## COUNCIL APPOINTS VALUATORS DESPITE NEAR RIOT RAISED BY CHURCH, FOSTER AND HUBBARD

Two Tommies Led Opposition But Members Refused to Take Their Obstructionary Tactics Seriously, Church's Contra Motion Finding Only Six Supporters—General Hospital Grant Sanctioned.

Valuators of the Toronto Railway Co. and Toronto Electric Light Co. properties were appointed by the city council at their meeting yesterday, and an additional appropriation approved. The opposition, also small, made a demonstration that showed organized effort to prevent the properties being purchased, no matter whether offered at a reasonable price or not.

Controller Church led the opposition in evident intent to make such a row that many of the members would lose their tempers and the appointment of valuators might be blocked. Controller Foster also did his utmost to have a row that would have the sound of a strong protest. Together they accomplished a semblance of a riot, and a couple of their supporters tried to get the effect of a free fight. The leaders of the majority refused to lose their tempers, and so did their followers. It was a case of beating down rowdiness with a steady front of self-respect and sanity. It is doubtful if another attempt will be made for awhile to demonstrate the hooligan policy in the council.

Mayor Hooker made the important statement that the contract between the Toronto Electric Light Co. and the Electrical Development Co. expires in seven years, and that the contract between the Toronto Railway Co. and the Electrical Development Co. expires in six years.

When the council went into evening session, Aid. McBride, desirous of heading off any more riots, said: "When the deputation of trustees of the Toronto General Hospital were with us in the afternoon we acted to them as gentlemen. Why can't we act like gentlemen to each other?"

For a final fling Controller Church moved before adjournment that the recommendation of the board of control to appoint valuators of the railway and electric light properties, and to increase the appropriation to \$10,000.

## SWAM TO RESCUE ON THEIR HORSES

Coney Island Policemen Saved Six People While Thousands Watched Them From the Beach.

Special to The Toronto World.  
 NEW YORK, June 18.—A life-saving exploit the like of which only Coney has not before witnessed was performed there today, when Mounted Patrolmen Edwin Cody and James J. McDonald swam their horses about 300 feet out to sea and rescued the people in a disabled motor boat.

A great crowd on the beach cheered the rescue. The boat, a 35-foot craft, contained the owner, Michael Faraca, and Mrs. Antonio Justa and their nine-year-old daughter, Mary, and Mr. and Mrs. Michael Musco and their five-year-old son, Frank.  
 Cody and McDonald were at the foot of the Ocean Parkway at the time when they heard the screams of the women. The two blue coats simply wheeled their charges, spurred them down over the embankment on to the beach and ran them straight across the sand into the surf.

Horses and riders bobbed up and down, half submerged, and it looked from shore as if they had tackled a hard and risky task. But in a few moments they reached the disabled boat. Each of the patrolmen reached out and took from the boat a child, brought them ashore, then swam their horses out again and towed the boat to a bulkhead, where the rest of the party were taken off.

## Two Children Burned

MONTREAL, June 18.—(Can. Press).—Matches in the hands of six and three-year-old Joseph and Lucien Larue of St. Paul street caused their deaths and the destruction by fire of their home today. The charred remains of the children were found beneath a bed. Two men occupying the rooms on the top floor of the building were rescued by firemen.

## OFFER TERMS TO CHURCH UNION OPPONENTS

Presbyterian Leaders Announce Policy For Advancing Amalgamation With Methodists and Congregationalists—Union Is Inevitable, Say Several Members.

New plans for expediting the amalgamation of the Methodist, Congregational and a great majority of the membership of the Presbyterians, in the United Christian Church, in Canada, are being put into effect as an outcome of the recent action of the Presbyterian general assembly. The leaders of the Presbyterian movement for union have decided to meet any anti-union literature campaign with adequate educational printed matter, but it will not be either bitter or hostile in tone, but will treat the opposition as conscientious, but mistaken.

Another important proposition is to make provision in a sympathetic spirit and on a generous scale for any congregations which, when union is adopted by the general assembly, are not ready to go into the union.

A very prominent unionist said to The World yesterday, that their movement was unorganized, spontaneous and irresistible. In addition the general assembly had now committed itself to the principle of union.

The new situation is sized up in the Methodist and Presbyterian organs in significant articles. Rev. Dr. Creighton, in the Christian Guardian, in expressing the Methodist attitude, says of the debate in the Presbyterian General Assembly: "The discussion was warm enough, but it seemed to be admitted by most of the delegates, that union was practically inevitable, and that at most it could only be postponed for a few years."

Rev. Dr. Haddow in the Presbyterian says: "The important point in the assembly's action with reference to union was not so much its endorsement of the general principle, as its expressed desire that the consummation of union should not be too long postponed."

After mentioning various departments which are adversely affected by principle, is to fall into line and lend their efforts towards making the inevitable union a success."

**MINE INSPECTOR RESIGNS OFFICE.**  
**E. T. Corkill Will Go to Copper Cliff—T. F. Sutherland to Succeed Him.**  
 COBALT, June 18.—(Special).—E. T. Corkill, chief inspector of mines for Ontario, has been offered and has accepted the post of safety engineer with the Canadian Copper Co. at Copper Cliff. This office is the first of its kind at any mine in Ontario, but the greatly extended operations at Sudbury necessitate it.  
 T. F. Sutherland, the assistant inspector of mines, now resident at Cobalt, will proceed to Toronto on the first of next month to occupy the office vacated by Mr. Corkill. The position at Cobalt for Northern Ontario has not yet been filled.

## TOOK MEDICINE TO PROBE DEEPLY FROM "POISON" BOTTLE COLLINGWOOD SHOOTING

John Mason, Farm Hand, Says He Saw Mrs. Beemer Pour White Liquid From Vial Which She Then Threw Into the Stove—Case Is Further Adjourned.

WOODSTOCK, June 18.—(Special).—When evidence for the crown had all been taken in the preliminary hearing of Mrs. Grace Beemer, who is charged with the murder of her husband, Frederick E. Beemer, a prominent Bielsheim Township farmer, in March last, W. T. McMullen, acting for the prisoner, asked for a remand, in order that he might bring a number of witnesses for the defence to Woodstock. Magistrate Ball consented and the case was therefore adjourned until Monday, June 30.  
 John Mason, employed on a farm near the Beemer home, sprang somewhat of a sensation when he was called to give evidence regarding what took place in the Beemer home on the first afternoon of Beemer's illness.

**Poison Label on Bottle.**  
 Mason swore that he was sent by his employer to sit with Beemer during the afternoon. About 3:30 o'clock he was sent by Mrs. Beemer to telephone for the doctor, the woman stating that she was about to mix some medicine for Beemer. When Mason returned Mrs. Beemer was in the act of pouring some white liquid out of a bottle, labeled "poison" into an egg cup, which stood on the table. The bottle she later threw into the stove. Mason asked what the liquid was, and Mrs. Beemer replied that it was medicine which the doctor had left when he visited in the morning. The contents of the bottle, Mason declared, looked like salts.

**Suffered Great Agony.**  
 What Mrs. Beemer did with the contents of the egg cup Mason was unable to state, but a few minutes later she gave Beemer, who was in great agony, a dose of salts, and he said: "Gracious, that stuff is different from the rest, and is more bitter."  
 Mason was cross-examined at length, but stuck to his story in the main. He was asked why he did not give this story at the inquest, and stated that he did not think anything about the occurrence until after the report of the analysis was received, stating that strychnine had been found in the stomach.  
 Mason told Mr. McMullen that when he questioned Mrs. Beemer about the poison label on the bottle she replied that she had it for some years and that it used to contain poison for crows.  
 "My husband wanted me to go a few

## BRITISH CABINET MINISTERS STATE THEY WERE MISTAKEN IN ENTERING MARCONI DEALS

Acknowledgment of Error by Two Ministers Robbed Scene in House of Commons of Expected Dramatic Intensity—Unionists Apparently Consented to Truce to Avoid Raking Up of Scandals.

LONDON, June 18.—(Can. Press).—For the first time in many years British cabinet ministers were compelled today to defend their personal honesty before parliament. The attorney-general, Sir Rufus Isaacs, and the chancellor of the exchequer, David Lloyd George, excused their dealings in American Marconi shares on the floor of the house, and the final scene in the Marconi affair, which their political enemies had attempted to magnify into a scandal rivaling the Panama debacle, was tense and dramatic.  
 The galleries were filled with peers and diplomats. All the seats and standing room on the floor were occupied. The two ministers admitted that they acted thoughtlessly and mistakenly, albeit without dishonest intention, and regretted their failure to divulge all the facts when they made their denials to the house last October of buying English Marconi shares.  
**Cheered Their Departure.**  
 Having finished their defence, in deference to the traditions that the house should be left to discuss their conduct without the embarrassment of their presence, they walked from the chamber together. A great cheer from their partisan supporters followed them, the members standing on the benches waving handkerchiefs and papers.  
 The resolution introduced by George

**Grandfather's Denial.**  
 Crown Attorney Cotter of Barrie subjected Calback to a severe examination, and finally asked him whether his son had made this statement to him.  
 "He did not," replied the grandfather. "Then the statement is not correct?"  
 "No; but I was so bewildered."  
 "If you told the constable that you were wrong?"  
 "I don't know," was the reply.  
 Mr. Calback said that his son and daughter-in-law were always on the best of terms. His story of the shooting was that, after he had come to bed at 9 o'clock he had been awakened by the crying of the child, who kept up the disturbance until 11 o'clock, when he heard the shot.  
 "Who were in the kitchen at that time?" he was asked.  
 "The mother and the child. I heard my son going to bed, and five minutes later I heard the shot."  
**Husband Had Rifle.**  
 Dr. Charles Wynne, assistant to the coroner, stated that when he arrived at the home at 1:30 o'clock the rifle was not on the table, where it was supposed to have been shot off by the child, but that the husband had appeared with

**Provincial Detective to Investigate Mrs. Calback's Death Following Testimony Given at Inquest—James Calback, Sr., Unable to Recall Statement Attributed to Him.**  
 COLLINGWOOD, June 18.—(Special).—Following the sensational evidence taken in the Calback murder inquest this afternoon, Coroner McPaul decided to adjourn the enquiry until Friday, June 27, and ordered that a provincial detective should be put on the case immediately. Arrangements are being made for a detective to take over the case, and it is thought the adjournment of ten days will allow of a full investigation.  
 The surprising evidence taken at today's hearing was given by James Calback sr., grandfather of the four-year-old boy Jimmie, who was stated to have accidentally shot his mother, Ida Boyce Calback, some time before midnight last Saturday. Chief of Police McLaughlin, who arrived at the Calback home at 1 o'clock on Sunday morning, says that on his arrival James Calback sr. told him that he had asked his son, James Calback, husband of the dead woman, why he had given the boy the rifle, and that he had replied: "I gave him the rifle, but I did not give him any cartridges."  
 Grandfather's Denial.  
 Crown Attorney Cotter of Barrie subjected Calback to a severe examination, and finally asked him whether his son had made this statement to him.

## THREE KINGSTON BOYS DROWNED PLAYING WITH LOGS ON RIDEAU CLOTHES ON BANK TOLD TRAGEDY

Lawrence Jackson, Albert Gibson and Jack Wallace Apparently Perished Without Any Means of Rescue at Hand—Boys Were Chums and Went to Enjoy Sport After School.

KINGSTON, June 18.—(Special).—Three young boys playing on logs in the Rideau River, near Catarqui bridge, this afternoon fell into the water and were drowned. Men are engaged grappling for the bodies, but they have not yet been recovered. The boys drowned were: Lawrence Jackson, aged 10, son of William Jackson, Bank street; Albert Gibson, son of M. C. Gibson, North street; Jack Wallace, son of Robert Wallace, school trustee, of Barrie street.

**UNABLE TO SWIM.**  
 The three boys were chums, and went to play on the logs after school. None of them could swim. There is a big pile of logs at this place, and the lads, along with others, had been in the habit of playing there. Wallace was pulled out of the water at this point just a few days ago, when he had a very narrow escape.  
 The boys had their clothing off and were seen paddling around in the water. At tea time when they did not reach home, investigation was made and their clothes were found on the shore.

## SPELLING NOT STRONG POINT WITH THIS CORONER'S JURY

Verdict Recorded at Inquest Into Death of Wood Boy Looks as Tho It Was Written in Code Form—Interpretation Is "Accidental Death."

"George Wood on 10 day of June east of crossing north of oblique avenue at the hour 7:30 in the afternoon with the accident with cased his death by being accidentally knocked down by the train death being caused by shock and loss of blood blame attached to no one."  
 The above is an exact copy, as nearly as the reporter could decipher it, of the finding of the jury empaneled last evening to inquire into the death of George Wood, aged 18, who on the 10th of June, while boarding a moving freight train on the C. P. R. tracks between Albany avenue and Howland avenue, was struck by a post alongside the rails and thrown to the ground. He died from the injuries on June 11, at the Western Hospital.

That Wood had made the statement to him directly after the accident that it was his owl fault, was the evidence of Alexander Ross, constable on the freight train which Wood had tried to board. Wood, he said, also stated that he was knocked off by a post, alongside the track. According to Ross this post was about four feet in height and situated about two feet away from the track. The train, he said, was only going about three or four miles an hour.  
 A. Tysiek and Harry Anderson, brakemen on the train, corroborated the conductor's evidence as to the speed of the train, and also as to the state-

## MADE A RECORD RUN TO MIMICO

Pulmotor Rushed Out in Fifteen Minutes When Weston Wickens Touched Live Wire.  
 When his hand came in contact with a live wire at Mimico late yesterday afternoon 2200 volts of electricity passed thru the body of Weston Wickens, aged 28, 355 A West Queen street, and shocked him so severely that his recovery is doubtful. Wickens now lies in the Western Hospital, badly burned, and still unconscious.  
 Wickens was employed as a lineman by the Interurban Light Co. Yesterday he was working at Middle road and Church street, Mimico. While passing one wire over the top of another he accidentally formed a short circuit by means of grasping a live wire with his hand while his feet were on another wire. The shock caused him to fall to the ground.  
 The Toronto Electric Light Co. were notified of the accident and at once sent a pulmotor, the new life-saving device, to Mimico. The operators and the machine reached Mimico 15 minutes after receiving the call, traveling in a motor car. Dr. Carman Ricker of Mimico attended Wickens and he was afterwards removed to the Western Hospital in F. W. Matthews' private motor ambulance, where he is in a critical condition.

## SPEDDY CONTEST IN NORTH GREY

Provincial Government Fixes July 14 For By-Election—Writ Issued Today.  
 The writ for the North Grey by-election in the contesting of the seat vacated by Hon. A. G. MacKay, who has entered western politics, will be issued today.  
 The date fixed by the government for the nomination to the legislative assembly is July 7, and according to custom, the election will follow one week later.  
 The settlement of these dates has been deferred until the representatives of both parties were selected and the necessary registration duties arranged. Colin Cameron has been chosen as the Conservative nominee and John McQuaker will represent the Liberal interests.

## WESTERN RATES DEFENDED BY RAILWAYS

C. P. R. Contends It Could Enrich Revenue if American Classification of Freight Rates Were Applied—Rates From Fort William West Compared With Those From Duluth.  
 OTTAWA, June 18.—(Can. Press).—That it would make more money if it could apply the American classification to its Canadian business was the feature of the testimony presented by the Canadian Pacific Railway at this afternoon's session of the western freight rate enquiry.  
 W. B. Lanigan, assistant freight traffic manager, said he could take ten per cent of the difference in rates on pickles alone, retire and live happily ever after on it.  
 During the afternoon session the examination of W. B. Lanigan by Mr. Chrysler was continued. Mr. Lanigan claimed C.P.R. rates on hardware from Fort William west were lower than from Duluth west in the United States, in the case of cast-iron pipe, for instance, 11c lower per 100 pounds from Fort William to Winnipeg than from Duluth to Leeds, an almost similar distance.  
**Farmers Demand Gasoline.**  
 The extent to which gasoline has now become almost a necessity of life for the western farmer was indicated by statistics given to the petroleum movement. Mr. Lanigan claimed the rate per 100 pounds in carload lots on petroleum and gasoline from Fort William to Winnipeg was 33c, as compared with 42c from Duluth to Leeds. Most of this was shipped in car loads to the Imperial Oil Company, which had tank stations thruout the west to be distributed.  
 G. E. Carpenter, for the government, pointed out there was a considerable movement of less than carload lots to the Northwest Grain Dealers' Association's elevators, this oil being purchased independently of the Imperial Oil Co.  
**Good Pickings in Pickles.**  
 Mr. Lanigan claimed the Canadian pickle rate was on the whole lower than the American one. "Give me the rates and transportation conditions on the other side and I'd be glad to take ten per cent of the difference in revenue on pickles and retire on it."  
 The witness then attacked a statement made by Mr. Carpenter for the government that the movement of sea over C. P. R. lines from the Atlantic seaboard was very small. Nearly all Indian tea came in that way via the Suez Canal, Liverpool and Fort William, at a lower rate than that in the United States, said Mr. Lanigan.  
 Mr. Lanigan will be on the stand tomorrow.

CONTAMINATION BEING REMOVED

Better Conditions Prevail Regarding Sanitation at Summer Resorts.

INSPECTORS ARE BUSY

Additional Precautions Taken to Prevent Contamination of Waters.

The great host of Ontario people who yearly flock to the summer resorts of the north and the watering places about the fresh water system will this season enjoy a more adequate protection from unsanitary conditions than ever before.

Dr. J. W. S. McCullough, chief health officer of Ontario, states that one great source of contamination has been removed in the adoption of high-class sewage systems on board the tourist steamers in the inland lakes.

# THE GOOPS THE NURSERY

# SOCIETY

The chairman and board of trustees of the Toronto General Hospital have issued invitations to the opening of the new hospital, College street, at 9 o'clock this afternoon.

Mrs. Nellie and Mrs. Douglas Boyd were in town from Niagara yesterday.

Mrs. Durie, president, and the executive committee of the Society for the Prevention of Cruelty to Animals, are making arrangements for a grand Christmas festival and sale of work to be held Thursday, December 14, the following ladies having volunteered their services as convenors for the twelve departments, with Mrs. W. Murray Alexander, confectionery; Mrs. Edward L. Morton, gentlemen's supplies; Mrs. Percy Beatty, fancy work; Mrs. R. G. McConchie, fancy work; Mrs. D. L. McCarty, astrological and palmistry; Mrs. J. S. Skeaff, table delicacies; Mrs. A. M. Stewart, white boots; Mrs. F. Conroy, Smith, Santa Claus boots; Miss Durie, tea room; Miss Jessie Ferguson, dolls' booth; Mrs. G. R. Baker is organizer and manager.

The closing exercises of the Bishop Strachan School, which were held yesterday afternoon, were rendered picturesque by the procession of well over two hundred white-robed girls with their teachers in academic dress. The line filed thru the shady grounds of the school and across College street to the Foresters' Hall, where a musical program was carried out and the distribution of prizes took place under the chairmanship of the bishop. Subsequently a garden party drew the guests and members of the school back to the school grounds. In the rooms thrown open to the visitors were shown specimens of the work done by the society and sewing classes, the art and nature study classes, as well as notebook kept on the school journey. The "form" gardens were a department of the middle school nature work that attracted interested attention.

The marriage of Miss Beatrice Evelyn McKenzie to Mr. John Andrew Reid took place very quietly at the home of the bride's aunt, Mrs. Fisher, in Dufferin street, Rev. D. T. L. McKerrow of Victoria Presbyterian Church officiated.

Mr. and Mrs. Turafsky and family have left to attend the marriage of their son, Dr. H. A. Turafsky, B.A., to Miss Pullan, which takes place at Ottawa today.

Mr. and Mrs. L. R. Wolfe of Kew Beach are at Ottawa today to attend the Turafsky-Pullan wedding.

Mrs. Webster and Miss Ethel Webster are leaving next week to spend the summer at Niagara-on-the-Lake.

Mr. and Mrs. Leslie Ferguson have returned from their wedding trip to the Berkshires hills.

Captain and Mrs. Walter Long, who have been spending the past week in New York, attending the international polo matches, have returned to Ottawa. Mrs. Long is sailing from Montreal today by the Virginian for England, and her husband will accompany her to Montreal to see her off.

Mrs. Philip Gratton Kelly is in Montreal, the guest of her parents, Mr. and Mrs. A. W. McDougall.

Mr. and Mrs. Fred Beardmore have taken a house at Cap A l'Aigle and will leave Montreal to take up residence about the 20th. Mr. Beardmore has been in New York with the polo team.

The closing exercises of Westbourne School will be held at 8 o'clock this evening.

The closing exercises of St. Mildred's College took place most successfully last night in St. Thomas' Parish House, where the prizes were distributed by the Lord Bishop of Toronto.

Mr. and Mrs. E. F. B. Johnston and Miss Jessie Johnston left yesterday for England.

Mrs. Hackland (formerly Miss Nellie Tupper) is spending some time with her mother, Mrs. J. Rice Tupper.

Mrs. W. O. Gwynne has left for a

Miss Jessie McNab, who conducted many concerts and evangelical meetings on the lawn of her residence, Dundurn Heights, last summer, will continue the splendid work this year at McMurich School, Ossington avenue. The first meeting will be held on Friday, June 20, at 8 o'clock.

## Willard Home is Doing Good Work

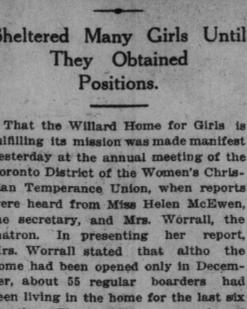

Sheltered Many Girls Until They Obtained Positions. That the Willard Home for Girls is fulfilling its mission was made manifest yesterday at the annual meeting of the Toronto District of the Women's Christian Temperance Union, when reports were heard from Miss Helen McEwen, the secretary, and Mrs. Worrall, the matron. In presenting her report, Mrs. Worrall stated that although the home had been opened only in December, about 55 regular boarders had been living in the home for the last six months. These girls were nearly all employed by business firms in the city, and they were provided with separate rooms in the home. Besides the regular boarders, who paid for their board and room, other girls who had no home in the city, had been sheltered there until they secured positions.

## Women's Ailments Caused by Neglect

Proper Treatment Will Quickly Bring Back Robust Health and Good Spirits. Women are on the whole more sickly than men. One reason is that their system is more complicated; another and more important reason is, they put off measures of relief too long. At the beginning, constipation is the cause of nine-tenths of women's ailments. The blood becomes weakened and polluted—the nerves suffer and a run-down condition takes root.

## Wanted Girl Friends

Mrs. Worrall was asked to tell of any particular case that had come before her, and she recalled that one night a girl who worked down town, came to her and pleaded for a room. "She was boarding in a house where there were only men," said Mrs. Worrall, "and was very lonely. She wanted to have girl friends to talk to, and that was why she came here. You may think there are not many girls like that, but if you do not are mistaken."

## Flower Mission

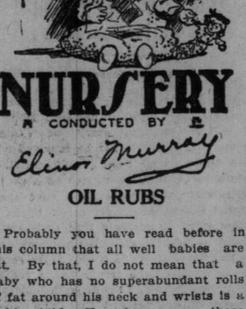

A summary of the report of the flower mission, presented by Miss M. Carritt, showed that in the year of nine months, the Toronto district had distributed the following cheer: 2179 bouquets, 46 plants, 17 baskets of flowers, 2040 texts, 2885 papers, 35 books, 147 magazines, 15 pledges, 191 quarts of fruit, 107 jars of jelly, 54 quarts of cream, 53 dozen eggs, 55 dozen oranges, 40 pecks of fruit, 33 pecks of vegetables, 748 articles of clothing and \$475.75 of money. The result of the election of officers is that the board for the year is the same as last year's, with the exception of the office of vice-president. Mrs. S. Vance was vice-president last year, but Mrs. A. E. Silverthorn will take her place this year. The officers are: President, Mrs. Fred C. Ward; vice-president, Mrs. A. E. Silverthorn; secretary, Miss Ada Jackson; treasurer, Mrs. R. Fletcher; treasurer, Miss Lottie Harris; Y. W. C. T. U. secretary, Miss McEwen.

## The NURSERY

Probably you have read before in this column that all well babies are fat. By that, I do not mean that a baby who has no superabundant rolls of fat around his neck and wrists is a sickly child. You have seen those very, very fat babies and you were sorry for them. A fat baby to be a well baby, is well-built, well-rounded and sturdy. Every ounce of his fat is put in place for some good purpose and the result is, you are not conscious of fat, but of beauty.

THE GARDEN SERIAL STORY

THE TRIPLE TIE BY A. H. C. MITCHELL

(Continued From Yesterday.)

CHAPTER VII.

Forrest Cain, having nothing in particular to do except amuse himself, and having plenty of money to do with, spent his time every year in New York. He usually took three yearly trips and sometimes four to the metropolis, besides spending several weeks there in the hot season. In New York he always lived at the Niagara Club, so called because it flowed on a raft from day to day, and from month to month, and from year to year. It never closed its doors. One could get a dinner or a meal there at any hour of the day or night. Its membership consisted largely of wealthy young men—the same kind of New Yorkers in New York that Cain was in Atlanta. It was the sort of a club to appeal to a man of Cain's habits and inclinations.

Daily Fashion Talks BY MAY MANTON

A FASHIONABLE GOWN OF CHECKED SILK

DESIGN BY MAY MANTON.

7813 Blouse with Robespierre Collar, 34 to 44 bust. 7798 Five Gored Skirt, 22 to 32 waist.

THIS is a sea son of silk and checks are exceedingly smart. This illustration shows a checked gown of a very attractive manner. The model is quite simple but it is extremely fashionable. It combines a blouse that shows the front closing, the open neck and rolling collar and the long sleeves, that are among the smartest features of the season, and a skirt that is cut in five colors with an underlying panel at the front and closing at the left of the front. In place of the checked silk, charmeuse in plain color trimmed with a contrasting color or with one of the new fancy silks would be attractive. Plain and embroidered voile or striped and plain voile would be charming, too, for the warm weather. Cotton crepe is being extensively worn, too, and that material in two colors or in the plain and broadened weaves would make a most attractive gown.

For the medium size, the blouse will require 3 3/4 yards of material 27, 2 1/2 yards 36 or 2 yards 44 inches wide, with 1/2 yard 27 inches wide for the collar; the skirt will require 4 1/2 yards 36 or 3 1/2 yards 44 inches wide. The width of the skirt at the lower edge is 2 yards.

The May Manton pattern of the blouse 7813 is cut in sizes from 34 to 44 inches bust measure; of the skirt 7798 from 22 to 32 inches waist measure. They will be mailed to any address by the Fashion Department of this paper, on receipt of 15 cents for each.

PATTERN SERVICE NEWS FOR WOMEN

NO OTHER WAY

By GORDON HOLMES

(Continued From Yesterday.)

"Oh, if you don't like my muse I'll talk witness box English. You want to know why I advertised you and myself to Mrs. Delamar? I'll tell you. She and the bloodstock broker person must be goaded into doing something. They're behaving too well. They need spurting, whipping, scolding, anything you like, so long as they get busy and act. And when all is said and done what does it matter if Mrs. Delamar learns now that she is attracting the attention of the bureau? She'll know it tomorrow, in any event, and now she will be forewarned. That is what I want. If she got up to give evidence unobtrusively, she would be glibly, and the district attorney would tear her to pieces in five minutes. With what result? The coroner, the jury, the local police, not to mention the dear, adde-headed American public, would regard her as a murderer and clamor for her arrest. Now, tell me honestly, are you interested in the Kyle or the Waverton side of this inquiry? Read I ask? We'll soon clear up the why and the wherefore of the crystals of nicotine; but can you conceive a more insurmountable barrier to any real progress than Mrs. Delamar's attitude? Mrs. Delamar being committed to the sessions on a non-bailable charge?"

Steingall struck a match. "From that point of view," he muttered, "there's something to be said in favor of putting the lady on her guard." "Bet you a dime she didn't think I was an ass. You see, she's a clever woman." Steingall endured the stab stoically. "I shouldn't be surprised now if she sent for us tonight and told us things before the opening of the inquest tomorrow," he said. "Good! Half an inch of Havana works marvels in you. It's a poison, but a tonic. You remind me of those beautiful Circaesians who eat arsenic to make themselves more beautiful." "She'll want to explain why she returned to 'The Rosery' on that Tuesday evening." "We don't know that she did return; but she's expanding a little." "We ought to be sympathetic, and get the district attorney to follow suit." Clancy raised himself on tiptoe, and pretended to scan Steingall's forehead anxiously. Such was the way of these two. They would quarrel ferociously, and chaff each other without mercy, when a case they were investigating together promised to expand into its official how long the train waited there. Three minutes, he was told, whereupon he consulted his watch. Mrs. Delamar covertly summing him up the while. He seemed to abandon some project he was entertaining, and asked the women, with a smile, whether they preferred the window open or shut. "All this, of course, was excellent fooling. Clancy meanwhile was pelting after the porter, en route to the telegraph office." "The lady who gave you the telegram," he gasped, "wishes to know if she signed it. She is not sure. See if you can find it." The man obeyed instantly, and Clancy owned the quicker pair of eyes. "Yes, it's all right, thank you," he said, and made for the train again. "The man who sent the telegram," he said, "is also seen in the imperative command to John Stratton Tearie." "Follow me to Atlantic City by next train without fail. Most important wire."

The Gourlay Wins Enthusiasm

Wherever played the Gourlay piano wins a large following of enthusiastic musical friends who judge it by just one consideration—musical quality. Its rich pure tone is so satisfying as to charm the most critical musical minds. The high favour which the Gourlay piano holds to-day in thousands of Canadian homes is the realization of Gourlay aim. Long before the first

Gourlay Piano

appeared on the market the closest study of piano manufacture was made—eliminating all that was inferior and carefully assembling the best principles known to human intelligence. This experimental study and thought has created a standard of Gourlay construction that is unsurpassed by any other instrument. Each successive stage is highly developed by employing the very finest materials procurable until the final inspection approves it to be the highest achievement in artistic workmanship possible in a piano. The Gourlay therefore cannot fail to enthrall its owner with its superior material and musical excellence. Ask anyone who plays or hear it for yourself, and you will be convinced that you cannot do better than make the Gourlay your final choice.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

Spring Chicken To tell a spring chicken from a fowl examine the feet, breastbone and cartilage at the end of breastbone. If tender and pliable to the touch the chicken is young. Wash the outside of the dressed chicken with a brush kept for this and similar purposes, and run cold water thru the inside. If the giblets have been left in the bird wash them and remove veins, lining and blood from heart and gizzard; cut the neck and liver in small pieces and cook in a little water. The giblets are a great addition to the dressing, gravy or chicken pie. After they are cooked bone the neck and chop all finely and add to the remainder of the chicken. The best summer meat dish is without doubt spring chicken fricasse. Next to this, chicken pie stands in line. For a fricasse cut the legs of the chicken from the body and separate the joints, remove the wings and turn the points under the thick shoulder joint. The breast may be cut in two or four pieces. This depends upon the size of the bird and the family to be served. Flatten the backbone and ribs with the flat side of a cleaver and split in half. If the chicken is really a "springer" dredge it with flour and brown it in butter without further ceremony. If you have a doubt as to its tenderness, steam it for half an hour. This process relaxes the muscles and the juices that would be lost if the chicken was parboiled drip into the lower part of the steamer and are saved. When the chicken is well browned in the butter, pour the liquor in the steamer over it and cover. Simmer gently until the meat comes away from the bones when you try it with a fork. Now lift the chicken into a deep tureen and cover while you add milk and thickening to the liquor in the tureen pan to make delectable chicken gravy. When this is finished pour it over the tureen of chicken. The best part of chicken is, in the opinion of many, the "fixin's" that accompany it. Hot cream biscuit is a chicken side line that should never be omitted. Yankee potpie is fricassed chicken prepared as explained above with the chicken served on a platter and the gravy poured over hot biscuits. A delicious way to prepare "springers" is to cook them with ham. Split young chickens in half, season each section with pepper, but use no salt. Wrap each half-chicken in a thin slice of finely seasoned ham and tie it in place with twine. Lay this in a bake-pan with a snug cover, or in a casserole with a little water to make steam. Cook in the oven with gentle heat until you judge it is done. When very tender, cut the strings and lay the chickens in the centre of the serving platter and garnish with the ham. The liquor remaining in the baking pan makes fine chicken gravy. If you prefer to have the ham and chicken brown and crisp, remove the meat to a flat baking dish. Arrange it nicely and dredge with flour. Return to oven and baste with its own liquor until golden brown.

THE GARDEN CONDUCTED BY RACHEL R. TODD M.D. ALPINES (Rock Plants)

Continuing the subject of yesterday, rock plants, or alpines, we might mention a small list of suitable, besides these given yesterday, golden tuft and portulaca. Arabis, both the double forms and the single, are becoming quite well-known of late. These are often called rock cress, very cheap, easily grown, early flowering plants, blooming off and on in mild spells of the winter, where soil and situation is suitable, but at their brightest in April during which month the plants not only bloom luxuriantly but the plants themselves spread with great rapidity. Arabis alpina, and Arabis abidida, both white-flowered, and much alike, but the former a little dwarfier in habit, and more compact, are the two chief species of this variety. But there is a newer double variety, Arabis Flore pleno, that is coming rapidly to the front, and bids fair to outdo the former in favor. It sends out long graceful spikes of snow-white double flowers, slightly scented with a peculiar wild perfume that makes one think of the wild wild woods and best of all, these pretty sprays last a long while. Another splendid rockery plant is the Arabis, a low compact spreading covered with delicate purple flowers, some varieties having white edged and others variegated leaves. Some are double, and some single flowered, but all are valuable. Choose for your rockery Aubretia

Alba, white; Aubretia lucida, a yellow flowered one; and do not forget that the sooner you sow your seeds the sooner your young plants will be ready for transplanting, to their permanent place. The two varieties of Flowering Myrtle are excellent rock covers. Called old periwinkle, they are useful evergreen spreading vines, the variegated variety having pale green leaves edged with a snow-white border, sending out a dainty pale blue four-petaled flower. The second variety has dark bottle green waxy leaves shining thickly among its purple blooms. Both are splendid rock plants and should be on every rockery.

June 18, 1913. ANNOUNCEMENTS.

Motions set down for single court for Thursday, 19th inst. at 11 a.m.: 1. Bank of Montreal v. Bell.

Master's Chambers. Before J. S. Cartwright, K.C. Master. St. Clair v. Stair—W. E. Raney, K.C., for plaintiff, moved to amend statement of claim by adding certain clauses fully set out in notice of motion.

Antiseptic Bedding Co. v. Security Mutual Fire Insurance Co.—W. A. Proudfoot, for plaintiffs, obtained an order for issue of writ for service out of jurisdiction and for service of same and statement of claim on defendant company at Chatfield, Minnesota.

Crucible Steel Co. v. Ffolkes—Wright (Millar & Co.), for plaintiffs as judgment creditors, moved for order for examination under C.R. 903 of two transfers of judgment debtor M. J. Follinbee for transferees.

Bank of Ottawa v. Gilpin—Barnes (Helgington & Co.), for defendant, obtained order vacating his pendens.

Canada H. W. Johns Marville v. Elizabeth M. Macdonald, for judgment creditors, moved absolutely attaching order. M. J. Follinbee for garnishees, S. S. Mills for assignee of judgment debtor. Order made discharging order, with costs to garnishees fixed at \$10 and to assignee fixed at \$5.

Each v. Scott—E. Braden, for defendants, obtained on consent an order dismissing action without costs and vacating lien and his pendens.

Clegg v. Clegg—Macdonald (Day & Co.), for plaintiff, obtained on consent order vacating his pendens.

Smith v. Roe—T. H. Wilson, for owner, obtained order vacating his pendens registered May 31, 1914.

Single Court. Before Meredith, C.J. Collier v. Union Trust Co. re Leslie, an infant—A. K. Goodman for petitioner, D. C. Evans for Union Trust Co., trustees, J. MacGregor for plaintiff, F. W. Harcourt, K.C., for infant.

Motion by petitioner for sanction to the parties to this action in settlement of the matters in question. Judgment: The settlement affects very materially the interests of an infant in the lands which are chiefly the subject of it, and so to confer greater power upon the court, an application is also made by the official guardian in the infant's behalf, under the act respecting infants, for leave to her to take such steps as may be necessary to carry into effect the settlement.

Two questions to be involved in the act, the other of fact. Is there any power in the court, either in the action or upon the application, to authorize or give effect to that which is sought, notwithstanding the proposed scheme. Apart from legislation, law and equity seem to have considered it safer to the whole length of preventing persons from dealing with their land during minority, and before neither of the applications now before me will be granted; no order will be made in either of them; but both or either may be renewed at any time if there is any thing new to me shown upon the subject in any of its features.

Before Middleton, J. Re Gibbs Estate.—F. E. O'Flynn (Belleville) v. Executors, moved for order construing will under C.R. 938. W. C. Mikel, K.C., for grandchildren. Order made declaring daughter took vested interest in subject to be divested by any after born children, of which there were none. Costs out of estate.

Martin v. Robertson—H. J. McKenna (Hamilton) for plaintiff, moved for order continuing injunction granted by local judge at Hamilton, restraining defendant from erecting fence between properties of parties. G. C. Thomson (Hamilton) for defendant. Injunction continued to trial. Posts to be pulled out till trial.

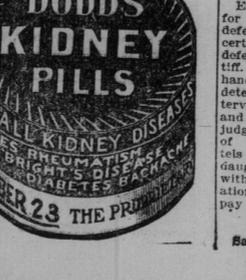

Tourbill v. Ager—F. Aylesworth, for defendant, moved for order dismissing motion for order to continue injunction which had been enlarged until July 10. No one contra. Injunction dissolved and defendants at liberty to go on with building at their own risk. Costs reserved to trial judge.

Morris v. Harrison—A. D. Crooks, for plaintiff, moved for injunction to restrain defendant from displaying notices of his moving picture show, as to darken plaintiff's windows. Callon for defendant. Injunction granted until 19th inst.

Trials. Before the Chancellor. Cameron v. Smith—J. E. Thompson (Arnprior) for plaintiff, R. J. Slattery for defendant. Action to recover \$3187.84, alleged to be due under covenant in mortgage, and in default of mortgagee, premises, etc. Judgment: So far as foreclosure is asked, the action is for recovery of land and must be brought within ten years after the right of action first accrued, and for recovery of money on the covenant within ten years after the cause of action arose. The inaction of the plaintiff for more than ten years since the first default, has therefore (under the statute) deprived him of all remedy upon this mortgage and the action must be dismissed. As however, defendant raised several defences which failed, I think he should pay the costs in proportion and to avoid the trouble of apportionment, I would fix the fifth of his success as equivalent to the defendant pay four fifths of plaintiff's costs.

Ellis v. Ellis—J. Rowe (Norwich) for plaintiff, S. G. McKay, K.C., for defendant. Action for recovery of certain goods alleged to be detained by defendant, the property of the plaintiff handed over to plaintiff, according to determination of judge by both sides, and they need not be mentioned in the judgment. Judgment for delivery of piano and the other chattels as designated by the plaintiff, and the payment of the debt with interest to run from date of separation in October, 1910. Defendant to pay the costs.

## STABLE AND SHEDS BURIED BY BAD FIRE IN WARD SEVEN

### Six Buildings Totally Destroyed and Firemen Had a Hard Two-Hour Fight—Examinations Are Being Held at Humber College For a Week.

At 4.45 yesterday afternoon pedestrians on Rymynde road, near Dundas street, observed smoke issuing from a lane just north of the corner, behind the large new block recently erected. An alarm was immediately rung in and Keefe street, Perth avenue and Carlton detachments responded. The run from the nearest station, however, is a long one and when the firemen arrived the fire had gained considerable headway among the frame stables and outhouses bordering the lane. Fortunately there were few horses in the stables at the time and those which were there were soon removed to a place of safety. The firemen then directed all their energies towards saving the stores and houses in the vicinity and preventing the fire from spreading, succeeding after two hours' work in getting it under control. Following is a list of the buildings destroyed, with most of their contents: Vacant stable in rear of 357 Rymynde road, rented by Joseph Simpkin from John Graham of Engiand; stable burned. 2231 Dundas street, bakehouse in rear of store, occupied by Albert Mandel, 235 Maria street, owned by David Kelebanow, 2312 Dundas street, building and contents destroyed. 2238 Dundas street, stable in rear owned by Leo Bodhorer; destroyed. 2235 Dundas, stable in rear, owned by James Parsons, flour and feed merchant, building and large quantity of hay and feed destroyed. 2241 Dundas, stable in rear, owned and occupied by Dr. J. Cunningham, V.S., recently destroyed. 2245 Dundas, stable in rear, owned by Abraham Casselman; partially destroyed.

The total damage was not re-estimated at a late hour last night, and only a comparatively small part of the loss will be covered by insurance.

The Humber College is the scene of much mental activity these days. The annual school examinations concluded yesterday morning and the entrance commenced in the afternoon. This year Principal F. C. Colbeck informed The World there are 66 boys and 81 girls from the five public schools in ward seven who are trying their examination entrance in the gymnasium of the collegiate, a much larger, cooler and better ventilated room than the auditorium, which was used as an examination hall in former years. These candidates will finish Friday afternoon and the matriculation and normal school exams will start the following week-end.

At the annual election of officers of Victoria Lodge, A. F. and A. M., in the Masonic Temple, Annette street, last evening, the following were elected for the coming year: Wm. Leslie Horner, I.P.M., F. Ford; C.W., W. Wadsworth, sr.; J.W., J. Weatherill; treasurer, J. S. Hill; secretary, W. A. Birrell; chaplain, Rev. R. Seaborn; hall trustees, Dr. R. R. Hopkins and W. J. Sheppard; auditors, Messrs. J. H. Charles and J. H. Colvin.

2231 Dundas street, the late Joseph Blake, who succumbed to an attack of pneumonia in his 76th year, was held from his late residence, 18 Vine avenue, yesterday afternoon for the annual twelfth celebration at Guelph this year. Special O. P. R. trains will convey the West Toronto contingent to the city, leaving Rymynde road at 9 a.m. Several initiations were held last night and the Royal Arch Degree was exemplified by the W. M.

# HOSPITAL OPENS THIS AFTERNOON

### Great Ceremony and Speech-Making Predicted by Former Staff.

### EX - HOUSE SURGEONS

### Held Annual Reunion and Recalled Events of Former Years.

While speaking at the Albany Club last night at the reunion of the Ex-House Surgeons' Association of the Toronto General Hospital, Dr. C. K. Clarke, the superintendent of the hospital, predicted that at the opening of the new hospital buildings today there would be the greatest collection of stopepate hats ever seen in Toronto. Dr. Clarke went on to say that hats that had been in peaceful retirement for scores of years would come out of their hiding places and grace the opening proceedings in modern fashion. Speaking for himself, he stated that some time ago he thought that he had put his "sliker" away for good. He was wrong in cherishing such a thought, however, as the events of today will show.

The annual meeting held last night was the most successful ever held by the association. Dr. R. M. Hillary of Aurora, the president of the association, presided, and the guest of honor, as usual, was Dr. Charles O'Reilly, who was superintendent of the hospital for thirty years. Both Dr. Clarke and Dr. O'Reilly are humorists and their speeches were classic. Dr. Clarke, who came first, said that as he was almost sick talking about the new hospital, he would talk of the old days and "Charlie" O'Reilly. He said that he was never a house surgeon at the general, but confessed that he had been photographed with the "clams" on at least three occasions. This compliment was followed by the statement that "to be a house surgeon was always a start that led to success in the medical profession—our matriculation." He touched upon the precocity of the house surgeon of today and intimated that before he became superintendent of the general he used to pick up in Ireland. Dr. O'Reilly told of the old days in the General Hospital, when the men were "fighting men," and then added several choice stories which he picked up in Ireland.

The election of officers resulted as follows: President, Dr. John Malloch; secretary, Dr. Alfred Haywood; treasurer, Dr. Norman Greenwood; council, Dr. H. Mullin (Hamilton), Dr. Samuel Johnston (Toronto) and Dr. Donald MacGillivray.

# Taylor-Forbes Lawn Mower

—Self-Sharpening—

The bottom knife on a Taylor-Forbes lawn mower is made so hard that a file will scarcely touch its edge.

That means that a Taylor-Forbes lawn mower is self sharpening as long as the hardest kind of steel will keep its cutting edge.

We have recommendations from users of Taylor-Forbes lawn mowers who say that they have had their mowers sharpened once only in five years.

It is impossible to make a lawn mower that will stay sharp forever, but there is less sharpening and adjusting to be done with a Taylor-Forbes mower than with any other machine.

The three best known models of Taylor-Forbes make are "Adanac," "Woodyard," "Empress"

Do not be turned aside from your intention to buy a Taylor-Forbes lawn mower.

It has absolutely no substitute.

# SUN ALWAYS SHINES ON THEIR PICNIC DAY

Queen East Presbyterians Enjoyed Annual Outing to Port Dalhousie.

Twenty-one years without a shower of rain, on picnic day. That is the record over which the elders of Queen Street East Presbyterian Church are congratulating themselves. Walter Davidson, superintendent of the Sunday school, is inclined to think that a special providence watches over his school. The picnicers, almost a part of them, went by boat to Port Dalhousie yesterday, and the skies were a bit overcast early in the day, the sun god put in an appearance before noon, and held his ground till evening.

Whether or not the Queen street people have some occult influence with the weatherman, their picnic grows more popular every year. The lightest and whitest of frocks are called into service and anyone who would show up with a raincoat or an umbrella, would be branded as an ill-wisher or a pessimist of the worst class. Yesterday's picnic was the largest ever carried by steamer Dalhousie. The Sunday school profits on the day amounted to seventy-three dollars.

# PAY SALARIES TO COUNTY CONSTABLES

### Special Committee of York Coucillors Will Report on Proposed Step.

Little real business was done by the York County Council at yesterday's session in the county buildings. That certain county constables should be paid regular salaries instead of fees was a recommendation which came in for consideration. The committee in charge of the proposed innovation and report at an early date.

The new mayor of Leaside, Mr. D. J. McKee, was present and took his seat in council.

The time for completing the assessment of York Township was extended to June 30.

Council decided to visit the Industrial Home at Newmarket on Friday, and Miller's conservatory tomorrow afternoon.

# "THE SAME WONDERFUL PERCY"

### By ELINOR MURRAY

"She's just the same wonderful Percy! It was with the utmost contentment that the crowd today made the remark that she had seen Miss Haswell's perfect work as maid, wife, widow, anything you like; and to see her in "Sham" and then compare her with "Miss Percy" in the "Amazonians" drew forth the satisfied comment, "Miss Haswell can do anything." We haven't seen her as "Lord Percival" nor yet as "King Lear," but we haven't the vaguest suspicion but that we should leave the Royal Alexandra after either of these personae and say with the critical lady, "She's just the same wonderful Percy!"

Didn't you love "The Tangle" in the "Amazonia"? Did you smell the real bushy smell? And didn't you long to get up into those gorgeous woods and rustle thru the fallen leaves? That is one of the many things about Miss Haswell's performance that I never cease to wonder over: the perfection of her settings. Some day I'm going to spend the day "back" at the theatre, learning how they work their creations in the scenic department. But that is just one proof of Miss Haswell's characteristic thoroughness. She is such a faithful little worker and does such a tremendous amount of hard thinking and harder work to get everything up to the high standard she has set herself. We, sitting there, enjoying ourselves, do not realize the art required to prevent a stock company being "stocky."

Miss Percy Haswell has been with us four years, and at no time has the work of her entire company fallen short of the best.

That is the universal verdict. And that is because Miss Haswell is "the same wonderful Percy."

# TEMPLARS PLAN FOR BIG CONVENTION

### Diamond Jubilee Anniversary of Order Opens in Ottawa Tomorrow.

The eyes of every member of the Good Templar Order in Ontario will this week be turned toward Ottawa, where the Grand Lodge of Canada will convene in annual session. The convention, which will open on Thursday morning in the Orange Hall, Albert street, Ottawa, will be called to order by Grand Chief Templar John T. Dyeon of Toronto. Reports which will be presented by the grand secretary, A. H. Lytle, of Hamilton, will go to show that for the first time in a number of years there has been a large increase in membership during the past year.

The report of the grand superintendent of juvenile work, and W. Robbins of London, will also show an increase in the juvenile membership; while the report of the grand treasurer, John Eagleton, of Ottawa, will certify the grand lodge to be in a sound financial condition.

As this is the diamond jubilee anniversary of the organization of the grand lodge, which took place in the City of Hamilton in the year 1858, and also of the introduction of Good Templar into Canada, steps have been taken to fittingly celebrate the event this week at the annual session, when it is expected there will be a record representation of delegates from every part of the country.

# Yachting Close of George Cup Trial Races • Bowling Kent Co. 115 • Trotting Second Day at Chatham

## NIRWANA IS SELECTED TO DEFEND GEORGE CUP

Skipper Norman Gooderham Repeats His Former Double Triumphs.

## ON TWO DIFFERENT YACHTS International Race Takes Place Next Month at McDonald's Cove.

The final trials held by the R.C.Y.C. to select a George Cup defender were held yesterday, and, as before, Norman Gooderham skipped the two winners. However, the difference between the Vivia and the Nirwana was plainly noticed and the Nirwana was plainly selected to meet the American boat at McDonald's Cove on July 7 for the trophy. Once more the yachtsmen were confronted with a peculiar sea, as a light wind from the southeast was blowing, accompanied by a heavy roll, that tossed the yachts heavily, as the breeze was not of sufficient power to counteract this motion.

Skipper Gooderham has a grand record for the three days' racing, having piloted his yacht home in front every time, even to landing the Swamba yesterday in a reach to windward. He is one of the cleverest of the local yachtsmen, and, barring accident, his chances are equally as good as his brother's, who skipped the same yacht in the race last year, and won it.

The first race was to windward, and then a buck up to starboard, finishing to leeward about two miles. The race started at 4.02, with all three boats bunched, but the Swamba, which was out first, with Bill Jarvis at the helm, Gordon's Vivia second, and Gooderham's Nirwana third. Turning for the wind to starboard, Nirwana was first, with the Swamba second by twenty seconds. The Vivia trailed over a minute in the rear. Their positions remained unchanged on turning the buoy, as follows: Nirwana, 4.35.03; Swamba, 4.36.22; Vivia, 4.38.13.

On the run to leeward, the Swamba gained a lot of ground, and for a time it looked as if she would pull thru. They finished as follows: Nirwana (Gooderham), 5.21.03; Swamba (Jarvis), Vivia (Gordon), 5.24.30.

The second race was a very close one, skirting the island shore, and was won by Swamba, with Skipper Gooderham at the helm. The Nirwana was a good second, with Bill Jarvis at the helm. The Vivia was a very close third, and the at 5.35, and the Nirwana and Vivia 15 seconds later. Turning for the wind to starboard, as follows: Swamba, 6.01.19; Nirwana, 6.03.40; Vivia, 6.05.20.

In all six races have been sailed, and have resulted as follows: Nirwana, first, two seconds and one third; Vivia, two firsts, two seconds and two thirds; Swamba, one first, two seconds and three thirds.

## HUGH GALL ELECTED.

The executive committee meeting of the western division of the C. C. A. held last night at the Toronto Canoe Club was presided over by President R. Wilson, and each club had one or more delegates present. The committee very regretfully were forced to accept the resignation of their secretary, J. J. Dolan, and Hugh Gall, the Parkdale canoeist, and rugby player, was elected to that position in his place. The application of the Humber Bay Canoe Club was officially accepted. The next meeting of the executive will be held on Friday, June 27.

## The Humber Bay Canoe Club have forwarded their fees to the Dominion Regatta Association, and have entered a crew in the war canoe race.

## Favorites Fare Badly Second Day at Chatham

CHATHAM, June 18.—The second day of the summer meet of the Chatham Driving Club was a repetition of yesterday's success. The track was better than yesterday and the crowd very large. It was a very poor day for favorites, however. In the 2.30 pace Walter F. was barred from the betting and Bay Suro was played as the favorite. Rella E., driven by Macey, however, copped the purse in three straight heats, which was a wonderful performance. In the 2.15 trot, Scientific also took three successive heats in the betting. Harold O. was a strong favorite in the race, however. Daisy is showing up in fine form with three firsts to her credit. The results:

Edda in the Feature Race, Dally Waters, Long Shot, and Azo in Last Race.

OTTAWA, June 18.—The Bedwell brothers put across three winners at Connaught Park this afternoon. Edda, Colma and Azo, rewarded their backers in the feature of the day, the Bankers' Selling Stakes, while Dally Waters, a 15 to 1 shot, with very little cash behind her, won the third with ease. The third Bedwell win was registered in the last race, in which Azo defeated Misses. Five favorites won. Flax took the second and after Edda had taken the feature, Jacquellina won the fifth and York Lad, the 5 to 2 favorite, won the sixth. Green Banker's defeat by Dally Waters was the surprise, the there was quite a lot of money hitched to the chances of Requiem.

The track was fast and in the fifth race Jacquellina made a track record, doing the mile in 1:41 3/5. It was ladies' day and the biggest crowd of the week turned out, nearly 5000 being present. The weather was ideal. Summary:

“With the Introduction of Light Beers There Has Been Less Intemperance”

The editorial from the Toronto World of June 6th quotes such eminent physicians and medical authorities as Dr. Wm. Osler and Prof. Enrico Ferri, as an authority for this statement.

Prof. Ferri states that physicians are beginning to realize that early degenerations leading to Bright's disease are due in a large part to too much food. It must be remembered, however, that one should drink pure beers.

The Cosgrave Brands: Pale Ale Half-and-Half XXX Porter AND Golden Gate Beer

are guaranteed absolutely pure, being brewed under a scientific method that could produce no other kind.

Always ask for Cosgraves. They cost no more than ordinary brews, and in ordering for family use, see that your dealer sends the Cosgrave Brands.

The Two-Piece Suit For a Change

CHANGE is the spice of life! Without change this life would be an unbearable monotony. And there is nothing like the two-piece suit for a change in one's clothes.

Its novelty lies in the opposite extreme of what one has been wearing. It is a sort of recreation tonic that tends to offset the monotony of the heavier garments.

But there are "two-piece suits," and "two-piece suits." There are two-piece suits that sit and look as expressionless as a brass image. Devoid of life. You'll usually find them in the "made-up" kinds.

In Hoberlin tailored to measure two-piece suits, all men are assured of extra value, style and skill, in tailoring. They show the spirited lines of life that mark the difference between the "made-up" kinds and those from real tailor shops.

There's a splendid display of fabrics to choose from in the new color tones of plain and fancy effects in worsteds, chevots, Halifax and home-spuns. Made in "Norfolk" or "Sack" styles. The greatest values in town at \$17.75.

We are receiving many orders for delivery in time for the National Holiday, and can guarantee all garments to be finished in time, or earlier if you prefer.

MIDSUMMER APATHY IN STOCK MARKETS

Speculation Reduced to Very Small Volume in the Toronto Exchange.

INVESTMENT CHANCES

Many Favorable Opportunities Afforded—General List at Merely Steady Prices.

With the usual period of midsummer dullness at hand, and the speculative movement reduced to a low ebb, the Toronto Stock Exchange has drifted into a rut.

Stocks moved along in the even tenor of their way yesterday, with the usual favorites almost on a par with the closing levels of the previous session.

The usual round of new low records were piled up, Spanish River preferred at 85, Burt preferred at 92 and Standard and Imperial 4n the banks all moving into very ground.

DR. PEARSON ON MEXICAN OUTLOOK

EXPECTS TO SEE REBOUND IN C. P. R.

English Writer Believes Supporting Syndicate Will Be Formed if Necessary.

Some interesting comment on the drop in Canadian Pacific is given in the Investors' Chronicle of London, England, by a writer, who says that it should not be forgotten that the stock is the index security for the Dominion and that if it was allowed to go much lower it would greatly weaken confidence in Canadian securities generally.

STANDARD OIL CUTS ANOTHER BIG MELON

The harvesting of the Standard Oil "melon" crop is proceeding apace. On Monday the shareholders of the Solar Refining Company voted in an increase in the capitalization from \$500,000 to \$2,000,000, and now it is announced that a stock dividend of 300 per cent. will be paid.
