A Cheaper Fuel That Gives Better Results

To begin with, Boulets are made from pure coal, high grade anthracite mined from the Old Company's Lehigh mines. Boulets are cheaper than anthracite because they are manufactured from particles of Old Company's Lehigh that are too small to handle economically or to burn practically—siftings that were formerly considered as waste.

How a Waste Product was Turned into a Money Saving Fuel

During the process of breaking and sizing Old Company's Lehigh anthracite for many years, a large quantity of pure coal accumulated. These coal siftings were unsalable, but the Lehigh Coal and Navigation Company, knowing their high fuel value, stored them year after year, hoping that a process might be found to use this fuel value available. It was plain that a way must be devised to compress the coal particles into lumps that could be conveniently handled and burned. The scientific world was searched for a process to accomplish this result. The best authorities and inventors were consulted.

How Holland Helped Us to Give You Cheaper Fuel

Finally, the Lehigh Coal and Navigation Co. learned of the Dutch Process of Briquetting, and asked the American agents of the process to try to compress Old Company's Lehigh coal siftings into hard cakes. The Dutch Process proved to be the answer to our problem. The coal particles were first made into a thick paste by mixing with five per cent of a high heat-value oil. Then enormous pressure was brought to bear by special machinery. Hard, uniform, egg shaped lumps of fuel were produced, of a size between chestnut and stove coal. We named these oval briquettes Boulets and installed the machinery necessary to manufacture them in our own plant.

Boulets did even better than we expected. They gave more heat than anthracite coal at lower cost per ton. We were pleasantly surprised by the many striking advantages that they developed as they were tested by our customers. After manufacturing and marketing Boulets for over a year we are able to guarantee the following merits for them.

Boulets give more heat per ton because of the fact that the oil used to bind the coal particles contains more heat units than coal itself. They make a hotter fire than anthracite.

Boulets will save nearly a quarter of your fuel dollars. Compare the cost with the price of anthracite, and you will save nearly one-quarter of your coal bill. They kindly quickly, remain tough and hard even after becoming red-hot, do not clinker, and burn completely to a powdery ash without waste.

Boulets break less easily than coal and are water and weather proof. Their even size assures a more regular and thorough combustion than anthracite coal, and a boulet fire requires less attention.

How to Get the Best Results from Boulets in All Cases

To light a new fire, use a sufficient quantity of kindling or charcoal and when this is burning briskly put on boulets three or four deep, open full draft, and in ten or fifteen minutes you will have an intensely hot fire. During the day use the same as ordinary coal, shake gently occasionally do not poke or stir the fire until the

boulets have become thoroughly ignited. They answer quickly to draft. At night shake the fire gently, fill the fire box and regulate draft slides and damper to give very little draft. If you wish to remove your stove lids you will find it best to put on full draft for a few minutes until the slight light colored smoke has passed off, after which cut off the draft. In the morning shake the fire gently, fill the fire box and put on full draft, the boulets will ignite promptly and you will have a good, hot fire.

We Recommend Boulets for All Household Uses

In Kitchen Ranges they give a better fire. They kindle more readily and give more heat at less cost.

In Open Grates they give a bright glowing fire which lasts a long time, even over night, and gives an intense heat.

In Hot Water Heaters they give a full and satisfactory supply of hot water in less time than coal.

In Furnaces they positively will not clinker when burned by themselves, and will give more heat per ton than anthracite coal.

Boulets are not to be confused with the ordinary briquettes sold under various trade names. Boulets are made, let us repeat, from high-grade Old Company's Lehigh anthracite. All the claims we make for their convenience and economy have been proved in actual use, not only by us but by our customers.

Reduce Your Heating Cost

There is one sure way to prove the saving that Boulets will bring you—try them. Demonstrate in your own home the cleanliness, convenience and economy of this new fuel. Your dealer is prepared to supply you. Place your order today.

Locals

Remember—Stores closed Monday

Mr. and Mrs. W. R. Pearson have returned from a pleasant fishing trip in Muskoka.

Mr. Abe Webster has had a new steel roof put on his barn, the work being done by W. H. Reid.

Morden Bros. will run their bus to Toronto Fair on Labor Day. Those wishing to go should make arrangements early.

A meeting of the Poultry Association was held last Friday evening, at which the judges were appointed for the coming winter show.

The Woman's Auxiliary of Grace church met on Thursday afternoon at the home of Mrs. Ed. Fielde. The next meeting will be with Mrs. W. G. Spence.

A number from here attended the Memorial services at Mount-carg on Sunday last, when the monument erected in memory of the fallen heroes of that place was unveiled, the stone bears the names of Roy Mount, Leland Dougherty, Nathan Dougherty and Walter Emmons.

The Women's Institute met at the home of the president, Mrs. J. Anderson on Wednesday of this week, when a very enjoyable afternoon was spent. An especially good paper was read by Mrs. C. W. Drummond on "The Women's Institute as an Organization". An exchange of receipts was conducted by Mrs. W. A. Drummond. Mrs. J. O. McGregor favored with an old time song, "Do You Remember". The paper read by Mrs. Drummond will be published next week.

Base Ball

(By the Sporting Editor)

Thirteen straight—an unlucky number, and the Junks stuck to the Seniors on Saturday last at Victoria Park. In the first of the home and home games between the Beavers and the W. A. A. Waterdown went down with a slam.

It is a good thing the game is off their stomach, as it will be impossible for them to play a worse game. The playing was wretched, the team were as wild as hawks and played like a shell shocked or mentally deranged mob which no manager could fathom.

However the players themselves as well as a great majority of the spectators know there is better baseball in the W. A. A. boys, and a good game can be looked for on Saturday September 4th.

Cummins and Neustead had the Beavers whipping the air in the last three innings, so on Saturday every one should be on hand, as the boys have promised to start right in where they left off and play the Beavers to a standstill. Seating accommodation will be provided for the spectators. The grounds are in good condition for a battle royal.

The Junior ball team play their schedule game Saturday at 1.30. A good game is expected from them.

Carlisle

On Friday last at St. Michael's hospital, Toronto, one of our most respected residents in the person of George N. Allison, passed away in his 65th year. Deceased was in good health until a few months ago when he contracted a complication of diseases which necessitated a serious operation, from which he never recovered, and was a constant and patient sufferer until his death.

The late Mr. Allison was an earnest christian, and a man of stalwart integrity. He was a member of the Methodist church, and was a member of the Trustee Board for over thirty years, and ably acted as secretary of the same for 28 years.

Deceased was born on the Allison homestead on the 10th concession of East Flamboro, on the 15th of April 1856, and was a son of the late Joseph and Mrs. Allison. In 1881 he was married to Miss Phoebe Harris, daughter of the late John and Mrs. Harris of Bartonville. He farmed the homestead until 1906 when he moved to Carlisle where he followed the carpenter trade.

Besides his wife, he leaves to mourn his loss one daughter, Mrs. Roy Robinson, and his aged mother, Mrs. Joseph Allison, all of Carlisle, and one sister, Mrs. Peter Kerr of Fergus. The sympathy of the entire community goes out to the bereaved family.

The many beautiful floral tributes placed on the casket spoke well for the high esteem in which he was held. The Trustee Board tendered a beautiful wreath in memory of faithful services.

The funeral services was conducted in the Methodist church by Rev. Dr. E. M. Morrow assisted by Rev. G. F. Morris of Toronto, Rev. Geo. A. Adamson of Lachute, Quebec, Rev. Jas. Gordon of Mitchell, and Rev. J. Scoones, Interment being in Carlisle cemetery. The pallbearers were A. E. Blagden, A. E. Bates, Geo. Morden, Wm. Cairns, Wm. Hopkinson and W. N. McCutcheon, all neighbors of deceased.

LOCAL MENTION

KNOX CHURCH SERVICES

Morning—Labor Day Service.
Subject, "The Permanent Cure for Social Discontent".
Evening—"Faith's Defenders".

Mrs. Geo. Church is visiting friends in Norwich.

Mrs. J. Prudham is visiting friends in Georgetown.

Mr. H. W. Park spent last Thursday with his parents in Hamilton.

Miss Dorothy Sparks of Hamilton is the guest of Dr. and Mrs. R. J. Vance.

Mr. R. Driver and wife of Buffalo are the guests of Mr. and Mrs. R. Sparks.

The W. M. S. will meet at the home of Mrs. C. Galivan on Wednesday afternoon next.

Miss Annie Stuart of Caistor spent a few days last week with her sister, Mrs. H. W. Park.

Miss Annie Newstead of Guelph spent a few days with her brother, Herbert here last week.

Mr. and Mrs. R. Skelly, of Ottawa are visiting at the latter's parents, Mr. and Mrs. P. Carson.

A. E. Alton and J. J. Creech are exhibiting some of their fancy poultry at Toronto Fair this year.

Mrs. Reid, and daughter Annie of Guelph, are visiting with Mr. and Mrs. Thos. Mills, Progeston.

Mr. H. Nicol, a returned soldier of Hamilton, has opened a shoe repairing shop in the old Drug store.

Miss Rankin and Miss Deitz of Detroit spent the week end in the village the guests of J. E. and Mrs. Eger.

Mr. and Mrs. T. Porter and niece, Miss Coverdale, are leaving on a weeks vacation at Rochester and other points.

Mrs. L. Sullivan has returned to Rochester, N. Y. after a pleasant visit with her sisters, Mrs. P. Carson and Mrs. J. Metzger.

The Public schools opened on Wednesday last with a fair attendance of pupils. Miss L. Corey of Atwood has joined the staff.

Mr. J. E. Vance returned last Monday from a weeks holidays at Muskoka, bringing home with him some fine specimens of trout.

Vinegar Hill is high, and sets some high records. First comes Dad Alton with his 14 foot corn, and now Mrs. A. Stewart sends in a potato weighing 1 lb. 13 1/2 ounces.

Mr. Clare Morden fell from a load of oats on Monday morning severely himself. We are glad to say that he is now much better, and we hope he will soon be back playing ball again.

A surprise birthday party was held at the home of Mr. and Mrs. D. S. Atkins on Friday last in honor of their daughter Myrtle. About 20 girl friends were present and presented her with a lovely pendant.

Harvest Home services will be held in Grace church on Sunday afternoon next. The preacher on this occasion will be the Rev. Mr. Tebbs of Burlington. Special music by the choir. The church is being prettily decorated for the occasion.

HAMILTON ONTARIO

Rates for Telephone Service

Our rates for exchange service, fixed many years ago, developed many inequalities as between cities at one time equal in population.

In the new schedule filed with the Board of Railway Commissioners we have so grouped cities and towns of approximately equal telephone development as to wipe out these inequalities.

The rates for exchange service proposed for Waterdown-Freelton under the new schedule are shown in the following table.

	Proposed Monthly Rate
Business Service	
Individual line	\$2.75
2-Party line	2.25
Residence Service	
Individual line	\$2.00
2-Party line	1.75
Rural party service	1.75

These new rates, we submit, should be considered in the light of the present purchasing power of the dollar. They compare favorably with the increased rates which telephone companies have had to secure from public service bodies all over the continent.

The commodities we have to buy—labor and material—have advanced in no lesser degree than have those staples of every day use, the cost of which has made present living expenses so high.

THE BELL TELEPHONE COMPANY
OF CANADA

We heard a man say:

"Let the Telephone Company use the profits they made in prosperous years, if they need money to build more plant."

That's exactly what we have done!

Shareholders of the Bell Telephone Company of Canada have been paid only a moderate return on the par value of their stock — no more!

We have made no distributions of bonus stock, no 'melons' have ever been cut; no distribution ever been made of surplus earnings. Every share of stock has brought us its par value, or better.

For forty years we have consistently used all surplus earnings, all idle reserves to buy more telephone plant. Every dollar has gone back into the business to extend it and serve new subscribers.

What has this policy meant to the public?

The Board of Railway Commissioners at our last rate investigation found that if we had not pursued this honorable course of turning all surplus earnings back into the business we would have had to provide in the year 1918 alone an additional \$908,000 out of revenue to pay interest on the plant so secured. This, of course, would have meant higher rates to subscribers.

The fact is, we need millions of new money just because our funds have always been at work, keeping down our bond and stock issues, and ensuring low rates to our subscribers!

A MARRIAGE SLUMP.

One of the Effects of the Return of Peace.

A certain recklessness was, generally speaking, the characteristic of those undertaking matrimony in war time; a tendency to look two or three times before leaping has taken its place since the fighting ended. A variety of causes combine to account for such a change.

In the first place, life in the army being free from those expenses which weigh most heavily on the civilian, the soldier had little chance to realize the alarming cost of living. Demobilization has, however, given him personal experience of the real difficulty of making both ends meet. The absence of any prospects of an early drop in prices, combined with the problem of house accommodation, is quite enough to account for the shyness which he feels with regard to marriage.

Though practical difficulties are doubtless largely responsible for reducing the number of hasty marriages, the elimination of certain purely war-time incentives to marry has also much to do with it.

Though life is, at best, an uncertain thing, a man's chances of being alive in six months' time are distinctly brighter now than in recent years. As a natural consequence couples are more willing to wait for better days. Again, the man's argument that if he has to be killed the girl he loves may as well get a pension no longer enters into the weighing of pros and cons.

A man home on leave, after months of misery in the fighting line, had some excuse for acting against his better judgment. Especially was this the case when the expressed wishes of the girl he had not seen for so long allied themselves with his natural inclinations.

If the soldier did not always give sufficient thought to his after-the-war prospects — well, those prospects were so vague that adding a little to their uncertainty did not seem to make so much difference. Accustomed as he was to the taking of chances, he was somewhat apt to include the risks of a reckless marriage in the gamble of life.

Now that the crowded experiences and feverish excitement of war are over, an inevitable reaction has set in. Many a man whose nerves stood the strain, finds himself incapable of undertaking new anxieties and responsibilities now that the tension is relaxed. What he seeks is a respite, during which he may recuperate his nervous system and take a few bearings in his new environment.

War Widows Remarrying.
War widows are making the best of misfortunes and many are taking unto themselves other husbands. Information forthcoming from the Board of Pension Commissioners shows that a great many women who have lost their husbands at the front are remarrying. War widows who remarry are given a gratuity of \$250, which amount is paid to them in a lump sum. This is the equal of one year's pension, ordinarily paid in monthly instalments to widows. Then the Government ceases to have further responsibility for the widow, though the pension allowed to each of her children continues, in the case of a girl, until she attains the age of seventeen years, and in the case of a boy, until he reaches sixteen years of age.

Yorkshire Hogs of Real Bacon Type.

Yorkshire hogs are distinctly of the bacon type. They have small hams and shoulders and a large quantity of side meat and do not get excessively fat. This makes it possible to produce an excellent quality of bacon from them and they ordinarily command a premium on the market if shipped in carload lots. The Yorkshires are very prolific and are excellent mothers. They are inclined to be more active than the lard breeds and need better fences. The Yorkshires are to be recommended for regions where corn is grown in a small quantity. Where corn is the principal crop of the farm, the lard breeds prove more profitable.

2,500 Guineas for Bull Calf.

A 12-days-old bull calf, Haydon's Dutch King, from the famous English Friesland herd of Mrs. Putnam, has been sold for the record price of 2,500 guineas to Mrs. Brown, of St. Albans.
