LATEST ENGLISH and NEW YORK EFFECTS

Once more our customers and others are to be shown the advantage of being in the New Method procession, or of getting in.

It's like this:—The most popular Overcoat fabric the custom tailor will have this season is a rough faced, thirty ounce gray Overcoating, just announced by London fashion authorities as the latest and most correct thing for the season. It is certain to be much sought after by smart dressers. Custom tailors will ask and get extravagant prices for it.

Buyers in ready-to-wear clothes will wait until next season for it. As a rule, they needn't. We knew about this handsome and stylish line early. We have a supply of them in

Raglan, Yoke and Box Back Styles

We think we have enough to take care of our customers and, may be, of other folks customers, too. We shall probably be the only merchants in Chatham to have it.

If you want any better let us know very promptly. We don't promise anything to those who wait.

WAR MEANS NEW TAXES

Chancellor of the Exchequer Preparing British People for Inevitable.

Intimates That Next Year He May Have to Ask the People to Bear Even Greater Burden.

London, Nov. 4.—What is regarded as an important announcement, preparing the people of Great Britain for new taxes and fresh loans, was made to-night by the Chancellor of the Exchequer, Sir Michael Hicks-Beach, in a speech at Bristol.

After alluding to the enormous increase in the ordinary expenditures of the government, he reviewed the war taxes, and said that the ever-increasing demand of the national exchequer gave reasons for careful thought and even anxiety for the future.

"The cost of the war in South Africa is enormous," said Sir Michael "It still drags on. It may be, when next year comes, that I may have to ask the people of this country to bear even greater burdens and to make even greater sacrifices."

Sir Michael Hicks-Beach announced that the government was communicating with the authorities in South Africa with a view to a change of the situation of the concentration camps and to an amelioration of their conditions.

John Morley, M. P., speaking to-day at Forfar, Scotland, asserted that the ordinary annual expenditure of the British government had increased £28,000,000 during the last ten years, or, including the suspension of the sinking fund, £23,000,000. He declared that there was a real danger ahead of the country.

The cost of the war in South Africa is enormous," said Sir Michael "It still drags on. It may be, when next year comes, that I may have to ask the people of this country to bear even greater burdens and to make even greater sacrifices."

ALD. M'COIG COMPLAINS

He Finds Fault With Civic Work—King's Birthday to be Kept on Monday.

Chas Hadley and Dr. Cornell Appointed to the Board of Health—Inspector Guttridge's Salary Paid for October.

A new order for the opening of the Council meetings has been suggested as follows:—The Mayor—Is Moses Robinson present? City Clerk—He is. The Mayor then strikes his baton on the handsome marble tablet where the gold letters are the thickest and the session of the Council is declared duly opened.

Ald. McCoig objects to the manner in which the pay sheets are made out. He wants the Current Expense and Local Improvement accounts separated. None of the aldermen knew where fire alarm box number 41 was located, and after the fire bell had been ringing about half an hour Ald. Mounseer asked where the box was. As nobody knew, not even Ald. Marshall, Master-at-Arms John Northwood was sent down to telephone. When he reported that the fire was at the Fanning Mill Factory no one was more surprised than the Chairman of the Board of Works. He at once left for the scene of action.

D. W. Crow is going to build a steamboat. He wants the use of the foot of Ursuline Ave.

Ald. McCoig finds fault with the new granite walk on Sixth St. Is the city liable for keeping the fence on the Cemetery road in repair?

This is the question that is agitating the Parks and Cemetery committee. The Emma St. walk again.

The King's Birthday will be observed on Monday instead of on Saturday. The Mayor will so issue a proclamation.

The City Engineer must attend all meetings of the Council in future. Chas. Hadley and Dr. Cornell were appointed members of the Board of Health in place of A. D. Westman and Dr. Thornton, resigned.

The council assembled in session at 8 o'clock sharp. They came to the meeting thus: City Clerk Merritt was the first to put in an appearance. He was early. Aldermen Marshall and Edmondson came along together about 7.55. Ald. McCoig was the next to come and he was followed by Ald. Fleming. The Mayor and Ald. Cowan were close on the heels of Ald. Fleming and they were followed by Moses Robinson. There now being a quorum all wended their way from the City Clerk's office to the council room, where master-at-arms John Northwood was found awaiting the council.

Ald. McCoig is with the way the pay sheets are being made out. The engineer has plenty of time to make local improvements and the general accounts were not separated by the city engineer.

Ald. McCoig—I am not just satisfied, and I don't think that Ald. Marshall is with the way the pay sheets are being made out. The engineer has plenty of time to make local improvements and the general accounts were not separated by the city engineer.

Ald. Marshall—There is just that little trouble. I have to come up and get the accounts in proper shape. The engineer is good at attending to work but his bookkeeping is at fault apparently.

Ald. Marshall moved that the contractor be paid \$21,114, being 80 per cent. of the cost of the walk on the west side of Sixth street.

Ald. McCoig—That walk is crumbling up. I don't think that it is properly laid. Ald. Marshall—It isn't crumbling. The top dressing has been scraped off in several places by somebody walking on it just after it was completed.

The marks of the boot-heels can be seen and the walk is badly scratched up. It seems people can't learn any sense. Ald. McCoig—It looks to me like a day in the workmanship. If the walk is frosted or the work inferior I don't think we should go ahead and pay for it. The Mayor—According to the contract, when the work is completed the contractor is entitled to 80 per cent. of the cost. We already have hundreds of dollars of Contractor Seymour's money from the 20 per cent. kept back from the price of other walks in the city.

Ald. McCoig—I only wanted to draw attention to that particular piece of work. If the Board of Works is satisfied, that is all that is necessary.

Ald. Marshall—I examined the walk and I don't think that there is any fault to be found with the workmanship. The walk looks rough as a result of being tramped on. The contractor has been complaining and would like to find out who did it.

The Mayor—The new walk on Gray street was scraped in the same manner by somebody walking on it on Sunday. It would be a good idea if the city could find out who did it and prosecute the vandals. A petition for a walk on the south side of Gray street from Raleigh street to West street, fully signed, was referred to the engineer to report on.

A request from the Chief of Police for a crossing at the Police Station was referred to the Board of Works with power.

A request to trim trees from Mrs. Alice Sullivan was referred to the Chief of Police.

The request of D. W. Crow for the use of the foot of Ursuline avenue for the building of new steam boat, was laid over till next meeting.

The request of the Board of Health for the renting of a room in the Victoria Block in lieu of the room in Harrison Hall to be surrendered to the city engineer, was referred to the Property committee.

J. R. Guttridge wrote requesting payment for his salary for October. The Mayor—Mr. Guttridge was discharged in the middle of the month. He is an old servant of the city, having been in the city's employ 21 years. He had kindly helped the inspector, showing him how to use the disinfecting apparatus, etc. It was hard that such an old servant of the city should be discharged when winter was coming on, without a moment's warning.

Ald. McCoig—It is a question if we could dismiss him in the middle of the month. The Mayor—We are not legally bound to lend a helping hand.

On motion of Ald. McCoig—Cowan, it was decided to pay the ex-Health Inspector's salary for October on the ground that he had lent a helping hand to the new inspector. James Glenn's complaint that the city had not fulfilled their promise of filling up the road on Williams street was referred to the Board of Works.

Frank Lapp and nine others wrote complaining that there were no catch basins on Lorne avenue between Forest and Lacroix streets. Referred to Board of Works with power. Chairman Marshall, of the Board of Works, reported that the crossing on Victoria avenue from Forest to Amelia streets had been completed. That the Board of Works and O'Keefe and Drew could not agree as to

OUTLAWS

All British Soldiers, including Kitchener and Staff, so Branded by Botha.

Paris, Nov. 4.—The text of General Botha's counter-proclamation to Lord Kitchener's recent proclamation has reached here. It declares:—

"Whereas, no official of the Orange Free State or the Transvaal Republic, and no general, commandant, or burgher, intends to obey Lord Kitchener's proclamation or to trouble with it.

"And, whereas, the proclamation contains falsehoods, habitual to the English.

"And, whereas, Lord Kitchener's proclamation has strengthened the determination of all burghers to resist to the end; now,

"Therefore, I, Louis Botha, commandant-general of the Republican forces, with the consent of the Governments, officers and burghers of both Republics, proclaim Lord Kitchener, his staff, and the officers and soldiers serving under his orders fighting us now to be outlaws in South Africa, and all officers and burghers in the two Republics and in Cape Colony are ordered to shoot every armed Englishman whom they meet."

Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. HE ESCAPED

Nelson Marshand Experienced a Dangerous and Exciting Adventure at Taylor's Mills.

Nelson Marshand, who is engaged in digging out the basement of the new T. H. Taylor flour mills, met with a very narrow escape this morning.

The dirt which is being taken from the mill site is being utilized in building up the creek bank. Mr. Marshand was driving one of the scrapers and had filled up his scraper and was driving to the edge of the bank when his horses became frightened and commenced to back up. Mr. Marshand was standing at the side of the scraper and was pinned between the wheel of the scraper and a building which stands on the bank near the place where the men were working.

One of the other workmen seeing his danger sprang forward and pulled the horses ahead, thus freeing Mr. Marshand from his perilous position. Had it not been for this prompt action Mr. Marshand would have undoubtedly received some serious injury. As it was his right leg was badly bruised and he will be laid up for a few days.

SEPARATE SCHOOL BOARD.

The regular meeting of the Separate School Board was held last evening. There were present E. Beardon, chairman; P. Robert, W. O'Brien, J. T. O'Keefe, Peter Blonnie, Jno. Welsh, Jas. A. King and F. E. Gherdy. Salaries of teachers and janitor for month of October were ordered paid. Accounts were paid as follows:—The Banner-News, \$4.50; E. Beardon & Son's, \$1.00; James Johnston, saw-enger work, \$3.00. The building committee reported satisfactory progress in the building of the new school house. The board then adjourned.

FOUR MEN DROWNED.

Detroit, Nov. 4.—A special to the News from Michigamme, Mich., says four prominent young men of this village, George W. Levin, Abel Levin, Emil Carlson and Albin Carlson, were drowned late yesterday afternoon in Lake Michigan. The men crossed the lake earlier in the day in two boats, the Levin brothers in one and the Carlson brothers in the other. A storm came up, and the party started home in one boat, which it is supposed capsized. A searching party was out all night, but no trace of the bodies of the men or their boat could be found.

Do You Wear Glasses?

If not, do your eyes ever have any of the following symptoms of eye trouble: A sense of drowsiness, heaviness of the lids, spasmodic twitching of the lids, and if the eye strain has been of long duration, reflex nervous disturbances of great variety and not limited to the eye and frequently the eyes are not suspected of the trouble. The most common result of eye strain is headache, and it is probably safe to say that defective eyes are the most frequent cause of headache. Treatment will not remove those troubles, as we cannot change the shape of the eye, but we can by proper glasses remove these troubles and also correct any other required by glasses at

BOARD WILL MOVE OFFICE

Civic Health Representatives Will no Longer Meet in Harrison Hall.

Extensive Reports Submitted and Action Taken Thereon—Chairman's Resignation Received. At their meeting last evening the Board of Health decided to move their office from the Harrison hall to the Victoria Block. This was done so that Medical Health Officer, Dr. Hall's office and the sanitary inspector's office will be closer together and they will be better able to consult on different questions which affect the sanitary condition of the city. The following were present at the meeting: Messrs. Bray, Dunlop, Sulman, and Richards. Mr. Dunlop was appointed chairman pro tem. The medical health officer's report was read and adopted. It was as follows: To the chairman and members of the Board of Health, Gentlemen, I would recommend that the signs procured by the Board to prevent spitting on the sidewalks of the public streets, be put up at once. I learn from the newspapers that the city council have been considering the propriety of changing the health office from its present location to the third floor of the City Hall. The matter was talked of before, but at present people who wish office is not in its present location of much use to the public, or the officers of the board. I would recommend that the council be asked to rent a room on the second floor of the health officer's room, open at all times of the day to the public and the Inspector and Health Officer can at all times be in a position to consult together, inspect meats, test the milk supply and examine water. The advantages of this arrangement would be very great, not only to your officers but to the public at large. I would recommend you to consult on health matters have to come to the private office of the Medical Health Officer and the Inspector has to waste time travelling between the two offices. Then, too, the M. H. O. could give considerable more time to chemical and biological investigation for the city. I would recommend that printed forms be prepared for granting permits for the removal of dead bodies from the city when required. Scarlet fever has been reported as follows: Park street 3, Park avenue 1, Cross street 3, Richmond street 2, Wellington street 1, West street 1, Fine street 1, Queen street 1, St. George street 1, Patrick street 1, Selkirk street 1, Degge street 1, Stanley avenue 1, Princess street 1, Kirk street 2, total 26. Of this number 10 were sent to the contagious wards of the hospital, and 12 have recovered. There were no deaths. Thirtysix still sick. All of which is respectfully submitted. W. R. HALL, M. H. O.

Mr. Richards, who is chairman of the committee appointed to put up signs, will see that they are put up at once. Nothing was done re the resignation of Dr. Thornton. The clerk was instructed to see the various companies, re the posting of signs on telegraph and telephone poles. Dr. Hall said he had a room of his own which he could rent to the Board at \$4 a month, being the rental he is now paying. Richards - Mayor - That the clerk write the Council that the Board of Health are in favor of renting the room proposed by Dr. Hall. Bray - Mayor - That 200 forms for transit permits be printed. Carried. The Inspector's account of 65 cents was ordered paid. The sanitary officer's report was then read and received. It was as follows: Chatham, Nov. 4, 1901. To the Board of Health, City of Chatham. Gentlemen—I beg leave to report as follows: On Oct. 9, I had hog nuisance removed on Park avenue; also made enquiries about chicken coop on King street, it had been moved and cleaned. Oct 8—Put up scarlet fever card on the house of Theodore Metevier, Cross street, three patients. Baymen Metevier age 8, Volbra age 7 and Willie age 5. Patients attending separate school, school notified. Oct. 11—Put up scarlet fever card on the house of William Kelly, Richmond street, patient Ida Kelly age 6, attending Queen street school, school notified. Oct. 14—Put up scarlet fever card on the house of Joseph Ripley, 259 Wellington street, patient Bessie Ripley age 6, attending Queen street school, school notified. Also on Oct. 14, put up scarlet fever card on the house of Mrs. Rouse, Park street east. Patient Gertrude Rouse age 9 years, attending Queen street school, school notified. Oct. 17—Put up scarlet fever card on the house of George Clements, West street south. Patient Ella Clements age 9 years, attending Queen street school, school notified. Oct. 18—Put up scarlet fever card on the house of Jesse Savage, Park avenue west. Patient Elsie Savage age 3 years, attending Queen street school, school notified. Oct. 25—Put up scarlet fever card on the house of Mrs. McNaughton, Prince street. Patient Jessie Ferguson age 5 years, attending Queen street school, school notified. Oct. 25—Put up scarlet fever card on the house of Robert Cucksey, Queen street. Patient Lloyd Cucksey, age six years, attending Queen street school, school notified.

GUNS AND SPORTSMEN'S SUNDRIES AT MORTON'S HARDWARE STORE

Herbert has reported twenty-five closets done, not ordered. John Smith reported eleven closets not ordered. October 22.—Dead dog removed from rear of Barber shop next Central Drug store, also dead cat over creek, near switch, Taylor Property. October 23.—Two cats removed from alley between Kirk street and Park street, also dead dog from Creek, above the upper bridge. Saturday, October 26.—Ordered six pigs (offered for sale) removed outside of city limits. On Monday, October 28, I asked Mr. McGarvin to remove manure from alley. Promised to do so. Also asked Mr. Sheldon, who said he would as soon as Mr. McGarvin removed it. October 28.—Received complaint of bad condition of horse troughs at City Fountain. Phoned twice to G. Taylor, who was out of town. Seen Mr. Fleming to see whose duty it was to clean Fountain. He thought the man who cleaned market should do it. Called on him but it is not his duty. I have had several reports of sewer gas from in-takes to sewers. Cause, water low, or dried up in traps. Also had three reports of garbage and swill nuisances. Had same cleaned up. ANSON MOUNTEER, S. I.

Headcheese Savages Fresh Pork Frankfurts Tenderloins Breakfast Bacon at the Chatham Pork Store, Opera House block. Phone 240. G. W. ROSS NOMINATED. Mount Brydges, Ont., Nov. 4.—Hon. G. W. Ross, Premier of Ontario, was today nominated as the Liberal candidate for West Middlesex. No other name was mentioned in the convention, and the nomination was enthusiastic. The chair was occupied by Geo. C. Elliott, of Ekfrid, vice-president of West Middlesex Reform Association. In accepting the nomination Mr. Ross spoke at some length. Referring to his opponents, he said that at the present time it did not seem to him that the chances of victory for the Conservative party were any better than in former years. Proceeding, Mr. Ross stated that the House had been elected for four years, and that it would be unwise to dissolve unless there was some good reason for the contrary. Mr. Ross then maintained that the Province had no grievance against the Government, citing the expenditures in aid of agriculture, education, in developing New Ontario, in draining swamp lands, etc. W. S. Calvert spoke briefly. The Board then adjourned.

CHEAP STATUETTES.

HOW THEY ARE MADE, HARDENED, FINISHED AND COLORED.

Italians From Tuscany Excel the World in Their Production—The Demand For These Casts That Comes From Our Schools.

While it is not difficult to secure good American workmen for carrying out schemes of interior decorations, it is impossible yet to get native born men capable of modeling statuettes and busts such as are sold on the street corners and in many of the art shops. All the workmen employed in factories that produce these are Italians, chiefly from Tuscany. This is equally true of those who follow this trade in Germany and France.

The great majority of these busts and statuettes are copied directly from the originals wherever they happen to be, and then the molds are made from that copy and sent to all parts of the world, the statues being cast in the place where they are to be sold. In the larger shops in New York city, however, a certain amount of original work is done in order to keep pace with the popular demand for representations of the hero of the hour.

The chief purchasers of these casts from the larger makers are the high schools all over the country. They demand, of course, not only classical subjects and copies of ancient bas-reliefs and architectural details, but also busts of famous men and women from every period of the world's history.

The process of casting these statuettes is a comparatively simple one when the mold is once completed. The material used, plaster of paris, is cheap, and a very excellent quality is produced in this country. When the statuette comes out, it is pure white and covered with ridges made by the different sections of the mold.

The demand for nude statuettes in the art schools is growing less every year, and one of the largest makers of these casts. "That is because people are realizing more and more that artists must draw from the human figure itself if they wish to understand the human form.

The statuettes which are carried about the streets wrapped in harmonious yellow tissue paper or are displayed on the sidewalks or on the steps of unoccupied houses are made by quite a different set of manufacturers. The larger dealers do not sell to these street peddlers at all. The peddlers have their own little workrooms, which furnish them with their stock at a much lower rate than the regular dealers charge.

The Quick Pace of Declining Health. Wasted Nerves and Weakened Bodies Give way to Suffering and Disease—The Action of Dr. Chase's Nerve Food

There are hosts of people who are susceptible to attack of various kinds of illness. Their systems are ever ready to take on disease. They bend under the slightest trial, and their health is jeopardized by every trivial exposure. They lack resisting power, and health declines because there is no nerve force to make good the waste by disease.

Faint, languid, nerve-shattered people find exactly what they require in Dr. Chase's Nerve Food. It supplies the wants of wasted nerves, rebuilds the wasted cells, and renews the blood.

Dr. Chase's Nerve Food, 50 cents a box, six boxes for \$2.50. At all dealers, or Edmondson, Bates & Co., Toronto.

AN ILL TIMED PROTEST. But the Extravagance Was Too Great for the Economical Wife. Every now and then it is startlingly demonstrated how early environment dominates later experiences in persons of maturity and leaves impressions more lasting than years of changed surroundings.

ACTOR'S WIT AVERTED RIOT

How John Brougham Restored Peace With a Well Turned Joke.

"There have been a good many stories told of the quick wit of actors who have turned an accident or a panic or a row into a joke," said an old time actor the other day. "A good many of the stories are fakes, I suppose," he continued, "but some have never found their way into print. The press agent wasn't as numerous or as clever in the old days as he is now."

"I remember an instance in which John Brougham carried off a most difficult situation by a clever bit of improvisation and saved the old Winter Garden in New York from the disgrace of a riot. It was the first night on which he played his burlesque 'Columbus' there, and the house was filled with his friends.

"Just as I came on a discussion that had sprung up among some of the excited Fenians developed into a quarrel. The house was already disturbed, and there was every prospect of a fight in the orchestra in another minute. 'I delivered my message and Brougham replied to me in the words of the piece: 'Confound you, have done!'

"There was a roar of laughter from the whole house at this, and the Fenians joined in it as heartily as any one else. There was no further talk or indication of trouble and the play went on without interruption."

WORDS OF WISDOM.

If you'd lose a troublesome visitor, lend him money. Three may keep a secret, if two of them are dead.

He that falls in love with himself will have no rivals. None preaches better than the ant, and she says nothing.

There are three faithful friends—an old wife, an old dog and ready money. When a man's marriage without love, there will be love without marriage.

Proclaim not all thou knowest, all thou owest, all thou hast nor all thou canst. He that is rich need not live sparingly, and he that can live sparingly need not be rich.

Be civil to all, servicable to many, familiar with few, friendly to one, enemy to none. When you speak to a man, look on his eyes; when he speaks to thee, look on his mouth.

Who is wise? He that learns from every one. Who is powerful? He that governs his passions. Who is rich? He that is content. Who is that? Nobody.

Stories of Crispi. The late Francesco Crispi never forgot, king's servant although he was, that he had also been one of the kingsmakers.

Oldtimer—How do you manage? Go to court about it? Oldtimer—Court nothing! Every five days I sent him a couple of dozen eggs, and when I had him used to the eggs I stopped and told him his hens had laid their first egg. In less than a week I saw that fence go up.

His Vocation. Parent—Well, Charles, you will soon be getting through with your schooling, and it's time you thought about what you expect to do for a living. Have you any preference for anything in particular?

Consistentness. Among the questions sent out by a school examiner was the following example in arithmetic: "If one horse can run a mile in one minute fifty seconds, and another a mile in two minutes, how far would the first horse be ahead in a match race of two miles?"
