Port Said, April 17.-Information has reached here to the effect that a fifth division of the Russian second Pacific squadron, under Admiral Vessarago, and Alexander II., Slava and Paul I., the armored cruiser Pamyat Azova and the second-class cruiser Admiral Korniloff, will traverse the Suez canal in July or

The dispatch from Saigon announcing that Admiral Dejonquieres, the French naval commander at Saigon, is proceeding to Kamranh Bay, and the departure of a vessel of stores combine to indicate that the Russian rendezvous is probably in or near Kamranh Bay, or sheltering along the coast of Annam. The locality is considered to be particularly and evalence of tropical storms.

SHIPS REPORTED NORTHWEST OF HONGKONG.

Paris, April 18.—A dispatch from St. Petersburg to the Echo de Paris states that Vice-Admiral Rojestvensky, with a portion of his squadron, has been sighted off Hongkong, sailing northeast. This is not confirmed from other sources.

AND PROVISIONS.

Russian cruisers Dimitri Donskoi and Rion were scouting outside the bay while a tug was seen bringing colliers along-side of warships which were coaling, and that many boats were transferring

provisions to Russian vessels. The correspondent at Hongkong of the Daily Mail reports that the steamer North Anglia late Friday night sighted a strong fleet of cruisers off Bambay reef steering south and using search-lights. The North Anglia was unable o distinguish the nationality of the

Tokio, April 18.-Discussing the presence of vessels of the Russian second Pacific squadron at Kamranh bay, on the east coast of French Indo-China. the Jikishimp declares that the use of the island of Madagascar by the Russian squadron was a direct and prolonged violation of the principle of neutrality, but on account of the distance Japan in that instance simply lodged a protest. The paper, however, insists that Russia is now using Kamranh bay as a base for protection against their opopnent, and says she intends to use it as the point for effecting a junction with the remain-

ing division of the squadron. "If the use of Kamranh bay is conthe paper says, "Japan must regard its neutrality as completely ignored, and she will not be obliged to respect its neutrality. Violations of neutrality n distant ports are not important, but when close to the zone of war it is impossible to view them with the same leniency." The Jikishimp further de-clares France is lending the Russians efficient assistance, thus actually joining issue with Russia against Japan, and that it is now necessary for Japan to notify Great Britain, according to the terms of the Anglo-Japan alliance, Protests, the paper asserts, are unavaling.

The time for action has come. The Nichinichi to-day says France has been a party to keeping the location of the Russian squadron a secret, and adds that France does not observe the 25-hour rule, but," the Nichinichi continues, "the spirit of neutrality affords no exbut," the Nichinichi continues, cuse for extending such hospitality to a belligerent squadron, and it expresses the hope that France will take steps to abide by her obligations and duties as a neutral

Tokio, April 7 .- "Defence zones" have been created around the islands of Okinawa, Oshenia and Erni, of the Loochao group, and the Pescadore islands, where e Japanese have established a naval squadron, under Admiral Vessarago, and composed of the battleships Imperator out to-day, is a warning to foreign ship-fled from Russia because they had reping to keep away from the zone, which is in the way of the Russian fleet's proinnumerable mines. Many of the mines, hundreds in number, that were planted off Port Arthur by the Japanese, have been removed and, it is said, are now beng placed in the path of Admiral Rotvensky's fleet.

The navy department declares Tsugara straits a zone of defence, with the usual naritime restrictions.

LINEVITCH FORBIDS THE STORES.

London, April 17 .- A dispatch from St. Petersburg to a news agency reports that General Linevitch has issued an order forbidding officials of the commisorder forbidding officials of the commis-sary to burn stores, and reproving offi-cials in cases that have already occurred. The order directs that stores be destroy-ed hereafter only by permission of the commanders of army corps and divisions. The Telegraph's correspondent at Tokio reports that the Japanese recover-ed 200 of the 500 guns which the Rus-rians had abandoned in the retreat from Mukden. Mukden.

London, April 18.—The London morning papers keenly discuss the neutrality question, for the most part in a strong pro-Japanese strain.

The Daily Mail corresponds a further report from the North German Lloyd steamer Pring Heinrich that on Friday, April 14th, the Russian cruisers Dimitri Donskoi and Discussion cruisers Dimitri Donskoi and Control of the Administration received here is taken to indicate that the Russian squadron proposes staying at Kamranh bay until meanwhile sending out cruisers to overhaul merchantmen proceeding along the trade route to the Straits of Formosa.

"The transports accompanying the Russian squadron are reported to be plying between Kamranh bay and Saigon under the merchant flag of Russia."

The correspondent at Jibutil, of the Daily Mail, learns that some ships of the Daily Mail, learns that some snips of the main Russian fleet joined the third Pa-cific squadron near Sekotra, and thence proceeded for Diego Garcia, where they will await the fourth Pacific squadron.

EXPEDITION IN DANGER.

Turkish Force Lost Guns and Stores in Fighting Way Into Sanaa.

Constantinople, April 17.—News received from Hodeida is to the effect that the situation at Sanaa is precarious, necessitating a new relief expedition, owing to General Riza Pasha, aide-decamp to the Sultan, having lost all his guns and stores recently in fighting his way into Sanaa.

A dispatch from Constantinople April 1st said that Riza Pasha with a strong force of men had reached Sanaa, capital of the province of Yemen, Arabia, on March 29th. On March 3rd it was reported that Sanaa had fallen into the inds of the insurgents, and on March 18th a dispatch stated that Sanaa had peen capitulated, but subsequently this was denied by the military authorities at Constantinople.

STILL UNSETTLED.

Hungarians Remain Firm-Efforts Being Made to arrange Compromise.

Budapest, April 17.-The solution of the ministerial crisis is delayed. The mited opposition shows no signs weakening in its demands or of disintegration, and neither does the crown give evidence of a tendency to withlraw from its previous utterances or attitude. The situation consequently is serious, to say the least.

Hungary feels she is now combatting Austria politically for the recognition of certain external rights which mean much ure independence and lead to a state of affairs between Austria and Hungary which Hungary could not accept with tranquility. Therefore the Hungarians are very likely to remain firm, hoping to force certain concessions from the crown. each one of which would mean to increase the Hungarian independence of Austria, as well as a step toward ultimate complete Hungarian national inde-pendence. It is believed in well informed quarters here that some compromise will be reached between Hungary and the crown before the address comes up for discussion, thus avoiding possible heated debates, besides the necessity of sending the address to the crown.

# RUSSIAN POLICE

AND MANY PEOPLE ARE BEING ARRESTED

Revolutionary Literature Has Been Distributed Among the Regiments of the Imperial Guards.

(Associated Press' St. Petersburg, April 19.-The police are making numerous arrests of workingmen and intellectuals, and the prisons are now full to overflowing. Practically all the delegates to the Schidlevesky commission, which was created in February last to investigate the cause of discontent among the working classes, are in custody.

Mounted police yesterday attempted to suppress a demonstration of employees of the Putiloff iron works after they had attended the funeral of a victim of a crane accident. A conflict ensued, the workmen firing revolvers and the police using the flat of their swords. Many were injured and arrested.

The circulation of revolutionary literature among the troops throughout Russia has now spread to the regiments of the Imperal guards, and a general order has been issued to the guards forbid ding them "to read proclamations thrust into your hands in the streets or your odging, or to listen to those allies of

The plea at Moscow of Kaleieff, who was sentenced to death for the assassination of the Grand Duke Sergius, that a state of civil war exists in Russia, and that he was a prisoner of war and not an ordinary prisoner accused of a crime, is considered here to indicate the position which the terrorists will assume hereafter. Naturally such a position is not acknowledged by the government, but the terrorists will persist in the fiction. Kaleieff, having oeen tried by a special ommission of the state, against which there is no appeal, will be hanged probably within a fortnight.

Urge Reforms. Bulgarians Slain by Greeks-Turks Kill Servians-Turkey Does Not Interfere.

Vienna, April 20.-The condition of affairs in the Balkan states is causing much uneasiness in official circles here. The hope of a comparatively peaceful which has previously been exspring, pressed, is growing less, and it is declared that the reform work has now been conclusively proved without good r lasting results.

In Zagoricham, province of Koritza early this month, Greeks fell upon and killed more than 130 Bulgarians and in Kumanovo, province of Uskub, Turks have killed several Servians. Thus it is seen that Christians and Mohammedans continue fighting each other, while Turkey seems unable or not desirous of affording protection to the people and topping the disorders.

Formerly there was only the passiv esistance of Turkey to contend with, but now the situation has been aggra-vated by the growing bitter hatred of the various nationalities against each other. There also is a possibility that some of the Balkan states may actively enter the field under the pretence of proecting its subjects.

CASE IS REMANDED. Chinese Accused of Gambling Are Out on Bail, Pending Hearing.

(From Thursday's Daily.) The twenty-three Chinamen charged with gambling have had their case laid him to over until next week. Twenty of them are out on bail, sureties being furnished to the amount of \$100 each. The precaution has also been taken to have all these accused men photographed. This latter measure is taken in consequence of former attempt in a Chinese gambling case to defeat the ends of justice by impersonators appearing when the case was called and alibis attempted to be proved. This attempt was checked, but nothing will be allowed to afford an opportunity to repeat this.

The raid upon No. 40 Cormorant street, which resulted in the capture of twenty four Chinamen, has an interesting story back of it. A determined effort is being made by the police commiss ners and Chief Langley to put a stop to Chinese gambling. Ever since the murder trials n connection with the death of Mah Quon, in the Chinese theatre, there has been a determined fight on between the opposing factions in Chinatown. The attempt has been made on the part of each faction to close up the gambling establishments of the other. So fierce is the conflict between these parties that there is danger of bloodshed. Realizing this, the police commissioners have de-cided that gambling shall be stopped as an effective way of avoiding an outbreak of trouble, After carefully considering the situation Chief Langley was instructed by the commissioners to spare no pains to stamp out the gambling pracices in Chinatown as a preventive step. The present raid worked to the discomfort of the Wong faction, and much to

A PARROT FARM.

Dispatch to a Montreal Paper Says That

An Associated Press dispatch from Vanouver to the Montreal Witness will give residents of Victoria a more golden opinion of the climate they live in than possibly they ever entertained before. Parrots thrive here, but there are few who know that they are found wild on this Island. The article is headed "A Remarkable Ranch Near Victoria, B. C.," but this is evidently an error. The place referred to is probably

Victoria, Australia. The dispatch says: "The latest Pacific oast enterprise is a parrot farm which is enabling its founder Mr Martin Holts to accumulate a fortune. He purchased a large tract of forest near Victoria, which teemed with wild parrots. He fitted up a ranch in a remarkable way. Wire netting was placed around and over the trees and the birds were confined therein. Then he started to teach them to talk. He has a retty good knowledge of Spanish, French

INCREASING HER SPEED

The steamship Spokane is expected to develop a speed of more than 15 knots when she comes from the Union Iron Works at San Francisco. A new boiler is being installed in the vessel, and the ship is receiving a general overhauling. The Spokane is the excursion steamer of the Pacific Coast Steamship Company's fleet, and was built for the Alaskan tourist travel.

As previously reported, the Spokane will make six special trips to Southeast ern Alaska this year; sailing June 8th. June 22nd, July 6th, July 20th, August 3rd and August 17th. General Passenger Agent Dunann is in the east arranging for the excursions, and, according to Northwest passenger agent, the Spokane will carry a large number of Raymond & Whitcomb excursionists this sea-

SEALERS SPOKEN.

A few sealers were in port on the West Coast, and all but one have lately been reported, according to advices received through the return of the steamer Queen City on Tuesday. A small consignment of skins from the Casco were brought up from Clayoquot. The Casco had a catch of 208 skins. Among others of the fleet reported were the Diana, with 178 skins, and the Cox with 234 skins. The Queen City had not been to Quatsino on this trip, this having been her short run. She brought back among other passengers Messrs. Collier. Devian. a couple of sick sealers, Mrs. Maher and

Weisbaden, Germany, April 19 .- Americans are shorter lived than the Ger-mans was the conclusion reached by Dr. Blaquer, in his paper on social hygiene in the United States submitted to-day to the international congress of medicine, now in session here. Although more temperate in the use of alcohol than Germans and working an average of ten per cent. shorter hours, the Americans are exhausted earlier in life. The doctor gave these figures for each thousand of the population. The number of persons from 40 to 60 years of age are in Germany, 179; in America, 170; persons over CURE AND PREVENTION

In the constitution are provisions assigning to the Dominion and to the provinces duality of jurisdiction, as for instance in agriculture, and almost everything that pertains thereto-even the lives of the live stock raised on the farms: the same in regard to railway legislation, as well as in many other affairs. This, perhaps, is all wrong; it would have been better, perhaps, had the limitations of the legislative powers of the provinces and of the Dominion been | for by Sir Wilfrid Laurier, and went in more sharply defined and had there been no over-lapping of authority or duality of rights in respect to legislation on any question. Were there no migration of the afflicted, as there certainly is not of those afflicted with other contagious diseases, then there would be less argument for Dominion assistance. Each province might then be told to take care of its own, and it would be its duty to do so. But you cannot isolate and put under restraint sufferers from tuberculosis; and those of the afflicted who can afford the expense will as a last resort at least go to Alberta and British Columbia to find if possible more favorable climatic conditions. Does not that mean, if the provinces are to deal with the question in the way of financial assistance, that the people of Alberta and British Columbia will be taxed to assist in restoring to health the unfortunates from the East who would have been, had they remained at home, a charge upon their native provinces.

In plain words, the rights of Manitoba could be purchased by concessions to the Catholic church. This is what Mr. Rogers asks the people of Canada to believe: that the Premier of the Dominion had conspired with the representative of the Papacy to commit a political crime against the people of Manitoba. There are people in Canada who could not be convinced on the word of any single man that Sir Wilfrid Laurier is capable of abasing himself to the depths alleged by Hon. Robert Rogers. The force of the explosion completely tore off the front door and at the same time partially wrecked the station interior. The robber or rob bers, however, got nothing. Entrance to the station was gained by prying open a window north of the station waiting room loor. Once in that room it was easy to break the spring lock between the waiting room and the office. A sack of Ymir mine oncentrates weighing some 150 pounds was taken from a car back of the station and odged against the safe door. Between this and the safe door dynamite was placed and the fuse lit. After the explosion the safe umbler must have been displaced and more dynamite was then placed in the hole made which resulted in the large outer door being wrenched away from the safe, but the inner door was still intact. At this stage of the operation the cracksman appears to have found that he had run out of fuse, so taking a part of a stick of powder, he drev the paper out to a taper and placing the percussion cap close to the end, lift the paper, at the same time placing it against the inner door. Ill-health in women is usually traceable to nerve-exhaustion. When you feel run-down and depressed, tired most of the time-it means nature warns you that more nerve-force is required.
You have allowed your store of nerve-energy to fall below par, and the re

sult is a lack of vigor that invites every disease germ in the air. It may be the pneumonia germ, or typhoid, perhaps tuberculosis—but if it gets into your weakened system now, your chances are poor indeed.

The one true remedy is Ferrozone, a medicine that builds up the system by

nourishing the nerves and enriching the blood. There is more nutriment and building material in Ferrozone than you can get in any other way-more power to cure thoroughly, and thereby establish

solid lasting health. Not only is Ferrozone a blood and nerve builder, it is an appetizer and tonic unequalled for weakness, debility and all other diseases common to the spring

Your case may be similar to that of Mrs. Daniel Ferguson, jr., whose address is P. O. Box 395, Prescott, Ont. This is her statement: my health began to fail. I grew very thin and exceedingly pale. I was completely prostrated at times with nervous and sick headache.

"All day long I was tired and at night I found it difficult to obtain restful sleep. My appetite was variable and indigestion bothered me considerably. As I grew worse I became morose and suffered considerably from heart palpitation. "You could scarcely believe the benefit I derived in one week from Ferrozone. ## CONTENDED ENTRY WAS UNLAWFUL

THE DEFENCE MADE IN GAMBLING CASE

Legal Objections Taken to the Method Employed by Police in Making Raid.

(From Tuesday's Daily.)

In the city police court yesterday afternoon the question of what constitutes a lawful entry of premises was argued. Alexis Martin, in his defence of the Chinamen accused of gambling, took exception to the fact that the two police officers broke in without a warrant, the only authority being that in the possession of Chief Langley. The Chinamen were justified under the circumstances in barring the doors, he contended, and ther argued that there was nothing to show that any attempt was made to er the house by the doors before the skylight was broken in.

When the case opened vesterday aftermoon one of the Chinamen was charged

Chief Langley told of the way in which the room was barred from the public by a series of doors, all of which were lockd on the occasion of the raid. The door were produced in court as exhibits. There was also an electric bell connected with wires from the front of the build-Over the tables were large lamps, which Chief Langley said cost a good leal to keep going, and some one paid

When he entered he found Chinamen about the tables playing, or attempting to play, with dominoes. These were used in playing pi gow. When this game is played there is money on the table. It

These had not been in long.

The chief said he put the fire out, throwing in water which was on the stove. On the premises were found a number of buttons used in the fan tan game, also a pair of sleeves, such as are used by the fan tan dealer.

Chief Langley said he knew No. 40 Cormorant street as a common gaming house. The front was used for playing pi gow for money. Fan tan was played with a banker. As he approached the building he saw the watchman, who is always on guard to give warning. This man disappeared, and he knew that the doors would be barred, which he found

Mr. Martin objected to this going in Cross-examined by Mr. Martin, the chief said that when he went into the room the men were making a bluff of throwing the dominoes on the table and

picking them up again. The chief further questioned, said he stated that the buttons found were used in the game of fan tan. They were used for nothing else. Both pi gow and fan tan were games of chance. A banker was employed in each.

For two weeks past a guard had been on duty at the door of this house, who disappeared each time witness approached, and the door was at once locked. Recalled by the magistrate, the chief said that he entered the premises on a

given by the chief. He knew pi gow as a gambling game. It was played for money or for counters. The white buttons were used in fan tan. The sleeves produced were invariably ing the loose sleeves out of the way

Police Officer Fry described his en-trance into the room. He heard a bell ring as he removed the skylight. Questioned by Mr. Martin, witness said that he entered the house by the skylight on instructions from the chief. He had no warrant himself. He was in

plain clothes, and told no one he en-countered that he was a policeman. Police Officer Palmer told of his entering the premises with Police Officer
Fry. He heard a bell ring. A Chinaman attempted to stop him with a stick.

Witness drew his revolver and the man let witness pass In answer to Mr. Martin, witness said his instructions were from Chief Langley to get in the building the best way he could. He was in plain clothes, and had

no warrant. The information was amended at this stage so as to charge the prisoner with playing" a game instead of with "look-

Mr. Martin asked for the dismissal of the case on the ground that there was no direct evidence of this man having been playing. It was only presumed therefore that the man was playing. It would be contended that the onus was upon the defence to establish the fact that there was not gambling carried on. This was only possible if a lawful entrance of the house was made. The raid was not of that character. The police officers who broke in had no warrant in their posses sion, and were in plain clothes. The Chinamen were, he believed, entitled under the circumstances to close the door the trip is to thoroughly look into the and treat the officers as trespassers. There was no evidence to show that the warrant was produced at any stage. The authority should have been produced before the breaking into the house was in

This forenoon Police Magistrate Hall de cided against the application for a dispissal of the charge of gambling preferred against a Chinaman. The Chinaman will have to go on with his defence, which will begin this afternoon at 2 o'clock. The magistrate therefore upheld the raid made

by Chief Langley as a perfectly lawful one.

Alexis Martin contended that before force could be used to enter a place it was neces-sary to make a demand to enter by other means, and only in extreme cases was the breaking in of doors and windows to be rebreaking in of doors and windows to be resorted to. This was the general rule of
common law. The wording of the warrant
was directly in line with this, it being set

entry was not in accordance with the authorly of the warrant, but in opposition to it. The police magistrate wanted to know to gates of Mukden be closed, and remain whom the warrant was to be delivered. In a case of this kind the police were authorized to enter a certain house. The warrant was not against any particular person. It was, moreover, the only method by which the police could obtain evidence in

case of this kind, and the code, he thought, clearly presupposed such a course eing pursued. He refused to dismiss the case on the grounds urged by Mr. Martin, and informed him that he would have to proceed with

his defence. The case was adjourned until 2 o'clock this afternoon. Convicted and Fined. Upon resuming the case this afternoon Mr. Martin said that he would not call

any witness in defence. He moved formally for dismissal on the ground that no prima facie case had been made The police magistrate said that he ould not agree to this. He contended

Kawamura's army has received a personal let-ter from the Mikado for its feat of enurance in marching through the moun tainous district from the Yalu to the left rear of the Russian position at Mukden, This army is now designated as "The army of the Yalu."

Correspondents writing from Mukden state that the Russians were completely gnorant of the Japanese plan of advance They were always afraid that some trick was being played on them. A division general acknowledged to a military at tache that the Japanese secret of war was beyond him, and advised him at the termination of hostilities to consult with his confrere on the other side to try and

But the Japanese gain would have meant serious loss to the city, for t would have lain right in the line of the Russian reply. That catastrophe, how ever, Marshal Oyama mercifully prohibited by a previous order as is now known. In fact, it is due to both armies to say that none of their troops retreated brough the city. Though the Japanese pressed the pursuit closely they must have restrained their fire to some extent until they had rounded the southeast and substantially as called for in the terms of jury was done to the houses, and the chinese who were wounded belonged for the most part to the territory outside the ever in trust, for park, industrial, railroad outer wall.

In less than three hours after the Russians had all gone the Japanese had full possession of the city of Mukden and had strong posts at each of the sixteen age purposes to the E. & N. railroad and wharf-

outer and inner gates.

It is scarcely credible, but it is an absolute fact, that for days during the fiercest fighting close to Mukden scores of men and not a few officers were reeling about the city helplessly drunk, and that too was the normal condition of affairs throughout the whole year. During the retreat and when the Japanes scouts were already in the south and west suburbs about a dozen Russian soldiers sat on the ground for four hours carousing right in the midst of the mov ing host and with hundreds of officer looking on, yet no one took any notice of them. Moreover, a few scattered groups of drunken revellers, firing their rifles wildly in the air, wandered about the city after the whole Russian army

had gone. During the Mukden battle Russian officers, who apparently never believed that they would be beaten, extolled their own valor by reporting that they had captured about 100 British soldiers and a British general!

Proposal Made to Tap Properties by Means of a 4.000-Foot Tunnel.

In an interview published in the Rossland finer, F. C. Elliott, of Trout Lake,, says "Navigation has been opened on Trout ake for about two weeks, and this means general resumption of business in the Lardean which is to be the scene of great deal of activity during the presenason. One of the largest enterprises that is now materializing is that which a Minnesota syndicate has undertaken. The syndicate purposes driving a tunnel for a distance of 4,000 feet for the purpose of tap-ping at depth the ledges of the Silver Cup, the Nettie L. and the Triume, three of the greatest properties in the Lardest. The surveying for this large task has already been commenced, and the principals in the indertaking are expected to arrive in Trout Lake from Minnesota within the next three or four days. It is expected that the driving of the tunnel will cost between \$75,000 and \$100,000. When the ledges of the three properties have been tapped at depth there will be immense reserves of ore placed in sight, and the results will encourage others to similar enterprises. ## REPORTED GRANT OF TERMINAL SITE

KAIEN ISLAND WILL BE SELECTED POINT

The Competition Will Be Keen in All Terms Under Which the Land Has Been Acquired by Grand Trunk Pacific.

> On good authority it is reported that the Grand Trunk Pacific will make its Pacific terminus on Kaien Island, a short distance south of Port Simpson. The company, it is said, entered into final arrangements with the provincial government for the taking over of the and some time ago. Accordingly 10,000

acres were acquired at a dollar an acre. Kaien island is reserved land about which there has been considerable trouble with private locators and the government. Several years ago when Port Simpson was looked upon as a probable terminus of a railway a reserve was put upon the Tsimphean peninsula by the government of the day, of which Forbes Vernon was Chief Commissioner. Mr. Vernon himself says that he put the reserve on them because there were rival applicants at-tempting to stake off the territory. He considered it was the wisest thing in the terests of the province to clap a reserve on, and accordingly did so ernon says that Kaien island was then included in that reserve. There was no channel marked, and what is now shown as an island appeared on the map as part of the peninsula.

For about a year past there has been an impression prevailing that the island might become the terminus of the transcontinental road and a number of locations were attempted.

The present government in order to avoid any possibility of a mistake placed a reserve upon Kaien island. Litigation ollowed in some instances, but without An excellent harbor exists at this point. it is reported, and as the channel from the mainland to the island is dry at low

The province also retains its right under the land act of the present time to claim one-fourth of the townsite which is laid

The Grand Trunk Pacific, it is reported, has now acquired the title to the property, although no public announce-ment has been made of the transaction. With the terminus thus assured it is believed that work may soon begin on the western end of the road. The ter-minus is well situated for trans-Pacific

LABOR RIOTS. Fights Between Police and Strikers in

Porto Rico. San Juan, Porto Rico, April 18 .- Six eetings of strikers were held sim taneously to-day in the Ponce district.
The insular police report that at one meeting an American flag was torn and trampled upon. They attempted to make arrests and a riot followed. The crowd attacked the police and several persons

were wounded.

About four thousand strikers attended another meeting on the Plaza at Ponce. Orators of the American Federation of Labor, and President Sanchez, of the local organization, addressed the audience. Disturbance ensued, and the police used their clubs, which was followed by revolver shots from the crowd. The firing brought reinforcements of police and order was restored.

TUBERCULOSIS.

Results of Dr. Goss's Treatment Have Reen Most Gratifying.

Watertown, April 17.-The Standard today will say, in a two-column article: Alfred Goss, of Adams, as the result of long research in the realm of electro-therapeutics, has worked out a table that promises a possibility for the cure of tuberculosis. While the results of the treatment in the most gratifying, he is not yet prepared to state that the treatment is an assured success. Dr. Goss has succeeded in introducing, by means of static electricity, a germiofde that will not affect the albumen of the blood and has been proven to kill tubercule bacilli in lung tissues. Quadra Street Cemetery to Be Cleaned - New Bridge - Conference Over Gravel Pits.

(From Thursday's Daily.)

The special committee of the city ouncil, appointed at the meeting Monday evening, waited upon Manager residence, Simcoe street. Rev. Mr. Dean A. T. Goward, of the B. C. Electric conducted services and the following Railway Company yesterday, to inquire what the latter was prepared to do towards extending the tramway line to the cemetery this year. The proposal was talked over and Mr. Goward promised to lay the scheme before the manage ment of his company at an early date. He will confer with General Manager Buntzen. Vancouver, to-day, and it is exlaid before the board of directors in England.

There is considerable business before the council this week. Ald. Hanna and Fullerton, accompanied by City Engineer Topp, yesterday evening waited on En gineer Cambie, of the C. P. R., with reference to the hauling of gravel for the new hotel. The aldermen explained the council's position in refusing to grant the request made for permission to extend the tramway track to Mr. Haggerty's gravel pit. Assurances being given that there would be no encroachment on the public street, the aldermen seemed willing to give way, and they will report in favor granted at a meeting of the streets. bridges and sewers committee this even ing. Should their recommendations be approved a number of the streets around the gravel pits will be lowered and graded.

There is very strong opposition to th deepening of the gravel pits in Spring Ridge. This was evidenced this morning when Ald. Hanna was rung up over was out of bed. All were anxious that the city council should not recede from the stand it had already taken. Ald Hanna, however, assured those inquiring that the council would not shirk its duty

With reference to the Rock Bay bridge it is probable that at the committee mee ing this evening a decision will be reach ed for the settlement of this question A new bridge is what is now entertained it is believed, by the major number o the board. The central span will be left standing and on either side will be added a new structure. There will be consid erable filling in done at each end. It is calculated the entire cost of the improve ment will be approximately \$7,000.

Still another improvement contempla ed by the council is that of removing the old poplar trees from the Quadra street cemetery. There would still be left 150 trees of different variety, and with a general cleaning up it is believed that the cemetery could be made to look present able at small expense.

There does not appear to be any prospect of an immediate disposal of the Songhees reserve question. The council will in all likelihood appoint a committee interview the government again, which will leave the matter in pretty much the

SEXTON'S SUICIDE.

Ended His Life With Revolver Bullet in Tower of Church.

St. Louis, April 18.—As the pastor of St. James's Episcopal church, Rev. R. M. Duckworth, was delivering his Palm Sunday sermon to a large congregation. there was a report of a pistol shot from the tower of the church. The explosion startled the audience and caused the preacher to stop speaking for a moment. after the closing hymn and benedic-tion it was announced that the sexton of the church, Capt. James Rider, had committed suicide in the tower room of the church and that his body was lying overhead. After a prayer for the departed soul the congregation was dismissed

Capt. Rider's death, Dr. Duckworth said, was due to remorse and shame over his besetting vice, intemperance, an infirmity that had driven him from a high state of life, that of a wealthy, refined and esteemed British shipowner and pub-lic lecturer, to the life of a travelling actor and finally to be a church sexton.

Here is an explanation of the old horseshoe superstitition! "St. Dunstan was a skilled farrier. One day while at work in his forge the devil entered in disguise and requested Dunstan to shoe his 'single hoof.' The saint, although he recognized his malign customer, acceded, but caused him so much pain during the operation that Satan beg-ged him to desist. This St. Dunstan did, but only after he had made the evil one promise that neither he nor any of the lesser evil spirits, his servants, would eyer. molest the inmates of a house where the horseshoe was displayed."

This important business having been dealt with Trustee Mowat, in a few brief but emphatic remarks, advocated a revision in the system of paving teach ers' salaries. He wanted the board to grant the petititon of the teachers and revert to twelve instead of ten payments annually. This, of course, provoked considerable discussion. Many objections were pointed out by those opposed to the proposal, but Trustee Mowat and his supporters contended that it was just an right that the teachers should be paid nonthly throughout the year. The difference would not materially alter the whole amount expended in this way, and, he thought if the ten-payment system was such an inconvenience to teacher the original plan should be re-adopted The debate continued for some time, expressing an opinion.
