TUESDAY, 11th July.

Prayer Meeting at 6 o'clock, A. M.

The Education Society met at 8 o'clock.

At 10 o'clock preaching according to appointment, by Elder Manning, from the 6th chapter of Matthew and 20th verse—"

After the sermon Elder J. D. Casewell was called upon to read the Circular Letter prepared by him, which was received, and ordered to be printed in the Minutes.

The Education Society was then called upon to report their proceedings, when the following Report of the Committee of Management, and Resolutions adopted by the Education Society, were presented by the Secretary:—

"The Committee of Management, in presenting to the Society a brief Report of their proceedings for the past year, feel

much pleasure in being able to state that the Institution has been in a flourishing and prosperous condition during that period. Your Committee, agreeably to their intimation in the Report of last year, lost no time in procuring Assistant Teachers in both departments. Mr. J. W. Hartt was employed in the male, and Miss P. B. Brown in the female department, both of whom have rendered valuable service to the Institution. Miss Brown has since been appointed Principal in the place of

Mrs. Miles, who wished to retire from the school.

"There have been upwards of seventy young persons from different sections of the Province in attendance during the last year, whose parents are to be found among the members of every religious denomination. This circumstance to your Committee is truly gratifying, and affords conclusive evidence that their determination to have useful knowledge and instruction imparted to the Pupils without regard to the peculiarities of sect or party are not in vain. The strict adherence to those principles by the Teachers, and an entire freedom from all sectarian influence whatever, has given confidence to persons of various religious sentiments, to seek here an education for their children, notwithstanding the charge of sectarianism urged by persons hostile to the Institution, but who have never taken an opportunity of making themselves acquainted with either its principles or operations.

An examination of the Classes took place on the 7th and 8th instant, which, we believe, proved very interesting to those who witnessed it, and produced the general impression, that through the able and indefatigable exertions of the Teachers, the Pupils in both departments had made great proficiency in the study of the several branches to which their attention had

been directed.

"Your Committee have found it necessary to advance the rate of Board from 7s. 6d. to 10s. per week, in consequence of the unusually high price of Provisions, Groceries, &c. required in the Boarding department. The rate of Tuition remains

from £3 to £5 per annum, as before.

"The Committee beg to press upon the attention of the Society and the friends of education generally, the importance of sustaining the Institution by sending their children and using every proper effort to increase the number of Pupils in both departments, which alone can insure to the Province those benefits which have been anticipated, and enable the Committee to meet the Salaries of the Teachers.

"Your Committee have most carefully avoided incurring any unnecessary expense, and have used every possible effort

to avoid increasing the sum due by the Society, but notwithstanding the strictest regard to economy, the accounts exhibit a balance somewhat greater than that of last year, the amount due at this date being £1,008 6s. 8d., £96 10s. 91d. of which arises from a deficiency on account of the Teachers' salaries, a less sum than the Committee have ever anticipated; they always looked for a deficiency in that department of about £100 per annum, instead of a less sum than that for one year and a Another item by which the balance has been increased is the amount paid for interest. A part of the amount of the two last mentioned items was due 1st July, 1836, but not included in the general account of that date, as neither the Tuition from which the salaries are paid, nor the interest account, was then made up.

"The total cost of land, erection of buildings, fences, &c. is £2,376 Os. 71d. to which is added the deficiency on Teachers' salaries of £96 10s. 9½d. making together £2,472 11s. 5d. Through the liberality of individual donations the sum of £1,464 2s. 6d. has been received, (amount charged for Tuition not included) leaving a balance ue of £1,008 8s. 11d.

as per account annexed.

The Committee must press upon the Society the necessity of making an increased effort to liquidate the debt now dre, to prevent its further accumulation, by the payment of interest, and relieve the Committee from those embarrassments which must otherwise press very heavily upon them.

"There are now about £400 of subscriptions remaining unpaid, and the Committee feel confident that the amount due might have been materially lessened during the two past years of comparative prosperity, could the services of efficient Agents have been obtained to have collected the sums subscribed, and solicited aid from those who have not yet been called upon for assistance.

"Your Committee were encouraged by the liberal Grant passed a third time by the House of Assembly at its last sitting, but regret to state that their prospects were soon blighted by the rejection of that appropriation a third time by a majority of the members of the Legislative Council, although recommended by the signatures of about two thousand respectable persons in various parts of the Province. Had this appropriation been received, the Committee feel assured that the balance of the present deficiency would have been readily made up by donations from the friends of the Institution, notwithstanding the very large amount already collected in that way.

"The Committee in conclusion would invite the public to a more intimate acquaintance with the principles and operations of the Institution, and rely with confidence upon the friends of education throughout the Province, to sustain the same by af-

fording such support as it may be entitled to receive.

Extract from the Minutes of the Committee.

"At a Meeting of the Committee held at J. Ring's, June 14th,

"Took into consideration the Petition of Messrs. Burpe and Taylor, presented by them to the Education Society at its last meeting, and referred to the Committee to report upon, where-

"RESOLVED, That the Committee cannot recommend the prayer of the Petition of Messrs. Burpe and Taylor, Contractors for the erection of the N. B. Baptist Seminary, for the following reasons:—

"1st. That a regular contract was entered into with Messrs. Burpe and Taylor, after maturely deliberating upon the subject, the conditions of which the Committee have on their part in all respects fulfilled.

"2nd. That the difference of expense occasioned by erecting the building at Fredericton instead of at Maugerville, as referred to in the Petition, was estimated by the Contractors, assisted by their architect, to which the Committee acceded.

"3rd. That all other extra charges were referred to a disinterested competent person mutually chosen by the Committee and Contractors, agreeably to the terms of the contract, and the difference awarded paid by the Committee.

"4th. That the Committee are of opinion that the Controctors have been amply rewarded for all alterations and extra work done, and that any loss which they may have sustained has

arisen on the original contract, and that even this might have been avoided had materials been provided and the work executed at an earlier period agreeably to the contract.

"That the Association should regard the publishing of that paper as being intimately connected with the advancement of the cause of the Redeemer, and adopt it as the organ of the Baptist denomination in this Province."

RESOLVED, That the foregoing report be adopted, and that every Member of our Churches, (and particularly our Ministers and Missionaries) should feel the importance of using their utmost efforts to promote the circulation and support of the Messenger.

RESOLVED, That in the opinion of this Association, it is highly important that the attention of the Churches should be directed to the subject of Foreign Missions and that they should begin to inquire, "what God requires of them in reference to Heathen nations."

That whereas there is a large sum of money in the hands of a Company in England (known by the New England Company), for the civilization and Christianization of the Indians of British North America; and whereas the late venerable Richard Scott, Baptist Missionary, was for several years an Agent to carry into effect the views of that Company, and as our venerable Brother Scott is now no more, therefore

RESOLVED, That it is very important that we, as a body of Christians in furthering the cause of Missions, should take into consideration the destitute state of these scattered Tribes, and seek access to a portion of those funds in behalf of the Indians in this Province.

RESOLVED, That Elder J. D. Casewell, and William B. Kinnear, Esquire, of Saint John, be a Committee to prepare an Address in behalf of this Association, founded upon the foregoing resolutions, and transmit the same to the Secretary of the aforesaid Company.

RESOLVED, That the statistical number of the Baptist Denomination in this Province, (viz. 2,600), as published by Mr. Wedderburn in 1836, is grossly incorrect.

RESOLVED, That although the number of Communicants does not exceed that published by Mr. W. still the number of those who embrace the sentiments of that denomination, and actually form a part of the congregations connected with the same, would, if correctly ascertained, amount to at least ten times that number.

RESOLVED, That those persons who embrace the sentiments of the Baptists, and comprise a part of their congregations, as alluded to in the foregoing resolutions, should be included in the census of that denomination.
