TWENTY WOUNDED IN BAYONET CHARGE AT CHURCH PICNIC

Polish Captain Annoyed by Boys Who Impeded the March of His Men at Drill, Ordered the Company to Fix Bayonets and Charge the Crowd

CHICAGO, Aug. 16.—Twenty persons were injured last night when a company of Polish sharpshooters, 20 strong, charged a crowd of men, women and children with bayonets at a church picnic. The trouble started when the captain of the company hit a boy because the youngster did not get out of the way quickly enough to suit the officer who was drilling his company by electric light. This enraged the crowd which had gathered to see the soldiers. The company was surrounded and an explanation was demanded by the angry people. Finally the mother of the boy attacked the captain with a stick. The captain then ordered his company, which consisted of about twenty men, to charge the crowd with bayonets. The crowd fought back greatly outnumbering the soldiers. The riot became general and the captain of the company was one of the first to retreat. A riot call brought the police and they arrested five of the rioters, all of whom were raised, none were seriously injured.

The teachers have succeeded that the schools do not open until after Labor Day, urging that many children whose families are spending the summer away from home will not be able to attend school until the first of September. This argument applies most strongly to this city, which has a large population of summer suburbanites.

SOLE ELECTRIC SHOCKS FROM TELEGRAPH WIRE

Mystery of Block in Service Solved and Operator Gets Into Trouble.

ST. PETERSBURG, Aug. 14--A telegraph operator at Barybino, on the great Ural Railway, has been arrested for making use of the state property for an electric cure. Some days ago the telegraphic service between Barybino and Kaschira had broken down, and the kitch could not be discovered. But the mystery was solved yesterday when two experts from Moscow arrived by train and found that the operating room at Barybino had been turned into a consulting room.

After Gudoof, the operator, sat in a chair surrounded by a number of railway servants and workmen. To each of these after hearing their symptoms, he administered an electric shock. He had fastened a wire to an iron bar and connected it with the telegraphic apparatus, and according as he deemed fit, he directed his patients to lay their hands on the iron bar. He had cured himself in this fashion of chronic rheumatism, and it had occurred to him that he might turn the invention to account by selling the shocks.

He had become so engrossed in his new profession that he had completely forgotten his other duties. Meanwhile scores of messages were being delayed on the line.

BAD BOY, AGED TWO.

His "Awful Language" Likely to Contaminate a Workhouse.

LONDON, Aug. 14--The bad character of a child only 2 1/2 years of age was discussed by the Wyoming (Bucks) Board of Guardians yesterday. The boy, although so young, was said to be constantly using "awful language," and was removed from the Poor Law schools to the workhouse in order to avoid contaminating the other children. A relative, in whose care he was afterwards placed, returned him to the union, as she could do nothing with the child.

Yesterday a guardian gravely objected to the infant being kept at the workhouse for fear it should contaminate the old people with his "awful" language. An opinion was expressed that the case would be met with a little wholesome parental discipline. One guardian said the terrible infant was a sturdy, merry little chap who would be cured by judicious treatment. The child has been left to the care of the master and matron.

TO KISS OR BE KISSED, THAT IS THE QUESTION

Kn'ty Points of Law Provided for Learned Judges in Viennese Court.

VIENNA, Aug. 14--The Commercial Court in Vienna had yesterday to consider the knotty problem whether the law recognized a distinction between kissing and being kissed.

The question arose out of a suit brought by a bookkeeper named Meyer against his late employers, who had discharged him without notice on the ground that he was in the habit of kissing the typewriter girls employed in the office. The firm urged in defence that this was conduct which seriously disturbed the course of business.

Herr Meyer's counsel did not attempt to justify kissing in office hours as a habit, but he brought unpleasing witnesses who swore that they had seen some of the scenes complained of, and noticed that it was the girls who began by kissing Herr Meyer, though they could not say whether he did or did not respond.

The court accepted this evidence, and condemned the firm to the payment of a month's salary, on the ground that a person must be said to have kissed the other who began by kissing, and that a return of kisses on the part of Herr Meyer, even if such were given, which was not proved, would not, under the circumstances, count as kissing in the eye of the law.

Hungarian Count Shares Fate of Father, Also Put in Abode of Lunatics.

BUDAPEST, Aug. 14--Count Karl Zay has been seized by force at Budapest, at the instigation of his mother, and taken to a private lunatic asylum. Some years ago she confined her husband in an asylum, and since then Count Karl has been estranged from his mother, and has lived in Geneva.

He determined to obtain his father's release by legal means if possible, but failing these, he was prepared to use force. He came to Budapest a few days ago to put his plans into operation, and took rooms under an assumed name. His mother, however, heard of his arrival, and having obtained a decree of lunacy from the court, sent four private detectives to his hotel.

They found the Count in bed, and carried him off to the asylum. The reporter declares that Count Karl is perfectly sane, and says that unless he is taken away by his family he will discharge him.

He appeared to be about 25 years old. The medical examiner stated that the body was probably placed there last night.

**NEW CLUBBING OFFER TO STAR COMPETITORS**

Extra Votes Will be Allowed on Groups of Subscriptions to the Value of \$12 or Over—Read Carefully and Profit

Have you read the announcement on another page of the bonus offer in The Sun and St. John Star prize voting contest? If you have not, stop reading right here and turn to the page advertisement.

Commencing Monday, August 16th, we will make clubbing rates to all contestants, whereby each one may, with any number of subscriptions, the sum total of which amounts to \$12, receive 10,000 extra votes in addition to the published schedule for subscriptions amounting to \$20 you receive 15,000 extra votes, and for subscriptions amounting to \$30 you will be allowed 20,000 extra votes. This does not mean that you must have a two, three or five year subscription, so long as you bring in the required amount before 10 o'clock on Saturday night, August 28th. Out of town candidates can mail subscriptions to reach the contest department in the mail Monday, but such subscriptions must bear the post mark of Saturday, August 28th to receive the bonus.

Wise candidates will not let an hour of this precious time be lost. Their friends will take great pleasure in subscribing in their favor when they see how greatly each subscription adds to the candidate's chance of success. "Bonus days" will prove to be the harvest days for the ambitious candidates.

Remember, without your aid the eager, hopeful candidate can do nothing. It is not every day that one finds an opportunity to do a kindly act that at the same time is beneficial. You certainly have some favorite among them. Make them happy. Give them your votes. Renew your subscription to The Sun or Star or begin by taking the paper. It means so much to the contestants, and they have their hearts on winning one of the many handsome prizes.

We are just in receipt of word from one of our contestants that he had been approached by another contestant's friend, trying to find out what he would be willing to pay for a certain number of votes, as he would drop out of the contest. If the inducement was large enough, we wish to respectfully call the attention of every contestant that the votes issued in one contestant's name are not transferable to another. Every certificate issued by the contest department has "not transferable" printed on it. This should be sufficient evidence that they cannot be sold, and if when the final counting is made any certificates showing that it has been tampered with or changed in any respect will be thrown out and not accounted for. This is final and conclusive. No votes will be transferred from one contestant to another under any circumstances.

**BRIDGE COLLAPSED, KILLING ONE AND INJURING SEVERAL**

G. T. P. Trestle Near McGivney Jct. the Scene of the Tragedy—Was One of the Largest in New Brunswick—Workmen Had Narrow Escape From Death.

FREDERICTON, Aug. 15.—Six spans of one of the largest trestles on the New Brunswick section of the Grand Trunk Pacific collapsed on Saturday afternoon with the result that one workman was killed and several others had miraculous escapes.

The accident occurred at 2:20 o'clock at the trestle over Mullins Brook four miles west of McGivney Junction where the G. T. P. crosses the Canadian Eastern division of the Intercolonial.

The dead and injured are: John McMullin, of Cape Breton, instantly killed. John Patterson, engineer, badly bruised. Four workmen injured but not seriously.

The trestle over Mullins Brook comes on a curve and is 1,400 feet long being about 50 feet high. The fill will contain upwards of 40,000 cubic yards of rock and the cars filled with rock were taken out on the trestle by a small locomotive and the rocks then dumped over the trestle. The work of making this fill had been in progress for some time without accident. Suddenly on Saturday afternoon six of the twelve foot spans of the wooden trestle were hurled to the bottom of the trestle and the cars, the big timbers cracking like pieces of kindling wood.

When the crash happened John Patterson, the engineer in charge of the locomotive, stuck to his post, not having time enough to jump and with four of the others he came out of the accident with some painful bruises and other injuries, which, however, are not serious.

**Soap That is Best for the Baby's Bath**

Baby's skin is very sensitive to soap; some soaps soothe and nourish, while others inflame and irritate. It is of the utmost importance that you know what soap to use, and to do this you must know what is in the soap.

Finally they pass through granite rollers and come out in miles of silky ribbons. Then they are dried eight times and stamped into oval cakes that just fit the hand.

Isn't it worth while to have soap like this for your baby? Why risk using common soaps when this excellent kind costs no more than others?

This lovely soap leaves the baby's delicate skin as soft as velvet and as smooth as silk. Even the baby knows the difference in this delightful soap—so we call it **Infants' Delight**.

Baby will like the perfume too. It is so dainty and fragrant—only the exquisite scent of the rose. If this soap is pure enough for the baby's skin it surely is best for your own. Try one cake—you owe it to baby and yourself.

**WOMAN SUFFRAGE WILL RECEIVE NEW IMPETUS**

Men Who Know Practical Politics Enlist in Mr. O. H. P. Belmont's Crusade—May Form New Political Party.

NEW YORK, Aug. 14.—Men who have been active in practical politics will be prominent figures at the lectures which Mrs. O. H. P. Belmont has arranged in connection with her campaign on behalf of women suffrage, for which she will open Marble House, her residence at Newport, R. I., to the public for the first time since that splendidly artistic structure was erected a score of years ago.

When Dr. Anna Howard Shaw, president of the National Woman Suffrage Association lectures in Marble House just 24 she will be introduced by Patrick Boyie, Mayor of Newport. On August 25, when Professor Charles Zuehlke, of the University of Chicago, delivers the second lecture, he will be presented by Aram J. Pottinger, Governor of Rhode Island. The Mayor is a democrat, and the Governor a republican, so the non-partisan principle of the effort to obtain "votes for women" will not be infringed upon.

On each occasion Mrs. Belmont will make brief, introductory addresses, and during the fall and winter she will undertake an active part in the speaking campaign that has been projected throughout the city, State and nation.

Wide interest has been aroused by Mrs. Belmont's decision to present the art treasures of Marble House to publication, beauties and priceless relic inspection. On each lecture day, during the hour preceding the formal programme, subscribers to the lectures will have opportunity of viewing the lower floor apartments of the house.

Mrs. Belmont contemplates also encouraging American art by thus giving to its devotees a chance for study and instruction. Applications for tickets from many quarters are being

received by J. A. MacMahon, at Marble House, to whom all subscriptions should be addressed. The proceeds of the charge of \$5 a ticket for each lecture will go into the fund for the extension of the suffrage crusade.

"We are going to see victory crown this campaign, too," said Mrs. Belmont yesterday before she departed from Manhattan for her Newport home. "There is no selfishness in woman's demand for the right of suffrage. Our motto is: 'Work for our country, and not for individual glorification.' The campaign is to proceed along practical lines and with that potent motive force that comes from centralization of effort."

"We ask nothing except that right to share in responsibility for government affairs which justly belongs to us. If women are capable of rearing the young and caring for the youth of the country, surely they ought to have a share in the management of the country in which they live; in other words, to be vested with that responsibility which is their just due."

"We intend to wage our campaign just as men carry on their political contests. If neither of the dominant political parties of the day displays a tendency to support us and our tenets then we will have to form a third party that's all. We do not insist that we are better than men, but we do contend that the granting of the ballot to women would bring into activity a force of energy and intellect which would make for greater purity in political affairs and for the establishing of higher ideals."

"We expect confidently to be supported by the best men in this country. Such men know that political corruption exists in many places. Women are not pessimistic; they believe that such evils can be cured, and cured for good and all. We are actuated by patriotic motives, for we believe that the world today needs the effort of every brain and the energy of every human unit. If women are barred from participation in governmental affairs, you are depriving the nation of the beneficent efforts that are possible from just one-half of the people whom God created."

"The vast majority of the men of the United States, I believe, want clean politics and governmental decency

everywhere," concluded Mrs. Belmont. "If the great body of women, with their influence, energy and intelligence, were asked to share the responsibility for such conditions I am certain those troubles would be effectively corrected for the good of all. Most women take life more seriously than do men. They are anxious to do what is right. If given the ballot I think they would attach more importance to the franchise than do some men, for it would be as the key to conditions which affect their every day lives, especially in municipalities with their great problems, more than they do men."

"We don't want to thrust man aside or take any of his rights from him. We merely ask for the franchise so we may share in responsibility for a government that controls us as effectively as it does the male citizens. If the two foremost existing political parties take the stand that they do not want to place a woman suffrage plank in their platforms, and that they do not need woman's influence and assistance, then we will form a third party, and in that event we will be supported by the best men in this country."

**HYMN WRITER STARTS A CHURCH OF HIS OWN**

As Memorial to His Hymn "Throw Out the Life Line"—Announces His Creed.

ROCKLAND, Me., Aug. 15.—As a memorial to his famous hymn "Throw Out the Life Line," and also to the 30th anniversary of his ordination, Rev. F. Safford officiated today at the dedication of the "Galilee Temple," a People's Church, built from the people's private funds. The services took place in the presence of a large congregation.

In announcing the creed of the new church, the pastor said no worldly schemes will be used to raise money, nor will any fee ever be demanded at the church door. Implicit faith in God will be taught and the Bible will be the only guide.

Windows in memory of noted hymn writers and of Frances E. Willard ornament the church.

Judgment Given in the Clark Estate Case

Estate of Rev. J. A. Clark Must Accept the Basis of Settlement Arranged for the Estate of Geo. H. Clark.

Estate of Dr. William Christie. Further hearing in this case on passing the accounts was proceeded with today. Messrs. Curry and Vincent proctors for the surviving executor, Mrs. Christie, Messrs. Harshill, Eving and Sanford, proctors for the next of kin.

Settlement was delivered in the estate of one Clark, mill' owner and manufacturer.

Estate of John X. Clark, mill owner and manufacturer, deceased. In this case, after the death of the widow, since deceased, and the payment of certain specific legacies the residuary estate was left to four sons of the deceased, namely: George H. Clark, since deceased; Rev. John A. Clark, since deceased; W. Alfred Clark, and W. Walker Clark. The last two with their mothers were appointed executors. The estate was originally some \$80,000, including an indebtedness of each of the sons in different amounts, and there have besides been considerable advances to each of the sons on account of their distributive shares. The accounts have been based on three separate occasions, the last being in November, 1888. In January, 1893, Geo. H. Clark, having died, the widow of the testator having predeceased him, the executors made a claim on his estate for a sum in which it was contended his estate was indebted to the father's estate for over payments, etc. The three remaining sons met with counsel for George H. Clark's estate and the question arose as to whether interest should be charged to each son on the respective payments made to each out of the estate. It is alleged that in consequence of advice given by the then judge of probate it was agreed that interest should not be charged on the several advances on the ground that such advances were actually due upon the death of the mother, and that such was acquiesced in by the Rev. John A. Clark, though he would be the greater loser thereby. Accordingly on this basis a considerable sum of money was paid into this estate by the estate of George H. Clark. While the representative of the Rev. John A. Clark, now deceased, does not seek to open up the subject with the estate of George H. Clark, he contends that the settlement does not preclude the question of interest being now charged on the advances to the remaining sons. This is the main question at issue. I find that the executors fully informed the Rev. John A. Clark of the basis of the proposed settlement with the George H. Clark estate, and that he approved of the same though he was not a party to the instrument. I have therefore come to the conclusion that under the above circumstances the representative of the Rev. John A. Clark's estate cannot claim for his estate a basis of settlement different from that employed in the adjustment of the accounts by the estate of George H. Clark, and accordingly the basis then used will be the basis on which the present decree will be founded—with this exception, in the previous passing of accounts it is obvious that the certain sums of interest were inadvertently omitted which should have been credited to the estate. These sums, amounting to \$145.00, will therefore be added to the amount available for distribution.

At the hearing J. A. Barry appeared for a son and beneficiary under the will of the Rev. John Clark. The executor under such last mentioned will was represented at the hearing. The son could not have brought any proceedings to enforce payment of the amount due his father's estate by this estate unless possibly under certain exceptional circumstances which did not arise here. He had no locus standi in Stanton v. The Caron Company, 18 Beav. 558, Sir John Romilly, M. R. says: "The person interested in the estate of the testator, not being the legal personal representatives, will not be allowed to sue persons possessed of assets belonging to the testator unless it is satisfactorily made out that there exist assets which might be recovered, and which, but for such suit, would probably be lost to the estate." I therefore cannot allow costs to Mr. Barry out of this estate. The value of debentures on hand will be made up as of 1st September next, and the difference together with interest on moneys on special deposit will be added to the figures arrived at by Mr. Blanchet, the auditor, as reported to the court, and distribution ordered accordingly.

In order to facilitate an appeal, should such be taken, figures will be made up showing what the difference would be if interest is charged against each individual at the rate of 3 per cent, and a third statement showing the result with interest charged at the rate of 5 per cent.
