His Honour the Speaker commanded the Gentleman Usher of the Black Rod to proceed to the House of Commons and acquaint that House that,—It is His Excellency the Governor General's pleasure that they attend him immediately in the Senate.

Who being come, with their Speaker,

His Excellency the Governor General was pleased to open the Session by a Gracious Speech to both Houses, as follows.—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

I congratulate you that after an enforced absence of four years, it is possible for you to assemble in your new legislative home, resting in trustful security upon the old foundations and surrounded by the picturesque and historic setting of Parliament Hill. Though not entirely completed, its noble proportions, its wide and convenient spaces, its beauty of design and chasteness of finish and its unique local situation mark it as a most striking and dignified structure, worthy of the people whose national life it will henceforth serve.

Since the last Session of Parliament events of importance have taken place which have brought appreciably nearer the much desired settlements of peace. Following the exchange of the final ratifications, the Treaty of Peace between the Allied Powers and Germany has been brought into full force and effect and has rendered possible the constitution of the League of Nations and the establishment by it of the various Commissions and *mandatories* authorized by the Treaty to be carried out under its direction. It is satisfactory to note that the status of Canada as a member of the League has thus been definitely fixed.

The Treaty of Peace with Bulgaria has been concluded and will be submitted for your approval. Negotiations for the conclusion of Treaties of Peace with Hungary and Turkey are now well advanced and, if concluded in time, will be laid before you during the present Session of Parliament.

The first meeting of the International Labour Conference, in accordance with the provisions of the Treaty of Peace, was held in Washington in October and November of last year and was attended by representatives of my Government and of the Canadian employers' and employees' organizations. It will be gratifying to learn that Canada was selected as one of the twelve Governments whose countries are entitled to representation on the governing body of the International Labour Office.

When the remaining Treaties shall have been concluded and the functions of the League of Nations and the various tribunals authorized thereby become fully operative, it is confidently hoped that the end will have been reached of the confusion and uncertainty consequent upon the long and regrettable delay in bringing into operation the provisions of the Treaty and an effective beginning made in the improvement of national conditions and the adjustment of international relations which will ensure the continued blessings of peace.

The forces which Canada contributed to the war have now nearly all been returned and mostly demobilized and the great majority have resumed their avocations and again become active and important factors in civil life.

The Department of Soldiers' Civil Re-establishment and the Soldiers' Land Settlement Board continue to provide vocational training and opportunities for permanent occupation which greatly aid in the solution of the problem of readjustment, whilst the work of the Labour Employment Bureaus and the helpful service of the Canadian Patriotic Association in administering the emergency Fund provided by Parliament, have materially assisted in solving the problem of temporary non-employment.

In the European economic field clear vision is still impossible and the unsettled state of Exchange, the lack of International Credits, and the inflation of paper currency, combined with the scarcity of raw materials and the demoralization of labour and transport conditions, combine to retard production and to restrict the exchange of products necessary for the proper sustenance of life and the rebuilding of the waste and destruction caused by the great war. From every quarter of the world is being impressed, often by severe privation and suffering, the one great lesson that increased production through increased work, combined with thrift and economy in individual and state, is the only sure hope of business improvement and future prosperity.

After four years of war and a year and three months of confusion and dislocation which has succeeded thereto, it is satisfactory to know that business in Canada has been well maintained, that production has been large and that general conditions are on the whole satisfactory. It is cause for thankfulness that of all countries affected by the war, Canada has maintained a record of social order and industrial and commercial prosperity second to none.

The ratification of The International Opium Convention renders it necessary to obtain legislation to carry into effect its provisions relating to the sale of opium, cocaine and other deleterious drugs. A Bill will be laid before you for that purpose.

A Bill to provide for a Dominion Franchise will be introduced, dealing with the qualifications of voters and the procedure necessary to enable all persons legally qualified to register their votes.

Other Bills will be presented for your consideration including a Bill respecting Copyrights and Bills providing for the amendment of the Patent Act, of the Loan and Trust Companies Act, the Indian Act, and the Exchequer Courts Act.

Gentlemen of the House of Commons:

The accounts for the last fiscal year will be laid before you. Estimates for the next fiscal year will be submitted at an early date, making provisions for the various services of the Government of Canada. These have been formed with a view to strict economy, having due regard to the requirements of the public service and the obligations of the Country.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In inviting your careful attention to the important subjects which will engage your attention I pray that the blessings of Divine Providence may attend your deliberations.

His Excellency the Governor General was pleased to retire, and the House of Commons withdrew.

The Senate resumed.

PRAYERS.

His Honour the Speaker informed the Senate that a copy of the Speech of His Excellency the Governor General, had been left in his hands.

The same was then read by His Honour the Speaker.

Ordered, That the Speech of His Excellency the Governor General be taken into consideration to-morrow.

His Honour the Speaker read the following communication which he had received:—

LONDON, February 23, 1920.

I desire that you will convey to my faithful Senate and House of Commons of Canada my warmest greetings on this the first occasion of their assembly in the new buildings with the erection of which my son is proud to have been associated. It is my firm assurance that the deliberations of the Parliament of Canada will, as in the past, redound to the happiness and prosperity of the Great Dominion whose well-being is so vital to the whole Empire.

GEORGE REX.

The Honourable Sir James Lougheed presented to the Senate a Bill intituled: "An Act relating to Railways."

The said Bill was read the first time.

On motion, it was

Ordered, That all the Senators present during the Session be appointed a Committee to consider the Orders and Customs of the Senate and Privileges of Parliament, and that the said Committee have leave to meet in the Senate Chamber when and as often as they please.

With leave of the Senate, on motion, it was

Ordered, That pursuant to Rule 77, the following Senators, to wit: The Honourable Sir James Lougheed and the Honourable Messieurs Béique, Belcourt, Bostock, Daniel, Robertson, Tanner, Watson, Willoughby, be appointed a Committee of Selection to nominate Senators to serve on the several Standing Committees during the present Session; and to report with all convenient speed the names of the Senators so nominated.

His Honour the Speaker presented to the Senate the Report of the Joint Librarians of Parliament, for the year 1919.

The same was then read by the Clerk, as follows:—

LIBRARY OF PARLIAMENT.

OTTAWA, February 25th, 1920.

To the Senate.

The Joint Librarians of Parliament have the honour to report as follows for the year 1919:

The recess having been so short, there is little to add to the contents of the report for 1919.

The conditions prevailing in regard to transportation and mails, though improved, are still unsatisfactory, and inevitable delays take place.

The state of the book trade is still disturbed, particularly in regard to books required for the service of Parliament.

There is a decided inactivity in the publication of attractive and useful books, especially in the line of biography.

Books of reference continue to be issued as usual, and the annuals for 1919 have been procured.

Special attention has been given to the legal, military and diplomatic works consequent upon the war, which still continues to affect the output of literature.

Among the additions to the catalogue will be found the narratives of Lord Fisher, Lord Jellicoe, Sir Percy Scott, General Ludendorff, Admiral Von Tirpitz, Count Czernin; and of course many others of like character, though of less importance.

A number of Lord Haig's Despatches have been procured, which, with the maps and plans attached, will be of the greatest service to members.

Attention has also been given to the Peace Treaty, and to all works dealing with it in England or the United States. The number of these is large.

An interesting feature of the discussions that have arisen during the year is the increased attention paid to economic and social questions. A large number of books on those subjects have been added to the Library, and special attention has been paid to them in the catalogue.

The subject of co-operation, particularly agricultural co-operation, having been actively discussed during these two years past, the whole subject has been covered as far as possible, by getting together all that had been published by Congress. The volumes containing this material will form a valuable part of the Library. But as it is characteristic of these subjects to outgrow in public discussion all that is published concerning them, the literature relating to them will have to be carefully observed and collected from time to time.

The subject of increased space in the Library is as pressing as in previous years.

In 1918 the Librarians reported as follows:—

“No purchases have been made this year to supply the place of books lost in the fire as there would be no shelf-room for them under existing circumstances.

“The Librarians understand that some space for the use of the Library will be spared in the new building.

“As the crowded state of the Library has long been known, and has been reported on yearly for many years, it is hoped that the space to be supplied will be, at least temporarily, sufficient.”

In 1919 they again referred to the subject as follows:—

“The Librarians understand that some space for the use of the Library will be spared in the new building. As the crowded state of the Library has long been known, and has been reported on yearly for many years, it is hoped that the space to be supplied will be, at least temporarily, sufficient.

“No information has been received during the year, from any source, regarding any proposed plans for increase of space. But the Librarians still entertain the hope that the plans for the new building will include more room for the convenience of Members and for the storage and consultation of books.”

Since last year little information has been had on the subject. Statements, probably inaccurate, have reached us of a proposed plan for altering the interior of the Library, in pursuance of a scheme for acquiring further space, the details of which have not reached us.

We desire to point out that any scheme which would dislocate the books from the indexes, catalogues and cards, would involve trouble and expense which the Librarians do not care to contemplate, and which would, for some years, perhaps, prove a great annoyance to Members.

A very large number of books dealing with the Great War have been received and catalogued. Though these are various in character and some of slight value, they all illustrate the incidents of war by land and sea, and few of them can be overlooked.

But it is to the legal, financial and diplomatic sides of the great struggle that most attention has been given.

Among the donations received, we desire to acknowledge a set of reports from the Insurance Institute of Toronto, from 1900 to 1919, seventeen volumes in all.

A list of donations and of copyrights will be duly added.

All of which is respectfully submitted.

A. D. DECELLES,
General Librarian.

MARTIN GRIFFIN,
Parliamentary Librarian.

To the Honourable
The Speaker of the Senate,
Ottawa.

Ordered, That the same do lie on the Table.

(*For list of donations to the Library of Parliament Vide Sessional Papers, 1920, No. 41.*)

The Order of the Day being read for the consideration of His Excellency the Governor General's Speech from the Throne at the opening of the present Session of Parliament, the Honourable Mr. Proudfoot moved, seconded by the Honourable Mr. Chapais:—

That the following Address be presented to His Excellency the Governor General to offer the humble thanks of this House to His Excellency for the gracious Speech which he has been pleased to make to both Houses of Parliament, namely:—

To His Excellency the Most Noble Victor Christian William, Duke of Devonshire, Marquess of Hartington, Earl of Devonshire, Earl of Burlington, Baron Cavendish of Hardwicke, Baron Cavendish of Keighley; Knight of the Most Noble Order of the Garter; one of His Majesty's Most Honourable Privy Council; Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George; Knight Grand Cross of the Royal Victorian Order; Governor General and Commander-in-Chief of the Dominion of Canada.

MAY IT PLEASE YOUR EXCELLENCY:

We, His Majesty's most dutiful and loyal subjects, the Senate of Canada, in Parliament assembled, beg leave to offer our humble thanks to Your Excellency for the Gracious Speech which Your Excellency has addressed to both Houses of Parliament.

After debate,

On motion of the Honourable Mr. Chapais, it was

Ordered, That further debate on the said motion be postponed until the next sitting of the Senate.

By unanimous consent,

The Senate adjourned until Tuesday next, at Three o'clock in the afternoon.

PRAYERS.

The following Petition was presented:—

By the Honourable Mr. Ross (Moosejaw):—

Of Robert Smith and others of Regina, Saskatchewan ("Bank of Saskatchewan").

The following Petition was read and received:—

Of the Dominion Trust Company, and John Crowther Gwynn, of Vancouver, B.C.; praying for the passing of an Act for the purpose of setting at rest doubts that have arisen as to the compliance with Section 5 of the Act of 2 George V, Chapter 89.

The Honourable Mr. Foster, from the Special Committee on the Memorial to the memory of the late Lieutenant-Colonel George Harold Baker, M.P., presented their Second Report:—

The same was then read by the Clerk, as follows:—

THE SENATE,

COMMITTEE ROOM No. 534,

THURSDAY, May 27, 1920.

The Special Committee appointed to confer and act with a like Committee of the House of Commons in determining the form of the Memorial to be erected in the Parliament Buildings to the late Lieutenant-Colonel Baker, M.P., beg leave to make their Second Report, as follows:—

At the request of the Committee made during the last Session of Parliament, Major R. Tait MacKenzie, a noted Canadian artist and sculptor, prepared two alternative sketches of the proposed Memorial, and at a recent meeting of the Committees in joint session, the sketches were submitted and explained by Major MacKenzie. Mr. John Pearson, Architect of the Parliament Buildings was present, and his views were also considered as to the merits of the suggested designs.

After several meetings and careful consideration, your Committee beg to recommend that the site for the proposed Memorial selected by your Committee during the last Session of Parliament and approved by both Houses be adhered to.

That the Memorial be a figure in stone about six feet six inches in height, in high relief, carved to a likeness of the late Lt.-Colonel Baker in military uniform, and set in a shallow niche on a pedestal four feet in height, the figure itself and the back ground to be made out of a solid block of limestone which would replace the part of the wall in the site chosen by your Committee at the last Session.

It is submitted that a figure in stone in preference to a bronze figure would fit in more harmoniously with the architecture of the building, and forming part of the building would be a more fitting tribute to one who so gallantly laid down his life for the Empire.

With regard to the inscription on the proposed Memorial, your Committee recommend that the following be inscribed on the front of the pedestal:—

“Lieutenant-Colonel George Harold Baker, M.P.,
Fifth Canadian Mounted Rifles,
Killed in action, June second, 1916,
At the battle of Sanctuary Wood,
Erected by Order of the Parliament of Canada”,

and that the selection of suitable inscriptions for the right and left sides of the figure be submitted in a subsequent report of your Committee.

A clay model in miniature of the Memorial is on view in Room No. 534.

Your Committee have been informed by Major MacKenzie and the Architect that the estimated cost of the proposed Memorial will be in the neighbourhood of \$12,000, and your Committee beg to recommend that such an amount be placed in the supplementary estimates at the present Session to defray the cost of the Memorial.

All which is respectfully submitted.

GEORGE G. FOSTER,
Chairman.

The said Report was then adopted.

The Honourable Mr. Dennis, from the Joint Committee of both Houses on the Printing of Parliament, presented their Second Report.

The same was then read by the Clerk, as follows:—

The Joint Committee on the Printing of both Houses of Parliament in this, its Second Report, begs to state that it has had under consideration certain recommendations of the Editorial Committee which were submitted to Parliament in the early days of the session. The Editorial Committee, which consists of: Fred Cook, Assistant King's Printer, Chairman; F. C. T. O'Hara, Deputy Minister of Trade and Commerce; F. C. C. Lynch, Superintendent, Natural Resources Intelligence Branch, Department of the Interior, was appointed at the instance of the Joint Committee on Printing, by Order in Council on October 4, 1917. Associated in an advisory capacity are the Right Hon. Sir George Foster, Hon. A. Meighen, and the Hon. M. Burrell.

The Joint Committee takes pleasure in calling attention to the remarkable results which have been achieved in two and a half years by intelligent editorial supervision. For instance, comparing 1915-16, the last year of the old system, with 1918-19, the

first complete year in which the Editorial Committee had jurisdiction over the printing of departmental reports, it appears that the number of copies of such reports has been reduced from 325,265 to 151,425; the number of printed pages from 210,007,404 to 55,742,120; and the cost from \$255,813 to \$150,509.

Similarly, with regard to supplementary reports, the number of copies printed in 1915-16 was 222,085, and in 1918-19, 56,080; the total number of printed pages in 1915-16 was 60,799,190; in 1918-19, 11,067,120; the cost in 1915-16 was \$87,488; in 1918-19, \$38,457. These comparative figures added together are:—

1915-16.	1918-19.
\$255,813	\$150,509
87,488	38,457
<hr/>	<hr/>
\$343,201	\$188,966

This represents an annual saving, if the present policy be continued, of \$154,335. Through the activities of the Editorial Committee several publications have been dropped, while many others, not coming within the category of departmental reports, have been greatly reduced in bulk. The economies already accomplished will, therefore, easily aggregate \$250,000 per annum.

Realizing that further reforms and economies are possible, the Joint Committee herewith submits certain recommendations with a view to strengthening the hands of the Editorial Committee and facilitating its labours.

1. The Joint Committee, concurring in the views so forcibly expressed by leaders on both sides in Parliament on the importance of national economy, urges that it be made applicable to National Printing and Publishing as to all other national utilities. From all over the continent there is a call for economy in the use of paper, and so far as Canada is concerned, Parliament and the public departments should set an example. The tendency to verbosity which was a characteristic of departmental reports in the past has disappeared in large measure, but there is still room for improvement.

Especially is this apparent in the periodical publications issued by the Ottawa departments. It is a sheer waste of money to print paragraphs telling of "Housing Conditions in Constantinople"; "The Domestication of the African Elephant in the Belgian Congo"; "Agricultural Conditions in Mesopotamia," etc., all of which have appeared in departmental publications recently. The Editorial Committee should have authority to blue pencil such articles without having to ask the Advisory Committee for its concurrence, and the Joint Committee so recommends.

2. Evidence has been submitted to the Joint Committee that there has been considerable duplication and overlapping in Government publications. The Editorial Committee has attempted to prevent this, but, in some instances, its efforts have been frustrated. The Joint Committee strongly discountenances waste of public money in this manner.

3. In the same connection the attention of Parliament is called to the growing tendency of some departments to establish periodical publications. In a recent instance it transpired that the deputy minister of the department affected knew nothing of a projected publication until asked by the Editorial Committee what purpose it was intended to serve. In another case the first issue of a monthly appeared, and then without any reason assigned it was decided to discontinue it. As a result there is on hand at the Printing Bureau 90,000 beautifully lithographed covers intended for subsequent issues of the defunct monthly, and which are now so much waste. \$1,270 was the amount charged to the country for these covers alone.

Incidents such as these led the Editorial Committee to report to the Advisory Committee of Council, and the ruling was thereupon made by the Right Hon. Sir

George Foster that hereafter the authority of the Cabinet must be obtained before any new periodical publication can be issued. The Joint Committee heartily endorses this action.

4. Since Confederation it has been the practice of Parliament to pay for the printing of all departmental reports. The Joint Committee believes the time has arrived when this policy should be abandoned, and that instead each public department be required to annually prepare its printing estimates, to cover all services including the annual report; that Parliament pay only for copies of reports necessary to meet the requirements of its mailing list, and for the Sessional Papers.

This change in practice, it is believed, will conduce to greater economy and be an incentive to the departments to watch their printing appropriations more closely. If this change be accepted by Parliament, it is recommended that it be made operative for the fiscal year commencing April 1, 1921.

5. The rule in the past has been to print as Sessional Papers all reports laid on the table of either House. In many cases the Joint Committee regards this practice as unnecessary, and is of the opinion that publications now issued by the Bureau of Statistics such as "Railway" and "Canal" statistics, "Telephone"; "Telegraph" and "Express" statistics; "Lumber, Lath and Shingles"; "Dairy Factories"; "Planing Mills, Sash and Door Factories"; "Paper and Pulp"; "Wood Distillation", etc., should not be printed as sessionals. These become a permanent record in summarized form in the Year Book. The Census of Industry reports, however, pertaining to Agriculture, Dairying, and Fisheries, should, in the Committee's judgment, be made part of the Sessional Papers.

6. The attention of the Joint Committee has been called to the fact that, in some instances, manuscripts of reports, bulletins, etc., have not been submitted to the Editorial Committee for its consideration, and report to Council, if necessary. It is, therefore, recommended that it be made an imperative order that all manuscripts of publications to be printed for the public departments, or commission whose appropriation is voted by Parliament, must be referred to the Editorial Committee before action is taken upon them.

7. The Joint Committee has noted with interest the change in the paper stock upon which the daily routine publications of Parliament, and many departmental bulletins, are printed by the substitution of No. 1 Newsprint for ordinary "report" paper. This change was made upon the recommendation of the Editorial Committee and has saved the country thousands of dollars.

8. The Joint Committee observes that there is still a tendency on the part of some departments to use illustrations which are not germane to the text of the reports, or have little or no interest to the Canadian people. The order in council governing illustrations says none shall be used unless they are 'required for the better understanding of the text.'

It is recommended that the Editorial Committee be instructed to strictly apply the provisions of the Order in Council.

9. Your Committee is of the opinion that in the interests of economy the use of covers on certain publications such as the "Monthly Bulletin of Agricultural Statistics", "Conservation of Life", etc., should be dispensed with after the completion of the present volumes, and that, if possible, in the case of the "Agricultural Gazette", the "Labour Gazette", the reports of the Commission of Conservation, the reports of the Department of Mines, and similar reports, a cheaper class of cover stock be used.

10. It is also recommended that every Senator, Member of the Commons, officer or functionary entitled to receive reports or other public documents gratuitously shall be furnished during the month of June in each year with a list of such reports and documents for the current year, with a request that he shall, on or before July 31st,

return such list so marked as to indicate the reports and documents which he wishes sent to his address. Those not so marked shall not be forwarded. In the case of reports and other documents which it is impracticable to include in such list, separate notices shall be issued and the reports or other documents shall be forwarded only to those who indicate a wish to be supplied with them.

11. The Joint Committee is advised that over 50 per cent of the requisitions received at the Printing Bureau are marked "Rush", thereby rendering it difficult to secure an even run of work. The Public Printer at Washington is authorized to impose a penalty of 15 per cent on "Rush" orders. While not recommending the adoption of such a drastic rule at present, the Committee would enjoin upon all departments to anticipate their printing orders so that business at the Printing Bureau may be facilitated.

12. The attention of the Joint Committee having been called to the fact that the statutes referring to the publication of official notices in the *Canada Gazette* vary, it is recommended that the Department of Justice look into the matter and prepare legislation to be introduced next session to secure a minimum of printing of such notices with due regard to the public interest, thereby economizing space in the *Gazette*.

The Joint Committee is asked by the Editorial Committee that the provision in the Bankruptcy Act of last session (Chap. 36, section 11, subsection 7) be reconsidered. The subsection reads:

"The King's Printer, upon request of any person who is by the Act required to keep on file for public reference a copy of the *Canada Gazette*, shall regularly supply to each person, gratis, two copies of every issue of such *Gazette*."

It is not known how many names the subsection will add to the 'free' list of the *Gazette*. Every thousand, however, means an additional annual consumption of over 10 tons of 'Parliamentary Report' paper, costing 13½ cents per lb. under the latest contract, as compared with 3.67 cents per lb. in 1915. Besides increasing the work in the press and bindery rooms at the Bureau, the 'free' list will augment the operations of the Distribution Branch of the Department of Public Printing, and of the Post Office Department. It is suggested that a single sheet containing Bankruptcy notices as "from the *Canada Gazette*" should serve all purposes.

13. The Joint Committee approves of the recommendations of the Editorial Committee that the stationery used in the different departments be standardized as far as practicable. It regards as absurd the practice of some departments in insisting upon a variation in letter paper from the standard size of 8½ inches x 11 inches, and calling for 8 inches x 10½ inches, 8½ inches x 10½ inches or other sizes. Not only is there a loss in stock in cutting the smaller sheets, but also in time in the trimming operations.

14. Your Committee has also approved a standard form of printing requisition prepared by the Editorial Committee for the use of all departments. The old form lacked detail, necessitating repeated communications with the different departments to ascertain exactly what was required. By strict adherence to the standard requisition, time and money will be saved.

15. In closing this report the Joint Committee desires to express its appreciation of the able manner in which the Editorial Committee has discharged its duties. Believing that, in the face of some opposition, it has accomplished all that was expected of it, but realizing that still more effective service is possible if the Committee be given wider powers the Joint Committee earnestly recommends to the Government an extension of the authority and jurisdiction of the Editorial Committee, so that the printing business of the country may be facilitated.

WM. DENNIS,
Chairman.

Ordered, That the said Report be placed on the Orders of the Day for consideration on Friday next.

The Honourable Mr. Fowler, from the Special Committee appointed to inquire into the Navigability and Fishery resources of the Hudson Bay and Strait, presented their Second Report.

The same was then read by the Clerk, as follows:—

THE SENATE,

COMMITTEE ROOM No. 534,

FRIDAY, June 4, 1920.

The Special Committee of the Senate appointed to take evidence and report at this session upon the navigability and fishery resources of Hudson Bay and Strait, and of the character of the ports of said Hudson Bay with regard to their fitness as railway terminals, beg leave to make their Second Report, as follows:—

We have held some fifteen meetings and called and examined twenty-one witnesses drawn from all parts of the country. The Committee had in view acquiring information on the following points:—

(1) The length of the season during which the bay and strait were reasonably navigable having in view the presence of ice, the occurrence and persistence of snow storms, the advantages to be gained by aids to navigation such as wireless telegraphy, light houses, fog signals and hydroplanes.

(2) The style and size of vessels to be used for the carrying trade.

(3) The relative merits of the two ports, Nelson and Churchill, and the relative cost of the development of each port.

(4) The fishing resources of the bay and strait and of the rivers emptying into the bay.

(5) The mineral resources of the country tributary to the bay.

(6) The utilization of the country for the production of meat and furs to be obtained from the Reindeer and Musk Ox, which would subsist upon the extremely nutritious grasses grown there.

A large number of witnesses were called with respect to the length of the season during which the bay and strait can be safely navigated. There was some variation among the several witnesses regarding the length of the season of navigation but all agreed that the minimum would under ordinary circumstances be at least four months while the maximum would not likely exceed five months. Voyages have been made through the strait as early as the 5th day of June, and as late as the first part of November with the ordinary type of vessel without meeting any difficulty, but these were admittedly rather exceptional cases. All were agreed, however, that modern navigating appliances, such as light houses, wireless stations, hydroplanes and fog signals would greatly facilitate navigation in these waters and in a large measure overcome the natural difficulties from ice and snow. In order that the route would be able to compete with the more southerly channels of communication between this country and Europe, it would be necessary to have a type of freighter capable of carrying from 5,000 to 10,000 tons of dead weight, and in the opinion of this Committee from the evidence adduced before us, there would be no difficulty in handling so large a vessel on the route, provided it was properly strengthened and protected in the forward part. Of course, heretofore only vessels of smaller size have been used because ships of larger capacity have not been required.

The concensus of opinion is that Hudson Bay remains open all the year through and that the ice does not extend beyond thirty or forty miles from the shore. The strait is also open for the greater part of the year and would probably be open all the time except for the ice which comes down late in the autumn from Fox Channel and obstructs navigation in the strait. It was generally conceded by the eight witnesses

who gave evidence on this point that the aids to navigation which might be installed along the strait would greatly facilitate the passage and considerably extend the season of navigability.

Your Committee took a large amount of evidence regarding the relative merits of the two western ports, Churchill and Nelson, and there was a considerable divergence of opinion among the different witnesses as to which of the two should have been selected, having in view the shorter railway haul in the one case and the cheaper construction of the port itself in the other. Churchill was shown to be an absolutely land locked harbour entirely protected from every wind no matter from which quarter it should blow, where a few ships could at all times ride at anchor in perfect security. Nelson on the other hand has no natural protection from the sea except such as it receives by reason of its remoteness from the body of the sea, there being a twenty mile stretch of shallows between it and deep water. A narrow channel bordered by wide shallows connects the proposed harbour of Nelson with the open bay. A very large amount of money has already been expended upon the harbour improvements of Nelson, but a much larger sum is still required before the present plans can be carried out. There seems to be considerable doubt whether or not, even when the proposed plans are completed, the harbour at Nelson will be an entirely safe one against an easterly gale. To utilize Churchill it would be necessary to build about eighty miles of road across a country which has been described by one witness as very difficult, it having a stretch of thirty miles of morass almost impossible to cross owing to the difficulty of getting a firm foundation for the roadbed. This is, however, denied by the testimony of two witnesses, of each of whom the Committee was greatly impressed. Both J. B. and J. W. Tyrell testified that there was a perfectly good and comparatively short route from the present route deflecting at a point some fifty six miles from Nelson and going north and east to Churchill. The present harbour of Churchill is rather small, but, according to the evidence of the Messrs. Tyrell, uncontradicted, could easily be enlarged enough to accommodate all the trade likely to offer for many years to come. Beyond the present deep water harbour there is a large basin of shallow water, the bottom of which is composed of hard clay mixed with boulders, which could be easily dredged and the resultant harbour would be of its size one of the finest in the continent. The Tyrell brothers are very familiar with the country around Hudson Bay, having spent several years each in research and in examination of these regions. Mr. J. W. Tyrell spent one winter at a station in Hudson Strait taking observations for the Canadian Government and also looked over the country from the Pas to Churchill on behalf of a company who had some intention of building a railway in that part of the country—a scheme which was afterward abandoned. He had no hesitation in saying that no difficulty whatever would be found in extending the railway to Churchill. It is the opinion of this Committee that the Government would be well advised if before expending any more money on the harbour works at Nelson they were to appoint a committee of expert engineers and railway builders to examine the route to Churchill and ascertain whether or not it is really possible, as the Messrs. Tyrell say, and what would be the cost and advantage of making Churchill the port and terminus of the Hudson Bay road rather than Nelson.

In the meantime, the laying of the rails could be completed to Nelson, and that port could be used for the present in its present state.

While no one was able to speak with certainty as to whether the cod fish were plentiful in the bay or not, there is no doubt as to the strait. All the rivers flowing into the bay team with fish, and walrus and seal are also found in large numbers in the strait. No doubt as soon as the Hudson Bay Route is established, a very large and lucrative fishing industry will be established there. Recent discoveries have shown that the country surrounding Hudson Bay is strongly and richly mineralized, particularly in gold and copper.

Mr. Stefansson, the distinguished Polar explorer, gave evidence before your Committee. He is a devout believer in the possibility of utilizing what have always been

known as the Barren Lands of the North, and the islands within the Arctic Circle, in the cultivation of the Reindeer, Cariboo and Musk Ox for the production of meat. He gave evidence as to the splendid quality of the flesh of these animals as food for the people, and as to the cheapness with which it might be produced. He said that the wild lands of the north which have always been looked upon as worthless could carry at least fifty million head of reindeer and ten million head of musk ox, and that the cost of handling these huge numbers would be trifling in comparison with the profit to be made. The effect of this upon the world's food supply would be tremendous, and your Committee would strongly recommend that the matter be energetically taken up by the Government.

Your Committee makes the following findings upon the evidence adduced before them:—

(1) That the Hudson Bay Route is feasible and will probably in time be profitable.

(2) That the season of navigation under present conditions is at least four months in length and may by reason of improvements in aids to navigation be considerably increased.

(3) That in the opinion of this Committee sufficient care was not taken in the selection of Nelson as the terminus of the railway, and that the Government should not make further important expenditures upon this port without first making a new and thorough examination into the relative merits of Churchill and Nelson as a terminus for the railroad.

(4) That the waters of the strait and rivers tributary to the bay teem with fish and valuable marine animals, and we believe that the bay is equally well stocked but there has not yet been sufficient data collected as to the extent of the fisheries of the bay to enable an authoritative statement to be made as to their value.

(5) That the mines already discovered in the Hudson Bay district are of sufficient number and richness to indicate the existence of great potential mineral wealth.

(6) Your Committee feel that they cannot too strongly endorse the valuable suggestion of Mr. Stefansson as to the cultivation of the Reindeer and Musk Ox, and would urge upon the Government that the Department of the Interior be empowered to take hold of this matter, earnestly taking advantage of what has been done in this regard by the United States Government.

(7) Your Committee, although it is somewhat outside the scope of their mandate, cannot close this report without making some reference to the national value of the explorations of Vihljalmar Stefansson. He has completely revolutionized our ideas of the Region within the Polar Circle. He has demonstrated that it is possible for white men to live and thrive in that Northern Region though drawing from no other resources than those afforded by the country itself, and he has proven that those lands which were looked upon as barren and utterly worthless will eventually be a valuable asset to Canada. The Committee ventures the hope that the Canadian Government will not be unmindful of the great services performed by Mr. Stefansson, whose reward so far has not been commensurate with the national importance of the work he has accomplished.

(8) Your Committee expresses its thanks to the gentlemen who have voluntarily come forward and given valuable evidence upon the important matters under consideration.

(9) Your Committee submit herewith an Extract in narrative form of the evidence given before the Committee, and beg to recommend that 1,000 copies of this report and the extract of the evidence be printed in pamphlet form for general distribution.

All which is respectfully submitted.

PRAYERS.

The Honourable Mr. Bradbury, from the Special Committee to inquire into the cost of the installation in the Tower of the Parliament Buildings of a first-class Carillon in connection with a clock, presented their Second Report:—

THE SENATE,

COMMITTEE ROOM NO. 661,

FRIDAY, June 18, 1920.

The Special Committee appointed to consider the advisability of installing in the tower of the Parliament Buildings a first class Carillon in connection with the clock, and the cost thereof, beg leave to make their Second Report, as follows:—

In considering the matter referred to your Committee for report, the Committee examined the plans of the tower as prepared by the Architect, Mr. John Pearson, who appeared before the Committee, and gave as his opinion that the construction of the tower would lend itself admirably to the installation of the Carillon in connection with the clock.

In order to secure an estimate of the cost, the Committee has communicated with various well established firms of bell founders in the old country, and have received estimates covering the cost of manufacturing and installation of various styles and types of Carillon ranging in price from £8,165 to £40,000.

In the opinion of the Committee it is very desirable that a Carillon to be called "Memorial Bells" should be installed in the tower of the Parliament Buildings. As to the expenditure to be made in connection therewith, and the selection of the most suitable type of bells, your Committee recommend that these matters be left to the decision of a Committee composed of members of the Senate and House of Commons and the Architect, said Committee to be named by the Government.

Your Committee has been informed by the Architect that it is the intention to complete about 100 feet of the tower during the present summer and another 100 feet during next summer. The Architect informed your Committee that no changes in the construction of the tower would be necessary to accommodate the Carillon. He emphasized the fact that the bells ought to be on the ground here not later than September, 1921, so that they could be hoisted into position before the floors in the tower were completed.

Your Committee has been in communication with the largest and most reputable bell founders in the world, all of which are on British soil, in and around London. The firm of John Taylor and Company, of Loughborough, which is one of the oldest bell founders in Great Britain, has a splendid reputation. It has furnished some of the largest and greatest Carillons in the world. Its largest and greatest Carillon was furnished to the great Cathedral St. Coleman, at Queenston, Ireland. The London *Times*, of 1919, speaking of this Carillon said: "It is considered to be the largest and finest in the United Kingdom and has the most perfect set of bells in the world." This firm recommends for the Parliament Buildings here, a scale of 49 bells, being four octaves, chromatic, with largest bell about 7 tons, note "F". The total weight of these bells would be about 50 tons. In speaking of this proposed Carillon they say: "It would be a truly majestic Carillon, and we feel perfectly justified in claiming that it would rank as the finest in the world. For although the largest bell of the Malines Carillon is reputed to be heavier than we are proposing for Ottawa, still there are serious inequalities and blemishes in tune and tone in the Malines scale, which is really not a matter to be surprised at, considering the varying dates of the bells, as they are of five different centuries." The estimated cost of this magnificent Carillon installed in the tower is £40,000. Your Committee feel that some considerable reduction might be secured in this estimate by further negotiations.

While recommending this Carillon for Ottawa this firm draws attention to the fact that they can supply a much smaller Carillon at a very much reduced price. However, your Committee feels that anything that is done now in the way of memorial bells for this tower should be the best that can be secured.

Your Committee has also another estimate from a very reputable firm known as Gillett & Johnston, of Croydon, England. This firm gives an estimate on 47 bells, the heaviest bell 5 ton weight. The total weight of 20,000 pounds. The estimate is

£8,165. Of course this would not compare in any way with the Carillon recommended by Taylor & Company. This same firm in reply to a cable asking for an estimate on the cost of a Carillon very similar to the one recommended by Taylor & Company has given the approximate cost in England as £14,000. Thus it may be discovered after further investigation as to the quality of the bells offered by these companies that the estimate of £40,000, which appears to your Committee to be excessive, may be greatly reduced without impairing the quality of the Carillon.

Your Committee had the advantage of the advice of the Chief Architect, Mr. Pearson, who appeared before the Committee. In discussing the matter Mr. Pearson was very enthusiastic about the Memorial Chamber which he proposes having in the tower. If carried out along the lines suggested by him it would surely be a magnificent memorial to the Canadians who have given up their lives in the cause of the Empire during the last great war. In Mr. Pearson's own language he said: "The splendid Carillon proposed would be a fitting finish to this Memorial Chamber and would no doubt be highly appreciated by all right thinking people of Canada."

In conclusion your Committee beg to say that the installation of a Carillon in Westminster at London, England, and in the Capitol at Washington, U.S.A., is now being considered.

All which is respectfully submitted.

GEO. H. BRADBURY,
Chairman.

PRAYERS

The following Petition was presented:—

By the Honourable Mr. Bostock:—

Of the Allied Indian Tribes of British Columbia, by their Representative, J. A. Teit, and W. J. Lincoln and C. B. Barton, special delegates of the Nishga Tribe, and George Matheson, of Tsimpsonian Tribe, Delegate of the Executive Committee of the Allied Tribes.

The Honourable Mr. Thompson, from the Special Committee to inquire into the management of the steamer *Canadian Sealer*, and the reason why the said steamer was not despatched at the opening of navigation to the Magdalen Islands, and the whole subject of the Steamship Service to the Magdalen Islands, presented their Second Report.

The same was then read by the Clerk as follows:—

THE SENATE,

COMMITTEE ROOM No. 534,

SATURDAY, 26th June, 1920.

The Special Committee of the Senate appointed to inquire into the subject of the Steamship Service to the Magdalen Islands, beg leave to make their Second Report, as follows:—

Your Committee, after hearing the evidence of officials from the Marine Department, and the Department of Trade and Commerce, have reached the following conclusions:—

1. That the Steamer that was put on the route under the present Contract between the Department of Trade and Commerce and the Gulf of St. Lawrence Shipping and Trading Company, while giving a fairly good service, did not have speed enough to make two trips per week, which was a necessity, especially late in the season, when a great deal of freight accumulates.

2. That the contract with the Gulf of St. Lawrence Shipping and Trading Company and the Government is defective, inasmuch as there is no penalty clause attached, and the contracting company is only mulcted in the subsidy for the trips missed.

3. That owing to unforeseen accident, the service late last fall was interrupted, and the Department of Marine and Fisheries showed commendable energy in endeavouring to secure a suitable steamer to continue the service, but owing to lack of ordinary foresight on the part of the Captain and Engineer of said steamer (*The Canadian Sealer*), in not providing sufficient coal in time for the voyage, she lost two or three days, and in consequence ice had formed in the meantime, and she, after proceeding to Souris and making the attempt to reach the Magdalen Islands, and getting within five miles of them, had to return to Souris, where she remained during the winter. The Government, seeing the necessity of getting the goods to the Magdalen Islands, sent the *Montcalm* to Souris, after it had relieved the *Canadian Spinner*, but by this time the frost was so severe that, after taking part of the goods on board, she got completely bound up in the ice off East Point, and did not get to the Magdalen Islands for some six weeks. This, however, relieved the immediate wants of the people.

4. When the ice broke and navigation opened this spring, on the 29th March, Mr. Johnston, the Deputy Minister of Marine, was informed of this by a member of your Committee, and he answered over the telephone that they were making arrangements to have the *Canadian Sealer* sent down at once. Supposing that this was being carried out, nothing further was done until the 24th April, when a schooner arrived from the Magdalen Islands at Souris, and a telephone message was sent to Mr. Johnston, and he gave the information that the Marine Department had nothing to do with the steamer, that application had better be made to the Railway Department. The Railway Department was asked what they were doing, and the Deputy Minister at once said that they had nothing to do with it, that she had not been handed over to that Department, and that application had better be made to the Department of Trade and Commerce. This latter Department was applied to, and the answer came back that they had nothing whatever to do with the service, that it was in the hands of the Marine Department.

5. Your Committee considers that the Marine Department was negligent in not having coal enough on board the *Canadian Sealer* this spring, or during the winter to take her to the Magdalen Islands; that instead of communicating with Captain Taylor, Agent of Marine at Charlottetown, who was in a position in a very short time to ascertain the exact conditions of the ship, great delay occurred through the matter being left in the hands of the agent in Montreal. There was no crew on board the steamer, and when the crew did arrive at Souris, they found there was not sufficient coal to take the steamer down, and she was consequently further delayed and did not sail until the 1st of May. This occasioned great hardship and loss at that particular

time, when the people of those islands were preparing for the lobster season which opened on the 26th April.

6. Your Committee begs to draw attention to the fact that the general service for the Magdalen Islands, which is under contract with the Gulf of St. Lawrence Shipping and Trading Company, has been very unsatisfactory, owing to the class of steamer that has been put on the route not being able to make two trips each week as per contract, this being more specially necessary in the late fall when freight accumulates and when the weather at times may prevent her making even one trip.

7. When the contractors did take up the service this spring, about the 1st of May, the steamer *Guide* on arriving at the Magdalen Islands and delivering her cargo, instead of keeping up the service in the regular way, took a number of labourers and left for Clarke City, P.Q., leaving passengers, commercial travellers and freight from the Magdalen Islands stranded there. This she repeated at a later date, at a time when it was most necessary that the service should be continuous.

8. Your Committee, taking the whole of the evidence into consideration, would strongly urge that the Government build a steamer of 4,000 barrels capacity, with accommodation for about 50 passengers, and speed of not less than 12 to 14 knots, capable of making two round trips per week in the busy season. Also that she should be strengthened at the water line sufficiently to enable her to cope with sheet ice, and strong enough to go into loose ice in the spring of the year, without damage to herself.

Your Committee considers that the *Lady Sybil*, a steamer built especially for that route, gave the best service up to date, and that a steamer on her lines would satisfactorily perform this service, and if owned by the Government should be operated by the Canadian National Railways.

All which is respectfully submitted.

F. P. THOMPSON,
Chairman.

Ordered, That the said Report be placed on the Orders of the Day for consideration on Monday next.

THE SENATE,

COMMITTEE ROOM No. 661,

FRIDAY, June 25, 1920.

The Standing Committee on Divorce beg leave to make their One hundred and twelfth Report, as follows:—

In the matter of the petition of John Graham, of the Town of Oshawa, Ontario, electrician; praying for the passing of an Act to dissolve his marriage with Mary Graham, of the said Town, and for such further and other relief as to the Senate may seem meet.

Inasmuch as it is likely that Parliament will be prorogued at an early day, it will be impossible for your Committee at the present Session to further hear and inquire into the matters set forth in the petition and to take further evidence upon oath touching the right of the petitioner to the relief prayed for, or for a Bill founded upon the petition to be passed at the present Session, and inasmuch as Counsel for the Petitioner has represented that the Petitioner desires to continue at the next Session of Parliament the proceedings had upon the petition, your Committee recommend:—

That if a petition for relief in terms similar to those of the petition now in question, be presented by the said Petitioner at the next Session of Parliament, such petition and any Bill founded thereon, should receive the favourable consideration of your Honourable House at the next Session of Parliament, and of the Committee on Divorce to be appointed at the next Session of Parliament, in so far as relates to the continuance of the proceedings had at this Session, without the necessity of complying anew with the Rules of the Senate as to the publication of Notice of the Petitioner's intention to apply for a Bill of Divorce.

Barton, delegates of the Nishga Tribe; praying for the appointment of a Special Committee, to consider all matters material to the Bill (13), intituled: "An Act to provide for the Settlement of Differences between the Governments of the Dominion of Canada and the Province of British Columbia respecting Indian Lands and certain other Indian Affairs in the said Province," presented their Report on the said Petition.

COMMITTEE ROOM No. 370,

28th June, 1920.

The Standing Committee on Banking and Commerce, to whom was referred the Petition of the Allied Indian Tribes of British Columbia, praying for the appointment of a Special Committee to consider all matters material to the Bill No. 13, intituled: "An Act to provide for the settlement of differences between the Governments of the Dominion of Canada and the Province of British Columbia, respecting Indian Lands and certain other Indian affairs in the said Province," have in obedience to the order of reference of the 11th June, 1920, considered the said Petition, and now beg leave to report thereon as follows:—

The Committee gave every opportunity to the Representatives of the various Indian Tribes in British Columbia to state their case, and also heard all parties called on their behalf.

In view of the action taken by the Government as indicated by Bill 13 to settle the differences between the Government of Canada and the Government of British Columbia respecting Indian Lands and Indian affairs generally in the said Province, the Committee is of opinion that any alleged differences between the Indians of British Columbia and the two Governments can best be adjusted by proceeding with the legislation now before Parliament. The Committee beg to suggest, however, that before exercising the authority granted by Clause 3 of the Bill, an endeavour should first be made to secure a surrender under the provisions of the Indian Act, of the proposed reductions or cut-offs.

The Committee recommend that the Government in dealing with such differences should give every opportunity to hear such representations as may be made by the said Indian Tribes.

All which is respectfully submitted.

The Commons of Canada have voted certain Supplies required to enable the Government to defray certain expenses of the Public Service.

In the name of the Commons, I present to Your Excellency the following Bill:—
'An Act for granting to His Majesty certain sums of money for the public service of the financial years ending respectively the 31st March, 1920, and the 31st March, 1921.'

To this Bill I humbly request Your Excellency's assent."

After the Clerk had read the title of this Bill,

To this Bill the Royal Assent was pronounced by the Clerk of the Senate in the following words:—

"In His Majesty's name, His Excellency the Governor General thanks His Loyal Subjects, accepts their benevolence, and assents to this Bill."

After which His Excellency the Governor General was pleased to close the Fourth Session of the Thirteenth Parliament of the Dominion of Canada, with the following Speech:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In relieving you from further attendance in Parliament, I am happy to recall that your labours during the Session have resulted in many beneficial enactments.

You have given to the Franchise Act the long and careful deliberation which the importance of this measure amply justified. It embodies provisions which should insure the preparation of fair and impartial lists at all future elections.

The liberal increases in pensions which have been granted, the establishment of a scheme of state insurance for returned soldiers, and the further provisions concerning the settlement of soldiers upon the land, have shown your determination to take every practical means of fulfilling just obligations towards those who have rendered to our country such conspicuous service.

In the taxation measures which have been adopted, you have courageously taken account of a difficult financial situation and it may be confidently expected that they will materially increase the revenues.

You have wisely made provision to continue authority for the supervision of the marketing of the Canadian wheat crops, if events in the world's markets should render this the most advantageous method of protecting the interests of the Canadian people. The exercise of this authority will necessarily receive the most attentive and careful consideration from my advisers.

The measure providing for the control of fuel recognises the peculiar importance of this matter in the national economy and the need for insuring supplies to the greatest possible extent.

You have adopted legislation with respect to shipbuilding which should result in the continued employment of many thousands of men hitherto engaged in that and associated industries.

The provision made for the naval service wisely recognizes the importance of preserving a nucleus which can be developed if need should arise.

Provision for the air service has also been made in such a manner as will produce the largest trained personnel consistent with the financial capacity of the country. Because of Canada's peculiar geographical position and features, it is highly important that the possibilities of this new method of communication and transportation should be fully explored. The Air Board will be enabled to watch every new development and to take practical steps in the interests of aerial navigation in the Dominion.

The measure for the education and enfranchisement of Indians constitutes an effective means of enabling these wards of the nation to make further advance to the responsibilities of citizenship.

The settlement of the issues of the war still proceeds, but it is hoped that before another Session the final treaties will have been concluded. After obtaining your

approval, the Government have sanctioned on behalf of Canada, the ratification of the Treaty with Bulgaria; the Treaty with Hungary has been signed, but the Treaty with Turkey is still under negotiation.

During the Session, as the result of a Conference between the Government and the Governments of the British West Indian Colonies, an important agreement was concluded with the object of rendering still closer the trade relationships between Canada and these Colonies and of improving the means of intercourse and communication. This agreement will be submitted to you in due course.

Gentlemen of the House of Commons:

In His Majesty's name I thank you for the provision you have made for the needs of the public service.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

On your return to your homes, I trust you will find such reassuring evidences of a bountiful harvest and of continued productiveness in every sphere of national activity as will enhance your confidence in the prosperity and stability of the Dominion in these critical times.

His Honour the SPEAKER OF THE SENATE then said:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

It is HIS EXCELLENCY THE GOVERNOR GENERAL'S will and pleasure, that this Parliament be prorogued until Tuesday, the 10th day of August next, to be here holden, and this Parliament is accordingly prorogued until Tuesday, the 10th day of August next.
