City Plans For More Accommodation For Ships at St. John

BRITISH HARBOUR IS NEAR FALL

BULLOCK GETS COSTS ESTIMATES

Would Provide Several Additional Ship Berths In The Harbor.

SCHEME OUTLINED

Development Would Be On Both Eastern and Western Sides of Harbor.

The City Council will soon have before it plans for harbor improvement which would provide several additional steamship berths without reference to any plans the C. N. R. may have, and involving, it is contended, a relatively small expenditure in proportion to the advantage to be gained, it was learned today.

Commissioner Bullock said this morning that in his opinion the policy of getting the ships first and then the berths was all wrong. The berths should be provided and then the ships would come, and to this end he was considering three or four propositions which would provide more accommodations for ships.

One is to acquire the Laxton and Carrite properties, close up the slip and make a berth at the head of the present McLeod wharf. This would entail an expenditure of about \$80,000 to secure the several properties, and then there would be the cost of filling in the slip and building the crib work.

Another is to build a wharf at the end of the present Reed's Point wharf, extending to the Government property. A third is to fill in the present Nelson slip and move the C. P. R. tracks taking the present ferry wharf for a terminal and move the ferry to King street west. Falling that, to dredge out the Nelson slip and use both Nelson and Wellington wharves, providing two berths.

On all these propositions he is having the city engineer prepare a cost estimate, which he hopes to submit to the council at an early date.

FISHING BETTER THAN A YEAR AGO

Lobster Catch Less in February But Others are Far Ahead.

Ottawa, March 28.—There were 45,283,700 pounds of sea fish landed on both coasts of the Dominion during February, while in the same period last year only 28,768,700 pounds were taken. The Department of Marine and Fisheries reports the value of these catches was \$1,022,744 and \$749,139, respectively. Increased catches of cod, haddock, hake, pollock, herring, salmon, snelt, and scallops were reported.

Workmen Strike In Newfoundland

St. John's, Nfld., March 28.—The construction works in connection with the Newfoundland Power and Paper Mills at Deer Lake, have been tied up by a strike of the workmen, who have demanded an increase of five cents an hour for all classes. The strike involves about 1,000 men. Premier Warren has offered his services as mediator. The Evening Times says: "Murmurings of dissatisfaction from time to time have been heard from our people who have gone to the Humber for employment. There is a feeling that for doing equal work our men are not receiving as much pay as the outsiders whom the different sub-contractors have brought in."

Only 23, But He Has Three Wives

New York, March 28.—Admitting a charge of bigamy when faced by three wives in Harlem Court, Kenneth Smith, 23, of East 86th street, a veteran of the World War, was held in \$5,000 bail by Magistrate Vitale. The young man offered no excuse, except to say that in marrying the three women, he acted as he thought best under the circumstances. Smith was arrested on complaint of Mrs. Adrea Burch Smith, 19, of East 73rd street, who testified she married Smith on March 24, 1923. She said she and Smith lived together until a month ago when he disappeared. Later she learned he had a wife, Mrs. Marion Macle Smith, 21, of Rahway, N. J. The two women then learned that Smith had a third wife, Mrs. May Gurkin Smith, 27, whose address was not revealed.

WANTED TO ELOPE WITH MOVIE STAR

Counterfeiter is Caught, However, and Gets Ten Year Term.

Chicago, March 28.—Roman Cruz, who dreamed of making a fortune by counterfeiting and eloping with a motion picture actress, according to the secret service agents, pleaded guilty, and was sentenced to serve 10 years in the Atlanta penitentiary, the prison from which he escaped a few years ago. The sentence will begin after expiration of a 10-year sentence imposed in New York in 1918 for a similar offense, of which he had served only three years when he escaped.

INVENTS A METAL MAN THAT FIGHTS

Danish Scientist Says He Can Fire 2,000 Rounds a Minute.

Copenhagen, March 28.—Mechanical inventor, directed by wireless rays, will fight the next war if the claims of Niels Aasen, Norwegian scientist and inventor, prove true. Aasen claims to have invented a soldier automaton which can fire 2,000 rounds a minute, thus virtually doing away with human "cannon fodder." The invention has been offered to the Danish government.

President Monroe Is Freed From Reef

Key West, Fla., March 28.—The Dollar Line steamer President Monroe, which went aground on a reef near Miami on Monday and was floated yesterday, dropped anchor at Key West harbor yesterday. She was accompanied by the wrecking tug Warbler, which succeeded in floating her.

Wire Briefs

Prague, March 28.—The regular air service between Paris and Prague is to be extended next week to Constantinople and Angora.

Ottawa, March 28.—(Canadian Press)—The sum of \$12,968, was expended during the last year on the Hudson Bay Railway, out of the vote of \$350,000, of last session.

Naples, March 28.—King Victor Emmanuel was badly shaken up by the derailment of a train on Friday on the unarmored party from Rome. The train reach Naples this morning after some delay.

London, March 28.—A second attack was made on British soldiers at Queenstown about an hour after the sanguinary one on the morning of Spike Island, according to statements by some of the wounded, who were landed at Fishguard, Wales, yesterday.

Dublin, March 28.—Joseph McGraw, resigned minister of industry and commerce, has decided to retain his seat in the Dail. He is now engaged in forming an independent party with the other dissentients who support him.

POINCARÉ CABINET IS RE-NAMED

French Premier Dodges Waiting Newspapermen Through Side Door.

MANY NEW NAMES

Poincaré Remains at Helm To Continue Advocacy Of Policies.

By Canadian Press.

Paris, March 28.—M. Poincaré's cabinet, as reconstituted, will probably be in part as follows: M. Poincaré, Premier and Minister of Foreign Affairs. M. François-Marsal, Finance. M. Maginot, War. M. Le Troquer, Public Works. M. Loucheur, Commerce. Daniel Vincent, Hygiene and Labor. Henry De Jouvenel, Education. Lieut.-Col. Jean Fabry, Colonies. Paul Mercur, Justice. M. Bokanowski, Navy. M. Rimbert, Agriculture. Louis Marin, Under Secretary for Devastated Regions. Georges Leygues, (possibly) Interior. Mercier, Fabry and Marin are deputies, and Rimbert was recently appointed Food Controller.

Dodges Press Men.

Premier Poincaré dodged the waiting newspapermen when he left the foreign office for luncheon, using a side door and thereby escaping cross examination as to what progress had been made and postponing confirmation of the foregoing list.

It was officially announced shortly after noon, however, that M. François-Marsal had accepted the portfolio of Finance and that M. Loucheur and M. Bokanowski had accepted in "principle" the Commerce and Naval Portfolios respectively.

On the other hand it was stated that Justin De Selves, former Foreign Minister, who had been mentioned in some lists, as probable Minister of the Interior, has refused that portfolio, declaring he preferred to remain President of the Senate committee on Foreign Affairs.

UNION COMMITTEE MEMBERS ADJOURN

Final Assault at Fredericton is Stormy One as Session Ends.

Fredericton, March 28.—The final gun in the battle over the Church Union bill were fired this morning before the Corporation Committee of the Legislature when the speakers of the opposing factions were heard in reply to the statements of the respective cases advanced yesterday before the committee. The final assault on the bill was stormy and marked by an impassioned plea by Major the Rev. C. McNeil of Hamilton for the rights of the minority and the doctrines of the State church of Scotland.

At the conclusion of the hearing, which lasted for three hours and during which Ivan C. Rand, of Moncton, and Rev. Dr. Pidgeon of Winnipeg, representing the Moderator of the General Assembly, were heard in reply on behalf of the proponents of the bill, and Mr. Justice Crockett and Major McNeil for the anti-unionists, Premier Yennot moved the adjournment of the committee until Wednesday morning at 10.30 a.m. for the purpose of taking up consideration of the bill in private session.

MASTER ROBERT IS WINNER OF RACE

Carries Off Honors at The Grand National Steeplechase of 5,000 Pounds.

Liverpool, March 28.—Master Robert, by Moorisle II, out of Dods, owned by Lord Arlile, won the Grand National steeplechase of 5,000 with extras, run here today.

T. Laidlaw's Fly Mask, by Fly Fisher, dam by Bergonaski, was second, owned by W. H. Midwood's Silvo, by Minter, out of Ever True, was third.

Thirty horses ran. Master Robert, 25 to 1 against; Fly Mask, 100 to 1 against; Silvo, 100 to 7 against.

Friendly Slap On Back Unravels Drug

New York, March 28.—The hearty salutation of a federal agent who slapped another on the back, thereby upsetting a can of alleged Turkish paste which was being examined by the appraiser's storeroom, revealed opium hidden under the paste and led to the seizure of between \$50,000 and \$100,000 of the drug hidden in other tins.

FARMERS CLASH IN BUDGET DEBATE

Agriculture Minister and Agrarian Leader Heard in Legislature.

Fredericton, March 27.—The budget debate continued this afternoon with A. Chas. Fawcett, M.P.P., of Westmorland resuming after routine, and the Hon. D. W. Messerreau, Minister of Agriculture, followed him. Two more opposite speakers would be hard to find. Mr. Fawcett is always grave and serious—Mr. Messerreau is generally lighthearted and gay and seldom has a long countenance. Mr. Fawcett rather pictured the country as going to the dogs and the population deserting it, largely because of the burdensome Government taxation. He did not point out what taxation or what Government imposed it, and, inasmuch as there is no direct taxation imposed upon the people of New Brunswick by the Provincial Government, as to other provinces, he has been referring to the Federal impositions the people are growing under. At any rate, and the laughter of the House he declared, "You're a Liberal and you don't know it."

Notices of inquiry were given for Wednesday next, as follows: By Mr. Taylor: As to the amount of work performed by the Maritime Construction Company since 1917.

CANADA HAS 200 LONDON EMPLOYEES

High Commissioner Suspects Some of the Departments are Much Overmanned.

Ottawa, Mar. 28.—(Canadian Press) There are 200 Canadian civil servants in London, England, states the high commissioner, Hon. P. C. Larkin, in correspondence over the purchase of the new Canadian offices, the Union Bank Building, at the corner of Trafalgar Square and Cockspur street.

"As you know," says Mr. Larkin, in a letter to Premier King, "these activities (of the various Canadian departments) are scattered all over London, and being busy in my own office from morning till night, I am really unable to visit these different departments regularly and see what is being effected or to ascertain if they are much overmanned (which I suspect)."

ARCHITECT GETS \$412,344 TOTAL

Consulting Confere Receives \$71,990 For Ottawa Parliament Buildings.

Ottawa, March 28.—With the payment of an additional sum of \$12,146 in architect's fees, making a total of \$412,344, the Government has settled all claims for architect's work on the new Parliament Buildings, including the completion of the tower for which the plans were changed, involving a new contract. The entire work was carried out by John A. Pearson, with J. O. Marchand as consulting architect, on a basis of a 5/2 per cent. of the estimated cost commission.

Welland Takes Over Power Plant

Hamilton, Ont., March 28.—W. C. Hawkins of the Dominion Power and Transmission Co., announces the sale of the company's plant at Welland to the corporation, Welland will take over the whole plant, including the street lighting system, and will install hydro power, it was intimated.

DAUGHERTY RESIGNS AT WASHINGTON

United States District Attorney Is Forced to Quit Post.

COOLIDGE ACCEPTS

President Feels That Business of The Nation Has Been Neglected.

Washington, March 28.—Attorney-General Daugherty resigned today.

Surrounded by an ever-growing storm of criticism and under the pressure of many of his ranking party leaders, he consented to follow Secretary of the Navy Denby into retirement.

His resignation, promptly accepted by President Coolidge, clears the way for the administration of the last of the Cabinet members who have become storm centres in the oil scandal.

Business Is Neglected.

The factor which had greatest weight in bringing the question of Mr. Daugherty's status to an acute issue was a conviction on the part of the President that under present conditions public business is not receiving the attention merited by it in the Department of Justice.

Refineries in St. John Sent 11,230,096 Pounds of Sugar Away Last Month

A Canadian Press despatch from Ottawa says that during the month of February Canada exported 6,166,678 pounds of refined sugar, valued at \$609,625, or about one-half of the quantity exported in February, 1923.

In view of the fact that the total exports from the plant of the Atlantic Sugar Refineries here during last month amounted to 11,230,096 pounds, with a valuation of \$1,089,414.54, it is apparent that the Ottawa figures do not, to say the least, tell the whole truth.

A possible explanation of the difference in the figures is that two steamers which sailed from here near the end of the month carried away nearly 4,000,000 pounds—the Brant County, which sailed on the 28th, taking 3,500,000 alone.

P. E. I. GETS BETTER RATES BY EXPRESS

Hon. F. B. Carvell Speaks Very Plainly on the Subject and Express Chief Agrees.

(Special to The Times.)

Ottawa, March 28.—In reference to the application of the express companies for an increase in express rates, A. E. Dewar, representative from the Board of Trade, Charlottetown, P. E. I., appeared before the railway commission yesterday accompanied by L. L. Cook, department specialist of the Dominion live stock branch, and presented the case for P. E. Island.

Mr. Dewar argued primarily from the standpoint of the Island's agricultural products, and showed that, despite the improvement in service as the result of the car ferry, the increase in express rates in 1919 and again in 1921 were prohibitive and largely offset the advance secured from the car ferry. He quoted illustrations both on incoming and outgoing products where the present rates were anywhere from 25 per cent. to 80 per cent. of the gross value of the product.

That the commission was much impressed with the evidence given was apparent in the discussion when the chief commissioner, Mr. Carvell, told the representatives of the express companies that he clearly understood the situation, and that instead of increasing the rates on food products from P. E. Island they were to consider the whole matter and bring about an adjustment that would be more in line with what should prevail. This would apply to commodities like fruit, eggs, poultry, butter and cheese, but not to fish, it being held by the commission that the present rate of two cents a pound on fish shipped from Charlottetown to Montreal should be considered satisfactory, especially as compared with six cents a dozen on eggs and three and one-quarter cents a pound on dressed poultry and fruit. Mr. Hayes, the president of the Canadian National Express Company, admitted that the Island rates were out of line and promised that they would be adjusted.

Shipments from St. John went to Newfoundland and practically all of the Western European and Mediterranean countries.

FAILURE TO END STRIKE DANGEROUS

London May Be Thrown Into Darkness If Strike Is Extended.

SHOPS SWAMPED

A Great Demand Is Made For Kerosene Oil and Fuel.

BY LLOYD ALLEN.

British United Press.

London, March 28.—The Labor Government may fall if Premier MacDonald is unsuccessful in averting a strike of subway motormen in sympathy with tramway and omnibus strikers, political observers predicted today.

The sympathetic strike is scheduled for midnight and MacDonald summoned opposing parties in the transportation dispute to the ministry of labor early today for a desperate eleventh hour effort to avert the threatened walkout.

Such a strike would complete the paralysis of London's transportation and its consequence might readily involve the fall of the government. The crisis is considered the most serious MacDonald yet has faced.

Fearing the strike of subway workers inevitable, big business firms today converted all available space into bedrooms to accommodate employees who will have to sleep near their jobs.

City May Be Dark.

A strike of electric light employees to plunge the city into darkness in sympathy with the tramway and omnibus is contemplated.

In London shops were swamped with demand for kerosene and fuel. The secretary of the "British Fascist" has written to Arthur Henderson, Home Secretary, offering the services of that organization to assist the authorities in connection with the strike and "prevent violence, intimidation or destruction of property."

FIVE C.N.R. STATIONS BOOST BY RADIO

All in the West—Thornton and Tisdale Speak—Predict Best Year in Traffic.

Winnipeg, Man., Mar. 28.—Another step in the advancement of the radio plans of the Canadian National Railways, and the extension of the company's radio policy to this city, was marked last night when the first programme was broadcast from station C K Y. This is one of the five stations in Western Canada that the C. N. R. will use to carry out its radio plans.

Message from Thornton

A friendly message from Sir Henry Thornton, chairman and president, of the employees and other listeners-in was read. He mentioned the excellent reports he continues to receive regarding the courtesy and service rendered by those of the company's staff who come in contact with the public.

A note of optimism was sounded by the speaker in telling with much satisfaction that the western region of the Canadian National system last year handled more passengers, more grain and more general freight than ever before, and this year was hopeful of being able to exceed last year's figures.

Other stations in western Canada now broadcasting for the Canadian National include C F Q C Saskatoon, C K C K Regina, C F C N and C F A C Calgary, C J C A Edmonton.

SUMMER WORK AT FERNHILL IS PLANNED

Plans for the coming summer's work in the Fernhill grounds were discussed at the meeting of the lot committee yesterday afternoon. The superintendent, J. P. Clayton, reported that there was from 12 to 15 inches of snow yet on the ground, that a large amount of painting and glazing had been done during the winter and that hot beds were now being prepared for the seeds. It has been decided to place new markers at the path intersections this year and this will make it much easier for visitors to find their way around and to change the route for automobiles to conform to the turn to the right rule of the road. The avenue around the meeting house is to be widened and the new Westmorland road entrance at Cliva avenue will be completed.

Secret Ball Games Did Not Help Giants to Win. New York, March 28.—John McGraw is finished with secret ball games. After suffering a string of five defeats he wheeled the Milwaukee club into a secret contest at Sarasota, Fla., yesterday morning to prepare for a public one in the afternoon.

GREETINGS COME TO LADY BYNG

Her Excellency the Lady Byng of Vimy and party arrived in the city today in two private cars, the Cornwall and York, which were attached to the Montreal train, and which were cut off at the station and taken to West St. John to the wharf where the Canadian Pacific steamship Montclair was docked. The liner was due to sail this afternoon for Liverpool with a large and notable passenger list.

R. S. Barker, official secretary to Lieut-Governor Todd, came down from Fredericton today to extend to Lieut-Governor and Mrs. Todd and to present to her in their behalf a lovely bouquet of American beauty roses. The Governor and Mrs. Todd were guests of the Governor-General and Lady Byng at Rideau Hall at the end of the Dominion Parliament.

With Joe Hawley, first sacker, still laid up with a lame shoulder, Phil Todd, last year with San Antonio, Texas, substituted at first in a practice game at the Boston American club yesterday and provided the fielding sensation of the six-inning tussle.

The regulars beat the rookies, 9 to 6. With four victories for Detroit out of five games the Tigers will play the Toronto International League team again today.

Yesterday the Leafs outfit the Detroit team and won, 5 to 4. Emil Leveson, Indian recruit, blew up in the ninth inning yesterday, and Brooklyn, the only team he defeated in Cleveland this season scored 6 runs for a 8 to 3 victory.

Washington received its second setback yesterday, 3 to 2, at the hands of the Cardinals.

FATHER HERE TALKS WITH SON WILL IN MONTREAL

A. P. Paterson, whose son, Pierce Paterson, a student at McGill, was operated on at the Victoria General Hospital last week, talked with his close with the service this evening. The operation, Mr. Paterson, Jr., had a telephone instrument installed near his bed and by this means he was able to assure his father, on the other end of the wire in his home in St. John, that he was progressing favorably and expected to be around soon. Mrs. Paterson is with her son in Montreal. The operation followed an attack of appendicitis.

SEIZE BEER AND LOCK UP SHOP

A beer shop conducted by Maurice Bronman in Water street was closed up by local prohibition inspectors. Receiving information, they hired a team and went to investigate. As a result of their search they took away five cases of over-strength beer and a quantity of rum. After taking all of the wet goods, they put a lock on the door. A charge was then preferred against the proprietor, and his case was set for this afternoon in the police court.

EAT AND GET THIN

This is turning an old phrase once again, but modern methods of reducing fat have made this revision possible. If you are overfat and also want to physical exertion; if you are likewise fond of your dollars, you should try the Marmola Company, 4612 Woodward Avenue, Detroit, Mich., and give him (or send) one dollar. For this modest amount of money the druggist will quickly take you into the Marmola's ambition for a nice, trim, slim figure. He will hand you a box of Marmola's "Eating and Getting Thin" Tablets, in accordance with the famous Marmola's "Eating and Getting Thin" Tablets, which you must take after each meal and at bed-time until you begin to lose your fat steadily and easily. Then continue the treatment until your weight is what you desire. Marmola's Tablets are not only harmless but really beneficial to the general health. You don't need starvation diet or weakening exercises. Just go on eating what you like, leave exercising to the doctor, but take your little tablet faithfully, and without a doubt that fatty flesh will quickly take into the Marmola's leaving behind it your natural self, easily formed in firm flesh and trim muscles.

**NEW ZEALAND HEARS CANADIAN RADIO**  
Calgary, March 27—The growing efficacy of radio as an advertising medium for Canada is again shown by a letter just received by W. W. Grant Radio, Ltd., to the effect that the Canadian National Railways programme broadcast from CFON on Feb. 27 was heard at Motekua, New Zealand. The writer states that he picked up music broadcasting closed down. He also stated he was the only person at that point who had heard Canadian stations.

**Make and Keep Your Floors Attractive**

**DOMINION Linoleum Rugs** add to the general scheme of room decoration, and are available in many different combinations of color so that you may choose to suit individual preference.

Never before were so many pleasing patterns available. There are predominating blues, reds, browns and greys. Some patterns are of the large block type—others smaller, and some are distinctly floral. Every rug may be bought in sizes to suit individual rooms.

Each returning season there is increasing interest in and greater use of linoleum rugs. They are easy to lay, easy to clean, easy to move about at will. They look well. No fastening is needed—for linoleum rugs lay flat and cling to the floor because of their strong burlap back.

It will be worth your while to call on your dealer and see the many pleasing patterns for yourself. Or if you want to see what a wide range there is from which to select, write for our Rug Folder, in colors. It also contains suggested room treatments. And be sure, before you buy, to look for the Dominion Trade Mark on face of goods, and for the strong burlap back.

This label appears in colors on all Dominion Linoleum and Dominion Linoleum Rugs. Look for it.

The Evening Times-Star

ST. JOHN, N. B., MARCH 28, 1924

The St. John Evening Times is printed at 27 and 29 Canterbury street every evening (Sunday excepted) by New Brunswick Publishing Co., Ltd., J. D. McKenna, President.

PUBLICITY, EAST AND WEST.

Speaking of Vancouver's new dry dock, the Province of that city says: "No longer are we an anomaly, as we have been, an important port without a place in which to dock and repair the ships that visited us."

As to the truth of that St. John can cheerfully testify. In speaking of Vancouver ambitions and its record of accomplishment, the Province says: "One by one we are achieving the purposes at which we aimed. Twelve years ago, the five great ambitions of the city had before it were the creation of harbor facilities and the building of an elevator, a dry dock, the Second Narrows bridge and the University."

An enlarged publicity campaign which they are launching on the Coast may well remind us how many thousands, or hundreds of thousands of Canadians have never seen the Maritime Provinces and know little about them, though a visit here would well repay them and give them a larger knowledge of Canada.

The Maritime Provinces are much closer to the bulk of Canada's population than is the Pacific province, and in scenic attractions and as a summer playground they have as much to offer as any part of the Dominion. It is true that Canadians should see British Columbia and the West generally. They are indeed well worth seeing. But it is equally important that they should see the Maritimes also, and it can be done at much less expense than a visit to the Maritime division would give a pleasurable surprise, in addition to rounding out their information concerning the Dominion and giving them a new idea as to the resources and possibilities of this part of the country.

Vancouver's estimate of the value of publicity is sound. The right kind of publicity will pay big dividends, here or on the Pacific coast. The energy which Vancouver is putting into its campaign for more business and greater recognition—a campaign in which we wish it well—should spur us into a generous and profitable rivalry.

WHERE THE MONEY COMES FROM.

The Prime Minister's hint that the sales tax may be reduced is a reminder that, next to the customs duties, it is now the largest source of revenue, having produced \$94,911,000 for the twelve months ended February 28, as compared with \$86,225,000 in the corresponding months of 1921-22.

A return brought down in the House of Commons for three years, ending February 28 in each case, shows an increase of some \$20,000,000 from federal taxes. It is interesting to note the principal sources from which the revenue is derived, and the steady, and in some cases, remarkable increase. It is noteworthy, too, that while nearly all of the provinces have a bone of contention in the matter of the provincial revenue derived from liquor, the Dominion Government received from liquor taxation \$5,756,000 in 1921-22, and no less than \$8,755,000 for the twelve months ended with February of this year, an increase of some million and a quarter over the twelve months preceding. Taking February 28 as the end of the year we get these comparisons, the excise duties including the liquor revenue referred to:

substantial saving to help pay for the new building the Government is buying in Trafalgar Square. His letter indicates that a close examination of the number and essential duties of the Canadian staff in London is considerably overdue.

The Ottawa Government, according to the Wall Street Journal, now represents sixty-one cents, as compared with the dollar of July, 1914. There has been a decline of living costs in the United States of 19.9 per cent, since the high mark of July, 1920. But in spite of that, the American dollar's value is still 68.9 per cent. below the 1914 level.

The Ottawa Government chooses to practice a little of that economy which for some years past has been forced upon a great majority of Canadians. Press Comment THE PEOPLE AND PEACE. (Kingston Whig.)

THE PEOPLE AND PEACE. (Kingston Whig.) The peoples of all the nations have in the last analysis been responsible for the international situation — bewildered peoples, many of them, knowing not whether they go. They set and pull down leaders, some true and some false. It is they who, in the long run, will be the largest element in solving the present complexities, if there is a solution. Internal politics is a major key and one not to be ignored. How can the key be used to unlock the gates to peace and tranquility? To that question the leaders of the world are trying to find an answer.

HOW IT LOOKS AT NINETY. Dr. Chas. W. Elliot, President Emeritus of Harvard, has just celebrated his ninetieth birthday and the occasion was rich in formal and informal congratulations. In point of public esteem he stands perhaps as high as any man in his country, and some of the advice he gave to the young men of Harvard was of such a quality as to be useful not only to the undergraduates but to much of the world outside the universities. Among the things he said were these: "Serve your country; serve her in peace as well as in war; serve her by sacrificing money, for example high professional earnings, in order to take public office, elective or appointed office. Serve her by your personal exertion in the towns, the cities and communities where you settle for life. Use the opportunity of selecting studies which you have at Harvard to find out while you are here, in what work, in what profession you can find joy in your work all your life. The chief satisfaction of my life has come out of the joy in work. Avoid to the utmost introspection. Avoid dwelling on your own state of mind. Do not put off marriage too much. Do not wait until you think you can offer the girl you want to marry all the luxuries and privileges to which in her father's home she was accustomed. When you have made up your mind give the girl a chance to tell you hers. I wish for you all the attainment of a life of happiness. You cannot all expect to live as long as I have lived but I hope you will all live long enough to experience the kind of happiness I have enjoyed today. He has found happiness in useful work: "Look out and not in," he says, observing that the young man who is to become a useful citizen must learn not only the duty but the joy of unselfish service. "The less you think of yourselves in this world the better, and the sooner you get the passion for serving others, at home and abroad, at home particularly, the better." Not all are qualified to give advice, perhaps not many. Surely too many who presume to give it assume all too rashly the role of mentor. But the man who is happy and useful at ninety and can look back over so long a period of real service rendered, is entitled to advise, and to be heard. "A certain liveliness"—to employ the old war phrase—seems to have developed in the Fredericton sector where the Church Union and anti-Church Union forces are engaged. There is not a dull moment in the battle. It even looks as though they might kill the wounded—before they get through.

There are 200 Canadian civil servants in London, and Hon. Mr. Larkin, High Commissioner, says the activities of the various Canadian departments are scattered all over London and he is so busy in his own office that he cannot regularly visit the different departments and "see what is being effected, or ascertain if they are much over-manned, which I suspect." It is all too probable that Mr. Larkin's suspicions are well founded. In cutting down the staff he may make a

much more numerous than in Britain. Some of the smaller municipalities report more burglaries annually than the total for all the cities of England and Wales combined, a fact reflected in American rates for burglary insurance which are 15 to 20 times the rates charged in the principal cities of Britain.

So far as assault and robbery is concerned, there is scarcely an American city of the third or fourth class that cannot show an annual account of more assaults and robberies than all the cities of Britain put together. A law-ridden country seems to be a crime-ridden country. And many laws, much crime seems to be the rule.

GAS AND FUTURE WARS. Mr. Winston Churchill, in his recent book on the war, tells a story that has often been given partial and therefore inaccurate currency. More than a century ago Lord Dundonald conceived the idea that victory could be gained over a foe in war if the attackers used sulphur fumes in quantities when the wind was blowing toward the foe. He considered the idea so horrible that he divulged the secret only to responsible authorities, and the committee that examined it agreed that the plan was too human to try it. More than once in subsequent wars, in times of great need, the project was reconsidered, and on each occasion it was decided that the proposal would violate the principles of humanity and international law. How Germany hit on the conception is now well known, and no question of humanity was allowed to interfere. And what is even worse, though the wind was blowing toward the foe, moral considerations should have weighed even in connection with war.

Good News For Every Car-Owner

A New Way To Buy Batteries

Up until recently you have been paying high prices for batteries. There was a sharp reduction in battery prices last fall, led by Exide. Up until now, getting the battery you want has often been a matter of much inconvenience. Now, Exide is able to announce another step forward. When you have wanted a particular make of battery, as most car owners do, you have had to hunt out the service station that sold that one make of battery. It has been a fixed rule of the trade that each battery service station sell only one make of battery. This practice has meant not only inconvenience to you but has been the principal cause of high battery prices. If the service station can sell but one make of battery, its sales are limited. Limited sales require larger profit per sale if the dealer is to make a reasonable income. This extra expense, comes out of your pocket without giving you any additional value. Therefore, now, Exide has decided to break through the convention of years regarding exclusive service stations. We have announced to the trade our readiness to sell Exide Batteries to any and all reputable battery dealers. Go to any service station or dealer in batteries and ask for an Exide for your car. We have done our part to enable him to furnish it to you at a profit to himself. The same holds true of an Exide for your Radio set. Who Pays for "Free Service?" Another reform in which Exide is taking the leadership is in doing away with "free service." You do not get something for nothing in this world; not for long, anyway. For years it has been the practice for service stations to test batteries free, to supply them with distilled water free and to render other kinds of service at less than cost. Somebody has been paying for this. You have been paying for your own service in advance, in the original price you paid for your battery. You have also been paying for service which was extended free to all makes of batteries, even to those orphan batteries that have no service stations of their own. All this has gone on the price of YOUR Battery. We believe that such practices are relics of a moss-covered past, unjust to the car owner and unfair to the service station. Pay for What You Get We have recommended to all service stations that they charge a reasonable fee for service. Not only is it fair play to the service station, but it is for your own interest in keeping down the purchase price of batteries. If you find a battery man reluctant to make a charge for servicing your battery (perhaps he has done it free for years) we hope you will insist on his taking a reasonable fee. When you buy an Exide Battery today you are paying for nothing but the battery. The price is lower than ever before—the quality unchanged. When you do not need any service, why pay for it hidden in the first price? Service you do need service, pay for it at the time. Isn't that reasonable? So, our policy, which we believe will appeal to all forward looking men and which, we hope, will be followed by other battery manufacturers, is: "Let the battery user get the battery he wants—at a reasonable price—where he prefers to deal, and pay the dealer for service when he gets it."

**DEATHS**

**George H. Whittaker.**  
The death of George W. H. Whittaker, occurred at his home 88 Adelaide street, about 12 o'clock Wednesday night after an illness of about seven weeks. Mr. Whittaker was 82 years old, born in Kings county, but had resided in St. John for nearly 50 years, and at one time was a prominent shipbuilder. He leaves besides his wife, four sons, George A., Archibald R., Chester D. and W. S. Whittaker, also two daughters, Mrs. Hamilton Smith, and Mrs. S. L. Peters, and one brother, Allan, all of St. John. He was a staunch member of the Victoria street Baptist church and will be missed by a wide circle of friends.  
The funeral will take place on Saturday afternoon, service at the house at 2 o'clock.

**Mrs. Marvin Chase.**  
Many St. John friends will read with regret of the death at Tacoma, Wash., on March 18th, of Mrs. Marvin Chase, youngest daughter of Mr. and Mrs. Herbert J. Olive, of Cashmere, Wash. The Cashmere Record says:  
The news of the death of Mrs. Marvin Chase came as a shock to the community Tuesday when it was learned that she had succumbed after an operation which she underwent at a Tacoma hospital on Monday. Mrs. Chase was the youngest daughter of Mr. and Mrs. Herbert J. Olive, of Cashmere, and was widely known in this section.  
Mrs. Chase was born at St. John, N.B., August 21, 1871, and came to Cashmere with her parents in 1902. Here she became acquainted with Marvin Chase, who was then engaged in the construction of the High Line Canal and on September 2, 1903, they were united in marriage at Cashmere. Mrs. Chase was the youngest daughter of Mr. and Mrs. H. J. Olive and besides her parents and her husband, she leaves three sons, Herbert, 19 years of age, who is now attending the State College at Pullman; George, aged 16, and John, aged 9; also a step-son, Major C. E. Chase, of Wenatchee and a step-daughter, Mrs. Clifton Bourne, living in San Francisco, Calif.; and a brother, Leonard Olive, of Manson.  
The fact that her parents are so prominent in Wenatchee Valley and the prominence of her husband over the state, together with her own exceptionally beautiful character, gave her many friends and acquaintances also.

**Havelock Wilson Bond.**  
The sincere sympathy of the community will be extended to Mr. and Mrs. H. A. Bond, of Sandy Point Road, in the death of their only son, Havelock Wilson Bond, which occurred yesterday after a lingering illness. The young man was 20 years old.

**Captain Patrick Ansborough.**  
Many friends will be sorry to learn of the death of Captain Patrick Ansborough, for many years a resident of St. John, who died last evening at the residence of his sister in East Boston after a short illness. Captain Ansborough leaves one son, Phillip, of New York, and one sister, Miss Katherine Ansborough, of East Boston. E. J. McLaughlin, of St. John is a nephew. Captain Ansborough was a son of the late John Ansborough and was more than 80 years of age. The funeral will take place on Saturday morning at 10 o'clock to the Church of the Assumption in East Boston.

**WOMEN SHOULD ACT QUICKLY**

When a woman finds herself afflicted with backache, headaches, nervousness, dragging-down pains, pain in her side, irregularities and irritability, dark circles appear under the eyes and her complexion gets sallow, she may be sure the underlying cause is some ailment peculiar to her sex. Such women should act quickly and take the great American remedy for such conditions, Lydia E. Pinkham's Vegetable Compound, and they may be saved years of suffering. For generations this old-fashioned root and herb medicine has been restoring ailing women to health, and it may be relied upon with perfect confidence.

**OUTSIDE MASONS HERE FOR REUNION**

The annual reunion of the A. and A. S. Rite, Lodge of Perfection, was held yesterday in the Masonic Temple, with sessions morning, afternoon and night, with an intermission at 6:30 o'clock when the members enjoyed a banquet. The entire day was taken up with lodge business and the conferring of degrees. Among those present were about 80 members from different parts of the province.  
At 6:30 o'clock the members were seated at three long rows of tables in the Temple building, presided over by Reginald F. Wright, T. P. G., and all enjoyed a bountiful repast. Brief addresses were delivered by Edward H. Cairns, presiding officer; James Mc Murray and Dr. Thomas Walker, all thirty-third degree Masons.  
The chief speaker of the evening was Very Rev. Dean Llywd, of Halifax, who delivered an address on matters pertaining to the order.

**LODGE HAS ENTERTAINMENT.**

A successful meeting of Marlborough Lodge, 207, Sons of England, was held in their hall, Germain street, last evening, when about 40 members were present. One candidate was initiated and five new propositions were made. After the business, President P. L. Griffin closed the lodge and a free and easy was carried out. The Sons of England minstrel troupe and jazz band entertained the members. D. Bevans, W. J. Bawn, D. E. Olive, J. Blandin, M. L. C. Beaman were the entertainers. Brother R. J. Phillips gave a recitation, George Lewis sang, the lodge quartette also sang and R. I. Carlous spoke. Brother Beaman sang and Brothers B. W. Thorne, Pritchard, Lawrence and the president spoke.

**Blackheads Go Quick By This Simple Method**

Blackheads—big ones or little ones—soft ones or hard ones—on any part of the body go quick by a simple method that just dissolves them. To do this get about two ounces of peroxide powder from your druggist—sprinkle a little on a hot wet cloth—rub over the blackheads briskly for a few seconds—and wash off. You'll wonder where the blackheads have gone. Pinching and squeezing blackheads only open the pores of the skin and leave them large and unsightly—while the simple application of peroxide powder and the water dissolve them right out, leaving the skin soft and the pores in their natural condition.

**MUSICAL RECITAL GIVEN.**

Under the auspices of the Women's League of St. David's church an organ recital of pleasing selections and a programme by some of the best talent in the city was presented last evening by Bayard Currie, in St. David's church, where Mr. Currie is organist. Mrs. Blake Ferris and Miss Ethel Parlee, soprano soloists, and Mrs. J. J. Gunn, violinist, assisted in the evening of instrumental and musical gems. The group of organ selections in which Herkel's Shepherd's Song, Mall's March Solennelle and Offenbach's Barcarolle from "Les Contes d'Hoffman," were especially pleasing to the audience. Mrs. Gunn was at her best in Allegro, Moderato, De Beriot, a difficult selection. She also played Legend, by Wienawski, a second number. Miss Parlee sang with fervent expression, Costa's I Will Extol Thee O God, and Mrs. Ferris was in splendid voice when she sang Gounod's O, Divine Redeemer. With selections from Rubenstein, Hollins and Frederick Lux, the evening closed with the National Anthem. A silver collection was taken for the Women's League.

**SWEDEN DISCUSSED.**

"Sweden" was the subject of the very interesting programme given at the meeting of the Eclectic Club last night at the residence of Mrs. John McMillan, Germain street. Mrs. Fred A. Foster had charge of the programme and gave the introductory paper. Mrs. Harold Lawrence gave a paper on "What Women Have Done in Sweden," and Mrs. Silas Alward in her paper told of the arts and crafts of Sweden. Mrs. Carter and A. Armstrong, both of the church in Sweden and Mrs. Cortland Robinson gave a sketch of Selma Lagerlof.

Come to the Pythian Castle, Union Street, on Friday evening, at 8 o'clock, to hear the four Candidates for the Mayorally outline their Platforms.

**Hourly Test makes Quaker Best**

The superior baking quality of Quaker Flour is due to the selection of the wheat and the scientific manner in which it is milled. Even more important is its uniformity.

Flour must maintain an unvarying quality to produce the best baking results.

Quaker Flour is subjected to severe tests every hour during the milling process. That is why Quaker Flour never varies in quality.

Every sack is milled the same. That is why it always bakes the same.

**FIVE BAPTISED.**

The special services at the Coburg street Christian church have attracted large congregations each night this week and last night the church was well filled. Rev. W. J. Johnston, the pastor, gave an eloquent address and Evangelist George Knight led in an appealing vocal solo. The work of the church is prospering under Mr. Johnston's pastorate. Last Sunday three more candidates were baptised, two others having been baptised on the previous Sunday.

**LECTURES ON RIVER TRIP.**

The senior and intermediate groups of the Carmarthen street Methodist church spent an enjoyable evening at the Natural History Society's rooms last night, when William McIntosh, curator, gave an interesting lecture on a canoe trip from Grand Falls to St. John. Lantern slides showed the beautiful scenery along the St. John River. After the lecture Mr. McIntosh showed the girls the museum collections. He was given a hearty vote of thanks on the motion of Miss Doris Brindle, seconded by Miss Nellie Carter. The leaders of the groups, Miss Estella Parle and Miss Ethel Brindle, expressed their gratitude to Mr. McIntosh for his kindness.

**While Sunlight Works**

YOU have more leisure hours on wash day if you use Sunlight Soap. Away downstairs in the wash tub this wonderful soap will do the labour. You rub the things with Sunlight—you put them to soak—and then its penetrating, cleansing ingredients search through and through the fibres loosening even the hardest dirt or the oldest grease stains completely. No wash board rubbing, no boiling, no hard work. Then, with rinsing, the dirt runs away and your clothes are ready for the line, purified and snowy clean.

Wash day should not take your labour—only Sunlight's gentle strength.

ADVENTURES OF THE TWINS

By Olive Roberts Berton

SAUCE FOR THE GOOSE

The patent-leather cat, rubber dog and wooden duck were arguing. "Oh, dear!" said the napkin grand. "Doofunny Land would be a grand place if it were not for that dreadful rubber dog."

Constipation Banished

A druggist says: "For nearly thirty years I have recommended the Extract of Roots, known as Mether Seigel's Curative Syrup, for arresting and permanently relieving constipation and indigestion. It is an old reliable remedy that never fails to do the work."

"trouble is," croaked a worse voice, "just look at me. I am still shivering. I just hopped past that old wooden waddle duck and he snapped at me with his old scissor bill. I thought when I came to Doofunny Land that I should be safe. But it seems that I was mistaken. Ducks are far, far fiercer than dogs and cats," said the puffy cotton frog.

THE OLD HOME TOWN

By STANLEY

agreed Nancy. "The Fairy Queen told us that Doofunny Land was a funny place."

"And so it should be—the merriest place in all Fairyland. Come! I have an idea. What's sauce for the goose is sauce for the gander."

"Busy, Mister Bear?" asked Mister Fuzz Wuzz.

"Nup," said the bear. "Not doing a thing."

"Well, then," said the little man, "I've got a job for you!"

"The Twins followed him, and by and by he came to the place where the teddy-bear was."

"Hi, ha, ha! Why of course I'll do it," laughed the bear in a minute. "Sure Mister Fuzz Wuzz. I'll go right away."

Still the Twins didn't know what the secret was about, but no sooner had Teddy gone than the pipe-cleaner man beckoned to them, and all three followed on tippy toes.

Pretty soon they came to a place where the patent-leather cat and the rubber dog and the wooden waddle-duck were having an argument.

Suddenly a horrible voice said, "Ah, ha! Now I've got you! I'm going to eat you all up—all three of you."

The Twins and Mister Fuzz Wuzz stopped and hid. The secret was a secret no longer. It was Teddy Bear who

was talking so fiercely and pretending that he was a big growly hungry bear.

"Oh, goodness!" quacked the duck, turning yellow with fear.

"Yip! Yip!" barked the rubber dog, turning redder than ever, then whistling through the whistle in the top of his head as he always did when excited.

"Mew! Mew!" shrieked the black cat, turning, if possible, blacker than ever.

"Oh, please don't eat us, Mister Bear!"

"Yes, I'm going to eat you all," growled the Teddy Bear, making his voice as big as he could. No one could see him and they all thought he was as big as an elephant.

"And now," said he, "I'll tell you why I am going to eat you."

Head For Farm Labor.

Capt. Jaffe says that quite a number of the Arab sheiks and other Moslems as well take advantage of the laws of polygamy to have several wives and to use them as farm labor. Mustafa Kemal has abolished polygamy in Turkey, but it is still the law in Palestine.

Capt. Jaffe was born in Belfast of Jewish parents and was educated there. He is a good type of the cultured Jew and was in uniform 24 hours after the war broke out, serving first with the machine gun corps and later transferring to the Jewish Legion. He remained in Palestine after the war, made his home in Jerusalem, married a Jewish girl there and has a fine baby son. He is here as the representative of the American-Palestine Real Estate Agency and is promoting the sale of lots in Palestine to Jews in Canada and the United States.

"We believe that the soil of Palestine should be brought back to the Jews," said the Star. "As it is now only 7 per cent. of it is in Jewish hands. He says, however, the country could only support 4,000,000 of the 12,000,000 Jews in the world."

Regarding the controversy over the appeal for aid for needy German children which is now being made in all allied countries, Capt. Jaffe said that he had been through Germany not long ago and he saw evidences of need and hunger among the people of Germany. There was no question about the wealth of some Germans but that did not solve the problem of the hungry children.

Any breaking out of the skin, even fiery itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruptions such as rash, pimples and ring worm.

It seldom fails to remove the torment and disfigurement, and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Rowley's Mentho-Sulphur from any good druggist and use it like cold cream.

Whatever Your Skin Trouble Zam-Buk IS THE RIGHT THING TO USE

WHEN discovered 25 years ago, Zam-Buk revolutionized the treatment of skin ailments. Nothing since has approached it for real medicinal value. Zam-Buk is unequalled for the way it soothes pain, allays inflammation, draws poison out of a wound or sore, and overcomes eczema, salt-rheum, psoriasis, scalp trouble, blood-poison, etc.

Zam-Buk's unique success is due to certain rare and costly herbs exclusively used in its manufacture. It is no fatty, pore-clogging ointment, but a pure, refined balm that soaks naturally into the tiny pores of the skin, and thereby attacks disease at its roots. Zam-Buk makes the whole skin healthy.

A box of Zam-Buk should be kept handy on every homestead.

W. LASCELLES-SCOTT, F.S.Sc. Dr. PATTERSON SHIBLEY, of Wyoming Avenue, Washington, D.C., says:—"For years I have employed Zam-Buk in my practice, and I know of nothing to compare with it for skin troubles, from roughness and irritation to chronic disease. I would never hesitate to recommend this herbal Zam-Buk amongst my own patients."

Dr. ANDREW WILSON Ph.D., M.B., the famous Medical Authority, says:—"Zam-Buk may be relied upon as an ever-ready antiseptic dressing which has the additional advantage of unique soothing and healing properties. Zam-Buk exercises a special action on torn and severed tissues, keeping them clean and helping them knit together again."

Leading Scientists Have Tested ZAM-BUK and found it excellent for the skin.

IS JEW AND SHEIK; BORN IN IRELAND

Capt. Israel Jaffe, War Hero, Pays Visit To Toronto.

That rarest of personalities—an Irishman, a Jew and an Arab sheik—literally three in one, is at present a visitor to Toronto in the person of Captain Israel Jaffe, chieftain of the Legion of Honor, Croix de Guerre, D. S. O., says the Toronto Star. But Captain Jaffe is not exactly working hard at the sheik business.

In fact, he laughed when The Star asked him if he were a real sheik as reported.

"I am," he confessed, "but only in a titled sense. I have taken advantage of the privileges of a sheik, either real or assumed."

"I was friendly during my six years in Palestine since the war ended with a number of Arabs and they gave me the title of sheik as a distinction at their hands."

"What Rogita Forbes said about sheiks is essentially correct. In fact, Rudolph Valentino would be a sort of super-sheik, if such a being existed. I would be thrilled if real danger romantic women would get it if they were captured by an honest-to-goodness sheik. I would not envy their lot."

WHIRLED ABOUT BY MACHINERY

Sackville, March 27—Thaddeus Gould, who was severely shaken up and bruised as the result of an accident at the Fawcett foundry, is reported to be making a rapid recovery. Mr. Gould was working in the mill room when his clothing caught in the machinery and he was whirled around several times, practically every stitch of clothing being torn from his body. The prompt action of his fellow workman, George Hicks, in forcing the belt off the shaft with his hands, probably prevented a more serious result. Mr. Gould received a severe cut in the chin, necessitating several stitches, but fortunately no bones were broken.

SAYS 17,000 NORSE TO COME TO CANADA

Port Arthur, Ont., March 27—Immigrants from Scandinavian countries numbering nearly 17,000 will arrive in Canada this year, stated Helge Petersen, secretary of the Scandinavian-American Line, who arrived here today from Copenhagen. Mr. Petersen says about 10,000 Finns, 2,000 Danes, 2,000 Norwegians and 3,000 Swedes will arrive here shortly.

ACIDS IN STOMACH CAUSE INDIGESTION

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bisulphate of Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisulphate of Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands on people who enjoy their meals with no more fear of indigestion.

Social Notes Of Interest

Mrs. W. A. Fisher received for the first time since coming to the city at her residence, 101 Pitt street, yesterday afternoon. She was assisted by her mother, Mrs. C. Blewett, of Peterboro, Ont., and Mrs. E. N. Williams, of Cornwall, England. The decorative scheme was very pretty, being carried out in blue and yellow with daffodils and hyacinths, the lighted candles corresponding. The confectionary and icing of the fancy cakes were also of the same color. Mrs. Percy Turcot and Mrs. John R. Gale presided over the tea cups and Mrs. A. Neil McLean ushered. Those who served were Mrs. Hugh Gregory, Mrs. W. A. Clark, Mrs. Andrew W. Murray and Miss Marjorie Knight. Mrs. John MacLean and Mrs. W. Grant Smith replenished and little Miss Marie Fisher, the daughter of the hostess, ushered the guest at the door. In spite of the inclement weather, many took the opportunity of meeting formally Mrs. Fisher at her mother and sister, who are most welcome in St. John.

Miss Marjorie Simonds and Miss Geraldine Melick left yesterday to spend a few days in St. Stephen.

Miss Audrey Kerr, daughter of Mr. and Mrs. S. L. Kerr, was a young hostess at the Venetian Gardens, Thursday evening, for several of her young friends at an informal dance.

Mrs. J. Holley, of Sydney, N. S., is visiting her daughter, Mrs. Hudson, and Rev. J. Hudson. Mrs. Holley will arrive in Montreal after Easter and will spend some time with her son, Mr. John Holley.

Many friends in St. John will be interested in the announcement of the marriage of Miss Hattie Nuel Smith to Mr. Henry Platt Buncie, of Los Angeles, California. The ceremony was performed in Los Angeles by Rev. Dr. N. H. Buncie, brother of the groom, on March 14. Mrs. Buncie has many relatives and friends in this city where her family has been well known for many years. Of recent years Mrs. Buncie has made her home with relatives in Boston.

WILLING WORKERS HOLD TEA AND SALE

The Willing Workers of the German street Baptist church had many patrons at their pretty and nicely arranged supper and sale last night and they served a bountiful repast that was done ample justice. The proceeds are to go towards paying for the recent improvements which the Willing Workers have made in the church property and they will amount to a satisfactory sum. Mrs. W. C. Cross is the president of the Willing Workers. Mrs. Donaldson Hunt was the general convener for the entertainment. The supper was in charge of Mrs. John C. Earle, Mrs. Grace Gilmour and Mrs. W. P. Bonnell. The large serving table was graced with yellow daffodils attractively arranged and each of the small tables was also ornamented with daffodils. Mrs. E. L. Rising and Mrs. Arthur B. Gilmour presided at the serving table. The pantry sale was in charge of Mrs. Burton Fowler and

Their Romance Takes a New Twist When Lovers Find They Are--Twins

By HAROLD MATSON.

Charlestown, Mass.—There always had been something strange to James Brady about the pretty little girl who lives at 75 Tremont street, just two blocks from his home, on the slopes of Bunker Hill.

James is young, just 19, but for eight years the girl has fascinated him. When he was a small boy sight of her made his heart jump. He blushed when his eyes met hers. Her smile was free, but it embarrassed him. He fought fist battles in her defense, and the fellows said he was her beau.

But he wasn't her beau; yet he was drawn to her. The girl, Josephine Buckley, held a correspondingly tender feeling toward him. He was her hero, her big brother. As they grew older, playing together, going to school together, James watched her beauty bloom. She had thick black hair, flashing black eyes, soft complexion and a lively smile. And James was particularly proud of her because she didn't go to the public dance halls with the other girls.

It was inevitable that the two should become sweethearts.

But an intangible, hidden influence held their love in check. "I wish I had a sister like you," James confided to her just last week. "That's it, is it?" retorted the girl, piqued a bit. "Well, I have dreamed that my lost brother is like you. I dreamed that he parts his hair just as you do, and he smiles as you smile."

Unknowingly, in that exchange of affection, they had put their finger on their true relationship!

For James Brady and Josephine Buckley are twins!

A priest in a local Catholic orphanage has just uncovered it. The two had been separated when their mother died, 15 years ago. Mrs. Michael Buckley, an aunt, adopted Josephine, but she couldn't afford to take twins into her already large family. So James was left in the orphanage.

Three years later Mrs. John Brady adopted James as her own son, changing his name.

So it was that the two, living within two blocks of each other, were brought up without knowing their relationship.

Mrs. A. C. Wells, assisted by Miss H. Cahill and Mrs. Charles Robinson. Those who assisted with the supper were: Mrs. H. H. Mot, Mrs. William Lewis, Mrs. E. A. Dyckman, Mrs. P. Lewis, Mrs. H. C. SENATOR FOWLER BETTER. The condition of Senator Fowler, of Sussex, was stated by his family yesterday to be much improved and hopes are entertained for his recovery. He is ill in Ottawa.

JOSEPHINE BUCKLEY AND TWIN BROTHER, JAMES BRADY.

Josephine had pined continually for her lost brother, and when James Brady entered her life he came as the next best thing. "Jim's saying he would like me for a sister set me dreaming about my twin again," Josephine explains, and it was at her request that the priest delved into the orphanage's records.

All the Bradys and the Buckylys, in fact, all of Charlestown, are still exclaiming, panting for the breath they have lost: "Think of that! Jose and Jimmie!"

And the twins are getting acquainted all over again, James embarrassed at the way his sweetheart-sister takes liberties with him, throwing her arms around his neck and kissing him, and Josephine recalling that: "I always did say that my brother would look just like Jimmie!"

SISTER MARY'S KITCHEN Eat AND-- Lose Weight--Gain Weight

Juice one lemon, 1 slice lean cold boiled ham, 12 stalks asparagus, 1/4 head lettuce, 1 dill pickle, 1 half-inch slice vegetable roast, 4 tablespoons cauliflower, 2 giuten rolls, 1 apple, 1 pint skimmed milk. Total calories, 1070; protein, 208; fat, 284; carbohydrate, 478; iron, .0154 gram.

Two large carrots, 1/4 cup chopped almonds, 1 cup stale bread crumbs, 2 small onions, 1 tablespoon minced parsley, 1/4 cup diced celery, 1 egg, 1/2 cup vegetable stock, 2 tablespoons butter, 1 teaspoon salt, 1/4 teaspoon pepper. Wash and scrape carrots and put through the fine knife of the food chopper. Peel and chop onions. Put vegetables in a saucepan with water to cover and boil until tender, about 20 minutes. Drain and measure. Liquid. There should be three-fourths cup. Add boiling water if necessary. Add nuts and bread crumbs to vegetables and mix well. Add egg, onion, salt and pepper and butter and stir with a fork until blended. Add vegetable water to make moist and turn into a well-buttered mold. Cover with buttered paper and take 40 minutes in a moderate oven. Unmold and garnish with parsley to serve.

Total calories, 1124; protein, 225; fat, 646; carbohydrate, 238; iron, .0059 gram.

One banana, 1 lemon (juice), 1/2 cup uncooked cereal, 1 soft bottled egg, 1 cup cream of tomato soup, 1 slice cold boiled ham, 4 tablespoons creamed potatoes, asparagus salad (12 stalks), 1/2 head lettuce, 2 slices vegetable roast, 4 tablespoons white sauce, 1 baked potato, 4 tablespoons cauliflower, 4 tablespoons fruit salad, 4 tablespoons mayonnaise, 2 cubic inches cottage pudding with 2 tablespoons chocolate sauce, raisin puff pudding, 4 tablespoons whipped cream, 4 tablespoons table cream, 1 tablespoon sugar, 2 tablespoons butter, 2 pieces buttered toast, 2 2-inch squares corn bread, 2 slices whole wheat bread, 1 pint whole milk, 1 apple. Total calories, 2548; protein, 286; fat, 1542; carbohydrate, 1780; iron, .0169 gram.

One tablespoon of whipped cream is dropped on the plate of tomato and the other "garnishes" the fruit salad. Two are planned for the raisin pudding. The cauliflower for this menu, as for the entire family except the reducing member, is boiled and then arranged in a baking dish and well seasoned with butter and pepper and a generous layer of grated cheese. The dish is put in a hot oven until the cheese is melted. The butter and cheese add many calories to the cauliflower. It is very necessary that everyone eat plenty of fruit, especially one whose diet is rich in fats and carbohydrates. An apple at bedtime is worth remembering.

LADIES' AUXILIARY HAS SUPPER SALE

The Ladies' Auxiliary of the Brotherhood of Railroad Trainmen held a successful supper and sale in Oddfellows' Hall, Market Place, West St. John, last night when more than 800 patrons were served at supper. The hall was tastefully decorated with the colors of the auxiliary, white, green and red, and each of the tables was decorated with one of the colors. Mrs. J. E. Allingham and Mrs. A. E. Cox, and the green table conveners were Mrs. J. Brittain and Mrs. F. Silliphant. Those who replenished were Mrs. E. Conway, Mrs. G. Merryweather, Mrs. J. Donner, Mrs. A. Galbraith, Mrs. J. Tippet, Mrs. A. Bunell, Mrs. R. Peer, Mrs. T. Graham, Mrs. W. Robson and Mrs. S. Ervin. The jellies were in charge of Mrs. G. Wiley. The ladies of the Auxiliary served. A candy table was in charge of Mrs. D. Ring and Miss Nellie Walsh, and the fancy table was presided over by Mrs. Charles Coory, Mrs. T. L. Foley and Mrs. W. Thompson. Those in charge of the tickets were Mrs. W. Johnston and Mrs. J. B. Charters.

the anniversary celebration. Mrs. Dora Cowan, the most excellent chief, was in the chair, and there was a good attendance of members. Arrangements were made for an initiation to be conducted at the next meeting when Moulton Temple degree staff will put on the work.

Why do you eat Bran?

TO FIGHT CONSTIPATION—the most dangerous condition your system can become chained to—to get free from bleary biliousness, dull headaches, nausea—etc., etc.!!!

Rid yourself of this dangerous condition—or start "slipping" and become a prey to any one of the most dreaded human ailments which have their beginning with constipation and toxic poisoning!

Fight constipation as you would fight fire! Fight it with bran—Kellogg's Bran—BECAUSE IT IS ALL BRAN! Don't temporize! Don't waste time and health by going half-way! You need ALL BRAN; you need the bulk, the "roughage" of ALL BRAN, because it sweeps, cleanses and purifies!

REALIZE THIS—foods with a part bran content can only relieve constipation in proportion to the amount of bran they contain! If they are 25 or 50 per cent bran—you may get 25 or 50 per cent relief!

REMEMBER THIS—Kellogg's Bran is ALL BRAN and is guaranteed to give you positive and permanent relief if you will eat two table-spoonfuls daily, or as much with each meal in chronic cases!

Don't delay; don't fuss with half-way measures! You have too much at stake! All grocers sell—

**DISARMAMENT PLANS BEING DRAWN BY LEAGUE OF NATIONS**

**Expects 1924 to Pass Into History as Disarmament Year.**

Geneva, March 27.—(United Press)—The League of Nations is definitely decided that 1924 shall pass down in history as "disarmament year."

After nearly four years of study and preparation of the question, including consultation with the half hundred states that are members of the league, the latter is convinced that it has now reduced to a definite and concrete basis all that can be done in the matter of reduction of armaments at the present time.

These possibilities will during the course of the coming summer be whipped into shape in the form of international treaties for submission to the fourth general assembly of the league in September.

Once the league's assembly has pronounced the final work on these treaties, all members of the league, as well as States that are not members, will be asked to sign them.

If the signatures are not forthcoming blame for the failure of disarmament, leaguers declare, will not rest with the league but with the individual states, and each will be obliged by its refusal to sign the treaties to accept full responsibility before the entire world.

The league has concentrated on three different projects, each dealing with a special feature of disarmament. The first of these projects has now been sent to all governments including the United States and other non-members of the league, is the league's mutual pact of guarantee. It provides that in exchange of guarantees by all signatory powers to protect each other from outside aggression that each nation shall proceed to a partial disarmament compatible with its national security. All Governments have been

asked to send into the Secretariat of the league their final observations on the draft project as now prepared. These observations will be placed before the fourth assembly of the league in September.

The second great project towards disarmament which the league is now whipping into shape and which it hopes to launch at the September assembly is that for the suppression of the private manufacture of war material and the international traffic therein. One of the greatest causes of war in the past has been the great industrialists of the various countries who are engaged in the manufacture of war material.

The league hopes to secure the signature of all nations to an agreement that the governments themselves will take over or control the production of all war material and the complete regulation or prohibition of all international traffic therein.

The most encouraging feature of the league's work along this line to date is the fact that the United States officially participated in preparing the draft project of the international treaty on this subject and has given the league definite promise that if the treaty is judged practical the United States will undertake to enact the necessary legislation to render it effective as far as the United States is concerned.

The Ship Programme. Finally, the third great disarmament project which the league hopes to put through this year is a treaty extending the principles of the Washington Naval Disarmament Treaty to all non-signatory powers that possess capital ships. This draft treaty was whipped into shape by a meeting of naval experts summoned by the league and held at Rome in February. It is expected that the final draft of the treaty will also provide for a long naval holiday of ten years or more and that a world-wide basis will be established that for the time being at least the naval armaments of most of the powers of the world will not exceed what they are now, and that an actual reduction will afterwards be possible.

It is conceded, however, that certain powers like the A B C nations of South America, China, Poland, Roumania and other nations that are now almost without fleets will have to be allowed to construct enough to insure their national defense.

PHONE CONFERENCES END. The conferences of the district superintendent of the New Brunswick Telephone Co., Ltd., came to a close last night when the visiting superintendents were the guests of the employees at their annual masquerade ball. **HOPES TO SETTLE WITH ITALIANS**

London, March 27.—Premier MacDonald told the House of Commons of his desire for a settlement of the difficulty with Italy over the East African region of Jubaland.

"Nobody values the friendship of Italy more than I do," he declared, "and if I could only manage to get this long-drawn controversy ended, I should be a very happy man. I am hopeful that before very long these outstanding grievances will be removed and that the old historic relationships between Italy and ourselves will be restored."

**CHURCH UNION BILL REFERRED BY HOUSE**

Ottawa, March 27.—The Church Union Bill was referred by the House of Commons this afternoon to the standing orders committee for the purpose of deciding whether the notice given of the bill has been sufficient to comply with the rules of Parliament. This action was taken following a report of the clerk of committees in which the facts were recited, including the filing of a protest by the anti-unionists in the Presbyterian church. In view of this protest the clerk of committees recommended that in accordance with the practices of the House in cases of doubt the bill should be referred to the standing orders committee for the purpose of resolving the doubt as to compliance with the rules.

Many Don't Know What is the Matter Until Nausea, Sick Headache and Bad Digestion Are Traced to Their Cause.

Self poisoning is the term now used to indicate that terrible run-down, nervous, draggy feeling that so many people have. When the liver is clogged and fails to help with digestion, elimination of waste from the bowels and purifying of the blood, this state of slow poisoning results. Cleanse and tone your liver! Put your system in condition! Feel your very best again! Try just a spoonful of Dr. Thacher's excellent Liver & Blood Syrup after the next few meals and notice the quick improvement in the way you eat, sleep and feel—the return of strength, vigor and energy. Battle Over Church Union Bill Marked By Bitterness

HOT DEBATE  
LAST NIGHT  
IN CAPITAL

Heated Passages Occur Between Speakers in Fredericton Discussion.

VOLLEY OF HISSES

Reference to Women Workers On Petitions Brings Disapproval.

Fredericton, N. B., March 28.—(Canadian Press).—The final session of the hearing of the church union bill is taking place before the corporations committee of the legislature this morning, all other matters being stood aside so all members of the House can attend.

Much bitterness was in evidence when the battle over the church union bill reached its second phase before the committee last night.

There were heated passages between opposing speakers and the authenticity of statements and quotations made by various speakers, including clerical representatives of the opposing sides, were frequently challenged.

The committee sat in the assembly chamber and the second session of the hearing extended from 8 o'clock until 11:30 o'clock, thus completing six of the nine hours allotted to the hearing. The floor of the assembly chamber was crowded and the galleries were filled with spectators, representative of every denomination, including those to be affected by the bill.

Bitterness Reaches Climax

The bitterness which was in evidence mostly at the time, reached its climax during the remarks of Rev. W. W. McNair of Campbellton, the first of the unionist speakers on behalf of the bill. He followed Major J. C. W. McConnell of Hamilton, Ont., last speaker for the anti-unionists, and in referring to the petitions which had been circulated, signed and submitted to the House, he sought to reflect upon their weight by relating to a reference which one person who had signed a petition was alleged to have made after signing to the effect that the signature had been given to "get rid of the old hens." He also referred to two women who had circulated the petition as "maiden ladies of uncertain age." This brought forth a volley of hisses and demands from Major McConnell for retraction and protest from others in the delegations present.

Mrs. Harvey Protests

When Rev. Mr. McNair made further use of stories to cast reflections upon women who had circulated the petitions against union, there were further storms of hisses and more demands for retractions and apologies. Then as Rev. Mr. McNair concluded, Mrs. M. Harvey of Fredericton, arose and, upon behalf of the Presbyterian women who had circulated petitions, voiced a protest against their being "insulted in such a manner." To this Rev. Mr. McNair shouted from his place that he did not mean to cast any personal reflections; but this was greeted with more hisses.

Aside from these the most exciting incident was when Rev. Mr. McConnell stirred up the wrath of A. P. Bentley, sponsor of the bill in the legislature, by referring to the strong anti-union vote of the Presbyterian church at Collingwood Ont., of which Mr. Bentley's son-in-law is the pastor. That brought about a heated reply from Mr. Bentley, who objected to before such a large gathering.

Otherwise the hearing was marked by preservation of excellent order by Chairman R. I. Hayes, which fact was the subject for compliment by Major McConnell, who said that in some provinces such had not been the case.

Morning Session Thursday

For nearly an hour yesterday on the floors of the House of Assembly, the members of the New Brunswick Legislature and a very large delegation representing the Presbyterian, Methodist and Congregational Churches listened to a wonderful speech made by a man in the eighty-eighth year of his age who was as eloquent, vigorous and commanding as many in the prime of life.

When Judge James G. Forbes, of St. John, neared the end of his presentation in favor of church union and referred to the years of his life, a surprised audience gave him most unusual applause. Few of those who heard him had any idea that a man so near the nonagenarian mark could speak with such energy and force.

When the hour arrived for the meeting of the Corporations Committee, before which the Union Bill was to be heard in a public hearing, Chairman R. T. Hayes, M. P. P., of St. John, called for order and announced that the supporters of the Union Bill would begin the debate with one and a half hours of time; that the opposition would follow with three and a half hours, to be again followed by one hour, to be again followed by three hours and union supporters with three hours and in conclusion the opposition was to have a half an hour. This would mean about eight and a half hours speaking and will at least take up the whole of the time of the committee and the

members of the Legislature for two days.

Directs Union Forces

I. C. Rand, barrister of Moncton, appeared directing the forces in favor of union and he introduced Judge Forbes of the Presbyterian Church, Rev. H. E. Thomas of the Methodist Church, and Mr. J. W. Flewelling of the Congregational Church in their turn to show something of the history of union and the steps taken by those organizations to get together. Judge Forbes gave a great deal of information to the committee in connection with Presbyterian Church government, defining the meaning of the terms "members" and "adherent," "trustees" and "elders," "presbytery," "synods" and "General Assembly," and he left no doubt as to the wonderful organization scheme of the Presbyterian Church. He quoted a lot of figures to show how strongly Church Union has been favored, and impressed upon his listeners the tremendous saving it would be to the Presbyterian Church at least if union was brought about.

Speech is Impressive. Rarely has the House listened to a speech of greater earnestness and power. Affairs of state have always engaged the attention of the members, but now the affairs of Church were

the passage of the bill were not asking the Legislature to create a church, but to enable one to function in a legal way.

No Petition Against

He stressed the fact that no petition had been presented against it from any Methodist congregation and not a voice raised in opposition in the Methodist Church from ocean to ocean. The pastor of Exmouth street church had his arguments marshalled in excellent order and his eloquence, earnestness and dignity were of a convincing character. He was followed by Mr. Flewelling of the Congregational Church who spoke of the agreement of their congregation with the union proposition.

Opens Opposition Fire

Dr. G. G. Corbett, of St. John, opened the argument for the opposition and he was followed by J. B. McNair, barrister of Fredericton, who continued until adjournment.

TIGHTEN LIQUOR  
LAW IN ONTARIO

Proposal to Strengthen The Dry Act at Three Points.

A bill to strengthen the O. T. A. at three of its most vulnerable points was introduced by Attorney-General Nickle at Tuesday's session of the Ontario Legislature.

Replying to a request of Hon. W. E. Haney, former Attorney-General, for details of the proposed amendments to the act, Mr. Nickle said that the changes were designed to prevent illicit sale of liquor by druggists "who are not respecting the traditions of their profession"; to empower the Government to confiscate motor vehicles used for transportation of liquor on the highway "for purposes of traffic"; and to prohibit the food of so-called medical wines and to make the law the same as it is in Quebec.

Among other things Mr. Nickle's bill provides that, on a complaint being made to the Provincial Board of Health, any patent medicine, which is believed not to contain sufficient medi-

brought sharply to their attention.

If Judge Forbes was business-like in the presentation of his argument, he did not neglect the spiritual effects of union, but it was left to the Rev. H. E. Thomas to dwell more particularly upon the fact that those in favor of

VICIOUS RATS  
INFECT NEW YORK

Big and Bold, They Make Mothers Fear For Children.

New York, March 28.—Rats, increasingly alarming in numbers, size, boldness and bad behavior, are infesting the city. Already they have marched victoriously through several New Jersey counties and now the borough of Manhattan, Queens and Kings seem to be their happy hunting grounds.

Since January last the rats seem to have acquired an unusual viciousness, whether through drinking bootleg booze, or what-not, and have opened a biting campaign. Babies and older children in Manhattan, Brooklyn and Long Island City have been bitten, and here and there an adult has felt rat teeth enter his flesh. Health Commissioner Monaghan denied there is a rat-biting epidemic here, asserting the bites were due merely to an "incidental condition of affairs." Nevertheless, mothers in certain sections of the city are feeling real alarm and are asking advice regarding the safety of their children. They may be somewhat reassured by the following from the Health Commission:—  
"Our campaign against the rats is being carried on vigorously by our rat squad of more than twenty men. However, we have found no evidence that rats carry bubonic plague in this climate, nor has there been a single casualty here from rat bites. Those who have been bitten have suffered no infection of any kind.

Keeps Tight Rein  
On German Finance

Paris, March 28.—The Dawes committee report proposes to restore the finances of Germany, according to the Government, by extremely severe control of Government revenue and expenditure by the yield of an international loan and by a partial moratorium for three years.

At the conclusion of this period Germany, it is believed, will be in a position to pay about 2,500,000,000 gold marks annually.

Writes With Elbow  
And Is Prize Winner

New York, March 28.—Although his left arm is amputated near the shoulder and his right midway between wrist and elbow Harold Wursthorn, a 13-year-old pupil at a public school in West New York, N. J., has won a prize awarded by the school authorities for "proficiency in twenty-five penmanship tests." He writes by using a long pencil or penholder in the elbow-joint of his right arm.

EX-BANDIT  
IS WITNESS  
IN OIL PROBE

Al Jennings, Now Evangelist and Politician, Testifies in Washington.

"WHALE OF STORY"

Tells of Jake Hannon and Big Money, and Eye on Presidency.

Washington, March 28.—Al Jennings, once a famous train robber and now an evangelist and politician, was called upon by the oil committee yesterday to make good his promise of a "whale of a story" about an oil deal at the Republican National Convention of 1920.

Jennings was questioned searchingly about what he had heard others say regarding the convention story—and now one of the will of the wisps of the oil inquiry. The committee previously had heard many rumors about an effort by oil interests to name the convention's nominee, but no first-hand evidence to prove it.

His Story of Hannon

Jennings told the committee Jake Hannon had told him at Chicago in 1920 that Warren Harding was to be nominated as president and that it had cost Hannon \$100,000. Of this sum \$250,000 went to the late Senator Penrose, of Pennsylvania, Jennings said he was told by Hannon, who then was Republican National Committee man for Oklahoma.

"Hannon said he gave \$25,000 to Harry M. Daugherty," Jennings added. "Anybody else?" asked Senator Dill, Democrat, Washington.

"Yes, \$25,000 to Will Hoys," Hannon was quoted as having said he was to be secretary of the interior and was to share in public lands.

Quotes Hannon

Jennings quoted Hannon as saying: "I'm going to be the biggest man in the U. S. before I close my career." Daugherty at first was for Alford B. Fall for interior secretary, Jennings said Hannon told him, but Hannon won out finally and would have been appointed had he not been killed six months after the election.

Jennings also quoted Hannon as having said that with the money he would make he eventually would become president of the U. S.

Hannon carried Oklahoma for Harding, the witness said, adding that the committee men told him it had cost a half million dollars.

"Wasn't Hannon for Wood at the start?" asked Senator Burton, Republican, New York City.

"He never liked Wood," Jennings replied. "He said Wood was too much impregnated with the damned fool honesty of Theodore Roosevelt."

The New Styles for Spring are Easy Fitting  
The new styles that will be generally worn this season will be straight line suits—loose and easy, and semi-straight line models—the happy medium. Both types are correct for Spring.  
The smart dressers are wearing more and more the easy fitting suit with that straight hanging English effect. The coat, either two or three button, with broad square shoulders; long soft roll to the lapels; straight wide trousers. Because of its comfort and informal effect, it's certain to remain in favour.  
To obtain the right effect in these styles, they must be correctly cut and hand tailored. That's why we have Society Brand. They have that evident tailored look. Their cut is not approached by any other ready-to-wear clothing.  
The influence of the loose easy styles appears in the Society Brand models for Spring—a pleasing change to all well dressed men both for comfort and appearance.  
We will be very glad to have you look over our wide range of Society Brand models in selected all-wool British and Domestic fabrics. Moderately priced, they give you long and satisfactory wear.

## Policewomen Practice Jiu Jitsu To Cope With Subway Mashers

Experts Train Them in Art of Quickly Flooring Annoying Males; Vice Squad Learns Secrets of Make-Up to Disguise Their Dance Hall Visits.

"Ready, now—throw!"

A small figure in shining black stood up to a hulking figure in purple, and the hulking figure went spinning over the small one's head and landed thump on the mat.

The practical if ungentle art of scientific wrestling was being taught to New York's subway squad of policewomen yesterday. The arena was the gymnasium at Police Headquarters, where the police force does its daily drills. A few of the cops looked on and grinned appreciatively as Miss Grace Girard, expert in jiu jitsu, showed how.

The course is designed to give the policewomen strength and skill in handling subway mashers. The next of fender may find his wrist being smartly twisted to the point of agony. Only in extreme cases will the policewomen be forced to toss their victims like sacks of meal over their heads, but Mrs. Mary E. Hamilton, their chief, says they should know how, in case of attack.

Meets Women's Needs.

The course comprises all the jiu jitsu turns. Miss Girard and a couple of girl experts padded skillfully over the mat, their muscles flexing and their movements sure as they demonstrated

Japanese resistance, side resistance, the hip twist, the wrist twist and the stomach throw, which is the spectacular over-the-head feat.

"Jiu jitsu is perfectly adapted to the needs of the woman," Mrs. Hamilton explained between turns. "It offers her sure protection, provided only she has an alert mind. The exercises strengthen the highest centres of the brain—those whose functions are perception, discrimination and decision. Besides, jiu jitsu exercises naturally all the muscles in the body—enough to make them flexible and responsive without making the pupil one whit less dainty or a jot less womanly."

And on the mat the game went on. "You strike!" ordered Miss Girard. Her opponent's first shot out across her shoulder and around her neck in a strange hold. A slim leg was crooked behind her knee. She was helpless.

Policeman Floors.

"The special feature of this art is that it depends not on strength, but on skill and quickness of movement, combined with the knowledge of certain facts about the human body," resumed Mrs. Hamilton. "For example, there are certain points of the body where pressure or a slight blow is sufficient to paralyze a nerve centre or even to cause death."

On the mat one of the feminine students was holding a cop who had been summoned into the arena and was about to bring him to his knees with a dexterous, cruel twist.

"You see, the special feature of Jiu-jitsu is that its efficacy depends not on strength," Mrs. Hamilton continued. "There are points where pain so acute may be produced as to disable an opponent. There are certain movements of the limbs which cause intense pain in the joints, rendering an opponent incapable of resistance. A knowledge of such facts and of how leverage can be applied so as to produce the requisite pressure, together with skill in the balance of the body, are the essentials for jiu-jitsu."

The policeman lay helpless on the floor and his vanquisher stepped triumphantly before the camera!

Vice Squad Gets Make-Up Secrets.

"In these days of the increasing independence of women, they need self-protection—protection which does not depend on a serene or a police whistle," Mrs. Hamilton commented. "Nothing offers them more sure and certain safety than does jiu-jitsu."

Although so far only the subway squad is enrolled for jiu-jitsu practice,

## CALL ON PEOPLE TO BUY IN HOME CITY

Union Street Merchants Issue Community Address To St. John Folk.

In order to boost the "Buy at Home" campaign the merchants of Union street have decided to offer special bargains on each Friday and will tell the people of this city through a page in the Times what they have to offer on that day. While they offer special inducements to the shopper on Friday they have bargains every day and can meet the competition of outside concerns all the time.

They ask the citizens to purchase at home and thus keep the money in circulation here and help them to pay their taxes, pay good wages to their employes and generally add to the prosperity of the city.

## A Matter of Policy

We believe that the ultimate success of any business depends upon the confidence of the public in receiving Good Value and Good Service. One of the first principals involved in a progressive business such as ours is that the advertiser must have faith in the trustworthiness of his goods, to advertise them just as they are and exactly as the purchaser will find them. Only honest advertising with reliable goods back of it will create permanent good-will. This store believes in its advertising because it believes in its shoes. The confidence of the public is of more importance here than the simple exchange of shoes for money. You Buy Value when You Buy Our Shoes. Price alone means little—its style, the fit, the comfort and the long service in daily wear that counts in our shoes—and yours. We invite comparison, and for this reason, that we are confident that we can give better value than any other shoe house in the Maritime Provinces, and we leave the decision to your Sense of Value.

Watch This Space. Every Friday there will appear here special items, which by reason of their Outstanding Value will convince you that by buying in St. John and at "Wiesel's" in particular you can save money on your shoe purchases.

ALBERT SCHOOL IS WELL EQUIPPED

Teachers Hope To Have Good Library—A Fine Auditorium.

The new Albert school, West St. John, has not yet been in use for an entire school year, but within the building there has developed a wonderful spirit of good comradeship and pupils and teachers alike have a very great pride in their new school.

The gymnasium is not so large as the usual regulations call for, but it is proving a real factor in the life of the school community.

The establishment of a school library with necessary reference books is an ambition of Miss Harriet Smith, the principal, which is already one step on the way towards attainment.

The domestic science and manual training departments of the new Albert School are serving the whole of the West Side section.

When seen at work yesterday the Grade VI girls were neatly dressed with caps and aprons, which they had made in class, and had just finished tidying up after a cooking lesson during which they had learned how to serve eggs in tempting fashion.

Corresponding to the domestic science room at the other end of the basement of the school is the manual training room where C. H. Cochrane has charge and instructs one class from St. Patrick's, one from Beaconsfield and four from the Albert school.

Two big play rooms, one for the boys and one for the girls, are also located in the basement and separating them is the rifle range which is considered to be one of the best lighted of any in the city. It, also, is put to good use.

There is a vacuum cleaner for the blackboard erasers, which does away with the chalk dust nuisance that all teachers and scholars dread.

McAvity, Fisher, McLellan and Potts will speak at the Pythian Castle on Friday evening at 8 o'clock. Meeting under auspices of Civic Progress Party.

IN TORONTO. A YEAR after being founded, the Bank of Montreal spread its Branches westward, in July of 1818 establishing Agencies at Kingston and York.

York, which afterwards became the city of Toronto, had then just had its first stage-coach communication established with Kingston and Montreal. It was merely a settlement in a clearing amid unbroken forests from which the Indians came to trade with farmers and other members of the little community. Today Toronto ranks among the largest cities on the continent.

Of the Bank's 567 Branches, 26 are in Toronto and 207 in the Province of Ontario, including Toronto.

GRAIN SHIPMENTS THROUGH PORT OF ST. JOHN ARE LOOKING BETTER

Gain of More Than a Million Bushels in Two Months—Will C. N. R. Keep Up the Good Work?

A great deal more grain is coming through St. John over the Canadian National just now than was received last year during February and March, so much more that it shows what can be done, and how much more could be done under proper circumstances.

COURT DISALLOWS TRAVELING BILL

Judgment in J. D. O'Connell Case, And Other Matters Is Given.

The action of the clerk of the County Court in disallowing traveling expenses of \$384.75 of J. D. O'Connell in connection with a case brought against him by the Purity Ice Cream Co. was upheld by Judge J. A. Barry in a judgment delivered in the County Court this morning.

The judge held that, as Mr. O'Connell was in the habit of visiting New Brunswick every summer and was not brought here by process of law for this cause, but came voluntarily before notice of trial was filed, the claim for traveling expenses was not reasonable.

Other Judgments Judge Barry also gave his decision in the case of B. S. Earle against Mrs. Sarah Senior, a suit for \$48.62 claimed due on work done for Mrs. Senior on a house in Lancaster.

In the matter of C. A. Clark against Annie M. Craig, in which \$140 was claimed for one month's rent of a house, 98 Wentworth street, and \$38.80 for water rates, the judge gave a verdict for the amount of the rental claim in full with costs but disallowed the claim for water rates.

BRIDE-TO-BE SHOWERED. A happy time was spent Tuesday evening at the home of Mr. and Mrs. Ellis Jennings, 132 Winstlow street, when about 40 friends of Miss Louise Collin assembled and tendered her a novelty shower. The bride-to-be received many useful and pretty gifts. A little cart decorated in pink and white was drawn into the parlor by Mrs. Jennings' little grand children, Miss Anna Sewell and Master Ellis Fillmore. The evening was spent in games and music and dainty refreshments were served.

RECEIVE GIFT. Mr. and Mrs. Willard Lingley were pleasantly surprised last evening when about 35 members of the Rainbow Club invaded their home, 98 Metcalf street, and tendered them a surprise party. On behalf of the gathering, Frank Ham presented to Mr. and Mrs. Lingley a beautiful couch. This was the last of a series of entertainments and dances held during the winter months. During the evening dancing, games and music were enjoyed and refreshments served.

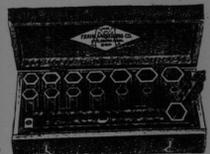

PAULIST CHORISTERS. T. L. Bradwell, manager of the Paulist Choristers of New York, the male singing organization of the church of the Paulist Fathers, which was heard with so much acceptance here last season, writes that the men and boys will proceed to England in the early summer and will probably leave by the port of St. John or Halifax. He is therefore desiring to have the choir appear in both cities before embarking. Arrangements for the Paulist Choristers to appear throughout the British Isles. He wrote a glowing report of the male choirs of the Mother Country and says they are truly wonderful. It is therefore with much interest he will introduce to the British public America's best male choir.

BURIED TODAY. The funeral of Lady Mary A. Barker, widow of Chief Justice Sir Frederick Barker, was held this afternoon and was attended by many friends. A short service was held at the home at 2 o'clock and the interment was in the Paulist church at 2.30. Service was conducted by Rev. Archdeacon Crowfoot, assisted by Rev. Canon Armstrong. Friends acted as pall bearers. Many floral tributes testified to the esteem in which she had been held. Interment was in the family lot, Fernhill.

As Hiram Sees It. "Hiram" said the Times reporter to Mr. Hiram Hornboom, "am looking for suggestions to make St. John more interesting for tourists next summer."

"Well, sir," said Hiram, "if I was Mayor Fisher, I'd get a man—an old man—who had whiskers. I'd dress him up in the fashion of the days of the Loyalists."
