"Older than the Dominion of Canada"

EVERY FARMER IN ONTARIO CAN GROW SILK

Its Possibilities for Money-Making Are Greater Than Any Other Form of Know Agriculture.

Your Guarantee From the Osigian Silk Corporation of Canada, Limited

A Never-Failing Crop. Every Osigian Silk Tree Positively Guaranteed to Live and Produce Results, or Replaced Free of Charge. The Company Will Positively Purchase Every Cocoon Produced at Highest Market Value, Which Is Fixed by Prevailing Price of Raw Silk in New York. Returns From First Year of Planting.

No Special, Expensive Farming Equipment Required A SURE CROP. A SURE MARKET. A SURE PRICE. COULD ANYTHING BE MORE FAIR?

NOTE—Many farmers believe the Silk Worms are reared on the trees, which is not correct. They are never allowed on the trees, but are always kept like the Tent Caterpillar or Tussock Moth. For centuries the worms have been bred in confinement and do not crawl, nor do the moths fly, though having wings.

Every City Property Owner Wants These Trees for Shade—It is the Fastest-Growing Tree Known.

BOYS AND GIRLS—Get your parents to plant a few Osigian Silk Trees in your backyards and we will start you in the silk business free. We furnish the eggs and buy your cocoons.

ONE OPERATION IN EVERY FOUR FORMERLY FATAL

Now Ratio of Deaths Is Reduced To One in Fifty.

MEDICAL ACADEMY MEETS

Detroit Physician Says Christian Science Fails To Cure Gastric Ulcer.

Three former Western Ontario men, now leading members of the medical profession in cities in the United States, where they reside, were the speakers at a regular meeting of the Western Ontario Academy of Medicine held in the Auditorium Friday afternoon. The meeting was largely attended by London and district practitioners, nurses and medical students, practically every member of the academy being present.

Dr. Angus McLean, an old Glencoe boy, now professor of surgery in the Detroit College of Medicine, was the first to deliver an address at the meeting. Taking for his subject, "Ulcer and Cancer of the Stomach and Duodenum," Dr. McLean described expert treatment, and more modern diagnosis of these two types of malignancy, illustrating his discourse by sketches. He mentioned a serious case, which came under his observation, wherein a malignant ulcer received Christian Science treatment for two years, only to perforate the stomach suddenly last Thanksgiving Day, which time, he declared, introduced a novel coincidence. Medical assistance was summoned, and with great difficulty the patient's life was saved. A similar case with similar treatment suddenly ruptured the stomach of a patient on New Year's Eve last, but faith in Christian Science caused him to delay summoning medical aid for twelve hours, with the result that the attack proved fatal. "Therefore," declared the speaker, "Christian Science treatment, which may be good for some, failed with gastric ulcer."

DEEP HOLLOW COUGHS ARE MIGHTY DANGEROUS

That same cough is everywhere you go, deep and hollow, why—because consumptive. First it is a cold, next come Catarrh, vitally decreased, then the trouble was very serious. Never neglect a cold, not even a little one. Never trifle with sore throat or Catarrh. Get out your "Catarrhone Inhaler," breathe deeply into your lungs the healing, soothing vapor of Catarrhone. Let Catarrhone clear out the nostrils. You'll wonder at the change when you use this healing remedy. It's really splendid for coughs, colds, bronchial irritation, and Catarrhal trouble. Sold everywhere. Two months' treatment, \$1; small size, 50c.

FARMERS ARE READY FOR AN EARLY START

Excellent Crops Are Expected in the Wabash District.

WABASH, March 25.—Farmers have pulled out their spades in the sugar bushes and are now getting ready to begin working the land. They are looking for an excellent season.

The marriage of Mrs. Pearl Lawton and Claire Norton took place at the Thameville Methodist parsonage. Rev. A. Whitehall officiated, and immediately after the ceremony Mrs. Norton left on a honeymoon trip to Detroit.

LINGERIE DRAMA PLEASES CROWDS

"Up in Mabel's Room," Amusing, Light Comedy At Grand.

A decided change from most of the attractions which have been shown in London this season, "Up in Mabel's Room," at the Grand Good Friday, made a remarkable hit with the large holiday audience. Light comedy, the "bedroom" play, which still enjoys a wide vogue, kept everybody in almost continual laughter, and undoubtedly marked the play as one of the leaders of its class.

FAST PACING MARE SOLD AT BRUSSELS

BRUSSELS, March 25.—"Elsie Campbell," the fast pacing mare owned by Dr. T. T. McRae of Brussels, has been sold to P. Rutledge, of town, at a good figure. For a great mare last season she showed great bursts of speed, and has a mark of 2:24. Mr. Rutledge also owns a seasoned campaigner in "Gentry Forrest," purchased from J. H. Galbraith last fall.

MAD FUN WITH LIVE WIRE

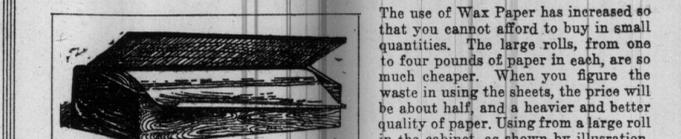

HARROW, March 25.—A curious phenomena was found in connection with the U. F. O. grinding elevator. The building is covered with metal siding and this metal is charged with electricity when the mill is not running. Some mischievous boy ran a live wire across the street, with the result that when a team stepped on it yesterday the horses reared and fell, having been ransacked. Four other houses were also entered.

COMMUNITY CONCERT HELD AT PRINCETON

PRINCETON, March 24.—The community concert held in the hall last evening was a great success. The three choirs united, giving 40 performers with two violins. Mrs. J. O. Reid acted as accompanist.

Store Opens 9 a.m. Closes 5:30 p.m.

Oak Finish Cabinet and Pound Roll of Wax Paper Complete For \$1.50

Cabinet and Pound Roll Wax Paper \$1.50

When you buy the small package, see that you get a roll with 20 sheets, as most contain only 15 and sell for the same price. 5 Rolls (20 sheets each) \$2.50 3 Rolls (20 sheets each) \$2.50 The three rolls are the heavy Paris-Sani quality.

We Sell the Famous "Swan" Pens

They are known as the Safety Fountain Pens and are so named because the screw cap, combined with other features related thereto, absolutely prevents leakage or ink escaping and soiling the holder. Ask for demonstration at Stationery Counter.

"The Pen with the smoothest Gold Nib"

We carry a full line of these good pens in both ladies' and gentlemen's sizes: Lady's pocket size, Price \$3.00; Gentleman's size, 2B, Price \$3.00; Gentleman's size, 3B, Price \$4.00; Gentleman's size, 4C, Price \$5.00; Gentleman's size 5, Price \$6.00. With clip, 25c extra.

SMALLMAN & INGRAM LIMITED

from Brussels, and is succeeded by Richard Jacklin, who commenced his duties this week.

The auction sale of farm stock, implements, etc., at Moody Hollands' store, went with a sweep, and totalled \$1,500. James Taylor was auctioneer, owing to the illness of F. S. Scott. Mr. Holland has sold the farm also.

James Speir is home from Fergus Hospital, where he went five weeks ago for a serious operation. He is improving slowly.

Over 1,200 chicks have been hatched by incubators at Walter Ross's poultry farm already this season.

A Sure Relief for Women's Disorders

Orange Lily is a certain relief for all disorders of women. It is applied locally and is absorbed into the suffering tissue. The dead waste matter in the congested region is expelled.

**Goddess**  
Corsets that face you

**Sitting or Standing**  
"Goddess" corsets with their scientific cut and special French boning give absolute comfort. They yield to any change of position and gently hold up the figure, assuring its greatest beauty, yet causing neither fatigue nor pain.

Many of the best dressed women in Canada are wearing "Goddess" laced in front corsets and share Anita Stewart's opinion: *Without undue compression they add to the grace of the figure.*

There is a style for every figure.

DOMINION CORSET CO.  
Quebec, Montreal, Toronto,  
Makers of the "D & A" and "LA DIVA" Corsets.

**"GET O'CONNOR ALIVE OR DEAD," IS POLICE ORDER**

Greatest Man-Hunt in History of Chicago in Progress.

CHICAGO, March 25.—The greatest man-hunt in the history of Chicago was extended to cover the entire central west today in the search for "Tommy" O'Connor, who on Wednesday night shot his way to liberty through a cordon of policemen, killing Detective Sergeant Patrick O'Neill.

With orders to shoot to kill, more than 2,500 patrolmen are searching the city. Rifle squads have been sent to surrounding towns. Hand-bills putting a price of \$2,500 on his head "dead or alive," were sent throughout Illinois, Iowa and Wisconsin.

O'Connor, who was under indictment in connection with the killing of a man who had befriended him while he was a fugitive from justice, was trapped in the home of his brother-in-law. Seven patrolmen surrounded the house, when O'Connor appeared with two pistols, and shot down O'Neill as the latter stood beside the porch. As the patrolmen fell, O'Connor put another bullet through his back and fled.

O'Connor is declared by the police to be one of the worst "two-gun men" in the city. He was sought for some time in connection with the cold-blooded murder of an aged elevated railway ticket taker, who was shot while resisting a holdup. His constant boast has been that he would never be taken alive. "Get him, alive or dead," was the order issued to the searchers.

**WERE SHOT DOWN BY SINN FEINERS**

CORK, March 25.—The bodies of four young men who were shot dead on Tuesday night after the farmhouse at which they were staying was surrounded by crown forces, are lying in the cathedral here awaiting interment Sunday. A continuous procession passed the coffins today.

Reports of the shooting were that the four young men, with several others, were taken from the house and ordered to run for their lives. Fire was directed upon them, it was said, four of them being shot and the others escaping.

**BEWARE OF BRONCHITIS**

Bronchitis is generally caused by neglecting a cold, or exposure to wet and inclement weather. It begins with a tightness across the chest, difficulty in breathing, and a wheezing sound comes from the lungs. There is a raising of phlegm, especially the first thing in the morning. This is at first white, but later becomes of a greenish or yellowish color, and is occasionally streaked with blood.

On the first sign of bronchitis you should check it immediately by using Dr. Wood's Norway Pine Syrup, thereby prevent it becoming chronic, and perhaps developing into some more serious lung trouble.

Mrs. Brice Culham, Sheffield, Ont., writes: "In December, 1913, I was very sick with bronchitis, and had to stay in the house all winter. One day I saw Dr. Wood's Norway Pine Syrup advertised, so I got a small bottle which helped me very much; I then got a six size, and it completely relieved me. I cannot praise Dr. Wood's enough for what it did. Two of my neighbors are now using it for colds."

Don't accept a substitute for Dr. Wood's Norway Pine Syrup; the genuine is put up in a yellow wrapper; three pines trees the trade mark; price 50c and 60c; manufactured only by The T. Milburn Company, Limited, Toronto, Ont.

**HUNGRY BUT DAREN'T EAT**

Take "Pape's Diapepsin" and eat favorite foods without fear

Your meals hit back! Your stomach is sour, acid, gassy and you feel bloated after eating or you have heavy lumps of indigestion pain or headache, but never mind. Here is instant relief. Don't stay upset! Eat a tablet of Pape's Diapepsin and immediately the indigestion, gas, acidity and all stomach distress caused by acidity ends. Pape's Diapepsin tablets are the surest, quickest stomach relievers in the world. They cost very little at drug stores.

Imported "Booze" is demoralizing social conditions in parts of this province, and impairing those conditions to greater or less degree wherever throughout the province the influence of imported liquor extends.

Imported "Booze" is breeding a disregard of law among certain classes of people in this province.

Imported "Booze" is endangering the home life of this province.

Imported "Booze" is menacing the youth of this province.

You know the conditions—the newspapers bring them to your attention every day.

You see what is happening all around you. Imported "Booze" is defeating the expressed will of the people.

**NO AMENDMENTS TO BILL WILL BE CONSIDERED**

Congress Deluged With Requests Regarding Fordney Tariff Measure.

WASHINGTON, March 25.—Deluged with requests for changes in the emergency tariff bill to be put before the special session of Congress precisely as vetoed by President Wilson, House ways and means committee members reiterated today that the measure would be submitted without modification.

Representative Young, Republican, North Dakota, chairman of the subcommittee, which will present the bill, declared demands for changes were coming from many interests. Senators, representatives, business concerns, and farmers' organizations have appealed, he said, for elimination of some items, and addition of others without avail.

"Under an agreement reached by Senate and House committees," said Mr. Young, "no amendments will be considered. It is the opinion of members that legislation would be retarded, and the United Kingdom decreased. The only modification will be a six months' instead of a ten months' limitation."

Mr. Young is writing the report to accompany the bill, and it will be known as the Young bill.

Five million were asked for a compensatory duty on flour. The Underwood law imposed a duty on 10 cents a bushel on wheat, and the compensatory duty on flour was 45 cents a barrel, being 10c a bushel on 4 1/2 bushels necessary to make a barrel of flour. The millers contended for a specific duty on flour to measure exactly the duty paid on a sufficient number of bushels of wheat to make a barrel of flour.

Manufacturers of cloth also expressed dissatisfaction, claiming that if wool were made dutiable they were entitled to a compensatory duty.

Such an anæmic condition is so gradual in its approach and generally so lacking in acute pains that it is often difficult to persuade the sufferer to do anything for it. But it is a condition that corrects itself. If the blood is not enriched the trouble will increase. The nerves will be demoralized and neuritic pains will follow. Digestive disturbances often result from thin blood, sleep is disturbed and a general breakdown may occur.

Mr. Wilson Johnson, Nineveh, N. S., says: "A few years ago my system was in a badly run-down condition. My nerves seemed always on edge, and I found myself so weak that I could hardly do any work. I suffered from headaches and from pains in the back and under the shoulders, and was often so sleepless at night that when morning came I felt as tired as when I went to bed. I was taking medicine all the time, but it was doing me no good. Then I read the testimonial of a man whose conditions had been similar to mine, and who strongly recommended Dr. Williams' Pink Pills. I decided to give this medicine a fair trial, and when I had taken six boxes I felt much better. I continued taking the pills until I had taken six more boxes, and I can only say I am glad I did so, as I am now enjoying the best of health, and I advise all men who feel run-down to give these pills a good trial."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Company, Brockville, Ont.

The same three men are believed to have staged a hold-up about midnight last night at the end of the Niagara, St. Catharines and Toronto line here, and relieved the conductor of \$45. The car had reached the end of the line, which is a long spot, and the train was being changed when the hold-up men appeared from the side and ordered the conductor to throw up his hands. The whole thing was done so quickly and quietly that the motorman had no suspicion that anything was wrong.

NIAGARA FALLS, Ont., March 25.—Three masked men, armed with revolvers, entered the hydro canal camp, below Queenston, near the powerhouse site late last night, and held up the boarding house boss and 35 of the inmates, making away with about \$2,000. No trace of them has been found. When they entered the boarding house, they fired two shots in the air, and then demanded "money or life" from every one in the place. The boss was relieved of \$215, and the other men of different amounts ranging from \$25 up. Yesterday was pay day on the canal, and the hold-up men had calculated that they would get a big haul.

It was the stand of the strike for an eight-hour day on the Queenston-Chippawa development work last summer "by the way" that the Ontario Government. The convention showed a willingness to blame three Labor agitators, the Legislature for this "hitting," Mr. Swayne, Frank H. Green, law, M. L. A. St. Catharines, and M. M. Macbride, M. L. A. Toronto, secretary of the Independent Labor party, pointed his finger at these three gentlemen and named them as the ones responsible for labor getting its trimming on the eight-hour day. Mr. Swayne, the only one of the three present, refused to answer the charges calmly. The result was the bandying of a few warm remarks, followed by the declaration of John Bruce, Toronto, that the hydro and the Government had better look out. Other strikes were simmering on the Chippawa work, and the Government made some definite declaration upon the principle of the eight-hour day, as well as upon the findings of the special hydro commission appointed to go into the questions, they were apt to have upon their hands a greater trouble than any faced last summer.

Alleges Poor Facilities. Mr. Bruce incidentally wanted to bring a few charges of maladministration against the hydro. The chief of these was that there were poor facilities for carrying the workmen of the workers along the canal project, and as a result of this lack of care all the hospitals in the vicinity are filled with the sick. This was a situation, he inferred, which the Chippawa workers would not stand for long.

G. Foster, secretary of the Labor group in the Legislature, placed the responsibility on the shoulders of the workers. "Some of the actions of labor make me sick and disgusted," he declared. "They will agitate and agitate for an eight-hour day, then the first thing we hear is that the same men they had to work twelve or fourteen hours a day just because they happen to get \$70 a week for doing it. As long as you have men taking that attitude towards the eight-hour day it is going to be a hard thing to get anywhere."

As a result of the discussion, the convention decided to bring the question of an eight-hour day to the attention of the Government and ask where the Government stands thereon. As to the minimum wage board, the Independent Labor Party today agreed that the board had been working on an entirely wrong basis in fixing \$12 a week as the minimum wage for laundry girls. During the discussion \$14 was suggested as the lowest wage which a girl should be asked to work for in a laundry. However, the convention did not fix upon a wage scale, but decided to ask the minimum wage board to reconsider its decision as to \$12 being a sufficient wage.

Would Be Bankrupt. If G. Foster, labor's representative on the minimum wage board, while the discussion was going on explained that \$12 a week had been decided upon by the board because the steam laundries had been able to show that they had to pay a higher wage they would be forced into bankruptcy. Mr. Foster came in from some sharp criticism because of his seeming to side with the laundry proprietors, but he disclaimed having done so.

Among those who formally welcomed the delegates to Welland was Mark Vaughan, president of the board of trade of that city, who appealed for co-operation between labor and the board of trade. The latter, he said, was trying to get industries in order that labor might have more work, and he thought the aim of labor should be the same.

The convention will continue on Saturday.

**NO AMENDMENTS TO BILL WILL BE CONSIDERED**

Congress Deluged With Requests Regarding Fordney Tariff Measure.

WASHINGTON, March 25.—Deluged with requests for changes in the emergency tariff bill to be put before the special session of Congress precisely as vetoed by President Wilson, House ways and means committee members reiterated today that the measure would be submitted without modification.

**CANADIAN IMPORTS JUMP \$296,191,543**

Exports in the Same Twelve Months Decrease More Than \$42,000,000.

OTTAWA, March 25.—(By Canadian Press.)—An increase of \$296,191,543 in the value of goods imported into Canada during the twelve months ending February, 1921, as compared with a similar period ending February, 1920, is shown by a statement issued from the office of the Dominion Bureau of Statistics. The statement shows that during the twelve months period ending with the close of last month free goods were imported into Canada to the value of \$419,042,563 and dutiable goods to the value of \$871,023,583, making a total of \$1,290,066,146.

On the other hand, Canada's exports of domestic goods for the year ending February, 1921, were more than forty-two million dollars less than in the previous year. The total exports last year were \$1,214,404,132. Exports to the United Kingdom decreased last year to \$322,563,091, as compared with \$507,992,208 the year before. Exports to France decreased to \$155,473,222, from \$456,667,988 in 1920.

Mr. Young is writing the report to accompany the bill, and it will be known as the Young bill.

The car had reached the end of the line, which is a long spot, and the train was being changed when the hold-up men appeared from the side and ordered the conductor to throw up his hands. The whole thing was done so quickly and quietly that the motorman had no suspicion that anything was wrong.

NIAGARA FALLS, Ont., March 25.—Three masked men, armed with revolvers, entered the hydro canal camp, below Queenston, near the powerhouse site late last night, and held up the boarding house boss and 35 of the inmates, making away with about \$2,000. No trace of them has been found. When they entered the boarding house, they fired two shots in the air, and then demanded "money or life" from every one in the place. The boss was relieved of \$215, and the other men of different amounts ranging from \$25 up. Yesterday was pay day on the canal, and the hold-up men had calculated that they would get a big haul.

It was the stand of the strike for an eight-hour day on the Queenston-Chippawa development work last summer "by the way" that the Ontario Government. The convention showed a willingness to blame three Labor agitators, the Legislature for this "hitting," Mr. Swayne, Frank H. Green, law, M. L. A. St. Catharines, and M. M. Macbride, M. L. A. Toronto, secretary of the Independent Labor party, pointed his finger at these three gentlemen and named them as the ones responsible for labor getting its trimming on the eight-hour day. Mr. Swayne, the only one of the three present, refused to answer the charges calmly. The result was the bandying of a few warm remarks, followed by the declaration of John Bruce, Toronto, that the hydro and the Government had better look out. Other strikes were simmering on the Chippawa work, and the Government made some definite declaration upon the principle of the eight-hour day, as well as upon the findings of the special hydro commission appointed to go into the questions, they were apt to have upon their hands a greater trouble than any faced last summer.

Alleges Poor Facilities. Mr. Bruce incidentally wanted to bring a few charges of maladministration against the hydro. The chief of these was that there were poor facilities for carrying the workmen of the workers along the canal project, and as a result of this lack of care all the hospitals in the vicinity are filled with the sick. This was a situation, he inferred, which the Chippawa workers would not stand for long.

G. Foster, secretary of the Labor group in the Legislature, placed the responsibility on the shoulders of the workers. "Some of the actions of labor make me sick and disgusted," he declared. "They will agitate and agitate for an eight-hour day, then the first thing we hear is that the same men they had to work twelve or fourteen hours a day just because they happen to get \$70 a week for doing it. As long as you have men taking that attitude towards the eight-hour day it is going to be a hard thing to get anywhere."

As a result of the discussion, the convention decided to bring the question of an eight-hour day to the attention of the Government and ask where the Government stands thereon. As to the minimum wage board, the Independent Labor Party today agreed that the board had been working on an entirely wrong basis in fixing \$12 a week as the minimum wage for laundry girls. During the discussion \$14 was suggested as the lowest wage which a girl should be asked to work for in a laundry. However, the convention did not fix upon a wage scale, but decided to ask the minimum wage board to reconsider its decision as to \$12 being a sufficient wage.

Would Be Bankrupt. If G. Foster, labor's representative on the minimum wage board, while the discussion was going on explained that \$12 a week had been decided upon by the board because the steam laundries had been able to show that they had to pay a higher wage they would be forced into bankruptcy. Mr. Foster came in from some sharp criticism because of his seeming to side with the laundry proprietors, but he disclaimed having done so.

Among those who formally welcomed the delegates to Welland was Mark Vaughan, president of the board of trade of that city, who appealed for co-operation between labor and the board of trade. The latter, he said, was trying to get industries in order that labor might have more work, and he thought the aim of labor should be the same.

The convention will continue on Saturday.

**Solve These Riddles!**

When a bear goes into a drowsy state, what does he do?  
Answer: SLIM NU

What is it that every living person has seen but will never see again?  
Answer: DRY E YEAST

What is that which you just break by just naming it?  
Answer: ICE LENS

What is the difference between a 1920 dime and a 1909 cent?  
Answer: NICE NETS N

**This Car!**

HERE are four riddles for boys and girls with wise heads. We told the artist to draw the pictures to represent the riddles, but he guessed the right answers—and put them in too! So we barred him from the contest and told him to keep it a secret. Luckily, he got the answers all jumbled up, so you won't be any the wiser.

If you can unscramble the jumbled letters beneath each riddle picture and put them in their right order to spell the right words, you will have the right answers. It isn't an easy task. Good thinking, patience and perseverance may find you the answers. Try it.

If you think you have found the answers, write them carefully on a sheet of white paper. Put on nothing but your four answers and your name and address in the upper right-hand corner of the page. Handwriting, spelling, punctuation and general neatness will count if more than one answer is correct. We will send you the names of many other boys and girls 17 years of age and under who send answers, and each boy and girl will be required to perform a small service for us. Send your answers this very evening to:

- THE PRIZES**
- FIRST PRIZE, Genuine Culver Chummy Racer. Value \$20.00
  - Second Prize, Real Typewriter. "Kodak" Folding Camera. 40.00
  - Third Prize, Genuine Anagraphic "Kodak" Folding Camera. 35.00
  - Fourth Prize, Magnetic Gold Watch and Chain or Girls' Wrist Watch. 25.00
  - Fifth Prize, French Baby Doll and Wicker Carriage. 15.00
  - Sixth Prize, Moving Picture Machine with Film. 10.00
  - Seventh to Tenth Prize, Self-Filter Fountain Pens, each. 5.00

**What Others Have Done YOU Can Do**

Here are the names of only a few of the boys and girls to whom we have already awarded big prizes:

- Earl J. Beattie, Surf Inlet, B.C., Chummy Culver Racer. Value \$20.00
- Henry Devere, Regina, Ont. Typewriter \$20.00
- Ernest Fisher, Montreal, Que. Seven Jeweled Watch \$10.00
- Helen Smith, Edmonton, Alta. "Kodak" Folding Camera. 40.00
- Beatrice Hughes, Hamilton, Ont. "Kodak" Folding Camera. 35.00
- Lyle Benson, Hamilton, Ont. "Kodak" Folding Camera. 35.00
- Helen Bessech, Regina, Alta. Magnetic Gold Watch and Chain. 25.00
- Flourne Neblitt, Amherst, Ont. "Kodak" Folding Camera. 35.00
- Bryden Foster, Lethbridge, Alta. "Kodak" Folding Camera. 35.00
- Frankie Kirby, Three Hills, Alta. \$25.00 Eastman Kodak
- Mary Proctor, Vancouver, B.C. \$10.00 Bracket Watch
- Eva Cannon, North Bay, Ont. \$10.00 Doll and Carriage

The contest will close on June 30, 1921, at 5:30 p.m. Only boys and girls 17 years of age and under may send answers, and each boy and girl will be required to perform a small service for us. Send your answers this very evening to:

### SCIENCE SEEKS PHTHISIS VIRUS

Pasteur Experts Believe They  
Are On Right Track—To  
Experiment On Apes.

PARIS, March 25.—For the last year servants at the Pasteur Institute in France have been making important experiments toward the perfection of a vaccine against tuberculosis.

Professor Calmette of the institute in discussing the results of his research work, recently admitted that up to the present time the institute has not been able wholly to shield humanity against tuberculosis.

Much Work to be Done. "Laborious experiments are still necessary to complete our research work," he declared. "So far we have found that it is possible by cultivating the Koch bacillus in certain nutritive media to modify its characteristics. This bacillus, cultivated in successive series on glycerine media containing bile, although it goes on living and is capable of reproduction, loses its property of infecting man or beast with tuberculosis.

Inoculation of cultures of these bacilli into a human organism is harmless. It realizes bacillary infection, but does not produce tuberculosis. This tuberculous infection, non-virulent and harmless, develops in the organism a particular state of resistance to subsequent virulent infection, whether due to artificial inoculation or prolonged association with tuberculous animals. "In other words, in our test animals, more particularly in young bovines, virulent bacilli are tolerated or thrown out without producing tubercular lesions. This bacillus cultivated on bile media behaves then like true vaccine. That is where the matter stands today. It is easy to understand these facts, and they mark an important progress along the road to anti-tubercular vaccination."

To Experiment on Apes. In order that new progress leading to human vaccination may be realized, Professor Calmette thinks that it is indispensable to undertake experiments in big anthropoid apes, such as the chimpanzee, whose extreme susceptibility to tuberculosis is well known. But these experiments can only be carried out in the native country of the apes.

The professor is now planning to create a special laboratory in French Guiana. The governor-general of French West Africa has offered the Pasteur Institute the country's full resources but not enough financial backing has been realized to organize and maintain a permanent scientific mission, which will have to conduct experiments on the spot.

### RIVER FULFILLS INDIAN'S CURSE

Mississippi Sweeping Away  
Last Vestige of Kaskaskia  
As Told in Legend.

Springfield, Ill., March 25.—For forty years, since the waters of the Mississippi River washed away the last vestige of Kaskaskia, the first capital of Illinois, leaving a narrow island of rich alluvial soil at the mercy of the stream, the superstitious folk have seen in the gradual destruction of "The Narrows" fulfillment of the prophecy of an old Indian legend, wound about the story of an Indian's love for a white woman.

When a tall, handsome young chief of Kaskaskian Indians pronounced a curse upon the place 200 years ago, Kaskaskia was a flourishing little village, with splendid ambitions, situated on a peninsula at the junction of the Kaskaskia and Mississippi Rivers. In 1811 nature violently demolished her handiwork at the former outpost of civilization, and Kaskaskia was ravaged by flood. The peninsula was cut away, leaving a remnant of the old town on the island which is gradually disappearing.

When the last trace of land has sunk beneath the waters and the phantom streets of the old trading post are on the muddy bottom in the centre of the Mississippi, the "Curse of Kaskaskia" will have been fulfilled in its last detail. The young chief prophesied the total destruction of the site within 200 years. Jean Bernard came from France in 1699 with his wife and 10-year-old daughter Marie, so the legend runs. They settled in Kaskaskia, Marie blossomed into maidenhood, and her beauty in the full bloom of womanhood was amous.

A young chief of the Kaskaskians, converted by Jesuits and educated, went to Kaskaskia and set himself up as a trader. He prospered. One night at last he met Marie Bernard. The girl was fascinated, and with the Indian it was love at first sight.

When the last trace of land has sunk beneath the waters and the phantom streets of the old trading post are on the muddy bottom in the centre of the Mississippi, the "Curse of Kaskaskia" will have been fulfilled in its last detail. The young chief prophesied the total destruction of the site within 200 years. Jean Bernard came from France in 1699 with his wife and 10-year-old daughter Marie, so the legend runs. They settled in Kaskaskia, Marie blossomed into maidenhood, and her beauty in the full bloom of womanhood was amous.

HOW FAMOUS HYMN WAS WRITTEN.

"Lead, Kindly Light" was written in 1832, while Cardinal Newman was exploring the coasts of the Mediterranean in an orange boat. He gave the following explanation of the circumstances: "I was aching to get home; yet, for want of a vessel, I was kept at Palermo for three weeks. I began to visit the churches, and they calmed my impatience, though I did not attend any of the services. At last I got out in an orange boat, bound for Messina. Then it was that I wrote the lines, 'Lead, Kindly Light.' We were scolded a whole week in the Straits of Bonifacio, I was writing the whole of my passage."

When the popularity of the hymn was mentioned later, he said: "But, you see, it is not the hymn but the tune that has gained the popularity. The tune is by Dykes, and Dr. Dykes was a great master. The words of this famous hymn first appeared in 'The British Magazine' for March, 1834."

### MUMMIES' AURAL RAYS IN ART MUSEUM STOP SOPHIA'S SPIRIT TALK ON HIGHER MYSTICISM

CHICAGO, March 25.—The evil aura that emanates from Egyptian mummies in the Art Institute offended the occult sense of Mrs. Sophia Fairclough-Smith of London yesterday and reaching the seclusion of her suite at the Elizabethan she announced that it would be possible for her to deliver her lecture on "The Higher Mysticism" in a place where the spirit rays are brown. Instead she will speak Monday in the Elizabethan room or the Congress Hotel where an examination proved the rays to be an intellectual blue.

Brown spirit rays, Mrs. Fairclough-Smith explained, are evil and in the case of the mummies are the curse of the ancient Egyptians placed upon all who should touch his body after death. For thousands of years these auras have remained with the mummies, leaving an unwholesome effect upon sightseers who view the exhibits. And it is a mistake to store them in a building otherwise beautiful and crowded with the sunshine of art, she declared.

### COOLIES BANNED BY ARGENTINA

Penniless Japanese Farmers  
Rejected—Wealthy Businessmen Welcomed.

BUNEOS AYRES, March 25.—It has been stated that the Argentine Government was approached some time ago as to the attitude it would take toward the colonization of Argentine farm lands by Japanese farmers. It was planned that thousands of small farmers and poor laborers should be brought to this country from Japan, the deliveries to be made by the Osaka Shosen Kaisha steamers, just as the Nippon Yusen Kaisha steamers are now delivering between 5,000 and 6,000 Japanese immigrants in Brazil every year.

Argentina frankly told Japan that its coolie immigrants were not wanted, and that Argentina would not look with favor upon an attempt to unload on Argentine territory penniless coolies or poor farmers without any means of taking care of themselves. Japan was told, however, that this country would welcome the arrival of any Japanese who brought capital with them, either to put into business in Argentine cities or to buy and operate farm lands.

Appeals to Europeans. It is significant that the offer of the Japanese farm hands was rejected just at the time that Argentina was endeavoring to attract European farm hands to this country, whether they had any funds or not, the governments of Spain, Italy and other European countries being told that their immigrants would be cared for upon their arrival at the expense of the Argentine Government until they were able to place them where most needed. But while these concessions were offered to European immigrants, Argentina would not permit immigrants of the yellow race to come into the

When the unpleasantness of contact with the brown rays of the mummies had passed, Mrs. Fairclough-Smith unfolded to an interviewer a spiritual plan she has for ridding Chicago of crime.

Mrs. Fairclough-Smith recommended that the city guard itself against criminals by training its detectives in psychic-sight by which they could detect the auras of the suspects. The astral world, Mrs. Fairclough-Smith stated, is not all heavenly. There are evil spirits as well. In fact, it is pretty well filled with vampires, who are constantly pulling downward, and thus the uninitiated male is not only in danger of the living vampires, but the dead ones as well, who fall upon him in an evil moment.

"I am also prophetic," Mrs. Fairclough-Smith said. "I know the war was coming two years before it happened. During the war I was out of my body the first eighteen months. I left my body and brought back reports of what was happening in Belgium."

Despite Argentina's refusal to admit coolies who might come from Japan, some effort has been made by the Japanese to bring coolies into Argentina from Peru and Brazil, and place them on Argentine land. Both Peru and Brazil are constantly pulling downward, and thought that they could then be transferred across the frontiers into Argentina.

Effort Unsuccessful. That this effort has not proven successful is plainly shown by figures just published by the Japanese consul in Buenos Ayres, following a census he took of Japanese residents in the republic. His report shows that at the end of 1920 there were only a few more than 2,000 Japanese in Argentina. The Argentine report of 1914 showed that there were at this time 1,007 Japanese in Argentina, so that the Japanese population has increased only a little over 1,000 in six years, despite all the efforts of Japanese subsidized steamship lines and Japanese colonization corporations to get coolies into Argentina.

The Japanese consul's figures also show that more than two-thirds of the Japanese in the republic are located in Buenos Ayres. Argentina frankly told Japan that its coolie immigrants were not wanted, and that Argentina would not look with favor upon an attempt to unload on Argentine territory penniless coolies or poor farmers without any means of taking care of themselves. Japan was told, however, that this country would welcome the arrival of any Japanese who brought capital with them, either to put into business in Argentine cities or to buy and operate farm lands.

### Run Down

Do you suffer from headaches, followed by fits of dizziness, and an overpowering feeling of lassitude? Do you feel drowsy, listless and irritable? Are you run down?

Then you should consider whether your kidneys are performing their functions properly. You should let Gin Pills do for you what they have done for thousands of others. Gin Pills will relieve you of your distress, by promptly assisting the kidneys to healthy action. Get a box from your druggist or dealer, 60c, with money-back guarantee if they fail to help you, or send for free sample to: National Drug & Chemical Co. of Canada, Ltd., Toronto, Ont. U. S. residents should address: Na-Dru-Co., Inc., 202 Main St., Buffalo, N.Y.

Buenos Ayres, demonstrating that so far Argentina has won in its determination not to have the country district populated by Japanese.

The efforts of Japanese businessmen to establish small stores or large export houses with their capital have not proven successful, and many of the Japanese who came to Buenos Ayres early in the war have already liquidated

their business and left the country. A Japanese weekly published here lists in its New Year special only three Japanese lazarars as being of any importance. There are also four Japanese cafes in Buenos Ayres, and one each in two or three other cities, and this appears to be all that remains of the efforts to establish Japanese commerce in Argentina.

and all who must have a great deal of tissue building material to repair the waste caused by physical and mental labor. It is delicious, pure and wholesome, and is made by a perfect mechanical process, without the use of chemicals, so preserving the exquisite flavor, aroma and color of the high grade cocoa beans.

Spring weather hard on baby. The Canadian spring weather—one day mild and bright; the next raw and blustery is extremely hard on the baby. Conditions are such that the mother cannot take the little one out for the fresh air so much to be desired. He is confined to the house which is so often overheated and badly ventilated. He catches cold; his little stomach and bowels become disordered and the mother soon has a sick baby to look after. To prevent this an occasional dose of Baby's Own Tablets should be given. They regulate the stomach and bowels, thus preventing or banishing colds, slight fevers, colic or any other of the many minor ailments of childhood. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Company, Brockville, Ont.

HEARTBURN

LIVER TROUBLE

When the liver becomes torpid, and inflamed, it cannot furnish sufficient bile to the bowels, thus causing them to become constipated. The stomach is also affected. In the case of heartburn there is gnawing and burning pain in the stomach, attended by disturbed appetite, caused by great acidity. Whenever too much food is taken, it is liable to ferment and become extremely sour, vomiting often occurs; and what is thrown up is sour and sometimes bitter.

WHAT DO YOU KNOW ABOUT CANADA?

ANSWERS TO YESTERDAY'S QUESTIONS.

- 1—The Dominion Government Employment Service was established in 1915, with clearing-houses for labor established at Halifax, Ottawa, Winnipeg and Vancouver. 2—There is no difference in the work of a Dominion experimental farm and a Dominion experimental station. The five original farms established in 1886 at Ottawa, Nappan, N. S.; Brandon, Man.; Indian Head, Sask.; and Agassiz, B. C., are called "experimental farms." Those added since are styled "experimental stations."

TODAY'S QUESTIONS.

- 1—When was the Canada Food Board dissolved? 2—How does Canada rank in silver production? 3—What was the value of Canada's 1918 tobacco exports? 4—What was the 1918 silver production of the British empire? 5—Where are four dry docks constructed and owned by the Dominion Government? 6—Which province has the greatest available water power? 7—How much larger is Canada than the United States and Alaska? 8—How many miles of railway has Prince Edward Island?

AN IMAGINARY MOON CONTROLS EASTER DATE.

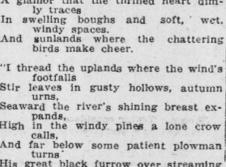

When is Easter? How would one know if he didn't have an almanac? "The first Sunday after the first Monday after the first full moon after March 21," says the old rule. But what is meant by "full moon?" For, as a matter of fact, the moon by which Easter is determined isn't the moon one sees. It isn't even the "mean moon" of the astronomers, but one that is altogether imaginary. It may happen along two or three days after the real new moon.

### BIRD NOTES

(Contributed by Melvraith Ornithological Club.)

February added nothing to the annals of the club, except Flicker on 6th, a Meadow Lark wintering by the Grand Trunk tracks near the Cove, and a Kingfisher on the 25th, possibly a spring bird.

On March 3rd, the spring birds began to arrive. Bluebird at the Cove, March 3, a single Redwing at the Cove, March 5, a single Cowbird, March 10, Fox Sparrow, whose song from the thickets east of the pump-house is one of the treats of the early spring.

March 10th, Rusty Grackle. This and the Fox Sparrow are the only two, so far, of those that never nest as far south as London. March 13, Canada Goose (arrived February 27th, from Jack Miners), but we have no such place of refuge near London, and these birds seen flying over were doubtless bound for some large marshy district in the Lake Huron country. March 16, Sparrow Hawk, Lesser Scaup Duck, Chipping Sparrow, March 20th, Phoebe, the earliest fly catcher, and the earliest rook for over 30 years. March 18, Chink, who had not been seen before, as he sometimes is. March 20, March Hawk. Total 14 species.

Last spring saw us with 70 species, March 21, so 1921 is not far behind, though there are fears that the absence of the winter visitors from the north will make the total for the year, but who thinks of winter birds when the birds are singing and bird songs fill the air? —W. E. SAUNDERS

### DON'T USE DRUGS FOR CONSTIPATION

BATHE INTERNALLY—THE ONE NATURAL WAY OF RIDDING SYSTEM OF POISONS. Chronic constipation is never cured permanently by the use of medicines, larger and larger doses being necessary to obtain even temporary relief, the consequences being a weakening of the system. Nature's own cure, just sterilized warm water, with the B. L. Cascade is the only scientific and permanent treatment for constipation. Its attendant ills—headache, indigestion, sleeplessness and loss of energy. Hundreds of Canadians every month are discontinuing the practice of drug-taking for constipation. A few minutes' reflection shows them the simple truth—the cause of their ailment, namely, clogging of the lower bowel, can be reached and corrected only by means of the internal bath. Dr. Babin, Ottawa, writes: "I have used the B. L. Cascade two years and it has made a new man of me. In reality I feel that I would not sell for all the money in this world if I could not buy another B. L. Cascade."

The J. B. L. Cascade will be shown and explained to you by the Standard Drug Company, druggists, London, who will also give you free, on request, an interesting booklet by Dr. Charles A. Tyrrell on "Why Man of Today is Only 50 Per Cent Efficient."

### Stomach Tonics

If your stomach is upset and liver out of order, bilious and constipated, take FIG-LAX

The Tonic and Pleasant Laxative, 25c and 50c. At druggists.

### Brighten Up For Spring

Your Curtains, Blankets, Portieres, and all heavy articles are well taken care of here.

Send it to the Laundry

We are in the laundry business to please you. Give us a trial and be convinced.

3881-3882-3882.

Along the beautiful St. Lawrence River and Gulf.

Short Ocean Passage. Sailings every few days.

Apply Local S. S. or Railway Agents or 1 King St. East TORONTO

## Seasonable Pointers For Farmers

### Brooding and Feeding The Baby Chicks

This Is the Crucial Part of Poultry-Raising — Some Useful Hints As To Bringing the Chicks Past the Critical Stage.

The brooding and feeding of baby chickens, whether by hen or by artificial method, is the crucial part of raising poultry. It is impossible to overstate a grower's interest in the early stages of the chick's life. The more good food they can be induced to eat the better the growth, and the better the growth the earlier maturity and egg yield.

**NATURAL INCUBATORS.** If the chicks are to be brooded by the natural method they should be allowed to remain in the setting nest with the hen until they are lively and seem inclined to get out themselves. The hen should be treated with a little blue (mercuric) ointment smeared on the feathers of the abdomen and under the wings. It is advisable to use ointment at this stage; powder is likely to get in the chicks' eyes.

An A-shaped coop with removable bottom is to be recommended on account of its simple and cheap construction. It should be used with the bottom in place and slightly raised from the ground in the early spring months. When the weather becomes warmer and the ground thawed out, they are better used without bottoms, but the coop must be moved to fresh ground daily.

**ARTIFICIAL METHOD.** The most successful and economical artificial system of brooding is the colony stove. It can be quickly set up in a colony house or in an idle pen of the laying coop. The space inside will be found most suitable and will accommodate any number of chicks desired up to 500.

**HOW TO REMOVE FROM BROODER.** In April and early May, artificial heat will probably be required for six weeks; later it can often be dispensed with in three weeks. It entirely depends on the weather and temperature.

If your chickens are without heat and you get a sudden drop in temperature with cold rain, it will be advisable to start up the stove again and dry off the chicks. It is at a time like this that the chicks grow and another chill and catch cold.

Always keep a short piece of inch-mesh wire across the corner of the room to prevent jamming and tramping of the weakest.

**THE ECONOMY OF HOME-MIXED FEEDS.** The rather striking results obtained are indicative of what had been shown in routine test work with feeds at the Experimental Farm for years. The rather striking results obtained are indicative of what had been shown in routine test work with feeds at the Experimental Farm for years.

perment increased over one-half pound per pig per day.

The single grain ration. But the fact is clear that the man who has at his disposal a "ready-mixed" ration requiring the addition only of some of the standard wheat by-products and a few other ingredients, is in a position to produce more productive mixture on his own feeding floor, than can be bought in the fancy stores.

### Bacon Type of Hog Popular in Canada

Future Markets Will Favor the Long-Bodied Animal—Yorkshire and Berkshire Breeds Produce Right Kind of Meat.

The wholesale price of heavy bacon of standard grade is 50 per cent cheaper than very light, fancy bacon.

This extract from a review of February trade conditions in the hog and pork industry is highly significant to Canadian hog breeders and farmers.

The full statement made by the Institute of American Meat Packers is worth consideration, notably because of the frequent reports that lard-type hogs are being raised in Canada.

### WHERE MEN ARE INFERIOR TO WOMEN

Near the city of Ishinomaki, in Japan, is a settlement in which women's rule may be said to be complete.

The wives support the husbands and children and are the acknowledged heads of the family. The men keep house and do other work that usually is performed by women.

This condition of affairs is due simply to the fact that the women are more proficient in the chief industries of that vicinity than the men.

The settlement is on Seihai Bay, where pearl shells are abundant and are taken from the bottom of the sea.

These women pearl-divers think nothing of working at their task five, ten hours a day, remaining for two or three minutes at a time below the surface of the water.

The birth of a boy is considered bad luck, while great rejoicing marks the arrival of a baby girl. Men are regarded as inferior in every sense.

### I KNOW A WOMAN'S SUFFERINGS

I am a woman. What I have suffered is a far better guide than any MAN'S experience gained second-hand.

I know your need for sympathy and health, and the treatment that gave me health and strength, new interest in life, I want to pass on to you, that you, too, may enjoy the precious boon of health.

Are you unhappy, unfit for your duties? Are you suffering from low vitality? Do you feel that life is not worth living? I invite you to send for my complete ten day treatment. It is entirely free and postage paid. Remember it costs you nothing to give my method of home treatment a complete ten day trial. If you wish to continue, it costs only a few cents a week to do so, and it does not interfere with your usual work. A lady who used asking for "Write for the free treatment booklet." Tell me if you are worried about your health. Remember it costs you nothing to give my method of home treatment a complete ten day trial. PHOTOPLAYS AND VAUDEVILLE

What's Doing at the Local Playhouses

MUSIC AND DRAMA

When society enters the film—Scene from D. W. Griffith's "Way Down East" showing Miss Florence Short, Mrs. Morgan Belmont and Miss Dorothy Bernard. At the Grand Easter week commencing Monday evening at 8:15.

The week, with daily matinees at 2:15 p.m., and in such form elaborated to an unusual extent by D. W. Griffith, makes the retelling of the tale at once interesting and, perhaps, even timely to the theatergoer who practically knows the play by heart. Mr. Griffith has extended the original story, has added to it and thrown about it a myriad of striking scenes and spectacular episodes, all of which give an excuse for a synopsis, at least as presented by the master producer of screen classics. In this connection it may be well to emphasize the scenes and incidents that the motion picture producer has found lacking in the original work.

The famous ball-room scene in "Way Down East." This elaborate scene, with Lowell Sherman and Lillian Gish in the foreground, is a spectacular feature of the big D. W. Griffith production coming to the Grand all next week with daily matinees.

ers will have an opportunity to view this versatile actor's work from an entirely new angle when the picture opens for a three-day run next Monday. Not only does he go smashing and crashing through five reels of complicated comedy-drama, but he portrays emotion that has a heart touch in it. The trend of the story carries him from the sublime to the ridiculous, and although much that he does is grotesque there is never a time, it is said, when he does not win your sympathy with his antics.

The vaudeville embraces Paul and Pauline in a novel aerial turn, Eugene Emmett, the Dublin Minstrel, and Bryant and Stewart, the two Gentlemen Jesters.

BERT LYTELL AT LOEW'S NEXT THURSDAY IN "THE MISLEADING LADY."

In "The Misleading Lady," which comes as the feature attraction at the Loew Theatre, for a run of three days, beginning Thursday next, local motion picture patrons will be treated to a screen version of the notable play. More than that, they will see Bert Lytell, that versatile and gifted young actor, who has won an undisputed niche in screendom. He has the dazzling role of Jack Craigen, the confirmed woman-hater, whose first appearance in Ottawa New York after a stay in South Africa brings with it his complete surrender to beautiful Helen Steele. Only after he has made his avowed does Craigen learn that she made him propose to prove her fitness for a leading part at a millionaire's "little theatre." Infuriated by such treatment, Craigen abducts her to his hunting lodge and proceeds to a brusque wooing, which begins with the lady chained, and ends in a breathless episode in which he wins against the claims of Helen's fiancé.

The vaudeville bill will include George Gifford in foot feats and sayings; Chic and Tilly Harvey in smiles, tunes and originalities, and the Royal Harmony Five, society soloists, in a song revue of classic and popular successes.

LOEW'S TO SHOW NEW SPRING MODES—EIGHT CHARMING MODELS WILL DISPLAY NEW SPRING STYLES AS DECREED BY DAME FASHION.

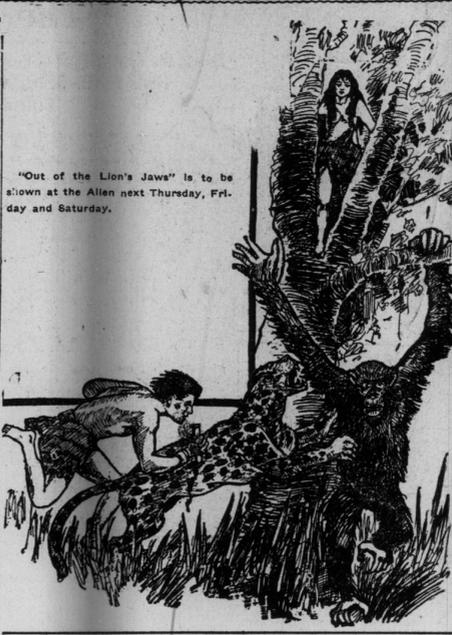

Monday, Tuesday and Wednesday next will undoubtedly be days of keen interest to feminine patrons of Loew's Theatre, when the Raphael-Mack Company will stage a fashion revue. It will be an authentic and gorgeous exhibition of new springtime modes as decreed by Dame Fashion, and eight charming models will sport themselves in the natty new wearables for 1921.

All in all the revue will enlighten milady of London as to the new and authentic styles for spring and summer wear, 1921. It will be an unusual event, partly due to the unique method of placing the new models on display.

AT LOEW'S. DOUGLAS FAIRBANKS, IN "THE NUT" AT LOEW'S MONDAY, TUESDAY AND WEDNESDAY.

In "The Nut," Douglas Fairbanks' fifth production, the star has a vehicle that is absolutely made to order. It is not pictured from some widely-read book or famous stage play, but is an original story.

The management of the Loew Theatre announces that Fairbanks' admir-

"Out of the Lion's Jaws" is to be shown at the Allen next Thursday, Friday and Saturday.

WHAT'S DOING AT THE LOCAL PLAYHOUSES

AT THE GRAND. TODAY, TONIGHT—"Up in Mabel's Room," with entire New York east end production.

EASTER WEEK—Commencing Monday evening, daily matinees commencing Tuesday—David Wark Griffith's master picture of Lillian Gish, "Way Down East," with famous symphony orchestra of twenty artists.

AT THE ALLEN. TODAY—Daily show at matinee. First episode of "Son of Tarzan," entitled "The Call of the Jungle"; Hobart Bosworth in "His Own Law," and Christie Comedy, "Homespun Hero."

MONDAY, TUESDAY, WEDNESDAY, THURSDAY—First National Special, "The Woman in His House"; Rollin Comedy, "Paint and Powder," Allen News, Overture.

THURSDAY, FRIDAY AND SATURDAY—Second episode of "Son of Tarzan," entitled "The Call of the Jungle"; Hobart Bosworth in "His Own Law," and Christie Comedy, "Homespun Hero."

What the Press Agents Say About the Shows

AT THE GRAND. A. H. WOOD'S LAUGHING FARCE, "UP IN MABEL'S ROOM," AT THE GRAND TWICE TODAY. One of the brilliant theatrical events of the current season is the engagement of A. H. Wood's production, "Up in Mabel's Room," the sensational New York farce success, which delighted capacity audiences at both performances at the Grand yesterday.

THE STORY OF "WAY DOWN EAST," AT THE GRAND ALL NEXT WEEK. Ordinarily it would appear unnecessary to tell the story of "Way Down East," the play having been shown each season for the last twenty-two years, but the fact that it is to be presented in photo drama form at the Grand for the first time, beginning on Monday night, and continuing the en-

MR. BERT LYTELL AT "THE MISLEADING LADY" Feature photoplay attraction at Loew's Theatre next Thursday, Friday and Saturday.

and I want to see how things are going. And do you know that he took the very next train back to New Hampshire and to the farm."

AT ALLEN'S. "WOMAN IN HIS HOUSE," FOUR DAYS AT ALLEN'S, BEGINNING MONDAY.

"The Woman in His House" is coming to the Allen Monday, Tuesday, Wednesday and Thursday. Was she a wife to be loved, or just a woman in his house, an ornament of surpassing beauty to brag about, in a setting of mansions, or a mate in the true sense of the word, sharing his troubles and triumphs? He a great musician, absorbed in his march to fame, she a lovely, lonely woman, and gradually they drifted apart.

SECOND EPISODE OF "SON OF TARZAN," ENTITLED "OUT OF THE LION'S JAWS."

The first episode of that wonderful jungle serial, "The Son of Tarzan," was sure interesting and thrilling enough to satisfy everyone, but the second episode, entitled "Out of the Lion's Jaws," is said to be even more thrilling, to have more exciting scenes, than the first.

GETTING THINGS RIGHT—PICTURE DIRECTOR TOOK INFINITE PAINS TO PREPARE "WAY DOWN EAST."

"One reason for the great expense," said Lillian Gish, in speaking of the \$500,000 that was spent by D. W. Griffith on "Way Down East" was in Mr. Griffith's insistence upon getting just the right sort of interiors. He was just as insistent, let me say, in getting exteriors that should typically represent New England in spring, summer, autumn and winter, but for the interiors of the house that was used and for the barn scenes months of time were spent.

"It was a funny thing about the man you will see in the barn dance, cutting caps and having apparently a wonderful time. He really enjoyed himself completely. He is from New Hampshire and he has the reputation in his home town of being the best dancer for miles around. He was so interested in the filming of "Way Down East" that he came all the way from his home to Mamaronck to the studio. He was shown all through the grounds and buildings, and then he was asked whether he had ever been in New York. He admitted that he was making his first visit to any place in the vicinity of the metropolis and that he had never been in Manhattan. Of course it was suggested that he could be taken for an automobile ride into town. 'No,' was his response. 'I don't think I want to see the town.' 'Why,' someone said, 'it will not take you long, and you are not likely to come back here.' 'That's so,' he commented, 'but if it is all the same to you, I think I'll go straight back to my home in New Hampshire.'"

"The Woman in His House," showing at the Allen Monday, Tuesday, Wednesday and Thursday.

ALLEN CONTINUOUS PERFORMANCES from 1 until 11. "LET'S GO." MONDAY, TUESDAY, WEDNESDAY, THURSDAY The Utmost in Entertainment. The Great First National Special. THE WOMAN IN HIS HOUSE A wonder play of love that girdles the earth. It will open the flood-gates of your tears and dam them up with joy and laughter. EXTRA ADDED ATTRACTIONS Vaudeville—Herbert Henley, celebrated tenor, in a song revue, featuring "BLUE JEANS." Rollin Comedy—"Paint and Powder." Overture selection of popular airs, featuring "Blue Jeans"—by famous Allen Concert Orchestra. THURSDAY, FRIDAY AND SATURDAY "The Son of Tarzan" Second Episode, "Out of the Lion's Jaws." More thrilling, greater adventures, than the first, and packed with scenes of fights and sensations, with Lions Tigers Elephants Giant Apes Be Sure the Children See It. Come Yourself. FRIDAY AND SATURDAY WILL ROGERS The Famous Ziegfeld Follies Boy, in a screaming comedy of youth and fun and love, "BOYS WILL BE BOYS," assisted by beautiful Irene Rich. COMING—"MAN, WOMAN AND MARRIAGE"—COMING

### REBORN MEXICO PASSING CRISIS

Solution of Nation's Problem Lies With U. S., Says Senor Magon.

NEW YORK, March 25.—What of the republic to the south of us, which, in recent years, has given us such trouble? Has Mexico really settled down to reconstruction and the start of a new era? The government in power there says she has. Senor Jesus Flores Magon, one of the nation's most distinguished lawyers, a senator, once assistant secretary of justice and later secretary of subernation, now in New York, is hopeful. He is of those Mexicans believing that his nation's hope lies in close American co-operation, and he has a plan whereby he thinks the new American administration might bring this about without offence, expense or serious effort.

"Is Mexico recovering?" I asked.

"She is, although one must not ask too much too quickly of a convalescent," he replied.

"Would it have been better if we had intervened?"

"His faith in United States.

"If you had intervened it would have been a world disaster," said Senor Magon. "Mexico and Latin America generally now trust and admire you. Had you intervened it would not be so."

"Now Mexico believes in you. She has no real bitterness for anything which may have happened; she regrets some of her own mistakes; she has confidence in and hope of the incoming administration. That administration easily can save Mexico and clear the entire situation.

"I am not exaggerating in the least when I declare that mentally my country has been reborn. It wants no more of violence. It wants peace, it wants no more destructionists. It wants builders.

"And the solution of the problem lies in the hands of the people and the president of the United States. Mr. Harding can help Mexico to become a nation among nations.

"Our military revolution has come to a finish; our social revolution has but commenced. There are revolutions not of violence, but of the soul. The days of physical fighting have gone by in Mexico, if but a little wisdom be habitually on the sides of the international boundary.

"Going to have Nation.

"We are going to have a nation; we are going to have a rich and splendid nation. Having made a mess of things we propose now to make a glory of them.

"The methods of the government of Diaz made the social revolution necessary. Diaz was a genius, but he knew little history. A permanently successful ruler must know history, for he must know humanity, what it craves and what it will not permanently endure.

"Madero's weakness was his doom. Then came the Indian, Huerta, with reactionary thoughts, at a time when men with the good new ones were not ready to propose them and enforce them, but when any man who had nothing beyond the bad old ones was certain to perish. Huerta perished rather promptly.

Written in Blood.

"Then came Carranza, militarist, another dictator, and from the day of his appearance the revolution, which had been but half-and-half, became brutal, violent and devastating. The maxims in his copybooks were written in red blood.

"Carranza, a man of actual talent, but very selfish and not honest, had promised to the people the restoration of the constitution of 1857. He broke his promise absolutely. The period of Carranza was perhaps the saddest in my country's history.

"I may be pardoned, possibly, for recommending Chamberlain's Cough Remedy.

350 and 650

### CHAMBERLAIN'S

The Mother's Favorite

A cough medicine for children should be harmless. It should be pleasant to take. It should be effectual. Chamberlain's Cough Remedy is all of this—it is an honest, dependable medicine and is the mother's favorite everywhere. Keep Chamberlain's by you—it is a real friend in need.

350 and 650

### COUGH REMEDY

Oakey's Emery Cloth, Glass, Flint and Garnet Papers in Sheets and Rolls

Genuine Emery "Wellington" Knife Polish

SILVERSMITHS' SOAP, PLATE POWDER, ETC.

John Oakey & Sons

WELLINGTON MILLS, London, S. E. (1), England.

### CUTICURA HEALS RASH ON CHILD

On Body and Face, Red and Itchy, Cried for Hours, Lasted a Year.

"A rash started all over my little girl's body, and she had some on her face. It started in a pimple that was full of water, and it got red and itchy. She cried for hours. This trouble lasted a year.

"Then I started with a free sample of Cuticura Soap and Ointment. I bought more, and I used four cakes of soap and three boxes of Ointment which healed her. (Signed) Mrs. Dora Langley, 1032 Gertrude St., Verdun, Que., August 11, 1918.

The Cuticura Toilet Trio Consisting of Soap, Ointment and Talcum is an indispensable adjunct of the daily toilet in maintaining skin purity and skin health.

See 25c. Ointment 25c. Soap, Sold throughout the Dominion, Canadian Depot, Toronto, Ontario, 1032 Gertrude St., Montreal, Quebec. Cuticura Soap without cost.

### "SILENT PANIC" GRIPS CHINESE

Engineer Says the Famine-Stricken Victims Wander Aimlessly Till They Die.

NEW YORK, March 25.—A graphic description of famine scenes in China, an explanation of their cause and outline of methods of relief is given by Charles Davis Jameson, who has been a civil engineer in China since 1895 and for the last ten years has been connected with the Department of Famine and Food Control of the Chinese Government.

"A silent panic" spreads rapidly over the famine-stricken area when the people realize that danger of starvation is upon them. "All the people, when hunger sets in and the food is all gone, the wandering and aimless definite point, but to any place which changes the scene of their misery," he adds.

"Business is at once paralyzed. When I passed through the famine district there was not a cart of any kind in the roads or streets. Not a horse or wagon of the Yantze River from market. It was as if a great fear were over the whole country and the people were holding their breath and waiting for the end. None but the starving or sick are seen in the streets at such a time. Famine fever breaks out in every town and city.

Victims Wander Away to Die.

"Outside the walls of the towns and on the highways are emaciated, half-demented men, women and children going anywhere, sometimes with a few belongings which they cannot sell. Some may carry bowls or baskets containing leaves, twigs, straw or bark to eat. The people who are left are stripped of their bark and dying. The people walk until they can walk no more and then sit down and die. Their bodies in the highways or at the roadside and the fields—men, women, children and babies, are seen lying along the roads, prowl, starve, dogs, fierce as wolves—gaunt, hungry, devouring what lies in their way."

The natural causes of famine in China are droughts and floods. The Yangtze River is the main source of water for the country and the rainfall is fairly regular, but north of the river the rainfall is not so regular and the rainfall is subject to great variations. Some times the rain is so heavy that the grain is washed away and the harvest is lost, but some times the rain is so light that the grain is not actually under water becomes one vast swamp.

Transportation Primitive.

More than four-fifths of the transportation of China is accomplished by hundreds of thousands of two-wheeled carts pulled by mules, horses, donkeys, men, wheel-barrrows and boats along the great rivers and canals. The carts are loaded with goods and the men have fallen upon millions of Chinese is due to no lack of industry for they are the "most remarkable" men in the world, although their methods and tools are much the same as those used in Egypt in the time of the pharaohs. In this work the missionaries lend efficient aid, he says.

The famine areas of Chihli and Shantung are relatively easy of access, but in the less accessible provinces of Szechuan, where the famine area is widespread, the roads are so bad that relief is almost impossible. The number of fatalities may run into the millions. In Chihli and Shantung, the conditions are said to "be a regular hell."

Search Carried Far.

Mrs. Michael has carried her search far, and here and there has found traces of "Big Mike" as his "buddies" know him, which filled her with tearful pride. But also she found conflicting accounts in the official record of his death and burial and strange reports at hospitals where she visited a patient long treated and whose description tallied closely with that of her son, but who was known as "Big Tom Hinnegan."

"Big Tom" too has vanished, and until she has found him, Mr. Michael will not discard the hope that he may be her son. His identity lost in the crash of the bullet that scarred his head.

"Boys who fought with 'Big Mike' told his mother of the great 'hike' in France when man after man tumbled over from exhaustion, and finally 'Big Mike' himself went down in a jangling pile. When they examined him, they found the rifles and equipment of a squad of men strung about his huge frame, carried to ease weaker comrades.

They told her, too, of the night when a bullet struck him down, but here there was a difference in the tale that set the mother's heart strings fluttering anew. Some of them said, "Big Mike" had lain two days under a blanket there in the heat of the battle, given up for dead. But later signs of life were seen and he went back on the weary road to the hospital.

At one hospital officials thought they recognized a photograph of "Big Mike" shown by the eager mother. Mr. Michael, "Big Tom," who also had stopped a bullet with his head. It was "Big Tom," they said, who wrote endlessly to his mother, but knew not where to send the letters.

In Washington kindly officials porred over the records to aid the search. They found a queer tangle, showing that "Big Mike" apparently had been twice buried by regimental chaplains. Once in the honor graveyard at Compost and once again at Meuse. There was a difference, too, in identification numbers, and the mother came home, weary, dejected, but still with high hope in her heart that time would give back her son.

TOLSTOY'S TRIBUTE TO DICKENS.

Maxim Gorky has published some jottings from his notebooks of talks with Leo Tolstoy towards the end of the old man's life, and among them there is a curious appreciation of Charles Dickens. Tolstoy said of him: "Dickens has expressed a remarkable thought. He says life was given to us to be valiantly defended to the last breath. He was on the whole a sentimental and loquacious writer of mediocre intelligence. But he knew better than anyone how to put a novel together. He certainly did it better than Balzac. Both writers have left a number of badly written books, and yet Balzac had genius."

But also she found conflicting accounts in the official record of his death and burial and strange reports at hospitals where she visited a patient long treated and whose description tallied closely with that of her son, but who was known as "Big Tom Hinnegan."

"Big Tom" too has vanished, and until she has found him, Mr. Michael will not discard the hope that he may be her son. His identity lost in the crash of the bullet that scarred his head.

"Boys who fought with 'Big Mike' told his mother of the great 'hike' in France when man after man tumbled over from exhaustion, and finally 'Big Mike' himself went down in a jangling pile. When they examined him, they found the rifles and equipment of a squad of men strung about his huge frame, carried to ease weaker comrades.

They told her, too, of the night when a bullet struck him down, but here there was a difference in the tale that set the mother's heart strings fluttering anew. Some of them said, "Big Mike" had lain two days under a blanket there in the heat of the battle, given up for dead. But later signs of life were seen and he went back on the weary road to the hospital.

At one hospital officials thought they recognized a photograph of "Big Mike" shown by the eager mother. Mr. Michael, "Big Tom," who also had stopped a bullet with his head. It was "Big Tom," they said, who wrote endlessly to his mother, but knew not where to send the letters.

In Washington kindly officials porred over the records to aid the search. They found a queer tangle, showing that "Big Mike" apparently had been twice buried by regimental chaplains. Once in the honor graveyard at Compost and once again at Meuse. There was a difference, too, in identification numbers, and the mother came home, weary, dejected, but still with high hope in her heart that time would give back her son.

TOLSTOY'S TRIBUTE TO DICKENS.

Maxim Gorky has published some jottings from his notebooks of talks with Leo Tolstoy towards the end of the old man's life, and among them there is a curious appreciation of Charles Dickens. Tolstoy said of him: "Dickens has expressed a remarkable thought. He says life was given to us to be valiantly defended to the last breath. He was on the whole a sentimental and loquacious writer of mediocre intelligence. But he knew better than anyone how to put a novel together. He certainly did it better than Balzac. Both writers have left a number of badly written books, and yet Balzac had genius."

### "SILENT PANIC" GRIPS CHINESE

Engineer Says the Famine-Stricken Victims Wander Aimlessly Till They Die.

NEW YORK, March 25.—A graphic description of famine scenes in China, an explanation of their cause and outline of methods of relief is given by Charles Davis Jameson, who has been a civil engineer in China since 1895 and for the last ten years has been connected with the Department of Famine and Food Control of the Chinese Government.

"A silent panic" spreads rapidly over the famine-stricken area when the people realize that danger of starvation is upon them. "All the people, when hunger sets in and the food is all gone, the wandering and aimless definite point, but to any place which changes the scene of their misery," he adds.

"Business is at once paralyzed. When I passed through the famine district there was not a cart of any kind in the roads or streets. Not a horse or wagon of the Yantze River from market. It was as if a great fear were over the whole country and the people were holding their breath and waiting for the end. None but the starving or sick are seen in the streets at such a time. Famine fever breaks out in every town and city.

Victims Wander Away to Die.

"Outside the walls of the towns and on the highways are emaciated, half-demented men, women and children going anywhere, sometimes with a few belongings which they cannot sell. Some may carry bowls or baskets containing leaves, twigs, straw or bark to eat. The people who are left are stripped of their bark and dying. The people walk until they can walk no more and then sit down and die. Their bodies in the highways or at the roadside and the fields—men, women, children and babies, are seen lying along the roads, prowl, starve, dogs, fierce as wolves—gaunt, hungry, devouring what lies in their way."

The natural causes of famine in China are droughts and floods. The Yangtze River is the main source of water for the country and the rainfall is fairly regular, but north of the river the rainfall is not so regular and the rainfall is subject to great variations. Some times the rain is so heavy that the grain is washed away and the harvest is lost, but some times the rain is so light that the grain is not actually under water becomes one vast swamp.

Transportation Primitive.

More than four-fifths of the transportation of China is accomplished by hundreds of thousands of two-wheeled carts pulled by mules, horses, donkeys, men, wheel-barrrows and boats along the great rivers and canals. The carts are loaded with goods and the men have fallen upon millions of Chinese is due to no lack of industry for they are the "most remarkable" men in the world, although their methods and tools are much the same as those used in Egypt in the time of the pharaohs. In this work the missionaries lend efficient aid, he says.

The famine areas of Chihli and Shantung are relatively easy of access, but in the less accessible provinces of Szechuan, where the famine area is widespread, the roads are so bad that relief is almost impossible. The number of fatalities may run into the millions. In Chihli and Shantung, the conditions are said to "be a regular hell."

Search Carried Far.

Mrs. Michael has carried her search far, and here and there has found traces of "Big Mike" as his "buddies" know him, which filled her with tearful pride. But also she found conflicting accounts in the official record of his death and burial and strange reports at hospitals where she visited a patient long treated and whose description tallied closely with that of her son, but who was known as "Big Tom Hinnegan."

"Big Tom" too has vanished, and until she has found him, Mr. Michael will not discard the hope that he may be her son. His identity lost in the crash of the bullet that scarred his head.

# New Medical School Nears Completion; Best in America

Planned and Constructed Entirely by Local Talent—Cost in Spite of High Prices Has Been Remarkably Low—Many Unique Features Included in Building—Ready for Occupation in a Month's Time.

What may be described as a semi-inspection of the Western University's new medical school building, located on Ottawa avenue, at the corner of Waterloo street, took place yesterday morning when Philip Pocock, chairman of the medical committee of the university, and E. V. Buchanan, general manager of the public utilities' commission, accompanied by representatives of the local papers were escorted through the building and its many unique features by Dr. P. S. McKibben, B.S., Ph.D., professor and chief of the department of anatomy, who has been responsible for the building and its equipment. Dr. Pocock, who has supervised the very complete and modern equipment with which the school is supplied in all its several departments, and Dr. Buchanan, who has supervised with outstanding success the general construction work.

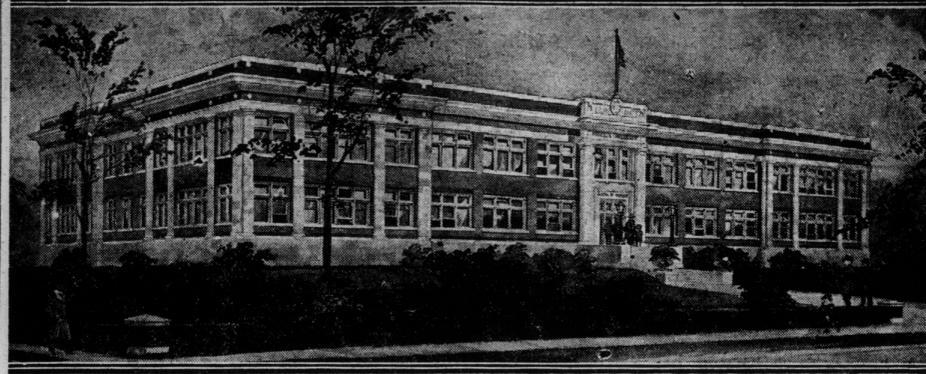

Viewed from a point facing the main entrance on Ottawa avenue, the building, while not ornate, presents a substantial and dignified appearance quite in keeping with the important part it is undoubtedly destined to play in the safeguarding of the health of the people of Western Ontario, and in the promotion of the professions of medicine and surgery. The main front of the building stands somewhat above the ground level on Ottawa avenue with the rear part of the building and its two stories and basement in height gives the structure an imposing effect.

For 350 students, the building will accommodate between 300 and 350 students, or about double the number at present registered in the medical school department of the Western University. Two of the professors have already moved to the new building and it is expected that everything will be ready for the transfer of all departments of the school from their present quarters to new premises within the next month.

While no definite arrangements have as yet been made it is expected that a grand formal opening will take place sometime this summer, the ceremony being in the hands of some well-known public man.

A unique feature brought out by the

## London's Splendid New Western University Medical School

This elaborate structure, built according to the latest ideals in collegiate architecture, will be ready for occupation within a month's time. Accommodation will be available for approximately 350 students. The date of the formal opening is now under consideration, and some classrooms are already in use.

near approach of the completion of a building commenced in the latter part of October, 1919, and carried through with success during a period when labor was scarce and all prices at their peak is that it has been brought to a successful issue, which promises to make it one of the show places of the city, at a cubic foot cost very considerably below that of other public buildings in London and elsewhere.

**Lowest Cost.**

The cost of the building and its equipment, with the exception of ordinary furnishings, it was stated today, has been only 25 cents per cubic foot, while the cost of the Children's Hospital, according to contract, will be 60 cents per cubic foot, and the cost of the city schools, according to estimate figures, 45 cents per cubic foot.

The construction of this new unit in the progress of the city, the Western University and of Western Ontario has been carried out by local talent, the designs and specifications being prepared by Watt & Blackwell, local architects, and the contractor being John Fetherough, who with the work has been brought about and supervised by the following committee appointed by the university: Philip Pocock, chairman; Arthur Little, president of the board of governors; the late Dr. H. A. McCullum, Dr. E. A. McKibben, Dr. W. B. Waugh, T. J. Murphy and C. R. Somerville. In January, 1919, the citizens sanctioned a grant of \$100,000 to the medical school.

The west wing and front are occupied by the departments of physiological chemistry and pharmacology, while the east wing and front are occupied by the departments of physiology and anatomy, in connection with which is a large morgue for the care of the cadavers. A portion of the spacious roof, a large part of which may be converted into a roof garden, is occupied by the animal house, cages and open-air runs for the accommodation and care of animals needed in the study of biology, etc.

In the basement are located a spacious and excellently lighted reading room for students, a large lecture room, large toilet room with baths and showers, dressing and locker rooms for use in connection with the gymnasium. Here also are located the necessary shops and storerooms for the several departments, including a large machine shop, a refrigerator and ice-making room, is heated by steam radiators along the walls, and in the center of rooms with skylights by pipes carried round the wall of the skylight.

**Steam-Heating System.**

The steam-heating system consists of a low-pressure system (run at from two to five pounds gauge pressure) of direct radiation and thermoclastic valves on an open gravity return into an open receiver tank. The heat for the building is supplied from two low-pressure heating boilers each having a capacity of 110 horsepower, and equipped with Murphy mechanical stokers. In addition, a cross-connection from a small high-pressure boiler of 25 horsepower capacity supplies heat to the janitor's apartments, which comprises a suite of six rooms located in the basement, general offices and library, when the main heating system is not in use. This high-pressure boiler also heats water for domestic purposes, and supplies live steam at 25 pounds pressure for the sterilizers in the operating room, steam baths in various parts of the building, and steam supply to the experimenting tables in the different departments.

### Grandma is Their Doctor

"ON an old-fashioned bureau, in a house I know, lies a large-sized New Testament with the binding well worn, and with it a much-used old copy of Dr. Chase's Receipt Book. When the calves have the colic or the neighbor's baby the earache, 'Grandma' hands out well-assimilated advice from the Dr. Chase Book. When 'Grandma' herself feels 'run-down,' Dr. Chase's Nerve Food stands ready on the dining-room table among the salt and pepper shakers."

In these few simple words Mrs. Bert Smith, Way's Mills, Que., beautifully describes the way in which many a grandmother is tending to her family and to her neighbors as a guardian of health.

And what finer compliment can be paid to Dr. Chase's Receipt Book and Dr. Chase's Medicines than the approval of such mothers of experience as the one here described.

Just as in this home, Dr. Chase's Almanac hangs on the wall in the great majority of Canadian homes, and in the cupboard or medicine chest will be found one or more of Dr. Chase's Medicines ready for use in case of emergency.

If you did not receive a copy of Dr. Chase's Almanac it will be sent free by Edmanson, Bates & Co., Ltd., Toronto.

# Aspirin

Nothing Else is Aspirin

**Warning!** Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all.

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 21 years and proved safe by millions for Headache, Barache, Toothache, Neuralgia, Colds, Rheumatism, Neuritis, Lumbago, and pain generally. Made in Canada.

Handy tin boxes of 12 tablets cost but a few cents—Larger packages.

Aspirin is the trade mark (registered in Canada) of Bayer, Manufacturer of Mono-aceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

**Description of Building.**

The building is laid out in the form of the letter "E" with the main wing facing on Waterloo street. The two outside wings are separated by an open space 41 feet 6 inches in width from the centre wing, thereby permitting the excellent lighting of all the rooms, which is an outstanding feature immediately noticeable on entering the building. The elevation plans of the building, in addition to the two stories and basement, provide for a sub-basement by 40 feet wide, with what is claimed to be the best gym floor in the city.

Along each side of the gym are spacious balconies, which will accommodate from 150 to 200 spectators. On occasion the gym can also be used as a public lecture room, with an audience of 600 to 800 people could be accommodated.

**Large Auditorium.**

Straight ahead as one enters the building by the main entrance on Ottawa avenue is the auditorium, designed with a sloping floor and a raised platform, and capable of seating 325 people without crowding. Special attention is given here to facilities for illustrated lectures, including a pure white permanent screen inset in the wall at the back of the platform and electrical outlets in the floor at distances which permit the setting up of lanterns for 35 feet or 55 feet projections. The auditorium is immediately above the gym.

From the main entrance both to the east and to the west extend wide and well-lighted corridors, which are continued down the centre of each wing. These corridors are repeated on the second floor, and from their entrance is made to the various lecture, research, reading and demonstration rooms and laboratories. Immediately to the right of the entrance on the ground floor is located the general office, with a commodious library next beyond it, in which will be housed the 3,000 volumes in active use, while in an adjacent room will be stored the books of reference, not so frequently used. The library proper will be used as a reading and study room.

Many Research Rooms.

On the same floor and in the east wing of the building are located the departments of histology and embryology, in addition to the laboratory, which is the main laboratory and lecture room, research rooms for the students, and the office of the professor and research room, a private laboratory and research room for the use of the professor and his assistant. Each of these rooms is equipped with lavatory accommodation, and similar provision is made in the west wing, and in front, where are located the departments of pathology and bacteriology. In connection with the latter department is provided a culture room, constructed with four-inch cork walls and door, in which a permanent temperature of 98 degrees (blood heat) will be maintained for the culture of the different microbes under study or for use in the conducting of experiments.

**Own Ice Plant.**

In the same section of the building is a refrigeration room, cooled by the ice plant located below it in the basement, in which can be kept specimens under examination. In addition there are media and cleaning rooms, and a sterilizing room, where the specimens, apparatus and instruments may be sterilized by hot air before and during the progress of experiments.

**On the second floor of the building**

paneled between the pilasters, and a massive though dignified cornice, with no enrichment other than a dentil mold. Cost \$316,000.

All interior trim and doors, apart from which the building is practically fireproof, except in the entrance, is of British Columbia fir finished in a medium dark rubbed finish. The doors and trim used in the main and auditorium entrances are of oak.

Carbonized sidewalk table, desk and counter-tops have been installed in all the laboratories, while central open troughs carry all waste to open acid-proof sinks at the end of each bench. The total cost of the building, with extras, but not inclusive of the furniture, has been approximately \$316,000; of this amount approximately \$25,000 was the general contract, and \$1,000 the approximate cost of mechanical equipment. This gives an average cost per cubic foot of 25.6 cents, which is very low for this class of building, and which compares in outstanding manner with the estimated cost of the Children's Hospital, which is 60 cents per cubic foot, and the city schools, the cost of which is 45 cents per cubic foot.

**Compressed Air.**

A high-speed, air-cooled compressor operated at 75 pounds pressure, with an automatic device to regulate the pressure, provides a constant compressed-air system with 200 outlets for laboratory use, and steam supply to the building. Alongside of these two systems there is installed a dry vacuum system of practically the same size as that for compressed air, and gas installation serving some 400 outlets, ranging in size from 1/4 inch to 1 1/2 inch.

An electric clock and bell system consisting of a master clock and three secondary clocks and a series of gongs by means of which the daily program is controlled has been installed.

Two Otis Fensom elevators, each of 2,000 pounds capacity and fitted with automatic stops, give access to each floor. One is located in the east wing and the other in the west wing.

Telephone service through a private branch exchange supplied from two trunk lines, and inter-communicating phones in the office of each professor in charge of a department, the janitor's apartments, the boiler room, etc., has been provided.

**Light and Power.**

Special care has been given to the electric lighting, which is throughout the building, and plugs of various sizes for various purposes have been provided in the laboratories, lecture rooms, etc., in the form of floor, base, wall and desk plugs. A number of motor outlets have also been installed at numerous points throughout the building.

In connection with the plumbing and ventilating systems, which are necessarily of great importance in such a building, every possible care and modern device has been brought into play in order to insure the best possible service by each system.

As a means to insure efficiency of operation in connection with all these services, unit arrangement has been carried out to an unusual extent and with special care so that in the event of an accident or need for cutting off of either service in a particular part of the building, it can be done without in the least interfering with any other department or section. In the physiological department the ventilation system is of the exhaust type.

The general electric lighting is a combination direct and diffused light system, with special lighting facilities provided where necessary.

**Building Fireproof.**

Practically the entire construction of the building has secured for it what is believed to be the lowest fire insurance rate in the city. The construction is reinforced concrete skeleton with reinforced concrete footings, foundation, walls, floor slabs, beams, columns, etc. The outside walls are red tapestry brick, trimmed with Indiana limestone and backed up with hollow tile. The interior partitions are gypsum block. The roof is a Barrett specification, guaranteed 29 years, applied over a built-up wooden roof, except over the auditorium and boiler house, where it is applied directly on concrete slab.

The finished floors in the corridors, general offices, library, etc., are a very pleasing grade of terrazo, on a six-inch concrete base. On the second floor the floors of the toilet and operating rooms are two-inch hexagonal ceramic tile, with a six-inch terrazo base. In the janitor's apartments and gymnasium the floors are of birch and maple, respectively, nailed to wooden sleepers embedded in rich concrete. All other floors are concrete set on a six-inch concrete base.

With the exception of the janitor's apartments, the auditorium, main entrance, gymnasium and operating room, the interior walls are two coats of plaster finished with wood grain, and the ceilings putty coated directly on the concrete. The gymnasium, janitor's apartments and operating room walls and ceilings are putty coated. The only ornamental plaster used in the building is to be found in the auditorium and the main entrance vestibule. In the vestibule, lobby and auditorium entrance a coiled ceiling used with

### POLITICAL CHAOS SEEN IN BERLIN IF CABINET RESIGNS

**Allies Not Likely to Find Government That Would Negotiate.**

LONDON, March 25.—The German political situation probably will crystallize before Monday. The resignation of the cabinet headed by Chancellor Konstantin Fehrenbach is regarded as the best method of a question being no whether its strength can be restored but what political combination will replace it. Without news of exactly what is going on behind the scenes in London in connection with the reparations conference, political observers here are unwilling to predict what course will be followed. They feel that the decision rests with the Entente Allies. If the Paris sanctions are enforced immediately a Nationalist Government in Germany is predicted on the fall of the present cabinet, thus permitting the Conservative-German People's party to try their hand.

This idea is being discussed favorably, especially by the Liberals and the Radicals, as the best method of restoring the German people to the conservative dogma of national honor and abrogation of the treaty of Versailles continues to be the order of the day.

The probability of a coup d'etat is difficult to estimate. The warning in Hugo Stinnes' newspaper, the *Allgemeine Zeitung*, last week, it now develops, was inspired in part by the hope of frightening the Prussian Diet into extending its new coalition by the inclusion of the German People's party. But where there was so much smoke there must have been some fire, and an official Prussian statement has now appeared to the effect that no one dares let himself doubt the actuality of the peril.

But if the Allies delay enforcing the sanctions, it is held that it would be impossible to find a German Government immediately which would negotiate on the basis of the Paris agreement. It is felt here that the Allies must be aware of the danger and may have decided already to extend the time of the ultimatum as soon as it is settled that the Fehrenbach ministry will fall. But even if the ultimatum is enforced and a Nationalist regime be established, it is held that the Allies still could not count on finding a German Government that could negotiate even were the Nationalists overthrown.

Inferences continue to be made secretly that sinister influences are working in an effort to force a break with the Entente and bring on a new situation in Europe. These are usually linked with the activities of Hugo Stinnes in politics.

The present cabinet has burned all its bridges behind it, according to a statement here, first by its pledges in the Reichstag not to negotiate with the Entente on the basis of the Paris reparations agreement between the Allies, and

### WHEN NUMBER THREE IS UNLUCKY

I KNOW 3 TRADES I SPEAK 3 LANGUAGES I WANT FOR 3 YEARS I HAVE 3 CHILDREN AND NO WORK FOR 3 MONTHS BUT I ONLY WANT ONE JOB

In looking for work this fellow gives a good account of his qualifications without saying a word. The picture was taken on a street in Putney, England.

## No Knocks Gas Savers

Have Proven Their Efficiency Both as GAS SAVERS AND AS CARBON DESTROYERS

The results are so certain, the relief so prompt and the savings so great and continuous, that no car owner can afford to be without one. The price is \$15.00, installed on your car, the one and only expense.

Ask your dealer, or write to the distributors, Coates Supplies & Agencies, Ltd. 185 KING STREET, CHATHAM, ONT.

STEAMERS ARRIVED. NEW YORK, March 25.—Arrived: Celtic (British), Liverpool, March 16. Auxiliary schooner, Alencho (British), St. Johns, Nfld., March 14.

WORKING FULL TIME. DETROIT, March 25.—Resumption of full-time operations effective March 23 was announced today by the Hudson Motor Car Company. The company has been operating with a curtailed force on a reduced working schedule for several months.

## Reaching the Businessman

Reams have been written on how to reach that supposedly elusive phenomenon—the businessman. Yet there is a simple way. The more businesslike, the more alert he is, and the larger his interests, the more certain is he to be found at least once a day reading his favorite newspaper.

You know the type. Good citizen, good father, good husband, good businessman, pillar of society.

He may steal a few hours occasionally to read a book. But he always reads his daily newspaper.

And the experienced advertiser, whose appeal is to the business, technical and professional man, uses Daily Newspapers to reach him, because he knows that the newspaper, in itself, is the greatest impulse to action.

At the present time daily newspaper advertising designed to interest only businessmen is appearing regularly for so widely diversified a group of products as:

- Transmission Machinery: Shafts, Hangers, Pulleys, Couplings, Belting.
- General Machinery: Bearings, Boilers, Tanks, Gear Cutters.
- Builders and Contractors: Bricks, Asbestos.
- Architects and Industrial Engineers: Roofing, Window Frames, Heating and Ventilating Machinery.
- Financial Advertising: Almost every Government, Municipal and Corporation

The Evidence speaks for itself. We urge you in all seriousness to sit down after dinner this evening and figure out whether you cannot use this mighty force—Daily Newspaper Advertising—to your advantage. If you think that you could, providing you were shown how, write to us; or consult any recognized advertising agency.

Issued by the Canadian Daily Newspapers Association. Head Office—Toronto.

SON BORN TO GREEK KING'S MORGANATIC WIDOW

ATHEENS, March 25.—Madame Aspasia Manos, the morganatic widow of King Alexander, today gave birth to a daughter.

Madame Manos is the daughter of a former aide-de-camp of King Constantine. The marriage between her and Alexander is reported to have taken place before he was in direct line to the throne, and while his chances for succeeding his father, Constantine, appeared very remote. The union was the culmination of youthful friendship. There have been reports that if Madame Manos' union with Alexander resulted in the birth of a male child, she would set up a claim for the succession to the Greek throne.

TURKS CLAIM TO HAVE DEFEATED GREEKS

CONSTANTINOPLE, March 25.—Turkish official reports declare that the Turkish Nationalists east of the Smyrna district have attacked and defeated the Greeks, who began an offensive on Wednesday. It is said that 1,700 Greeks were taken prisoner, and that the Nationalists have captured twenty guns. The Turks at first retired before the Greek advance, reports state, but, being reinforced, they launched a counter-attack.

It was claimed in Greek circles here yesterday that the town of Esaki-Shehr, one of the objectives of the offensive, had been taken, but this rumor has not been confirmed.

Government and Municipal Bonds

Paying 5.75% to 7.25%

will soon be a thing of the past, because as money becomes "easier" interest rates will go lower.

HEAVY DEMAND FOR EGGS TODAY

Over 5,000 Dozen Disposed Of On Easter Market.

DECLINE IN "SWEETNESS"

Maple Syrup Finds Ready Sale at \$3 Per Gallon.

The 5,000 dozen eggs on the local market on Saturday reduced prices to levels below expectations. It was estimated that in the market house there were over 2,000 dozen. Buying was active, and it was expected that the biggest part of the supplies would be sold out by early afternoon. Some farmers only asked 25c per dozen wholesale, and 30c and 35c retail.

A number of farmers offered poultry. The demand was not active, so prices in the majority of cases were unchanged. Three turkeys sold at 55c per lb.; dressed chickens ranged from 40c per lb. wholesale, and 40c to 42c retail; live chickens sold at 30c and 35c per lb.; ducks and geese at 25c and 30c per lb.

Hundreds of gallons of maple syrup were responsible for a sharp decline in the price. By the gallon it sold for \$3 and by the quart 80c. There was a good demand.

The heavy supplies of potatoes practically made them drop on the market. Farmers, it is stated, took as low as 75c per bag, but the majority of the sales were around 80c a bag wholesale, and from 90c to \$1 retail.

Cuts were slightly lower with the poor demand. The price set today was \$1.50 per cwt, and 51c per bu.

Two loads of wheat offered today reduced the price to \$1.30 and 52c per bushel and \$2.17 and 53c per cwt. It is quite unusual for hay to be on the square on Saturday, but because of the holiday on Friday several loads were offered today. There was a good demand and prices advanced to \$22 and \$25 per ton.

A number of Easter lilies brought 50c per bloom.

Grain, Per Cwt.—Oats, per cwt., \$1.50 to \$1.50; Wheat, per cwt., 2.17 to 2.17; Barley, per cwt., 1.50 to 2.00; Buckwheat, per cwt., 2.25 to 2.50.

Grain, Per Bushel.—Oats, per bu., .51 to .51; Wheat, per bu., .90 to .90; Barley, per bu., .72 to .92; Buckwheat, per bu., 1.08 to 1.20.

Potatoes, per bag, .50 to .80; do, bag, retail, .90 to .80; Lettuce, per doz., .80 to .80; Parsnips, per doz., .40 to .50; Onions, per doz., 1.00 to 1.15; do, per peck, .25 to .25; Cabbages, per doz., .40 to .40; Green onions, dozen, .40 to .40; Beets, per bu., .50 to .60; Turnips, per bu., .40 to .50; Celery, per doz., 1.00 to 1.00; Parsnips, per doz., .60 to .75; Rhubarb, per doz., 1.25 to 1.25; Radishes, per doz., .70 to .70.

Fruits, Retail.—Apples, per bu., 1.00 to 1.50; do, per lb., .30 to .30; Honey, Wholesale.—Honey, 5-lb. pail, 1.25 to 1.25; do, comb, 25 to 28; Honey, 5-lb. pail, 1.40 to 1.45; do, comb, 28 to 30; Maple syrup, per gal., .90 to .90; do, per qt., .80 to .80.

Timothy hay, ton, 22.00 to 25.00; Clover hay, ton, 22.00 to 24.00; Straw, per ton, 10.00 to 10.00.

Dairy Products, Retail.—Butter, creamery, lb., 60 to 60; do, dairy, lb., 55 to 55; do, crocks, lb., 57 to 54; Eggs, strictly fresh, 30 to 35.

Dairy Products, Wholesale.—Butter, creamery, lb., 60 to 60; do, dairy, lb., 55 to 55; do, crocks, lb., 57 to 54; Eggs, strictly fresh, 30 to 35.

Poultry, Dressed, Retail.—Ducks, per lb., 37 to 37; Chickens, each, 25 to 30; do, per lb., 40 to 42; Poultry, Dressed, Wholesale.—Chickens, per lb., 35 to 40; Ducks, per lb., 35 to 35; Live Poultry.—Ducks, per lb., 25 to 25; Geese, per lb., 28 to 28; Old fowl, per lb., 25 to 25; Chickens, per lb., 33 to 35.

Dressed Meats, Retail.—Pork, hinds, lb., 24 to 25; do, hinds, lb., 22 to 21; Beef, hinds, lb., 20 to 21; do, fronts, lb., 15 to 16; Veal, hinds, lb., 30 to 35; do, fronts, lb., 30 to 30; Lamb, hinds, lb., 35 to 35; do, fronts, lb., 30 to 32.

Cow hides, No. 1, 4 to 8; do, No. 2, 3 to 7; Calf skins, No. 1, 6 to 7; do, No. 2, 5 to 6; Lamb skins, each, 40 to 40; Horse hides, each, 2.00 to 2.50; Kip, per lb., 4 to 5.

WALL STREET REVIEW. New York, March 25.—Trading in the stock market this week was in no material degree lessened by the Easter recess, aggregate transactions for the four full sessions attaining fairly large proportions.

Despite extensive profit-taking, further substantial recoveries from the previous fortnight were recorded, largely, if not wholly, to the discomfort of an over-confident short interest in specialities.

Oil, automobile, steel and equipment stocks, more or less in the order named, were the principal beneficiaries of the rebound, together with a score of affiliated issues, particularly motor accessories.

Food, tobacco, copper and chemical issues were under restraint, as well as most of the rails, the latter group being again handicapped by poor earnings and unsettled labor conditions.

Marked improvement in the steel and textile industries was reported, and commodity markets also were more stable, but conservatism continued to prevail in those branches of business subject to seasonal influences.

The money market eased slightly on cash and banks bought moderately commercial paper. There were few indications, however, that the approaching second quarterly period of the year would cause any pronounced release of time funds.

NO TRACE OF MISSING AERONAUTIC STUDENTS

Left Pensacola Tuesday Night and Drifted Out Over Gulf.

PENSACOLA, Fla., March 25.—Continued search today by squadrons of aeroplanes flying boats dirigibles and eagle boats failed to discover any trace of the missing U. S. naval balloon command of Chief Quartermaster G. K. Wilkenon, carrying four students which left the naval air station here Tuesday night and was last reported over the gulf, twenty miles off St. Andrew's Bay. Naval officials, however, have not given up hope of rescuing the missing men.

Continued From Page One GERMAN COMMUNISTS

communists made prisoner are beaten and insulted by the police.

Used Searchlights. Throughout the night police searchlights played over the city. Rockets were sent up at regular intervals, each followed by a burst of fire.

The communists surged back and forth before attacks and counter-attacks, but this morning the police had occupied a number of streets, where they forced the communists to the extreme west side of the city. The police appear in frightened groups to scurry away at the first sign of a policeman.

On the outskirts of the city refugees are awaiting the end of the fight to return to their homes.

The communists, whose only distinguishing mark consists of the red button of the world revolutionists, are united in deepest hatred for the "green" police, whose ranks, they say, comprise former soldiers controlled by officers of the old army.

On the other hand, the security police are outspoken in their bitterness toward the Entente and the Soviets.

"We have to fight the Russian swine with sufficient guns and a small force of the Entente is to blame for the former soldiers' attack against the communists."

BEING OVERCOME. LONDON, March 25.—Though the situation arising from the communist outbreak in Germany is still dangerous the communists are being overcome by the forces of law and order, according to reports from the different centres, says a Central News dispatch from Berlin today.

The situation in Berlin is still dangerous, reports from the different centres, says a Central News dispatch from Berlin today. The situation in Berlin is still dangerous, reports from the different centres, says a Central News dispatch from Berlin today.

There has been no repetition of the disorders in Hamburg, where the riotous elements are masters of the situation, the reports add.

Widespread Conspiracy. Investigation of the reported communist attempt to blow up the statutory in the Sieges Allee in Berlin is declared to have revealed the existence of a widespread conspiracy of violence, which was to have started today, Good Friday.

Berlin dispatch Thursday night quoted the Berlin police as claiming to have discovered a plot to blow up the Victory column, which stands in the Koenigsplatz at the head of the Sieges Allee, or avenue of Victory. It was believed by the authorities that this was to have been the signal for a terrorist outbreak in Berlin.

NOT GETTING SUPPORT. BERLIN, March 25.—Belief was expressed in government circles today that unless the communists succeed in tying up Middle Germany's industrial areas in a general strike the Government will be able to cope with the rioting prevalent in Dusseldorf, Mannheim, Wetzlar and Leuna.

The local communist organizations thus far have not been given open support by the national communist leaders, most of whom are away from Berlin or are in seclusion here.

The majority and independent socialists and the independent labor unions continue their vigorous condemnation of the present communist revolt, warning that it would wreck the industrial and moral or physical support.

The gas and waterworks in Halle are tied up, although the other municipal plants voted against striking. The communists also are making an effort to shut down the Goethen power plant near Bitterfeld, which supplies a large part of Berlin with current. Technical auxiliary troops are in readiness to keep the public utilities in operation.

RUPTURE EXPERT HERE

SEELEY, FAMOUS IN THIS SPECIALTY, CALLED TO LONDON.

F. H. Seeley of Chicago and Philadelphia, the noted truss expert, will personally be at the Reumens Hotel and will remain in London this Thursday and Sunday only, March 26 and 27. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in ten days on the average case. Being a vast advancement over all former methods—exemplifying instantaneous effects immediately appreciable and withstanding any strain or position. This instrument received the only award in England and in Spain producing results without surgery, injections, medical treatment or prescriptions. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. All charity cases without charge or if any interested call, he will be glad to show same without charge or fit them if desired. Business demands prevent stopping at any other time in this section."

P. S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seeley.

Home Office, 117 North Dearborn Street, Chicago, 79c

should the employees walk out. Are Well Equipped. Advice from Halle states the communists there are well equipped with arms, and that the workers in the big Leuna nitrogen plant have 6,000 rifles at their disposal. They also are maintaining motorcycle scouting patrols which are riding through the districts, commanding communist party members to report for armed service.

Eisleben again is in the hands of the security police, although complete order has not yet been restored. The present outbreak revealed the hiding place of communist arms, which had been stored away in deserted shafts in the Mansfeld mining district. Most of the rifles discovered are reported to be brand new.

The situation in Hamburg is reported to be normal, although the riotous elements there still are attempting to provoke a general strike.

TRIED TO BOMB PREMIER'S TRAIN

Head of Italian Government Was On the Train Following.

ROME, March 25.—A bomb exploded on the Rome-Leghorn railway last night shortly after a train from Rome on which Premier Giolitti was supposed to be travelling had passed, the Tempo's Leghorn correspondent reports today, adding: "It is believed an attempt was made to wreck the train."

The premier, it transpires, was on the train following that which passed just before the explosion.

GOLD WATCH FOR NEW STRATFORD PASTOR

MONTREAL, March 25.—A most cordial farewell was taken this morning in Verdun by the Baptist Church of the pastor, Rev. H. Campbell Plant, who is leaving next week to assume the pastorate of the Baptist Church at Stratford, Ont., after four years' service here. The fact that the church was crowded to its utmost capacity for today's valedictory hours testimony to the esteem of his congregation's gratitude. Rev. Mr. Plant was presented with a solid gold watch, and Mrs. Plant with a silver plate. To Miss Edna Plant an album was presented, and to Miss Dorothy Plant, a satchel, and to "Bobbie," a silver mug.

HASTINGS REMAINS WILL BE EXHUMED

Inquest Being Held Under the Perth Crown Attorney's Orders.

[Special to The Advertiser.] MITCHELL, March 25.—Acting under instructions from Crown Attorney McPherson of Stratford, Coroner J. W. M. Armstrong tonight ordered W. S. Corry, undertaker at Dublin, to exhume the remains of Daniel Hastings and have them ready for the inquest, which will be opened here on Saturday morning at 10 o'clock.

The stomach of the dead man will be sent to Toronto for analysis, and it is expected that a report will be received in time for the inquest to be resumed on April 1.

Coroner Armstrong stated to The Advertiser tonight that it is likely the evidence of Dr. R. S. Murray of Mitchell, who was called to attend Hastings, and who issued the death certificate, and of Constable Ingram Mitchell will be taken at the inquest.

Caused a Sensation. The statement made by Mrs. Hastings that she killed her husband by giving him strychnine has caused a sensation throughout the countryside. Mr. and Mrs. Hastings were very highly regarded, and were looked upon as a very happy and contented couple.

It was stated to The Advertiser tonight that Hastings bought a 50-acre farm near Stratford recently, and was to have moved there next week. Mrs. Hastings, it is stated, had been looking after most of the finances since Hastings came back from the West two years ago. They had a joint account.

Her statement in her confession that she killed her husband because she feared him, is taken to mean that she had spent money that he was depending on to pay for the new farm, and that she feared what would happen when he discovered what she had done.

Made No Statement. Asked by The Advertiser tonight if Mrs. Hastings had made any statement to him when he was called, Dr. R. S. Murray said no. He stated that he was called about 11 o'clock at night to Hastings home. When he got there he found Mr. Hastings dead.

The jury which will view the remains on Saturday morning is composed of Joseph Nagle, W. Kilkhammer, F. Nelmes, F. McConna, J. O'Loughlin, George Diegel and Joseph Shea.

THEY HELPED HER FROM THE FIRST BOX

Why Dame Lemieux Praises Dodd's Kidney Pills.

She Took Her Friends' Advice When She Thought an Operation Might Be Necessary and Used Dodd's Kidney Pills.

Ledges, New Brunswick, March 25.—(Special)—Dodd's Kidney Pills have few warmer friends anywhere than Dame Michel Lemieux, a well-known resident of this place. She has tried Dodd's Kidney Pills and found them good.

"I suffered from pains in the kidneys, head and back," Dame Lemieux states. "I should be obliged to submit to an operation. My friends advised me first to try Dodd's Kidney Pills. I did so, and my health seemed to improve from the first box. My illness of the side and abdomen disappeared and my kidneys are much better. I feel like working now."

Women all over Canada are praising Dodd's Kidney Pills. Each of them gives her reason. For weak or diseased kidneys are the cause of most of the ills to which woman is heir. Ask your neighbors if Dodd's Kidney Pills are not the best remedy for sick kidneys.

an uncertain occupation.

But when you deposit your savings with this company you are not subject to "fisherman's luck." Your money is absolutely safe, and your interest, at 3 1/2 PER CENT, is certain to come in regularly. If you choose to purchase a \$100 debenture, you will receive 5 1/2 PER CENT interest.

To Manufacturers

THIS Bank considers that one of the most important of its functions is to meet the needs of Manufacturers. Our record of substantial development during the past 45 years has been largely due to this policy.

By the closest co-operation with Manufacturers, both large and small, and by a never-failing vigilant interest on their behalf, wide mutual benefits have resulted.

We cordially invite the accounts of Manufacturers.

RAIN STOPS SEEDING.

HYDE PARK, March 25.—A few farmers in this district have been busy preparing the land for sowing spring wheat, but have been held up by the heavy rain, as the land is working heavy. Fall wheat is in splendid shape.

RHEUMATISM—IS YOURS ACUTE OR CHRONIC?

In either case you'll get such results from good old "Nerviline," which has five times the pain-destroying power of ordinary remedies. Nerviline gives results because it penetrates to the source of the pain, because it contains ingredients that destroy rheumatic pains. It is the unusually bad case that proves the power of Nerviline. Suffer for young and old; used internally and externally for many purposes; 35c at all dealers.

ALLIES REFUSE GERMANS' REPLY ON REPARATIONS

Hun Message Found Unacceptable in Its Present Form.

PARIS, March 25.—The German delegation here today delivered to the allied reparations commission the German reply to the note sent by the commission yesterday giving Germany warning of the infliction of penalties under the peace treaty unless she paid before May the twelve billion gold marks, balance of the twenty billion mark payment due under article 235 of the treaty.

HAS BEEN POSTPONED.

PARIS, March 25.—Consideration of the Entente policy towards Germany, in view of her refusal to pay by May the twelve billion marks gold demanded by the reparations commission as the balance of her twenty billion mark obligation under the peace treaty, will be postponed for a few days, it develops today.

A STYLE TREAT

Raphael-Mack Store Arranges a Fashion Show at Loew's.

The discriminating women of London are to be treated next week to what will unquestionably prove to be the most extensive exhibit of spring styles ever held in this city. Acting in co-operation with the management of Loew's Theatre, Raphael-Mack Company will stage a grand promenade of living models attired in Dame Fashion's most distinctive creations, twice daily on Monday, Tuesday and Wednesday next.

SIR JOHN MARTIN HARVEY COMING TO THE GRAND.

Advance Manager B. E. Lang arrived in the city yesterday and reports that Sir John Martin Harvey's coast to coast tour in "Garrick" and "The Burgomaster of Stilemonde" has broken all records, in spite of the star's illness early in the tour.

GIVEN A MANTEL CLOCK.

DENFIELD, March 25.—Prior to leaving to return to Ailsa Craig to reside, Mr. and Mrs. Fred Hatter were surprised at their home several evenings ago and presented with a handsome mantel clock and an address by the employees of the Denfield flax mill, of which Mr. Hatter has been foreman for the past year. A pleasant evening was spent with games and music, and lunch was served.

GOOD FRIDAY SERVICES HELD IN ALL CHURCHES

Motoring and Angling Enthusiasts Open Season—Railway Traffic Heavy.

Good Friday in London was celebrated in diverse ways, ranging from the hilarious joyfulness of holidaying youngsters to the solemnity of those who looked upon it as a day of deep religious significance.

DOCTOR'S BACK MAY BE BROKEN

Little Hope Held For Recovery of Tillsonburg Physician.

TILLSONBURG, March 25.—Dr. J. R. Lancaster, who was so seriously injured yesterday, is in a very precarious condition, with only slight hopes of recovery. Two outside specialists were called in today, and both were of the opinion that the injured man's back is broken.

INGERSOLL INN SOLD.

INGERSOLL, March 25.—Joseph E. Rawson of Aylmer, completed a deal yesterday by which he becomes owner of the Ingersoll Inn. It is understood that the purchase price was \$12,000.

IS NOW IN JAIL.

WINDSOR, March 25.—John Warlow, who shot his wife in Walkerville Saturday night last and then turned the gun on himself, was released from Hotel Dieu Hospital this afternoon and removed to Sandwich jail.

BANQUET MARKS CLOSE OF PROFITABLE TERM

ILDERTON, March 25.—The Lobo Continuation School held at town hall, Coldstream, is closed for Easter holidays. During the noon lunch hour the Literary Society in connection with the school, held an informal banquet.

TO RETAIN GOOD HEALTH FOLLOW THIS ADVICE

Most important of all is proper attention to the bowels. Avoid constipation—it's the health-killer of today. Harsh, gripping medicine is ruinous—be wary of it. Best results follow a remedy like Dr. Hamilton's Pills, which relieve costiveness promptly and tone the bowels, so that constipation becomes a thing of the past.

EASTER RETAIL TRADE IN LONDON FAVORABLE

Manufacturing Becoming More Active and Unemployment Decreasing. London reports to Bradstreet's say that retail and wholesale business are both showing the beneficent influence of the approach of Easter and the week. Retail trade, especially in women's wear and millinery has been good, and there is no doubt that the tide has turned definitely, and from now on improvement is looked for.

FOOT CRUSHED, BOY FAST IN TURNTABLE

Police Work For Hour To Free 10-Year-Old Earle Lindsay. Police were nearly an hour extricating the left foot of Earl Lindsay, 10-year-old son of John Lindsay, 284 Drosney avenue, from a crevice in the old Lake Erie and Detroit River turntable at Colborne street crossing Friday evening.

WEDDING BELLS

THOMAS—STEPHENS. A wedding of interest to Londoners took place at Zanesville, Ohio, on March 21, when Miss Rita M. Stephens of this city became the bride of Addison R. Thomas of Liberty, Kentucky. The ceremony was quietly performed at 2 o'clock at the Grace M. E. parsonage, Rev. T. T. Crawford officiating. Mr. and Mrs. Thomas will reside in Zanesville.
