THINKS WHEAT BOARD WILL OPEN THIS YEAR

Premier Greenfield Is Optimistic Over Prospects During Coming Summer.

Special to The Advertiser.

Edmonton, Alta., Feb. 2 .- "I think we can get a wheat board this year." stated Premier Greenfield today, when asked as to the prospects in this regard. "and though James Stewart is much too busy a man these days to be a likely person for us to ask to form a board, it must be remembered that we have a lot more time this year in which to look about to make our selection of a good man."

The premier is of the opinion that Manitoba will pass the required legislation, and press despatches from Ottawa, he added, indicated the possibility of it strengthening the legislation passed last year. Though the existing legislation now on the Dominion statute books might be extended by order-incouncil, the Progressives in the Domin-ion house are understood to have such a move under consideration.

Mother Superior of St. Joseph's Convent, Hamilton, Called as Witness.

Special to The Advertiser by a Staff Reporter.

Stratford, Feb. 2.-With the mother superior of the St. Joseph's Convent, Hamilton, and sisters in charge of Loretto Academy, Hamilton, subpoenaed to appear as witnesses, the preliminary hearing of William Mg-Clarty, charged with the abduction of his two children, will be held here this afternoon before Magistrate J. A. Makins.

This is a most peculiar case. It began with a Protestant wife laying a charge of abduction, an unusual charge, against her husband when he and their two children had been absent from home for a few hours.

It involves an application to the attorney-general's department to over-rule local crown attorney's refusal of bail and an appeal to appellate court that the case be not tried before county magistrate, and that it be changed from a criminal charge to civil action.

Religious differences between the husband and wife, which affected the question of the education of the children, are responsible for what promises to be a sensation as great as the

ON RATES FOR GAS

Blenheim Council Committee Makes Agreement With Union

Natural Gas Company. Special to The Advertiser.

Blenheim, Feb. 2.-From reports given out by a deputation of the town council, which waited on the Union Natural Gas Company representative in Chatham yesterday, the gas rate question is settled for two years as far as Blenheim is concerned. It was current knewledge that the council has for some time been under council has for some time been under consideration an attempt to come to some agreement with the gas company if favorable terms could be obtained, and the matter has been up for discussion at three special meetings. While some members favored holding off and taking what rates the heard of reference may give the the board of reference may give, the majority were in favor of parleying with the company for a settlement.

At a special meeting held yester-day a committee, consisting of Mayor G. F. Reycraft, Reeve Alex. Clunis and Councillor John H. Ferguson, were appointed to present an offer to the company. The results ob-tained are as follows: For seven months, gas at 45 cents per 1,000 feet; for five other months, gas at feet; for five other months, gas at 85 cents per 1,000 feet; meter rent to be 20 cents per month through-out the year. The agreement is for two years. The company asked 50 cents, 70 cents and 20 cents. The committee believes the rates obtained to be a better bargain.

There is a difference of opinion among the ratepayers as to t was wise to strike a settlement. The majority seem to be satisfied to fall in with the action of the council. As a result the town now withdraws from membership in the Gas Consumers' Association, and will not be represented at the future hearings.

The struggle has been a long-drawn-out one here, because, al-though the franchise did not run out until last year, the company appealed for a higher rate several years ago. and the gas was shut off, and the town proceeded to maintain the supand protection promised by force, i

BUSY DAY IS HELD IN BRANTFORD POLICE COURT

Special to The Advertiser.

Brantford, Feb. 2.—Four cases were up for trial in police court yester-day. All of these were adjourned until Friday without any evidence being taken. Arrested on an old warrant alleging that he had failed to pay a board bill owing to Matthew Hill, Gordon Isaac, an Indian, was brought into court this morning by the mounties. His case was the first to be adjourned.

The case against Casper Favatto charged with using threatening lan-guage to Mike Soldo, was likewise adjourned until Friday. Not to be outdone, Casper Favatto laid a charge of common assault against Mike Soldo. This case was also adjourned. WENIGE SETS DATE FOR BIG CIVIC PROBE

Mayor Urges Councillors To Gather Evidence For Wednesday Meeting.

WILL TALK SALARIES

City Council Rapidly Dividing Itself Into Two Distinct Camps.

The grand preliminary "shuffle," involving notably the proposed reorganization of the police and fire departments, is set for Wednesday night next. All municipal salaries and wages will also be considered.

Following a thorough consideration of the general situation to date, Mayor Wenige late yesterday afternoon conferred with City Clerk Sam Baker as to the best date, and directed that official communications be immediately despatched to the twelve members of the council apprising them of this decision.

"This will be our preliminary meeting for a complete 'showdown',"
Mayor Wenige stated to The Advertiser after arrangements for the
session had been consummated, "and
if there is too much to be handled in
one night, we can adjourn and complete our agenda at a subsequent
session."

His worship is rapidly clearing the decks for a general "clean-up," in accordance with the several clauses of his now famous inaugural address, and he proposes, he assures, "banging away," until there is a final decided.

ing away," until there is a final decision, one way or the other.

"Naturally, I expect certain opposition," he asserts, "but that doesn't make any difference. I have no personal axe to grind. I don't know any of these people under consideration. I don't know the city officials by their first name, and furthermore I have no inclination to. I represent 160.000 people."

Does Not Object. Ald. Albert Judd, chairman of the finance committee, does not object to a complete probe of the fire de-partment, as proposed by the mayor. He maintains, however, that it be enducted in the regular manner.

Late this afternoon Mayor Wenige stated that, after due consideration, he had decided to take no action today with reference to the suspension of the fire chief. He did acknowledge that the entire problem would claim attention, however, at Wed-nesday's gathering. "Does this general probe include the police department," his worship

was asked. replied the mayor, "we will undertake that also. The only thing that can possibly halt proceedings temporarily that night will be the failure of the councillors to appear or that we shall not be able to at-

tend to everything that night."

The city council is rapidly dividing itself into two distinct camps, being those who appear to be ready to support the mayor to the d tch in everything, and those eem to be swinging over into an obs .nate contrary faction. The majority of the mayor's support-

ers are convinced that he is right in his attitude toward the police department, more particularly the police commissioners, and they have already voiced approval of the suggestion from Windsor city council that while the county judge and police magistrate remain as judge and police magistrate remain as members of the police board, three other members be elected by the people. False Impression.

Certain members of the council stated lay that a false impression had gone abroad with respect to the contemplated elimination of sixteen members of the local police squad. This will not mean, they explain, that this number would comprise all constables. They reiterate lice and detective sergeans should be retired, while certain other members of the force who have, they state, exceed

As incorporated in his pre-election platform, and later in his inaugural address, Mayor Wenige still insists upon a complete readjustment of the municibe the last question to be discussed. "Bonuses must god," rule several members of the council, and the mayor has already, in no uncertain tones, ex-

ed the age requirements, be superannu-

pressed himself similarly.
Wednesday's session will be an informal gathering only; in short, a meeting of the council as a "committee of the whole," and recommendations will be made for the subsequent reguplar ession of that body.

The aldermen are asked to come

equipped with all possible details in der to be able to battle for or against ill the mayor's suggested reforms. "By the end of February we shall have disposed of all problems and be away to a good start," states the mayor

St. Thomas, Feb. 1.-Although the increased price of coal and loss sustained through non-delivery during the recent coal strikes cost the local gas department several thousand dollars in 1922, the report for the year, nonthly meeting of No. 6 co of the city council, shows that the department closed the year with a ne surplus of \$10,598.47. This amount, which proved 1922 the best year on record for the department, was considered a splendid showing, on which Chairman Lemon and Superintendent

Chairman Lemon stated that any reduction in the price of gas this year would depend entirely on the orice of coal, and that nothing lefinite would be forthcoming until City Treasurer Perry had some as-surance as to the coal situation from the companies, after which the finan-

By RALPH H. TURNER Special Cable to The Advertiser London, Feb. 2 .- "The French are expecting to obtain beefsteak and milk from the same cow. They cannot get both. They'll take the heart out of the cow and run great danger of ruining themselves."

The utterance came from J. (Davidson, private secretary of Premier Bonar Law Thursday during as address at Harpenden. What Will Happen?

City Clerk Sam Baker certainly drove the nail into its accustomed place when he directed attention recently to the general murky state of affairs in municipal circles.

Just what may happen next is a problem calculated to keep a squad of shrewd guessers working far into the night, with little to show for their labor. In fact, Mayor Wenige acknowledged quite frankly yesterday that there were so many "irons in the fire" that it was a puzzle in itself to determine which one to go on with.

From out of the mass of reports rapidly piling up at headquarters, the casual observer would surmise that there were "all manner of issues for all manner of men," as it were. In the first instance, it has yet to be decided whether there shall be a new city hall this year.

After this, evidently, it must then be determined who shall occupy the present offices as servants of the people. This involves many persons, some of whom, it is intimated, may not be employed by the municipality after the much-heralded "clean-up." There is to be a general reorganization of the assessment department, the city engineer's department, the police department and the fire department.

After this comes what will be interesting to all-a free and easy consideration of the civic salary list, and no one will be overlooked, from the highest paid official to the humble street cleaner.

This does not by any means con clude the program. The police commissioners crave a new police station. The Law Association requests a new registry office. The public library board suggests a new library. The motor club and others want a standardization of traffic by-

Mayor Wenige wants a "show down" in the courts with the City Gas Company and the London Street Railway.

Ald. Gordon Drake and others want legislation for an elective police

Ald. W. A. Wilson wants his colleagues to fight for two London members in the Provincial Legislature. Ald. Frank McKay wants the coun cil to compel the collection of about \$25,000 as additional school tax from industrial concerns in the annexed

Ald. Leonard Douglass still cham pions his civic garage scheme. Ald. Judd wants fair play for the motor-bus operators.

Ald. Patterson has said something once or twice about an improved system of contract tendering. Ald. Greer has stated that 1923 i the opportune year for the establishment of a municipal arena for

hockey and other sports. To the best of recollection, Ald. P. J. Watt seems the only one not to Dirge anything different from what already exists, although he also demands constant efficient and economical methods in all phases of

municipal activity. Summing up briefly, it is reasonably safe to assume that no regular session will be cancelled in 1923 by reason of the fact that the councilors have exhausted their ammuniion, as there are a host of other roblems of varying importance and o numerous to mention that clamor for attention.

Who Is To Blame?

Time changes all things, even vears ago, it is recorded at the city hall, the fire chief of that day was ensured by a resolution of the city council because he despatched every piece of fire apparatus and every available man to a chimney blaze, That was in the good old days of the horse-drawn equipment. Today

we find the mayor and certain of his ssociates condemning the fire chief because he fails to divert from a Methodist Church, but there will be customary procedure and send no more than a combination truck to a conflagration.

City officials state that the whole responsibility rests strictly upon the shoulders of the city councillors of intervening years, who evidently committee, Mrs. George Freer, Mrs. failed to keep in step in the march of progress and did not provide for just such a contingency as precipitated

even be that the wish is father to

nanagement and nothing else.

There is good reason to doubt the wisdom of taking the management of the National lines to Ottawa. Ottawa is in a very special sense the centre of Canadian politics. Men go there for political reasons; political organizations have headquar ters there, and the whole atmosphere of the city is political. This is not the place in which to plant the headquarters of the National Railways; at least it would seem to be attempting the very difficult task of carrying out a non-political program in an ultra-political community.

Note and Comment

A short course for amateur gardeners is to be conducted at the O. A C. Guelph. It should be attended by those who persist in planting Dutch sets upside down. The newest way of catching potato bugs in a dish pan will also come in for attention.

Winnipeg is now paying 22 cents a pound for turkeys. At Christmas the price was 60 cents. The 60-cent figure no doubt established the fact in the mind of the buyer that turkey was out of his reach. It's hard to get buyers back once you scare them away. It has taken some people a long time to learn that simple lesson.

THE DIFFERENCE.

By Corona Remington.
For two years Bill Wentworth and Anita Forsythe had been chums. They told each other everything, their troubles and joys and plans, and—well everything. Then, one walkand—weil everything. Then, one Sunday evening, as they were walk-ing down the moonlit country lane together, Bill looked at her as if he had never seen her before. He had never noticed the soft curve to her cheek, the full, womanly little figure, the dancing blue eyes that looked up at him with somewhere a touch of pleading and wistfulness in them. And suddenly it came to him that Nita was more than a pal, a chum—she was everything in all the world

His irritation grew into worry, and that into downright fear. By nightfall he was almost in a panic. Something had certainly happened; something had come between him and Nita. He would find out; he would know the worst. Immediately after supper he caught a car to the suburb, where Nita lived and, arriving there, hurried to her house. He rang the bell and waited. KING AND MEIGHEN STAGE FIRST ORATORICAL DUEL

Premier Replies to Conservative Leader Regarding Cables on Near East War Question-Says Correspondence With Downing Street Can Be Revealed.

GOVERNMENT HAD VETOED PUBLICATION

Special to The Advertiser by a Staff Correspondent.

Ottawa, Feb. 2.-It is not any furious pace at which the present session has started off. Yesterday the debate on the address began, but it was not prolonged beyond 6:30 when the house adjourned for the day. Yet time was found after the no other issue

seconder had accomplished their formal parts for the prime minister and Mr. Meighen to enjoy another round of the oratorical duel which has now been in progress for three sessions. In previous years even the opening stages have been marked or marred by mutual asperities, which were a bad preparation for the smooth conduct of business during the rest of the session.

But on the present occasion there was a most gratifying and pleasant change. Mr. Meighen could not conceal a pained and poignant regret that people who in his view were so incompetent as Mr. King and his colleagues were in charge of the nation's destiny, and occasionally indulged his talents for barbed irony. But he pitched his complaints and criticism in tempered language, and had the unique reward of being com-

Premier Follows Lead.

The prime minister rose to reply about 5:20, and spoke for a little more than an hour, securing the in-dulgence of the house for a postonement of the normal adjournment. He responded very well to Mr. Meighen's lead, and while he denied the justification of some of the Conservative leader's complaints, Mr. Crerar's resignation, and he bad he did not raise any partizan contro-versies, and as a result the debate got off to a peaceful start.

The most interesting fruit of the debate was the unfolding of the history of Ottawa and of the Near in the consolidation of the C. N. R., but there was no reference to the G. T. R.,

The prime minister saw fit to devote the greater part of his speech, to a narrative of the crisis from his sent to make a statement about it, and was willing to allow Mr. Meighen and Mr. Forke to peruse it.

His account is that the fateful deswas sent away from London on Friday, September 15, before midnight, and arrived in Ottawa the same evening in cypner, as went with such communications. It went with such communications. It went apparently some delay ensued, and it did not reach the premier's office till between 2 and 3 p. m. on Saturday. By this time press despatches had brought a summary of the communication to the Dominions, and the Saturday evening papers sold be-tween 12 and 2 contained this message, and an announcement to the effect that New Zealand had offered

tion as to why, before the Canadian government had received any com-munication, the papers were carrying a statement to the effect that the Dominions had been invited to send contingents to the Near East. Communication was at once estab-lished with Messrs. Fielding and

Lapointe, who were at Geneva. The prime minister explained that substance of the despatch that Great Britain had decided to resist Turkish aggression at Chanak, and to secure the freedom of the Straits, and that the British cabinet ould be glad to know if the Canciate itself with the venture, nag represented by a contingent.

Some reasons were adduced ome of the Dominions would ticularly desire to send a conting and Mr. King quoted Premier Sn to the effect that the despatch been primarily intended for Australia been primarily intended for Australia and New Zealand, owing to their special interest in the Dardanelles, and had been sent to the other Dominions as an aftertrought.

When he offered to show the correspondence to Mr. Meighen and Mr. eighen and Mr

Forke, the former that it should he e been submitted

Mr. King then related how he had protested to Downing street at the grave embarrassment which had aused his cabinet by the pubof the press communique n they were receiving despatche marked "confidential," and how he asked what parts of the latter he could publish, as he was certain to be confronted by requests for the production of correspondence as soon as parliament met. This had elicited the veto on any publication. Pherefore, he had informed the Brit-sh government that his cabinet was ish government that his cabinet was willing to hold daily sittings, and had sked whether it was necessary to

The reply had come that the latter course did not seem necessary, and he had then issued a public stateat to the effect that in the opinion be sent without the consent of par-liament. After Mr. Law had donned the mantle of Mr. Lloyd George, he e mantle of Mr. Lloyd George, he d again asked for permission to blish the correspondence, and after me delay a refusal had come hich inposed a secrecy about the tual text of the despatch.

With regard to a reference to Mr. eighen to the need of cementing

the various parts of the empire, Mr. King felt the best cement was recog-nition of the rights of the individual units, and one of these was that de cisions about peace and war should be left to the representatives of the people. This narrative occupied three-fourths of his speech, and when he had finished it he dealt with

Not a Meteoric Orator.

Mr. Harold Putnam of Colchester, who moved the address in reply, came to the house last session for the first time, and has acquired the reputation of being a quiet and effi-cient member who held advanced views on many subjects. Comments on Tariff Silence.

Mr. Meighen then commented ironically upon the absence of any reference to the western natural resources question, which, despite the profession the premier, was in his view as far from settlement as eyer, and remarked upon the complete silence in regard to tariff matters, warning the Progressives to beware of another revision by Mr. King, and quoting statistics to prove that the average rate for the period of the current scale year which had elapsed was almost 2 per cent higher than under his own regime.

He then essayed a short review of the financial situation, which he found far Cabled For Explanation.

He contrasted the financial exploits of the British government since the armistice, and claimed that the King ministry had inserted good conditions from their predecessors, dealing with the plight of the western farmers, ch he admitted to be hard. He ound the chief source of their trouble in the European chaos, and urged that Canada was not without responsibilities toward the outer world.

"We want," he said, "peace and proswe want, he said, peace and pros-perity, but don't let us keep on yearn-ing for them at the expense of some-thing else." Then came his references to the Near Eastern embroglio, and a denial of the government's claim for credit for the removal of the cattle embargo, which, after all, might never ome to pass. He welcomed the intention of the government to pass a re-distribution measure and revise the bank act, and declared that the former should be left to a joint committee of the house, a suggestion which ended

POLICE RESERVES DISPERSE CROWDS

Taschereau Given Ovation at End of Tumultuous Political Gathering.

Sir Lomer Gouin Attacks Sauve For Allowing Such Actions.

Canadian Press Despatch. Montreal, Feb. 2.-Long before the ime set for the opening of the meeting at the Monument Nationale here last night, at which Premier Taschereau was scheduled to speak, thousands gathered near the building, and all traffic in the vicinity was held up. As a consequence of this all police reserves were called out. When the doors opened there was a rush, and hundreds of persons took the place by storm.

At the beginning not a single speaker was allowed to finish a sentence, and when the prime minister commenced his speech the disturbance assumed dimensions which threatened to wreck the meeting. After some sixty persons had been ejected, some of them with considerable violence, the latter part of the premier's speech was listened to respectfully, and he was given an ovation by the audience. Hon. Mr. Taschereau faced volleys of incoherent cries and cat-calls smiling disclosingly.

Hon. J. L. Perron, minister of roads, who was to have spoken, left the meeting shortly before 11 o'clock without giving an address. Sir Lomer Gouin, federal minister of justice, blamed the opposition for having caused the tumult, and scored Arthur Sauve and Hon. E. L. Patenaude for allowing such things to happen.

After a number of interruptions Pre-nier Taschereau shouted: "I am a 'Red' rom Quebec who has come to speak t the 'Reds' of Montreal, and I hope the five or six who are determined to do s will not stop me from speaking."

The premier warmly defended his gov ernment, enumerating reforms which had been effected in the province. In regard to the liquor law, he declared that the province was the only one which had withstood the popular wave

ASK CHANNEL ISLANDS TO GIVE HELP IN CRISIS

Government Urges Authorities to Contribute Annually to Imperial Exchequer.

Associated Press Despatch. London, Feb. 2 .- "In view of the serious condition of Great Britain's finances in consequence of the war," says a communication to the Channel Islands authorities, the governmade by the Geddes economy commission last year, is asking for an annual contribution to the imperial exchequer. The government suggests that Gurnsey make a grant of

£275,000 and Jersey £325,000.

The British government points out that apart from £100,000 from each of those islands as a war contribution Great Britain has borne the full burden of the imperial services, from which the people of the Channel Islands have benefitted equally with the people of the United Kingdom.

For Coming Big Match.

Special to The Advertiser.
Sarnia, Feb. 1.—Sarnia's ladels' hockey eam will get in its first workout at St. Andrew's arena tonight, when Coach to be one of the most important of the Russ McAllister will give the squad the season, and already more than fifteen Russ McAllister will give the squad the first lesson.

A hong list of capable skaters, the majority of whom have played hockey before, have signified their willingness to play the game. Already Misses Mae Prudence, Point Edward; Agnes Dinel, who halls from Montreal; Mae Harding, Margaret and Catherine Clark, Olive McGrath Bessie and Frances Grace, Mrs. C. Louden, Miss Jackson and the Misses Kerwin have promised to turn out. This should enable the girls to have a strong team mustered when the London girls play here within the next two weeks. The management of St. Andrew's Arena have offered the girls the use of the rink for practice purposes. This team will likely be entered in the Ladies' O. H. A. series next year.

WINGHAM RINK WINS REO AND ELGIN TROPHY

Wages Spectacular Battle With

trophies in the finals for these cups at the St. Thomas bonspiel this afternoon.

The battle between Crawford's rink and that of W. H. Smith of Owen Sound for the Elgin Trophy was a spectacular one. At the end of the seventh frame, Smith was leading 7 to 6, but the Wingham men came back strong in the next end and tied the score. Crawford took the lead in the next inning and stayed ahead until the 14th end.

In the final for the Reo Trophy, Crawford's rink defeated F. W. Sutherland of St. Thomas to the tune of 11—9.

ASK CHANGE IN RULES

sald in favor of a change, and little to be said against it.

The matter of allowing substitutes for injured players will also be brought up. This is a question that is being widely discussed not only in this country, but also in England. As a matter of fact, the rules revision committee of the English Football Association have the matter before them at the present time, and it is expected that something will be done to remedy a long-standing grievance. Much of the opposition to the movement is rapidly disappearing, and football men in general are taking a saner view of things, and if the game is to be kept up to date, and in keeping with all other sports in Canada, a change is imperative.

Quebec. Feb. 1.—Another entry for the dog derby, which will be staged in the district of Quebec on Feb. 22, 23 and 24, has been received, which now brings the number of teams scheduled to face the starter to nine.

The latest entry to be received by the organizers is from C. E. Letourneau and Napoleon Belenger of Montmagny. The two men are former prospectors in the Klondyke, and are well acquainted with canine flesh. They are confident that their team of huskies will set a pace that will make it hot for the remaining eight teams.

The trainers of the nine iteams, which are at present scattered all over this country and the United States, are busily engaged in rounding their dogs into shape for the hard triad, which, as Quebecers already know, will be over a 50-mile route for three days, which means that 150 miles will be covered.

A preliminary race will be held in Berlin, N. H., on Feb. 2 and 3, in conjunction with the winter carnival which will be staged there, and three of the teams entered in the Quebec Derby will be sent to compete. These teams are one each from Price Bros. Brown Corporation and Holt-Renfrew Company.

This race will be 60 miles, 30 of which will be covered each day. The derby, although shorter than the one to be run off here, will prove a good dest for the three Camadian teams. Special to The Advertiser.

POPE PIUS XI. FEARS SECOND WORLD WAR

Hopes Prayers Will Inspire People and Lead To Understanding.

Special Cable to The Advertiser. Rome, Feb. 2.-Pope Pius XI, sees the fearful possibility of a new conflagration with the inevitable damage and sorrows for individual families, cities and provinces.

His Holiness expressed apprehension over the ominous European situation in a letter Thursday to Basilio Pompili, general-vicar of the Pope. The pope, who entrusts Pompili with the task of ordering prayers in the churches of Rome for the delivery declared that when he expressed at Christmas his sorrow over the present evils and those of the future. which are the unfortunate results of war, he was far from foreseeing his words would be sadly confirmed. "In default of human means to ward off the appalling evil, we must appeal to God," he stated.

The hope is expressed that the

prayers will inspire people and give this with sentiments of justice, equity and love, leading to a friendly

TORONTO RAILWAY MEETING DELAYED FOR SOME TIME

of the Toronto Railway Company is due on Wednesday next, but will not be held. It was not expected that the arbitration award would be ready in time for the meeting, so it was not called. And now that the award is out, it is evidently the intention of the directors to wait and see what should be done about an appeal before gathering the shareholders together.

There were rumors that a partial distribution of assets would take place almost at once, but this will probably be postponed if an appeal is taken. There cannot be a complete distribution, because \$4,000,000 has to be held back as a guarantee in connection with the complaint of the Spanish Pulp and Paper Mills, Limited, that rates on newsprint and unfinished wall paper from Sturgeon Falls and contario are higher, distances considered, than from Montreal, Lachute and other points of origin. Rates on group "A" description of Doronto and other Canadian destinations was asserted the distances are not substantially greater than from Sturgeon Falls and Espanola.

American Cotton Oil, preferred, dropped 24, and Pressed Steel Car 2 points. Fisher Body extended its gain to nearly 10 points, General Electric to 3, and Van Ralte Silk, American Beet Sugar, Baldwin, Pan-American "A" and "B." Beech Nut, Postum Cereal and North American were up 2 to 2½ points. Call money opened at 4½ per cent.

1:30 p.m.—Prices having demonstrated their ability to advance in a convincing fashion, buying became more varied in the afternoon. Many shares which had participated fully in the forenoon rise were bid up sharply, particularly Nash Motors, Marland Oil, Jewel Tea, preferred, United Retail Stores, United Drug and Macy. Corn Products climbed 2 to 132, and Baldwin sold nearly 4 points above vesterday's low figure.

One Load of Wheat Brought \$1.25 per Bushel at Friday's Market.

As is usually the case each Friday, there was not much activity displayed on the local market this morning deliveries of hay during the past few weeks have been exceptionally heavy, and again there were over a dozen loads on sale this morning. The de-mand was very slow, and the prices ranged from \$10 to \$13 per ton. Somof the buyers seemed anxious to locate some good clover hay, but at noon there were no loads of this

PRICES DROP LOWER

Last Week.

Special to The Advertiser. Toronto, Feb. 2.-Although receipts were lighter this week than for several weeks past, the market failed to recover from the decline price movement down to still lower levels. These, along ering the past month reached the large total of over 25,000 cattle. These, along with the large number of cattle shipped direct to the plants from the West. have filled them almost to overflowing. Against the large receipts of live cattle must be set the fact that the dragsed must be set the fact that the dressed beef trade has not been of late very active, and a large accumulation of beef

likely to continue fairly active from this out.

In view of the coming removal of the embargo in the small meats market, prices eased off in sympathy with the general tone of the entire market.

URGES MORE UNISON IN RANKS OF LABOR

Trades Union Organization Meeting Featured by Agitation For Increased Wages.

PLEAD FOR LOYALTY

Speakers At Labor Temple Point Out Need of Co-operation in Forest City.

control the world, but the trades unions in the city of London will never become great if they do not root out the dissension that is at present existing between officers of the Trades and Labor Council. A true labor man should be courageous enough to admit the fact when he sees he is wrong, and he ought never to let any sentiment prevent his do-ing everything in the interests of his

comrades in this movement."
So spoke John Bruce of the Plumb ers and Steamfitters' Union at the organization meeting at the Labor Temple last night. This gathering was called for the purpose of outlin-ing a program of organization for all the trades unions in the city.

John Ingles, electrician, the first speaker of the evening, urged all la-bor men to build up in their ranks a strong sense of their responsibility. "We want all trades union men to interest themselves in their organ-ization to such an extent that they will bring many new members into the ranks," he said. "There are many true and loyal members, but they do not take as great an interest as they should in the work of the labor body. They come to the meetings at the beginning of the year to renew their agreements and again at the election of officers, but after these affairs have been completed they seem to lose interest again."

Want Higher Wages. Mr. Ingles then urged his listeners to discountenance any "flower move-ment" that might be advocated next spring. "In New York city certain 'bugs' are telling the workingmen to plant more flowers and vegetables in plant more flowers and vegetables in their gardens, and thus make their surroundings more felicitous. But what we labor men want is not flowers, but higher wages to make our lives happier. Enemies of labor say that dissipation always follows in the

"Since 1901 the rise and fall of wages has been concurrent with the strength or weakness of the labor organizations. An organization com-mittee has already been formed in this council and each of us should work with them to arouse the workingmen of London to the great necessity of getting together for the common good. When we regain our former strength we will be able to get better hearings from those with whom we wish to make agreements, and in any undertaking we go into we will get more satisfactory results. Let every one of us here tonight do utmost to spread the gospel of

One of the chief branches of endeavor is the summer camp which we are in a charming location, only 12 miles from Port Stanley and 38 from London, yet we are ten miles from any railroad, and this is one of the very greatest benefits of all, for it means that we are not bothered with any of the usual distractions that are so much part and parcel of

At Moderate Cost.

"The Y. W. C. A. has organized this camp for three years in the London district, holding the camp for three months each year, and giving each girl two weeks of real country life in thoroughly healthy and safe conditions at a cost of only \$14 50 for the two weeks. Every girl who goes to these camps is on an equal with all present. They wear the same regulation clothes, live on the same food, and what is more, have just the same amount of money to spend, each girl being allowed only \$1.00 to spend during the time she stays in

"You have no idea," declared the lecturer, "how ignorant and handisapped some of the girls are. Why some of them have never seen a carrot or a beetroot growing in the ground until they came to camp,"

Miss d'Avignon outlined in detail the daily routine of the camp, showing how every side of life was cared for, how the girls themselves make:

"I stand for what the people want," he said in an emphatic manner. "The Liberal party in the Federal House is pledged to a policy of full temperance."

That Mr. Healy will be returned without opposition was predicted by members of the Conservative party tonight.

Constable.

Special to The Advertiser. Brantford, Feb. 1.—Tears streaming down his wizend and weather-beaten countenance, Chief Albert Martin presented a forlorn and penitent appearance in police court yesterday as his counsel entered a plea of guilty to all charges which the redoubtable aborigine faced and threw his client

on the mercy of the court. The aged chief pleaded guilty to charge of having an illicit still in his possession; escaping from lawful custody, and to assaulting a police officer. On the first count Magistrate J. R. Blake stated that if the crown had no objection he would heed Mr. Slemin's plea and impose the minimum fine of \$200 and costs on the defendant. No objection was voiced

by Mr. W. M. Charlton, acting for Pointing out the seriousness of the harge of escaping from custody and of assaulting a police officer the magistrate expressed the opinion that it was rather through ignorance than criminal intent that the chief had committed the offences. He therefore allowed him to go on suspended senence. Two sureties to the sum of \$200 will have to be furnished, however, to

quarantee the Indian's good behavior in the future. In addition he was or-dered to report to Chief of Police Donnelly every month for the next two years. In passing sentence Magistrate Blake stated that had the defendant been a white man and acquainted with the laws of the country he would have felt inclined to impose a sen-tence of one year in jail. "Perhaps, though, said the court, "if my an-

cestors had roamed this country for

hundreds of years I would have felt as this man did—that he had a right When the chief was led into court this morning escorted by a couple of mounted policemen, he lost all that stoical air of indifference and independence that had characterized his actions since his incarceration. The case attracted a large gallery f spectators, chiefly Indians, and they were a happy lot when the old warrior was allowed his freedom.

Getting Rid of a Stubborn Cough Is Childs Play Now

Make the Medicine Yourself At Home It's Cheap-But You Can't Beat It.

If you want to take care of that bad hang on cough and do it in a few hours better get one ounce of Parmint (double strength) and mix a half pint at home. You can do this in two minutes by adding a little sugar and enough water to fill a half pint bottle.

You'll travel the world over before you get a medicine that will act so surely and quickly on the mucous membrane of the nose and throat. It halts the inflammation, the tickling sensation stops with the first spoonful, the heavy breathing goes and clean membrane, free from irritation and mucus follows. For Catarrhal conditions such as mucus droppings, clogged nostrils and watery eyes, it won't disappoint—ask for Parmint (double strength). Speak plainly so that the druggist will know exactly what you want.—Advt.

FACE MANSLAUGHTER

W. Mitchell's Fate Depends On Action of Ontario Department.

Special to The Advertiser. Chatham, Feb. 1.-A verdict of acdental death was returned by a coroner's jury at an inquest yesterday into the circumstances of the death of J. E. Keyes, highway department official, killed Tuesday, Jan. 23, when a Cadillac car crashed into a Ford at the intersection of Bloomfield road and the provincial highway, two miles west of the city. The jury attached no blame to M.

Since the fatality the government department has evinced a keen interest in the affair, and supplied all means of amassing evidence which would fix the responsibility. The accident occurred about 5 o'clock in the afternoon. Joseph Young of John R. street, Detroit, who was sitting with Mitchell in the Cadillac, was the only Mitchell in the Cadiliac, was the only eyewitness. Young testified that he chanced to observe the speedometer of the car a few seconds before the crash. It was registering 23 miles an hour. He raised his eyes and perceived the Ford approaching from the sideroad on the left of the Cadillac. Claims 40-Mile Rate.

At sundown, police, firemen, national guardsmen and ambulance workers were combing the shattered structures in the immediate vicinity of the city hall where damage was heaviest. They had recovered three bodies. One was identified as that

of Henry Auger.
Neighboring streets were filled with
noon-day crowds when the explosion
in the gas plant, which is located directly across the street from
Springfield's notable group of municipal buildings, detonated with a roar
which was heard for miles around.
By mid-afternoon an emergency
fleet of ambulances had taken 32 injured to one hospital, and many more were reported cared for in other institutions. A preliminary investiga-tion by the fire department indicates that a small grocery store across a side street from the plant had flashed flame back through a twelve-inch main and into the purifying room filled with highly inflammable gas

vapor.
Hundreds of homes in the congested foreign tenement district back of the gas plant were made uninhabitable by the explosion, which

ulverized windows and caved in ceilings.

Windows and marble panels in the city hall fire station and police head-quarters were broken.

Costly merchandlse displays in shops and department store windows were left exposed to the pilferage of vandals until guards were organized.

Home Remedies of Our Ancestors

Almost every man and woman in America can remember the botanic recipes of our mothers and grandmothers for the treatment of disease and they were wonderfully depend-able, too. Every fall there were stored away in the attic thoroughwort, pennyroyal, catnip, sage, wormwood, rue, etc., for treating ills of the family during the winter months that followed. In 1873, Lydia E. Pinkham's Vegetable Compound was first prepared from one of these botanic and the demand for it has ed to such an extent that hundreds of tons of roots and herbs are now used annually in its preparation.

It has recently been proved that 98 out of every 100 women who try it have been benefited by its use, which is a marvelous record for any medicine to hold.—Advi-

EMILE COUE IN AMERICA

Will the Americans Carry **Torch of New Civilization?**

Coue Believes Europe Will Not Fall, But Declares Traditions Hold People in Check-Relates Differences Noted Between Americans and Frenchmen.

> By EMILE COUE. ARTICLE VII.

There are political students and thinkers who see in the present chaos, of my argument. A fresh breeze of of Europe convincing evidence of the freedom if discussion blows through decline of what we call modern civilization. They believe that the war has hastened the passing of an era, and the final collapse is at hand; that the thousand year-old edifice of western culture is crumbling to dust, as in past epochs the proud pillars of Rome, Greece and Egypt tottered and fell when their destiny was accom-

And did I believe it I would discourage such sombre predictions, for the law of as an admirable example of a vigorsuggestion is immutable, and to dis- ous national spirit, eager to push hasten their realization. As I have explained and, I hope, demonstrated, every idea tends to become a reality. As the sick man aggravates his sickness by dwelling upon it, and the aged shortens his days by thinking they are numbered, so nations and races hurry their own downfall by allowing the suggestion of it to sink nto their souls.

Yet, were the light of European culture to be extinguished, the torch of civilization would still be kept burning by America. Who can visit this country without being persuaded of its fitness for such a glorious destiny? There has been much to mpress and astound me here, but one aving been among a new people; new people who have begun to limb where others had stopped, and whose best attainments have far outstripped the best of other nations Why is this? It must be because America started untrammeled by the ad of "traditions" borne by the peoles of the old world, and her spirit or genius was free to develop on new ad independent lines. "Traditions" n this sense are nothing but "sugestions" operating ceaselessly, autothrough succeeding generations. Of architect. urse, the earlier generations of Americans were still under the inuence of their legacy of traditions. But the chain was broken. That America has built a new oundation for her spiritual home nay, for a new civilization, is proved by her political and social instituions, and by her whole trend of national thought today, although this is not the place for a proper analysis of them. Reminiscent as they obviously must be of older ones, they nevertheless differentiate widely from them in most essentials. There are certain superficial resemblances, but nothing like the fundamental sameness of principles which strikes one in all Suropean countries. Compare the social conditions ex-

Europe has, indeed, solved many social probems, but has not had time to forget the difficulties, the obsession of which disturbs them still from time to time. For instance, the struggle between Democracy and Autocracy. America, on the contrary, has been freed of all too lax in our conventions is not for such hampering autosuggestion, and me to decide, however, and so I will has therefore been enabled to move the real subject in hand

Freedom of Discussion.

I might also point to the position of religious thought as an illustration every avenue of thought, preventing stagnation and dogmatic decay. Nowhere in the world, to my knowledge is there such a lively interest manifested in church matters as in America: and nowhere is there such tolerant liberality. Here the church, or religion-call it what you will-is an active element in the life of the people. Consequently it lives and develops. > The ideals of America are new The idea of the League of Nations could only have germinated and developed in the minds of a people who themselves constitute a family of states. Europeans welcomed it, but, tainted by traditions, their concention clashed with the fresher one of the United States; so the latter withdrew, thus obeying-unconsciously—the imperious call of the spirit of a new civilization, scorning to build upon an old foundation.

Nations Live Together.

There is more evidence of this new spirit in the harmony in which offshoots of a score or more of different races live together on this side of the Atlantic. They are being welded together in the making of a nation -a God-like achievement. Contrast this with the pitiful strife and futile jealousy that tears Europe, simply because its inhabitants do not happen all to be of what is called in our still puerile language the same "nationality" or creed!

Commissioners Consider Advisability of Making Change in Interests of Economy.

CITY LOSING MONEY

Mayor Wenige Informs Public **Utilities Commission Present** System Is Wrong.

As a result of the question raised by Mayor Wenige at yesterday afternoon's session of the public utilities commission as to whether present power rates were in accordance with the best merchandising principles, an animated discussion followed, and it is just possible that the commission may vote at the next meeting to install "maximum demand meters" the homes of hydro users, as well as factories and stores. General Mana-ger E. V. Buchanan will present figures at the next meeting relative to the cost of inspections, and the re-sults as attained through the present

Mayor Wenige stated clearly that contrary to what might seem like finding fault, he was merely asking for information. He presented two light bills, one of which was for power used before an inspection, and the other for power used after an inspection. Just previous to the inspection he had changed his lamps.
While he had used almost twice the power in the second instance, as compared with the first, his second bill was only slightly greater than the

Although he was getting power cheaper by using a greater quantity, the mayor thought that a flat meter rate would be better for the large number of small users. As the sam time he maintained that if the inspection had not taken place just when it did, the public utilities comnission would have lost money in the case.

Must Make Charge.

It was pointed out to him, however that if not a service charge, a certain comparatively high rate must necessarily be charged to offset the cost of maintenance of service. The slid-ing scale of rates merely provided for the charging of actual power con-sumed, after a certain amount of power had been used. Mr. Buchanan claimed that it was estimated that revenue lost was nearly negligible, but if it was thought that sufficient evenue was being lost, it would pay o install maximum demand meters. Two inspectors have been employ ed two months, twice a year, it was stated, and it might prove profitable

was tested shortly after the complaint was made. It was learned that the tenant who had obtained the free power had since departed for Italy.

Mayor Wenige contended that the user, who had been wrongly charged, should have some redress. Chairman Vining and Mr. Buchanan, however, pointed out that the utilities was not at fault and that the responsibility rested between the man who wired the house and the owner who had the wiring done. Philip Pocock stated that it was not obligatory that the commission even investigate the matter, but it was done as a matter of courtesy. The landlord was responsible, and the case should be taken to the division court by the complainant.

Commissioner McFarland, chairman of the parks committee, stated that the commission was now in a position to supply all schools, the fire hall, public library, as well as city needs, in the way of flowers. Facilities for doing so have increased 100 per cent, he said, but the needs would have to be made known now so that the flowers could be ready at planting time. In the past, it was at planting time. In the past, it was said, the fire hall asked for flowers in the summer months, and it was then impossible to supply the needs. Mr. Buchanan was instructed to write the schools and other city organizations immediately, asking for
