Campaign to Add 1000 to Present Membership of 1500, Launched With 17 Sections, Each Captained - Movement is Planned to Advance. City's Interests in All Lines.

The membership committee of oard of trade met at dinner in the National Club last evening.

W. P. Grundy, chairman of the comnittee, was at the head of the table, and was supported by R. S. Gourtay, president of the board, and 35 of the nost active members and most influential buisness men of the city.

A discussion took place as to the best means of strengthening and increasing the membership of the board, which is at present about 1500, in order better to serve the interests of the city and to maintain and increase the present prosperity. While it was recognized that in the past the board had been a decided element in the city's progress, it was felt that by an increased membership the board could be made yet more efficient to saleguard the welfare of the city on the one hand, and to promote and foster such public works as are most needed on the other. It was pointed out that there was no period in the city's history when more vital questions were up for consideration, and it was held that, therefore, the time was ripe for a big movement forward and for deelopment along various lines. Want 2500 Members.

The upshot of the discussion was decision to appoint the committees given below, with the captains whose names are attached to shove the mat-ter along, and within the next ten days to see if the membership cannot be in-creased by a round thousand, and

Congress Next Month-Solidification of

OTTAWA, March 28.—(Special).—What is the real political situ-ation here? Both parties are in doubt what to do. The Conservatives do not know whether to refuse to supply and force the Liberals to go to the country on reciprocity; the Liberals do not know whether it would

be wise to rush to the country and try and snatch a verdict on their

willingness to give reciprocity. Yet the Conservatives must say in a

HowToTellCatarrh

An Experienced Physician Says the Following Symptoms Are Sure Signs :

You can always tell catarrh by the llowing weil-known signs: Eyes red and watery? Difficulty in breathing? Are the nostrils stuffy? Do you sneeze frequently? Is your throat hoarse? Do you spit phiegm? Oppression in the chest? A ringing in the ears? If you have any of these indications I Catarrh, cure the trouble now-stop it before it gets into the lungs or bronthe before it gets into the lungs of blok-chial tubes—then it may be too late. The remedy is "Catarrhozone," a direct breathable cure that places antiseptic balsams and healing medication on every spot that's tainted by catarrhal

There can be no failure with Catarrhozone-for years it has successfully cured cases that resisted other remedles. "No one can know better than I the enormous benefit one gets from ths very first day's use of Catarrhozone." writes T. T. Hopkins of Westvale, P.Q. Nature's remedy cures to stay cured. You should know about it. If you suffer from weakness of any kind, rheumatism, lame back, sciatica, lumbago, debility, drains, loss of power, or stomach, kidney, liver or bowel troubles, you must not fail to get this book. Don't wait another minute.

The reason so many people neglect to use my Belt is that they fear it will fail, like other things they have tried. Nos, the security that I offer to the doubtful man is that he need not pay for my Belt until it does for him what I say it will do; if he in turn will give me reasonable security that he will pay me when cured. Put aside these testimonials. Don't make any difference whether you know that Dr. McLaughlin's Electric Belt cured them or not. Give me reasonable security. I will arrange the Belt and send it to you, and you can

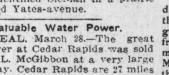

PAY WHEN YOU ARE CURED

Pick out the men who have worn my Belt. See them with head erect, chest expanded, the glow of health in their cheeks, courage in their hearts, and a clasp of the hand that tells you, "I am a man." Mr. Samuel J. Harnett, North Gower, Ont., says:--'I received a Belt from you some four years ago, and I wish to say that it was all it was represented to be, having cured me of Indigestion and other aliments, and I now feel like a new man, giving all the credit to your Belt. Anyone giving it a good trial, I know, will feel as I do."

One of the most important projects for the development of New Ontario is being personally placed before the Ontario Government by the vigorous and indefatigable member for Port Ar-thur, J. J. Carrick, M.L.A. The pro-ject has the advantage of endorsement by all the officials of the government who have been interviewed on the sub-ject, and it is one which is guaranteed

onization methods slip back to a sec-ond-rate position. Another phase of the situation is that the penhed-in farmers just south of the boundary are land hungry, and are ready to stampede into the Pigeon River district and help to people the Virgin soil there, immediately, trans-portation facilities are available. There is a well advanced movement on the American side of the line to construct a read from Dubith to connect at the a road from Duluth to connect at the border with the Ontario Colonization Road. In addition to being an artery Liru the rich lands of the Pigeon River district, vital to the early settleneeded on behalf of the producers who ship south to supply the demand for agricultural products in the towns and cities across the line. The fact that these shipments of Canadian products

Chicago Gossip. J. P. Bickell & Co say at the close: Wheat-Dull, professional trading affair and fluctuations confined to narrow lim-its. Nothing in the situation at the mo-ment to warrant any decided tendency. Crop news continues mainly favorable, altho some districts claim deterioration. We still regard the immediate market as a trading proposition, in which scalp-ing operations should prove the most pro-fitable, and conthue to advise the pur-chase of the September future on all good declines for fair profits. Erickson Perkins & Co. to J. G. Beaty: Wheat-There seemed to be plenty of May wheat for sale all day. There was no news that we could discover of a real-ly bullish character. The weather in both the northwest and southwest was all that could be desired

re the northwest and southwest was all that Could be desired. Con-The market has had an advance of a full cent from the low point, which we think is more than sufficient, while conditions surrounding the present posi-tion remain unchanged. Dats—The market rallied with the sur-ness in corn, but the conditions surrounding the present posi-ness in corn, but the conditions surrounding the present posi-ness in corn, but the conditions surrounding the present posi-ness in corn, but the conditions surrounding the present posi-ness in corn, but the conditions surrounding the present posi-ness in corn, but the conditions surrounding the present posi-ness in corn, but the conditions surrounding the present posi-tion remain unchanged.

It is not often that we are called upon to market Notes. It is not often that we are called upon to make a correction in our market re-ports, but when we find we have made a mistake we are pleased to correct it. In our report of the sales of export cattle, we stated that 1 carload had sold on the Junetion market at \$6.10, which we are informed, was a mistake, as the highest price paid on Monday was \$6. A drover who was anxious to too the market had 17 cattle, and sold 12 of them at \$6.10, and for the other 5 he took \$5.75. the actual value of the 17 cattle being \$5.95. in proportion. Montreal Grain Prices. MONTREAL, March 28.-There was some demand from foreign buyers for Manitoba spring wheat, but, as bids were 2d lower, no business was worked. The enquiry from European sources for oats is good, but exporters in some cases claim that they cannot be bought in the west and laid down here afloat, May, within one cent per bushel of the prices bid. Round lots sold on spot to-day at 36% for No. 2 Canadian western, afloat, May, and it is reported that 1.500,000 bush-els have been sold for export from here this summer. The local trade is quiet. The demand from foreign buyers for spring wheat flour wasifair, and sales of several round lots were made, but the local trade continues quiet. Eggs are active and steady. Supplies of potatoes are becoming scarce, and the market is strong at 30c per bag in car lots.

THE WESTERN CATTLE BUSINESS

Calgary Herald : Many people have spoken many times of the advantage that reciprocity will give to the cattle busireciprocity will give to the cattle Dusi-ness of Western Canada. They speak of the nearness it will bring the great mar-kets of Chicago and Kansas City; they speak of the splendid prices that will result. Few of them know that there are extensive ranchers in the United States who ship thousands of heads to Alberta and sell them in the Cauadian market. But this is true, strange as it may seem.
