EIGHT PAGES—ONE CENT

FROM FIFTY TO 200 ARE DEAD

Millions of Dollars The Measure of Loss By Fires FIVE VILLAGES GO

Forest Conflagration in Minnesota Had Nearly Reached Manitoba Boundary Last Night—Women Heroines in Face of Cowardly Actions of Men

Warroad, Minn., Oct. 10.—Estimates of the loss of life in the forest fires which started on Friday, wiped out several small towns, and are still raging, range all the way from fifty to 200. The property loss will amount well into the millions.

The fire zone covers an area of eighty-five miles in length, from the gravel pits west of Warroad to Stratton, the fourth station east of Rainey River, and in width about thirty miles, covering all the territory between Rainey Lake and Lake of the Woods.

MOBS WRECK AND ROB IN LISBON CHURCHES; SPAIN IS THREATENED

Portugal Revolution Leaders Have Serious Task to Curb Rough Element Among Followers

Outrages Against the Clergy Reported and Many Arrests Made—Revolutionary Outbreak in Spain Seems Likely as Anniversary of Execution of Ferrer Draws Near

At the 9 o'clock mass in the Cathedral yesterday morning, His Lordship Bishop Casey made reference to the revolution in Portugal, saying in part:

"The messages that come from continental countries are far from reassuring, and indeed not infrequently, may be depressing. There is not, however, just cause for Catholic alarm, in the changes of government. The church was instituted for all ages, and for all nations. She is just as much at home, therefore, under a republican form of government as under a monarchy. The impression that she cannot co-exist and prosper with republicanism is far from the truth, as her splendid state of prosperity in the republic to the south of us bears ample testimony."

"In regard to the reported revolution of Lisbon, which is far from being all Portugal, we only deplore the fact that the new republic, if we can so style it, from present information, shows evident and fierce hostility to the Catholic church and to Catholic institutions. It is not a republic as such that we would not come in competition with the Canadian manufacturers."

"The British crisis, it is true, is not a republic as such that we would not come in competition with the Canadian manufacturers. It is not a republic as such that we would not come in competition with the Canadian manufacturers."

Hon. Mr. Haldane Applies Scripture to Situation

CANADA'S TRADE POLICY

Sir Robert Perks Gives His Im. impression in Liverpool interview—The Niobe to Sail Today for Halifax. Due There Oct. 21—The British Market

London, Oct. 10.—Hon. Mr. Haldane, addressing a meeting in Haddingtonshire today said that nobody knew when the next election would come. He believed it would come like a thief in the night.

The lobby correspondent of the Standard says there is much discussion and also some indication of triumph in Liberal circles with regard to the next imperial conference. He has been mysteriously assured that the government have some cards up the sleeve which they declare will "dash" the Unionists and Imperialists.

So far as he has been able to gather particulars, this plan is to participate of suggestion for a devolution scheme, these islands to be coupled with beginnings of an imperial council.

Sir Robert Perks, interviewed at Liverpool yesterday, said that there was no disposition whatever in Canada in the direction of free trade except in a small section of the far west, but there was disposition for a lower tariff in favor of Great Britain, but this policy seemed to apply only to manufacturers which did not come in competition with the Canadian manufacturers.

Manufacturers and bankers with whom he spoke on the question of reciprocity with the United States regarded this policy with very great concern but he doubt very much whether it will force upon the commercial policy of the dominion.

John Rogers and Co.'s Liverpool cable today states that there was a very steady demand in the Birkenhead market and everything changed hands. Saturday's quotations were well maintained and one or two lots commanded a slightly higher figure. States steers were from 13 1/4 to 14 cents, Canadian from 12 3/4 to 13 1/2 cents, Randers from 11 1/2 to 12 1/2 cents a pound.

Liverpool, Oct. 10.—Major Broderick, interviewed, said it depended upon the success of the initial attempt to provide assistance in Canada for men of his regiment whether he would continue the experiment.

Rev. Mr. Haigh, British delegate to the Canadian Wesleyan conference, said the Wesleyan body was undoubtedly the strongest religious force in Canada at the present day, paramount as it was in members and social influence.

The number of hogs killed in Denmark in the last week was 38,000; in Ireland, 18,000.

WOULD RECEIVE TWO PURSUES. Mr. Peter Banks approves of the proposal to erect statues of Premier Hazen at all the country cross roads in the province. Such an action would, he says, serve a double purpose. It would, in the first place, be an everlasting reminder to the people of the vanity of human hopes in politics. In the second place, when a team got mired in the vicinity, a line could be hitched around the statue and the outfit extricated by the use of block and tackle.

LOCH LOMOND FAIR Mr. James Jones is going to the Loch Lomond fair tomorrow. James likes to meet his political friends, and also to see the show. At every fair he told the Times new reporter this morning, he sees in fancy a cloud of bygone politicians, hovering over the place and looking down upon the scene of their former exploits on fair day.

No Craft No Deals "The Shamrock, Thistle, Rose entwine The Maple Leaf forever."

AN AWFUL EXPERIENCE Universal sympathy is stirred by the awful calamity that has overtaken the people of several towns in Minnesota, close to the Canadian border. The worst forest fire in the history of the state has swept over them not only destroying property but also wiping out whole families of settlers.

VERY MUCH WORRIED The Standard devotes nearly all its editorial space, and nearly a column of its news space today to an effort to belittle the effect of the great Liberal meeting at Elgin. In the local story Dr. McAlister is described as a singing evangelist, and the Liberal speakers generally are made the subject of rather coarse ridicule.

MR. BORDEN'S TROUBLES Mr. R. L. Borden finds it very difficult to satisfy his followers. There are so many divisions in the Conservative party that the lack of any single rallying point results in continuous evidence of dissatisfaction.

HOPE Be strong to hope, O heart! Stars can only shine in the dark night. Be strong to love, O heart! Love knows not wrong; This thou lovest—creatures even Life were not long; Didst thou love God in Heaven, Thou wouldst be strong. —A. Procter.

PROOF. "Man is a selfish brute," said the sufferer. "Why so?" demanded one of her hearers. "Well," replied the orator, "doesn't he always grab the cream on top of the milk bottle for himself?"

NOT THE SAME. Peckem—"No, sir, I never made the same mistake twice." Meeker—"That's funny; you married a second time." Peckem—"Oh, that was—another mistake."

TWO DIFFERENT SPECIES. Little Willie—"Say, pa, what is a bookworm?" Pa—"A bookworm, my son, is either a person who would rather read a book than eat, or a worm that would rather eat a book than read."

MASCULINE QUERY. "The motto of the modern woman is 'forward,'" said the suffragette, who was distributing a line of talk from the platform. "If that's the case," interrupted the mere man who had strayed into the hall by mistake, "why does she always get off a street car backward?"

BARRETT WENDELL'S PUN. When Professor Wendell of Harvard entered upon his Sabbatical year, he remained in Cambridge some weeks after his leave of absence began and persisted in taking part in the departmental meetings. The head of the department protested. "Sir," he said, "you are officially absent. You are non est."

NEARLY HALF MILLION FOR PHILANTHROPY Albany, N. Y., Oct. 10.—The will of Horace B. Silliman of Cohoes, a former textile manufacturer, which has been admitted to probate bequeaths the entire estate of over \$400,000 to philanthropic purposes. One-half of the estate goes to Wm. R. Moody, son of the late Dwight L. Moody, the evangelist, to aid in conducting his institutions at Northfield, Mass.

G. H. MUNROE WILL STAND TRIAL IN N.Y. (Continued from page 1.) Both George and his brother hailed from the Province of Quebec. In the spring of 1884 the Munroe brothers opened a haberdashery establishment in Montreal, catering especially for the trade of college students. After being engaged in this business for about five years they sold out and under the firm name of Munroe & Munroe began business as mining stock brokers.

Their Stock Crashes While George Munroe looked after the New York end of the business, Alexander, who was the Canadian end of the business, then came the crash of the firm and its pet stock. In one day this stock dropped from \$3.50 a share to fifty cents.

SIDE LIGHTS ON HISTORY. Hannibal was nearly half way across the Alps. Suddenly he stopped, smote his forehead with his fist, and looked with intense chagrin at his tolling army. "Fool that I am!" he exclaimed. "How much easier we could have done this by using serotines!"

The French Woman

(From Modern Society) One of the chief characteristics of the Frenchwoman, no matter what her class, is her excellent housekeeping; and just now, when the Paris season is over, this characteristic is uppermost. She goes through every detail of the household with minute care, thoroughly overhauls linen, renovates all that is necessary, and makes all arrangements for autumn cleaning. As she does with her house, so she does with her own clothing and it is a real pleasure to be initiated into the mysteries of her wardrobe. Everything is so dainty, so orderly, and so suggestive of the care and trouble bestowed upon it that it becomes as interesting as a human personality. Moreover, it is not suggestive of frivolity, but rather gives one the idea that the woman herself is a fair and comely being, moved in all her actions by a spirit of beauty. She is practical also, and although she spends a great deal of money upon dainty garments she possesses, she rarely wastes anything. The power of utilizing old materials has

The Evening Chit-Chat

By RUTH CAMERON

HAS it been your experience, as it has been mine, to see people who otherwise had good manners, raise the napkin above the mouth, rub their eyes, wipe the forehead, in fact use it as a handkerchief, stopping short only at wiping the nose? "I see a correspondent."

Dear lady, it certainly has. And also, to see other tricks just as bad committed by people who ought to know better.

A man who stuttered was aroused one day when a supercilious person commented on his falling. "Oh, I guess everybody has his little eccentricity," he said. "What's yours?"

The supercilious person protested that she didn't know that he had any. "Oh, I guess you have," insisted the stutterer. "Now, do you see your own with your left hand or with your right?"

"I eat my soup with my right hand, of course." "Then that's yours," triumphantly pointed out the stutterer. "I eat mine with my spoon."

And don't think I mean offences like a failure to pick up the right fork or spoon from a bewildering array of implements. I have a thorough sympathy for such a failure—a sympathy born, I am quite willing to admit, from my own weakness.

What I mean is flagrant offenses against the laws of decent eating, like that the lady referred to.

Such, for instance, as the public use of the toothpick. Again and again I have seen well dressed men in nice restaurants and hotels, dining with their wives or sweethearts, sit back and use a toothpick while waiting for their checks.

Again and again I have seen men, and women too, issuing from first class restaurants with toothpicks slanting jauntily from the corners of their mouths.

To repeat something that, although I have been said ten thousand times can't afford to be repeated since it has been disregarded quite so many—one should never use a toothpick at all. It is neither good for the teeth nor efficacious. Dental floss is the proper implement.

Such, for instance, as the public use of the toothpick. Again and again I have seen well dressed men in nice restaurants and hotels, dining with their wives or sweethearts, sit back and use a toothpick while waiting for their checks.

Another is crumpling crackers and croutons, and so forth, into the soup, instead of eating them separately.

Doubleless none of these is your particular offense. You may be unconsciously committing some other offense that offends other people as much as these offend you.

Better look out for it. To quote the stutterer: "Everybody has his little eccentricity. What's yours?"

Daily Hints for the Cook

TOMATO CONSERVE. The yellow plum shaped tomatoes are best for this delicious conserve, but the very small and perfectly round one will answer. Wash and then peel, by immersing in hot water, treating only a few at a time lest they lose shape and firmness by staying too long in the water. As fast as peeled, lay on a sieve to drain. Weigh out three-quarters of a pound of sugar to each pound of fruit. Put the sugar on the stove with just enough water to melt it and as soon as dissolved boil until clear. Add the tomatoes, and to every seven pounds four ounces of ginger root tied in muslin bags, the thin yellow rind of four lemons, which has been cooked 10 minutes in water, and also the pulp with the white membrane and skins removed. Draw the kettle back where the contents will simmer slowly. Cook until transparent, then skim out carefully with a perforated skimmer and lay on platters in the sun to harden while you boil down the sirup until thick. Pack the fruit in jars pour the sirup over and seal.

FISH TOAST. Half a pound of cold cooked fish one tablespoonful of butter, one tablespoonful of flour, one gill of milk half a teaspoonful of anchovy paste, half a teaspoonful of paprika and one hard-boiled egg. Remove all skin and bone from the fish and place it on a plate. Add the salt, pepper and paprika and mix all together. Place the butter in a saucepan, allow it to melt, add pepper, quarter teaspoonful salt, a little the flour mix well together until smooth, add the milk and stir the mixture till it boils. Take the saucepan and again stir well, add the fish and place the mixture on a plate. In the morning, fifteen minutes before breakfast, toast a slice of bread, spread on it the mixture, chop the white of the hard-boiled egg, sprinkle it over and place the toast on a plate in a hot oven for ten minutes, serve nice and hot.

PINEAPPLE SNOW. Slice finely or cut into small pieces, half a fresh or preserved pineapple. Put this with the pineapple juice and three table-spoonfuls of sugar into a saucepan and simmer for ten minutes. Dissolve 1 1/2 table-spoonfuls of powdered gelatine with half a cupful of boiling water and strain into the pineapple together with half a cupful of milk and one gill of sherry wine. Cook the whole gently for a few minutes then remove from the fire, pour it into a basin to set, incorporate the stiffly beaten whites of three eggs. Whisk all over it till it resembles snow. Serve on a glass dish, heap till high. Sprinkle over with a few crushed macarons just before serving.

AMERICAN WOMEN IN LONDON SOCIETY

Do American women play an important part in London society? The question is almost absurd, for any one with the slightest knowledge of things social knows that within the last score of years the American woman has become a fact in the most exclusive circles in London. Anglo-American marriages are in a large measure responsible for its recognition and the beautiful and wealthy daughters of the United States who today are courted and feted by society nobility.

The late king and his beautiful consort were quick to recognize the social graces of American women, and even before they became the fashion, in those exclusive days when birth rather than money fed their tale, Marlborough House opened its doors to such famous women as the late Countess, Duchess of Manchester, Lady Randolph Churchill (now Mrs. Cornwallis West), Lady Layton Lyndal, Lady Arthur Paget, Mrs. George Cavendish Bentinck, and many others.

Today the list of American women prominent in English society is a large one, its numbers running into the hundreds, and still they come. Of duchesses there are but three. The Duchess of Marlborough, who as Miss Consuelo Vanderbilt married the duke of Marlborough in New York in 1898, has held the title longest. The Duchess of Manchester, who is Miss Helena Zimmerman, of Cincinnati, was married in 1900, and the Duchess of Devonshire, Miss Mary Ogden Golet, of New York, was married in 1902.

The Duchess of Marlborough is an interesting figure in London society, for not only is she the possessor of an enormous fortune, but she has few equals in grace, wit and charm and a keen intellect. Her philanthropic ambitions are wonderfully broad and as a hostess she excels. It is interesting to note that her grandfather is mentioned as "Billy Vanderbilt" in the Memoirs of Princess Caroline Murat.

The Duchess of Roxburghe, the rugged grandeur of her dual home, Floors Castle, in Roxburghe, to the more formal life in London, so we hear but little of her social doings. She, however, is a niece of Mrs. Whitelaw Reid, wife of the American ambassador, and also a niece of Mrs. George Caverhill, who is Miss Ogden Mills, of New York.

Only one American woman at present is permitted to rank as a royal highness. This honor has been accorded to Miss Anita Stewart, who is the wife of H. R. H. Prince Miguel de Braganza. The Emperor of Austria passed a special decree making the bride of the Portuguese Prince H. R. H. the Duchess of Viseu, by which title she is now known.

On July 5 Miss Dorothy Deacon became the bride of Prince Guillaume Raphael Nicholas Antoine Albert Radziwill, the eldest son of the head of the Ancienne Maison de Lithuanie whose title dates from the earliest part of the fifteenth century. The Princess Radziwill is the

BRONCHITIS RELIEVED

Mrs. Tabor McKenney Surprised That Father Morriess' "No. 10" Helped Her So Quickly.

Those who have ever had bronchitis know what an irritating persistent disease it is—how it hangs on, and on, defying treatment, and how the sufferer's days, and more particularly nights, restless and miserable. Mrs. Tabor McKenney, of Philadelphia, Pa., was surprised to get relief after only a few days' use of Father Morriess' No. 10. Writing on December 27th she says: "I asked for some relief with Bronchitis, from which I had not got relief even after taking many prescriptions from physicians. I tried Father Morriess' No. 10 and to my great surprise, after taking it for a few days I obtained great relief."

Aside from being such a distressing disease, Bronchitis is dangerous—not so much in itself as because it is so apt to lead to fatal lung troubles. It should be checked at once, and Father Morriess' No. 10 will check and cure it. No. 10 (Lung Tonic) is put up in 25c. trial bottles and large 50c. bottles. At your dealer's or from Father Morriess' Medicine Co., Ltd., Chatham, N.B.

REV. MR. KUHRING AT THE EVERY DAY CLUB

The need of more life, physical, intellectual and spiritual, was the theme of an earnest and well-considered address by Rev. G. A. Kuhring at the Every Day Club last evening. Each kind of life was considered by itself, and the importance of its development dwelt upon, with clear illustrations to emphasize the speaker's meaning. Mr. Kuhring referred to the evidences to be seen in the streets every day of a lack of that splendid physical life which, before an entered the world, was God's gift to mankind. We are, he said, fighting against the effects of sin. Dealing with the intellectual life, he spoke of the time wasted in reading books that do not improve the mind, and of the many people of cultivated intellect who through indifference do not enjoy the fulness of intellectual life.

Special emphasis was placed upon the spiritual, or eternal life, without which all other life falls. Mr. Kuhring pointed out very clearly that this gift of eternal life is within the reach of every human soul, and there is no barrier to prevent any from receiving it from God, whose Son came that men might have life more abundantly.

The Simonds Loch Lomond Agricultural Society will have their annual fair and cattle show tomorrow at Loch Lomond. The S. S. Calvin Austin, Capt. Pike from Boston on Saturday night, brought home several St. John people who have been on vacation in the States. Included were Hon. R. J. Ritchie, who has been in New York, Henry Finigan and Thomas Finigan, New York and Boston; Francis McCafferty, Boston and Lowell; Miss Melly, New York; Mrs. Clark, Boston; Mr. and Mrs. Lutz Thompson, Boston; Isaac Olive and Chas. Dalton, who had been inspecting steamers in Boston, and Mr. and Mrs. Frank McFertey, who were in the Canadian west and the States. The party was a merry one. Eddie Johnson, a St. John boy, is acting chief of the dining saloon on the Austin and looked after the interests of all well.

On Saturday afternoon the work of the new curb in German street was begun. After the concrete had been mixed the first few shovels full were put in by W. C. Cross, E. T. Sturdee, R. B. Emerson, Joseph Bullock, E. Peters, P. W. Thomson and W. C. Allison, who each dropped a piece of coin into the mixture for good luck.

By presence of mind on Saturday Police- man Sullivan probably saved from serious injury a feeble old man, who became bewildered in Sydney street, when he saw two fire teams approaching. Sullivan caught one of the horses by the bridle, and after being dragged a few feet brought it to a stop.

What the social status of American women in London will be during the reign of King George V and Queen Mary remains to be seen. It is said that the present queen dislikes Americans, and furthermore is remarkably particular regarding court etiquette.

Five prisoners, all but one charged with drunkenness, were on the bench this morning in the police court. Wm. Moore was fined \$1, Hugh McBeath, \$5 while Joseph Russell and Chas. McCarthy forfeited deposits of \$8. Daniel O'Neil, a deaf mute, had a fine of \$8 struck against him, and allowed to stand on a charge of indecency in Hazen avenue yesterday. D. C. Clinch was the witness against him.
The trial of the case of Frodham vs. Petrovich, was commenced this morning before Judge Forbes and a jury in County Court chambers. This is an action for the recovery of the value of a gramophone purchased from the plaintiff by the defendant. The amount involved is about \$108. The case will be concluded this afternoon. A. A. Wilson, K. C. and C. S. Hamilton appear for the plaintiff and D. Mullin, K. C. and J. A. Barry for the defendant.
Applications are frequently made to the registrar of vital statistics with reference to applicants for this city for positions as nurses in institutions in the United States. Letters have been received by the registrar in which he was asked to make a report on the city. The questions asked are as a rule beyond the power of the registrar to answer, as they are of a personal nature.
The work of laying the new pavement in Germain street is going ahead rapidly and a large number of men are employed. A portion of the combined cut and gutter has been put down and its appearance has been favorably commented upon. People who have seen the work thus far, however, express the opinion that it would be a vast improvement if the unsightly poles along the street could be removed at the same time that this work is being done.
William J. McAuley, who went to Camp bellon last week to work as a carpenter, writes to a friend here that there is very little fever in the town present. There are still many people living in tents, and as there is heavy frost at night, they suffer considerably. There is much activity in building, and about sixty workmen are quartered in a large camp. There is plenty of work for all who are willing to work.
A meeting of the Men's Brotherhood of Exmouth street Methodist church was held yesterday afternoon at 4 o'clock. Addresses were delivered by the president, J. King Kelley, and Rev. W. W. Brewer, after which there was a discussion of ways to advance Christian work, especially in connection with Exmouth street church. Another meeting will be held next Sunday afternoon at 4 o'clock, at which an address will be given and a musical programme provided.

The special committee appointed by the common council some time ago to investigate the public works department of the city will probably be called together in the course of a few days to take up the work for which they were appointed. It is said that the committee will go thoroughly into the work done this year and will probably make recommendations as to the manner in which the money for street work should be expended next year. It is proposed to have the report ready so that it can be used as a basis for making up the appropriations for next year.
A citizen of Trinidad and his wife, who arrived here on Saturday will probably have little love for the hotel owners of this city. The two were accompanied by a colored nurse, and were apparently in good circumstances, respectively dressed and refined. Their money, however, was of little use to them in this city, except for cab fare, as their stay was very limited on account of the fact that no hotel would admit them, although they tried several. They tried at least half a dozen, a coach driving them from one to another, and were refused board at each place, until they were finally compelled to leave for Halifax on the late train.

TIME TO CLOSE IS DRAWING NEAR

The C. P. R. Options on Mill and Main Street Properties—No Passenger Station

In connection with the negotiations which have been carried on for some time by the C. P. R. to secure control of the properties in Main street, Mill street, from the cold storage plant to the McGoldrick building, it is stated that the options on several of the properties will expire within a few days. It was said today to be practically certain that the options will all be taken up and that the deeds will be handed over to the C. P. R. before the time limit expires.
It is learned on good authority that the railway corporation will not build a passenger station there but will erect freight sheds and lay tracks for the handling of freight.

BOWLING LEAGUE SERIES IS TO BE OPENED TONIGHT

A Change in the Inter-Society Games—Married Men Withdraw

A slight change has been made in the first week's schedule of games in the Inter-Society Bowling League, the order of matches being altered a little. The first game will take place this evening on St. Peter's Y. M. C. alleys, which have been so thoroughly renovated that they compare favorably with any in the city. Carpenters and painters have been busy for some time and the result of their labors is apparent in the splendid appearance of the alleys.
The married men have withdrawn their team from the league, and a quartette called the Shamrocks, have taken their place. Thos. Cosgrove, the secretary, has drawn up a schedule by which two series of games will be played, the first beginning tonight and ending on Dec. 14, and the second beginning on January 9, and concluding on March 10.
For this week the schedule of games is as follows:
Monday—C. M. H. A. v. Single Men.
Tuesday—K. O. H. v. H. T.
Wednesday—A. O. H. v. St. Peter's.
Thursday—L. E. B. v. Shamrocks.
Friday—St. J. B. v. F. M. A.

A. O. H. SCHOLARSHIP PLAN OUTLINED IN ST. JOHN CHURCHES

No arrangements have yet been made for the holding of the examinations for the A. O. H. scholarships in this diocese nor has the place of holding them been decided upon. The Catholic churches of the city yesterday, a letter was read from Rev. Father Wallace and John A. Doherty, of the parish committee, explaining the features of the examinations, and announcing the fact that they would be held in the city.
The scheme as outlined will permit two boys, some members of the A. O. H., to attend college, giving them a grant of \$125 for three years, that is, if they successfully pass the examinations. In some places the scholarships have already been awarded.

SAYS THERE IS NOTHING TO STORY OF GAR WORKS FOR US

It was rumored today that there was a movement on foot to have the Silker car works in Halifax, removed to St. John, and it was further stated that a meeting would be held today to discuss the project. W. B. Tennant, of this city, who is interested in the company, when asked about the matter said such a report was absolutely without foundation. There was no possibility, he said, of getting the industry here.

DR. PARKIN, RHODES SCHOLARSHIP MAN, HERE

Dr. George R. Parkin, representing the Rhodes scholarship fund, was in the city yesterday. He arrived on the Montreal train at noon and spent the night at the Royal hotel. This morning he left on the I. C. R. for Nova Scotia and will return probably on Wednesday or Thursday and will go from here on a tour through the United States on business connected with the Rhodes scholarship work.

NEW GARAGE NEARLY READY

In the completion of the garage of the Motor Car & Equipment Company, Ltd., in Princess street, this city now possess two large up-to-date garages. The new building, which is a substantial two-story structure of brick, is made especially strong with concrete pillars reinforced with steel rods. It is 100 feet by 45, and of two storeys. With double floor space they have 200 by 80 and they announce their ability to store forty-five automobiles.
The building is fitted with a large electric elevator, capable of lifting a two-ton car. The floor is cinder, mixed with an oil preparation and rolled. To the right at the entrance there is a large gasoline tank with hose for supplying machines with gasoline and at the rear are two large pits five feet deep for the purpose of working underneath machines needing repairs.
While the building is completed, it is not fully equipped, but it is expected to be in full order in a few days.

THE WINTER TRAINS

The winter time table on the C. P. R. was into effect yesterday, but the effect was not felt in St. John until today, as the time scheduled for the Montreal Express, the only train arriving here on Sunday, remains the same.
There is practically no change except in the Boston train, which will arrive here at 11.40 a. m. instead of 11.20 a. m. Her departure in the morning will be as usual, 6.45, while at night her time scheduled is 11.15, five minutes earlier than before. The Fredericton and Montreal trains are usual.
The suburban train service is finished for the season, and suburbanites are obliged to travel on the regular trains.
The I. C. R. Winter time table will likely commence towards the end of this month.

CRUSH OF BUYERS, POLICE ASSIST!

This is the Final Week of J. N. HARVEY'S GREAT SALE

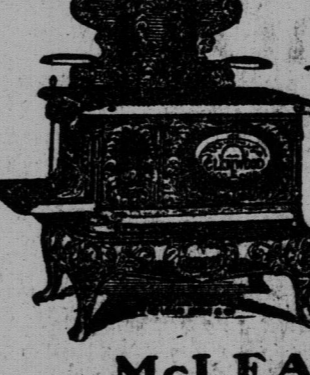

Today Marks the Beginning of My Sensational Removal Sale's Final Week

In all my experience—in my own business and as a citizen—I never beheld such eager crowds as jammed into my Union Street establishment Saturday.

It was a remarkable six days all-week, but Saturday was a riot of buyers. Sturdy door keepers endeavored to regulate the masses of people, and finally police aid was sought. Let this be a warning to this week's patrons—don't delay, buy now. Sale ends Saturday, 15th, at 11 p. m.—positively.

Get Ready For Winter

You don't want to waste any time getting ready for winter. If you are going to make a change in your range or buy a hall or room stove you want to get busy. Remember that when you have a stove that care has been taken to make perfect in every way, that the fuel question must have been considered and the stove tried before it has been put on sale. Now that is just what is done with our Glenwood lines and every range or heater we sell. We know just what they will do. Our large sale of ranges is proof for itself. Call and examine the Glenwood lines for yourself whether you want one or not. It is always a pleasure to show our stoves.
