Particular stress is laid on the moment chosen for the sending of the notewhen the military situation on the Russian and Rumanian fronts temporarily is favorable to the central powers—and on the proposition of the Pope to leave Belgium and France to restore their own devastated regions while Germany, with the agricultural and industrial machinery of which she has stripped those regions would enjoy crushing economic superiority for years to come. This is considered the fatal defect in the pontiffs plan—that the allies would be precluded from economic measures for their protection against the central empires, while Germany would be allowed to profit from her invasion of Belgium and northern France.

The question of who will be appointed to the position of high constable of Wentworth, which will become vacant after September 1, is a live issue here. The applicants is Sergt. The plan for the settlement of the case of Alsace-Lorraine, Trent and Trieste is contrasted with the proposition regarding Poland, the latter seeming to accord perfectly with the plans of the central powers, while the former is regarded as likely only to develop an interminable diplomatic imbroglio. The humanitarian purposes of the Pope's notes are appreciated, but they are considered short-sighted. It is stated that the real interests of humanity require a decisive result in this war, which it is held, alone can prevent another.

THE DAY'S EVENTS REVIEWED

HE British in Belgium yesterday chiefly applied their energies to the

wallowed a little further forward in the mud along the Steenbeek River.

The Germans not only did not recapture Langemarck, as they asserted, but

they made no attempt whatever to retake the heaps of ruins, pulverized

concrete and obliterated crossways designated by that name. Evidences accumulate that the Boches received a terrible mauling. Their dead and

wounded cumber the ground, where they fell in the senseless, continuous massed attacks now adopted by Von Hindenburg and Von Ludendorff as the

acme of successful offensive action. More than two thousand German

prisoners now look out of the allied cages on the world at a new angle.

The French had hard going underfoot, but they successfully dodged a vast

number of bullets, for their 400 prisoners total more than their casualties.

The German units, it is reported, have suffered so much as to compel the

enemy to relieve them without delay. The British and the French have fished 24 German guns out of the mud fields.

German embarrassment at having to meet attacks at more than one point.

Their salient on their left wing is a promising growth of 48 hours' ex-

stence. Since flooded ground bars the development of their salient on

the right wing, southwest of Lens, they may elect to continue their turning

movement from the northwest. The German line, under their pressure,

is curling up like a stricken worm. The prisoners taken in this region

have increased to 1120. The rise in the number comes from the emergence

of bodies of Germans from the dug-outs, into which they had plunged when

attacks. This action destroyed the remnants of the fourth division of Prus-

value. Mr. Lyon exposes an old trick of the enemy. Von Ludendorff had

said that the Canadian objective was Ventin le Vieil, two and a half miles

inside the recent German front. This is an imaginary goal, invented by

the German general staff for the purpose of creating the belief that the attack had not attained its objective. The operation, however, Mr. Lyon

says, was carried out as planned and the German report was more than

ly resisted all German attacks, not only in the region of Ocna, but in the

more critical region of Fokshani. The Rumanians, who had lost a height

near Ocna, brought up reinforcements and recaptured it. These allies

fought a stubborn battle in the Suchitza Valley and in the region of Slanic,

where they, after losing ground, contrived to restore their lines. The enemy

is attacking the allies with great obstinacy, for the prize at stake is none

other than the ripening wheat crop in the rich Danube alluvial lands. The

allies have prepared a stout resistance and they are fighting with all the

more confidence because the enemy's attempted advance down the Sereth

in the north has fizzled out. Their communications with Russia are thus

kept secure, so that supplies shipped them from abroad can arrive in a

command. The promised winter campaign will do more to undermine

the remaining military power of Germany than a summer campaign, for

the German and Austrian troops are ill-clad and sadly lack boots. It is

owing to the irony of events in this world that a principal reason that in-

duced Germany to begin the war when she did was the news that the French

army was gravely short of boots. The French now, after three years of

Paris, Aug. 17.—The impression gathered in well-informed circles here is that the peace proposal of Pope Benedict has not modified the situation from the view-point of the allies, who have no reason to depart from the attitude they outlined in reply to President Wilson's peace note. The pontiff's document will be considered with the deference due the personality of the author, but not with the idea that it necessarily calls for a reply, because it raises no new issues and simply seeks to put the belligerents in the position of hostilities, which, it is ponted out, is an absolute impossibility.

It is doubtful if the French en-countered such determined resistance

as we did, because the ground was not so tactically important. Almost every acre the British had to cross was honeycombed with defensive works; altho the terrific gun-fire had smashed and flattened out most of them, yet they were still largely tenable for snipers and machine gunners. All the farms in the district were turned to the best pos-sible advantage. Every hedge was thickly wired and every cellar concreted into a regular fort. The outer defences of Langemarck consisted of a sort of concreted most, blocked in many places with masses of soft clay wherein our soldiers sank to the

hips. It was often impossible to de-tect the existence of these underground works until the occupants opened fire. Once, after a white flag was displayed, a burst of fire met our warily approaching men. When last heard of this spot was surrounded by

Foiling Counter-attack.

On the north of the salient the Germans put down a heavy barrage last night and gave indications of a counter-attack, but the British artillery roolied with such a quick and offensive barrage that no infantry ac-

The same thing happened east and The same thing happened east and southeast of Monchy early this morning. The Westhoek and Frezenberg ridge sections which had seen such hard fighting, were heavily shelled by the Germans thruout the night. The British and French were proceeding satisfactorily with the solidation of their new positions all along the front.

Evidence continues to multiply from both the prisoners and British officers of a wonderful efficacy of the British barrage fire yesterday morning on the north end of the British line, where the advance was so successful. The correspondent visited the casualty clearing station for the Langemarck region, and talkec. with a British artillery observa tion officer, who was wounded in the fighting near Langemarck. He said: "I have seen much modern artil-

lery work, but frankly, I never dreamed there could be such perfec tion achieved in a barrage fire as we accomplished Thursday morning. I was stationed in an advance post where I could see the full effect of cur fire on the Langemarck region. While I directed the firing of the gun in the rear, I was amazed to see what

our gunners could not see.
"At the jumping-off hour, which was 4.45 o'clock, the British batteries dropped a barrage in front of our infantry for the advance. It was as the a solid curtain of steel had been dropped before our men. It moved forward with the mechanical precision of clockwork. All our guns broke over them with such a hurricane of fire that I was stunned with

close to it without danger, for there was no wavering of the barrage line. the surrounding region passed the barrage, with the infantry trailing. It was not more than thirty minutes Airman Drowns in Thames from the start before we were in the town itself. It was eight o'clock when our gun-fire finally rested on Ger-man positions far to the rear, and there they continued to hammer away while the fighting went on about

"The Germans undoubtedly were exished. The enemy here used an amaz- pecting our attack, for they counters of them was drowned.

barraged, which dropped back of our lines almost as soon as our advance began. I could observe the whole thing, and there is absolutely no doubt of the tremendous superiority of our artillery work and the preponderance of our guns. The German counterbattery work was nil, but on the other hand our batteries were doing excellent execution against the enemy guns, which was indicated by the diminution of their firing as the battle progressed. As early as six o'clock I saw one big German gun being hastily removed from the height north of Langemarck and rushed to a position further back. I know other guns were pulled back to emplacements in the rear.

"No worse ground for an advance could have been encountered. The Steenbeek River was in flood, and the whole region was waterlogged from recent rains. Our infantry was wallowing in mud all the time, and had it not been for the efficacy of our artillery fire the men would have had a hard time with the enemy.

"As it was, our troops had destroyed most of the congrete machine."

"As it was, our troops had destroyed most of the concrete machine gun redoubts which represented the main defences in this section, but there still remained many underground fortifications which had to be fought thru and silenced with bombs or left behind with the Germans still in them. "There was a typical example of this at a point southwest of Langemarck, known as 'Aubongite'. Here the Germans had constructed a steel and concrete dugout with heavy steel trap doors on top. It would hold perhaps fifty to seventy-five men with numerous machine guns. The artillery had been unable to shell them out levy had been unable to shell them out and when the infantry advanced, the Germans crawled into their hole and closed the iron doors over them. There was no bombing them out, but the Germans themselves were prisoners. They dared not open their doors to fire machine guys for feer or the constant of the machine guys for feer or the constant of the machine guys for feer or the constant of the machine guys for feer or the constant of the machine guys for the constant of the machine guys for the constant of the constant of the machine guys for the constant of the constant

to fire machine guns for fear of bombs, so we pushed ahead and left the Germans there with a squad of bombers sitting outside ready to throw explosives when the door opened. The situation was not without humor and for all I know it remains the same, but sooner or later the Germans must give in.

"There was heavy hand-to-hand fighting before Langemarck, amid the concrete defences, but we had no trouble when once inside. Our infantry tell me that once our barrage has passed over the ground they have little trouble with the German infantry.
"I know the German losses due to

our gunfire were very heavy. I hate to think of the loss of life inflicted, It is either them or the allies."

### TWO COUNTER ATTACKS.

London, Aug. 17 .- The Germans made two counter-attacks last night against the new British positions near Loos. They gained temporary success at some points: the war office announces, but subsequently the British line was re-established.

The statement follows: "Early last night the enemy twice counter attacked the new positions gained by us yesterday east of Loos, in the direction of Cite St. Auguste.

"At the second attempt he succeeded in pressing back our line slightly at some points, but later in the night our troops again attacked and re-established our positions. A further hostile ccunter attack was completely repulsed. We secured a few prisoners.
"The artillery has been active on both sides in the night east of Ypres

### FRENCH AVIATORS ACTIVE.

the men enrolled came from the Britishborn recruiting mission in the United States. Most of them halled from New York City.

As on the preceding two days, the contingent from the United States supplied all the infantrymen enrolled for overseas service. Yesterday the total of new recruits gained by the First Central Ontario Regiment, C.E.F., was 22. The other men attested were credited as follows: York and Simcos Forestry Draft, 15; Army Medical Corps, 8; Canadian Mounted Rifles, Engineers and Army Service Corps, each one. The Royal Flying Corps had another successful recruiting day, 22 men offering, of whom 19 were accepted for service.

The order issued this week by the Ottawa authorities restricting the Britishborn recruits who come to Toronto from the United States to enlistment in either Infantry, Forestry or Army Medical Corps units has caused some dissatisfaction, it being pointed out that recruits applying at the Britishborn missions in the American cities should have the fact clearly explained to them that they will not be permitted to join artillery, cavalry or Army Service Corps units of the C. E. F. The trainer of Al. Wolgast, the noted boxer, came to join the artillery for overseas service. On being told recruiting for artillerymen had coased he went back to the States.

Stop C. D. F. Recruiting.

As the order from Camp Borden headquarters to stop recruiting for infantrymen by Canada Delence Force units caused recruiting sergeants of the militia regiments' C. D. There is a probability of a new special central recruiting depot and staff boins, appointed for work in the City of Toronto. The number of prisoners, wounded and unwounded, now totals well over a thousand. The enemy's killed and wounded must number at least five times as many. Three enemy divisions, the seventh, eleventh reserve, and Fourth Guards, have ceased to have any fighting value as the result of their great losses.

Forty Buildings Struck in One Day and Much Damage Done.

Special to The Toronto World.

Cornwall, Aug. 17.—Farmers in town today report that within the past couple of days fires resulting from lightning, have been more prevalent in the district north of Cornwall than in the district north of Cornwall than for a great many years. It is stated that one day not less than forty buildings, of various kinds, were more or less damaged by fire in the district between Maxville, in Glengarry, and Chesterville, in Dundas. Within a few hours one house and two barns were destroyed at Crysler, while between Russell and Finch, between daylight and eight o'clock in the morning, no less than twelve buildings were partially or totally destroyings were partially or totally destroy-ed by fires caused by lightning. Em-brun and Russell Villages were also scenes of fires, but the damage in these places was not very great. A barn on the farm of the Misses Hamiton, near Berwick, was struck just as the tenant on the farm, Eli Sweerdfeger, and his wife, were driving in with a load of ggain, preparatory to threshing. ### **ALLIES WILL GIVE COLLECTIVE REPLY**

Italian Newspapers Comment on Message From the Vatican.

Rome Aug. 17.—The entire press reproduces the papal note expressing the opinion that the allies have not beforehand agreed to the papal conditions. It is expected the allies will give the Pope a collective answer, and perhaps the central empires will do likewise. Monsignor Beccaria, chaplain at the court of Italy, was entrusted last week to deliver the Pope's note to the king. "The Pope's peace proposals are true restoration in the sense of Lloyd George's last speech, and constitute a peace as outlined by President Wilson, while they also correspond to peace without annexation or indemnities supported in other quarters," says The Corriere d'Italia, the semi-official organ of the Vatican. The paper adds that the Pope's note does not propose to return to the status quo.

as the tenant on the farm, Elli Sweerdleger, and his wife, were driving in with a load of grain preparatory to threshing. The barn and contents were destroyed and Mr. and Mrs. Sweerdleger narrowly escaped with their lives. They backed the horses out as soon as they saw the bolt strike, and thus saved themselves, the horses and the load of grain.

### FLANDERS BATTLE IN ANOTHER STAGE

Allies Perform One of Great Achievements of War.

### CANADIANS AGAIN WIN

British Front Now Verges on Cultivated Country in Belgium.

British Front in France and Belgium, Aug. 17.—(By R. T. Small, staff correspondent of the Associated Press.)—Another phase of the bottle of Flanders has ended and today the allies are looking back on one of the great achievements of the war. The attack against the Germans cast of Ypres, which resulted in such sanguinary fighting has not, to be sure, accomplished the advance desired, but the great push to the north of here represents one of the remarkable accomplishments of the year.

The French today were consolidating the positions won yesterday and the British were establishing themselves well beyond Langemarck, their forward positions being about half a mile to the east of that place.

Fighting is still continuing at various points where the Germans are attempting to regain lost ground, but the positions remain much the same as at the close of yesterday's heavy battle.

Canadian asins.

In the Lens theatre of operations the Canadian today added still another section of the German defences to the positions already wrested from the enemy. The Canadians attacked a strongly fortified trench system just a little northwest of Lens and after several hours of hand-to-hand fighting, captured it.

The assault was on a front of approximately 450 yards, and the Germans made a determined resistance because of the importance of the positions which formed a part of the defences of the city itself. The Canadians attacked with bombs and bayonets. For four or five hours the fighting surged back and forth, first one side and then the other gaining a hold. The Germans finally abandoned the fight. The enemy territory beyond Langemarck already is showing the effects of the British artillery firing. The guns have been rioved forward rapidly, and are giving excellent support to the infantry in the advanced positions. And beyond here the German defenses are not so strong. The concrete redoubts which dotted the region to the west of Langemarck are fewer. Instead, one can glimpse the green, cultivated fields of invaded Belgium, a stri

Most of the German sulpers, who were concealed in shell holes and remained behind the British advance, have been accounted for, and the redoubts which had held out have surrendered. One redoubt which gave great trouble, that of Au Bon Gite, southwest of Langemarck, surrendered after being surrounued for many hours by bombers who waited for an opening of one of the steel trap-doors to throw in high explosive bombs. The Germans saw the situation was hopeless and mustered courage to open the trap door far enough to call out that they surrendered.

Toronto welcomed back another large contingent of returned wounded soldiers yesterday morning. The party of war heroes totaled 117. Of these that they surrendered.

While less success was achieved by the British on their right wing, the story of the flerce battle here reflects fully as much credit on the troops which went into the attack, and no more bitter fighting has been recorded in recent days than occurred in a near-by wood.

ord Robert Cecil Feels Surprise at Pope's Omissions.

London Aug. 17.—The allied governments will discuss jointly the peace proposals of Pope Benedict, and a reply will be issued in due course. Lord Robert Cooil told the Associated Press tonight. Whether the reply will be a joint note, or, as suggested in some quarters, thru the medium of the United States, or by some other manner, will be decided later. Lord Robert said:

"Premature attempts at mediation

"Premature attempts at mediation are not usually successful and I feat this is premature. this is premature.

"In writing this note the Pope obviously felt the importance of not taking sides and of maintaining an absolutely impartial attitude. Yet, I cannot help feeling surprise and sorrow that the note says nothing of certain outstanding outrages committed in this war which have done more than all else to make it impossible for all else to make it impossible for Germany's enemies to trust her or to treat with her.

#### ADVERTISING AGENCIES REPORT GOOD BUSINESS

Association's Annual Meeting and Election of Officers is Held.

At the annual meeting of the Can adian Association of Advertising Agentcles, reports from all quarters indicated that the advertising business is in an extremely satisfactory condition. Credit for this increasing volume of usiness is certainly due in a large degree to the efforts of the advertising agents, whose work has also resulted in placing the advertising business upon a higher plane. It is a well known axiom that no

business can display any character other than that of the men engaged in it. The increased respect, therefore, that all legitimate advertising now enjoys, reflects the high standing of the men who conduct the advertising agencies of Canada.

#### Beef and Bacon Fast.

All the hotel and restaurant proprieters concerned did not observe the conditions imposed by the food regulation requiring abstinence from hacon and meat on Tuesdays and Fridays. Some still appear to think it is merely a suggestion from some faddy person. It is, however, a law of the Dominion, with stiff penalties of fine or imprisonment attached. It moals of meat or bacon to pay the minimum fine.

The remarkable thing about the failure to observe the regulation is the apathy and ignorance displayed. There is a very large percentage of the people who still seem to think that they have no concern in the war. if indeed they are conscious that a war is going on. Many citizens seem to think that the government is to blame for imposing any restrictions when the fact is they are not imposing nearly enough. Canadians must not imagine that this land is favored above all the lands of the earth, so that the whole world shall suffer and we shall be entirely exempt from any stress or privation. Much more stringent regulations are being enforced in the United States than anything yet proposed for Canada, and in all other lands the pinch of scarcity is more or less experienced. In some of the belligerent nations it is acute. In many of the neutral nations the circumstances are almost as bad as any of the belligerents, and much worse than in Canada. We should be glad to be getting off so easy.

Those who blame the government dreadful thing to have a famine, but nocent dupes. famine prices are not so bad as famine scarcity. If prices go down production will go down, for there seems duction. The fruit men and many vegetable men prefer to let their crops rot rather than sell them which one of his own countrymen was hear a proclamation. When cheaply. When they do not sell at a the innocent cause. profit they will not plant. This is soundly but abominably in harmony with the revered laws of supply and caused warm and caus with the revered laws of supply and demand.

There ought to be a moratorium demand during the war, the same as for mortgages. Everybody should be persuaded to produce and to sell or preserve what he produces. All the surplus will be needed. No one will be justified in allowing fruit to rot on the trees nor vegetables in the ground. There won't be enough food in the world next year to go round. We must begin to save now.

Hastings, who is always active in the public interest, has lost no ed against as others have been, but the military authorities against the diseases of sex vice, gonorrhoea and syphilis. Public opinion has been indicated by the favorable reception given the army movement by all the newspapers except the "uplift" organ, which is not prepared, apparently, to give support to a plain-spoken effort. A valued medical correspondent, who has had considerable experience in the United States, as well as in Canada, confirms, as may be seen in another column, the impression formed by the local authorities. If smallpox patients were walking about the streets in thousands there would be a terrible outcry, but a far worse disease, known of old as the great pox, is present in this public fashion, thousands of cases existing deadly and more infectious than and Alberta each Tuesday until Octothose for which we now isolate our ber 30, inclusive, via street, or rane and Transcontinental route, or society has been reluctant to recog- good returning two months from date nize the presence of disease and of issue.

Cabinet reconstruction is still the big topic of discussion here. Announcement from Sir Robert Borden is expected not later than the early part of next week. Senator Robertson, the

recently appointed labor senator, is now expected to appear on the new list as minister of labor.

Hugh Guthrie is still kept to the fore as the most probable of selections from the scattered Liberal ranks, N. W. Rowell is now looked on as an improbable starter, J. G. Turriff has an Alberta backing for a place. Sir Clifford Sifton goes west again to-

ponents by stating editorially that it was doubtful if the Conservatives would put up a single candidate in the whole of Quebec. Colonies.

London, Aug. 17.—(Via Reuter's Ottawa Agency.)—In the house of commons Mr. Tyson-Wilson suggested mons Mr. Tyson-Wilson suggested that if it was proposed to bring more workmen from the dominions to Great Britain only men over military age should be brought. He affirmed that a considerable feeling already existed owing to the military eligibles coming.

Mr. Bridgeman replied that the only existing arrangements for bringing workmen from the dominions and colonies were those under which workers were obtained from Australis by agreement with the Australian Government. In view of the shortage of labor he could not undertake that only men over military age would be brought in future, but the point would be borne in mind.

Speculators Active-That speculators are active in the Toronto market is probably indicated by a circular from Buffalo that is beunt of the laxity of Canadian ing sent to business houses offering mine-run three-quarter lump bituminous coal at \$6.75 per net ton at Plack Rock under the following terms: For prompt acceptance and subject to prior sales, and orders are not binding until accepted in writing. We also have some coal in transit to Detroit, and if you wish we will quote you price on same, as well as freight rate from Black Rock and

Detroit to your station. Under the conditions that prevail at present, everything that looks like coal is bought up by speculators, and there is much stuff offering that has been dug out of old dumps near mulating for the past fifty years, and some of it that has been bought as slack has reached the purchaser with grass and weeds growing out of the so-called "slack."

The directors have been extremly fortunate in securing for Toronto a collection of paintings, sculpture and medallions from the Museum of the Luxembourg. These are the property of the Government of France, and were selected to represent the history of painting in that country from 1879 to 1910. In educational importance the Art Gallery will rank higher than ever in the past. will rank higher than ever in the past. The collection is literally a mine of artistic treasures signed by the most famous artists of the nineteenth century—and embraces every school.
every branch of effort, and every important and influential movement.
Critical historians of French art have pointed out the manner in which enthusiasm for landscape has overflow-ed into all the ancient branches of painting. Of this impulse the exhibition is replete with examples. There is, for instance. Dagnan Bouveret's "In the Forest" which shows that masterful painter's characteristic handling, while contrasted with it is a piece by the highly original painter, IGH EMBARGO

STILL CONTINUES

a piece by the highly original painter, Paul Cezanne, thowing a village near Marseilles. The great innovators of the impressionist school are all represented. Claude Monet, their leader, is shown in two of his most famous studies, one a picture of Rouen Cathedral and the other of a sacred edifice at Vetheuil. His associated at Vetheuil. His associate Faul Auguste Renoir, in addition to reveral figure pieces, has a notable landscape, "Le Pont due Chemin de Fer a Chaton"; while Alfred Sisley's

"The Banks of the Loing," and Camille Pissaro's "The Red Roofs." are brilliant examples of atmospheric treatment "Antwerp" by Felix Zeim.

"Antwerp," by Felix Zeim. is a painting which has a tragic significance at the present time, while the open-air studies of the great military painter, Alphonse de Neuville, have an additional interest in that they deal with the Franco-Prussian war. Another famous painter of soldiers whose work was inspired by the same tragic events, is Edouard Detaille, and thousands will be fascinated by a first sight of his picture, "The Dream," which has been many times reproduced, and which shows a sleeping soldier dreaming of victory. The military feeling is also present in "Cuirassiers at the Wine Shop," by Guilliaume Regamey, who has been described as one of the few military painters gifted with the epic sense. The spirit of patriotism, which has always burned ardently in the French

artists, is exemplified in the original drawing of one of Puvis de Chavannes' monumental compositions for the Pantheon in Paris. It is entitled "The Revictualing of Paris by Ste. Genevieve, patron saint of the city, attacked by Attila the Hun. A.D. 451." Tho Chavannes was fascinated by the great masters of Florence and Venice, he would not accept the old tech-nique, but strove to record in splendid imagery the wonders of spiritual life, as seen by the modern mind. Another example of his idealism will be seen in the picture "Hope." Other men inspired by a feeling for history and legend are also represented in the collection in Gustave Moreau's "Jason" and in Jean Charles Cazin's "The House of Socrates."

Realists Represented. The realist in contradistinction to the idealist is also to the fore in the works of two of the most eminent masters of realism. Edouard Manet and Edgar Degas. Degas, the typical Parisian, is represented by one of his famous studies of ballet girls, "Les Figurants." and by the pastel, "Cafe. Boulevard Montmartre, Paris." Manet's highly individual art finds ex-pression in "The Balcony." one of the most valuable paintings in the collection. The glowing colorist, Jean Francois Raffaeli, is seen in a char-acteristic study of "Notre Dame de Paris," while a highly interesting Parisian picture is "The Staff of the Newspaper, La Republique Francaise.

In portraiture the collection is extraordinarily rich. Among them may be mentioned Alphonse Legros' "Por-

### **BOSTON RED SOX LEAD AMERICAN**

Athletics Defeat Chicago in Twelve Innings on Recruit's Triple.

Cleveland. The game was nip and tuck from start to finish, and was broken up in the twelfth inning by Connie Mack's recruit second baseman Grover, who tripled to the centre field fence, scoring Jamieson, who had singled. Grover counted on Bodie's single and clinched the victory. Chicago had several chances to win but Mack's strategy in ordering the passing of men in two innings when a hit would have ended the game, and a sensational catch by Bodie of a long liner by Schalk, saved the game for Bush. Score:

### TOMMY AND LEAKE PITCHERS TODAY

Against Thormahlen and Hill, Left Handers—All Eyes on Baltimore Today.

Special to The Toronto World.

Baltimore, Aug. 17.—Larry Lajoie and his Leafs welcomed this day of rest and they took advantage of the opportunity to forget baseball for the time being. With a double-header tomorrow to wind up the trip, which has proven one of the most successful ever made by a Toronto Club away from home, the Canucks are anxious to make a whirlwind finish, and they are actually talking of winning both ends of tomorrow's double-header from the pennant.chesing Birds, and, what's more, there is a feeling around town that the Leafs are liable to accomplish anything they set out to do. After the thirteen-innings victory of Thursday, the Baltimore fars have a most wholesome respect for the Leafs. That game is still being talked about on all corners. This is only nature! when it is considered that Larry, himself, a veteran of years, waxed most enthusiastic this morning when chatting about it.

most enthusiastic this morning when chatting about it.

The majority of the Toronto boys made trips down the bay, while a number of them got uo a fishing party. Good salt water bathing can be had around here within a short distance, and it appealed very greatly to most of the boys. Manager Lajole, himself, stuck around the hotel during most of the day, contenting himself with walks up and down the Eutaw placa, one of Baltimore's show streets, on which the Hotel Altamont, where the team is stopping, is located. where the team is stopping, is located.

Larry is a very busy boy, while here, because he is doing all the work which usually falls to the lot of Business Manager Arthur Irwin who returned to Canada for the tilt between the Cubs and the Tigers.

Phillies Take Two

the Tigers.

For tomorrow, Lajoie will use Thompson and Leake on the firing line. Thompson has been a very hard pitcher for the Birds to beat, and the Leafs cannot see anything worse than an even break. Herb Thormahlen, who has been sold to the New York Yankees, and Cliff Hill, both left-handers, will serve up slants for the home club.

At Varsity Stadium two good games in the Briggen Cup will be played. At 2.15 Ulster and Toronto Street Railway will try conclusions, and this should be an interesting game. Ulster are holders of the cup at the present, and intend hanging onto it. The "Rails." however, are also out for the honors, and as both teams will be at full strength a fast game is anticipated. At 4 p.m. British Imperiat and Baracas will meet. This again should be a good game to watch, as both teams are evenly matched.

Several changes are made in two of the three competitions by clubs withdrawing from seccer this year owing to the many difficulties in traveling. The Lancashire section of the English League will be the same as last season, but in the Midland section three clubs—Bradford City, Leeds City and Hudderzfield Town—have decided not to take part in competitive football, while Chesterfield Town is also expected to follow their decision. The London Combination will be strictly confined to the London clubs. Southampton, Portsmouth Luiton Town and Watford have all been forced out of the competition owing to the trouble and expense the London clubs had in traveling last season. The clubs forming the three principal secere competitions for the comping season are as follows:

Saratoga Turf Gossip

Saratoga, Aug. 17.—Willie Knapp's opinion of Sun, Briar is: "On a track like that was Saturday he can beat all the two-year-olds and I don't care where they come from." Asked about the way the colt behaved Saturday he said: "He was sore from that skin disease, and didn't want to run. Rosie O'Grady cut across me, but didn't bother me much. My coit broke well enough, but backed up until he was last. When I hit him with the whip he went right along. He had to go some to catch that filly, but he did it. After I got up to her I sat still. I was only breezing around the turn, while Robinson was riding. I didn't make a move on him until about sixteenth from the stand. When I touched him with the whip he went right to the front." Knapp has been engaged to ride for Willis Sharp Wilmer in 1918 and McDaniel will have charge of him.

S. D. Riddle has bought the steeple-chaser, Martian, brown gelding, by Bowling Brook, out of Mary le Grand, from H. W. Sage, for \$5000. With 135 pounds up this gelding worked a mile and a quarter in 2.13, and it was on, the strength of this good work that Mr. Riddle bought him, and within an hour after the sale Mr. Riddle was offered a profit of \$1000 on his purchase.

Omar Khayyam, considered the best 3-year-old, worked a mile and a fur-long at Saratoga today in 1.56 2-5. He went the first mile in 1.41 4-5 and was pulled up the last eighth of a mile. He is in grand form and never looked

pecting to satisfy their appetite on the fish, vegetables or confectionery, so fish, vegetables or confectionery, swhen one of the two reading the menu aloud included Irish stew, spring lamb

"Those things are not there, are they?" said woman number two.
"They certainly are," said the first woman, continuing the list.
"Why, I thought there was to be no mest today," said woman number two, this time addressing the waitress.
"There's no meat there," answered the waitress, as she looked at the bill of faire which the woman was still perusing.

"Why, what do you call chicken, lamb and Irish stew," said the still mystified enquirer, who had made up her mind that the proprietor had made up his mind to run the risk of a fine

and that his employes were in league in the matter of putting up a bluff. The waitress however wavered not the slightest in her attitude of inno-cence, but astonished her customer by chicken and the rest:
"They are not meat. It is only roast

beef that is meat. Chicken and lam

So there was the solution. The old and long established understanding as to what the word "meat" signified no longer holds good, and many will doubtless be delighted to find that the word as used by the new regulations is limited, according to the waitress, to roast beef and according to the food

#### WONDERFUL COLLECTION FROM PERSIAN EMPIRE

Visitors to National Exhibition to Have Opportunity of Viewing Fine Examples of Ancient Art.

Things are humming at the Exhi-tion Grounds. Exhibitors are surg-ing in and large forces of men are at work in every section. The conceswork in every section. The concessionaires are rushing up their tents and the building of the Ontario Department of Highways and other new structures are nearing completion. Splendid progress has been made on the model road across the outer agricultural section, and it will be completed in plenty of time. Practically all the buildings are now ready for opening day. ready for opening day.

### AT THE GAYETY,

To the old-time patrons of burlesque who have seen such stars as Weber and Fields and David Warfield graduate from its ranks, it seems only nat ural to predict a great future for some particularly clever performer in this branch of the profession, and that is what is being done for Bert Rose with the "Great Star & Garter" show which comes to the Gayety Theatre, com-mencing Monday next. Bert Rose has developed a unique style of comedy and has a part in "For Art's Sake" and "Hingle Dingle," admirably suited for his novel conception of a comedian. He has succeeded in being grotesquely funny without making himself personally hideous.

### THE STAR.

Geo. A. Clark, the versatile comedian, with the Military Maids Company, are the first season returned to Honohilu scheduled to delight thousands of exacting patrons of the Star Theatre rosco to again join the company

next week. This merry and well-bal-anced organization of vaudeville head-liners, burlesquers, singers, dancers, comedians and vocalists will offer a musical ball "A Day at the Camp," in two acts, besides a plentitude of whole-some humor, song hits and mirth.

#### REOPENING OF SHEAS.

The management of Shea's Theatre The management of Shea's Theatre has gathered together a collection of all-star attractions for the opening of the 1917-18 season, with a matinee, Monday, August 20. Headlining the bill are the two clever artists, Elizabeth Brice and Charles King, musical comedy stars, who will present a bright, clever melange of mirth and music with feature dance numbers. Joseph R. Bernard returns with a new Toronto audience, as the leading feature of a vaudeville bill of unusual merit, next week at Loew's Yonge Street Theatre and Winter Garden. Zelaya, who received his musical education in Paris, has been touring in concerts for a season with wonderful success. Featured on the screen is a powerful dramatic photodrama "The Family Honor" with Robert Warwick and June Elvidge, in the leading roles. The Macklarens, newcomers to Toronto, the added attraction, are Scotch singers, dancers and bagpipers, who have met with great success since their arrival on this side of the Atlantic. Other attractive numbers will embrace Mumford and Thompson, introducing a funny singing sketch "The Singer and the Stage Manager"; Willard Hutchinson & Co. in a new comedy farce "A Leap Year Leap"; "Cy" Jenks and Victoria Allen, offering a novel rural playlet; The Three Jennets, in an acrobatic and posing Novelty, and Orben and Dixon, southern singers and dancers. Several comedy films will also be shown.

KITTY GORDON AT REGENT

KITTY GORDON AT REGENT

"A Daughter of the Gods," hailed as the last word in magnificent moving picture sensations, is announced as the attraction at the Grand Opera House opening on Saturday, Aug. 25, and will be shown twice daily during the period of the Canadian National Exhibition.

Admirers of Kitty Gordon will not fall to visit the Regent Theatre today, where she is seen in a striking drama entitled "Forget Me Not." The production is full of tense situations. The well-known, star is entrusted with a part which gives her splendid opportunities. It is a story of unique situations, there is some clever work necessary to rid the well established English home of the presence of the necessary to rid the well established English home of the presence of the Marquise de Mohrivart and to secure her signature validating her son's marriage. It is done, but not until surprising means have been adopted and it is in the following of these that the observer is intensely interested. #### What to Use and Avoid On Faces That Perspire

Skin, to be healthy, must breathe. It also must perspire—must expel, through the pores, its share of the body's waste material. Certain creams and powders clog the pores, interfering both with elimination and breathing, especially during the heated period. If more women understood this, there would be fewer self-ruined complexions. If they would use ordinary merecitized wax they would have healthy complexions. This remarkable substance actually absorbs a bad skin, also unclogging the pores. Result: The fresher, younger under-skin is permitted to breathe and to show itself. The exquisite new complexion gradually peeps out, one free from any appearance of artificiality. Obtain an ounce of mercolized wax from your druggist and try it. Apply nightly like cold cream for a week or two, washing it off mornings. To remove wrinkles, here's a marvelously effective treatment, which also acts naturally and harmlessiy: Dissolve an ounce of powdered saxolite in a half pirit witch hazel and use as a wash lotion. Skin, to be healthy, must breathe. It

#### WINNIPEG AVIATOR KILLED AT MOHAWK

Cadet William S. Gallie Crashes to Earth With Machine After Collision.

Deseronto, Aug. 17.—Cadet William S. Gallie, aged 22 years, was killed today at Camp Mohawk, when an aeroplane in which ne was flying crashed to the ground. The young aviator was a son of Mr. and Mrs. Gallie, of Winnipes.
Gallie, with a number of other pupils, was engaged in solo flying early today, and after a successful flight was landing his machine. When he was about 100 feet from the greund another machine, also in the act of landing, crashed into him from the rear. Gallie's machine fell to the ground, and he was instantly killed. It is thought that the cadet in the rear machine was prevented from seeing the machine in front by some portion of his aeroplane.

#### Food Regulation Not Being Generally Observed at Guelph

Special to The Toronto World.
Guelph, Aug. 17.—So far the order prohibiting the serving of bacon and beef in public eating places on Tuesdays and Fridays is not being universally observed in the hotels or restaurants of Guelph. Several of the hotels eliminated bacon and beef today, substituting fish and lamb, but others said that no notices have been received and these are being waited for before action is taken.

The chief difficulty is with the cafes and restaurants. Two of these places were visited this morning and in neither place did they know anything about the prohibition of beef and bacon, and these were being served as usual. "We have no notices and know nothing about it," was the reply of the proprietors.

BRADSTREET'S TRADE REVIEW.

Toronto reports to Bradstreet's that the extremely favorable crop outlook and the results secured thus far have been potent as influences in maintain-ing favorable conditions in Ontario trade circles. While current trade in most retail lines has shown the usual midsummer quiet, price sacrifices have induced enough activity to satisfy city merchants. The wholesalers have sent out the great bulk of the autumn orders, and are still engaged in seriding out shipments. Deliveries from Canadian mills have been quite good recently, and representative deal-FOR ADOPTION—Smart healthy boy, seven years old. Box 19, World.

Orders which Canadian textile mills were unable to fill are, in most cases, wanted when the manufacturers are able to make deliveries, and buyers are not prepared to cancel orders on this account. This indicates confidence on the part of the wholesale dry goods trade that there will be no abrupt break in prices in the near future. The coming of the Exhibition is awaited with interest ,as the source of the first definite information about autumn trade. Gro-ceries are fairly active, with prices There is a good call for smoked and cured meats, while the con-sumption of fresh fish has received quite an impetus as a result of efforts on the part of the food controller. Live stock markets were stronger during the week, with hogs up to the re-cord price of \$18 per cwt., fed and watered, at midweek, the highest price ever paid by Toronto packers. Sugar prices are firm at the level quoted last week. Collections are fair to good.

### **CORN PRICE DROPS** EIGHTEEN POINTS

Wheat Gains One Cent, Closing Firm at Chicago

Chicago, Aug. 17.—Virtually complete stoppage of buying of immediate delivery corn had a bearlsh effect on that commodity today, and also on corn futures. The close was nervous, with cash comdown 18c a bushel, and futures at 1½e to 1½c net decline; December, 31.12½ and May \$1.09%. Wheat gained one cent, closing firm at \$2.01 September. Oats lost ½c to 1½c, and provisions finished mostly 10e to 45c off.

Heaviness of the corn market did not develop until the beginning of the last half of the session. Up to that time the absence of any important fresh new pointing to a likelihood of peace gave the chief advantage to the buils, altho at the outset a brief down-turn in values had resulted from the fine weather conditions in every direction. All other factors were lost sight of however, when, as it thru concert, industrial buyers, including representatives of distilleries, falled to take a hand at purchasing for spot delivery. Strong commission houses that had been conspicuous on the buils side of the market for futures, ceased at once tafford support to futures, and there was a simultaneous fall of cash values of 18c a bushel under yesterday's best figures. Slight rallies in the final transactions were ascribed to the incentive for an increased feeding demand, based on the current high prices of hogs.

Wheat showed a tendency to harden in value, owing, perhaps, to reports that an unusually large amount of wintes wheat was sti in shock, and there was consequent possibility of extensive damage. Export interests were said to be buying wheat here and at other points, and to have taken all told 1,500,000 bushels within the last few days.

Pronounced weakness in oats resulted from favorabia weather for threshing and from increased consignment notices. A rally due to estimates that export sales so far this week aggregated four million bushels was 30t maintained.

Immense sales to realize profits for holders pulled down provisions after an upturn caused by a fresh record-breaking advance in the hog market. On the break, pa

Speculators buying the stock may make a turn, and if they do it should be figured in conjunction with the possibilities of a loss. The steel stocks, with the exception of Steel of Canada, were firm, with the best consideration for Dominion Steel which sold at 62 3-4. The weakness of specialties was shown in Maple Leaf in which transactions were reported at 102, while the best bid was 98. Wall street had a traders' rally but otherwise provided no key as to a definite turn, and local professionals are not committing themselves on Canadism issues until this is evident. The war loans have struck a level at which dealers are prepared to operate for eighths and may remain, this way for some time.

COTTON LETTER

J. P. Bicke & Co. report:

New York, Aug. 16.—There was a little news in the cotton market today. The news has been of a character similar to what we have had recently, continued complaints of drought in Texas being the chief market topic. Experts now see the possibility of rains there over Sunday, and upon this the market was sold with a mode te decline as the net result. Show rain materialize, some further decline will no doubt take place, tho it is likely that from each break fair reactions will follow, but, for ultimate colonial Investment. reactions will follow, but, for ultimate results, we think a selling position on bulges is best, as we are daily approaching the period when the crop movement will begin to have its effect.

LONDON STOCK MARKET

London, Aug, 17.—The stock market had a confident tone today.

Home stocks were firmly held, pending the new loan, and Mexicans, including mines, were active and on the up grade.

Brazilian issues were dull under the influence of a lower rate of exchange. Olls were buoyant, especially far eastern varieties. Shipping stocks strong, and Argentin: navigations were wanted. There was also a good demand for meats and various industrials.

The supply of credits was largely increased by various disbursements.

Discount rates were steady, but bills were scarce.

### FIRMNESS DISPLAYED IN GOLD SECURITIES

Adanac Outstanding Feature of Strength in Cobalt Section.

With the continuance of the good buying which has featured the trading at the Standard Stock Exchange during the last couple of days, the local mining brokers have been led to the opinion that the expected fall market is in its inception. The market has been pretty well cleaned up of loose stock during the past few weeks and now is in an excellent technical position for an upward move. The demand for stocks, altho it has not yet become general, is interpreted by market authorities to be the customary forerunner of the usual tardy public buying movement.

It is generally felt in mining cir-It is generally felt in mining circles that such a move is long overdue in view of the fact that there has not been a real buil market since last fall. In the meantime, due to adverse conditions, the bearish element has had things pretty much in its own hands, and some low records in years have been touched. It would appear now that practically all the bad news has come out and has been discounted so that any move in the market now should be towards higher levels in anticipation of the better times to come.

Perhaps a more direct bullish factor as ar as the Cobalt stocks are concerned is the continued demand for silver and the responsive movement in silver and the responsive movement in the price of the white metal to the highest level in a quarter of a century and the topmost peak in the history of Cobalt. The enhancement in the value of the Cobalt product has given a stimulus to the mining industry in northern Ontario, which could probably never have been realized in any other way.

On the whole, yesterday's market was steady in most places with some material gains in a few spots. But it was not the advances which appeared so significant as the lack of stock offering and the rapidity with which offers were moved up when any real buying appeared.

offers were moved up when any real buying appeared.

Silver maintained its high position at \$6%, which accounted for some of the buying which came out in Adanac. The speculative possibilities of this issue have evidently attracted for it quite a following. Yesterday over eleven thousand shares were negotiated with a gain in price to 17%. Otherwise in the Cobalt list some small losses were recorded. Nipissing sold off to \$7.90 after opening at \$8.00, Coniagas was a little lower at \$4.12%, and Beaver lost a point from the high of the previous day at 36. Timiskaming remained heavy around \$2. Trethewey was steady at 13, ex dividend five per cent.

Sales.

Sales.

The most strength was displayed. Hollinger ran into some good buying which accounted for a gain to \$4.50, while McIntyre was in urgent demand and sold up three points from the high of the previous day to 165. Sentiment towards this issue has become distinctly bullish in the last day or two. New-ray supped stronger and made a new ray turned stronger and made a new high for the present movement at 71 while West Dome Con. showed conwhile West Dome Con, showed con-siderable improvement with a gain in price to 18%. Big Dome was an ex-ception, closing at \$9.90 as against \$10.00 on the opening. Kirkland Lake continued very firm around 50.

There will be no trading on the ex-

change at all today. ACCUMULATING HIGH GRADE AT ADANAC

Management - Reticent About Highly Favorable Developments.

Cobalt.—(Special.) — Stoping has now been going on at the Adanac for about ten days, with excellent results. The mine is now being scientifically developed, and nothing is being given out for market effect. A car of ore of high grade is being gradually accumulated, and when this is shipped the public will get the first real intimation of the value of the property. Many here are of the opinion that the Adanac will turn out fully as successful as its immediate neighbor, the Timiskaming, and will the producing with silver values 50 be producing with silver values 50 per cent, higher than the average obtained by the older mines.

BROKER BULLISH

H. B. Wills in his weekly market letter has the following: Due to the tireless energies of the Northern Ontario prospector, Kirkland Lake district was discovered about five years ago, but not until a about five years age, but not until a few months age was the most necessary commodity in the upbuilding of any mining centre—compressed air power—available for development work. Since the turning on of the fuice no gold camp on this or any other continent has gone about with other continent has gone ahead with greater rapidity than that of Kirk-land Lake.

The proverbial leaps and bounds does not properly describe that the state of t

does not properly describe the rapid growth of the Kirkland Lake district, wherein about a dozen gold proper-ties of inestimable value are fast apties of inestimable value are fast approaching the proven mine stage. Already two mines are producing regularly, one of which has to date distributed close to \$400,000 in dividends and undoubtedly only started upon a long and prosperous life. The "Next of Kin," appointed Administrator through an estate being left intestate, may "renounce" his trust in favor of this Corporation. This is desirable when the next of kin is inexperienced or does not wish to assume the responsibility. It relieves him from providing a bond and leaves the management of the estate in competent and trustworthy hands. Writefor our booklet on Wills.

Active development work on the Schumacher was resumed on Thursday, and the mill will be in operation again on Monday, according to an official of the company. All milling and mining equipment has been put in the best of condition, the labor outlook has improved and operations will be carried on with utmost efficiency by reason of the fact that in addition to the first rate condition of the machinery the with utmost efficiency by reason of the fact that in addition to the first rate condition of the machinery the old staff of employes has returned and is already at work. The compressor, which has a capacity of 25 drills, has been installed, as well as the new transformer. Work on the new mill is being pushed ahead as rapidly as circumstances permit. When the new ball and tube mills which are being installed are completed the present mill will have a capacity of 180 tons per day, and when the mill addition

At Kirkland Lake the shaft is down 700 feet, and the ground is being cleared for the mill which is to be erected as fast as the supplies arrive. The machinery is all on order and much of the building material is on the ground. The location for the new shaft has been chosen, which will be all enclosed by fall.

### Store Closes Today at One o'Clock---No Noon Delivery

A Fundamental of Simpson's August Homefurnishing \ Sale -- WORTH

Worth has an added significance in these days when thrift

is imperative to every right-thinking man or woman. How WORTH is building up this business is seen in the fact that within the last six months we have filled, in the store and through the mail, about three-quarters of a million more orders than the same six months of any previous year.

This, in our opinion, signifies a growing satisfaction with purchases made here and determination to stay with the store that safeguards its customers against inferior qualities.
