Put to the Test.

One of the most exacting periods of the day, was in an interview with Prof. Stromberg, the leading Scandinavian astronomer, who says that when he is permitted to examine Dr. Cook's observations, he can decide within half a day whether the explorer has been at the pole. Several other expert Arctic explorers were busy today in an eye to eye conversation with Dr. Cook. When they came out they appeared thoroughly convinced,

The dinner passed off quietly, as is customary on Sunday in the royal household, but after the dinner, Dr. Cook started a succinct recital of his adventures, and the graphic depiction gained from the calmnes and candor of the speaker. One after another of the royal personages plied him with questions, evidencing their intelligent appreciation of the conditions in Arctic seas, and they awaited eagerly while the explorer answered, without hesitation. The younger members of the family seemed literally to hang on his words. Tells Copenhagen Admirers That He Doesn't Want Any More Polar Exploration, North or South.

Copenhagen, Sept. 5 .- Dr. Frederick A. Cook stepped from the steamer Hans Egede in Copenhagen harbor on the arm of the Crown Prince of Denmark at 10 o'clock this morning, unshorn and looking like a sailor before the mast. He sat down to dinner at 8 o'clock this evening in the city hall, the guest of a brilliant company of the capital's most distinguished men and women, arrayed in evening dress provided by the king's tailor.

Copenhagen, Denmark, Sept. 5 .- "I do not claim to have put my finger on the exact spot; I do not claim to have put my foot on it, but personally I think we have been at the spot. When the observations have been figured out again it is possible that there will be found slight errors and differences, but I am certain that a gunshot fired from where we were would have passed over the pole." In these modest words Dr. Frederick A. Cook, the returned Arctic explorer, expressed himself this evening to a crowd of newspaper correspondents in the Hotel Phoenix. He de-

Dr. Cook consented to answer all questions. First he was asked whediscovery of the pole could be acceptthen explained doubt about the 30,000 square miles discovered, saying that he meant they were able to see fifteen miles on each side during their journey to the pole and that therefore a hitherto unknown territory of 30,000 square miles was now discovered.

Dr. Cook proceeded to show that he was fully competent to take all observations, saying that on previous exploring expeditions he did very little observation work, which usually was divided among the members of the

"This time," he continued, "we had started out to reach the pole and everything else was of a secondary con sideration. It was not posible to carry certain apparatus, and it was impossible also to study the deep sea or take soundings. We carried all necessary simple instruments for astronomical observations and we were lucky to obtain observations virtually every day. The positions noted must have been nearly correct. We had three chronometers, one watch, compasses and pedometers. All were carefully controlled by each other from time to time. The watch, however, got out of order.

Disclaims Inventing Story "We had all the modern instruments which other explorers have els. It is possible that our observations were better than those of earlier days but I do not assert that I am perfectly familiar with making astronomical observations especially in the polar regions. I think that all explorers will be satisfied with my data.

"Why should I sit down and invent observations?" he exclaimed. "I did not do this thing for anything but sport and because I take a real interest in the problem. It would not do me any good to invent these things. The only witnesses I had were two Eskimos, certainly, but in all polar expeditions observations have been made by one man. FALKENBURG IN FORM

Blanked the Leaders-Donovan Was Wild in the Second.

[Special to The Advertiser.]

Cleveland, Sept. 4.—After a winning streak that made them victors of every series with eastern clubs, the Tigers this afternoon were dumped off their path by their neighbors, and of late weeks none too hard working Naps. And the thumping the Clevelanders handed Jennings' men came in the shape of a double cross, Cleveland taking the first game by a 4 to 0 score, and the second 4 to 3.

## THINGS MIGHT CHANGE IN SPORT.

For instance, we might have a great fighter without a press agent. We directions was R. T. Shillington, might even have a champion of the world who preferred to punch an opponent rather than a typewriter. We might see two great men hauled into the ring within six months of space-burning in every paper in the country. We might find a defeated man who had no excuses to offer; a victor who would admit that the knockout was a lucky fluke. We might see winnertake-all fight that was really on the level, or a manager who had no secret agreement.

We might find a ballplayer who would take an adverse decision without howling like a timber wolf, and be put off the field without delaying the game for five minutes. We might have an umpire who could see referee the fight, if requested, and after 5 o'clock of an Indian summer afternoon. We might have a spring Jeffries is favorable, would like to training when every bush league recruit was NOT the greatest find of the year. We might have one baseball fan in the city of New York who would root as consistently for the home team when the Jints are behind as when they are winning on the chinstrap. We might have an actor who does not think that his position as a purveyor of stale jokes entitles him to horn his way into the press stand and poison the air with a flow of alleged witticisms. We might have three or four .300 hitters on one of the New York teams.

## PLENTY OF ROOM FOR IMPROVEMENT.

We might have personal friends who would not ring up every morning and ask for a ticket to the Polo Grounds. We might have a postseason series between the Giants and Yankees. We might be spared the pest of the press stand who sets newspapers on fire, forcing his friends to break all existing records for a high jump, sitting start. We might have two scorers who would agree on the total of hits and errors.

We might have a race track without a tout, and a bookmaker who would have no stable connections and no private cannery. We might have an owner who would tell us when he was going after the money and when he was out for nothing but exercise. We might have a jockey who would try every time out. We might find a man who could lose a bet without believing that every man on the race track was a crook. We ing there are 25,000 people, and ale might have stewards who would discourage in and out running and formtumbling.

Some of these things may come true. We may not live to see it, but our children may have that great happiness. We live in hope.-C. E. Van Loan in New York American.

For the Trip-Bunch May Go From Detroit If Tigers Finish in the Lead.

[Special to The Advertiser.] Pittsburg, Sept. 6.-Manager Fred Clarke, of the Pittsburg team, has received an offer to take a team of ball players to the orient at the close of the baseball season, providing Pittsburg wins the pennant. Two teams are to be taken, according to the proposition, that has been made to Clarke by a New York theatrical man, and

Clarke will have the privilege of choos-

ing them from the National and

American League clubs. The information given out here is that no restriction will be placed on Clarke's choice of players, save that he include some from the winning teams of both leagues this year. New York and Chicago teams are also to have representation. The idea is to sail from San Francisco immediately after the world's series has been completed, with all players in good condition, and it is understood that the backers are to pay salaries during a three-months' trip. Thirty men are to be taken. Capitals Got to Torontos and Won 13 Clarke has sent word that he will not consider any proposition until after the winner of the National League pennant is definitely known.

# **ACADIANS WON FIRST** GAME OF POST SERIES

Blanked the St. Johns at Springbank Saturday by Score of 8 to 0.

The first of the three games to decide the championship in the Springbank League was played Saturday afternoon in short order, the nine innings being run off in one hour and fifteen minutes. The game itself was not a very satisfactory one, and it was the Acadians practically all the way. The St. John's infield were badly off color, and their playing was loose at times. Lee, for the Acadians, pitched a remarkably strong game, and the best the St. John's players could do was to gather in three hits off him.

The score by innings was as fol-

fuled to start at 3:30, and is expected time while in the last quarter Tecumsehs Pills 98, xApprodite 99, Fulford 100, to be an unusually interesting one, as were the only team to score Manager xGrande Dame 111, Woodland 108, the St. John's are determined to have Querrie doing the trick. # THE TIGERS TO PAY

Intyre Will Take Jaunt.

Cleveland, Sept. 4.-The Tigers will invade Cuba this fall. They have decided to play a series of games on the island, and in all probability this season will cover more than two months. According to present plans the Detroit team will line up as follows: D. Jones, centre field; Bush, shortstop; McIntyre, Louis Club had no grounds for protestleft field; Delehanty, second base; Mori-

Willett, pitchers. The team will be managed by Matty McIntyre, and all contracts for the Cuban season are being closed.

The Itinerary,

As soon as the regular season ends, the rigers will probably fill a few exhibition dates in Ohio, then move eastward, playing all along the route to New York They anticipate playing several Brooklyn, and probably with Christy Mathewson's club or some other professional or semi-professional club. Dailey, the star pitcher with Spring-Cuban metropolis. The Tigers will play exhibition games

The Eel's Performance.

The real feature of the pacing handicap was the performance of the Canadian champion, The Eel. When it was announced that the grey warrior would have to go the full distance of one and one-half miles with close to 40 horses in front of him, the leaders having an advantage of 495 his chances of getting up near the front at the finish. Great horse though every one of them conceded him to be, they did not believe him equal to such a heartbreaking task. Even gray-haired Dan McEwen, who has driven the grey wonder in all his races, was dubious of his chances, but
