GERMANS ADMIT FAILURE AT DVINSK

Captured Fifteen Times But Still Not Won—More Success For Allies on Western Front

Berlin, Nov. 12.—The difficulties of the army besieging Dvinsk because of the nature of the fortifications, which is built of sand, are pictured by Capt. Von Kuschnitzky, correspondent of the Vossische Zeitung. "Had it been of rock," he said, "it would have been knocked to pieces long ago, but an artillery bombardment is little avail against the sand fortifications. It was captured fifteen times between September 14 and October 28 and still is not in the German possession. It has been reduced in size one half without affecting the strength of the defenders. "Every rod of land is covered with permanent trenches roofed with iron plates and connected with so-called 'fox-holes,' small shelters where the garrisons are secure against the heaviest shells. Exploding projectiles are smothered in the sand trenches skillfully laid out so they are mutually outflanking. "An apparently successful attack often means the destruction of assaults by the flanking fire of machine guns. One company thus lost fifty-one dead on October 28." SPIRITED WORK IN THE WEST Paris, Nov. 12.—A spirited bombardment has continued in the sector of Loos, both sides taking part, according to an announcement made by the French War

Three More Wounded Soldiers Come Today; One Of Them Brings Bride

Since leaving St. John last August as a member of the 12th Battalion, Private J. Elick Tullock of this city, has had an interesting career, made doubly attractive because of his having enrolled as well in another branch, the army of the Benedictines. When he returned to St. John on the Maritime Express this morning he brought with him a dainty young English bride. She and his bride will reside in Union street. They were taken there in a motor car this morning by John Thornton, Pte. Tullock was a C. P. R. locomotive driver here. Sgt. Blair. Another St. John man to return home this morning was Sgt. George Blair, wounded while on the firing line in France, he had sustained wounds while in action in France. It is said that he had been admitted to Moore Barracks Hospital, Shorncliffe, Eng. The date of his admission was Nov. 7, but the despatch did not tell of the time at which he was wounded. Pellowe will know about the city. He is twenty-two years of age and was a member of the 29th Battalion from early in its organization. Further particulars concerning his case will be eagerly awaited.

Signs of Favorable Turn By Greece

Join Allies When Latter Show More Strength in Balkans—Serbian Main Army, However, Cut Off

London, Nov. 12.—All doubts as to what road Greece would choose are dispelled by a public dissolution of the chamber of deputies. Greek officials in London and at other points continue to assert that Greece's future actions depend solely upon military and not political considerations. So soon as Greece is convinced beyond doubt that the allies have produced enough troops to make possible a successful offensive against Bulgaria and to remove the danger with which Greece would be confronted if she entered the war inadequately assisted, Greece will, so say her representatives in Europe, immediately range herself on the side of the allies and render all the military co-operation of which she is capable. Today's military news from the Balkans makes it appear there is a distinct possibility that the Anglo-French and Serbian forces may succeed in gaining a part of the Nish railway as far as Uziup. All accounts received here of the recent fighting in the neighborhood of Vales state that the Bulgarians are in full retreat after enormous losses, and that the freshly arriving allied troops are expected to push to successful conclusion the advantage already attained. In this case, the Bulgarians probably would have to abandon the Uziup-Kutanova line, and the whole southern portion of the railroad would revert to entente allied hands.

ANOTHER OF THE 26TH WOUNDED

Capt. Fred Pellowe Reported Admitted To Hospital at Shorncliffe

Friends of Corp. Fred Pellowe, 26th Battalion, 12th Platoon, "C", will be glad to learn that he has been wounded. A telegram received this morning by the parents, Mr. and Mrs. James Pellowe, from Ottawa conveyed the official report of the militia department upon the news that he had sustained wounds while in action in France. The date of his admission was Nov. 7, but the despatch did not tell of the time at which he was wounded. Pellowe will know about the city. He is twenty-two years of age and was a member of the 29th Battalion from early in its organization. Further particulars concerning his case will be eagerly awaited.

VARIOUS ACTIVITIES OF Y.M.C.A. REPORTED TO THE DIRECTORS

Barbour, W. C. Cross, A. M. Gregg, F. N. Brodie, D. C. Clark, J. Henderson, H. W. Rising, W. B. Hand. The Y.M.C.A. secretary, attached to the 22nd Battalion, reported that he had been receiving from ten of the association's departments and all told many activities now in full swing and considerably successful year's work is to be expected. H. A. Porter reported for the physical department that the physical department is now well under way and that the monthly committee requested for the High school for business men be started and is being formed. News of Maritime Province Men In the War

The Troops at Sussex. Sussex Record.—Every train brings its quota of recruits for the 104th Battalion and the roster of this popular corps now contains the names of about 1200. Recruiting will be continued and the battalion probably put on a double strength basis. Returned to Duty. Lance Corp. Clarence Bishop, of the 20th Battalion, formerly of Fredericton, who was wounded in France, has again reported for duty. Got Back in England. Pte. George Henry, of St. Stephen, who went across with the draft from the 65th Battalion and was transferred to the 12th Private Henry found a bride in England, and on October 28 was married at Midhurst to Miss Florence Purvis, a charming English lass. More Mt. Allison Men. Robert McL. Armstrong, of Moncton, a member of this year's senior class in Mt. Allison University, has received notice that he has been appointed a lieutenant in the 64th Battalion. This makes four Mount Allison men who last year took the officers' training course, to receive the appointment of lieutenant in the 64th Battalion. Three other students, Messrs. Hazley, Keirstead and Murray have received notice of their appointment in the Medical Corps. All the young men will leave immediately to take up their duties. Three Sons in Rank. Charles R. McLaren, of Moncton, now has three sons in the Canadian army. Some time ago, one of his boys enlisted in the 40th Nova Scotia Regiment, and another recently landed in England with the 68th. The third son, George, signed on with the 104th at the recruiting meeting on Tuesday evening. Came Home to Enlist. Among the recent additions to the 104th Battalion, was James Ardill, a qualified lieutenant who enlisted as a private. Mr. Ardill is a native of Sunny Brae, Westmorland county. Ten years ago he went to the United States, where he has a wife and six children. Each year he has returned to Canada to drill at Sussex, being an officer of the 74th Battalion. He was unable to secure a commission and therefore enlisted in the ranks. Now is Sergeant. Rev. M. E. Cunyon, formerly pastor of Portland Methodist church, who enlisted with the 104th as a private, has been made a sergeant. Boonie at Sussex. The Sussex Record devotes nearly two columns to protests against the ease with which soldiers get liquor there. Col. Fowler writes: "At any cost I propose that the soldiers under my command shall not be supplied with liquor. The law regarding this is very stringent and the punishment exceedingly severe." Women's Recruiting Meeting. The Countess of Ashburnham, Mrs. W. J. Scott, Mrs. John Black and Miss Ella L. Thorne left Fredericton this morning for Harvey Station, where they are to hold a patriotic meeting this evening. The Countess of Ashburnham is to preside and Mrs. Scott and Miss Thorne are to deliver addresses. Mrs. Black will sing patriotic songs. Warning to Deserters. "Deserters from the ranks of the battalion being mobilized in Canada will be the first men to get to the firing line. We have not started to enforce the order under which deserters in war times are

STILL BUMPTIOUS TALK IS GOING ON FROM GERMANY

London, Nov. 12.—A Bern dispatch to the Associated Press says:—"An important message has just been received from Berlin, which states that the burden of all conversation at Wilhelmstrasse is that peace must be signed in London. A German statesman told me that before long Greece and Roumania will be fighting side by side with Germany, and before six months are over, even England's allies will have had enough of the war and will have been detached by Germany from their allegiance. So long as England subsidizes her allies she will be loyal to her, but a time will come—so the German statesman believes—who has just returned from Berlin assures me that "It will not be long," added this German statesman, "before we are fighting her up, and they cannot go on doing this forever. Before six months are over England will suffer a debacle."

DEVELOPMENTS IN THE ANCONA CASE

Rome, Nov. 12.—Only 222 passengers and crew of the steamer Ancona were saved out of a total of 428 on board, says a despatch from Tunis. Passengers declared the steamer was shelled for an hour and a half by the submarine. Previous despatches placed the number of passengers on the Ancona at 468, and the crew has been estimated at from sixty to 160. Berlin Has No Word. Berlin, via London, Nov. 12.—German naval circles have no report on the Ancona case except from hostile country. It is stated at the admiralty that so far as known, the Austrian government has received no report of the incident. Italy Investigating. Rome, Nov. 12.—United States Ambassador Page called at the foreign office yesterday and had a long talk with Baron Sonnino. It is assumed that the sinking of the Ancona was discussed. The Italian government has ordered a rigid investigation. SWEDEN TO BAR THE EXPORTING OF BUTTER. London, Nov. 12.—A Renter dispatch says that, beginning on November 14, butter will be added to the list of articles whose exportation is forbidden by the Swedish government. This will make the embargo on the export of food products virtually complete.

HEARTY WELCOME FOR MAJOR GUTHRIE

This is Another Big Day in War Life of St. John

Heavy rain did not dampen the spirits of a very large gathering assembled at a meeting in the City Hall, returned here this morning, and the Union Depot was thronged with friends who gave him a hearty welcome. He was accompanied by Mrs. Guthrie, and the reason for his visit today is especially interesting, for he comes to present to Lieut. Col. Fowler the sword won by Lieut. Phair, an officer of the original 104th regiment, at a meeting in the Queen's rink tonight. The 104th Battalion band played patriotic airs in honor of the distinguished soldier and escorted him to the Royal hotel to which place he was conveyed in an automobile accompanied by Major Phair and other citizens. Major Guthrie, while still moving about on crutches and unable to use one leg, is appearing considerably improved. Lieut. Col. Fowler will arrive in the city early this evening. He will be met by the 104th Battalion band and will give a concert before the start of the program. There will be other musical numbers as well. All the city bands will take part in the parade to the rink, converging there from different parts of the city. Besides Col. Fowler and Major Guthrie, Rev. F. S. Porter will give an address. The Rumor About 52nd. The 52nd Battalion was issued with the improved Oliver equipment today. They had no outdoor drill this morning. Regarding rumors as to their possible departure from the city for overseas soon, no confirmation has been received. The battalion was organized on March 28 so that it has been in training several months. It has enlisted 1,900 men, of these some 500 have been drafted for foreign service. Many of the officers of the battalion are inclined to believe that the report of their departure is true.

The buildings were partly covered by insurance. Large plate glass windows in the show rooms of J. Clark & Sons directly opposite, were cracked.

WEATHER BULLETIN Issued by Authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

PATRIOTIC CAUSES

Mrs. A. W. Davis of Seakville has advised Mayor Frink that, in response to the appeal made by Mrs. Burden of Lone Water Farm, she had collected a large quantity of vegetables and fruit for the men of the British North Sea fleet, to be forwarded through the Vegetable Products Committee, London, The Patriotic Fund.

The citizens who have pledged themselves to give a sum of money each month, whether large or small, to the Patriotic Fund, would do a further patriotic thing if they would call each month at the office, Prince William street, and pay it in, as the task of collection would be enormous.

For Tobacco Fund. St. John Lodge of the Royal Arcanum at its last meeting took up a silver collection and secured \$1.15 for the tobacco fund. A collection will be taken up at every meeting hereafter. Benefits to Patriotic Fund.

The Irish Literary Dramatic Club is rehearsing every evening the two great dramas "Men and Women" and "When We Were Twenty-One". The ladies who served on the different company committees to solicit cakes and Christmas gifts for the 26th Battalion, wish to thank all those who so generously responded to their appeals. The ladies were enabled to send sufficient to ensure every man of the corps receiving a cake, in addition to tobacco, cigarettes and Christmas stockings, the latter being purchased with the money so lavishly sent in. The boxes were all packed and sent forward last week.

WHY NOT A BATTALION

COMMAND FOR COLONEL MacKENZIE, ASKS WORLD

The Chatham World wants to know why Lieut.-Col. Mackenzie has not been given command of a battalion. It says: "Why can't we have a North Shore regiment in the field? Lieut.-Col. Mackenzie, a competent officer, is ready and willing to lead it to the front. The men and officers would have confidence in him, because they know he has had the military experience and instruction that are necessary for a leader of troops in active service. Surely it is not because Col. Mackenzie is a Liberal in politics that his offers of service have been ignored. But if not, why?"

"Will General the Honorable Sir Sam Hughes kindly explain? He says he is not appointing political colonels. Then why has he appointed regimental commanders who have little or nothing but their politics and patriotism to recommend them when a qualified officer like Col. Mackenzie is proffering his services?"

A correspondent of the World adds this statement: "Lieut.-Col. Mackenzie of Chatham has had twenty-six or twenty-eight years training as a military officer and has always been recognized as efficient, so much so that since his term as commanding officer of the 78th Battalion expired, the Department of Militia and Defence has given him extra training at Halifax for several years in the higher duties of a lieutenant-colonel. There is no question but that he is eminently fit and capable to command a battalion—much more so than those who have been given commands. Since the commencement of the war he has two or three times offered his services, notwithstanding which he has not been provided for, though as above mentioned, he as a military officer has superior qualifications to some of those who have been given commands."

This correspondent adds that officers of the 78th, who know Lieut.-Col. Mackenzie, are eager to join and serve under him, and would quickly recruit a battalion.

HALIFAX CONGRATULATES US. Halifax Echo:—St. John is to be congratulated upon the splendid showing made in the matter of recruiting during the months of September and October. As set forth in the table published in our issue of yesterday, 777 men enlisted in the St. John district, during the two months, as against a total of 410 men in the Halifax district, a majority, in favor of the sister city of 367 men.

It is safe to say that these figures which are, of course, official, will occasion a certain amount of surprise among the people of Halifax. We have been given to understand all along that recruiting in St. John was at a very low ebb and, indeed, a certain section of our press, has made a practice of openly reviling the people of New Brunswick for their alleged tardiness. No doubt an apology will now be forthcoming.

FAIRVILLE MISSIONARY INSTITUTE SESSIONS

The Missionary Institute under auspices of the Fairville Inter-church Federation held sessions both afternoon and evening yesterday in the Baptist church. At a special lantern lecture by Rev. W. M. Townshend at 8:30 p. m., standing room was at a premium.

In the afternoon Rev. Messrs. Townsend, Earle and Dunham conducted services and at 7 p. m. Rev. Mr. Hayward led a study class. At eight o'clock Rev. Mr. Barracough delivered an address before a meeting of men representing the various boards, sessions, vestry and other official committees of the four churches.

At eight o'clock in the vestry, spoke on the World Field, The Harvest, and at 8:30 the illustrated lecture on "Day Dawn in the Pacific Kingdom" was featured.

NEWS OF MARITIME MEN IN THE WAR

(Continued from page 1) Manan, Capt. Ryder was unable to get any recruits at Campobello and only three at Grand Manan. Eastport has done much better than that as, so far, there have been eleven residents of that city who have enlisted with the Canadian regiments and several have already gone to the front. A second attempt is to be made by Capt. Ryder to induce the Campobello and Grand Manan residents to volunteer.

Appeal for Recruits. It is those who are holding back in New Brunswick could only see how the N. B. boys are fighting they would not hesitate in coming to support them. They do not realize how much depends on their coming to the colors. We of the front are fighting without thought of reward to defend that which is right and if we fall we die happily in the knowledge of a duty well done.

This is an extract from a letter received by Rev. M. P. Maxwell, of Zealand Station, from Serg. Bert S. Boone, of No. 1 Field Ambulance Corps of the First Canadian Division, in which he makes a direct appeal for more men.

Noel Fraser Missing. J. W. Fraser of Moncton has received a letter from the officer commanding the company in which his son, Noel Fraser, was serving on the western battle front. The letter precludes all hope of his son being alive. Noel Fraser was reported missing on the 8th of October. He enlisted in Winnipeg in the 28th Battalion early this year.

In Receiving. Mrs. H. H. Thompson of Fredericton has received word that her son, Private Cyrrian Thompson, reported as suffering from shock after being in the trenches with the 4th Battalion, is now recovering in Trenches since September.

"We are not having a picnic," is the expression used by Sapper S. S. Williams of Fredericton in describing the conditions under which the Canadian Engineers are working with the Second Division of the Canadian Expeditionary Force. Sapper Babbitt was formerly an officer in the 71st York Regiment, but enlisted in Ottawa, Ont., with brother, Sapper Archie R. Babbitt, when the 6th Field Company, Canadian Engineers was raised in Ottawa, Ont. Both have been in the trenches since September 15. The engineers have had some hard work and Sapper Babbitt's letters suggest that peroxide to put on hands torn by wire and other material used by them would be very acceptable. So near is the 6th Company to the German trenches that the opposing troops can talk to each other.

MR. BARNES SUSTAINS HEAVY FIRE LOSS. Moncton, Nov. 12.—Hon. James Barnes, sustained serious loss by fire last evening. Fire started in buildings on his farm near Buctouche. QUEEN'S RINK AND RECRUITING. Editor of Times: Sir,—I see by the press a proposition to build a hall on King Square for recruiting purposes. The cost of which would run into thousands of dollars if properly heated. Now I would beg to suggest that the Queen's Rink be secured for a year. The rink is ready for occupation, being piped throughout for steam heating; there is a platform ready and hundreds of chairs now in the building. On enquiry I find the rink can be rented for \$1,000 a year. I know the Torrey campaign was held there for six weeks and the rink was well heated. I also beg to say it would be a fine place for drilling recruits and many military patriotic purposes. I further beg to say I feel the King Square should be kept intact as far as possible as it is a credit to our city during the summer and a shed would destroy the beauty of it.

Yours, A. O. SKINNER. Note.—The recruiting committee looked into the Queen's Rink proposition and also made enquiries about St. Andrew's Rink. They have not yet come to any decision. Queen's Rink, however, would require a large expenditure before it could be heated.

THE VICTROLA AND THE COMMUNITY—NO. 4. The Doctor says: "If people knew the health-giving relief from the strain of modern living which the Victrola gives, we medical men would have less to do and every home would be happier." "When I can relax for an hour and listen to the excellent music my Victrola provides, I certainly feel the benefit. Violin music always appealed to me so I take especial pleasure in records by Elman, Kreisler or Maud Powell. I think 'The Concerto for Two Violins' on three records by Kreisler and Elman is the finest music I ever heard.

**FREE PUBLICITY**

Increasing demands for the publication of items dealing with the activities of the many organizations aiding in the national cause are so numerous that The Times finds itself compelled to make some stipulations. These will give consideration to all deserving efforts without making greater demands on the news columns than is fair or reasonable.

All patriotic undertaking announcements other than recruiting, must be confined to a space not exceeding 100 words for each. Copy must be handed in, not telephoned, not later than 11 a. m. All matter for which space is requested, received later than the hour named or for specified position other than that allotted, shall be paid for at the rate of 5c. per count line of six words per line.

All display advertising in connection with patriotic undertakings shall be paid for at the rate of 14c. per inch.

Detailed acknowledgments of contributions will not be accepted for free publication, but will be inserted at 14c. per inch.

These conditions and rates will be rigidly adhered to. No free notices will be given entertainments unless the total receipts are for patriotic effort.

**THE HALIFAX METHOD.**

The Halifax Herald has entered upon a more severe course of restriction. It says that there are only two things which newspapers depend upon for existence, the sale of papers on which there is a profit of one-quarter of a cent, over the actual cost, of white paper, and the sale of space. The sale of space pays for telegrams, cables, wages, rent, taxes and machinery, and the thousand and one items of the cost of production. Every line of type costs so much money to produce. The paper that gives away a large proportion of its natural product will soon find itself in the bankrupt court and will cease to exist. The Herald then goes on to make the announcement that "hereafter notices of any gathering, relating to future events, or to the receiving of money for funds, whether local or general, religious, philanthropic or patriotic, or acknowledgments or contributions, or subscriptions of any kind, will be inserted in the display advertising columns of the Herald at the wholesale flat rate of forty-two cents per inch. Special reading notices for all societies, clubs, churches, religious philanthropic, and patriotic purposes, where the purpose is not the receiving of money may be inserted at two cents a word, in either the Herald or Mail, prepaid."

### THE AMERICAN ATTITUDE

Mr. Winston Churchill, the American novelist, told the Canadian Club of Toronto the other night that more and more Americans are realizing the mistake their country made when she failed to protest against the violation of Belgium. He said further that nothing since the civil war had caused such a shock to patriotic Americans as the discovery that they were not a united people, but that there existed among them a body of so-called Americans who spoke "alien sympathies," and forgot their allegiance to the government under which they lived. This, of course, was a reference to the German-American.

Commenting on Mr. Churchill's speech, the Toronto World quotes the following from the New York World—"It may be improbable, but it is not impossible that soon or late the duty will devolve upon the United States of making the last stand for democracy and free government." The Toronto World very pointedly observes that before such a call would come to the United States the destruction of Britain and her democracies must be accomplished, and it would then be too late for the United States to make a stand. As Mr. Churchill says, she should have made the stand when Belgium was invaded, although it is not yet too late for her to make a stand for what President Wilson has termed "the rights of humanity." Mr. Churchill looks forward to a time when there will be "a closer affiliation of the Anglo-Saxon people, bound together by ideals, not merely of common interest, but of loyalty to truth and frank dealing, and to all that liberty and self-government mean to humanity." Such an affiliation has been the dream of many British as well as Americans, and if it has seemed to fade of late it is because the United States government did not appear to realize that liberty and self-government and the common interests of free nations were threatened by a cruel military autocracy which sought world-dominion. As time goes on, however, it is made more and more apparent that the great mass of the American people are in sympathy with the Allies, and the destruction of the steamship Ancona, with the loss of more American lives, will bring home still more forcibly the realization that the sooner Germany is crushed the better for "the rights of humanity." As the Toronto World says—"The democratic nations must range themselves together against the embattled hosts of tyranny, autocracy and militarism; for against militarism triumphant, nothing can prevail but the struggle of thirty more generations."

The London Standard, referring to the destruction of the Ancona, declares that in avenging this great crime the Allied fleets should have the sympathy of the American government people; and it points out how small a thing is the stoppage of trade by British cruisers compared with the crimes committed by the German and Austrian pirates who destroy the lives of innocent women and children. The Fall Mall Gazette's comment is to the same effect. It says—"Whether England is strictly entitled to inflict a few weeks delay on suspected cargoes becomes a pitifully trivial aside to the wholesale barbarism by which our enemies have again proclaimed 'war code and illustrated their seal for the freedom of the seas.' The sinking of the Ancona and the shelling of her lifeboats recalls the attention of neutrals to the fundamental realities of what the world is fighting about."

The battles of the United States and of every democratic country are being fought by the Allies in this war, and the latest crime committed by the Central Powers must surely make it more clear that our neighbor to the south should put no stumbling block in the way of the Allied fleets.

### HUNGER IN GERMANY.

From what source can Germany hope to get a supply of food? The New York Evening Post says—"The Frankfurter Zeitung can only recommend drawing one's belt tighter and hacking a way through. But hacking through to what? The west is out of the question. The hacking process in Russia has come to an end, and the conquest of the Caspian grain lands has not relieved the situation. There is only Serbia now to hack through. When Gen. Mackensen opens the way to Constantinople he has come no nearer to a source of food supply for the beleaguered German people. Asiatic Turkey is hardly in a position to feed the German Empire. Hence that very grim jest by the Frankfurter Zeitung, when it foresees the necessity of the German people 'nourishing' itself on hate."

Hate is a poor substitute for food and drink, but there is now no doubt whatever that Germany's boat that she was self-contained, as far as food supplies are concerned, was without foundation. With all her ingenuity in providing substitutes, and all her organizing ability to conserve food supplies, her own press now admits the gravity of the situation and denounces the government authorities for failure to meet the situation, although the government of course could

not prevent the crop failure of the present year.

In a significant article in the last number of the Quarterly Review, Prof. W. J. Ashley quotes figures to show the great advance in food prices in Germany. He shows that there was an increase of 70 per cent between July 1914 and July 1915, which brought forth the following comment at that time from a German newspaper:

"Everyone who has occasion to observe the facts will perceive that among the working class families the effects of under-nutrition are becoming plainly visible. Prices must be reduced soon, if the working classes are not to suffer serious physical harm."

Prof. Ashley quotes German writers and arrives at the conclusion that Germany is confronted by a very serious condition of affairs in regard to food supply. Since his article was written, the German press has become much more outspoken and it is very clear that the longer the war lasts the more terrible will be the suffering of the people of that country. Add to this the constant drain upon the manhood of the country by the fighting on three fronts and we perceive at once the basis of British confidence in final victory, with peace terms to be dictated by the Allies at Berlin.

St. John soldiers, in camp Sussex, would like to winter in St. John.

A qualified conscription, calling out young unmarried men, may be introduced in the United Kingdom after Nov. 30, if the young men fall in the meantime to come forward and enlist.

The fact that fifty-five Austrian newspapers have been suppressed for discussing the food shortage is very significant. As the winter approaches the pinch of want will be more and more keenly felt there and in Germany.

The men of the 52nd are pleased with St. John and St. John is pleased with them. They are a fine body of soldiers whose conduct is entirely creditable to them.

At St. Andrew's rink tonight Major Guthrie will present to Col. Fowler of the new 104th a sword that went with the old 104th on its historic march to Quebec. It will be a notable event in the local history of the recruiting campaign.

That sixteen youths who were members of the St. John Boys' Club are now in the ranks of the soldiers called for foreign service, and some of them already on the firing line, should cause the citizens of St. John to have a deeper interest in the welfare of that club, which is of the greatest benefit to scores of boys in this city whose evenings without the club would not be so well nor so agreeably spent.

Prof. Reithofer, formerly professor in Woodstock College, Ontario, is doing a useful work in pointing out to Canadians of German descent the true state of affairs in Germany. In an address in Toronto a few days ago he said—"If there were a just representation by population in the German Reichstag, and that his Reichstag would be stronger than all the other parties combined, and there would be no German Emperor and no war today." Prof. Reithofer pointed out that the Kaiser controls the Reichstag, and that his will is paramount, as was that of Bismarck years ago. The defeat of Germany in this war will mean the emancipation of the German people from the curse of bureaucratic military government.

In an address in Toronto this week Sir Sam Hughes said "Not under two or three months in Canadian winter conditions can a man be trained for service. Therefore, older Canadians should encourage the youth to enlist now and be ready in the spring. No peace, no settlement of this war, no compromises must be permitted until we have conquered. We have suffered; our boys have fallen; it will not take very much more to smash through to victory." Of the quality of Canada's troops Sir Sam said—"Give me a body of mechanics, business men, farmers, free citizens trained to think and act for themselves, and after they have received an efficient military training, I'll back them against twice their number of the best trained troops Germany has."

Reviewing the new phase of the great war the Montreal Mail points out that now the Allies are getting in form to put forth their greatest effort, while the enemy is far weaker than before. The Mail says—"Germany's greatest wastage has been the loss of the flower of her armies. That loss she can never replace. Of all the nations at war, she has most to fear from the coming winter, and especially since the exertions she has been forced to undertake have carried her legions far afield and thinned her lines. Against the background of confusing reports from the various theatres of war, now favorable, now depressing, stand out the big central facts which form the bases of decisive developments to come. These facts today clearly indicate that, in this war of exhaustion, we enter the next phase stronger than we entered the first, and we face a weaker enemy."

### EVERY THREE MINUTES ONE DIES IN THE U. S.

The Anti-Tuberculosis Society illustrates the frightful toll of consumption by extinguishing a light every three minutes, and shows that it is the man or woman, girl or boy, who neglects colds, whose blood is impure, who feels weak and languid, who is the very one to contract tuberculosis—and none are immune.

During changing seasons, or after sickness, blood-quality is most important, and if you and your family will take Scott's Emulsion after meals it will charge your blood with health-sustaining richness, quicken circulation, and strengthen both lungs and throat.

Scott's is free from drugs—easy to take—it cannot harm. Get a bottle to-day.

### LIGHTER VEIN

Old John, as we will call him, has a very caustic tongue, and his son—a young fellow with a roving objection to work—is well aware of the fact. The other morning the young man was lying on his back in the plot of ground he calls his garden, when Old John stroked up. "Well, Father," began the son, raising himself on one elbow and lazily raving the weed-covered patch, "what do you think of it?" "Why," replied John slowly, "if you're growing food for yourself, and yourself only, there's nothing much to grumble at. It's a nice crop." "Oh?" asked the young man. "Nice crop! Of what?" "That's the name of the stinging nettle. It's a nice crop, I say, and it ought to last one donkey all winter!"

In a village not far from Ohan there are a Parish and a United Free Church. The ministers are friendly rivals. The other Sunday afternoon the parish minister preached on the parable of the Ten Virgins, laying particular stress upon the carelessness of the five foolish ones who had no oil in their lamps. At the U. F. service in the evening the stinging nettle made it necessary for the preacher to stop and light the lamp behind the pulpit. But it immediately went out. There was no oil in the lamp. The service was brought to a premature close, and the minister, who had observed it, would have failed to understand.

HAS BEEN THROUGH EVERY ENGAGEMENT OF CANADIANS

(Northern Light)  
Somewhere in France,  
Oct. 21, 1915.

Dear Sir—

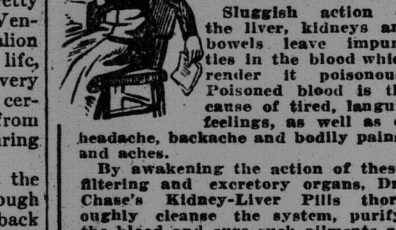

I have received several copies of your paper, The Gloucester Northern Light, and as I am an old Bathurst boy, it makes me long for home when I read of so many people and places I am familiar with that perhaps I may have no chance of ever seeing again.

I have met an old school chum of mine, and I should think he is pretty well known as his name is "Chap" Fenwick. We had some of the 20th Battalion getting their first taste of trench life, with us, and I must say we have every cause to be proud of them. They certainly showed themselves veterans from the first minute they were in the firing line.

I have been in every engagement the Canadians have been in, and although wounded slightly at Ypres, I was back in time for our glorious charge at Festubert. There are many boys from N. B. with us, and many have sacrificed themselves in the cause of right and liberty.

Yours,  
DRUMMER DOUGLAS MATTIX,  
16th Bn. Canadian Scottish,

"WET" PARADE IN CHICAGO SUNDAY

Chicago Demonstration Against Closed Sunday Three Times Greater Than Mayor's Prosperity March

The "wet" demonstration on last Sunday against Mayor Thompson's order, enforcing the state law and closing the saloons in Chicago on Sunday, was the largest and most spectacular parade in Chicago in recent years.

The parade was three times as large as the mayor's "prosperity" demonstration, which welcomed Mayor Thompson when he returned from California.

Suffered Constantly FROM HEADACHE.

To suffer from headache makes life miserable, and it takes a person who has been or is subject to headache to describe the suffering it causes.

The fact that Burdock Blood Bitters reaches the seat of the trouble, and banishes the headache is due to its success in first relieving, and then permanently curing the cause of the trouble.

Mr. Wallace J. Boyd, Milltown, N.B., writes: "Several years ago I was a constant sufferer from headache. It was all run down, and nothing seemed to do me any good."

B.B.B. is the oldest and best known blood medicine on the market to-day, having been manufactured for over forty years by The T. Millburn Co., Limited, Toronto, Ont.

GET RID OF HUMORS AND AVOID SICKNESS

Humors in the blood cause internal derangements that affect the whole system, as well as pimples, boils, and other eruptions, and are responsible for the readiness with which many people contract disease.

For forty years Hood's Sarsaparilla has been more successful than any other medicine in expelling humors and removing their outward effects.

translate all the legends inscribed on the numberless banners. German legends were most numerous, but notices and the names of societies in almost every civilized tongue were displayed to the enormous crowds that filled the streets.

There was a confusion of tunes as well as of tongues. "Watch An Irish" and "Tipperary" mingled often when two bands were lined close to each other.

In all the stirring scenes down Michigan avenue, along which the impressive thousands swung, one man was conspicuously conspicuous. He was Alfred Wild, marshal of the West Side Division, a veteran of the Spanish army.

From the reviewing stand at Jackson boulevard, all the way to Randolph street, great flags of many nationalities floated in the breeze.

One spectacle of the parade was outstanding. Election Commissioner August Leuders, marshal of the Northwest Side Division, collected this. As his division swung into the boulevard at Randolph street the thousands—perhaps 10,000—who jammed the street sides, even those peering over the gables on the twenty-storey buildings, saw forty large flags representing twenty nationalities and with a great group of the Stars and Stripes at the head of the parade.

will be sold at the rink on Monday night. A feature of interest will be the fact that one who has lately been welcomed with more than a thousand other Canadians of his gallant type, Lieut. Col. Hay, O. C. of the 52nd Battalion, will be present also, while a concert will be given by the 52nd Battalion band, and there will likely be other numbers.

There will undoubtedly be a large gathering present. The sale of tickets has been so great that all who can will want to be present when the lucky winners of those fifty excellent prizes are announced. In anticipation of the great rush of people a small fee, ten cents, is to be charged, the proceeds going to swell the patriotic fund.

Nothing Stops This Man

The man with vigorous, virile health, and a clear mind, who brushes away obstacles, and rejoices in overcoming difficulties, is bound to succeed.

Physical and mental conditions like these come largely through proper eating—'Food makes the man.'

Now it is a fact, attested by food experts—that the modern dietary is woefully lacking in the very elements that put success into a man.

LETTERS TO THE EDITOR

SOLDIERS AT SUSSEX Editor of the Times: Sir—Speaking of amusements at Sussex. Some one from there wrote to last evening's Times in answer to one of your articles and went on to say that there was as many amusements in Sussex as in St. John. Now, sir, anyone who was ever in Sussex knows that there is nothing to go to here in the evenings, except one moving picture show, and one...

When I wrote to the Times on Tuesday speaking of amusements here I did not refer to the barns as at all as the writer speaks of. I might say that they do not need bar rooms in Sussex for those who want liquor can get it here as well as in St. John. Thanking you for valuable space. This is only a fair answer. Yours truly, I. M. H.

Compulsory service in Great Britain is indicated for the near future in a statement made last night by Lord Derby, director of recruiting, who said that unless enough young men come forward before November 30 the government will take the necessary steps to compel them to do so before married men are called upon to all their engagements to serve.

Lord Murray of Elibank has been appointed temporarily to act as director of recruiting for munitions work. In the British house of commons yesterday A. J. Balfour laid down the principle that the government would not reply to any criticism of the conduct of the war until it is over, as in the meantime, the facts connected with war matters cannot be made public.

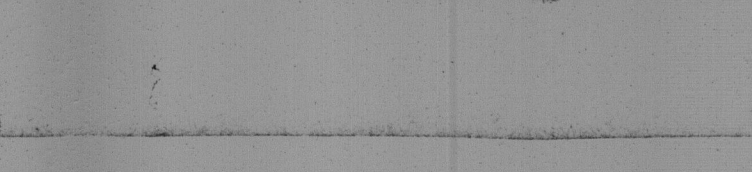

The arrival of large forces of British troops is said to have convinced the Greek government that the allies are determined to fight the Central powers effectively and to have greatly increased the probability of Greece entering the war with the allies. A decree has been issued dissolving the chamber of deputies and elections have been fixed for December 19.

Baron Vernon was killed in the war. London, Nov. 12.—Baron Vernon, captain of the Derbyshire Yeomanry, had died at Malta from dysentery. He was born in 1888 and succeeded to the title on the death of his father in 1908. His mother was Frances, daughter of Francis C. Lawrence of New York.

Always remember that if the opportunity for great deeds never comes to you the opportunity for doing good deeds is renewed for day by day. The thing for us to live for is the goodness, not the glory.—Farrar.

WHAT DRIVES MEN TO DRINK? To the Editor of the Times: Sir—The Literary Digest, September 18, 1915, has an article under the above caption, the first sentence of which reads: 'The impulse to drunkenness is disease.' After pointing out that men drink for various reasons, the writer says that those who 'Drink to get drunk are abnormal; they are diseased.' This fact has been brought out distinctly in the psychopathic laboratory of the Chicago Municipal Court. Judge Olson of the court says: 'We have yet to find the first case of the kind where there is not a tendency to epilepsy, dementia praecox, manic depressive insanity, or feeble-mindedness.' All this means that the man who frequently gets drunk is of unsound mind and should be so treated.

In the State of Kansas they send chronic drunkards to an asylum for the insane. In Ohio they have an institution to which the habitual drunkard may be sent by the judge on application by the friends until he is considered cured.

(Northern Light).

One of the most prominent young men of Bathurst, J. Edmund White, has felt the call to duty so far as to sacrifice his brilliant future in order to enlist. He is now home on leave for several weeks in order to wind up his business. His Bathurst friends regret to see him leaving, yet they cannot help feeling that he is showing a splendid example to all those other young men who have nothing whatever to deter them from offering their services to their country.

A large number of the friends of F. W. Barry, proprietor of the Barry Hotel, Grand Anse, met at his home Sunday evening the 11th October, and gave him a supper as a farewell tribute before his departure for Sussex. Mr. Barry's action in offering himself for service has made a deep impression on the young men of Grand Anse and vicinity, and will likely result in more enlistments from that section.

Byron Windsor, youngest son of Mrs. A. E. Windsor of Miscon Harbor, who has been a student at Mount Allison, was home this week saying good-bye to his people on the eve of his departure for the front with the Dalhousie University Medical Corps.

**A Beauty Hint**

The Bugbear of Blackheads

XAMINE your skin closely and see if blackheads are forming under the skin—especially round the nose, mouth and chin. Blackheads are a confession of the use of the wrong method of cleansing for the type of skin subject to this disfiguring trouble. The following Woodbury treatment will keep such a skin free from blackheads.

Apply hot cloths to the face until the skin is reddened. Then with a rough washcloth work up a heavy lather of Woodbury's Facial Soap and rub it into the pores thoroughly—always with an upward and outward motion. Rinse with clear hot water, then with cold—the colder the better. Finish by rubbing the face for a few minutes with a piece of ice. Dry the skin carefully.

Do not expect to get the desired result by using this treatment for a time and then neglecting it. But make it a daily habit and it will give you the clear, attractive skin that the steady use of Woodbury's always brings.

To remove blackheads already formed, substitute a flesh brush for the washcloth in the treatment above. Then protect the fingers with a handkerchief and press out the blackheads. Thereafter, use the above Woodbury treatment in your daily toilet.

A 25c cake of Woodbury's Facial Soap is sufficient for a month or six weeks of this treatment. Get a cake today. It is made in Canada and is for sale by Canadian druggists from coast to coast.

**MILITARY TEST FOR BULLET-PROOF CLOTH**

(Montreal Gazette).

This morning Brig-Gen. Wilson, with several of the officers of the garrison, will attend a contest between the Ross rifle and a newly invented bullet-proof cloth. Little is known as yet as to this modern armor, save that it is contended that it will stop a bullet, although what would happen to the man behind the cloth when the bullet hit it is not stated.

Instructions were yesterday received by Brig-Gen. Wilson from headquarters at Ottawa to make a test of the bullet-proof cloth today, and the test will be made this morning. The exact location is not announced, as crowds are not wanted when bullets are flying. It is understood that the test will be made by firing with a regular Ross rifle at a bag of grain wrapped in the bullet-proof cloth, the shots being fired at various distances, so as to test thoroughly the repellent capacities of the material.

**SAYS UNPREPAREDNESS TEMPTED GERMANS**

Inglewood, N. J., Nov. 12.—"With our meagre army of 30,000 men stretched out on a front of fifty miles to prevent an invasion, they would appear as scarce as pheasants in New Jersey, for I have hunted here often," said Hudson Maxim, during an address to a monster mass meeting in the Inglewood armory under the auspices of the National Security League.

Mr. Maxim drew the comparison to show the unpreparedness in the United States. He created some enthusiasm by declaring that our women would be subjected to the same monstrous treatment meted out to the Belgium women if the enemy came to our shores, "and this is no fairy tale, either," shouted the famous inventor. "The only thing we have now to save us from complete degradation

and humiliation is our navy. The British were criminally responsible for the war in Europe by tempting the Germans with their unpreparedness, and we had better take the object lesson. If there should be an invasion of our Atlantic Coast under present conditions I should take Horace Greeley's advice and go west."

**GERMAN SNIPER WAS BETRAYED BY TEETH**

Masked Behind British Lines as Old French Farmer—Had Killed Many Soldiers

We got a beast of a sniper this morning, writes a correspondent from somewhere in France, and the manner of his taking was rather curious. His teeth betrayed him. We are about 800 yards from the nearest German trench, and like all regiments, we suffer a good deal from want of drinking water. About half a mile to our immediate rear is a small stream, and we used to steal out at night for water. But we were constantly sniped. Two of our men had been wounded, and two others only just missed, and the firing came from somewhere behind our lines.

Highly indignant. A day's close search revealed nothing, and meantime there was no water, and our chief was getting savage and sarcastic. So early in the morning, just before dawn, we threw out a great hoop of men and gradually beat inward, but found nothing but a shapeless old French farmer driving his ridging plow for potatoes. We questioned him, but he flew into a rage because we were tramping over his beloved ground and ordered us off. Many of our men speak French and worried the old man, but he knew nothing of an "espion" and "sacred thunders" would we get of his field, or must be complain to the general, who would be just? We could do nothing but leave, and our subaltern reported to the chief, saying that the old farmer had gnashed his teeth at us, and "holly fine teeth, and clean, too," pursued the sub, reflectively.

Fully Armed. "What?" snapped the chief. "Mr.

Jones, you will take a couple of men and go carefully to this old farmer, engage him in conversation whilst your men pin him from behind suddenly. I don't want to lose men capturing a dangerous sniper with clean teeth."

Enlightened and feeling rather ashamed of himself, the sub, turned away, got a couple of men, and secured the old farmer. Oh, but he fought like a tiger, and the three men were rolling over and over on the ground for some time before he could be safely tied. He was a young man, and a search revealed a belt of rifle cartridges and two automatic pistols of German make. Later in the day we found a little dugout in a ditch with a rifle hidden away under a screen of brushwood.

Russians Not Affected by Winter. London, Nov. 12.—The correspondent of the Times at the headquarters of General Ruzsky's northern Russian army says the premature advent of winter has not affected the Russian plans, as the rivers and ground have not yet frozen. In the Drina Valley there has been no interference with railway work and supplies are coming satisfactorily. The correspondent adds that the refugees who recently encumbered the entire region have disappeared, thus relieving the pressure on the railway system.

## GENERAL FRENCH'S WORDS TO TROOPS

Stirring Scene at Inspection by Field Marshall in France—Made Remarkable Impression on Those Who Heard Him

An interesting and picturesque account of an inspection at the front by Sir John French is contained in a letter which Alderman J. Ranson of Battersea, has received from his son, Lance-Corporal J. W. Ranson, of Battersea, with the British Expeditionary Force in France.

Describing the ceremony the writer says: It was raining when we marched into the square, trodden into mud by the passage of men and horses, but, as the hour came when the Field Marshal was expected, the rain ceased and a struggling beam of sunshine broke through the heavy clouds.

The ranks stiffened to attention and he began to speak. I have heard many speeches, some by orators whose fame is more than national, but I have never heard a speaker quite like Sir John. He speaks quite slowly, in a voice that carries well, and I suppose no one ever spoke in quite such a way to quite such an audience before.

"You may have thought when you fought so gallantly day after day in the trenches, that you were doing no good. I don't want any man to think that."

So he began and one could see stiffening of backs and a squaring of shoulders as he spoke while over the already quiet ranks there fell a deeper hush. To make charges when one is excited—anyone can do that; but trench warfare—that needs all the qualities of a soldier.

It seemed that the speaker was anxious to do full justice to his hearers. "The battle in which you have been engaged and which you have won... You have enabled the British and French armies to make a successful attack where?"

"Then it was we realized that these men had made history. Just a few more phrases and the speaker finished and some one called for "Three cheers for the Field Marshal!"

Wondrous of Speech. Ye gods! how the square rang! I doubt not that in this quiet French village some backwaters of history have sometimes rippled, but these women and children who leaned out of the windows

The Easiest Way To End Dandruff. There is one sure way that never fails to remove dandruff completely, and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

Zam-Buk Cured the Ulcer in a Few Months

If Mrs. Jeffrey, of 81 French St., Methuen, had known about Zam-Buk thirty-three years ago, she would have saved herself just thirty-two years and some months of pain! Think of it! She says: "Thirty-three years ago an ulcer appeared on my ankle, which, in spite of treatment, continued to spread almost to my knee. I tried remedy after remedy, and was treated by various doctors for over 30 years, but only got temporary relief!"

The pain I suffered day and night was terrible in fact, as I recall those days, I do not see how I was able to stand it! For years I could hardly walk, and was unable to leave the house. The ulcer extended from my ankle to my knee and was an open sore.

One day I saw an account of a very bad ulcer having been cured by Zam-Buk. While I had become skeptical of all so-called remedies, I determined to give Zam-Buk a trial. I applied Zam-Buk freely every day, and the sore soon showed signs of healing. The inflammation went away, the pain was eased, and I was soon convinced that after thirty years of suffering I was on the road to recovery. I realized that a complete cure could not be effected in a day and persevered with Zam-Buk. Finally the terrible sore was quite healed. I have waited over a year before writing you, but there has been no trace of the ulcer returning."

For ulcers, abscesses, eczema, scalp sores, piles, cold sores, chapped lips, baby's sores, eruptions, cuts, burns, bruises, and all skin injuries and diseases Zam-Buk is without equal. Sold everywhere 50c. box, or post-paid from Zam-Buk Co., Toronto, upon receipt of price. Refuse imitations.

Yesterday have seen something that they may well tell to those who come after, so long as the old market-places drawling in the sun. They have seen the thin band of horses; they have seen something of the spirit of England; but more than that they have seen in their day a little unassuming man, whose army is greater, whose task is harder, but whose success is surer than ever was the case with that other "little man" whom France has idealized.

"The tumult and the shouting dies; The captain and the king depart; And on the market-places a-drawn and deserted again, but the men who have marched out have been converted into keen, zealous soldiers, by the wisdomy of a man's speech.

A Thousand Dollars Won't Buy Eyesight
