JUNE WEDDINGS

Purdy-Mills
The marriage of Miss Veta Mary Mills, daughter of W. D. Mills of Appin, to Gordon Purdy of London was quietly solemnized at the Ridout St. Methodist parsonage, London, on June 7th. Rev. J. A. Agnew officiated. The bride was attended by her sister, Miss Ella Mills of Appin, and the groom was assisted by Roy Brothers of Strathroy. After the ceremony a dainty luncheon was served at the home of the bride's brother, Gordon Mills, 910 Princess avenue, after which the happy couple left for Niagara Falls and Buffalo. On their return they will reside at 38 Tecumseh avenue, London.

Campbell-Hogg
The marriage of Miss Jean Kerr Hogg, daughter of Mr. and Mrs. George Hogg, to Dr. Archibald Donald Campbell, son of Mr. and Mrs. Duncan Campbell, Glencoe, Ont., took place June first at 7 o'clock at the home of the bride's parents, 137 The Boulevard, Westmount. Pink and white formed the decorations of the living room where the ceremony took place, the Rev. Dr. Hanson officiating. The bride, who was given away by her father, wore a gown of white satin embroidered with pearls and a court train also pearl embroidered. Her tulle veil was caught with a wreath of orange blossoms and she carried a shower bouquet of lily of the valley and sweetheart roses. Mrs. William Campbell, as matron of honor, and Miss Helen Campbell, as bridesmaid, were dressed alike in taffeta of shot rose and silver with large hats of black (chantilly) lace and bouquets of shaded sweet peas. The best man was Dr. H. E. McDermott. The wedding music was played by Mr. McCreary and during the signing of the register Mrs. George Hogg sang "O Joy Divine." Mrs. Hogg, the bride's mother, wore a gown of amethyst satin veiled in lace and a corsage of sunset roses, and Mrs. Campbell, the sister-in-law of the groom, wore black satin embroidered in jet. A reception was held after the ceremony, following which Dr. and Mrs. Campbell left for the west. Going away the bride wore a suit of navy blue tulle tricot embroidered in black, a navy blue taffeta hat and fisher furs. On their return they will reside in Westmount.

West Middlesex U.F.O. PICNIC
Strathroy, July 1st
All Roads Will Lead to Strathroy on Dominion Day
Great Program Prepared—Races Already Well Filled
U. F. O. Picnic, July 1—A celebration of, for and by the people of West Middlesex. This means that each individual friend of the organization is responsible for its success or failure. The committees are only striving to carry out your wishes.
The organization cannot remain stationary. It must go forward or back. This is the natural law. Which shall it be? It is yours to say, absolutely.
The pivotal idea of this celebration is to strengthen your organization and to prepare for the strenuous times ahead.
There is another method which so effectively consolidates the ranks, dispels suspicion and ensures success. It is clearly your duty to be there, and it is also your duty to see that everyone is there.
If your organization fails, your last condition as a class will be worse than your first. They will do with you as they will. But if you remain united, the services of democracy will ultimately prevail.
It is true we have had some disappointments, but these are incidental to the history of all great causes and should not be a cause for regret.
Regarding disappointments: Do your own criticizing; do not listen to your enemies, for you know when Satan gets a prospect he immediately enlists the services of seven other demons.
Those not directly interested in the farmers' movement will get their money's worth heaped up, pressed down and flowing over.
Last year it was said by some that the U. F. O. had "shot its bolt" and was on the wane, but it is back this year with "a wallop in both fists," and such a wallop—an address by Canada's next premier, and a program costing nearly \$4,000.
This is Mr. Crerar's first appearance in Ontario. Come and give him a royal welcome.
Our staked races are all well filled, and a magnificent day's sport is assured.
Our battle cry: "On to Ottawa."

DISTRICT AND GENERAL

Duncan McLellan, aged 93 years, one of the oldest pioneers of Lobo township, died last week.
Three teachers of the Parkhill high school have resigned. Mr. Cooper, principal, is re-engaged at a salary of \$2,500.
A Forest business firm announces that a "Rest Room" for women and children is to be established on its premises.
Elgin County Division Grange have made arrangements for their annual picnic, which will be held at Port Stanley on June 29th.
It is announced that the Provincial Government will bonus hydro-electric transmission lines in rural districts to the extent of 50 per cent.

No farmer—or other citizen—whose property abuts the Provincial road, way built by all the people's money can lease a foot of it to bill-board posters.
An Oregon farmer sent the State a bill for \$90 because, he says, two hoppers ate some dynamite left beside the roadway by their workmen and were killed.
John W. Kedwell, publisher of the Alsea Craig Banner, is dead. He formerly was connected with the Petrolia Topic and later owned the Alvinston Free Press.
The little daughter of Alonzo Gosnell of Chatham found a bottle of tablets containing strychnine and belladonna, several of which she ate, dying a few hours later.
Work will be commenced shortly on the construction of the hydro-electric transmission line to Alvinston. The line will be an extension of the system from Oil Springs.
Peter McGregor, a prominent and much esteemed citizen of Rodney, died last week. Mr. McGregor was born in Scotland 69 years ago. He kept a grocery store in West Lorne for some time.
Good news, indeed, is the prospective decrease in rates on the railways of Canada. It is expected that the further contemplated reduction in both passenger and freight rates on July 1 will mean practically a return to pre-war figures.
The directors of the Beet Growers' Association held a meeting at Dresden and discussed the establishment of a beet sugar factory in that district to take care of the beets grown by the members of the association. Prospects are said to be bright for carrying out the proposition.
Three horses, two owned by D. McAlpine and one by M. A. McAlpine, were killed by the Wolverine express at the Coyne road in Dunwich. The horses broke out of the pasture field of the latter near Campbellton and were probably making their way to their former pasture field near Dutton.
The Hydro-electric Commission engineers have submitted a new plan for power distribution in rural parts to the Provincial Government. Briefly stated, the new scheme is for an underground extension instead of the usual overhead system generally used. The underground system will cost less than \$800 per mile as compared with \$1,200 per mile to build overhead transmission lines.
Mary Jane Bains, wife of Augustus Helm of Ekfrid township, passed away on June 8th, in her first year. Mrs. Helm had been ill for the past two months. She was born in Canada, and resided there until her marriage. Besides her husband she leaves three children: Lizzie, teacher at Thamesville, and Wilfrid and Mary at home. Two brothers survive, Thomas and Michael Bains of Caradoc. The funeral was held Friday morning from the family residence, lot 3, con. 3, Ekfrid, to All Saints' Church, Strathroy, where mass was celebrated prior to interment in the Catholic cemetery.

MIDDLESEX COUNTY RATE

The county tax rate for the present year will be exactly the same as for 1920. The report of the finance committee, which set the rate at 6.83 mills, was adopted by the council without discussion. This rate will provide revenue of \$263,421.63.

TOWNSHIP LOSES APPEAL

The case of the Township of Zone versus McDowell was argued in the supreme court of Canada Wednesday. The case arises from a dispute as to the location of the boundary between the appellant's land and the highway. The land in question was used as a highway for 60 years, but was fenced in 1915 by Mr. McDowell following a survey. This fence was torn down by the municipality, erected again by Mr. McDowell and again destroyed. Mr. McDowell brought action against the municipality for trespass and for interfering with fences. In addition he asked for a mandatory order to compel the municipality to re-erect the fences and for an order declaring the 1915 survey final and conclusive. The trial judge and appellate division held that the 1915 survey was conclusive against the claim of the municipality.

GLENCOE HIGH SCHOOL

Promotions from Form I. to Form II. Names arranged alphabetically: On year's work—H. Edwards, H. Gillies, I. Johnson, B. Looneman, M. McDonald, F. McEachern, R. Munson, A. Munroe, L. Reeves, E. Sutton, M. Weekes.
By examination: L. Black, L. Joiner, C. McTaggart, B. McCallum, C. Thomas, A. Watts.

HORTICULTURAL SOCIETY

All members wishing to purchase tulips, peonies or other bulbs for fall planting or winter flowering must send in their order this week to any of the directors. Directors have catalogues.

WILL ERECT MEMORIAL TO RUSSELL CAMPBELL

Middlesex county council is taking action to provide a memorial to the late Russell Campbell of Melbourne, who was shot and killed by bandits when he attempted to prevent the robbery of the Home Bank in that village on the morning of April 11. The following motion, presented to the council on Thursday afternoon by Councillors C. C. Henry and A. McPherson, was adopted: "That a committee be appointed, composed of Wardens, Councillors and Councillors E. W. Nichols and D. Leitch, with power to add to their number if they deem advisable, to determine the most fitting way for the council to show their appreciation of the heroic action of the late Russell Campbell, who lost his life in the capture of bandits who attempted to rob the Home Bank in Melbourne on April 11, believing that to his heroic work and that of other citizens of Melbourne was due in great extent the checking of hold-ups and burglaries in the county."
The council discussed the matter briefly, several suggestions as to the form of memorial being put forward by members. Apparently the most popular suggestion was that the memorial should in some way apply to the Melbourne public library, in which the deceased was greatly interested, and to whose efforts much of the success of the institution is due. The committee expect to get in touch with Melbourne citizens with a view to ascertaining the plans which they have in the matter of a new building for their library.

THE LATE MRS. SCATES

The late Mrs. Sarah Scates of Appin, whose death occurred on June 4, was born in Middlesex county in 1846 and when a child moved with her parents to the township of Southwold, Elgin county, near Iona Station, where she was favorably known for many years.
Her husband, George Scates, was reeve of the township of Ekfrid and also a member of the Middlesex county council for a number of years.
The funeral services were held at her late residence at Appin on June 7th, Elder J. B. Slavson of the Old School Baptist church, Mayfair, speaking words of comfort to the husband and friends. Many came from a distance to pay their last respects to the departed. Interment was made at Cowal cemetery.

CHURCH ANNIVERSARY

Anniversary services will be held in the Glencoe Presbyterian church on Sunday, June 19, at 11 a.m. and 7 p.m., conducted by Rev. A. S. Orton, M.A., S.T.M., of St. Andrew's Presbyterian church, Chatham. There will be special music by the choir, assisted by B. Jarvis Sedman, one of London's best baritone soloists. The Anglican and Methodist evening services will be withdrawn for the occasion.
A social evening will be held on Monday at 8 o'clock, when addresses will be given by Rev. Mr. Orton and the local ministers. Good music will be supplied by Mr. Sedman and local talent. Admission, 35 cents.

Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Remover and get relief.
And now that paper has jumped up among the luxuries in price, the fashion leaders are designing paper hats for women.

MRS. W. A. CURRIE
GLENCOE

CHILD DROWNED AT APPIN

The eighteen months' old boy of Angus McDonald of Chatham, who is employed and living on the farm of Robert McDonald at Appin, fell into a tubern at the house there on Saturday and was drowned. It is thought that the little child had been chasing a kitten and followed it on to the top of the cistern, which gave way, as the kitten was found in the cistern and alive when the body of the child was discovered. The parents have their permanent home near Chatham, where the remains were taken for burial.

DOINGS AT COUNTY COUNCIL

The council made a grant of \$800 to the Strathroy hospital.
After going into committee on the whole on the matter it was decided to take no action on the petition of Dr. McKenzie Smith and other women, who urged that \$7,000 be provided for the upkeep of six school nurses in the county.
The council turned down the proposition to aid in the establishment of a second branch of the department of agriculture in the county. The need of a second branch of the department in Middlesex was explained in a letter received from R. S. Duncan, director of agriculture for the province. He explained that owing to the fact that there are 15 thickly populated townships in the county it was not possible for the representative in London to do justice to the whole of Middlesex. He urged the council to splitting the work of the county by appointing a second branch, preferably in Strathroy. The full cost of establishing such an office and of maintaining it year after year would amount to \$5,000 annually, but of this amount the county was asked to contribute only \$500 each year towards the maintenance; the province provided the rest.
Applications for the usual special grants to high schools within the county were laid over until the December session.

DEATH OF MRS. McLACHLAN

Died at Glencoe on Tuesday, June 14, 1921, Jessie Isabella, dearly beloved wife of Dr. J. V. McLachlan. Funeral service in the Presbyterian church on Thursday, June 16, at 2:30 p.m. Interment at Oakland cemetery.
Jessie Isabella McLachlan was the second daughter of the late Andrew and Anna McDiarmid, pioneer settlers of Southwold township, near Fingit. She received her education at Shelden public school, St. Thomas Collegiate and Toronto Normal school, and after teaching a few years in Ontario went to Manitoba where she continued teaching on the staffs of Brandon and Winnipeg public schools.
In 1890 she married Dr. J. V. McLachlan of Southwold, and after a few years in Auburn, Huron county, came to reside in Glencoe in 1896. She was a devoted member of the Presbyterian church and took a deep interest in the moral and religious welfare of the village and community. As a member of the Glencoe Book Club she was present and moved a vote of thanks to Bliss Carman on the occasion of his visit last November.

In December with some effort she attended the annual meeting of the Women's Missionary Society of which she was for some years president. She is survived by her husband and three daughters, Mrs. Herbert G. Vicary, Lambeth; Evelyn, at home, and Grace, teaching near Dresden; also by four brothers, Dr. John McDiarmid, Brandon; Alex. McDiarmid, Fingit; Dr. Andrew McDiarmid, Jasper Park, Alberta; and Albert McDiarmid, Shelden, and three sisters, Mrs. Wm. Guest, Mrs. Wilson B. Stafford and Mrs. Nelson Bawtinheimer, Shelden.

After a long and painful illness, patiently endured in Victoria Hospital and at home she passed peacefully to her eternal rest Tuesday, June 14.

SOCIAL POSTPONED

The St. John's Junior W. A. ice cream social, advertised for June 24, will be held on Thursday, June 23, owing to other socials being held on the 24th. W. Sheppard of Wardsville will sing, and also other artists. See next week's advertisement.

WRECK ON THE WABASH

Pat Nevin, baggage man, of Windsor, was seriously injured and three other persons, unknown, painfully hurt and a score were more or less badly shaken up in an accident which occurred near Cayuga Tuesday afternoon, when the engine, baggage car and one passenger coach of the Wabash passenger train No. 2 left the rails. The accident is thought to have been due to a spread rail. In view of the fact that the train was traveling at a moderate rate of speed what might have been a serious accident was avoided.

APPEAL FROM AWARD

A petition has been presented to the Elgin county council by several ratepayers of Aldborough and Dunwich townships, appealing from the award recently made by the arbitrators in connection with the union school for the two townships. It is alleged that the arbitration board was not regularly appointed, did not comply with the Public School Act and made an inequitable award.

The Secret of the Old Chateau

By DAVID WHITELAW.

(Copyrighted)

Synopsis of previous chapters. Vivian Renshaw and Eddie Haverton, modern soldiers of fortune, have been gambling with Hubert Baxter, a prosperous attorney, in his London apartments. After their departure one night Baxter returns to the house, murders Baxter and hides the body on the roof. While waiting for night to come again in order to make his escape, he finds in a desk a curious old yellowed document telling of a mysterious chest left in the care of one of Baxter's ancestors by a French nobleman, the Marquis de Dargigny, of the Chateau de Villon. The chest has been handed down from one generation of Baxters to another and carefully guarded in the hope that some day its rightful owner will be found. Baxter decides to pose as the missing heir and claim the chest. He goes to France to make time needed inquiries about the Dargigny family. The story of the mysterious chest goes back to the troubled days of the French Revolution and the escape of the Marquis and little grand-daughter in England, where the chest and document were given to the Baxters for safe keeping. Now, more than one hundred years later, Hubert Baxter's body is found, but the police find no clue. Meanwhile, Baxter changes his name to Baptiste Dartin, and visits Canada; then he presents his fictitious claims to Robert Baxter, new head of the firm, and receives the treasure chest. Robert, who is in the chest, Dartin goes to make a great success on the stage. She tells him he must wait a year for her answer. Dartin is first greatly disappointed to find only a paltry thousand pounds in the chest. He is relieved to discover later a large key and a parchment telling where the real treasure is hidden. Giving Baxter a quiet knock and chain which he found in the chest, Dartin goes to France. By posing as an artist he gains admittance to the Chateau Chauville, and in a secret vault finds an immense fortune in gold, silver and rare pictures.

CHAPTER XI. (Contd.)

Seizing the scarf firmly in both hands Vivian raised himself until his head rested upon the coffin lid. Then with a little spring he started his elbow. The slender crack of splintering wood as he "took off" from the old casket caused a little thrill of horror to run through him, but he crept up, hand over hand, until at last his fingers gripped the edge of the floor. With this he pulled himself up, and the scarf it was not difficult to clamber up and Vivian, exhausted but happy, sank down in one of the little pews of the chapel.

Through the window above the altar the rays of a young moon shone thinly. A glance at his watch told Vivian that it was half-past ten, and he looked round for a means of completing his escape. To a man who understood lockwork as he did this was a simple matter, and by the time the clock in the tiny belfry was chiming eleven M. Baptiste Dartin was in the little plantation of firs which surrounded the secret building.

Cautiously he made his way to the lodge and, scaling the gateway, crossed the bridge and reached the high road. Midway between the chateau and the "Three Lilies" he came upon old Henri, who was returning from the inn.

Vivian stopped him. He had been into Blois, he told the man, to order the frames for the pictures. By the way, would it be convenient for him to finish the dining-room sketch the next afternoon? In the meantime, would Henri honor him by returning to the "Three Lilies" as his guest, there to open a bottle of the really excellent claret that house provided? It took Vivian three days to finish the sketch, and when finally he departed from Massey he left old Henri in the seventh heaven of delight, for had not the gentleman taken his pictures into Blois and returned with them framed in gold? Perhaps the gentleman would come again and paint some more pictures, in fact, he had almost said as much.

Three days later the gentleman in question was seated with a jeweller of great wealth and indifferent morals in an office in a street behind the Hoozard in Rotterdam. For the first time in the merchant's life he was unable to deal single-handed with the collection which was set out before him. But there are other jewel merchants in Holland, and by the united efforts of three of the principal ones in the trade the collection of diamonds, emeralds and rubies from the Chateau Chauville changed hands to the satisfaction of the gentleman who had called to dis-

pose of them and who bore on his card the name—

BAPTISTE DARTIN

CHAPTER XII. The Blackmailer.

Eighteen months had passed since the night when Hubert Baxter met with his death in Mortimer Terrace, and still, with the exception of the murderer himself, there was but one man who suspected anything of the truth, the mysterious affair. True, Eddie Haverton had no knowledge when he parted from Vivian Renshaw in the fog at Regent's Park Circle that his companion had any intention of returning to the house which they had left a moment before, but one conclusion—and upon him it had a far-reaching effect. Morally, Mr. Haverton was no whit better than he had ever been—it was not in his nature to be so; but his narrow escape from being enmeshed in the web of the Regent's Park mystery had given him a severe shaking up.

As he sat in his flat this bright spring morning he told himself that although the strange road was infinitely less interesting and lacked many of the allurements of the broader thoroughfare, it was smoother travelling for a man of middle age whose nervous system had never been of the best. He shuddered even now at the remembrance of what his life had been during those first few weeks following the discovery of the body on the roof. He remembered the feelings with which he would move, and he remembered the watch the developments of the case in which at any moment he might be called upon to take a principal part.

Hour by hour, day and night, he had been pursued and tormented by the sense of anticipation. Not a knock on his door nor a friendly tap on the shoulder in the street but he told himself that his hour had come. The fact that this was innocent weighed little with him; the explanation should become known that he was with Baxter on that night, was beyond even his fertile brain. Unlike Renshaw, he had had no particular reason for moving any more than that he would like to see his presence in Mortimer Terrace. He said that there were a hundred and one things that might incriminate him—a handkerchief, a scrap of paper, a cigar end, a thumb print.

It was this latter which held Eddie Haverton in the grip of deadly fear. He knew well that among the thumb impressions at Scotland Yard his had their place, and memories of three years he had passed in a tiny apartment overlooking the granite-streets of Dartmoor, which had followed the taking of these impressions, came back to him in shuddering force.

But that time of terror was all over now. Hubert Baxter had been found in the family vault at Highgate and the affair of his death no longer claimed the public attention. The police had apparently dropped the case, and the most blatant of the "yellow" press had long been silent on a subject from which they had squeezed all sensation.

And Eddie Haverton, ever since that November night, had run straight—that is to say, in any venture which he made, he was careful to remain well on the right side of the hedge planted by the law around that particular business. He had been successful in the past and his good fortune seemed to hold good now that he had chosen a more reputable mode of life. Everything he touched turned out well—a dairy which he ran for a few months, was disposed of to a company at a large profit; he was then able to purchase a penny weekly and the circulation rose at once until it reached a quarter of a million.

But these were but speculations, and it was not until Eddie's last battle with the theatrical field that his chief fortune was expended. Always a keen player, he rapidly turned to financial account his experience of many years. He did not advertise his present connection with the stage more than he was, but the theatrical world were well aware that he was the power behind the throne in more than a few touring successes, and that London managers were beginning to speak of and fear this man who robbed them by his specious offers of some of the most promising members of their companies. For Eddie Haverton's scent for "talent" was keen, and many a chorus girl and two-line actor owed a big success to the man who had watched them from the stalls.

It had just been like his luck that Haverton should secure the services of Stella Benham. It was his rule, and he found it a paying one, to watch the performances of understudies with infinite care. His knowledge of human nature and of the life and jealousies of the world behind the scenes gave him an advantage that he was not slow to take.

Stella's reign in the name part of "The Slum Duchess" had been brief. Miss Foster, who had hoped to stimulate the taste of the public by her strenuous return to the theatre, had been completely recovered from her indisposition on hearing of the success of her understudy. She returned to her duties in three days and Stella was again rele-

MERCHANTS BANK OFFICIALS EXPRESS TEMPERED OPTIMISM REGARDING BUSINESS SITUATION

President and General Manager Review the Canadian Business Situation With Much Hope—Financial Position of the Bank an Exceptionally Strong One—Crop Outlook Encouraging.

At the annual meeting of the Merchants Bank of Canada the various reports which were presented showed that this institution occupies a commanding position in Canadian financial affairs. The addresses of the President, Sir Montagu Allan, and the General Manager, Mr. D. C. Macarow, were concise statements of present day conditions and contained an optimistic survey of the future.

The President's Address.

Sir Montagu Allan, in part, said: "The general depression in business, felt to a greater or lesser degree in every country in the world, has affected the business of the bank to some extent, but we hope, the low point of depression has been passed, and that there will soon be a change for the better. The coal strike in England, which will no doubt result in the loss of a great deal of trade and the rest and discontent which seems to prevail in nearly all the countries of Europe, give rise to serious financial problems to be reckoned with, but no man in this country who is strong and healthy can afford to be a pessimist for any length of time. The known and undeveloped resources are sufficient to ensure future prosperity."

New Issue of Stock.

"As mentioned in last year's report a further issue of \$2,000,000 of new stock was made, making the paid-up capital of the bank \$10,500,000, and by the transfer of the premium on the new stock to the rest account, the rest now stands at \$9,450,000."

"The shareholders of the bank now number 2,997, as against 2,622 in 1929, being an increase of 375 during the year."

Current loans and discounts stand at \$109,182,000, as against \$113,198,000 last year. It will be seen, therefore, that this bank continues to extend its ample share of assistance to the industries of this country."

General Manager is Optimistic.

Following the president's concise yet comprehensive review of the situation, as reflected in the year's statements, said Mr. Macarow, there is little left for me to add beyond, perhaps, a word or two by way of amplification.

It will be observed that in comparison with last year's figures our total

assets show a shrinkage of about \$7,000,000, or roughly, 35 per cent.

The general depression in business, which, in view of all the surrounding circumstances, must be regarded as a satisfactory showing, the liquid position being well maintained the while. The trend of our interest-bearing deposits for the same period has been steadily upward, an increase in that department of about \$7,000,000 being shown, but this gain has been offset by the decline in the total ordinary deposits. A year ago, however, under the heading of demand deposits, a sum of about \$8,000,000 stood to the credit of the Government in connection with Victory Loan payments. This amount, which, of course, was of a purely temporary nature, was withdrawn during the year so that, after making allowance for it, the total deposits and total assets about held their own, a satisfactory achievement we have no doubt you will agree.

Crop Reports Are Promising.

Crop conditions throughout the country are at the present moment exceptionally promising. If I may say a word as to general conditions it will be one of tempered optimism, having a due comprehension of the many difficulties which require to be met but which are being met with a determination to overcome them.

Altogether, and in a word, it is not difficult to be an optimist as to the future of "Canada Unlimited," to borrow the apt expression recently used by an eminent Canadian.

The Board of Directors was re-elected, with Sir H. Montagu Allan as President and F. Howard Wilson as Vice-President.

upon the appearance of that gentleman. His mirror, as he turned from the window to it, showed him a well-settled man, broad and full-chested, with the regular setting of broad and the other ingredients added, like the dough, rather into double in size, kneaded, shaped into a loaf, let rise and bake. Butter only is needed when making sandwiches from this loaf.

Filling for sandwich—1/4 lb. strong cream cheese, 1/4 lb. butter, 1 medium-sized sweet green pepper. Grind the cheese and mix butter and cheese together until smooth and creamy, add the pepper which has been chopped, and mix well. Pimentos may be used in place of green peppers or both may be left out. Thin slices of rye bread spread generously with this filling make an excellent sandwich.

Peanut sandwich filling—1 cup shelled peanuts, 1-3 to 1-2 cup sweet cream, 1/2 teaspoonful salt. Remove the brown skin from the peanuts, put them through the food chopper using the pulverizing plate, add the salt and cream. With a fork, mix until smooth. Cooked mayonnaise may be used in place of cream if desired.

Sandwich glorious—Cut day-old slices a little less than one-half inch in thickness. Spread one slice thinly with butter then with blackberry jam. Spread another slice with cottage cheese seasoned with cream and salt, place the two slices together, cut in any shape desired and serve.

Ginger snaps—1 cup sugar, 1 cup molasses, 1 cup fat, 4 cups flour, 1 tablespoonful vinegar, 1 tablespoonful

These are Picnic Days. A picnic lunch to be worth the name, is tasty, wholesome, satisfying and simple. Plain, simple food well prepared, neatly and attractively packed, always tastes good in the big outdoors.

A picnic lunch that was enjoyed and appreciated by all who partook of it consisted of beef hash, lettuce sandwiches, pickles, sponge cake, milk, coffee and fruit. Two pastries contributed to the feast and not more than one-half hour was spent in preparation. The hash was prepared, seasoned, put in a spider, covered, wrapped and packed. Lettuce was washed and wrapped in damp cloth; butter, put in jelly glass with cover; bread and cake, were each wrapped in oil paper and all packed in the lunch basket; cold milk was put into a thermos bottle, ground coffee in a small cheesecloth bag in the pail in which it was to be made.

Over a camp fire by the roadside, the hash and coffee were cooked while the remainder of the lunch was spread in a grove nearby.

Another picnic lunch eaten on the shore of a lake might have taken a prize for little work and real enjoyment.

Raw fried potatoes, fried white fish, bread and butter, jelly sandwiches, pickles, ginger bread, milk and coffee made up the menu. Those proficient in fire building and camp cooking prepared the fish, potatoes and coffee while others attended to laying the cloth and placing the food. Everyone enjoyed the eating and no one objected to necessary dishwashing with the lake for a dishpan.

Hot picnic dish—6 cups sliced raw potatoes, 2 1/2 cups ground raw ham, 3 cups sweet whole milk, 1/2 teaspoonful salt, 2 teaspoonfuls flour. Put the potatoes and ham in a buttered and crumbled baking dish in alternate layers beginning with potatoes and finishing with ham, sprinkle the flour over the different layers, add the salt (not too much as ham is salt) and milk and bake in a slow oven for one-half to two hours. When done, wrap in a clean cloth, then in several thicknesses of paper and it will keep hot for an hour or more.

Rate and nut bread—3 cups bread chopped, 1 cup ground peanuts, 1 cup sopped dates, 1/2 teaspoonful salt, 3 cups flour or enough to make a stiff dough. The sponge may be taken from the regular setting of bread and the other ingredients added, like the dough, rather into double in size, kneaded, shaped into a loaf, let rise and bake. Butter only is needed when making sandwiches from this loaf.

Too Cheerful.

Optimism is assuredly preferable to pessimism; but even the sunniest optimist cannot safely dispense with intelligence and moderation.

Optimism is a modern word; but the too cheerful optimist is not new. There was a certain Samuel who dwelt in an old New England town nearly a century ago. "So hanged easy-gold" ye can't file him, but he rises everybody by just never getting' riled," was the description his brother-in-law gave of him: it was offered in exculpation of Samuel's wife, who was high-tempered, and who did not always find her husband's cheerfulness tranquillizing. It led, in fact, to frequent domestic explosions. Tradition has preserved the story of one such occasion.

The family had moved. In crossing a rickety little bridge a wheel of the wagon that bore most of their household possessions went through a rotten plank and tilted most of the load into the stream. The things that they tollfully salvaged in a more or less damaged condition were stored in the barn of a farmer near by to dry out while in a borrowed carryall husband and wife got on to the new house.

Packed round them and tied on beams were some bedding that had escaped with no more than a splashing, a trunk, a few pots and pans and the wife's cherished rocking-chair. Unfortunately, in unloading the carryall on their arrival, Samuel set the rocking-chair down with such force that he broke it. Up to that moment his spouse had borne herself with a calm that could not endure; the broken chair was the final touch that released the pent-up feelings. Samuel endeavored to soothe her.

"Now, there, Maria, don't ya take on," he said, "Look on the bright side! Dwell upon your marbles! Here we be, safe to home, with a mattress to lie on that ain't more'n a little mite damp; and as fer settin' down—well, with fourteen winter seats to set on and every four besides bran' new 'n' clean as the inside of a shell, who cares fer a chair?"

Unluckily for him, Maria "keered" to such an extent that in her exasperation she launched a flying pan at him, which narrowly missed his smile. Samuel was astonished and pained.

"Maria's high-spirited," he declared meekly. "Course, I'm doted to that. What I can't get used to is the things that sets her off. To think of her, after a durin' week an' a half like a Christian, flyin' out at me like a wild woman about one old chair!"

He would perhaps have been even more amazed and grieved could he have been convinced that it was less the "cheer" that was too much for Maria than his own untimely cheerfulness.

Dates of Easter.

Easter was earlier this year than it has been celebrated since 1913, and it will be more than nine years before it happens so early again. The date was fixed almost 1,600 years ago at the Council of Nice as "the first Sunday after the first full moon that falls after March 21." If a full moon occurs on Sunday, Easter is celebrated one week later. This year the full moon occurred on March 23 the last time in 1913.

When the full moon occurs just before March 31, Easter has to be delayed until after the next full moon, which sometimes throws it late in April. In 1909 and 1906 Easter was delayed until April 23.

Weather Bureau officials say there is no truth in the old saying that an early Easter makes an early spring, and vice versa, but there is no question about an early Easter bringing out early styles prematurely, and any person that can prevail on Christian countries to celebrate Easter on the same date each year will have the heartfelt thanks of dressmakers, milliners and clothiers all over the world.

It is not likely, though, that this change will ever be made, as it took almost 1,800 years before the important countries managed to agree on a common date for this important spring event, and even yet in countries where Russian and Greek churches hold away Easter is celebrated according to old time, which generally throws it on some other Sunday than it comes in the Western countries.

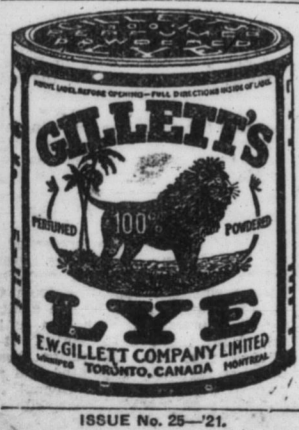

Following are the dates for Easter for the next nine years: 1929, April 16; 1930, April 1; 1931, April 20; 1932, April 12; 1933, April 4; 1934, April 17; 1935, April 8; 1936, March 31; 1937, April 29.

Origin of Ice Cream.

Ice-cream was first mentioned, although not perhaps by that name, by Marco Polo, who visited Japan in the thirteenth century. He brought back tales of water and milk tarts which were among the delicacies then known to the people of the East.

In the sixteenth century occurred mention of the delectable compound in connection with Catherine de Medici, who introduced frozen fruit juices from Italy to France, while later, her son employed a special chef to invent new kinds of ices, the latter establishing a shop to sell ice cream to the aristocracy.

There is an account of a wonderful banquet given by Louis XIV. of France at which was laid before each guest a gilt cup containing apparently an egg colored to resemble those presented at Easter. But to the surprise of the guests it was found to be a delicious sweetmeat, cold and compact as marble.

ISSUE No. 25-21.

AUTO USED PARTS

We carry a full line of used parts for all makes of cars, cleaned and free from grease and dirt. Magneto, gears, springs, complete engines, etc. Highest prices paid for old cars.

AUTOMOBILE USED PARTS CO., 1830 Dundas St. West, Toronto. Phone Parkdale 4158.

This is Canada's Wireless Year!

Whether you are resident in a large city or two or three hundred miles away, Amateur Wireless Equipment furnishes you with endless instructive entertainment. We can supply Receiving Apparatus which will pick up signals from the big Wireless Stations and enable you to "listen in" for wireless telephone conversations radiated by the Marconi Company. Secure a Transmitting Set (operated directly off a lamp socket) and communicate with your friends a hundred miles away! Amateur Wireless brings the great world to your door. Cut out and mail this ad to us with request for Price List, and ask us anything you would like to know about Amateur Wireless.

Full line of parts and technical books always in stock.

SCIENTIFIC EXPERIMENTER, Limited, 93 KING STREET EAST, TORONTO.

Science in Russia.
The testimony as to the status of men of science in Russia presents a dismal and depressing picture. A professor of philosophy deposed: "In my room the water is freezing and I am eating oats instead of bread and meat."

"These years have been one continuous horror," wrote another. "We were declared by the Bolsheviks to be parasites and drones, and we were deprived even of that miserable food allowance which the workers and the soldiers have been receiving."

One of the 420 Russian scientists who have starved to death in the last three years was Prof. E. S. Fedoroff, the crystallographer. A colleague who came to him in the last hours gave him a piece of bread. He took a bite and then refused to take more, saying: "You are young. You had better eat."

An entomologist yearned for firewood to keep his specimens from destruction, but as for himself: "I tucked myself up in bed fully dressed, with my overcoat on, trying to warm up and to forget and to suppress the feeling of tantalizing hunger."

Another man of learning whose aged wife was beguiling in the streets bemoaned the fact that his ten years of research on the leprosy bacillus had gone for naught. A Moscow savant mourned: "I am an old, feeble man, hardly able to move, with feet swollen and with sores from the cold and hungry winter. Yet they are keeping me in solitary confinement."

There are many parlor Bolsheviks. We have them in our midst—those who smile indelicately when the tally is Bolshevik, and say: "This is only the price that is paid for progress. There is an exact parallel with the French revolution."

But there are few laboratory Bolsheviks. Science cannot surrender to the commissars. Truth cannot change because of a Soviet decree. The Russian professors cannot stultify themselves and suppress their convictions at the behest of Communism, or because of the whim of an illiterate soldier of the Red Guard with a bayonet.

What Causes the Fizzing?
It is an interesting experiment in chemistry.

Two small paper packets—one blue, the other white. The blue one is called a Seltitz powder.

Dissolved separately and poured together, they make a big fuss. One drinks the stuff hastily, while the fizz lasts.

To drink first one and then the other would surely create a most horrible disturbance in one's inside. Best not to try it.

But why should the pouring of the two innocent-looking fluids produce such a relatively tremendous effervescence? It is easily explained.

The powder in the blue packet is 25 per cent. common baking soda and 75 per cent. potassium and sodium tartrate. The powder in the white packet is tartaric acid.

What we call baking soda is sodium bicarbonate. The tartaric acid, brought intimately into contact with it in the solution, causes it to give up in a great hurry the carbonic acid it contains, the latter appearing in the form of gas. Hence the effervescence.

Any acid coming into contact with any carbonate will cause a similar release of this gas. If sulphuric acid be allowed to drip drop by drop upon marble dust (which is carbonate of lime) the latter will give off carbonic acid gas; and if water be charged with this gas, it becomes what we call soda water. It gets the name "soda water" from the fact that in former days the gas that makes it fizz was derived from carbonate of soda.

It is the same kind of fizz for both soda water and the Seltitz powder.

China's Naval Bases.
Practically all of warfare in these days, on land or sea, is applied science in one shape or another.

But recognition of the necessity of a strategic base for the conduct of operations, military or naval, is nothing new. It is and always has been a fundamental of warfare.

We are accustomed to think of China as a country devoid of effective military and naval defenses. The fact is that she possesses seven first-class modern arsenals—at Tientsin, Shanghai, Nanking, Hankow, Foochow, Chengtu and Canton. The arsenal at Shanghai has an equipment equal to that of any similar establishment in Europe. It manufactures fortress guns, ships' guns of largest calibre, projectiles of all sizes and smokeless powder.

China has some formidable coast defense fortresses, garrisoned by an artillery force described as a fine body of expertly trained men who know how to handle their guns.

At Foochow is an up-to-date naval arsenal, developed under the direction of French engineers.

Call Me Lizzie.
Mistress—"It is customary to address all my daughters and all ladies in the house as madam."

New Servant—"Lawks; I shall be quite satisfied if you call me Lizzie."

Not Any Best.
You can't get the best of some men—they haven't any.

The largest book in the world, over six feet in height, is in University of Rostock, Germany. This remarkable volume is over 400 years old and contains maps of Holland.

JUNE, THE BEST MONTH OF THE YEAR

SUPERSTITIONS HOARY WITH AGE.

Curious, Quaint and Beautiful Customs of Various Lands Are Here Described.

Why are May weddings regarded as unlucky? Why are June weddings specially propitious? And why, oh why, should old shoes be flung after and, indeed, at the bride? What say the poets?

Marry in May,
And rue the day
But, on the other hand,
Marry in June,
All will be in tune.

All three of these superstitions are hoary with age. They were already antiquated when the legend about St. Swithun's Day was invented. It might be too much to say that they are as old as marriage itself. But they certainly antedate the classic age. Thus Ovid, in his "Fasti," refers to what he describes as the familiar belief that May is a bad month in which to marry. And the same poet, after careful investigation of the various months of the year, selected June for the time of his own daughter's wedding, because, as he said, it was "good to the man and happy to the maid."

That June should be a favorite month for weddings is explicable from its character as the month of roses and other flowers; although the beginning of May was the time of the Floralia festival of the old Romans. Still the partiality for June has never been as marked or as general as the avoidance of May. While the Romans preferred June, the Greeks greatly inclined to January. The Russians have long had a belief, said to have come down from the early Eastern Church, that weddings at Easter bring wealth, at Ascension Day health, at Whitsuntide domestic felicity and at Trinity Sunday many offspring.

Shoes Take Prominent Part.
The custom of throwing old shoes after the bride is of comparable antiquity, though it has assumed many different forms. Among the Jews, probably before our era, it was customary to carry a slipper, preferably one well worn, at the head of a wedding procession, in token of the complete submission of the bride to her husband; though it is not known that it was indicative of his use of it after the orthodox manner of inflicting chastisement.

The same custom of carrying a slipper or sandal has prevailed from ancient times among other Oriental peoples, and is still familiar. Among the Nestorians it was once the custom for the groom to kick the bride and for her then to remove from his foot the sandal with which he had kicked her. Some Jews struck the bride with a slipper, as a token that they must thereafter be submissive to their will. In Russia it was an ancient custom for the groom on the wedding night to require the bride to kneel before him and pull off his boots. In one of the boots was a small whip, and in the other a purse of money. If she pulled off first the boot containing the whip, he struck her with the lash, as a token that she might thereafter expect frequent flogging; while if she first disclosed the purse, he would lavish gifts upon her and their domestic life would be happy. A variant of this was practiced by Martin Luther, who, after performing the wedding ceremony, took off a shoe of the bridegroom and placed it upon the bride's pillow, as a reminder that she must always be subservient to her husband.

History of Wedding Ring.
The wedding ring, now so essential a part of the service and so indispensable an object, seems to have come into use at a comparatively recent date, and to have had at first less significance than now. It was given as only one among various presents and, as an emblem of eternity, was meant to indicate the lasting nature of the marital vows. Among our Anglo-Saxon ancestors it was the custom for the prospective bridegroom, on becoming betrothed to his intended bride, to give her certain presents called a "wed," or pledge; from which word the word "wedding" is derived. An essential part of this "wed" was a ring, which was placed upon the girl's right hand; in brief, an engagement ring, as we now know it. That ring was never removed, under pain of breaking the engagement, until the wedding, when the bridegroom himself removed it and placed it upon the left hand, to serve as the wedding ring. Then he placed it upon each of the four fingers in succession, saying at the first "In the name of the Father," at the second "In the name of the Son," at the third "And in the name of the Holy Ghost," and at the fourth "Amen."

An old Scottish custom, now practically if not entirely extinct, was that of "creeling" the bridegroom. It was practiced on the day after he wedding. Early in the morning, often before the newly married couple had risen, the neighbors flocked to the door, and summoned the bridegroom to appear. Then they seized him, bound upon his back a large creel, or basket, and filled it with stones. Thus laden he was compelled to run, or at least to

walk, about the town until his wife saw fit to run after him, overtake him, and kiss him; when he was relieved of his burden. The distance which his wife let him run before releasing him was variously interpreted as indicative of the strength of her affection for him, of her bashfulness, and of her sense of humor. This custom was strictly enforced, the man who was last "creeled" having charge of directing and superintending its infliction upon the next who was married.

Burdensome and even painful as some of these ancient customs were, it may be that some couples of the present day would find them less grievous and embarrassing than some of the more sophisticated practices of the twentieth century.

Age Shown by the Hand.
It is only within very recent years that women have thought it worth while to give proper care to their hands. Nowadays the average shopping girl bestows more attention upon her nails than did the "fine lady" of a generation or two ago.

There is much other care given to the hands, including massage—the latter of special importance because it tends to keep the flesh plump and discourages wrinkles. Wrinkles commonly appear on the hands before the face shows any, and thus a woman's hands may betray her age.

One might even say that the hands grow old sooner than the face. The fatty tissue that lies immediately beneath the skin gradually shrinks with the passage of years; the skin becomes loose and falls into folds.

The skin on the back of your hand shows how old you are. Pinch it and you will see. If you are young the skin will almost instantly become smooth again. Later in life, if pinched up, it will retain the crinkle for some moments.

In youth the nails are smooth and usually have a slight rosy tint. As years go on they lose their color and somewhat of their delicate texture, often exhibiting in later life minute corrugations lengthwise. Careful manicuring will do much to obviate any such appearance of change.

A Smile in Every Dose OF BABY'S OWN TABLETS
Baby's Own Tablets are a regular givener to the little ones—they never fail to make the cross baby happy. When baby is cross and fretful the mother may be sure something is the matter for it is not baby's nature to be cross unless he is ailing. Mothers, if your baby is cross; if he cries a great deal and needs your constant attention day and night, give him a dose of Baby's Own Tablets. They are a mild but thorough laxative which will quickly regulate the bowels and stomach and thus relieve constipation and indigestion, colds and simple fevers and make baby happy—there surely is a smile in every dose of the Tablets. Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Path of Labor.
Never in a costly palace did I rest on golden bed,
Never in a hermit's cavern have I eaten idle bread.

Born within a lowly stable, where the cattle roam, me staid,
Trained a carpenter in Nazareth, I have toiled and found it good.

They who tread the path of labor follow where my feet have trod;
They who work without complaining do the holy will of God.

Where the many toil together, there am I among my own,
Where the hired workman sleepeth, there I dwell with him alone.

I, the peace that passeth knowledge, dwell amid the daily strife,
I, the bread of heaven, am broken in the sacrament of life.

—Henry Van Dyke.

A Poem.
Seeing, it is a gladdening thing;
White birds against a morning sky,
Blowing poppies, nodding grasses,
Light that grows and fades and passes,
Young leaved poplars shining high.

And God be thanked that gave us hearing
For children's laughter, sweet and bold,
For winds that whisper old hills round,
For every intimate sweet sound
The quiet golden evenings hold.

But oh, 'tis scent that makes immortal
The little lives of mortal men!
Roses with haunting sweetness riven,
Incense, to lift men's hearts to Heaven,
Lilacs, to draw them home again.

—Margaret Adelaide Wilson.

A DESIRE TO EAT WHAT YOU WANT

Stomachs Can be Restored to a Healthy Condition.

Not to be limited in diet, but to eat whatever he pleases is the dream of every dyspeptic. No one can honestly promise to restore any stomach to this happy condition, because all people cannot eat the same things with equally satisfactory results. But it is possible to tone up the digestive organs that a pleasing diet may be selected from articles of food that cause no discomfort.

When the stomach lacks tone there is no quicker way to restore it than to build up the blood. Good digestion without rich, red blood is impossible, and Dr. Williams' Pink Pills offer the best way to enrich the blood. For this reason these pills are especially good in stomach trouble attended by thin blood, and in attacks of nervous dyspepsia. Proof of the value of Dr. Williams' Pink Pills in cases of indigestion is given by Mr. John A. McDonald, Tarbot, N.S., who says:

"Every sufferer from indigestion has my heartfelt sympathy, as I was once afflicted with this trouble. I was eating all become a trial, and as time went on I became a mere skeleton of my former self. I took all sorts of recommended medicines, doctors' and advertised, but to no avail. Then a friend said to try Dr. Williams' Pink Pills. I got a box and I thought before they were done I could feel a change. Then I got six boxes more, and by the time they were used I was eating my meals with regularity and enjoyment. My general health is now good, and it is no wonder that I am an enthusiastic advocate of Dr. Williams' Pink Pills."

You can procure Dr. Williams' Pink Pills through any dealer in medicine or they will be sent you by mail at 50 cents a box or six boxes for \$2.50 by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

Old Man.
Old man, old man, sitting in the sun,
What was the struggle worth now the race is run?

How does life look to you now its all behind?
Under your bald pate what lingers in your mind?

I wonder if you cherish still
The blue day on the windy hill
When first your eyes met hers, and things

Bright as a pigeon's sheeny wings
Flashed through you, and delight
Burned you with kisses white.

I wonder do you dwell with pride
On those rough days in which you tried
Your strength against your fellow men,
And won and lost and won again—
Happy to toil and strive
That you should be alive!

Is gladness hid in moonlit eyes
When love comes sighing through the leaves?
Or is it garish, stressful days
To which your hungry fancy strays—
Green seas, the busy mart,
Which wrote upon your heart?

Have you regret for marriage ties?
Did children make you sad and wise?
What mattered much? What not at all?

And, prithee, what would you recall
And leave undone, to reap
Sonder and sweeter sleep?

Old man, old man, drawing near the night,
Speak wisely through your beard, answer me aright—
That I may have good dreamings when
Life is done.

Leaving me to bide as you, cold in the sun.
—Dale Colling.

Explorers Advance Toward Mt. Everest.
Somewhere in the tangled maze of the southern Himalayan Mountains three parties of British engineers are working their way through unexplored gorges and passes toward the base of Mount Everest, says a despatch from Darjeeling, Bengal. They are blazing the way for the expedition that will attempt later this summer to scale the granite walls of Everest and conquer the highest peak on the globe.

The first party to leave here was commanded by Major Morshead, which proceeded up the Teesta Valley and over what is known as the Kangra route. The other two units, commanded by Colonel Bury, intend to meet the Morshead party at Khamba Jong. Then the combined expedition will strike westward toward the village of Tengri Jong, which is about thirty miles north of the Everest group. A permanent base will be selected near that village and from it will start the party which will try to reach the summit of the dominating peak of the range.

Before the actual work of scaling Everest can begin, however, engineers must survey all approaches to the mountain and try to find the most practicable route to the top. This reconnaissance work is the chief task assigned the men now working their way into the mountains.

Communities of ants have their warrior class, and two fighting ants of different tribes will put up a great battle, and with their powerful nippers make short work of one another once they get to hold.

AFRAID TO GO OUT ON STREET ALONE

MRS. BEVERAGE LIVED IN FEAR OF ATTACKS.

Dizzy Spells Overcome After Taking Tanlac and Doesn't Feel Like Same Person.
"Tanlac has relieved me of my suffering and I just can't praise it enough," said Mrs. Margaret Beverage, 305 Hughson St. North, Hamilton, Ont.

"For two years my appetite was very poor and I suffered a great deal from formation of gas on my stomach. I was also troubled with frequent attacks of dizziness and was actually afraid to go out or even get away from something to hold on to. One of these dizzy spells came on while I was calling on one of my grandchildren one day and I just fell right down on the lawn. Last spring, when I started taking Tanlac, I had been confined to my bed for a month and was so weak I could not walk."

"Tanlac helped me from the very start, as I have not had a weak spell since I started taking it and I feel so good I can hardly realize that I'm the same woman. The dizzy spells are gone, my appetite is fine and everything I eat agrees with me perfectly. I have recommended Tanlac to any number of my friends and, I am glad to say, it has benefited them all. I just wish I could tell everybody who suffers as I did what Tanlac did for me."

Tanlac is sold by leading druggists everywhere. Adv.

New French Stamps.
The French recently held a competition for designs intended for a new issue of postage stamps. Nearly all of the designs submitted were suggested by the war; the best ones show a splendid Gallic cock crowing in triumph, the head of a poilu in a steel helmet and a head representing France in a winged cap. None of the designs won the highest prize offered, for none was thought sufficiently original or striking to merit it. It may be that none of the three prize-winning designs will replace the present graceful design of the Sower, though the matter has not yet been decided.

Minard's Liniment Relieves Neuralgia.
It's good to have money, and the things that money can buy, but it's good, too, to check up once in a while, and make sure that you haven't lost the things that money can't buy.

There is one divorce for every seven marriages in Japan, one for every ten marriages in the United States, and one for every ten thousand in England.

ASPIRIN
"Bayer" is only Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monoaceticacidester of Salicylicacid.

CUTICURA HEALS ECZEMA
All over baby's face. Came in water blisters and then formed a solid scale. Began to itch and burn so he had to bandage his hands as he wanted to scratch. Face was badly disfigured. Trouble lasted 4 months. Began using Cuticura Soap and Ointment. Used one cake Soap and one box Ointment when he was healed. From signed statement of Mrs. Albert Ellis, Westmore, N. S.

For every purpose of the toilet Cuticura Soap, Ointment and Talcum are supreme.

Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion. Canadian Depot: Lyman, Limited, St. Paul St., Montreal. 2500 Cuticura Soap shares without div.

ISSUE No. 25-21.

This Store Figures on Increased Volume of Business and Less Overhead Expense

To get this increase in sales we must sell merchandise at TODAY'S LOWEST PRICES, not what prices were or what merchandise might have cost us.

Replacement Prices Today

are our price guide. In many cases our prices are below replacement values. This is the reason for our sales increasing each month when most business houses are complaining of sales falling off.

Greater Reductions This Week in Almost All Departments.

Shoes Show Big Reductions

All lines of Fine Shoes down about 40 per cent.
All lines of Heavy Wearing Shoes down about 30 per cent.
A few other lines down more or less.

Clothing

Clothing shows big shrink in prices, in some cases 50 per cent.
New lines opened up this week.

Working Men's Outfits, 40 to 50 per cent. down

Work Shirts, Overalls, Smocks, Sox, etc., down about one half.

Big Change in Staple Prices

Cottons, Cottonades, Denims, Shirtings, Sheetings, Galateas, Gingham and Chambrays, all down 40 to 60 per cent.

Hot Weather Requirements

You will benefit by our splendid values in these lines.
Summer Underwear for men, women and children, direct from Watson Manufacturing Co.'s factory.

Advance Styles in Sport Skirts

including all the new things in All Wool Flannel, Gabardine and Serge, in cream, plain and fancy. — 25 per cent. below city prices. Compare and see.

New Waists

in new advance styles. Just the "snappy stuff" people are looking for.

This store's reputation for a step ahead in quality and a step back in price is well maintained through this most trying period.

J. N. CURRIE & CO.

The Transcript

Published every Thursday morning from The Transcript Building, Main Street, Glencoe, Ontario. Subscription—In Canada, \$2.00 per year; in the United States and other foreign countries, \$2.50 per year.
Advertising—The Transcript has a large and constantly growing circulation. A limited amount of advertising will be accepted, at moderate rates. Prices on application.
Job Printing—The Jobbing Department has superior equipment for turning out promptly books, pamphlets, circulars, posters, blank forms, programs, cards, envelopes, office and wedding stationery, etc.
A. E. Sutherland, Publisher.

THURSDAY, JUNE 16, 1921

A better observance of the speed law would help some. As it is the road oil only makes the dust a little easier to swallow.

Every idle man makes it so much harder for the worker. The honey bees found this out ages ago, and as a consequence the drones are summarily executed.

Many of the church courts and other organizations are showing themselves greatly concerned over the fashion in skirt lengths. Better leave it to the mosquitoes.

Hickory is one of the strongest Canadian woods. When properly seasoned a hickory column will support a weight of twelve tons per square inch cross-section.

Those striking printers in Toronto must have "caught on" to the cut-rate prices their employers quote against the small town printers, and they want the difference that the city customer pays.

"Short Skirts, Etc., Banned," reads a heading in a daily paper. We don't particularly object to the banning of the short skirt, but if the etcetera is also to be removed we think it time to raise our voice in protest.

By all means practice thrift, but don't feed your mind and the minds of others on pessimism. It isn't healthy and it is more likely to bring about hard times than to prevent them. Why not look on the bright side?

There is one question the census enumerator was not instructed to ask, which would be of interest locally at least—How many dog tags are being worn in Glencoe, and how many dogs have been destroyed for not appearing in this regalia?

Canada's forest resources constitute one of the Dominion's most valuable assets. They contribute to the trade of Canada upwards of \$200,000,000 a year. They play an important part in our external commerce. With proper protection our forests can be made to produce timber in perpetuity.

In years that have gone, and not so very long ago, advertising matter could be seen all through the country on sign boards, telegraph poles, etc., but that day has gone, because a farmer in his auto drives too fast to read the posters. Not many years ago farmers came to town in buggies or wagons to get their mail, do shopping and other business. What a change has taken place, for to-day almost every farmer has a mail box at his gate, or telephone in the house, and his car to drive around in. The way to get the attention of farmers of this vicinity is through this paper.

While employment is scarce in the large centres there are yet the city huggers. A correspondent of a Toronto daily tells of a case that is illustrative and suggestive. A man not 20 miles out of the city on an electric car line advertised a couple of weeks ago for unskilled labor, offering 45 cents an hour for men to work in a nursery among plants and flowers, fare out paid. He had only two applications, and advanced the fare in both cases. One of the men never showed up, but kept the fare. The other came, worked a day and a half and quit, declaring the village too lonely to live in.

We hear much unfavorable criticism of the county council voting a hundred thousand dollars to the Western University and refusing to make the usual special grants to high schools within the county. The state does its duty if it assists the scholar through the public and high schools. After that, education becomes a matter of fitting oneself for a professional or commercial career and should be paid for as the carpenter buys his tools or the ditcher his spade and shovel. And the world would be better off if there were more people at the carpenter's bench or on the land and fewer in the professions.

THE LOCAL PAPER

(Acton Free Press)

A local paper reflects the business interests of the town. A business man looking for a location, always examines newspapers to see how his particular line is represented. If he is a druggist, or grocer, or general merchant, he concludes by the absence of advertisements that there are no druggists, or grocers or general merchants, or if there are, they are all lacking in "pep." If he is a doctor or lawyer, he looks over the professional cards to see if his profession is represented. Among farmer subscribers, the home paper has a similar mission. The prospective buyer likes an invitation to come and trade with the merchants. The card of the professional man is just as essential as the sign in front of his door.

Recognized as a leading specific for the destruction of worms, Mother Graves' Worm Exterminator has proved a boon to suffering children everywhere. It seldom fails.

THE EARLY DAYS

(R. J. C. Stead)

Yes, times have changed since the early days and things are different now. We used to tramp from dawn to dusk in the trail of a walking plow. And sow our grain from a canvas sack with a barrel hoop for a mouth. And we kind of felt that Providence controlled the frost and drought; and in the harvest work we always neighbored forth and back. And never thought of threshing till the grain was in the stack; and hauled our wood in the winter time, and smoked beside the fire. And felt our lot was everything that reason could desire.

True, we had little money; our homes were plain and bare; maybe a box for a table, maybe a block for a chair. Straw to repose our bodies at the end of the well-worked day. And the stars saw through the knot-holes in the shingles where we lay; Food that was mostly our raising, coffee from toasted wheat. Cottonade for our Sunday suits, moccasins for our feet. Hard were our frames with labor, knotted our hands with toil. And we went to bed at twilight to save the price of oil.

Hardship? Perhaps, but old-timers look back at the early days. Before we had come to realize that practical farming pays. Back at the times we were all so poor that none of us thought of wealth. Back at the times when we found content in industry and health. Back at the nights in the shanty, where the wolves howled in the snow. Back at the old sod stable and the cattle well-worked day. Back at the distances still unmapped. At the trails that were still untrod. Where round about were the wastes of earth and overhead was God.

Yes, times have changed since the early days; farming is now an art; They're coming for land in motor cars—but we came in a cart; They're tearing the prairie with steam and gas, turning the rivers loose. To water the arid regions and bring them into use. Binding the earth with railway lines, netting the world with wires. Leaving the mail at our corner posts, pampering our desires; They show that times are better, prove it a thousand ways. But we think of the old-time comradeship and sigh for the early days.

WITH SHEEP IN SUMMER

Care of Weanlings and the Fleck Generally.

Special Attention Pays—Frequent Change of Pasture Beneficial—How to Preserve the Fertility of Manure.

(Contributed by Ontario Department of Agriculture, Toronto)

For best results weanlings should be weaned at between four and five months. It has been found that under conditions prevailing during the hot dry months of mid-summer the ewes will drop off considerably in their milk flow. The lambs receive comparatively little nourishment, and it is better for both ewe and lamb for them to be separated. When the lambs are removed from the ewes they will miss little the small amount of milk they would receive, and will soon learn to depend upon pasture. They should receive the very best pasture available. Nothing fits in better than a patch of rape sown at the proper time, so as to be ready for pasture when the lambs are weaned. Care should be exercised in turning the lambs on the fresh rape to avoid bloating and probable death. Turn them in during the middle of the day when the rape leaves are absolutely dry and allow them to become accustomed to the change. A field of grass adjoining the rape pasture will give better results than the rape alone. If no rape is available fresh clover seeding or second growth clover will give satisfactory results. In addition to pasture a lot of grain once a day will push the lambs along to a good finish. At no time should it be necessary to feed over one-half pound of grain per day to each lamb while on pasture.

Frequent change of pasture is beneficial, and is relished by the classes of stock, and this applies with special emphasis to the case of sheep. It is true for two reasons. Sheep are subject to parasitic diseases which may be prevented to a large extent by not pasturing on any one area for too great a length of time. In addition to this they are possibly more fastidious about their food than are some other farm animals. It is not practicable on every farm to arrange for a succession of pastures during the grazing season. However, the same area will sustain considerable more sheep if such an arrangement is feasible. Rye sown early in the fall furnishes a good deal of pasture in the late fall and early spring. After the rye is eaten off in the spring rape may be sown on this land and will come along for pasture in June or July. Alfalfa and red clover are satisfactory pasture crops and will serve until the rape is ready. An annual pasture consisting of one-bushel each of wheat, oats and barley together with eight pounds of red clover provides a good pasture for the early summer months, and the clover coming along in the autumn will give a nice picking. This annual pasture may be sown any time early in May. Without a great deal of additional labor it is possible to have a succession of crops ready for seeding throughout the entire season.—J. P. Sackville, O. A. College, Guelph.

To Preserve the Fertility of Manure.

In fresh manure the plant food materials are not in an available condition for growing plants as in well rotted manure. In the storing of manure, however, to get it well rotted considerable losses of plant food occur unless the manure pile is properly packed.

If the quickest returns are not wanted following the application of the manure to the soil, then the manure may be added in the fresh condition. If this is done in warm weather the manure should be ploughed in as soon as possible after application. The total plant food materials present in the manure will thus be added to the soil where they will be prepared by the soil bacteria for use by the growing crops.

The main objections to putting fresh manure on the land are: First, it is not always convenient to do so; second, weed seeds may be numerous in the fresh manure, consequently a heavy weed crop may be expected; third, its action is not so rapid as in the case of well-rotted manure, but it is active over a longer period. Where manure is to be stored in piles or pits until it is ripened, or until it is convenient to use, then the greatest care is necessary to prevent losses of plant food materials from it. In the first place the bottom of the pile or pit should be impervious to water so that leachings from the pile will not occur. Second, it is well to have a layer of old well-rotted manure at the bottom. Third, the manure as it is piled up should be well compacted or tramped down to prevent excess of air from getting into it. Fourth, it should be kept moist but not wet. These precautions apply more particularly to horse manure, which is loose and comparatively dry. Unless this is kept well packed and moist, loss by fire fanning is certain. This is an oxidation process, or fermentation, set going by certain species of bacteria in the manure. If cow or pig manure is available it should be mixed with the horse manure in the pile, as these are very wet and compact and will give a good consistency to the whole mass. The main things to be remembered are: First, prevent leaching; second, keep it well packed down and moist.—D. H. Jones, O. A. College, Guelph.

Alsike clover is most at home in northern latitudes or at high altitudes. It thrives best in a cool, moist climate. The English Shire Horse Society has appropriated \$3,500 for publicity in the United States and Canada in 1921.

USING WASTE LUMBER.

By-Products of Sawmill May Be Valuable.

Only forty per cent. of our cut timber is utilized; the rest is thrown away. This sounds as if we were wilfully wasteful; it means really that the unused sixty per cent. is in such shape that it would not pay to use it. The problem of utilizing waste material, we are told by James D. Lacey, writing in the Lacey Timber Digest, is that of making its utilization profitable. This problem, he says, is being rapidly solved in the case of timber wastes, by the work of chemists; for chemistry affords the chief key in this instance. The enhanced value of timber-to-day is making profitable the conversion of waste into merchantable products—hence the activity of those who are studying these products. Not impossible, Mr. Lacey thinks, the by-products of the sawmill will outvalue, in the near future, the finished lumber. Alcohol, tanning extracts, turpentine, pine oils, fibre for all sorts of fabrics, "wall board," insulating materials—these are but a few of the products that may be obtained from sawmill waste formerly thrown away. Writes Mr. Lacey:

"It is not altogether improbable that the time may come when the by-product distillates of wood will rank in value with the product of the co-ordinate sawmill operation. No one knows just when the production of petroleum may begin to fall below the tremendous and constantly increasing demand for oil. Whenever a serious shortage sends oil prices above a certain point, however, ethyl (grain alcohol distilled from wood) will afford an efficient substitute for many purposes for which oil products are now used, including the operation of internal-combustion engines for the automobile and other automotive machinery. Grain alcohol may be produced from any wood at a relatively low cost and by a process which yields other products of value as well. Wood alcohol, produced by destructive distillation, is one of the pioneer by-products, but one for which the demand is increasing rapidly, but for direct use and to serve as a denaturing agent for grain alcohol distilled for industrial use.

"Relatively few of the important chemical by-products can be produced from any one wood. Tanning extracts, for example, are obtained chiefly from the bark of oak and hemlock. Turpentine is reclaimed from the woods possessing the necessary resinous content. Pine oils as the name implies, are produced from the pines. But chemical scrutiny demonstrates that practically every wood possesses important by-product possibilities that may be greatly magnified as experts explore further the field of organic chemistry.

"During the war the range of by-products was greatly increased. In Germany fabrics of many varieties were developed and manufactured from wood. Wood fabric rugs and carpets of serviceable character were produced. Bags and sacks, fibre silks, imitation leather, and many other articles of utility found market as substitutes for materials that were no longer obtainable. In the United States, too, recent years have seen remarkable development in the use of wood in manufacture of wall board, an industry of great and growing size, and in the production of linoleums, heat-insulating materials, etc., thus creating important industries that are totally dependent on our forests for their primary raw material.

"Progress is dependent upon the chemist's pioneer work plus commercial development and exploitation that create demand and find markets. Until these things begin to be done, the lumber manufacturer necessarily limited his utilization to the conversion of his raw material into lumber and other primary products which he could make and sell with profit.

"Much of this chemical pioneering has been done, but far more is coming, and as it comes it will steadily cut down the percentage of waste. Less of the trees will be left in the woods to rot. Less will be discarded as valueless at the mill. And a constantly increasing volume of other products than lumber will develop out of the sawmill industry, with resulting increase in the profits, operation and proportionate enhancement of the value of timber.

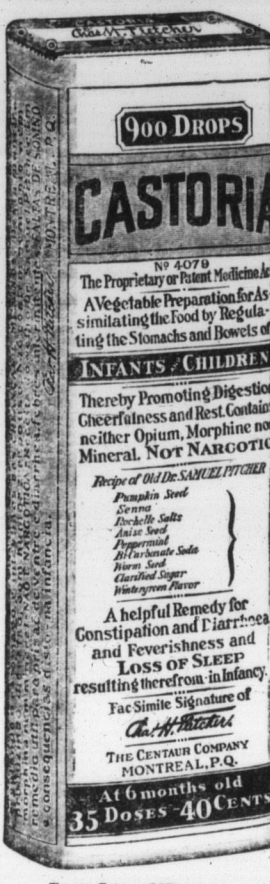

"It is not unreasonable to suppose that eventually the value of chemical by-products may very nearly equal the value of the direct products of the sawmill."

Canada and Englishwomen. The new number of the Canadian Pacific Railway Budget, which is ably edited by Mr. Ernest C. Gill, contains many interesting articles dealing with Canada, its life, scenery, and industries. Mary MacLeod Moore's contribution on the domestic side of life in the Dominion is of special interest to Englishwomen.

"In Canada," she says, "the mistress of the house not only directs the work, but works with her maid as a rule. The latter gets a considerable amount of liberty, and the wages paid are so good that it is said the present incumbents are a little averse to an influx of women 'demobbed' from the various services, lest they reduce the scale as now paid. Fifty dollars and more a month is paid to a cook, and thirty-five and forty to a general servant, with, of course, board, lodging, and washing.

"More trouble is being taken than ever before to choose the right women for Canada, and to safeguard their interests. Emigration is no longer haphazard. Not only are the immigration laws much stricter than formerly, but excellent arrangements are made in Canada for the reception of women from the Old Country.

"Are Englishwomen welcomed in Canada?" is sometimes asked by the timid. The wives and other dependants of the Canadian soldiers married over here and lately repatriated could answer that question with a warmth and gratitude of reassuring depth."

THE PURE BRED BLACK IMPORTED STALLION "JAVELOT"
 (3834) (87106)

Enrolled, Form 1, will stand during the season of 1921 at his own stable, lot 15, 2nd range south of Longwoods road, Ekfrid, and at the following noon stands:— Tuesday noon — at Roy Squire's, south half lot 19, 2nd range south of Longwoods road; Wednesday noon — at Dugald Sinclair's, north half lot 17, 2nd range north of Longwoods road; Thursday noon — at Henry Annett's, Middlemiss; Friday noon — at Duncan Campbell's, lot 9, Longwoods road.

Terms to insure, \$13.—Duncan McTavish, proprietor and manager.

A Munich doctor says that eating onions is the secret of health. The worst of it is that people won't keep the secret to themselves.

After several years of careful study we are firmly convinced that a writer of anonymous letters is the lowest form of animal life.

Born
 COLE—At Scotia Private Hospital, Moosejaw, Sask., on Tuesday, May 3, 1921, to Mr. and Mrs. Morris Cole of Mazenod, Sask., a daughter—Isabel Sheppard.

Card of Thanks
 Mr. and Mrs. Angus McDonald wish to express their thanks for assistance rendered and sympathy extended them in their bereavement by many kind friends and neighbors.

TOWN AND VICINITY

Hey, there! Clover cutting has commenced.

Railway passenger rates will be dropped 10 per cent. on July 1st.

The Glencoe high school board has engaged the present staff of teachers for another term.

Mr. O'Brien of Mount Brydges is presiding at the examinations in the high school here this week.

The Sarnia Observer will abandon its weekly edition at the end of this month and publish a daily edition only.

Strawberries which gave promise of a heavy crop early in the season are not very plentiful and high in price owing to dry weather.

Mr. McIntyre's new and attractive store building at Wardsville is about completed, and he expects to open with a general stock on the 18th of June.

The Sunday schools of Glencoe will hold a union picnic at Springbank on Wednesday, July 27th. It is being arranged to have this date proclaimed a holiday for the town.

Several new houses under construction and many others being remodeled and repaired are indications that the adjustment to pre-war conditions has begun in Glencoe.

Glencoe had a welcome shower of rain on Saturday afternoon, while the country to the north and east had a copious rain. The district south of Glencoe was not even favored with a shower.

The strawberry crop is said to be two weeks ahead of ordinary seasons this year. The same might be said of wheat and other crops. Wheat is well headed out and it will not be many days before it is ready for the reaper.

Mrs. John C. Cowan and daughter Genevieve together with a number of friends of Dr. Cowan are attending the latter's graduation in Detroit this week. Dr. Cowan, who is the son of Mr. and Mrs. John Cowan, is just finishing his surgical course in Lakeside Hospital, Cleveland.

The Grand Trunk have completed the laying of new steel along their entire Wabash division. The rail in most cases is 55 and 100 pounds but on sidetracks and in less used parts of the road it is only 85.

A large number of people from Glencoe and district attended the special jubilee services on Sunday and the tea was given Monday evening in connection with Argyle Presbyterian church, Crinan.

John W. Mitchell, employed at the Fletcher Manufacturing Company works, was severely cut over the right eye last Wednesday by coming into contact with a rapidly moving belt on some of the machinery.

Isaac Watterworth is in Ottawa this week on a deputation of live stock shippers and salesmen. The deputation is meeting the railway commission in an effort to secure better freight rates and service.

Howard Gordon, violinist, at his pupils' recital on June 30 at Strathroy will be assisted by the talented young Belgian pianist, Mrs. W. G. Conkey (Marie Dewar), diploma and medalist, Academy Newbury, Belgium.

Rev. D. G. Paton conducted the services at Cook's church, Caradoc, on Sunday, his pulpit here being supplied by Rev. Mr. Crozier of Winnipeg, who is on a visit to his sister, widow of the late Rev. W. J. Knox of London.

Don H. Love had his blacksmith shop closed up on Friday and Saturday, owing to his having one of his fingers badly injured. He was running out a buggy wheel and did not notice a sliver on the rim, which penetrated the finger.

Judging from the number of garden parties and picnics announced, the country still has some pocket money to spend. These functions are becoming so numerous that to prevent the clashing of dates there should be at least fourteen days in a week.

The Alvinston Free Press says:—The Alvinston civil service staff is being put into good shape after years of hankering and petitioning. Several teams are engaged in drawing gravel to the road and by the time the bad roads again commence it should be in good shape.

At the annual convocation held in connection with Toronto University last week degrees were granted to 870 graduates, among them being Miss Jessie Humphries of Glencoe, who received the degree of B.A., and Dan McArthur of Appin, who received the degree of B.S.A.

Levi Smith has received notice from the Department of Agriculture, Ottawa, to preside over the final R. O. P. test of the world's record pure bred Holstein cow, Bella Pontiac, owned by Thos. A. Barren, near Brantford. Bella Pontiac is valued at \$30,000. Mr. Smith has been placed on the list of judges as one of their permanent employees.

Mr. and Mrs. W. E. Black of Detroit spent a few days last week visiting Mr. and Mrs. Dan H. Love. Mr. Black intends going as a missionary to Africa, and while here at the boys' class in the Methodist Sunday school. Mrs. Black was Miss Marjorie Acton of Alvinston. Mr. Black returned to Detroit Sunday evening and Mrs. Black intends to remain for a couple of weeks.

Philip McCallum, a former resident of Glencoe, and brother of Duncan A. McCallum of Moss, died at the residence of his son-in-law, Frank Paton, in London on Wednesday, June 16, in his 66th year. He is survived by his wife, six sons—Albert of Edmonton, Roy of Winnipeg, Archie, Floyd, Dan and Jack at home, and three daughters—Mrs. Adams of Barford, Man., Mrs. F. Patrick and Mrs. H. Pugh of London. The funeral took place on Friday afternoon at Mt. Pleasant cemetery. London services being conducted by Rev. G. W. Young of Chalmers Presbyterian church.

PERSONAL AND SOCIAL

Harold Watterworth of Crinan spent the week-end at his home here.

Miss Annie Huston of Windsor is the guest of her cousin, Miss Arlie Parrott.

Jack Charles of London spent the week-end with his sister, Mrs. (Dr.) McIntyre.

Mr. and Mrs. John Hick visited friends at North Newbury one day last week.

Miss Rosen of Bothwell spent Sunday with her niece, Miss Eugene Harrington.

Miss Mary Scrimshaw spent Sunday with her sister, Mrs. F. G. Underhill, Bothwell.

Miss Maggie May Mullins of Middlemiss is visiting Misses Bertha and Mabel Hardy of Ekfrid.

E. W. Charlton of Windsor is visiting his parents, Rev. and Mrs. T. J. Charlton, at the rectory.

D. C. McLeellan of Williams, Arizona, is on a visit to his brother, Alex. McLeellan, Glencoe.

Clarence Pickard of Detroit is spending a couple of weeks with his aunt, Mrs. G. Watterworth.

Mrs. Arthur Tunks and children of Cashmere have returned home after visiting friends in Glencoe.

Dr. and Mrs. Campbell of Montreal spent a week with their parents, Mr. and Mrs. Duncan Campbell, Moss.

Mr. and Mrs. H. I. Johnston are attending the Ontario College of Pharmacy graduation in Toronto this week.

Mr. and Mrs. F. G. Humphries spent a few days in Toronto last week and attended convocation at the University.

Mr. and Mrs. James Poole motored to Wilton Grove on Saturday to visit Mr. and Mrs. Christopher Poole, the latter being quite ill.

Miss K. Steele and Miss M. Gillies, of the high school teaching staff, left on Monday for their homes in Stratford. During the holidays both teachers purpose taking an Arts course at Toronto University.

Miss Ella McRae is attending the wedding at Clachan this week of Miss Florence McClarty to Norman R. Tonge of Port Stanley. The marriage takes place Wednesday at the home of the bride's father, John McClarty.

FREE OF TERRIBLE KIDNEY TROUBLE

After Three Years of Suffering, "FRUIT-A-TIVES" Brought Relief

MADAME HORMIDAS FOISY

624 Champlain St., Montreal.

"For three years, I was ill and exhausted and I suffered constantly from Kidney Trouble and Liver Disease. My health was miserable and nothing in the way of medicine did me any good. Then I started to use 'Fruit-a-tives' and the effect was remarkable."

I began to improve immediately and this wonderful fruit medicine entirely restored me to health. All the old pains, headaches, indigestion and constipation were relieved and once more I was well.

To all who suffer from Indigestion, Constipation, Rheumatic Pains or great Fatigue, I advise the use of 'Fruit-a-tives'."

Madame HORMIDAS FOISY.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

LATEST IRISH TRAGEDIES HAVE NO PRECEDENT IN SAVAGERY

Victims in Belfast Include Aged Clergyman and Three Young Men—Arson in County Clare—More Murders in Cork.

Belfast, June 12.—The series of rapidly spreading and viciously repressed riots during the week-end eclipsed in savagery any previous shootings. The victims included an aged clergyman and three young business men, the latter being found in the northern section of the city. The Very Reverend James Finlay, of Bawaboy, County Cavan, 80 years old, and former Dean of Leighlin, who had been a clergyman since 1867, on answering a knock at his door last night, was confronted by a number of masked men. Without delay, they took him outside, shot him dead, then battered his head to a pulp and burned his residence.

William Kerr, a barber; Malachy Halfpenny, a postman, and Alexander McBride, a school keeper, all residents of Belfast, were also slain. Many men, strangely attired, were concerned in the grim episodes. In each instance the assassins arrived in a motor car, took the intended victim from bed, and riddled him with bullets to the heart. Then the body was placed in the car and removed to the northern heights of the city, where it was placed in lonely fields. The relatives say the murdered men were assured they were wanted for identification purposes and would be allowed to return to their homes. Kerr and McBride leave wives and infant children. Halfpenny was unmarried.

Sharp rioting occurred in the York Street area here to-day resulting in one man being shot in the stomach and thirteen others otherwise wounded. Three men were found shot to death in various parts of the city.

The disturbance began yesterday evening between a few people, and

rapidly spread until both factions received reinforcements. During the rioting many bricks were thrown and revolver shots were common. A bomb thrown by one of the rioters blew off a man's hand and seriously injured a woman.

The police then fired a volley of shots among the rioters, finally clubbed the mob into quiet, and disbursed them. When the curfew was rung fourteen persons had been treated in a hospital.

An outbreak of arson occurred in the Sheriff district, County Clare, Saturday. Several private residences, and the Sheriff workhouse and the Gallethead and Kingbar coastguard stations were burned to the ground. The damage exceeded £100,000.

John Lucey was shot dead by Crown forces at Cork last night for failing to answer a challenge after the curfew hour. Head Constable McEhlin was shot on his way to church at Killeegan, West Meath, to-day. He died within an hour.

A shoemaker named Fitzgibbon was taken from his home in Lisacrol, Cork, by armed men and shot to death. The usual spy notice was pinned to the body, forbidding its removal.

York Street to-night was again a battle ground, the police being compelled to fire on the crowd. Several cases of bullet wounds were sent to the hospital. Special Constable Sturdy died of his wounds.

Disturbances also occurred in the Keshir Road Falls division, the chief storm centre of the riots last July, and here the police fired on Sinn Féin snipers. An unidentified man was shot dead.

Locate Tomb of Calvin After Three Centuries

A despatch from Paris says:—The secret of the location of the tomb of John Calvin, sought by the Calvinists for over 300 years, has been revealed at last by a member of Calvin's family. Eugene Despey, of Geneva, has stated that the reformer was buried on May 24, 1564, in the cemetery at Plainpalais, Switzerland.

CEREALS FALL OFF 88,000,000 BUSHELS

United States Crop Promise Good Yields, Though Less Than Last Year.

A despatch from Washington says:—A crop of 2,496,000,000 bushels of wheat, oats, rye and barley is forecast by the Government report for June. This is 88,000,000 bushels less than last year's harvest, but suggests good yields, and might be enlarged should present prospects maintain through till harvest, which is already under way in winter wheat in Kansas, Oklahoma and Texas.

There is a promise of 578,000,000 bushels of winter and 251,000,000 bushels of spring wheat, a total of 829,000,000 bushels, while the crop last year was 787,000,000 bushels.

Winter wheat estimates of 578,000,000 bushels show a loss of 51,000,000 bushels from the May returns. This was attributed to numerous frosts late in April and early in May, and to drought in the South-west where the bulk of the losses have occurred.

ARMY WORMS STRIP N.B. FORESTS AND DELAY TRAINS

A despatch from St. John, N.B., says:—Trainmen report millions of caterpillars or army worms between Fredericton Junction and Harvey, on the Canadian Pacific Railway lines, and that train travel has been greatly impeded. An official said that for miles the forest has been stripped of foliage and the tracks are covered with these worms which graze the rails so badly that freight trains are

BRITISH PRISONERS RELEASED IN ANGORA

Lenin's Brother is Soviet High Commissioner for the Crimea.

Constantinople, June 12.—The Turkish steamer Akalanik penetrated the Greek blockade of the Black Sea and arrived here to-day from Batumi, after having landed M. Nachmanov, the Russian Soviet Ambassador to the Turkish Nationalist Government, in Ankara at Salonika. He was accompanied by 20 officers and numerous women secretaries, and had two chests of gold.

The British officials here were informed to-day that eleven prisoners held by the Turkish Nationalists have been released and are on the way to Trebizond.

M. Ulanoff, a brother of Nikolai Lenin, the Russian Soviet Premier (whose real name is Vladimir Ilyitch Ulanoff), has succeeded Bela Kun, the former Hungarian Communist dictator, as Soviet High Commissioner for the Crimea.

British Casualty in Upper Silesia

A despatch from London says:—The first casualty suffered by the British soldiers since their entry into Upper Silesia is reported by the Opelein correspondent of The London Times, who says that a sergeant of the Black Watch was shot dead on Friday by an unknown person. The shooting, adds the correspondent, cannot be laid with certainty to the account of either the Poles or Germans.

The first picture taken of the rescued crew of the wrecked Esperanto. The Esperanto won the Halifax Herald trophy last fall for being the fastest schooner in the North Atlantic fishing fleet.

BRITISH TROOPS HALT SILESIA FIGHTING

How Commonsense of General Henniker is Preventing Bloodshed.

A despatch from Rosenberg, British Front, Upper Silesia, says:—The recently arrived "hard-boiled" British General Henniker, and the new British Silesia Commissioner, Sir Harold Stewart, are beginning to make themselves decisively felt. The British have at last discovered a rough, common-sense technique for handling the Upper Silesian dilemma and they have begun putting it into practice with the result that the tension already shows signs of relaxing.

There is a justified hope that the new British policy will succeed in liquidating the Upper Silesian civil war speedily.

The technique consists essentially in British troops walking up to a position of the insurgents and telling them in a few unmistakable words to clear out. At the same time the German irregular forces are told unmistakably not to advance. The territory thus cleared of insurgent Poles and kept clear of German irregulars is called a "neutral zone." As far as it is cleared, German plebiscite police under command of British officers, are moved in and preserve law and order, and the mixed German and Polish populace rejoices and goes to work again, and everybody is happy and satisfied, except the civil war profiteers and their friends with ulterior motives.

Test of Strength in Russian Government

Copenhagen, June 12.—A Finnish commission which has just returned from Moscow reports that Lenin is expected soon to issue a decree restoring property rights in goods, but not real estate, and handing back the smaller industrial plants to their owners.

Lenin's plans are now understood to be to reconstitute Russia on the basis of his reported declaration that the country cannot live solely on the ideals of Karl Marx, but that it needs bread as well.

The question seems to be if he can conquer the strong resistance of Trotsky and his associated political adventurers and fanatics. In any case a test of strength inside the walls of the Kremlin is expected soon.

Their Excellencies Sail for England July 19

A despatch from Ottawa says:—It is officially announced from the Government House that Their Excellencies, the Duke and Duchess of Devonshire, will sail from Quebec for England on July 19th on the Empress of France.

A despatch from London says:—When the Duke of Devonshire returns to England, from Canada, after laying down his duties as Governor-General, he will retire entirely from public life and pass much of his time at Chatsworth, which is now being prepared for his reception. It is understood that the Duchess will resume her former appointment of Mistress of the Robes to Queen Mary.

To guide pilots flying on the Paris to London route, the French Government is placing captive balloons in certain positions at a height of about a mile.

GOVERNOR-GENERAL TO OPEN EXHIBITION

Lord Byng of Vimy Will Officiate in Toronto on Aug. 27.

A despatch from Toronto says:—Lord Byng's first official act as Governor-General of Canada has been to accept an invitation, cabled to him, as soon as his appointment was announced, to open Toronto Exhibition.

Managing Director Kent has received the reply: "Warmest thanks for congratulations. Shall be proud to open the Canadian National Exhibition, Warriors' Day, Saturday, August 27, at 2.30 p.m. (Sgd.) 'Byng of Vimy.'"

Other Governors-General who have opened the Exhibition since 1878, have been: Earl of Dufferin, Marquis of Lorne, Lord Lansdowne, Lord Stanley, Lord Aberdeen, Earl Grey, Duke of Connaught and Duke of Devonshire.

Lieutenant-Governors of Ontario who have officiated have been Sir John Beverley Robinson (five times), Sir Geo. Kirkpatrick, Sir Oliver Mowat (in 1898 having in 1882 had the same honor while Premier of Ontario), Sir Mortimer Clark, Sir J. M. Gibson, and Sir John Hendrie.

Dominion Premiers officiating have been: Sir John Macdonald, Sir John Thompson, Sir Wilfrid Laurier, and Sir Robert Borden.

Provincial Premiers: Hon. A. S. Hardy, Sir Geo. Ross, Sir James Whitney, and Sir Louis Jetté (Quebec). Of all "unofficial" notables who have acted the most distinguished was, of course, the Prince of Wales, two years ago. Others have been: Major-General Herbert, Major-General Hutton, Earl Dundonald, Lord Strathcona, Sir Wm. Mulock, Admiral Lord Charles Bessford, Gen. Baden-Powell, Sir Geo. Perley, Baron Shaughnessy, and Sir Auckland Geddes.

The only woman who ever opened the fair was Lady Kirkpatrick, in 1897.

Premier Smuts Arrives in London

London, June 12.—Jan Smuts, Premier of South Africa, who will be one of the dominant figures at the Imperial Conference which holds its first meeting on Thursday at 10 Downing street, arrived in London yesterday and left immediately for Chequers where he will be the guest of Lloyd George over the week-end.

Smuts arrival completes the membership of the conference in England, with the exception of the Canadian Premier who is expected at the beginning of the week.

Use Salt Sparingly, Says Physician

Chicago, June 12.—"Beware of too much salt. Use the salt-sparer sparingly at mealtime, if you would travel far and not fall by the wayside. Excess of salt is the cause of the inflammatory stages of many diseases that appear in the human body."

That is what Dr. Charles Woodward of Chicago to-day told the Illinois State Electric Medical Society.

"Fifteen to thirty grains of salt a day," he added, "is the maximum amount that should be taken into the human system."

A large deposit of platinum has recently been discovered near Sulphur Rock, Ark., according to late reports.

LARGEST GOLD ORE BODY ON THE CONTINENT AT ELBOW LAKE

Surface Showings Indicate Vast Richness of New Discovery—Dyke to be Blown Open.

The Pas, Man., June 12.—Additional information received here concerning the gold strike at Elbow Lake leads to the belief that, from the surface showings, the largest gold ore body on the continent has been uncovered.

The dyke has been stripped of overburden for 350 feet in length and 50 in width without encountering the walls in which the gold is freely deposited throughout. The outcropping near the water's edge, where the discovery was made, has developed into a rich pocket of gold which gradually lessens in quantity back to the discovery post, 350 feet away, where the body disappears under a heavier overburden.

An attractive feature about this

strike is the evident continuity of free gold for the length and width of the dyke starting from the gold pocket, where specimens were dug out with a gold volume of fifty per cent. The dyke, as uncovered, revealed small specks of gold, fairly regular all along. A few shots were put in nearer the discovery posts, and the material shot out also contained free gold.

A care of dynamite has been sent up to the property to be used in blowing open the dyke to learn to what extent this gold is deposited underneath. Prospectors are staking heavily around the discovery and across the Grassy River, opposite the find, where, it is claimed, the dyke has been picked up.

The Royal Ulster Rifles to Guard the King

A despatch from Belfast says:—The Royal Ulster Rifles, which are now quartered in the Kensington Gardens in London, where they were stationed to meet emergencies which might arise from the coal strike, will be sent here for King George's visit at the opening of the Ulster Parliament on June 22. They will be the only Irish troops in the country.

It is announced that the Queen will not accompany King George to Belfast.

Canada's Wheat Area Estimated 18,654,100 Acres

A despatch from Ottawa says:—The total area estimated to be sown to wheat in Canada for the harvest of 1921 is 18,654,100 acres, according to preliminary estimates issued by the Dominion Bureau of Statistics. Last year's final estimate was 18,222,374 acres, and the average of five years from 1915-1919 was 16,342,969 acres. The estimate for fall wheat is 709,100 acres for this year, and the area under spring wheat 17,945,000 acres.

Lord Byng Former Commander of the Canadian forces in France, whose appointment as Governor-General of Canada is officially announced.

A fault-finder is better than a fault-finder.

Weekly Market Report

Toronto.
Manitoba wheat—No. 1 Northern, \$1.93 3/4; No. 2 Northern, \$1.92 3/4; No. 3 Northern, \$1.82 1/4; No. 4 wheat, \$1.76 1/4.

RICH MENNONITE RESERVE IS SOLD

U.S. Capitalists Buy 107,000 Acres of Saskatchewan Farming Land.

A despatch from Regina, Sask., says:—The old colony at Swift Current, Mennonite reserve, containing 107,000 acres of the best agricultural lands in Saskatchewan, has been sold to Florida capitalists headed by James J. Logan, Jacksonville, Fla., and Jas. F. Taylor, Tampa, Fla., for a total of \$4,800,000 and the first cash payment involved has been deposited by the purchasers. By the terms of the agreement transfers have been deposited with the Saskatchewan Mortgage and Trust Company of Regina, trustee of the Mennonites. It means that about 75 per cent. of the Mennonites in the Swift Current district will leave shortly to settle on a large tract of land in Florida.

Under the terms of the contract the vendors leave their farms with their personal belongings only, all chattels, farm machinery, houses, churches, schools, etc., become the property of the purchasers. There are four hundred complete sets of buildings in excellent repair, 50,000 acres in crop; 80,000 acres under cultivation. In the territory bought by the Floridians are the towns of Dunelm, Neville, Springfield, Wymark and Blumenhof. The purchasers intend to start at once to bring American farmers. It has taken since October 27, 1920, to negotiate this deal which was closed on Saturday when half a million dollars was deposited as part of the purchase price.

ALMOST 2 MILLIONS DEBT DECREASE

Canada's Finance Department Issues Statement for May.

A despatch from Ottawa says:—A decrease of \$1,785,845 in the net debt of Canada during the month of May, as compared with an increase of \$26,813,586 during the same month a year ago, is shown by the financial statement issued from the finance department on Friday. The net debt of Canada now stands at \$2,316,804,802, as compared with \$2,318,590,548 at the end of April and \$2,274,082,253 at the end of May, 1920. The decrease in the debt is accounted for by the fact that income tax collections during the past month totalled \$32,556,711, as compared with \$2,412,802 in May, 1920.

Three years' tax was collected at the time of making the return, while in 1920 the return was filed for some time previous to the collection of the tax.

The customs revenue for the month of May this year was \$4,579,954, as compared with \$19,745,200 in May, 1920. Excise was \$2,520,197, as against \$3,776,499. Revenue from the post office was \$1,800,000 last month, and \$1,550,000 in May, 1920. War tax revenues included \$6,091,874 from land revenue, as compared with \$2,023,811 in May, 1920, and \$1,945,218 from business profits tax, as against \$4,105,237 in May, 1920.

Death Calls Lunatic Who Fired on Queen Victoria

A despatch from London says:—Roderick McLean, who attempted to shoot Queen Victoria on March 2, 1882, and was subsequently incarcerated as a dangerous lunatic, has just died at Broadmoor Asylum. The attempted murder of the Queen occurred at Windsor following the arrival of the Royal train conveying the Queen, Princess Beatrice and the Court from London. The Queen had just walked across the platform of the Windsor station to the carriage-in-waiting when McLean, who was standing among a number of spectators, deliberately fired a revolver at her. The shot missed and the Queen was at once driven to the Castle.

British Fleet Holds Memorial Service.

Britain's entire Atlantic Fleet of forty vessels, line upon line of dreadnoughts, battle cruisers, cruisers, destroyers, submarines and escort vessels, stopped for fifteen minutes recently far out upon the Atlantic for a unique funeral service, says a despatch from Southampton.

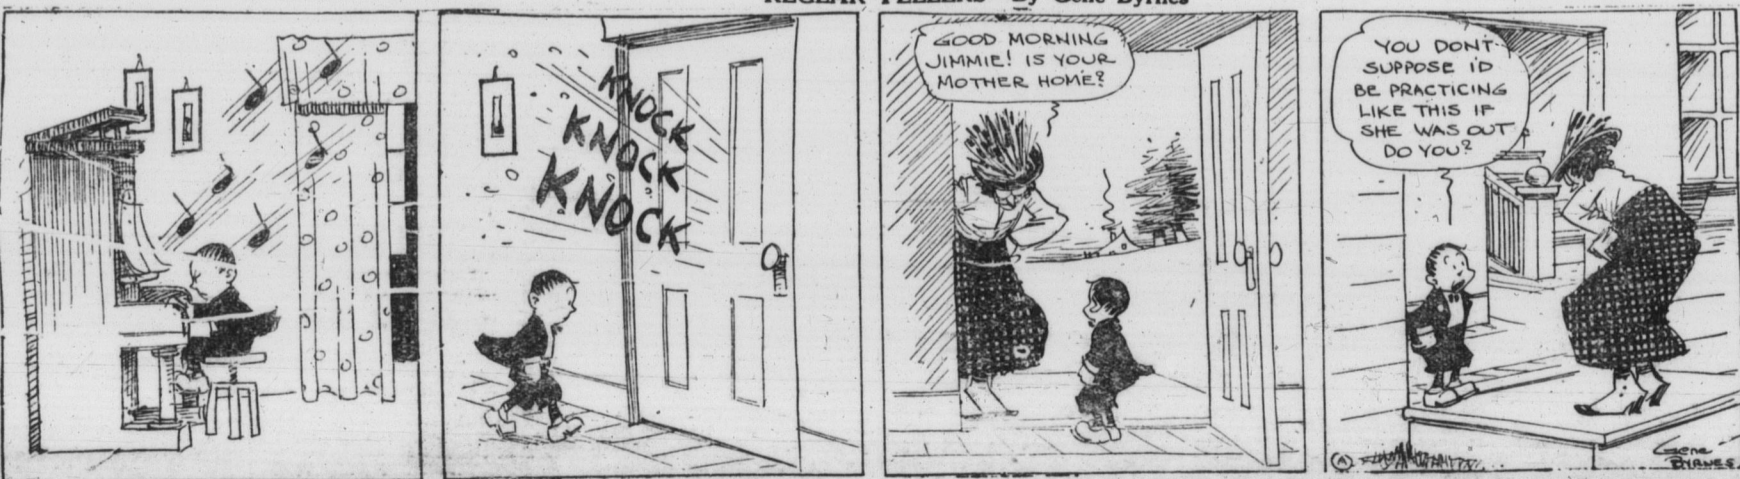

They were homeward bound from manoeuvres off the coast of Portugal and had arrived at the spot where the British submarine K-5 was lost with all hands on the outward voyage.

It was 4 o'clock Sunday afternoon when the fleet steamed over the ocean grave and the signal "Stop! Colors at Half Mast" was given. The 14,000 men of the fleet assembled on deck, standing at attention. The order for the burial of the dead was read by the ships' chaplains and bugles blew the "last post."

As a result of more open-air sports British women are developing larger waists and flatter chests.

Election candidate: "Now, my friends, when you vote you don't want to vote for a pig in a poke; you want to vote for me, and get the genuine article!"

According to scientists sounds are diverted and lessened during rain. That is because the falling rain "twists" the sound waves from their course.

"TO BUY OR NOT TO BUY"

THAT IS THE QUESTION. Whether it is wiser to spend your money where you get quantity of questionable worth, or to seek the store of REAL VALUE PRICES. Everybody is talking economy, but are we all spending what we have to spend with that saving idea in view? And that raises the question, Are "cheap" goods always cheap? There is no question as to the economy when you buy at the store of REAL VALUE PRICES, because you save money in spite of yourself.

Just investigate for yourself; do not be misled about our values.

By request—an array of values.

Many of our customers have requested us to put on a special "Array of Values" prices to equalize with the drop of farm products. We are always ready to oblige when possible, and, as this is your store, you are at liberty to make such requests. Cut out price list and pin it up for ready reference.

The Transcript.

THURSDAY, JUNE 16, 1921

NEWBURY

Mrs. Martin of London spent a few days at the home of her son, George Martin, Mosca.

It has been suggested that a warning note be sounded in the ears of children who play about the streets in the evening. Saturday evening last the streets were filled with cars parked near the sidewalk. The children in their play dart out between these cars and are liable to be struck by cars passing. Parents would do well to take notice of this and perhaps avoid a serious accident.

Owing to the U. F. O. club picnic and other garden parties in the district on the 22nd, the Anglicans have decided to postpone their garden party to a later date, possibly July 12th.

Mrs. John A. Robinson received a sad message Sunday telling of the death by drowning in a cistern of a little child of her nephew, Angus McDonald of Appin.

A number from here attended the anniversary services at Crinan on Sunday.

Adam Campbell and family of Chatham spent Sunday at his father's, Neil D.

Miss May Jackson of London spent the week-end with Miss W. Owens.

Miss Nora Cameron is visiting her aunt, Mrs. J. G. Bayne.

The choir of Knox church intend holding a song service at 8 o'clock Sunday evening.

WARDSVILLE

About fifty couples attended the dance given in the town hall last Wednesday evening. A very pleasant time was spent. Refreshments were served by the boys and the dancing continued until the small hours of the morning.

Miss Lenna Saylor was called to London Monday on account of the serious illness of her brother.

Mrs. McLean and Miss Edith McLean have returned to Wardsville after spending the winter in New York.

Wm. King of Grand Rapids, Mich., spent a couple of days with his mother, Mrs. King.

Mr. and Mrs. J. V. Faulds were in London attending the funeral of Mrs. Humble, nee Rose Dawson.

Mrs. Potter and Mrs. Douglas attended the W. C. T. U. convention at Mount Brydges. Among the officers elected was Mrs. Potter, county president.

Miss B. McVicar has returned home from a month's visit in Toronto.

Earl Linden and Miss Lenna Saylor were quietly married in Glencoe on Wednesday evening.

Mr. Yorke of Glencoe is presiding at the lower school examinations.

Pete Depeu of Detroit is visiting in the village.

Albert Constant has returned home from the West.

LaVerne White of Adrian, Mich., spent a few days with Mr. and Mrs. Thos. H. Weer.

The first form pupils of the high school finished their examinations on Friday.

Miss Farrington is presiding at the examinations in Mount Brydges.

Mrs. Will Thornton and daughter Velda and Albert Stitt of Teeswater are visiting the former's sister, Mrs. Thomas H. Weer.

Laura McCrimmon of Detroit is visiting in the village.

Several from Wardsville attended the services in Crinan on Sunday, also the garden party on Monday.

Mrs. Mercer, who has resided in the village for several years, has gone to live in Windsor.

Jim Humphrey, who has been visiting his grandparents here, returned to Windsor, where he intends to enter the hospital for further treatment.

Don't forget the English church garden party on July 1st.

CAIRO

Mr. and Mrs. Fred Barr arrived home on Wednesday last after motoring to Owen Sound and other points in that locality.

W. H. McKeown and D. M. Smith made a business trip to Aberfeldy on Thursday.

Our baseball boys went to Bothwell on Friday and met their Waterloo with the Bothwell team.

Mr. and Mrs. Frank Allan and Mr. and Mrs. J. R. McKeown of Sarnia motored to the home of friends in this vicinity on Sunday.

Mr. and Mrs. Archy McCready of Newbury, accompanied by their son, Glen, visited at the home of Mr. and Mrs. O. Gage on the 12th inst.

The Lord's Supper was dispensed in the Presbyterian church on Sunday, some forty members participating.

Mrs. G. W. Young was called on Saturday night to the bedside of her sister, Mrs. Miller of Clachan, who is seriously ill.

Archy McGugan, pathmaster in this road division, has had the work performed and greatly improved the road.

The county road north from Cairo to Gregory Corner has been completed and is greatly improved. Archy is becoming quite an expert in road making.

Mr. and Mrs. E. Routley and family, accompanied by Mac D. Smith of Aberfeldy, called on their return from Bothwell on Sunday.

SHETLAND

Mrs. James Collier of Melbourne spent a few days at Fred Jeffery's.

Mr. and Mrs. Alonzo Dixon spent a few days at Robert Gray's.

Miss Gillett spent the week-end with Shetland friends.

The annual social of the library will be held at R. D. Bolton's grove on the 15th of June.

Eddie Brownlee will soon have his barn completed.

Mrs. Robert Gray has returned from Moss, and we are sorry to hear that Mrs. McNaughton is not improving very quickly.

Mrs. Harris of Coatsworth is visiting her daughter, Mrs. Wm. Bolton.

Mr. Badgley is enumerating for Shetland.

Harry Moorehouse had his hand hurt very badly.

Mr. and Mrs. James Whittington of Newbury spent Sunday at W. Bolton's.

WOODGREEN

Mrs. T. J. Elliott, who spent a few days with her sister, Mrs. T. Simpson, has returned to her home near Florence.

A large number from here attended the diamond jubilee at Crinan on Sunday, June 12, and also the garden party there on Monday night.

Sorry to hear that John Kenny is leaving Woodgreen this week for his new home.

A number from here attended the lawn social at Cashmere Wednesday night.

SHIELDS SIDING

Mr. and Mrs. Arthur Summers and Mrs. A. R. Summers of Oakdale spent Sunday at Margaret McArthur's.

Miss Ellen McCallum has returned home after a week's visit with friends in Oakdale.

Mrs. Barbara Campbell of Michigan is visiting her brother and sister, Margaret and Robert McArthur.

London Methodist Conference, at its closing session, adopted a strong resolution against dancing, condemning public dances at summer resorts as pernicious in their influence, and protesting against dancing at public or high schools, colleges or church colleges. They sought to correct the impression from a misinterpretation of discipline that the Methodist Church has compromised in the matter of dancing.

MELBOURNE

The community shorthand class, taught by Rev. John Elder of Guthrie Presbyterian church, has had a most successful session. Twenty pupils sat for the final examination. The papers were sent to Pitman's Phonetic Institute, Bath, England, and a few days ago word was received here that all the candidates had passed for a third-class certificate. The names of the candidates are:—Wm. W. Lewis, Chas. Thompson, Fred W. Tull, Arthur Elder, Kenneth Campbell, Garnet Long, Archie McDougall, Argyle McGugan, Donald Fletcher, Mamie Mills, Gladys Downie, Mrs. Elder, Addie Wallace, Winnifred Wallace, Jean Lockwood, Sadie McGugan, Annie Johnson, Sadie Johnson, Mac Hardy, Florence Long. An advanced class will be formed early in the fall.

The half-yearly communion will be observed in Guthrie Presbyterian church on Sunday, June 19. The memorial individual communion cup service will be used for the first time.

Preparatory service on Friday afternoon at 2.30.

The funeral of James Stevenson took place here Monday afternoon from his residence adjoining the village, where he had moved a short time ago from his farm in Ekfrid. He leaves to mourn his loss a widow (nee Miss McTaggart of Ekfrid), and two brothers, William and Archie, both of Ekfrid. Mr. Stevenson was in his 63rd year and had been in ill health for some time. This was one of our most worthy citizens who has been called away and will be greatly missed by a large circle of friends.

Promotions, June, 1921, Form I to Form II, Melbourne Continuation school. Names in order of merit: Jennie Robinson, Annie Switzer, Margaret Murray, Winnifred Wallace, Doris Campbell, E. Mullin, Reni Kapayo, Stanley Hyndman, Gertrude Howe.

Those who failed will be given an opportunity of re-writing the examinations during the first week of the fall term.

Blanche E. Snell, Teacher.

Miller's Worm Powders will drive worms from the system without injury to the child. The powders are so easy to take that the most delicate stomach can assimilate them and welcome them as speedy easers of pain, because they promptly remove the worms that cause the pain, and thus the suffering of the child is relieved. With so sterling a remedy at hand no child should suffer an hour from worms.

STRATHBURN

Crops in this vicinity look well. More rain is badly needed.

Several have started cutting their alfalfa which is earlier than usual.

Considerable gravel is being hauled on the county roads.

A number of teams have been busy cutting down the river hill on the county road, which makes a good improvement.

Quite a number from around here attended the ball at Wardsville, and report an enjoyable time.

NORTH EKFRID

The Ladies' Missionary Society will hold their monthly meeting at Mrs. Will Nichol's on Thursday afternoon, June 16.

Mrs. A. Helm passed away Wednesday, June 8, after a long illness. She was buried Friday. Interment in the Strathroy Catholic cemetery.

Rev. Mr. Nichol of London gave two very impressive discourses Sunday afternoon and evening in the Presbyterian church.

Wedding bells will soon be ringing in this neighborhood.

Mrs. Albert Kimball of Windsor is visiting in this vicinity.

Mrs. Allen Perry of Windsor is the guest of her sister, Mrs. Geo. Chisholm.

We are pleased to see Ed. Klemm's smiling face once more.

Mr. and Mrs. Gordon Purdy of London were the guests of Wm. Mills.

CASHMERE

Ralph McIntyre was a London visitor recently.

Mrs. Arthur Tunks and children have returned home after spending a few weeks with relatives at Rodney, West Lorne, Dutton and Crinan.

Mrs. Calvin Stiller had the misfortune to fall and sprain her ankle last week.

Miss Lenna Saylor, only daughter of Mr. and Mrs. Henry Saylor, and Earl Linden, only son of Mr. and Mrs. Abe Linden, Aldborough, were quietly married on Wednesday, June 8. Our good wishes are extended to the happy couple.

Mr. and Mrs. Allen Stiller spent Monday and Tuesday with their son Calvin.

The fiftieth anniversary of the wedding of Mr. and Mrs. Robert Webster was celebrated on June 6th when a party of about fifty relatives and friends gathered at their home and spent a very enjoyable time. Dinner was served on the lawn. The happy aged couple, who are enjoying fair health, received many congratulations and wishes for many more days of married life. Visitors were present from London, St. Thomas, Glencoe, Dutton, Windsor, Wallaceburg and Pontiac. The couple received many lovely gifts.

Mr. M. Porter of Wardsville is visiting her brother, W. E. H. Gardiner.

For Scalds and Burns.—Dr. Thomas' Eucletic Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

KNAPDALE

Miss Mabel Hillman was home from London for the week-end.

Miss Florence Mitchell of Detroit called on friends here last Sunday.

We are pleased to learn that Allan McDonald, for many years a resident of this place and who lately suffered a stroke, is improving nicely.

Operations for oil have been resumed on the McDonald lease.

John Best has the contract for drilling a well on the McKelvie property for the West Williams Oil Co.

Mothers Value This Oil.—Mothers who know how suddenly crampy-seize their children and how necessary prompt action is in applying relief always keep at hand a supply of Mothers' Value This Oil. Because experience has taught them that this is an excellent preparation for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

APPIN

Mrs. Herman Miel of Jarvis is visiting her sister, Mrs. L. D. Galbraith.

Sorry to hear that Angus McMaster is still suffering considerable pain from the injury he received to his knee while playing baseball at Melbourne last week.

Several from here attended the funeral of the late James Stevenson at Melbourne on Monday.

Mr. and Mrs. James Macfie are visiting with Mrs. Macfie's sister, Mrs. Colman.

Miss Lovelace of London is visiting her sister, Mrs. (Rev.) Whaley.

The sympathy of the community is extended to Mr. and Mrs. Angus McDonald in the loss of their little child who was accidentally drowned Sunday morning. The funeral was held from their home on Tuesday to Cairn cemetery.

A very interesting meeting of the Ladies' Aid was held at the home of Mrs. James Lotan, Jr., with a large attendance.

The Women's Missionary Society held their regular monthly meeting at the home of Mrs. James Allan last Friday.

A large crowd is expected at the district convention of the Women's Institute to be held here Wednesday.

A very enjoyable day was reported by those who attended the school picnic at Poplar Hill last week.

Miss Jean May was pleasantly surprised one evening last week when she was presented with a beautiful cut glass vase by the members of the Sunday school class, "The Progressives," of which she was a member, prior to her marriage.

An Unblemished Record. Sensational advertising methods have so often been used to exploit worthless articles that we have always preferred to hear the honest and conservative claims for Dr. J. D. Kellogg's Asthma Remedy. We keep it before the public by modest announcements, relying almost wholly for its more extensive upon its recommendation by those whom it relieves of Asthma, dreadful agonies. These are now numbered in many thousands. We suggest a trial of Dr. J. D. Kellogg's by every sufferer from Asthma.

KILMARTIN

John H. McFarlane and sons Dan and Alex of Detroit are visiting with friends here.

Mr. John Little is visiting friends in Sarnia, Mich.

The many friends of John F. McTavish will regret to learn that he is seriously ill.

Mrs. Malcolmina Munroe of Belle River spent the week-end at her home here.

Sacrament of the Lord's Supper will be dispensed in Burns' church, Moss, on Sunday evening. Preparatory services will be held on Saturday at 11 a.m. and 7.30 p.m.

Wedding cake boxes at The Transcript office.

CASTORIA

For Infants and Children
In Use For Over 30 Years

Always bears the Signature of *Dr. J. C. Watson*

THE LATE W. G. ROBINSON

The name of William George Robinson has been intimately associated with the affairs of Melbourne and the surrounding country for nearly a quarter of a century. That connection was rudely broken in his unexpected death on Monday, May 30th.

Forty-eight years ago Mr. Robinson was born near Mount Brydges, his mother dying while he was yet young. He was taken into the home of his aunt and received his early education in the public school in the eastern part of the township. He afterwards attended the Strathroy Collegiate Institute and in due course of time qualified as a teacher. About twenty-four years ago he began teaching in Melbourne and continued in that connection until the time of his death.

It was through his initiative and perseverance that the continuation school was there organized and developed. He was the first principal of that school and held the position with honor and success till the time of his death. Hundreds of pupils have passed through his hands and many of them are filling important positions in widely scattered sections of the land today. All will acknowledge Mr. Robinson to have been an efficient and painstaking teacher. His memory will long continue a sacred thing and his noble ideals will ever find expression in the lives of his pupils.

While he was known as a teacher first and foremost, that was not the only capacity in which he served his day. There was no matter of local interest in which he did not lend assistance. The agricultural society, the telephone company and the public library were all served by Mr. Robinson in office and out of it. He was diligent in the social life of the community, organizing excursions, among the Old Fellows he held a prominent place, serving in Melbourne as noble grand, and in the district he was superintendent. To the Methodist church he was unfailing in his devotion. He held important offices there and gave unstinted service. He served as trustee, steward and Sunday school superintendent, and in various other capacities.

During the past year his health was not good, but he continued his work till Friday, May 27. Saturday morning he suffered a stroke of apoplexy and after two days passed away. On Wednesday afternoon a short service was held at the house, after which the corpse proceeded to the Methodist church. Seventy pupils of the school, carrying abundance of flowers, were in the procession. Representatives of the Sunday school and of the Old Fellows were also there. The service at the church was in charge of Rev. Dr. Brown, assisted by Revs. W. R. Vance, Byron Snell, C. F. Clarke and C. Durant, former pastors, and by Rev. Mr. Elder of the Presbyterian church. Interment took place at Mount Carmel.

Among those left to mourn his loss are his wife, formerly Miss Hattie Watson of Mount Carmel; his son, Walter of the London medical school, and two daughters, Mildred and Jennie, at home.

Ten cents a hundred is offered by the Women's Club of Paris, Ill., for dead flies killed within the city limits.

Melbourne's

MAMMOTH

Garden Party

UNDER AUSPICES OF U. F. W. O.

will be held on the Park Grounds

Friday Ev'ning

June 24th

1st Hussars Band of London, under the leadership of Roselle Pock, who is one of the greatest bandmasters in Canada.

The Hudson Male Quartette of Detroit. This quartette needs no introduction, as it is without doubt the greatest male quartette in America.

Owen Smiley of Toronto, Canada's high class entertainer.

Gwendolyn Anthistle, Elocutionist, of London, one of the most talented readers and impersonators.

Harry Bennett, Scotch Comedian, of Toronto, a brilliant and accomplished fun-maker.

Jessie C. McGregor, Pianist, of Toronto, an artist of the highest quality.

Band Concert by the 1st Hussars Band from 7.30 to 8.30 o'clock.

Chairs taken at 8.30 by J. W. Freeman, M. P. for East Middlesex.

Grounds brilliantly illuminated by electricity.

Refreshment booths on grounds. Note.—The committee have spared neither time nor expense in procuring this excellent program. It will be the greatest event of the season.

Admission—Adults, 50c; children 12 years, 25c. Cars admitted free.

NOTICE TO CREDITORS

In the Matter of the Estate of William Coad, Late of the Township of Ekfrid, in the County of Middlesex, Farmer, Deceased.

Notice is hereby given, pursuant to "The Revised Statutes of Ontario, 1914, Chapter 121, Section 568, that all creditors and others having claims against the estate of the said William Coad, who died on or about the eighth day of June, A.D. 1920, are required to send by post prepaid or to deliver to the undersigned, solicitors for James Lethbridge and James Treast, executors of the last will and testament of the said William Coad, deceased, their names and addresses and full particulars in writing of their claims and statements of their accounts and the nature of the securities, if any, held by them.

And take notice that after the first day of July, A.D. 1921, the said James Lethbridge and James Treast will not be liable for the said assets or any part thereof to any person of whose claim they shall not then have received notice.

ELLIOTT & MOSS,
Solicitors for the said Executors.
Dated at Glencoe, Ontario, this 13th day of May, A.D. 1921.

A Beautiful Roof that Wears for Years

ADD that touch of refinement—that tint of color—that improved appearance which increases the value of your home, by roofing it with

Brantford Asphalt Slates

A basis for analysis is given below:

- 1—INITIAL COSTS OF MATERIALS.—Brantford Asphalt Slates are sometimes higher in initial cost for the material.
- 2—NAILS REQUIRED.—Brantford Asphalt Slates require ONLY 684 nails to lay a square. Brantford Asphalt Slates require ONLY 450 nails.
- 3—COST OF LAYING.—Brantford Asphalt Slates are four on one strip—require only one operation in handling, one operation in spacing. Individual slates are 8 x 12 1/4 inches—Cut easily, fit easily, fit on angles and bend over round surfaces. You save 30 to 50 per cent. in laying.
- 4—NO PAINT OR STAIN REQUIRED.—The surface of Brantford Asphalt Slates is in nature's permanent colors, green and red, unchangeable, always attractive—requiring no stain to produce artistic effects, no liquid coats to make them fire-resistant.
- 5—SAVING OF INSURANCE.—Brantford Asphalt Slates are classed as non-combustible by fire insurance companies—direct saving of from 10 to 20 per cent. on premiums is effected. In certain localities, fire regulations demand asbestos paper under some roof materials, but Brantford Asphalt Slates are fire-resistant and are immune from special regulations.
- 6—COST OF REPAIRS.—From the day they are laid Brantford Asphalt Slates roofs show almost 100 per cent. of the original roof untouched. Brantford Asphalt Slates do not curl, split, crack or rot. Complete protection and permanent protection are built into Brantford Asphalt Slates.

There are Brantford Roofs in your neighborhood. Look one up. You will be convinced that our roofs embody all the good features of other roofing without any weaknesses.
