Upright in Everything—Always Keeping Faith with the People, and Above All, Caring Them in Their Ills—Why Wouldn't Success Follow?

Mrs. Wm. Shaw, 15 Montague Place, Toronto, Ont., Canada, says: "I have great confidence in Munyon's Remedies, having used them with wonderful success both for myself, husband and child. I was subject to severe attacks of headache each week, and sickness of the stomach accompanied the same. Since using Munyon's Headache Cure I have not been troubled with an attack. In the case of my little boy the results have been truly remarkable. Through teaching the little fellow was completely run down, had lost his appetite and was restless and irritable all the time. We gave him the Blood and Debility Cures, and in a short time the change for the better was marvelous. He is now enjoying splendid health. I use nothing but Munyon's Remedies now, and have great faith in them."

You can easily distinguish between the original and the imitation. Prof. Munyon, founder of the new school of Homeopathy, does not desire that the public should be imposed upon.

SICK "BABIES"

Proved To Be Merely Large-Bred Wax Dolls—The Charitable Dups.

Owosso, Mich., Jan. 17.—Edward Hopkins, hailing from Detroit, struck Owosso with a wax doll which was a rough canvass of the town, soliciting money to buy medicine for the sick infants.

Marshall Barreford escorted the trio to the police station, where it was discovered that the two sick babies were large wax dolls, and the "mothers" were well known to the police officers of Port Huron and Owosso. All were ordered to leave town, which proved to be an easy task, inasmuch as they had gathered in \$2 in about three hours. They are said to be working in Lansing now.

Fifty Years a Physician.

Dr. Charles L. DeLamontagne, of Montreal, has been a physician for the past fifty years. He has seen much suffering in that time, and has done much to alleviate it. This is his opinion of Abbey's Effervescent Salt: "I have given Abbey's Effervescent Salt to hundreds of cases of rheumatism, and have found it particularly useful in cases of flatulency, headache and chronic constipation, and am using it now in a case of rheumatism. I have tested Abbey's Effervescent Salt in a great number of cases, and have always found the results perfectly satisfactory."

"I have no hesitation in recommending Abbey's Effervescent Salt as a thoroughly reliable preparation. I may add that I use Abbey's Effervescent Salt myself every day, and have found it more beneficial in my own case than any similar thing I have ever tried."

Further comment is superfluous. The proprietors of Abbey's Effervescent Salt claim that its daily use will keep you in good health. Try it. Your druggist will supply you at 50 cents a large bottle. Trial size, 25 cents.

FAGGED OUT.—None but those who have become fagged out know what a depressed, miserable feeling it is. All strength has gone, and despondency has taken hold of the sufferers. They feel as though there was nothing to live for. There, however, is a cure—one box of Parmelee's Vegetable Pills will do wonders in restoring health and strength. Mandrake and Dandelion are two of the articles entering into the composition of Parmelee's Pills.

The third game of the city championship series was played in the Jubilee rink Saturday night, the opposing teams being the Collegiate Institute and the Medical School. There were a goodly number of spectators for both teams on hand, and when the boys made a goal or a good play they were heartily cheered by their supporters. The game was a pretty fast one, but too one-sided to afford much excitement. The Collegiate boys were playing in their first half, and the score at that point stood 3 to 0 in their favor. When time was called in the second half and play began, the Meds showed up better, scoring 2 goals to the C. I.'s 3, leaving the Collegiate Institute the victors by a score of 6 to 2.

social evening in the near future in the L. O. O. F. hall. We hear will be an oyster supper.

A very pleasant time was spent on Wednesday evening, Jan. 12, at the home of Mr. Robert Parsley, when a large number of the scholars of school section No. 4 met for the purpose of showing their respect for his son, Master Fred, for his kindness to them in driving them to school. The morning, and going for them in the evening. A very kind and nicely-worded address was during the year many applications for pupils have had to be refused, owing to the crowded condition of the church. According to the report, the revenue for the year shows a very slight increase over 1896, as follows:

Contribution by envelope	1896	1897
Contribution by envelope	\$5,985 25	\$6,083 12
Plate collections	821 43	832 67
Totals	\$6,806 68	\$6,915 80

Increase over 1896—\$109 12

The estimated expenses for 1898 are as follows: Salary, \$1,025; interest, \$300; light, water and coal, \$500; printing, \$350; Sabbath school, \$400; taxes, \$225; sundries, \$200; service of praise, \$400; grant to Pottersburg, \$500; total, \$7,000.

The managers regretted to report a small deficit, and if the present work in which the congregation was now engaged were to be carried on, and fully, the contributions must of necessity be increased. The net expense of the congregation is shown that a small general increase in contributions would be necessary. Though some have responded, yet the increase has not been general, and it is hoped that the congregation will respond more fully in the future.

The sixteen board meetings of the year were attended by the following: Houston, James McQueen, 16; George Laing, 14; J. W. McIntosh, 13; Alex. C. Fulton, 12; James Smith, 12; M. H. Rowland, 12; D. B. Annual Report of the Managers Is Submitted.

Raised \$9,432 62 During the Year—Reference to the Lecture by Dr. Gardner—The Church Not Large Enough.

The annual report of the managers of St. Andrew's Presbyterian Church was distributed among the members of the church yesterday. The annual business meeting of the congregation will be held on Wednesday evening, when it will be definitely decided when, how, and to what extent, the edifice will be improved and enlarged. The committee having this matter in charge will report, and it will likely be the subject of much debate. The report states that during the year many applications for pupils have had to be refused, owing to the crowded condition of the church. Appetite and Strength. "I have been a victim of indigestion, and I took medicine without relief. I resolved to try Hood's Sarsaparilla. After taking one bottle I found that my appetite was better and I had more strength. I am now able to eat heartily without any distress afterward." MRS. GEO. KIRKPATRICK, Windsor, Nova Scotia.

HOOD'S PILLS cure all "ever" ills. Mailed free by C. I. Hood & Co., Lowell, Mass.

It is probably the store-way that some people have that makes them rich.

There is not a more dangerous class of disorders than those which affect the breathing organs. Nephritis, this danger with Dr. Thomas' Electric Oil—a pulmonary of acknowledged efficacy. It cures croup and whooping cough when applied externally, as well as swollen neck and crick in the back; and, as an inward specific, possesses most spontaneous claim to public opinion.

Life Destroying Croup Cured. "Gentle—I have used Hagar's Yellow Oil in my family for croup and bronchitis during the past twelve years, and never found it to fail. It cures every kind of croup and whooping cough, and I have recommended it to my neighbors, and they keep it on hand. I would not be without it for any price."

WISDOM OF CHATHAMITES
Dodd's Kidney Pills are First Favorites With Them.

Chatham, Jan. 17.—The druggists of this town report most extraordinary sales of Dodd's Kidney Pills during the past few months. Every citizen is thoroughly acquainted with the sterling merits of these wonderful pills, which are admitted to be the only medicine that will completely and positively cure all Blood and Kidney Diseases.

J. J. O'Brien, of this place, publishes the statement that he was cured of Diabetes, Rheumatism, etc., etc., by Dodd's Kidney Pills, after all other remedies had failed.

Hundreds of other cures of Bright's Disease, Diabetes, Paralysis, etc., are known of here, and Dodd's Kidney Pills are the only medicine used by our citizens in cases of diseases of the kidneys and impure blood.

A neighbor advised me to try Dr. Thomas' Electric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on this advice, I procured the medicine, and less than half a bottle cured me. I certainly believe it saved my life. It was with reluctance that I consented to a trial, as I was reduced to such a state that I doubted the power of any remedy to do me any good."

The Chinese Question Involves No Crisis—Britain on Top—Coresa Presents the Only Difficulty—The Situation in India—The Engineers' Trouble—Position of British Political Parties—Sandwich Men vs. Sandwich Woman.

London, Jan. 16.—The movements of the French on the Upper Nile are again becoming unpleasantly prominent to those who imagined that Great Britain had undisputed claims upon these regions. According to the bulk of evidence they have penetrated to Bahariya, the Egyptian frontier, and the distinct mandate of their government. If this is true, and the declarations of successive British cabinets meant anything, M. Hanotaux, the French minister of foreign affairs, has brought about a casus belli. Thus far M. Hanotaux seems to have the advantage; but the game is dangerous. Fear of war will not stop Great Britain from recovering the whole of the Egyptian Sudan and driving out any French expedition which may be found there, when, in the opinion of the Marquis of Salisbury, the proper time to act is at hand. In the meantime, Prince Henry of Orleans is sitting out at Marseilles, and evidently with the approval of the government, an armed expedition to subdue the equatorial provinces which the Negus pretends, claiming that they belonged to Abyssinia in prehistoric times, but in reality these provinces are identical with those Great Britain is seeking to restore to Egypt.

According to another correspondent, Anglo-French difficulties on the Nile and Niger proceed quietly and almost mysteriously towards a settlement. Semi-official statements appearing this week in the Paris journals as telegrams from London, but probably inspired from the foreign office, suggest that the activity of the French so-called scientific expedition on the Upper Nile country is being used as a lever to secure the interests of France in the pending Niger bargain. MENELIK THE ENEMY AIMED AT. Harold Frederic cables the following: "The news that the Grenadier Guards, over whose exile to Gibraltar society made such a fuss, are under orders to prepare to go to Egypt at once raises the operations on the Nile to the dignity of a big campaign. A complete cog connection between the reasons for this sudden rally to arms, but of the guesses bandied about by the politicians, I will not venture to land to this hurried display of power at a season of the year when an advance into the Egyptian desert is almost impossible. I fancy, that the French emissaries have succeeded in making a fool of the Abyssinian monarch, and have induced him to assist in their project of closing the sources of the Nile to the British. It is to be over and over again, until there is no more of it."

NO EASTERN CRISIS. The Chinese question is now settling into the misty background. The official press of Germany has been strident in its attitude towards Mr. Balfour's speech with conciliatory comments, and proclaimed the readiness of the Berlin government to open to the commerce of the world. Now the territory is to be tested by thoroughly practical men, and in the course of a few weeks drilling rigs will be at work. Carman, the Bothwell oil king, has secured leases on a large extent of territory, and will give it a thorough testing. Mr. McNaughton, of Chatham, is also busily engaged securing leases for a large American syndicate, who propose to commence operations at once—Thamesville Herald.

London papers demand that the long hatpin worn by women be prohibited by legislation.

There is a new law break in the Punjab that has had to be met with the dispatch of more troops, and the latest letters from India are gloomy with forebodings of a general disaffection along the western side of the Punjab from Cashmere to Bombay. The savage persistence of the plague, which is now more murderous than ever, is

playing a big part in confirming the native belief that British rule is on the wane. There lurks in the British mind uneasy suspicions that less abstract agencies are at work organizing these disturbances. No one need be surprised if a little later the conviction that Russia is at the bottom of them springs up ready made. The French, on the other hand, are not so easily satisfied. The British forces on the Indian frontier, has postponed his journey westward to the expectation of a settlement with the Afghans, who are seemingly desirous of submitting points to the early conclusion of the most serious of the quarter of the "little wars" in which Great Britain is engaged, and which will probably absorb the whole of the budget surplus.

THE BRITISH ENGINEERS. There has been much conjecture in regard to the real position of the parties to the engineers' strike. Everything points to the complete collapse of the men. The joint trades union committee passed a resolution to intimate to the employers that their demand for a 45-hour week will be withdrawn. The employers' meeting at Manchester did not consider the demand sufficient to close the dispute, saying that the unions must accept officially the terms of the Western Convention, which include the freedom of the management of the works.

The Amalgamated Society of Engineers on Saturday made its 20th weekly distribution of strike pay, \$5,000 men receiving \$15,000. It was decided to notify the Employers' Federation to make overtures for the immediate resumption of work, thus practically ending the great strike.

LATEST ST. LOUIS DEPARTURE. The most significant event of the moment is Mr. Gerald Balfour's initiation of a new departure for Toryism in taking his Nationalist opponents into his confidence with regard to government policy affecting Ireland. In the case of every bill he has first submitted drafts to Messrs. Dillon, Redmond and Healy, with an intimation that he would be glad to consider suggestions. His confidence with regard to government policy is now in the hands of the coming session by the Irish Unionists, is rapidly taking shape. The new measure is to relieve owners of agricultural land from the payment of rural rates, and thereby the landlords will be saved a danger of which they have always stood in horror. They will, however, be required to pay their share of the county rate, and the Irish Unionists will be required to pay their share of the county rate, and the Irish Unionists will be required to pay their share of the county rate.

PLYMOUTH SAVED. The Liberals saved Plymouth with the help of the temperance party, and elected Sir Edward Clarke. The Unionists at Plymouth have shown that Sir Edward Clarke's resignation in order to avoid the question of the temperance party, followed by the loss of a Conservative seat, hence it is probable that he will remain in the courts and the Commons.

AN EXCITING CONTEST. Lord Charles Bessford's victory at York involves the loss of a Liberal seat, but the majority of the opposition has slight cause for discouragement. Sir Christopher Furness proved a strong candidate. His mainly refusal to turn against the Employers' Federation for the sake of winning a seat, has won him a splendid reputation. The election was the most exciting one held in Yorkshire for many years. The three Bessford brothers were on the ground with their coaches and drags, and Lord William and his American wife were seen driving day after day to political meetings. The wives of both candidates took an active part in electioneering, and were present at the Guildhall when the ballots were counted.

SANDWICH WOMEN. Several indignation meetings of "sandwich women" have been held, the outcome of the innovation of "sandwich women," a procession of whom, good-looking, young and picturesque, costumed in white, with white gaiters, hats, paraded the west end of London for the advertiser's benefit. It was unlikely to be continued, as the women were chafed until their faces were crimson.

NOTES. The health of ex-Empress Eugenie is disquieting. Her rheumatism grows worse, and she is unable to cross a room unassisted. The death of Lewis Carroll (the Rev. C. H. Dodgson), author of "Alice in Wonderland," has caused the greatest regret in all parts of Great Britain.

Hood's Sarsaparilla is not merely a simple preparation of Sarsaparilla, Dock, Still-ing and a little Iodide of Potassium. It also contains those great kidney remedies, Uva Ursi, Juniper Berries, and Pipsissewa.

Nor are these all. Other very valuable curative agents are harmoniously combined in Hood's Sarsaparilla and it is carefully prepared under the personal supervision of a regularly educated pharmacist. Knowing these facts, is the abiding faith the people have in Hood's Sarsaparilla a matter of surprise? You can see why Hood's Sarsaparilla cures, when other medicines totally, absolutely fail.

Rev. Charles Fish, Methodist Minister
Dunn Ave., Toronto, Cured of Eczema.

About ten years ago I felt the beginnings of what is commonly known as Eczema. The disease commenced in my ears and spread entirely over both sides of my head and also developed on my hands. During those ten years I was a great sufferer. Specialists on skin diseases treated me. As I write this I am commencing on the fifth box of Dr. Chase's Ointment, and, judging from the rapid improvement effected, I am certain that before the box is used I shall be completely cured. The Queen's household consists of a little less than 1,000 persons. **A DINNER PILL.**—Many persons suffer excruciating agony after partaking of a hearty dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healthy nutriment, it becomes a poison to the system. Dr. Farnelle's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions, and convey the food partaken of into healthy nutriment. They are just the medicine to take if troubled with indigestion.

Birthdays were celebrated as far back as the time of Pharaoh. The Chinese begin dinner with dessert and end with soup and fish.

Twining's Shooting Pain.
Mr. Wm. Dyson, Guelph, Ont., says: "My experience with Twining's Kidney Pills proves them to be a splendid medicine for anyone troubled with backache or urinary difficulties. I had had pains in my back and shooting pains all over my body, together with dizziness and sleeplessness. Through the use of Twining's Kidney Pills I am now entirely cured and feel braced up and as young as ever I was."

THE TWO HARRYS.

The Harry Atkinson in London, Ont., who went down with the floor of the city hall, is a second cousin of Harry Atkinson, of the Leader. Eau Claire Harry was too young to have anything to do with the city building, but his father, the major, fifteen years ago was in the building almost once a day for nearly five years. If he had stayed on that disastrous occasion, he would have been sadly mixed up with the floors, scoundrels, plaster, big safe and other municipal furniture of the city of London. Ontario, on that disastrous occasion. At one time Harry of the Leader had a narrow escape from being drowned with 200 others on the River Thames when the Victoria went down. He and his brother and sister tried to rush onto the crowded steamer at Springbank, but the captain and first mate waved them back, saying to Harry: "Sonny, just wait for the next steamer; you won't have long to wait," and thus the lives of three young Atkinsons were spared. The Victoria went up and around, not much the worse for the collapse. We wish we could say the same now concerning the Eau Claire Harry, who has been down for over a week with winter cholera and grip trimmings. Yesterday he was reported a little better—Eau Claire (Wisconsin) Leader.

The New Rector of St. Matthew's Church Preaches His First Sermon.

Rev. George Fowler on the Story of Jonah.

Rev. Canon Dann Condemns Bigotry—Rev. T. B. Johnson Advocates Early Closing—Railway Men Speak at the York Street Mission—Other Church Notes.

St. Matthew's Church (Anglican) was yesterday favored with the services of its new rector, Rev. George M. Cox, who was recently called by the congregation from his late charge in Brant county. The congregations were large morning and evening. In the morning Mr. Cox preached from the text, I. Corinthians, x., 16—"The cup of blessing which we bless; is it not the communion of the blood of Christ." The cup in the text spoke of which the Saviour used when he made it a symbol of the church. The first cup of blessing which he made was that which he had taken our nature upon him and came down to be a part and portion of humanity. The second, as it were, concentrated blessing and brought us to the point around which the church of Christ circled. It showed that by the blood Christ had washed away sins and that he had made a new man of us in any other way. It showed the very central idea of the church. It was the times of the apostles—the times of the blessing, the pledge of the church of Christ. "I have been laboring for some time in a smaller congregation than this," said the preacher, "and the Christian people's badge of Christians is a large society, a large congregation. Nothing of the sort. We are here as representatives of Christ to try and improve people, to lead them in the straight and narrow way. I hope all who do belong to the church will see a good example by being here. Let us go away with the idea that the cup of blessing is a badge of Christians—that it is a cup not to be looked at, but a means of which we are to make

use. And the young who are growing up—let us encourage them also to become members of the Church of Christ, and to walk in the path which the Saviour has laid down for us. I feel that the text itself is the best sermon which can be preached. What the great Apostle sets out in it is the central truth of Christianity. The cup of blessing which we bless is the pledge of God's church."

ADELAIDE STREET BAPTIST.
The real source of religious revivals was the theme of Rev. Thomas S. Johnson's earnest, practical discourse at the morning service in Adelaide Street Baptist Church. It is the intention of the church to hold special prayer services every evening (Saturday excepted) throughout the present week. After mentioning the coming meetings, Mr. Johnson said it gave him especial pleasure to announce that most of the business men of the east end had agreed to close their stores by 8 o'clock every night in the week excepting Saturdays. He said merchants complained that the people would parade up and down Dundas street for a couple of hours or more at night and then come in to their shopping and expect their orders to be put up and sent home at a time when the clerks should be spending a quiet hour with his family or be in his bed. Mr. Johnson said he was sorry the arrangements did not include Saturday as well. The success of this reform rested largely with the public. It was a shame and a disgrace, he said, that people should delay their shopping on Saturdays until near midnight, necessitating the closing of orders some times in the early hours of Sunday. He made a strong appeal to his hearers to co-operate and to help in carrying out this much needed reform.

ABOUT JONAH.
The men who throw ridicule on the story of Jonah are trying to expunge everything miraculous from the Bible," said Rev. George Fowler yesterday afternoon when addressing the men's meeting at the Auditorium. "But," he continued, "the supernatural element is there, and it has the genuine ring of God." The audience was large, and the talk and stereoscopic views were given lively interest was sustained throughout the meeting. The prophet's troublesome voyage at sea was vividly portrayed, and many helpful lessons deduced. The book of Jonah, said Mr. Fowler, has some of the finest teachings in the Old Testament. It contains the first instance of God's mercy towards all nations, Jew and Gentile. The voyage on the sea was like the voyage of life—troublesome while there was rebellion against God in the heart. It was not necessarily a whole that swallowed Jonah. The original text reads "a great fish." White sharks have been found in the Mediterranean 30 feet long. One has been known to have swallowed a horse, its carcass having been found in the stomach of the fish, and another swallowed a soldier with a complete suit of armor on. A miracle, no doubt, was performed to keep Jonah in the stomach of the great fish three days and three nights, yet that is not hard to believe of an all-powerful God.

Next Sunday Mr. Fowler will conclude his series of talks on Jonah, and all the views will be briefly reproduced.

ST. ANDREW'S SUNDAY SCHOOL.
On Friday evening the officers and teachers of St. Andrew's Sunday school held their annual meeting at the manse.

FIRST METHODIST CHURCH.

Rev. Dr. Daniel, pastor of the First Methodist Church, occupied his own pulpit at both services yesterday. In the evening the doctor, noticing many strangers among the congregation, extended them a general invitation to the service. The choir, under Organist superintendent of lady teachers, Miss E. Fraser; librarian, S. J. Radcliffe; assistant librarians, A. E. Mathewson, M. McLaughlin, F. Campbell; secretary, G. A. Macdonald; recording secretary, Miss M. Gunn; assistant secretaries, J. AGAINST BIGOTRY.

Rev. Canon Dann preached at St. Paul's Cathedral last evening. The text on which his remarks were based was the account of the first miracle performed by Christ, viz., the turning of water into wine at a marriage feast, as recorded in the gospel of St. John, chap. II. The reverend gentleman held
