## Expecting Attack On British Front

### Military Experts See Grave Events Impending — Germans Ready For New Effort

Paris, June 21.—(Havas Agency)—Grave events are impending on the British front, according to military experts, who see in the intensity of the German commando at various points the preliminary steps of a new German attack. It is pointed out that the fourth army group, under Crown Prince Rupprecht of Bavaria, has had leisure for re-organization during the three weeks since it was engaged in battle and is now ready for a new effort along the front.

It has been established that units of Crown Prince Rupprecht's army were engaged in the attack on Rheims on Tuesday night. This is considered proof by the L'Homme Libre that the German Crown Prince's army is tired and exhausted.

### NEW TRIAL ORDERED

#### Costs Also in The Fitzrandolph Divorce Case

Frederickton, N. B., June 21.—A new trial with costs was ordered by the appellate division in the divorce case of Charles Fitzrandolph vs. Elizabeth Fitzrandolph, which was tried last February before His Honor Judge Crockett. The judgment was given by Chief Justice Sir Douglas Hailey, Chief Justice McKenna and Justice Grimmer concurring.

Sir Douglas briefly reviewed the case. He learned the trial judge had based his judgment upon inferences which he had drawn from the evidence, there being no direct evidence of the statutory offence alleged. The chief justice quoted authorities to the effect that such inferences must usually be drawn, as direct evidence seldom can be secured.

The evidence concerned three principal incidents which Sir Douglas classified as the golf club incident, the Prince William Apartments incident and the Waterloo row incident. He also referred to evidence of improper conduct on the part of the defendant at the Queen Hotel in Fredericton.

The chief justice said that he had been unable to agree with Mr. Justice Crockett in regard to the circumstances of the golf club incident in Fredericton. He also expressed the opinion that Mr. Worrell, who was connected with that incident, should have returned from Ontario to give evidence on a matter for which he was to a considerable extent responsible. The conduct of the defendant in this particular case had been most indiscreet, but it was not correct that all inferences be drawn that guilt could be proved.

The learned trial judge had seen fit to base his judgment entirely upon the golf club incident, not considering it necessary to take into consideration the incidents at the Prince William Apartments, St. John and the residence of the defendant, Waterloo row, Fredericton. It was a matter for regret that the learned trial judge had not taken in the other incidents, as the evidence in them was much stronger and reference to them would be valuable in case appeal was taken.

Sir Douglas said it was true that the appeal court had been given the power of making findings upon evidence not considered in the court below and in the case in question could make a finding upon the incidents not taken into consideration by the learned trial judge. However, he did not believe it wise to make such findings and would order a new trial with costs.

### GERMANS TRIED TO STIR UP MOROCCAN TRIBES TO REBELLION

Paris, June 21.—How Germany tried to use the recent offensive for her own purposes in Morocco is told in an official report based on documents intercepted in Morocco in May. They are signed by a German agent named Hermann and Mulli Abdel Malek, uncle of the Sultan of Morocco.

They announced the resumption of the offensive in France as having been set for May 29 and urged the Beniourain tribes to rise against the French troops, as the moment was particularly favorable. Only a few Moroccans were influenced.

### RHONDDA VERY ILL

London, June 21.—Grave reports of the condition of Baron Rhondda, British food minister, come from his home in Wales, where he has been seriously ill. He may be unable to resume his work if he recovers.

London, June 21.—This morning's bulletin announced that he had a good night and a distinct improvement was observable in his general condition.

### Help Needed on The Farms; All Keep This In Mind

Ottawa, June 21.—The Canada Food Board today issued the following bulletin:—"It is true now if never before that Canada is the bread basket of the empire. By August Canada will have shipped 146,000,000 bushels of wheat to report. In the east an increased acreage, not only for wheat but for other crops not reported, has been planted, and the call for farm help has already been raised.

"The farmers have done their best, and the crops are in, but where is the harvest help to come from. The people of the towns and cities will answer that themselves tomorrow when they sign the registration cards."

## BREAK DOWN OF IRISH POLICY

### Sharp Comment By The English Editors

### GOVERNMENT CRITICIZED

#### Believed Conscripted and Home Rule Both Abandoned for Present at Least—Papers Treat Curzon Speech as Sensational

London, June 21.—The speech of Lord Curzon in the House of Lords last night is regarded in the lobbies as an admission of a breakdown in the government's Irish policy, and it is believed that no further attempt will be made, at least for some time, to introduce a home rule bill.

It is understood the government now favors a federal solution which will be applicable also to Wales and Scotland. Premier Lloyd George has recommended to a deputation of non-party members of parliament desirous of setting up a commission to draft such a federal scheme.

New York, June 21.—The following is an Associated Press cable from London this morning: "London, June 21.—Earl Curzon's speech in the House of Lords last night, immediately set on in the lobbies as an admission of a breakdown in the government's Irish policy, indicating, as it did the abandonment for the present at least of any attempt to introduce a home rule bill, is treated in this morning's newspapers as a sensational development and is made the theme of sharp comment.

"Home rule is dead; Irish conscription is dead," says the Daily News, "and the whole Irish policy of the government has fallen crumbling to the ground." The abandonment of the home rule bill, it is pointed out here, is at least of any attempt to introduce a home rule bill, is treated in this morning's newspapers as a sensational development and is made the theme of sharp comment.

"The Unionist press," says the Daily Express, "is full of indignation and of a sense of grievance. It is pointed out here that reports of difficulties between Austria and Germany are now confirmed despite death made on June 17."

Amsterdam, June 21.—Messages from Germany and Austria make it clear that the latest troubles in the dual monarchy over the food situation have not been equaling since the beginning of the war. The agitation throughout the country is growing enormously and the authorities in Austria-Hungary regard the situation with the gravest apprehension.

London, June 21.—More than 100,000 persons have gone on strike in the Vienna arsenal and the Warshafawald airplane works in Vienna, according to a despatch from Zurich to the Exchange Telegraph. It adds that riots have occurred at Favoriten, Margarethen, Ottakring and Beightenau, suburbs of Vienna.

Amsterdam, June 21.—Austrian exchange, which has been declining fractionally daily on the Amsterdam Bourse, dropped another full point on Thursday. It is pointed out here that reports of difficulties between Austria and Germany are now confirmed despite death made on June 17.

London, June 21.—Food conditions in Germany are becoming worse and there is great discontent there owing to reduction in the bread ration, according to a Dutchman interviewed by the correspondent of the Times at The Hague. He had just returned after working in the Krupp plant at Essen, which he left because he could not stand the food conditions. The German people, he added, feared to grumble openly lest they be sent to the front. The correspondent says: "One popular saying is that the people will pay 100 marks for a sack of flour to eat."

Amsterdam, June 21.—The situation in that district, says the Neue Freie Presse of Vienna, has become so serious that the Austrian government will either be compelled to increase the bread ration or run the risk of still further exciting the working people. In the latter event, the newspaper declares, railway communication would be cut off and a revolution would break out.

Amsterdam, June 21.—Discussing the inability of Germany to help Austria in her food difficulties, the Cologne Gazette says the bread ration in Germany will also have to be reduced until the next harvest.

Copenhagen, June 21.—The situation at Prague, Bohemia, and the industrial centre in that district, says the Neue Freie Presse of Vienna, has become so serious that the Austrian government will either be compelled to increase the bread ration or run the risk of still further exciting the working people. In the latter event, the newspaper declares, railway communication would be cut off and a revolution would break out.

### Conditions Worse Than Ever Before Since War Began

### Situation Declared Grave — Great Strikes in War Provinces — Protest Against Germany and Hungary — Getting Very Badly Off, Too, in Germany

## Serious Yet But Italians Ready

### Looking For Second Phase of Austrian Offensive—All Well Along the Piave River

Italian Army Headquarters, June 20.—(By the Associated Press)—The second phase of the Austrian offensive, featuring attacks to the right and left of Valstagna, along the Brenta River, and in the mountains should logically begin soon, now that the offensive on the Piave has failed. It is felt that if the Austrians do not renew their efforts to penetrate to the plains through the Brenta region and take Montebelluna it would be an acknowledgment of defeat and their inability to carry out the ambitious plans launched a week ago.

The situation, however, is still regarded as most serious and all preparations have been made to meet any new offensive.

Along the Piave, the Italian positions are virtually unchanged. The Austrians are fighting well, according to the Italians, but the latter are outlasting them. Failure, says Premier.

Dr. Shearer, general secretary of the Social Service Council of Canada, when he addressed the Dominion W. C. T. U. here yesterday.

Dr. Shearer set forth the text of these amendments, regarding the raising of the age of consent from fourteen to sixteen years; the age for protection of seduction from sixteen to eighteen years; and in the same regard the protection of all female employees to the age of eighteen, and lastly the question of imposing penalties in cases of mis-registration of men and women as married.

It is a New French Army

Quebec, June 21.—The French "Blue Devils," after spending most of yesterday at Valcartier Camp, were entertained at a concert last evening under the auspices of the local society of French colonialists. The officers visited St. Anne de Beaupre last evening. They expressed surprise at the number of French-speaking troops at Valcartier, an officer remarking "it is a new French army."

"I desire simply to say that, so far as it states or implies that my son has been guilty of any violation or evasion of the law, it is absolutely false. At the time he entered the order he was by reason of his age, subject to no obligation under that act. Moreover, it had been in the most authoritative manner possible, determined that he was physically unfit for military service."

## BOARDING HOUSES MUST OBSERVE THE FOOD REGULATIONS

### Some who must secure business licenses under the new food board regulations are complying rapidly with the order, but proprietors of boarding houses seem to need some stirring up, according to W. S. Potts, provincial inspector.

Mr. Potts said today that the broadening of the regulations brought practically every boarding house under the act. This was intended not only as a direct measure of food conservation, but also to protect the hotels and restaurants from competition with boarding houses which had been serving at noon meals that they could not supply on account of the limitations of the food regulations.

Mr. Potts said it was not his intention to insist that private families who keep a boarder or two should take out a license but that all those who made a practice of serving extra meals at noon would have to do so. In order to make it easier for them to comply with the law, he said, he was accepting applications by phone and mail as well as in person.

Mr. Potts has just returned after a trip through Kings and Queens counties and, as a result of the visits he made, he found that sixty-nine had secured licenses already and forty-five others applied for them. Those who had not applied were chiefly the proprietors of boarding houses and ice cream parlors.

Until he approached them it was not realized by the officers of agricultural societies that it was necessary for them to secure a license in order to continue their policy of co-operative buying and distribution of supplies. They were now falling in line very readily.

His experience has convinced the inspector that fully ninety per cent of the people of the province are willing and anxious to comply with the law and that most of those who have paid no attention to the food board regulations have done so through ignorance.

One of the chief officials of the food board recently made a quiet trip of inspection through the province to see how the act was being carried out. Before leaving New Brunswick, Mr. Potts said that he had found the law more generally observed in this than in any other province of the dominion.

GOING FAST. The Oak Hall extra special men's shirts which are being offered at \$1.98 are fast disappearing. One of our buyers, now in Upper Canada, made an exceptionally good buy, from an overstocked manufacturer, of 882 men's negligee shirts, which would regularly sell at from \$3.00 to \$4.50. The entire lot was placed on sale Thursday morning at the extremely low price of \$1.98, and it is without doubt the greatest shirt value ever offered the people of this city. One man bought eight; the balance proves the values being offered. Although going fast, there is still a good choice left. See our window display. Sale continues until Saturday at 1 o'clock, providing the shirts are not all sold before.

PERSONALS Mrs. James E. Gorham and son, Master Russell, arrived this morning from Halifax and will spend a fortnight in the city with Mrs. Gorham of Douglas avenue.

A. W. Jamieson, manager for T. McAvity & Sons, who was taken ill in Ten Eyck Hall recently, was removed to the infirmary last evening.

Very soon now the United States will install motor truck parcel post routes in various parts of the country. One chain of motor routes will extend from Portland, Maine, to New Orleans; another will cover much of the large stretch of territory in Ohio, Indiana, Illinois, and West Virginia. On the Pacific Coast motor truck routes will be established between San Francisco and Sacramento; another between Redlands and Los Angeles, taking in numerous other towns and cities on the way. The post office department believes that the operation of these routes will materially aid in the distribution and lowering the price of food products.—E. B. Superb Fighting Qualities Of U. S. Soldiers In France

"The way the Americans have developed as fighters is one of the most amazing features of the war," remarks a high officer of the British Staff to the London correspondent of the New York World. "Those engaged in the present and last offensive were placed beside a French corps d'elite. It was their first experience in a big battle. The Americans fought as superbly as the crack veteran French corps beside them, displaying all the finest fighting qualities - dauntless courage, stubborn tenacity, coolness, initiative, and resource."

The leading article in THE LITERARY DIGEST for this week, June 22nd, deals with the fighting qualities of the United States soldiers, and includes the opinions of Canadian, English and French allies who have been fighting with them shoulder to shoulder.

#### THE WAR SITUATION.

The best war news of the day, if it be well-founded, is that the authorities in Austria-Hungary regard the food situation with the gravest apprehension. That there have been food riots is clearly true, and that there have been serious complaints against Germany is established by the fact that the German press has felt it necessary to explain that Germany could not send more food from the Ukraine to Austria because it was not to be had. Yesterday's and today's cables have much to say about the seriousness of the crisis regarding food in both Austria-Hungary and Germany. We are also told that Austrian soldiers taken prisoners on the Italian front were hungry and ill-nourished. Hunger in the dual-monarchy may prove a powerful ally to the Italians and their Allies. There is still heavy fighting on the Italian front, and the enemy is not only held in check but has been forced to withdraw from some positions previously gained. While the battle still rages there appears to be a general feeling that the Austrian drive will ultimately fail, and that this will cause further outbreaks among the people in the flourishing Austrian cities.

On the western front the Germans are still passive. That they will strike again is certain, and as they must hasten to get a decision before too many American troops arrive, and before discontent among the Allies becomes too pronounced, an early blow on some portion of the front may be expected. That it can be a harder blow than any yet delivered does not seem probable, but that it will be of a desperate character it may be well assured.

#### DEMOCRACY'S GREAT TASK.

Viewing the matter from the narrow point of view, an earlier ending of the war would have been welcomed, because of the appalling sacrifices its continuance involved. As time has gone on, however, and the real significance of the struggle grows more apparent, it has become clear that to make peace before the Central Powers had been utterly crushed would be a calamity and not a blessing. Had peace come before the present time it would have been a German peace, which means that the struggle for world-dominion would only be postponed until the tiger-nation had gathered itself for the next spring at the throat of democracy.

We know the issue now. It is democracy or autocracy, human freedom or Prussian military domination, Christian civilization or a barbaric despotism. Germany must not be left free, even if she falls in the west, to pursue her ambitions in the east. The stakes for which the Allies fight is the future peace of the world, and the triumph of those ideals which alone can uplift the human race. The world must not be permitted to lose its soul and reel back into barbarism, to the extinction of the civilization wrought out through centuries of sacrifice and suffering and noble devotion to the cause of liberty and righteousness.

Had peace come early, the real character of Prussian ambition would not have been realized, nor the real depth of Prussian depravity revealed. There would have been a disposition to view the German as a misguided but rather clever fellow, who ought to be regarded with a degree of respectful tolerance. There is now no danger of committing that colossal blunder.

If, therefore, the war drags on, it is leading inevitably to the only right result. The utter exhaustion of Germany, leaving her people face to face with the grim necessity of repairing the ravages of war and paying heavy indemnities for the destruction they have wrought in Belgium and elsewhere, is the only result that will weaken them of war and warlike ambitions. It must be made clear that the day of the predatory nation is past, and that the rights of smaller peoples and the sacredness of treaties must be respected. Else the war will have been fought only to be fought over again at some future time.

It is essential, therefore, that we keep ever in mind the larger issues of the war. These were recognized by the United States, or she would still be neutral. Her people saw the danger to the principles of democracy and all the great republics stands for among the nations. They discovered in their own country an insidious propaganda to supplant American ideals with German Kultur. And they gave the only answer—a great and self-respecting people could give to such a challenge.

Must the war be prolonged and still greater sacrifices made? If that is necessary to break the obstinate spirit and render forever unattainable the brutal ambitions of Germany, then in God's name the democracies of the world must endure and persevere, and "strike till the last armed foe expires." They owe it to themselves and to the cause of humanity. When their task is accomplished, an emancipated world will go on to the achievement of high and noble purposes, untroubled and unafraid.

#### BLOOD DROPS OF HEROES.

When the woods at Kilmorie are scarlet and gold, And the vines are like blood on the wall, I dream of the faces all pallid and cold, Of our brave ones who answered the call: Like the bright autumn leaves, Or the tragic, garnered sheaves, Our trust, our greatest, our all; For my heart beats in Belgium, or far From the woods at Kilmorie are scarlet and gold.

When the woods at Kilmorie are scarlet and gold, I see but the beauty of God, Not the small ways of men, and the mean faiths they hold, Like the blight worn under the sod; But the brave and the true, Who knew but to do, Like those glorious banners of God, Arrayed on His hills, or at rest on His sod.

When the woods at Kilmorie are scarlet and gold, There's another dread harvest afar; Where our greatest, our truest ones, Strive to hold Back the modern world's juggernaut car; And my heart only sees In the pagan of trees That horrible pagan of war, Where God's men for righteousness, strive, as of old— When the woods at Kilmorie are scarlet and gold.

When the woods at Kilmorie are scarlet and gold, And the vines are like blood on the wall; I hear on the winds o'er the wood and the wold, A bitter, insistent call, 'Tis the cry of our slain, Appealing in vain, For help where the brave hearts fall; And its command doth the whole world hold, When the woods at Kilmorie are scarlet and gold. —Wilfred Campbell.

#### BRANFORD ASSISTS IN HOUSING SCHEME

Brantford, June 20—The Brantford City Council this evening granted a special concession to the Dominion Steel Products Company, which will erect 100 homes to cost from \$8,000 to \$8,000 for its employees. The land assessment will remain the same for five years, and only half of the building assessment will be taxed for general purposes, though full for school and local improvement taxes. The city will pay the cost, \$25,000, of grading the streets in the new subdivision.

#### WAS A NATIVE OF NEW BRUNSWICK.

Bangor Commercial—Gordon S. O'Donnell of East Holden, who was killed in action in France, was a native of New Brunswick and moved to East Holden about six years ago. He was one of a family of nine children and was the oldest child, being between twenty-one and twenty-two years of age. The parents of Mr. O'Donnell received his education in the public schools and worked on his father's farm until the time of his enlistment in the marine corps.

#### Lords Discuss Irish Affairs

Earl Curzon Replies for Government—Wimborne and Lansdowne Critics

London, June 21—Strong criticism of the government's Irish policy was heard in the House of Lords yesterday, when the Marquis of Londonderry initiated a debate with the view of ascertaining the government's intentions with regard to Ireland. Baron Wimborne and the Marquis of Lansdowne were critics of the government. Baron Wimborne contended that the government was pursuing a policy of physical idleness and that he desired to know how the government hoped to carry out its plan of giving recruits land. The Marquis of Lansdowne said things in Ireland now were much worse than in 1916.

Earl Curzon, replying on behalf of the government, said two great events had led to the change in the government's policy. The first was the revelation of the Sinn Fein conspiracy, which made it impossible for the government to pursue its home rule policy for the time being. The second event, he added, was the arrival of the Catholic clergy in resisting conscription. That was a direct challenge to imperial supremacy which made it necessary for the government to re-examine its policy and adjust it accordingly. With regard to voluntary recruiting, Earl Curzon said the cabinet believed it better to get 80,000 volunteers in this way than to secure a larger number at the cost, perhaps, of 100,000. The promise of land, he continued, was not a bribe, but was the same policy that was being pursued in England under the Small Holdings Act. Lord Curzon said that Sinn Fein had departed from Ireland and could not be brought to trial without disclosing to the enemy the means by which the government detected their treasonable acts. These deportations had materially relieved the situation in Ireland, and the Nationalist members of parliament themselves shared that feeling of relief.

#### STIR AGAIN IN BALKANS

Paris, June 21—A Geneva despatch to the Journal des Debats says Germany has guaranteed to Bulgaria not only Darana, Seres and Kavala but all the territory gained by Greece in 1913 by the treaty of Bucharest, in order to satisfy the growing dissatisfaction in Bulgaria over the treaty concluded with Roumania. Anger at Greece, the correspondent adds, is increasing. Greece is now called Bulgaria's principal enemy by the Bulgarian press.

#### SAYS THEY STAND BY CRITICISM OF BOARD.

Montreal, June 21—A. Hicks, Lawrence of New York, director of the Canadian Car & Foundry Company, Limited, who was here yesterday, said that the delay in the reply to the statement recently issued by seven Canadian members of the board in no wise implies that the opposition shareholders were dropping the charges made in a recent circular. Mr. Lawrence said that the "committee of shareholders" which issued the circular stand by their criticism of the board and did not propose to retract. A second circular is in course of preparation and will probably be sent out some time next week.

#### ASYLUM ATTENDANTS ARE FREED FROM BLAME.

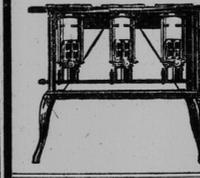

Montreal, June 21—A coroner's jury yesterday found the three attendants at the Verdun hospital for the insane not criminally responsible for the death of Cornelius Boone, a dangerous lunatic who died as the result of injuries sustained in a struggle with the attendants.

#### In Old Age

Health and comfort in old age depends largely on keeping the liver and kidneys in healthful action.

Pains and aches, stiffness of the joints, lumbago and rheumatism tell of poisons left in the blood by sluggishness of the liver and kidneys. People in advanced years hold Dr. Chase's Kidney-Liver Pills in high esteem because of the promptness and certainty with which they awaken the action of kidneys, liver and bowels.

#### CAN CHOOSE DELEGATES.

Canadian Premier Can Take One Colleague to War Cabinet.

London, June 21—The Times, which says there has been doubt respecting the exact representation of Canada in the Imperial War Cabinet, the dominion having four ministers here, and the practice limiting the delegates of each dominion to two, now understands that the question has been answered by the decision that any one of Borden's three colleagues may accompany him to any particular meeting. Sir Robert Borden cut.

#### Little Hoarding of Food.

Dr. C. J. O. Hastings, M. O. H., and Honorary Food Controller of Toronto, said on Saturday that there was very little hoarding of food in the city at present. A close inspection of the cold-storage houses, eating places and places supplying box lunches has disclosed no evidence of late that would warrant a particular meeting. Sir Robert Borden cut.

War Garden Bulletin

PRACTICAL DAILY GUIDE FOR VACANT LOT AND BACK-YARD GARDENERS ENLISTED IN GREAT-ER PRODUCTION CAMPAIGN

Issued by the Canada Food Board in Collaboration With Experts on the Staff of the Dominion Experimental Farm

WATCH FOR BLISTER BEETLES. Blister beetles occur almost every year and cause considerable anxiety to farmers and gardeners from their habit of appearing suddenly in large numbers and feeding on potatoes, beans, beets, carrots, corn, tomatoes and other vegetables. They are soft-bodied insects—slender and cylindrical, and about half an inch in length. Spraying with Paris green or arsenate of lead, as is done for the potato beetle, will control blister beetles, but in some outbreaks it may be necessary to repeat the application because the beetles which are killed are soon replaced by others. In gardens many of the insects may be destroyed by beating them from the plants into a pan containing water with a little coal oil on the surface.

BRITAIN STANDS LIKE GIANT ROCK

Premier Hughes Says Foe's Blows Kindle More Fiercely People's Enthusiasm

London, June 21.—In the course of an interview Premier Hughes said that England stood like a giant rock lashed by the fiercest hurricanes, displaying in the hour of her greatest trial a spirit worthy of the glorious cause for which she fought.

"In regard to Australia," said Mr. Hughes, "the enemy's desperate blows have rekindled more fiercely the fire of the people's enthusiasm. In the commonwealth the war spirit is growing and recruits are offering in greater numbers than for the past two years."

"America is now stripped for the fray," stated Mr. Hughes. "I have seen these men in thousands calmly preparing with deadly earnestness for the battlefield, and they are coming in their millions. We are going to destroy without a moment's rest the root and branch from the face of the earth."

Mr. Hughes said he and his colleagues had received new impressions of the British navy that would last a lifetime. The arrangements for policing the Atlantic were successful. Throughout the journey of 14,000 miles they had not seen a trace of the enemy. "What a

Setting Returned Soldiers on Land

In Nearly Every Province Active Preparations in Progress

Ottawa, June 21.—Active preparations are in progress in nearly every province throughout the dominion in connection with the work of settling returned soldiers upon the land. In order to meet the situation, the three members of the Soldier Settlement Board have found it necessary to each make special trips throughout the east during the past four weeks. S. Maber, acting chairman, has returned from an extended trip through the maritime provinces. Major E. J. Ashton has made two trips to Toronto recently, interviewing the Ontario cabinet relative to linking up plans by which the Ontario and the federal settlement acts can be operated on a basis to prevent overlapping. A soldier settlement loan advisory board has also been organized in Toronto, leading men giving their services voluntarily to the work.

COMMUNITY CANNING.

Brentford, June 21.—Brent county will have at least one community canning centre. A room in the Bank of British North America building has been secured by the committee in Calneville and work will begin as soon as there is fruit to can. There is now an agitation in the city to have one established here, as the fruit preserved here in a year is very great in quantity.

Closing Day At Rothesay School

Large Number Present for The Exercises — Finals in College Sports

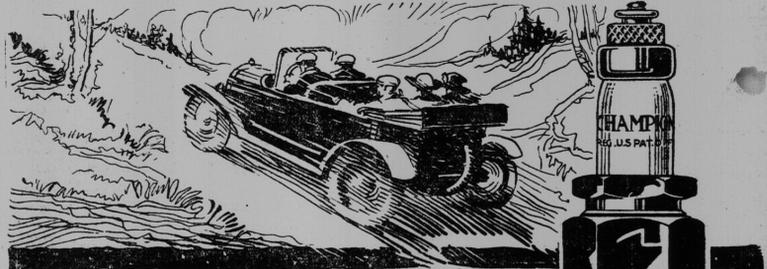

A large number of people were present yesterday at the closing exercises of Rothesay Collegiate School. During the morning and early part of the afternoon sports were held and were both interesting and keenly contested. George Flewelling was the individual star of the meet, making a grand total of 20 points. He gave a wonderful demonstration of his ability in the 200 yards and 100 yards dashes. In the former he established a new record and in the latter he was only one-fifth of a second behind the record. His showing in the other events was also good. If properly trained, Flewelling would be able to cover the short distances in record time. Crease was second in the senior events and is also deserving of special mention, while Cudlip, who finished third, made a fine showing. The three leading athletes in the three divisions and their scores follow: Seniors: Flewelling, 20; Crease, 14; Cudlip, 12. Intermediates: McKim, 21; Starr and West tied for second with 14 each. Juniors: Tims and Kubring tied with 11 each, and Skelton with third with six points. Flewelling was awarded a magnificent gold medal with bar suspended and suitably engraved. McKim received a duplicate of the gold medal and suitable dress was given by Bishop Richardson.

prizes were awarded to the other winners. At the conclusion of the sports an address which Rev. W. R. Hibbard read

**The Man-Power of Canada includes The Young Men of Sixteen**

The Order-in-Council not only provides for the registration of the young men of 16, but further states that after the day of registration, every person shall, within thirty days of attaining the age of 16, register with a Post Master.

It need come as no surprise that young people of 16 should be counted in the man-power of the country. War has altered many things, and today a youth is called upon to do a man's work—and is doing it, too!

In farm and factory, office and store, any boy with the right spirit in him will not stay long at the bottom of the ladder. People commence to call him "Brown" or "Mr. Brown", instead of "Willie" and he has got to live up to it!

He cannot go around any longer with down on his chin and upper lip. A boy doing a man's work must have a man's razor.

Do you know such a boy who might hesitate to buy himself a Gillette Razor? Five dollars invested for him now will earn you his everlasting gratitude. Spare him the shaving troubles most men have had to go through before they discovered the Gillette. Give him the strong moral support of a good "clean shave" daily throughout life.

Gillette "Standard", "Bulldog", and "Artocrat" Sets cost \$5.00. You will find excellent assortments at Drug, Jewelry and Hardware stores.

That Visit To Jesuit College

Said That Young Men Sought Shelter in Novitiate—Denial in Reply

Toronto, June 20.—A despatch to the Telegram from Guelph today quotes Rev. W. D. Spence, president of the Guelph Ministerial Association and pastor of the Congregational church at Guelph, as follows:

"About ten days ago the Guelph Jesuit Novitiate College, near Guelph, was visited by the dominion police. Forty-six men were found on the premises, and of this number, twenty-two were entered since the M. S. A. came into force. The police were not able to effect any arrests, because of instructions from Ottawa. It has been definitely learned that some of these young men have no intention of studying for the priesthood, and are merely making the institution a hiding place where they will be safe from the operation of the act.

"Amongst the twenty-two who have entered since the act came into force, in fact, one of the most recent arrivals is the twenty-year-old son of Hon. Mr. Doherty, minister of justice. It has been decided that the status of these twenty-two men is to be left in the hands of the department of justice.

"Owing to the fact that the local papers refused to publish any details with regard to the visit, the Protestant ministers of Guelph have notified the department of militia at Ottawa that they are conversant with the facts, and that they purpose holding an indignation meeting at which they will expose the conditions and names and demand common justice. This meeting will be held on Sunday next."

Statement From Novitiate. The Novitiate is in the charge of Father Power, superior-general of the Society of Jesus in Canada; Rev. Mr. Bourge, the rector, and Rev. Father Doyle. Following a consultation with their superior the following statement was issued:

"In answer to the inquiries, the rector of St. Stanislaus Novitiate answered that many rumors had gotten abroad as to the institution harboring deserters or defaulters under the Military Service act, and orders-in-council, and he wishes emphatically to deny these and any other allegations of a like character.

"Particular pains had been taken at all times to accept none into the order who was subject to the act or any regulations or orders-in-council.

"Representatives of the government had visited the novitiate and made inquiries, all of which had been fully answered, and the representatives had been given every opportunity to make any investigation they saw fit.

"It is understood that an official statement will be issued promptly by the government dealing with the whole matter."

LONDON MEN TO HELP FARMERS SAVE CROPS. Manufacturers Will Supply Them on Basis of \$3 a Day.

London, Ont., June 21.—A committee from the county of Middlesex and the local board of trade held a most successful meeting here, and as a result arrangements will be made by which the local manufacturers will supply men to help the farmers save their crops. It is suggested as a basis that the wage be \$3 a day. If a city man is making less than that the farmers are to pay the difference. If he is making more the manufacturers agree to pay the difference between \$3 and the man's regular pay.

### A GOOD APPOINTMENT

(Fredericton Mail)

The appointment of Archibald Fraser, of Fraser Companies, Limited, as the fifth member of the forestry commission will give the greatest satisfaction to the people of this province. As head of the largest lumbering concern in eastern Canada, Mr. Fraser is naturally a busy man, and had he been called upon to serve on the commission he could very well have pushed forward the plea in justification of his course that his large business interests required all his time. Mr. Fraser, however, is not built that way. He has enormous interests at stake in New Brunswick, and he feels, and rightly so, that this province is at a time like this deserving of the best service its citizens can render it. This being so, when the call was extended to him by the minister of lands and mines, he felt that it was his duty to accept. In this respect he has set a worthy example to other industrial leaders, not only in this province, but elsewhere.

The appointment of Mr. Fraser as the representative of the owners of graded lands will be hailed with satisfaction by all classes of people. As a practical lumberman he is keenly interested in all matters pertaining to forestry conserva-  
tion, and his services to the commission will be invaluable.

The important department of lands and mines never had a more careful and energetic head than Hon. Dr. Smith. He realizes that the crown lands are the greatest asset the province possesses, and he is determined that they shall be administered in a business-like way for the benefit of all the people. The act to create a forestry advisory commission was piloted through the legislature by Mr. Smith at the recent session along with other advanced legislation having for its object the protection and conservation of the crown lands of the province. A splendid commission has been appointed under the act, and we are confident that it will fully measure up to public expectations.

### HOW ROTARY GIFT IS TO BE SPENT

International Association of Relief Con-  
tributors to Be Well Allotted

When Halifax was stricken by disaster and a call for aid was sent out, one of the first organizations that responded was the International Rotary Club Association. A number of the clubs throughout Canada and the United States sent contributions to the Halifax club for the benefit of the sufferers with instructions to expand the money in whatever manner the local club saw fit. After normal conditions had returned and the club once more resumed its meetings, a committee of the members of the Rotary Club was appointed to investigate and report on how this money was to be spent. The committee recommended that the amount, which is about \$5,700, be expended as follows:—

1st.—That \$1,200 dollars be set aside to establish a home in the Children's Hospital, to be known as the International Rotary ward.

2nd.—That \$1,200 be contributed towards fitting up the Victoria Home for Nurses to be erected in the devastated area.

3rd.—That the balance be used for erecting a shelter on the new playground that will be part of the devastated area.

The committee also recommended that tablets be placed at those places denoting that they were the gift of International Rotary. The report was adopted.

Taking Officers' Course.  
Sergeant James Lyons, son of J. M. Lyons of Shelburne, who a few months ago won the distinguished conduct medal, is now taking an officer's course at Witley, England. Dr. George Lyons, another son, is now with the Imperial army, attached to the Royal Army Medical Corps.

### Plain Language Used To Holland

London, June 21.—The direct charge that the Dutch government sheltered a German vessel at a Dutch port to save her from being captured by the British has just been made public. The case was that of the Maria, 4,000 tons, which entered the harbor of Tandjong Pagar, Java, Dutch East Indies, in May, 1916. She was flying the German mercantile flag, but is believed to have been a German auxiliary cruiser.

The correspondence between Great Britain and Holland on the subject contains some very sharp language. The British minister at The Hague, in a letter to Jonkheer J. London, the Dutch minister of foreign affairs, wrote: "The question does not stand alone as an instance of the peculiar and unusual views adopted or invented by the Netherlands government during the present war in matters of international law."

The Dutch government in replying, said it did not wish to depart from the courteous tone which should mark diplomatic correspondence, and therefore refrained from referring to the strange remark, which, nevertheless, caused the government the greatest and most legitimate surprise.

The plea advanced by the Netherlands government was that the Maria was seaworthy and entered the port for repairs, but having failed to complete the repairs within the given time, was compelled to leave or restored to her British owners, she having originally been the British ship Ducre Hill, which was detained at Hamburg at the outbreak of the war.

In the final note, written in April, 1918, the British foreign office made the accusation that Holland had deliberately protected the vessel when the obligation of her own rules and principles would have necessitated the expulsion of the ship from the harbor, and added, "Great Britain must reserve full rights in the matter and may find it necessary to return to the subject at a future date."

### WOMAN BROKE RULES; LICENSE WAS REVOKED

Orono, Me., June 21.—Persistent refusal to make reports; failure to present herself at a hearing and failure to use sufficient wheat flour substitutes according to the regulations of the United States Food Administration has resulted in Mrs. Florence E. Barker, 68 Vermont street, Portland, having her license revoked. She is the first person in this state forced to suspend business through revocation of license and this action was ordered by Federal Food Administrator Leon S. Merrill after the case had been reported by William M. Pennell, Food Administrator of Cumberland county.

Mrs. Barker conducts a boarding house and held a license as a baker, granted under the provisions of the Food Control Act, and the proclamation of President Wilson.

The revocation took effect at 12 p. m. June 14, and she has been warned against any attempt to evade the intent and purpose of the punitive measure whether carrying on her business in other names, through other agencies or otherwise.

On July 3, 1918, an application by Mrs. Barker for the resumption of her license will be considered by the United States Food Administration, provided that in the meantime she has abided by the rules and regulations of the Food Administration and by the instructions issued to the State Federal Administrator for Maine.

### For Greater Food Production

Thousands are going from the cities to the farms, this summer. Boys and girls, as well as men and women, will "do their bit" for Canada and the Empire. An army may "fight on its stomach", but it works on its feet. So does the farmer and his helpers. How is the volunteer from the city to prevent the feet from becoming cramped and over-tired, when working in the field or garden?

## FLEET FOOT

IS THE ANSWER

They are cooler, and more comfortable than leather shoes,—support the ankles without binding—make steps light and buoyant as you plant, hoe, reap, pick fruit and berries and do your day's work with the least possible fatigue and trouble.

"WORKMAN" and "EVERY-DAY",—two staunch, serviceable shoes for such farm work—are made in sizes for men and boys, while for women and girls, the "ATHLETE B. BAL." will give splendid service.

Be sure you take a pair or two with you when you go out to the farm.

Or—if you are working your own war garden in town, you will find "FLEET FOOT" the easiest and most comfortable shoes to wear.

The best shoe stores have "FLEET FOOT".

None genuine unless stamped "FLEET FOOT".

### PROPERTIES TO BE SOLD AT PUBLIC AUCTION

Ten of City's Freehold Dwellings in  
Lancaster to be Offered — In-  
creased Revenue From Harbor  
Properties

The lease of four lots in Nelson slip,  
West Side, at \$600 a year to W. Malcolm  
Mackay; and increase of \$30 a month  
for the lots in Nelson slip for which  
J. A. Gregory had asked a lease  
at \$400. On his recommendation a lease  
to Mr. Mackay at \$600 for one year,  
terminable on thirty days notice, was  
authorized.

Commissioner Bullock also reported  
that the loss to the city on the "new  
pier" leased to the C. P. R. for the bay  
service at \$300 a month was \$1,028 last  
year; if figured on the value of the  
property, as well as on the expenses, if  
the company paid on a wharfrage rate  
basis the revenue would be very much  
greater. His motion that the rental be  
increased by \$50 a month from August 1  
was adopted.

Referring to the city's properties in  
Lancaster, Commissioner Bullock said  
the city has seventeen houses and twenty-  
two tenants there. He found that  
previous commissioners had recommended  
that the city should sell these prop-  
erties and he could not understand why  
this had not been done. Repairs were  
needed and he did not want to recom-  
mend them if the properties were to be  
sold. He submitted a detailed report  
on the properties, their rentals and ex-  
penses. He moved that he be author-  
ized to sell by auction ten of the prop-  
erties, situated on Franklin street,  
Church avenue and Milford road, at a  
date and with upset prices to be fixed  
by him. The motion was carried.

Commissioner Bullock was authorized  
to increase the wages of five watchmen  
and sweepers on the city wharves by  
twenty-five cents a day.

Authority was given for the expendi-  
ture of \$2,600 for the installation of two  
four inch mains in No. 5 wharhouse,  
West St. John.

The committee then adjourned.

### THANKFUL FOR \$100 BUT FEEL THEY SHOULD GET \$200

At a meeting of female school teachers  
held last evening, a resolution was passed  
thanking the trustees for the increase  
of \$100 in their yearly salary, but also  
requesting that they should have received  
the sum of \$200 requested. They pointed  
out that stenographers and other  
employees in the city receive more than they  
do, and that going to the present high  
cost of living, they should be given the  
additional hundred asked for.

### SUSSEX WILL TOLERATE NO BOOTLEGGING OR DISORDERLY HOUSES

Sussex, N. B., June 21.—Sussex is not  
to be a mecca for bootleggers or ladies  
of questionable character. Already some  
of the latter have been escorted out of  
the city, and others will be given a short  
strait if caught here. The sale of liquor  
will be met with a firm hand. Premises  
upon which the sale of liquor is sus-  
pected of being carried on will be put out  
of bounds. The sale of flavoring ex-  
tracts will be similarly dealt with. If  
any disorderly houses are opened they  
will be placed under guard if necessary.  
Military picquets will be on duty in all  
parts of the town and the civil and  
military authorities will work together.  
The decision was arrived at following a  
conference by Lieut.-Colonel J. L. Mc-  
Avity, camp commandant, and Mayor  
McKenzie and Chief of Police Aswell.

### June Brides

Arbo-Foster.  
A very pretty wedding was solemnized  
in the Baptist Parsonage, Fairville,  
Rev. A. S. Bishop officiating, when Miss  
Louise Barrill Foster, youngest daugh-  
ter of Mr. and Mrs. Patterson Foster of  
Port Lorne, N. S., became the bride of  
William Valentine Arbo, of Milford.  
Miss Foster was attended by her moth-  
er, also her friend, Miss Verma How-  
ard. Percy Carrigan acted as groom-  
man.

The bride was a picture of happiness,  
gowned in a taupe-grey broadcloth suit,  
with white satin gage hat, white furs  
and carrying a bouquet of white roses  
and carnations.

Following the ceremony, the bridal  
party were driven by coach to their  
future home, Pleasant Point, where a  
dainty reception was held. The home of  
the bride was beautifully decorated for  
the occasion.

The bride is a very popular young  
lady, and the costly presents showed the  
high esteem in which both are held.  
They included a beautiful china tea set  
from the employes of T. S. Stums &  
Co., Ltd., where the bride has been em-  
ployed for nearly two years, and also  
cutglass, silverware, table linen, and  
two substantial checks and many other  
nice things. Mr. and Mrs. Arbo will  
reside at Pleasant Point. They have the  
best wishes for a happy married life.

### SHIFT SWIMMING SCOWS TO END OF ROWAN'S WHARF

The location of the swimming scows  
at West St. John is to be changed on  
Monday next. The scows will be towed  
through the falls and moored at the foot  
of Rowan's wharf, at the foot of Ken-  
edy street. The cause of the change  
from Rodney slip to Rowan's wharf is  
due to the fact that of late there has  
been considerable refuse matter in the  
water in Rodney slip. The change will  
be greatly appreciated by the east side  
patrons of the scows and probably many  
more will now avail themselves of the  
opportunity of having a swim.
