## SHOT DOWN FROM BEHIND

### Kent County Boy Foully Murdered for Money on Zuni Reservation.

Tragedy in New Mexico—Long and  
Successful Chase for Murderer.  
Startling Story.

(Special to The Planet.)

Romey, Sept. 26.—The friends of  
Walter Lyons have just received the  
particulars of his tragic death.

Mr. Lyons had been teaching school  
at Concho, Ariz. He left Concho about  
the middle of May to go to Gallup,  
New Mexico, in company with Claude  
Doane, an American. It was known  
Mr. Lyons had about \$100 in money  
on his person. He rode a roan horse  
and had his outfit of blankets and  
tent on a bay pony. He arrived at  
Zuni on June 3rd, and went on to  
Reamah, arriving there June 4th.

When about seven miles from Ramah  
Claude Doane shot him from behind  
through the right breast, killing  
him instantly.

On June the 13th two Zuni boys  
found a hat and gloves and went and  
brought their father to see them. The  
Indian discovered blood on the hat  
and looking around, found the dead  
body of Mr. Lyons, where Claude  
Doane had dragged it in the bushes.

The Indian agent was notified and  
came at once with his physician, ex-  
amined the body and gave it decent  
burial, and at once telephoned for  
the sheriff to start on the trail of  
Claude Doane.

After following him some weeks  
he was arrested and lodged in Santa  
Fe jail, a distance of 200 miles from  
where he committed the deed.

Diek Huber, a mounted policeman,  
found Walter Lyons' roan horse at  
Albuquerque on the 20th of August, and  
has it in his possession. It will be  
produced at Doane's trial, which is  
to take place at Gallup this fall. The  
motive for the murder was robbery.

Mr. Lyons was born at Kent Bridge  
on May 8th, 1854, and spent most of  
his youth there. Besides his mother, a  
resident of Chatham, he leaves a  
wife and three children—Pearl (Mrs.  
Rose), of Hannah, N. D.; Irene and  
Willie at Romey with their mother.

A large circle of friends and ac-  
quaintances will be sadly grieved to  
hear of Walter Lyons' tragic death.

Miss Burns has reopened classes in  
China Painting at her studio on  
Thames street, opposite greenhouses.

## A GOOD CAUSE

The Sunday School Teacher's Associ-  
ation Decided to Form a Normal  
Class for Teachers

A very largely attended meeting  
of the Chatham Sunday School Teach-  
ers' Association was held in Christ  
Church Sunday School Hall last even-  
ing for the purpose of discussing the  
advantages of forming a Normal  
Training class for Sunday school  
teachers.

Rev. Rural Dean McCosh presided  
over the meeting and opened the  
proceedings with the following musical  
program:

Vocal—G. Brackin.  
Selection—Christ Church male  
quartet—Messrs. Angus, W. Smith, J.  
Smith, and Wilson.

Piano—Miss Flossie Bogart.  
Duet—Miss Richards and Mrs. Old-  
ershaw.

Vocal—Miss Hollinrake.  
Piano—Miss Carson.

Duet—Messrs. Hollman and Holl-  
man.

Secretary Austin read the minutes  
of the last meeting and then the  
discussion of the evening followed.

It was decided to form the class and  
the first lesson will be given by Dr.  
Thornton in the Park street Metho-  
dist church a week from next Tues-  
day.

## WILL PRESENT GOLD MEDAL

### Minister of Education Will Visit Chatham Oct. 24 to Award Planet Prizes.

Essayists in Planet Junior Competi-  
tions will then receive Awards  
Won.

The Planet this morning received  
a letter from the Minister of Edu-  
cation, Hon. Dr. R. A. Pyne, stat-  
ing that he plans to visit Chatham  
on Tuesday, October 24th, for the  
purpose of presenting the gold medal  
and prizes won by Public and Se-  
parate school essayists in the recent  
Planet Junior competition.

It will be remembered that the  
Minister very kindly acted as the  
judge in this splendid competition  
and was good enough to promise to  
visit Chatham in the Fall and make  
the presentation in person.

All the schools of Kent County  
will be invited to take part in the  
pleasing function.

## THE BIG PENINSULAR FAIR IS NOW IN FULL SWING

### H. S. Clements, M. P., Gracefully Opens the Great Ex- hibition—Throngs Follow Regimental Band and Greet Opening—Fine Exhibit of McKeough School.

The big Peninsular Fair was formally  
opened this afternoon at half-  
past two o'clock by H. S. Clements,  
M. P., and Archie B. McCoig, M. P.

Owing to a misunderstanding be-  
tween the Directors and the Sec-  
retary of the Hon. the Minister of Ag-  
riculture, Nelson Monteith, the lat-  
ter gentleman was unable to be pre-  
sent to open the Fair as was expect-  
ed, but the announcement was made  
by Mr. Clements that the Minister  
will be present to-morrow afternoon  
to address the gathering.

There was a very large crowd pre-  
sent for the opening, and universal  
disappointment was manifested when  
the announcement was made that  
Hon. Mr. Monteith would be unable  
able to be present, but judging from  
reception given the announcement  
that the Minister will be here to-  
morrow, there will be a good crowd  
present to welcome him.

Immediately after lunch a proces-  
sion was formed at the Garner House  
and marched to the Fair Grounds.  
It was headed by the 24th Regiment  
Band and following came cabs carry-  
ing Mr. Clements, Mr. McCoig,  
President of the Society A. J. Dolsen,  
ex-President Chinnick, John Clem-  
ents, J. Houston, Mr. Longmore, F.  
Sutor, and S. L. Wellwood.

Upon arriving at the grounds the  
speaking, which took place from the  
"judges' stand," was commenced.  
President Dolsen opened the pro-  
ceedings with a few well chosen re-  
marks, and introduced Mr. Clements  
and Mr. McCoig.

Mr. Clements opened by explaining  
the absence of Hon. Mr. Monteith  
and assuring the assembled crowd  
that the Minister would deliver an  
address in the afternoon to-morrow.  
He also hoped that Hon. Dr. Reaume,  
Minister of Public Works, would be  
present, too. He thanked the Direc-  
tors for associating his name with  
the opening of the Fair. He congrat-  
ulated the Directors on their mag-  
nificent Fair. Their labors are not  
always appreciated, and they deserve  
great credit. He made a few eulo-  
gistic remarks on the greatness of  
the County of Kent and the people  
who populate it, and closed amid  
hearty applause and cheers.

Mr. McCoig spoke briefly along  
similar lines, referring to a move  
advocated by Mr. Clements that will  
greatly benefit the farmers of Kent  
—cut off on the River Thames.

He referred to the advancement of  
the county, as shown by the estab-  
lishment of the electric railway.

"In reference to this," said he, "I  
would like to say that Premier Whit-  
ney was right when he refused to  
give electric railways perpetual fran-  
chises over their routes."

Mr. McCoig paid a glowing tribute  
to Hon. Mr. Monteith, saying he was  
a man of lots of ballast and brains.  
After the speaking the Fair was

declared open and the trials of speed  
were commenced.

It is a tribute to President A. J.  
Dolsen, Secretary Henry Robinson and  
an energetic and worthy Board of  
Directors that the Fair is such a  
splendid and pronounced success.  
Providence has been very kind and  
the weather is certainly ideal. It  
may be, as the old Peter Robert en-  
thusiastically declares, that the fact  
that a good Tory Minister had ex-  
tended his patronage influenced Pro-  
vidence considerably, but, at any rate,  
nothing finer in the weather line  
could be desired.

During the entire morning exhibi-  
tors kept thronging in—all records  
being broken and every entry list is  
well filled. The stock, poultry and  
floral exhibits are phenomenal, and  
the various buildings are all throng-  
ed.

## McKEOUGH SCHOOL EXHIBIT.

It is no disparagement of the many  
other magnificent exhibits in the  
main building to point out that the  
display of honor belongs to the chil-  
dren. No finer exhibition has ever  
been made in Chatham than the dis-  
play from the pupils of McKeough  
School. The exhibit is in charge of  
Messrs. Irving and Nicholl, and the  
skill and exquisite taste these tal-  
ented young ladies have displayed in  
the arrangement is only vied by the  
excellence of what they had to offer.  
Inspector Park, with a pardonable  
and almost paternal pride, was ever  
present and anchored in the vicinity  
of this peer of all exhibits, drinking  
in the spontaneous and eulogistic com-  
ments of all who passed by. The dis-  
play was a revelation of the breadth  
and length and depth and height of  
the wonderful work done in an up-to-  
date and enterprising school.

Here in the centre were a series of  
charming paintings and etchings in  
passe partout and dainty frames. A  
part of the work of the children, the  
girls being responsible for the pas-  
se partout, the boys for the fram-  
ing. Over to the right were the seed  
cases in woodwork—the first ever at-  
tempted in Chatham. Flowers, foliage  
and fruits of the field, grown by  
the children themselves, were every-  
where in evidence; nature study  
books with beautifully pressed and  
preserved flowers and foliage hung  
daintily hither and thither; raphia  
work and a perfection of reed weav-  
ing were much admired, and the map-  
drawing, writing, free-hand cutting  
and card-board modelling shown were  
without a flaw. The feminine in-  
stinct would be charmed indeed with  
the dainty sewing and needlework, so  
mystic to the masculine mind, and  
the whole was admirably set-off by  
tiny tables bearing up admirable ar-  
rangement of the elate, charming and  
captivating accomplishments of the  
little kindergartners.

"Yes," was Miss Irving's smiling  
response to the enthusiastic and con-  
gratulatory comment of a delighted  
visitor, "we were well pleased with  
the work done, and especially be-  
cause in its entirety it is all assured  
aided work of the children them-  
selves."

Other features of the main building  
were also much admired. Enterpris-  
ing merchants had chartered all the  
space at the opening sale and were  
in rich and variegated settings, and  
it is no wonder that the main build-  
ing is so popular.

## HE KNEW

A teacher in the Central School was  
teaching a class in Nature Study  
yesterday and was describing the dif-  
ferent fowls to be found in the barn-  
yard.

"Can anyone tell me what a gander  
is?" she asked.

Several hands went up and various  
incorrect answers were given. The  
teacher was about to give up when  
she noticed one bright little boy shak-  
ing his hand and snapping his fingers.

"Well, Willie, what is a gander?"  
she asked.

"Please, teacher, a gander is a  
goose rooster," replied little Willie,  
who had spent his holidays with his  
uncles on the farm.

## SPECIAL PRIZE

A consolation prize of a purse of  
\$100 will be given to-morrow for  
competition among horses in the 2.50  
class who do not win prizes to-day.  
The contest will be best three in  
five on half mile heats.

## CAMDEN FAIR

This year, the Camden Fair, to be  
held at Dresden on Oct. 5 and 6, will  
be better than ever. The prize list is  
very liberal, and the entry list will be  
large. The trials of speed will be a  
drawing card. A named race is being  
put on, wherein eight or ten of the  
best horses in Dresden and vicinity  
will start for a purse of \$50. Be-  
sides this, there will be a free-for-all  
trot or pace, for a purse of \$200. En-  
tries close Oct. 3. The races will both  
take place on the last day of the Fair.  
Good band in attendance. Be sure and  
come and bring your family.

## A WARNING

Manager Brisco of the Grand an-  
nounces that the seats for "Isle of  
Bong Bong" go on sale Friday morn-  
ing for their presentation here on  
Tuesday, October 3rd.

Those who do not secure their seats  
on Friday will not be able to get  
them afterwards, as it is assured  
every seat will be sold with a rush.

The opening of the plan is being  
well advertised, as Mr. Brisco wants  
it well known so every person who  
intends going may be on hand for  
tickets at the opening sale and not  
be complaining afterwards if all  
tickets are sold.

## Canada Raises Postage

Ottawa, Sept. 26.—Sir Wm. Mulock,  
postmaster general, and officials of  
his department, have decided that 38  
papers, heretofore entitled to the  
minimum postage entering Canada  
from the United States, will here-  
after be required to pay postage at  
the rate of one cent for each copy  
ounce. The effect, it is believed,  
will be to exclude them altogether  
from the Canadian mails.

When Franklin was publishing a  
newspaper the want ads. had not yet  
come into fashion or use, so he wrote:  
"If you would know the value of  
money, go out and try to borrow  
some." Nowadays Franklin would  
not have to "go out" to borrow mon-  
ey—he could secure it through a  
"Business Opportunity" advertise-  
ment.

A drop of ink is one thing not very  
easily blotted out of existence.

## WILLING WORKERS

Ladies of Holy Trinity Church Who  
Engage in Worthy Effort Elect  
their Officers.

The Willing Workers of Holy  
Trinity church held their annual  
meeting last night. Rev. J. W. Hod-  
gins presided. After opening the  
meeting with prayer he gave a short  
address, in which he said he was glad  
to see so many members present. He  
then reviewed the work of the past  
year and exhorted the members to  
continue to take the interest in  
their work which had always char-  
acterized the society in the past, and  
to help each other in any undertak-  
ing, as in "Union only was there  
strength." After other kindly words  
of advice the election of officers for  
the ensuing year took place, as fol-  
lows:

Hon. President—Mrs. J. W. Hod-  
gins.

Hon. Vice-Presidents—Mrs. Wm.  
Balf, Mrs. Beeston, Mrs. Minty and  
Mrs. D'Albois.

President—Mrs. Fred. Goodland.

Second Vice-President—Miss Minty.

Secretary—Miss Eberts.

Assistant Secretary—Miss Butler.

Treasurer—Miss Lena Russell.

Assistant Treasurer—Miss Olive Ed-  
mondson.

## OUTLAW CAMP CLEARED OUT

### Harwich Farmers Unex- pectedly Came on Con- federacy on Creek Bank

Gipsies Took Fright and Decamped—  
Were They Cattle Thieves?—Farm-  
ers are Suspicious.

Yesterday evening about six o'clock  
two Harwich farmers came unexpect-  
edly upon a camp of strange characters  
near the creek bank some five miles  
up. There were at least two women  
in the settlement and two or three  
horses.

As several petty robberies had been  
reported in the vicinity it was con-  
cluded that this might have been such  
another outlaw camp as that which  
located near Louisville during Aug-  
ust, and it was determined to investi-  
gate this morning. However, the  
campers had taken alarm and cleared  
out.

It is alleged in some quarters that  
these men are concerned in cattle-  
stealing negotiations and in this ca-  
pacity strike out to reconnoitre the  
country. It is said that the cattle  
larcenies are operated by a regular  
syndicate and the caravan and camp  
give a clue to their modus operandi.

## POOR HORSES

W. K. Merrifield Says Chatham was  
the Only Place in Which He Saw  
Half Starved Horses.

"The Humane Officer is too humane  
to the inhuman specimens of human  
inhumanity," was the rather mixed  
up comment of W. K. Merrifield this  
morning, but after this introduction  
he went on to say something in re-  
ference to abusers of horses that is  
well worth noting and also well  
worth consideration from all horse-  
men in the city.

Mr. Merrifield is a great lover  
of horses and nothing gives him  
greater pleasure than to watch a  
nice well kept horse trotting down  
King street. The only way that you  
could add to his pleasure would be  
to let him drive the horse.

"During the past few months,"  
said he, "I have visited many places  
in Ontario, including London, Ham-  
ilton and Toronto, and in every place  
I went I took particular notice of  
the horses I saw, and I must say  
that during all the time I was away  
I didn't see one ill-kept horse. The  
first day I was home I took a walk  
down the street and I saw any  
amount of half starved horses and  
I really felt ashamed of the fact that  
I had to come home to see them.  
If Bill Nye were here he would de-  
scribe many of them as 'two polish-  
ed knobs at the rear, fluted sides  
and band rails down the back.'"

"It is a shame that the horsemen  
of Chatham and the farmers in this  
vicinity do not take better care of  
their dumb animals. The Humane  
Officer should jump on some of the  
offenders and soak them in the Po-  
lice Court instead of handing out re-  
peated warnings."

"Just think, in this celebrated agri-  
cultural district of Kent was the  
only place in which I saw starved  
horses this summer."

No man's a failure until he's dead  
or lost his courage, and that's the  
same thing.

## RALEIGH ST.

## SEWER WORK

### Mayor Cowan Says Engi- neer Jones is not Respon- sible for the poor sew- er Connections.

Workmen Were Instructed to Spare  
Neither Time Nor Material in Do-  
ing a good Job.

In speaking this morning of the  
complaints of the Raleigh St. resi-  
dents in reference to poor sewer con-  
nections on that street, Mayor Cow-  
an said:

"The residents of Raleigh St. have  
a well grounded complaint and the  
matter is being thoroughly investi-  
gated and remedied."

"As far as the city is concerned, I  
can't see how we can be held respon-  
sible for the poor work. The job  
was done by a man named Keeley  
and when he was given the contract  
he was instructed to spare no time  
or labor or material in putting down  
a first class piece of work. These  
were the instructions of Engineer  
Jones, who disapproves of the pres-  
ent job as much as anyone."

"The work was not done by con-  
tract and the men were paid wages  
according to the amount of time it  
took to do the work, so there would  
be nothing in it for them to put  
through a rush job. They would  
have made more money if they had  
taken more time and done their work  
thoroughly and carefully."

"In reference to the superintending  
of the work, Mr. Jones is too busy  
a man to give it his personal super-  
vision and he left it to the men em-  
ployed to carry out his instructions.  
The work is being torn up to-day  
and the engineer will order all the  
rest of it torn up and examined."

## WHO WINS FIVE PRIZES

A single contest among the Chat-  
ham lawn bowling club is now on.  
Entries close by October 1st, and all  
games are to be played by October  
15th. Now we will see who are the  
best bowlers—the young people or  
the old. There will be five prizes  
given. Last tournament stood: 1  
W. Taylor, 2 Dr. J. L. Bray, 3 R.  
G. Fleming, 4 J. W. Webb, 5 D.  
A. Hutchinson.

## PROVINCIAL SUBSIDIES.

If the provinces are to get enlarged subsidies, it is to be taken for granted that Ontario will not be denied her share in the distribution of Dominion funds, points out the Guelph Herald. The agitation for an increase has not emanated from this province, however, but from Quebec. There, the promise of a larger grant from the general chest has been used by Sir Wilfrid Laurier and his party for many years past in corrupt appeals for political support. The Mail correctly states that it was in the celebrated commercial union election, when Sir Wilfrid was in a plot to pass our trade over to his American friends, that the Quebec raid was developed. The then Premier of Quebec was Mr. Mercier. With this gentleman, Sir Wilfrid made a compact, under which, in consideration of his active political support, and of the contributions that were to be collected for campaign purposes, the party was to increase the Federal subsidy to Quebec in the event of a victory at the polls. This transaction, as will be remembered, was the undoing of Mr. Mercier. It was discovered that the campaign money was taken clandestinely from the Quebec treasury. Immediately the discovery was made, Sir Wilfrid deserted Mercier, with whom he had made the bargain, and left him to his fate. Mr. Mercier was deposed from office, and a broken heart - the victim of the ruthless politician who had used him. Sir Wilfrid did not succeed in that election; but he scored a victory in the next, that of 1896, one of his planks being more money for his own province. The pledge to increase the subsidy had not been observed. Now, all the provinces have taken cognizance of the matter, and the appeal for help is united. It is felt that if there is to be a redistribution, all hands ought to be in it. In this position there is common sense.

## THE STAGE

"All the world's a stage  
and all the men  
and women merely players."

## ANNOUNCEMENTS

At The Grand—  
Down By The Sea—Sept. 27-28.  
Gismonda—Oct. 2.  
The Isle of Bong Bong—Oct. 5.  
(Supplied to The Planet by Press Agents.)

The successful playwright is one who can properly blend the elements of pathos and comedy. The author of "Down by the Sea" has done his work successfully, and a more pleasing dramatic entertainment has not been seen on the stage for a long time. It is a play full of human interest, tender sentiment, many spirit and wholesome comedy. Those who fancy "Down by the Sea" a sort of "blood and thunder" melodrama will find themselves greatly deceived by a series of stage pictures as unique and delightful as those in "Way Down East" and "Shore Acres." The acting company comprises the best talent of the theatrical profession, most of whom have been previously seen here in leading roles with the most prominent stars and companies.

The attraction will be seen here to-night, with no advance in prices. Special scenery is carried for every act and new and up-to-date specialties will add to the completeness of the production.

Melbourne MacDowell, for many years joint star with his wife, the late Fanny Davenport, is booked to present Sardon's famous masterpiece, "Gismonda," at the Grand on Monday evening. Mr. MacDowell's company includes five well-known leading men. They should draw tremendously.

## TELEPHONE TALKS.

## TO TELEPHONE USERS AND THE GENERAL PUBLIC.

One of the striking facts brought out before the Parliamentary Special Committee, was the unparalleled spread of telephone service in the rural districts of Ohio and Indiana referred to in our last "talk." How this has been brought about, was very clearly described by a witness who has been in close touch with the business throughout. This is a point of great interest, and to afford a fair understanding of this matter, we cannot do better than quote extracts from this evidence. He said:—

"In Ohio and Indiana, and all through the west, there has been a tremendous increase in the telephone business." \*\*\* "The farmers built their own lines, furnished their own telephones, and kept them in order." \*\*\* "It has been the enormous number of farmers' stations constructed with their own money, that has created this tremendous expansion that has occurred, especially in the thickly settled sections." \*\*\* "The farmers made their arrangements with the telephone company for connecting their line with the local exchange, or with the toll system." \*\*\* "The charge by the company for such connection is from 25 cents to 50 cents per month for each subscriber, which gives free service with all subscribers to the exchange."

The same witness said:—

"In case of competition, we do not connect with such lines. The arrangement covers a defined territory." This statement outlines the plan upon which the great rural telephone service of Ohio and Indiana has been developed. It has been a work of the farmers themselves, not in opposition to, or in competition with, the general telephone systems, but in co-operation with the large operating companies.

This plan, which has met with such success in the States mentioned, is a part of the policy of the Bell Telephone Company of Canada, and material inducements are offered to every rural section which may require telephone service. We have many such connecting systems now, and we are ready to encourage and assist any group of farmers who wish to avail themselves of the plan which has been so successful in some parts of the United States. We do not wish it to be understood, however, that the above is the only plan upon which we are prepared to furnish service to farmers.

## BE DONE WITH CATARRH!

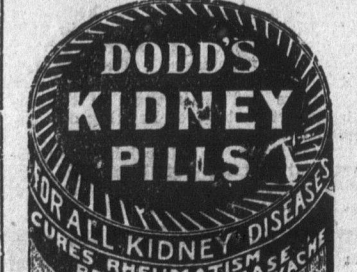

Why allow this filthy disease to poison your system? It drains your strength, ruins digestion, pollutes the breath, makes you repulsive. The one certain cure is "Catarrhazone," it cures because it destroys the cause of the disease, cures thoroughly because it goes wherever the catarrh is, cures every case because its vapor destroys the catarrh germs instantly. To get well and stay free from catarrh get Catarrhazone and use it; satisfaction guaranteed.

## NERVOUSNESS A CALAMITY.

Many who don't realize what lies beyond, treat an attack of the "nerves" with indifference. Others consider it will soon pass away. But in every case nervousness is a calamity. Only one remedy will cure—Ferrozone—a nerve strengthener that acts through the blood. First it gives you appetite—you eat plenty. This fills the blood with nourishment for the inner nerve cells. Energy and strength is instilled into every part of the system. You get well—keep well—nervousness forever departs, because you've used Ferrozone. Price 50c. per box of fifty tablets at all dealers.

## BUILT UP HER HEALTH SPEEDY CURE OF MISS ECLISON

She Is Made Well by Lydia E. Pinkham's Vegetable Compound, and Writes Gratefully to Mrs. Pinkham.

For the wonderful help that she has found Zula Eclison, 6 Erie St., East, St. Thomas, Ont., believes it her duty to write the following letter for publication, in order that other women

Zula Eclison

afflicted in the same way may be benefited as she was. She writes: Dear Mrs. Pinkham:—

"I heartily recommend Lydia E. Pinkham's Vegetable Compound as a uterine tonic and regulator. I suffered for four years with displacement of the uterus and no one but those who have experienced this dreadful agony can form any idea of the physical and mental suffering those endure who are thus afflicted. Your Vegetable Compound cured me. Within three months I was fully restored to health and strength and now my periods are regular and painless. What a blessing it is to obtain such relief when so many doctors fail to help you. Your medicine is better than any doctor or medicine I ever had."

No other medicine has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound.

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhoea, falling, inflammation or ulceration of the uterus, ovarian troubles, faintness, indigestion, nervous prostration, or the blues, should take immediate action and get off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham invites all sick women to write her for advice. Her experience is very great, and she gives the benefit of it to all who stand in need of wise counsel. Address, Lynn, Mass.

## 30 IN FALLING BUILDING.

Score of Workmen Injured, Eight of Them Seriously.

Buffalo, Sept. 26.—With a crash that could be heard for blocks, a three-story brick building, under course of construction on West Ferry street, collapsed yesterday afternoon, carrying down with it thirty bricklayers and carpenters, who were at work in and on top of the structure.

A score of men were injured, eight of them seriously. Six of the injured men were taken to hospitals, and two were removed to their homes in ambulances.

The building was owned by J. J. Crowley of 310 West Ferry street. Morris and Allen had the contract for the masonry, and their men were working on the third story yesterday when the west wall went down, carrying with it a portion of the front of the building, and a section of the rear wall. That there was no serious loss of life was due to the fact that there was no roof on the buildings and that the mass of bricks fell outward toward the street, the men being buried in the timbers of the interior.

One Killed, Several Injured. New York, Sept. 26.—By an explosion of a large quantity of powder, the fireworks factory of Joseph Speizo in Greenpoint, was totally destroyed yesterday. Speizo's 16-year-old son Antonio being killed, and his wife and two younger boys and a workman were seriously injured.

## St. Matthew's Flower.

No saint has a more interesting flower dedicated to him in the floral calendar than St. Matthew. This is the passion flower. It is thought to have elements of the crucifixion, and to these it owes the name given to it by its Spanish discoverers in America. In addition to that there are the five anthers for the five wounds and the three styles for the nails, while the hammer, the lance and the scourge are also traceable.

## ORIGIN OF NAVAL TITLES.

Borrowed Military Terms From the Arabic and the Spanish.

In the early days the rank of admiral was unknown. The chief officer of a squadron was called a constable or justice. The term admiral as now used is derived from the Arabic "amir," or "emir," a commander (as in "amir-al-bahr," commander of the sea). The early English form was "amiral" and is still preserved as such by the French. The Spanish and Portuguese terms are "almirante," the Italian "ammiraglio." The title captain is not a naval but a military one. Under the older organization the real captain of a ship was a master, but a military officer was placed on board, though he knew nothing about nautical affairs. As the captain became bigger and bigger the master became smaller and smaller until at the present day he fills a subordinate position, which is gradually becoming obsolete, being replaced by an officer under the title of a navigating lieutenant.

Commodore comes from the Spanish "comandador." The title lieutenant, borrowed directly from the French, is more modern and is meant as a place holder or one who took the place of the captain when absent. Sublieutenant is still more modern and at the same time a misnomer, as he never was a sublieutenant, but merely a mate, or one who assisted. In former days we had no cadets, but volunteers. However, with the gradual advance of politeness, the more seemingly term of cadets was borrowed from the French and adopted as the title of the young gentlemen in our navy.

In place of paymasters the ships of old had pursers, who looked after the provisions. The naval purser did more. He had charge of the stores of the ship and the money chest. Surgeons and surgeons' mates fulfilled the duties of the doctors. Chaplains are of modern introduction. Naval instructors and schoolmasters ruled in their stead. The term mate was rather a universal one and applied to all branches.

## GIOTTO, THE ARTIST.

The Circle He Drew From Which Grew a Famous Phrase.

Giotta was a famous painter, sculptor and architect of the latter part of the thirteenth century. He was a son of a poor shepherd, but the attention of the great master, Cimabue, having been attracted to the boy by a drawing the lad had made on a fragment of slate, the young artist's fame spread rapidly throughout southern Europe. In those days it was customary for the popes to send for the noted men of their realm, more for the purpose of gratifying their desire to see such celebrities than anything else. Giotta was no exception to the rule. No sooner had the young Tuscan become famous than Pope Boniface VIII. invited him to Florence. When young Giotta arrived at the gates of the pope's private grounds, according to the account, the guard halted him and inquired concerning his mission.

The artist made the matter plain, but the guard was not satisfied with the explanation, frequently interrupting Giotta's explanatory remarks with, "I know he must be a much larger and distinguished looking person than yourself," and "Giotta, too, is a famous painter. By your walk I would take you to be a shepherd." Finally, upon demanding evidence of the artist's skill, the latter stooped and traced a perfect O in the dust of the path with his finger. Any one who has ever attempted the feat of drawing a perfect circle "offhand" well knows how difficult it is.

It is needless to add that the artist was forthwith ushered into the presence of the supreme pontiff, and that since that time "Rounder than Giotta's O" has been a favorite hyperbole to indicate "impossible perfection."

## FIVE KILLED AND 20 INJURED.

Dead Are Railway Men In General Manager's Private Car.

Philadelphia, Sept. 26.—A rear-end collision yesterday between the east-bound New York Limited Express from St. Louis and a local passenger train, which was standing at the Paoli Station of the Pennsylvania Railroad, 17 miles west of here, resulted in the death of five men and the injury of more than 20 others.

The dead are: Frank Brastow of Matherford, general agent at Philadelphia of the Safety Car Heating and Lighting Co., and a distant relative by marriage of W. W. Atterbury, general manager of the Pennsylvania Railroad Co., George M. Pennypacker, Philadelphia, foreman of the car inspectors in the West Philadelphia yards; S. S. Walter, Altoona, Pa., steam heat inspector at the Altoona shops of the Pennsylvania Railroad; Richard Garland, Narberth, general foreman of the west Philadelphia shop of the Pennsylvania Railroad; Carl Dunham, Philadelphia, a railroad employee.

All those who met death were in the private car of General Manager Atterbury, which was attached to the rear of the local train.

Backed up by over a third of a century of remarkable and uniform cures, such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States for any case of Leucorrhoea, Female Weakness, Protrusion, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

No other medicine than Dr. Pierce's Favorite Prescription could possibly "win out," as the saying goes, on such a proposition; but they know whereof they speak. They have the most remarkable record of cures made by this world-famed remedy ever placed to the credit of any preparation especially designed for the cure of woman's peculiar ailments. This wonderful remedy, therefore, stands absolutely alone as the only one possessed of such unrivaled properties as to fully warrant its makers in publishing the remarkable offer above made in the utmost good faith.

A short time ago I was almost dead with nervous prostration, general debility, and weakness," writes Mrs. Loretta V. Water, of 317 Virginia Ave., Lexington, Ky., formerly Treasurer, Independent Order of Good Templars. "Dr. Pierce's Favorite Prescription was recommended to me as a sure cure, and I found this to be true, for I obtained splendid results, securing full health. Women ought to be grateful to think there is one safe and sure cure offered to them for their troubles. I advise every sick and suffering woman to stop spending money and wasting time with doctors' prescriptions, when a few bottles of your remedy is sure to cure. I am the happy mother of two children, boys aged sixteen, and girl, eight years."

Do not permit the dealer to insult your intelligence by suggesting some other compound which he makes it himself. Dr. Pierce's Favorite Prescription has stood the test of time and experience. Thousands speak well of it because thousands have been cured by it.

## TEXT OF THE PROTOCOL

Terms Upon Which Norway and Sweden Will Be Divorced.

Document Will Become Treaty When Ratified by Parliaments—Consists of Five Main Articles and Thirty-Five Sub-Clauses—Arbitration, the Neutral Zone, Reindeer Pastures, Inter-Traffic and Waterways.

Stockholm, Sept. 26.—The Associated Press has succeeded in securing the text of the protocol signed at Karlstad, Saturday by the delegates appointed to arrange the terms of the dissolution of Norway and Sweden. The document will become a treaty when ratified by the two Parliaments. It consists of five main articles and thirty-five sub-clauses. The first article deals with arbitration; the second with the neutral zone, and the demolition of the fortifications; the third with reindeer pastures, and the fourth with inter-traffic, and the fifth with common waterways.

The agreement provides for the compulsory arbitration before The Hague court of all disputes except matters of interest for the period of a decade, with extensions for other periods of ten years, unless two years' previous notice is given of an intention to abrogate.

The treaty provides for a zone on either side of the frontier, which shall be neutral, and for the demolition of the fortresses which stand alone, with the exception of the old portions of the fortifications of Frederiksten, Gyldenloove and Overberget, which may remain, but which are not to be used as fortifications. A headquarters staff and garrison may be maintained at Frederiksten, to the same extent as prior to the erection of the new fortifications. No extension of the Kongsvinger group of fortifications will be permitted, nor of the new forts erected within ten kilometres of the old fortress of Kongsvinger.

## The Neutral Zone.

In order to insure peace between the two countries, the neutral zone must not be used by either country for war operations, nor can there be stationed or gathered within the zone armed military forces, except such as are necessary to maintain order or cope with accidents. If either country constructs railroads through the zone troops may be transported and people living within the zone may be collected there for military duty, but must be immediately transported away. Fortifications, war ports or depots for the army or navy must not be maintained, nor new ones established within the zone. This agreement is suspended in case the two countries assist each other in a war against a common enemy, and also if either goes to war with a third power.

This zone shall be 15 kilometres wide on both sides of the southern portion on the frontier of the two countries. Islands and sterries shall be included in this zone, but portions of the sea itself, with the bays within the neutral line, shall not be considered as within the zone.

The measures of disarmament shall be carried out under the supervision of a commission composed of three officers of foreign nationality, neither Swedish nor Norwegian, each country choosing one and the third to be selected by those two, or, in case of a disagreement, by the President of Switzerland.

## Inter-Traffic Regulations.

For humanitarian reasons both countries agree to grant each country's nomadic Laplanders the privilege of pasturing reindeer in Norway contained in the amendment of 1893 to the treaty of 1751. In ample time before the end of 1917 negotiations are to be opened concerning the above matter.

Article 4 deals with inter-traffic. Each country agrees neither through prohibitory import or export laws in any way to interfere with or make difficult the transport or transit of goods. In case of war complications with or between the two countries, or other extraordinary cases arms and ammunition and other war material shall be deemed contraband. Exceptions may be made as demanded by international laws or the security of their own neutrality. Exceptions may also be made for sanitary reasons.

Transit goods must not be taxed with export duty or similar charges, nor must any distinction be made in charges of transit.

No higher charges shall be made than in the case of the country's own subjects. This agreement is for thirty years from January 1, 1906, and may be prolonged for a similar period if notice of cancellation is not given at least five years prior to the end of that period.

## Waterways.

Article 5, referring to common waterways, says if a proposition is made for damming waterways or similar work within one country that country's laws shall decide the matter, although the action may interfere with the water of the other country, the inhabitants of which have the same rights. In accordance with international precedent it is stipulated that such works may not be carried out without the permission of the other country if a change of water-course should subvert the water of the other country or cause great changes within an extended area.

This agreement is valid for 50 years from January 1, 1906. The delegates agreed on the following order of business: To each country's Parliament the above treaty shall be submitted for ratification subject to the ratification of the other country to be mutually binding when, as stated hereinafter, Sweden recognizes Norway as an independent country dissolved from the union with Sweden.

When the Riksdag and Storting have passed identical ratification bills a proposition will be laid before the Riksdag asking the Riksdag: Firstly, on Sweden's part, to cancel the Riksdag (or charter of 1815 establishing new fundamental laws on the terms of the union of Norway and Sweden, and indissoluble and irrevocable).

Secondly, to consent that the King may recognize Norway as a separate country from Sweden.

The Final Signing. When such recognition is given treaties will in accordance with the

Each country shall then require the foreign powers with whom common treaties exist to so modify such treaties that one country in no manner is responsible for the acts of the other.

When Sweden recognizes Norway's independence and the above treaties are signed negotiations shall immediately be opened concerning the settlement of such matters, which must cease or be changed on account of the dissolution of the union between the two countries.

## Norse Press Disappointed.

Christiania, Sept. 26.—The Intelligensmen says that the result is really disappointing, and that the advantages which the arbitration treaty should yield cannot be equal to the concessions made by Norway.

The Social Democrats express the belief that the demands of Sweden have all been acceded to without Norway having gained any advantage. The arbitration provided for, it says, is so limited in scope that it can hardly be called arbitration.

The Madgenblad, while having no doubt that the agreement reached at Karlstad will become binding, advocates a complete and definite settlement of all the country's issues as the present arrangement is only provisional.

That the convention will undoubtedly be ratified by the Norwegian Storting and in all probability by the Swedish Riksdag, is the belief of Aftenposten, which adds: "The independence of Norway has been won at the cost of some sacrifices which all of us would like to have spared, but it must not be forgotten that the principal condition demanded by Norway, the dissolution of the union, has been reached."

## DOYLE NOT INSANE NOW

Insanity Experts Summoned Fail the Defence.

No Telling What His Condition Was at the Time of the Murder of His Mother—Queer and Degenerate But Not Insane in the Usual Sense of the Word—A True Bill Against Joe Bennett.

Brantford, Sept. 27.—The trial of Felix Doyle, accused of the murder of his mother on February 2 last, was brought to a close yesterday evening. All that now remains is the charge of Justice Anglin, which will take place when the court is resumed this morning. The case occupied all day.

Numerous witnesses were summoned on both sides. The case for the Crown was a strong one. The main object of the defence seemed to be to show the incapability of Felix Doyle in all his dealings with people, to show that he must have been insane at the time. To further strengthen this claim, two specialists on insanity were summoned who stated that while Felix was not insane at the present time there is no telling what his condition was at the time of the crime. Impulsive homicidal intent was hinted at, but the experts were to a large degree non-committal. They did say he was queer and a degenerate, but that he was not insane in the usual sense of the word.

The Crown on the other hand submitted as motive for the crime several notes which Doyle had forged his mother's name to, and now were rapidly falling due.

The evening session was occupied with the addresses of the various counsel.

Doyle is to be arraigned on the grand jury brought in a true bill against Joe Bennett. This trial will immediately follow that of Doyle and will probably start this morning.

DEAFNESS CANNOT BE CURED.  
By local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## MANILA IN A TYPHOON

8,000 People Reported Homeless—5 Killed and 200 Hurt.

Meagre Report Indicates Huge Disaster in the Philippines—Live Wires Filled Thoroughfares With Streams of Flame—The City in Darkness and All Traffic Suspended—Delayed U. S. Transport Logan.

New York, Sept. 27.—The Evening Sun prints a despatch from Manila reporting a destructive typhoon in that city.

The native districts were swept away. Eight thousand persons are reported homeless. Five Filipinos were killed and 200 persons injured.

Streets Filled With Flames.  
Hundreds of buildings were unroofed and thousands of electric wires were blown down, filling the streets with flames until the current was turned off.

The city was in darkness when the despatch was sent, and all street traffic was suspended.

It was believed that shipping in the harbor had warning of the approach of the storm, but up to the time the despatch was sent the ships were invisible on account of the rain and had not communicated with the shore.

Shipping Delayed.  
Washington, D. C., Sept. 27.—The War Department yesterday received a telegram from Manila saying that the transport Logan has been delayed from sailing from that place by a typhoon. No mention is made of damage to property.

IMPERIAL LIMITED IN WRECK.  
Caused By a Frosty Rail at Eau Claire Station, Near North Bay.

North Bay, Sept. 27.—Eau Claire, a little station 33 miles east of North Bay, was the scene early yesterday morning of a railway accident that might have been attended with calamitous results. Fortunately, a severe shaking and a few minor accidents are all that are to be recorded.

No. 97, known as the Imperial Limited, leaving Montreal at 9.40 Monday night, reached Eau Claire shortly after 8 o'clock and was standing on the main line waiting for the 5.30 train for Montreal to pass it. Instead of running into the siding, it crashed into No. 97. The engine and mail car of No. 97 were badly wrecked, and it is reported here that Mail Clerk McNab was severely shaken up. Traffic was delayed for over five hours. The official cause is given out as a frosty rail.

Fireman Morley Killed.  
Toronto Junction, Sept. 27.—Norman Morley, C. P. R. fireman, son of B. F. Morley, Toronto Junction, was killed Monday afternoon, in a head-on collision between pit and ballast engines at Waldemar, the second C. P. R. station west of Orangeville Junction on the Teeswater branch. Engineer Dunlop jumped overboard, but his fall was not fatal. He was about to jump when the engine fell on him, and he was so badly crushed that he died shortly afterwards.

Crushed in Brick Machine.  
Tweed, Sept. 27.—A fatal accident occurred at the Tweed brick and tile works yesterday morning, by which William Simpson, a laborer, lost his life. The unfortunate man was caught in the machinery and so badly crushed that he died at noon. Simpson leaves a widow and several small children.

Killed at Sudbury.  
Sudbury, Sept. 27.—Peter Loney, timekeeper on the Toronto and Sudbury Railway, was run over by a C. P. R. freight train about half a mile east of this place Monday evening. The unfortunate man was lying between the rails.

Falls 200 Feet.  
Quebec, Sept. 27.—Charles Windmager, an employee of the Quebec bridge, fell 200 feet to the ground Monday and was killed instantly.

Death in His Fall.  
London, Sept. 27.—In attempting to alight from a rapidly moving street car on Dundas street last night Joseph Robinson of Clifford, Ont., sustained a fracture of the skull, dying two hours later. He was 60 years of age.

Three Out of Five Die.  
New York, Sept. 27.—Two employees of the Spezzio fireworks factory in Brooklyn, which was blown up Monday, died yesterday. This makes three dead out of five persons who were working in the factory.

Convention of Mining Men.  
Toronto, Sept. 27.—Before making any changes in the mining laws, the Ontario Government will give the mining men of the province a say. Meetings will be held in the different mining centres for that purpose, and later a convention for the whole province will be held. The revision of the mining laws will come before the Legislature at its next session.

Kingston Trial October 30.  
Kingston, Sept. 27.—Both sides have agreed to October 30 as the date for the trial of the election protest against E. J. B. Pense, Liberal member for Kingston, although it is outside the time limit. It is understood that the counter-petition against Donald McIntyre, the Conservative candidate, will be pushed. He will be examined next week.

Awarded \$5,000 Damages.  
Sandwich, Sept. 27.—Mrs. Keown was yesterday awarded \$5,000 against the Pere Marquette Railway for injuries sustained by being run down by a train at a level crossing near Kingsville.

Alfred Horton, on a charge of shooting his wife and father-in-law with intent to kill, will be tried at the spring Assizes.

Inspecting Trent Valley Canal.  
Peterboro, Sept. 27.—Hon. H. R. Emmerson, Minister of Railways and Canals; M. J. Butler, Deputy Minister, and Collingwood Schreiber arrived in this city yesterday to make an inspection of the whole Trent Canal system. Last evening Mr. Emmerson was tendered a banquet by the Board of Trade.

ARE YOU COSTIVE?

If you know how bad for health constipation is you would be more careful. Irregular bowels cause appendicitis, jaundice, anaemia and a thousand other diseases too. Sooner or later it will bring you to a sick bed. The use of Dr. Hamilton's Pills changes all this quickly. They are made to cure constipation in one night, and always do so. By taking Dr. Hamilton's Pills you are sure of a keen appetite, splendid color, jovial spirits and sound, restful sleep. Gentle in action; good for men, women or children. 25c. per box, or five for \$1.00. At all dealers in medicine.

### Our Showing of Stoves

Is at our store this year instead of at the Fair. We could not get an exhibit ready so that is our only reason for not showing. But, we shall be very glad to see you at our store and show you the best line of stoves and ranges that has ever been seen in Chatham.

No old styles. Every Stove the latest and most up-to-date that can be found.

We shall expect the pleasure of a visit from you.

"Empire Queen" Ranges, "Favorite" base burners, "Favorite" coal and wood cooks, "Favorite" hot blasters.

...PRESERVED

Approved by Quelf Agricultural College

This is a glass having the property of dissolving in water. The shell which covers and protects an egg is neither air nor water tight and through its pores enter germs and microbes which soon render the egg unpalatable.

Glass is precipitated almost as soon as eggs are immersed in its solution and thereby the eggs are hemicellulose sealed and will keep fresh for many months.

## OLD TIME LEISURE WORK.

A Novel and Pretty Silk Patchwork Quilt That is Self Lined.

Although many people in this day of machine made articles no longer make patchwork quilts, there are still plenty of women, especially in the country and smaller towns, to whom time is not money and who cling to the old way of using their "pieces" instead of selling them to the ragman, as the city woman usually does. The first silk dress, bits of ribbon from a particularly fetching bonnet, a piece of the wedding gown and dress relics of numerous other hygienic events are all embodied in the silk pieces which form the quilt. Each piece as it is pointed out brings to mind some interesting story, and the owner is generally delighted to find a listener.

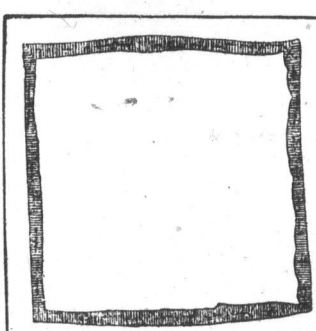

A simple but beautiful quilt is made by using pieces of silk about three and a half to four inches square, which are basted on squares of old and rather firm cotton cloth. Old sheets are the best to use.

The blocks of silk and cotton, after being basted together, are first trimmed to make both edges true and then turned over a very narrow seam and basted neatly, as in the illustration. The next step folds the block diagonally and overhands it together, making a triangle of the block, which is finished and ready to have the basting threads removed.

All kinds and styles of silk may be used—flowered, striped, plain or plaid—and there should be a good variety of blocks, both light and dark, before beginning to put together. The blocks are overhanded together, a light and dark alternately, in a long strip, which may be either the length or the width of the quilt, as desired. Another strip is then made and joined to the first one on the bias (or long) sides of the blocks, keeping always a light opposite a dark block.

When four or six strips, the required length, are set together, begin the featherstitching, which is done over all the seams and on both sides of the quilt, and may be executed with red, green or any preferred shade of knitting silk. The featherstitching should be done rather closely, and will completely cover all sewing, which need not be perfectly done for that reason.

It is easier to featherstitch these strips in sections than to work on the finished quilt, which will be heavy.

SQUARE WITH EDGES TURNED DOWN.

Then put these sections together and you have only a few long rows to featherstitch. The edge is finished with a small cord the color of the silk used in featherstitching.

If it is not desired to make the quilt solid of these blocks, it is very pretty made in sections of, say, six or eight rows of blocks, and these set together with strips of black silk from four to eight inches wide. This makes a good couch quilt, but is not so pretty for a bed as the solid blocks.

At the end of the rows of strips there will be a V shaped opening, which must be filled with a block made one-half of dark and one-half of light silk, but so folded that one-quarter of each light and dark will come on each side.

## Some New Fashions.

Stones of the semiprecious order are used in many charming designs for pendants, bracelets and the like. The aquamarine, the peridot and tourmaline are in high favor. Pretty slender gold necklaces have long, drop stones of aquamarine.

The very fashionable gem and chain bracelets come in about half inch flat effects, with oval or square cut stones closely spacing a couple of slender chains. There are unnumbered variations of this style. Squares or ovals of gold arabesque are also used in somewhat similar manner.

The chain fashion runs side by side with the bracelet fashion. Long double chains are closely spaced with some one stone, giving a wonderfully decorative effect. Gems set in old arabesques of gold are connected with golden chains into the required length.

Very handsome are the diamond collarettes in leaf and flower patterns or in fancy bar designs.—Jewelers' Circular.

## Sanitary Measures.

To prevent infections reaching the human body through the medium of insects means that they shall be exterminated or else shut away from the body itself, also from food and water. Scientific sanitary investigation has proved that to get rid of flies and mosquitoes the breeding places of these insects must be destroyed. Flies breed in stable manure piles, barnyards and wherever there are masses of filth. Mosquitoes breed in marshes and swamps, old rain barrels, cove troughs and wherever there is stagnant water impregnated with decaying organic matter.—Dr. Lindsay.

## When Eyebrows are Thin.

When the eyebrows are thin and scattering they may be induced to grow by the application of camphorated oil. It must be applied with care by means of a brush where it is desired to have the hair grow.

## SURPRISE SOAP

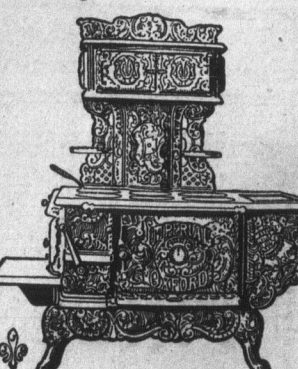

THERE has only been one real improvement in cooking ranges in many years.

That improvement is the Imperial Oxford Diffusive Oven Flue.

While other makers were adding dampers, racks, doors and openers and shakers in a vain attempt to make improvements, we studied the heart of the range. We knew that the only improvement you wanted was a better oven, an oven that would help you bake better bread, pies and cakes, roast beef to a turn, retaining its juice and flavor.

Our investigations and experiments produced the oven-heating system of the

## Imperial Oxford Range

The important feature of this system is the diffusive flue which draws in fresh air, superheats it and distributes it evenly throughout the oven. The article on the bottom shelf farthest from the fire is getting as much heat on all sides as the article on the top shelf next the fire.

We would like to explain this more fully. If your dealer doesn't handle the Imperial Oxford Range, write us for particulars. We will send catalogue and tell you where you can see the range.

## TREATY IS DEFENSIVE

Terms of the Anglo-Japanese Alliance Disclosed.

Safeguards Status Quo in Eastern Asia and India, and Insists Upon Principle of Equal Opportunity For Commerce and Industry of All Nations in China and Korea—Good for Ten Years.

London, Sept. 27.—At last the eagerly awaited Anglo-Japanese treaty has been disclosed. The terms of the new Anglo-Japanese treaty now that these have been disclosed it is seen that the forecasts made have been amazingly accurate, although sufficient stress was not laid on the care taken to safeguard not only the status quo in Eastern Asia and India, but the principle of equal opportunity for the commerce and industry of all nations in China and Korea.

The alliance of which the treaty is the seal is conspicuous by reason of the fact that it is purely defensive in character and conveys not even the most distant threat of aggression upon the possessions or legitimate spheres of influence of any other power.

The preamble reads: "The Governments of Great Britain and Japan, being desirous of replacing the agreement concluded between them January 30, 1902, by fresh stipulations, have agreed upon the following articles, which have for their object:

(a) Consolidation and the maintenance of general peace in the regions of Eastern Asia and India.

(b) The preservation of the common interests of all the powers in China by ensuring the independence and integrity of the Chinese Empire and the principle of equal opportunity for the commerce and industry of all nations in China.

(c) The maintenance of the territorial rights of the high contracting parties in the regions of Eastern Asia and India and the defence of their special interests in the said regions.

Text of the Treaty.

Article 1.—It is agreed that whenever in the opinion of either of Great Britain or Japan any of the rights and interests referred to in the preamble of this agreement are in jeopardy, the two Governments will communicate with one another fully and frankly and will consider in common the measures which should be taken to safeguard those menaced rights or interests.

Article 2.—Should either of the high contracting parties be involved in war in defence of its territorial rights or special interests, the other party will at once come to the assistance of its ally, and both parties will conduct a war in common and make peace in mutual agreement with any power or powers involved in such war.

Article 3.—Japan, possessing paramount political, military and economic interests in Korea, Great Britain recognizes Japan's right to take such measures for the guidance, control and protection of Korea as she may deem proper and necessary to safeguard and advance those interests, providing the measures so taken are not contrary to the principle of equal opportunities for the commerce and industry of all nations.

India For Britain.

Article 4.—Great Britain, having a special interest in all that concerns the security of the Indian frontier, Japan recognizes her right to take such measures in the proximity of that frontier as may be necessary for safeguarding her Indian possessions.

Article 5.—The high contracting parties agree that neither will without consulting the other enter into a separate arrangement with another power to the prejudice of the objects described in the preamble.

Article 6.—As regards the present war between Japan and Russia, Great Britain will continue to maintain strict neutrality unless some other power or powers join in hostility against Japan, in which case Great Britain will come to the assistance of Japan, will conduct war in common and will make peace in mutual agreement with Japan.

Article 7.—The conditions under which armed assistance shall be afforded by either power to the other in the circumstances mentioned in the present agreement and the manner by which such assistance shall be made available will be arranged by the naval and military authorities of the contracting parties, who will from time to time consult one another fully and freely on all questions of mutual interests.

Good For Ten Years.

Article 8.—The present agreement shall be subject to the provisions of Article 6 and come into effect immediately after the date of signature and remain in force for ten years from that date. In case neither of the parties shall have been notified twelve months before the expiration of the said ten years of an intention of terminating it, it shall remain binding until the expiration of one year from the day on which either of the parties shall have denounced it; but if when the date for the expiration arrives the most party is actually engaged in war, the alliance shall be ipso facto and continue until peace shall be concluded.

The treaty is signed by Foreign Secretary Lansdowne on behalf of Great Britain and by Baron Hayashi, the Japanese Minister, on behalf of Japan.

With the treaty was issued a despatch to the British Ambassador at St. Petersburg, Sir Charles Hardinge, with the request that the treaty be communicated to the Russian Government. This despatch is explanatory of the delay in publishing the treaty, due to the progress of negotiations looking to peace between Russia and Japan. In it Lord Lansdowne says:

Not Aimed at Russia.

"The Russian Government will, I trust, recognize that this new agreement is an international instrument to which no exception can be taken by any of the powers interested in the affairs of the Far East."

Continuing, Lord Lansdowne says: "Great Britain, I believe, may count on the good-will and support of all the powers in endeavoring to maintain peace in Eastern Asia and in seeking to uphold the integrity and independence of the Chinese Empire and the principle of equal opportunities for the commerce and industry of all nations in that empire. On the other hand the interests of the contracting parties are of a kind upon which they are fully entitled to insist, and the announcement that those interests must be safeguarded is one which can occasion no surprise and need give rise to no misgivings."

Special mention is made of Articles 2 and 3. Of the latter Lord Lansdowne says: "It recognizes in the clearest terms the paramount position which Japan at this moment occupies and must henceforth occupy in Korea, and her right to take the measures which she may find necessary for the protection of her political, military and economic interests in that country. It is, however, expressly provided that such measures must not be contrary to the principle of equal opportunities for the commerce and industry of other nations. The treaty at this point differs conspicuously from that of 1902.

"It has, however, become evident that Korea, owing to its close proximity to the Japanese Empire, and to its inability to stand alone, must fall under the control and the tutelage of Japan. Alliance Purely Peaceful.

"His Majesty's Government observes with satisfaction that this point has been readily conceded by Russia in the treaty of peace, and there is every reason to believe that similar views are held by the other powers with regard to the relations which should subsist between Korea and Japan. His Majesty's Government ventures to anticipate that the alliance thus concluded, designed as it is for objects that are purely peaceful and for the protection of the rights and interests the validity of which cannot be contested, will be regarded with approval by the Government to which you are accredited."

"The British Government is justified in believing that the conclusion of this alliance may not have been without effect in facilitating the settlement by which the war was so happily brought to an end, and its members earnestly trust that the alliance may for years to come be instrumental in securing the peace of the world in those regions which come within its scope."

A similar despatch was addressed to Sir Francis Bertie, the British Ambassador at Paris.

CHINA OPPOSES TREATY.

Too Much Time Given For Evacuation of Manchuria and the Armed Guard is a Menace.

Washington, Sept. 27.—The Post yesterday says The Chinese Government a week or more ago made a formal protest to the Russian and Japanese Governments concerning two of the conditions set forth in the treaty of peace signed at Portsmouth.

China objects to two things—First, the length of time allowed for the evacuation of Manchuria, and second, the provisions made for an armed guard for the railroad lines owned by Russia and Japan in Manchuria.

China believes that nine months is entirely sufficient time within which Japan and Russia shall evacuate Manchuria instead of 18 months provided in the peace treaty.

The provisions made for guarding the railroad lines, the Chinese contend, contemplate an armed force of probably 15,000 men in Chinese territory.

The Chinese Government regards the maintenance of the guard in Manchuria of such size as a menace, and it does not propose to agree to such a plan.

KEY TO CHINA SEA.

Britain Possesses in Singapore Important Strategic Base.

Paris, Sept. 27.—Admiral Fournier, in the course of an interview published yesterday, says the British naval station at Singapore gives a strategic base sufficient absolutely to prevent the passage of naval forces within the China Sea and is capable of suppressing commercial communication between China and Europe. Thus Singapore becomes Great Britain's key to the door of the China Sea.

French View Sustained.

Paris, Sept. 27.—A semi-official note issued last night, after a lengthy conference at the Foreign Office between Prince von Radolin, Premier Rouvier, Dr. Rosen, the new German Minister to Morocco, and M. Revoll, former Governor of Algiers (who has represented France in the negotiations with Dr. Rosen), states that the negotiators entirely agreed on the French point of view relative to the Moroccan situation.

Gen. Booth Is Honored.

London, Sept. 27.—The corporation of the City of London yesterday unanimously resolved to confer the freedom of the city on Gen. Booth of the Salvation Army, in recognition of his great work for the moral and social elevation of the people.

Bomb Thrown at Police.

St. Petersburg, Sept. 27.—Chief of Police Ivanoff, three policemen and yesterday by the explosion of a bomb thrown near the town gardens of Kovno, Northwest Russia. The thrower of the bomb escaped.

Finnish Will Rejection.

St. Petersburg, Sept. 27.—The Finnish progressives of all shades of opinion have decided to unite in a common petition formulating their demands.
