MAIL ORDERS.
We solicit out of town orders which receive our personal attention. The length of time taken to fill orders is governed largely by how busy we are by the department of our factory in which the particular goods are made. We have no exceptional facilities for promptly turning out goods. It is important to place orders as far ahead as possible. Orders are filled by us in the position in which they are received, and customers can always depend on our doing everything in reason to give prompt dispatch.

Our Office is connected with the N. B. Telephone by two separate lines insuring prompt attention.

TOWN COUNCIL IN REGULAR SESSION

Routine Business Only in Short Session—Name Streets.

A meeting of the Town Council was held last evening. His Worship Mayor Andrew presiding. Coun. Miller, Quinn, Usherwood, Alexander and Harquail were present.

The minutes of the previous meeting were read and approved.

A letter from P. M. Shannon, re Copeland property was read and ordered placed on file.

A communication from W. H. Wallace, re the former council action in re-opening the J. & D. A. Harquail Co. was read and laid on the table.

The following reports were adopted:

PUBLIC CHARITIES.
Provincial Hospital \$40.00
Mrs. Robt. Nelson ground rent \$50.00
Joe. Boudreau, hay etc. \$4.10
R. K. Shives, coal 455.00

Canadian Gen. El. Co. 256.65

Coun. Harquail from the Electric Light Committee reported that the Committee has looked into the matter of lights on street to the McLennan Foundry and Machine Works, but would not decide upon anything until they heard further from Supt. Fitzmaurice of the C. G. R.

Mr. E. M. Moore was present and upon being given permission asked the council to rent one of the stores in the town building to him.

His worship stated that the Town had granted the use of the store to the Medical Board and they would need it for five weeks.

Coun. Alexander brought up the matter of the Waverly Hotel ruins. He said his attention had been called to this menace to public safety.

After discussion Coun. Alexander moved that the Building Inspector be empowered to make the ruins of the Waverly Hotel safe.—Carried.

Coun. Harquail stated that residents of McMillan avenue complained of the ruins of the Winton house. This was a fire menace and should be removed.

On motion the Building Inspector was authorized to take necessary steps to have it repaired or taken down.

Coun. Harquail brought up the matter of the street at Doherty's Pond. He said it now appears that the town

Campbellton, N. B.
Oct. 17th, 1917.

To the Citizens of the Town of Campbellton, Ladies and Gentlemen:—

The Lieut-Governor has requested me to make arrangements for soliciting subscriptions for the British Red Cross Society and the ladies of the Tipperary Club have kindly consented to take up the work, and will, in all probability, call upon you early next week for your contribution.

The Red Cross is the only institution which carries voluntary aid to our wounded soldiers and sailors and the work has reached such magnitude that the assistance of all loyal British subjects has become a necessity.

You have always been most generous with your contributions for patriotic purposes and I feel that you will be equally generous upon this occasion.

Of all the patriotic societies ministering to the wants of our boys at the front the Red Cross is the most deserving of assistance and yet it has received the least support from our citizens, the reason being that you have not been called upon to contribute toward that worthy object; now that you will be given the opportunity I feel sure that you will keep up the record which you have established for Campbellton, on account of the liberality of your contributions in the past.

Remember the Red Cross ministers to our boys at a time when they most need assistance; if necessary, they can get along without dainties when they are in good health, but when they are sick and wounded dainties become a necessity.

Those who cannot fight must pay, therefore meet the young ladies with a smile and contribute as the Lord has prospered you.

A. A. ANDREW,
Mayor.

LIEUT. McMILLAN IS A PRISONER

from Admiralty Brings Good News of Restigouche Boy.

Mr. W. R. McMillan of Jacquet River this week received a cable from the Admiralty, London stating that his son Flight Sub. Lieut. Robert E. McMillan R. N. is a prisoner in Germany. It is inferred that he is unharmed as no mention was made of his being wounded.

Lieut. McMillan who was with the Royal Navy Air Service was reported missing a short time ago. His many friends will be glad to learn that he is well.

QUARTER MILLION FROM RESTIGOUCHE

This is the Amount of War Bonds our Citizens are to Buy.

His Honor H. F. McLatchey chairman of the Finance Committee of the province to work in the interest of the "Victory Loan" called a meeting of citizens for Monday afternoon in the Council Chamber and a large and representative body of local business men responded to the call.

His Worship Mayor Andrew was chosen chairman and explained the object of the meeting.

The following officers were appointed:—
Chairman—H. F. McLatchey.
Vice-Chairman—A. J. Melanson.
Secretary—E. P. Mowat.

Those present were enthusiastic in discussing the matter of selling the bonds. Restigouche county is expected to buy a quarter of a million of these.

The following local committee was appointed: W. F. Napier, D. E. Richards, A. T. LeBlanc and Geo. St. Onge. These men will canvass the town for purchasers. No details to the bonds have yet been received but announcements will appear in the papers shortly.

BIG DEMAND FOR POPULAR LOGS

Montreal Firm Buying Large Quantities for War Purposes.

In many sections of Northern New Brunswick there are stretches of country heavily wooded with poplar trees. Outside a small demand for pulpwood and excelsior wood, there was no sale for this class of timber until quite recently.

Now a company has been organized in Montreal to purchase popular logs for export.

This lumber is used for war purposes, and the demand is great.

Mr. H. S. Alexander of Campbellton is making contracts for this territory and we understand is offering an exceedingly good price for the logs loaded upon cars.

This class of timber land has always been classed as of little value, and the opening up of such a market will mean much to many of our farmers who have such.

MEDICAL BOARD HERE EACH WEEK

Will Examine Candidates in Rooms in Town Building—The Doctors.

A medical board consisting of Capt. A. E. Loggie, Dr. A. Martin and Dr. A. Murray will be at the Town building Wednesday and Thursday of each week to examine candidates under the Military Service Act.

The first meeting of the board was held commencing this morning at 9 o'clock. The first man to step up for examination was John J. Bernier,

who passed in class A. Many young men are being examined, there always being some waiting. At noon thirty-one men had been examined of which fifteen passed in class A.

Campbellton Boys Meet At Whitley Military Camp.

Standing (left to right)—Sergt. Harold Wallace, Edgar McIntyre, John Dewar, Jack Jardine, E. Quinn, Stewart Main, Billie White, Sergt. Ruben Dickie.
Second Row (sitting)—Art. Leblanc, Harry Sullivan, George Matthews, Don Dewar, Charlie Moore.
Third Row—George Peters, Hal Lepraik, George Underhill.

The above group of Campbellton boys was taken in Whitley camp, when on the 22nd of September last the local boys who could get there held a reunion. Among those in the picture who have been in active service in the trenches are John Dewar, Art LeBlanc, Sgt. Wallace, and Billie White, brother of The White who was killed with a heavy siege battery last spring. Sergt. Wallace, who was in the heavy siege artillery was wounded in the Vimy Ridge battle and is still in England where he is slowly recovering. All the boys are well known here and our readers will be glad to see their

faces and note the changes which active service has wrought. All were enjoying good health, Sergt. Wallace, weighed 185 lbs, while Sergt. Dickie was as heavy if not more so. Wallace was one of Campbellton's star hockey players, and while in St. John with the Siege Battery played in a series of games and received special mention by the papers of St. John. Matthews, Dickie and Quinn were local fans with reputations for good clean sport.

It is needless to add that all these boys are of our best, that seems to be a predominating feature of Campbellton boys who went overseas, and all left good positions to accept the kangs \$1.10 per day. They are doing their bit whether in the trenches or in England and we take our hats off to them. As they down hearted. The picture answers that.

THROAT SORE?

Don't neglect it because you think it is "only a sore throat." It is often the beginning of serious trouble, which can be avoided if proper precautions are taken. "Sore throat" is a sign that your power of resistance has been temporarily lowered, and your system is therefore unable to withstand the attacks of harmful germs which are being constantly breathed in. The germs have, therefore, settled in your throat and caused inflammation, and to prevent more serious trouble these germs must be destroyed.

A Peppasit dissolved on the tongue throws off Peppas vapor, which is a certain germ-destroyer as the Pine laden air of the Swiss Mountains, which does not so highly recommend. These Peppas fumes are breathed down into the air passages and lungs, soothing and healing the inflamed membranes that medicine swallowed into the stomach could not possibly reach.

Nothing can equal this breathable remedy for all affections of the throat and lungs, coughs, colds, hoarseness, asthma, bronchitis, etc. All dealers or Peppas Co., Toronto. 56c box, 3 for \$1.25.

TRANSFERRED TO BARACHOIS (Moncton Times)

Rev. F. X. Cormier, who has been the parish priest at Aboujergue for some time, has been transferred to Barachois to succeed Father E. N. Masse. Owing to advanced years and ill health, Father Masse is obliged to give up active work in the parish of Barachois. The resigning priest while in this district was beloved and respected not only by members of his own congregation but by all of the community. His successor, Father Cormier, a native of Cormier Cove, Westmorland County, was ordained at St. Joseph's Chapel, Memramcook, N. B. He was stationed at the Cathedral in St. John for about three months during the year 1903 and although here but a short time he made many friends whose best wishes will follow him to his new field of endeavor. He was also stationed at Kingsclear, Montserrat, Shediac. Father Masse will proceed to the Sisters' Hospital at Shediac. He was stationed at Barachois for twenty-one years.

ASSISTANCE TO EXHIBITORS OF LIVE-STOCK

In view of the fact that it is impossible to hold the regular Winter Fair at Amherst, the New Brunswick Department of Agriculture will duplicate any prizes won by exhibitors of horses, cattle, sheep, swine or poultry at the Guelph or Ottawa fairs to be held this coming winter.

Exhibitors must secure a statement from the secretary of the fair, showing the number of prizes won, the amount of each prize and in what class or classes the stock competed; upon presentation of these statements the necessary checks will be issued.

Further information can be had from the secretary for Agriculture, Fredericton, N. B.

TWO QUEBEC NEWSPAPER MEN DROWNED

Editor of the Quebec Chronicle and Member of the Staff Lost Lives While on Hunting Trip.—Quebec Telegraph Editor Dead.

Quebec, Oct. 15.—Quebec newspaper circles received a severe shock on Saturday when William Pike Osborne editor-in-chief of the Quebec Chronicle, and Clement Henchey, of the editorial staff, were drowned at Lake St. Joseph, where they had gone on a hunting expedition, while John A. Jordah, for 25 years editor-in-chief of the Quebec Telegraph, passed away at the age of 74 years after a long illness. The accident in which the two newspaper men lost their lives, was caused by the swamping of their boat late Saturday night.

Mr. Osborne is survived by his wife and two children. Mr. Henchey was single.

PLANNING TO CLOSE THEATRES

Movement Backed by the Clergy in Quebec City.

Quebec, Oct. 12.—Strong, after their eminent participation of the prohibition victory lately, the Roman Catholic clergy, it is known, are about to start a movement to close all theatres, especially movies, in Quebec City. So far the clergy has obtained the closing of every theatre on Sundays in Quebec City and Levis, but now they mean to shut down entirely all places of amusement.

The civic authorities are said to have been already petitioned on the matter.

CAMPBELLTON ASTONISHED BY MERCHANTS STORY

A merchant relates the following: "For years I could not sleep without turning every hour. Whatever I ate caused gas and sourness. Also had backache, hark, geyring, etc., as mentioned in Adler-ka relieved me INSTANTLY." Because Adler-ka flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach organs and prevents appendicitis. It has QUICKEST action of anything we ever sold. A. McG. McDonald.

Two men fought a duel. One man was named Shott and the other Nott. Some said that Nott was not shot, others that Shott was not. Hence it was better to be Shott than Nott. There was a rumor that Nott was not shot, and Shott avows that he shot Nott, which proves either that the shot Shott shot was not shot, or that Nott was shot notwithstanding. On trial it was proved that the shot Shott shot Nott, or an accident with firearms are frequent, it may be possible that the shot Shott shot shot Shott himself, when the whole affair would resolve itself into its original elements and Shott would be shot, and Nott would not. Apparently the shot Shott shot shot not Shott but Nott.

WHAT ENGLAND CAN DO IN FOOD CONTROL CANADA SHOULD ALSO

Lord Rhondda Britain's Food Controller, Urges Individual Economy and Increased Production—Compulsion Must Be Used if Effort Fails.

London, Oct. 12.—Lord Rhondda in an interview says: "I have followed with great interest Lord Northcliffe's visit to Canada and his food economy speeches. Were I asked what Canada could best do to help the Empire's food problem during these coming months, I would support his advice to minimize consumption in order to have larger supplies available for the army, and make arrangements to establish credits to enable England to purchase these supplies.

"No one here wishes to seem to instruct Canada in her business. We salute the magnificent sacrifices she has made and the eager spirit of her people. Still, with the situation as it is, increased efforts and increased sacrifices all around are essential. We hope that Canada will make a great effort to increase production, particularly of those foodstuffs like bacon, where the shortage is the greatest, and further to encourage the use of substitutes for wheat and meat.

"British experience of food control has demonstrated that we must fix the prices of essential foodstuffs in order to eliminate profiteering, prevent extravagance and reduce the consumption. We provide penalties for those who attempt to break the law. It is necessary to fix the price of essential articles because a slight shortage of wheat, meat or coal, if left to the ordinary laws of supply and demand would increase the prices manifold, more than would be really justified.

"The people must have these things whatever the price demanded. The same rule does not apply to luxuries, since people abandon their use when the prices are to high.

"Profiteering cannot be eliminated by the wave of the magic wand, but we are steadily developing a policy and making it impossible by preventing intermediate dealing and by fixing the rates of profit in each stage from the producer to the consumer. This takes the ground from under the profiteers' feet. It is necessary to have compulsory powers.

"Mr. Hoover's statement which I accept, shows a coming shortage of meat and cereals.

"One difficulty facing us is that the demand for food increases as the wages rise and also as prices fall. Greater prosperity in the working class district here lead to an increased demand for meat, particularly for certain cuts of meat. We are attempting to reduce consumption by a voluntary effort, but if voluntary effort is insufficient, compulsory rationing will follow. People must eat less voluntarily, or compulsorily.

"I have no wish to talk about what the English people are doing voluntarily in food sacrifice. I notice rather, where they fall short. They willingly submitted to wide-reaching limitations.

"Instead of attempting to work the food control from a central department in London, we have established 2,000 local food committees which are supervised by visiting commissioners. These are doing admirable work.

"The situation facing the world during the coming months necessitates that we strain every resource, increase supplies, and make every effort to economize in individual demands.

"Food," as Mr. Hoover says, "will ultimately win the war."

Under each district manager, or captain will be five or six bond salesmen. Each of these lieutenants will have care of, say, one country, aided by a local chairman and secretary. Each of these sections will be subdivided into towns or townships and placed in charge of local committees composed of the persons best able to explain the new war loan to the people they call on.

This to bring the war loan close home to the very smallest and most modest investor. But that is not all. A special committee, headed by E. R. Woods, of Toronto, will canvass the very wealthy men to see that they do their share. They will see to it that no big fellow who can afford to take, say, \$100,000 worth forgets that fact, and give the local canvasser only half that amount.

Meantime, the newspapers have banded together, through the Canadian Press Association and Canadian Press Limited, to handle the educational side of the work, and the five chief advertising agencies in Canada have combined to do the best and biggest display advertising ever shown in Canada.

CANADA OUT TO BORROW MILLIONS

"Victory Loan" Calls for a Hundred and Fifty Million Dollars and Unprecedented Inducements are Offered Contributors.

Toronto, Oct. 7.—The largest single piece of business machinery ever created in Canada, larger than any of its kind, ever organized in any country, all to be used and then broken up in the next sixty-two days, was described here, yesterday by the Minister of Finance, Sir Thomas White. It consists of a gigantic selling organization with thousands of agents scattered throughout every part of the Dominion, in every county, hamlet, lumber camp, mining camp, fishing port and crowded city, from the edges of the sea to the heights of the Rockies. All will be under supreme command, seeking a single object—money. Jack Canuck, in other words, is out to borrow money. He wants a hundred and fifty millions. To get it, he offers a handsome rate of interest and unrivaled security. It will be known as the "victory loan."

In the last war loan raised in this country there were less than forty thousand subscribers out of a population of over seven million. The big corporations and the experienced investors absorbed the previous loans before the modest fellow with only fifty or a hundred dollars to offer understood the proposition. This time, instead of competition between the bond houses and over-lapping territories and duplicate efforts, the whole community of financial men and newspapermen, from coast to coast, will be working like one man.

This is the skeleton of the organization. Next to the Minister of Finance, will be the Dominion victory loan executive, including many of the biggest and most public spirited financiers in the Dominion. Under them comes the nine provincial committees, consisting of experienced financial workers in each province. Each provincial committee will then split up its province into districts (eight in Ontario), and in place an expert bond man, preferably the head of some well known house, at the head of each district.

Under each district manager, or captain will be five or six bond salesmen. Each of these lieutenants will have care of, say, one country, aided by a local chairman and secretary. Each of these sections will be subdivided into towns or townships and placed in charge of local committees composed of the persons best able to explain the new war loan to the people they call on.

GREYFISH SERVED AT HOTEL LUNCHEON

Royal Hotel Guests Enjoyed a Delicious Salad.

The October 5 issue of The Fishing Gazette of New York, the authority on fishing matters on the coast, contains a St. John item that is of more than ordinary interest. It is a brief report of a luncheon at the Royal Hotel in this city at which the piece of resistance was greyfish. The host of the occasion was Mr. John Jackson, and his guest was the President of the Fishing Gazette Company, Mr. Jackson as a member of the Canadian Fisheries Advisory Board, has taken a keen interest in the movement to develop a demand for greyfish, otherwise known as dogfish.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mother, can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children need it, because it takes this harmful "trick" medicine. Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children, of all ages and for grown-ups.

FARMERS EXPECTED TO TAKE WAR LOAN

They are Progressive and Public Opinion Expected to Help.

Farmers should subscribe for a substantial portion of the forthcoming war loan. Crops have been uniformly good throughout Canada prices were never so high and the margin between selling price and cost of production has reached a splendid profit. Mr. B. L. Preece, vice-president and managing director of the Royal Bank of Canada, in a recent interview, gave it as his opinion that an active campaign should be carried on among the farmers of the West. The farmers of that section of Canada and Ontario according to Mr. Preece, are the best class to canvass for the loan.

The Manitoba Free Press also urged that an active campaign be carried out to get the farmers to invest. It suggests that the Minister of Finance send a letter to 100,000 Western farmers, personally appealing for their support of the loan.

THE GOVERNMENT RAILWAYS IN EVIDENCE AT THE BIG CANADIAN EXHIBITIONS

GOLD MEDAL

With an attendance of 620,000 at the Canadian National Exhibition, and some 175,000 at Quebec, and judging from the interest which a large percentage of these visitors evinced in the Government Railway exhibits, they may reasonably expect to receive their ever increasing clientele.

At Toronto an immense map of Canada from Winnipeg East to the Atlantic Coast, some sixty feet long by fifteen feet high, was erected. The route of the Government Railways was outlined in electrically lighted red globes, and in order to demonstrate the run of the principal trains a moving shadow by an ingenious electrical contrivance was arranged. For instance, starting from Quebec an illuminated sun flashed the "National Atlantic," and immediately the shadow commenced its run to Quebec, connecting at Cochrane with the line to Toronto, the names of the principal stations flashing as approached. Near Quebec another sign announced the Ocean Limited had left Montreal. The two lines connected at Quebec, and the Ocean Limited continued its journey by the shores of the St. Lawrence and thence to Moncton, Halifax and the Sydney. On the return journey a similar operation was performed.

An announcement on the map stated that over 600,000 of our soldier lads had travelled this route without mishap, a feature in railway operation any transportation corporation might point to with pride—as indeed did a huge statue of Jack Canuck, emblematic of the fact that it was his own railway that had made such a record.

An architectural illuminated model of the new Union Station which is to be erected in connection with the new terminals now under construction at Halifax was also displayed together with oil paintings showing the terminals as they will appear when completed.

The Quebec exhibit was on somewhat similar lines, and impressed the Exhibition authorities that a gold medal was awarded for artfully made in railway advertisements.

At both Exhibitions a large number of the railway publications

HON. F. B. CARVELL

It is worth noting that the selection of Hon. F. B. Carvell as a representative of New Brunswick Liberals in the new Federal government meets with very warm approval in every quarter. Mr. Carvell, in his active career in Parliament, has not been sparing of sharp criticism of acts of which he did not approve, but the Conservative press does not hesitate to pay a tribute to his ability and his industry, and welcome him to the cabinet position which he will occupy and to which he will do credit. The member for Carlton county has served three terms in Parliament. He was first elected in 1904, and very soon won a prominent position in the chamber. When the late Hon. H. B. Emmerston retired from government in 1907, Mr. Carvell was put forward by many leading Liberals for cabinet rank, which he had earned, but he did not receive promotion from the ranks. That fact did not affect his devotion to his party however, and he continued a valiant fighter to the present day. His selection now for cabinet position is the vindication of those Liberals who strongly urged his selection in 1907.—Globe.

Canada and the United States probably will be able to provide for the Allies' requirements of cereals other than wheat, during the next twelve months.

The Allied people themselves have been economizing with wheat and wheat flour. As Lord Northcliffe said in Montreal, "There is no such thing as white bread in the Old Country, from the King's table downwards." Other cereals are being used but they cannot be used alone for bread. The Allies must add them to wheat flour to make the wheat bread now in universal use in European countries. Except in Italy, where the people normally consume much corn; there are few corn mills in Europe. Cornmeal, not being a durable commodity, cannot be shipped across the ocean in great quantities.

The Allies must have a wheat basis for their war loaf. Unless the people of Canada and the United States are willing to substitute other cereals for part of the wheat flour which they normally consume, they will be denying even war bread to many thousands of people. Substitution of at least one pound of other cereals for one pound of wheat flour weekly, per person, would save a very large quantity of wheat for export. It would still be far short of meeting the normal consumption requirements of the Allies but it would save the situation.

MILITARY SERVICE ACT.

St. John, N. B., 15th Oct., 1917. To the Editor of the Globe:

Sir,—There seems to be some misapprehension on the part of men liable to report for service or claim exemption under the Military Service Act. I have been informed that a number of men think that when they go before the Medical Board and pass the medical examination they are registered.

For the information of any such people, I should like to say that registration must be effected at one of the Post Offices. If a man has been medically examined he should attach his Medical History Sheet to his report for Service or Claim for Exemption, and leave it with the Postmaster, who will transmit it to me. In every case of a Report for Service or Claim for Exemption a man must be medically examined. Therefore, if a Medical Board classifies a man as unfit for service, his report still claims exemption. It is not until the man has been medically examined that he will know his status before the Medical Board. He will be notified of the result of his examination. If he is classified as fit for service, he will be notified of the result of his examination. If he is classified as unfit for service, he will be notified of the result of his examination. If he is classified as unfit for service, he will be notified of the result of his examination.

SHORT SKETCH OF MR. PRITCHARD'S LIFE

Was Born in Wales, Where He Received Early Education. A Keen Sportsman.

The late Mr. Erasmus Barnesley Price Pritchard was born at Crickhowell, Breconshire, Wales, England, June 14th, 1840 and commenced his education at St. David's College, Brecon, Breconshire.

In 1860 he entered Christ's Hospital (Blue Coat School), London, leaving there in 1866. From 1867 to 1869 he was a student at the Independent College, Brecon, Breconshire. From 1869 to 1882 studied under Professor Allen in Saint John's Wood, London, for the Civil Service. He obtained an appointment through Sir George Cornwall Lewis, Home Secretary. Not liking the surroundings he returned to his uncle, Mr. Erasmus Barnesley Price, Manager of the Kingston and Radnorshire Bank, taking up his sporting career having the privilege of shooting over three manors "Hargest," "Rushock" and "Radnor" and thousands of acres on adjoining farms.

Removing from the bank owing to the illness of his uncle, he took up his residence at "Summer Court," Lyonsall, Herefordshire, taking great interest as a pleasure, in horticulture, building a garden wall on which were trained, by his gardener some of the finest peach, cherry and nectarine trees in the country, always having won many first prizes at the exhibitions. On the lawns grew seventy kinds of roses.

On the death of his uncle he bought the Noyad estate Liangorse Breconshire the residence containing valuable oak carvings and stained glass windows, the dining-room mantle being eight feet in height containing twenty seven Coats of Arms. It was removed from the Temple Church, London, after the great fire of London in 1666. There were two distinct marks caused by the fire on the inscription. "God Will Provide," dated 1550. Drawing room mantle in the time of King Charles II., dated 1666. Library mantle representing "Moses in the Wilderness," dated 1490. Window, "St. George and the Dragon," dated 1552. Drawing-room windows 1611-1772.

Mr. Pritchard was an enthusiastic angler being a member of the UK Salmon Club and enjoyed the fishing on the private waters of the Duke of Beaufort. Lord Glanusk. In 1888 he sailed from Liverpool to Chile, South America, where he remained five and one half years, during the revolution, returning to Hereford, England, in 1893. In 1894 he sailed to Halifax, Canada, being lured by the noted Restigouche River, afterwards buying the "Parker Lake" property of twelve hundred acres, near Campbellton, New Brunswick, where he spent the evening of his days.

Mr. Pritchard was the only child of Samuel Pritchard of "Buckley Place," Brecon, Breconshire formerly chaplain to Lord Robert Seymour. In 1870 he married Sarah Anne, daughter of James Pearson, of Mansel Gannagh, Hereford. He leaves to mourn their loss, a wife and six children, Capt. Barnesley Pritchard of Montreal, James of Summerside, P. E. I., Samuel and William of Camrose, Alberta, Henry and Margarita at home. The remains were laid to rest in the private cemetery on Oct. 6th, 1917.—Cor.

LARGEST MOOSE HEAD ON RECORD.

Found in Gloucester—Law Examinations.

Fredricton, Oct. 16.—The record moosehead taken in the province of New Brunswick was taken a few days ago near Bathurst Lake by L. A. Russell of Tracadie, Gloucester Co., word to that effect being brought to Fredricton to-day by Charles Egan, the guide near whose camp the animal was killed. The spread of horns is 72 inches, being the widest spread previously recorded by 21-2 inches. The head is expected to arrive here this evening to be mounted by a local taxidermist. Dr. W. L. Moore of Fredericton, N. E. held the record for getting the largest spread of horns in New Brunswick and the kill of Mr. Russell the spread was 68 1-2 inches.

GADSBY'S LETTER

OTAWA, Oct. 13. Premier Borden's well meant cabinet as was expected, and nearly every one is calling it a fusion government. The cynical bystander, whose name is legion at the capital, labels it a fusion. At all events Premier Borden's well meant efforts to be born again, as it were, have not caused his more or less faithful followers to let up on their wild scurry for cover. Nobody knows just how hard it is going to rain.

With the exception of the fact that Parliament prorogued five Conservative members of Parliament have been provided with safe berths since C. Boyce has been given an \$8,000-a-year job as railway commissioner. Gerald Brabson takes the position of inspector of storage dams on the Ottawa River—largely an ornamental office, but Mr. Brabson has to be satisfied because he was disappointed in his ambition to be a senator. Frank Sheppard of Nanaimo, B. C., is expected to be defeated by William Sloane, a safe harbor as inspector of dredging in British Columbia. Dr. Rooke, Minister of the Interior, gets a life insurance of six thousand dollars a year as chairman of the civil service commission, vice Dr. Adam Shortt, the capable and non-partisan chairman, who is shifted to the bench of historical documents—a very dusty pigeon-hole for the brilliant Dr. Rooke. In addition to Dr. Rooke five other cabinet ministers must be provided for to make way for the new "fusionist" members of the Government. Sir George Paquet is looked on as his commissioner in London, where his aspirations to crown his career as a peer of the realm will be diligently cultivated. His place as cabinet minister without portfolio—the position which he held as Overseas Minister of Militia—will probably be taken by the Hon. Francis Croft, who has expressed a desire to be rid of the hardships of an election contest and to accept the post of ambassador. Hon. George Foster is also asked for a cot in the national dormitory, the "Parliament House" in Ottawa. The Hon. Thomas Duggan, who is to make room for "a real labor minister" will be satisfied with a judgeship.

The Hon. Martin Burrell, who finds the social life of Ottawa very attractive, will give a magnificent party at the capital—something that will not take him away from the "Parliament House" and the "Parliament House" will be glad to have the Hon. Martin Burrell, who carries with it five thousand dollars a year and as much ease and dignity as Mr. Burrell likes. Rumor says that the Hon. Overseas Minister of Militia to Sir James Loughheed, whose title and position ought to do well in the English climate.

There are ten vacancies in the Senate, five of which are as good as filled now. Messrs. Bradbury, Scamner, R. B. Bennett, and W. H. Bennett, and Duggan being the names mentioned. These with the seats in the Senate recently handed out to Messrs. Macdonald, R. B. Bennett, and Mr. Pritchard will make eight Conservative M. P.'s who have been lifted out of danger into the arena of the Upper Chamber. Incidentally rumor is busy with the name of Hon. Bob Laidlaw, and it is said would be satisfied now with a seat in the Senate, his time for grabbing something bigger having gone by. The Hon. Bob is said to have wanted too long. He should have grabbed the High Commissioner's position a year ago. The grabbing was better. At all events the Hon. Bob will not be torn away from the old familiar scene. The new Parliament building is to be a splendid affair. The Senate quarters will be luxurious—the atmosphere of gossip and intrigue just as bright as ever—in short the best club in Canada.

All these straws indicate that conservatism is not the issue Premier Borden's followers thought it would be. Conservatism is now the law. Whatever people may think about it they are taking it quietly. Since the Act was passed there has not been a deep out of Quebec which is a great disappointment to those who had hoped that it would stand Quebec on her head. These two leaders of thought in Quebec, Sir Wilfrid Laurier and Sir Lomer Gouin, have told their people that since the Act is the law of the land, it is their duty to obey the law. Gouin follows that good advice—it obeys the law. Sir Wilfrid still has strong views on the question. He is of the opinion that the people should have been consulted, but conservatism being an inherent trait of his, he has not responded to the clamor of the more vigorous Quebec newspapers for a referendum. He has not returned to power. Sir Wilfrid, in fact, will be his remaining true to his opinions, has met more than half way the views of the conservatism throughout Canada by the law once it has become the law.

Since everybody in Canada is agreed that winning the war is the first duty, and since Gouin was really never any difference on that point, the only difference is on the question of the war, and it is on that point that the war is to be won that the difference is to be made.

Metals Are Waning. Speculators are ransacking China for metal and the resultant shortage of brass coins threatens to become acute. Old cannon and other similar metal are being bought up and Japanese speculators have offered the Government at Canton \$1,200,000 local currency for a lot of discarded artillery. Exports of copper in 1916 from China amounted to 47,000 tons, against 39,000 tons the year before.

Typists in Mexico. The Mexican Department of Public Health in a recent bulletin says the scourge of typhus throughout the Republic has diminished 50 per cent, and smallpox is being successfully combated by widespread vaccination. Almost the entire army has been vaccinated, and has received the typhus vaccine.

JACQUET RIVER RED CROSS.

The annual meeting of the Canadian Red Cross Society, was held in the Red Cross Rooms on Tuesday evening the 9th inst., a large crowd were in attendance. Mrs. W. R. McMillan was appointed chairman for the evening. The returning Secretary, Mrs. D. McAllister read the report for the past year after which the election of officers was carried on. A nominating committee composed of Mrs. Davis, Mrs. D. McAllister and Mrs. C. F. Fenderson was appointed and the following officers were elected for the coming year generally by ballot, Mrs. William Winton was re-elected President unanimously; Mrs. R. L. Ellis was elected Vice-President; Mrs. Irvine McNeil Treasurer and Miss Marie C. Shannon Secretary. The Executive Committee was composed of the following: Mrs. W. R. McMillan, Mrs. John Culligan, Mrs. Davis, Mrs. McAllister and Miss Mary E. Harvie, and a Buying Committee of Mrs. Winton, Mrs. McAllister, Mrs. Davis and Mrs. W. R. McMillan. It was decided the meetings for the winter months would be held on the first and third Thursday of every month. Delightful refreshments in the shape of coffee and cake was served.

No Advance in 3 Years

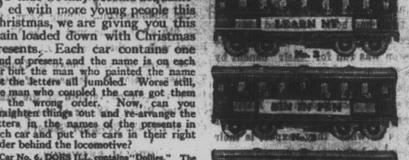

With war-time prices so terribly high for nearly every article of food, it must be a particular satisfaction to those who love good coffee to know that there has been no advance in the price of Red Rose Coffee for three years.

People everywhere seem to be using much more coffee than they did before. Red Rose Tea is economical on account of its superior quality—but Red Rose Coffee is economical both on account of its quality and price, a combination hard to maintain in war-time.

\$100 in Christmas Prizes

WHAT PRESENTS ARE IN THE CARS FOR BOYS AND GIRLS. \$100 in Cash Prizes. THE BEST HOLIDAY GIFT.

SO that we may become acquainted with more young people this Christmas, we are giving you this train loaded down with Christmas presents. Each car contains one kind of present and the name is on each car but the man who painted the name on the letters all jumbled. Worst will, the man who copied the cars got them in the "wrong" order. Now, can you rearrange things and re-arrange the letters in the names of the presents in each car and put the cars in their right order behind the locomotive?

On Christmas Eve, Dec. 24th, the Bumper Train in BYERLY WOMAN'S WORLD, will judge the answers and send the following list of prizes to young people under seventeen years of age complying with the conditions of the contest, whose answers are all correct or nearly correct, and best written. So get busy and send in an answer to-day, and the Christmas season may be the happiest you have ever had.

The Big Cash Prizes

\$25.00 Cash to the Boy or Girl who sends us the best reply. \$15.00 Cash to the Boy or Girl who sends the second best reply. \$10.00 Cash to the Boy or Girl who sends the third best reply. \$5.00 Cash to the Boy or Girl who sends the fourth best reply. \$2.50 Cash to the Boy or Girl who sends the fifth best reply.

Send Your Answer This Evening!

THERE are 50 Cash Prizes and in addition other fine awards for every year person who qualifies for one of the prizes in this contest. Entries will be received for the contest until 10 o'clock on the evening of the 15th inst. The contest will be held on the evening of the 15th inst. The contest will be held on the evening of the 15th inst.

How to avoid Operations

These Three Women Tell How They Escaped the Dreadful Ordeal of Surgical Operations.

Hospitals are great and necessary institutions, but they should be the last resort for women who suffer with ills peculiar to their sex. Many letters on file in the Pinkham Laboratory at Lynn, Mass., prove that a great number of women after they have been recommended to submit to an operation have been made well by Lydia E. Pinkham's Vegetable Compound. Here are three such letters. All sick women should read them.

Marionette, Wis.—"I went to the doctor and he told me I must have an operation for a female trouble, and I hated to have it done as I had been married only a short time. I would have terrible pains and my hands and feet were cold all the time. I took Lydia E. Pinkham's Vegetable Compound and was cured, and I feel better in every way. I give you permission to publish my name because I am so thankful that I feel well again."

Detroit, Mich.—"When I first took Lydia E. Pinkham's Vegetable Compound I was so run down with female troubles that I could not do anything, and our doctor said I would have to undergo an operation. I could hardly walk without help when I read about the vegetable compound and what it had done for others I thought I would try it. I got a bottle of Lydia E. Pinkham's Vegetable Compound and a package of Lydia E. Pinkham's Sandalwood Wash and used them according to directions. They helped me and today I am able to do all my work and I am well."

Belleveue, Pa.—"I suffered more than tongue can tell with terrible bearing down pains and inflammation. I tried several doctors and an operation and I just depended on the thought of that. I also tried a good many other medicines that were recommended to me and none of them helped me until a friend advised me to give Lydia E. Pinkham's Vegetable Compound a trial. The first bottle helped. I kept taking it and now I don't know what it is to be sick any more and I am picking up in weight. I am 30 years old and weigh 145 pounds. It will be the greatest pleasure to me if I can have the opportunity to recommend it to any other suffering woman."

If you would like special advice write to Lydia E. Pinkham Med. Co. confidentially, Lynn, Mass. Your letter will be opened, answered and returned to you.

DALHOUSIE.
Dalhousie, Oct. 18th.—The ladies of the Dalhousie Women's Institute and Red Cross are delighted with the generous response given to the envelopes which will be expended in the interests of four soldier boys.

The Patriotic Card and Dancing Party held at the Inch Arran last evening was very successful. Mrs. Harry Hilbert, sister of Miss Mollie Doherty, of Dalhousie who is now a nurse in one of the hospitals in France and Miss Dean were the organizers of the affair. A handsome sum was realized which will be divided between the hospital in which Miss Dean served last year and the hospital in which Miss Doherty is now at present.

SHIPPERS FEAR CAR SHORTAGE
Already are Experiencing Difficulty in Getting Cars for Lumber.

Lumber operations of Restigouche are already beginning to feel the pinch in regard to shortage of cars needed for the export of lumber.

One operator has ordered about five hundred carloads of lumber but can only obtain a few cars each week.

In the United States the war board for car distribution controls the car there. The Canadian Government has no such commission as yet. The Washington board in order to facilitate the prompt movement of grain and food products lumber and munition, has been keeping cars largely in the south, the middle west and the southwest. Under ordinary conditions many of those cars would find their way to New Brunswick points, but under the present control, is now impossible.

The cars of the Canadian lines are being employed largely in the upper provinces to care for shipments there intended for the Allied countries.

The shippers have had assurances that the C. G. R. management will do its utmost to provide cars for all purposes. But be as diligent as they may, they cannot hope to give the necessary cars because of the very heavy demand being made for shipments to the Allies.

NEW CARLISLE.
A very successful sale of fancy-work took place in the Town Hall on Club. The sum of one hundred and twenty-five dollars and forty-one cents (125.41) being realized. The club members sincerely appreciate the generous help that was offered by many of Saturday, October 13th under the auspices of the New Carlisle Girl's Khaki carrying on the sale.

Regular meetings of the Club were held at the Court House and at Mrs. Wm. Kempffer's respectively on October 8th and 15th. The following donations are acknowledged with thanks.

Donation, Mrs. Frank Scott	\$1.00
Donation, Mrs. Robt. Caldwell	1.00
Donation, Miss M. Kempffer	2.00
Fines	1.25

Considerate.
A boy of seven was being scolded in a room adjoining one in which his grandma lay ill. He motioned toward grandma's room and quietly said, "She's too much for her; it'll wear her out."

Later grandma thanked him for his consideration, whereupon he replied: "Don't mention it, gram; that was fifty-fifty—part for you and part for me."

When Booth Tarkington was visiting in Naples he was present at an eruption of Vesuvius.

"You haven't anything like that in America, have you?" said an Italian friend, with pride.

"No, we haven't," replied Tarkington; but we've got Niagara Falls that would put the d—d thing out in five minutes."

ASSAM Teas for Economy

Assam teas are the strongest and richest grown. It is of these teas that Red Rose Tea chiefly consists. That is why it yields the very large number of 250 cups to the pound—at the cost of about a cent for five cups, and every cup rich, strong, delicious tea.

NEW BRUNSWICK PROVINCE.
Mrs. Colter, our gifted superintendent, writes: Another chapter of war experiences has been folded away. On Friday last over 600 of our brave soldiers, namely the 266th Klites, left for Valcartier after six months stay in Fredericton. Their grateful appreciation, their words of gratitude for such trifling services which I have rendered, leaves me mourning that I could do so little to gladden their hearts and most of all lead them Christward.

Mrs. Colter has spent her time and talent urging them to take the King of Kings for their captain and protector.

Over one hundred and sixty Bibles, Testaments and gospels donated to these men, and thinking there might be some still without God's Word, Mrs. Colter took twelve Testaments with her as she went to meet once more with these soldiers and wish them good bye. The men crowded around her in a half circle five and six deep, holding out their hands, beseeching her to give one, so hurrying to a depot she got 100 more copies.

The officers gave her permission to go inside the ropes (the men were thus divided from the public), and that she did "her bit," her only regret that she had such a limited supply that some had to go without.

Mrs. Colter is anxious to know if our workers are serving in this way in other encampments. The need is great, the field white unto harvest. The object of the W. C. T. U. Department of Militia and Red Cross work is moral uplift of our defence. "Are you in active service, my sister?" If not, enlist now. "God save the King."

Will You Sign The Pledge?

This "BUY IN CAMPBELLTON" movement is a summons in which every man, woman and child in this community should be interested.

It is an appeal to our sense of loyalty and duty we owe to ourselves, our neighbors and our town.

If you are interested in the progress and future of our town, you can help to make this a bigger, better, happier, more prosperous community.

Every true-hearted citizen of Campbellton should carefully read this "COMMUNITY PLEDGE," SIGN it and ABIDE BY IT.

THE COMMUNITY PLEDGE.

I hereby solemnly pledge myself to do my part in supporting Campbellton, her industries, and her enterprises.

I pledge myself not to send away from Campbellton for anything that I can buy here (all things being equal), furthermore, I will do all I can to persuade my relatives, friends and acquaintances to do likewise.

I will co-operate with my fellow-citizens in every move made for our common betterment.

I will think and express only good thoughts about the town which is good enough for me to live in.

I will, above all things and at all times, patronize home industries.

SIGNED BY
Campbellton's Leading Merchants

When the welfare of the Town is at stake, these are the Merchants who are interested.
