

RIOTERS IN CENTRAL GERMANY TO RENEW DISORDERS

STREET RAILWAY EMPLOYEES WILL DEMAND FIFTY-TWO CENTS FROM MAY FIRST

Notice Has Been Served On Company by the Street Railway Union—Present Wage Scale Is 48 Cents an Hour.

A wage scale of 52 cents an hour is asked by street railway employees in request which they have forwarded to the company.

was an increase of four cents over what the men had previously received. They agreed to give the men any surplus above the 48 cents, which might accumulate.

HYDRO COMMISSION MAY SEEK TO SUPPLANT GAS FOR DOMESTIC PURPOSES

Majority of City Council Opposed to Investigation of Local Company's Affairs by Hydro Commission—Other Aldermen Claim Gas Supply Should Be Controlled by Public Utilities Commission.

A majority of the city council are opposed to the proposal to have the Hydro Electric Power Commission make a report on a city gas company, a proposal which may be advocated by some of the aldermen at the next meeting of the council.

supplant gas for household purposes. In that event it would be well to have a little competition, and not to have the gas under control of the hydro.

PLANE FALLS WHILE AIRMAN IS TRYING TO ESTABLISH RECORD

Lieut. W. D. Coney in Florida Hospital Recovering From Injuries.

Natchez, Miss., March 26.—With his back broken and his body paralyzed from the chest down, Lieutenant W. D. Coney trans-continental flier whose aeroplane crashed near Crowley, La., yesterday while he was attempting a record-breaking flight from Jacksonville, Fla., to San Diego, Cal., today was battling for his life in a Natchez hospital.

DYING MAN MARRIES BOSTON SWEETHEART

Wedding Takes Place in the Presence of Nurses and Doctors.

Boston, March 26.—Miss Eva Maude Corthell, 19 years of age, was married late last night in the presence of city health officers to a dying man, John J. McCarthy, who is believed to be dying from a brain tumor.

TROOPS AND WORKMEN CLASH IN ITALIAN INDUSTRIAL TOWN

Florence, Italy, March 26.—Labor disorders occurred yesterday at San Giovanni, in the commune of Castellonovo. While trying to calm infuriated workmen who were attempting to enter the town on horseback, destroying the workmen's co-operative and labor centre, the workmen are gathering threateningly on the hills around the town.

SIX HUNDRED ARE EXPECTED TO ATTEND ROTARY CONVENTION

Ottawa, March 26.—Final preparations are being made for the 1921 district conference of Rotary clubs in Ontario, Northern New York and Quebec, which is to be held in Ottawa under the direct auspices of the local Rotarians on Friday and Saturday, April 8 and 9.

BRITISH BREEDERS ANXIOUS TO HAVE EMBARGO REMAIN

Ottawa, March 26.—That the prominent British agriculturists and cattle breeders consider the embargo against Canadian cattle clearly as a protection measure was the statement of Sir Stewart Tupper, of Winnipeg, here yesterday. The question of foot and mouth disease, which has been put forward during many years as a reason for the ban on cattle from this country, in their opinion has no bearing on the issue whatever.

French armored car patrolling the streets of Düsseldorf since the allied occupation of several German cities.

GOVERNMENT IS NOT DEVELOPING NEW OIL FIELDS WILL DELAY SURVEYORS

Aeroplane Service Planned, But \$120,000 Appropriation Is Cancelled.

Topographical and Geological Parties Must Travel Slowly by Snow.

[Special to The Advertiser.] OTTAWA, March 26.—Apart entirely from alleged defects in the regulations governing oil production in the Northwest Territories, there is strong complaint here regarding what is described as an imprudent policy on the part of the Government with respect to the work of establishing base lines, to which claims may be "fired."

MINISTRY FAILS TO ATTRACT USUAL NUMBER OF MEN

Montreal, March 26.—The number of recruits for the ministry this year will not be a large one, judging by an announcement concerning the closing exercises of the Montreal Theological College, which are to take place next month.

COURT OF REVISION IN SESSION MONDAY

Will Receive Names of Those Anxious To Get On the Voters' List.

NEGRO IS KILLED IN GUN FIGHT

Rochester, N. Y., March 26.—A negro, believed to be Thomas Houston of Buffalo, was killed in a running gun battle between a party of which he was a member and a New York Central detective near the outskirts of the city last night.

EGGS MAY DROP TO 25 CENTS ON MONDAY

TILLSONBURG, March 26.—Local housewives had the pleasure of purchasing strictly fresh-laid eggs at 30 cents per dozen retail from local merchants today.

A FLYING AMBULANCE

This latest British aeroplane ambulance is capable of carrying four patients. The picture shows a patient being admitted to the cabin.

German Communists Driven Out of Strongholds Plan a Counter Attack On the Security Police

Reinforcements to Rioters at Mansfield and Eisleben Are Sent—Armed Workmen From Halle and Other Towns Moving to Assistance of Radical Element—Agitation in Munich Continues—Railroad Station at Breslau Is Robbed.

JAPAN SENDING WAR VESSELS TO KAMCHATKA

Action Taken to Protect the Fishing Interests There.

Tokio, March 26.—Japan is understood to have decided to dispatch a battleship and four destroyers to Kamchatka for the purpose of protecting the Japanese fishing enterprises there. It is said this action was taken following reports that the Far Eastern Republic had ceded part of the peninsula of Kamchatka to the soviet government.

ANOTHER INDUSTRY COMING TO LONDON

Service Motor Truck Company Establishing Canadian Branch.

SITE COST \$50,000

Erection of Plant on Franks Estate Will Commence June 1.

London will soon have another added to the many industries which are rapidly making this city one of the most important commercial and manufacturing centres in North America.

"BRONZE STATUE" LEAVING MONTREAL

Brooklyn, March 26.—When Fred Beausvais of Montreal was mentioned as correspondent in the Stillman divorce case, it was pointed out that he had become a salesman for the Coleman Baking Powder Company of this town.

SEARCH CONTINUES FOR BALLOONISTS

Pensacola, Fla., March 26.—Though discouraged by the failure of their two days search to reveal some trace of the missing craft, naval officers today had not given up hope of finding the lost naval balloon with its five occupants, which has been missing from the air station here since last Tuesday.

U. S. Naval Aircraft and Five Occupants Missing Since Last Tuesday.

THE WEATHER

Table with columns for Local Temperatures, Tomorrow's Weather, and Forecast. Includes data for various cities like Toronto, Montreal, and Ottawa.

FOOD SHORTAGE EXISTS

Overcrowding, Dislike Sixty-Months March 26.—Reports that the Communist force, which have been fighting in Eisleben against the security police for three days, had been driven out of that city were brought here last night by men breathless from running the twelve miles which lie between Eisleben and this little town.

ORDER IS RESTORED

Berlin, March 26.—Order has been restored at Eisleben and Heitstedt. It is announced by the German Government that the rioters at Heitstedt, who were reported to be firing at security police in the city.

AGITATION IN MUNICH

Part of the Communist agitation in Munich is continuing, according to a dispatch from the foreign office, which reports the breaking up of a meeting.

Perfect Vacuum Is Obtained by Utah Professor

Salt Lake City, Utah, March 26.—Part of the Communist agitation in Munich is continuing, according to a dispatch from the foreign office, which reports the breaking up of a meeting.

 In emergency, dependable under all conditions, strong with the strength of unflawed metal and authentic skill—Canada's Quality Car, the London Six.

London Motors Limited

ONE OPERATION IN EVERY FOUR FORMERLY FATAL

Now Ratio of Deaths Is Reduced To One in Fifty.

MEDICAL ACADEMY MEETS

Detroit Physician Says Christian Science Fails To Cure Gastric Ulcer.

Three former Western Ontario men, now leading members of the medical profession in cities in the United States, where they reside, were the speakers at a regular meeting of the Western Ontario Academy of Medicine held in the Auditorium Friday afternoon. The meeting was largely attended by London and district practitioners, nurses and medical students, practically every member of the academy being present.

Dr. Angus McLean, an old Glencoe boy, now professor of surgery in the Detroit College of Medicine, was the first to deliver an address at the meeting. Taking for his subject, "Ulcer and Cancer of the Stomach and Duodenum," Dr. McLean described expert treatment, and more modern diagnosis of these two types of malignancy, illustrating his discourse by sketches. He mentioned a serious case, which came under his observation, wherein a malignant ulcer received Christian Science treatment for two years, only to perforate the stomach suddenly last Thanksgiving Day, which time, he declared, introduced a novel coincidence. Medical assistance was summoned, and with great difficulty the patient's life was saved. A similar case with similar treatment suddenly ruptured the stomach of a patient on New Year's Eve last, but faith in Christian Science caused him to delay summoning medical aid for twelve hours, with the result that the attack proved fatal. "Therefore," declared the speaker, "Christian Science treatment, which may be good for some ills, failed with gastric ulcer."

A Bad Omen.
 "One good type of carcinoma, if there is such a type of malignancy," continued the speaker, "is that of the pylorus, closing it quickly, and then you can diagnose it at once. When a woman suffering with cancer of the breast informs you that it seems to have decreased in size, this is a bad omen, as by metastasis the carcinoma has likely affected the pleural cavity. Metastasis, after removal, is the most treacherous thing of malignancy. Cancer should be attended to at the earliest convenience. It is difficult to diagnose it from gastric ulcer in the aged, and you should give the patient the benefit of the doubt, and get it out."

Weak Points in Surgery.
 Replete with a wealth of witty remarks, Dr. Thomas S. Cullen, professor of gynecology in Johns Hopkins University, Baltimore, who spent a few years in London in his younger days, entertained those present by a splendid discussion on "Weak Points in Canadian and American Surgery." His first paid a tribute to the pioneers in surgery who blazed the way for present-day methods. He declared that 25 years ago in this city the mortality following surgical operations was 25 per cent, and the fact that now this has been reduced to 2 per cent speaks well for advances made during the past quarter-century.

Surgical pathology in his opinion is one of the essentials in order to obtain definite, concrete surgical facts from the operating room. Much labor is involved before a good surgeon is produced, and this noted Canadian-born surgeon cited the difficulties experienced by himself following graduation from the University of Toronto in 1890.

Thorough Knowledge Valuable.
 "A thorough knowledge of pathological anatomy is of inestimable value to the surgeon," he stated. "Pathologists are far too valuable and so scarce to have one associated with every surgeon. A young assistant, after one year's course in pathology, could be accepted by each surgeon, and he could examine all specimens and confirm the diagnosis. In time the young assistant would become a full-fledged surgeon, and in a few years the surgeon would also be a pathologist. We obtain much of our knowledge from books written by others, or to lead the world in surgery, the one thing we need is surgical pathology."

Present-Day Advantages.
 Dr. Cullen mentioned the advantages offered to present-day medical students in the university training as compared with that of the past. Pathology being then in its infancy. He related humorously a meeting between himself and Maxey's Church, Toronto, in Baltimore recently, these men being old school chums. He stated that the mayor of the Queen City recalled the days when the great strides made by the speaker in the past decade. "I told him," said Dr. Cullen, "that I once worked in a restaurant at the Fair, making two thousand sandwiches in a week, and a barrelful of lemonade from six lemons and citrus acid." The speaker concluded by illustrating several "little tricks" used by himself in operations for umbilical, inguinal and femoral hernias.

Farmers' London Student.
 Dr. Ernest K. Cullen, now professor of gynecology in the Detroit College of Medicine, a brother of the previous speaker, and one time a student at the London Collegiate Institute, continued the discussion introduced by his distinguished brother. He suggested that every college turn out one trained surgeon annually to solve the demand. "In London, with your hospital of 350 beds," he declared, "one man per year could be turned out a trained physician, but to do so he must make a sacrifice. If he cannot afford it, perhaps the system observed in Baltimore, where remuneration of \$750 per year for board helps the young man."

Resolution of Regret.
 During the session Dr. Robert Ferguson of this city rose and proposed a resolution of sympathy and regret at the loss sustained by the death of Dr. H. A. McCallum of this city, since the last meeting, which removed a valued member from the Western Ontario Academy of Medicine. Dr. Thomas S. Cullen recalled a serious illness in his family here years ago, when Dr. McCallum's good work brought happiness to the household.

"Up in Mabel's Room," Amusing, Light Comedy At Grand.
 A decided change from most of the attractions which have been the hall's mainstay this season, "Up in Mabel's Room," at the Grand Good Friday, made a remarkable hit with the large holiday audience. Light comedy in the "bedroom" type, which still enjoys a wide vogue, kept everybody in a wide continual laughter, and undoubtedly marked the play as one of the leaders of its class.

As the title indicates, the plot centres around Mabel's room, and the room is a dainty piece of feminine wearing apparel. This, the timorous and recently-married Garry Alsworth, in a moment of weakness had sent to Mabel from Paris in his bachelor days. Garry's romantic nature was bespoken in the dainty inscription which Mabel bore, and which threatened to wreck his happiness if Mabel should show it to his pretty young bride.

With Mabel's room to start like that, it was only natural that a delightful mix-up should ensue at the week-end party at the home of Arthur Eslington, Mabel's fiancée. One or two jealous wives, and a few bewildered men add the finishing touch.

The plot gives the audience opportunities for the display of many lavish evening gowns, to say nothing of an unparalleled showing of pink and frilly negligees, for the audience which has not only caused all Mabel's troubles is not the only one which enters into the merriment.

The settings, too, are well in keeping with the costumes, and while they are not expensive they are just what are required for the vigorous action of the plot. Mabel's boudoir in particular is a charming example of just how dainty sleeping quarters can be.

FARMERS ARE READY FOR AN EARLY START

Excellent Crops Are Expected in the Wabash District.

WABASH, March 24.—Farmers have pulled out their spades in the sugar bushes and are now getting ready to begin working the land. They are looking for an excellent season. The marriage of Mrs. Pearl Lawton and Claire Norton took place at the Thameville Methodist parsonage, Rev. A. Whitehall officiated, and immediately after the ceremony Mr. and Mrs. Norton left on a honeymoon trip to Detroit and Wabashville.

FAST PACING MARE SOLD AT BRUSSELS
 BRUSSELS, March 25.—"Elsie Campbell," the fast pacing mare owned by Dr. T. T. McRae of Brussels, has been sold to P. Rutledge, of town, at a price of \$1,000. For a great many last season she showed great bursts of speed, and has a mark of 2:24. Mr. Rutledge also owns a seasoned campaigner in "Country de Forrest," purchased from J. H. Galbraith last fall. There will likely be some lively racing this season, as several good horses are now in the jogging stage of training. Brussels has a No. 1 half-mile track, and will swing in with an itinerary of races.

HAD FUN WITH LIVE WIRE.
 HARROW, March 25.—A curious phenomena was found in connection with the U. F. O. grinding elevator. The building is covered with metal siding and this metal is charged with electricity when the mill is not running. Some mischievous boy ran a live wire across the street, with the result that when a team stepped on it yesterday the horses reared and fell. The driver got out to see what was the matter, and he was thrown. Not till a second team had stepped on the wire and had bolted was the trick discovered.

COMMITTED ON THEFT CHARGE.
 HARROW, March 25.—James Mitchell, colored, was arraigned before Justice of the Peace Herring charged with breaking into several summer cottages at the lake and stealing clothing and furniture. He was committed to the jail at Sandwich to await trial. A white neighbor was arrested in the case, and he was sent up also for trial. Walter Boyce's cottage and Arthur Agla's were first discovered as having been ransacked. Four other houses were also entered.

COMMUNITY CONCERT HELD AT PRINCETON
 PRINCETON, March 24.—The community concert held in the hall last evening was a great success. The three choirs, including 40 performers with two violins. Mrs. J. O. Reid acted as accompanist. The choruses materially assisted by Mrs. Beir of Woodstock and Miss McAllister. Mr. High Allen of Drumbo presided. Short speeches were given by the chairman and the Revs. C. R. S. Pike, B.A.; D. Lane, B.A., and Rev. H. Montinger. "Oh Canada" was the opening selection, followed by solos, duets, quartets and octets, and a very amusing play, entitled "Hunting For Trouble," which was given by the choir.

The hall was packed with a most appreciative audience. After the National Anthem, lunch was served to the performers and a few invited guests. The proceeds amounted to \$78. After deducting the Government tax and expenses, the balance will be equally divided between the three church choirs taking charge of the program.

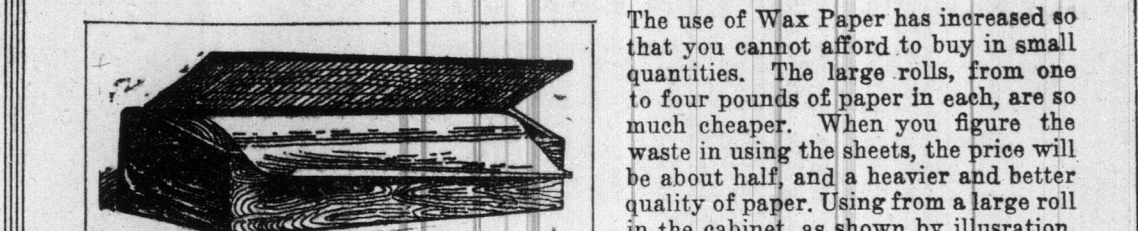

It Costs Only Five Cents a Day
 or \$1.50 per month for helpful medical treatment if you take Hood's Sarsaparilla, known in thousands of homes as the best reconstructive tonic. For nearly half a century this good medicine has stood in a class by itself in curative power and economy. Hood's Sarsaparilla gives more for the money than any other. It tones up the whole system, creates an appetite, promotes assimilation, so as to secure for you 100 per cent of the nutrition in your food.

Hood's Sarsaparilla
 IS PECULIAR TO ITSELF IN EFFICIENCY AND ECONOMY.
 A Sure Relief for Women's Disorders
 Ten Days' Treatment Free.
 Orange Lily is a certain relief for all disorders of women. It is applied locally and is absorbed into the suffering tissue. The dead waste matter in the congested region is expelled, giving immediate mental and physical relief; the blood vessels and nerves are toned and strengthened and the circulation is rendered normal. URGERS FARMERS TO WORK TOGETHER
 EMBORO, March 25.—At a well-attended U. F. O. meeting held in the town hall, President D. M. Ross was in the chair and introduced President Burnaby of the U. F. O. He made a strong plea for co-operation among the farmers, and outlined the activities of the U. F. O. During the evening a contest, featuring a solo, which was much enjoyed, brought the evening to a close. Up to the Treasurer, E. J. Jones, has received \$968 towards the memorial fund. The price of eggs has dropped to 3c. This figure is being paid by both districts.

Wagonloads of Pretty Freight Eagerly Purchased by Citizens Who Throng Second Largest Market of Year—Eggs, Eggs and Yet More Eggs Find Ready Sale.

The Easter market, second largest market of the year, lived up to its reputation this morning, when vendors crowded close together at the stalls, and buyers moved through in droves, arms laden with the first fruits of the spring season.

Most interesting of all, were the wagonloads of flowers, pretty freight which sold as quickly as various eggs could make pure strings respond to the demands of the vendor.

Easter lilies, flowers of the season, were not very plentiful, but sold at 25 cents for each pure white bloom. To make up, however, there were quantities of the other flowering plants, gay colored and more sombre toned. All clusters together on their wheeled carriers, presenting a truly glorious sight.

There were large pots of golden daffodils which might be got for 75 cents; there were pale purple primroses, the reasonable price of 50 cents; there were deep purple cyclamen, all sold at 75 cents, while the purchaser who wished something bigger and showier could procure a very fine hydrangea for \$2.50. Small bunches of spicy carnations and cut daffodils were being carried away for the small sum.

Eggs Next.—But if flowers were the chief characteristic of the Easter market, eggs came next, and such quantities of them there were and such a diversity in price, that in short distance between four or five market wagons found eggs priced at from 15 to 50 cents a dozen.

Dr. M. A. Platt, son of D. C. Platt, 110 Wellington street, in one of his stunts at the home of his parents. He is connected with the Manhattan Hospital, New York.

SUPT. DAVIDSON HERE.—General Superintendent W. R. Davidson of the Western lines of the G. T. R. arrived in London on Saturday morning.

PROFANE LANGUAGE.—Little Child Gives Evidence as to Father's Conduct. One thousand dollars' worth of opium and \$25 in fines was the result of a police raid on a Chinese establishment at 349 Clarence street last night.

PATIENTS ARRIVE IN CITY.—Several patients from St. Anne, Quebec, arrived in this city on Friday. They traveled in a special G. T. R. Pullman.

RECOVERING FROM INJURY.—Mrs. D. C. Platt, 110 Wellington street, is making a rapid recovery from a fall in which her right knee cap was fractured last Sunday. It was reported at Victoria Hospital today.

EASTER SERVICES.—Special Easter services will be conducted in No. 11 Citadel of the Salvation Army on Sunday by Brigadier Alex. Crichton and Divisional Staff Captain Ritchie. The cantata, "His Cross and Mine," given by the Salvation Army on Friday evening was largely attended.

CHILD'S EVIDENCE.—Donald McKenzie was charged by Edward Lance with making the defendant's home a place unfit for children by habitually drinking and using profane and abusive language.

PROTESTANTS JOIN IN MESSAGES OF REGRET AT CARDINAL'S DEATH. Many Tributes Paid to Memory of Great Churchman.

Protestant churches in London have joined in messages of regret at the death of Cardinal Gibbons. Many tributes have been paid to the memory of the great churchman.

BISHOP CONDUCTS CATHEDRAL SERVICE

Cantata Given Good Friday Evening in Cronyn Memorial Church.

Good Friday was observed in the majority of city churches yesterday by the holding of a solemn, sacred cantata or the three hour service which is generally observed in the Anglican churches.

In St. Paul's Cathedral Right Rev. Bishop Williams preached at the morning service. A special offering was taken to assist the Jews who were banished from the cathedral in the evening.

Cronyn Memorial and St. James' Anglican Church held the three hour service from 12 o'clock until 3 o'clock, commemorating the Seven Words from the Cross. Dr. Stainer's beautiful cantata was given by the choir in the evening.

The audience completely filled the church. The choir sang the most expressive parts of the cantata in splendid voice and Frank Simmons who possessed a rich, mellow voice did his work well. The choir sang itself in the chorus parts which were unusually heavy. Rev. G. Q. Warner took the prayer service.

In the Methodist churches, group services were held. The south and east end churches in the Centennial Church at 120 o'clock until 3 o'clock. The north end group in Colborne Street Methodist Church, and the east end churches in the Centennial Church at 12 o'clock until 3 o'clock.

While the elaborate methods which a report from Toronto states are to be taken by the board of education of that city to deal with weak-eyed children are not in operation here, and have not been for the children who are handicapped in this manner has not been reported by the local school inspectors.

Greenish-yellow work paper, with green lines, has been in use in the city schools as a means of saving the eyesight for some time, said Mr. Greer, secretary of the board of education.

ST. THOMAS, March 24.—The withdrawal of the proposed guardianship of the city over the land covered by St. Andrew's Market, according to city council, is the responsibility of the loss of an industry which would have erected a building on the site.

ST. THOMAS, March 25.—The city has abandoned, for the while, the purchase of land adjoining the city for industrial purposes. The economic conditions of the municipality, states an alderman, will not allow for an investment of this kind, and that it was questionable if the taxpayers would question any such outlay.

ST. THOMAS, March 24.—The railway report, the holiday traffic, and the average. The agents find that the rate of exchange placed on tickets to cities over the border is the chief cause of the falling off in holiday travel.

ST. THOMAS, March 24.—After hearing the report for the reduction of wages in the International Harvester Company plant explained by the management, the works council, having conferred with the 2,000 employees, accepted the cut in a spirit of complete harmony.

ST. THOMAS, March 25.—An anti-soviet rally is reported to have occurred at Kagan, according to dispatches received here today. Some of the members of the extraordinary committee in the city are said to have been killed, and the commission's headquarters killed, it is declared.

ST. THOMAS, March 25.—After an illness of about six months, from rheumatic and heart trouble, Jim Andrews, eldest son of Mr. and Mrs. George Andrews, Canal street, passed away early Friday morning.

CITY HAS ABANDONED BUYING LAND FOR INDUSTRIAL SITES

Question May Be Taken Up Some Time in the Future.

ST. THOMAS, March 25.—The city has abandoned, for the while, the purchase of land adjoining the city for industrial purposes. The economic conditions of the municipality, states an alderman, will not allow for an investment of this kind, and that it was questionable if the taxpayers would question any such outlay.

"GET O'CONNOR ALIVE OR DEAD," IS POLICE ORDER

Greatest Man-Hunt in History of Chicago in Progress.

CHICAGO, March 25.—The greatest man-hunt in the history of Chicago was extended to cover the entire central west today in the search for "Tommy" O'Connor, who on Wednesday night shot his way to liberty through a cordon of policemen, killing Detective Sergeant Patrick O'Neill.
With orders to shoot to kill, more than 2,000 patrolmen are searching the city. Rifle squads have been sent to surrounding towns. Hand-bills putting a price of \$2,500 on his head "dead or alive" were sent throughout Illinois, Iowa and Wisconsin.
O'Connor, who was under indictment in connection with the killing of a man who had befriended him while he was a fugitive from justice, was trapped in the home of his brother-in-law. Seven patrolmen surrounded the house, when O'Connor appeared with two pistols, and shot down O'Neill as the latter stood beside the porch. As the patrolman fell, O'Connor put another bullet through his back and fled.
O'Connor is declared by the police to be one of the worst "pro-gun men" in the city. He was sought for some time in connection with the cold-blooded murder of an aged elevated railway ticket taker, who was shot while resisting a holdup. His constant boast has been that he would never be taken alive. "Get him alive or dead," was the order issued to the searchers.

WERE SHOT DOWN BY SINN FEINERS

CORK, March 25.—The bodies of four young men who were shot dead on Tuesday night after the farmhouse at which they were staying was surrounded by crown forces, are lying in the cathedral here awaiting internment Sunday. A continuous procession passed the coffins today.
Reports of the shooting were that the four young men, with several others, were taken from the house and ordered to run for their lives. They were directed upon them, it was said, four of them being shot and the others escaping. A continuous procession passed the coffins today.

BEWARE OF BRONCHITIS

Bronchitis is generally caused by neglecting a cold, or exposure to wet and inclement weather. It begins with a tightness across the chest, difficulty in breathing, and a wheezing sound comes from the lungs. There is a raising of phlegm, especially the first thing in the morning. This is at first white, but later becomes of a greenish or yellowish color, and is occasionally streaked with blood.
On the first sign of bronchitis you should check it immediately by using Dr. Wood's Norway Pine Syrup, thereby preventing it becoming chronic, and perhaps developing into some more serious lung trouble.

Mrs. Brice Culham, Sheffield, Ont., writes: "In December, 1919, I was very sick with bronchitis, and had to stay in the house all winter. One day I saw Dr. Wood's Norway Pine Syrup advertised, so I got a small bottle which helped me very much; I then got a 60c size, and it completely relieved me. I cannot praise 'Dr. Wood's' enough for what it did. Two of my neighbors are now using it for colds."

Don't accept a substitute for Dr. Wood's Norway Pine Syrup; the genuine is put up in a yellow wrapper; three pine trees the trade mark; price 50c and 60c; manufactured only by The T. Milburn Company, Limited, Toronto, Ont.

Imported "Booze"

Yes X
Shall the importation and the bringing of intoxicating liquor into the province be prohibited?

IMPORTED "Booze" has increased crime in this province.
Imported "Booze" has increased the difficulties of enforcing the law in this province. While importation was forbidden by Order-in-Council, Ontario's jails were half empty. Imported "Booze" is filling them up again.

Jail Commitments
—Before and after the Federal war-time Order-in-Council prohibiting importation of liquor into Ontario was rescinded:

Commitments for Drunkenness.	Commitments for All Crimes.
1919 3,415	1919 13,096
1920 4,511	1920 14,756
Net increase, 1,096.	Net increase, 1,660.

Imported "Booze" is demoralizing social conditions in parts of this province, and impairing those conditions to greater or less degree wherever throughout the province the influence of imported liquor extends.
Imported "Booze" is breeding a disregard of law among certain classes of people in this province.
Imported "Booze" is endangering the home life of this province.
Imported "Booze" is menacing the youth of this province.
You know the conditions—the newspapers bring them to your attention every day.
You see what is happening all around you. Imported "Booze" is defeating the expressed will of the people.

Vote and vote YES!
Let us shut the door to Imported "Booze"

RENE VIVIANI

NO AMENDMENTS TO BILL WILL BE CONSIDERED

Congress Deluged With Requests Regarding Fordney Tariff Measure.

WASHINGTON, March 25.—Deluged with requests for changes in the emergency tariff bill to be put before the special session of Congress precisely February, 1921, as compared with a similar period ending February, 1920, is shown by a statement issued from the office of the Dominion Bureau of Statistics. The statement shows that during the twelve months period ending with the close of last month free goods were imported into Canada to the value of \$1,943,563 and dutiable goods to the value of \$11,029,933, making a total of \$12,973,496.
On the other hand, Canada's exports of domestic goods for the year ending February, 1921, were more than forty-two million dollars less than in the previous year. The total exports last year were \$124,204,312. Exports to the United Kingdom decreased last year to \$322,563,091, as compared with \$507,892,208 the year before. Exports to the United States, however, rose from \$456,677,988 to \$551,678,226.

LABOR FEARS

Continued From Page One.

Former President of France, who is to make a visit to the United States to explain to the government and people the attitude which his country assumes in regard to the many problems now confronting her in connection with the great war.

The eight-hour-day discussion was somewhat warm at times. G. R. Halcrow, Hamilton, said he was sick and disgusted at some of the actions of the Labor men.
There was considerable criticism of the Ontario Government with regard to the treatment of the eight-hour-day agitation, the popular impression being that the Farmer wing of the Queen's Park government is ready to throw down the Labor section because it happens to suit their convenience.
James Simpson, president of the Government action as the most serious betrayal of a serious trust which he had witnessed for long years.

THREE HOLD-UP MEN GET \$2,000

Visit Hydro Canal Camp Pay Day—Also Rob Radial Conductor.

NIAGARA FALLS, Ont., March 25.—Three masked men, armed with revolvers, entered the hydro canal camp, below Queenston, near the powerhouse site late last night, and held up the boarding house boss and 35 of the inmates, making away with about \$2,000. No trace of them has been found.
When they entered the boarding house, they fired two shots in the air, and then demanded "money or life" from every one in the place. The boss was relieved of \$250, and the other inmates of different amounts ranging from \$35 up to \$100. Yesterday was pay day on the canal, and the hold-up men had calculated the time well.

The same three men are believed to have staged a hold-up about midnight last night at the end of the Niagara, St. Catharines and Toronto line here, and relieved the conductor of \$45. The car had reached the end of the line, and the men were waiting for the train to be being changed when the hold-up men appeared from the side and ordered the conductor to throw up his hands. They then searched him and quickly and quietly that the motorman had no suspicion that anything was wrong.

DECLARE BOMB WAS PLACED OUTSIDE

LONDON, March 24.—Authorities at Milan announce that the bomb which wrecked the Diana Theatre in that city on Wednesday night, killing 31 persons, was placed outside the building by three individuals, says a Milan dispatch to the Central News. One of the guilty persons is declared by carabinieri in that city to have been arrested, and it was found that the skin had been burned off his hands by the explosion.

CAUSE OF EARLY OLD AGE

The celebrated Dr. Michonoff, an authority on early old age, says that it is "caused by poisons generated in the intestine." When your stomach digests food properly it is absorbed without leaving poisonous matter. Poisons bring on early old age and premature death; 15 to 30 drops of "Seigel's Syrup" after meals makes your digestion sound.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn softens, then, shortly, it lifts right off with the fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

NO AMENDMENTS TO BILL WILL BE CONSIDERED

Congress Deluged With Requests Regarding Fordney Tariff Measure.

WASHINGTON, March 25.—Deluged with requests for changes in the emergency tariff bill to be put before the special session of Congress precisely February, 1921, as compared with a similar period ending February, 1920, is shown by a statement issued from the office of the Dominion Bureau of Statistics. The statement shows that during the twelve months period ending with the close of last month free goods were imported into Canada to the value of \$1,943,563 and dutiable goods to the value of \$11,029,933, making a total of \$12,973,496.
On the other hand, Canada's exports of domestic goods for the year ending February, 1921, were more than forty-two million dollars less than in the previous year. The total exports last year were \$124,204,312. Exports to the United Kingdom decreased last year to \$322,563,091, as compared with \$507,892,208 the year before. Exports to the United States, however, rose from \$456,677,988 to \$551,678,226.

LABOR FEARS

Continued From Page One.

Former President of France, who is to make a visit to the United States to explain to the government and people the attitude which his country assumes in regard to the many problems now confronting her in connection with the great war.

The eight-hour-day discussion was somewhat warm at times. G. R. Halcrow, Hamilton, said he was sick and disgusted at some of the actions of the Labor men.
There was considerable criticism of the Ontario Government with regard to the treatment of the eight-hour-day agitation, the popular impression being that the Farmer wing of the Queen's Park government is ready to throw down the Labor section because it happens to suit their convenience.
James Simpson, president of the Government action as the most serious betrayal of a serious trust which he had witnessed for long years.

THREE HOLD-UP MEN GET \$2,000

Visit Hydro Canal Camp Pay Day—Also Rob Radial Conductor.

NIAGARA FALLS, Ont., March 25.—Three masked men, armed with revolvers, entered the hydro canal camp, below Queenston, near the powerhouse site late last night, and held up the boarding house boss and 35 of the inmates, making away with about \$2,000. No trace of them has been found.
When they entered the boarding house, they fired two shots in the air, and then demanded "money or life" from every one in the place. The boss was relieved of \$250, and the other inmates of different amounts ranging from \$35 up to \$100. Yesterday was pay day on the canal, and the hold-up men had calculated the time well.

The same three men are believed to have staged a hold-up about midnight last night at the end of the Niagara, St. Catharines and Toronto line here, and relieved the conductor of \$45. The car had reached the end of the line, and the men were waiting for the train to be being changed when the hold-up men appeared from the side and ordered the conductor to throw up his hands. They then searched him and quickly and quietly that the motorman had no suspicion that anything was wrong.

CANADIAN IMPORTS JUMP \$296,191,543

Exports in the Same Twelve Months Decrease More Than \$42,000,000.

OTTAWA, March 25.—(By Canadian Press).—An increase of \$296,191,543 in the value of goods imported into Canada during the twelve months ending February, 1921, as compared with a similar period ending February, 1920, is shown by a statement issued from the office of the Dominion Bureau of Statistics. The statement shows that during the twelve months period ending with the close of last month free goods were imported into Canada to the value of \$1,943,563 and dutiable goods to the value of \$11,029,933, making a total of \$12,973,496.

Exports to the United States, however, rose from \$456,677,988 to \$551,678,226.

GLAD HE TRIED THE TONIC TREATMENT

Through Its Use Strength and Vigor Was Restored.

To be tired after exertion is natural. Rest and food restore the body to normal after such fatigue. But to be tired all the time is a symptom of an anaemic condition that will not be corrected until the blood is built up.
Such an anaemic condition is so gradual in its approach and generally so lacking in acute pains that it is difficult to persuade the sufferer to do anything for it. But it is not a condition that corrects itself. If the blood is not enriched the trouble will increase. The nerves will be undenourished and neuralgic pains will follow. Digestive disturbances often result from this blood, sleep is disturbed and a general breakdown may occur.
Mr. Wilson Johnson, Nineveh, N. S., says: "A few years ago my system was in a badly run-down condition. My nerves seemed always on edge, and I found myself so weak that I could hardly do any work. I suffered from headaches and from pains in the back and under the shoulders, and was often so sleepless at night that when morning came I felt as tired as when I went to bed. It was taking medicine all the time, but it was doing me no good. Then I read the testimonial of a man whose conditions had been similar to mine, and who strongly recommended Dr. Williams' Pink Pills. I decided to give this medicine a fair trial, and when I had taken six boxes I felt much better. I continued taking the pills until I had taken six more boxes, and I can now enjoy the best of health, and I advise all men who feel run-down to give these pills a good trial."
Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams Medicine Company, Brockville, Ont.

Solve These Riddles!

When a bear goes into a drydock store, what does he want?
Answer: SLIM NU
What is it that every living person has seen but will never see again?
Answer: DRY E YEAST
What is that which you break by just naming it?
Answer: ICE LENS
What is the difference between a 1920 dime and a 1899 cent?
Answer: NICE NETS N

This Car! 1921 Model

HERE are four riddles for boys and girls with wise heads. Who holds the artist to draw the pictures to represent the riddles, but guessed the right answers—and put them in too. So we barred him from the contest and told him to keep it a secret. Luckily, he got the answers all jumbled up, so you won't be any the wiser.
If you can unscramble the jumbled letters beneath each riddle picture and put them in their right order to spell their words, you will have the right answers. It isn't an easy task. Good thinking, patience and perseverance may find you the answers. Try it.
If you think you have found the answers, write them carefully on a sheet of white paper. Put on nothing but your own answers and your name and address in the upper right-hand corner of the page. Handwriting, spelling, punctuation and general neatness will count if more than one answer is correct.
We will write and tell you immediately if you are correct and send you a handsome illustrated list of all the prizes that you can win.

THE PRIZES
FIRST PRIZE, Genuine Oliver Chummy Racer. Value \$50.00
Second Prize, Real Typewriter. Value \$40.00
Third Prize, Genuine Automatic Kodak Folding Camera. Value \$30.00
Fourth Prize, Magnificent Gold Watch and Chain. Value \$25.00
Fifth Prize, French Baby Doll and Wicker Carriage. Value \$15.00
Sixth Prize, Moving Picture Machine with Film. Value \$10.00
Seventh to Tenth Prizes, Self-Start Fountain Pens, each. Value \$5.00
What Others Have Done You Can Do
Here are the names of only a few of the boys and girls to whom we have already awarded big prizes:
Earl J. Beattie, Surf Inlet, B.C., Chummy Culver Racer. Value \$25.00
Harry Dwyer, Eglon, Ont., Typewriter. Value \$40.00
Ernest Fisher, Montreal, Quebec, Lewis and Clark Helen Smith, Edmonton, Alta., Sheraton Pony and Car. Value \$30.00
Beatrice Hughes, Hagersnore, Sask., Shovel and Pony. Value \$25.00
Lyle Benson, Hamilton, Ont., \$100.00 Cash
Helen Bensch, Jukimas, Alta., \$25.00 Cash
Florence Nesbit, Amaprior, Ont., \$20.00 Cash
Bryden Foster, Leamington, Ont., \$15.00 Cash
Frankie Kirby, Three Hills, Alta., \$10.00 Cash
Mary Proctor, Vancouver, B.C., \$10.00 Bracket Watch
Eva Casson, North Bay, Ont., \$10.00 Doll and Carriage
The contest will close on June 30, 1921, at 5:30 p.m.
We will send you the names of many other boys and girls if you are correct and may send answers and prizes to you. Send your answers this very evening to
THE RIDDLERMAN
Dept. 35, 253-259 Spadina Avenue, Toronto, Ont.

SCIENCE SEEKS PHTHISIS VIRUS

Pasteur Experts Believe They
Are On Right Track—To
Experiment On Apes.

PARIS, March 25.—For the last year
pervenas at the Pasteur Institute in
Paris have been making important ex-
periments toward the perfection of a
vaccine against tuberculosis.

Professor Calmette of the institute in
discussing the results of his research
work, recently admitted that up to the
present time the institute has not been
able wholly to shield humanity against
tuberculosis.

Much Work to be Done.
"Laborious experiments are still
necessary to complete our research
work," he declared. "So far we have
found that it is possible by cultivating
the Koch bacillus in certain nutritive
media to modify its character and viru-
lence. This bacillus, cultivated in suc-
cessive series on glycerine media, con-
taining bile, although it goes on living
and is capable of reproduction, loses its
property of infecting man or beast with
tuberculosis.

"Inoculation of cultures of these
bacilli into a human organism is harm-
less. It realizes bacillary infection, but
does not produce tuberculosis. This
tuberculous infection, non-virulent or
harmless, develops in the organism a
particular state of resistance to subse-
quent virulent infection, whether due
to bacilli inoculation or prolonged
association with tuberculous animals.

In other words, in our test animals,
more particularly in young bovines,
virulent bacilli are tolerated or thrown
out without producing tubercular
lesions. This bacillus cultivated on bile
mediums behaves then like true vac-
cine. That is where the matter stands
today. It is easy to understand these
facts, and that mark an important
progress along the road to anti-tuber-
cular vaccination.

To experiment on apes.

In order that new progress leading
to human vaccination may be realized,
Professor Calmette thinks that it is in-
dispensable to undertake experiments
in big anthropoid apes, such as the
chimpanzee, whose extreme suscepti-
bility to tuberculosis is well known. But
these experiments can only be carried
out in the native country of the apes.

The professor is now planning to
visit a special expedition in French
Guiana. The governor-general of French
West Africa has offered the Pasteur
Institute the country's full resources,
but not enough financial backing has
been realized to organize and maintain
a permanent scientific mission, which
will have to conduct experiments on the
spot.

RIVER FULFILLS INDIAN'S CURSE

Mississippi Sweeping Away
Last Vestige of Kaskaskia
As Told in Legend.

Springfield, Ill., March 25.—For forty
years, since the waters of the Missis-
sippi River washed away the last ves-
tige of Kaskaskia, the first capital of
Illinois, leaving a narrow island of rich
alluvial soil at the mercy of the stream,
the superstitious folk have seen in the
gradual destruction of "The Narrows"
fulfillment of the prophecy of an old
Indian legend, wondrous about the story
of an Indian's love for a white woman.

When a tall, handsome young chief of
Kaskaskian Indians pronounced a
curse upon the place 200 years ago,
Kaskaskia was a flourishing little vil-
lage, with splendid ambitions, situated
on a peninsula at the junction of the
Kaskaskia and Mississippi Rivers. In
1811 nature violently demolished her
landwork at the former outpost of
civilization, and Kaskaskia was ravaged
by flood. The peninsula was cut away,
leaving a remnant of the old town on
the island which is gradually disappear-
ing.

When the last trace of land has sunk
beneath the waters and the phantom
turrets of the old trading post are on
the muddy bottom in the centre of the
Mississippi, the "Curse of Kaskaskia"
will have been fulfilled in its last detail.
The young chief prophesied the total
destruction of the site within 200 years.
Jean Benard came from France in
1681 with his wife and 10-year-old
daughter Marie to the legend-ridden
settlement in Kaskaskia. Marie be-
came into maidenhood, and her beauty
in the full bloom of womanhood was
known.

A young chief of the Kaskaskians,
converted by Jesuits and educated, went
to Kaskaskia and set himself up as a
leader. He prospered. One night at
ball he met Marie Benard. The girl
was fascinated, and with the Indian
she fell in love at first sight.

Benard's father was displeased. He for-
bade his daughter to communicate with
the Indian, used his influence to have
the young chief ostracised, forced him
out of business and out of town.

A year passed. At a fete one winter
night Marie disappeared. Marie and
her Indian lover were trailed by a posse
led by Benard. Forty miles from Kas-
kaskia, in the direction of the settlement
at St. Louis, the pair were overtaken.
Taking the Indian down to the river,
Benard lashed him to a log and turned
him adrift. As the Kaskaskian floated
down the river to his death he cursed
Benard and predicted the father of his
wrongdoer would die a violent death.

His last words, so the legend goes, were
that within 200 years the waters which
were bearing him away would sweep
the earth every vestige of the town.

Marie died in a convent. Benard was
killed in a duel in 1712. The last trace
of Kaskaskia has been obliterated, and
the island which was once part of the
peninsula is being gradually washed
away.

HOW FAMOUS HYMN WAS
WRITTEN.
"Lead, Kindly Light" was written in
1833, while Cardinal Newman was ex-
ploring the coasts of the Mediterranean
in an orange boat. He gave the fol-
lowing explanation of the circum-
stances:
"I was asking to get home; yet, for
want of a vessel, I was kept at Pal-
ermo for three weeks. I began to visit
the churches, and they claimed my
patience, though I did not attend
any of the services. At last I got off
in an orange boat, bound for Mar-
selle. Then it was that I wrote the
"Lead, Kindly Light." We were
sailed a whole week in the Straits
of Bonifacio. I was writing the whole
of my passage.
When the popularity of the hymn
has mentioned later, he said:
"But, you see, it is not the hymn
but the tune that has gained the popu-
larity. The tune is by Dykes. The
words were a great master." The
words of this famous hymn first ap-
peared in "The British Magazine" for
March, 1834.

MUMMIES' AURAL RAYS IN ART MUSEUM STOP SOPHIA'S SPIRIT TALK ON HIGHER MYSTICISM

CHICAGO, March 25.—The evil aura
that emanates from Egyptian mummies
in the Art Institute offended the
occult sense of Mrs. Sophia Fairclough-
Smith of London yesterday and reach-
ing the seclusion of her suite at the
Blackstone, she announced that it
would be possible for her to deliver
her lecture on "The Higher Mysticism"
in a place where the spirit rays are
brown. Instead she will speak Monday
in the Elizabethan room or the Con-
gress Hotel where an examination
proved the rays to be an intellectual
blow.

Brown spirit rays, Mrs. Fairclough-
Smith explained, are evil and in the
case of the mummies are the curse
of the ancient Egyptians placed upon all
who should touch his body after death.
For thousands of years these auras
have remained with the mummies,
leaving an unwholesome effect upon
sightseers who view the exhibits. And
it is a mistake to store them in a
building otherwise beautiful and
crowded with the sunshine of art, she
declared.

COOLIES BANNED BY ARGENTINA

Penniless Japanese Farmers
Rejected—Wealthy Busi-
nessmen Welcomed.

BUNEOS AYRES, March 25.—It has
been stated that the Argentine Govern-
ment was approached some time ago as
to the attitude it would take toward the
colonization of Argentine farm lands by
Japanese farmers. It was planned that
thousands of small farmers and poor
laborers should be brought to this coun-
try from Japan, the deliveries to be
made by the Osaka Shosen Kaisha
steamers, just as the Nippon Yusen
Kaisa steamers are now delivering be-
tween 5,000 and 8,000 Japanese immi-
grants in Brazil every year.

Argentina frankly told Japan that
its coolie immigrants were not wanted,
and that Argentina would not look with
favor upon an attempt to unload on Ar-
gentine territory penniless coolies or
poor farmers without any means of tak-
ing care of themselves. Japan was told,
however, that this country would wel-
come the arrival of any Japanese who
brought capital with them, either to put
into business in Argentine cities or to
buy and operate farm lands.

Appeals to Europeans.
It is significant that the offer of the
Japanese farm lands was rejected just
at the time that Argentina was en-
deavoring to attract European farm
hands to this country, whether they
had any funds or not, the governments
of Spain, Italy and other European
countries being told that their immi-
grants would be cared for upon their
arrival at the expense of the Argentine
Government until government agents
were able to place them where most
needed. But while these concessions
were offered to European immigrants,
Argentina would not permit immigrants
of the yellow race to come into the

When the unpleasantness of con-
tact with the brown rays of the mummies
had passed, Mrs. Fairclough-
Smith unfolded to an interviewer a
spiritual plan she has for ridding Chi-
cago of crime.

Mrs. Fairclough-Smith recommended
that the city guard itself against
criminals by training its detectives in
psychic-sight by which they could de-
tect the auras of the suspects.

The astral world, Mrs. Fairclough-
Smith stated, is not all heavenly. There
are evil spirits as well. In fact, it is
pretty well filled with vampires, who
are constantly pulling downward, and
thus the uninitiated man is not only
in danger of the living vampires, but
the dead ones as well, who fall upon
him in an evil moment.

"I am also prophetic," Mrs. Fair-
clough-Smith said. "I knew the war
was coming two years before it hap-
pened. During the war I was out of
my body the first eighteen months. I
saw my body and brought back reports
of what was happening in Belgium."

repulse under similar conditions.
Despite Argentina's refusal to admit
coolies who might come from Japan,
some effort has been made by the Jap-
anese to bring coolies into Argentina
from Peru and Brazil, and place them
on Argentine land. Both Peru and
Brazil admit Japanese, and it was
thought that they could then be trans-
ferred across the frontiers into Argen-
tina.

Effort Unsuccessful.
That this effort has not been suc-
cessful is plainly shown by figures just
published by the Japanese consul in
Buenos Ayres, following a census he
took of Japanese residents in the repub-
lic. His report shows that at the end
of 1920 there were only a few more than
2,000 Japanese in Argentina. The Ar-
gentine report of 1914 showed that there
were at that time 1,007 Japanese in
Argentina, so that the Japanese popu-
lation has increased only a little over
1,000 in six years, despite all the efforts
of Japanese subsidized steamship lines
and Japanese colonization corporations
to get coolies into Argentina.

The Japanese consul's figures also
show that more than two-thirds of the
Japanese in the republic are located in
Buenos Ayres.

SPRING WEATHER HARD ON BABY

The Canadian spring weather—one day
mild and bright; the next raw and blis-
tery is extremely hard on the baby.
Conditions are such that the mother can-
not take the little one out for the fresh
air so much to be desired. He is con-
fined to the house which is so often over-
heated and badly ventilated. He catches
cold; his little stomach and bowels be-
come disordered and the mother soon
has a sick baby to look after. To pre-
vent this an occasional dose of Baby's
Own Tablets should be given. They regu-
late the stomach and bowels, thus pre-
venting or banishing colds, stomach
colic or any other of the many minor
ailments of childhood. The Tablets are
sold by medicine dealers or by mail at
25 cents a box from The Dr. Williams'
Medicine Company, Brookville, Ont.

Run Down

Do you suffer from headaches, followed by fits of
dizziness, and an overpowering feeling of
lassitude? Do you feel drowsy, listless and
irritable? Are you run down?

Then you should consider whether your kidneys are
performing their functions properly. You should
let Gin Pills do for you what they have done for
thousands of others. Gin Pills will relieve you of
your distress, by promptly assisting the kidneys to
healthy action. Get a box from your druggist or
dealer, 60c, with money-back guarantee if they fail
to help you, or send for free sample to: National
Drug & Chemical Co. of Canada, Ltd., Toronto, Ont.
U. S. residents should address: Na-Dru-Co, Inc.,
202 Main St., Buffalo, N.Y.

Contains more flesh forming
matter than beef."

Baker's Cocoa
is for robust men

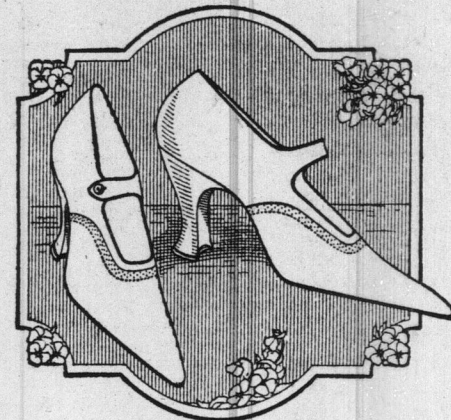

and all who must
have a great deal
of tissue building
material to repair
the waste caused
by physical and men-
tal labor. It is delicious,
pure and wholesome, and is made by
a perfect mechanical process, without
the use of chemicals, so preserving
the exquisite flavor, aroma and
color of the high grade cocoa beans.

THE UNENDING LIFE.

Someone has said that a seed is the mightiest thing in nature. With an upward-driving force it enfolds a plasmic germ capable of reproducing itself a hundred or a thousand fold.

An old German noble's grave was once covered with stones and slabs and from clamps inscribed, "Sealed for all time; must never be opened."

Of John Knox it has been said he was born in 1505, and behold he liveth and abideth for ever. By their influence, lives are eternal for good or ill.

When a perverted obtuseness betimes fails to recognize in Christianity the fountain-head of the amazing benefactions of nineteen centuries accumulating to humanity, little wonder if the sublime significance of the Resurrection should also be unperceived.

When a perverted obtuseness betimes fails to recognize in Christianity the fountain-head of the amazing benefactions of nineteen centuries accumulating to humanity, little wonder if the sublime significance of the Resurrection should also be unperceived.

When a perverted obtuseness betimes fails to recognize in Christianity the fountain-head of the amazing benefactions of nineteen centuries accumulating to humanity, little wonder if the sublime significance of the Resurrection should also be unperceived.

this subject, observes that to have a convincing message the church must yet keep the risen and living Christ clearly in her mind. The Lord did not assume in union with His own, the human form and nature for thirty and three years only, but for ever. The power to lay down and to resume His life was demonstrated. Without that glorious deliverance His purpose was incomplete.

AN UNEMPLOYMENT SUGGESTION.—A remedy for the unemployment which occurs every winter, and which was particularly prevalent this year, has been suggested by J. W. McCullum.

Mr. McCullum claims that the stockpiling and refitting of the men become dissatisfied and develop a more or less Bolshevistic attitude.

LETTERS.—TEMPTING HOLD-UP MEN.—To the Editor of The Advertiser: The crudity of the antique methods, to say nothing of the element of risk of loss by dropping, or robbery of his master's mails, was demonstrated last night at the corner of Richmond and Dundas streets when the box was being cleared at 10 o'clock.

LETTERS.—CHRISTIAN SCIENCE.—To the Editor of The Advertiser: I have been much interested by the article on Christian Science written by D. Stewart and published in The Advertiser of March 15.

LETTERS.—SCHOOL TEACHERS' PENSIONS.—La Patrie of Montreal, commenting on the Provincial Government's pension fund by \$25,000 a year, calculates that this will increase the average pension paid to retired women teachers to \$100 a year.

LETTERS.—THE HOUSING DIFFICULTY.—"The exaction of an exaggerated rent for leased property seems to us to be the same thing as demanding exaggerated interest on money loaned."

error when he informs the public that Christian Science (according to Mrs. Eddy) is neither more nor less than the restoration in this age of the original practice of the Christian religion. In her key to the Scriptures, Mrs. Eddy says: "Man is incorruptible, immortal, and deathless."

ESPERANTO AND SPELLING.—Readers of your issue of the 22nd were informed by someone unnamed that Esperanto, the study of which it is proposed to make compulsory in the schools of some of the European countries, is not on account of being a composite of the root-words of several languages, but a universal medium of communication.

LIBERALISM IN BRITAIN.—Asquith and the Liberals have not made much progress in Parliament or in the great London newspapers, but throughout the country they are gaining strength every day by reason of the fact that the policy of protecting the public against fraud and extortion has grown into the control of Liberal policies.

EVERYTHING.—LIFTING THE EMBARGO.—It is rather late in the day for Mr. Dewart to charge that efforts to lift the cattle embargo are an unwarrantable interference with the motherland.

HEARTBURN AND LIVER TROUBLE.—When the liver becomes torpid and inflamed, it cannot furnish sufficient bile to the bowels, thus causing them to become constipated.

OTHERS' VIEWS.—SCHOOL TEACHERS' PENSIONS.—La Patrie of Montreal, commenting on the Provincial Government's pension fund by \$25,000 a year, calculates that this will increase the average pension paid to retired women teachers to \$100 a year.

THE HOUSING DIFFICULTY.—"The exaction of an exaggerated rent for leased property seems to us to be the same thing as demanding exaggerated interest on money loaned."

LETTERS.—CHRISTIAN SCIENCE.—To the Editor of The Advertiser: I have been much interested by the article on Christian Science written by D. Stewart and published in The Advertiser of March 15.

ENGLAND'S DRINK BILL.

There is no particular encouragement to be got out of Mr. G. B. Wilson's bill for 1919 was published and discovered to be £285,600,000, or £125,000,000 more than the bill for 1918, the explanation was found in the demobilization of large numbers of men and the relaxation of various war restrictions on the production of alcoholic liquors.

THE PRINCE'S PRESENTS.—One seems better, to appreciate the meaning and significance of the Prince of Wales' Imperial Journeys after seeing the gifts and addresses which he received in the Renown, with some of those from his Canadian visit of the previous year.

HANDS ACROSS THE SEA.—In the annual overseas exchange of Canadian and British teachers, Toronto, this year, is sending 37 public school teachers to London, England, and receiving only six from Britain.

LIBERALISM IN BRITAIN.—Asquith and the Liberals have not made much progress in Parliament or in the great London newspapers, but throughout the country they are gaining strength every day by reason of the fact that the policy of protecting the public against fraud and extortion has grown into the control of Liberal policies.

EVERYTHING.—LIFTING THE EMBARGO.—It is rather late in the day for Mr. Dewart to charge that efforts to lift the cattle embargo are an unwarrantable interference with the motherland.

HEARTBURN AND LIVER TROUBLE.—When the liver becomes torpid and inflamed, it cannot furnish sufficient bile to the bowels, thus causing them to become constipated.

OTHERS' VIEWS.—SCHOOL TEACHERS' PENSIONS.—La Patrie of Montreal, commenting on the Provincial Government's pension fund by \$25,000 a year, calculates that this will increase the average pension paid to retired women teachers to \$100 a year.

WHAT DO YOU KNOW ABOUT CANADA?

ANSWERS TO YESTERDAY'S QUESTIONS.

- 1—The Dominion Government Employment Service was established in 1918, with clearing-houses for labor established at Halifax, Ottawa, Winnipeg and Vancouver.
- 2—There is no difference in the work of a Dominion experimental farm and a Dominion experimental station.

- 3—There are 24 Dominion experimental farms and stations.
- 4—Lake Royale is an American island in Lake Superior.
- 5—G. T. Somers, is president of the Sterling Bank of Canada.

- 6—Hallfax is the chief naval station in America.
- 7—George Brown (1818-1886) was one of the fathers of confederation.
- 8—Quebec's principal mining products are asbestos, cement, copper and sulphur ore, and magnesite. Of these, asbestos is the leading product.

- 9—The title of "honorable" is given to the speaker of the House of Commons during tenure of office.
- 10—Notes of \$5 and multiples thereof issued by Canadian banks are not legal tender, but in case of insolvency they are the first lien upon its assets.

- 11—When was the Canada Food Board dissolved?
- 12—How does Canada rank in silver production?
- 13—What was the value of Canada's 1918 tobacco exports?

- 14—What was the 1918 silver production of the British empire?
- 15—Where are four dry docks constructed and owned by the Dominion Government?
- 16—Which province has the greatest available water power?

- 17—How much larger is Canada than the United States and Alaska?
- 18—How many miles of railway has Prince Edward Island?
- 19—What is the title given to the solicitor-general?

AN IMAGINARY MOON CONTROLS EASTER DATE.—When is Easter? How would one know if he didn't have an almanac? "The first Sunday after the first Monday after the first full moon after March 21," says the old rule. But what is meant by "full moon?" For, as a matter of fact, the moon by which Easter is determined isn't the moon one sees. It isn't even the "mean moon" of the astronomers, but one that is altogether imaginary. It may happen along two or three days after the real new moon.

Sold by all London druggists. In Service: J. W. MacLaren, Woodstock; J. W. MacLaren, Woodstock; J. W. MacLaren, Woodstock; J. W. MacLaren, Woodstock.

BIRD NOTES

(Contributed by Melvirth Ornithological Club.)

February added nothing to the annals of the club, except Flicker on 6th, a Meadow Lark wintering by the Grand Trunk tracks near the Cove, and a Kingfisher on the 25th, possibly a spring bird.

On March 3rd, the spring birds began to arrive. Bluebird was the first. March 5, a single Redwing at the Cove Island in the river; March 7, Killdeer; March 8th, Cowbird; 10th, Fox Sparrow, whose song from the thicket east of the pump-house is one of the treats of the early spring.

March 10th, Rusty Grackle. This and the Fox Sparrow are the only two, so far as I know, that have not yet been seen south of London. March 13, Canada Goose (arrived February 18, back from the north). March 15, the earliest fly catcher, and the earliest record for over 30 years. March 18, Cherrin, which had not been seen in the city for some time. March 20, March Hawk. The first of the season.

Last spring saw us with 70 species on March 31, so 1921 is not far behind. There are fears that the absence of the winter visitors from the north will have a depressing effect on the total for the year, but who thinks of wintering birds when the air is full of bird songs fill the air?

—W. E. SAUNDERS

DON'T USE DRUGS FOR CONSTIPATION

BATHE INTERNALLY—THE ONE NATURAL WAY OF RIDDING SYSTEM OF POISONS.

Chronic constipation is never cured permanently by the use of medicines, larger and larger doses are necessary to obtain even temporary relief, the consequences being a weakened system.

Nature's own cure, just strengthened warm water, used in the Canadian method, is the only scientific and permanent treatment for constipation. It is a natural, pleasant, and safe remedy, and is not a habit-forming drug. It is a natural, pleasant, and safe remedy, and is not a habit-forming drug.

Seasonable Pointers For Farmers

Brooding and Feeding The Baby Chicks

This Is The Crucial Part Of Poultry-Raising — Some Useful Hints As To Bringing The Chicks Past The Critical Stage.

The brooding and feeding of baby chickens, whether by hen or artificial means, is the crucial part of raising poultry. It is impossible to overstate the importance of this period, and the more good food they can be induced to eat the better the growth, and the better the growth the earlier maturity and egg yield.

When the weather becomes warmer, the abdomen and under the wings. It is advisable to use ointment at this stage; powder is likely to get in the little chicks' eyes.

A shaped coop with removable bottom is to be recommended on account of its simple and cheap construction. It should be used with the bottom in place and slightly raised from the ground in the early spring months.

The most successful and economical artificial system of brooding is the colony system. It can be quickly set up in a colony house or in an idle pen of the laying house.

When to remove from brooder. The chicks should be removed from the brooder when they are about five weeks old. It is better to remove them a little earlier than later.

There are a few good shoots that where there are many. If the potatoes are given plenty of light, and the place where they are kept is fairly cool, the sprouts will become very sturdy and strongly colored.

The warmest and best drained soil that is available should be used for extra early potatoes, and the seeds should be planted shallowly.

The following is given as a general rule of guidance for planting in Canada for highest yields: Where the spring is early and autumn frosts are late, plant early.

First of all, let us say that tuberculosis is not an easy question to answer off-hand, and is one of the very important questions that should and must be answered.

One reason why it was apparently easier to make a diagnosis fifty years ago than it is now is this: up to fifty or sixty years ago almost the only disease brought to a doctor at all were far-advanced, well-developed cases.

One reason why it was apparently easier to make a diagnosis fifty years ago than it is now is this: up to fifty or sixty years ago almost the only disease brought to a doctor at all were far-advanced, well-developed cases.

THE ECONOMY OF HOME-MIXED FEEDS

The rather striking results obtained are indicative of what had been shown in routine test work with feeds at the Experimental Farm for years.

The rather striking results obtained are indicative of what had been shown in routine test work with feeds at the Experimental Farm for years. It may not be inferred that commercial feeds are classed as of doubtful value.

Always take a short piece of inch-mesh wire across the corner of the room to prevent jamming and tramping of the weakest.

Allow the chicks to remain in the incubator for 24 hours after the hatch is completed. A chick so hardened off will have a great deal more brooder intelligence than one removed too soon and will learn more quickly where to go for warmth and comfort.

Supply coarse sand or small chick grit and water and allow them until they show positive signs of hunger. They may then be given some dry bread crumbs, slightly moistened, and a liberal supply of some succulent green feed.

A little rolled oats at this stage is a great help to growth, and a little charcoal and sand sprinkled over the whole, is just what they want for the first four or five days. This should be given at least five times daily, and then two feeds of this ration may be changed for a little mixed grain to induce scratching and exercise.

A little rolled oats at this stage is a great help to growth, and a little charcoal and sand sprinkled over the whole, is just what they want for the first four or five days.

When the chicks are about five weeks old, it is better to remove them a little earlier than later. It is better to remove them a little earlier than later.

Bacon Type of Hog Popular in Canada

Future Markets Will Favor the Long-Bodied Animal—Yorkshire and Berkshire Breeds Produce Right Kind of Meat.

The wholesale price of heavy bacon of standard grade is 50 per cent cheaper than very light, fancy bacon.

This extract from a review of February trade issues, published by the Centre of Chicago is highly significant to Canadian hog breeders and farmers. It indicates two things: (1) That the large type of hog is losing its predominant position in the market.

The full statement made by the Institute of American Meat Packers is to the effect that the market for the frequent reports that large-type hogs are being sold at a premium in the Western Provinces.

Such statements as these have a quick effect on the American packers and farmers. Canadian producers will conclude from this that there is, even in the United States, a demand for the type of hog which will stimulate the breeding of long-bodied animals, such as the Yorkshire, Berkshire or Tamworth of about 185 pounds, that produces a meat of the highest quality.

The birth of a boy is considered bad luck, while the great rejoicing which is accorded to the birth of a girl is regarded as inferior in every sense.

Where men are inferior to women. Near the city of Ishinomaki, in Japan, is a settlement in which women's rule may be said to be complete. The wives support the husbands and children and are the acknowledged heads of the family.

This condition of affairs is due simply to the fact that the women are more proficient in the chief industry of that vicinity than the men. The settlement is on Seihai Bay, where pearl shells are abundant and are taken from the bottom of the sea.

These women pearl-divers think nothing of working at their task for ten hours a day, remaining for two or three minutes at a time below the surface of the water.

The birth of a boy is considered bad luck, while the great rejoicing which is accorded to the birth of a girl is regarded as inferior in every sense.

THE KEY TO PROSPERITY. An Advertisement to Young Men. Carnegie, Hill, Rockefeller—financiers who have succeeded in a marked degree—say that the key to prosperity is the ability to save in youth.

PHOTOPLAYS AND VAUDEVILLE

What's Doing at the Local Playhouses

MUSIC AND DRAMA

When society enters the film—Scene from D. W. Griffith's "Way Down East" showing Miss Florence Short, Mrs. Morgan Belmont and Miss Dorothy Bernard. At the Grand Easter week commencing Monday evening at 8:15.

The week, with daily matinees at 2:15 p.m., in such form elaborated to an unusual extent by David W. Griffith, makes the retelling of the tale at once interesting and, perhaps, even timely to the spectator who practically knows the play by heart. Mr. Griffith has extended the original story, has added to it and thrown about it a myriad of striking scenes and spectacular episodes, all of which give an excuse for a synopsis, at least as presented by this master producer of screen classics. In this connection it may be well to emphasize the scenes and incidents that the motion picture producer has found lacking in the original work.

The famous ball-room scene in "Way Down East." This elaborate scene, with the Sherman Lillian Glah in the foreground, is a spectacular feature of the big D. W. Griffith production coming to the Grand all next week with daily matinees.

ers will have an opportunity to view this versatile actor's work from an entirely new angle when the picture opens for a three-day run next Monday. Not only does he go smashing and crashing through five reels of complicated comedy-drama, but he portrays emotion that has a heart touch in it. The trend of the story carries him from the sublime to the ridiculous, and although much that he does is grotesque there is never a time, it is said, when he does not win your sympathy with his antics.

The vaudeville embraces Paul and Pauline in a novel aerial turn. Eugene Emmett, the Dublin Minstrel, and Bryant and Stewart, the two Gentlemen Jesters.

Raphael-Mack's Fashion Show, with eight charming models, will be an added feature. The winsome misses will display Springtime's newest modes as decreed by Dame Fashion. The millinery worn will feature New York creations from Ryan's Hat Shop.

BERT LYTELL AT LOEW'S NEXT THURSDAY IN "THE MISLEADING LADY."

In "The Misleading Lady," which comes as the feature attraction at the Loew Theatre, for a run of three days, beginning Thursday next, local motion picture patrons will be treated to a screen version of the notable play. More than that, they will see Bert Lytell, that versatile and gifted young actor, who has won an undisputed niche in screen-dom. He has the dashing role of Jack Craigen, the confirmed woman hater, whose first appearance in effete New York after a stay in South Africa brings with it his complete surrender to beautiful Helen Steele. Only after he has made his avowed dose Craigen learns that she made him propose to prove her fitness for a leading part at a millionaire's "little theatre." Infuriated by such treatment, Craigen abducts her to his hunting lodge and proceeds to a brusque wooing, which begins with the lady chained, and ends in a breathless episode in which he wins against the claims of Helen's fiancé.

The vaudeville bill will include George Gifford in foot feats and sayings; Chic and Tidy Harvey in smiles, tunes and originalities, and the Royal Harmony Five, society soloists, in a song revue of classic and popular successes.

LOEW'S TO SHOW NEW SPRING MODES—EIGHT CHARMING MODELS WILL DISPLAY NEW SPRING STYLES AS DECREED BY DAME FASHION.

Monday, Tuesday and Wednesday next will undoubtedly be days of keen interest to feminine patrons of Loew's Theatre, when the Raphael-Mack Company will stage a fashion revue. It will be an authentic and gorgeous exhibition of new springtime modes as decreed by Dame Fashion, and eight charming misses will disport themselves in the natty new wearables for 1921.

By special arrangement, the living models will also display the new millinery creations, the models coming from London's millinery salon, Ryan's Hat Shop.

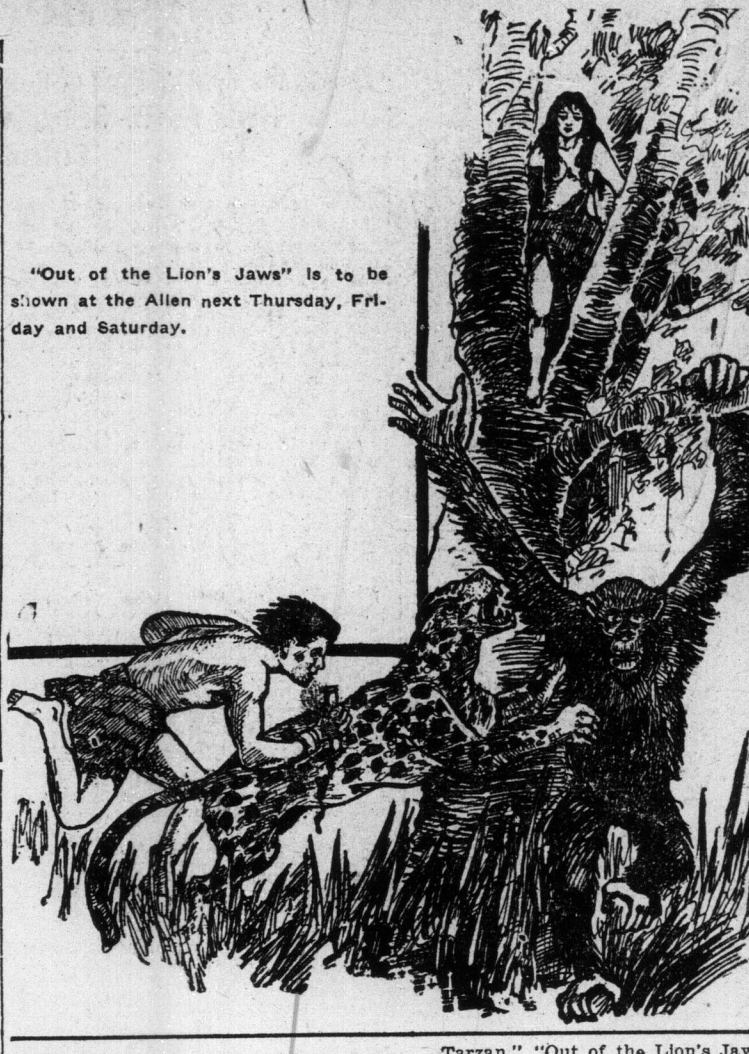

All in all the revue will enlighten a myriad of London as to the new and authentic styles for spring and summer wear, 1921. It will be an unusual event, partly due to the unique method of placing the new models on display.

THURSDAY, FRIDAY AND SATURDAY—Second episode of "Son of Tarzan."

AT LOEW'S. DOUGLAS FAIRBANKS, IN "THE NUT," AT LOEW'S MONDAY, TUESDAY AND WEDNESDAY.

In "The Nut," Douglas Fairbanks' fifth production, the star has a vehicle that is absolutely made to order. It is not pictured from some widely-read book or famous stage play, but is an original story.

The management of the Loew Theatre announces that Fairbanks' admir-

"Out of the Lion's Jaws" is to be shown at the Allen next Thursday, Friday and Saturday.

WHAT'S DOING AT THE LOCAL PLAYHOUSES

What the Press Agents Say About the Shows

AT THE GRAND.

A. H. WOOD'S LAUGHING FARCE, "UP IN MABEL'S ROOM," AT THE GRAND TWICE TODAY.

One of the brilliant theatrical events of the current season is the engagement of A. H. Wood's production, "Up in Mabel's Room," the sensational New York farce success, which delighted capacity audiences at both performances at the Grand yesterday. "Up in Mabel's Room" ran for eight solid months at the Hitting Theatre, New York, where it was pronounced one of the big laughing successes of last season. The play is in three acts

MR. BERT LYTELL IN "THE MISLEADING LADY" Feature photoplay attraction at Loew's Theatre next Thursday, Friday and Saturday.

AT ALLEN'S.

"WOMAN IN HIS HOUSE," FOUR DAYS AT ALLEN'S, BEGINNING MONDAY.

"The Woman in His House" is coming to the Allen Monday, Tuesday, Wednesday and Thursday. Was she a wife to be loved, or just a woman in his house, an ornament of surpassing beauty to brag about, in a setting of mansions, or a mate in the true sense of the word, sharing his troubles and triumphs? He a great musician, absorbed in his march to fame, she a lovely, lonely woman, and gradually they drifted apart. "The Woman in His House" has come from the artist's hands a triumph of dramatic force, of beauty, and exquisite harmony, which will open the flood-gates of your tears and damp them up with joy and laughter.

Big Roll comedy of South Poland in "Paint and Powder," Allen Canadian news, and overture selections of the latest popular airs, featuring "Blue Jeans," will complete the program.

SECOND EPISODE OF "SON OF TARZAN," ENTITLED "OUT OF THE LION'S JAWS."

The first episode of that wonderful jungle serial, "The Son of Tarzan," was sure interesting and thrilling enough to satisfy everyone, but the second episode, entitled "Out of the Lion's Jaws," is said to be even more thrilling, to have more exciting scenes, than the first.

In the second episode, the Son of Tarzan reaches the jungles Africa with his one and only friend, the great ape Akut. Through thrilling scenes galore of fights, rescues, chases and wild adventures on shipboard they go, meet-

GETTING THINGS RIGHT—PICTURE DIRECTOR TOOK INFINITE PAINS TO PREPARE "WAY DOWN EAST."

"One reason for the great expense," said Lillian Glah, in speaking of the \$800,000 that was spent by D. W. Griffith on "Way Down East" was in Mr. Griffith's insistence upon getting just the right sort of interiors. He was just as insistent, let me say, in getting exteriors that should typically represent New England in spring, summer, autumn and winter, but for the interiors of the house that was used and for the barn scenes months of time were spent. When we were in Vermont for the river scenes and for the outdoor effects we would spend every Sunday driving through the country to see farmhouses and their contents. Here and there we would find some relic that was just the thing to give atmosphere and these relics were purchased and were carefully placed so that they would have the suggestion of genuineness. The furnishings are all genuine and are of New England although they came from different homes. Then it was a great thing for the members of the company to get acquainted with the country people in remote places so that our characterization would be recognized as of the soil. Viva Ogden, who was in the original company, of course was familiar with New England types, and it was surprising to note that she was not unlike many women with whom we came in contact—I mean in little peculiarities of manner or of appearance.

"It was a funny thing about the man you will see in the barn dance, cutting capers and having apparently a wonderful time. He really enjoyed himself completely. He is from New Hampshire and he has the reputation in his home town of being the best dancer for miles around. He was so interested in the filming of "Way Down East" that he came all the way from his home to Mammothrock to the studio. He was shown all through the grounds and buildings and then he was asked whether he had ever been in New York. He admitted that he was making his first visit to any place in the vicinity of the metropolis and that he had never been in Manhattan. Of course it was suggested that he could be taken for an automobile ride into town. "No," was his response. "I don't think I want to see the town." "Why," someone said, "it will not take you long, and you are not likely to come back here." "That's so," he commented, "but if it is all the same to you, I think I'll go straight back

AT LOEW'S.

DOUGLAS FAIRBANKS, IN "THE NUT," AT LOEW'S MONDAY, TUESDAY AND WEDNESDAY.

In "The Nut," Douglas Fairbanks' fifth production, the star has a vehicle that is absolutely made to order. It is not pictured from some widely-read book or famous stage play, but is an original story.

The management of the Loew Theatre announces that Fairbanks' admir-

ers will have an opportunity to view this versatile actor's work from an entirely new angle when the picture opens for a three-day run next Monday. New Medical School Nears Completion; Best in America

Planned and Constructed Entirely by Local Talent—Cost in Spite of High Prices Has Been Remarkably Low—Many Unique Features Included in Building—Ready for Occupation in a Month's Time.

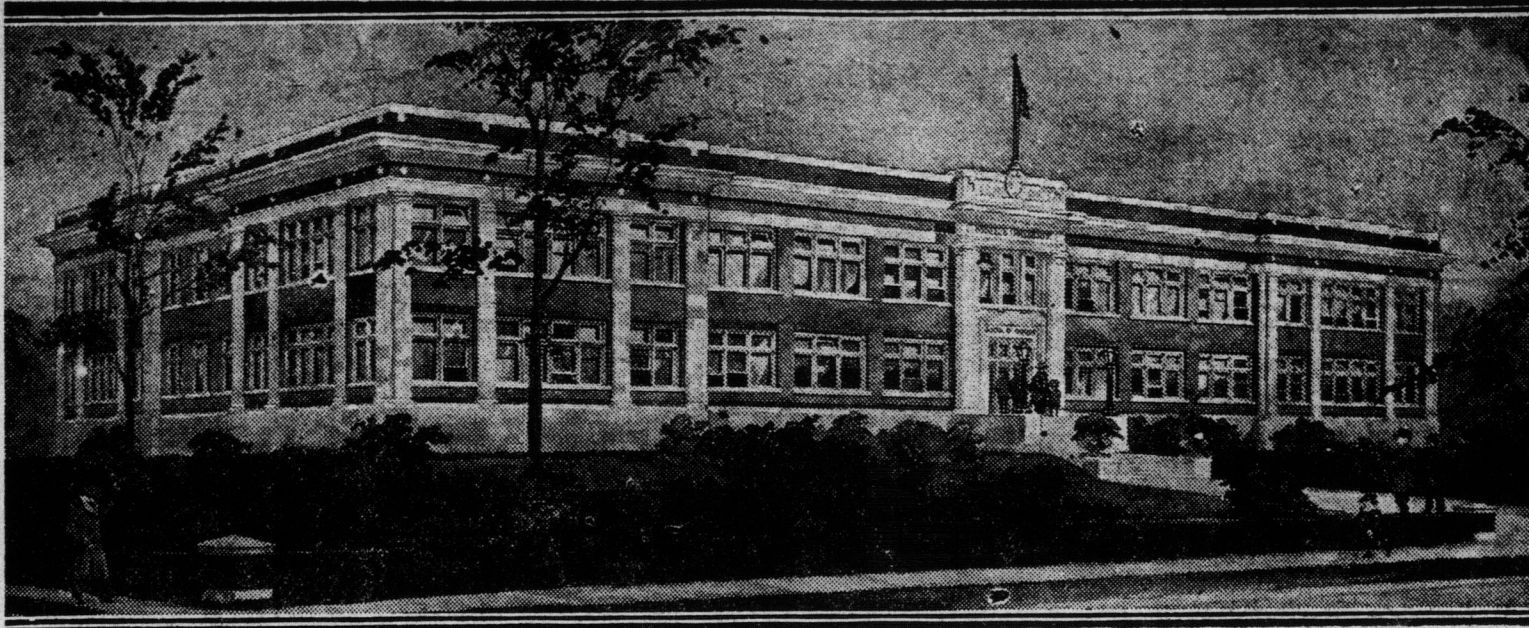

What may be described as a semi-official inspection of the Western University's new medical school building, located on Ottawa street, took place yesterday morning when Philip Pocock, chairman of the medical committee of the university, and E. V. Buchanan, general manager of the public utilities commission, accompanied by representatives of the local papers were escorted through the building and initiated into its many unique features by Dr. P. S. McKibben, B.S. Ph.D., professor and chief of the department of anatomy, who has been responsible for and has supervised the very complete modern equipment with which the school is supplied in all its several departments, and E. W. Swade, who has supervised with outstanding success the general construction work.

When completed and with its full attendance the building will accommodate between 300 and 350 students, registered in the medical school department of the Western University. Two of the professors have already moved to the new building and it is expected that all departments of the school from their present quarters to new premises within the next month.

While no definite arrangements have yet been made it is expected that a grand formal opening will take place sometime this summer, the ceremony being in the hands of some well-known public man.

A unique feature brought out by the

London's Splendid New Western University Medical School

This elaborate structure, built according to the latest ideals in collegiate architecture, will be ready for occupation within a month's time. Accommodation will be available for approximately 350 students. The date of the formal opening is now under consideration, and some classrooms are already in use.

near approach of the completion of a task commenced in the latter part of October, 1919, and carried through with success during a period when labor was scarce and prices at their peak, is that it has been brought to a successful finish, which promises to make it one of the show places of the city, at a cubic foot cost considerably below that of other public buildings in London and elsewhere.

Lowest Cost.
The cost of the building and its equipment, with the exception of ordinary furnishings, which will amount to only 28.5 cents per cubic foot, while the cost of the Children's Hospital, according to contract, will be 60 cents per cubic foot, and the cost of the city schools, according to estimate figures, 45 cents per cubic foot.

The construction of this new unit in the progress of the city, the Western University and of Western Ontario has been carried out by local talent, the designs and specifications being prepared by Watt & Blackwell, local architects, and the contractor being John Fetherburgh, while the whole thing has been brought about and supervised by the following committee appointed by the governors of the university: Philip Pocock, chairman; Arthur Little, president of the board of governors; the late Dr. H. A. McCullum, Dr. P. A. McKibben, Dr. W. E. Waugh, T. J. Murphy and C. R. Somerville. In January, 1919, the citizens sanctioned a grant of \$100,000 to the medical school.

Description of Building.
The building is laid out in the form of the letter "E," with the west wing facing on Waterloo street. The two outside wings are separated by an open space 41 feet 6 inches in width forming the centre wing, thereby permitting the excellent lighting of all the rooms, which is an outstanding feature immediately noticeable on entering the building. The elevation plans of the building, in addition to the two stories and basement, provides for a grand staircase to the central wing. In front of this basement and sub-basement is a modern gymnasium, 70 feet in length by 40 feet wide, with what is claimed to be the best gym floor in the city. Along each side of the gym are spacious balconies, which will accommodate from 150 to 200 spectators. On occasion the gym can also be used as a public lecture room, in which an audience of 600 to 800 people could be accommodated.

Large Auditorium.
Straight ahead as one enters the building by the main entrance on Ottawa street is the auditorium, designed with a sloping floor and a raised platform, and capable of seating 225 people without crowding. Special attention is given here to facilities for illustrated lectures, including a portable white permanent screen inset in the wall at the back of the platform and electrical outlets in the floor at distances which permit the setting up of the lantern for 35 feet or 55 feet projections. The auditorium is immediately above the gym.

From the main entrance both to the east and to the west extend wide and well-lighted corridors, which are continued down the centre of each wing. These corridors are repeated on the second floor, and from their entrance is made to the various lecture, research, reading and demonstration rooms and laboratories. Immediately to the right of the entrance on the ground floor is located the general office, with a commodious library next beyond it, in which will be housed the 3,000 volumes in active use, while in an adjacent room will be stored the books of reference, etc., not so frequently used. The library proper will be used as a reading and study room.

Many Research Rooms.
On the same floor and in the east wing of the building are located the departments of histology and embryology, each department having, in addition to the main laboratory and lecture room, research rooms for the students, and the office of the professor in control, with a private laboratory and research room for the use of the professor and his assistant. Each of these rooms is equipped with lavatory accommodation. Similar provision is made in the west wing, and in front, where are located the departments of pathology and bacteriology. In connection with this latter science, there is provided a culture room, constructed with four-inch cork walls and door, in which a permanent temperature of 98 degrees (blood heat), will be maintained for the culture of the different microbes under study or for use in the conducting of experiments.

In the same section of the building is a refrigerator room, cooled by the ice plant located below it in the basement, in which can be kept specimens under examination. In addition there are media and cleaning rooms, and a sterilizing room, where the specimens, apparatus and instruments may be sterilized by hot air before and during the progress of experiments.

On the second floor of the building

the west wing and front are occupied by the departments of physiology, general chemistry and pharmacology, while the east wing and front are occupied by the departments of physiology and anatomy, in connection with which is a large morgue for the care of the cadavers. A portion of the spacious roof, a large part of which has been converted into a roof garden, is occupied by the animal house, cages and operating runs for the accommodation and care of animals needed in the study of biology, etc.

In the basement are located a spacious and excellently lighted reading room for students, a large lecture room, large toilet room with baths and showers, dressing and locker rooms for use in offices and laboratories. Here also are located the necessary shops and storerooms for the several departments, including a large machine shop, the whole building, with the exception of the refrigerator and ice-making room, is heated by steam radiators along the walls, and in the case of rooms with skylights, by pipes carried round the wall of the skylight.

Steam-Heating System.
The steam-heating system consists of a low-pressure system (run at from two to five pounds gauge pressure) of an automatic device to regulate the pressure, provides a constant compressed-air system with 200 outlets for laboratory use scattered throughout the building. Alongside of these two systems there is installed a dry vacuum system of practically the same size as that for compressed air, and a gas installation serving some 400 outlets, ranging in size from 1/4 inch to 1 1/2 inch.

An electric clock and bell system, consisting of a master clock and three secondary clocks and a series of gongs by means of which the daily program is controlled.

Two Otis Fensom elevators, each of 2,000 pounds capacity and fitted with automatic stop and stop stops, give access to each floor. One is located in the east wing and the other in the west front near the west stairs.

Telephone service through a private branch exchange supplied from two trunk lines, and inter-communicating phones in the office and professor in charge of a department, the janitor's apartments, the boiler room, etc., has been provided.

Light and Power.
Special care has been given to the electric light and power wiring throughout the building, and for various purposes have been placed in all the laboratories, lecture rooms, etc., in the form of floor base, wall and desk plugs. A number of motor outlets have also been installed at numerous points throughout the building.

In connection with the plumbing and ventilating systems, which must necessarily be of great importance in such a building, every possible care and modern device has been brought into play to insure the best possible service by each system.

As a means to insure efficiency of operation in connection with all these services, unit arrangements have been carried out to an unusual extent and with special care so that in the event of an accident or need for cutting off of either service in a particular part of the building, it can be done without the least interference with any other department or section. In the physiological department the ventilation system is of the exhaust type.

The general lighting is a combination direct and diffused light system, with special lighting facilities provided where necessary.

Building Fireproof.
Practically fireproof, the construction of the building has secured for it what is believed to be the lowest fire insurance rate in the city. The construction is reinforced concrete skeleton, foundation, walls, floor slabs, beams, columns, etc. The outside walls are red tapestry brick, trimmed with Indiana limestone and backed up with hollow tile. The interior partitions are gypsum block. The two-inch Barrett specification, guaranteed 20 years, applied over a built-up wooden roof, except over the auditorium and boiler house, where it is applied directly on concrete slab.

The finished floors in the corridors, general offices, library, etc., are a very pleasing grade of terrazo, on a six-inch concrete base. On the second floor the floors of the toilet and operating rooms are of birch, and the lecture room with a six-inch terrazo base. In the janitor's apartments and the gymnasium the floors are of birch maple, respectively, nailed to wooden sleepers embedded in rough concrete. All other floors are concrete set on a six-inch concrete base.

With the exception of the janitor's apartments, the auditorium, main entrance, gymnasium and operating room, the interior walls are two coats of plaster finished with a wood float, and the ceilings putty coated directly on the concrete. The gymnasium, janitor's apartments and operating room walls and ceilings are putty-coated. The only ornamental plaster used in the building is to be found in the auditorium and the main entrance vestibule.

In the vestibule, lobby and auditorium entrance a coffer ceiling used with run-moldings gives a most pleasing effect. In the auditorium the walls are

No Knocks Gas Savers

Have Proven Their Efficiency Both as

GAS SAVERS AND AS CARBON DESTROYERS

The results are so certain, the relief so prompt and the savings so great and continuous, that no car owner can afford to be without one. The price is \$15.00, installed on your car, the one and only expense.

WORKING FULL TIME.
DETROIT, March 25.—Resumption of full-time operations effective March 25 was announced today by the Hudson Motor Car Company. The company has been operating with a curtailed force on a reduced working schedule for several months.

Grandma is Their Doctor

"ON an old-fashioned bureau, in a house I know, lies a large-sized New Testament with the binding well worn, and with it a much-used old copy of Dr. Chase's Receipt Book. When the calves have the colic or the neighbor's baby the earache, 'Grandma' hands out well-assimilated advice from the Dr. Chase Book. When 'Grandma' herself feels 'run-down,' Dr. Chase's Nerve Food stands ready on the dining-room table among the salt and pepper shakers."

In these few simple words Mrs. Bert Smith, Way's Mills, Que., beautifully describes the way in which many a grandmother is tending to her family and to her neighbors as a guardian of health.

And what finer compliment can be paid to Dr. Chase's Receipt Book and Dr. Chase's Medicines than the approval of such mothers of experience as the one here described.

Just as in this home, Dr. Chase's Almanac hangs on the wall in the great majority of Canadian homes, and in the cupboard or medicine chest will be found one or more of Dr. Chase's Medicines ready for use in case of emergency.

If you did not receive a copy of Dr. Chase's Almanac it will be sent free by Edmanson, Bates & Co., Ltd., Toronto.

Aspirin

Nothing Else is Aspirin

Warning! Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all.

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 21 years and proved safe by millions for Headache, Earache, Toothache, Neuralgia, Colds, Rheumatism, Neuritis, Lumbago, and pain generally. Made in Canada.

Handy tin boxes of 12 tablets cost but a few cents—Larger packages.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monacopolis, Germany. While it is well known that Aspirin means Bayer Manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

POLITICAL CHAOS SEEN IN BERLIN IF CABINET RESIGNS

Allies Not Likely to Find Government That Would Negotiate.

LONDON, March 25.—The German political situation probably will not crystallize before Monday. The resignation of the cabinet headed by Chancellor Konstantin Fehrenbach is regarded as inevitable, the chief question being not whether its strength can be restored but what political combination will replace it. Without news of exacting nature, the cabinet is expected to resign in connection with the reparations conference, political observers here are not inclined to predict what course will be followed. They feel that the decision rests with the Entente Allies. If the Paris sanctions are enforced immediately a Nationalist Government in Germany is predicted on the fall of the present cabinet, thus permitting the Conservative German People's party to try their hand.

This idea is being discussed favorably, especially by the Liberals and the Radicals, and the cabinet is expected to resign on the basis of national honor and abrogation of the treaty of Versailles consequent on the sanctions.

The probability of a coup d'etat is difficult to estimate. The warning in Hugo Stinnes' newspaper, the *Allgemeine Zeitung*, last week, it now develops, was inspired in part by the hope of frightening the Prussian Diet into extending its new coalition by the inclusion of the German People's party. But where there was so much smoke there must have been some fire, and an official Prussian statement has now appeared to the effect that no one dares let himself doubt the actuality of the peril.

But if the Allies delay enforcing the sanctions, it is held that it would be impossible to find a German Government immediately which would negotiate on the basis of the Paris agreement. It is felt here that the Allies must be aware of the danger and may have decided already to extend the time of the ultimatum as soon as it is settled that the Fehrenbach ministry will fall. But even if the ultimatum is enforced, it is held that the Allies still could not count on finding a German Government that would negotiate over the Nationalists' overthrow.

Inference continues to be made secretly that sinister influences are working in an effort to force a break in the Entente and bring on a new situation in Europe. These are usually linked with the activities of Hugo Stinnes in politics.

The present cabinet has burned all its bridges behind it, according to sentiment here, first by its refusal in the Reichstag to negotiate with the Entente on the basis of the Paris reparations agreement between the Allies, and

ONE JOB

In looking for work this fellow gives a good account of his qualifications without saying a word. The picture was taken on a street in Putney, England.

Reaching the Businessman

Reams have been written on how to reach that supposedly elusive phenomenon—the businessman.

Yet there is a simple way.

The more businesslike, the more alert he is, and the larger his interests, the more certain is he to be found at least once a day reading his favorite newspaper.

You know the type. Good citizen, good father, good husband, good businessman, pillar of society.

He may steal a few hours occasionally to read a book.

But he always reads his daily newspaper.

And the experienced advertiser, whose appeal is to the business, technical and professional man, uses Daily Newspapers to reach him, because he knows that the newspaper, in itself, is the greatest impulse to action.

At the present time daily newspaper advertising designed to interest only businessmen is appearing regularly for so widely diversified a group of products as:

Transmission Machinery:
Shafting, Hangers, Pulleys, Couplings, Belting.

General Machinery:
Bearings, Boilers, Tanks, Gear Cutters.

Builders and Contractors:
Bricks, Asbestos.

Architects and Industrial Engineers:
Roofing, Window Frames, Heating and Ventilating Machinery.

Financial Advertising:
Almost every Government, Municipal and Corporation

The Evidence speaks for itself.

We urge you in all seriousness to sit down after dinner this evening and figure out whether you cannot use this mighty force—Daily Newspaper Advertising—to your advantage.

If you think that you could, providing you were shown how, write to us; or consult any recognized advertising agency.

Issued by the Canadian Daily Newspapers Association.

SON BORN TO GREEK KING'S MORGANATIC WIDOW

ATHENS, March 25.—Madame Aspasia Manos, the morganatic widow of King Alexander, today gave birth to a daughter.

Madame Manos is the daughter of a former aide-de-camp of King Constantine. The marriage between her and Alexander is reported to have taken place before he was in direct line to the throne, and while his chances for succeeding his father, Constantine, appeared very remote. The union was the culmination of youthful friendship.

There have been reports that if Madame Manos' union with Alexander resulted in the birth of a male child, she would set up a claim for the succession to the Greek throne.

TURKS CLAIM TO HAVE DEFEATED GREEKS

CONSTANTINOPLE, March 25.—Turkish official reports declare that the Turkish Nationalists east of the Smyrna district have attacked and defeated the Greeks, who began an offensive on Wednesday. It is said that 1,700 Greeks were taken prisoner, and that the Nationalists have captured twenty guns. The Turks at first retired before the Greek advance, reports state, but, being reinforced, they launched a counter-attack.

It was claimed in Greek circles here yesterday that the town of Eski-Shehr, one of the objectives of the offensive, had been taken, but this rumor has not been confirmed.

HEAVY DEMAND FOR EGGS TODAY

Over 5,000 Dozen Disposed Of On Easter Market.

DECLINE IN "SWEETNESS"

Maple Syrup Finds Ready Sale at \$3 Per Gallon.

The 5,000 dozen eggs on the local market on Saturday reduced prices to levels below expectations. It was estimated that in the market house there were over 2,000 dozen. Buying was active, and it was expected that the biggest part of the supplies would be sold out by early afternoon. Some farmers only asked 25c per dozen wholesale. The ruling quotations were 30c and 31c wholesale and 33c and 35c retail.

A number of farmers offered poultry. The demand was not active, so prices in the majority of cases were unchanged. Three turkeys sold at 55c per lb; dressed chickens brought 35c to 40c per lb wholesale, and 40c to 42c retail; live chickens sold at 45c and 50c per lb; ducks and geese appeared to be more in demand than chickens. Hundreds of gallons of maple syrup were responsible for a sharp decline in the price. By the gallon it sold for \$2 and by the quart \$3. There was a good demand.

The heavy supplies of potatoes practically made them a drug on the square. Farmers, it is stated, took as low as 75c per bag, but the majority of sales were around 80c per bag wholesale, and from 90c to \$1 retail.

Cats were slightly lower with the poor demand. The price set today was \$1.50 per cwt, and 51c per bu.

Two loads of wheat offered today reduced the price to \$1.30 and \$2 per bushel and \$3.17 and \$3.33 per cwt. It is quite unusual for hay to be on the square on Saturday, but because of the holiday on Friday several loads were offered today. There was a good demand and prices advanced to \$2 and \$2.25 per ton.

A number of Easter lilies brought 50c per bloom.

Government and Municipal Bonds

Paying 5.75% to 7.25%

will soon be a thing of the past, because as money becomes "easier" interest rates will go lower.

This is the time of times to buy Government, Provincial and Municipal Bonds. Their security is perfect; their income sure; and your peace of mind absolute.

NO TRACE OF MISSING AERONAUTIC STUDENTS

Left Pensacola Tuesday Night and Drifted Out Over Gulf.

PENSACOLA, Fla., March 25.—Continued search today by squadrons of aeroplanes, flying boats, dirigibles and eagle boats failed to discover any trace of the missing U. S. naval balloon command Chief Quartermaster G. K. Wilkenson, carrying four students, which left the naval air station here Tuesday night and was last reported over the gulf, twenty miles off St. Andrew's Bay. Naval officials, however, have not given up hope of rescuing the missing men.

RUPTURE EXPERT HERE

SEELEY, FAMOUS IN THIS SPECIALTY, CALLED TO LONDON.

F. H. Seeley of Chicago and Philadelphia, the noted truss expert, will personally be at the Tecumseh Hotel and will remain in London this Saturday and Sunday only, March 25 and 27. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in ten days on the average case. Being a vast advancement over all former methods—employing instantaneous effects immediately appreciable and withstanding any strain or position. This instrument received the only award in England and in Spain producing results without surgery, injections, medical treatment or prescriptions. Mr. Seeley has documents from the United States Government, Washington, D. C., for his charge, or if any injury should be done, he will be held liable. Without charge or fee if it is desired. Business cannot prevent stopping at any other place in this section.

P. S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seeley.

Home Office, 117 North Dearborn Street, Chicago.

GERMAN COMMUNISTS

communists made prisoner are beaten and insulted by the police.

Used Searchlights.

Throughout the night police searchlights played over the city. Rockets were sent up at regular intervals, each flare followed by a fresh burst of fire. The combatants surged back and forth before attacks and counter-attacks, but the police appear in the first signs of a policeman. On the outskirts of the city refugees are awaiting the end of the fight to return to their homes.

The communists, whose only distinguishing mark consists of the red button of the world revolutionists, are united in deepest hatred for the "green" police, whose ranks they say, comprise former soldiers controlled by officers of the old army.

On the other hand, the security police are outspoken in their bitterness toward the Entente and the Soviets.

"We have to fight the Russian swine with insufficient guns and a small force," the Entente is to blame for this," said a lieutenant today as he led five hundred men in an attack against the communists.

BEING OVERCOME

LONDON, March 25.—Though the outbreak in Germany is still dangerous, the communists are being overcome by the forces of law and order, according to reports from the different centres, says a Central News dispatch from Berlin today. At Eisleben, where the situation yesterday was reported most critical, the police, the reports state have driven out the communists, who have entrenched themselves in the neighboring hills and are directing machine gun fire on the police strongholds. The troops in Hamburg, where the police has been destroyed.

There has been no repetition of the disorders in Hamburg, where the police are masters of the situation, the reports add.

TRIED TO BOMB PREMIER'S TRAIN

Head of Italian Government Was On the Train Following.

ROME, March 25.—A bomb exploded on the Rome-Leghorn railway last night shortly after a train from Rome on which Premier Giolitti was supposed to be travelling had passed, the Tempo's Leghorn correspondent reports today, adding: "It is believed an attempt was made to wreck the train." The premier, it transpires, was on the train following that which passed just before the explosion.

GOLD WATCH FOR NEW STRATFORD PASTOR

MONTREAL, March 25.—A most cordial farewell was taken this morning in Verdun Baptist Church of the pastor, Rev. H. Campbell Plant, who is leaving next week to assume the pastorate of the Baptist Church at Stratford, Ont., after four years' service here. The fact that the church was crowded to its utmost capacity for today's valedictory hours testimony of the esteem of his congregation's gratitude. Rev. Mr. Plant was presented with a solid gold watch, and Mrs. Plant with some silver plate. To Miss Edna Plant an album was presented, and to Miss Dorothy Plant, a satchel, and to "Bobbie," a silver mug.

HASTINGS REMAINS WILL BE EXHUMED

Inquest Being Held Under the Perth Crown Attorney's Orders.

[Special to The Advertiser.]

MITCHELL, March 25.—Acting under instructions from Crown Attorney Pherson of Stratford, Coroner J. W. M. Armstrong tonight ordered W. S. Gormley, undertaker at Dublin, to exhume the remains of Daniel Hastings and have them ready for the inquest, which will be opened here on Saturday morning at 10 o'clock.

The stomach of the dead man will be sent to Toronto for analysis, and it is expected that a report will be received in time for the inquest to be resumed on April 1.

Coroner Armstrong stated to The Advertiser tonight that it is likely the evidence of Dr. R. S. Murray of Mitchell, who was called to attend Hastings, and who believed the death certificate, and of Constable Ingram of Mitchell will be taken as an inquest.

Caused Sensation.

The statement made by Mrs. Hastings that she killed her husband by giving him strychnine has caused a sensation throughout the countryside. Mr. and Mrs. Hastings were very highly regarded, and were looked upon as a very happy and contented couple.

It was stated to The Advertiser tonight that Hastings bought a 50-acre farm near Seaforth recently, and was to have moved there next week. Mrs. Hastings, it is stated, had been looking after most of the finances since Hastings came back from the West two years ago. They had a joint account.

Her statement in her confession that she killed her husband because she feared him, is taken to mean that she had spent money that he was depending on to pay for the new farm, and that she had feared what would happen when he discovered what she had done.

Made No Statement.

Asked by The Advertiser tonight if Mrs. Hastings had made any statement to him, Hastings was called by Dr. R. S. Murray said no. He stated that he was called about 11 o'clock at night to the Hastings home. When he got there he found Mr. Hastings dead.

The jury which will view the remains on Saturday morning is composed of Joseph Nagle, W. Klinkhammer, Nelson F. McConnell, J. O'Loughlin, George Diegel and Joseph Shea.

THEY HELPED HER FROM THE FIRST BOX

Why Dame Lemieux Praises Dodd's Kidney Pills.

She Took Her Friends' Advice When She Thought an Operation Might Be Necessary and Used Dodd's Kidney Pills.

Ledges, Mrs. Brunette, March 25.—(Special)—Dodd's Kidney Pills have few warmer friends anywhere than Dame Lemieux, a well-known resident of this place. She has tried Dodd's Kidney Pills and found them good.

"I suffered from pains in the kidneys, head and back," Dame Lemieux states, "I felt it should be so, but I submitted to an operation. My friends advised me first to try Dodd's Kidney Pills. It did do, and my health seemed to improve from the first box. My illness of the side and abdomen disappeared and my kidneys are much better. I feel like working now."

Women all over Canada are praising Dodd's Kidney Pills. Each of them gives her reason. For women or diseased kidneys are the cause of most of the ills to which woman is heir. Ask your neighbors if Dodd's Kidney Pills are not the best remedy for sick kidneys.

THREATEN TO KILL PEMBERTON BILLING

British M. P. Warned To Stop Discussing the Irish Question.

ST. LOUIS, March 25.—Pemberton Billing, member of the British Parliament, declared in an address here yesterday that his life had been threatened for a speech on the Irish question Wednesday.

Mr. Billing, in an address outlining Great Britain's position on the situation in Ireland, said he received an anonymous telephone message today warning if he did not cease his activities within a week he would be shot.

MANSLAUGHTER IN SECOND DEGREE

Using a razor—had stuff—but many people do it for their corms. The only remedy that is painless and sure is Putnam's Corn Extractor, which does remove warts and corns, cleans them right off. Refuse a substitute for "Putnam's"; 25c everywhere.

McLAUGHLIN

Toronto University

THE new McLaughlin Master Six Roadster is the undisputed leader in the roadster class. The new radiator and hood and the unique body design of this model give it a racy appearance that is extremely pleasing. The smart, graceful lines, the speed, power and quick acceleration make it the favorite among men whose business demands the personal car.

Ladies who drive favor the roadster model of Canada's Standard Car because of its beauty, ease of control, its comfort, dependability and extreme roominess. Ample luggage space is provided by the large compartment in the rear. The driver of this McLaughlin Roadster is the discriminating motorist whose choice of a car is influenced by beauty and utility.

To Manufacturers

THIS Bank considers that one of the most important of its functions is to meet the needs of Manufacturers. Our record of substantial development during the past 45 years has been largely due to this policy.

By the closest co-operation with Manufacturers both large and small, and by a never-failing vigilant interest on their behalf, wide mutual benefits have resulted.

We cordially invite the accounts of Manufacturers.

A STYLE TREAT
 Raphael-Mack Store Arranges a Fashion Show at Loew's.
 The discriminating women of London are to be treated next week to what will unquestionably prove to be the most extensive exhibit of spring styles ever held in this city. Acting in co-operation with the management of Loew's Theatre, Raphael-Mack Company will stage a grand promenade of living models attired in Dame Fashion's most distinctive creations, twice daily on Monday, Tuesday and Wednesday next. This novel and up-to-the-minute method of displaying the new styles will undoubtedly prove an outstanding success in local merchandising. Such an exposition, giving the opportunity as it does for every woman and miss to inspect on a living model each and every distinct fashion tendency—reflects great credit upon the stores responsible for it, and merits the interest and attendance of every well-dressed woman.

PROPER STYLE
 THERE is a distinctive style in glasses best suited to each individual. Glasses correctly designed harmonize with the features. We are expert eyeglass designers.

RAIN STOPS SEEDING.
 HYDE PARK, March 25.—A few farmers in this district have been busy preparing the land for sowing spring wheat, but have been held up by the heavy rain, as the land is working heavy. Fall wheat is in splendid shape. If nothing unforeseen happens, the prospects are for a bumper crop.
 Mrs. (Rev.) Powell of Luan, Ontario, is spending a few days with her parents, Mr. and Mrs. Tuckey.

RHEUMATISM—IS YOURS ACUTE OR CHRONIC?
 In either case you'll get such results from good old "Nerviline" which has five times the pain-destroying power of ordinary remedies. Nerviline gives results because it penetrates to the source of the pain, because it contains ingredients that destroy rheumatic pains. It is the unusually bad case that proves the power of Nerviline. Suited for young and old; used internally and externally for many purposes; 35c at all dealers.

Only Ryan Hats
 SELECTED FOR USE IN
Raphael-Mack's
: Fashion Show :
At LOEW'S THEATRE
 MONDAY, TUESDAY AND WEDNESDAY, MARCH 28 TO 30
 It Is Worthy of Note
 That the Hats of the Ryan Hat Shops were considered the most desirable for this purpose, as authentically typifying the latest New York features in millinery.
 We have just received a last-minute shipment of Hats from New York, only one of a kind, priced at \$11.50 to \$16.50, which present the last word in millinery thought as seen by our buyer on his trip to that city last week.
Ryan Hat Shops
 LONDON ADDRESS: 260 DUNDAS STREET.

ALLIES REFUSE GERMANS' REPLY ON REPARATIONS
 Hun Message Found Unacceptable in Its Present Form.

PARIS, March 25.—The German delegation here today delivered to the allied reparations commission the German reply to the note sent by the commission yesterday giving Germany warning of the infliction of penalties under the peace treaty unless she paid before May 1 the twelve billion gold marks, balance of the twenty billion mark payment due under article 235 of the treaty.
 The commission decided that the reply was unacceptable in its present form and refused to accept it from the German delegates. The Germans agreed to draft another reply, which, however, will not be ready before next week.

HAS BEEN POSTPONED.
 PARIS, March 25.—Consideration of the German policy towards Germany in view of her refusal to pay by May 1 the twelve billion marks gold demanded by the reparations commission as the balance of her twenty billion marks obligation under the peace treaty, will be postponed for a few days, it developed today.
 The Entente foreign office, it was stated, would wait until after the Easter holidays to begin active consultations on the reparations commission's report of Germany's refusal to pay, and the meeting of the council of ambassadors which had been set for today was abandoned. The ambassadors will not get together for their consultations before the middle of next week.

EXCELLENTLY-RENDERED SERVICE OF PRAISE IN KING STREET CHURCH.
 For the first time in its history, perhaps, the King Street Presbyterian Church was last night the scene of a service of praise, presented by the choir of the church under the direction of Leslie H. Roberts, the offering being Mauders' "Olivet to Calvary." This choir of forty voices, newly organized, was in excellent trim, attacking their subject with precision and feeling, and as the choir responded to the mood of the leader. Deep religious fervor marked their whole offering, which came as a fitting climax to Good Friday. The only number, outside of the cantata was "There is a Green Hill." The solo work in the cantata was sung by the Lillian Mowat, soprano; Ed. Webster, baritone; Miss Dora Bradley, contralto; Andrew Bull, tenor, and Frank Chazy, tenor. Freely to the condition of the cantata, Rev. W. R. McIntosh spoke briefly on the subject of the Crucifixion.

FIRST METHODIST MUSIC.
 On Sunday special music will be given morning by the choir and soloists of the First Methodist Church. Rev. Dr. Peever will preside in the morning on "The Easter Outlook and Hope of the World." At night a weird and wonderful cantata will be presented, "The Light of God," a musical realistic presentation of the descent of Christ into the realm of the dead, the lifting up forever of the "gates of brass" and the grand escape of the "immortal radiance." The soloists will be Mrs. E. Wyatt and Carman Leary. Mr. Jordan, organist and leader, will play.

EASTER RETAIL TRADE IN LONDON FAVORABLE
 Manufacturing Becoming More Active and Unemployment Decreasing.
 London reports to Bradstreet's say that retail and wholesale business are both showing the beneficent influence of the approach of spring and Easter week. Retail trade, especially in women's wear and millinery has been good, and there is no doubt that the tide has turned definitely, and from now on improvement is looked for.
 Manufacturing is steadily becoming more active and unemployment is decreasing.
 On the produce markets potatoes are at the moment rather scarce and prices firmer. Deliveries of eggs have been rather light at the beginning of the week, as farmers were tending to hold their stock for better prices at the end of the week under the Easter demand. Butter is scarce and firm. Hay, oats and wheat are firm. Collections are becoming better.

FOOT CRUSHED, BOY FAST IN TURNTABLE
 Police Work For Hour To Free 10-Year-Old Earle Lindsay.
 Police were nearly an hour extricating the left foot of Earl Lindsay, 10-year-old son of John Lindsay, 134 Broadway, from a crevice in the old Lake Erie and Detroit River turntable at Colborne street crossing Friday evening. The boy was playing with companions on the turntable, which has not been in use for many years, and his foot slipping between the edge of the table and an adjacent beam, became wedged there, possibly because the weight of the boy or his companions caused the table to sway to one side. The police were alerted shortly before 6 o'clock, but had to dig underneath and partly chop away the oak sleeper before the boy was released. His foot was badly crushed, but an X-ray examination at Victoria Hospital failed to show any bones actually broken. When the police arrived at the scene of the accident the boy did not appear to be suffering very severe pain, but the foot was swelling rapidly and consequently becoming wedged more tightly.

WEDDING BELLS
THOMAS-STEPHENS.
 A wedding of interest to Londoners took place at Zanesville, Ohio, on March 21, when Miss Rita M. Stephens of this city became the bride of Addison R. Thomas of Liberty, Kentucky. The ceremony was quietly performed at 2 o'clock at the Grace M. E. parsonage, Rev. T. T. Crawford officiating. Mr. and Mrs. Thomas will reside in Zanesville.
 The bride is a daughter of Mr. and Mrs. Charles Stephens, Douglas avenue, this city, and was very popular with a great circle of friends. Mr. Thomas is a member of the Mark Grey Baseball Club, he is a graduate of the University of Kentucky, and has played with a number of baseball teams in United States and Canada. He met his bride while pitching for the Tecumseh here.

BAN ON FARM IMPLEMENTS.
 DUBLIN, March 25.—Among the articles which cannot be imported after March 31 under the boycott of British manufacturers, says a decree adopted by the Dal Eireann today, are plows, mowing machines and agricultural machinery generally.

GOOD FRIDAY SERVICES HELD IN ALL CHURCHES
 Motoring and Angling Enthusiasts Open Season—Railway Traffic Heavy.

Good Friday in London was celebrated in diverse ways, ranging from the hilarious joyfulness of holidaying youngsters to the solemnity of those who looked upon it as a day of deep religious significance.
 At different hours throughout the day services were held in many of the churches for those who wished to commemorate the crucifixion of Christ in worship. For the Methodists "Passion Services" were held, with the churches in each of the four sections of the city uniting. The gatherings were all held in the morning, and were addressed by special speakers. Services were also held in the Anglican and the Presbyterian churches during the morning and evening.
 Although the country roads were good for this season of the year there were by no means conducive to motoring. The heavy weather, however, induced many car drivers to spend the greater part of the day in leisurely drives about the city pavements.
 Regardless of how early in the year it may come, Good Friday is always looked upon as the opening day of the fishing season by many of London's sportsmen. This year was no exception, for in the earliest hours of Friday the banks of the Thames River were thronged with anglers. The river was clear from muddy water, and the weather was bright. The theatres of the city did an excellent business. Both the matinee and evening shows in every playhouse were well patronized.
 Traffic on all the railroads was heavy during Thursday night and early Friday morning. Hundreds of people of this city spent the day in the country or in other cities.

"OLIVET TO CALVARY" PRESENTED BY CHOIR
 Excellently-Rendered Service of Praise in King Street Church.
 For the first time in its history, perhaps, the King Street Presbyterian Church was last night the scene of a service of praise, presented by the choir of the church under the direction of Leslie H. Roberts, the offering being Mauders' "Olivet to Calvary." This choir of forty voices, newly organized, was in excellent trim, attacking their subject with precision and feeling, and as the choir responded to the mood of the leader. Deep religious fervor marked their whole offering, which came as a fitting climax to Good Friday. The only number, outside of the cantata was "There is a Green Hill." The solo work in the cantata was sung by the Lillian Mowat, soprano; Ed. Webster, baritone; Miss Dora Bradley, contralto; Andrew Bull, tenor, and Frank Chazy, tenor. Freely to the condition of the cantata, Rev. W. R. McIntosh spoke briefly on the subject of the Crucifixion.

TO RETAIN GOOD HEALTH FOLLOW THIS ADVICE
 Most important of all is proper attention to the bowels. Avoid constipation—it's the health-killer of today. Harsh, gripping medicine is ruinous—be wary of it. Best results follow a remedy like Dr. Hamilton's Pills, which relieve costiveness promptly and tone the bowels, so that constipation becomes a thing of the past. No distress or inconvenience attends the use of Dr. Hamilton's Pills, which are famous for their mildness and efficiency. For headache, biliousness, indigestion and liver complaint, Dr. Hamilton's Pills are just what you need. Thousands maintain their health by regulating frequently with Dr. Hamilton's Pills; 25c at all dealers, or The Catarrhozone Company, Montreal.

DOCTOR'S BACK MAY BE BROKEN

Little Hope Held For Recovery of Tillsburg Physieian.

TILLSBURG, March 25.—Dr. J. R. Lancaster, who was so seriously injured yesterday, is in a very precarious condition, with only slight hopes of recovery. Two outside specialists were called in today, and both were of the opinion that the injured man's back is broken.
 How he escaped instant death is a mystery, as the car is a total wreck and was dragged 50 feet, carrying before it the cattle guards at the crossing. It is very likely the authorities will request immediate protection at this crossing.

INGEROLL INN SOLD.
 INGEROLL, March 25.—Joseph E. Rawson of Aylmer, completed a deal yesterday by which he becomes owner of the Ingersoll Inn. It is understood that the purchase price was \$12,000. The hotel was formerly the New Daily Hotel, and achieved a good deal of prominence all over the Dominion as a result of being the pioneer local option hotel. About eight years ago it was taken over by the Ingersoll Inn Company, and conducted as a local option hotel to meet the new conditions. It was most successful, and as a result was visited by delegations from all over the country. It has been conducted by Mr. and Mrs. V. N. Dyer.

IS NOW IN JAIL.
 WINDSOR, March 25.—John Warlow, who shot his wife in Walkerville Saturday night last and then turned the gun on himself, was released from Hotel Dieu Hospital this afternoon and removed to Sandwich jail.

son, Master Vincent Hammacher. At the close a short program was given by the pupils. Miss Colena Ferguson as historian gave a resume of the history of the society for the past two terms. Miss Irene Stewart as poetess gave the school poem for the year. After the program a very pleasant hour was spent in games and contests of various kinds, the final feature being a taffy pull.
 The attendance at the school during the winter term has been splendid, and the teaching staff is being congratulated on the high standing of the pupils in each grade.
 The adjourned meeting of ratepayers failed to decide on building a permanent school building will be held in the town hall on Saturday, April 2.
