## Experts Getting Ready To Fly Across Ocean

### Observations Being Conducted in Newfoundland by Party of Aviators and Meteorological Men—May Spend Several Months at the Work—Much Interest Aroused

St. John's, Nfld., March 20.—A party of aviators and meteorological experts from England have arrived here to conduct observations on air conditions in connection with plans for trans-Atlantic flights. They expect to remain several months making a thorough study of wind currents and meteorological conditions generally through the spring and summer. Members of the party have been assigned to visit various parts of the island to fix upon the most suitable point from which to conduct observations.

The announcement from England that Harry S. Hawker, one of the leading aviators of that country, had already shipped a machine to Newfoundland with a view to attempting a flight across the ocean in the near future, aroused great interest here. Government officials here said they had no information regarding the plan, but that they were prepared to accord the aviator every assistance in the development of his project.

### HON. W. J. HANNA DEAD

Toronto, March 20.—Hon. W. J. Hanna of the Canadian end of the Standard Oil Company, former food controller and one-time provincial secretary of Ontario, died today in Florida.

### WAR GARDEN LOTS

Commissioner Bullock said this morning that this time a year ago he had received 110 applications for war garden lots in the Mannawagonish road. To date he has only received twenty-six, showing a perceptible falling off in the number of citizens who last year interested themselves in war gardening activities. There are 120 such lots for disposal, which can be secured by applications free of any charge, such lots, however, to be used for gardening purposes. It is understood that after this season a rental fee will be exacted.

### SAW SERVICE AT FRONT

Lieutenant H. H. Ponton, who was formerly with the coast defence artillery on Partridge Island and has also seen considerable service at the front, was in command of the saw service at the front. He was accompanied by Lieutenant-Colonel Harrison who commanded the St. John unit at the front, leaving here in command of the second ammunition column.

### ON INSPECTION TRIP

Lieutenant-Colonel Jost, assistant director of military services, was in Fredericton yesterday inspecting the military hospital there. He was accompanied by Lieutenant-Colonel Wilson, of the board of consulting surgeons of Ottawa.

### German-Polish Armistice

Posen, March 19.—(Havas Agency)—In the negotiations between the Allied nations and the German delegation a convention has virtually been concluded for the carrying out of the German-Polish armistice.

## CANADIAN WOUNDED COMING VIA PORTLAND

Portland, Maine, March 19.—A decision to bring to this port from overseas all the wounded of the Canadian armies, about 20,000 men, was announced today by Major-General Frothingham, director-general of the Canadian Medical Service. He came here to take charge of the arrangements for their reception. The steamer Araguaya will bring the third detachment of wounded to arrive here some time this week.

The foregoing despatch presumably means that all the Canadian wounded soldiers who are out of coats and those still suffering severely from effect of wounds and needing constant medical attention, will come here via the Maine port. Canadian soldiers for discharge will still continue to come to St. John and Halifax according to local military officials.

## Two Great Dirigibles Ordered

### Will Have Lifting Power of Eighty Tons and Will be Driven by Six Engines

London, March 20.—Following successful trials of new British dirigibles of the rigid type of construction, the government, according to the Mail, has ordered the building of two enormous airships. Each will be 800 feet in length and will have a capacity of 2,000,000 cubic feet. They will be driven by six engines which will generate a total of 1,800 horse-power, and, it is said, will have lifting power of eighty tons, compared with twenty-nine tons, the largest load carried by any known to be in existence.

## BRINGING CREW TO THIS PORT

### Government Steamer Aberdeen due This Afternoon With Men from Wrecked Steamer Troja

The members of the crew of the S. S. Troja, the steamer which ran on the Old Proprietor ledge yesterday, are expected to reach the city this afternoon on the government steamer Aberdeen. They left for here this morning at eleven o'clock, and should arrive in upper Canada street at six o'clock. The Aberdeen remained in the vicinity of the wreck all last night and early this morning, but evidently decided that nothing could be done and she is coming to port. It is believed the Troja will be a total loss.

The Troja is practically a new steamer and is owned by a Montreal concern. She was built in upper Canada and launched about a year ago. The captain of the ill-fated steamer will arrive with the crew and will make a report to Captain Carl Nelson, who is in the city as the representative of the company.

J. C. Chesley, agent of the marine and fisheries department, received word last evening about eight o'clock saying that the government steamer Aberdeen, Captain Kenney, had arrived at the scene of the wreck of the Troja at the Old Proprietor at 6:45 o'clock, that the crew was all rescued and that the craft "was in a bad way." The cargo of coal is a total loss and there is little hope of saving the steamer. The Troja was in trouble last December and underwent an extensive overhauling at Sydney. She is 1633 tons register.

## Baltic Reaches Halifax

Halifax, March 20.—The White Star liner Baltic, bringing the Fifty-eighth Battalion of Toronto, the Forty-third Battalion of Winnipeg, the First C. M. R. of Brandon, part of the Second C. M. R. of Toronto and the Tenth Field Ambulance of Winnipeg arrived in port at eleven o'clock this morning. She had expected to enter the harbor at an early hour, but was delayed on the coast.

## LYING DOGGO.

THE GERMAN DRAGON: "Does he think I'm really dead?"

## CONDITIONS IN EUROPE WORSE INSTEAD OF BETTER

### Dangers Increasing, Says Churchill

#### Army Must Be Kept on the Rhine to See That Terms of Peace Treaty Are Carried Out—The Military Service Bill

London, March 19.—"Conditions in Europe are getting worse instead of better; dangers are increasing instead of decreasing." This statement was made in the House of Commons today by Winston Spencer Churchill, minister of war.

The Military Service Act. During debate in committee the military service bill Mr. Churchill in opposing the amendment limiting the operation of the bill to December 31, 1919, instead of April 30, 1920, emphasized the fact that the British regular army had virtually disappeared and that it was necessary to keep men whom the bill retained with the colors for overseas garrisons. Mr. Churchill said he had every hope, however, that the British foreign establishment would be on a voluntary basis before the end of the year.

Army of Occupation. The army of occupation, he added, was on a different plan and could not depend on voluntary recruiting. It was impossible he said to assert how long it would be necessary to have a British army on the Rhine in order to influence Germany's policy by the pressure of its presence, but he was very glad that it had been decided to send food to Germany to enable Germany to get to work and to enjoy a real measure of peace.

It was all the more necessary, however, to keep a force on the Rhine to see that Germany carried out the terms of the peace treaty when it has been ratified. Mr. Churchill said. Conditions in Europe were getting worse instead of better, he added, and dangers were increasing instead of decreasing. In these circumstances he considered that the date for the operation of the bill, April 30, should be extended. He concluded by saying that he had every reason to expect the necessity for food to Germany would be removed away by that date. The proposed amendment was defeated.

## Admits That She Poisoned Her Rival

### Seattle Girl Causes Death of Wife of Man She Wanted—Breaks Down When Police Question Her

Seattle, March 19.—Miss Ruth Garrison, eighteen, confessed today, the police said, that she put poison in the food of her luncheon guest, Mrs. Grace E. Storrs, twenty-eight, yesterday because Mrs. Storrs was a rival for the affections of her husband, Douglas Storrs, an automobile mechanic. Mrs. Storrs died in a department store emergency hospital immediately after luncheon.

Miss Garrison telephoned Mrs. Storrs yesterday, the police allege, and asked her to come to lunch and discuss the question of a divorce for Storrs. The girl reached the tea room ahead of her guest, ordered the meal and, according to the police, placed the poison in a fruit cocktail.

Miss Garrison was arrested today and under persistent questioning, the police said, she admitted placing the poison in Mrs. Storrs' food.

## Sir George Perley To Resign, is Rumor

Montreal, March 20.—The Gazette publishes the following:—Ottawa, March 19.—Sir George H. Perley, Canadian high commissioner in London, according to a report in circulation here, will in the near future resign his present office and return to Canada to give his attention to his own private business affairs.

## PELIX and PHAEDRAN

A copy of a resolution of the Halifax Board of Trade, relative to the abolishing of business war taxes, has been received by R. E. Armstrong, secretary of the local board. It is understood the matter will be referred to the board's council committee.

Toronto, March 20.—Pressure is high over the great part of the continent as a shallow disturbance is centered northwest of Bermuda. The weather has been fair and calm, with a light breeze from Ontario eastward and cold in the western provinces.

Strong Winds. Maritime winds, probably gales off the Nova Scotia coast; some light local showers, but mostly fair today and on Friday. Stationary over Manitoba and Saskatchewan—Fair and cold today and on Friday.

LET BOISHIVISM EMBRACE YOU AND YOU WILL SOON BE AS HAPPY AS YOUR RUSSIAN BROTHER.

## ROUTINE WORK IN LEGISLATURE TO-DAY

### Consideration of Bills This Afternoon—Standing Rules Committee Has Meeting To-day—Public Works Matters—The Valley Railway Construction

(Special to Times) Fredericton, N. B., March 20.—The legislature will spend this afternoon, as yesterday, in the consideration of bills and other routine work. Owing to the amount of time devoted to the debate on the address, legislation has not advanced sufficiently to give the house committee much work to do, and the members have had their mornings fairly free so far. The only committee which met this morning was that on standing rules.

A delegation representing the stationary engineers, consisting of John Hooley and R. B. Longard, of St. John, accompanied by J. L. Sugrue and J. H. Foster this morning to ask for an amendment to the factory act to provide for government inspection of boilers. At present boilers which are covered by insurance are inspected regularly by the underwriters, but there is no provision for the inspection of others. Consideration was promised by the premier.

The provincial department of public works has under consideration several requests regarding ferry services in the lower waters of the St. John river in Kings and St. John counties. Captain White of the Millidgeville service has reported the wharf approaches in need of repairs, and instructions have been issued by the department.

The ferry service at Perry's Point is to be improved by extensive repairs to the scow there, which has been furnished in the past by Gilbert Wetmore. The service at Bellis Bay requires a new scow, the old one having rotted out. The department has been fortunate in securing a scow recently built forty feet long and sixteen wide. This will be equipped with gasoline motive power, instead of the former mast and sail propelled propulsion.

Plans and specifications are being prepared by the public works department for new bridges at Millisish and French Village. They will be built of wood on concrete abutments and covered. That at Groom's Creek will be of embankment and concrete arch type, and when built will be so located as to straighten out a bad right angle curve in the road. The notice served by the government on the Valley Railway contractors requiring them to have sufficient men on the work to complete it by June 1, expires today. One or two of the sub-contractors have completed their arrangements for labor and will get to work at once. The vice-president and general counsel of the Nova Scotia Construction Company, Mr. Barnhill of Halifax, who has been expected here, has been delayed by illness, but is expected shortly. Smith and Merrilow, who have the contract for the bridge embankment at Nepesic, are getting ready to proceed with the work.

## ANOTHER REVOLUTION IN PETROGRAD

London, March 19.—There are unconfirmed reports that a revolution of the Moskevite or moderate element of the Social Democratic party against the Soviet government has broken out in Petrograd, according to a German government wireless dispatch received tonight.

BUSINESS WAR TAXES. A copy of a resolution of the Halifax Board of Trade, relative to the abolishing of business war taxes, has been received by R. E. Armstrong, secretary of the local board. It is understood the matter will be referred to the board's council committee.

## ALLENBY IN PARIS TO GIVE WAR COUNCIL VIEWS ON NEAR EAST

### Foch Heard Regarding Galicia and Sharp Warning Will be Sent to Belligerents There—Question of Equality of Treatment of Nationalities Not a Matter for League of Nations, It is Felt

Paris, March 19.—General E. H. H. Allenby, commander of the British forces in Palestine, arrived here today from Egypt to advise the supreme council on near eastern questions.

Foch Heard. Paris, March 20.—(By the Associated Press)—Marshal Foch and other generals were called in during yesterday's prolonged session of the supreme council to give their advice as to action which had been taken in Galicia where Ukrainian forces are besieging Lemberg, which is threatened from three sides. It was decided that a sharp warning should be sent to both sides asking for a suspension of hostilities.

Will Participate. Paris, March 20.—All Central and South American neutral nations, with the exception of Cuba and Paraguay, which have reserved their decision, will participate in the conference of neutral nations on the formation of a league of nations.

Opportunity for Neutrals. Paris, March 20.—(By the Associated Press)—Neutral countries of Europe, Asia and South America will be given opportunity today to express their views on proposed amendments to the league of nations plan. Neutrals, such as Holland and Switzerland, have sent delegates in response to the invitation of the supreme council, while more distant countries will be represented by ambassadors and ministers residing in Paris.

Feel It is Not For League. Paris, March 20.—(Canadian Press from Reuters Limited)—The commission delegates heartily concur in the view of the equality of treatment of all nationalities throughout the world is not a matter for the league of nations. A prominent Australian expressed the opinion that the commission was not prejudiced against the Japanese, but had a great admiration for them. Nevertheless, Australians believed that it would be better for the future world of which race should develop along its own distinctive lines. The chief consideration was the industrial one. Australia aimed at building up in the most rapid manner possible the population of over fifteen millions. Australia's chief attraction was its high wages and pleasant industrial conditions. The Asiatic worker as known in Australia was a cheap worker, therefore if they opened the doors to immigration they automatically closed them to Europeans.

A Canadian delegate stated the question of immigration must be settled individually by each country. Canada hitherto had no complaint regarding the Japanese in Canada. Their immigration was limited and only a few hundreds were admitted yearly.

Merits Discussed. Paris, March 19.—The merits of the proposed covenant of the league of nations were debated tonight by Senator Henry Lodge and President Lowell of Harvard University, before an audience that followed the speakers with intense interest and frequently expressed approval. The debaters approached the topic from different angles. Senator Lodge attacked the covenant as agreed upon by the commission of the peace conference, as a porous instrument, on the interpretation of which the signers themselves would be at odds within twelve months.

Dr. Lowell admitted that the covenant needed clarification, but argued that its substance, as a plan for the prevention of war, it was sound.

Important Meeting. Paris, March 20.—(By the Associated Press)—A meeting of the league of nations commission will be held at ten o'clock on Saturday morning when all proposed amendments and changes will be considered and the plan put into definite form. This will be the first meeting of the commission since the covenant was adopted and it will consider proposals submitted at the hearing of the neutrals today and also any other suggestions which have been made.

Lord Robert Cecil and Thomas W. Gregory, former United States attorney-general, are now here and are among those who have sought to draft a proviso relative to the Monroe Doctrine in such form that it will meet the approval of legal experts. The commission plans to hold continuous sessions until the work of revision is completed.

## WELL PLEASED

Among the soldiers returning on the S. S. Celtic which arrived in Halifax Tuesday night was Sgt. Edward Hermon Smith; he came to St. John yesterday at noon. Sergeant Smith enlisted in Toronto in the celebrated 4th Battalion, three days after the war broke out, went overseas and to France in that unit. He has seen forty months continuous service in France and escaped without a scratch until last August, when he was wounded in the head, and since that time he has been in the Rpsion Convalescent Home in England. He speaks very highly of the reception given to the soldiers at Halifax and St. John, but what seemed to impress him most was the short time which it took for him to get his discharge and all of his back pay here. This certainly speaks well for the new discharge system.

OUT FROM THE WEST. A telegram received by W. A. MacLachlan this morning said that his son, Major MacLachlan, who is in the Royal Victoria Hospital, Montreal, on account of wounds received in France, is improving. From the wording of the telegram, it would seem that he is out of danger.

## CURRIER REPORT DISCUSSED BY COMMISSIONERS

### To be Considered Further—Mr. Fisher Would Not Permit City Solicitor to Prepare Bill, Under the Circumstances

At a committee meeting of the city council this morning the Currier report on the New Brunswick Power Company was taken up and it was decided to interview the premier as to what action is being taken by the commission.

The mayor presided and all the commissioners were present. Commissioner Fisher introduced a resolution asking that the method of paving Union street, as decided on January 21, from Water street to part way across Brussels, be changed to street asphalt pavement or asphalt concrete base, using on the surface a brick or stone line on each side of each rail of the car track. The estimated cost would be \$7,250 as against \$5,850, decided upon in January, and the estimated cost per running foot to each abuttor to be \$8.85. The resolution passed.

Commissioner Fisher made known that several of the retaining walls about the city were in bad condition and some of them in danger of collapse. He moved that a portion of the retaining wall in Brussels street on the vacant foundry lot between Nos. 120 and 122 be rebuilt of concrete at an estimated cost of \$1,577. Payment to be made by bond issue. The lot is about 120 feet in length, and the matter of construction was brought before the council on the recommendation of the city engineer.

There was considerable discussion as to whether it was better to do the proposed work by the public works department or to let the work tender. It was finally decided that the civic department of public works should take the old wall down to the base and then figure the cost of building, as a better idea of the work to be done could then be secured. This was agreed to and Commissioner Fisher will take the matter up with the city engineer.

Ferry Supplies. Tenders for ferry supplies were then submitted as follows: For a tall shaft for propeller of ferry, Union Foundry, \$700; Phoenix Foundry, \$850, and the St. John Iron Works, \$196. It was decided to award the contract to the Phoenix Foundry—the lowest tender. For the supplying of two steel water tanks there were only two tenders, the Union Foundry, \$1,850, and the St. John Iron Works, \$1,800. The former was awarded the contract.

Commissioner Fisher asked if there had been any plans formulated as regards the city's position on the matter of the New Brunswick Power Company in view of the recent Currier report already submitted to the council. He suggested that some line of procedure should be immediately adopted and progress made as rapidly as possible.

He submitted a resolution asking that the premier of the province be informed that the city will oppose any legislation following out the Currier report. Commissioner Fisher thought that the city's views should be prepared and circulated among the people and the position of the city and the Power Company at present in view of the report being immediately taken up with the Citizens' Committee to see what is to be done. He said that while he had personally every confidence in the city solicitor, still he was against the principle of the city employing as its solicitor in this important matter a man who was also a personal solicitor for a prominent director of the New Brunswick Power Company. He was against the thing on principle and urged that the bill, providing for the taking over the Power Company in whole or in part, be prepared strictly according to the city's dictation and direction.

The mayor could not see how a solicitor acting individually for a party could interfere in this matter. He said that as the matter stood the commission itself was preparing a bill and the premier would be seen towards the end of the week by a special committee as to progress. He thought that the city had a clear-cut case as a result of the Currier report, and a number of the obstructions had been removed. The city knew better now where it stood and was prepared to proceed with the drafting of its bill.

Commissioner Fisher's resolution was not pressed, but the matter is to be considered again. The matter of the new electric by-laws already taken up will be considered by a special committee tomorrow morning. The council adjourned.

# POOR DOCUMENT

THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, MARCH 20, 1919

## GOOD THINGS COMING TO THEATRES OF ST. JOHN

BILL LYTELLE'S BOY, A FAMOUS STAR

St. John people don't have to be very old to recall the theatrical exploits of W. H. Lytelle, who played the spectacular drama, "Youth," in the old exhibition buildings and afterwards put on splendid productions in St. Andrew's Rink and the old Mechanic's Institute. In fact the redoubtable "Bill" was seen in vaudeville both at the Imperial and Opera House within the past few seasons. It will therefore be interesting to learn that Mr. Lytelle has a son in the picture game who is one of the screen's biggest bets as to popularity. This is Bert Lytelle, Metro star, who makes his debut in St. John tomorrow and Saturday in the simply entrancing little story, "Boston Blackie's Little Pal," the diverting and humanly emotional tale of a burglar, a baby boy and a Boston terrier. The Imperial will screen this picture, which should prove a lovely offering for the week-end when so many kiddies attend. Headlined serials, Chap. 8 and another two show Vitaphone farce.

Have you heard the Australian singers at the Opera House this week? If not, you have missed a treat. Tonight is the last chance. It is a good show right through—every one of the five acts has class and gives clean, enjoyable entertainment. Usual two shows tonight at 7:30 and 9.

## SALVAGE WORK IN FRANCE

Value of Work Done for Army in November Alone \$12,334,309

Washington, March 18.—The value of the work done by the Salvage Service of the American Army in France for November, 1918, is given as \$12,334,309 in a report received at the war department. The Salvage Service has in active operation four depots, twenty shops, sixty-six laundries, which thirty are automobile, and twenty-seven disinfesters. The value of the output of shops and depots is given as \$8,972,042, including the laundering of more than 6,000,000 articles and the repairing, packing and making ready for reuse of 3,674,000 articles.

Of all the items received for renovation and repair the aggregate percentage of recovery was 81 per cent, the remaining 19 per cent being utilized as raw material for repair work. The output of repaired shoes was 270,386 pairs, the value of property recovered was \$4,000,000. Property sent to the rear or released for the Quartermaster Corps amounted to \$1,000,000 and for the Ordnance Department \$1,800,000. These items do not include captured enemy materials, among which were seventy machine guns, 12,000 rifles and 40 cannon. Among the property salvaged in November were 240,000 feet of lumber and 3,600 pounds of bolts. The estimated value of the salvaged rubber routed to the United States at ten cents a pound was \$66,660. The Salvage Service succeeded in reclaiming and resending out of condemned substitutes and supplies property valued at \$134,662. The estimated value of 138,465 pounds of wool rags salvaged to the British at 20 cents a pound was \$28,693.

**MRS. JAMES BRIGGS**  
At an early hour this morning the death of Nellie A. wife of the late James Briggs, took place at the residence of her mother, Mrs. Elizabeth Gallagher, wife of the late William Gallagher, 165 Gullford street, West St. John. Besides her mother, she leaves three children, four brothers, John of West St. John, William and Lewis of Somerville, Mass., and Richard with the American Expeditionary Force at present in Germany; two sisters, Mrs. James Hogan of Bay Shore and Mrs. J. B. McManus of West St. John. The funeral will be held on Saturday morning at 10 o'clock from her mother's residence to the Church of the Assumption, where requiem high mass will be celebrated.

## Notice of Births, Marriages and Deaths, 50c.

### BIRTHS

**RAYCROFT**—At the Evangeline Maternity Hospital, on March 19, to Mr. and Mrs. Charles Raycroft, 207 Duke street, city, a daughter.

### DEATHS

**LEWIS**—On March 20, 1919, Helen Catherine, aged eighteen months, beloved child of Frances and Joseph P. Lewis. Funeral on Friday from her parents' residence, 124 Prince William street, at 2:30 p. m.

**BRIGGS**—At the home of her mother, 165 Gullford street, West End, on 20th inst., Nellie A., widow of James Briggs and daughter of Mrs. E. A. and the late William Gallagher, leaving three children, her mother, four brothers and two sisters to mourn.

Funeral Saturday morning at 8 o'clock from the residence of her mother to the Church of the Assumption for requiem high mass. Friends invited.

**DOHERTY**—At the St. John Infirmary on 20th inst., Annie, beloved daughter of the late William and Catherine Doherty, leaving three brothers and three sisters to mourn.

Funeral Saturday afternoon at 2:30 from the residence of her sister, Mrs. J. F. Fleming, Paradise Row. Friends invited.

**Your Eyes**  
Granulated Eyelids, Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by **Murine Eye Remedy**. No Stinging, No Smarting, just Eye Comfort. At four Drugists or by mail 60c per Bottle. Ask of the Eye Free Write **Murine Eye Remedy Co., Chicago.**

**USE The Want Ad Way**

## Vladivostok COSMOPOLITAN

People Bolshevik in Sympathy, But Find it Pudent to be on Fence—Some Queer Notions

Coburg, March 19.—Leaving Victoria on December 26 by the Proteus, Lieut. Col. H. C. Sparling of the Headquarters Staff of the Canadian force in Siberia, says they were about twenty days making the trip to Vladivostok, which would have been made in fifteen or sixteen days had they not lost a propeller. Lieut. Col. Sparling is a son of Rev. W. W. Sparling of this town, formerly of Toronto. He says:

"We were hoping that no news of the loss of the propeller reached Canada. Our captain notified the land that we had lost it, but that we were proceeding under our own power. The day following, however, we overheard a S. O. S. from a Japanese ship to the north of us that was on fire, and the wireless operator passed the signal on to the land. In transmitting the message however, one of our wires was cut, so that the people in Vladivostok and the British Embassy in Tokyo thought that the S. O. S. was from us, and they were on the point of sending a warship to our assistance, when they received the second message from us saying that we were all right. Fortunately, on receipt of the S. O. S. they called Canada, but the message was controlled by another sent soon as they received the correct information."

## A Cosmopolitan City

Vladivostok, according to Lieut. Col. Sparling's letter, is at present quite a cosmopolitan city. With a population of about 80,000 before the war, it now has about 250,000 which will give some idea of the congestion there. The town, he states, is full of soldiers, English, Canadian, French, American, Japanese, and, in addition, quite a large Czech-Slovak force. The city is governed by a Soviet Allied Council, which is administered by the Czechs, who have a force of about 600 policemen.

## Coolies Not Accounted Much

"There are also in the city many Chinese coolies, and these perform almost all the labor. They are not considered of much value. Lieut. Col. Sparling states, "The other day a Czech soldier killed a coolie and threw his body down a well. He was fined 4,000 roubles, which is equivalent to about \$300, for polluting the water supply."

## Bolshevism in Sympathy

"The whole population," he continues, "is undoubtedly Bolshevik in its sympathies, and are friendly to us only because it is to their interest to be so. As the policy of the allies is indicative as to further occupation of Russia and Siberia, these people are to a certain extent compelled to stay on the fence so as to keep on good terms with whichever party happens to be in power."

## Pocketful of "Bread Tickets"

"There is little money in circulation. The rouble, which in peace times was worth about 40 cents, is now worth between ten and eleven cents. A pocket full of Russian money looks more like a collection of bread tickets than anything else. A ten kopek note, equivalent to about one cent of our money, is about the size of Canada's one-cent piece."

## How the Day is spent

"The shops are opened from about 9 to 11 in the morning, and close at 4 in the afternoon. Between 11 and 2 everyone goes to lunch and for a sleep. All festivities begin about 11 at night, and end about 2 a. m., and dances and parties of all kinds are numerous, and a great quantity of vodka is sold. At official banquets, where the Russian presence is frequent, every Russian person persists in toasting British officers, and they are insulted if the British officers do not empty their glasses every toast. The result is that when senior British officers find these banquets about to take place they are away whenever possible."

## Strongly Fortified

"Vladivostok," Lieut. Col. Sparling continues, "is one of the most strongly fortified places in the world. It is surrounded by hills and each one is fortified. We are quartered in the Fort of the Gornostal fortifications, about a mile from the sea, and in the most modern barracks, the buildings of which are much better than any barracks we have in Canada. Our men all have beds and there is every facility for making them comfortable. We do not know how long we shall be here, but expect it will be at least two months. Our future course of action depends entirely upon the decision of the Peace Conference."

## The Harbor Engineers' Chances

"The Russians that we have met so far are very friendly and courteous, but they have some very peculiar ideas of business. A Russian general the other day asked Col. Morrissey of our force what his civil occupation was. Col. Morrissey replied, 'A harbor engineer.' The general said, 'Oh, that is a fine profession, better than a railway engineer; everyone can see what you do on a railway, but no one can see what a harbor engineer does in the water, and you must make a great deal of money.'"

## MISS ANNIE DOHERTY

The death of Annie, daughter of the late William and Catherine Doherty, took place at an early hour this morning at the St. John Infirmary. She leaves three brothers, John F. of Fredericton, William and Thomas of this city, and three sisters, Mrs. T. P. Fleming, and Misses Mary and Kathleen at home. The sympathy of a large circle of friends is extended to the bereaved ones.

Owing to the illness of the brother on Mill street the funeral will be held from the residence of her sister, Mrs. Fleming, 89 Paradise row, on Saturday afternoon at 2:30.

**BIG FRUIT CONCERN.**  
William Boyle, representing the United Fruit Co., the big international corporation, is in the city from New York. The U. F. C. has a depot in Bangor. Mr. Boyle states that the fruit business has naturally been somewhat interfered with of late by the commandeering of some of his firm's fruit boats by the United States government, but this difficulty will gradually be overcome.

## PROVINCIAL APPOINTMENTS ARE GAZETTED

(Special to The Times.)  
Fredericton, N. B., March 20.—The following provincial appointments are gazetted: Edward Vincent, P. O. Toole to be notary public for Province of New Brunswick.

Albert—Evelyn B. Jones, of parish of Hopewell, to be justice of peace.

Kings—George H. Bond of parish of St. Lawrence, to be justice of peace.

County of New Brunswick—Edward Vincent, P. O. Toole, of parish of Hopewell, to be justice of peace.

County of St. John—William J. Shea, Louis Melville and Thomas Lawrence Reed, of the city of St. John, to be justices of peace.

Victoria—Frank V. Bishop to be justice of peace.

Westmorland—Evelyn B. Jones, of parish of Hopewell, to be justice of peace.

Blaine, of Dupuis Corner, to be commissioner for taking affidavits, to be read in the Supreme court.

Edmond S. Melanson to be justice of peace.

## INFLAMED GUMS—THE CAUSE OF TOOTH-BASE DECAY

Just as the strength of a building is dependent upon its foundations, so are healthy teeth dependent upon healthy gums.

Permit the gums to become inflamed or tender and you weaken the foundation of the teeth. This condition is called Pyorrhoea (Riggs' Disease). Loosening of teeth is a direct result. And spongy, receding gums invite painful tooth-base decay. They act, too, so many doorways for disease germs to enter the system—infesting the joints or tonsils—causing other ailments.

Pyorrhoea (Riggs' Disease) attacks four out of five people who are over forty. And many under that age, also. You should look to your gums.

If you have inflamed or tender gums, brush your teeth with and use Forhan's, which positively prevents Pyorrhoea. It also scientifically cleans the teeth—keeps them white and clean. Brush your teeth with it.

If you have inflamed or tender gums, start using Forhan's and consult a dentist immediately for special treatment.

30c and 60c tubes. All Drugists. FORHAN'S, LTD., 307 St. James St., Montreal.

## RED LETTER DAY AT SCHOOL FOR BLIND

Dame Melba and Party Visited Halifax and Sang for the Pupils—The Prima Donna Also Visited the Convalescent of the Sacred Heart

(Halifax Chronicle)  
"I happen to know that Dame Melba will not sing anywhere in Halifax on this visit," said a gentleman, who was speaking by authority. But you never can tell. A couple of members of the Halifax Relief Commission invited her and a party of her friends to make a trip through the devastated area on Saturday morning and subsequently took samples of his handicrafts from the West Ends of the city and then one of the members of the commission suggested that the whole party call at the institution and spend about an hour there. Sir Frederick Fraser showed them through the various departments, and they were especially interested in the educational system, and watched some of the pupils at their work. Dame Melba's party were Lady Galway, wife of the governor of South Australia, and her daughter, and also Mr. Lezer, a brilliant pianist. The chairman of the Relief Commission is at Ottawa, but the vice-president, Judge Wallace, and Commissioner Fowke attended, with Mrs. Wallace and Mrs. Fowke. They were accompanied by Miss Hartley, secretary of the Medical Social Service Department of the commission, and Mr. Glass, chief of the Finance Department, and Mrs. Glass.

## Chatted With Pupils

The group of pupils chatted with a number of the pupils of the institution and manifested a special interest in the kindergarten class, where the parents of the little girls who had been blinded by the explosion. Even after nearly all the remainder of the party had gone to continue their chat with some reading exercises by blind pupils, Dame Melba lingered in the kindergarten room to continue her chat with a little girl who not only had been rendered blind by the explosion, but whose face was otherwise disfigured, and then saw Dame Melba subsequently go to a window of that room as if to look out, while she lifted her veil over her eyes. She was weeping then. Melba complimented her on her really beautiful auburn hair which was in perfect condition. "I have heard of your hair," she said to the delighted young girl. "And, of course, it is just what you need. I have seen some of the little girls who had been blinded by the explosion, but whose face was otherwise disfigured, and then saw Dame Melba subsequently go to a window of that room as if to look out, while she lifted her veil over her eyes. She was weeping then. Melba complimented her on her really beautiful auburn hair which was in perfect condition. "I have heard of your hair," she said to the delighted young girl. "And, of course, it is just what you need. I have seen some of the little girls who had been blinded by the explosion, but whose face was otherwise disfigured, and then saw Dame Melba subsequently go to a window of that room as if to look out, while she lifted her veil over her eyes. She was weeping then. Melba complimented her on her really beautiful auburn hair which was in perfect condition. "I have heard of your hair," she said to the delighted young girl. "And, of course, it is just what you need. I have seen some of the little girls who had been blinded by the explosion, but whose face was otherwise disfigured, and then saw Dame Melba subsequently go to a window of that room as if to look out, while she lifted her veil over her eyes. She was weeping then. Melba complimented her on her really beautiful auburn hair which was in perfect condition. "I have heard of your hair," she said to the delighted young girl. "And, of course, it is just what you need. **THE GROCERY MARKET**  
 Coffee markets continue their tendency towards higher levels, and it looks now as though a general revision upward in prices to the trade must soon be necessary. Stocks in hand in Canada are arriving just about due, and have been bought at figures which will mean a probable advance of about four cents per pound.  
 Tea seems to be holding its own, and whereas freight rates which have been quite a factor in the cost are lower, the markets at primary points have advanced more than offsetting the decline in transportation rates. It is understood that there have been some fairly substantial parcels exported from Canada, and it would not require much of this business to place the tea trade in excellent shape as regards supplies.  
 Montreal—Among the declines of the week is one of one cent per pound for ground sulphur. Shelled peanuts also are lower, and salted too. Pearl barley and oatmeal are quoted less, while glutin feed is less by 2¢ to 3¢ per ton. Crated tomatoes are also lower to the extent of 3¢ per crate. Spices are easier in New York, but unchanged here and firm at primary points.  
 Among the advances noted is one for glucose of 35¢ per 100 pounds, and raisins are also up one cent at growing points. Oats and barley are marked up again this week also, and walnuts registered an advance in one quarter.  
 Canned fruits are steady, enquiries coming from Europe for supplies, but these surplus stocks seem to be short. Coffees and teas are steadily firm, and sugar is steady and unchanged.  
 There is, if anything, a better spirit in trade circles, and a gradual bettering of trading is being brought about.  
 Toronto—The cereal situation seems to be slightly improved, the markets on grain, though fluctuating a great deal, tending gradually upward. This has not affected rolled oats so much, on which there is a wide range of prices, but corn cereals seem in a much steadier position. A decline of seven cents per pound in one line of tobacco and three cents in another has been made this week. Feat but butter is lower. Steel wool is being quoted, and higher prices have been placed on washboards.  
 Lima beans are shown substantially, and general outlook on beans show little of interest. Rice shows up somewhat firmer, and some grades Japan rice are becoming scarce.  
 Winnipeg—Bean markets are decidedly weak, and further reductions seem due at an early date. Rice is holding firm, with Sunn reported scarce.  
 The tea trade is ruling with a firmer undertone, the possibility of export trade with high prices asked at primary points being factors to stabilize the markets materially.  
 Oranges have advanced in price, and grapefruit are ruling quite high, with arrivals of both lines good and consumption.

**A Talk on Bread**  
 Most people in buying bread want the biggest loaf in the store. You make a mistake, for it does not weigh any more than the medium sized loaf.  
 When a loaf of bread raises so high, it is over-proof. The life of the wheat has gone. Buy the medium sized loaf and get full strength of the wheat. One slice is worth more than a whole loaf of over-proof.

**DOMESTIC WORKERS ORGANIZATION**  
 Toronto, March 15—Formal organization of the Domestic Workers' Association took place in the Labor Temple here tonight, with more than a hundred names on the roll. Among the aims of the women's union are the following:  
 "To bring within the folds of the association all domestic workers; full current wages for eight hours per day and six days per week; the protection of the members and the assisting of each other by all legal means to obtain a fair and just remuneration for their labor and the elevation of their social position."  
 May Soon Charter at Will  
 London, March 15—The regulation forbidding the chartering of foreign vessels without the consent of the shipping controller will be repealed at an early date, according to an official announcement tonight.

A dance was given last evening at the Wayside Inn, Hampton, in honor of Mr. and Mrs. John J. Ryan, Jr., as they are leaving for Augusta, Me., where Mr. Ryan has accepted a position with the Central Maine Power Company of Augusta. The dance was largely attended and a programme was arranged consisting of seventeen dances and a number of extras. Dainty refreshments of ice cream, cake, fruit, etc., were served and the party broke up soon after one.  
 The large circle of friends of Mr. and Mrs. Ryan regret very much losing this young couple from their midst. Mr. Ryan is a son of Dr. J. J. Ryan, who is now overseas, but who formerly had a summer home at Lakeside, near Hampton. He is a returned soldier, having enlisted with the 55th New Brunswick Battalion at Camp Sussex and Valcartier, went overseas. He was training in England only a short time when he was drafted to France with the unit. He spent several months in France when he was wounded and spent a long time in a hospital in England; after being discharged from the hospital he was in the pay office in London until the signing of the armistice, when he was sent to the Canadian concentration camp, prior to being drafted for about two weeks ago, spent a few days in Hampton when he went to visit his mother in Augusta. It was on this visit that he accepted the position. He is a Hampton girl, Miss Laura McCready, daughter of Mr. and Mrs. G. Myles McCready.  
 Miss McCready was a teacher on the Hampton Consolidated School staff. After their marriage, Mr. Ryan went overseas with his unit, and in a few months Mrs. Ryan went to England to visit her husband. She returned to Canada and has been in Hampton awaiting the conclusion of the war and the happy homecoming of her husband.  
 A large circle of friends in Hampton, Carleton and different parts of the province will regret very much to hear of their departure, but they wish them much success and happiness in their new home. It is hoped, however, that during the coming summer months they will spend some time in Hampton.  
 With their little daughter, Mary, they are to leave Friday evening on the Boston train for Augusta.

I. O. G. T.  
 Dominion Lodge No. 445 I. O. G. T. held their regular session, on Tuesday evening in Temple Building, Main street which was well attended. Two candidates were given the first degree. At the close of the lodge a banquet social was held. The chief Templar, T. B. Brown, acted as auctioneer. The sum of \$50.25 was realized. The lodge is in a flourishing condition and is working for the social uplift of the community.

The Evening Times and Star

ST. JOHN, N. B., MARCH 20, 1919

The St. John Evening Times is printed at 27 and 29 Canterbury street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

WHAT WILL THEY DO?

The eyes of the people of the province are turned upon the legislative assembly chamber in Fredericton. The people cannot themselves at this moment act upon the McQueen report, nor until an appeal is made to them in the regular way; but their representatives can act for them, and therefore their eyes are turned toward Fredericton and they are watching daily for the action which should be taken as a result of the McQueen report.

That report shows that a great deal of money was lost to the province and a shameful attempt made to cover up the transaction—an attempt that would have been successful had not a new government come into power and exposed the whole wretched business. The report also shows that a very large sum of money which a previous enquiry had shown to have been secured from railroad contractors was used not only in the attempt to conceal the patriotic potato transaction but help win elections in two constituencies; to hold the support of a newspaper and to pay the salary and expenses of a party organizer.

The patriotic desire of the people to aid Belgium was made the occasion of financing for both political and personal gain, in the effort to conceal the facts and get money to be put to improper uses. Utter incompetency would have been bad enough, but when members of a government and of a legislature, sworn to guard the interests of the people they represent, try to cover up their inefficiency by resorting to such means as were used in this case there is no palliation or excuse. That is why the people today are looking to Fredericton for action. The members of the legislature, gathered together at the capital, may not be fully conscious of the interest with which their movements are being watched.

This is no ordinary session of the house. The public does not care a button about what one member thinks of the Acadians or what another thinks of this or that bill before the house. What it wants to know is whether the legislature proposes to clean house. That is the real business of the session. If it is not accomplished the members will all hear about it to their dismay when they appeal to their constituents. For back of all partisanship among the ordinary, every-day people of New Brunswick is a keen sight of right, and of the fitness of things, made keener by the terrible ordeal of the last four years. It will not do to cover up. In the face of damning evidence there can be no such thing as dropping the subject and passing on to the next order of business. First things first must be the motto, and a legislature purified by stern measures is the first requirement in New Brunswick today. There is said to be a disposition on the part of some opposition members to brazen it out. That is their privilege, but they must be compelled to take their stand in such manner as will leave no doubt in any mind concerning their attitude.

This is not a question whether the Foster government will gain an advantage or not; but whether New Brunswick is to have cleaner politics and set such an example to political wrong-doers as will be a warning to men of all parties in the years to come. At the moment the matter rests with the members of the house, but eventually it will come down to the people, where every member of the house will be put upon his trial before the bar of public opinion as to whether in a grave crisis in our political history he stood manfully for the right or condoned the wrong.

THE STANDARD AND GLOBE

The Standard says it is all right. The Foster government—not Murray, Baxter, Smith and Jones—is on the gridiron. The crime against these worthy men. They did not waste a cent of the money of the province. True, they did do a little business in potatoes on a falling market, but they had a friend. This friend was Mr. Tennant, who also had a friend—the Nova Scotia Construction Company. The latter gave the money to Mr. Tennant and Mr. Tennant gave it to the province—and there was no loss. This is so simple that everybody should be able to see at a glance the guilt of the Foster government and the rascality of Commissioner McQueen. If any carping critic enquires why the old government had so many potatoes on its hands on a falling market, the answer is that it is none of its business. What is a government for? It is not to buy and sell potatoes, but to give them away when it desires to do so? And who can doubt that companies like the Nova Scotia Construction

Company are lying awake nights to devise new plans to enable an unhappy government to get out of a shell hole? "Not a flaw," says the Standard. Of course not. And Mr. McQueen only desires to "draw down his salary." He had no Mr. Tennant to help him out—worse luck—and so had to please the unspeakable Foster government.

Tomorrow, no doubt, the Standard will tell us that the sworn evidence of Messrs. Murray, Baxter, Smith, Jones, Daggett, Tennant and all the rest was never taken, but imagined by Mr. McQueen, the Foster government and the people. It is to be regretted, however, that so warm a friend of the old government as the St. John Globe has been misled by this man McQueen. The Globe last night said:—

"The report is an exhaustive review of the evidence. It will undoubtedly be attacked even more viciously than before it was presented; but attack is not answer to the evidence, and the conclusion based on the evidence. To these the house and country must give attention. The province was plundered, and financial trickery of the most despicable kind employed in an effort to conceal the facts. For a time the effort was successful. Today the whole dirty story is pretty well laid bare."

THE USUAL FALSEHOOD.

The following gross falsehood appears in this morning's Standard regarding the Currier commission:— "In all this, one point to be remembered by the people of St. John is that this commission was personally selected by Honorable Walter E. Foster, a representative of Victoria County in the provincial legislature, and by his colleagues in the local government, and that Honorable Mr. Foster's own party newspapers now declare that he was unfortunate in his choice of commissioners." The members of the Currier commission were selected by Premier Foster and Hon. James A. Murray, leader of the opposition. Premier Foster's colleagues had nothing to do with it. In making their selection the premier and Mr. Murray acted together, and there is no suspicion in the public mind that either of them favored the New Brunswick Power Company. Their instructions were to get outside men and they made what they believed was a good choice. The people generally believed it was a good choice. If the report of the commission has changed that opinion there is no disposition whatever to blame the premier and leader of the opposition. It is a mean and cowardly thing for the Standard to try to relieve Mr. Murray of the responsibility placed upon him by the legislature of the province and to make political capital against the government by an utterly false statement.

SENTENCED TO BE HANGED

Montreal, March 20—Julius Zarefsky was sentenced by Mr. Justice Desjardins in the court of king's bench yesterday to be hanged on July 11 next. Zarefsky was found guilty of having murdered a Polish compatriot named Peter Dishkent, on the 10th of September 1918. Dishkent's body was found in a pool of water in Verdun near the water-works.

Are Your Bread and Buns Always the Same?

You may use the same recipe, and yet get varying results (the difference, very often, being due to the flour). LA TOUR FLOUR is milled up to the same standard, always (being made from Finest Manitoba Hard Spring Wheat) so, its use, following your present good receipt, will produce uniformly delicious bread. Ask Your Grocer For La Tour Flour. FOWLER MILLING COMPANY CO. WEST ST. JOHN, N. B.

LITERARY

The fact that Captain Bruce Bairnsfather, the inimitable cartoonist, is a humorist verbally as well as pictorially is not generally known. A story told by one of his friends the other day, however, pretty well illustrates this point, and also gives the lie to some of the critics who have found fault with the recent occurrence at Ypres. In writing the later part of the war, Bairnsfather was well in the middle of things in the fighting around Ypres, and was rather seriously wounded. In writing to his friend at the time, he expressed the incident thus: "As a result of the recent occurrence at Ypres, I am docked for repairs." Bairnsfather, by the way, has had a somewhat interesting history. Born in the Himalayas, he spent his early life in England and India. On reaching his majority he entered the army, was drawn to the engineers, and here his facility with the pencil apparently came out. It took the incidents of the war, however, to make him popularly known. One of the British "Brain Hats" in commenting on Bairnsfather's work as reproduced in the several editions of "Fragments from France," noted that "Here was one man who was worth several army corps."

Whatever the reason, it is well established that a widespread interest in a new book makes an immediate demand for information regarding its author. This was strongly illustrated in connection with the unique novel of last fall, "The Four Horsemen of the Apocalypse." Apparently several United States writers unfamiliar with V. Blasco Ibañez, the author, attempted to romance considerably regarding him, some rather interesting comment on this, as well as even more interesting information, this time first to last, and the more it is studied the worse it appears. Why add anything more? THE USUAL FALSEHOOD. The following gross falsehood appears in this morning's Standard regarding the Currier commission:— "In all this, one point to be remembered by the people of St. John is that this commission was personally selected by Honorable Walter E. Foster, a representative of Victoria County in the provincial legislature, and by his colleagues in the local government, and that Honorable Mr. Foster's own party newspapers now declare that he was unfortunate in his choice of commissioners." The members of the Currier commission were selected by Premier Foster and Hon. James A. Murray, leader of the opposition. Premier Foster's colleagues had nothing to do with it. In making their selection the premier and Mr. Murray acted together, and there is no suspicion in the public mind that either of them favored the New Brunswick Power Company. Their instructions were to get outside men and they made what they believed was a good choice. The people generally believed it was a good choice. If the report of the commission has changed that opinion there is no disposition whatever to blame the premier and leader of the opposition. It is a mean and cowardly thing for the Standard to try to relieve Mr. Murray of the responsibility placed upon him by the legislature of the province and to make political capital against the government by an utterly false statement.

COUGHED, COUGHED ALL NIGHT LONG

Terribly weary on the system is the cough that comes at night and prevents sleep. Sometimes it is a constant cough, cough that will not be quieted, stuffed-up feeling that makes breathing difficult, and sleep impossible. Whatever kind of a cold or cough you have, Dr. Wood's Norway Pine Syrup is the remedy you need to cure it, for the simple reason that it is a cough-cure. It combines all the lung healing virtues of the Norway pine tree with which is combined wild cherry bark, and the soothing, healing and expectorant properties of other excellent herbs and barks. Miss Margaret Landly, Bristol, P. E. I., writes: "I am writing to tell you the benefit I have received from Dr. Wood's Norway Pine Syrup. Last fall I took a severe cough and cold in my head. I was unable to do anything. At night I could not sleep, but cough, cough, all night long. A friend advised me to use Dr. Wood's Norway Pine Syrup, and before the second bottle was used, I was entirely cured, and I have found this the best cough medicine I can buy."

Do not accept any other "pine" preparations when you ask for "Dr. Wood's." This remedy has been on the market for a quarter of a century. It is put up in a yellow wrapper, three pine trees the trade mark, price 25¢ and 50¢. Made only by The T. Millburn Co., Limited, Toronto, Ont.

How Beaverbrook Made a War Government

The story of how Lord Beaverbrook (Max Aitken) played the leading part in the formation of the Lloyd-George Government in the dark days when the war outlook looked uncertain is told for the first time in full detail in the March issue of MACLEAN'S MAGAZINE. "The Canadian King-Maker" is the title and Maurice Woods, the writer, gives an authoritative story of what occurred.

He tells how Beaverbrook won his way into the House of Commons by Barnum and Bailey methods; how he attracted the attention of the Unionist party; how he influenced the selection of Bonar Law as leader when Balfour retired; how he brought Lloyd-George, Law and Carson together to form the insurgent party that ousted Asquith; and finally how he took over the Ministry of Public Information and launched a campaign of propaganda that undermined enemy morale.

The writer has endeavored to present the facts impartially. He picks out the flaws in the gnome-like prodigy from the Maritimes as unerringly as he finds the evidences of power; and he records the mistakes of Beaverbrook as well as the achievements. Also he endeavors to locate the secret of Beaverbrook's power, to find and define the qualities that have enabled the stormy petrel of Canadian finance to play so momentous a part in world affairs.

Altogether Mr. Woods' article is one of the most interesting discussions that has appeared in the press of Canada.

The March number, in fact, is full of live, up-to-the-minute features. The famous Canadian Ace, Lieut.-Colonel W.A. Bishop is on the cover.

Some of the outstanding articles and stories are:

- The Mysterious German "Onions," by Lieut. J. V. McKenzie.
The Transformation (a new serial)—By Fred-eric S. Isham.
Fitting in the Returned Soldier—By George Pearson.
The City of Lost Laughter—By Mary Josephine Benson.
"We Aim to Please," by J. K. Munro.
The Three Sapphires—By W. A. Fraser.
The Strange Adventure of the Nile Green Roadster—By Arthur Stringer.
Fakers—and Others—By E. Ward Smith.
Lend Me Your Title—By Onoto Watanna.
A Shady Deal—By Archie P. McKishnie.

Advance Styls

Advance Showing of Spring Styles in Fashionable Footwear

SIMPLICITY AND BEAUTY ON CLASSIC LINES

That is what is said of new styles in which the design of the shoe has been worked out on such simple lines as to most pleasingly and strikingly bring out the smooth beauty of the leather.

In the tan colors, as well as the graining of the leather, the same tendency to simple effects has been carried out, as may be seen in many of the new models in Footwear which we are now showing.

FOR IMMEDIATE WEAR

Lace Boots with high tops, 8 and 9 inch, are proper, and the colors are grey and brown with about four shades in each. In grey we have ivory, steel and field mouse; browns are here in nut brown, havanna and beaver brown; also a few mahogany in the heavier weight Spring Wear Boots.

We have some pleasing two-tone effects in brown with field mouse grey top, and in brown calf with darker brown suede top.

BALTIC COMING IN TODAY WITH 2,363

Colonel Pratt Compares the Handling of Canadian Troops Unfavorably With Other Countries—Others at Halifax Say Rhyll Trouble Exaggerated.

Portland, Maine, March 19.—The hospital ship Araguaya, bound here from Liverpool with more than 800 wounded Canadian soldiers, will arrive in port Friday afternoon, according to a message from her commander today.

Halifax, N. S., March 19.—A wireless message from the Baltic received early this afternoon states that she expects to enter the harbor at 6 o'clock tomorrow morning. The Baltic is bringing 110 officers and 2,253 other ranks, including the 5th Battalion of Toronto, the 48th Battalion of Winnipeg, the 1st C. M. R. of Brandon, part of the 2nd C. M. R. of Toronto, and the 10th Field Ambulance of Winnipeg.

Authorities Criticized. Halifax, N. S., March 19.—Colonel Pratt, officer commanding the 133rd Battalion and member of the Ontario legislature for Norfolk county, who returned to Canada on the Celtic, in an interview published in today's Daily Echo, attributes the unrest at Rhyll camp to the incompetence and unpreparedness of the department of militia, which, judging by results, at the time the armistice was signed, he says, was absolutely without any plan for the repatriation of Canadian soldiers.

"Incompetents and Duds." "Argyle House is full of incompetents and duds," said Lieutenant-Colonel Pratt. "There are many officers there who have wrangled their way through the war praying to God that the war would last another year so that they would be able to hang on to their jobs."

Wet Canteen at Kinmel. London, March 19.—(Canadian Press despatch from Reuters' Ltd.)—In the House of Commons today Mr. Sidney Robinson drew attention to the statement that in connection with the disturbances at Kinmel Camp, the wet canteen had been established in Canadian camps in direct contradiction to Canadian wishes and that if there had been no liquor at the Rhyll camp there would have been no disturbances.

Mr. MacMaster also asked the minister of war whether he had received a statement that the conduct of the Canadian soldiers at this camp was particularly good and that the real cause of the discontent was the failure to provide shipping facilities to enable them to return to their homes.

Right Hon. Winston Churchill, minister of war, replied that he had received a report furnished by the Canadian authorities but that the matter had been left entirely in the hands of the Canadian authorities. He did not think it was his business to deal with it beyond the extent to which he was forced by specific questions.

Manitoba Plans Large Borrowings Will Need Over \$12,000,000 This Year-Hamilton Asks \$500,000 The province of Manitoba is entering on a considerable borrowing scheme, according to announcement by the treasurer, Hon. Edward Brown, in the legislature at Winnipeg this week. Mr. Brown said that arrangements would have to be made by the government for the borrowing of \$12,000,000 this year. This will include \$8,848,000 required for refunding debentures maturing. A supply bill in the present session would authorize capital expenditure of \$2,950,000. Another \$1,250,000 will be required for the automatic telephone exchange and rural telephone extension \$300,000 for good roads, \$350,000 for power transmission lines and electrification at Portage la Prairie, \$300,000 for seal grass purposes, and \$700,000 for patriotic purposes. Mr. Brown announced that \$1,000,000 had been already secured on the New York market at a good price, namely, par plus accrued interest.

Announcement has just reached Toronto of a new loan by the province of Manitoba of \$1,280,000, for which tenders are called, up to March 20. These will be bonds bearing 6 1/2 per cent, and for fifteen years. This is, of course, a part of the province's borrowings of which Mr. Brown spoke in the legislature.

The city of Hamilton is calling for tenders up to March 20 for \$517,000 for an issue of bonds for local works. It is

Agents Wanted WANTED-MEN OR WOMEN to introduce marvellous household discovery, sell on sight, experience unnecessary, practically hundred per cent profit. Sample ten cents for twenty-five-cent samples. Bentley-Company, Brantford, Ontario. 95889-3-23

GIRLS CLASSES AT Y. M. C. A. Some disappointment is caused to business girls of the city at not being able to join the Wednesday evening classes in physical training at the Y. M. C. A. The Y. M. C. A. committee regrets very much that having to close the registration lists as the classes are entirely filled. Exhibitions of excellent swimming were given by some of the girls last night in the swimming tank and it is apparent that the girls are very much at home in the water. The classes were divided as follows:- Girls from fourteen to sixteen

LOCAL NEWS

**INSPIRING ADDRESS.**  
In St. John the Baptist church last evening Rev. Father O'Reilly, D. D., gave a very touching and inspiring address on the feast of St. Joseph, besides his regular Lenten sermon.

**POLICE COURT.**  
Three men were in the police court this morning charged with drunkenness. Two of the men pleaded guilty and were fined eight dollars each. The other pleaded not guilty and was remanded.

**CASUALTIES.**  
The casualty list made public at Ottawa today contains the name of J. S. Blizard, St. John, infantry, who died of wounds; P. H. Miller, Elmville, N. B., who is ill.

**HAD LONG RUN.**  
A horse harnessed to a buggy ran away yesterday afternoon, starting at the city market and finally being stopped at Robbsey at the Kennedy House. It was put in the barn. The damage was slight.

**WAS ACQUITTED.**  
J. B. Belone, a French Canadian, was acquitted in Perth yesterday on a charge of not reporting for duty when called upon under the Military Service Act. Mr. E. McManis, Grand Juror, formerly of St. John, appeared for the defendant and was successful in showing that his client came under the amnesty of August last. Mr. McManis made a strong plea for Belone and his address to the court was eloquent and pointed.

**QUICK WORK.**  
More than 5000 received here yesterday from Halifax and before the end of the afternoon, all were discharged, returned to civil life and their transportation arranged for home. This reflects great credit on the discharge staff at the armories and on the transportation clerks, who route the men to their homes and provide transportation to their destination.

**OFF TO THE MOTOR SHOW.**  
The automobile show in Boston is the lure of the hour to automobile enthusiasts and dealers and the late trains leaving the city have taken quite a number to the Hub. Among recent departures have been John A. Pugsley, A. McLellan, Frank L. Elkin and wife, Mr. and Mrs. Harold Miller and Dr. F. S. Bonnell. R. A. McLean, of J. A. Pugsley & Co., is to leave Saturday.

**MILITARY NEWS.**  
Lieut. H. Stead, officer in charge of horse and mechanical transport in this city, was in Halifax on duty during the week, and was in conference with C. A. S. C. officers of that city. He returned to St. John today.

**Capt. W. H. Latimer, officer in charge of supplies and transport at Fredericton, was in the city yesterday conferring with the assistant director of supplies and transport at local headquarters.**

**AUTOMOBILE VS. RAILWAY.**  
A local professional man intended taking the Boston train last evening, but got to the depot in a taxi just one minute late. Without alighting from the automobile he instructed the driver to make Fairville on a bet. Away went the taxi and just as the train was puffing away from the adjacent station the doctor tipped the chauffeur his bet, likewise his fare and climbed into the pullman as cool as the proverbial cucumber.

**FERRY VICTIM BACK ON JOB.**  
Capt. Milton A. Belone, the ferry employee who was so seriously injured several weeks ago when a piece of wharf timber tumbled on board and crashed him to the floor, as well as killing a boy and injuring others, is back on the ferry again, but is not in his former state of rugged health. The captain is still tendered the spinal injuries received and is advised to conserve his health as much as possible.

**SIX HUNDRED ORPHANS ARE AT MOOSEHEART.**

And Accommodation Will be Made for Three Thousand—A Model Children's Home

The largest number of members of St. John Lodge of Moose that have assembled in their lodge room for several years were there last evening to hear an address from Arthur W. Hayden, of Dorchester, Mass., district supervisor for New England and the maritime provinces. He has just returned from a tour of the flourishing lodges in Sydney, Truro, and Halifax, and goes back to Massachusetts this evening. Members of the St. John lodge are showing him around the city this afternoon. He expects to return to the province early in June, with the supreme dictator of the order, who was last year a candidate for the governorship of California. He is an active Rotarian and an orator of rare gifts.

Mr. Hayden told the lodge last evening the story of Mooseheart, a model town established by the order within thirty-five miles of Chicago, where six hundred orphans are supported and where accommodation will be provided for three thousand. There is a farm of over one thousand acres. If a member of the order dies, leaving destitute children, they are taken to Mooseheart and kept until they are eighteen years of age. They are educated for vocational four hours per day being given to study and four to actual work with their hands. There is an arrangement with the labor federation by which, when a youth leaves Mooseheart at eighteen with a certificate of competency in some trade he is at once given a union card. Persons interested in child-welfare everywhere visit Mooseheart to learn how it is conducted.

Mr. Hayden pointed out that the order of Moose was now third in point of membership among fraternal orders in the United States and Canada, the leaders being the Masons and Oddfellows. One lodge in Philadelphia has 22,000 members.

At the close of his address there was a very interesting discussion and it was decided to give the supreme dictator a royal welcome when he visits St. John. A. W. Covery, who is secretary of the lodge since its inception, is compelled by his business to give up the office. In recognition of his services it was decided to make him a life member of the lodge with the rank of past dictator.

**BANK CLEARINGS.**  
Bank clearings for the week ending today amounted to \$2,216,243; corresponding week last year, \$2,157,294; corresponding week, 1917, \$1,774,053.

DON'T SPOIL ROADS WITH YOUR MOTORS

Timely Warning Regarding the Early Spring Condition of the Highways by President Regan of N. B. A. A.

Automobiles are reminded by the N. B. Automobile Association that the season is now here when the thoroughfares throughout the country can be almost ruined by drivers by may insist upon taking early spring jaunts with their cars. The ground for the next six weeks at any rate will be a veritable mush of frost and mud, even the newest and best roadway construction suffering from this post-winter condition.

If cars—even a very few—go over the country roads between March 15 and May 1, the risk of doing the highways great injury is inevitable. In the past month there has been done the roads by sheer wanton jouncing on the part not only of thoughtless youths, but supposedly public-spirited people.

"We all want good roads; in fact we all want them now if they are not good, and yet some of us persist in gouging through them in the early spring and undoing all the good construction of the previous summer."

President Regan thinks the automobile public is pretty much alive to this question of conserving roadways when the frost is coming out of the ground and that much less driving at that time than ever before will be chalked up to New Brunswick's credit this spring.

This year the prospects for an early touring season are especially bright. Unless some related winter storms set in soon automobiles should be on the go all over by May 1, or thereabouts. The N. B. A. A. president pays his compliments to Chief Engineer Hill of the local government roads department and notes with great satisfaction the improvement plans and work on the St. John-St. Stephen route, in reality the main artery out of this city leading to the States.

**WAS PRISONER FOR TWO YEARS.**  
Former Member of 26th Battalion Arrives in City After Long Absence—Was Severely Wounded

Corporal E. Voslon, a native of Poland, a Canadian by adoption, a member of the original 26th New Brunswick Battalion with a record at the front, who also spent two years in a German prison camp, arrived in the city yesterday from Halifax, having crossed on the Celtic.

Corporal Voslon came to Canada in 1914, and settled in the upper provinces. In the early part of 1914, he attempted to enlist in Toronto, but owing to his nationality there was some doubt as to his being accepted. He applied and did not stop him in his purpose and he took a steamer and went to England, where he would get with the Imperial. The same objection was offered and, almost disheartened, Voslon, who came back to Canada again landed in St. John just about the time the 26th were being filled and recruiting was at its top-notch. He applied and was readily accepted with Colonel McAvity's regiment and proved one of its best soldiers. Quick, intelligent and with the ambition to make good, Voslon soon made himself an efficient soldier and easily won the respect of officers and men.

He went to France with the 26th and fought through many of the primary engagements. He was hit several times but the worst was at the second fight at the Somme in 1916, when he was shot through the shoulder, the bullet coming out his back. He was taken a prisoner at the time and has been in Germany ever since.

Referring to the treatment the Germans gave him he said: "It was bad enough. Throughout 1917 the treatment in the prison camps was terrible and if it had not been for the boxes from friendly countries and our Allies, we would have starved."

"There was no display of meat or provisions in stores in Germany and we read in German newspapers that the same conditions existed in England and America. They tried to make us believe that the whole world was starving."

Corporal Voslon expresses his grateful pleasure in his return to his native land and living death. He is now anxious of settling in New Brunswick and is looking particularly for a good farm.

HISTORIC SEWERS BEING RE-FLAGGED

One of the old type of sewers and manholes is being removed and replaced with masonry on the northern sidewalk of Waterloo street near Peters. The sewer is of wooden construction and runs diagonally from under the block of buildings adjacent. In fact it is the same sewer that traverses that section in an oblique line through Cliff, Padlock and other streets, and proceeding under other buildings to the corner of Union and Brussels streets. With expansion of business life in various localities heretofore distinctly domestic, sewer conditions must necessarily be improved and modernized. In the locality referred to a large modern garage is being erected on the Gen. Theatre site and the new school, the Y. M. C. I. and other big structures naturally tax the capacity of the old underground drainage system.

TO HAVE PLEBISCITE

London, March 20—The Luxembourg League of deputies passed a bill on March 19, by vote of 30 to 29, calling for a plebiscite to decide whether the present dynasty will be maintained, a new dynasty created or a republic established, according to despatches received here.

WANT STEPS TAKEN TO STOP DISHONEST ADVERTISING

Ottawa, March 19—A delegation of retail merchants waited on the Hon. A. K. MacLean this afternoon and presented a series of recommendations for consideration of the government. Among them was a suggestion that the government should take some steps to prevent dishonest advertising.

### The Glenwood Coal, Wood or Gas Range is a Winner

Here is a range that will appeal to all as the ideal in range construction—a range that will burn gas, coal or wood with equal perfection. How often is a quick blaze called for! Turn on the gas and you have it. A long, hard day's baking—build up a coal fire; and for a fairly steady heat for a moderate period, use the wood.

In every way this range is up to the high Glenwood standard, and we know you'll like its advantage. May we show it to you in person?

## Canadians Are Well Trained

Discipline as Good as in Any Other Contingent of Imperial Forces—Sir Edward Kemp Says No Soldiers More Loyal and Officers More Suitable

London, March 16—Many Canadian officers were entertained at dinner yesterday by the National Liberal Club in the room in which the Canadian Conference agreement was signed over fifty years ago. The Marquis of Lincolnshire presided and the toast of "Canada" was proposed by Sir Hamar Greenwood, who said that Canada in the war had done perhaps more than any of the other Dominions and had sent her division up to full strength by Canadian men from across the Atlantic. No soldier was more loyal to discipline than the Canadian and no officer more suitable.

## SOLDIERS TO GET SPECIAL PRICES

Will Be Supplied With Farm Equipment on Favorable Terms—Also Expert Advice—Stock Will Be Purchased by Agent and Assembled in West

Ottawa, March 16—Soldiers who participate in the benefits of the land settlement provisions will have the advantage of considerable reduction in price on the purchase of agricultural implements, live stock and harness.

Why this British warship should be at Dublin isn't explained, but the picture was taken there. It shows a bomb thrower that can hurl a 300 pound missile 1,500 yards.

## Still At Variance With Rest of World

German Belief That War Was Drawn With Prestige on Hun Side

Coblenz, Feb. 28—(Correspondence of The Associated Press)—Articles in the German press and speeches and interviews with German public men since the armistice went into effect show that German point of view still is completely at variance with that of the rest of the world, asserts one of the political experts with the American Army of Occupation.

## "Spite Fence" to Shield Jurors From Feminine Fascinations

(Toronto Globe.) New York, March 14—When Mrs. Betty Inch, the comedy and charmingly attired young woman who is now to be tried a second time on a charge of attempted extortion, entered Justice Davis' court today she found that carpenters had nailed plank boards around the railing of the witness stand, from which she is not permitted to see the jury, who later had refused to convict.

## WESTERN FARMERS RESENT REMARKS OF COLONEL CURRIE

Member For North Simcoe Called "Chore Boy" of Manufacturers' Association.

Calgary, March 19—Both C. Rice Jones, general manager and vice-president of the United Grain Growers, and H. Hignbotham, secretary of the United Farmers of Alberta, were indignant today at the attack upon H. W. Wood, the president of the latter organization, by Colonel J. A. Currie, in the house of commons.

## FEARS EXPORTS MAY SHRINK

This Possibility Means Serious Problem, Thanks J. S. McKinnon—Addresses Rotary Club in Toronto—Tariff Proposals of Grain Growers a Danger, is his Opinion

(Toronto Globe.) Fear that the exports of the manufacturing industries of Canada would shrink during the period of reconstruction to the proportions of 1913, representing a drop from \$636,000,000 in 1918 to \$400,000,000, was expressed by J. S. McKinnon, second vice-president of the Canadian Manufacturers' Association, in addressing the members of the Rotary Club of Toronto yesterday. He saw in the possibility of this disaster the greatest and most serious question ever faced by a nation of 8,000,000 persons.

## AN ENGLISH RIVAL FOR NEW FORD CAR

Small Light Automobile Will Sell For \$250 or \$300

London, March 16—Henry Ford and his new \$250 car are not going to have masters all their own way. An English firm has made arrangements to put on the market a small light car which will cost less than the new Ford (about \$250 or \$300 in the home market).

## INQUISITIVE IN COMMONS

London, March 1—(A. P. Correspondence)—The new House of Commons is proving itself one of the most inquisitive of recent years; this, too, despite the absence of the Irish members, who in previous years filled the question paper with inquiries.

## RELIEVES SOLDIERS' PROPERTY OF TAXATION

Manitoba Assembly Approves Aid to Parents Deprived of Sons. Winnipeg, March 19—Some of the last acts of the Manitoba Legislative Assembly were concerned with the men who have fought overseas, and the aid to be given in such circumstances.

## HOW TO SAVE DAYLIGHT

St. John, March 18. Editor Times—Sir,—I noticed an item in your editorial column stating if the people of St. John wanted daylight saving time to give us an additional hour in the evening, I would like to offer a suggestion as to the best means to attain it so as to benefit all concerned, both employer and employee.

## A STATEMENT WORTH READING

Toronto, March 10. Editor Times—Sir—Writers in the press seem given to exaggerated statements concerning the medical men, including Surgeon-General G. J. H. Ewart, Alfred Pearce Gould (vice-chancellor of the University of London), C. W. Sale, M. D., F. R. S., Frederick Treves (surgeon-in-ordinary to the King), and G. Sims Woodhead.

## CANADIAN WILL TRY ATLANTIC FLIGHT

Lieut.-Col. Collishaw Plans Big Trip for May First

Winnipeg, March 16—Lieut.-Col. R. Collishaw, D. S. O., with bar, of Nanaimo, B. C., the Canadian ace, now in Winnipeg, says he will attempt to fly across the Atlantic on May 1. The flight will be from Newfoundland to Ireland, a distance of 1,800 miles, and the officer expects to cover it in twenty hours.

## SWEDEN HAS MADE BUT LITTLE BUTTER

Vladivostok, Feb. 12—(A. P. Correspondence)—Butter production in Siberia has nearly stopped, according to local newspapers, owing to a government monopoly which fixed a price lower than cost. Most of the West Siberian butter producers are turning to cheese making in consequence.

## AFFAIRS AT ODESSA

London, March 19—Official reports received in London are to the effect that a critical state of affairs exists in Odessa, the chief Russian port on the Black Sea. No confirmation could be obtained in London earlier this afternoon to rumors that Odessa was being evacuated by Allied forces, but the report is not denied.

## LOCAL NEWS

### DISCHARGED SOLDIERS

Ten per cent discount on discharged soldiers on their first civilian outfit—Hunt's Clothing Store, 17-19 Charlotte street.

### OUR OFFER

We are giving to returned soldiers a special discount on suits and overcoats. Our styles and make are up-to-date. Prices reasonable—Before buying, see our lines.—Brager's, 185-187 Union St.

### DON'T WORRY

There is a large number of people who find it hard to pay the cash. Come to us. We can give you credit. Brager's, 185-187 Union Street.

### JUST THE THING

We are glad to announce to our lady patrons that we have just the thing in evening dress, that you have been waiting for. Our suits and serge dresses cannot be surpassed. Brager's, 185-187 Union Street.

### FOR TODAY THERE HAS BEEN ASSEMBLED STIRRING NEWS IN THE INTERESTS OF THIRTY SHOPPERS.

And because everybody knows that they can depend upon the worthiness of the goods sold at Dykeman's—no matter how low the price may drop—values are as offered in the Ready-to-Wear section for today, Friday and Saturday attain an irresistible attractiveness.

### The Women Who Made Munitions in War

London, March 1—(Correspondence of The Associated Press)—An economic battle is being waged over the 1,500,000 employed women of the country who today and can scarcely be called fanatics.

## SAILORS ENTERTAINED

A large number of sailors thoroughly enjoyed the entertainment provided for them at the Seaman's Mission by the Young Women's Patriotic Association last evening. Pictures, music and a stage dance were included in the most applauded programme, which had been arranged by Miss Hatch, and the refreshments that were provided under the patronage of Miss Helen Church were highly approved of.

## Pan-American Conference

Montevideo, March 19—Announcement was made here today that a Pan-American Socialist conference will be held in Montevideo in April. The programme includes consideration of the attitude of labor and socialism toward the Latin America problem.

RAILWAY BILL BEFORE HOUSE

Progress Reported on Measure to Compel Better Service on Carquet and Gulf Shore Line, Mr. Potts Objecting—House Going Into Sleep on Tuesday Next—A Business Day.

Fredericton, N. B., March 19.—Today's session of the legislature was devoted strictly to business. Seizing the opportunity offered by the close of the debate on Tuesday, the house settled down to work and in the course of the afternoon made substantial progress.

Painful Piles

A Free Trial of Pyramid Pile Cream... You are suffering dreadfully with itching, bleeding, protruding piles or hemorrhoids.

IF KIDNEYS AND BLADDER BOTHER... Take Salts to Flush Kidneys and Neutralize Irritating Acids.

Kidney and Bladder weakness result from acid, says a noted authority. The kidneys filter this acid from the blood and pass it into the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night.

Here you have a pleasant, effervescent, fruit-water drink, which quickly relieves bladder trouble.

ONLY MEDICINE MADE FROM FRUIT

Extraordinary Success Which "Fruit-Lives" Has Achieved

One reason why "Fruit-Lives" is so extraordinarily successful in giving relief to those suffering with constipation, Torpid Liver, Indigestion, Chronic Headaches, Neuralgia, Kidney and Bladder Troubles, Rheumatism, Pain in the Back, Eczema and other Skin Affections, is because it is the only medicine in the world made from fruit juices.

It is composed of the medicinal principles found in apples, oranges, figs and prunes, together with antiseptic, tonic and antispasmodic properties.

Every Blemish Removed in Ten Days

Every Blemish Removed in Ten Days... Your complexion makes or mars your appearance.

SUPREME COUNCIL TAKES STEPS TO KEEP PEACE

Poles and Ukrainians Ordered to Stop Fighting in Galicia

PARIS DEFENCES BEING REMOVED

France Prepared to Resume Diplomatic Relations With Austria-International Air Code and Labor Agreement Adopted - Military Occupation of Germany Only Until Material Delivered.

Paris, March 19—The situation in Galicia was considered today by the supreme council and it was decided to request the Poles and the Ukrainians to cease hostilities under certain conditions.

The supreme allied council met this afternoon between 3 and 7 o'clock. The exchange of views took place in regard to the military situation in Galicia. The council agreed to the terms of an injunction to be addressed to the two armies facing each other in front of Lemberg, requesting them to suspend hostilities at once on certain conditions.

The council then dealt with the western frontier of Poland and heard the report of the commission of Polish affairs, which was presented by its chairman, M. Jules Cambon.

The next meeting will be held on Friday, March 21, at 3 p. m.

France Treating With Austria.

Paris, March 19—(Havas Agency)—The French government, the Petit Parisian announces, desires to resume at once unofficially diplomatic relations with Austria.

The commission on international waterways, ports and railroads of the peace conference has decided to recommend to the conference that Switzerland should be given the navigable facilities on the Rhine for which she has made demands.

The military terms of the treaty of peace have been amended by the elimination of the clause providing for the control of Germany's armament for an indefinite period.

Admiral Benson, of the United States navy, pointed out that the original terms committed the United States to a virtual indefinite occupation of Germany, and it was chiefly on his insistence that the terms were modified.

It was also pointed out that control of any portions of Germany for such a period would delay the return home of American troops, and would amount to annulling the sovereignty of Germany.

As amended, the terms provide for control through the time fixed for the delivery of materials of war, guns and ships, but not through the period during which war damages will be paid by Germany.

International Aid Code. Paris, March 19—(By the Associated Press)—In a report submitted today the commission appointed to consider plans for an international air code announced that the British proposals have been, in the main, accepted.

The commission on international labor legislation held probably its last meeting today when it reached an agreement on all points at issue. The American contention that each country should settle its internal labor problem without invoking the power of the league of nations prevailed.

The commission on the international regime of ports, waterways and railways met at the ministry of public works today to consider clauses regarding transportation by rail to be inserted in the treaty of peace.

The following official communication regarding the labor meeting was issued this evening: "The twenty-eighth and twenty-ninth meetings of the committee of the international labor legislation took place today. The special sub-committee, appointed to find a solution of the difficulties which have arisen in regard to application of labor conventions by certain federal states presented a report suggesting a solution which was adopted by the commission."

The final reading of the British draft convention for the establishment of a permanent organization for international labor legislation was completed and the draft convention as amended was adopted by the commission for submission to the peace conference.

The commission then continued the discussion of the labor clauses to be recommended for inclusion in the treaty of peace.

MEETING PROMISES DEVELOPMENTS ON TARIFF QUESTION

Toronto, March 19—In connection with the tariff issue in the house of commons, the following despatch to the Globe this morning from Regina is interesting: "Future action in the field of politics will be decided upon at a meeting of the Canadian Council of Agriculture to be held in Winnipeg on Tuesday, April 1. Notices calling the meeting have just been issued.

"Apart from the fact that it is the annual meeting, when the election of officers will take place, it will be the most important meeting which has been held since the council was first organized."

POTATO GROWERS OF THE PROVINCE ARE IN SESSION

Fourth Annual Convention at Woodstock Told Growers Must Improve Quality of Their Product.

Woodstock, March 19—The fourth annual convention of the New Brunswick Potato Growers' Association opened here this afternoon with a fairly good attendance. No doubt the report of influenza prevailing kept a number away. The potato exhibit is not so large as last year, but the quality and selection shows marked improvement.

The first speaker today was George Sanders, of Annapolis Royal, who is one of the best authorities on insecticides in America, and he gave many results that he had obtained in his work. He also showed how and why Paris green is the most expensive poison on the market.

Paul Murphy, of the dominion field laboratory of plant pathology, Prince Edward Island, gave a very interesting talk on the potato situation, driving home the fact that if New Brunswick wishes to maintain her record as a seed producing district the farmers will have to raise the standard of their product to a very much higher extent.

The latter part of his address was devoted to diseases which the growers of high class seed have to contend with. This portion of his lecture was illustrated.

J. C. Cook, a prominent potato grower of Restigouche county, gave an interesting talk on potato club work in his district and his own success with spraying to prevent blight and rot.

A. A. H. Morrison told him he had been able to reduce the cost of his poison by fifty per cent by using arsenate of soda instead of Paris green.

Daniel Dean, an enthusiastic potato grower from New York state, very vividly gave his experience in seed improvement by selection.

The following committees were appointed: Resolution committee, W. W. Hubbard, J. C. Cook, F. E. Henderson; nominating committee, T. H. Munro, B. J. Hart, Murray Hagerman; membership, Jas. Grenner, W. E. Palmer, Walter Inch.

Breathe Deeply, Then Listen For That Bronchial Wheeze. Dangerous to Neglect Troubles in the Chest, Throat or Nose at This Season.

Rough, wheezy breathing means danger ahead. Every day you defer treatment makes it harder to cure.

Efficient Motor Cycle Policeman Overtakes Robbers. Two Out of Four Captured by One Man and \$5,000 Stolen From Bank Two Hours Before, Recovered.

Freepoint, N. Y., March 19—Four men armed with revolvers, held up the employees of the First National Bank in the heart of the business section of Freepoint today, and taking all the cash on the cashier's counter, escaped in an automobile. It was reported that the men obtained about \$5,000.

Two hours later a motor cycle policeman in Jamaica, a suburban district of Brooklyn, spotted the highwaymen's car and gave chase. He soon overtook it and the four occupants jumped out and started to run. The policeman shot one in the back and captured another, but the other two escaped into the nearby woods. The condition of the wounded man is not serious. The stolen money was recovered.

Statement Given As to Liquor Sold, Destroyed and Donated

Fredericton, March 19—Considerable interest was shown in the legislature today when Hon. Mr. Murray presented his reply to a question by Mr. Dickson of Kings regarding the disposal of liquor seized under the prohibitory act. The questions and answers were as follows: 1. Q.—Under whose direction has a disposition been made of liquor seized under prohibition act? A.—Under the direction of the chief inspector.

2. Q.—How much has been (a) sold? (b) destroyed? (c) given away? A.—Answered by statements attached.

3. Q.—What amount has been received for such liquor sold, giving names, quantities and prices of each disposition? A.—Answered by statements attached.

GLAXO—The Food "That Builds Better Babies"

WE appreciate the continuous orders that have come to us since the war started, even when it was impossible for us to make shipments to our customers over the seas. Now that we are again in a position to supply GLAXO to Canada, we will do our best to have on hand a quantity sufficient to meet the demand, just as soon as we are granted permission to export over the seas. ASK YOUR DOCTOR about GLAXO. The pure nutritious food for Babies.

SELLING TO FRANCE. Bernard Baruch, formerly chairman of the War Industries Board of the United States, who is now in Paris, has advised the United States government that France is willing to allow sales to French merchants of \$40,000,000 worth of machine tools and agricultural implements if credits for one year can be secured.

It is proposed that individual American firms should deal with individual French concerns under the same conditions as before the war, except that deferred payments are necessary. It is reported that similar enquiries are being sent out for large amounts of cotton.

ASKS RESTORATION OF BRITISH TRADE. London, March 19—Speaking in the house of commons today on the second reading of the appropriation bill, George Lambert, former civil lord of the admiralty, said there were two budgets this year, aggregating £1,600,000,000, and that it would mean 15 shillings in the pound income tax and the doubling of the duties on leather and sugar. The chancellor of the exchequer, the member added, would have to resort to borrowing. He appealed to the government to be resolute in restoring the export trade, unhindered and unchecked by any "absurd government regulations."

SMOKE MAGDONALD'S INDEX.

Not intended to continue the issue of the licenses beyond expiry of the present licenses. Total expenditure of the food board from June 23, 1917, to Dec. 31, 1918, was \$28,111.

In reply to a question by Mr. Stevens, Hon. A. K. MacLean said that on Feb. 14 last grain in storage in elevators or on ships in Canadian ports east of Lake Superior was as follows: Canadian grain, 18,847,147 bushels; American, 6,101,846 bushels. During the 1918 season of navigation lake shipments of the wheat crop of 1918 from Port William and Port Arthur totalled 60,563,345 bushels.

The house gave third reading to the bill amending the Yukon act. The amendment provides for a reduction in the membership of the Yukon council from ten to three.

Amendments to the statistics act and railway belt act were also given third reading.

The Yukon placer mining bill was then taken up in committee. It aims to protect the claims of soldiers who went overseas, and also allows former owners of claims to relocate after one year. It was given second reading.

Excess Circulation Authorized. A resolution of Sir Thomas White providing for the continuation in operation of certain provisions of the finance act, which have been operating during the war under proclamation was then considered. These provisions among other things authorize chartered banks to issue excess circulation. Sir Thomas White explained that under the provisions of the finance act this proclamation could only be issued in cases of war or financial crisis or other similar emergencies. The financial situation at present, however, owing to the length of the war, made it advisable to continue the provisions until "conditions became normal." It was estimated that this would be accomplished in about two years.

In connection with this resolution, the minister of finance gave a brief review of all the belligerents who had been in the war since its beginning, the condition of Canada was he thought, the best. Before the war dominion notes outstanding totalled \$115,000,000 and against this the government held \$90,000,000 in gold. During the war the note circulation had expanded to \$189,000,000 and the holdings of gold to \$112,000,000. In addition to this security for the note circulation the government held imperial government, provincial and municipal bonds and railway securities.

In reply to Frank S. Cahill, Sir Thomas White said that the regulations regarding the export of gold from Canada were still in effect. It was necessary, under present conditions, that we should amend the Yukon placer mining act, and the act to amend the irrigation act. Resolutions adopted included one providing for the issue of a smaller one cent piece and another authorizing the banks to issue excess circulation until financial conditions become normal. Sir Thomas White expressed the opinion that this would be in about two years.

Magdalen Islands Service. Hon. Rodolphe Lemieux moved a resolution asking the government to institute a good steamer service between the Magdalen Islands and Pictou during the season of navigation between April and Christmas. The resolution was adopted by the house, and Hon. A. K. MacLean expressed himself sympathetically regarding the matter.

Mr. Lemieux said there was general dissatisfaction about the manner in which privately owned subsidized vessels were managed and he suggested that a steamer service controlled by the government would be the most satisfactory.

He could not yet say what was to be done next season. He suggested, however, that the merchants of the Magdalen Islands could lessen the transportation problem by ordering their Christmas and winter supplies earlier than they have been in the habit of doing.

Hon. Mr. Crevier was asked a series of questions in regard to the Canada Food Board. He told Mr. Sinclair that up to Dec. 31 last, 78,018 licenses were issued by the food board for the sale of food-stuffs. The sum of \$386,251 was charged in fees for the licenses. Licenses still in force were millers and packers. It was

Finance Minister Also Introduces Bill to Authorize Excess Circulation

PLEA PUT IN FOR MAGDALEN ISLANDS

Ottawa, March 19—Both the government and private members had an inning in the commons today in the first business session subsequent to the conclusion of the debate on the address. A large number of questions in each house were placed on the order paper since the house opened, were answered and others for papers passed, the majority without discussion. Then government business was taken up, and before the house adjourned at 6 o'clock progress had been made on several of the first business items.

As the adjournment, Sir Thomas White announced that the resolution on which a bill will be based giving parity of financial sanction to the order-in-council appointing Hon. J. D. Reid received of the Grand Trunk Pacific railway, will proceed with on Thursday. In connection with this the acting prime minister will make a statement of the government's policy in regard to the Grand Trunk Pacific and Grand Trunk railways.

Government legislation put through the committee stage included the act to amend the Yukon placer mining act, and the act to amend the irrigation act. Resolutions adopted included one providing for the issue of a smaller one cent piece and another authorizing the banks to issue excess circulation until financial conditions become normal. Sir Thomas White expressed the opinion that this would be in about two years.

Magdalen Islands Service. Hon. Rodolphe Lemieux moved a resolution asking the government to institute a good steamer service between the Magdalen Islands and Pictou during the season of navigation between April and Christmas. The resolution was adopted by the house, and Hon. A. K. MacLean expressed himself sympathetically regarding the matter.

### The Apartment House

(Montreal Gazette.)  
The Indian "moved," not only by primal instinct, but the desire to get clean quarters; and many today in our city life move for a similar motive. They move, especially for that potent instrument of civilization which could give pointers to "Aladdin's Lamp," the electric button, which pressed, brings all things to the desired.

There are many reasons for the diffusion of the apartment house in Montreal; but climate stands out in the foreground. We build closely for mutual warmth. Other reasons are ease, comfort, concentration of utilities, making for greater efficiency and economy.

Not so long ago and the apartment house was in the nature of a portent. It seemed to threaten the individuality which might surely hope to find expression and enlargement in a country which had 600,000,000 acres of untouched virgin soil within its confines. The apartment house is now a foremost institution in Montreal. The "Sherbrooke Apartments" were the first in the field, and became a nine days' wonder. Copies less potent multiplied. They towered above the humble dwelling. They offered to make life easy. They brought up the ice and put it in the box. They supplied heat and light. In many cases they served meals by dumb waiter. They eliminated also the drudgery of house-keeping. And for the beginners in life for the young people who had just got married and had no incumbence less undesirable than a canary, they provided a cozy little nest—a miniature copy of the big apartments where only millionaires could be expected to pay the rent. It is related of a newspaper man at the beginning of the apartment house epoch that, impulsively asking the rent of a suite of rooms, the announced rates gave him an apoplectic stroke.

The suite of three or four small rooms is prepared for people of moderate means. They rent from \$40 to \$60 a month. It is true that you cannot turn round in them. The "kitchenette" firmly denies all movement. The dining-room will not permit the entrance of more than four persons; and even then there is a condition of motionlessness rigorously imposed. There is one bedroom, so tiny that one finds it difficult to get into it and a sitting room so restricted that if there should be any company the knees of the visitors are jammed into the knees of the host and hostess.

On the other hand, all the anguish associated with a furnace that will not burn is a memory. If the heat is not to your liking, you merely ring the bell. There are no sidewalks to vex the spirit in the bitter mornings. There are no book agents to make you fall from grace. Life is self-contained. There is, too, the happy sense of security and gregariousness, even though you may not visit your neighbors on the same landing. It is true that the very compactness which has much of recommendation, makes it possible for your neighbor's piano to give you a bad half hour now and then. There is the feeling that you are associated with your kind; that Brown is at the elbow; that there are common purposes and dispositions and temperament in life.

The days are gone when our women sat at home and made antimacassars and thought of their husbands as some active in spheres which have no relation to domesticity. That is not to say that they have turned their backs on the home. It does mean that they will not longer be slaves to the dustpan. The apartment house, in a long and cold winter, solves the question of comfort and convenience; but it must be endlessly repeated in humbler architectural forms so that the common people can use it, as the Rev. Dr. Paterson-Smith said to the Gazette, they use it in the city of Dublin. The apartment house may be destined to solve the problem of country life the year round in our severe climate. That will mean, with rapid transit, that the slum will cure itself largely. The people will go further out and find cheap but comfortable homes as thirty miles in the country, in which they can live the year round. But see the "kitchenette," and smile to think that this is home!

### P. JOHN GETS \$750,000 IN FEDERAL ESTIMATES

Ottawa, March 19.—The main estimates for the fiscal year which commences on April 1 were tabled in the House today by Sir Thomas White. The total estimated expenditure is \$437,707,141, an increase of \$137,996,632 over the expenditure of the year which is just closing. The largest increase is in public works, which will be largely in connection with harbor improvements.

The sum to be expended will include \$30,000,000 required for the construction of vessels in accordance with the government's shipbuilding programme. Of the total proposed expenditure, \$84,993,881 will be chargeable to capital account, and \$301,713,490 to consolidated revenue account. Very large expenditures are again to be made in connection with railways.

The amount to be appropriated is \$30,896,981, which is an increase of more than \$23,000,000 as compared with the current fiscal year. The remainder of the capital expenditure of \$3,228,000 will be in connection with public works generally.

The estimates tabled today are exclusive of war expenditures, which will be covered by a special vote.

#### Pensions Costing \$30,000,000

The amount provided for pensions is slightly more than \$30,000,000, an increase of almost \$14,000,000 over the current year. Almost one and a half millions is to be devoted to immigration and colonization costs, an increase of

\$303,000. This does not include the expenditures in connection with land settlement for soldiers for which the sum of more than \$25,000,000 is to be voted. Another large proposed expenditure is \$22,763,420 provided by the department of soldiers' civil re-establishment, which includes the amount to be devoted to vocational training of returned men.

The railway and canal votes chargeable to capital include more than \$11,000,000 for government railway equipment. The appropriation for the Hudson Bay railway is only \$100,000, but western members hope that this will be increased in the supplementary estimates to be brought down later. The \$100,000 Hudson Bay vote is for Port Nelson terminals. Provision is made for the spending of \$3,300,000 on the Welland canal. Railways and canal votes chargeable to income total over \$36,000,000. This sum includes a loan not exceeding \$25,000,000 repayable on demand with interest payable half yearly at the rate of six per cent. to be used to meet expenditures or indebtedness incurred in paying interest on securities to excess of the amount available from net earnings, or paying maturing loans of the Canadian Northern Railway company, or any company included in the Canadian Northern system, and for construction and betterments, said loan to be secured by mortgage upon the undertaking of the Canadian Northern railway system, containing such terms and conditions as the governor-in-council may approve.

#### Where St. John Comes In

Harbor and river votes chargeable to capital include \$300,000 for improvement at Port Arthur and Fort William, \$150,000 for improvements at St. John, and \$900,000 for Toronto harbor improvements.

Miscellaneous public works votes include \$25,000 for a monument to the late Sir Wilfrid Laurier. An additional \$2,000,000 will be voted in connection with the construction of the new parliament buildings at Ottawa.

Public works votes chargeable to capital include \$478,000 for the River St. Lawrence ship canal, and \$163,900 to complete the dredging plan for the St. Lawrence river from Montreal to Father Point.

General miscellaneous votes include the \$25,000,000 to be loaned to the provincial governments to encourage the erection of dwelling houses. The sum of \$100,000 was voted to cover the expense of the Canada trade commission, while \$50,000 is provided to meet the cost of the Canadian war mission at Washington.

The vote covering surveys of water power resources has been increased from \$144,000 to \$172,000. The amount provided for the naval service is \$11,805,000, an increase of \$275,000.

#### "WORK OR FIGHT" IN THE SOUTH

(The New Republic.)

In a small town in Alabama, sixteen miles from Montgomery, the state capital, the mayor of the town had a colored cook. The cook one Saturday night asked her employer for a higher wage. The Mayor refused, stating that he had never paid any more for a cook and wasn't going to do so now. The woman thereupon quit, and, as the law provided, the Mayor took up her employment card which he himself had issued to her.

**Gold Soap**

Let the picture above remind you that the real cake of Gold Soap is big. It is not only the best quality of laundry soap you can buy, but it is the largest cake offered for the money. Five cakes of Gold Soap are as large, and last as long as six cakes of the next largest size. Isn't that advantage worth the trouble of saying to your grocer, "I prefer Gold Soap?"

Gold Soap is made in the Procter & Gamble Factories at Hamilton, Canada

## W. H. THORNE & CO., LIMITED

THE G. W. V. A. AND APPOINTMENTS TO PUBLIC OFFICE

Sussex, N. B., March 18, 1919. To the Editor of The Times:

Sir—The G. W. V. A. wish to place before the people some phases of the treatment when they are accorded in their effort to secure the fulfilment of the promises made to them by the people of the country through their government, and therefore request that you, in the interests of returned men, will publish the accompanying correspondence re the appointment of Mr. F. E. Sharpe to the position of superintendent of immigration for New Brunswick.

This isn't the only appointment in the gift of the government that has been given to men other than returned men, as a sample of such appointments we refer the people to the personnel of the recently appointed Workmen's Compensation Board, which is composed of twelve members, the salaries ranging from \$200 to \$400; not one of these positions was given to a returned man. There are numbers of other cases, but our space does not permit us to mention them here.

The Kings county branch, after receiving the endorsement of the provincial command, decided to use the Sharpe appointment as a test case, and to place all available information relative to this appointment before the people of the province, knowing that from the people we would receive justice and fair play.

In closing we make an appeal to all organizations in the province, wherever they may be, to investigate the case as set forth in our letters, and if they find our statements to be true, we ask them to give us their support.

Thanking you, Mr. Editor, I remain, Yours very truly, F. ARMSTRONG, Secretary-Treasurer Kings County Branch, G. W. V. A.

Copy of correspondence re F. E. Sharpe appointment:

No. 1. Resolution passed at second annual meeting; copy forwarded premier and provincial association: Whereas, the provincial government, through their premier, in a letter to the St. John association in September, 1918, stated their intention of giving all positions within their gift to returned men when suitable returned men were available; and Whereas in the appointment of Mr. F. E. Sharpe to the position of superintendent of immigration this policy was not carried out;

Resolved therefore, that this branch of the G. W. V. A. protest against the action of the government in the appointment of Mr. Sharpe, and ask that his appointment be cancelled and a suitable returned man be appointed in his place.

Yours very truly, F. ARMSTRONG, Secretary-Treasurer.

No. 2. Copy of letter received from Mr. E. S. Carter: St. John, N. B., Jan. 23, 1919. Dear Sir—I was somewhat surprised to note a paragraph in yesterday morning's Telegraph which stated that at a meeting of the G. W. V. A. held in Sussex a resolution was passed protesting against the action of the local government in the giving of positions to men other than returned men, when there are returned men in the province who are capable of filling these positions. Reference was made to the recent appointment of superintendent of immigration. I can assure you that if the paragraph is correct I am much disappointed. A returned soldier who is capable of filling positions in the gift of the government is always given the preference. The appointment referred to was made over a year ago, and held over until the cessation of hostilities, because there was no real need for activity in the immigration department. A short time ago, the Ottawa board which is in charge of the soldiers' land settlement, asked for the services of William Kerr, who was acting superintendent of immigration and secretary of the Farm Settlement Board. When Mr. Kerr left the immigration office Mr. Sharpe's appointment became operative, and at the same meeting a total stranger to the government and a man who had opposed us politically in the past was appointed to the most important office in the county in the gift of the government, that of registrar of deeds, because he was a returned soldier. This I may say was done on the recommendation of Dr. Pearson and myself who have tried in every way to recognize the worth of those who have been fighting for the empire and for Canada. I am sure, therefore, that you can readily understand that when the veterans assemble and pass such resolutions of condemnation, and apparently have no approval of the government's appointment of one of their number to an important office, it places those who have the patronage of the county in a very awkward position.

Yours very truly, E. S. CARTER, Secretary to the Premier.

No. 3. Copy of reply to E. S. Carter, Letter No. 2: Sussex, N. B., Jan. 27, 1919. Mr. E. S. Carter, Secretary to the Premier, St. John (N. B.). Dear Sir—in answer to your letter of the 23rd inst. I have been instructed to write you as follows: The paragraph referred to in your letter was correct; we are sorry that you were disappointed, but I can assure you that your disappointment was nothing in comparison with the members of this association when they learned of the appointment of Mr. Sharpe to the position of superintendent of immigration. This appointment was direct violation, Mr. Secretary, of the policy of the provincial government, and as laid down by Premier Foster in a letter to the president of the St. John association. You state in your letter as follows: "The appointment referred to was made over a year ago, and held over until the cessation of hostilities." Do you not think it would have been better if you had said the appointment was promised

over a year ago, and made last week? Supposing Mr. Carter, the appointment was made over a year ago, did not your government intend to give those positions to returned men at that time? You were aware that the war had been going on then for three years, and although there may not have been any one who had sacrificed as much for the Liberal party as Mr. Sharpe, surely you could have found a man in your list that had sacrificed more for his country than the same gentleman.

In reference to the appointment of Lieutenant G. B. Hallett to the position of registrar of deeds for the county of Kings, this association did express its appreciation, and the same was published in the Kings County Record, under the date of Jan. 23. However, Mr. Carter, we do not think that in the making of the appointment the government did any more than the people of Canada promised when they wanted these men to go out and fight for them.

Your letter, Sir, is nothing more nor less than an attempt on your part to justify the appointment of Mr. Sharpe by telling us what you have done for Mr. Hallett. We want to tell you, Sir, that your explanation is not satisfactory to us, and we are asking that Mr. Sharpe's appointment be cancelled and a suitable returned man appointed in his place. In asking this we have the support of every G. W. V. A. in the province and Sir, we believe, the support of all fair-minded people in the county of Kings.

It is not the policy of this association to attack any particular political party. It was formed for the purpose of protecting the interests of returned men and getting for them what the country had promised and what they justly deserved.

Yours very truly, F. ARMSTRONG, Secretary-Treasurer.

No. 4. Mr. E. S. Carter's reply to our letter No. 3: Feb. 6, 1919. Dear Sir—I beg to acknowledge yours of Jan. 27, which remained unanswered because of my absence from the province. You are quite correct in calling my attention to the statement in my letter that "the appointment of Mr. Sharpe was made over a year ago." I should have said that it was determined upon, and I might have added that Mr. Sharpe in view of his expected appointment, investigated immigration methods in the west. It is not always possible to find just the right man among the returned men now in New Brunswick to fill such a position as superintendent of immigration. The appointment, you know, is one in which the whole province is interested and not the county of Kings only. His qualifications were, in the opinion of the government, of such a character that he was well fitted for the position, and the same having been made, I cannot hold out any hopes that it will be reconsidered. As I stated in my letter to you, the government have given consideration to the claims of returned men wherever they felt content that would be in the interests of the public to do so, and I am sure that that is the policy they propose to follow.

The only reference I saw to the appointments made by the government at its last session in January was the criticism of your association with reference to Mr. Sharpe's office, which appeared in the St. John daily newspapers. I am glad to know that an appreciation of Lieutenant Hallett's appointment appeared in the Sussex Record.

Yours very truly, E. S. CARTER, Secretary-Treasurer G. W. V. A. Sussex (N. B.).

Sussex, N. B., March 8, 1919. To E. S. Carter, Secretary Provincial Premier, Fredericton (N. B.). Dear Sir—Replying to yours of the 17th inst., we presume that you are carrying on this correspondence with the approval of the premier and government as you write to us as secretary to the premier.

In reference to the remark in your letter that we speak only for one county, and the appointment was a provincial one, and also that no qualified returned man was or is available: First, we had already pointed out to you that we were supported by the other G. W. V. A. in the province, both in the principle involved and in the request for a reconsideration of this appointment; second, as to the statement that no suitable returned men were available, we wish to state that qualified returned men were available, but if the government makes these appointments without consulting the soldiers' associations, as was done in this case, and others also, in spite of the promise of the premier to the government before such vacancies were filled, and if, as you state, or infer, the political patronage committee still have to carry on the old

ROYAL YEAST CAKES

Now that the new government standard flour is in general use, the quality of the yeast you use is more important than ever. Use Royal Yeast Cakes. Their quality is absolutely reliable. Bread made with Royal Yeast will keep fresh and moist longer than that made with any other.

Send name and address for copy Royal Yeast Baking Book. E. W. GILLET CO. LTD. TORONTO, CANADA. WINNIPEG MONTREAL

claim of your association with reference to Mr. Sharpe's office, which appeared in the St. John daily newspapers. I am glad to know that an appreciation of Lieutenant Hallett's appointment appeared in the Sussex Record.

Yours very truly, E. S. CARTER, Secretary-Treasurer G. W. V. A. Sussex (N. B.).

Sussex, N. B., March 8, 1919. To E. S. Carter, Secretary Provincial Premier, Fredericton (N. B.). Dear Sir—Replying to yours of the 17th inst., we presume that you are carrying on this correspondence with the approval of the premier and government as you write to us as secretary to the premier.

In reference to the remark in your letter that we speak only for one county, and the appointment was a provincial one, and also that no qualified returned man was or is available: First, we had already pointed out to you that we were supported by the other G. W. V. A. in the province, both in the principle involved and in the request for a reconsideration of this appointment; second, as to the statement that no suitable returned men were available, we wish to state that qualified returned men were available, but if the government makes these appointments without consulting the soldiers' associations, as was done in this case, and others also, in spite of the promise of the premier to the government before such vacancies were filled, and if, as you state, or infer, the political patronage committee still have to carry on the old

system of appointment, excepting only in some special cases, when it may be possible that a returned man is given a position at their discretion, then, Sir, it would seem to us that the promises are only an evasion, and it will be necessary for the association to take their request before the public. We feel that we are entitled to the things we are asking for, and that we will have the support of the people of this province in our just and fair requests.

We note your correction of your former statement re Mr. Sharpe's appointment, that it was made in January last, and not a year ago, as before stated. G. S. KINNEAR, President Kings County Branch G. W. V. A.

Copy of letter from premier to secretary provincial association: Fredericton, N. B., March 18, 1919. Dear Sir—Yours of March 10 with copy of correspondence between the Kings county branch G. W. V. A. and Mr. E. S. Carter, re appointment of Mr. F. E. Sharpe as superintendent of immigration, is at hand, and I beg to assure you that before making appointment to this office the government consulted very many of its friends in different sections of New Brunswick, and none of them could recommend a man who was the equal of Mr. Sharpe in those qualities so desirable for this office.

Mr. Sharpe has not only had a large and successful experience as a farmer, but for twenty years was a representative man in his own county in municipal affairs, understanding all the details of municipal organization, for some time he was also employed as a lecturer on agricultural subjects by both the Dominion and local governments. He is a fluent speaker, and able on any occasion to present the advantages of this province on the platform. The government aimed to get the best man available for the position and in its selection of Mr. Sharpe must take full responsibility. No one realizes more than I do the claim of returned men upon us, and I feel sure that when you look over the list of appointments since the overseas men have been returned, you will agree with me that we have given their claim consideration above all others.

Yours very truly, W. E. FOSTER, Premier, acting secretary Provincial G. W. V. A., Veterans' Home, St. John (N. B.).

GREEKS COME INTO CONFLICT WITH SOVIETS

Bolsheviks Driven Back North of Odessa by New Allied Force

CHECK ALSO IN NORTHERN RUSSIA

Saloniki, Tuesday, March 18—Greek troops have defeated the Russian Bolsheviks at Kherson, northeast of Odessa, and advanced about twelve miles, according to an official announcement made today by Greek headquarters here. The Greeks captured prisoners and war material.

Greek troops were reported to have occupied Kherson, in a despatch from Athens on February 28. An earlier despatch had reported that Greek and Rumanian troops had advanced north from Odessa in pursuit of the Bolsheviks. The fighting referred to in the Greek announcement probably occurred north of Kherson.

For several months French and British detachments have been in Odessa, reports received in London today said the situation in Odessa was quiet and that the Allied forces were retiring from the city. The report, which was not denied, could not be confirmed by a Russian wireless despatch received in London on March 12 reported that Kherson had been captured on March 5 by Ukrainian soviet troops.

They Needed Help. London, March 19—Russian non-Bolshevik forces, having been defeated by Soviet troops, have retired toward Odessa from north of that city, according to a Russian wireless despatch dated in Moscow on March 17. Beaten in North. London, March 19—The Bolsheviks on Saturday attacked the town of Morozovskaya, 120 miles south of Archangel, but were repulsed, according to a Russian official despatch received here today. The enemy left fifty-seven dead and many wounded behind them, while five unwounded prisoners and six machine guns were taken from them. Santiago, March 19—Announcement was made here today that Great Britain will send a fleet of twelve warships to tour South America. The fleet will leave Europe as soon as the peace treaty is signed.

THERMOGENE CURATIVE WADDING (Vandenbroeck's Process) For Grippe, Colds and All Aches and Pains. A quick, clean, comforting relief. What Thermogene is—A light, dry, fleshy, medicated wool that has supplanted the old-style messy, uncomfortable poultice and plaster. What Thermogene does—It actually generates heat the instant it is applied to an afflicted part. It acts upon the blood vessels through the skin and directly attacks the trouble at its source—dispelling all soreness and inflammation. When to use Thermogene—The moment you feel chill or cold striking through your system, apply Thermogene to arrest its development. Don't wait! How to buy it—Your nearest drug store has Thermogene in handy boxes—all ready to apply—full directions enclosed. Invented by Vandenbroeck, the famous Belgian chemist. British-made by The Thermogene Company, Limited, Hayward's Heath, England. Sole Agents for Canada: HAROLD F. RITCHIE & CO. Limited 10 McCall St., Toronto 80

St. John High Beaten by P. N. S. Fredericton, N. B., March 19—(Special)—The St. John High School basketball team were defeated today in one of the best basketball games played on the floors of the Normal School gymnasium for years. The score at the end of game stood 31 to 30, in favor of the Normal School team. The game was a tight and clean, with the advantage being on neither side. The game started out with St. John High School mak-

You can pay more than 7c for a cigar but you can't get a better cigar than the Pippin.

We claim it the best 7c cigar in the land.

Four of them cost a quarter.

**"THE HEART OF A GIRL"**  
A human story, replete with delightful incidents, tense situations and many thrills. A thoroughly pleasing love story staged against the background of a political campaign. The climax occurs in a political convention, and this scene is one of the most massive ever shown on the screen.  
**"Who's Your Father?"—Sunshine Comedy**

ing the first field goal in the first half minute play. The combination shown by St. John High proved a puzzle to the Normal boys at first, but the local boys succeeded in breaking it up and scoring. Miller, playing forward for the Normal team, proved the best scorer of the game by getting seven out of the eight field goals scored in the first period. The 16 to 16. In the second period the Normal team got an early start on their opponents, getting in five field goals before the visitors had awakened. After a good effort the visiting team caught up and passed the local team. The game was then marked by very close and interesting play. In the last two minutes play the local team took the lead by leaving the score 31 to 28. When the minutes favor for time the score stood 31 to 30, in favor of the Normal School.

The play was swift and the combination of both sides standing out well, but both sides were weak on scoring fouls, only one being scored on the entire game. Shaw and Malcolm, for the visitors, showed up well, while Crocker and Miller for the local team made a splendid showing.

H. P. Webb, of the U. N. B., refereed the game very satisfactorily to both parties.  
The line-up was as follows:  
Normal School. St. John.  
Forwards. Shaw  
Miller ..... Wilke  
Centre. Gilchrist ..... Malcolm  
MacRae ..... Grant  
Defences. Crocker ..... Josselyn  
Young .....

Sunny South Calls Baseball Players  
Giants, Yanks, and Dodgers All Ready to Start for Florida Training Camps  
New York, March 19—The baseball season of 1919 has been taken out of the campfire and moth balls and this week will be sent south for a little airing. The season is under way for the Cleveland Indians under Lee Fohl, and the Browns, under Jimmy Burke, are on their way south, while the three New York clubs, the Giants, Yanks, and Dodgers, are packing their grips to be ready to start this week. On Thursday the advance guard of the Giants, under Manager McGraw, will start for Gainsville, Fla., and on the same day the Brooklyn club, under Manager Robinson, will go to Jacksonville by boat.

The Yanks will go to Jacksonville on Saturday. By next week all three local baseball outfits will be taking the kinks out of their sleepy joints under the warm Florida sun. Along the next two weeks the Southland will fairly blossom with promising young recruits who will threaten to push the Ty Cobbs, the Walter Johnsons, and Hal Chases into the background.

Each spring the new talent makes a look splash on its first appearance in training camp and by the time the clubs are ready to start home, the infant phenomenon, somehow or other, quietly retires from the limelight as the regulars shake the slumberiness of winter from their manly forms and lose the ball around with old-time agility.

All three New York clubs this year have chosen new training camps. It marks a new wrinkle in training camp practice for the Yanks and the Dodgers to go to the same city, Jacksonville, to train. The clubs can hook up in many practice games, and will play public exhibitions on Saturdays. The clubs ex-

spring and fair weather, and are taking a gambler's chance on the weather remaining fair enough to pass up the southern trip.  
Florida is the favorite training ground this spring and four clubs will have camps in Georgia, two in Texas, while California, North Carolina, Indiana, and Louisiana will each harbor a major league club.  
For the first time in several years many of the clubs will start south without having all their players under contract. There are still many holdouts among the ball players, and this week will decide whether they really mean to hold out or are just waiting until the last minute to see if they can force the club owners to weaken and raise salaries. The salaries of nearly all the players were reduced this spring because the season was cut down from 154 to 140 games. The ball players, however, decided that they wanted just as much money to play the short season as they did the long one. Ty Cobb and Busi of Detroit, Baker, Pratt and other members of the Yankees, Babe Ruth, Jack, McInnis, and other members of the Boston Red Sox are among the prominent holdouts. Ruth is the prize holdout of the

## PRINCE ALBERT

the international joy smoke

LAY your smoketaste flush up against a listening post—and you'll get the Prince Albert call, all right! You'll hunt a jimmy pipe so quick and get so much tobacco joy out of every puff you'll wish you had been born twins! For, Prince Albert puts over a turn new to every man fond of a pipe or a home made cigarette. It wins your glad hand completely. That's because it has the quality!

And, right behind this quality flavor and quality fragrance is Prince Albert's freedom from bite and parch which is cut out by our exclusive patented process. We tell you to smoke your fill at any clip—jimmy pipe or makin's cigarette—without a comeback!

Most Canadian dealers now get Prince Albert in the tidy red tin. If your dealer does not, write to us to order through his jobber. Leading Canadian jobbers are now supplied.
