**EFFECT OF CO-OPERATION.**  
An Offer of Momentous Interest.  
THE WORLD'S GREATEST WEEKLY WITH THE UNION ADVOCATE FOR \$1.75.

Our readers will be pleased to know that we have made special arrangements by which the Union Advocate and the Family Herald and the Weekly Star of Montreal together may be had for \$1.75.  
The Family Herald is the greatest weekly newspaper in the world, and has been wonderfully successful. So greatly has it grown that its publishers have had to enlarge it to sixteen pages, and even now it is hard to get all the good things in. No family can afford to do without the Family Herald, for not only does it amuse and instruct but it repays its subscription price many times over. All the successful farmers, breeders and dairymen endorse it because they find in it what and instructions that is precious to them, and which they can get nowhere else. How- ever, find it a valuable aid to their household. The young folks are enraptured with the paper given them. It contains matter to interest every member of the family.

Every subscriber, at no cost to himself, has his insurances for \$50 against death by railway accidents.  
You can get the Family Herald with its premium and free insurance, and The Union Advocate for \$1.75. This is an offer so generous that everybody should accept it.  
Sample copies may be seen at the Advocate office or they will be forwarded upon application to the Family Herald Publishing Co., Montreal.

**A LIFE SAVED BY TAKING AYER'S CHERRY PECTORAL**

"Several years ago, I caught a severe cold, attended with a terrible cough, that allowed me no rest, either day or night. The doctor pronounced my case hopeless. A friend, hearing of your Cherry Pectoral, sent me a bottle of it, and I believe I was completely cured, and I believe I was completely cured, and I believe I was completely cured."

**Ayer's Cherry Pectoral**  
Highest Award at World's Fair.  
Ayer's Pills the Best Family Physic.

**SICK**  
The pair, accompanied by a large proportion of the population, made their way toward the court house, a building which but faintly recalled the quality of the last day's within. As a matter of fact, before it became a hall of justice, it had been a loft, and access was still gained to it by means of a ladder. Marguerite, followed by the judge, the jury and the crowd, mounted with impetuous alacrity, and he was shortly occupying a prominent position in the court.

**HEADACHE**  
is dependent on nervous debility, caused by irritated nerve centres at the base of the brain. THE GREAT SOUTH AMERICAN NERVE TONIC will give immediate relief and permanent cure. It is a purely vegetable preparation, and is entirely safe. It is sold by all druggists in the Dominion of Canada and United States for One Dollar per box.

**E. LEE STREET, Wholesale and Retail Agent for Newcastle.**

**Ladies Favorite**  
Cook's Cotton Root Compound is sold by all respectable wholesale and retail druggists in the Dominion of Canada and United States for One Dollar per box.

### Selected Literature.

**TWO DOGS AND A JURY.**  
Marguerite Valquez was a person of the Texan frontier. There were periods, indeed, when members of his acquaintance, notably the Sheriff's officers, sought his society with an ardent desire to withstand. The present was one of those occasions; and although Marguerite had some cogency about accepting the urgent invitation extended to him, and moreover given the State officials some healthy exercise before allowing them to deliver it personally, yet he had eventually given away to force of circumstances.

Fortunately for themselves the representatives of the law and order in Jacumba knew within a hundred miles or so the localities where Marguerite was likely to be found. His natural modesty, they were aware, prevented his ever crossing the Mexican border, where his return had long been awaited with anxiety by certain of his compatriots. Therefore the chase had been short.

Still, while it lasted, like most of the proceedings in which Marguerite was actively concerned, it had proved full of interest to the persons sharing in it. But now the object of all these attentions had recognized the uselessness of further resistance, and, feeling that he had done his best, was prepared to rest upon his laurels. Wherein his friend, Don Carlos, agreed with him.

The pair, accompanied by a large proportion of the population, made their way toward the court house, a building which but faintly recalled the quality of the last day's within. As a matter of fact, before it became a hall of justice, it had been a loft, and access was still gained to it by means of a ladder. Marguerite, followed by the judge, the jury and the crowd, mounted with impetuous alacrity, and he was shortly occupying a prominent position in the court.

Don Carlos, who suffered from a constitutional objection to climbing, had elected to remain in the yard below. Knowing from past experience that the trial was likely to be a lengthy process, he gravely seated himself upon the ground and prepared to await events. It should be explained that Don Carlos was not handsome. Neither was his good. But he possessed merits which might have been patent to the casual observer. In complexion he was black and tan, being naturally so, and his hair, which he wore in a dachshund in the face, while he strongly resembled a greyhound in the figure, was, however, it was impossible to classify, for it belonged to no species or colour. Owing to his having been dropped by the nurse when a baby, it had a break near the tip which caused it to curl over his back in a coquettish manner, far from exemplifying the real solidity of his character; while its length would have done credit to a cat.

Don Carlos himself seemed to be aware that it was not the latest fashion in tails, and he habitually underwent many things in a vain endeavor to sit upon the whole of it at once. He was thus engaged upon the present occasion, when, glancing up, he chanced to see eight of a bull mastiff which was strolling slowly into the yard, apparently in search of stray refreshments.

Don Carlos pricked up his ears and blinked his eyes, into which the light of battle gradually crept, as the intruder, unconscious of danger, drew nearer every moment.

In the meantime the sonorous tones of the judge's scolded clearly from the open window of the loft above. It appeared that Marguerite was accused of house stealing this time, and as he listened to the details of his error, as described by the sufferers from it, he felt by a sudden certainty that this might be the last of his many adventures.

"Judge Hopper's got a hanging look about him this morning," he meditated, with an unemotional face. "If I get off this time I will go home to Conchita and they shall find me no more."

The last witness for the prosecution finished his tale of woe, and a feeble effort was made at defense, while Marguerite worried idly if he really were as great a ruffian as the evidence seemed to imply.

Silence, broken only by the buzzing of the flies, fell upon the court room, as the judge settled himself in his wooden chair and prepared to sum up. The culprit, who was looking through the window at his side, appeared to be the only uninterested person present. A deputy standing near was about to recall his attention to the proceedings, when, following for an instant the direction of the prisoner's gaze, he, too, became absorbed.

The sheriff himself then glanced at the window, through which short bars were beginning to make themselves heard, and after one look he rushed to the door and commenced hurriedly descending the ladder. The audience gathered at each other in amazement for an instant, before, with a simultaneous movement, they took a hurried survey of the yard. Having looked, they vast-

ed no more time, but with an expression of rapture stealing over their faces they made for the ladder, accompanied by the prisoner and the guard.

The judge, being left alone in the empty loft, frowned severely at the vacant benches as he said with impassive dignity, "I guess this court will adjourn."

Then he tucked up his sleeves and made good time for the yard. A vigorous struggle for the best view took place between Marguerite and himself, without either man being in the least aware of the identity of the person by whom he was jostled. Nor would it have made any difference if he had known, because not even for a free pardon would the accused have consented to forego the exhilarating sight on which he was feasting his eyes.

Affairs were just at their most exciting stage. The bull mastiff, it appeared, had drawn quite close to Don Carlos before perceiving his presence. He had then, instead of apologizing for the intrusion, critically examined Don Carlos' tail, afterward giving vent to an insulting bark. This brought matters to a climax, and in less time than it takes to tell, the two dogs were so inextricably mixed up that but for the appendage in question, waving over the scene like a flag of battle, it would have been impossible to distinguish one combatant from the other.

There was no necessity for the haste displayed by the spectators in reaching the seat of war, for the fray promised to be as long as it was sanguinary. No quarter was asked or desired. The stranger possessed a vast amount of staying power, inasmuch as when he once took hold little short of extracting his teeth made him let go again. But the wily tactics of his opponent were a new to him, and prevented his getting an opportunity to show what he really could do.

Don Carlos dashed underneath him and sent him sprawling into the mud; he jumped over his back and gave him a performance of his pasting, and he buried his front and rear guards both at the same time, until the bull-mastiff felt that, for all the good he was able to effect, he might as well be a toy-terrier. The ironical cheers of the crowd incited him to fresh endeavor, and he spent himself in frantic efforts to gain the mastery.

At length, however, he saw a chance. Making a sudden dash while Don Carlos was in the act of extracting one of his wonderful leaps, the bull-dog met him in mid-air and at last obtained a grip of the enemy's throat. Both dogs fell to the ground, the stranger savagely wrenching his apparently vanquished opponent.

The crowd showed signs of a desire to interfere, but the judge waved them back. "Let 'em alone," he said, "and bet your boots upon Carlos'."

### General Intelligence.

**THE SALARIES AND INCOMES OF RULERS.**  
There is certainly one very nice feature about being a potentate, and that is the income that comes to the occupant of a lofty place. Besides having all his wants attended to, and a large number of palaces always at his disposal, the Emperor of Russia is said to receive \$25,000 a day; the Sultan of Turkey receives \$18,000 a day; the Emperor of Austria receives \$10,000 a day; Emperor William has to get along on \$6,000 from breakfast to bedtime; Queen Victoria has \$35,000 to spend every week, and the President of the United States receives a trifle under a thousand dollars a week, but a great deal of free advertising goes with the office.—Harper's Young People.

**GROWING PREVALENCE OF BRIGHT'S DISEASE.**  
Bright's Disease shows itself usually in depression of spirits. Life loses its zest. Efforts bring an early fatigue. There is loss of appetite; listlessness; sleep fails to refresh. There may, or may not be pain in the region of the kidneys. It is not only astonishing, but alarming, the extent to which this disease is seizing the ablest men of the country. The deceptive nature of the trouble is almost akin to that of consumption. Our dearest friends are carried off with it before we are aware of the nature of their disease. The one salvation is to rid the system of the trouble at its inception. This is being most successfully accomplished by South American Kidney Cure, a medicine that will cure any case of Bright's disease, that has not already signed the death warrant of its victim. It is a medicine that most completely restores the system of those elements that constitute this disease, working directly on the kidneys.—Sold by E. Lee Street.

**CONDENSED DESPATCHES.**  
Mr. King, ex-director of the Bank of Montreal, died at Monte Carlo Tuesday, aged 73.

A terrific storm, with a heavy fall of snow, swept over Sicily, Italy, doing a great deal of damage. Four ships are known to have been wrecked.

On board steamer City of Washington, which arrived at New York this morning from Mexico and Havana, were seven ship-wrecked seamen of the Norwegian barque Sorridderen, which was wrecked near San Felipe, on the Mexican coast, March 10.

Philip Dudley, second Baron De Lisle and Dudley, died at Durham, Eng., Tuesday, aged 68 years.

Eighteen men were killed by the explosion in the Brancepeth mine at Willington, Durham, Eng., Tuesday.

The Mississippi river is on the rampage. From Grand Rapids to St. Paul, the water is now eight feet higher than on Sunday. A further rise of two feet will drive the people to the hills. Much damage has already been caused.

Emperor William of Germany attended a parade of the Vienna garrison on the Schmelzer ground this morning.

The Union Advocate

Established 1867. NEWCASTLE, MIRAMICHI, N. B. WEDNESDAY, APRIL 22, 1896.

Newcastle Societies.

MEET AS FOLLOWS: NORTHUMBERLAND LODGE No. 17, A. S. & A. M., in the Lodge rooms on the evening of the second Tuesday of each month at 8 o'clock.

NEWCASTLE DIVISION No. 15, S. of T., in the Temperance Hall every Thursday evening at 7.30 o'clock.

COURT MIMAMICHI No. 163, I. O. F., in their rooms, Masonic Hall, on the evening of the fourth Tuesday of each month at 8 o'clock.

NEWCASTLE BOARD OF TRADE, in their room in the Creighton building on the evening of the first Monday in each month at 8 o'clock.

ANCIENT ORDER OF UNITED WORKMEN, Miramichi Lodge No. 11, in its Lodge room on public walk on the first Tuesday of each month at 8 o'clock.

"NO SURRENDER" L. O. L. No. 47, in their lodge room on the first Friday of each month at 8 o'clock.

DERBY. COURT HAPPY REFRANT No. 150, I. O. F., in Feathers' Hall, Derby, on the first Tuesday of each month at 7.30 o'clock.

FLOODS in the eastern townships of the Province of Quebec have caused immense damage, and railways have lost several valuable bridges, tracks have been washed out, houses and factories submerged and damaged.

Editorial Notes. Floods in the eastern townships of the Province of Quebec have caused immense damage, and railways have lost several valuable bridges, tracks have been washed out, houses and factories submerged and damaged.

The ice lodged in the gorge and brought down the structure with it, and the falling waters rushed against the obstruction. This cut off all communication between this section and the New England States.

In the vicinity of Sherbrooke the tracks of the Quebec Central, the Maine Central and the Boston and Maine have been washed out in various places. Traffic will be interrupted for weeks.

Swearing past the city of Sherbrooke the St. Francis river has burst from its confines and in a raging torrent covered the city to a distance of half a mile between that city and Richmond. The Jencks Machine Company works at Sherbrooke have been submerged, and so rapid was the rise of the water that the employees had to be taken out in boats.

Several other factories on higher ground are surrounded by water. Riverside dwellings and houses have been submerged. At Richmond the damage is very great. The water is several feet deep in the main street of the town. In the wards the cellars of houses are all awash, and the village of Jansville is completely submerged. Several other villages suffer in a lesser degree. The water is still rising. The lack of districts, from which reports have not yet been received, as yet, are no doubt suffering in like manner.

We think the editor of the Chatham Herald might be better employed than in misrepresenting what was said at a meeting of which he was present upon suffering, not thinking it his duty to state whether reports were admitted although the meeting was not open to the general public. He willfully misrepresents what was said by the secretary of that meeting, forcing the role of most liberal papers in preferring falsehood to truth when writing about opponents of their peculiar party tergiversation.

Quite Improbable. The Chatham Herald, after copying the item in last week's Advocate about the favorable rates obtained for the school bonds of the town of Campbellton, says: "The financial institution which took the bonds referred to above has a good Liberal President, its directors are all members of the Liberal party, and the majority of this country under the Liberal Government which will take the reins of power after the general election, make the commercial transaction referred to."

These men must have had faith in the country's future what party was in power on their minds had general action until the delightful time anticipated by the Herald. With it the "wish is father of the thought." There is little probability of such an untoward event taking place, simply because the majority of the people of Canada are not the natural born foes of the Liberals that they are, and in this (the people) have a good deal to say in this matter.

Prohibition Convention. The attendance was small at the meeting held in Chatham on Thursday last, the call of Mr. Geo. N. Clark, vice president of the Northumberland County Prohibition Association. Mr. Clark took the chair and gave his reasons for calling them together at this time and asked them to nominate a chairman. Mr. Geo. N. Clark was appointed and the meeting opened with prayer by Rev. Geo. Steel.

W. C. Anslow was then appointed Secretary. The discussion of the Plan of Political Action as adopted by the N. B. Prohibition Association was on motion taken up section by section. Several amendments were made and alterations suggested but were finally adopted without change.

Rev. Geo. Steel moved that we proceed to organize a county branch of the N. B. Prohibition Association. Carried. The following organization committee was appointed by the chairman: Mr. Geo. Steel, Alex. Leishman, E. N. Rudlick, Rev. James Crisp, John Menzies, Miss (Dr.) Brown. The committee retired to the committee room and soon returned with the following report of organization: Art. 1.—This organization shall be known as the Northumberland County Prohibition Association, auxiliary of the New Brunswick Association.

Art. 2.—Its object is to secure the movement for the total Prohibition of the Liquor Traffic in Canada by Legislative enactment and also adopting the Plan of Political Action of the Provincial Association as follows: 1. We believe that there is no question in politics so vital to the moral and financial prosperity of Canada as the prohibition of the liquor traffic.

2. We further believe that prohibition is a duty which ought to stand by the position that in political matters they can only appear as satisfactory candidates as are known and avowed prohibitionists, and can be relied upon to vote and work for the enactment and enforcement of prohibitory legislation regardless of party prejudices.

Newcastle Board of Trade.

The adjourned annual meeting was held in their rooms on Wednesday last. P. Hennessy, Esq., President, in the chair. The committee appointed some time ago to collect arrears of dues reported having made some collections of which an account was handed in. They also reported that the books showed the amount of \$105 due by members. The treasurer stated that some persons whose names were on the books when applied to for their dues stated they were not members. The information was read from the Act of Incorporation that members wishing to retire from the corporation may do so by notice in writing of the secretary ten days previous, in writing, of such intention and paying all dues to date. Other wise the corporation can proceed to sue for the amount of arrears and in such cases the notice must be in writing, and the election of officers was then proceeded with, resulting as follows: President.—P. Hennessy.

Vice President.—C. E. Fish. Secretary.—Donald Morrison. Treasurer.—D. A. Clarke. Council.—J. D. Creighton, Geo. N. Clark, Geo. Stothart, John McKean, W. C. Anslow, Michael Brown, P. Hennessy, Thos. Russell, W. A. Hickson, Allan Ritchie.

Under the head of new business the notice of motion respecting incorporation was brought up by Mr. D. Creighton. Mr. D. Creighton stated that he had been looking up the labor market, but he has found that still there is work for all and that the condition of the town has improved rather than otherwise. The conclusion is inevitable that educated labor will always have a field to work in, while brute force will be in demand. Herein I see an argument in favor of the establishment of technical schools all over the country which it appears to me cannot be refuted.

St. John Letter.

ABOUT ELECTRICITY.—THE NEWS OF THE DAY.—THE MARKETS, ETC.

On the 5th May power will be transmitted from the great dynamo in Niagara Falls over 402 miles of wire to New York City where in a few months it is not unlikely that all kinds of machinery, street cars, etc., will be driven by an electric current from the mighty catana of the coast of which will be heard by those present at the opening ceremonies through the Bell telephone. It seems singular that while the world produced as great soldiers, statesmen, philosophers and poets hundreds of years ago as have lived in more recent times, it was reserved for the closing years of this century to harness the lightning and make it the servant of man. For what purpose we do not know, but to accomplish the work of millions of men has been exerted to no purpose of practical utility that now enters into competition with human labor and the outcome, while at first it is a source of amusement, in the long run will be the rendering of life for the few less laborious, thus affording time for study and recreation which hitherto could not be devoted to such purposes. The engine has been built and is now in fine running order at the Millers' Chatham Foundry. It is a compound, 45 inches high, the low-pressure cylinder is 12 inches diameter, and the high pressure 6 inches. Both engines have piston valves and the stroke is 6 inches. The working pressure will have a maximum of 200 lbs. The boiler is a Toronto Roberts water-tube, furnished by A. B. Williams, Montreal. The boat will have a duplex pump for air and water, and a keel condenser. The materials from stem to stern of the work are all of the best quality and the workmanship of the establishment of technical schools all over the country which it appears to me cannot be refuted.

Get your PRINTING done at the "ADVOCATE" OFFICE.

Reported for the Dominion Government by J. F. Connors.

Table with columns: DATE, Hour of Observation, Barometer, Thermometer, Maximum Thermometer, Minimum Thermometer.

Miscellaneous

A servant who can get a better place is not much to be blamed if she refuses to live in a quarrelsome family.

MINARD'S LINIMENT cures diphtheria.

Sprinkle ashes on the pavement, Keep the guinea bottle near, Wear your ulster and your rubbers, For the gentle Spring is here.

Are You Made Miserable by Indigestion, Constipation, Diarrhoea, Loss of Appetite, Yellow Skin?

Misstress (calling upstairs)—Sarah, on earth are you doing to that child, Sarah, to make it scream so?

MINARD'S LINIMENT cures diphtheria.

Sprinkle ashes on the pavement, Keep the guinea bottle near, Wear your ulster and your rubbers, For the gentle Spring is here.
