English and Scotch TWEEDS: of all the latest and most reliable designs for Ladies and Children's Dresses; graded in va-rious sizes put up in illustrated envelopes, with full directions for making Trimming. &c. &c., and so accurately cut and notched that any novice can put them together. HOSIERY, GLOVES, and Small Wares, &c. JOHN ARMSTRONG & CO. J. W. COVEL, Dougald McLachlan & Sons, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarseparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this SARSAPARILLA. St. Anthomy's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralfia, and the various Ulcerous affections of the muscular and nervous systems.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhea or Whites, Uterine Ulcerations, and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torptity, Congestion or Infammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial. The opening of Parliament is always, in the eyes of Ottawa people, an event of great importance, and no doubt has a goodly all kinds, all who are connected with measure of interest for those in the more house building, ship building and ship distant parts of the Dominion, east and finishing, or who do general jobbing requir- west, who cannot hear the thunder of the guns, the strains of the music, or gaze The Lumbering business has improved, upon the display of bunting, of costly dresses, or see the company of great men lumber exports is annually increasing. But soon the members return from the Senate, a fine procession of great men headed by the Sergeant at Arms, the Clerk and Clerk's Assistant, the Speaker, all it their robes of office, then the members of the Government, Sir John, Sir George and Hon. Once the members are seated, and som

ormal business transacted, THE INTRODUCTION OF NEW MEMBERS takes place. Sir John A. Macdonald and Sir George Cartier retire, and soon return leading in Hon Mr. Pope, who, they inform the Speaker in set phrase, has been duly returned a member for Compton, and having taken the necessary oath, wishes to take his seat. Then Hon. Messrs. Tilley and Tupper, Tilley and Cartier, Tilley and Gray introduce, one by one, the British Columbia members, who advance, shake hands with the Speaker, and take their introduction of Mr. Wallace by the members for the City and City and County of St. John, has this feature of interest that the new member from the Far West is a fellow-townsman of his introducers, and I believe an old constituent, having done

business in St. John as head of the late hardware firm of Wallace & Small. With the accession of the Manitoba and British Columbia members, the House now contains 191 members, but as there were a few vacant seats they can all be accomm dated without the necessity of making any changes in the Chamber. But as the nex elections are to give us six additional mem bers for Ontario, two for Nova Scotia, and one for New Brunswick-nine in all,-it becomes a doubtful question what shall we do with them, or with the Islanders when they come. The Chamber is too small and already has a crowded look. To day

was passed pro forma, a brief discussion occupying the afternoon and about an hour in the evening. There was nothing note worthy that your telegrams will not have already conveyed. The speeches of the mover and seconder were short, and lauda tory of the Government. The mover, Mr. Nathan, read his remarks from manuscript, being, with the exception of one similar speech from Dr. Schultz last year, the only instance of the kind yet occurring in the Parliament. IN OPENING THE BALL with some criticisms on the general course

of the Government, and the foreshadowings and omissions of the speech, Mr. Macken zie did not by any means equal his ordinary efforts. His speeches are usually strong. clear, and interesting. This was dull and spiritless. Mr. Blake seemed to be keep ing his eyes and ears open, but kept his mouth discreetly closed thus far. Doubtless the Reform leaders will feel less freedom of action now that they are in official positions in the Ontario Government. Sir Francis' brief intimations respecting Treaty matters have given increased interest to the papers see nowhere else in Canada. There are given the feeling of the House will scarcely take shape. But thus far, judging from a considerable intercourse with representa tions from various quarters, I infer tha there is much less feeling of opposition t the Government of the day than has been felt and expressed at the opening during the three past sessions. This may be, how ever, but the result of a judicious reticence awaiting a fuller exposition of the inten creased with the resources of consumers.

ESTABLISHED IN 1863. THE combined circulation of the Tri-Weekly and Weekly CITIZEN is now over 5000, considerably larger than that of any other paper published in the Province, and thus the best medium for advertising. This statement we are prepared to prove by our books, and challenge contradiction. Terms of advertising as follows: CORNER OF

New York Sun for 1872,\*

TO ALL WHO CAN READ. The New York Weekly Sun Doubled in Size without Increase in Price. BRUSHES:

With the beginning of 1872, THE WEEKLY Sun has been doubled in size. It now contains eight pages instead of four, making it equal in dimensions to any other weekly secular journal published in this country. At the same time its price has not been increased. It will be furnished to subscribers at the uniform rate of one dollar a year for each copy. To this rate no exception will be made and no reduction will

be possible, either to clubs or agents. Every subscriber who sends a dollar will receive a copy for a year. While THE WREKLY SUN thus furnishes as much reading matter as other papers published at double or treble the prize, it will contain new tures which will add greatly to its interest and value as a family newspaper. Its inde-pendence of opinion, and its unqualified hostility to Tweedism and Grantism, and every form of public robbery, bribery, and corruption. will be maintained, while in point of political news its readers may rely upon always receiving the most accurate, as well as the freshest, in el ligence that can possibly be obtained. The enlargement enables us also to devote additional pace to valuable agricultural intelligence, and to print interesting stories and romances more extensively than hitherto. For miscellaneous reading, presenting the quaint and humorous

aspects of life, and for useful information repecting not only what takes place in this metropolis and this country, but in all other parts of the world, we now have ample room.

In its new form The Weekly Sun is the cheapest paper of its class in the United States: and we appeal to such of our readers as approve its ideas and objects, and find it interesting and

valuable, not only to renew their own subscriptions, but to recommend the paper to their friends and neighbors.

This year is destined to be a memorable one in the history of the country. We are on the eve of a most significant Presidential election, and political movements will for many months be watched with unusual interest. As a journal. free from the trammels of party, THE WEEKLY

Sun will continue to uphold the principles of true republican government. Its readers are invited to sustain it in that work. The truth, irrespective of party prejudice or official influence, will always be told in its columns. Terms of the Weekly Sun-A journal containing eight large pages, published every Wednesday morning—To all mail

subscribers, whether single or in clubs, one dollar a year each, always in advance. DAILY Sun, by mail, 50 cents a month, or \$6 year. Semi-Weekly Sun, by mail, \$2 a year. Address THE SUN, New York City. mar 15
