CANADA'S ENLARGED CANALS

Have Induced a Company to Start a Direct Line of Steamers From Chicago to the Seaboard. Chicago, Nov. 9.—The Times-Herald says: "Direct transportation by water from Chicago to Montreal, and possibly Liverpool, for both passengers and freight traffic, is soon to be established by a new transportation line that has already been incorporated."

The name of the incorporated company which will introduce this innovation on the great lakes is the Illinois Transit Company of Chicago, and the capital stock is placed at \$500,000.

The incorporators are: James J. Rardon, president; Rardon & Company, vessel agents; James H. Channon of H. Channon & Company, ship chandlers, and W. C. Richardson.

This change in the means of transportation to the Atlantic by way of Canada was brought about by the enlarging of the Welland Canal, which was completed late this fall.

Diamond Ring Beauty. For over a quarter of a century we have directed our best attention to diamond buying and ring making, and we believe that any ring you select at "Diamond Hall" will cost you considerably less than you will pay elsewhere. Ryrie Bros., Diamond Merchants, COR. YONGE AND ADELAIDE STREETS, TORONTO. POPULAR BELL PIANOS. Incomparable in purity of tone, and in the most perfect production of the new catalog from BELL PIANO WAREHOUSES, 70 King St. West. She is acknowledged to be the most beautiful young lady in the creole settlement. "Under the Gaslight." The Cummings Company will have a big production of a very popular play at the Princess next week, having secured for the first time at popular prices Augustin Daly's great play, "Under the Gaslight." This play is without doubt the greatest of all English and American melodramatic successes. Its long runs at Daly's Leicester-square Theatre, London, and also at months' run at Daly's Theatre, New York, show its exceptional merit. With the manuscript of the play, Cummings has secured also a complete description of the way the play was originally staged, and an extra force of assistants have been busy all week, making an exact reproduction of the London and New York productions. "Under the Gaslight" has always been an unusually attractive dramatic card, its many familiar characters, French diction, and its English origin. Stone heads the cast; Byke, Bermans, Pennants, etc., all have been busily engaged on account of their popularity. The Cummings Company are to give a most thorough production of this play, with a strong chorus, including Mr. Harry Rich, a well-known local favorite, who appears as Sam. It is expected that "Under the Gaslight" will prove the greatest of all the many Princess successes. The seat sale opens at the box office this morning. Service of Praise. The soloists at the musical service of praise at the Church of the Redeemer on Tuesday evening will be Miss Louisa Craig, Miss Ruby Shea, Miss Teresa Flanagan, Mr. Courtenay Brown, Mr. Robert Drummond, and Mr. W. E. Fairclough, organist of All Saints' Church; offertory in aid of the choir fund. Clara Butt's Farewell to Night. As has been recently announced, Miss Clara Butt has been re-engaged by the management of the Massey Hall for a farewell concert to-night. The great English contralto will be assisted by the most efficient artists as supported here before. Miss Butt will sing four items, viz. the air from Saint Saens, "Samson and Delilah," Handel's "Lascia chio a piangere," an original, and as English numbers, Cowen's "Promise of Life" and "Auld Robin Gray." Signor Alberti will give the Romanza from Verdi's "Traviata," Wagner's "Star of Eve" and Mattie's popular "Non e vero." The concert will be given at 8 o'clock, and will play three pieces of high-class. The prospect point to a most successful event. A Deserved Rebuke. New York, Nov. 9.—Miss Julia Arthur, while playing in "More Than Quills," at the Broadway Theatre last night, was disturbed by the chatter of box occupants.

A DOG-IN-THE-MANGER POLICY. In yesterday's Globe Mr. Pearson, managing director of the Consumers' Gas Company, answered The World's editorial of the previous day, which showed that the public was entitled to a reduction in the price of gas. From Mr. Pearson's statement it would appear that the company had about all it could do to make both ends meet. But in spite of his pessimistic view of the company's business, the fact remains that the company has such a plethora of funds on its hands all the time that it does not know how to get rid of them. The annual statement that is published by the company is apparently intended to conceal the profits of the business, which are enormous. But Mr. Pearson, as he is always when he states that the question of reducing the price of gas will be discussed in the spring when the contracts are made for coal and oil. We are led to believe that if the price of these commodities does not rise very much by that time a reduction in the price of gas will be declared. According to the company's annual statement the cost of coal and oil for the past year was \$194,000 in round numbers, and the sale of coke, tar and ammonia amounted to \$64,000, making the net cost of coal and oil about \$130,000. This is just 20 per cent of the amount received from the gas sold. The company's raw material costs just 20 per cent of its receipts, so that a moderate rise in the price of these materials would not materially affect the cost price of gas. Shareholders in the company cannot receive more than 10 per cent dividends. This is the measure of their interest in the company. It would pay the city handsomely to guarantee this dividend to the shareholders and take over the gas works and have the business run in the interest of the people. Under municipal management the price of gas would soon drop 25 per cent, even allowing the shareholders their 10 per cent. The directors of the company are playing a dog-in-the-manger policy, neither being in a position to benefit themselves nor allowing the public to participate in the profits of the business.

THE LANDSOWE CROSSING. The decision of the Railway Committee, insisting on the construction of a subway or overhead bridge at the Landsowe crossing is a satisfactory ruling as far as the railways are concerned, but it is not at all acceptable to the city of Toronto. If the city is to be called upon to diminish the number of grade crossings the most dangerous ones should be proceeded with first. There are other grade crossings in the city much more important and dangerous than the Landsowe crossing. There are several such in South Parkdale, where the grade crossings at the Don and farther east on Queen-street are much more dangerous on account of the large vehicular and pedestrian traffic at these points. If an overhead crossing or a subway is necessary at the Landsowe crossing, much more necessary is a subway at the C.P.R. crossing, Yonge-street. Under the circumstances a better decision would have been to allow a grade crossing at Landsowe-avenue on condition of the abolishing of the really dangerous and extensive grade crossings in other sections of the city. We believe in the gradual elimination of all grade crossings, but the most dangerous ones should be abolished first. If the city is obliged to spend \$75,000 or \$100,000, let it be spent where it will do the most good. Such a policy would be in the interest of the railways and the city.

THE CITY OF HALIFAX. The Board of Trade, Halifax, are circulating a special edition of The Industrial Advocate, descriptive of the advantages of Halifax as a shipping and commercial centre. The distribution of the volume throughout Canada cannot fail to prove of advantage to the city. One thing the Halifaxians keep constantly in view is the selection of their port as the Canadian terminal of the fast Atlantic service, which is bound to become a reality in the course of a few years. Halifax is undoubtedly the best harbor on the North Atlantic coast, if indeed it is not the best harbor in the world. It is open every day in the year and every hour in the day. The course across the Atlantic to Halifax is perfectly clear, and a steamer can sail at highest speed from the time she reaches the open ocean from British ports until she comes within less than half an hour's run of Halifax. It would be quite easy for a steamer sailing at the same speed as steamers now sail between Liverpool and New York to make Halifax in four days. From Halifax the time to the rest of the continent could be greatly reduced, so that it would be possible for a train to reach Montreal, Boston or even New York under twenty-four hours, while the great centres of the Middle West and the West could also be brought within a comparatively short journey in point of time by making sharp connections with the fast trains which run between various important American centres. The advantage of this would not be a saving of time only, for it would cut off a large part of the ocean journey, which most people would desire, especially those who have not been much accustomed to travelling by water.

Chrysanthemum Show. From assurances given by the Directors of the Toronto Gardeners and Florists' Association from intending exhibitors, this year's show of chrysanthemums, roses, carnations, orchids and violets will be the largest and most successful ever held in Canada. The exhibition, to be held in the Pavilion from Wednesday to Saturday of next week.

Cartwright Club. The opening meeting of the Cartwright Club will be held on Friday evening, Nov. 10, in the club rooms, 1204 Queen-street west, at 8 o'clock. In addition to the inaugural address of the president, good program has been provided, including a presentation by Archibald Campbell, M.P.

monthly. Nothing can prevent Halifax, situated as she is, from realising the advantages to be derived from the increased facilities for the transportation of the products of our great north-western country by the waterways in summer and the railways in winter. She has the location for converting raw materials into finished products for local consumption or export; and amongst such industries as might be profitably developed, nothing is more in vogue, stands pre-eminently in the front rank. Considerable space is given to the mineral resources of Nova Scotia, including its low grade auriferous ores, and its iron and coal mines. An interesting chapter describes Halifax as a summer resort. It is evident from a perusal of the publication that the business men of Halifax are alive to the possibilities of their city. Although Halifax and the other maritime cities have remained somewhat quiescent, compared with the development of western towns and cities, we nevertheless believe that it has a future ahead of it. The C.P.R. has fixed on Halifax as the best terminal for the fast Atlantic service, and as a result that project becomes a reality, Halifax is bound to go ahead.

THE BISHOP LEAVES TOWN. While the Wardens of St. James' Desire to Meet Him and Agree Upon a Rector. The wardens and committee of St. James' Cathedral met yesterday afternoon in the school house. Those present were: Messrs. James Scott, A. S. Irving, J. K. Kerr, Q.C., R. N. Goodrich and Col. Grassie. The object of the meeting is known to all, and, although nothing definite was done, the wardens and committee yielded nothing. They are to meet again this afternoon and definite action will be taken. They realize that the bishop's resignation must be gained before it is possible to have the Rev. de Soyres appointed, but this is likely impossible to get.

LUMBER BUSINESS BOOMING. Chaudiere Mills Are Busy and in Both Canada and Britain Prices Are High. Ottawa, Nov. 9.—Prices for Canadian lumber, especially for common grades, is higher than it has ever been known before. This is the statement of a prominent Chaudiere lumberman: The Canadian and British markets are simply booming, and a further rise in the British market is expected. The mills here are running all the export trade they can attend to, and prices are good enough to satisfy any manufacturer. It is rumored that one of the most powerful forces working against Mr. de Soyres is that he is too energetic a man and too eloquent a preacher to be put in charge of the church. The committee cut extremely anxious to meet the bishop, while the bishop is thought to be just as anxious not to be met. During these meetings he was out of town for a week.

MAcDONALD CLUB OF YORKVILLE AND WARD 2 CONSERVATIVE ASSOCIATION Held Organization Meeting. A joint meeting of the Macdonald Conservative Club of Yorkville and the Ward 2 Conservative Association was held in Jackson Hall last night, for organization purposes. The chair was occupied by Mr. R. S. Neville, and a large number of prominent Conservative workers were present. The meeting was nothing if not enthusiastic, which is to be expected for the Conservative party in that part of the city. Following the business part of the meeting, short speeches were delivered by G. F. Marter, M.L.A., D'Arcy Hinds, E. M. Dunas, T. L. Church, W. B. Newsome, Dr. E. J. Wilson, J. B. Thompson, J. Baird, Dr. Thompson and others.

Philadelphia, Nov. 9.—Harris Wilson, 16 years old, plunged head-first over the rail of the gallery at the People's Theatre last night, falling into the auditorium, 40 feet below, and crushing his skull. He was rushed to the hospital to-day, where the physicians express hopes of Wilson's recovery.

The Friedberg Concert. The piano recital by Friedberg, the distinguished pianist, in Association Hall, Nov. 18, promises to be the society event of the season. This is shown in the class of names on the subscribers' lists, and is due in no small measure to the desire on the part of many to see Madame Friedberg, who holds a prominent position in European society circles. Educational institutions are most interested in the coming recital, one school of music subscribing for one hundred seats. Subscribers' lists will close to-morrow (Saturday) at Tyrrell's book store, 8 King-street west. Plan for subscribers to be open Monday morning, and to the public the following day.

A Magic Pile—Dyspepsia is a foe with which men are constantly grappling, but its appearance is uninvited. In one, it makes its appearance in another direction. It acts as the mechanism of a watch of science, and its effects are such that even a breath of air will make a variation. With such persons disorders of the stomach cause distress and suffering. To these Parmerie's Vegetable Pills are recommended as mild and safe.

Bank Wrecker's Light Sentence. Northampton, Mass., Nov. 9.—In the Superior court, this afternoon Lewis Varney, who wrecked the Hampshire County National Bank, and the Hampshire Savings Bank, by embezzling \$200,000, was sentenced to a term in State Prison of not more than 12 nor less than 9 years.

DEVELOPMENT ON LUCKNOW.

**Rainy River Gold Mining Co.**

is now erecting a Camp at the Property.  
Rat Portage, Nov. 7.—(Special Correspondence)—The Rainy River Gold Mining Company has got the number on the ground for construction of a camp on the Lucknow property, in order to continue the development work during the winter.

This property comprises the locations of the development work during the winter. This property comprises the locations of the development work during the winter. This property comprises the locations of the development work during the winter.

The principal vein, on which the development work is being carried out, is a foot of mineralization, which, from a number of assays, gave an average of \$23.80 per ton. The vein is about 100 feet wide and is situated on a small lake, on the shore of which there is a magnificent site for a mill, convenient to the working. It is the intention of the Rainy River Company to develop the Lucknow property to a sufficient extent to provide for the extraction of a mill later on for the operation of the gold. They already have a mill constructed for that purpose, which is to be used on this rich property, and so place it on the producing list. As development work progresses on the properties of the Rainy River Gold Mining Company, and the results become known to the shareholders, they are congratulating themselves on the fortunate investment they have made. A number of the shareholders of this company have been to the site, and they are all well satisfied with the results. They are all well satisfied with the results. They are all well satisfied with the results.

**Yceon Gives Encouragement.**  
Manager Griffin of the Yceon says that the work done to date on the property lately has been such as to give him ground for believing that even better things are in store than have been done in the past. Development work is to be rushed during the winter. A hoisting plant is being got out to the mine, with the necessary engine to drive it.

The United States capitalists interested in the Foley have decided to make another start on this property early in January.

**Position of the Scramble.**  
A good many reports are in circulation in regard to the position of affairs at the Scramble, but it is understood, in the best-informed circles, that things are moving along there at a rate that will surprise a good many people.

Steamboat men are being pushed to get all the freight that is being offered out to the mines, and fears are entertained that a good bit will be left behind when navigation closes. The weather is exceedingly perfect Indian summer, and the best possible for getting around.

**King's Daughters and Sons.**  
The annual meeting of the Toronto Union of King's Daughters and Sons was held in the Y.W.C. Guild-Hall last night. The attendance was good. A very interesting address on "Influence" was given by Mrs. G. W. B. after which the election of officers took place. Those elected to offices for the ensuing year are: Hon. president, Mrs. G. W. B.; president, Dr. Dymond; vice-president, Mrs. Scates; secretary, M. L. M.; treasurer, Mrs. G. H. Gooderham and Mrs. Savage.

**Notes From Colleges.**  
The Political Science Club of Varsity met yesterday, when a very comprehensive paper on "City Government in Canada," was read by Dr. Dymond, vice-president. The Philosophical Society of Varsity will meet this afternoon, when essays on Hartley's Ethics and German Student Life will be read by Messrs. A. J. Fisher and A. H. Abbott, respectively.  
On Thursday evening at 8 p.m. an open meeting of the Classical Association will be held. Papers on "Socrates" by P. Robinson, and "German Student Life" by Dr. Bell will be read.

**Smallpox Spread.**  
The agent of the Provincial Board of Health, who has been investigating the outbreak of smallpox at Belle River, reports that there are four districts affected. It was spread by a party of Walkersville going to a dance in Rochester Township, and German Student Life by Dr. Bell will be read.

Market Ruled Very Weak—Liverpool Reported Their Market Dull With Little Demand—Local Live Stock Market Active—Latest Commercial News.

Thursday Evening, Nov. 9. Wheat in Chicago to-day was weak and dull, declining to 85 1/2c for 65c to 85c and May at 72c. An undertone was heavy throughout the session. Cables and Liverpool markets were weaker, closing 1/4c lower than yesterday.

Corn closed at Chicago to-day were: Wheat 65c, corn 180 and oats 100. Wheat receipts at Minneapolis and Duluth were 125 cars against 600 a week ago and 1000 a year ago.

The deliveries of wheat in the Northwest since the harvest have been large, the stocks at Fort William, Port Arthur, Keewatin, Winnipeg and interior country points being now 1,500,000 bushels, against 2,500,000 a year ago.

Stocks of wheat at Port Arthur and Fort William on Nov. 9 were 1,557,000 bushels, against 1,577,073 bushels on Oct. 30 and 1,601,100 bushels a year ago.

Price Current: The past week has been favorable for growing wheat, which is securing good stands, and a complaint of insects, but not serious. No material change in corn situation, interior movement of grain light.

Hog packing for the week in the west 440,000, as against 470,000 the corresponding week of last year.

### COURT PRACTICALLY CLOSED.

Grand Jury's Remarks Concerning Its Usefulness—Sentences Will Be Imposed To-Day.

The Criminal Assize Court was practically closed yesterday, after the Grand Jury had made their presentation to Mr. Justice Macdonald.

The Grand Jury's remarks concerning its usefulness were made in a report to the court. The jurors advised the holding of concurrent civil and criminal courts. The presentation contains the following reference to the Grand Jury system:

"Inasmuch as the cases which are referred to a Grand Jury have been and are regularly examined in a magistrate's court by competent legal gentlemen, this recommendation of evidence for the Grand Jury would appear to be a great waste of time and money, and unnecessary to the securing of justice to the subjects of Her Majesty, and by the said examination in the magistrate's court no prejudice occurs either to the interests of justice, to the municipality or to the rights of any citizen, and by the expending of a Grand Jury the cost of cases is laid on the community, which for the purpose intended, can be tried in such court without any additional expense being incurred."

The jurors also expressed themselves as being favorable to the indeterminate sentence as a reformatory measure.

The court, in reply, occurred in all the points touched upon in the report. Much to the surprise of all the court officials the Crown prosecutor announced that Michael Jordan, the prisoner, was allowed to go on his own bail, to appear for trial when called upon.

A jury found in the case of Michael Jordan, the prisoner, that he was guilty of the offence of which he was charged. The jury also found that the prisoner was allowed to go on his own bail, to appear for trial when called upon.

#### London Times Verdict Reversed by Appeal Court—Now the Lords Will Be Consulted.

London, Nov. 9.—The decision of a lower court giving the London Times a copyright of its reports of Lord Roebuck's speeches has been reversed, on the appeal of a publisher, by the Appeal Court, holding that a reporter has no copyright of the report of speeches, giving not only ideas but words in which ideas are expressed.

The Times has decided to appeal the case to the House of Lords.

### And This is the Only Way the Danger

### METROPOLITAN ROAD AND C.P.R.

### It is Likely That the Dominion Authorities Have No Control Over the Proposed Junction.

The deputation that appeared before the Railway Committee of the Privy Council a few days ago in connection with the Lansdowne-avenue difficulty and the Metropolitan Railway Company's application for permission to effect a crossing with the C.P.R. has returned home. In the Lansdowne-avenue case the decision rendered by the committee cannot be appealed against and at 2 o'clock to-day a special meeting of the Board of Works will be held to discuss the advisability of constructing a subway or overhead bridge. In all probability the committee will submit a by-law to the citizens for their opinion on the subject and already the City Engineer and his department are busy preparing estimates as to the cost. The subway is estimated to cost \$80,000.

### Have They Jurisdiction?

In the Metropolitan Railway case it is likely that the committee will occur in the opinion of Mr. Oiler, the City Engineer, that the City has no jurisdiction in the matter.

### Favors Amalgamation.

The Mayor yesterday received a copy of a resolution from the committee of which Public School Trustee Baird is chairman, favoring the amalgamation of the Public and High School Boards. Accompanying the resolution was a letter requesting permission for a deputation to wait upon the next meeting of Council to present their arguments. It also requested the public's opinion be taken on the question and that a bylaw be submitted to the people.

### Company in Progress.

The Toronto Railway Company have forwarded to the City Treasurer a cheque for \$800.86, being the City's percentage of the gross receipts for the month of October. The following is a comparative statement for the past five years:

### GERMANS ARE GLEEFUL.

#### The Colonial Council Heavily Approved the Samoan Agreement.

Berlin, Nov. 9.—The Colonial Council at a meeting to-day heartily approved the Samoan agreement. Prince Von Wied declared that thanks were due, firstly, to the Emperor, and then for three cheers for His Majesty. The second toast was for the Emperor expressing the council's appreciation at the ending of the Samoan dispute. The Imperial German flag of the Emperor and the honor of Germany. The council then passed a resolution, which was almost unanimous, that the Samoan agreement, which knew its purpose, was almost insuperable. The name of Samoa is indelibly bound up with the earliest history of the Pacific Ocean. The Samoan industry and German pioneer work, the blood of brave German sailors has made Samoa German, and the Samoan people could not entertain the thought of giving up the island.

### PAUNCEFOOT FELT RELIEVED.

#### When Informed on Arrival That Lady Smith Had Not Fallen.

New York, Nov. 9.—Lord Pauncefoot, British Ambassador to the United States, arrived here to-day on the Oceanic. Lord Pauncefoot is expected to remain in the Transvaal, wanting to know particularly if the British troops at Ladysmith are still in the hands of the Boers. He is believed that the situation there will soon be relieved. Lord Pauncefoot refused to answer a number of questions relating to the Alaskan question and the situation in England, declaring that he would not discuss the matter.

### BRAIN FOOD

#### Is of Little Benefit Unless It is Digested.

Nearly everyone will admit that as a nation we eat too much meat and too little of the brain food. The brain food for business men, office men and clerks, and in fact, everyone engaged in sedentary or indoor occupations, grains, milk and vegetables are much more healthful. Only men engaged in a severe outdoor manual labor can live on a heavy meat diet and continue in health.

As a general rule, meat is not sufficient for all classes of men, women and children, and grains, milk and vegetables should constitute the bulk of food eaten. But many of the most nutritious foods are difficult of digestion, and it is of no use to advise brain workers to eat largely of grains and vegetables, where the digestion is too weak to assimilate them properly.

It is always best, to get the best results from our food, that some simple and harmless digestive medicine be taken with meals to assist the relaxed digestive system. Stuart's Dyspepsia Tablets are a very safe, pleasant and effective digestive, known and most popular of all stomach remedies.

Stuart's Dyspepsia Tablets can hardly be called a purgative, as they do not act on the bowels nor any particular organ, but they are a most effective remedy for all weak stomachs, lack of pep, indigestion and by stimulating the gastric glands in the natural secretion of hydrochloric acid.

People who make a daily practice of taking one or two of Stuart's Tablets after each meal are sure to have and every movement caused by perfect health.

There is no danger of forming an injurious habit, as the tablets contain nothing but natural digestive: cocaine, morphine and salicylic acid. They are in a stomachic medicine, and Stuart's Dyspepsia Tablets are particularly of the best known and most popular of all stomach remedies.

Ask your druggist for a fifty-cent package of Stuart's Dyspepsia Tablets, and after a week's use note the improvement in health, appetite and nervous energy.

### Secret Clause Regarding South Africa

### Which Will Help Plans of Cecil Rhodes.

### WHAT THE LONDON PAPERS SAY.

### Mostly the Comments Are Favorable, But Radical Papers Score Salisbury.

London, Nov. 9.—The Berlin correspondent of the Daily John says he has seen the secret clause relating to South Africa, whereby the plans of Cecil Rhodes are advanced a step toward realization.

### English Press Comments.

Without being enthusiastic, the morning papers generally regard the Samoa agreement with satisfaction. The Times in the course of an article ridiculing the idea that the imperial meeting at Potsdam is in any way analogous to the meeting at South Africa, says: "The Samoa agreement shows that Emperor William is not antagonized by the settlements imposed to him by the whole, the arrangement appears such as ought to commend itself to two sensible and practical nations."

The Daily Mail, expressing similar views, takes occasion to remark that Salisbury, though foreign, is not a sense of honor. The Daily Telegraph, on the other hand, suggests that the agreement has been secured and that the "era of compensation over the South African territories has begun. It suggests that the agreement has not received the approval of the British Government, and that the Emperor, who will be forced to further anger by the threatened combination of American, German, Japanese and British interests in China."

The Standard says: "The treaty marks another success for Lord Salisbury's diplomacy. Nevertheless, Germany has driven a good bargain, and the British States have no less reason to be content."

The Daily News says: "Under cover of the war in South Africa, Salisbury has been able to squeeze out of Samoa. We are not prepared to say that the treaty is not defensible, but it is well at the outset to recognize the simple fact above stated, if Mr. Gladstone had carried out his policy, the latter's supporters would have called it a policy of 'sell-out.'"

### Our New Store Front?

Don't go away with the idea that the store front that does duty to-day is to be permanent.

When we moved from the corner into the present store we had to take things as we found them until contractors could get the new plan under way.

We had hoped that the new store front would have been in this week. The partition, however, is down and you have a chance to see what a fine wide store we have.

The ironworkers will extend the steel beam across the front almost right away, and then the promise is that one handsome front, two windows and door in the middle, will be put in place.

It is going to be a fine store when completed, with loads of goods inside for your inspection.

While the muss continues bargains will continue. Take this item:
