A SUMMARY OF FINANCIAL, COMMERCIAL AND MINING NEWS.

Vol. 2. No 130 MONTREAL, MONDAY, NOVEMBER 6 1899. Published Daily at 4.30 p.m. Price 3 cents

Montreal Stock Market.

MARKET DOES NOT DISCOUNT THE FUTURE ONE WAY OR THE OTHER—CONSOLS WERE LOWER BUT THERE WERE NO BAD WAR NEWS—C. P. R. LEADS, BUT ON A DECLINE FROM LOWER CABLE.

Montreal, Nov. 6.

There is in the report of October earnings by Toronto, given in another column and showing an enormous increase, a substantial reason for this stock advancing above 110, below which it sold at this forenoon. Its price, 109½, is not different from the average price it secured on Friday. Now that the last month's earnings and increase are known there should be better buying. September decrease, although earnings were very large, seems to have depressed its valuation, and so last month's increase will fail to have its true effect if prices are not raised a point or two after this.

Payne, on report of immediate resumption of work on basis of \$3.50 for 10 hours' work, advanced two points. Law authorities have assured Mr. McCuaig that the provincial law is unconstitutional, and if tested by a case taken, if need be, to the Privy Council, will be found to carry no penalties with it.

On slight decline caused by lower London quotation, and by other lower quotations as for instance Consols, Canadian Pacific to the amount of over 600 shares changed hands this forenoon and the eight transactions in which this was done formed the bulk of business put through on the floor today. Buying was not strong enough in these to put the price quite up to parity.

It was at a recession of nearly one point that Canadian Col. Cotton Bonds sold this forenoon. They closed steady at 100½ offered, 101 being the demand made.

A moderate-sized business, viz: 100 shares, was transacted in Royal Electric at the same price, 106.

Merchants' Bank lost 1½ points, but all the other sales given below were on the previous levels.

Wall Street is putting a good face on the bank statement, no very pronounced slumps being obvious this forenoon, but London taking a different view of this statement, was selling American stock at lower va-

lues. The local market did not seek to discount the future, either as a period of great gain or great loss. Hence prices remained about stationary and not a very great deal of business was done.

BROOKLYN RAPID TRANSIT.

The new schedule of Brooklyn Rapid Transit, by which long distance travel is to be shifted to the elevated lines, went into effect Wednesday. President Rossiter says the first results were very gratifying, and thinks the new system will meet with general approval.

WAR NEWS.

The movement develops the purpose of the Boers to destroy the bridge at Colenso, the only route by which White can retreat to Pietermaritzburg.

By wrecking the railroad at that point Boers would delay the sending of reinforcements to White from Pietermaritzburg or Durban.

The dispatch adds: "The Boers are marching south and southeast. This movement has been foreseen and arrangements made for the defense of our lines."

After the arrival of reinforcements from the Pietermaritzburg camp and the Naval brigade, White threw out a strong reconnaissance beyond Colenso.

CARIBOO HYDRAULIC.

Vancouver, B.C., November 5.—A recent arrival from Cariboo stated Saturday that the output of the big Cariboo Hydraulic Company will be 50 per cent, better this season. When he was at the mine there was \$8000 in solid gold bricks in the safes, while work was proceeding, and if the weather remains good for another fortnight this amount will be increased by at least \$50,000. By the way, the amount that the robber got out from one safe of the company was \$2,192. The first report put it at \$20,000.

PAYNE.

Mr. C. J. McCuaig, of Montreal, made an important announcement while here on his way to Republic.

"An eminent legal authority," he said "has advised management of Payne mine that the eight-hour law is unconstitutional. In all likelihood a test case will be made in order to determine the authority of provincial Legislature to draft the legislation that has caused so much trouble between labor and capital. The measure was not sought by the miners. We contemplate starting up work in the Payne, paying \$3.50 for ten hours' work. If we are fined the case will be appealed, if need be, to the Privy Council.

MONTREAL MINING EXCHANGE.

Reported by W. J. Fenwick, Exchange Court, 10 Hospital Street. Bell Tel. Main 8035. Bell Tel. Up 1867.

MONTREAL MINING EXCHANGE

MARKET INCLINED TO BE DULL—BIG THREE STILL SELLS AT 12—CALIFORNIA SHOULD BE BOUGHT.

Montreal, Nov. 6.

Transactions on 'Change this morning were limited, four of the regular issues being dealt in and one of the unlisted stocks.

Big Three sold freely at 12 to the amount of 6,000 shares, the buyers seemed to predominate and we would not be surprised to see it recover in the near future some of its lost ground.

The demand for Payne was quite urgent; although there were no sales transacted. Mr. C. J. McCuaig is credited with saying that a "test" case of the legality of the provincial Legislature in determining an eight-hour law will in all probability be made. He proposes starting up work on the \$3.50 basis for a day of 10 hours' work, and letting matters take their course, if necessary the case will, he says, be taken to the Privy Council.

Canadian Gold Fields was fairly firm, selling at 8 and 7½, one thousand shares changing hands.

California has been showing signs of strength lately, and will in all probability sell higher in the immediate future. We advise our readers to purchase round present prices. It was offered today at 13, with buyers offering 12. There were, however, no sales recorded. We have often called attention to the merits and prospects of the above named company and we do so again, being, we believe, fully justified in so doing.

The good news from Rossland is that work on the Evening Star has been resumed during the late period of inactivity the selling price of the stock has naturally suffered, but we look for a change from this now that work has been resumed.

Supt. W. M. Crummer, of the Black Tail, and Supt. James P. Harvey, of the Jim Blaine both report on their respective properties.

There was a sale this morning of Giant which is of the unlisted variety; it sold to the amount of 5000 shares at 5 cents.

The Bonanza Mining Co. has declared monthly dividend No. 4, being a quarter of a cent per share, to be paid Nov. 20th to stockholders of record Nov. 15th.

Amongst the stocks which are not speculatively handled, but are bought more for investment, Cariboo Hydraulic is one of the most promising, news is to hand that the output this season will be half as much again as previously.

MORNING SALES.

NEW YORK EXCHANGE.

BANK STATEMENT CAUSES MANY SELLING ORDERS — NO DECIDED DECLINE, HOWEVER — MONEY 7 P. C, 9 P.C. AND HIGHER EXPECTED.

New York, Nov. 6.

From London's point of view the news from the Transvaal is, on the whole, of a satisfactory nature. The latest information from Ladysmith is that the British are more than holding their own, and consequently the London markets with the exception of Americans, is fairly steady. Our stocks being adversely affected by Saturday's bank statement.

It is now positively stated that on last Saturday, a week ago, a mistake of \$1,000,000 was made in the bank statement, that in reality instead of showing an increase in surplus reserve, a decrease should have been shown. This, however, is cold comfort, it only means that the losses last week were not as large as appeared from statement, and leaves behind it the fact that the banks are at present some \$800,000 short of the legal requirement in their reserves. No doubt strenuous efforts will be made during the current week by the banks to bring their surplus reserve up to legal requirements; This result can only be accomplished in two ways, either by increasing their resources by importation from the Interior or by decreasing accumulation which they are giving to borrowers. The latter method is the one most likely to be employed. As far as can be ascertained currency is not likely to come back from the interior for time being. There was a good deal of gossip on Sunday in regard to the break in Leather. It was caused apparently by the execution of a stop order by a broker who got somewhat rattled, but the fact that it could take place shows how the recent advance in the stock has been due to manipulation and how dangerous are dealings in this stock to the uninitiated. It adds another argument to the contention of the commission houses that speculation in the Industrials should be discouraged and if customers insist in indulging in such speculation they should be willing to put up twice or more than the margin required on railroad stock.

Tomorrow being a holiday today's transactions are likely to be somewhat light. Speculation is likely to be restricted by the fact that several important state elections take place tomorrow and doubtless their outcome will deter speculators taking any positive stand in the market.

New York (noon), Nov. 6.

Saturday's bank statement naturally resulted in commission houses having a good many selling orders this morning. This, coupled with the lower prices in London resulted in some declines at the opening, but in no case was the reaction very marked. In fact, it appears that almost all stocks had supporting orders and this was especially noticeable in Leather common which had the sensational break on Saturday.

Rutter and Gross were again heavy buyers, the majority of stock bought coming from commission houses whose customers who had been thoroughly frightened by Saturday's decline. There was pressure on So. Pac. at opening, but here again support was very noticeable. The trading was heavy, but the power of absorption seems to be undiminished. When the liquidation slackened off the stock advanced easily and is now selling well above the closing of Saturday. These two stocks were the most active.

In rest of market, most of trading seemed to be mainly professional, and many of the traders were inclined to go in only for short scalps, preferring not to take any de-

finite stand in the market till after the elections.

The first quotation for money was 7 p.c., but it quickly advanced to 10, to 12, but now is 9 p. c. It is probable higher rates will be seen before close of the day.

CHICAGO MARKET.

(See page 8.)

NEWS OF THE MINES.

THE RICH REPUBLIC.

(From the Republic Miner, Oct. 28.)

Developments on the Republic continue to be the sensation of the camp. It is safe to say the mine is making a record that would eclipse anything in the way of gold mine on this continent. Not even the famous Independence of Cripple Creek ever at any time had such large bodies of high grade ore in sight as the Republic has at this moment. It is not simply in one place, but in at least three places where there are now marvellous showings.

A Wonderful Showing.

Some time since Superintendent Casey started a raise just above the point where No. 3 tunnel last year cut the vein. It will be remembered that assays as high as \$300 were obtained at that point last year. At the time no stoping was done in that part of the mine and no ore taken out beyond that removed in running the crosscut and the drifts north and south. The raise is now well advanced and the ore has been running from 17 to 20 ounces in gold, or from \$340 to \$400 a ton. It is impossible to say how much there is of this ore as no more is taken out that is necessary in making the raise.

In the Intermediate.

The very rich ore continues in the drift being run from the winze toward the Jim Blaine. The drift was started 50 feet down and has been run south about 100 feet. A picked piece of ore taken from that portion of the mine went \$19,900. The piece was given to Ernest Sticht, the assayer, with the request that he make an analytical test and determine the proper name of it. Mr. Sticht came to the conclusion it was gray copper, with a trace of tellurium. To the naked eye the ore had the appearance of gray copper, having a streak of copper pyrites through it. It is a remarkable fact that all the rich ore recently found in the Princess Maud and Republic has been characterized by the presence of copper.

Much interest is being aroused by the continued rich ore found in the drift being run from the winze. The drift long ago passed the point where the rich ore chute ended on the third level 50 feet above, which seems to show that the pay chute is growing larger as it goes down. It would not be a matter of great surprise if the pay chute is followed right up to the Jim Blaine ground.

In the winze, too, which is now down more than 100 feet, the rich ore continues. It is more than the width of the winze, hence is a large body.

On the Fourth Level.

On the fourth level, at the depth of 600 feet where the great strike was recently made, there continues to be any amount of very rich ore. The south drift is now in about 50 feet and the average of the ore taken out will run from \$100 to \$200 per ton. Picked samples run almost anything, one lot last week running \$2,500.

A drift has been started north on the vein and is now in 20 feet or more. It will soon be under the point where the winze in being sunk from the third level will come down. A raise will be started and run up to meet the winze. Rich stoping ground is now being opened very rapidly between the third and fourth levels of the mine.

A number of mining men and experts have availed themselves of the courtesy of major Leckie to visit the fourth level during the past week and without exception every one has come away greatly impressed. For extent and richness of ore nothing like it has perhaps ever before been seen in the Northwest.

BOUNDARY CREEK DISTRICT.

Winnipeg, Man., Nov. 5.—Hon. F. Carter Cotton, chief commissioner of lands and works, has returned from a visit to Rossland and the Boundary Creek district. The chief commissioner during the last three months has visited nearly all the districts on the mainland to make himself personally acquainted with their conditions and what steps are necessary for the development of the country. Speaking of the Boundary Creek district, Mr. Carter Cotton was enthusiastic over the future of that country. The advent of the railway has entirely changed the situation and with such an enterprising people as are found there, the district was bound to go forward by leaps and bounds.

ROSSLAND MINES.

Rossland, B.C., Nov. 5.—The Evening Star began work Saturday. The mine will be one of the shipping list next week. Work will begin on the Paris Bell next week. The claim is well within the city limits at the east end. The output reached the high water mark over 6000 tons having been sent down to the smelter during the last seven days. Appended is a detailed statement approximately of the camp's output for the week ending November 4, and year to date:

LeRoi	233 1/2	70,680

Coxey	—	0
Totals	6,106	144,788

CAMP MCKINNEY.

Camp McKinney mines are coming to the front again. Work is starting on some of them, owned by Spokane companies.

J. Wilhelmhurst, well known in mining camps, around Spokane as an able mining superintendent, has gone to Camp McKinney to take charge of development of Little Cariboo, Shannon-Dolphin and Mammoth.

Late reports from the Waterloo are that the mine is about to begin turning out bullion. It is expected a first clean up of the new stamp mill will be made about the middle of this month. It is expected the management that the company will shortly begin to duplicate the early record of the Cariboo by paying a steady dividend.

CHICAGO MARKET.

CHICAGO MARKET—November 6, 1899.

From the Bartlett Frazier Co., Chicago. H. J. Oon, Manager, 33 St. Sacramento St.

WHEAT OPENINGS HIGHER — PRIMARY RECEIPTS DECREASE, VISIBLES INCREASE.

Chicago, Nov. 6.

Liverpool advices state shipments as being 6,144,000 bushels, and wheat and corn $\frac{1}{2}$ higher with demand moderate and prices steady. December wheat closing at 5-10 $\frac{1}{2}$ opened at 5-10 $\frac{1}{2}$; March wheat 5-11 $\frac{1}{2}$, 5-11 $\frac{1}{2}$, 5-11 $\frac{1}{2}$, 5-11 $\frac{1}{2}$.

New York openings were for Dec. wheat 72 $\frac{1}{2}$, that is $\frac{1}{2}$ higher than last closing; March wheat 76 $\frac{1}{2}$, that is $\frac{1}{2}$ higher; May wheat 77 $\frac{1}{2}$, that is $\frac{1}{2}$ higher.

At Chicago wheat openings for December and May were each $\frac{1}{2}$ higher; corn openings $\frac{1}{2}$ higher in all options; Oats openings also $\frac{1}{2}$ higher.

Provisions were: Dec. Pork 8 cents advance, January 3 cents recession, May 2 cents advance; Lard from 2 to 3 cents lower; Short Ribs at the same prices.

Receipts: Hogs, 37,000; cattle 15,500; sheep 24,000, and at Kansas, hogs, 4,500; cattle, 9,000; at Omaha, 2,500 hogs; cattle 4,500.

Cash demand continues still very poor, but some moderate amounts are taken for export and the weakening of prices is due to cash and foreign demand having slackened. Buyers at higher prices than present ones are admitting that Russian and Argentine crops have underestimated, and they are in a good many cases liquidating to the still further weakening of market prices. Such clearings of holdings that are weak and that therefore are apter to induce slumps will leave the market in position to respond to more favorable influences. The continued decrease of receipts at primary points is still one strong feature of the wheat position, and though visibles are large it is thought that their maximum when reached will be found to have been discounted.

(See page 5.)
