LONDON, Sept. 15.—In an eight-word statement made today by the British war press bureau, official announcement was made that the Anglo-French forces had occupied Rheims after driving the German army further back from the recent battlefields in France. Closely following the statement came unofficial reports from

the theatre of war that the kaiser's army was still retreating, hotly pursued by the entire French and English troops, and that thousands of prisoners were being taken. Boundless joy was created by the publication of a report from

Dieppe that the British forces, in executing a circling movement thru Roye on the Arve, and Ham, near the River Somme, had cut off the army of General von Kluk, compelling his surrender, and from 15,000 to 25,000 of his men, together with their equipment and field guns. The report could not be confirmed. It is believed that it may dead were in piles of horses and men. I have seen men slidt so close to one another that they remained they remain

The netperate stand to permit the escape of their armies from France before they are separated or annihilated.

Keenly remembering the Prussians' investment of Paris, which began 44 years ago, the French are taking sweet revenge against the Germans. Since the Germans were turned back from the gates of Paris the fierce and continuous attacks of the allies have been such that military observers assert that the enemy cannot recover strength enough to make a stand on French soil, which would turn the tables on the allies. It is estimated that the German losses are five to one greater than those of the allies. In addition the kaiser's men have been forced to abandon a great number of artillery pieces and large quantities of supplies and ammunition.

The British press bureau gave out the following statement: "The enemy is still occupying a strong position to the north of the Aisne and fighting is going on along the whole line.

"The crown prince's army has been driven further back, and is on the line of Varennes, Consenvoye and Orenes. "The allied troops have occupied Rheims.

"Six hundred prisoners and twenty guns were captured yesterday by the corps on the right of the British. "Rain has made the roads heavy and is increasing the difficulties of the German army in its retreat."

OFFICIAL FRENCH STATEMENT.

PARIS, Sept. 15, 11.16 p.m.—The official communication is sued by the French Government tonight gives no details from the battle line, except to say the allied armies are in close contact with the Germans everywhere, and that the forward movement continues between the Meuse and Argonne.

The text of the communication is as follows: 'On our left wing our armies are in close contact with the ene-

"There is nothing to report concerning our right wing." ATTEMPT TO STEM TIDE.

An attempt to stem the tide of their rapid retreat was generally expected to be made by the Germans after the allies had compelled them to retire defeated from the great field of battle to the east of Paris, where they had fought stubbornly for seven days and had

The British and French aviators ran daring risks following the retrograde movements of the German army, but they succeeded in gathering the information that the Germans had erected field works at various places along the northern plateau beyond Rheims.

These works were intended by the Germans for the event of

the possibility of meeting superior forces and being obliged to retire and to reform.

EFFORT TO CHECK PURSUIT.

It is understood they left several corps on their western wing and on their centre with the desperate task of holding these lines so as to prevent their pursuers from harassing the bulk of the German army which in the meantime was making quickly for the frontier.

Many detached parties of German troops have been captured wandering about the woods, where they found themselves with little ammunition and no food supplies, and deserted by their comrades who were making forced marches.

There has been no cessation in the preparations at Paris for defence. Altho the Germans now are a considerable distance away, and the likelihood of their return is regarded as remote, thousands of men are being enrolled daily for the formation of new forces and to fill the gaps in the ranks of the armies which have been in the field since are being enrolled daily for the formation of new forces and to fill the gaps in the ranks of the armies which have been in the field since beginning of the war.

Some military critics are of the opinion that the stand now being made by the Germans along the River Aisne is the beginning of a new battle which may develop into a combat almost, if not quite equally as serious as that on the Marne. It is pointed out, however, that the struggle must be a frontal one from the German side, while the allies occupy positions from which an enveloping movement can be effected.

EOUAL IN STRENGTH.

The strengths of the forces engaged, altho kept secret, are be-lieved to be almost equal. It is argued, however, that the allies pos-sess the advantage of prestige, which has been increased since they repulsed the Germans on the east of Paris. The allies also command the railroads, which enable them to bring reinforcements, while the Germans are not in a position to obtain additional troops owing to the Belgians keeping several German army corps engaged since they have taken the offensive from Antwerp. The following official communication was issued today by the

French war office here:

"First—Along our left wing yesterday the Germans offered some resistance on the north of the Aisne on a line stretching past the forest of Astele and Graonne.

"Second-In the centre their lines of resistance yesterday lay to the north of Rheims and the Plains of Chalons, touching Vienna la Ville at the west end of the Argonne. The enemy's forces have occupied the south of the Argonne and have accelerated their movement of retreat, passing between the Argonne and the Meuse. Last

night they had their front on Varenes and Conservoye.

"Third—On our right wing the Germans are falling back on Etain, Metz, Delme and Chateau Salins. In the Vosges and in Alsace the situation is unchanged.

"In Belgium the Belgian army continues to spread out around Antwerp, causing the enemy serious losses."

RUSSIANS RUSHED TO PRUSSIA.

PETROGRAD, Sept. 15.—The entire fighting strength of the Russian army, with the exception of the proportionately small forces now operating in Galicia, is being rushed to the East Prussian border as fast as it is mobilized.

The entire Russian field army, of the first and third line of troops, will be devoted to the invasion of Germany. The czar has declared that he will ride into Berlin at the head of his troops. The Germans are centring their forces in East Prussia, while across the border the Russian soldiers are massing to resist them.

The Russians are now besieging Koenigsberg, but are sending all the new troops that are raised further to the south, where their left flank is operating toward Breslau.

ADVANCE THRU SILESIA. The main advance will be directed thru Silesia, where it will be

free from danger of harassment fro many Austrian force. The Austrian army which has fallen back on Przemysl include one entire German army corps and part of another. The services of these forces have been lost to Germany, as they will be besieved there for the duration of the war at least. The Fortress of Przemysl is well provisioned with one year's store, and the forts are well equipped with guns, and it appears to be Russia's purpose to content her-

self with investing the place and holding the Austrian forces there.

ANTWERP, Sept, 15.—Under the command of King Albert the Belgian army is making another raid on the German line of communication from Louvain to Malines. Premier De Broqueville states that the recent offensive movement of the Belgian army was completely successful in drawing back into Belgium the German RUSSIAN ADVANCE reinforcements that had started for France. It is estimated by the Belgian war office that in the fighting 2000 Germans were killed.

SERVIANS BOMBARD OSSOVA.

PETROGRAD, Sept. 15.—A despatch received by a news agency here says that the Servians have bombarded the Hungarian Town of Ossova, on the Danube River a short distance above the point at which the Danube leaves Hungarian territory.

The Japanese branch of the Red Cross Society has sent a field hospital of 200 beds into Russia for use in the war.

PREPARING FOR FINAL STAND.

LONDON, Sept. 15.—The belief is growing more and more firm here that the Crown Prince Frederick William is gathering the kaiser's armies in France for a final stand in the vicinity of Montfaucon and Verdun. His position will put his forces in the region between the Aisne and the Meuse, with his line of communication and his line of possible retreat to the east thru Luxemburg. The beaten German forces around Nancy will move back again and the armies of the German right will effect a juncture with the crown prince's force and the result will be a massive but coherent column, which will be able to hurl an enormous weight of men against the French centre or to cover an orderly retreat along the defile between Verdun and the Ardennes. The terrific battle that is on there today is one of tremendous importance, if it does not turn out to be the decisive action for the German campaign in France.

FIVE ARMIES CONCENTRATED.

The combined forces of five of the seven German armies operating in France are concentrated in a comparatively short battle line. Interest and the state and the state of the state of

River Aisne and have secured footholds on the north bank in several places, where crossings can be effected.

The reports received from the allies as well as that from Dieppe of the surrender of General von Kluk and 25,000 men, are more favorable to immediate success for the allies than any received since the first retirement began nine days ago.

GERMAN ATTACK REPULSED.

An attempt was made by the German crown prince's army to break thru the allies' centre between Verdun and Toul, which was repulsed. The troops of the allies' armies are in better condition than those of the enemy. The allies' left wing has been reinfored by the army of 500,000 fresh troops. All the lines of communication from the French bases are well organized.

The French left wing has moved around after pursuing the Germans to the north of Rheims. It is this wing which is reported on good authority to have captured the remnants of the army of General you Kluk.

Official announcement was made here this afternoon by the British Office of the occupation of Rheims, France, by the allies. The state-

GENERAL RETIREMENT ORDERED.

Despatches from Vienna say that altho the Austrian Government is making no effort to concest the overwhelming detect in Galicia, it now declares that the situation is improving. Amountoment is made that the Austrians are reforming under the defences of the River San, and are expected to hold their positions there indefinitely.

Inspired by their success over the Austrians in their recent conflicts, the Servians are sanguine they can march to Budapest. It is announced that they have already captured the strong fortifications at Sezania and are advancing upon the left bank of the Save.

Banking and Currency Now Canada's Big Issue

The banking and currency question grows in interest for the general public. Our banking inagnates should attend a meeting like that in West Toronto or the ymede, in the same district, both within the past ten days. The people opeared much concerned as to the scarcity of money, lack of work because of the refusal-by banks of credit to employers, and the granting by parliament of a moratorium to banks-suspension of gold payments for bank notes-while no one forward with a reasonable plan for the deferment of payments in the nortgages on poor people's homes, where the owners were not able to meet them because of lack of work, or in cases where payment in full was called for, the time limit of the mortgage having expired, and renewals were not to be had. They were also highly interested in the celerity of action of Lloyd Geroge as national head the finances of Great Britain in helping to carry on business in that country in how he aided the banks with the guarantee of the government and then forced the banks to finance business generally. It was surprising to see the grasp the ordinary citizen has of the first principles of banking and currency, especially if it is put to him in plain terms by those who know the question. It

question put at the Runnymede meeting by one of the representatives of organized labor: "Who," he asked, "was in parliament when the credit of the nation (and by this he means largely the right of issuing currency) was turned over to a private other people also wish to know how Canada today happens to be the only country that is in the position of allowing private banks to issue the currency. Let us answer as best we can. In the carly days of this country, say, seventy years ago, when of credit, and the government of that day were willing to do almost anything to get banks established, to get more currency, and some kind of improved system of exchange organized. Parliament of that day, under the circumstances, practically allowed the banks "to write their own charters," and this phrase, "to write youown charter," has become rather notorious if not historical in the records of this North American continent, and in the records of all our legislatures. In far too many cases have charters been written by the parties who got them.

The legislature was either careless or more than anxious to get some kind of In consequence of this situation, the right to issue bank notes, while it may have been of little concern then, ought to be of the highest concern today; and while unfortunate fact is that the rights of the banks have been increased each time the charters were revised, and in no instance was this more flagrant than in the

erganized on the lines of strengthening their privileges, they did not like the idea of postal savings banks, they did not like the idea of postoffice money orders, postal orders; and they deliberately intimidated the government and parliament whenever t was proposed to increase the interest on deposits in government savings banks and in the postoffice; and they also looked with dread on the issue of Dominion notes, which were practically a national currency; and when they could not head this off completely they were able to limit the issue of Dominion notes to \$1 and 32 bills, with some others of very large denominations, used principally as countered n the banks, rather than for everyday currency.

But since the time that Canada has organized her chartered banks and gave them these great privileges other countries have been following a quite different line and have been gradually and steadily coming to the practice of the state issuing the currency, whether of coin or of notes-withdrawing bank-note issues and submany, in Russia, in Italy and many other countries, including those of South America and notably in the case of Australia and some of the British possessions. The United States has spent the last fifty years since the great civil war in gradually eplacing the bank-note issues of those days with federal notes. The war was only ought to a successful issue and the reconstruction of the country after the war carried out by means of national notes, which, on their first issue, were at a discount. Gradually, however, federal notes in the States have become as good as gold, and are preferred even to gold and silver.

In England, the only bank allowed to issue notes today is the Bank of England. Other banks that had that privilege thirty or forty years ago have gradually had that privilege canceled, and, as a matter of fact, the Bank of England notes of are national notes; and Lloyd George within the last six weeks put out mal notes of one pound and ten shillings each to the extent of a hundred million llars, which are nothing but promises of the treasury commissioners in connecdepartment of the exchequer to pay the bearer one pound or ten sillings, as the case may be. There is no gold behind them other than the credit of the nation. And this has proved to be the best money they ever had in England,

carefully got hold of them and put them in cold storage as gold or a substitute

And then, besides the question of currency, there is the question of credit, and credit is a thing that can be sold by those who are in the business, whether by the banks or individuals of wealth. But there is not one's credit now so good as the credit of the country. As was pointed out in Mr. Chiozza Money's article, printed in this paper yesterday—and Mis Money is a member of pafliament and a financial expert as well-the credit of a nation is the only thing wherewith to finance a country in time of war, and if in time of war, then certainly in time of peace as

.

Therefore, the new way of financing, new more or less to Canada, but not new some of the countries of Europe, is that the banking and currency ought to be absolutely within the control of the nation itself, and that by means of its credit and by the issue of national notes based on that credit, money can be supplied t banks on security for the purpose of financing the business of the country; to us the words of Lloyd George the other day.

The question, therefore, that is coming up at these little meetings in Toronto and similar meetings will now be held in other places, is how long will it take Canada to get on this new basis, of having absolute control of the issue of all currency and lending the credit of the nation to business by way of the chartered banks, and only this, but segulating the banks in the rates they charge for the use of the tional credit and the national currency.

The chartered banks of Canada, however, will make a desperate fight against any such reform, and, as a matter of fact, they appear to have been the only parties insulted in the recent measures of parliament to assist the financing of Canadian winess by reason of this war; and apparently they are doing their best to minimize the service of these measures. They do not want to take advantage of the issue of excess currency if they can help it, they do not want their own bank notes made legal render in the clearing house of the banks because it more or less interferes

legal render in the clearing house of the banks because it more or less interteres with their privileges and brings them one day nearer the adoption of an absolute an erid, and altho the allied armies are keeping in touch with the retreating to the country.

The foregoing despatches caused the utmost excitement, both the Von Kluk and the Rheims reports being of supreme importance. Gen. von Kluk's the German force which tried to make the enveloping movement around to the north and east of Paris after pursuing the retiring British troops from the Belgian frontier. Apparently the allies have caught Gen.

Von Kluk has been operating on the German right wing, and has consequently been opposed to the left wing of the allies, composed principally of British troops. His army has been re-tiring before the allies for several

Scarboro Township's annual school fair, which was held at Agincourt yesterday, set a very high standard in the quality and number of exhibits. Every school in the township contributed to the excellent display of fruit, vegetables, flowers and grain grown by the pupils, and

art and craft departments were also well represented.

J. C. Steckley, district representative of the agricultural department, acted as adjudicator and gave the children an educative talk on his various awards.

Oratory Contest.

Possibly the most interesting feature of the day's proceedings was an oratory contest, in which the older boys took part. Chas. Empringham of Malvern won first prize with an excellent address "The War," and George Jackson of on "The War," and George Jackson of Scarboro Village won the second with an address on the same subject. The third prize was awarded to William Miller of Scarboro Junction, his subject being The Battle of Queenston Heights." Some local public speakers were very much impressed with the brilliancy and force of the boys' addresses, and will

ANNUAL SCHOOL FAIR

Excellent Display of Pupils' Work
From Every School in Scarboro.

A large and enthusiastic audience packed Playter's Hall last night, when a grand concert was given under the auspices of the Todmorden Conservative Association in aid of the Toronto and York Patriotic 'Fund. An excellent program was rendered by a number of talented artists, who drew much applause from the audience. The "hit" of the evening was made by Fred G. Rodgers for his spirited rendering of "The Death of Nelson," and he had to respond to a number of encores before he was allowed to retire. Miss Annie Asheroft sang "Land of Hope and Glory" with much feeling, and the Ladies' Quartet, including Mesdames Ballinger, Reid, Warner, and Miss Morse, contributed a number of fine selections.

The humorous songs and sallies of Sandy McDonald amused the audience immensely, arousing roars of laughter. W. Turley also scored a success with his

WEDNESDAY MORNING, SEPT. 16

The Blindness of Shut Eyes

Considerable injury has been done to the effort to adjust business conditions in the last few weeks by the intentional or unconscious misrepresentation of the suggestions made in this direction. Genuine alarm be felt in certain quarters at the word moratorium. From the violent feelings it excites in some people one might suppose it had something to do with death and devastation. In England and elsewhere it has not brought about any of the evils that have been attributed to it, but it has prevented the gains which might have accrued to a few unscrupulous creditors, and they have complained after their manner.

In Toronto one might think to hear some of these reports that a moratorium was intended to relieve everybody of the responsibility of paying his just debts." As nothing of the kind is intended it will be evident that a good deal of misrepresentation has been going on. No general moratorium has been proposed at all. The limited opmerely contemplates the suspension of the payment of such capital sums as the arrest of trade thru the war

and to reduce commerce, manufacturdone in Germany.

This is a fine display of patriotism! Perhaps the government, which took measures to remedy this very possibility, and placed these measures in something more is necessary if Canadian business is not to have a very

People burdened with mortgages. whether by moratorium, or some other means, should be protected from the greed of indecent mortgagees, no better than Uhlans, who would take advantage of the conditions prevailing in time of war to seize embarrassed property. This latter step would merely leepen the hole into which business has fallen.

Credit has suffered a mortal blow at the hands of the banks. If mortgages are to be foreclosed also, then business in Canada will not recover from the war any faster than it did in Toronto from the slump of 1889. The rich menthe bank directors, the capitalists, are

Vitalizing Charity.

An important principle has been emphasized by the bureau of municipal research in connection with the unemployment problem. It is that charity is not wanted, but work, and work of a productive and useful nature. We are heartily in favor of the idea upon which the proposed methods of relief are based, because it involves followed the defeat and partial dis-

Suggestions for the use of the fund by the bureau include loans to municipalities for the purpose of carrying on needed public improvements; makcharge of the banks, will feel that ing advances to citizens willing to accept loans but not charity; loaning of victory are divided, as The Toronto money for machinery, etc., to families going on the land; reforestation and

It must be remembered that the interest on mortgages, payments of plan is a substitute for charity, and interest of any kind, of wages, or not an ordinary business proposal. If business ideas can be introduced into the outlay of charity funds, and if a A moratorium, in fact, to be of any return can to any degree be assured use, is intended to provide that just from such an expenditure, then it must surely be regarded as more desirable than the simple allotment of the money on hand and the closing of dreamer who dreams of universal mortgage should be foreclosed at a the fund. If the idea worked out well peace: he is the Mark Tapley of philotime when money is scarce merely be- it would mean the indefinite extension cause the banks have agreed to make of the fund, constantly added to as need and occasion arose, but directly supported out of its own activity.

A Peaceful Dream

It is suggested by a contemporary that an offending nation may be disciplined in the future, not by war or invasion, but by the refusal of all treaties, constitutions and agreements other nations to have commercial deal- that can ever be suggested by the phiirgs with her until the cause of of- losophers, or even accepted by the nafence is removed. In short, the nation which violates international public policy is to be ostraclsed, and we are told:

Civilized nations have it in their power, by international executive action, to prohibit all traffic, export and import, with the one nation that refuses to trade on a

But how is this to be accomplished? nation like Britain with a vastly superior navy, might successfully keep our ports open against the combined navies of the world; to invest a continent like Australia would be almost impossible. How could such an empargo be enforced against a country like the United States, and how much would it accomplish when directed against a huge self-sustained country like the Russian Empire?

But as we understand the argument, all nations after the present war are to limit their armaments. Not only is the German navy to be scrapped, and the German army to be greatly reduced in size, but the victors are then to voluntarily enfeeble themselves in like manner. Indeed, if we understand its all the nations of the world are to get upon, and stay upon, a permanent peace footing.

It will also handle the contributions of the municipalities concerned, both for construction and maintenance, and will assume control until the road is will likely be W. A. McLean, provincial engineer at the present time and member of the highways commission. One of the members will, it is understood, be Geo. H. Gooderham, M.L.A., who was instrumental in the launching of this plan in the hope of providing relief for the unemployed of Toronto and Hamilton, and another eligible member is Reeve Forster of Oakville. There is Reeve Forster of Oakville. There will likely be five men on the commission. This program was decided upon yesterday at a conference of all the interested parties with the cabinet.
One of the important points arranged
was the contribution of \$150,000 from
Toronto and \$30,000 from Hamilton. The counties will subsidize the con-struction at the rate of \$4,000 per mile. Cities in Favor. Hamilton and Toronto at the open-

ing of the conference expressed their favor of the plan altho Mayor Hocken asked that the city be only approached for \$150,000 instead of \$175,000, a suggestion which was adopted. Some discussion as to the method of upkeep followed and it was decided that the commission should gather this according to the ratio in which contributions had been made. This was on the basis of lenefit. F. S. Baker then entered a plea for the middle course as consend to the lake shore route. as opposed to the lake shore route, stating that the farmers were gaining little and the motorists everything under the proposed plan.

"Are you going to commence build-ing roads in the face of the Hon. Jas. Duff's advice?" he asked. "If you take the shore route it is for the ornamental and pleasure-loving people and not for the farmers who are urged to grow more produce."

Words, Not Deeds.

This idea was combatted by Mark Irish and by others who pointed out that altho there had been much talk on the part of residents along the middle road, they had never shown much inclination to raise money. If the strip they would be out on the big highway.
On the motion of Geo. Gooderham
the original report was modified ac-

cording to the suggestion of the com-mittee and the matter was left to the government. Hon. Dr. Beaume who presided stated that there would be no delay in the appointment of the commission, and the work will com-mence in all likelihood within three weeks.

THE FIRST CONTINGENT WILL BE GOING SOON.

PRAISE FOR MEMBERS OF ENGINEERS CORPS

President Nicholls of Canadian General Electric Delivered Farewell Speech.

The corps of 25 engineers, both electrical and mechanical, which the Canadian General Electric Co., Limited, has raised for service during the war from its different engineering staffs, assembled in Toronto yesterday, under Capt. Hazen Ritchie. After being sworn in and receiving its equipment, the corps met at the head office of the company on West King street, where Mr. Frederic Nicolls, the president,

addressed them.
"In times of danger to the empire," said Mr. Nicolls, "it behooves every corporation, as well as every private citizen, to render such service as op-portunity offers. After consultation with the government, part of the ser-vice rendered and to be rendered by our company has been to raise and maintain the corps of engineers to

UNEMPLOYED GIRLS NEED PROTECTION

W. K. McNaught Suggests That Wealthy Families Provide Homes Thru Winter.

KEEP MINIMUM WAGE

Speakers at Toronto Industrial Committee Urge Policy of Confidence.

One more imperative need for an organization to provide employment was stressed by W. K. McNaught at the organizing meeting of Toronto's committee of the Provincial Industrial Association yesterday. He said: "One of the first things we must do is provide work for office and factory girls. Hundreds of these are now forced out of work. The situation is grave; unles these girls succeed in their constant efforts to secure work they must walk the streets. During these last few days hundreds of those young women have come to me asking for assistance

have come to me asking for assistance in finding employment."

Mr. McNaught suggested that women with comfortable homes should help care for these young women during the winter; many would be glad to take domestic work; even if they did not work, all were deserving of aid. Many Toronto women could easily invite these girls to live with them for the winter. Humanity demanded that they be not allowed to fight this fight alone. They were alone in the city, many They were alone in the city, many without friends.

without friends.
The following were elected as the Toronto executive, with power to add to their numbers: Controller McCarthy, chairman; W. S. Gourlay, A. L. Malone, Mrs. A. A. Hamilton, Fred Bancroft, R D. Fairbairn, Fred Nicholls, J. E. Atkinson, W. H. Price, Ald. Bobbins

Fatal to Reduce Minimum. During a desultory discussion Controller McCarthy and Mr. Atkinson made very clear their policy on the minimum wage at this crisis. "It minimum wage at this crisis. "It would be almost fatal," stated the latter, "if suspecion were to circulate that the minimum wage would be reduced under present conditions. Class antagonism would be aroused." "With my consent no crisis of the moment shall be used to break the new mini-mum wage. I am in favor of the mini-mum wage," said Controller McCarthy. Sentiment seemed to be in favor of restricting the committee's work to efficient management of the entire plan and dividing up relief work among the

social service commission, etc.
Controller McCarthy stated that 80 per cent. of the employment to be pro-vided in Toronto, exclusive of govern-ment work, would originate at the city

to Its Readers. It is customary to think that his tory is dry reading. As a rule this is true, but the readers of Josephus Nelson Larned's great History of the World will find it one of the few works of the kind that read like a novel. This is due to the author's wonderful clarity of style, and his natural genius for narrative. He is one of the few great historians who seem to be born for that special vocation. He has told in his history the story of seven thousand years of the life of mankind, and told it well. It is safe to say that one who has read his Larned can go anywhere and hold his own with people of learning and education. It is an invaluable work and should find its way into the library of every reader of this paper. Our coupon offer, printed elsewhere in today's issue, explains how easy it is to get this wonderful

ST. JOHN. N.B., Sept. 15.—That there is not a shortage of money in St. John was proven by the universal response to the appeal for aid to the patriotic fund, some \$20,000 being collected in St. John alone, in sums ranging from a dollar to \$1000. Business men cheerfully gave up their time to go out and solicit for the fund and were rewarded by the prompt and sympathetic response from even the very poorest citizens. one tablespoonful four times a day.

The first dose promptly ends the most distressing head noises, headache, dulness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat are other symptoms that show the presence of catarrhal poison, and which are quickly overcome by this efficacious treatment. Nearly ninety per cent. of all ear troubles are directly caused by catarrh, therefore there are but few people whose hearing cannot be restored by this simple home treatment. Every person who is troubled with head noises, catarrhal deafness, or catarrh in any form, should give this prescription a trial. There is nothing better. othing better.

WAGNER FAILED TO HOLD ROYALS

Leafs Dropped Second Game of Series by One-Sided Score — The Details.

The Royals turned the tables on the Leafs yesterday at the Island when they slipped a win over to the tune of 7 to 2. Early in the struggle Kelley and his band nad great hopes, insomuch as they started well, but these vanished, and subsequently the disaster. After holding the visitors scoreless in their half of the first the Leafs opened a sharp attack with three bingles, and two runs were sent across the plate. Miller, who was oppos-ing Wagner, did not seem to have much on the local boy at the start and the fans were preparing to receive another victory when Wagner faltered. In the third the when Wagner faltered. In the third the Royals utilized three safe knocks for two runs, tying up the score. Miller began to improve and Wagner came down to earth for a brief period, giving the locals confidence again. Merrily waged the battle, but the end was in sight. Two singles and an error saw two more of those peasoupers saunter down the line between third and home. Jordan had a chance to be a hero in the eighth with Fitz on third, but he struck out.

The feature of the game was the remarkable one-hand stabs of Isaacs and the all-round work of Front.

RUGBY TEAMS IN

Varsity Candidates Out Again a ball pitched by Engmann. Score: -Busy at the Beach -News and Gossip.

Varsity turned out another good squad last night, and Bob Sinclair gladdened the hearts of the railbirds by getting into the fray. Several of the second and third teams were on hand, and a great punting duel was the extent of the work. Several new men are expected out before the end of the week. Billy Milhe was also on the job last night.

The Capital Rugby Club held a very enthusiastic meeting in their clubhouse last night, at which they decided to have last night, at which they decided to have about six teams chasing the pigskin in Ketchum-Park this season, including their Junior O.R.F.U. team. It was also decided to call practices for Wednesday night and Saturday afternoon, and a full turnout in uniform is requested. All and members and any new ones wishing to join fast teams will be made welcome. 519 join fast teams will be made elected for 512 The following officers were elected for 473 the coming season: President, Sam Fitzgerald; first vice-president, Ted Whale second vice-president, Jas. > The High Park Rugby Club made The High Park Rugby Club made a good showing Monday night, there being enough out for three teams. Kicking practice was the feature. The boys are rounding nicely into shape, and a successful season is assured. They practise Wednesday and Friday evenings of this week at Roncesvalles and Wright avenue grounds. All players are requested to be out early.

> The Riverdale Rugby Club request all last year's Rugby players to turn out to practice on the east side of Don Flats Wednesday and Friday nights of this week. Any new players will be made

It gave the bunch on the Ottawa side lines a treat to see Bert Stronach out at the initial practice. The big Scot is a tower of strength on the Ottawa line and will be needed badly this season. Stronach, along with Boucher, Kuhn and Emmerson, set a good example for the seniors by getting out at the first practice.

Balmy Beach teams have settled down o hard work this week and will practice in Wednesday and Friday evening. On Saturday it is quite likely saturday it is quite likely the Original team will have a practice game with Argonaut seniors at Rosedale. The following Saturday they go to Guelph to play the Agricultural College there. They are leaving nothing undone to have their teams in the best possible shape for the opening of the season. A full turnout of all the O.R.F.U. team is requested for the state and Friday as the boys must be of all the O.R.F.C. tall is began to be in the best possible shape to make a showing against the speedy scullers.

The World's Selections

NEW YORK, Sept. 15.—Other than the overnight events, one of which was a steeplechase, the headliner of the racing program this afternoon fro ma quality viewpoint was the Hindu Handicap for three-year-olds at a mile and a half. But as the field in this race consisted of but three starters—Gainer. Addle M. and Spearhead—but little interest was aroused over the outcome. But the contest itself was as brilliant and interesting as one would care to see. Spearhead was indulged with the lead until the last half-mile. All three were then under pressure, and after Addle M. had disposed of Spearhead she was forced to do her best to stall off the determined challenge of Gainer. Summary:

There appears to be a fair demand for Hollinger stock. During yeaterday's session of the Standard exchange 17.00 was paid. This is an advance of about 25 points over the previous day's quotations. Timiskaming is also being enquired for. In this case, as well as with Hollinger, there does not appear to be many sellers on the market.

Yesterday's trading was confined to seven securities. Besides Hollinger at 17.00, Jupiter was traded in at 5½. La Rose brought 75. Timiskaming started at 7½; it ended at 8. Wettlaufer sold at 5½. Beaver Con. was sold at 19½. Nipissing for 25 shares brought 5.00.

CONSIGNMENT OF GOLD—ARRIVES AT OTTAWA

OTTAWA, Sept. 15.—A consignment of \$5,000,000 of gold reached the department of finance from New York for the Bank of England yesterday. It was made by of J. P. Morgan and Co. It is expected that there will be another shipment of about \$10,000,000 before the end of the week.

DIVIDENDS ARE DECLARED.

It is announced by the directors of the Consolidated Mining and Smelting Co. that the regular quarterly dividend will be paid Oct. 100.000,000 the control of the bearish influence of this news was more than offset dater by assertions of a big victory for Germany over the Russians.

Buying for Export.

At the lowest point reached today.

delivery had reached \$1.32, the highest record in the present war. Liberal export buying which developed on the break had some effect in bringing about the ensuing final swell. There were reports also of serious wet weather delay and damage to the domestic spring crop. Corn showed strength from the first to last, altho much hindered by setbacks in wheat. The Iowa state report was bullish, and widespread rains were said to have injured early corn in shock.

Oats fluctuated with wheat, changes depending almost wholly on the varying outlook regarding the probable length of the war.

New York's Financial District EIGHT TONS OF GOLD ARRIVED AT OTTAWA

Cheerful View.

OTTAWA, Sept. 15.—Eight tons of gold, valued at five million dollars, arrived at noon today over the New York Central lines and under heavy guards, and was at once moved to the functial circles, where the belief prevailed that none of the contending forces would consider such proposals pending a decisive battle.

The exchange market, which was more diversified in its operations than at any time since the European outbreak, continued to show improvement. Rates on London hardoned a trifle, and a few reichsmark bills on development.

OTTAWA, Sept. 15.—Eight tons of gold, valued at five million dollars, arrived at noon today over the New York Central lines and under heavy guards, and was at once moved to the vaults of the Dominion Government. The shipment was from J. P. Morgan & Co., and was consigned to the finance minister, who will hold it as trustee for the Bank of England, New York Central lines and under heavy guards, and was at once moved to the vaults of the Dominion Government. The shipment was from J. P. Morgan & Co., and was consigned to the finance minister, who will hold it as trustee for the Bank of England, New York will make payments to London by drawing against these deposits. It is expected that \$15,000,000 in all will arrive in Ottawa this week. The placing of this money to the credit of the Bank of England at Ottawa, it is believed, will help to facilitate the carrying on of business between this side and the old country.
