Terhaps you will say that I was in the right quarter to be satisfied; but I didn't feel so. I am, like John Gilpin, of a frugal mind. I haven't tolled all tlaes years in a foreign land under a blazing sun to dissipate my modest hoard on cooks and restaura'n; moreover, my appetite is a masculine one, and is not to be appeased by cutlets as big as half-crowns. Should I take the "bus" to Paddington and lunch with my sister Emily? Paddington and lunch with my sister Emily? Paddington is a long way, Emily as likely as not would be out, and if at home she would be lunching off cream choses and Osborne biscults and a glass of Gladstonian claret. Should I retreat to my station and refresh my self calmly at the dining-room, and there await my train? There was something ignominious in the idea. Here was I in one of the most wonderful cities in the world, and all 'I could find it in my heart to do was to get out of it as quickly as possible.

MONDAY EVENING, APRIL. 6.

During the last election contest in this city the people were told of the vital importance of having a St. John mem ber in the Cabinet as the guardian of St. John interests. "Re-elect Mr. Burpee because he is Minister of Cus toms," was the cry, "for should he be defeated Anglin will be taken into the will not be so well guarded." This cry was made to do duty in all quarters, and was very effective. Now the election is Dry Goo over, Mr. Burpee is in his seat, the Government have a good majority from the Upper Provinces, and we are getting evidences of the manner in which Mr. Burpee is looking after the interests of St. John. The evidence is furnished by an order for the stoppage of work or the extension of the railway to the Ballast Wharf! The Minister of Customs was voted for by many who despised his course and ridiculed his pretensions on account of the services they expected him to render to St. John by virtue entitled The Major's Eunchen. of the position he had accidentally gained, and the stoppage of the Courtenay Bay works is the way in which he fulfils the expectations! Ayer's Cherry Pectoral For Diseases of the Throat and Lungs.

A MONG the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all discasses of the Throat and Lungs: A vast trial of its virtues, throughout this and other countries, has shown that if does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact that Gurran PecroRat will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Fulmonary Organs yie of to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proveh beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become inearchile, and too often fatal, if neglected. Tenriums need this de.ence; and it is anwise to without it. As a safeguari to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTOLL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centered on them. It acts speedi 7 and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured. Prepared by
