Sleep in Relays While
Heart Breaking Battle
Wages Hot in Commons

Opposition Led by Hon. Geo. E.
Foster Refuses to Pass One
Dollar of Marine Estimates Un-
til Brodeur Explains Personal
Expenditures.

BRODEUR GIVING WAY
EARLY THIS MORNING

With no idea of rising till Satur-
day midnight the House
plugged away all yesterday. It
has been the longest continuous
sitting since 1896, when the oppo-
sition to the Remedial Bill kept
the House in session from Monday
morning till Saturday night.

HON. MR. BRODEUR.
Who is Held to Be Responsible for a
Most Remarkable Session of
Parliament.

Both sides are told off by the
whips into relays, while one group
sleeps another is on guard either
in the chamber or the lobbies.
The Conservatives are deter-
mined to prevent a vote for the
marine department till the details
of certain expenditures are
brought down. These were asked
for on Thursday night when the
fight began.

At 1:30 this morning it looked
like a surrender on the part of
Brodeur. He asked for an hour
to get the papers complete, and
left the assembly.

OTTAWA, Feb. 28.—(Special.)—Into
the early morning of leap year day
the house of commons is sitting, the
opposition unbending and determined;
the government stubborn and angry. Since
3 o'clock on Thursday afternoon the
house has been steadily at it, except
for the brief automatic adjournments
which 6 o'clock in the evening affords.

The marine estimates were taken up
at midnight on Thursday, when Mr.
Foster pitched into Mr. Brodeur for
having taken \$2000 from the vote for
ice-breakers to pay his expenses at the
imperial conference. This, he said, was
in conformity with the minister's cus-
tom of asking for more money than he
wanted for marine services, carrying it
about for a long time and then making
a demand of the excess.

Mr. Brodeur angrily retorted that
this was tantamount to a charge of
dishonesty.
Not one cent would the opposition
vote for the marine department. Hon.
George E. Foster went to bed at 4 a.m.
and Mr. Taylor assumed the leader-
ship, R. L. Borden being in Montreal.

ARREST THREE
YOUTHS FOR
PERJURY

Accused of Giving False
Evidence in Damage
Suit Against the To-
ronto Street Rail-
way Co.

Rupert Baseman, 22 years old, who
lives with his wife's parents at 301
Parliament-street;
William Steele, 22 years, a machinist,
living with his parents at 16 Grant-
street;
Henry Horowitz, 20 years, living with
his parents at 264 Parliament-street.
This trio were arrested last evening
by city detectives upon charges of per-
jury laid by Claims Agent James H.
Forrest of the Toronto Railway Com-
pany. The charges arose out of a dam-
age action which was brought by Bas-
eman against the company, claiming
\$2000 damages for the breaking of his
arm on Nov. 6 last. The action came
up for trial before Justice Mabee at
the last sittings. The jury were out but
a few minutes when they dismissed the
action. The claims department of the
railway went to work as the witnesses
for the plaintiff had sworn to state-
ments widely different from those of
the defence.

What Baseman Swore To.
Baseman swore at the trial that at
2:45 p.m. on the day in question he
had stood at the corner of St. David
and Parliament streets, waiting for a
scotchman car. Two cars passed him
without stopping, and a third stopped,
but just as he was about to board the
rear platform of the motor, to which
a trailer was attached, the car had
started and he was dragged between
the motor and trailer to a point oppo-
site the Baptist Church, between 50 and
75 yards south of the corner. His right
arm was broken above the elbow and it
is not yet strong.

Admits He Was Coerced.
Horowitz, whose father's store is just
across the street from the scene of the
accident, swore that the car did not
stop, but that Baseman had fallen
at the corner and was not dragged.
After his arrest last night he admit-
ted to Inspector of Detectives Duncan
that he had sworn falsely at Baseman's
request. The first he had known of the
accident was when he heard a scream
and saw Baseman lying in the road-
way. The car had been in the middle
of the block. He did not see Steele,
and was sure he was not there. Baseman
had come and asked him to be a witness. He asked him
if he did not know the car had stopped,
and when he had said he was not sure,
Baseman had told him that he must be
Baseman had also told him that he
"would make it right with him" if he
got damages from the company.

Other Witnesses Contradict.
Ten witnesses swore at the trial that
the man had not been dragged, and
that the car had not stopped.
P.C. McKay, who picked Baseman
up, swore that he had seen him stand-
ing in a doorway a moment before the
accident, and a man on the back of the
car swore that he saw him make a run
for it when it was opposite him, while
the motorman, W. J. Nelson, swore that
Baseman had not been standing in the
roadway when the car passed the cor-
ner. P.C. McKay swore that when he
picked him up he was at the south
corner, and not in the middle of the
block.

The arrests were made at 7 o'clock
last night. Each was taken at his
home. Detectives Kennedy and his
Guthrie got Baseman as he was enter-
ing his home for supper. He was
taken to the Wilton-avenue station, and
they then arrested Horowitz. Detectives
Mackie and Geo. Guthrie got Steele and
lodged him at the Court-martinet station,
where he was later admitted to bail in
one surety of \$500. Horowitz was taken
to headquarters.

DETROIT, Feb. 28.—"Mother, just
wait until I get paroled, then I'm go-
ing to be God's own child and devote
myself to saving lost souls."
This passage was contained in a
letter that Percy Bowin, the self-con-
fessed slayer of Mrs. Cornelia Welch,
wrote to his mother in Woodstock,
Ont., yesterday.

BRIG-GEN. OTTER ASKED
TO TAKE A COMMAND
AT ALDERSHOT CAMP

Is Offered the 5th Infantry Brig-
ade and Local Military Men
Regard it as a High Compliment
to the Canadian Militia.

Great interest has been created in
local military circles by the announce-
ment that the militia department at
Ottawa has received a despatch from
the secretary of state for the colonies
offering to Brigadier-General Otter
the command of the Fifth Infantry
Brigade at Aldershot, England, begin-
ning May 1.

Brigadier-General Otter is at pre-
sent in Ottawa, and it is not known
for a certainty that he will accept,
but military men in Toronto regard
it as highly probable that he will go
to England.

It is most unusual for a colonial
officer to be given the offer of such
an appointment, and cannot be re-
garded as other than a very high com-
pliment, said Lieut.-Col. W. C. Mac-
donald last night, adding that he had
no recollection of any such honor hav-
ing been conferred in any previous
instance.

It is the general belief among lo-
cal military men that the proffered
appointment, which is highly impor-
tant as being one of the chief com-
mands of the instructional army, is
valuable evidence of a desire to foster
imperialistic sentiment, and that
Brigadier-General Otter's
command of the first Canadian con-
tingent are borne in mind by the Brit-
ish Government.

COUNTY POLICE
EASY MONEY
MAKERS

Devices for Securing Lu-
crative Costs Are
Brought to Light
by Judge Win-
chester.

Members of the county constabulary
came in for a severe grilling when the
Woodcock investigation resumed yester-
day.

Costs in automobile cases seem to
have been a particular form of graft
which the constables and magistrates
adhered to, when the owners of auto-
mobiles submitted to coughing up ex-
penses rather than face a court charge.

In three cases when these "muckings"
reached the ear of the provincial secre-
tary the fines or costs were refunded.
A serious phase developed late in the
afternoon, when Judge Winchester sub-
jected County Constable James S. Rout
to a severe examination on his actions
in the case against Thomas Fisher,
who was charged with attempted rape
on Mrs. Samuel Munro. Mrs. Munro
did not want the case tried at all, and
wrote to Woodcock to that effect. When
the case did come to trial, she denied
the whole affair, and accused Rout of
unbecoming conduct toward her. His
honor remarked that the case was a
most serious one. The information was
laid by Rout after a conference with
Mrs. Munro.

"Did this woman ever make a com-
plaint to you?" asked the judge.
"Yes, I went to see her after several
of the neighbors had been talking about
what she had told them regarding Fish-
er's actions toward her. I asked her,"
continued the witness, "what had hap-
pened. At first she did not want to
say anything at all, but afterward she
told me that Fisher had grabbed her
in the room and ill-used her."
"Did she say that?" pressed the
judge. "Why did you not put it on
the paper?"
"Will there were words to that ef-
fect, and I had my suspicions," parried
the constable.

BLOOR-ST. VIADUCT
ONLY MATTER
OF TIME

Members of Works
Committee Declare
Extension is Both
Necessary and
Certain.

That there is growing among the al-
dermen a strong sentiment in favor of
the eastward extension of Bloor-street
by means of a viaduct across the Don
Valley to connect with Danforth-ave.,
was made strikingly evident at the
meeting of the civic works committee
yesterday afternoon.

The question arose when Ald. Saun-
derson spoke in advocacy of a viaduct
across the Don from Wellesley-street
to Broadview-avenue, the cost of the
undertaking having been estimated by
the city engineer at \$270,000. At the
previous meeting of the committee Ald.
Saunders had the city engineer's re-
commendation for a steel bridge cross-
ing the Don at Winchester-street refer-
red back for consideration of the viaduct
plan.

The committee, however, showed
itself to be impressed with the merits
of Sherbourne-street extension as op-
posed to the Wellesley-street extension.
"It will eventually have to come," as-
serted Ald. McBride, a statement with
which Ald. Stewart most emphatically
agreed. Mr. Rust concurred with the
view that the extension was desirable,
but said that the cost would be consid-
erable.

"The money would be well spent,"
persisted Ald. McBride, and Ald. Adams
joined in, with the assertion that the
Bloor-street viaduct was only a ques-
tion of time.

The city engineer claimed as an ad-
vantage of the Wellesley-street viaduct
that the cost would be less. The land
damages would not be material, altho
the trustees of St. James' Cemetery
would have some claim for compensa-
tion.

Ald. Foster said it had been estimat-
ed that the Bloor-street viaduct would
cost about \$375,000, and he thought its
advantages would more than com-
pensate for the additional outlay, with
which Ald. McBride agreed.
On motion of Ald. Sanderson, Mr.
Rust will report on both projects.

Attorney-General's Department to
Try and Secure Extradition of
Mining Man.

Strenuous efforts will be made at once
by the attorney-general's department
to secure the immediate arrest of Lock-
hart Russell, who was charged jointly
with Frank Law with conspiring to de-
fraud the public in affecting the prices
of stocks of various Cobalt propo-
sitions in the hands of Law & Co.

Particularly distinguishing itself in
the brisk action at Paardeberg. He won
the reputation of being a strict disciplinarian while in South Africa. In
1900 he had the title of Companion of
the Bath conferred upon him, and on
his return to Canada was placed in
command of the military district of
Western Ontario, and was made ad-
e-de-camp to the governor-general.

Recently there has been political un-
rest in Argentina owing to the issuance
January 26 of an executive decree clos-
ing the extraordinary sessions of con-
gress, and putting into effect for the
current financial year the budget of
1907. This extreme measure was made
necessary by the obstructive tactics
of a majority in the senate which made
impossible the passage of the budget
or other legislation, leaving the gov-
ernment powerless to meet ordinary
expenses. President Alcoriza announc-
ed at the time that the government
was prepared promptly to suppress any
subversive or violent movement on the
part of the opposition, and on January
27 large forces of police prevented the
senators and deputies from attempting
to take possession of the parliament-
ary halls. It was stated at the time
that the decree of President Alcoriza
was approved by a majority of the
people.

HAMILTON IN OVERTIME DEFEATED T.A.C. TEAM

Sewer Committee Gives Contract to the Toronto and Hamilton Sewer Pipe Company.

HAMILTON, Feb. 28.—(Special.)—The sewers committee this evening gave the contract for sewer pipe to the Hamilton & Toronto Sewer Pipe Co. Sackville Hill, agent for the Dominion Sewer Pipe Company, Swansea, was the only other tender. Their quotations were very close, but the local concern had about 100 of its employees present and got the contract.

By playing over-time, Hamilton defeated the T.A.C. hockey team to-night by 13 to 12. The score at half-time was 6 all, and at full-time it was 12 all. It was agreed that the teams should play until the tie was broken, and Hamilton scored in 3 minutes. The line-up: Hamilton (13)—Goal, Gordon; point, Marshall; cover, Moran; rover, Crombie; centre, Motherwell; left wing, Harrison; right wing, Morrison.

Toronto (12)—Goal, Cochran; point, Douglas; cover, McGowan; rover, Kent; centre, Tones; left wing, Sale; right wing, McMillen.

The annual conversations of the collegiate institute was held this evening. There were about 400 present.

Laymen's Movement.

In connection with the Laymen's missionary movement the following have been appointed to work in the different Anglican church parishes: Cathedral, H. H. Champ; Ascension, Alfred Powis; St. Mark's, E. V. Wright; St. George's, Walter Noble; All Saints, George E. Bristol; St. Thomas, R. T. Steele; St. Luke's, W. H. Reubury; St. Matthew's, J. A. Savage; St. Philip's, C. Sanderson; St. Paul's, W. J. Hobson; St. John's, J. H. Col-linson.

Arrangements have been made to have a stock company hold down the boards at Bennett's theatre from June 14 to Aug. 24.

Pat Savage, whose death is reported from Detroit, paid visits to Hamilton for 22 years, and during that time fell into the hands of the police about sixty times on the charges of vagrancy and drunkenness. He was before the magistrate for the last time about two weeks ago, and after his worthless had decided to commit him to jail for a couple of months, Pat pleaded so hard that he was allowed to go. The magistrate, however, was not in his belief if he carried out his original intention, Pat would have been alive now.

She Saw Spirits.

Mrs. Heekinbottom, a spiritualistic medium, who was in the police court this morning on the charge of fortune-telling, declared that through the spirit she could foretell what would happen in the future. She said she could see spirits in the court. Ask them what my judgment in your case is going to be," suggested the magistrate, but he got no answer. He found the woman guilty of telling the fortune of Constable McKay, and of charging him fifty cents. The penalty inflicted was a fine of \$50, payable in a week, with one month in jail as an alternative.

Richard Harper and James Ford, arrested yesterday on the charge of stealing wire out of a street car in the presence of their own driver, were remanded until Monday this morning.

The special conference committee were likely to have meeting with the Cataract Power Company next Monday evening.

J. J. Austin, 57 Oxford-street, who has been appointed assistant police inspector, will head headquarters at London, has been a resident of Hamilton for ten years.

The street railway company is objecting to the arbitration proceedings on the ground that there is but one man involved. The men that are cases of a dozen men who were dismissed are involved.

Wesson an Escaped Convict.

The real name of W. T. Wesson, editor of the White Lily, Toronto, who was sent down for seven years for forgery, he is back in Toronto, and that he escaped from the East Orange jail while under the charge of turning a similar trick on Guthrie, Gray and Henderson, a New York law firm.

If the aldermen carry out their reorganization scheme, City Engineer Barrow will retire. He can retain a position at his present salary, but has told his friends that he will not work under another engineer.

Hotel Cecil.

STOP WORK AT 6 O'CLOCK.

New Interpretation of Shops Act Which May Be Enforced.

The provincial factory inspectors are taking steps to enforce a clause in the Factories and Shops Act which makes it illegal for employers to keep female help in their shops after six o'clock in the evening, except on Saturdays and the nights before holidays. This clause was inserted for the benefit particularly of women working in factories or places that might be called "sweat shops," but now it is declared that this regulation also applies to retail stores. Some of the newly appointed factory inspectors see the point, and are pressing it. In addition, receiving a personal visit from the inspectors, the proprietors of the retail stores around the city have been officially notified by letter that they must observe this rule.

The enforcement of the regulation will affect all retail stores in some of which as many as fifty girls are employed as sales clerks. All come under the ban, whether they sell groceries, dry goods, confectionery, or candies. If carried out to the extreme letter of the law would shut out clerks in big stores from doing their stock-taking, or the milliners working overtime, after six o'clock. Restaurants and cream parlors, and other places where the goods sold are eaten on the premises, are excepted in this six o'clock regulation.

The Retail Merchants' Association will take the matter up next week to have the act amended. There has been no complaint, in its own experience, of employees affected who are not hard worked as in the case of factories. In the event of the amendment being enforced, it will mean either the closing of the shops or the employment of male help.

PROTECTION FOR FIRE WANTED BY LUMBERMEN

Pay of Rangers Should Be Increased, So as to Secure the Best Possible.

The annual meeting of the Lumbermen's Association of Ontario was held at the Queen's Hotel, Hon. W. A. Chilton, president, in the chair. The attendance from all parts of the province was fairly representative.

Referring to prices, the president in his address said that prices had been high, and notwithstanding the pinched condition of the money market for several months the prices of lumber did not seem to be disturbed, except, possibly, in one or two lines. The unhealthy conditions of money matters would have affected prices, but, first, the cost of production had not been reduced, notwithstanding that the price of labor came down about 15 per cent in November last; second, the stock of unsold lumber of hand at the mills and in all city and country yards was very much less than for several years, and, third, the quantity of lumber which would be produced this year was about 275,000,000 feet less than in Canada and the United States.

From reliable information his conclusions were that in Ontario the cut of pine and hemlock would be 20 per cent to 30 per cent less this year than last, although railway ties will be more than ample. Some localities would produce more hemlock than last year, but other places much less. In Quebec and other nearby provinces the production of spruce lumber would be 50 to 70 per cent less. In the Northern States, pine production would be 30 per cent less, and hemlock 25 per cent. In seven southern states the reports from 266 mills show the production of yellow pine 275,000,000 feet less.

There were signs of renewed activity in the lumber trade, and of easy conditions in the money market for legitimate business, and he had learned of two contracts made this month for sale and delivery of this year's cut of lumber at prices not less than the value of Fire Ranging.

Great stress was laid on the value of efficient fire ranging, and many instances of the great destruction in Ontario from this cause were given. One fire, in 1896, had started near Boscawen, Ontario, and burned over 2000 square miles of timber country. "A surveyor told me that he saw the fire start, and if he had been in the woods that day he would not have been able to put it out," said the president. Over a thousand square miles had been burned, and the loss of the Grand Trunk Pacific prospective route since that surveyors went in.

For the past twenty years he had been urging the government to establish fire ranger districts, and to employ efficient means of protection against fire. Every practical lumberman has been doing his best to protect his woods with fire, but the success has been very limited. The reason for this is the employment of a sufficient number of good men as fire rangers. The rate of wages paid has been 32 per day, for the Queen's Hotel, following the shelter and provisions in the woods. In the condition of the labor market for the province, Prof. Fernow was made an honorary member of the association.

It is expected that the body will visit the Toronto Free Hospital for Consumptives at Weston, and make an inspection of the new building for the treatment of tuberculosis, which was recently opened by Earl Grey.

Carl J. Willis, who has brought to Canada the now celebrated "lung path" treatment invented in Minneapolis to aid in the battle against the dread disease, "will give daily demonstrations of the device during the convention at his new offices, 23 Scott-street. Mr. Willis has a band of assistants to point out to the physicians interested in tubercular diseases the merits and workings of the treatment. Since 1902, he has treated Mr. Willis has received many enquiries from all over the Dominion from heads of tuberculosis camps and physicians concerning the treatment. The convention will occupy two days.

From reliable information his conclusions were that in Ontario the cut of pine and hemlock would be 20 per cent to 30 per cent less this year than last, although railway ties will be more than ample. Some localities would produce more hemlock than last year, but other places much less. In Quebec and other nearby provinces the production of spruce lumber would be 50 to 70 per cent less. In the Northern States, pine production would be 30 per cent less, and hemlock 25 per cent. In seven southern states the reports from 266 mills show the production of yellow pine 275,000,000 feet less.

There were signs of renewed activity in the lumber trade, and of easy conditions in the money market for legitimate business, and he had learned of two contracts made this month for sale and delivery of this year's cut of lumber at prices not less than the value of Fire Ranging.

Great stress was laid on the value of efficient fire ranging, and many instances of the great destruction in Ontario from this cause were given. One fire, in 1896, had started near Boscawen, Ontario, and burned over 2000 square miles of timber country. "A surveyor told me that he saw the fire start, and if he had been in the woods that day he would not have been able to put it out," said the president. Over a thousand square miles had been burned, and the loss of the Grand Trunk Pacific prospective route since that surveyors went in.

For the past twenty years he had been urging the government to establish fire ranger districts, and to employ efficient means of protection against fire. Every practical lumberman has been doing his best to protect his woods with fire, but the success has been very limited. The reason for this is the employment of a sufficient number of good men as fire rangers. The rate of wages paid has been 32 per day, for the Queen's Hotel, following the shelter and provisions in the woods. In the condition of the labor market for the province, Prof. Fernow was made an honorary member of the association.

It is expected that the body will visit the Toronto Free Hospital for Consumptives at Weston, and make an inspection of the new building for the treatment of tuberculosis, which was recently opened by Earl Grey.

Carl J. Willis, who has brought to Canada the now celebrated "lung path" treatment invented in Minneapolis to aid in the battle against the dread disease, "will give daily demonstrations of the device during the convention at his new offices, 23 Scott-street. Mr. Willis has a band of assistants to point out to the physicians interested in tubercular diseases the merits and workings of the treatment. Since 1902, he has treated Mr. Willis has received many enquiries from all over the Dominion from heads of tuberculosis camps and physicians concerning the treatment. The convention will occupy two days.

SUFFRAGETTES SCORE.

LONDON, Feb. 28.—The Women's Enfranchisement Bill passed its first reading.

The measure is identical with the bill defeated March, 1907. Herbert Gladstone, the home secretary, declared that the result near the house of commons and strong detachments of police had been brought up to guard against possible disturbance, but beyond cheering there was little demonstration.

CHASING THIEF IN CUTTER.

Driver Saw Highway Robbery and Followed the Assailant.

After an exciting chase in a cutter after his man, P.C. Armstrong (271) arrested George Long, 27 years. He is charged with assaulting Leonard Dorsey of Hamilton and taking a pocketbook containing a sum of money.

As Lewis Craigie was driving past the corner of York and Adelaide-streets about 6 o'clock, he says that he saw a man, who is a big man, strike Dorsey and grab the pocketbook from his inside pocket.

Craigie whipped up his horse and gave chase. At York and Richmond-streets he met the policeman, and calling to him to jump in, drove after the man, who was then running. They overtook him on Sheppard-street.

RUMBLINGS IN SENATE. Virtues of Montreal Championed—A Long Rest.

OTTAWA, Feb. 28.—(Special.)—Senator R. W. Scott's statement, that crime was rampant in Montreal, brought on a spirited discussion in the upper chamber to-day, Senator Cloran declaring that the law was enforced in the Canadian metropolis just as much as in Ottawa. He demanded that the government take further measures to prevent the criminal class coming to Canada.

Senator David said the secretary of state had the right to defend the government and show that they are not responsible for everything that happens in Canada, but it was not necessary for him to attack Montreal. Senator David said he was obliged to criticize the statement attributed to the secretary, etc. Montreal had a body of police who committed crime for \$5, and that fact was an inducement to commit crime.

Hon. Mr. Scott said he had not intended to convey this. The senate adjourned until March 19.

BOMBS THROWN AT SHAH'S AUTO; OUTRIDERS KILLED

His Majesty Had Taken Precaution to Ride Farther Back in the Procession.

TEHERAN, Persia, Feb. 23.—An attempt was made in this city this afternoon to assassinate the Shah of Persia by a bomb. His Majesty was not hurt. Three of the outriders who were accompanying him at the time were killed.

The Shah owes his escape to the precautions taken to protect him from such an attempt as was made this afternoon. He was on his way to a nearby town, where he intended to pass a few days. The procession had left the palace and was traversing a narrow street, when two bombs were hurled at it from the roof of a house. One exploded in the air, but the other struck the ground near the Shah's automobile. This missile killed the three outriders, wounding the chauffeur and a score of bystanders and shattered the vehicle.

The Shah, however, was not in his automobile, having taken the precaution to send the motor car on ahead and ride himself in a carriage further in the rear of the procession. The motor car was a closed one, and it was thought that the sovereign was inside. As soon as the Shah heard the explosion he alighted hurriedly from his carriage and entered a neighboring house. Here he remained quietly while his attendants sent word for a detachment of troops. The soldiers were hurried to the scene and formed in front of the house where the Shah was. He then came out and surrounded by a bodyguard, returned to the palace.

The house from which the bombs were thrown and the buildings nearby were searched by the police, but no arrests were made.

Herbert Was Nery.

Herbert Freeland, 23 years, 59 Fredrick-street, last night walked into William Richardson's room at the Clyde Hotel and shedding his raiment with which he was not pleased, arrayed himself in the clothing of the occupant including a fur coat.

Detective George Guthrie supplied him with a cell and a charge of theft.

TUBERCULAR CONVENTION.

Large Gathering of Physicians in Session Next Week.

A large number of prominent physicians from all over Canada will be present at the national sanitarium conference to be held next Wednesday at the Royal Alexandra Theatre. The meeting promises to be one of exceeding interest, when addresses on the "Prevention of Tuberculosis," the work being done at present, and the future campaign against a white plague, will be features of the convention.

It is expected that the body will visit the Toronto Free Hospital for Consumptives at Weston, and make an inspection of the new building for the treatment of tuberculosis, which was recently opened by Earl Grey.

Carl J. WATER POWERS IN DANGER.

Ontario Government Will Oppose Bill Now in Senate.

A bill laid before the senate by Senator Robert Watson to incorporate the Ontario and Michigan Power Co. contains the most extraordinary statement of powers that have yet been sought in Canada. If granted the company would be enabled to use their \$500,000 capital for the purpose of obtaining, developing, improving or generating water power, using water power by any means of application, converting water power into electricity, heat, light or any other form of energy, storing water power, gas, compressed air, electricity, heat, light, or any form of energy, and of admitting and supplying the same by any means for the use in any manner at any place in Canada or in Isle Royale or in any place in the United States of America.

Practically the whole water powers of Ontario would be at the mercy of the company, and the encroachment on provincial rights represented by the bill is the most extensive that has ever been perpetrated.

Steps will be taken to oppose the measure.

The incorporators are: Thomas Sturges, New York; J. C. Hunter, Duluth; Herman Finger, Port Arthur; A. W. Fraser and Thomas A. Burger, Ottawa.

NOTE AND COMMENT

With all the curling competitions decided, the hockey championships allocated, the ball teams en route south, and the entries for the King's Plate race about to appear surely it is sufficient notice that the glad spring season is almost at hand. In Ottawa they have already made up their minds that Billy Foran is going to be the manager of the Canadian Olympic committee. Tom Flanagan is going over, the guest of Hugh Graham of Montreal, and if the authorities who have just been granted a nest egg of \$15,000 by the Dominion Government look right Tom Eck will surely be selected as the only fit and proper person to look after Canada's athletes next summer in London.

The Granite Club outdid themselves in sending six rinks out of town yesterday, the occasion being the annual excursion to Galt. On arrival it was found that there were only five sheets of ice in the curling rink, so good-natured Harry Allen stood out. The first game was with the old Galt Club, and the home team pulled out good winners, notwithstanding Dr. Hawley's margin of eleven over the Vetch curlers.

The veteran McAuliffe, gave Hal O'Hara a tough game all the way. In the afternoon the whole six teams were entertained by the Galt Granites, Jimmy Shields, being the man in the morning, being allotted space in the hockey building. Again the home curlers won, Tom Wilson being the only visitor with a margin. The Toronto curlers were right royally entertained as usual.

In Paris, where the principal races are decided on Sundays, they have just seen French jockeys regretting the fact that Richard Figgis, who has been theockey Club starter for the last thirty-five years, has been forced, by failing health, to resign.

Betting this year at Churchill Downs, Louisville, will probably be carried on with the Paris mutual system. Sheriff Scholl, who has made a fight against bookmaking at that track, says that he does not see where he can step in on his own accord and stop the system supported from France. The sheriff says further that he believes the mutual system will not be in violation of the law against gambling prevailing in the State of Kentucky.

The national baseball commission has decided that whenever a minor league player has been purchased by a major league club such player cannot revert back to the minor league club the year following the purchase unless all the clubs of both major leagues waive on this. The commission decided that the rule did not apply to players purchased in 1907, that the date of its going into effect is deferred a year.

Jimmy Casey of Montreal has obtained Outerfield Stanley from the Washington Club, and Frank Chance of the champion Cubs has promised to turn two pitchers over to Montreal. One of these men is understood to be Martin Walsh.

B.A. Record Was in Danger

Vancouver Only 4 Pins Behind

Harry Wells of Royals is High in Singles With 608—Thompson's Colts, O'Learys, Royal Canadians and Iroquois Roll To-Night.

The record hung up by Tossietta of Chicago came within an ace of being shattered at the C.B.A. tourney last night, when the Vancouver team totalled 2657, just four pins behind the record. The boys from the coast rolled a consistent game and but for a little of the hard luck that befalls bowlers would have smashed the record, they having two splits the last frame. As it is they are high Canadian team to date.

The record for the individual was boosted up to 608 last night, when Harry Wells of the Royal Canadians totalled 608, thanks to his good 247 frame, the second game.

In the afternoon Mrs. Hull defeated Mrs. Cowger in the first of their five-game series. Mrs. Hull's high game was 100, while Mrs. Cowger got 206. This afternoon the ladies finish their series, starting at 2 o'clock.

The Hamilton Gun Club won the cup of the Gun Club competition, defeating Balmby Beach by over 100 pins. As there is keen rivalry between these clubs, a considerable margin of money was wagered on the result, over \$500 changing hands.

On the 21st Thompson's Colts and O'Learys of Chicago will roll, and some new records are expected to be hung up for the tourney.

On the 21st a meet is being held at 11 o'clock and it is not unlikely that Hamilton will be the place selected upon for next year. Results:

GALT AND BRAMPTON WIN

From Granites and Queen City Respectively.

GALT, Feb. 28.—Six rinks of Toronto Granites played here to-day, losing to the Galt by 15 shots and the Galt Granites by 7 shots. The rinks:

Table with columns for names and scores. Includes entries like J. McAuliffe, A. Vetch, etc.

Bramford Four up on Queen City. BRAMPTON, Feb. 28.—(Special.)—Queen City Curling Club sent four rinks out to-day to Brampton in a friendly match. Harry Wells, skip, led the Queen City curlers, succeeded in leading Dr. Ross' rink to four shots.

John Rennie Wins Points Competition. The Caledonians held their annual points competition at the rink here yesterday afternoon. John Rennie winning with a total of 33. The points were: Harry Wells, 23; J. G. Roberts, 10; John Rennie, 33; J. G. Roberts, 10; John Rennie, 33; J. G. Roberts, 10.

Ince Wins Flavell Cup. The final game for the cup championship and the Flavell Cup was played at the Queen City Curling Club last evening. Mr. John Wellington and Mr. James Ince were the opposing skips.

Orilla Beats Lindsay for Cup. ORILLA, Feb. 28.—The concluding game for the Orilla Lindsay or Orilla Curling Club competition was played to-day. Four rinks played at Lindsay and Orilla. The rinks were: Orilla, 15; Lindsay, 12; Orilla, 15; Lindsay, 12.

Underwood Typewriters Roll. Last night the typewriter rollers held their monthly bowling match on the Toronto alleys. Good scores were run up by all of the four rollers, the winners turned up in the inspection department last night. Friday centre, C. S. Bennett, left; right wing, V. St. Catharines; right wing, C. S. Bennett; left wing, V. St. Catharines.

Niagara Falls Win Cup. NIAGARA FALLS, Ont., Feb. 28.—The local hockey championship of Niagara district final game between Niagara Falls and St. Catharines teams, was played here last evening. The game was a close one, with Niagara Falls winning by 6 to 3, thus annexing the cup.

A Riot at Fredericton. FREDERICTON, N.B., Feb. 28.—(Special.)—A wild riot took place at the rink here last night, caused by the arrest of one of the Moncton hockey team players on account of his actions in a previous game. The result was that the game was not played at all, the referee deciding in favor of Fredericton team. The game became greatly excited and demanded their money back, breaking windows and destroying other property. Amateur hockey received its death blow. There has always been great bitterness between the two teams, and the climax came to-night.

Hockey Gossip. The O.H.A. yesterday, after considering the conflicting evidence in the Collins protest, decided to reinstate Collins, with the result that London now are over. The finals in the Toronto Hockey League will be played Monday evening at Mutual-street. Broadview Juniors (East) vs. Granite Juniors (West), 7:30; Broadview Juniors v. New Beach Juniors, 8:30; Sellers-Gough (West) v. Granite Seniors (East), Lou Marsh referee.

Toronto Gets Catcher Brown. President McCaffery of the Toronto Baseball Club arrived home yesterday with the news that he had secured a catcher for the local fans. While in New York he secured the services of a catcher, who has been with the Boston Nationals the last two years. Brown is a six-footer, weighs 170 lbs., and is a right-handed batsman. He is expected to be cranked in any time.

Bramford will be the Toronto's opponents in a professional league game at the Mutual-street rink to-night. It will be the appearance of the club's plans in a home league game, as the local fans are expected to be in the Guelph next Thursday. Pick Little referee. The puck will be faced at 8:15 as usual.

London Win From Collingwood

But Margin Was Not Rough

English Syndicate Insists That Colored Pugilist Post \$2000 Forfeit. LONDON, Feb. 28.—Mr. Kelly, representative of the syndicate which is endeavoring to arrange a fight between Tommy Burns, holder of the heavyweight pugilistic championship, and Jack Johnson, the American negro fighter, received the following cable despatch from the United States to-night:

Johnson is quizzed at Burns' terms. He will fight in England if Burns insists. He is a thousand dollars for expenses. Send full particulars of the offer of the British syndicate. To this Mr. Kelly replied: "Will give Johnson a \$2000 forfeit to referee and to referee, articles will be sent to the United States for him to sign. It might be added that the terms which Burns Johnson are not those of Burns, but were made by the syndicate. The only conditions are: Burns insisted upon the size of the ring, and James J. Jeffries to be the referee. Jeffries was chosen by him because he believes the American public will be better satisfied with Jeffries than if an Englishman judged the fight."

Three-Cornered Tie in Northern. LONDON, Feb. 28.—A very exciting game of hockey was played here to-night between Mount Forest and Listowel. The visitors arrived in town on a special train, accompanied by a goodly number of supporters, full of enthusiasm and no doubt prepared to return home with a victory. Mount Forest was the favorite, but Listowel's clear hockey, combined with close checking and combination work, the home team held this lead to the finish, making a score of 3 to 1 in favor of Listowel. The winning of the game to-night by Listowel was a great triumph for the whole game.

San Francisco, Feb. 28.—Abe Atwell defeated Eddie Kehley here to-night for some years. The Buffalo boy out in the seventh round. Abe Atwell wins.

A favor will be conferred on the management if subscribers who receive papers by carrier or thru the mail will report any irregularity or delay in receipt of their copy.

PREMIER WHITNEY MUST SPEAK

Not the least remarkable feature of Premier Whitney's presentation of the case for the government, on the closing day of the debate on the address, was the omission of any reference to the then existing crisis in the affairs of the Electrical Development Company.

INSIST ON THE AMENDMENTS

Hardly has one battle been fought for the right of municipalities to control their streets and public places and to regulate the entry and conduct of railways making terminals within their bounds than another begins.

LAST DAY OF STOCK REDUCING SALE

New Goods are Crowding Us—So Special Offers to Clear.

- Young & Rochester's Cloth and Knitted Vest, up to 12.50, for \$2.00. Knitted Coats, gray, brown and white, regular \$3.50, for \$2.50. determine purpose of the people to obtain cheap Niagara power thru public ownership and control. A frank acceptance of the verdict might without insuperable difficulty have led to a co-operative arrangement at once securing for the municipalities what they were resolved to get, and preventing the passing of the company into hands which threaten grave inroads on public rights.

AT OSGOOD HALL

ANNOUNCEMENTS FOR MONDAY. Chambers. Cartwright, motion at 11 a.m. Divisional Court.

Ontario has no right to expect further sacrifices from the most zealous, unselfish politician who has appeared in the public life of this province in a generation.

THE T. EATON CO. LIMITED

"THE HOUSE THAT VALUE BUILT"

Opens Monday A demonstration of quality, purity, cleanliness, quantity and value.

W HAT is more important to the housewife than to know that the food she provides for the family is pure and fresh and clean?

To those everyday customers, those steady-all-the-year-round patrons of this food section (and their name is legion) it isn't necessary to demonstrate purity, cleanliness or value. They know these things; get them in every order.

But we open a Pure Food Show on Monday, so that all Toronto may get some idea of the complete satisfaction our thousands of customers find in dealing here.

More than that, she'll be anxious to have you taste and try.

In this food show the paramount desire is to prove to you our honest endeavors to serve a big public the best way. We want you to look, to taste, to observe, to ask questions—you may buy if you feel like it. These will be demonstrated:

McLaren's Jelly Powders, Extracts and Icings.

E. D. Smith's Pure Jams.

H. P. Sauces and Pickles.

Reliance Breakfast Cereals.

Maple Tree Producers—Maple Syrup.

Quaker Oat Co. Cereals.

Art Jelly Powders.

Armour's Beef Extracts, Soup and Pork and Beans.

Imperial Cheese.

McLaren's Peanut Butter.

Upton's Jam and Marmalade.

Souchard's Cocoa.

Craig's Buckwheat Flour, Flaked Rice and Peas.

"THE HOUSE THAT VALUE BUILT"

Opens Monday A demonstration of quality, purity, cleanliness, quantity and value.

W HAT is more important to the housewife than to know that the food she provides for the family is pure and fresh and clean?

To those everyday customers, those steady-all-the-year-round patrons of this food section (and their name is legion) it isn't necessary to demonstrate purity, cleanliness or value. They know these things; get them in every order.

But we open a Pure Food Show on Monday, so that all Toronto may get some idea of the complete satisfaction our thousands of customers find in dealing here.

More than that, she'll be anxious to have you taste and try.

In this food show the paramount desire is to prove to you our honest endeavors to serve a big public the best way. We want you to look, to taste, to observe, to ask questions—you may buy if you feel like it. These will be demonstrated:

McLaren's Jelly Powders, Extracts and Icings.

E. D. Smith's Pure Jams.

H. P. Sauces and Pickles.

Reliance Breakfast Cereals.

Maple Tree Producers—Maple Syrup.

COUNTY POLICE

wanted to know the reason that another man was brought into the case. The witness said that it was better to have an extra man as witness.

"What did you tell me before?" "I don't remember."

"Oh yes you do. You remember," said Judge Winchester, "all about the rewards offered by the county council. And the provision preventing any special officer from getting a reward."

Was there not an arrangement between you by which Petch would get the reward and divide up?" "There was no agreement."

In one case the witness admitted that he had received \$2 out of a reward. In another prosecution in which Strasser, an undertaker, laid the information, the witness was not called upon for an order from the informant. Strasser got \$3.

Judge: "You kept the rest?" "Witness: "Yes." "What did you do with it?" "Paid Strasser \$4 more."

"When three months ago." "Since my preliminary investigation?" "Yes."

"You got costs in these cases?" "Yes." "Don't you know, as a special constable, you had a right?" "That was his honor's conclusion."

In the case of Dr. Emory, witness had received his costs, which included trips to Toronto, and he did not say whether he had charged these items to the government as he had lost his book.

Information in auto cases had been laid by Strasser and Butler a dentist. His honor wanted to know this was not done so men could this county reward. The witness said not.

You did not peep them before the county accounts were offered. Why did you go to certain magistrates with your cases?" "Because I considered that I was not treated properly."

Got His Money Back. County Constable W. H. Cavanagh had also pressed several auto cases. In the case of J. J. Sheppard and Cavanagh had called on Sheppard at the Queen's Hotel, Sutton, and ordered him to clean his machine. The following Monday Sheppard received a summons for permitting his number when the case was at Sutton it was settled by the payment of costs. Sheppard reported the matter to the provincial secretary, and Cavanagh also pointed out cases where costs were collected on dimittals.

"Did you serve Mrs. Massey?" asked Judge Winchester of County Constable J. B. Evans, who said he hadn't. His honor: "Then why did you swear?" "Witness: I don't think I did. "Where's your affidavit as to the service?" "I went to the house."

"People won't have any confidence in you," said his honor, "if you are not more careful about what you do." William Gray, a youth sent to jail by Magistrate Woodcock for thefts committed near Mount Albert, and was taken directly to the jail. He was not before Magistrate Woodcock again.

In the county court on Monday, presented by Magistrate Woodcock and one by Constable Savage for dealing with a case against the county, the court house in Toronto the day after his sentence was imposed at Mount Albert.

A Mysterious \$30. Questioned as to the Smith and McKee matter, Constable Frisbie said that he laid the charge, but Magistrate Woodcock settled the case. Woodcock had paid him \$30.

"No he didn't," said the judge. "He swore he didn't. Do try and remember something." The judge wanted to know how the costs were made up, and witness said he did not make it up in constable's fees.

"Yes, that's right. It cost me \$2.50 to go to Holland, and I gave Constable Stewart \$10."

"How did you make up the balance?" "I did not make it up at all." "Those were pretty high fees for constables, did you charge the government any?" "Yes, \$2.50, my fees for a day."

Magistrate Woodcock, recalled, said that one Sheffeld had pleaded guilty to two charges on Monday, and his honor wanted to know why the case had been adjourned over night. "Was it for the constables to get extra fees?" "No, altho that would be the result."

"You also had Constable Duncan as a witness, did you not?" "Yes, at the expense of the county."

"In my discretion it was wise to have two men, as Sheffeld had escaped from custody," was the magistrate's answer.

Bill Ran Up. The costs in a Drummond case, where a man named Sutherland was charged with demanding money with menaces, were probed.

The officers elected were: President, James Kennedy; vice-presidents, Messrs Simpkins and Goodrich; treasurer, H. R. Holt; secretary, Mr. Hill; bard, Mr. Edmondson; standard-bearer, Mr. Livingston; auditors, Messrs. Faucet and Patton.

out-stealing case, the costs being increased accordingly thereby.

Five Cases in One Day. "You had five cases all in one day," asked the judge, "when the Hodges and Foster's children were accused of housebreaking?" "There were really two charges against Ichar Foster, Sarah Hodges, Esther Hodges, on one case. "There was a severance," said witness.

"Oh you don't know anything about severance of these?" "In the case of the Grand Trunk Railway charged with obtaining a nuisance at Holland Landing witness had put in a bill of \$28.90, which included four trips made by the witness to Toronto at \$3.00 each, and a conveyance to His Honor asked the witness to look over the statement of return made by him of fines, and make a report.

"I don't think I can," said Woodcock. "I expect it, otherwise you will have to pay them over to the witness as to that there was only one conviction against Gray, as far as he knew, despite the fact that Woodcock swore he sent another conviction by mail. James S. Hunt, a constable employed for five years said that he had a number of breaches of the game law cases. "What did you do with the fines?" "When the game warden has no salary he gets the fines."

"Who is the game warden?" "I am."

SLEEP IN RELAYS

Continued from Page 1.

mous by the speech of Edward Blake, who kept one eye on the clock the last ten minutes before midnight, while the Liberal members and crowded galleries kept up a sustained applause.

The First Breathing Spell. Along about noon Mr. Bennett of Simcoe had the floor and devoted himself to eliciting information from Mr. Brodeur as to an item of \$4000 for the board of the expert accountants brought in by the Government of New York to change the system of bookkeeping in the marine department. The accountants charged \$3, \$4 and \$5 a day for board. It happened that Wm. L. Jackson of Elgin stayed at the same boarding house with two other men and the charges were not over \$1 a day. Moreover, Mr. Brodeur said the vouchers were to be produced. There were no vouchers produced. Mr. Blain took up the argument in the Merwin case and asked Mr. Fisher, who was leading the house, why he brought in the allowed middlemen to operate at all.

"That is too broad a question to answer offhand," was Mr. Fisher's reply. "This money for the Arctic will not be given Mr. Merwin," said Mr. Brodeur, "and supplies will be called for by tender." The minister left the chamber for a brief rest.

Dr. Barr declared that ministers "suffering from sweated head or something were responsible for this situation." Of all departments he said the marine was the most suspicious, and all session there had been rumors of its being "rotten to the core." He kept up the talking till the Speaker brought the chair for the 6 o'clock recess.

This was the first break since 6 o'clock Thursday night. It is automatic, and gives both sides a breathing spell.

Members Sang "O Canada." The departure of the Speaker was marked by the singing of "O Canada" by Dr. Beland of Beauce and the French-Canadian contingent.

New York. Mr. Blain (French) asked the minister to state the address of the firm of accountants employed by the government to change the system of bookkeeping in the marine department. The minister of marine had misled the house when he said the Goldwater in Montreal. An account showed traveling expenses to and from New York paid by the government.

Mr. Brodeur, however, was silent, except that he backed up Duncan Ross of Yale-Cariboo in demanding that the Minister should be asked to the item before the committee. Later on he said he refused to answer questions not pertinent to the item. But Mr. Blain had a stick closely to the item before several members attempting to speak to the point of order and both sides getting so far away from it that the deputy speaker did not make a ruling.

Finally Mr. Foster discoursed on the wisdom of invoking the strict rules while in committee of supply.

Liberal Cohorts Jeered. "The government's life," said Mr. Foster, "absolutely depends, and its comfort as well, upon the courtesy of the opposition." While repeating this den in other forms the Liberal cohorts jeered.

Duncan Ross attempted to silence Mr. Foster by again working the rule, but he was not allowed to do so. Mr. Marcell, who declared that the North Toronto man had the floor.

"He might as well learn to do it now as later," said Mr. Foster, in offering the advice to the minister of the marine that it pays to be frank and accurate. "He has to live a day or longer than midnight Saturday. One of the minister's faults is lack of frankness, another is lack of accuracy."

At length Mr. Brodeur was urged to his feet. If the opposition wanted to be treated fairly, Mr. Foster should treat the other side fairly, he said.

Foster Invites Brodeur. After ten to-night Mr. Foster noted the absence of the minister. In the afternoon Mr. Brodeur had complained that he (Foster) had made a "vicious attack" upon him. "Now Mr. Foster proposed to give the proof of the statements he made, but the minister was not in his seat."

Mr. Fisher, who was leading the house, sent the chief whip for Mr. Brodeur, who came in amid Liberal applause.

Mr. Foster detailed the Falconer transaction and his comment upon the looseness of Mr. Brodeur in making a verbal contract involving a large amount of money.

Afternoon and evening Lanctot (Richelle) created amusement by interrupting English speaking members with exasperated ejaculations which the speaker did not understand.

Foster turned his guns on Lanctot, but it did no good. "The words and gestures indicated a belief that Mr. Foster was making a violent attack on the French Canadian race in the persons of the minister of marine and fisheries."

The cost of maintaining this quasi prison is nearly met by the institution itself, a deficit of about \$400 last year being the whole amount that stood between it and self support, even after salaries of officials and teachers had been paid. A similar "school for correction" is located at Tukuhisken, and from the success of these pioneer attempts at social betterment of Shantung it may fairly be assumed that before long every young man of the province who goes wrong will have an opportunity of learning free, a trade which will enable him to materially better his position in society."

This sentence is now used for petty larceny, vagrancy, disturbing the peace and all similar transgressions; while professional beggars, cripples and blind men are also sent to work in these public institutions.

Reporting on the station under his care, the police magistrate of Loanh-shien, in the district named, states that the long-deserted and neglected government buildings in the city have been restored during the last year by penal labor, where minor criminals are kept busy at work.

As a result of the reconstruction of three large work halls, a wash and bathroom have been completed, and a modern sewerage erected. The interior is so arranged that the inmates are divided according to age and the misdeeds for which they are interned, while the

guards and supervisors watch them thru a wicker partition.

Close at hand is a new administration building, where the officials live and the offices are located; a general mess hall and kitchen, and a schoolhouse, where young men from the district are taught with expensive ejaculations which the speaker did not understand.

The stage: A place of illusions—and a cure for them. Work: A disease, neither infectious nor contagious.

The ordinary punishment for minor offences for ages past has been beating or "bamboozing," as it is locally called. In the Ching Chou district of Shan-tung this has been entirely done away with during the last few years, and a compulsory period of servitude substituted in its place.

This sentence is now used for petty larceny, vagrancy, disturbing the peace and all similar transgressions; while professional beggars, cripples and blind men are also sent to work in these public institutions.

Reporting on the station under his care, the police magistrate of Loanh-shien, in the district named, states that the long-deserted and neglected government buildings in the city have been restored during the last year by penal labor, where minor criminals are kept busy at work.

PAINTERS ASK INCREASE.

Want 37 1/2 Cents an Hour—Brewery Workers Will Arbitrate.

A request for 37 1/2 cents an hour, to go into effect April 15th, has been made by the Painters and Decorators' district council, and from now until that date the executive committee will meet every week.

No concessions are asked in hours of work. The present wage ranges from 30 to 35 cents per hour. No demands have been made in four years, partly on account of inefficient organization, but since the strike was divided into three districts with a central council, the craft has increased its enrollment to 620.

Expensive Workers' agreement expires to-night and as no settlement has been the outcome of the past three weeks' negotiations with the employers, it is highly probable that the men will go to arbitration. The men want a general increase of 25 cents a week with an 8-hour day for nine months in the year and 9-hour day for the three winter months.

Proceeds amounting to about \$75 were derived at the Boot and Shoe Workers' concert held in the Labor Temple last night. It was stated that this fund would be turned over to the striking plumbers. John F. Tobin of Boston presided.

With the lifting of the strike assessment of one per cent on earnings by the International Typographical Union, he presided publicly at the party. A fund for needy members who have had twenty consecutive years of good standing will go into effect on Monday next. This innovation will cost each working member a per capita tax of half of one per cent, of his wages every week.

BRITISH FLAG GOOD ENOUGH

Dr. Thompson's Independence Speech in House of Commons Criticized.

MONTREAL, Feb. 28.—(Special.)—"The British flag is good enough for us," constitutes the head lines of a very outspoken article in this evening's La Patrie referring to Dr. Thompson's independence speech in the house of commons.

"We are aware," says La Patrie, "that a few people in Canada have had dreams of independence, but no one ever thinks of the thing to-day."

RUSSIAN NAVAL SETBACK.

No Possibility at Present of Country Raising Funds.

ST. PETERSBURG, Feb. 28.—The project for the rebuilding of the Russian fleet has received a setback as a result of the attitude taken by the ministry of finance, which sees no possibility, under the present circumstances, of an appeal to the public for a great and powerful navy. The naval estimates submitted amounted to \$1,000,000,000 for ten years construction.

BOTH LEGS BROKEN.

While coasting on the Riverdale Park hill last night, Robert Stevenson, 17 years, 105 Seaton-street, was thrown from a bicycle, and both legs broken above the knee. J. Marshall, a son of George Marshall, druggist, 310 East Queen-street, who was acting the first sleigh was also thrown from it and suffered injury. Young Stevenson was taken to the general hospital in the police ambulance.

Effort to Save Terrorists.

ST. PETERSBURG, Feb. 28.—That the sentence of death imposed yesterday against Calvino, the Italian newspaper correspondent, and six other terrorists who were convicted of complicity in the recent plot upon the lives of Grand Duke Nicholas Nicholavitch and Czar Nicholas II, the minister of justice will not be carried into effect without an effort being made to save them was made manifest to-day, when an appeal was made on constitutional grounds and involving the competency of the dome was lodged with Gen. Hazenkamp, chief of the general staff.

ADVICE FOR WOMEN WHO WANT BEAUTY

Pretty Face Not Necessarily an Expensive Possession—Egyptian Beauty Method.

"Many a woman," said the physical culturist, "would like to begin a beauty quest, but the trouble is that she does not know how to make a start. She is afraid it is too expensive, that buying cosmetics is worth having."

"It is not necessary to begin by laying out large sums. She will need a little jar of finely powdered pumice stone, which is cheap and one of the best of all toilet requisites. For five cents she can get enough to last a year."

"Then she will want a little box of borax powder, and here again a nickel will do a great deal for her. And as she goes along fitting up her toilet shelf she will find that it is rather knowledge of what to buy than plenty of money that is essential to the upkeep of a pretty face."

"There are many women who have good features but have let the face become full of blemishes. To make the face look like new is the function of the beauty expert, but the amateur who does not want to spend much money can manage very nicely for herself without a beauty doctor."

"The main trouble is that the skin gets clogged, and the first step is to wash it. The daughter of Pharaoh used to go down to the river bank and kneel in the mud, and wash her face with it. It smooths the skin and makes the complexion glow."

"That was the old Egyptian method of making the complexion good, and those who spend the winter in Cairo will tell you that the mud in the water among the modern Egyptian beauties. It is not always feasible to go to Egypt to wash one's face in the waters of the Nile, but a woman can go thru the same process with domestic water."

"For such a woman it is best to begin by a good rubbing of the face with pumice and very hot water. It is unnecessary to take the skin off, but the rubbing of the face with sand and then lathered and rubbed again."

"A spraying of hot water will remove both sand and soap and leave the skin glowing and pretty. It now needs nothing but a coating of skin food to make it as fair as any woman desires."

"If the patient is a stout woman, the physical culturist will advise her to leave off coffee in the morning and to drink at all with her breakfast. An hour before breakfast she can take a cup of hot water and at 11 she can take another cup of hot water. But she must make her breakfast and eat her food entirely without drink of any kind."

"Getting thin below the belt line is the thing to aim at for the woman who has let herself go. In most cases the fat settles in the chin also. Unless her belt is small and her chin shapely she is out of the running for beauty's standpoint."

"To begin massaging the chin is one of the first things to do. The improvement process will be visible day by day. Even at the end of twenty-four hours the change is noticed."

"To make quick change from ugliness to beauty is what most women want. They desire the services of a good godmother to help them, the younger and prettier than they really are. And the fairy godmother will do it if she is properly entreated."

"A young woman who makes up her customers for the occasions was hastily called before a recent wedding to prepare a woman's toilet. The patient, a woman of 40, was to be one of the guests next day."

"I must look young and pretty tomorrow," she said. The young beauty expert looked upon her and sighed. The patient's skin was rough and her eyes had a watery look, her hair was like burnt hay and the very expression of her face was drawn.

"Make faces while I massage your skin," said she. And then, holding a mirror in front of the woman, she commanded her to relax her jaw, draw her mouth in hideous folds and bring each muscle into active play. Meanwhile she scrubbed her complexion and massaged.

"Then there was the hair question. For the hair was matted of many colors. There was nothing to do but shampoo it quickly in scented water and to dry it under a scented cap. Occasionally the cap was lifted and the hair was ventilated.

"It took a couple of hours, but at the end of that time she was shining and lovely in tone. It was a mighty relief to the patient. The patient, which is that of a delicate tanning, which is that of a delicate tanning from pale yellow to deep brown."

BROKEN RAIL DITCHES TRAIN

C. P. R. Overland Express Wrecked at Eganville Junction.

OTTAWA, Feb. 23.—A broken rail at Eganville Junction caused a wreck to the overland express, No. 96, on the C.P.R., this morning at 6.58. The engine and one car got over the break, but the others went off the track. The sleeper, dining car and express car went down the embankment, while the mail car, baggage car and two passenger cars were derailed. The other cars were derailed, but did not go over.

PECULIAR TRANSACTIONS
IN MINING SECURITIES

World Office, Friday Evening, Feb. 23.

A strange proceeding in today's markets for Cobalt was the sale of 1000 Cobalt Corporation of the Town of North Toronto stock at 21, at the Toronto Stock Exchange cur, while the stock was selling at new York upwards of five points higher. A transaction in the opposite direction was a sale of Foster at New York at 12c. Both transactions were regarded as evidences of market rigging for the purpose of influencing outside opinion of the genuine market for mining securities to-day was about as dull as it has been. The small public participation has made it difficult for professionals to get a turn, and most of these have ceased operating until the markets really broaden out.

THROW AWAY YOUR DRUGS!

The Dr. Sanden Herculex Electric Belt is all you need to make you Strong and Well

No sensible man now uses drugs to build up his strength or to cure his aches and pains. Recent exposures in the leading newspapers and magazines of the effects of patent medicines on the system should be sufficient to warn everyone of the danger. We have read in some cases of where death followed their use; we have read of others in which horrible diseases were contracted; and in nearly every case the patient is left in a worse condition than before he started. Drugs are unnatural, and what is unnatural must necessarily be harmful.

ELECTRICITY IS NATURE'S GRAND RESTORATIVE.

The most eminent physicians and scientists of the world now agree with me that electricity is the basis of human vitality, and that we cannot feel well and strong unless we have a normal supply of it in our bodies. Electricity is the life of the nerves and of the various organs, and there is no way in which it can be applied that is so comfortable, so convenient and so effective, as through my latest model Herculex Electric Belt. Worn comfortably around the waist at night while you sleep, it directs a soothing, invigorating current through the weakened parts, and the building-up process continues gradually but surely until you are restored to your normal condition. Nothing can be more satisfactory than this, unless it is my method of selling my Appliances. Remember, you can make arrangements to get a suitable Belt on trial, absolutely

BOARD OF WORKS GIVE ESTIMATES FOR YEAR

Effect Saving of \$700—Death of East Toronto Young Lady—County News.

TORONTO JUNCTION, Feb. 28.—The employees of the Canada Cycle & Motor Co. have shown a kindly interest in the work of the Citizens' Benevolent Association in relieving cases of destitution in town, by contributing \$50 for the relief committee. The association gladly acknowledges the receipt of this donation, which will be the means of providing many unfortunates with food and fuel. The people of the Junction should be proud of having the Canada Cycle Company located within their midst—a company which gives employment to a large number of the townspeople, and whose employees are always ready with heart and pocket to do their share in helping to relieve suffering and distress.

The Tiny Tads of great renown Have come to visit in our town, And every week they will appear Upon this space that we have here, To do their clever little stunts With Boojums and Umbrellaphants And Kangaroosters and Kabobs And strange Bazooks and Jabberwocks And all that weird and jumbled mess Of beasts from the Bewilderness.

You ask us why we get these Tads To do their frolics in our ads? Well, first of all they catch your eye, And next our offerings you spy, Then, just to try us once, you come— (The rest is simple as a sum) Once come, you'll ten times come again, Small profits multiplied by ten, Good deals which bring you o'er and o'er, To help yourself and help our store.

FINE HAMILTON CHOIR WINS MUCH APPLAUSE

And Madame Sembrich Sings in Glorious Voice—Concert Great Success.

By J. D. Logan. Brother Bruce Carey and his vocal chorists came down last night from Hamilton to scratch musical gravel in the Toronto coop at Massey Hall. An audience that practically filled the ground floor and the two galleries was there to greet Mr. Carey and to say, "We're glad to meet you and to hear what you can do." Mr. Carey is like his old namesake, Robert Bruce of Scotland, who came out of the cave where the spider taught him not to believe in anything but attainment. Mr. Carey will, I believe, be successful in his ambition to attain distinction in choral singing in time.

DOCTORS HAVE RAISED FEES

"Yes, sir," remarked a prominent physician, "they have, and I don't think it's better in these hard times. As a protest, I give this valuable prescription (which has cured hundreds of all sufferers from La Grippe, Colds, Coughs, Bronchitis, Hoop, Throat and Lung Diseases, free of charge): Fluid Extract Licorice, one-half ounce. Syrup White Pine Compound, one ounce. Glycerine, one ounce. To this add three ounces of boiled water, and take a dessert-spoonful four times a day according to the directions on the wrapper. This formula can be filled at any reliable drug store.

BUTTER FAMINE

High Prices Prevail in England for Table Butter. LONDON, Feb. 28.—London is threatened with a butter famine. The wholesale price of butter has touched 15s. the best quality, the highest price in the history of the provision trade.

CHESTER

CHESTER, Feb. 28.—A few months ago the rectory of St. Barnabas' Church pointed out from the pulpit and in the Parish Magazine that in spite of having been in existence for nearly 50 years, the church had never received any offerings as memorials of departed relatives or friends until last year, when a stained glass window was erected in memory of Mrs. Menagh, for 20 years organist. The rector pleaded for a greater recognition of the practice of honoring the memory of the dead by offerings for the house of God.
