Chancellor of Exchequer Makes Financial Statement—No Budget But Money Discussion—Viscount Milner Says Britain Better Off Than Lot of Others

London, Oct. 24.—The Lloyd George cabinet today is considering the situation which has arisen as a result of an adverse vote in the House of Commons yesterday when the government's amendment to the Allen Bill was rejected by a vote of 185 to 113.

The ministerial council, under the presidency of Premier Lloyd George, discussed the political situation this morning and later the cabinet was reconvened.

The unexpected defeat of the government has caused talk of a change of government or dissolution of parliament, but it is reported early this afternoon that the cabinet was devising a method by which the commons might reconsider its decision regarding the Allen Bill.

Freight From West to Atlantic All by Canadian Rail Route, Says Minister of Railways

Declares Discrimination Against St. John and Halifax Will Be Abolished and These Ports Will Have Huge Increase in Business

Says C. N. R. Can Compete With C. P. R. to St. John via McGivney; Mr. Wigmore Speaks of Development Here if Commission Adopted—Speech of Hon. Dr. Reid of Special Interest Here—The C. P. R. and Portland

Ottawa, Oct. 23.—Hon. Dr. Reid, Minister of Railways, announced yesterday that when the Grand Trunk is amalgamated with the Canadian National lines, freight shipments from Ontario and the west to Atlantic ports will be routed via all Canadian lines and the business passing through St. John and Halifax ports will show a huge increase.

He added that the discrimination against St. John and Halifax in freight rates will be abolished. If the minister of railways, he said, station agents of the National Railways who route shipments via U. S. ports will be discharged. He said the government lines would be able to compete with the C. P. R. into St. John by the National Transcontinental line from McGivney Junction to the New Brunswick seaport.

Maritime men, such as R. W. Wigmore of St. John, who supported the government on the Grand Trunk matter, said that the fears entertained in the west as to the effect of the bill have no foundation. The difference in mileage from Winnipeg is less than 100 miles which does not make a very material advantage of a long haul. Halifax is less advantageous.

Mr. Wigmore, in speaking of the coming plebiscite in the St. John harbor matter, says the Canadian National Railway is waiting to see the result. It is favorable, the C. N. R. will go in at once and begin great developments. The C. P. R. is anxious to get into Portland and it is said that they have been endeavoring to do this for some time. When they took over the Allan lines they secured what property there, and say they can handle freight cheaper in Portland than in St. John. While they are under government control, they are understood not to contemplate moving from St. John, at present at least.

Hon. Dr. Reid's Speech. In replying to the late and present leaders of the opposition last night the minister of railways dealt at length on the question of the Grand Trunk. He said that the Grand Trunk is taken over. He said with the Grand Trunk but not one in which would be an opportunity to give justice to St. John and Halifax, which they had never before. The Grand Trunk has been sending its agents to the ships, all over Canada urging them to join the freight line. He said that his own ports had never gained the advantage they were entitled to under the C. P. R. agreement.

He was proud of old Halifax and hoped and expected that traffic would pour in from the west. There was a preferential rate of one cent a hundred pounds for freight on the Grand Trunk over that shipped via Portland. At the time to which he referred it could not have been shipped via St. John. He believed in a working agreement between the Grand Trunk Pacific and the Grand Trunk. He said that in the future as they had done in the past, going all over Canada and saying "Route this freight by Portland, we have our ships there," they will say "Give us this traffic; we have a fleet as big as that of the C. P. R., running from Halifax and St. John. We can take it in our own ships and deliver it in Portland." This is the position and policy of the government.

The consequence of what the late leader of the opposition proposed, he said, would be that this freight would continue to be carried through Portland if the Grand Trunk was not taken over. The agreement the government would make was that instead of Ontario traffic going over United States lines to Chicago and over the Grand Trunk through Portland, it would go through Canadian ports. The man who tried to route Canadian traffic otherwise would not hold his job long if he was minister of railways. We must have United States lines in the system through which there would be traffic for Portland and there might be some for Canada. We would be in a position to get the maximum traffic possible without any discrimination against Halifax and St. John, a position we were never in before.

He said the member for North Cape Breton had tried to argue that millions had been wasted on the ports of Halifax and St. John because the policy of the government would be to build up Portland. So far as Halifax was concerned, owing to the agreement made by the government of that day, it was put in a position by which they got no advantage from the Grand Trunk Railway. By the present agreement we

Women Voters Reach Large Total Of 9,324

Board of Assessors Surprised at Fine Results of Recent Registration Campaign

Anticipating that, when the number of women voters who registered here recently had been added to those already on the list they would have somewhere in the vicinity of 5,000, the board of assessors was rather surprised when the number reached the remarkable figure of 9,324, or nearly seventy-five per cent of the number of male voters after the last election. According to the list there are now 28,166 voters in the city, which is well up to double the number shown on last year's lists.

MINERS OUT AGAINST H. C. L. CRITICIZE BRITISH GOVERNMENT

REPORT OF NEW TRAIN SERVICE ON C. P. R. BETWEEN HERE AND MONTREAL

It is said that the C. P. R. is contemplating the institution of a new train service between St. John and Montreal, which, if materialized, will mean much to this port. It is said to be in connection with an improvement of the Bay of Fundy service, and a train from Montreal will arrive in St. John in time to connect with the outgoing boat, and returning will leave St. John between 3 and 4 o'clock in the afternoon. Those who are in close touch with the situation here say that this will be great improvement in the facilities in and out of St. John, and should be a stimulus to increased business.

Passengers entering the east side ferry building will now go in through the new door in the Water street side of the building. The old doorway at the corner is being closed. The change was made in order to make the building more comfortable during the cold weather.

The board of conciliation sitting on the dispute between the operators and miners at the Minto mines came to the city today to prepare their report which will be forwarded to Ottawa. Chief Justice H. A. McKeown is chairman, R. B. Hanson, K. C., of Fredericton represents the operators and J. A. Walker, of Halifax, the miners.

Waterloo Street Now. It fills to the lot of Waterloo street to be taken for the tearing up process which the onward movement brings with it. This time it is the N. B. Telephone Company that has started a trench at the corner of Union street to lay a conduit for their lines. Permission was granted some time ago for this work to be extended as far as Richmond street and it was said at the time that the conduit would carry nearly all new lines, very few of the overhead wires which now exist to be removed.

The other is at Baker Lake, Madawaska county, reported by Dr. J. A. Wade. Dr. Wade was in charge of the investigation. The source of the two cases in Madawaska is not yet known, but it is thought they came either from Maine or Quebec.

Sir William Meredith said—"The statement, or suggestion, of Mr. Dewar that His Honor was in any way, directly or indirectly, approached or influenced by me in the case at Clair. The source of the two cases in Madawaska is not yet known, but it is thought they came either from Maine or Quebec."

RE-ORGANIZING Y. M. C. A. IN PROVINCE CAPITAL. (Special to Times.) Fredericton, Oct. 24.—The Fredericton Y. M. C. A. will be re-organized for the winter. E. A. MacDonald, R. C., territorial secretary in Fredericton for some time, is likely to be secretary of the city Y. M. C. A., as the policy is to combine the military and ordinary branches of the work wherever possible.

After we captured by the evangelical churches for membership a new directorate will be appointed. The old directorate will continue to act as trustees. Territorial Secretary A. S. McAllister of Halifax will confer with the committee here today. The present building is to be repaired.

JACOB BAILEY LOST LIFE IN THE REVERSING FALLS

Boat Caught in Current as He Rowed to Work in Mill

COMPANION HEARD GRY

"God Have Mercy on My Soul" Prayerful Words The Last Heard by Simeon Dungee, in Boat Near by

The swirling pitch at the reversing falls claimed another victim this morning when Jacob Bailey, an employe of Simeon Dungee and Co's mill, Pleasant Point, lost his life, his small boat being caught in the whirl and hurled into the chutes into the depths. For years it had been his custom to row to his work every morning, arriving a few minutes before seven o'clock. This morning he went to his little boat which was lying in Marble Cove and set out as usual. Simeon Dungee, of Kenedy Place, employed in the same mill, was just behind him. He saw Bailey's boat being carried down the chute into the main channel where the truck was running down strong. It was their habit each day to make for an eddy to the other shore, but it is supposed they missed it in the fog this morning, for suddenly through the mist the first splash in the falls loomed into view. Mr. Dungee shouted out a warning to Mr. Bailey, but he was too far away to hear. He was caught in the mill all right, Sim.

It was hardly more than a few seconds that Mr. Dungee heard a voice cry "God have mercy on my soul." It is supposed that Mr. Bailey's boat was caught in the falls and that he realized when he got in the grip of the strong running tide just by the island that there was little hope for his life. Mr. Dungee had a hard task in getting clear himself. He shouted a few times but received no answer. Changing his course somewhat he rowed along for his life. A number was carried out of the falls but up to late this afternoon nothing further had been reported. A number was carried out of the falls but up to late this afternoon nothing further had been reported.

The word of the fatality spread about North End during the morning and caused much regret. Mr. Bailey had lived there for many years and was respected by a wide circle of friends. He was about sixty years of age and had arrived in this city, from where he had much sympathy felt.

MAJORITY OF 30 FOR GOVERNMENT

Grand Trunk Railway Deal Goes Through The Commons

GOV. P. T. BY END OF MONTH

That is Belief of Those in Power—Government Supporters Discourteous to Hon. MacKenzie King; Liberal Leader's Vigorous Speech in Opposition to Measure

(Special to Times.) Ottawa, Oct. 24.—Acquisition of the Grand Trunk Railway by the government was approved by the House of Commons a little after midnight by a majority of thirty-six members voting in favor of the six months' holdover by the opposition leader and ninety-one against it. The second reading of the bill was carried on the same division reversed. Bolters from the government side were Brig-Generals H. H. McLean of Royal, N. B., Fred Johnston of Last Mountain, Sask., and Major G. W. Andrews of Centre Winnipeg. When the division bells were calling the members to the chamber to record their votes government supporters, enlisted the proceedings by singing "I Want to Go Home" and "We Won't Go Home Till Morning." The bill now goes into the committee stage and may not get to the senate until next week. The government believes it will pass both houses and receive the royal assent by the end of the month.

Discretionary to Mr. King. Interest in the debate received a fillip in the afternoon by the presence of the new Liberal leader, who was introduced (Continued on page 10, third column.)

REDS MAY GIVE UP SOVIET RUSSIA

Report to That Effect Reaches General Deneskin

SUCCESS AGAINST BOLSHEVIKI

When Two Enemy Destroyers Were Sunk 346 Lives Were Lost in Gulf of Finland—Victory Over German-Russian Forces in Lithuania

London, Oct. 24.—The Bolsheviks are considering the evacuating of Soviet Russia, according to reports reaching Gen. Deneskin. The report is said to be for the removal of the cabinet to Tashkent, after the abandonment of Moscow, and the withdrawal of the troops on all fronts to Turkestan. Reports similar to the foregoing reached Copenhagen on October 14 from Helsinki.

Helingsfors, Oct. 23.—Communication by the northwestern Russian arm claims that the army is advancing victoriously at Strugobelsky in the direction of Pskov, and that the enemy is fleeing in panic. It records the capture of several places in the neighborhood of Luga and Tsarskoye Selo, southwest of Petrograd.

According to the Daily Mail's Helingsfors correspondent Wednesday, Fort Ino was being shelled by German forces. The fort is on the mainland, north of Kronstadt, and is understood to be occupied by Poles.

London, Oct. 24.—One thousand prisoners were captured by anti-Bolshevik forces when the city of Kamyskhin, in the Volga valley, north of Tsarskoye Selo, was taken, according to news from Gen. Deneskin's headquarters. Don Cossacks, the statement says, have occupied Pavlovskaya, a Cossack village in the province of Kuban, capturing 500 men.

346 Go Down With Ships. Stockholm, Oct. 26.—Three hundred and forty-six lives were lost when two Bolshevik destroyers, in an attack on Estonian craft and British destroyers in the Gulf of Finland on Tuesday, struck mines and were sunk, according to an Estonian official communication.

Four destroyers fitted for mine laying, the communication adds, left Kronstadt with the object of supporting a landing of troops.

Copenhagen, Oct. 24.—German-Russian forces in Lithuania, commanded by Colonel Virgopolich, have been defeated by Lithuanian troops in two encounters, according to an official statement from Lithuanian headquarters. It says that near Solschiki, south of Vilna, the German-Russian forces were dispersed, while near Korusheva, southeast of Vilna, they fled from the field abandoning all their arms and ammunition.

VOCATIONAL TRAINING FOR CIVILIANS WHO ARE DISABLED SUGGESTED

Felt it Would be a Good Thing as Number of Soldiers Receiving its Benefit Decreases

Ottawa, Oct. 24.—In the vocational training work of the department of soldiers' civil re-establishment the peak was reached next month in the expectation of the officials in charge of the work, thereafter there will be a steady decline in the number being trained as in tens and twenties the disabled soldiers leave the schools to take their places in industry for which they have been fitted.

Many suggestions are being received from various parts of Canada that as the organization brought together to give this training includes so many enthusiasts in this form of teaching and is in most parts of the country having such good results it would be a pity to have it disbanded.

It is pointed out that disabilities resulting from industrial accidents or from any accident or illness often place many citizens who have not been soldiers in a great need of assistance as the soldier it is suggested that the vocational training branch should begin to take disabled civilians for training as soon as the number of soldiers in training begins to dwindle as insurance against unemployment, sickness and disability formed one of the proposals used at the National Industrial Conference it is said that it would be well to work vocational training in connection with such insurance plan so that as few as possible would become permanent charges to the state where it could be avoided.

GETTING AFTER GAME LAW VIOLATORS IN ALBERT COUNTY

(Special to Times) Hopewell Hill, N. B., Oct. 24.—Report of expensive and serious violation of the game laws have culminated in definite charges against several residents of this parish. The charges are for shooting more moose than the law allows. For using government tags belonging to other persons and for shooting on Sunday. In formation will be laid by the game warden before the magistrate at Riverston today. Reports are that illegal shooting has been going on in Albert county to shameful extent for some time, moose being slaughtered without respect for legal restrictions.

What interest has the average citizen and small investor in the Victory Loan? This question was answered by Sir Henry Drayton when he pointed out that the loan is necessary "to enable Canada to keep faith with her allies, to encourage trade and provide credits for the expansion of our export and import business."

Without credits we cannot get business, and production will be reduced, causing hard times, which affect every citizen of the country. The United States, according to J. P. Morgan & Co., must provide credits to European countries to the extent of \$5,000,000,000 by next summer. Similar credits to the limit of her capacity must be provided by Canada or she will not get her share of the business necessary to keep her industries active and prosperous. The money lent by the people does not go out of Canada. It will be used to keep out the wheels of industry and commerce moving and the citizen who lends will receive a good rate of interest and have the Dominion of Canada as security.

One of the first big subscriptions announced today is that of the New York Life Insurance Company, \$5,000,000. All the big financial and commercial institutions will subscribe on a liberal scale, but since the total required is \$80,000,000 it will be necessary for even the smallest investor to subscribe. He can subscribe for as small an amount as fifty dollars, and on the installment plan. This brings the investment within the reach of the ordinary wage-earner, and it is a most attractive proposition.

Just now the Canadian people are being urged to practise thrift and to invest in Victory Bonds. A wonderful story of thrift comes from France, where despite the war the deposits in government savings banks last year, the total at the end of the year standing at \$550,000,000 francs. In the first nine months of the present year \$700,000,000 francs, or more than double the amount for all last year, was deposited, making a new record for the government savings institutions. And this, we are told, "in spite of the fact of heavy withdrawals made for investment in treasury bonds which are drawing the interest and which are still selling at the rate of a billion francs a month." One of the wonders of world finance was the manner in which France recovered after the Franco-Prussian war. The national habit has not been lost. In peace as in war France sets the nations an example.

St. John people will be deeply interested in the debate at Ottawa yesterday in which the minister of railways gave assurance that the ports of St. John and Halifax would profit greatly by Great Trunk traffic under government control. His remark that he was proud of Halifax may have been due to his appreciation of the fact that Halifax was able to get the government to do for it what St. John people had to do for themselves in the matter of harbor improvement to get national trade; but if he will see that hereafter this port gets that to which the short haul entities it there will be no complaint.

A letter from Premier Foster in today's issue will be of special interest to all Liberals, but not to them alone. A national monument in honor of Sir Wilfrid Laurier is a tribute, not to a Liberal, but to a great Canadian. The provincial treasurer of the fund for New Brunswick is Mr. J. Fraser Winslow of Fredericton, and every contribution will be duly acknowledged.

The first of the German savages who are to be tried for crimes during the German occupation of France have been surrendered for trial, but the real interest will centre on the trial of men much more prominent than officers of low rank.

The by-election in Carleton-Victoria, instead of being a humdrum affair, has assumed national significance. The United Farmers and the Union government have locked horns. Help has come to the farmers from Ontario and the west, and two members of the Ottawa government have arrived to campaign for Col. Melville.

The people of Germany are learning some unpleasant facts through the enquiry at Berlin, regarding the cause of the war. When the whole story is told to them they will begin to realize what it cost them to maintain a military autocracy.

The leader of the opposition was given a very hearty reception by his followers in the Canadian house of commons yesterday. The Grand Trunk bill, however, went to its second reading, and the government will press it through both houses.

A home for the feeble-minded is being urged in Nova Scotia. A conference on the same subject is being held today in St. John. Because the feeble-minded are at large society pays a heavy toll as a result of unchecked immorality and crime.

Let us be comforted—An American exchange says:—"An old Ohio account book dated 1868 shows consumers then were paying 25 cents a pound for sugar—82 a pound for tea and 17 cents a pound for rice. After the Revolutionary War Martha Washington paid \$8 a pound for sugar."

Mr. Potts says:—"When we come to pick out our next leader, we want a man who can tell us where our revenue is coming from and what he is going to do with it." We know now what some of them did with it and that is why a new leader is demanded.

It begins to look like a farmer premier in Ontario. That, in Ontario, would certainly be a new departure, but the old parties cannot reasonably object. Each of them is in a minority.

In the opinion of the police magistrate the two of the city commissioners have been guilty of a lawless act. That is a strong indictment.

ROY VOLO WINS FROM BARON A. In Well-Contested Race—Jubilee Awarded Named Race After Winning Two Heats; Baron A. Sold For \$2.00 to Fred Cameron

One of the most interesting races of the season took place on Moosepath Park yesterday afternoon when Roy Volo, owned by Bert Lint of Fredericton, and Baron A., owned by Lawson of this city. The Fredericton horse carried off the honors, taking three out of the five heats. In a named race Jubilee was adjudged winner, with Singer second and Tommy Cotter third. The weather was ideal for racing, especially at this time of year, but the track was heavy and had in spots due to the rain of Wednesday. There was a fairly large gathering of enthusiasts.

The Match Race. The match race came first. Baron A. drawing the pole with Roy Volo outside. Both horses got away to a good start, but slowed down on the first turn and made the first quarter in 38 1/4 seconds. They came up to the half in 1 m. 15 1/2 seconds, the three quarters in 1 m. 54 3/4 seconds and came home in 2 minutes and 26 seconds, Baron A. winning by a nose.

The second heat started the same as the first, Baron A. on the pole and Roy Volo outside. Going around the first turn Roy Volo pulled the handsome chestnut over in front of Baron A., which was driven by Fred Cameron, and took the pole. They continued over these positions until coming into the home stretch on the first time around, Baron A. then closed up and they passed under the wire with only a few feet separating them. The Fredericton horse kept ahead again on the first turn and maintained a lead until the finish, winning in 2:28. He negotiated the quarter in 36 1/2 seconds, the half in 1 m. 12 1/2 seconds, the three-quarters in 1 m. 48 s.

The third heat was brim full of excitement. Roy Volo had the pole and both horses got away to a good start. As they were going around the first turn Roy Volo was seen to slip and fall back on his snaky doubling the right wheel underneath the sulky. Baron A. was coming a few yards behind and before Cameron could swerve out the sulky crashed and was badly damaged. Both horses were taken back to the stable until a transfer of wheels could be made. On the second start the horses got away well, but at the first turn Roy Volo again stalled and Baron A. took a commanding lead. It was seen when the thing was over. On the back stretch Roy Volo eased up and completed the race in a walk. As he came up to the stand his driver announced that the back strap had snapped and he was told to continue his distance. Baron A. won the heat, but no time was announced.

In the fourth heat Bert Lint appeared behind his horse and it soon evident that the chestnut would make a great bid for the race, despite the fact that he had dropped two heats. At the quarter pole the horses were snapped in 35 seconds, the half in 1 m. 10 seconds, the quarter in 1 m. 47 seconds, and the mile in 2:24.

The fifth and deciding heat went the same way, Roy Volo winning by a good margin, time 2 m. 25 seconds. Although the time was slow those present considered it very good owing to the heavy condition of the track.

Named Race. The named race was between Tommy Cotter, owned by Len Dryden; Singer, owned by E. Burke; and Jubilee, owned by Brown and Ryan. The last mentioned was awarded the race as she won two of the four heats, Singer winning the first and Tommy Cotter the fourth. The race was to go best three out of five, but it was after sun down and was getting dark it had to be called off. Singer won the first heat in 2 m. 27 s.; Jubilee the second in 2 m. 25 s.; and Tommy Cotter the fourth in 2 m. 30 s. A summary of the races follows:—

Match Race. Roy Volo, Conroy and Lint. . . 2 1 2 1 1
Baron A., Cameron. 1 2 1 2 2
Time—2:26, 2:25, 2:28, 2:25, 2:24

Rippling Rhymes

(Copyright by George Matthew Adams)

There's one who is contented—the bard who writes his poem—though men around him vented harsh language flecked with foam; I like the work I'm doing, the errands I'm pursuing, the kind of rags I'm chewing, the wrath upon my dome, like the pay I'm drawing—It keeps me out of debt—though other guys are jawing about the wage they get; I like the way I'm dining; I have no cause for whining any though my face is shining and damp with honest sweat; I like my little cottage, it's humble, but it's nice; I like my frugal potage, composed of prunes and rice; I like the lye I'm thrumming, I like the look of the Autumn weather, before the winter wakes; I like the kind of leather of which they make our stinks; I like the way it goes to stay to be fakes. Oh, evils are existing; I've known it all along; I'm wearing and I'm wisting that many things are wrong; but seeing what not cure them, or help me to endure them, and so I just abjure them, and sing my dippy song.

CANADA—EAST AND WEST

Domestic Happenings of Other Days

AN EXPEDITION THAT FAILED
October 1812 brought anxious days to the City of Montreal. War was raging between the United States and the United States and on the 17th of that month a large American army, which had been collected at Sackett's Harbor for an attack on Montreal and Lower Canada began to move under four generals with a fifth brigade held in reserve. The embarkation was known at Kingston, Ont. At once a little flotilla of eight gunboats with three field pieces and about 800 men sailed to keep in touch with the Americans. Arriving near Prescott the Americans landed but only to continue their march along the shore while the transports kept in the shoals to be out of range as much as possible of the guns of the British squadron.

But across the French continued their watch of the enemy they were continually adding to their numbers until by November over 2,000 men were under the loyal flag. Then it was that they were in a position to make a serious attack on the Americans at Chrysler's Farm—a position about midway between Morrisburg and Altonville.

The result of the engagement was a surprise to the enemy for in less than two hours they were defeated. The British had suffered in numbers of about 180 officers and men. Another hundred men were captured in the battle but there was no attempt at pursuit as the victors were exhausted. The Americans gave up the plan to attack Montreal and retreated to French Mills, not far from Valois, where they entrenched and prepared to remain the winter after building blockhouses and other defenses.

Other troops returned to Sackett's Harbor—the entire expedition had failed.

COME WITH ME TO THE MOUNTAIN

Come with me to the mountain, not where the rocks are high,
Soar harsh above the troops of hurrying pines,
But where the earth spreads soft and rounded slopes,
To feed her children; where the generous hills,
Lift a greenisle world the sky and plain
To keep some old world things aloof from change.

Here too, 'tis hill and hollow, new-born streams
With swift reinforcement, joyously compelled
Like laughing children, hurry down the slopes,
And make a dimpled chase athwart the stones;
The wind is black upon the heights, the fields
Are green with pasture, and the bearded fringes
The blue above the sudden ridge; A little world whose round horizon cuts
This life of hills with heaven and sea in clear moments when southwestward
ward gleams,
France by the thine, melting snow to haze.

—George Eliot.

It Can't Be Done.
"Money isn't everything in this life," try to convince the professors of that, will you?"—Detroit Free Press.

A Very Good Reason.
He—"I never eat lobster myself, Miss Gwace."
She—"Oh, that's because you feel like a cannibal if you did."—Baltimore American.

WHY HE GAVE IT UP

"I used to get out on the farm and work to show my constituents I was a hard-headed son of a toll," remarked Senator Sorghum.

"Recently?"
"No. The last time I tried it I tried it of my best voters came around and wanted to know what I meant by putting in all those hours a day and trying to avoid paying wages."—Washington Star.

HUMPHREYS ACQUITTED AT HAMPTON

Hampton, Oct. 23.—The case of the King against Guilford Humphreys, in a recent assault, came to somewhat dramatic ending this afternoon when the jury, after being in a short time returned to the court room with a unanimous verdict of not guilty and the judge expressed his hearty concurrence in the verdict, while even the spectators who for the last few hours had seemed to consider the accused a forgone conclusion did not fail to express their appreciation of the result.

The evidence, also, and also Mrs. Rouse of St. John with whom the Humphreys had been lodged. Mr. Murphy, foreman of the Grand Jury, where Mr. Humphreys has been employed for twenty years and a time keeper with the Federal Navy works books from that company each gave evidence of establishing a complete alibi for the accused.

Mr. Freeze of counsel for the defence and Mr. Adair representing the jury. The judge said that the accused had proven an absolute alibi regarding part of the charges, and that where witnesses have been proven false in one part of their testimony it is probable they have been false in all.

BARBERS' PRICES
At a meeting of master barbers held in William O. Monahan's store, Union street, last evening, the question of increasing the price of hair cutting to fifty cents and shaving to twenty cents was discussed. It is said an effort will be made to organize the master barbers.

TULSA BOYS' MEETING
The Tulsa square of the Fairville Baptist church had a big time last evening in their local hall and gym. They are carrying out the C. P. R. programme under the leadership of Geo. Estey, as mentor, Percy Long of the Y. M. C. A. as physical instructor and John Linton, proprietor. The programme last evening consisted of a bean supper which the boys certainly enjoyed. It was served by Mrs. Estey and Miss Edith Estey. The pastor, Rev. A. S. Bishop, led the devotional exercises and gave a short talk on summer camping. R. H. Parsons addressed the boys in a very interesting and helpful manner. His subject was "The Kingdom of Boyhood." In his special appeal to the boys he had the pleasure of hearing four boys make the decision of living the good life. After having a sing-song and game of basketball the happy group disbanded after singing the national anthem.

WANT HOME FOR THE FEEBLE MINDED

Movement Here And in Nova Scotia—What State of Maine Has Done

A committee appointed by the president of the Children's Aid Society is in session this afternoon in the office of the county secretary considering the question of the provincial or interprovincial home for the feeble-minded.

In Trans Canada the Women's Council of Nova Scotia yesterday adopted a resolution calling upon the government in the name of the women of that province, to provide a provincial home for the feeble-minded, which they believed could soon be made largely self-sustaining.

A Commission on the Study of the Feeble-Minded in the state of Maine reported that there were 1650 obviously feeble-minded persons in the state, or 2.12 per thousand of the population, and it was significantly stated that more were found in rural than urban districts. On the same basis there would be about 750 in New Brunswick. They have a state school for the feeble-minded in Maine, and the commission urged that it and the woman reformatory (which Maine also provides) be enlarged to twice or thrice their present capacity. New Brunswick has neither of these institutions.

DOG PUT HIM DOWN AND HELD HIM TILL INSPECTOR CAME

Evidence in Liquor Case in Police Court a Bit Out of Ordinary

William Atkinson was charged in the police court today with being drunk, resisting arrest and also with having liquor in his possession. Inspector Merryfield told of arresting the accused in Charlotte street. The man said the inspector set his dog on him but this was explained. The inspector said Atkinson ran down in Long's alley and hid jumping on the inspector as he passed by. The dog caught hold of the defendant's coat and followed him to Charlotte street, where he threw him to the street and held him until the inspector got there. The prisoner was remanded and the magistrate said he was liable to \$200 for having liquor in his possession; \$8 for using obscene language; \$8 for being drunk; \$8 for taking the name of God in vain and \$80 for resisting arrest.

A case against John Melanson, charged with stealing a coat from Jay Dow, a patient in the St. John County Hospital, was resumed. Mr. Dow said the defendant was a patient in the hospital. The case was adjourned until Monday.

George Stanton and Harold Smith, charged with stealing iron pipe valued at \$75, the property of the city, were committed for trial. William Godsoe, on suspicion of breaking and entering and stealing from the drug store of Thomas J. Durck, Main street, was committed for trial. Edward J. Abramson, charged with stealing \$20 from Guy Stewart, a patient in the St. John County Hospital, was allowed to go on a two years' suspended sentence. Mamie C. Young and Mamie Stevens, charged with being night walkers, were further remanded.

NOW FOR THE N. B. MOOSE

Irving Cobb and Party Here This Afternoon and Four or Five Will go into The New Brunswick Wilds

Bringing with them trophies which they bagged in the Nova Scotia woods, and with an anticipation of a week or ten days in the New Brunswick game country, the newspaper and sport party which has been holidaying in this part of the world will return to St. John this afternoon.

The whole party has not been able to arrange to stay over for a while in New Brunswick, but through the initiative of Allan O. Seymour, secretary of the N. B. Tourist Association, supported by the New Brunswick government and on the initiative of and inspired by the recommendations given by Joe Page and by Max Enos, United States Press representative of the Canadian Pacific Railway, Irvine S. Cobb, of the Saturday Evening Post, Lieutenant-Colonel Bozeman Bulger of the New York Tribune, and possibly Frank Stevens, well known New York National baseball magnate, have decided to try their luck in the New Brunswick forests. They will go to Fredericton tonight or tomorrow morning and there join forces with Harry Allen, perhaps the most renowned guide in the province on the trail of our big wild game.

W. O. McGeehan, sporting editor of the New York Tribune; Colonel T. L. Huston, vice-president of the American League; Harry Leon Wilson, half owner of the New York Yankees and vice-president of the American League and Allan O. Seymour, general tour agent of the C. P. R., who are also with the party in Nova Scotia, will also return to St. John today, the whole party arriving by the C. P. R. steamer Empress from Digby.

Colonel George Ham, C. P. R. representative arrived at noon today from Montreal and will accompany to New York the members of the party who are not remaining here. Mr. Enos will also return to New York with them and Mr. Seymour will go as far as McAdam with them and then return to St. John.

It is hoped that arrangements can be made today so that the party can on Monday morning start on Saturday, otherwise they will remain in Fredericton over Sunday, starting on the hunt early on Monday morning.

HEAVY FINE FOR WEARING EMBLEM WITHOUT AUTHORITY

Man Had on Returned Soldier's Button to Which He Was Not Entitled

In the police court this morning a case against Lewis Miller, charged with being drunk in Charlotte street and also with wearing a class A badge for active service at the front, when not entitled to it, was resumed.

When arrested and he would not be a squarer. To this the magistrate remarked: "If squarers were more plentiful, bootleggers would be fewer; they would have to go out of business. He is not a good citizen if he won't squar," said the magistrate.

W. J. Mahoney, for the defendant, said that the man had drunk and, having found the button, did not realize the seriousness of what he was doing, in fact did not know that he did wear it. Capt. R. H. L. Goodday, assistant provost marshal for Military District No. 7, said that he was instructed to prosecute the case. The penalty is \$300 or six months in jail or both. He said that in justice to the returned men an example must be made sooner or later of such offenders. With this the magistrate agreed.

Inspector Merryfield told of making the arrest.

The accused on the stand said that he found the button and that he did not know he had worn it. Resisting the drunkenness charge, he said that he was drinking with a returned man. The magistrate imposed a fine of \$8 or two months in jail for being drunk and \$300 for wearing the emblem when not entitled to do so.

REFUSE TO CONFER ON NEW AGREEMENT

Bituminous Operators and Miners Reject Proposal of Secretary of Labor Wilson

Washington, Oct. 24—A dramatic appeal by Secretary of Labor Wilson, himself a miner, prevented an open break last night between miners and operators, almost ready to go home after failing to settle the strike of half a million soft coal miners set for ten days hence.

Near the end of a long and heated session at which the miners formally rejected a plan of settlement and refused to arbitrate wages, the secretary, taking hold of a slender thread brought the two sides together and kept them here for another conference today.

Out of the mass of conflicting contentions there seemed a better chance last night that Secretary Wilson might be able to bring the miners and operators together.

C. G. MERCHANT MARINE AND ST. JOHN

The board of trade has been advised by Manager Feakle of the Canadian Government Merchant Marine, Ltd., that the company is still without definite information with regard to some of the vessels which they were hoping to have in the service this winter and until they can get an assurance from the builders, they cannot publish their sailings.

The mayor, speaking of this matter this morning, said that he had been informed while in Montreal that there were three steamers under construction for the C. G. M. M. which would very likely be tied up as soon as the St. Lawrence froze over. One of these was nearly completed, but unless it was finished before the close of navigation on the river it would not be available.

THE WEST SIDE WHARVES. A great deal of work has been accomplished in the repair of the west side wharves and although there is still said to be a great deal of work to be done, the sheds, wharves, etc., are reported in better condition now than they were at this time last year. Work is now being carried out on No. 2 shed at Sand Point, replacing posts under the shed, repairing the doors and hangings and putting the mooring posts in first-class condition. The planing in Union street has all been done and is now said to be in better condition than for some time.

TRAIL IN MAINE MURDER CASE LED TO NEW BRUNSWICK

Jackman, Me., Oct. 24—Sheriff Moores and County Attorney Merrill, of Maine, who are on the trail of the murderers of Nelson W. Hartley, proprietor of the Moose River House have made a trip to St. George, N. B., during their investigations but so far no clue to the guilty parties has been found.

According to the officials John Burke was the last man to see Nelson Bartley alive, so far as is known. On Wednesday evening, October 15, the two men had an appointment. Bartley is said to have told a friend that "he was to settle affairs with John Burke." They drove away shortly after eight o'clock. It was forty minutes later that residents of the village heard a shot and John Burke, apparently exhausted, dragged himself onto the steps of Blake's garage and announced that he had been shot by Nelson Bartley.

Bartley, after firing the shot, Burke said, had fled toward the Canadian line. Bartley failed to show up at the Moose River the following morning. His brother, Henry E. Bartley, of Greenville, N. B., was notified and he came to Greenville. Mr. Bartley, with Mr. Piper of the Great Northern Paper Co., began a search with other friends of the missing man. While crawling through some underbrush forty feet from the amia, Mr. Piper pushed aside some vines and a man's hand was exposed to his view. He called to the others and the body of Bartley was pulled from beneath the blow down. His body had been concealed carefully and the hole was partially filled with water. The tree had apparently been blown over within a month.

Miss Grace McKim of North End, returned from Fredericton today.

The New Brunswick Construction Company represented by Parker Currier, understood that the parties concerned had paid the duty on the goods, as well as a penalty exacted by law by the collector of customs, who has made a report to the headquarters of the department in Ottawa. BOOSTING THE PROVINCES

The Halifax board of trade has endorsed the request of the St. John board with regard to the invitation to the National Editorial Association of the United States to visit the provinces next year. This is the matter about which T. Hawke spoke a few weeks ago. In connection with the visit to Canada next year of the Imperial Press Union as guests of the Canadian Press Association, it has been suggested to the chairman of the Canadian Press committee, Baron Atholstoun, that the distinguished visitors should follow in the footsteps of the Prince of Wales and visit the maritime provinces. The director of publicity for Canada hopes to be in St. John soon to discuss this and other matters of interest relating to the development of the province.

Daotah Woman a Rejoices
Over Her Wonderful Res-
toration to Health After
Taking Tanlac.

"I'm just so happy over the way Tanlac has restored me to complete health that I feel like going out and telling everybody I meet about it," was the way Mrs. Annie Cullen described her wonderful recovery by the use of Tanlac the other day. Mrs. Cullen resides at Daotah, Manitoba.

"I was almost a complete nervous and physical wreck before I began taking Tanlac," continued Mrs. Cullen. "I had almost given up all hope of ever being relieved of my suffering. For three years I suffered from a case of indigestion, and it went so hard with me that I was hardly able to lift my head from the pillow. When I got up I was in such a weakened condition that I thought every day I would suffer a complete breakdown and have to take to my bed again. When I would try to eat a little something to get some strength, I would have terrible cramps in my stomach, and the pains hurt me so bad as to almost drive me double. Sometimes I was so weak I thought I would faint right in my tracks, and for months at a time I was not able to do a bit of my housework. I suffered with a terrible pain in my back right across my kidneys and I could hardly stoop over, and I don't believe I was ever without a headache after I had the flu. I dreaded for night to come for it was so miserable almost from the time I went to bed until time I got up. Why it's a fact, for months at a time I didn't get over two hours sleep a night. This was my actual condition and to save my life I don't see how I managed to bear up under it all."

"I tried nearly every known treatment and medicine but I got no relief whatever until I commenced taking Tanlac. From the very first I began to improve and my troubles gradually started to go away and I kept right on taking Tanlac and getting better right along. I have finished my fourth bottle now, and you may not believe it, but it is the truth just the same, all my troubles have been entirely overcome and I am enjoying the best of health. I can eat anything I please now and never suffer the least bit with my stomach. The pains in my back and stomach have completely disappeared, and I have almost forgotten that I ever had a headache. My troubles are so steady that I don't believe they were ever in better condition, and when I go to bed at night I can sleep as sound as I do with my housework with more ease than ever. My recovery seems more like a dream to me than anything else. I am so happy I just almost feel like shouting for joy."

Tanlac is sold in St. John by the Ross Drug Company and F. W. Munro, under the personal direction of a special Tanlac representative.—(Adv't.)

Proves She is Common-Law Wife
of Supreme Court Justice's Son

(N. Y. Times)
By proving herself to be the widow of George G. Barnard, son of the late Supreme Court Justice George G. Barnard, who died in Amityville, L. I., on Dec. 26, 1915, Mary G. Shelly won \$100,000 yesterday through a verdict handed down in the supreme court at Mineola, L. I. Barnard inherited a trust fund of \$100,000 from his grandfather, John Anderson. He had converted into income, by deed, by which he was to receive the life income, through the Farmers' Loan and Trust Company. He specified that, at his death, the principal was to go to his wife, if he had one, or to his children. When Barnard died, the trust company paid over \$47,500 of the money in her possession to his four children, Mary A. Wagstaff, wife of Colonel Wagstaff, President of the S. P. C. A.; Frances A. Ward, Alice Seabury and John C. Barnard. Then Mrs. Shelly appeared and said that she and Barnard contracted a common law marriage on Dec. 18, 1901, and was entitled to the money. A jury decided that she was right.

**W. S. FISHER AGAIN IS

At the annual meeting of the St. John Art Club last evening reports for the year showed much successful work done. A lecture on commercial art was given by P. N. Woodley and Rev. D. H. Loweth spoke on the introduction of photography into the work of the club. The report of the art classes under Misses Bessie Holt and Bessie Haggarty, presented by the curator, C. H. **NEW TURK CABINET PAN-
GERMAN AND ANTI-CHRISTIAN**

Paris, Oct. 24.—Reports reaching French political circles hold that the new Turkish cabinet, which was formed on Oct. 6 under General Ali Riza Pasha and which is masking as pro-Germans, is in reality composed of Germanophile Young Turks. The cabinet, it is declared in these reports, is resolved to oppose by all possible means the decisions of the Peace Conference and to continue the extermination of Christians in Turkey. A crisis is expected to develop soon between the enemy of the Young Turks, and the latter party, which it is reported, contemplates replacing the Sultan by Prince Mehmed Selim, eldest son of the late Sultan Abdul Hamid.

Meanwhile reports reach the French

Why Wednesday's audience at the Imperial Theatre was so completely mystified. Alice Verlet was inside the phonograph in all excepting physical presence

At first reading, the story of the New Edison's performance last Wednesday afternoon at the Imperial Theatre seems fraught with mystery.

But explanation is simple enough.

First, get a picture of what happened. Miss Verlet sang Caro Nomo. She stopped after the first few lines, but her voiced flowed on without a break. No one even noticed she had stopped—until some eyes, keener than the rest, saw her lips were still. It was only then that realization dawned. The audience found it had been listening to the New Edison.*

To every ear, the two voices, living and RE-CREATED, had been without a shade of difference.

That was what so mystified the audience. They had expected the RE-CREATED art to betray its phonographic origin. It was a step too advanced for their comprehension that this instrument should be all that Miss Verlet is, excepting her physical presence.

The NEW EDISON
"The Phonograph With a Soul"

This extraordinary proof is the only means through which people learn to appreciate the true powers of the New Edison. If you are interested in music, it is indeed unfortunate that you were not present.

Yet, you know this is a test no other phonograph dares to attempt. It is proof that no one can evade or deny. The New Edison is the only phonograph which RE-CREATES music and the soul of music.

Come in and hear it for yourself.

*The instrument used in Wednesday's Tone-Test is a regular model—an exact duplicate of the Laboratory Model which Mr. Edison perfected after spending Three Million Dollars in experiments.

**A Second Word
To All New
Brunswickers**

In my appeal to you a few days ago I sought to show you that Self Interest was a compelling reason for aiding the 1919 Victory Loan. Today I ask you to consider an equally compelling reason, the obligation of Self Respect in maintaining our obligations. War forced our government to make enormous expenditures, assume tremendous responsibilities and incur immense obligations. Among these obligations were:

The cost of bringing our soldiers home, and paying them until discharged, including hospital and medical attendance	\$200,000,000
War gratuities to our soldiers still unpaid	61,000,000
Vocational training and medical attendance for returned soldiers after discharge	33,000,000
Loans to returned soldiers for stock and implements to enable them to settle on the land	24,000,000
	\$318,000,000

Every Dollar of this total of \$318,000,000 is a direct obligation of the war.

That Two Hundred Million spent to bring the boys home should be cheerfully provided but not more cheerfully than the hundred and eighteen millions which is to be spent in fulfilling our promises, in meeting the obligations assumed when they went overseas.

The Debt of Honor is a debt which must never be questioned and no debt of honor has the appeal of that of Canada to her gallant sons. There is only one way to meet it. Subscribe to the limit for Victory Bonds. Self Respect demands that of us.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, OCTOBER 24, 1919

Miss Canada Gives Account of Her Stewardship

And explains her War Financing to her citizens.

Miss Canada: In humility, because of the sacrifices which have been made for me, but in pride because of the Spirit of Fortitude of your Sons, I come to enlist your most sympathetic support, as expressed by your financial aid, to enable me to meet the many obligations that still remain towards the men who fought. I also wish you to provide me with sufficient National Working Capital to consolidate the position in the world's markets, that you, by your industry, have so honourably won.

Citizens: Perhaps you might like to take this opportunity of telling us how you expended the \$10,000,000 we loaned to you last year?

Miss Canada: I would. You will recall that I asked you for funds to carry on the war, and to enable me to advance credits to Great Britain and our Allies, who, by their purchases here, have prospered our farms and factories. Do you want details?

Citizens: Yes. The more facts and figures you give us, the more fully will you answer the natural queries of those to whom you are now appealing for a further loan.

Miss Canada: Very well, then. I suggest you ask me questions. That is the best way to bring out the facts.

Citizens: How much of the Victory Loan 1918 did you use for war expenditures?

Miss Canada: Three-fifths of it—\$380,900,000 in fact. Before giving this expenditure in detail I wish to explain that your demobilization expenses as against those of mobilization have been concentrated within a few months. The expense of transporting our Army overseas was spread over more than four years. Consequently the cost of it did not bulk so large in any one year's budget. But to bring home in a few months hundreds of thousands of men, spread from England, France and Flanders, Italy, Egypt, Palestine to far-off Siberia, was a gigantic and expensive task. It taxed all my resources.

Citizens: Realizing the conditions you faced, because of the shortage of shipping, and remembering that other parts of the Empire were eager for the speedy return of their men, we think you did very well. Give us now the details of your war expenditures.

Miss Canada: \$312,900,000 was spent for the payment of soldiers since the Armistice—the cost of feeding them, part cost of bringing them home, separation allowances to their dependents, the maintenance of hospitals, their medical and nursing staffs, in Britain as well as Canada, the organization and conduct of the Department of Soldiers' Civil Re-Establishment (which includes the Vocational Training Schools) and the financing and operation of the Soldier's Land Settlement Act.

In addition to this, I have already authorized and am paying gratuities to soldiers on their discharge.

Citizens: What is the amount of the gratuity?

Miss Canada: I used \$59,000,000 of the Victory Loan 1918 for this purpose, and expect to use \$61,000,000 of Victory Loan 1919.

Citizens: Did you make any other disbursements under the heading of war expenditures?

Miss Canada: Yes, \$9,000,000 was spent at Halifax, to be used in reconstruction after the disaster.

Citizens: We quite appreciate the fact that these were all necessary war expenditures. Perhaps you will tell us now what you did in the way of advancing credits to Great Britain and our Allies?

Miss Canada: With pleasure. I advanced Great Britain \$173,500,000 to help purchase your grain; and I loaned her another \$30,000,000 to buy other food stuffs.

Citizens: Did Great Britain buy any fish from us?

Miss Canada: Yes, \$9,000,000 worth. I loaned her the money to pay you for it.

Citizens: Were there any other loans to Great Britain?

Miss Canada: Yes, Great Britain bought \$2,900,000 worth of ships built here. I loaned her the money to pay for them. Then I loaned her \$5,500,000 to meet other obligations in connection with munition purchases.

Citizens: What security have you for all this?

Miss Canada: Great Britain's pledge to repay—backed by the resources that made her Banker, Manufacturer and Bulwark to her Allies during the war.

Citizens: That's good enough. Did you do anything for our Allies?

Miss Canada: I loaned them \$8,200,000 to buy your foodstuffs, raw material and manufactured products.

Citizens: That accounts for last year's Loan. Will you tell us now why you need another Loan, and how you purpose using it?

Miss Canada: I need another loan to finish paying the expenses of demobilization, since the proceeds of the 1918 Loan were exhausted, and to meet the obligations I still owe to your Soldier Sons. I also need money for National Working Capital.

Citizens: What are the obligations to soldiers?

Miss Canada: The cost of bringing them home. The payment of all those still undemobilized, including sick and wounded, who are still in hospital, and who of course remain on the Army Payroll until discharged. The upkeep of hospitals, and their medical and nursing staffs.

Citizens: How much will these items entail?

Miss Canada: \$200,000,000.

Citizens: Does that include the gratuities?

Miss Canada: No. I shall need \$61,000,000 of the New Loan to finish paying these.

Citizens: Will that include the money to finance the Dept. of Soldiers' Civil Re-establishment, including the Vocational Training Schools, and the working out of the Soldiers' Land Settlement Act?

Miss Canada: No. I estimate \$57,000,000 for this. I have already approved loans to the amount of \$26,000,000 to soldiers already settled on the land under this Act.

Citizens: How many soldiers are taking advantage of it?

Miss Canada: Up to August 15th, 29,495 soldiers had applied for land under the terms of the Act. 22,281 applications had been approved. 9,043 men were already placed on farms, and millions of acres will be under cultivation, that might otherwise be idle.

Citizens: What do you consider the great national advantage of having soldiers become farmers, apart from increased production of food?

Miss Canada: The love of outdoor life and the resourcefulness of our soldier citizens are just the qualities to make them successful farmers, and upholders of the best Canadian tradition.

Citizens: Have you any other war obligations?

Miss Canada: Not that I foresee. I have covered the major ones.

Citizens: You purpose extending further credits to Great Britain and our Allies, do you not?

Miss Canada: Yes, to the extent that your Loan will permit me to.

Citizens: Why sell to Great Britain and our Allies if they can't pay cash?

Miss Canada: Their orders are absolutely essential to the continuance of your agriculture and industrial prosperity. The magnitude of their orders, and the amount of employment thus created will depend upon the success of the Victory Loan 1919.

Citizens: Will you explain simply this idea of credit, and why it is so necessary that we should give it?

Miss Canada: Farmers and manufacturers (and that includes the workers on these orders) must be paid cash for their products.

Therefore I must borrow money from you to give credit, temporarily, to Great Britain and our Allies.

Actually, no money will pass out of Canada.

If you do not grant this credit, other countries will; and they will get the trade, and have the employment that should be yours, to distribute amongst their workers.

And remember, you absolutely need these orders to maintain employment. If you don't finance them, employment will not be as plentiful, business will feel the depression and conditions everywhere will be adversely affected.

Citizens: Will you use the proceeds of the Loan for any other purpose?

Miss Canada: Yes. I must carry out the National Shipbuilding and Reconstruction programme. I am also committed to advance loans to Provincial Housing Commissions.

Citizens: What are individual—personal advantages to be gained in buying Victory Bonds?

Miss Canada: The fact that Victory Bonds are among the world's premier investments—in security—in good interest yield—and in ready saleability.

Citizens: What do you mean by Security?

Miss Canada: I mean that the whole resources of Canada—all the assets of all the people—plus all the wealth yet to be discovered is behind my pledge to repay you your principal when due and to meet each interest payment.

Citizens: What do you mean by "good interest yield?"

Miss Canada: You receive on your savings deposits 3%. Invest in my Bonds, with the security of all Canada behind you, and you get 5½%.

Citizens: What do you mean by "ready saleability?"

Miss Canada: I mean that if, at any time, you wish to get cash for Victory Bonds—that is, sell them—you can do it at a moment's notice. Or, if you want to borrow money on them, any bank will loan it to you and accept them as security. For all practical purposes Victory Bonds are as good as money, except that if you keep a bill in a box at home, or in a vault, it doesn't earn interest—but *Victory Bonds do*.

Citizens: Would you advise a person to take money out of a Savings Bank and invest it in Victory Bonds, and if so, why?

Miss Canada: I would—because I pay almost double the interest paid by Savings Banks and my obligation is undoubted.

Citizens: Do you think Victory Bonds will increase in value?

Miss Canada: They ought to. Every person who subscribed to Victory Bonds last year has made money. I have every reason to believe my credit position must steadily advance.

Citizens: You have given a good account of your stewardship, Miss Canada, and realizing the obligations we have to our soldier sons—our brothers—to our farmers and industrial producers—to our workers everywhere—to You, the Spirit of our beloved country—to those who have so gladly and gallantly died for her—we pledge ourselves to buy your Victory Bonds to the absolute limit of our ability, and thus ensure the realization of our highest and best aspirations for Canada and all Her peoples.

Cut this out and read it carefully. It will answer a great many of the questions you may be thinking of in connection with the

ECLECTIC CLUB ANNIVERSARY

The Eclectic Reading Club celebrated its fiftieth anniversary last evening and its members enjoyed a unique and most entertaining programme. The meeting was held at the residence of Mrs. Frank and Stetson, Mount Pleasant, and the readings which formed a historical review of the club's activities, were under the direction of Mrs. Malcolm Mackay.

Judge Forbes was acting president. Each of the readers wore the costume of the date which her paper dealt with. The readers were as follows: 1869, Mrs. Rupert Turnbull; 1878, Mrs. Alfred Morrissey; 1884, Miss Nan Brock; 1889, Miss Annie Puddington; 1899, Miss Alice Fairweather; and 1919, Mrs. Courland Robinson. Miss Alice Walker gave a reading on the art of reading that had been delivered before the club forty years ago. Mrs. Keator gave the last reading. The oldest members, Dr. and

Mrs. Matthew and Mrs. MacMillan were made life members. The election of officers resulted as follows: President, Canon R. A. Armstrong; vice-presidents, Mrs. George F. Smith and Mrs. Keator; executive, Mrs. J. F. Robertson, Mrs. W. Mackay, Mrs. A. Morrissey, Mrs. J. H. Thompson, F. B. Ellis, R. J. Hooper. A marvellous birthday cake with fifty candles had the place of honor on the refreshment table. There were more than fifty members present.

CURLERS' FAIR.

Last night was the banner night at the Curlers' Fair. There was a large attendance, about 100 curlers of the Thistle and St. Andrews clubs marching over with the City Cornet Band as the head. The visitors were entertained at luncheon by the west side curlers and were welcomed in a very neat little speech by President Chas. Morris of the Curlers' Club. President Wetmore of St. Andrews replied in a very happy manner. The City Cornet Band played

a medley of Scotch airs and there was some splendid singing by those present. The various prizes were won as follows: Door prize, load of coal, ticket 2208; Horae Tapley; ladies' air gun, Miss E. J. Beatty; bean board, Wm. Connors; excelsior, Sutton Roxborough; ten pins, Thos. MacCauley.

TO PROSECUTE SOCIALISTS

Brussels, Monday, Oct. 24.—Emile Vandervelde, Belgian Minister of Justice and president of the Socialist Inter-

nationale, has ordered proceedings instituted against the editor of the publication named Socialism Belge, which appeared in Holland during the war, and is alleged to have conducted a campaign in favor of Belgian abandonment of the war. Caille Haysmans, secretary of the Internationale, and Messrs. Jamar and Longueville, who are Socialist candidates at Antwerp in the present Parliamentary elections, will be prosecuted.

WAR ON MOSQUITOS.

Trenton, N. J., Oct. 24.—A plan to subdue salt marsh mosquitoes within five years, by an annual appropriation of \$150,000 and by the use of prison labor is contained in the annual report of the State Department of Conservation and Development. Other recommendations include revision of taxation systems, proper development of North Jersey water resources and means to prevent forest fires.

LETTER FROM PREMIER
FOSTER RE THE LAURIER
MONUMENT FUND

To the Editor of The Times:
Sir,—At a recent meeting of the executive committee of the Laurier Monument Fund held in Ottawa, I was requested as Liberal Premier for the Province of New Brunswick to start an organization for the collection of funds for this purpose.
This appeal is for a national popular subscription in memory of Sir Wilfrid Laurier, the amount of each contribution not to exceed five dollars, and it is proposed that an organization in each province will be formed so that any person who may wish to contribute even ten cents or upwards to five dollars may do so, and thus may have the honor of participating in the erection of a monument to our greatest Canadian statesman.
This is a purely voluntary effort and I believe the wish to respond to the invitation sent out by the executive committee of the Laurier Monument Fund will be so emphatic that it will not be necessary to convene a general meeting of the Liberals of the province for this purpose, but that I can depend upon the leaders and representative members and candidates in election of the past to interest themselves and see that the work is undertaken as promptly as is desired and as is in the best interests of the fund.
It has been suggested by the Central Executive that an urgent appeal be made for this organization work to be started on November 1, and that it be absolutely completed in each province ready for collection of funds by November 20, the date of Sir Wilfrid's birth, and that a special effort be made to have all the funds collected and in the hands of the general treasurer by the 17th of February, 1920, the first anniversary of his death.
It is therefore my privilege and honor, as convener for this province, to invite the Liberals of New Brunswick to subscribe funds for the erection of a monument to Sir Wilfrid Laurier and thus participate in a memorial to a man who, for so many years, we were all delighted to honor.
In accordance with the suggestion of a central executive committee, a special treasurer must be named by the voter and I have therefore requested J. Fraser Winslow, barrister at law, of Fredericton (N. B.), to act in that capacity, and he has kindly consented and will keep a full statement of all the names of contributors and the amounts contributed, copies of which will be periodically forwarded to the secretary at Ottawa and acknowledged made to all subscribers.
I am,
Yours very truly,
W. E. FOSTER,
Premier.

A WONDERFUL GARDEN.
Chicago is soon to have, on the outskirts of the city, the most beautiful and extensive botanical garden or arboretum in the world. The Cook County board of forest preserve commissioners has just decided to make a portion of the preserve "a scenic marvel," and it is likely that 2,000 acres in the Palee district will be chosen as the site, since this is already a garden spot, with deep wooded ravines, high bluffs overlooking the Desplaines River valley, and wide stretches of prairie. The committee is sure that this region is 90 per cent. complete, scenic ally. As trees, shrubs and flowers from all lands are added they will be planted in accord with an elaborate scheme of landscape gardening.

Hudson Seal Coats
Are Especially Featured in These Fur Collections
IT seems that no other fur—beautiful though it may be—can displace Hudson Seal as a prime favorite.
And anyone who chooses a Hudson Seal Coat this season—and particularly just now, from these assortments—displays a keen judgment and discrimination.
For Hudson Seal is a fluent second to the charms of youth, an interpreter of the beauties of the years of discretion, and an addition to the dignity and staidness of the matron of mature years.
Dozens of Hudson Seal Coats in These Groupings

ANTI-DUMPING BILL PENDING

Fordney Measure in The United States House Has Drastic Provisions

Washington, Oct. 24.—Tariff revision has received little public attention lately, with the result that the introduction of a measure such as the Anti-Dumping bill, introduced by Joseph W. Fordney, chairman of the House Committee on Ways and Means, has not been much commented upon. When it comes up for debate, however, this bill is likely to attract a

good deal of attention from business men. Chairman Fordney is understood to have consulted the Treasury Department in the formulation of his proposed act, whose principal purpose is to compel the payment as a penalty of the difference between fair selling cost of imported goods and any undervaluation at which they may be entered. While the special object of the proposed scheme is to protect the dye and chemical industry against what it regards as unfair German competition, and incidentally to render the adoption of a licensing system unnecessary, the terms of the bill are general in their application.

Section nine contains the gist of the whole project, and reads as follows: "Whenever merchandise is exported to the United States of the class or kind provided for in this act and the sales price is less than the foreign home value, or in the absence of such value is less than the value to countries other than the United States, or in the absence of such value is less than the cost of pro-

duction, there should be levied and collected, in addition to the duties on imported merchandise prescribed by existing laws, a special duty in an amount equal to the difference between the sales price and the foreign home value or the value to countries other than the United States or the cost of production, as the case may be."

The class of merchandise to which the provisions of the law will apply is that which is "identical to or comparable with a class or kind made or produced in the United States, which shall be determined and promulgated by the secretary of the treasury." The special duty, it will be observed, is a matter of a difference of values. For example, should a shipment dutiable at 50 per cent. ad valorem be entered as possessing a home value of \$100,000 and subsequently be found to possess an actual home value of \$150,000, the importer would be compelled to pay instead a duty of \$50,000 a normal duty of \$75,000 plus a penalty of \$50,000, or a total of \$125,000.

GROWTH OF HARTLAND

Hartland Observer.—There is a tremendous influx of newcomers to Hartland, or, at least, there would be if there were houses to rent or buy. Most of those aspiring to live here are retired farmers from the outlying districts. At the present time there is not an available family or business rent of any kind, and many families are confronted with the problem of housing themselves for the winter. Several are placing their household goods in storage with no place to go. In spite of the high cost of construction many buildings are imperatively needed.

In Spite of the H. C. Conditions And Shortage Of Materials We Are Giving Unparalleled Values In Tailored-To-Measure Clothes

HAVE you looked into the windows of the clothing stores these past few weeks? The message they tell you is not very pleasing news for your pocket. The sort of clothes you bought three or four years ago at \$15 to \$20 are priced this season at \$35 to \$75—and a very few are shown at these prices. Many stores prefer not to quote prices in their windows. They want a chance to explain to you inside the store why they cannot afford to offer reliable clothing for less than \$75.

If you have not fully appreciated the remarkable value the English & Scotch Woollen Co. are giving in Custom Tailored-to-Measure Clothes at Standardized Prices—as low as \$20, we ask that you visit one of our 25 Quality Tailor Shops and examine the Fall and Winter fabrics and the finished garments on our delivery racks.

The reason we can tailor clothes to measure for less than half the prices asked in ordinary clothing stores, is simply due to our great buying power and our superb organization.

POLICE COURT SESSION THURSDAY AFTERNOON

The case against the Brayley Drug Company, charged with unlawfully supplying liquor, was resumed in the police court yesterday afternoon. William Ben-

nett told of obtaining liquor from an employe of the company on two occasions. The magistrate ordered that the employe be summoned. Chief Inspector Wilson then laid a charge against another employe of the company, for unlawfully selling liquor in September to Bennett.

L. A. Conlon, counsel for the company, laid a charge against Bennett for having liquor in his possession other than in his private dwelling on Oct. 18, 1919, and also for being drunk on that night. He pleaded guilty. The matter is still unfinished.

In the case against Steve Prockovitch charged with assaulting Arthur Vasso, the Club Cafe, Ronald Smith told of seeing the defendant come into a drug store for treatment. The case was postponed until Wednesday morning.

HOW THE MONEY IS SPENT

Case No. 1

A St. John seaman lost his life in a merchant steamer torpedoed by the Germans. He left a widow and four very young children utterly destitute. The moment The Navy League heard of this she was given a gratuity, and the case reported to the Head Office, when she was granted an annuity; and by the efforts of The Navy League, The Shipping Federation, London, gave her a substantial sum --- now invested with a Trust Company.

Case No. 2

Another St. John sailor was on a schooner which never was heard of since sailing. His widow, on application, was granted a pension.

Case No. 3

A seaman laid up in hospital by an accident --- his family kept by The Navy League all that time.

Last week a young sailor who had been here in hospital for weeks was sent to his home in England at the expense of The Navy League. Many similar instances can be given.

When the S.S. "Princess Sophia" was lost last year on the coast of British Columbia, twenty-six sailors' widows were left, besides numerous children. The Navy League provided for every one of them.
