

The Semi-Weekly Telegraph.

ST. JOHN, N. B., SATURDAY, FEBRUARY 7, 1903.

NO. 41.

LOCAL ELECTIONS SATURDAY, FEB. 28.

AL STRIKE EVIDENCE IS ALL IN, AND NOW COUNSEL WILL BE HEARD.

There Have Been 566 Witnesses Heard—Five Days Allotted for Legal Representatives' Addresses—Five Specimens of Miners' Lungs Shown by Pathologist—They Were Black as Coal from Dust Inhaled.

Philadelphia, Feb. 5.—After a sitting of five specimens of lungs, one a normal organ and the other four those of mine workers which were as black as coal from coal dust. The professor explained the diseases of the lungs and said that where lungs were clogged up with foreign substances the person was easily susceptible to disease.

BATTLE OF VOTES THE LAST DAY OF THE MONTH.

New Brunswick House of Assembly Dissolved, and Writs for Election Have Been Issued.

Fredericton, Feb. 5.—(Special)—The house of assembly has been dissolved and writs have been issued for a new election. Nominations will take place on February 21st and polling one week later, Saturday Feb. 28th.

Also at today's meeting James E. Porter, of Andover, representative of Victoria county, was heard regarding the obtaining of a charter from the legislature to erect a dam for electric lighting purposes, across the Aroostook, about seven miles from Andover.

There will be a meeting of the government and the asylum commissioners here today. Premier Tweedie confirmed the Fredericton announcement of the dissolution of the house and the date of the elections.

DANGEROUS HITCH AT WASHINGTON; ALLIES REFUSE TO TREAT WITH BOWEN.

If Roosevelt Won't Deal With Their Claims for Preference They Will Take That Matter, and Probably the Whole Dispute to The Hague—Irritated by American Minister's Refusal of Terms.

Washington, Feb. 5.—Irritated by the note of Minister Bowen, addressed to the British ambassador Monday refusing to accept the allies' proposal for the scheme of preferential payments, the allied powers have instructed their representatives here to submit the question of preferential treatment for settlement to President Roosevelt and if he declines to act as arbitrator to take this and possibly the entire Venezuelan controversy to The Hague, thereby breaking off negotiations with Mr. Bowen.

At 10 o'clock at the British embassy there will be a conference of the representatives here of the allies. In view of the fact that the London government is now taking the lead in the negotiations the British ambassador will preside at this conference. In the meantime he expects to have an interview with the secretary of state whom he will sound as to the probability of the president's acceptance of the allies' request.

It is found that President Roosevelt is not disposed to accept the instructions of the allies as such as to permit them to forego the embarrassment of a rejection by Mr. Roosevelt and instead of making known their wishes to him, steps will be taken to draw up a protocol with Mr. Bowen for a reference of the case to The Hague.

The British ambassador was the first of the representatives to receive instructions to this effect and the matter was discussed at the noonday conference between the three representatives of the allies. Announcement of the decision of the allies to abandon further negotiations with Mr. Bowen has not been received with surprise by the few officials of the Washington government who have been advised of it.

AMHERST'S MAYOR MUST FIGHT TO RETAIN HIS LATELY-WON SEAT.

Count Demanded by Ald. Moffatt, the Defeated Candidate—Cumberland and Colchester Teachers' Institute in Interesting Session—G. U. Hay, of St. John, Among the Speakers.

Amherst, N. S., Feb. 6.—(Special)—The city of Amherst civic election does not bear satisfactory to A. W. Moffatt, the defeated candidate for the mayoralty. Before the election he entered a protest against his opponent, G. A. Leary, under the name of the town corporation act, claiming a right in the desired effect he has demanded a recount which will take place tomorrow before W. F. Dunlop, a clerk. Each party has retained legal counsel.

He contrasted Canada's attachment to the empire today with her position of seemingly preparing for independence in the days of his youth.'

LOWER COAL PRICES IN BOSTON.

Boston, Feb. 5.—Coal dealers today predicted that the price of hard coal would drop \$1 or \$2 a ton within a week, and that the general price for the remainder of the winter would be around \$8. Coal deliveries by water are coming in steadily at present.

GERMANY PAYS A PRETTY PENNY.

Berlin, Feb. 5.—The total cost to Germany of the Cuba expedition up to date is \$54,200,000, and the further requirements are estimated at \$1,500,000.

THE MEN TO CARRY ALBERT.

C. J. OSMAN AND S. S. RYAN TO RUN AGAIN.

Representative Conventional Riverside Chooses Present Members, and They Accept at Rousing Public Meeting Which Augurs for Success of Government Ticket—Hon. H. A. McKewen One of the Speakers.

Riverside, Albert county, Feb. 4.—(By telegraph).—C. J. Osman, M. P., and S. S. Ryan, M. P., the present members for Albert county in the provincial legislature, were selected this afternoon to again carry the government standard to victory in this county. At a public meeting this evening which filled the public hall at this place.

The nominating convention was held at 3.30 o'clock this afternoon. Every parish was largely represented despite the fact that a heavy snow storm raged. W. F. Taylor, of Hillsboro, was called to the chair and the business of the gathering was begun and carried through in a manner which augured well for the success of the government party in this election. Messrs. Osman and Ryan were the choice of the convention.

Prohibitionists' Request.
During the afternoon, L. R. Hetherington addressed the convention in the interests of the prohibitionists of the county and requested the convention to nominate candidates pledged to vote against any government refusing to bring in a prohibition measure, severally. Mr. Hetherington also wished the convention to nominate gentlemen opposed to the present administration, which is very properly declined to do.

Accept the Nomination.
The selection of candidates having been made the convention adjourned until 5 p. m. On its resuming the hall was filled with electors and a public meeting was held with W. F. Taylor, the chairman. The nomination was formally tendered Messrs. Osman and Ryan who accepted and made excellent speeches.

An address was also made by Hon. H. A. McKewen, who reviewed the policy of the local government and commented upon the want of a policy by the opposition. Speeches were also made by Alex. Rogers, ex-M. P., Councilor Stevens, of Hillsboro; Martin Coleman, of Eight; Doctor Carver, of Riverside; ex-Councilor Coppock, Harvey, and Daniel Stuart, of Riverside. Great enthusiasm prevailed among the large audience.

The Candidates.
C. J. Osman, the senior member for Albert in the local legislature, has represented Albert county in his present capacity for two or three terms. He was first elected with Hon. H. R. Emmerson and has been returned at every election since. He has large business interests in the county, being manager of the Albert Manufacturing Company Works at Hillsboro, and has a thorough knowledge of the needs of his constituency.

Mr. Ryan has been in the house for only two sessions, being first elected at a by-election in the fall of 1900 to the seat made vacant by the resignation of Hon. H. R. Emmerson. Mr. Ryan has sat at the municipal council board for Coverdale parish for the last 10 or 12 years continuously, and has never been defeated. He is popular with his party and his opponents as well, and his long term at the council board speaks well for his standing in the parish in which he lives. He is a son of the late Hon. James Ryan and is well known all over the county.

The candidature of Messrs. Ronnell and Gross, the opposition candidates, is hardly taken seriously here and the certainty is that Messrs. Osman and Ryan will be returned by a very large majority.

Dublin's park area is 1,733 acres, an area sufficient to allow each 375 inhabitants an acre of breathing space. Edinburgh has 45 acres of park.

LOCAL OPTION CARRIES AFTER HALF A CENTURY OF PROHIBITION.

At the River Junction, N. B., Feb. 3.—The advocates of local option carried the vote today and after more than half a century of prohibition the voters in Vermont will after March 1 be permitted to decide whether or not intoxicating liquors shall be sold in those communities.

The total vote with seven small towns missing was 29,988 in favor of license and 23,940 opposed, a majority of 1,622 for local option. The missing towns, which are all in remote districts, gave a total vote of less than 300 at the last election. It is a coincidence that Vermont voted for prohibition in 1833 by 1,000 majority. The question before the voters today was whether a high license local option law passed by the last legislature should be accepted or rejected. The law as passed set the time for its going into operation.

NOVA SCOTIA COAL OPERATORS AGAINST REMOVAL OF DUTY.

Meeting Held in Halifax Yesterday Discussed the Situation and Were Against Any Change in Coal Tariff.

Halifax, Feb. 4.—(Special).—At a meeting of the coal owners and operators of Nova Scotia held here today the conditions of the coal trade was informally discussed.

As the rebate of duty for one year on coal entering the United States was only a temporary measure intended solely for the relief of the situation in that country the meeting unanimously decided that a similar action of Canada would injuriously affect the Nova Scotia coal trade.

It was strongly felt that the action of Congress was of a temporary character and that the Canadian coal trade would not be materially benefited.

IMPERIAL FOOD SUPPLIES COMPANY.

Manager Coming to Canada to Arrange for Cold Storage Depots.

Toronto, Feb. 4.—(Special).—A news special cable from London says: "Imperial Food Supplies, Limited, have gone to allotment. The Canadian Pacific have consented to Archer Baker, their European manager, going to the board. The manager is John Hobson, a Scotch Australian, who is now arranging a trip to Canada with the object of establishing cold storage depots and eliciting the sympathy of the dominion and provincial governments."

Poor Richard Junior's Philosophy
Mock modesty is a vice behind the mask of virtue.
A blank cartridge is just as effective as a misfire.
When a man borrows trouble there's the devil to pay.
Absence makes the heart grow fonder of somebody else.
The best way to make yourself wanted is to make yourself scarce.
A good many poets are neither born nor made. They are perpetrated.
The dollar that is borrowed is never so large as the one that has to be returned.
The good we do lives after us, but future generations can stand all we shall leave.

It is not what a man hears, but what he believes that makes him wise or foolish. The man who does the little thing well is always ready to do the big thing better. Wasting time is bad enough, but getting angry over another's politics is pure extravagance.

The race is not always to the swift. Sometimes the judges have their money on the slow animal.
The trade with most social reformers is that they insist upon looking for vice with a brass band.
When Mr. Rockefeller pours a few extra millions upon the torch of learning, the users of all other kinds of lamps pay for it.
"The balance of trade," said the coal dealer, after a test that showed his scales were accurate, "is in my favor."
—Saturday Evening Post.

Mails by Ice-Boat.
Ottawa, Feb. 4.—(Special).—The government anticipates that the 1,600 mails in the winter ferry service between Pictou and Georgetown is frozen in, according to a report to the department of marine, in the harbor of Pictou. The Stanley is still fast in the bay, so that the island is now without steam communication with the mainland. The department has therefore ordered the small ice boats into service to carry the mails across the Straits of Northumberland.

Situation in China Serious.
Victoria, Feb. 4.—The steamer Empress of China brings further news of the crisis in Northern China. The writers say that the situation is most serious, and that in Kansu a large army is being organized to proceed against the foreigners, and only the expense of this movement and the aid it is receiving at Peking will open the eyes of the statesmen of Great Britain, America and Germany to the danger which threatens foreigners in China.

As March 1, should the people today accept as they did, and on Dec. 1, 1902, should it have been rejected today, giving two legislatures the opportunity of repealing it.

HE RATHER SEEMS TO BELITTLE THE WORK OF MARCONI.

Rival in Wireless Telegraphy Expresses Doubt of Trans-Atlantic Communication Being Satisfactorily Established.

New York, Feb. 3.—The Herald publishes the following special today: Berlin, Feb. 3.—Count Arco, well known as a partner in the Sialy-Arco wireless telegraph system, has given a highly interesting interview to a correspondent of the Berliner Tageblatt. He expressed great doubt as to the trans-Atlantic communication being satisfactorily established, owing to the difficulties of keeping up a continuous and perfectly distinct series of waves, as would be necessary. He stated, in view of the number of stations along the coast, this would be impossible on account of their interfering with one another.

Asked about Marconi's claim of a universal monopoly, Count Arco replied: "In this Mr. Marconi has not yet succeeded. At present there are 100 land and floating stations of the Marconi system, while there are 10,000 others. If we add to these the Siemens-Braun and a few of the French methods in use, we find the Marconi stations outnumbered."

At the coming conference on wireless telegraphy it should be insisted upon, he added, that any station called should reply. That was imperative in the name of humanity. For instance, in case of ships at sea, there should be an agreement upon the matter of the installation of international stations at the most important points on the globe.

WM. REDMOND, M. P., RELEASED FROM JAIL.

Says He Stands to Speech for Which He Was Imprisoned—Roche Liberated, Too.

Dublin, Feb. 3.—William Redmond, M. P., who was sentenced to six months' imprisonment because he refused to give \$1,000 for his future good behavior, has been released, after having served only half his sentence.

Mr. Redmond said today he stood by every word of the speech for which he was imprisoned and said there would be no real peace in Ireland until Dublin Castle was cleared out from top to bottom.

Later in the day the Irish member, John Roche, was liberated from Galway jail. Mr. Roche was sentenced September 29 to six months' imprisonment with hard labor under the crimes act for inciting boycott of land owners.

TEN PER CENT. DIVIDEND.
Record Foundry and Machine Company of Moncton Also Decides to Increase Capital Stock and Enlarge Works.

Moncton, Feb. 3.—(Special).—The annual meeting of the shareholders of the Record Foundry and Machine Company was held here today, 2,500 being represented. The directors' annual report showed a profitable year, a dividend of 10 per cent, the 21st consecutive annual dividend, was declared.

During the year the company added largely to their plant. In view of past success, a resolution was passed authorizing increase of capital of \$250,000. The directors' annual report showed a profitable year, a dividend of 10 per cent, the 21st consecutive annual dividend, was declared.

More Money for Acadia.
Wolville, N. S., Feb. 4.—(Special).—At the meeting of the board of governors of Acadia University today Dr. Trotter reported that he had been in correspondence with John D. Rockefeller, the Standard Oil magnate, since last May and that the invitation to meet Mr. Rockefeller's secretary in New York lately was the final outcome of the correspondence.

He learned from Mr. Gate, the secretary, that Mr. Rockefeller was favorably disposed towards Acadia. His gift would be given to the public must be submitted for Mr. Rockefeller's endorsement. Dr. Trotter will probably go to New York again next week and not until this visit is over can any authorized statement be made.

TESTIMONY IN THE KOMIENSKY CASE STARTLING.

Montreal Creditor Gives History of Alleged Transactions.

A "CLEAN BREAST" MADE. Komiensky Better Able to Pay 50 Cents on the Dollar Before Getting Bail Than 35 Cents Afterwards—Witness Says One Man Said He Was Paid \$1,000 to Go Bail for Komiensky.

Montreal, Feb. 4.—(Special).—Some interesting evidence was given today in the Komiensky conspiracy case, by Jacob Cohen, who is a creditor of the St. John man for about \$400. It was brought out during the enquiry into the charge of conspiracy against Weiner, Hart and Weber, as well as Komiensky.

Cohen testified that the latter had made a "clean breast" concerning the transaction in which Weiner and Hart had received \$725. This amount he had been paid for the bail furnished, and it had been realized on \$800 worth of goods from the bankrupt stock. Weber and Sidman, of St. John, were the purchasers and the former gave the proceeds to the Montreal bondsmen.

Cohen also swore that Komiensky said he would have been better able to pay 50 cents on the dollar before getting bail for his bill than 35 cents afterwards, and that he had written to Weiner asking to offer the creditors 50 cents on the dollar, but Cohen said so far as he knew such an offer had not been made.

Komiensky admitted, Cohen said, that he had done wrong and asked him to help him settle with the other creditors in turn. Cohen said he would endeavor to have a settlement if Komiensky would release the money paid to Weiner and Hart, and put it into the estate where it belonged.

Cohen also said he did not bring out the charge against Weiner and Weber and had not been asked to contribute for their prosecution, but thought in the interests of the business community, they should be prosecuted.

Witness also swore that Myer Rosenthal, who swore Weiner stated he was paid \$1,000 to go bail for Komiensky. The witness also swore that Weiner had threatened to have his brother, the manager of the Strathcona Rubber Company, arrested for perjury and sued for \$100,000 damages for causing Komiensky's arrest, if he did not return to him his brother, the manager of the Strathcona Rubber Company, arrested for perjury and sued for \$100,000 damages for causing Komiensky's arrest.

\$7,000 for Loss of Fingers.
New York, Feb. 1.—Miss Bridget Diamond, whose counsel, Mirabeau L. Towns, brought tears to the eyes of his jury in the supreme court, Friday, and who had other things that might happen to her by reason of the loss of four fingers to the left hand, was awarded a verdict of \$7,000 today, against the Plant Mill Company, for which she formerly worked.

A sealed verdict was brought in by the jury, and when opened and read created some surprise in the court room, owing to the amount of damages.

A number of figures are given of Madame Diamond's earnings, and it is believed that she must have made a round million pounds over her wonderful career. She made \$4,000 during one part of her career she made \$2,000 two or three hours over \$1,000.

I Will Cure You of Rheumatism, Else No Money is Wanted.
Any honest person who suffers from Rheumatism is welcome to this offer. I am a specialist in Rheumatism, and have treated more cases than any other physician, I think. For 10 years I made 2,000 experiments with different drugs, testing all known remedies while searching for one that would cure Rheumatism in Germany which, with my previous discovery, gives me a certain cure.

HALIFAX SCHOONER IS WRECKED AT ST. PIERRE.

Her Crew Arrive at Halifax—The Vessel Probably a Total Loss.

Halifax, Feb. 4.—(Special).—Malcolm McIver, mate; G. Burgoe, steward, and Edward Quinn and Thomas Bunsfield, all of the wrecked schooner Guardian, St. Pierre, reached here today from St. Pierre.

The Guardian left here January 5, for Newfoundland, to load frozen herring, but never reached there. Head winds caused her to put into St. Pierre, and while at anchor there last week a gale sprang up and the schooner either parted her chain or dragged her anchor and she went on the rocks. Luckily it was in daylight and the men could see what they were doing. They had to be lowered from the jibboom on to the rocks and 15 minutes after they left the vessel her keel was broken.

The crew saved nothing but what they stood on. Captain Robertson remained in St. Pierre to save what could be secured from the wreck.

A severe southeast wind and rain storm prevails here tonight. The following mayors were elected yesterday in addition to those reported: Port Hood, John I. Smythe; Sydney, James A. Richardson; Sydney Mines; John McCormack (acc.); Glace Bay, D. M. Burchell; Louisbourg, W. W. Lewis (acc.); North Sydney, Mackenzie.

BOUNTY PROPOSED FOR UNCLE SAM'S EX-SLAVES.

Bill Introduced in U. S. Senate Yesterday Provides Pensions and Bounty After 50 Years Old.

Washington, Feb. 4.—Senator Hanna introduced a bill today granting pensions and bounties to ex-slaves who were freed by the proclamation of President Lincoln during the war of the rebellion. It provides that persons over 50 years of age, whether male or female, shall receive a cash bounty of \$100 and monthly pension of 85 cents per month, between 60 and 70 years old, a bounty of \$200 and pension of \$12 per month, and persons over 70 years old a bounty of \$500 and pension of \$15 per month.

The bill also provides for the payment of the bounty and pension to relatives who may be charged with the care of ex-slaves.

THE ALASKA BOUNDARY.

United States Senate in Executive Session Takes Up the Treaty.

Washington, Feb. 3.—There was some discussion today in the executive session of the senate with reference to making public the treaty recently negotiated by Secretary Hay and Sir John Herbert for a settlement of the Alaska boundary dispute.

MAY COMPEL MAYOR TO SIGN

CONVICT DECAPITATES HIS FELLOW CONVICT.

Brutal Murder in Eastern Penitentiary—Quarrel Over Religion the Cause of the Ghastly Deed.

Philadelphia, Feb. 4.—For the third time in the history of the Eastern penitentiary that institution was today the scene of a most brutal murder. The victim was James Pratt, a negro, aged 37 years, who was serving a sentence of 20 years for burglary committed last August. The crime was perpetrated by Cornelius Bush, 21 years old, also colored, sentenced to two years' imprisonment for assault and battery. The murder resulted from a religious quarrel. The men were cell mates. In the cell with Bush was found the decapitated body of Pratt wrapped in blankets and sheets lying in a corner. On a small table the head of the murdered man was found tied in an old shirt.

Bush was placed under guard in another cell and the coroner was summoned to the penitentiary. To him Bush told the details of the crime. He said Pratt and himself had quarrelled all night about religious matters. Finally Pratt lay down on his bunk and after he had fallen asleep Bush crushed his skull with a stool. Then with a knife which both had used at meal time, he severed his victim's throat.

After wrapping up the head and body Bush retired and slept soundly until 7 o'clock this morning. Eighteen years ago Keeper Doran was killed by an inmate and about eight years ago Keeper James Bloomer was stabbed to death by an insane prisoner.

WESLEY MILLBURY'S DEATH.

Coroner's Jury Says That He Fell or Was Thrown Over Cliff at Advocate Harbor N. S.—An Arrest Made.

Amherst, Feb. 3.—(Special).—The inquest on the body of Wesley Millbury, found yesterday morning at Advocate, was continued today. The jury men are: H. K. Morris, J. W. Ward, Austin Smith, J. A. McLellan, Martin Scanlan, David J. Whipple, J. Rector, George Livingston, Sydney Smith, Benjamin Hatfield, Norman Burton, S. Southgreen, and C. Morris.

The following verdict was rendered: We, the jury sworn to investigate the death of Wesley Millbury, find that he came to his death sometime between the hours of 2.30 in the morning of the 29th January last, and 10 a. m. February 2, 1903, at Advocate, Cumberland county, New Brunswick, Canada.

We are of the opinion that the said Wesley Millbury, while intoxicated, came to his death by injuries received by falling from the bank accidentally or by some person or persons attacking him and inflicting some of the wounds and then pushing or throwing him over.

George Dexter, for whom a warrant was issued last night, was arrested today and held for preliminary examination tomorrow morning.

THAT OLD PAIN AGAIN.
Gnawing, Piercing Pains That Almost Make You Scream.
It is your old enemy, rheumatism, come again with the winter to torture you. These pains, remember, are caused by bad blood, you may ease them by rubbing with liniments and outward lotions, but you can't get rid of them in that way. Rheumatism is caused by bad blood and the only certain way to drive it out of your system is to cure your blood by taking Dr. Williams' Pink Pills. There is no question about it. For this is a fair trial. By making your blood red, clean and strengthening the nerve system, you will get the very root of such cases as rheumatism, sciatica, neuralgia, etc., out of your system. We have one case under the microscope. We have one of the statements, Mr. A. J. Lacomb, Sorel, Que., says: "I have been a sufferer from rheumatism for many years. I was at times unable to get up, my shoulders and hips were stiff and I could not get any relief. I tried many remedies but I never got more than temporary relief until I began the use of Dr. Williams' Pink Pills. I used altogether six boxes, and since taking them I have not had a twinge of the trouble, and I feel better in every way than I did for years before. I would strongly advise every rheumatic sufferer to give Dr. Williams' Pink Pills a fair trial. Remember that only the genuine pills will cure—imitations can't cure. Offer 1 cent per box. Write for free literature. I can't say enough for them. I never got more than temporary relief until I began the use of Dr. Williams' Pink Pills. I used altogether six boxes, and since taking them I have not had a twinge of the trouble, and I feel better in every way than I did for years before. I would strongly advise every rheumatic sufferer to give Dr. Williams' Pink Pills a fair trial. Remember that only the genuine pills will cure—imitations can't cure. Offer 1 cent per box. Write for free literature. I can't say enough for them. I never got more than temporary relief until I began the use of Dr. Williams' Pink Pills. OUR COUNTRY CORRESPONDENCE.

REDERICTON.

Feb. 3 (Special)—There a short session of the government and the business session.

Charles Forbes, of Newswalk, formerly proprietor of the Marvella Hotel, received tidings last evening that his son, William, died suddenly, presumably in the lumber woods of Maine, where he had been working.

F. B. Smith, of the Western Union Telegraph Company, has purchased from A. Comberthwaite the dwelling and lot on George street occupied by him.

Gilbert Dykeman, of Queensbury, has purchased from J. F. Mackay one half of the latter's house on the corner of Queen and Northumberland streets, occupied by F. L. Potts.

Doctor Seery, who was in Boston for medical treatment, returned home today, accompanied by his sister, Mrs. P. Dever.

Mr. Jennie Smith, of Newswalk, met with a serious accident at the Arctic rink last evening. She fell while skating and was run over and partially stunned by another skater.

On Friday, the 6th, Doctor Bridges, of St. John, will lecture in the university library on Higher Education and Practical Life.

year were installed by Grand Master A. D. Thomas, assisted by A. J. Drysdale, acting director of ceremonies.

Doctor Harrison has posted the following results of the examinations in honor mathematics held last week.

It is understood that William J. Scott, the well known lumberman, has purchased from H. H. Pips the lot of land on Government Lane, adjoining Wilnot Park.

Fredericton, Feb. 5 (Special)—Superintendent Osborne, of the C. P. R., Mr. Barbour, superintendent of the engineering department, and W. W. Hubbard, Dr. J. H. Burnett had a professional call from Boston today.

Tenders are being called by the chief commissioner for rebuilding Craig bridge, Christopher brook, Harvey bridge, over Naah's creek, parish of Durham, and Reid's bridge, North Branch Charles river, parish of Colborne, all in Restigouche county.

On Friday, the 6th, Doctor Bridges, of St. John, will lecture in the university library on Higher Education and Practical Life.

CAUGHT BY THE GRIP. RELEASED BY PE-RU-NA.

Congressman Geo. H. White's Case. A Noted Sculptress Cured.

The world of medicine recognizes Grip as epidemic catarrh. Medical Talk.

Mrs. Celeste Covell writes from 215 N. avenue, Aurora, Ill. "Only those who have suffered with the Grippe and been cured can appreciate how grateful I feel that such a splendid medicine as Peruna has been placed at the door of every suffering person."

Noted Sculptress Cured of Grip. Mrs. M. C. Cooper, of the Royal Academy of Arts, London, England, now residing in Washington, D. C., is one of the greatest living sculptors and painters of the world.

Gentlemen—can more than satisfied with Peruna for the grip and catarrh of the nose, throat and lungs. It is an excellent remedy. —George H. White, Member of Congress.

SUSSEX.

Sussex, Feb. 3.—Snow began to fall last night about 12 o'clock and the sleighing department, and W. W. Hubbard, Dr. J. H. Burnett had a professional call from Boston today.

The Sussex Curling Club have had some difficulty up to the present in getting a satisfactory ice on their rink.

LOCAL AND PROVINCIAL.

Frederick S. Thomas has purchased from LeBaron Coleman a dwelling house in Douglas avenue.

Rev. St. A. Baker has been appointed editor of The King's Highway, the organ of the Reformed-Baptists, in place of Rev. G. W. McDonald, deceased.

The exhibition association of Charlottetown had a surplus of \$3,300 last year. The stockholders got a dividend of seven per cent and \$1,400 went to rest account.

Friends of Mrs. George Hamilton, 158 Duke street, pleasantly surprised her by calling in force Monday night. A pleasant time was spent and the party presided at Mrs. Hamilton a china tea set, in honor of her birthday.

Frank Storey, of Ward's Creek, was arrested Tuesday on a warrant issued by Magistrate Masson, of Fairville. The man is charged with an unprovoked assault on Thomas McCreath, of St. Martin's, while the two men were working in a lumber camp at Menzies' Lake.

The building committee of the Y. M. C. A. met Tuesday and arranged to make personal calls on upwards of 600 young men in the city, with a view of soliciting from them subscriptions for the new Y. M. C. A. building; \$90,000 is required. So far \$50,225 has been secured.

The Montreal Star says: Harry W. Brodie has been appointed assistant general passenger agent of the western division of the Canadian Pacific railway. He was formerly chief clerk in the passenger department at Winnipeg. Before going there he was in the passenger department at Toronto. Mr. Brodie is a St. John young man.

The steamer Stanley is reported still locked up in an ice floe which carries her up and down the straits between Charlottetown and Capraux. It is about two weeks since the steamer was caught. Her passengers have been safely landed over the ice. On Friday last, Mr. Webb left Charlottetown with dynamite in an endeavor to blow the ice up around the steamer. It is thought his first attempt was fruitless as he sent to the mainland Monday for more explosives.

A serious accident happened in the North End Tuesday afternoon, by which Mrs. McCullough, of Britain street, sprained her thigh, besides receiving minor bruises on face and hands. Mrs. McCullough, who is aged about 70 years, had accompanied her daughter, Mrs. Higgins, to St. Peter's church to the blessing of throats. When coming from the church Mrs. McCullough slipped on the ice, falling heavily, and nearly fainting through pain. She was assisted into a coach and driven to Doctor McInerney's office, where temporary relief was given. Later she was taken to her home.

There appears to be a general opinion among the returned South African soldiers that the third anniversary, on Feb. 27th, of General Cronje's surrender, should not be permitted to pass without a fitting observance in this city. There is no South African veterans association yet formed in St. John, which could formally appoint a committee to take up the matter of a public recognition of the day, but even without a society the men feel there should be no difficulty in taking the proper steps.

N. S. FARMERS FOR AGRICULTURAL COLLEGE.

Annual Session of Association Passes Resolutions Calling on the Government to Act

Windsor, N. S., Feb. 3.—At the annual session of the Nova Scotia Farmers' Association here today the following resolutions were passed unanimously:

Whereas the Nova Scotia Farmers' Association, composed of delegates from agricultural societies throughout the various counties of Nova Scotia, asked the Nova Scotia government ten years ago to federate the schools of horticulture and agriculture in Nova Scotia, and establish a college, including these two lines of agricultural work, and have twice since endorsed this policy, and have twice taken the government for its part in a formal manner, for the accommodation of students from Nova Scotia and other parts of the Maritime provinces which will co-operate with Nova Scotia;

And resolved, that a delegation of 10 be appointed to urge the government to accede to the prayer of this petition, and to carry out the policy to which they are pledged in this regard.

The following delegation was appointed to press the government of Nova Scotia for a college of agriculture and horticulture: Dr. J. B. Black, Hants county; S. J. Moore, Colchester county; C. O. Creighton,

Hardly any rubbing with Sunlight Soap. The Sunlight Maid, by its child's play.

SUNLIGHT SOAP Will wash anything, but to secure best results with least labor should be used in the Sunlight way. First dip the articles to be washed in a tub of lukewarm water, and then dip them on a washboard and the soap over it lightly. Then roll them up tight and lay under the water. Leave them there for thirty minutes and let Sunlight Soap do its work. Commence rubbing the clothes lightly on the washboard and the garments will drop out the dirt and grease. No need to scrub or to use a single piece and don't wash through two soaps. Kins in lukewarm water taking care to wash out all the dirty suds, then ring out and hang to dry. That's the Sunlight way. It makes the clothes snowy white.

ASK FOR THE OZAGON BAR. Sunlight Soap washes the clothes white and won't injure the hands. LEVER BROTHERS LIMITED, TORONTO.

GIRL KIDNAPPED.

Stranger Here Looking for Young Armenian.

TELLS ROMANTIC STORY.

Was Sent Out to America to Join Her Lover in New York, But Those in Whose Care She Was Gave Her Up in France to Representative of Boston Man on Receiving £25.

A remarkable case has come before the steamship and immigration officials at Halifax and this port, involving a romantic tale of love between two young Armenians, the prosperity of the world, big money in America and his happy anticipations marred by a Boston agent who is charged with entering into a deal with the young man's parents whereby his girl bride was sold for £25, kidnaped and is thought is on her way to America to become the bride of the merchant.

Tuesday on the arrival of the Beaver line steamer Lake Ontario a smart looking young Armenian, John Temoyan, of 1022 Chestnut street, Philadelphia, was met by a Telegraph reporter. As each passenger of the 570 valued anchor Temoyan made close scrutiny and as the latter landed he went on board and searched the stowage and asked questions regarding a young couple whom he expected to find in the room he searched the immigration building but without result.

Mr. Temoyan told the following story: Lacia Uchardshian, aged 14 years, is an orphan and his aunt, some years ago, while in Armenia Martin Sarafian, now 19, was the boy lover of the girl and on leaving his home for New York, he took her with him, and she was working faithfully there, and being of a saving character, managed to lay enough money away to send home to her parents, when he had been in the city for some time, she would become his wife.

Martin waited the arrival of the girl in vain and the first word he had of her was that she had been sold to a man who was coming to America, where she would become his wife.

Temoyan told that an Armenian named Hagat Aghakhan, aged 40, and said to be the wealthy proprietor of a wood bundling factory near Boston, has become the chief actor in the case, he is visiting to meet the young girl.

The story goes that the parents of Martin Sarafian, who accompanied the girl from Armenia to her home, took the girl as far as Marseilles, France, and there they are said to have received £25, the girl, who was named Lacia, was a young man. The latter person who left Marseilles and was expected to bring her to America to the Boston merchant.

Temoyan claims all this information came from Armenians in Marseilles and at the girl's old home. He has been in contact with a number of Armenians in Boston who are aiding Temoyan to deliver her to her father, who is said to be an industrious young fellow.

The services of a Boston lawyer have been obtained and Temoyan armed with letters from Armenia to the Boston agent, who is charged with entering into a deal with the young man's parents whereby his girl bride was sold for £25, kidnaped and is thought is on her way to America to become the bride of the merchant.

Mr. Temoyan stated Tuesday that he had been aided in every way by the official who was charged with the girl's case. He has been in contact with a number of Armenians in Boston who are aiding Temoyan to deliver her to her father, who is said to be an industrious young fellow.

The girl, who was named Lacia, was a young man. The latter person who left Marseilles and was expected to bring her to America to the Boston merchant.

Mr. Temoyan stated Tuesday that he had been aided in every way by the official who was charged with the girl's case. He has been in contact with a number of Armenians in Boston who are aiding Temoyan to deliver her to her father, who is said to be an industrious young fellow.

The girl, who was named Lacia, was a young man. The latter person who left Marseilles and was expected to bring her to America to the Boston merchant.

THE ROLLING MILLS.

City Firms Write to Mayor and Council on Question of Exemption.

TELLS ROMANTIC STORY.

Was Sent Out to America to Join Her Lover in New York, But Those in Whose Care She Was Gave Her Up in France to Representative of Boston Man on Receiving £25.

The treasury board, when it deals with the question of exemption of the Portland rolling mills, will have these letters to consider:

St. John, N. B., Feb. 11. To His Worship the Mayor and Common Council of the city of St. John, N. B. Gentlemen.—Learning that applications are being presented to your honorable body by certain leading manufacturing institutions of the city for exemption from taxation, in connection with the proposed rolling mill, we have the honor to inform you that we are in communication with the other parties, believing we can present to your honorable body such reasons for such exemptions in our case as can be presented by any other manufacturers doing business in the city.

Yours truly, JAS. PENNEY & CO., St. John, Feb. 2, 1904.

To the Mayor and Common Council of the city of St. John, N. B. Gentlemen.—We notice by the papers that you are considering the application of the rolling mill, and we are in communication with the other parties, believing we can present to your honorable body such reasons for such exemptions in our case as can be presented by any other manufacturers doing business in the city.

Yours truly, JAS. PENNEY & CO., St. John, Feb. 2, 1904.

EASTERN S. S. CO.

REPORTED TO HAVE SOLD THEIR LINE.

TELLS ROMANTIC STORY.

Was Sent Out to America to Join Her Lover in New York, But Those in Whose Care She Was Gave Her Up in France to Representative of Boston Man on Receiving £25.

There have been rumors on the inside for a year or more that the Boston & Maine and the Maine Central railroads had their eye on the Eastern Steamship Company with the idea of purchasing the line when the proper time came.

Ever since Charles Morse secured the controlling interest in this great combination of steamship lines these rumors have been persistent but nothing definite has been announced.

Now, however, the report comes from New York that Mr. Morse has sold out his stock in this company to the above corporations.

The Associated Press was unable, after inquiries Tuesday night, to substantiate the rumor. It was, however, credited as appearing above from the following despatch from the Shipping City:

Bath, Me., Feb. 2.—The report that Charles W. Morse, of New York, who was instrumental in organizing the Eastern Steamship Company, has sold out his stock in this combination of steamship lines, is generally accepted as correct by Bath, Me. It was, however, generally understood that he has sold to the Maine Central and Boston & Maine railroads. This seems to bear out the rumors circulated nearly a year ago, that these railroads were trying to get a deal whereby they could get control of these various steamship lines as auxiliaries to their railroad business.

That the two great railroad systems which controlled the rail traffic into Maine should acquire, if possible, the competing lines of the Maine Central, is an entirely reasonable assumption.

Mutual Freight Tariff. For a long time both the steamship company and the railroads have been in a mutual fight regarding the same prices prevailing on both rail and steam.

It is believed that the Maine Central and Eastern Steamship companies have been discussing the possibility of a mutual freight tariff, and it is now being actively discussed.

Order for the Assignee to File Statement of Accounts. In County Court Chambers on the matter of the Taylor & Dockrill estate, before Judge Poles, on the petition of two creditors—Adrian H. Bell and Enoch W. Paul—the judge had issued a summons returnable Thursday calling upon D. Russell Jack, the assignee, to show cause why he should not be removed and another assignee appointed.

The summons was obtained under the authority of an order under sec. 22 of the same act, calling upon Mr. Jack, as assignee, to file within 10 days a statement of the receipts and expenditures, the costs of the application to be paid out of the estate. T. P. Regan appeared for the petitioning creditors, and Q. J. Coster, Esq., D. Russell, Jack.

Liverpool Lumber Situation. The lines continue to bring forward consignments of greater or less importance from the Atlantic coast, and it is expected that the market will be well supplied.

Rejects Mosquito Yellow Fever Theory. Rome, Feb. 5.—The report of the Italian commission which has made a study of yellow fever in Brazil is published today. It rejects the theory that the disease is transmitted by mosquitoes.

FREE GIFT.

Helpful Book Free.

TELLS ROMANTIC STORY.

Was Sent Out to America to Join Her Lover in New York, But Those in Whose Care She Was Gave Her Up in France to Representative of Boston Man on Receiving £25.

An eminent specialist, well known in all sections of North America, who has written some of the most valuable medical books of the present day, has decided to give away, absolutely free of charge, a limited number of one of his best publications. This book, which represents the study of many years, is one of the best works ever gotten out by its author. No pains or expense were spared to make it all that he desired, and he now presents it, as a free gift to humanity.

The book deals with indigestion and enters fully into its cause and cure. To any one who has any form of stomach trouble, this book will prove valuable beyond words. In fact, it was written expressly for all sufferers, offering the best guidance back to health. Every page is full of profitable information. From beginning to end it is bright, readable and best of all—helpful. You will find it a most interesting and valuable book. It is a free gift to humanity.

SEND FOR IT AT ONCE. Do not pass by this generous offer. Dr. Penney wants every victim of Dyspepsia to have the book because it will positively help all who suffer from this painful ailment. Thousands have been cured by the information contained between its covers. It was written to teach people what they ought to know about their digesting organs, if they desire to be well and happy. It is offered you in sincerity and friendliness, and it will give you that priceless gift—perfect health.

Write your name and address plainly on the dotted lines, cut out and send to Dr. Penney, 100, St. John Street, St. John, N. B. (Formerly Surgeon British Royal Naval Service) 7 to 10 Deane Street, Boston.

NAME..... ADDRESS.....

BISHOP'S WILL CASE AT FREDERICTON. Argument Heard and Court Considered—Adjourned Until Tomorrow.

Fredricton, Feb. 4.—The Supreme court sat this morning, all the judges being on the bench except Judge Barlow, who was interested from the fact that the case before the court was an appeal from a decision of the court. The equity case on appeal of Dr. Boyle Travers and wife, of St. John, vs. the Bishop of St. John was argued. Attorney General Pugsley appeared for the appellants and Doctor Stockton, K. C., J. H. Barry, K. C., and J. L. Carleton, K. C., appeared for the respondents.

Doctor Pugsley on behalf of the appellants contended that under the peculiar language of the will of the late Bishop Sweeney he did not intend that his individual property should pass, but that his individual property should go to his next of kin, in this case his sister, Mrs. Travers, and not to the Bishop of St. John. Doctor Pugsley referred to the evidence taken in the equity suit, and produced old cheque books of his lordship to show that he kept his private and disburse accounts separate in so far as banking went.

Doctor Stockton and Mr. Barry on the other hand argued that it was evident from the language of the will that Bishop Sweeney intended to convey all the property he had and of whatsoever kind it will be, to give, devise and bequeath all my estate, real and personal, wherever situated, to the Roman Catholic Bishop of St. John, in trust for the use and purposes of the Roman Catholic diocese of St. John, and that the Bishop of St. John, in trust for the use and purposes of the Roman Catholic diocese of St. John, should have the right to sell, lease, mortgage, and otherwise dispose of the same, and that partition deeds were exchanged between him and his sister, Mrs. Travers, at that time, 11 months before the will was made.

The court took the matter into consideration. This case was an appeal from a judgment of Judge Barker in equity, who decided in favor of the validity of the will and in favor of the present bishop. The court adjourned to Friday next at 11 o'clock, when judgments will be delivered.

Chatham Has Heavy Snow Storm. Chatham, N. B., Feb. 4.—(Special)—Today we are having the worst snowstorm in the season. The wind is east.

Two Women Hanged in England. London, Feb. 4.—Annie Sach and Annie Wallis, "baby farmers," were hanged at the gallows at the Old Bailey today, convicted on account of their sex, but the judge, Mr. Justice Collins, was very lenient, usually acquitting. The women walked to the scaffold undisturbed and remained there until the execution was over. The women had previously been hanged in England since March, 1900.

Rejects Mosquito Yellow Fever Theory. Rome, Feb. 5.—The report of the Italian commission which has made a study of yellow fever in Brazil is published today. It rejects the theory that the disease is transmitted by mosquitoes.

THE NEMEA PICKS UP A DISABLED STEAMER.

Battle Liner Tows the Oceana Into Norfolk With Main Shaft Broken.

TELLS ROMANTIC STORY.

Was Sent Out to America to Join Her Lover in New York, But Those in Whose Care She Was Gave Her Up in France to Representative of Boston Man on Receiving £25.

Telegrams received by Wm. Thomson & Company Wednesday from Norfolk (N.S.) advise that the battle liner Nemea, which had passed in at the Cape, towing the British steamer Oceana, which had been having her main shaft broken.

The Nemea is commanded by Captain Norman Smith and was bound from the Downs to New York, with a cargo of coal, and will load there for Havre and for Dunkirk.

The Oceana is probably the steamer commanded by Capt. Macaulay and owned by the S. S. Oceana Company, Ltd., (MacKay & McIntyre), Glasgow. She is 2,310 tons net, 30 feet deep, 45.1 feet in breadth and 26 feet length. The Oceana was built in 1885 at Glasgow. She was last reported arrived January 22 at New Haven and was probably bound from there in ballast for a southern loading port, when disabled.

The Monument to Henry Harper. The citizens of Ottawa have subscribed \$3,000 for a monument to be erected in memory of Henry Harper, who on Dec. 6th, 1891, lost his life in endeavoring to save from drowning Mrs. Rosalie Blair, daughter of the minister of railways and canals. It has been resolved by the general committee appointed to administer the fund, that the choice of the sculptor, to whom the contract for the execution of the monument in question is to be given, is to be determined as the result of a competition. Circular letters are accordingly being sent to sculptors in Canada and the United States.

Intending competitors must notify the secretary of the committee in Ottawa before March 31.

Paralysis and Locomotor Ataxia

The most dreaded results of neglected nervous diseases—Study this chart and the symptoms stated here to learn if you are in danger—DR. CHASE'S NERVE FOOD will cure you.

To understand paralysis and locomotor ataxia, which is paralysis of the limbs, and their causes, it is well to remember that every movement of the body or its members is due to the contraction of muscle, which can only take place under the influence of a nerve force.

As this all-important nerve force is created in the nerve centres of the brain and spinal cord, and conducted along wirelike nerve fibres to the various parts of the body, any derangement of the brain, spinal cord, or nerve fibres will result in paralysis or loss of nerve power.

Paralysis, then, is the natural result of a neglected nervous disease.

Paralysis can always be prevented and partial paralysis actually cured by the timely use of Dr. Chase's Nerve Food. The time to begin treatment is when any of the above-mentioned symptoms become apparent.

Dr. Chase's Nerve Food sets on the system in an entirely different way to ordinary medicines. It is neither a stimulant to whip tired nerves to renewed activity, nor a narcotic, nor opiate, to deaden the nerves.

Dr. Chase's Nerve Food 50 cents a box, 6 boxes for \$2.50. At all dealers, or EDMANSON, BATES & CO., Toronto.

NEW RAILWAY STATION WILL BE 25 STORIES HIGH

New York Central to Erect Huge Structure in New York, to Include Hotel, Theatre and Department Store.

New York, Feb. 4.—Improvements that will cost from \$25,000,000 to \$30,000,000 have been provided for the New York Central Railroad Company, and the plans have been accepted by the representatives of the city.

Most important of the proposed improvements will be a terminal structure which will stretch from Madison avenue over the Grand Central Station and the vacant block between Forty-third and Forty-fourth streets.

Work upon these improvements will be begun before next May, and the New York Central promises to have the changes made within three years, though not bound to do so until May 1, 1908.

HOW THE SQUIRE CAME HOME

By Hon. Mrs. Arthur Henniker.

My friend, Miles Revell, and I had got off our bicycles and were leaning over the gate which led into the squire's park. "It is all very pretty and very little changed," said my friend, as he looked through the railing. As he spoke we heard the sound of wheels approaching near. A high cart drawn by a chestnut colt came quickly toward us, and the driver, a plump and fat-faced man, greeted my friend cheerily as he passed through the gateway. "Is that your squire?" I asked. "He is, and he has just the same smile as his mother had!" I thought the speaker sighed a little. Then he spoke again: "Thirty-five years ago, Jack! Thirty-five years ago, the great days, in the distance enchanted. Days of fresh air, and the rain and the sun!" And he really did sigh this time. "Did you ever hear about the coming home of that young man's father?" Revell asked. "Never. Tell me the story now, while we are resting." The grandfather of the present squire, whom we have just seen, had been a thrifty gentleman, with attractive manners, and a taste for luxury. He had had a gay life during the Regency, married a lady among his own people. The letter was charmingly expressed, and was evidently written by a man of feeling, whose words came straight from his heart. The agent read the letter aloud to the young squire's maiden aunts, who, since their brother's departure for Italy, had kept his house in order, and by dint of much carefulness had made it comfortable, if with less ostentation than his father had practiced. I will remember the excitement that pervaded the village when the date of the squire's return was at last fixed. Across the great drive where you and I now sit we hung many lanterns and flags and paper roses, these last the handiwork of the dear old maiden aunts. Over the trees in the park the sky was pale blue, with streaks of white clouds. Red lights filtered through the network of leaves, dazzled our eyes and made our faces look all aglow. The squire's other old relative, Aunt Sophia, joined us then. She moved with great dignity, her aquiline face shaded by a large bonnet with curls. By her side walked a friend of mine--and she was the love's last girl that you ever saw, my dear fellow! Well, you see, it was thirty-five years ago! I remember that she and I talked together at intervals, and the vicar congratulated me on my slowness, and that Aunt Sophia said: "Dear Julia, if you will hinder Mr. Revell, the avenue won't be finished before midnight!" The last lantern was fastened on, however, by eight o'clock, and we escorted the ladies toward the hall door. Julia, for such was her name, had a way of confiding in me that was perhaps gratifying in one sense, but in another hardly flattering. She treated me as if I were a young Aunt Sajah, kind and discreet, but with no emotions. I had not to her actively on this particular evening, and said very little, I fear, in an ex-colloquy. I must tell you, in the way of consolation, that she was a very rich man, an excellent Elizabethan house some three miles away, and restored it with vulgar splendour. A girl as lovely as she was, and presumably so great an heiress, had of course the little world in which she lived at her feet. But it seemed that during her last tour abroad, some months ago, Julia had met her last chandler, who had been an excellent person. She had perfectly understood her, and she had the wrath of Mr. and Mrs. Pinching-Brown must have been when Julia refused the hand of the Duke de Galindez and would insist upon taking long walks with this obscure young man, the son, he told the Browns, of a gentleman farmer. He was himself at the time studying practical agriculture under an agent to a great French property. I do not think that it was crops and stock that he and Miss Julia discussed as they strolled along those sunny river banks together; and when the day of departure arrived for the Pinching-Browns, this insolent young man was actually in attendance at the station, with a bouquet in his hand, and he said something of deep import to Julia. "He told me that he might be coming to England!" sighed poor Julia. She did not know how I inwardly cursed this young turnip grower! "What income can a land agent make a year?" she asked, her lip trembling. "I answered modestly that the ordinary year was now a drug in the market. 'Well we shall meet to-morrow, Miss Julia.' 'Oh, yes. I shall come and wave my handkerchief with the crowd. But it is so trying that mamma will insist upon bringing Mr. Tannenbaum with us!' " "Ah! another victim--one more scalp at your belt, I suppose?" I remarked, with melodramatic bitterness. "Papa wishes me to like Mr. Tannenbaum--yes--he does, if that is what you are hinting at!" Julia frowned and turned her head away. "And you? Why, no--of course the bucolic gentleman with the beautiful manners holds the field! I needn't ask!" "Julia looked at me with an expression of surprise and pain in her large brown eyes. Then I saw that Aunt Charlotte, carrying a reticule, was coming toward us. "I really think the weather is going to
