self-control while in prison."

Last night's recruiting meeting should bear good fruit. The appeals made were direct and forcible.

The name of Sergeant Michael O'Leary, whose death in battle was announced yesterday, but who had won the Victoria Cross by his daring achievement in a previous engagement, will stand high in Britain's roll of honor, and the story of his courage and devotion will live in her history. "Here's one for

O'Leary," may well be the cry of every Irish soldier as he comes to grips with the enemy.

The king's bugles are calling. Who does not answer?

Will the coalition government in the United Kingdom adopt the policy of conscription? Not if there are enough ready volunteers for Kitchener's new army.

The Honorable Robert Rogers appears to have heard something drop. In due time the Honorable Robert will hear himself drop, with a considerable thud.

For some time past the Kaiser does not appear to have dwelt upon the assurance of his partnership with God in this business of remaking the map of Europe.

Praise for Canadian soldiers in the trenches is on every lip. Those who went first to the front blazed a trail the later arrivals may be relied on to follow, if need be to the death.

Mr. F. E. Smith has been knighted and made solicitor general in the new British ministry. At first report it appeared that he was left out. The new cabinet has held its first meeting.

The Canadian universities have been doing more this year than confer degrees. They have given a band of heroic soldiers to the defence of the Empire. It is an ever memorable year in their history.

If the Roumanians should decide to join the Allies the collapse of Austria, despite German aid, could not be very long deferred. The present war will doubtless end the Hapsburgs as well as the Hohenzollern dynasty. Both have lived too long.

"I wish I were a man," said a lady on King Square yesterday afternoon. "I wish I were a man," said another lady on King Street last evening. Each added that she expressed the wish because if she were a man she would go to the front and strike a blow for the Empire.

It is perfectly clear that with a new enemy over a million strong on the south the Austro-Germans cannot muster as effective a force against the Russians as heretofore. At some segment of the circle closing around them there must eventually be found a weak point for overwhelming attack.

The trade of Britain goes on and is practically uninterrupted. Meanwhile Italy has cut off another of the sources of German supply. Command of the sea gives the Allies a tremendous advantage. When the Dardanelles have been forced their advantage will be greater still, and that is coming.

COLLEGE WOMEN MEET

The annual meeting of the University Women's Club was held at the residence of Mrs. C. McN. Steves, when officers for the ensuing year were elected as follows: Honorary president, Dr. Margaret Parks; president, Mrs. F. G. Goodspeed; first vice-president, Miss V. R. Johnson; 2nd vice-president, Mrs. C. McN. Steves; treasurer, Miss Helen Corbett; secretary, Miss Audrey Bullock. It was decided to continue Red Cross work during the summer months.

WHEN DINNER COMES

One Ought to Have a Good Appetite. A good appetite is the best sauce. It goes a long way toward helping in the digestive process, and that is absolutely essential to health and strength.

Many persons have found that Grape-Nuts food is not only nourishing but is a great appetizer, and children like the taste of it and grow strong and rosy from its use.

It is especially the food to make a weak stomach strong and create an appetite for dinner.

"I am 57 years old," writes a grandmother, "and have had a weak stomach from childhood. By great care as to my diet I enjoyed a reasonable degree of health, but never found anything to equal Grape-Nuts as a standby."

"When I have no appetite for breakfast and just eat to keep up my strength, I take 4 teaspoonfuls of Grape-Nuts with good rich milk, and when dinner comes I am hungry. Will if I go without any breakfast I never feel like eating dinner. Grape-Nuts for breakfast seem to make a healthy appetite for dinner."

"My little grandson was sick with stomach trouble during the past summer, and finally we put him on Grape-Nuts. Now he is growing plump and well. When asked if he wants his nurse or Grape-Nuts, he brightens up and points to the cupboard. He was no trouble to wean at all—thanks to Grape-Nuts."

Name given by Canadian Postum Co., Windsor, Ont. Headed "There's a Reason," "Wellville," in pks. "There's a Reason." Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Build Manhood From Childhood

The dark parts of grains are the parts that build muscle, bone, brain, nerves and blood, hence are absolutely essential to childhood diet.

Fat boys seldom are tall and you rob them of elements essential to mental and physical growth, you lessen their chances of health and success. As well encourage the cigarette habit or drug them.

The time to build manhood is in childhood. The food of childhood largely determines the health of manhood.

Dr. Jackson's Roman Meal is specially designed for child building and relief of indigestion and constipation by an M. D. of wide experience, for years, a teacher of diet in one of the largest medical schools on this continent.

Nature's three richest grains, flax, rye, wheat, unrefined as nature made them (except that the flax is decolorized) make Roman Meal—its nourishes better than meat, keeps the bowel regulated and the body well.

A bowl of porridge properly made in a double boiler (or boiler set in basin boiling water) without stirring is the most delicious and nourishing breakfast known. At all Grocers 10 to 25c.

What's the Use?

A darkey running a ferry across the Alabama river was accosted by a poor white stranger who wanted to cross, but hadn't the wherewithal to pay the fee.

Pete scratched his wolly poll, perplexedly, then queried: "Doan yo' got no money at all?"

"No," was the dejected reply. "But, it doan cost yo' but three cents to ride across."

"I know, but I hain't got three cents." After a final inward think, Pete remarked: "I done tell yo' what, wif, what's not got three cents an' jes' as well off on dis side ob de ribber as on de other"—Exchange.

A famous baseball player has a young sister who is very proud of him, although she is not very familiar with the national game. Having spoken of him one day to a visitor she was asked by the latter what position her brother played.

THE TURKISH ARMY

Bucharest, May 3.—(Correspondence)

—The Turkish Ministry of War places the total of men under arms at present at 1,222,000.

More conservative estimates in Constantinople give the number as about 800,000. This includes 200,000 Christians who are being used for digging trenches and building railways, roads and bridges.

The actual fighting men are divided into five armies. The first, encamped at Adrianople and around Constantinople under von der Goltz, is said to be about 100,000 strong. The second, under Djemal Pasha, aims at Egypt with 150,000 men. The third is located around Bagdad with 50,000. The fourth, in the

HAD INDIGESTION FOR OVER 10 YEARS.

ALMOST DESPAIRED OF EVER GETTING WELL.

Indigestion is one of the worst forms of stomach trouble. The stomach becomes upset and you have a raw, debilitating feeling in it. After a meal you feel that you must get rid of that nasty, bilious, burning sensation. It is not necessary for you to be troubled with indigestion if you will only try that old and well-known remedy, Burdock Blood Bitters, which is a combination of nature's best known roots, herbs and barks for the cure of all stomach and blood troubles.

Mrs. Mary MacKay, Hunter's Mountain, N.S., writes: "I was troubled with indigestion for more than ten years. I tried several doctors' medicines claiming the power to cure, but all without success. Having heard of the many cures effected by Burdock Blood Bitters, I decided to give it a trial. After taking two bottles I was completely cured. My appetite which was very poor is now good, and I can eat most everything without any disagreeable feelings.

I can strongly recommend B.B.B. to anyone suffering from indigestion."

B.B.B. is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

PEOPLE OFTEN SAY

"How Are We To Know When The Kidneys Are Out of Order?"

EASIEST THING IN THE WORLD!

The location of the kidneys, close to the small of the back, renders the detection of kidney trouble a simple matter. The note of warning comes from the back. The kidneys become overtaxed and fail to do their work at nature's call. Backache is the signal sent out by the kidneys the minute they become overtaxed. Those who heed the warning when it first comes, usually have but little trouble.

The danger lies in delay. Doan's Kidney Pills stimulate the action of the kidneys, and enable them to perform their duty perfectly.

Mrs. Grete Murphy, Lower Ship Harbor East, N.S., writes: "I have used Doan's Kidney Pills in my family with great success, and don't think there is a better pill for the kidneys. I was very miserable with my back, and could hardly get about. I got a box, and tried them, and found that they were really good, so I took in all about six boxes, and soon found my back cured, and my kidneys as well as ever."

Doan's Kidney Pills are 50c per box, 3 boxes for \$1.25; for sale at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

MORNING NEWS OVER THE WIRES

Seven thousand Italians raided Henry Bourassa's newspaper office (Le Devoir) last evening. They were dispersed by the police before any serious damage was done. The cause of the raid was an article which appeared in the paper saying that Italy had entered the war on the side of the Allies.

Too Much Indors Causes HEADACHE. That miserable feeling is due to impure blood resulting from winter's indoor living. Dr. WILSON'S HERBINE BITTERS.

THAT TIRED FEELING

Relieved by Hood's Sarsaparilla, Which Renovates the Blood.

That tired feeling that comes to you in the spring, year after year, is a sign that your blood lacks vitality, just as pimples, boils and other eruptions are signs that it is impure; and it is also a sign that your system is in a low or run-down condition inviting disease. It is a warning, which it is wise to heed. Ask your druggist for Hood's Sarsaparilla. This old standard tried and true blood medicine relieves that tired feeling. It cleanses the blood, gives new life, new courage, strength and cheerfulness. It makes the rich red blood that will make you feel, look, eat and sleep better.

Be sure to get Hood's, because it is the best. There is no other combination of roots, herbs and salts like it—no real substitute for it—no "just-as-good" medicine.

is something worth coming to Wolfville to see. Principal's Report.

The principal's report to the board of governors shows a record attendance for the year in spite of war conditions. There have been registered: 122 Resident pupils; 154 Non-resident; 154 Special pupils in household science; 38 Other pupils; 154 entered.

Total 285. Of the resident pupils New Brunswick and Nova Scotia sent about fifty each. The others came from Japan, New York, Massachusetts, Maine, Newfoundland, etc.

At the close the Emmerson Memorial Library, presented by the late Hon. H. R. Emmerson, in memory of his father, was dedicated with addresses by Dr. Cullen and C. H. Gould, librarian of McGill University.

The Seminary. The seminary class day exercises were held in college hall on Monday afternoon and were attended with unusual success.

On Tuesday evening the seminary graduating exercises took place. There was an address by Rev. Dr. Eaton of New York and the programme was furnished by the class. Those who were present were: Misses Jean Goucher, St. Stephen; Mildred Harvey, Wolfville; Maudie Miller, Canning; S. Helen Starr, Wolfville, N. S.; Evelyn Neely, Aylesford, N. S.; Jennie Toser, Newcastle, N. B.; and Jennie Prescott, Albert, N. B.

Master of Arts on C. H. Huntington, of Sydney.

Doctor of Law on Dr. G. B. Cullen, president of Acadia University.

Honorary certificates to A. B. Dawson in biology; J. C. Doty in French; J. A. Green in history; economics; M. K. Ingraham in Latin and English.

McKay, Little Branch (N.B.); John M. Meisner, St. John; Walter B. Ryder, Moncton; Francis L. Swin, Doaktown; Roy VanHome Wilson, St. John.

At the close a dedication service of the Emmerson Memorial Library was held on the board of governors. Dr. Eaton presided, and the address was given by Hon. H. R. Emmerson in memory of his father, H. R. Emmerson, and that as Hon. H. R. Emmerson was deceased since the donation, he liked to think of the building as a memorial of both men. Charles H. Gould, librarian of McGill University, was then called upon and gave a short address.

The departure of two teachers, Miss Julia McIntyre, Springfield, N. B., domestic science, and Miss Beatrice Langley of England, violin department, is greatly deplored.

The next department of the Acadia seminary held its annual exhibition on Wednesday afternoon. Among those whose work attracted attention are Miss Jennie Wood of Rusignish Station and Marion Steves of Moncton.

Men In Uniform Urge Others To Join Ranks

Big Recruiting Meeting in St. Andrew's Rink Shows Results Already--Speakers All Soldiers--Two Bands Assist

Officers and men who have already volunteered their services in the defence of the Empire, were the speakers at the big recruiting meeting in St. Andrew's rink last evening.

Major Frink presided and in a brief opening address said that when the campaign for the 20th battalion started there was a certain apathy to be broken down because it was not so clear then as now that the need for men was so great.

Colonel McLean said the call that had come was a serious one, which involved the giving of their lives and all their strength to the country.

Major Weyman then made a speech as a company officer. He said he wanted 100 more men to add to the 78 he had in the company.

Private Fred Hyatt, well known as a labor man in the city, was then called on, and he made a racy speech.

Private Fred Hyatt, well known as a labor man in the city, was then called on, and he made a racy speech.

When we look at the war we see how perfect the German preparation has been. But they do not value moral forces, they despise them.

When I see the 20th regiment marching along our streets and know that before long it will be on its way to the battlefield it sets my heart beating with the ecstasy of pride in my city and province.

Men who see the tide of battle receding and then advancing think we are not making progress. It is like the tide at the sea shore. So it is and will be with the advance against the Germans.

HOW THE BOYS ARE TAUGHT TO SWIM

The Latest and Best Method, The "Crawl Stroke," Being Imparted at Y. M. C. A.

(H. O. Bonk, Y. M. C. A. Instructor). For many years swimming instructors were fully satisfied when they were able to teach a few at a time to swim. The methods used at that time were such that the instructor could handle only one person at a time. The beginner would be taken in the water at once, a belt fastened around his body with a long rope attached to it. The instructor would walk along a spring board extended out in the water, holding the rope firm, thus holding the swimmer well up so that he would be free to use his arms and feet. The old fashioned methods used were the breast stroke or broad arm stroke (sailor fashion). The world's greatest swimming instructor says regarding the breast stroke, that it has done more to hold back the popularization of swimming than all other hindrances combined. With this stroke the frog kick was used, which made the swimming much more awkward. I am firmly convinced myself that after years of experience in various methods of swimming all have been more or less of a strain on the body and that the pleasure or ease in swimming was lacking.

Some years ago this unpleasantness in swimming and teaching beginners to swim was solved, when George H. Coran, the country's greatest instructor, who holds the world's record of teaching the largest number of beginners in the shortest period of a week, introduced what is known as the Coran method or crawl stroke. This stroke has been developed from the dog-paddle method, changing the short choppy paddle stroke to the long arm stroke over the shoulder and getting the feet well to the surface. Thus you have the well known crawl stroke, which gives pleasure to swimming. Mr. Coran is author of "Home in the Water" and in it gives a description of his methods of teaching the crawl stroke to large classes.

The first taken up is the "hand drill" in which the class is lined up and extended so as to give two square yards of space to each person. The position is, as follows—Feet together, knees stiff, lean forward to imaginary water level, back hollowed, chest out, right shoulder depressed, left arm extended, face turned toward upper shoulder, top of head down, mouth open.

The Stroke Works Like a Windmill. Exercise I. Arm motions—The arms are moved regularly and continuously somewhat after the fashion of a windmill, but slower, and always maintaining the same relative distance apart. Left arm swings upward and forward with palm of hand up and little finger in advance. Left elbow up and fixed, right elbow up, hands and fingers held with palm of hand up. Right wrist bent so as to hook and grip the water. Right arm swings downward and backward.

Exercise II. Position—Right shoulder lowered. Right elbow up. Right thumb down. Hands flat. Left shoulder elevated. Left elbow up. Left palm up. Left

little finger in advance. Left thumb to rest. Back hollowed. Chest out. Motions—Right arm swings back. Left arm swings forward.

Exercise III.

Positions—Right shoulder elevated. Right elbow elevated. Right palm up. Face turned to the upper shoulder. Left shoulder lowered. Left elbow up. Back hollowed, chest out.

Motions—Right arm relaxes and swings forward from the force of the rearward movement. Back of right hand just over the supposed water level. Left arm moves back.

Leg Movement, Scissors Kick, Legs Apart.

The scissors kick is performed by throwing the under leg far back with knee bent and striking the water a hard blow with top of the foot. The upper leg should be held almost straight. The scissors kick is also used in the side underarm, the English overarm and the trudgeon stroke.

Finish of the scissors kick. When the under leg has snapped to the upper leg, both legs should be straight and toes pointed and there should also be a distinct pause while the body is gliding through the water, as a result of the swimming is against that of others.

By carefully studying over these movements of the crawl stroke and comparing them with other strokes one will readily see how much easier this method of swimming is, against that of others.

For long distance and for speed swimming the crawl stroke cannot be excelled.

This is the course of the local Y. M. C. A. is teaching to the boys and many are making rapid headway.

The men will receive their instructions beginning on next Monday, to Wednesday. Yesterday the third lesson for the beginners was given. These classes proved to be the largest since the swimming campaign started. The school boy class in the afternoon reached seventy-four in attendance, the evening classes ninety-four, all were well taken care of and in close observing the progress, we find that about fifty per cent. are able to swim. This seems to be a very good showing as there are two more lessons to be given, and we trust that many more of the boys will avail themselves of this free swimming campaign and not let this opportunity go by without making an attempt to learn to swim.

Case of Wealthy Girl Has Stirred Gotham

HEIRESS TO MILLION. Jealousy of Another Led to Court Proceedings Which May Disclose Astounding Conditions Relative to Dancing Craze of the Period.

New York, May 27.—When Bonnie Glass, wild with jealousy of nineteen-year-old Eugenia Kelly, telephoned the girl's mother begging her to force the child to break off her friendship with Al Davis, she fired a shot that has shaken tango-dance and cabaret land to their foundations, sent notorious denizens of the Tenderloin scurrying to cover and started inquiries that may lead to state and federal grand jury investigations and to the clamping of the lid on Broadway.

Young married women, careless or indiscreet, give these gangs ample chance to levy the trade of blackmail.

Doctors told him his case was hopeless, and when they gave up he turned to Dr. Chase's Nerve Food and obtained complete cure.

SURROUNDED AND HAD TO SURRENDER

How Some Canadians Were Taken Prisoners

London, May 28.—A Canadian soldier who is a prisoner at Geisen writes quite favorably of the present conditions there. "We are being well treated," he says. "Our health is looked after and everything has to be kept scrupulously clean. I hope our capture will not be considered a disgrace. Those of us who were left surrendered when crowds of German infantry were on all sides of us. Sheets of lead from rifles and machine guns were sweeping over the parapet of the trench, while shrapnel fired from our rear was bursting all over us. We were under heavy rifle, machine gun and shell fire for two nights and days. I had bullets through my haversack and cap and was struck in the back by a piece of split shrapnel without receiving any injury.

For the First Time in the History of Our Dominion "MADE-IN-CANADA" Becomes a Hall Mark

Will Canada Accept the Vast Trade Lost By Germany and Austria?

INEVITABLY the next few months will see vast and far-reaching changes in the commerce of Canada. There will be decided changes in the stocks of Canadian merchants. New accounts will be opened by manufacturers who have heretofore striven in vain against foreign competition.

"Made-in-Canada"

(Prepared by R. A. BAKER of the Baker Advertising Agency, Limited, 18-20 Wellington Street East, Toronto.)

NEVER before has the world seen a manufacturer who has been able to sell his goods in the Dominion of Canada. The time has come when the manufacturer must make his goods "Made-in-Canada" if he wishes to succeed.

THE TIME HAS COME FOR ACTION

REACH out for the markets with the mighty force of Advertising. Tell your story far and wide. Canada wants to know which are the right lines to buy, under the new condition. Faced with the necessity of choosing new brands to replace the imported products, and fired with the patriotic impulse to encourage "Made-in-Canada" merchandise, they await your message, eager to respond.

Advertising in the daily newspapers will reach them in their buying mood. Make it plain to them that by purchasing what you have to offer they are not only supporting Canada and the Empire, but they are getting a good quality and better value than the imported articles they heretofore bought. The people won't know these facts unless you tell them—and that is what advertising does.

Advertising in Canada today will "pull" better than ever before. The time is opportune to strike. Strike with a will.

How Players Run Arms

Detroit, May 27.—Hugh Jennings is after all Tigers who use their throwing arms in unnecessary spots. Jennings has come to the conclusion that a good many promising ball players are ruined before their time because of the practice of warming up when they should be sitting on the bench taking things easy.

"Like every young fellow who possesses a good arm, I wanted to show off at every opportunity," he declared. "Every time a new curve was sprung I worked it out to my own satisfaction. I could throw almost everything that was going and soon there came the time when I found my arm practically useless. I could hardly wing the ball across the diamond."

Cobb has spoiled his arm by pitching before each game and doing a lot of unnecessary throwing. "I had one of the greatest arms I have ever seen when he came to Detroit, but he overtaxed the cords and the muscles and lost much of his strength."

Hughie's decision was reached, in a measure, after watching Frankie Fuller, a Detroit boy, who has won a place on the Tigers' infield. Fuller had been working out with Peters and had been showing the big catcher a "real splitter." Jennings watched the performance for a few minutes and then told Fuller the chance he was running and advised him to cut out all unnecessary throwing.

Myrtle Again Injured Fred Merkle of the New York Giants is in hard luck. After being out of the game for some time with injuries and getting in shape to play regularly again he had his nose broken in an exhibition game last Sunday at Perth Amboy. It will be several weeks more before he can play and in the meantime the Giants will miss his hitting.

Fred Snodgrass will be able to play in the Giant's outfield next week, but Murray is going at top speed and Robertson is hitting heavily. Snodgrass may have to sit on the bench a while longer.

Back to Minors Philadelphia, May 25.—Joseph Oeschger, pitcher for the Philadelphia Nationals, was released today to join the Providence International League Club.

Halifax City League Halifax Recorder: It has been definitely decided that there will be professional baseball in Halifax this year. Manager Hanson of the Socials this morning received a communication from the Wanderers Club that their grounds will be available on Wednesday and Saturday afternoons for baseball.

Two-team city league has been formed and the Socials and Standard will once again battle for supremacy. Each has a full complement of players, and the batteries so far as known at present, will be Socials—Innor and Hamilton, Standard—Rawley and Gibbons and Wielan. Arrangements will be made for monthly games with outside teams such as Amherst and Moncton. The first game will be played on next Saturday at 8 o'clock.

Red Sox Will Play in Trim Two members of the Red Sox who have been on the hospital list for some time are now ready to play are Larry Gardner and Vean Gregg. Larry, the third baseman, and Vean, the southpaw member of the pitching staff, Gardner reported Wednesday. It is certain at last that Vean Gregg has regained his old time form. Working out with the Braves he has satisfied himself and every ball player who has seen him work lately, there is no doubt that he is at last attained the condition that will allow him to take his regular turn in the box.

Money Batted Hard Dave Morey, a former Fredericton player who was knocked out of the box by the Lynn club in a game in Manchester this week. He batted along for the first two innings, but the third saw his finish. He was taken out before anybody was retired and before the inning was over the Lynn club had three runs.

Diamond Squawks Wyckoff, of the Athletics, made Sam Crawford strike out three times in succession the other day. The assertion that no other pitcher has done this is likely to pass unchallenged for two reasons. One is that the man for records probably doesn't take in that detail, the other is Crawford's batting ability.

John Lobert has written an article on golf. There may be differences of opinion regarding some of his statements, but everybody will agree with him when he says: "A golf ball is smaller than a baseball." Judging from statistics, Connie Mack, when he started in to rebuild the Athletic machine, should have reversed the procedure, kept Collins and sold the rest of the team to Chicago. Hurrah for Manager Herzog! He has ordered his players to wear hats, not caps in the lobbies at hotels. In frowning upon that bit of sartorial slouchiness he shows good taste. "Dutch" Leonard's Story A European army is 8 times more peaceful and enjoyable gathering of individuals these days than the Red Sox baseball team, according to Dutch Leonard, suspended star southpaw pitcher. The young man, who led the American League pitchers last season, and who was suspended without pay on last Sunday and sent home until such time as he got in good condition, arrived in Boston on Wednesday, very hot under his collar. Among other things he says: "I have received the rawest deal ever handed out to a big league ball player. That President Lannin is ruining the Red Sox team by the methods he is employing in the present trip on the road."

Carpentier was only seven years old at that time. On August 28, 1909, Fiet lost a decision to Fred Welsh in Wales, in twelve rounds. On November 14 of that year he was knocked out by Ad. Wolgast in New Orleans in two rounds.

SPLENDID SHOWING BY LOCAL ART STUDENTS Exhibition Yesterday Attracted Much Favorable Comment—Other Features of Interest Also

Local students of art and other more experienced artists won favorable comment at the St. John Art Club yesterday when the work of the pupils and some paintings by professionals of repute were exhibited. The progress and advancement of local students were the subject of admiration. Included in the exhibit were some paintings by Miss Edith Kirk, a talented English artist now in St. John, who plans to spend the next year in New Brunswick, painting landscapes and other views. Her exhibit of British Columbia scenes was especially popular at yesterday's exhibit. Another interesting feature was the showing of an attractive collection of silks and laces, painted by Miss Leland, and these were particularly popular with the ladies present. The whole display both of the students and others was most fascinating, and the fine work done by the pupils was encouraging for St. John's niche in the realm of art. Prof. Baker Head of Royal Society, Ottawa, May 27.—Prof. Alfred Baker, M. A., LL. D., professor of mathematics at Toronto University, was elected president of the Royal Society of Canada at the closing session of the annual meeting of that body held this afternoon. It was the fashion during the Boer War to name babies born about that period after generals taking part in the campaign, and even places in South Africa which were the scenes of decisive or noteworthy engagements. The same thing is happening in connection with the present conflict.

THE MAY QUEEN CASE
In the matter of the winding up of
the May Queen Steamship Company,
Ltd., an application was made before
Mr. Justice McKewen this morning by
G. H. V. Belyea in behalf of Captain
Colwell, for an extension of time for
filing an appeal. No order was made
on this point, but His Honor allowed
Mr. Belyea until Friday to serve affidavits regarding payments, by Captain
Colwell, of unapproved claims, which
amounts, it was contended, should have
been paid over to the creditors. Dr. J.
George H. V. Belyea and Francis Kerr
appeared for parties interested.

ROY FLAHERTY
DIES OF WOUNDS
St. John Man Was Struck By
Shrapnel
THE SUPREME SACRIFICE

Telegram Comes to Brother Fred
Who is One of the 6th Mounted
Rifles—Young Soldier Had En-
listed in the West
The name of Roy L. Flaherty, formerly
of St. John, is in the list of those who
have made the supreme sacrifice and
given their lives for the empire and
its ideals in the West. The news was
contained in a telegram to his brother,
which read as follows:
Ottawa, Ont., May 27, 1915.
F. L. Flaherty,
218 Waterloo street,
St. John, N. B.
Roy L. Flaherty, 1st Battalion, formerly
9th, officially reported "died at
Rawal Pindi, British General Hospital,
Wimereux, May 26; gunshot wound in
thigh."
Adjutant General
Mr. Flaherty, who was a son of the
late Mr. and Mrs. John E. Flaherty of
this city, is survived by two brothers,
Herbert of the Western Union staff here,
and Fred E. of the 6th Mounted Rifles;
and one sister, Mrs. A. R. Pearson of
Exmouth street. He was unmarried.
It is about ten years since Mr. Flaherty
left St. John for the wider fields of
the west and since then he had traveled
over much of the western half of the
continent. One of his feats which at-
tracted attention in the west was a 700
mile horseback ride from Missoula,
Mont., over the mountains to Calgary,
which he accomplished in seventeen
days.
When the war broke out he was with
a dominion survey party in the Peace
River district, 200 miles north of Ed-
monton. The news that Great Britain
was at war and that Canadians were to
take their share in the fighting appealed
to his adventurous spirit as well as to
his loyalty, and, with eight of his com-
rades, he set out at once for Edmonton.
On their arrival there they enlisted in
the 9th Battalion and soon were at Val-
cartier. Later he was transferred to the
1st Western Ontario battalion and it
was with them that he took part in some
of the heaviest battles of the war. He
passed safely through the fight at Lan-
gemark and it was somewhat later, after
six days and seven nights continuously
in the trenches, that he was wounded by
a bursting shrapnel shell.
The first word received was contained
in a letter from a chum to a friend in
St. John which was received here on
Sunday, but which merely said that Roy
was slightly wounded. His chum, named
McCarthy, was another adventurous
spirit who had seen service with Villa
in Mexico, but who hastened north to
enlist when he learned that Canada was
in the war.
Since this letter no news, official or
otherwise was received until the tele-
gram came this morning telling of his
death.
His brother, who had been given leave
from the 6th C. M. R. in Amherst over
the holiday and had his leave extended
on account of his wife's illness, thus
happened to be still in the city when the
telegram came.
It is years since his relatives here have
seen Roy, although Fred Flaherty may
have recently missed him last summer. He
left for the west to meet his brother to
take over some of his interests while he
indulged his propensity for roving.
He reached Edmonton and took the trail
for the north while his brother was
turning by another trail and so missed
him. When Fred returned to Edmonton
his brother had left for Valcartier.
His relatives here think that Roy had
a premonition of his end, as it was only
a short time ago that he wrote home
giving full directions for the disposal of
his property in case he did not return.
Speaking of the death of his brother,
Private Fred Flaherty said this morning,
"It is only what we must expect; with
so many falling we cannot expect our
own people to escape. But it gives one
a different feeling about the war, makes
it more of a personal matter. I want to
get to the front now as quick as I can.
I will fight better on account of this."

THE EAST END LEAGUE
There was much lamenting when it
was rumored that the East End League
might not be organized this year. It
has been organized, and is playing good
ball. The receipts thus far, however,
from the evening collections, amount to
only a little more than half the expenses
incurred. The league does not propose
to run in debt. If the lovers of the
game want it, they should be willing to
contribute to the expense. If not, there
are other uses for the grounds. The col-
lections are taken in small banks, which
are opened in one of the city banks, and
the contents counted, and deposited with
the receipts from sale of tickets for the
grandstand, so that there is a check on
every cent received. The league execu-
tive co-operates with the Playgrounds
Association, and deserves public sup-
port, both for itself and for the reason
that if there should be a surplus, the
children of the city will get the bene-
fit.
