The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Time for Going Through the Falls.

The Falls are level or still water at about three and a half hours on the flood, and about two and a half on the ebb, so that they are passable four times in twenty-four hours, about ten or fifteen minutes each time. No other rule can be given, as much depends on the floods in the River Saint John, and the time of high water or full sea, which is often hastened by high winds, and in proportion to the height of them.

Cotton Manufactures.

ESTABLISHED 1861.

COTTON YARNS

Awarded the only medal given at the Centennial Exhibition for Cotton Yarns of Canadian manufacture.

**Nos. 5 to 10's,
WHITE, BLUE, RED, ORANGE AND GREEN,**

made of good American Cotton with great care, correctly numbered, and warranted full length and weight.

We would ask purchasers of Cotton Warps to remember that our Yarn is spun on Throstle Frames, which make a stronger Yarn than the Ring Frames used in making the American Yarn.

It is also better twisted and more carefully reeled, each hank being tied up in seven lease of 120 yards each. This makes it much more easy to wind than when put up without lease, as the American Yarn is, and also saves a great deal of waste.

Those acquainted with weaving, will understand the great advantage it is to them to use Yarn put up in this manner.

COTTON CARPET WARP

**Made of 10's Yarn. 4 Ply Twisted,
WHITE, RED, BROWN AND SLATE,**

ALL FAST COLORS.

Each 5lb bundle contains 10,000 yards in length, and will make a length of Carpet in proportion to the number of ends in width.

We put more twist into this Warp than it formerly had, and it will now make a more durable Carpet than can be made with any other material.

Since its introduction by us a few years ago, it has come into very general use throughout the country.

GREY COTTONS

IN VARIOUS QUALITIES AND WIDTHS.

This Cotton will be found quite equal to American in appearance, and owing to the Yarn being harder twisted, it will prove much more durable.

It is made with the smallest possible quantity of Sizing, and is consequently very much superior to any English Cotton imported.

Our Grey Cotton has our Stamp upon it.

THE AVERAGE BOY and a good-sized lump of maple candy, form the materials from which we might deduct self-evident conclusion regarding the facility with which attachments are formed in early life, when the circumstances are at all favorable. Among other good illustrations we might also particularize the case of the little fellow, who, as an inducement to his indulgent maternal relative to make an addition to his customary dose of **Robinson's Phosphorized Emulsion**, suddenly brought the matter to a focus by exclaiming, appealingly—"Just gim' me one more teaspoonful and I'll go right off to sleep."

ROBINSON'S PHOSPHORIZED EMULSION OF COD LIVER OIL WITH LACTO-PHOSPHATE OF LIME

is particularly adapted to delicate Females in those low states of the system that manifest themselves in so many of the ailments peculiar to their sex. To the aged and infirm its nourishing and invigorating properties will give renewed strength and buoyancy of spirit; while to very young children its continued use will be found of incalculable benefit, as its tonic and nutritive properties supply the blood with strength giving materials for bone and muscle structure, and thus furnish the foundation for strong and healthy constitutions. It is very pleasant to the taste. Prepared only by J. H. Robinson, St. John, N. B., and for sale by druggists generally. Price \$1 per bottle, or six bottles for \$5.
