The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\longrightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

Archives of Ontario  
Toronto

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\longrightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

#### INSPECTOR'S REPORT OF THE WELLAND HOUSE OF INDUSTRY.

*To the Warden and Councillors of the County of Welland, in Council Assembled :*

I beg to submit the following report as Inspector of the House of Industry, being the first report since the House was established. Although the By-law directs that a report shall be made half-yearly, the time of opening being such that a report could not be given satisfactorily previous to the end of the year. This report will extend from the introduction of the institution, covering all expenditure in connection up to and including the 31st December, 1888.

In comparing the following report with the report of the committee at December session, it must be kept in view that their report was based upon the experience of and to the disadvantage of the year 1888. The report of the committee established what would be the probable cost per head for keep of inmates per year, not including any unusual expense such as the year 1888 has had to pay. The preparing, furnishing and getting into working order of an institution of this kind must have some latitude allowed, which no doubt will be readily admitted, and will therefore cause no astonishment at an increase per head for the year 1888 over that estimated by the committee for the coming year. Many items of expenditure will be entirely cut off and expenses generally lessened during the coming year, as a natural consequence. If at the end of the year 1889 the expenditure is not considerably lessened, there will be a reasonable cause for retrenchment in some department.

I therefore have the honor of presenting the following particulars up to and including 31st December, 1888 :

Number of inmates admitted during the year .....	58
Number of deaths during the year.....	4
Number of children bound out and sent out on trial.....	1
Number absconded from the House.....	4
Number discharged during the year.....	1
Number in the House at 31st December.....	48

The number of inmates admitted from the several municipalities within the county are as follows :

Bertie Township.....	6
Crowland Township.....	3
Humberstone Township.....	8
Pelham Township.....	4
Stamford Township.....	4
Thorold Township.....	6
Wainfleet Township.....	7
Thorold Town.....	4
Welland Town.....	9
Niagara Falls Village.....	3
Port Colborne Village....	2
Admitted from Town of Niagara Falls.....	1

Admitted by Warden as not belonging to any particular municipality, although a resident of County for previous 6 months..... 1

Among the various causes of pauperism of persons admitted during the year are : Idiocy, Infirmary, Intemperance, Insanity.

The total number of days in the House of Inmates from each municipality are as follows :

Bertie Township.....	6 Inmates.	602 days.
Crowland Township.....	3 "	411 "
Humberstone Township.....	8 "	1125 "
Pelham Township.....	4 "	672 "
Stamford Township.....	4 "	719 "

Amount of capital account.....	19350 02
Six months interest on capital account.....	580 50
Amount expended for permanent improvement account..	1472 53
Amount of produce sold .....	52 05

Amount expended on house maintenance account....	2102	94

“ “ “ beds, bedding, and clothing account .....	836	92
“ “ “ farm implements account .....	533	25
“ “ “ house furnishings account.....	1543	00

Amount expended on salaries account was \$990.22, as follows :

Two servant girls.....	\$	110	00
One sewing girl.....		60	00
The Keeper .....		225	00
The Matron .....		74	94
J. Kottmeier, farm hand .....		120	00
W. Michener, “ “ .....		18	00
Price W. Brown.....		15	00
Physician ....		58	34
Inspector.....		74	94
Committee time, proportion of which is considered charge- able to salaries. ....		234	00

Making the total expenditure on this account of \$990.22, of which \$24.00 was charged to the suit Bald vs. the County, \$588.22 charged to house maintenance, and the balance \$378 00, was charged to farm maintenance.

Amount of produce raised on the farm, and the several quantities were given in the report of Committee at the December Session, and was worth at a liberal valuation, \$696.07.

The amount used of the farm products, at the same valuation, up to 31st December, was \$278.07.

Leaving produce on hand at 1st January, 1889, \$418.00.

From the foregoing particulars, I am enabled to establish the rate per week, for the keeping of inmates for 1888. The anticipated amount of labor from inmates, has not been realized, as a large majority of them are old and not capable of doing much work. Those that are able are always found willing to assist, and I think very good judgment is displayed in the internal working of the Institution, and where I consider the most care should be used to curtail the general expense of an Institution of this kind.

I therefore submit for your information as to cost of inmates keeping as follows :

House maintenance account.....	\$2102 94
Farm maintenance.....	399 42
6 months' interest on capital account, \$19,350.02.....	580 50
5 per cent off beds, bedding and clothing account, \$836.92.	41 84

Making a total cost of .....\$3124 70

The total number of days for inmates, Keeper's family and help added, 9441, or 1348 5-7ths weeks, shewing a weekly expenditure of \$2.31½ each.

This amount may perhaps surprise some, but when it is taken into consideration that everything was new, and had to be got into running order, it will not be surprising, as at this sum the amount is less than by the old way of providing for inmates. Latitude must be allowed in the introduction of any new work till such time as all the machinery works smoothly.

The question of supply of water for household use will, I fear, become a serious matter, as a large quantity must necessarily be used, and from the experience of the last season, I do not see any alternative to taking steps towards the use of water from the Welland water works. I would suggest that prison labor be used in digging the trenches, preparatory to laying gas pipe, which screws together, that any person can do. If these tramps have to be kept they should be compelled to work.

In conclusion, I beg to say that I have endeavored to give as full particulars as possible in the foregoing report. If I have omitted any particulars relating to the Institution, I should be pleased to furnish the same upon being advised.

All of which is respectfully submitted.

J. C. PAGE,  
Inspector.

#### REPORT OF COMMITTEE ON HOUSE OF INDUSTRY.

*To the Warden and Councillors of the County of Welland, in Council assembled :*

Your Standing Committee on House of Industry, beg to submit this their report since last report :

Your Committee met on the 12th December, for the purpose of

preparing tenders for supplies and other matters. At this meeting the Grand Jury honored the Home with a visit and appeared satisfied with the condition and appearance of the House.

On the 27th December your Committee met again to open tenders for supplies for the coming year ; they also asked Mr. Morwood to assist them in deciding upon tenders, following the former custom.

The tenders of C. J. Page, for groceries, etc.; D. Ross & Co., for dry goods ; W. J. Best, for meat ; W. N. Everingham, for bread ; and D. McCaw, for boots and shoes, were accepted, they all being the lowest. Samples in each case were submitted. We submit the original tenders for inspection if required.

Your Committee after hearing the report of the Inspector of House of Industry, presented to Council yesterday, are not particularly surprised at the rate per week therein stated.

Your Committee at the December session, gave an estimate of what the probable cost would be for a clear year at \$1.85 per week.

Your Committee, to further convince themselves that their figures given at the December session were about correct, have taken the trouble to deduct the amount on farm and house maintenance expended previously to the 11th of June, from the amount submitted in the Inspector's Report, we find that the rate would be about \$1.77 per week, being somewhat less than we submitted at the December session

The "Home" was officially opened on the 11th June by Council, and by adopting the above mode we can get the rate per week according to our estimate.

All salaries with the exception of the physician's salary, commenced on 1st April, all help was boarded, and a few inmates were taken in previous to the opening.

The Inspector's Report includes all this expenditure which is not included in our estimate, the difference in rate per week can be readily understood by considering the above facts.

We would therefore recommend that this report be printed in connection with the Inspector's Report.

# MEMORIALS.

*To His Excellency Lord Stanley, Governor-General of the Dominion of Canada,  
in Council Assembled :*

The petition of the Municipal Council of the Corporation of the  
County of Welland

HUMBLY SHEWETH :

That in the opinion of your petitioners the use of intoxicating  
liquors as a beverage is the cause of much misery in many of the  
homes and to a very large number of the citizens of this Dominion,  
and is also detrimental to the best interest of the State.

That so long as liquor is used in any form as a beverage, so  
long, in the judgment of your petitioners, will this state of things  
continue, and it is our desire that steps may be taken to eradicate  
the evil.

Your petitioners, therefore, pray that you may be pleased to use  
your influence to have such legislation enacted at the present session  
of Parliament as will prohibit the importation, manufacture and sale  
of intoxicating liquors as a beverage in this Dominion.

And your petitioners as in duty bound will ever pray.

January 21st, 1889.

*To the Warden and Councillors of the County of Welland, in Council assembled :*

GENTLEMEN,—I beg to enclose a letter and annual report from the Secretary from the Ontario Artillery Association, asking your honorable body to make a small grant to the funds of the Association.

I would add that this Association is composed principally of the officers of the Ontario Batteries and their friends, and has no connection with the Dominion, and receives no assistance from the Dominion Parliament or Government (being exclusively a Provincial organization.)

I would respectfully ask you to consider the application and make such a grant as in the opinion of your honorable body would be right.

I have the honor to be, gentlemen,

Your obedient servant,

(Signed,) FRANK KING.

*To the Warden and Councillors of the County of Welland, in Council assembled :*

GENTLEMEN,—By 44 Vic., Chap. 30, Sec. 11, it is the duty of the County Council each year to provide an amount, at least equal to the apportionment by the Department of Education.

We therefore request that your honorable body will make the grant required. The grant by the department is \$150.

I have the honor to be, gentlemen,

Your obedient servant,

F. SWAYZE,

*To the Warden and Members of the County Council of Welland :*

GENTLEMEN,—At the last convention of the Welland Teachers' Association I was again appointed to interview you *re* grant for Promotion Examination. As the teachers were unanimously in favor of their retention, I would ask you again to grant the committee the sum of \$25. If you do so, kindly make it payable to Inspector Ball.

Yours sincerely,

J. W. GARVIN.

*To the Warden and Council :*

GENTLEMEN,—Kindly remember the annual grant to Welland County Farmers' Institute, which, to meet the requirements, must be at least \$25 (twenty-five dollars). Our year begins on July 1st; the first grant was for 1888.

Geo. Page, President, with myself or some other director, will probably attend at 2 p. m. on Thursday, to answer any question that members of your Council may wish to ask. Lincoln County Council gives \$50 per annum.

Very respectfully yours,

ST. THOMAS, Dec. 3rd, 1888.

DEAR SIR,—I have the honor to enclose herewith copy of a resolution passed by the County Council of the County of Elgin at the November Session.

Kindly bring this resolution before your Council at its next meeting and request them to co-operate in the matter.

Yours truly,

(Signed,) K. W. McKAY.

"Moved by John Andrews, seconded by M. Leeson, that this Council petition the Ontario Legislature to so amend the law that all County officers, now appointed by Government, be elected by the people, and that the Clerk forward a copy of this resolution to the various Counties in the Province, requesting their co-operation.—Carried."

WELLAND, Jan. 26th, 1889.

*The Warden of the County of Welland :*

DEAR SIR,—As instructed by the resolution of Council enclosed herewith, we have prepared the debenture by-law and now beg to hand it to you. You will observe that according to our calculation the amount of the debentures is \$15,004. The amount to be raised yearly is \$1,943. We have inserted these amounts in pencil in case our figures should, on being checked, be found inaccurate. You will observe a few blanks ; these we have not the requisite information to enable us to fill in.

We may perhaps be permitted to draw the attention of the Council to the fact that this by-law is one which requires to be considered at a special meeting of the Council called for that purpose, and which must, under the statutes, be advertised for three months.

It must not be forgotten that registration within two weeks after the first passing of the by-law is the grand panacea for all the ills (technical) which by-laws are heir to.

Yours truly,

COUNTY SCHOOL INSPECTOR'S OFFICE, {  
Thorold, Ont., Jan. 22nd, 1889. }

DEAR SIR,—In the absence of J. W. Garvin, Esq., B. A., who has removed from the County, and who was appointed by the County Teachers' Association to wait upon the Council for the purpose of applying for a grant to enable the Association to hold County Promotion Examinations during the present year, I would beg leave to make the contemplated application, in order that the matter may not go by default.

Only one examination having as yet been held, the efficiency of the system and its beneficial effects upon the schools have not been fully tested, but from what I have observed in the case of those

schools in which the examination was held, I am able to report favorably in regard to the system, and it is very desirable, I think, that a full and fair trial should be given.

Trusting the application will receive your favorable consideration,

I have the honor to be, Sir,

Your obedient servant,

SIR,—I have the honor to invite the attention of the County Council to the objects and aim of this Association, which are fully set out in the annexed report for 1887, and to point out the appropriateness of your County making a grant in aid of the finances of the Association, in view of the fact that there is a field battery at Port Colborne occupying a foremost position in the Dominion in point of efficiency and firing.

I may, as a precedent, say that several municipal corporations have already made a grant to the Association, and am sure that the Ontario Artillery Association may confidently look forward to similar recognition at the hands of the Council of the County of Welland.

I have the honor to be, Sir,

Your obedient servant,

And, whereas the number of those committed, instead of having diminished, as it was reasonably anticipated and represented would be the case upon the completion of public works within the County, seem on the contrary to have actually increased, and is greatly in excess of the number committed in any of the adjacent Counties, or in any County similarly situated in Canada ;

Committee appointed to devise means for lessening the number of jail inmates during winter months.

Therefore be it resolved that a Committee composed of the following members be appointed to devise means of setting limits to the aforesaid evil and providing employment for persons so committed, in order that they may be made to contribute to their support, viz : Messrs. The Jailor's house to contain not less than 9 rooms, and submit the same with memorial to the Attorney-General.

Resignation of  
Mr. Morris on  
Com. of H. of I.

Warden presented resignation of E. Morris, as member of Committee on House of Industry.

Resignation  
not accepted.

Moved by Mr. Bugar, seconded by Mr. Henderson, that the resignation of Mr. Morris be not received, but that whereas it appears from statements made by Mr. Morris that the management of the Home is not in the interest of the County; and, whereas such information reflects on the management of said Home ;

Committee ap-  
pointed to in-  
vestigate  
charges laid by  
Mr. Morris in  
management  
of H. of I.

Be it therefore resolved that a Committee composed of the following gentlemen, viz : Messrs. Cruikshank, Macklem and H. N. ## REPORT OF JAIL COMMITTEE.

*To the Warden and Councillors of the County of Welland, in Council assembled :*

Your Jail Committee beg leave to submit their report relative to the building of residences for the Jailor and Turnkey as follows :

Your Committee, before carrying out the instructions contained in the resolution passed by your honorable body at the last January Session authorizing the erection of a double house at the north-west corner of the Court House as residences for the Jailor and Turnkey, deemed it advisable to first ask Dr. O'Reilly, Inspector of Asylums and Prisons, to meet them so that an understanding could be had with him as to what he desired and would approve of as to location, place of building, &c.

On the 20th of February the Inspector met your Committee, and, after a full discussion of the matter and inspection of premises, he stated that he would put his views in writing and forward to Committee.

Accompanying this report is the Inspector's letter of 25th of February containing his views and suggestions. Following the suggestions in said letter, your Committee had a plan in part of proposed residence for Turnkey drawn and the same forwarded to the Inspector for his opinion, which plan is attached to letter and marked by said Inspector "Approved, subject to suggestions contained in my letter of 8th March, 1889, addressed to G. L. Hobson, chairman of Jail Committee," which letter is annexed to plan referred to. As to residence for Jailor, your Committee inquired of Mr. Best, the owner of the property, which the Inspector recommended the purchase of, as to his price for it. His reply was \$3,500. That sum being much higher than the Committee anticipated, they thought it best to obtain prices of other properties conveniently situated to jail, and submit a diagram of same to Inspector for his reply. The diagram, shewing properties looked at by Committee, their distance from jail and location, was sent to Inspector for his consideration.

His reply thereto, dated March 9th, is also herewith submitted.

Your Committee have now reported the position of affairs in connection with proposed residences of jail officials, and ask that

your honorable body will be pleased to direct them as to what course they shall pursue in the premises.

All of which is respectfully submitted.

REPORT OF SPECIAL COMMITTEE, APPOINTED TO DRAFT A

COUNCIL CHAMBER,  
Welland, March 20, 1889.

*To the Honorable the Attorney-General of the Province of Ontario :*

The memorial of the Corporation of the County of Welland

HUMBLY SHEWETH :

That whereas it has been deemed advisable in pursuance of the recommendation of the Inspector of Prisons to erect certain buildings as residences for the Jailor and Turnkey of the jail in said County ;

And whereas the said Inspector of Prisons did, in his report to the Attorney-General, dated the 26th of May, 1888, make use of the following language :

"There is land, the property of the County, immediately adjoining the Court House, which would be entirely suitable as sites for the erection of residences for the Jailor and Turnkey, and the build-

ings could be so constructed as to be every way satisfactory in point of convenience, and the security and discipline of the jail would not be impaired by the residences of these officers in these buildings."

And whereas in consequence of the representations contained in the aforesaid report, a Committee was appointed at a meeting of said Council on December 5th, 1888, to confer with the Inspector and to arrange with him as to the repairs, alterations, or additions that may be deemed necessary to remedy the defect ;

And whereas the said Committee did in the presence and with the full approval of said Inspector of Prisons pass the following resolution :

"That whereas it is considered absolutely necessary by the Inspector of Prisons that the County provide residences for the Jailor and Turnkey other than the basement of the Court House, be it therefore resolved that this Committee recommend that a building or buildings be erected of brick in form of a double house or two houses for residences for the Jailor and Turnkey, to connect with the north-west corner of the Court House, or other suitable location, and that plans be obtained in accordance and submitted to the Inspector for his approval."

And whereas the said report of Special Committee was adopted by said Council and the Jail Committee instructed as follows :

"To obtain plans for the erection of residences for the Jailor and Turnkey, of brick, in form of a double house, to cost about \$3,000, at the north-west corner of the Court House, and submit them to Dr. O'Reilly for his approval."

And whereas Dr. O'Reilly has since disapproved of the site above set forth, although he had in the first instance suggested and strongly recommended it, and now insists upon the purchase by the County of other property which is not in immediate contiguity to the jail, and which could only be used for the purpose aforesaid through a very lax interpretation of the prison regulations, as the buildings already upon it, besides being held at a high price, would in no case be suitable for a residence for the jailor for any length of time, and the said officer would be obliged to travel about 150 yards to gain admittance to the jail. And the County would further be compelled

to build a residence for the Turnkey, for which Dr. O'Reilly still appears to consider the before mentioned site at the north west corner of Court House as quite eligible ;

And whereas your petitioners are firmly convinced that the said site is amply sufficient and entirely suitable and agreeable for both residences, as set forth in Dr. O'Reilly's report to the Attorney-General, of 26th May, 1888, herein before quoted

Therefore your petitioners humbly pray that you will give this matter due consideration and approve of the proposal to erect said buildings upon said site in conformity with plans duly approved by the proper authority.

And your petitioners, as in duty bound, will ever pray.

Passed in Council, this 20th day of March, 1889.

Your Committee waited on Mr. Best and submitted to him the proposition of selling a part of his lot ; to this he would not accede. When asked as to his lowest figures for the whole lot he adhered to the amount already mentioned, viz : \$3,500 as it is, or \$3,000 and reserve his barn.

All of which is respectfully submitted.

The undersigned respectfully submits, as previously reported, the urgent necessity of considering water supply for the House of Industry, if at all satisfactory arrangements can be made with the town. The team is now drawing water in mud almost hub deep. The time now taken for such work is not at the present time very valuable, but when the busy season comes on satisfactory work cannot be done on the farm and the team occupied drawing water, which will have to be done almost every other day the coming summer, particularly if it is as dry as the past season.

All of which is respectfully submitted.

COMMUNICATIONS.

*Office of the Inspector of Prisons and Public Charities, Ontario,*

PARLIAMENT BUILDINGS, Toronto, Feb. 25th, 1889.

*Re Quarters for Jailor and Turnkey.*

SIR,—Referring to my interview on the 20th inst. with the Jail Committee in reference to quarters for the Jailor and Turnkey, I think the proposition to build a double house for those officials in the open space at the south-west corner of the Court House is not practicable.

In that particular position the building of a Jailor's house attached to the Turnkey's would so exclude light and air from the latter as to make it dark, close and unhealthy ; besides which, there is not sufficient land available to afford even the smallest space in the way of a yard or garden for the Jailor's use. He would not have room behind his house to store a load of wood, without danger of its falling down the hill. Again, its proximity to a very objectionable building, which stands on the street, and which is used as a fire hall, would make the position not only unpleasant, but a dangerous one as regards fire. It is also urged that a house in this position would detract from the beauty of the Court House grounds, with which view I sympathize to a considerable extent.

The next proposition which was offered to me was that a part of the female airing court wall should be taken down, the yard made smaller, and the space between it and the registry office used for

building the Jailor's house. I think there was concurrence in opinion between myself and the Committee, upon a very close examination and measurement of this position, that a very large expense would be necessary in removing the portion of wall and re-building in another position, and that when that was done a suitable site would not exist for a Jailor's house ; in fact, I think we were agreed that this scheme was entirely unsatisfactory.

The third scheme proposed is that the County should purchase a house and lot in rear of the registry office, belonging, I believe, to Mr. Best. This scheme, if carried out, would be entirely satisfactory to me, as I consider it the best one that has yet been proposed.

There is a slaughter house there and some out buildings, which it is desirable should be removed from the vicinity of the jail. Mr. Best's house is, as it were, on a piece of land out of the corner of the County property, and its purchase would square up the block, and in the interests of the County it would be well to accomplish this. There is upon it a house, which, I am informed, is entirely sufficient for the accommodation of the Jailor and his family, and for all reasons, I would recommend the purchase of this lot, if it is possible, to accomplish it. I am quite satisfied, from a financial point of view, that if this lot could be purchased at anything under \$3,000 it would be the best arrangement the County could make.

I am, of course, always open to consider any other proposition that may be made ; but of all that have been named so far, this latter I consider the only practicable one.

With respect to the Turnkey's house, as I pointed out to you, a small addition to the present kitchen and some other changes, such as we spoke of, would convert it into admirable quarters for that officer for all time to come. The plan we discussed, namely, a small addition—about 22 feet square, or containing something like 500 superficial feet, and two stories high—attached to the kitchen, but not to the Court House, could be built for \$600 or \$700, and all necessary changes made. This house, without a Jailor's house attached to it, would be light, airy and healthy, and commends itself in every way to my mind as a very perfect and satisfactory scheme.

To recapitulate, I would strongly advise the purchase of the Best house and lot for the Jailor, and the erection of the small addi-

tion, which I have just alluded to, for the Turnkey. This can all be done, I have no doubt, for \$4,000 or less, and it will make the County property satisfactory in all respects for its purpose.

I have again to remind you that time is a very important element in this transaction, especially as regards the Turnkey's quarters. It is exceedingly objectionable to have the Turnkey and the Matron residing away from the jail, and could only be rendered permissible by the present emergency, but it cannot be allowed to continue for any considerable length of time.

*Re Residence for Turnkey.*

SIR,—I have the honor to acknowledge the receipt of your letter of the 7th inst., enclosing proposed plans for Turnkey's quarters.

I am on the whole very well satisfied with the plans and, think a building erected as proposed will make a very satisfactory residence for the Turnkey. I would just make the following suggestions for your consideration, which might possibly improve it :

The bedrooms upstairs (8-6 x 13) are rather small, and it is just a question whether it would not be better to divide the space into two rooms instead of three. I should think that two such rooms as this space would make would be better than three rooms so small as the plan shows ; and three bedrooms should be enough for the Turnkey.

I have also to say that the ceilings are too low, especially upstairs. Modern architecture recognizes the fact that bedrooms are especially the rooms which require ample air space, the more so when they are of small area. I think the bedrooms upstairs ought not to be less than 11 feet in height.

The plans do not show any means for ventilation ; so far as can be seen there is no provision whatever for this, except by the windows. The architect should see that this is amply provided for. I return the plans herewith, approved, subject to the suggestions contained in this letter.

*Re Quarters for Jailor.*

SIR,—I am in receipt of your letter of the 28th ult., in which you discuss the question of a site for the Jailor's house.

I can only repeat what I stated to you previously, that the law will not admit of the Jailor living off the jail property. The law requires the Jailor to live in the jail, which we interpret as being within the jail enclosure, and in direct communication with the jail. Any proposal, therefore, to build a Jailor's house on vacant lots away from the jail property cannot be entertained. I regret that I cannot meet your views in this regard, but the simple fact is that the law will not permit it.

As to the Best property, it does not matter how high a figure he may place upon it, the Council has the power to expropriate the property and have its value determined by arbitration. If the Council decides that it is desirable to have it, perhaps when Mr. Best is so informed he will waive the necessity of arbitration and come down to a proper price. Failing this, I think it will be necessary to build a house between the jail wall and the registry office. I do not see any other way out of the difficulty.

I have the honor to be, Sir,  
Your obedient servant,  
W. T. O'REILLY,
