

HUNS STRUGGLING TO RETAIN FLEURY

YESTERDAY GERMANS SWEEP OUT BY FRENCH WHO HOLD NEARLY ALL GROUND TAKEN Great Britain Observes War's Second Birthday; Deeper Resolution to Win

FRENCH AND GERMAN FORCES LOCKED IN DEADLY STRUGGLE FOR POSSESSION OF FLEURY, MOST OF WHICH FRENCH HOLD

Yesterday Germans Were Driven Out of Village, but Managed to Gain a Footing Again To-day in Southern Part—French Have Retaken in 3 Days, Ground, Which Took Enemy Weeks to Capture

By Special Wire to the Courier. Paris, Aug. 4.—Attacking simulaneously from the northwest and from the southeast, French troops yesterday stormed the village of Fleury, three miles north of Verdun and captured several hundred Germans.

In their three days' offensive in the Fleury region, the French regained all the ground that the Germans had taken several weeks to conquer.

They took all the positions for a depth of about a mile from the slopes of Souville Port to the approaches of Hill No. 320, as well as in the woods east of Vechevaux and in the Vignes Ravine which borders to the west of Froide Terre Hill.

The French also installed themselves in positions southwest and southeast of the famous Thiaumont Woods.

The Official Statement On the right bank of the river Meuse, north of Verdun, the battle continues along the front of Thiaumont-Fleury, the Germans attacking several times during the night with great fury.

On the left bank of the river Meuse, north of Verdun, the battle continues along the front of Thiaumont-Fleury, the Germans attacking several times during the night with great fury.

All the attempts made by the Germans to drive the French from the station southeast of Fleury were frustrated.

The French positions at Vacherauxville also were attacked during the night, but the French war department declares the Germans were thrown back with severe loss.

Paris, Aug. 4.—The French official statement issued last night by the war office announcing the capture of Fleury by the French troops and recording other operations of the day along the western front.

On the Meuse front there was no infantry action in the course of the day. An artillery duel continued in the region of Moncau farm.

On the right bank of the Meuse our infantry, continuing their offensive action on the Thiaumont-Fleury front, captured during the day by a series of successive attacks all the trenches comprised between those two points as far as a point southeast of Thiaumont work and in the vicinity of Hill 320.

The village of Fleury was attacked simultaneously on the northwest and on the southeast, and was entirely occupied by our troops after a brilliant action. The number of prisoners taken in the course of this action so far exceeds 650.

Simcoe, Aug. 2.—Simcoe waited in vain for the thirty autos that were to bring to town one hundred and twenty of Brantford's business men on their advertising trip through Waterloo to Dover.

Many private citizens about town through Waterloo to Dover. The hotels expectant of a hungry lot of sub-burned motorists had prepared a special dinner and kept the saunas on ice till long after the noon hour.

Wags began a story that the party went down the Blue Line and misadventured on the Oakland and Simcoe. Others had word that the procession stalled on Oakland Hill, and the last yarn we heard was that the van was at Bloomsburg.

Waiting for those who had turned back for samples and price lists. Many private citizens about town lurked in convenient proximity to where the cars might draw up to get the weight up to the five-cent limit, the price of sugar or bacon, and the figure for good dairy or ordinary creamery butter.

All action grew out of the presence of several cars standing during several days on the west ward sidings.

privates Forrester and Martin went ahead of the others and by one o'clock had cut a four-foot path through the wire entanglements.

Nineteen of the party entered the German front trench without meeting any of the enemy. Our men then stepped to reach the German section line but were held up by heavy wire entanglements.

By this time the presence of our men had been discovered and a bombing encounter took place in which one of the enemy was shot and killed. Our party then retired.

Toronto Men In It

One morning in co-operation with the artillery during the most successful daylight raid was carried out by a Toronto battalion. During the preceding week a careful reconnaissance of the ground had been made by Lieut. Burman and Burman.

Shortly before day light the enemy wire was cut through by Pte. Headon and Pte. Rule. A covering party of machine gunners and snipers under Lieut. Burman and Serg. Jackson, took up positions from which they could command the trench which it was intended to attack.

At nine o'clock the raiding party, consisting of Capt. Kilmer in command, Lieut. Pepler and eighteen other ranks, left our lines and crawled to within forty-five yards of the enemy parapet. This distance was covered with a rush, and our men were able to jump into the German trenches before being discovered.

Eight of Garrison Shot.

Two parties of five men each under sergeant Hoek and corporal Brisban then bombed their way to right and left. Corporal Lynch and five other men remained in support.

They were thrown into four large dug-outs crowded with Germans.

Our party remained in the trench about four minutes. The intention being to surprise the enemy estimated at forty. Two hostile machine guns were put out of action, one by bombs and one by a direct hit by our high explosive shell.

Rescued Their Captain

Having given the order to retire, Capt. Kilmer was himself the last to leave the German trench. In scrambling over the parapet he was badly wounded, and was held by a hand reaching into a shell hole eight yards in front of the hostile lines.

A rescue party consisting of Lieut. Burman, Lance Corporal Wilson, and Private Newton was quickly organized and in spite of heavy rifle and machine gun fire directed upon them by the enemy succeeded in reaching Capt. Kilmer and carrying him back to our lines.

In this raid our only casualties were three wounded men.

Artillery Stopped Them.

Early one night a very large mine was exploded by the enemy north of the Canadian position. A portion of our line affected, was held by a minute of the explosion our artillery opened a furious fire on the German lines opposite and the heavy machine gun fire was also brought to bear upon them.

The enemy attempted to advance but could not organize for counter attack, then went forward. A crater was seized and consolidated. Very little damage was done to our trenches and our casualties were comparatively few.

artillery shots were carried out upon selected points of the German defenses. Our battalion for hostilities in the raiding party, was particularly effective. A German rifle grenade fell into our trenches containing the message: "Are you hungry? We are not, do you want peace? We do not. Except under German flag gray."

Internal remedies, such as cathartics, are of little use in curing catarth, as they act directly upon the blood and mucous surfaces.

Halla's Family Pills, however, is prescribed by one of the best physicians in the country for years.

It is a compound of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients, in what is known as the tortoise extract, has effected wonderful results in curing catarth. Send for testimonials, free.

THE AGE KING

Once a goose, a pelican, a parrot and a heron began to tell how old they were, each anxious to outdo the other.

"I," said the Goose proudly, "have watched a half century come and go."

"And I," said the Pelican, which didn't please the Goose.

The Parrot laughed long and loud. "I," said he, "am ten and fifty."

"And I," said the Heron, which didn't please the Parrot.

So they fell to quarrelling about just who was the oldest in the world of bird and beast.

At last after much shrill and foolish bird-talk, a birch bark sign was posted bidding the beasts and birds meet and find the oldest, that he and he alone might bring his bygone years in a bag upon his back for the owl to count.

The wren's bag made every one laugh. It had three years in it.

Then Robin, black bird and Fen, goldfinch and partridge, sparrow and skylark, peacock and crane, and canary and linnet, peewee and nightingale, lark and pheasant—they all came, but none could boast of 50 years.

There came staggering along beneath a mighty bag a black bird and who should it prove to be but Mr. Crow with a century in his bag of years and just as the birds were about to hail him king, the swan

and eagle appeared, each with a century in his bag.

Now just as the crow, the swan and the eagle were about to fight a dreadful duel for the kingship, the animals began to come and again the forest rang with laughter, when the rabbit took five years from his bag and wrinkled up his nose with pride.

But sheep and horse, cat and goat, dog and cow and pig—none of them as many years to unfold as a hundred.

Even the camel and the lion could show but 40, and the crow and the swan, and the eagle were about to quarrel when the elephant arrived with a century in the bag upon his back.

That made a fourth to fight with the crow and the swan and the eagle. But the fight lost its point. For the woodcock and the tortoise arrived and one had 300 years in his bag of years and the other 350.

A tortoise king?—It couldn't be! Now at the dramatic minute when the wood was on the verge of a battle a splendid ship appeared made of sea shells and carried by gnomes.

"The whale," cried a gnome, "cannot come to you. You must come to him on this ship he sends and count the years in his knapsack."

So they clambered aboard and set sail and the whale had 500 years in his bag. Five centuries!

Who upon there so much noise and quarrelling and jealousy that the whale ate the ship and all, but he was so crammed with years that he exploded and, though everybody reached the forest in safety, that was the end of picking an age-king.

**THE SITUATION.**

The offensive of the Allies on the Somme front has come to a halt. Indications are that the French, and British alike, are preparing for another thrust, and meanwhile, of course, the Huns are busy strengthening their defences. The five weeks which have elapsed since this action started, apparently simply constitute the opening chapter of the engagement.

Fierce fighting still continues on the Russian front and the Teutons are making a desperate defence of Kovell. The issue is in doubt.

The French have scored a noted success at Verdun, where they have entirely recaptured the village of Fleury and have also secured a whole system of elaborate defence works.

Hon. A. J. Balfour, First Lord of the Admiralty, during the course of a review of two years of the war, naturally emphasizes the outcome of the Battle of Jutland. He points out that the engagement was the result of an attempt of the German fleet to break out of their Kiel Canal prison.

They failed and "sank again into this impotence." As further proof of this he quotes the continued use of the seas by John Bull for the transport of the ever increasing flow of men and munitions. Referring to the cold-blooded murder of Capt. Fryatt, Mr. Balfour paid a fine tribute to the courage and the resource of the commanders of British merchantmen, and said that in so far from intimidating them, the fate of their confederate would nerve them to all the greater resistance. The Germans were always wrong in supposing that by behaving like brutes they could sow their foes into behaving like cowards.

**AN EXCITED REPRESENTATIVE.**

Mr. Gallivan, who represents Massachusetts in the House of Representatives at Washington, is walking around with his coat off and blood in his eye. As some relief to his feelings he has introduced a motion into the august chamber asking the President to terminate diplomatic relations with Great Britain "at once," because of:

"The impudent and insulting acts of Great Britain towards American commerce."

Some kind friend should take Mr. Gallivan by the ear, presuming that to be the handiest characteristic, and gently whisper that the self same U. S. commerce to-day depends mainly on British ships, and that it is the British navy which is keeping the ocean routes clear for the same.

After the manner of his kind, he evidently doesn't know these things.

**LOOKING TO THE STATES.**

Why is it that Toronto Globe, known as the leading Liberal organ, is always prone to look towards the States?

It did this at the time of the commercial union propaganda and later with regard to the Reciprocity fad. In fact the paper in question was one of the sponsors for that hair brained scheme which very properly hurled the Laurier Government from office.

Now in connection with some rank practice marksmanship of the U. S. fleet, the organ says:

"The subject is one that must interest Canadians, many of whom, in their dreams, rely upon the Monroe Doctrine and Uncle Sam's fleet for the security of the Atlantic and Pacific coasts."

As a matter of fact John Bull's fleet in the past has been entirely adequate for both jobs, and will continue to be so for the future. By the way, this is the fleet which Laurier, by a nod to the Senate, refused to allow the financial aid, proposed and carried in the Commons.

Later on in the same article, the Globe remarks that the real need is a "Canadian Navy." What for? Hasn't the organ got Uncle Sam guarding our Atlantic and Pacific coasts? Then why a Canadian Navy? To guard the border between the two countries and the Newmarket Canal?

The Rev. Dr. Joseph Font Newton, of Cedar Rapids, Iowa, has been invited to fill the pulpit in the City Temple, London, as the successor to the Rev. R. J. Campbell.

**ONTARIO AND THE WAR.**

To-day is the second anniversary of the declaration of war, and in this regard the "organization of resources" committee has issued a statement from the Parliament buildings, Toronto, showing in part what the people of Ontario have done in connection with the struggle.

First of all in the matter of men. Enlistments to June 30th, 1916.

Ontario ..... 147,158 42.5  
 All other Provinces . . . 198,722 57.5

Total (Canada) . . . 345,880 100  
 Enlistments in Ontario are 5.8 per cent. of total population, 1911 census.

Enlistments in the rest of Canada are 4.2 per cent. total population, 1911 census.

Enlistments in Ontario are 28 per cent. of Canadian and British-born between the ages of 18 and 45 years.

Enlistments in the rest of Canada are 22 per cent. of Canadian and British-born between the ages of 18 and 45 years.

Money contributions from this Province have also been most notable. For three special funds the following amounts can be definitely stated:

British Red Cross, Trafalgar Day, Oct. 21, 1915, Ontario, \$1,514,000; rest of Canada \$370,000.

Canadian Red Cross (cash only) Sept. 1st, 1914-May 31, 1916, Ontario, \$964,865; rest of Canada \$624,788.

Canadian Patriotic Fund to June 30, 1916 (approx.) Ontario, \$5,000,000; rest of Canada \$7,000,000.

Not to mention flour, fruit, etc., supplied in large quantities to French, Serbian, Belgian, Armenian and Polish relief funds, a great deal of money has also been raised for the purchase of machine guns, for aviation, for hospital ships, soldiers' comforts, etc., but for these also no figures are available, though it is safe to say that approximately one million dollars has been supplied for these purposes.

Further, a very large amount of money has been donated by citizens and by county, town and city councils, as well as by the Provincial Government, for the purpose of aiding overseas battalions to finance recruiting campaigns and to purchase equipments not provided by the Dominion Government. The sum total donated in this way would probably aggregate one million dollars.

All this makes excellent reading with regard to duties well met, but there are others still facing the Province:

1.—The giving of still more eligible men for overseas service.

2.—The giving of still larger amounts to the Patriotic and Red Cross funds, as the number of our men in the field increases.

3.—The war has cost Canada to date between \$250,000,000 and \$275,000,000, as compared with the \$36,000,000 per day outlay of the Old Land. Canadians should see to it that they subscribe for their own war loans.

4.—In order to have Patriotic aid war loan money, we should all strive to produce up to capacity.

5.—Every available worker should realize that all must serve.

6.—There must be hearty co-operation.

7.—The soldiers returning from the front must be looked after in every possible way, and preparations be made to receive a large influx of immigrants.

**KING GEORGE'S MESSAGE TO CAPT. FRYATT'S WIDOW**

London, Aug. 4.—King George has sent a letter of sympathy to the widow of Captain Fryatt in Brussels, who was executed recently by the Germans on the charge that he tried to ram a German submarine when he was master of the steamer Wrexham. In his letter King George says: "The action of Captain Fryatt in defending his ship (the Wrexham) was a noble instance of the deepest self-sacrifice characteristic of his profession." The letter adds that the King has learned with the deepest indignation of Captain Fryatt's fate and that the King regards the outrage with abhorrence."

The Kaiser will pretty soon have to look around for another school for the Crown Prince. It is a safe wager that he will choose a less expensive one than Verdun.

**JAP STEAMER QUARANTINED**

Yokohama, August 4.—The Japanese steamship Hawaii Maru, bound from oriental ports for Tacoma, Wash., has been indefinitely quarantined at this port owing to an outbreak of cholera on board. Fifteen cases of the disease were found in the steerage. Four of them proving fatal. The port of origin of the disease is not known. King George.

**Two Italian Subs are Lost**

By Special Wire to the Courier.

Rome, Aug. 4, via Paris.—The loss of two Italian submarines is officially announced. The statement says that the undersea craft, "left with orders on a mission to the enemy coast a long time ago. As they have failed to return to their base they are considered lost."

A Vienna dispatch of Aug. 3, reported the capture of the Italian submarine Giacinto Pullino by the Austrians in the North Adriatic. It was stated the submarine which was one of the largest owned by Italy, was almost undamaged and her crew had been taken prisoner.

LOCAL NEWS ITEMS

FOR LIBRARY Two large bookstands were received in the court house this morning as additions to the Brant County Law Library.

FIRST LIVE STOCK SHIPPED The first shipment of live stock over the L. E. and N. was made yesterday when the Percheron stallion, "Kairowan," belonging to Hamilton and Yeager, Simcoe, was forwarded to that place from this city. The trip was made in good time, and the accommodation was amply satisfactory to the shippers.

TOUR OF CITY The Board of Works will make a special round of the city to-morrow (Saturday) afternoon, some matters of importance necessitating the trip.

NOT FOR CAMP BORDEN A report from Camp Borden that several Battalions are due to arrive there by August 14th, and among these the 215th, is not given much credence at local headquarters. "It is not likely they would order us to Niagara on the 7th, and then to Borden on the 14th," a 215th officer said to-day, and he also gave it as his opinion that the report had "nothing in it."

PAVING MATTERS A joint meeting of the Board of Works, Finance Committee, and Street Railway Commissioners was held yesterday afternoon, to discuss the Erie Avenue pavement question. Nothing definite was arrived at. A small deputation from Eagle Place was present and asked that work be gone on with. It was decided to leave the matter to the Council, to be dealt with at Monday night's meeting.

GETTING MEN Another recruit was signed yesterday by the recruiting sergeants of the Construction Battalion, in the person of Herbert Aslin, a married Englishman, employed as a laborer

and residing at 27 Burford Street. Other applications have also been received at the local office, and two men are expected to report to-morrow for attestation. At the Brant theatre last night a slide was flashed upon the screen calling attention to the Construction Battalion and the inducements offered by it. Ptes. Daziel and Jeff expect that their stay in the city will terminate to-morrow.

NUPTIAL NOTES St. Jude's church was yesterday afternoon the scene of a very pretty wedding when Miss Bessie Burr became the bride of Mr. Carl Trumper the ceremony being performed by Rev. T. B. Jenkins, in the presence of about forty guests. The bride was given away by her father, and was unattended. She was charmingly gowned in white silk crepe-de-china, and carried a bridal bouquet of white roses. The wedding march was played by Mr. D. A. Wright. A very large number of handsome presents were received, and after a tasty luncheon served by Caterer Russell, the bridal couple departed on the 4.35 train for Buffalo and other points, after which they will take up their residence in this city.

THE BRANT In a wierd Oriental scenic setting the Aki Japanese troupe at the Brant Theatre for the week-end presented one of the best novelty and conjuring acts seen for a long time in this city. From trick writing to feats of sleight-of-hand, all is new, and mystifying, and performed in suave and debonaire manner which is essentially Oriental. The three Higgle girls present a comedy "message of music and mirth" which cannot fail but elicit applause, and the picture bill is of the highest quality. The ever popular film star, Blanche Sweet, appears in an unusual role in "The Thousand Dollar Husband," while the second installment of the new serial "The Iron Claw" shows the rapid development of mystery and thrills galore, so that the picture bids fair to become the most popular the Brant has yet presented.

Two Italian Subs are Lost

By Special Wire to the Courier. Rome, Aug. 4, via Paris.—The loss of two Italian submarines is officially announced. The statement says that the undersea craft, "left with orders on a mission to the enemy coast a long time ago. As they have failed to return to their base they are considered lost." A Vienna dispatch of Aug. 3, reported the capture of the Italian submarine Giacinto Pullino by the Austrians in the North Adriatic. It was stated the submarine which was one of the largest owned by Italy, was almost undamaged and her crew had been taken prisoner. Contracts aggregating \$56,000,000 have been let within the last few days to American manufacturers by the Entente powers in the European war.

**LIBRARY CLOSURE**  
The Library will close at 7.30 to-night on account of the observance of the anniversary of the war.

**STREET PAVING**  
Information concerning the paving work, which is contemplated by Brantford during the past year is sought by the Engineering Record in a communication received this morning by the city clerk.

**POUND PARTY**  
With the hall beautifully decorated with patriotic flags and bunting the pound party held this afternoon in the Children's Shelter on Chatham St., at an early hour this morning gave every promise of proving a distinct and unique success. Previous to the opening of the affair, large donations of various staples had been received at the Shelter, comprising almost half a ton of flour and other articles.

**HOSPITAL BY-LAW ONCE MORE**  
Publishing a daily report giving full information of all building activities in progress, and evidently misinformed as to the purpose of the \$53,000 issue of hospital debentures, the city clerk asks whether plans have been prepared and an architect selected for a hospital to be built here.

**GRASS FIRES**  
The present hot weather is productive of an unusually large number of grass fires, which have been prevalent in Brantford, as elsewhere. ### DOLLAR DAY AUGUST 10TH

Brantford Merchants Preparing Again for Semi-Annual Bargain Event.

Brantford merchants are again preparing for their semi-annual bargain event—Dollar Day. This has become a feature of more than usual buying interest, and has been made so by the exceptional bargains gathered together by Brantford's wide-awake merchants for the occasion.

Dollar Day has been a feature in many cities and towns in the United States and Canada for many years, but it is safe to say that in no other community have greater bargains been offered and secured than here. To many housekeepers Dollar Day has proved a boon, and Thursday next, Aug. 10th, should be no exception. Watch for Tuesday's Courier.

The Courier will tell the story of exceptional bargains in its advertising columns on that evening.

# ORGANIZE for Victory!

THE THIRD YEAR OF THE WAR calls for the organized co-operation of every citizen of the Province of Ontario. ALL must help to hasten the day of final triumph. For the sake of those who have made the Great Sacrifice, and of those now overseas or in training, every citizen must give the best service possible. No one need feel "out of it" when the great day of Victory comes, but everyone must qualify now by sharing in the sacrifices which the War demands.

- Suggestions for Organization**
- In many Municipalities there are already active patriotic organizations, such as Recruiting, Red Cross, Soldiers' Aid and Patriotic Fund Committees. In such cases, one of these, or better still, a joint committee of these and the citizens generally, might undertake to co-operate with the Central Committee at Toronto.
  - Where there is no active representative organization, it is suggested that one be formed at the earliest moment. It should be non-partisan (in the broadest sense), and represent every interest affected by war conditions.
- What Organizations Should Do**
- Find more men for Overseas service.
  - Help in keeping our munitions plants working to full capacity.
  - Induce every possible worker, men and women, to serve on the farm and in other essential industries.
  - Find money for the coming WAR LOAN and war funds.
  - In short, assist in the organization of Ontario's resources to meet war conditions and after-war conditions.

THRIFT and ECONOMY, and a careful consideration and preparation for our problems are essential if we would meet the present and future needs. For further suggestions and information you are cordially requested to write at once to ALBERT H. ABBOTT, Ph.D., Secretary, Organization of Resources Committee, Parliament Buildings, Toronto.

### ADVANCE PARTY LEFT TO-DAY

First Detachment of 215th Battalion Has Gone to Niagara.

In good order and without any marring circumstances, the advance party of the 215th Battalion, 50 odd strong, entrained this morning at the T. H. and B. station, for Niagara camp, being given a hearty send-off by the remainder of the unit, which follows on Monday morning next. Before entraining, the advance party were presented by the Women's Patriotic League with lunches for the journey, and the same will be done when the main body of the battalion departs. Meanwhile, preparations are under way everywhere. Two cars of baggage were sent off yesterday, and it is expected to get a couple more on their way to-day. One recruit was signed yesterday as a result of the recruiting efforts of the 215th battalion. The field kitchen which is to be presented to the 215th by the W.P.L. at the commemoration services to-night arrived in the city this morning. Previous to their participation in the services this evening, the battalion will assemble at the armories at 7.15 to-night, parading to the Public Library by way of Colborne, Alfred, Wellington and George Sts.

### BERLIN SAYS FOOD SITUATION SATISFACTORY

No Famine Threatened, Is Claim, Nor No Further Restrictions.

By Special Wire to the Courier. Berlin, via London, Aug. 4.—The food situation in Germany is satisfactory, according to an official statement dealing with the economic status of the nation. The statement compares the harvests of 1914 and 1915 and says: "The splendid organization of the distribution of bread and corn as well as the system of economical consumption and the storing of supplies enabled us to overcome the unfavorably economic year of 1915-16 without serious derangement of the lives of our people. The present economic year promises to be even more satisfactory." After denying reports of threatened famine or of restrictions which would endanger health, the statement concludes: "Our meat supply is ample. An arrangement with breeders guarantees a plentiful supply of pork. The fat ration of 90 grammes a week per head, which is now allotted, is regarded as sufficient." TIRED MOTHERS—It's hard work to take care of children and to cook, sweep, wash, sew and mend besides. Tired mothers should take Hood's Sarsaparilla—it refreshes the blood, improves the appetite, assures restful sleep, and helps in many ways.

### SOMETHING IS COMING.

Brantford, Aug. 3rd, 1916. To the Editor Courier, Sir:— Looking over the Water Commission's report we were surprised not to receive some information concerning what has been done during the weary months of waiting, as we were asked to do, until such time as the Hill's trouble's, so far as water is concerned would be at an end. Of course at present the supply is better to come right out, as you will see during the next few weeks. I am told the only privileges Hill folks have are to kick, and pay their taxes. I see they have nothing to conceal from the public, guess they realize that their concealing days are over. I mention for the benefit of Mr. Noble and others who favor educational meetings that I think we will give the gentlemen a chance to attend and give an account of their stewardship at a social evening we are arranging for. There be all kinds of sports, especially if the ladies get their way, and any daylight savers who attend. Of course every one thinks we are about to lapse into another deep slumber, but not this time. It's going to be now or never, so you might just mention for the benefit of those who are about to despair, that our day is coming and we are looking for everybody who has the welfare of our city and their neighbors at heart to help with the good work and by helping the other fellow, we help ourselves. Thanking you, STEPHEN CAYLESS, Terrace Hill Street.

PINCH HITTING TO BE ABOLISHED

Ban Johnson Favors Doing Away with the Custom—Numbering the Players

That the big league baseball managers are studying ways and means to make the game still more attractive to its patrons is evident by several suggestions and innovations now being discussed around the American and National circuits. The Cleveland club of the American League has just inaugurated a system of numbering the players in order that the casual attendants at the games may have no difficulty in identifying the different members of the team. President B. B. Johnson is openly advocating the elimination of the pinch hitter and the system now in vogue of shifting pitchers upon the slightest pretext. There appears to be a strong sentiment among the fans in favor of the plan of numbering the players and it is surprising how few of the average spectators can point out with absolute certainty the various players of the visiting club. Certain stars, such as Ty Cobb, Johnny Evers, Benny Kauff, Walter Johnson, Grover Cleveland Alexander and others of similar calibre are easily distinguished when the team is in the field. Players of lesser fame, however, are frequently mixed by those spectators who do not attend games regularly and the numbering of each member, both regular and substitute, should increase interest in the game. Certain close followers of baseball have already suggested that the numbering innovation be extended to include the distribution of free score cards, containing concise rules for keeping a box score, in order that every spectator be encouraged to follow the play with a keener understanding of what is transpiring upon the diamond.

Alton, Ill., women and girls who possess shadow gowns will do well to interpose themselves between the sun and Mayor Beull or Alton's policemen. His worship has banned them.

To insure death, Isaac Taylor, 35 years old, of Philadelphia, stood on a rock over the Powdermill dam, along Frankford Creek, leaned forward and then fired a bullet into his head.

CHICAGO LEADS AMERICAN LEAGUE

St. Louis, Aug. 4.—St. Louis made its first game of the series from Boston here yesterday, 3 to 2. In the second inning Walker hit into the left field bleachers for a home run. ## BULGARIANS HAVE NO SHOES

Said to Be All Ready to Attack Saloniki, but for that Defect.

Berne, Switzerland, Aug. 4.—According to reports here, the Bulgarians and Germans have about a half million men ready for an attack upon Saloniki. The greatest difficulty the Bulgarians have had to contend with is the lack of shoes. A Swiss doctor just returned from Sofia says that fully half the Bulgarian forces are without shoes, which civilians also find with difficulty at prices running from eight dollars a pair upward. Bulgaria without shoe factories and tanneries, is also short of hides. The entire stock on hand has been distributed among the troops. The soldiers are cutting them up themselves and make a crude kind of scandal such as served as footwear for 300,000 Bulgarian, Serbian and Turkish soldiers during the Balkan wars. Tourist and military boots sell for \$28 to \$30 a pair, when they are to be had. The government has advertised for leather, offering four dollars a pound, without avail.

## STANDARDIZED SHIP COMPANY

One formed in London which Will Construct Standard Size Boats.

London, Aug. 4.—(Correspondence of the Associated Press)—A new epoch in shipbuilding which has been inaugurated by the formation of a "Standardized Ship Construction Company," with a capital of \$1,500,000, had its inception from the United States whence the first suggestion of standardization emanated. The plans are provided for the construction at Chepstow of ten large ships at the same time, of a standardized type, 8,000 tons dead weight with a length of from 450 feet to 650 feet, while the machinery will also be specially designed for producing standard parts of hulls and engines. The scheme is backed by the leading shipping interests of Great Britain and the idea has been approved in shipping circles where the death of vessels is being badly felt. The craft to be built will be well suited for the South Wales ports, to carry coal out and bring back grain. This preparation for current and after war needs will probably soon extend to an Empire shipbuilding development and in addition to one large British firm already engaged on shipbuilding in Canada, three others—Vickers—Armstrong, Laird and John Brown and Co. of Clydebank, are reported to be planning to start shipbuilding in that part of the empire. If it is thought these ideas or rumors if they come to fruition will in a large measure solve the difficulty of congestion of labor and output in many of the crowded areas of Great Britain, as the firms mentioned are sure to take a large number of workmen to their new yards. The establishment of the standardized idea and the extension of shipbuilding to other parts of the Empire is necessary in view of the tremendous boom now in progress in neutral countries, especially the United States, where it is thought the cost of production after the war will be very little less than here—labor charges in Great Britain being bound to rise after peace is declared.

## FRENCH COUNTER-OFFENSIVE SWEEP ENEMY OUT OF FLEURY

Brilliant Success Gained Yesterday Against the Germans at Verdun When Their Line, Thiaumont-Froid Terre Ridge was Captured

London, Aug. 4.—The French counter offensive northeast of Verdun yesterday reached its climax in a powerful blow which has resulted in the complete capture of Fleury and the whole system of highly organized defences from southeast of Thiaumont to the Froid Terre ridge. After a series of almost uninterrupted attacks during the night and in the forenoon on the four mile front from the Meuse to the woods west of Damoupy, the French yesterday afternoon conducted their most important and successful thrust on the one mile Thiaumont-Fleury line. They smashed forward on this point for a distance of about a quarter of a mile through the most powerful field works on the western front. Last night they had counted more than 650 prisoners.

The village of Fleury was attacked from two sides, the northwest and southeast. In previous attacks the French had advanced as far as the ruined railway station against furious resistance. Then after the big guns had been given time to clear a path the infantry again swept forward, this time to complete victory. All the gains made by the Germans in their attacks of Tuesday have been swept away. In an attack simultaneously with that on Fleury the French in the Chenois sector drove the Teutons from the trenches they had seized in this wooded region, capturing Berlin previously had admitted the loss of ground recently taken in Lauffe forest. Captured 1,750 Prisoners. In the last three days the French have captured more than 1,750 unorganized prisoners. They have also taken a large quantity of military supplies, but from all indications they have done far more than that. With the descent of the lull on the Somme the Germans seriously resumed their operations against Verdun. They had large forces at their disposal and all of their powerful artillery. But before they could get well under way the French launched their counter offensive. In other words, they "beat them to the punch." The French have regained a footing on two of the most important heights which look down on Verdun—Pepper Hill and the Froid Terre. The crest of the former is a No Man's Land, constantly swept by shell fire. But from the latter the Germans held artillery control of the heart of Verdun. They made much of the capture of Froid Terre, declaring it the most important position on the northeastern front. Now the French are working their way up to the crest again. The communique last night from the war office at Paris reports that the French troops are fighting at the edge of Hill No. 320, one of the heights of the Froid Terre ridge.

## BASEBALL FLIES.

Cincinnati have secured infielder Mike Doolan from the Giants. He will be used as utility player. Outfielder Roy Hartzell of the Yankees has joined the Orioles. Next season Hartzell will be used as one of the scouts for the Yankees. Detroit have signed Pitcher Johnny Couch of the San Francisco club. Couch formerly hurled for the Stanford University. He may trade Slim Caldwell, who was recently suspended. Caldwell draws \$8,500 a year, but hasn't sense enough to obey training rules. Chester Hoff, the former Hustler southpaw, has been sold by Little Rock to Salt Lake City. The Yankees have signed outfielder Artie Hoffman, the former Cub. Ping Bodie is leading the league in hitting on the Pacific coast. There are a lot of ex-big leaguers out there and all of them are hitting above the 300 mark. "Hal Chase is one of the finest chaps I've ever met," says Frank Bancroft, the veteran business manager of the Reds. "He's willing to do his best at all times." Fred Maisei, of the Yankees, was left in Chicago when his team was there and has been practicing with the White Sox. He is under the care of a Windy City physician. He expects to be able to play in a week. Heine Groh is undoubtedly the best all-round infielder in the league, if not in any league. He plays any of the positions with an ease and grace which marks him as a real star. He is especially valuable at second on account of his ability to handle those slow, teasing grounders, which are the hardest chances any infielder has. Fred Toney says he does not understand why the big league scouts overlook the pitcher Jake Northup, formerly with the Cubs, but since then one of the best pitchers in the Southern League.

Paris, Aug. 4.—Exchanges of gold for paper by the Bank of France continue at the remarkably uniform rate of about six million francs per week. A committee has now been organized under the presidency of M. David-Mennet, president of the Paris Chamber of Commerce, to give greater impetus to the influx. The committee includes the presidents of all the chambers of commerce in France and the most authorized representatives of every branch of art, industry and business. The object of the committee is to co-operate with citizens in every locality in France in a systematic education of the people in the great advantages to the country in having all the gold in the Bank of France.

## GOOD DIGESTION A SOURCE OF HEALTH

When the stomach is out of Order the Whole System Suffers.

Indigestion is one of the most distressing maladies afflicting mankind. When the stomach is unable to perform the work nature calls for, the result is severe pains after eating, nausea, heartburn, fluttering of the heart, sick headache, and often a loathing for food, though the sufferer is really half starved. People with poor digestion, too frequently try all sorts of experiments to aid the process of digestion, but there is only one way in which the trouble can actually be cured, that is through the blood that strengthens the stomach and the nerves, thus enabling it to do its work. The process is simple, but the result means good appetite and increased health and pleasure in life. In proof of these statements, Mrs. Albert Hall, Sonya, Ont., says: "I have used Dr. Williams' Pink Pills with wonderful results. For two years I was a great sufferer from indigestion, which almost made me a physical wreck. At times my sufferings were so great that I was unable to attend to my household duties. I had smothering spells at times, and was afraid to lie down to rest. After every meal, no matter how sparingly I ate, I suffered great distress. I saw Dr. Williams' Pink Pills advertised to cure this trouble and decided to try them. I had not been taking them long when I felt somewhat improved. This improvement continued, and after taking ten boxes I could eat and digest all kinds of food and felt better than I had done for years. You may be sure I am very grateful for the wonderful relief these pills have given me. I know they are also a cure for anaemic sufferers, as an intimate friend of mine was badly afflicted with this trouble and after taking several boxes she was entirely cured." You can get these pills through any dealer in medicine or by mail, post paid, at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

## BOWLING HAS HISTORY LONG AND HONORABLE

Popular Pastime of Today Was First Played Centuries Ago.

ONCE WAS "UNLAWFUL"

Brantford Now Has Devotees of the Game by the Hundreds.

Bowling is a game that has grown wonderfully popular in Brantford. When, only 1 year ago, the late Thos. Woodgat carried off the crown at the annual tournament at gara, the Brantford Club possessed practically the only green in the city. To-day there are three leagues and flourishing clubs, each with hundreds of members—theaters, the Pastimes, and the Duffers. There are besides, numerous small clubs, such as St. Basil's, Echo and Sydenham, on Terrace Hill.

The original Heather Club, which was started later, on the site of now is the Y.M.C.A. An off-shoot of the Heather's was formed, the Pastime Club, while the Duffers followed, filling a long-felt want in the North Ward.

With the starting of these leagues, the church greens lapsed, the number of players was much increased. To-day "everybody bowls." Modern Lighting System. The final perfection in bowling came with the latest system of lighting. Instead of long strings of cadestent lights, most greens are illuminated by huge arc lamps, giving much more light and eliminating all shadows.

Every bowling club in the city is a proud record in the matter of matter of patriotism. The honor of each of them is a long one.

Its Origin.

How old is the game of bowling? The minds of all will of course revert almost immediately to the end of Sir Francis Drake and the game of bowls on Plymouth when the Invincible Armada, three centuries, at least. And will be right. Well, there is a legend, the game of bowls is older than the 16th century. It has been proven to have been in vogue as early as the 13th century. There is reason to believe that it is common one hundred years before even that. Bowling, in fact, is the oldest British outdoor pastime in vogue, if archery be excepted. Away Back in 1190.

In William Fitzstephen's biography of Thomas-a-Becket, published in 1190, appears a list of favorite pastimes among which is mentioned "the casting of stones." By this is taken to refer to the bowling then extant, while a modern pastime of putting the ball as it may, however, be. Evidence is furnished that the game of bowls was fairly common in the 13th century, as manuscripts of the period in the royal library at Windsor depict a party engaged in sport.

Once Was Unlawful Game. From then on, the game grew in popularity rapidly, and the nobles came to see the menace to the practice of archery.

Popular Pastime of To-day Was First Played Centuries Ago.  
ONCE WAS "UNLAWFUL."  
Brantford Now Has Devotees of the Game by the Hundreds.

Bowling is a game that has grown wonderfully popular in Brantford, as elsewhere throughout Ontario. When, only 1 year ago, the late Mr. Thos. Woodruff carried off the honors at the annual tournament at Niagara, the Brantford Club possessed practically the only green in the city. To-day there are three large and flourishing clubs, each with hundreds of members—the Heathers, the Pastimes, and the Dufferins. There are besides, numerous smaller clubs, such as St. Basile, Echo Place, and Sydenham, on Terrace Hill.

The Original Heather Club. It was about 8 or 9 years ago that the game began to flourish suddenly all over the city. The honor roll of each of them is a long one.

Its Origin. How old is the game of lawn bowling? The minds of all will of course revert almost immediately to the legend of Sir Francis Drake and his game of bowls on Plymouth Hoe, when the invincible Armada was sighted, and will reply, "Well over three centuries, at least." And they will be right. While there is dependable authority for the above legend, the game of bowls is much older than the 16th century. It has been proven to have been in vogue as early as the 13th century, and there is reason to believe that it was common one hundred years before even that. Bowling, in fact, the oldest British outdoor pastime still in vogue, is, in fact, the oldest.

Away Back in 1190. In William Fitzstephen's biography of Thomas-a-Becket, published before the author's death in 1190, there appears a list of favorite pastimes among which is mentioned that of "the casting of stones." By many this is taken to refer to the form of bowling then extant, while others profess to see in it the origin of the modern pastime of putting the shot. Be this as it may, however, certain evidence is furnished that the game of bowls was fairly common in the 13th century, as manuscripts of that period in the royal library at Windsor depict a party engaged in the sport.

Once Was Unlawful Game. From then on, the game grew in popularity rapidly, until the king and the nobles came to see in it a menace to the practice of archery.

which was at that time not only a pastime but also served to keep the common people in training for war-time. Accordingly, strict statutes against the game were enacted by Parliament in the reigns of Edward III, Richard II and other monarchs of the Plantagenet and York periods. Still the game thrived secretly, and came to be winked at by the authorities although the laws forbidding it were still in force. With lawn bowling had sprung up the pastime of indoor bowling, for which purpose bowling alleys were established, but fell into disrepute because of the riff-raff which frequented them.

Henry VIII. Had a Green. In 1541, a statute was enacted, remarkable because of the fact that it was not repealed until near the middle of the 19th century laying down that anyone playing at bowls outside his own garden or orchard (terms in those days practically synonymous) was liable to a fine of 8 shillings and sixpence. Persons possessing lands with a yearly value of over 100 pounds, it was stipulated, might obtain licenses to play on their own private greens. So common was this that Henry VIII. had a private green at Whitehall Palace, where he was wont to play and to back himself with heavy sums of money.

Was Written Against. In the reign of Mary, all licenses for bowling alleys were revoked as promoting unlawful assemblies, seditions and conspiracies. In his "School of Abuse," published in the reign of Elizabeth, Stephen Gosard wrote against the sport, as being the pastime of vagabonds and riff-raff. Nevertheless, the game waxed once more in popularity during the reign of Elizabeth. In Richard II, two interesting items are gleaned from one passage. In scene 4 of act II, the Queen says: "Twill make me think the world is full of rubs, and that my fortune runs against the bias." From this it is inferred that biased bowls were in use at that period, while many also interpret the words as an admission that bowling was common among women of high rank then.

**Look and Feel Clean, Sweet and Fresh Every Day**  
Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath. Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter. Everyone, whether ailing, sick or well, should each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting rid of it by a thorough flushing of all the inside organs. The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Anachronism is one of Shakespeare's greatest faults, and the passage need not imply that women bowled in the days of Richard II, but only in the poet's own time.

Mentioned in Mathematics. That the use of biased bowls was in vogue in the 16th century, is also evidenced in the mathematician Robert Recorde's "Castle of Knowledge," published in 1556, wherein he says, "a little altering of the one side maketh the bowl to run biasse wales."

There is ample foundation for the legend of Drake and his bowls, although the story itself is disbelieved by many. At any events, at this time bowling was a favorite pastime for Sundays, being considered perfectly legitimate; indeed, it is recorded that when John Know visited Calvin at Geneva on Sunday, he found the preacher engaged in the game.

Charles I. Bet On It. With the Stuarts, the game found ready favor, and flourished greatly. The quasi-scholarly James I. recommended it in his "Book of Sports," published in 1618, while his son, Charles I, when king, played to excess, making heavy wagers and on occasions losing as much as 1000 pounds on a game. Even in his capacity the monarch was allowed to engage in his favorite pastime.

During the brief period of the Commonwealth every effort was made to suppress bowling, together with all other sports, but with the return of Charles II. to the throne the game found the favor of the monarch once more, so dissolute

where however, the courtiers who engaged in it, that the game fell once more into disrepute and aboyance in England, although it continued in Scotland, loyal to the memory of the Stuarts.

Played Also in Europe. In various parts of Europe, the game is known to have existed since this period, the 17th century. In France, it was then in vogue, played as it is even to-day in many parts of that country, with unbiased bowls. In Holland, too, it was extant in the 17th century. The oldest club known to be in existence is the Southampton Town Bowling Club, founded in 1299, whose players use still the same greens they have used for centuries.

Every Surface Car Line in Nearly Whole City Inevitable. By Special Wire to the Courier.  
New York, Aug. 3.—A strike of street railway employees, tying up every surface line in Manhattan, the Bronx and Queens county, seemed inevitable to-day. The leaders of the union recently organized among the employees, to-day delivered a multi-maturn to the railway companies giving them until 3 p.m. to-morrow to grant their demands and efforts to-day by Mayor Mitchell to bring about arbitration, failed.

**CROP EXPECTED**

After a thorough canvass of various points throughout Western Canada, Dr. McMill of the Dominion Grain Commission, is quoted in Calgary as saying that Alberta would have a crop as good as last year, that the Dominion would have a billion dollar grain crop and that the grain crop of the three Prairie provinces would be little, if any, behind that of last year.

"The country as a whole never looked better than it does at present," said Dr. McMill. "The weather was made to order, as you might say and I am of the opinion that this year's harvest will be another wonderful one."

Those who contemplate going West will do well to remember that the most fertile districts in Western Canada are served by the lines of the C.N.R. and that this season they can travel from their home districts to destination. Canadian Northern all the way.

Arrangements have been made whereby passengers may travel in comfort. Colist and lunch counter cars being a feature.

The first of these excursions will be run in August, the date will be announced later.

For further information apply to nearest Canadian Northern Agent, or write to R. L. Fairbairn, General Passenger Agent, 68 King St. E., Toronto.

## DUTCH PRINCE LEAVES SOIL OF HOLLAND

First Time Since War Started Has This Event Occurred.

TRAVELLED TO SWITZERLAND

Went Through German Was Not to Alight from Train.

The Hague, Netherlands. (Correspondence of the Associated Press).—For the first time since outbreak of the war, Prince of the Netherlands, the crown prince, has left Dutch soil accompanied by two members of Dutch nobility, he has gone to Switzerland, where he will during next six months indulge in mountain climbing. It was particularly noted that he would not leave the Netherlands during the war. The fact that the Prince, who we know before his marriage to Duke of Mecklenburg, is a German by birth, and that his sympathies naturally lie with Germany, his movements being followed more than ordinary attention opening stages of the war, some curious stories went on the subject. But Prince has nothing to do with Home policy or administration, and of his public appearances in the two years of war have been various activities connected with Red Cross organization, for which he is proud and in which he takes greatest interest. For rest, he has resided a good deal of the Royal country seat of "Loos" where hunting has been his occupation. A day or two he was noticed taking a stroll through the Hague Woods, accompanied by one of the little deer, from the Royal House Wood, which followed him like a dog.

Royal duties make it impossible for Queen Wilhelmina to accompany her consort to Switzerland, a Majesty has just gone with the Princess Juliana to stay a week, a quiet little seaside town, a few miles north of the Hague.

## PIRATES AFTER BASHAW

Who Plied With the Ottawa Last Summer. Another member of last season's Ottawa Canadian League club is due for the big show according to the latest report. The play question is Al Bashaw, who left field for Shag's team last season. Bashaw has been playing South Bend, of the Central League, and going like a hot fire. He has been hitting hard often, and is the same Al of the bases. Pittsburgh is said to be the clever outfielder. Bashaw came to Ottawa last season not look a world beater. He had a whole lot of speed and was very light. Shag, however, a real ball player of him just did other players.

## Jutland Battle Turning Point of Great War

Mr. A. J. Balfour Reviews Course of the War, and Points  
out That Enemy Fleet Is Still Locked Up—Sub Campaign  
Appeals Doubly to German Militarism, to Its  
Prudence and to Its Brutality.

London, Aug. 4.—The First Lord of the Admiralty, A. J. Balfour, has issued a statement for publication, in the course of which he says:

"The second anniversary of the British declaration of war provides a fitting opportunity for a brief survey of the present naval situation. The consequences, material and moral, of the Jutland battle, cannot be easily overlooked; an allied diplomatist assured me that he considered it the turning point of the war.

"The tide, which had long ceased to help our enemies, began from that moment to flow strongly in our favor. This much at least is true, that every week which has passed since the German fleet was driven, damaged into port has seen new successes for the allies in one part or other of the field of operations. It would be an error, however, to suppose that the naval victory changed the situation; what it did was to confirm it.

"Before the Jutland battle, as after, the German fleet was imprisoned. The battle was an attempt to break the bars and burst the confining gates. It failed, and with its failure, the high seas fleet sank again into impotence.

"The Germans claim Jutland as a victory, but in essence they admit the contrary, since the object of a naval battle is to obtain command of the

sea, and it is certain that Germany has not obtained that command, whilst Great Britain has not lost it. Tests of this assertion are easy to apply. Has the grip of the British blockade relaxed since May 31? Has it not, on the contrary, tightened? The Germans themselves will admit the increasing difficulty of importing raw materials and foodstuffs and of exporting their manufactures; hence the violence of their invectives against Great Britain.

What Map of World Tells

Mr. Balfour argues that if they had felt themselves on the way to maritime equality the Germans would not have so loudly advertised the defeat of their fleet. The whole interest of which, in German eyes, was to prove their ability to elude the barrier raised by the British fleet between them and the outer world. "It has reached colossal proportions," he continues, "its effects on the war may well be decisive. Yet never has it been more secure from attack than it has been since the German 'victory' of Jutland."

The First Lord refers to Germany (Continued on page 12)

## Notes of Interest From Paris

Many Items of What I Doing in the  
Northern Towns

Paris, Aug. 2.—The monthly meeting of the Paris Council was held Monday evening, but not much business was done.

A communication was read from Mr. Ralph Axton, offering to buy 43 feet frontage of the chopping mill site for \$4,000. This was referred to the Finance Committee.

The Streets and Sidewalks Committee were given power to arrange for necessary lighting on the two new bridges which are being built on the raceways, on Mechanic and Willows streets.

The band also wrote, asking for their annual grant.

A letter was read from Messrs. Brewster and Heyd, regarding a complaint from their client of an obstruction at the south end of Amelia of Mr. and Mrs. Roy Priest last evening, when about fifty young people paid a surprise visit and presented Mr. and Mrs. Geo. Miller (nee Vera Priest) with a miscellaneous shower. Mr. and Mrs. Miller were married last month, and the young people took this opportunity of showing them the high esteem in which they were held by all. A pleasant evening was spent in music and dancing; before leaving a very dainty repast was served.

A Westerner's Visit

On Tuesday the services at the Presbyterian church will be conducted by the Rev. David James, who is at present visiting his sisters, the Misses James, Jane Street. Rev. Mr. James is an old Paris boy; his father was for many years pastor of the old Dutch Church, Upper Town.

Monday afternoon Elmore Hemstock, Paris Junction, celebrated his 8th birthday, by giving a party to a number of his little companions. During the afternoon they were all taken out to Watt's Pond, where an enjoyable time was spent in games and fishing. Later a very appetizing lunch was served, which the little ones did ample justice to, and also extended hearty birthday greetings to Elmore.

On Monday afternoon Rev. Mr. Wells united in marriage at the street. This was referred to the streets and sidewalks committee.

The Constable returned.

Mr. Robert Randall has returned home from Toronto where he took the Pasteur treatment, owing to having been seriously bitten by a strange hound some two months ago. The dog attacked him while going into his house, and it was thought best to run no chances.

A Jolly time was spent at the home of the Methodist parsonage, Amy Hilda, daughter of Mr. and Mrs. Fred Salmon, of Brantford, to Pte. Alfred Cole, of B Company, 215th Battalion, and youngest son of Mr. and Mrs. John H. Cole, Fairview Terrace.

Rev. Mr. Nicholson, has left for his holidays, and is visiting with relatives at Kincairdine.

Mr. and Mrs. James Crozier of Hamilton, are visiting with the former's mother at Brantford Township.

The Misses Olive A. matrons, Edna Stewart and Lula Crichton, have returned home after a pleasant two weeks' holiday spent at Sault Ste. Marie.

Miss Kate Graham, of St. Louis, is spending her annual holidays with her sister.

Mrs. Jas. Ross has returned home after an enjoyable holiday spent at Woodstock.

Miss Rieger has returned to her home in Hamilton, after an extended visit spent with her sister, Mrs. W. Patterson, St. Andrew street.

A wedding of interest to many in town is that of Mr. Henry Buchanan, youngest son of Mr. and Mrs. William Buchanan, of Paris, to Miss Gertrude Webber, youngest daughter of Mr. and Mrs. C. B. Webber, of Hamilton. The marriage took place at the Presbyterian Manse, and Rev. D. Baker officiated. The young couple will make their home in Hamilton.

A NEW YORK STORY.

Rip Van Winkle blew back to New York after a twenty-year session in the hay and took his accustomed seat at the Polo Grounds. The peanuts had aged but little and the grass on Henry Bablan's lawn was ironed just as carefully as it was before Hendrick Hudson had slipped something into his teacup.

"Same old thing, said Rip Van Winkle frankly. "Not a thing changed since I blew the burg." Suddenly he glanced at a figure on the coaching lines and his jaw fell. "Say, that looks like Matty in a Cincinnati uniform," he said. "It is," said a younger fan. "Good night," said Rip Van Winkle. I'm still asleep and dreaming. And he beat it back for the Catskills.

SAME AS CRIMINALS.

German Passports Must Bear Holder's Finger Prints.

Berlin, August 4.—The taking of finger prints has ceased being directed solely against criminal classes since August 1, when the new Prussian passport regulations went into effect. All passports must now bear the finger prints of the holders. The measure was first employed in Bavaria and soon will be adopted in Saxony.

**GIBSON A VETERAN.**  
Pittsburg Pirates Catcher Was Born in London, Ont.  
One of the oldest backstops now regularly engaged in practicing his profession in the major circuits, and the patriarch with the club, is George Gibson, of the Pirates, who is one of the few Canadians in the big leagues. Although Callahan has permitted the old timer to do quite a lot of bench warming this year, while Wilson and Schmidt earned their salaries, Gibson is still a considerable distance from being a has-been. Gibson celebrated his thirty-sixth birthday the other day. He was born in London, Ont. He has been with the Pirates since 1904, when Pittsburg bought him from Montreal. He was then playing his second season with the Royals, and had previously spent a year with the Bisons. He developed rather slowly, but by 1907 he was the regular backstop of Clarke's crew, and in 1909, when the Buccaneers won the championship, he was recognized as one of the greatest of the men behind the bat. Later he began to fall back strong, and last year he caught 120 games. Gibson has been a major leaguer three years longer than Chief Meyers, and four years longer than Jimmy Archer, of Toronto, both of whom are looked upon as antiques by the fans.

VON HINDENBURG IN FULL CONTROL ON EAST FRONT

Evidently Austrian General Staff is Too Inefficient for Berlin.

By Special Wire to the Courier. Amsterdam, via London, Aug. 4.—The appointment of Field Marshal Von Hindenburg to the supreme command on the eastern front, is hailed by the German papers as a masterful stroke.

The Hamburger Nachrichten says: "It is the right man in the right place. A desire long since cherished by our people but never directly expressed is now fulfilled. In the present crisis on the eastern front the consolidation of the army groups was a necessity. All commanders of the eastern armies will readily and ungrudgingly submit to Field Marshal Von Hindenburg's authority. The Koelnische Volkszeitung says: 'Germany's confidence in her army leaders in the east was never shaken but the appointment of Von Hindenburg increases this confidence to certainty.'

MORE PROGRESS IN EAST AFRICA

Belgian Forces Have Occupied Kigoma, an Important Post.

More Important. 's. A9obaa By Special Wire to the Courier. Havre, Aug. 4.—Further progress for the Belgian forces invading German East Africa is announced in an official statement issued by the Belgian war office. The text of the statement follows: "The right wing of the Belgian troops pursuing its march southward, has occupied Kigoma, in the district of UBEI, the most important German post on Lake Tanganyika. Kigoma is the terminus of the railroad from Dar. Es. Salaam, the capital of the colony to the lake.

SIR JAMES AIKINS IS NEW GOVERNOR

Succeeds Sir Douglas Cameron in Governatorial Office in Manitoba.

Ottawa, Aug. 4.—Lieut.-Col. Sir James Albert Manning Aikins has been appointed Lieutenant-Governor of Manitoba. He succeeds Sir Douglas Colin Cameron, whose term of office expired some time ago. Sir James Aikins was born in Peel County in 1851, educated at Toronto University and was admitted to the bar. From 1879 until 1896 he was counsel for the Justice Department in Manitoba. He was appointed Royal Commissioner to investigate and report upon the administration of justice in the North-West Territories, and in 1900 was appointed counsel for the Manitoba Government. He has been solicitor for the Canadian Pacific Railway in Winnipeg, and for many large corporations and banks, loan companies, etc., in Western Canada, and is also a director of many of them. He was elected for the Federal constituency of Brandon in 1911, but withdrew from Dominion politics last year, when the Manitoba Provincial elections were held. In becoming Lieutenant-Governor of Manitoba, Sir James holds a position which was once filled by his father, Hon. James Cox Aikins, in 1882.

Jutland Battle Turning Point of Great War

(Continued from page 11)

exhortations to look at the map and see the extent of German successes and adds: "That depends on what maps you take. Even the map of Europe shows an ever-shrinking battle-line. But look at the map of the world. Of Germany's colonies are some except East Africa, which even as I write, seems slipping from her grasp. Has the battle of Jutland opened the smallest prospect of Germany regaining these colonies or giving a moment's respite to the hard-pressed colonists in German East Africa?"

Why U-Boat War Appeals to Enemy

Mr. Balfour advises those requiring further proof of the value the Germans attach to their "victorious fleet" to study the German policy of submarine warfare, and says: "The advantage of submarine attacks on commerce is that they cannot be controlled by superior fleet warships or by the laws of cruisers; a disadvantage is that they cannot be carried out on a large scale consistently with the requirements of humanity. They make, therefore, a double appeal to the German militarism on an appeal to its prudence and an appeal to its brutality."

"The Germans know that their victorious fleet was useless. It could be kept safe in harbor while the submarine warfare went on meritoriously outside. They know that submarines cannot be brought to action by battleships or battle-cruisers. They know that the sure way to destroy commerce destroyers our merchant ships must fall a easy prey, unprotected by our ships of war and unable to protect themselves."

"The blunders they are committing in both respects and doubtless it is their wrath at the skill and energy with which British merchant captains and British crews have defended the lives and property under their charge that has driven the German Admiralty to their latest and stupidest act of calculated ferocity—the judicial murder of Capt. Fryatt."

Germany Are Blunderers. The First Lord contends that the case is not worth arguing, that it is useless to do the German military authorities the injustice of supposing they were animated by "solidarity for the principles" of international law and accidentally blundered.

"The illegality of their folly," he continues, "was of a different kind. It was that they were blundering. They knew that Captain Fryatt was doing his duty, and they resolved at all costs to discourage imitation."

"What blunders they are committing now to manipulate machines, but of managing men they know less than nothing. They are always wrong, because they always suppose like cowards. Small is their knowledge of our merchant seamen. I have not resolved to defend himself to the last against piratical attack. But if there is such a one, depend on it, he will be cured by the last exhibition of German civilization. And what must neutral think of all this?"

"The freedom of the sea means to Germany that the German navy is to behave at sea as the German army behave on land. It means that their enemy civilians nor neutrals German rights against militant Germany; that those who don't resist will be drowned, and those who do will be shot."

"Already 244 neutral merchantmen have been sunk in defiance of law and humanity, and the number daily grows. Mankind, with the exception of those who are behind German culture. It is not, I think, without material for forming a judgment about German freedom."

M. J. Kerrigan, of Connelville, Pa., who has been sued for \$1,000 damages for killing a pet dog, has filed an affidavit of defense, in which he demands proof as to the pedigree of his victim.

After hundreds of farmers had searched the surrounding country for several hours for Lena Busse, 14, of Wabash, Ind., the girl re-appeared. She said she had been overpowered by a strange man early Sunday and locked in a corn crib.

BRITISH

FORTY-SIXTH YEAR

BRITISH

Russian

WITH UNALTERED THE WAR TO

BRANTFORD

At Great Open A

Noted Spoken

rary Steps, Th

ance of Provin

pire To-day

In truly meet and fitting manner it was that the city of Brantford is tonight united in commemorating a celebrating the anniversary of the entry of Great Britain into the present war, on the night of August 4, 1914. In the presence of a gathering of the largest patriotic and the highest spirit of enthusiasm and loyalty, the celebration took place at the steps of the public library, which building was beautifully decorated with colored flags and lanterns of honor of the occasion. Among the speakers of the evening was incumbent Lt. Col. G. H. Williams, senior chaplain and chief recruiting officer of the district, who delivered a most hopeful and encouraging address, which he conveyed to all the information that the day the allies are now at hand, and the night of the failure past. Other speakers of the evening were Mr. W. G. Raymond, Lt. Col. Harry Cocksbutt, His Majesty's Mayor Bowby and Capt. T. Rev. S. E. McKeegney, while one of the principal features of the evening were presentations made to the 215th battalion by the Women's Patriotic League and the city council.

Assembling at the armories at 7.15, the 215th battalion, together with the speakers and other prominent citizens joined in the parade which proceeded to Victoria Park, Colborne, Alfred Wellington, and George streets, where large crowds were assembled awaiting the commencement of the evening's services. Under the supervision of the Rev. F. Leonard the parade proved a most thorough success.

Band Selections. On the arrival at the park, the chair was taken on the platform erected for the occasion on the 215th steps, by Lt. Col. Cocksbutt, 215th battalion, and the program was proceeded with the playing of numbers, including the anthem, "God, Our Help in Ages Past", which was rendered by the band of the 215th the gathering joining in the singing of the latter number. The prayer invocation was then made by Rev. Llewellyn Brown.

After exactly two years of war, said Lt. Col. Harry Cocksbutt, in address as chairman of the association, "we are thankful to know that the allies to-day hold the upper hand; may it continue so in the end and in the conflict may all of us our duty as befitting citizens of a great empire of which we form part."

Field Kitchen Presented. Followed then the presentation of the field kitchen to the 215th battalion, the address being read by W. C. Livingston, secretary of the Women's Patriotic League.

Also a Cheque. In the capacity of Chief Magistrate of Brantford, Mayor Bowby extended his sincerest wishes to the members of the 215th battalion, sacrificed before him, prepared to sacrifice even their lives for the holding of the ideals of the empire. To all of them he expressed his wishes, and the hope that they might uphold the honor and dignity of the country to which they belong. On behalf of the city council, Mr. Bowby then presented Lt. Col. Cocksbutt with a cheque for \$500, devoted to the battalion funds in any manner whatever. To these presentations a fitting reply was made by Col. Cocksbutt, who expressed the thanks of the battalion to the city's generosity for the excellent and co-operation accorded the 215th on every occasion.

sorrowful hearts it was, he expressed, that the battalion was being reformed for Brantford, but it was reformed, and not good-bye which must say. For the ladies of the city of Brantford, Lt. Col. Cocksbutt called for three hearty cheers for the 215th, which were given with a will by all.

An Appeal for Men. An eloquent and forceful appeal for recruits was that delivered at the junction by Capt. Rev. S. E. McKeegney, chaplain of the 215th battalion, who appealed most vividly to the minds of the Brantford men who were found still hesitating after years of war. To the women of the city, whether married or unmarried, he also appealed, to use his influence, and to create such an opinion that all eligible young men would be forced to do the one thing that was the duty of every citizen.

The present day was one of
