BRYAN'S DOVE OF PEACE SEEMS ABOUT TO SETTLE IN MEXICO

All Factions in Mexico May Be Brought Together, Following Resignation of Huerta's Successor.

[Canadian Press.]
Washington, July 17.—Administration officials saw peace today on the horizon of Mexican politics. Francisco Carranza's informal statement to the Washington Government that he intended to retire in favor of Carranza, Constitutionalist chief, and Carranza's announcement that he was willing to negotiate with the Federalists for peaceful transfer of power in Mexico City, was regarded as practically assured that the road remained to be cleared, however, for negotiations between the two Mexican factions. Members of the revolutionary junta in Washington expressed doubt whether Carranza would be willing to grant amnesty to the Huertistas of the north.

Sweep Aside Difficulties.
The crux of the situation appeared to hang on the extent of the quarter that Carranza might be willing to grant his fallen foe. That all stumbling blocks will be swept aside, however, for the peaceful entry of Carranza into the Mexican capital was the belief generally expressed. Secretary of State Bryan was optimistic over possibilities of

peace. "Watchful waiting," he thought, had resulted in success.

Villa Talks Sense.
Fears expressed over the attitude that Villa, the northern military chief, might take toward the new turn in the situation partially were discounted by his statement that there was "no necessity for apprehension regarding my stay in the north." He said he expected to move his troops from Chihuahua State toward Mexico City within the next few days.

One plan for the occupation of Mexico City contemplated that 5,000 troops from each of the three divisions of the Constitutional army simultaneously would enter the capital. By that means jealousies among the big units of Carranza's forces would be obliterated. From his headquarters in Monterey, Carranza announced his plan of conducting negotiations for establishment of the Constitutional Government in Mexico City without further sacrifice of life. He declared, however, that unconditional surrender would be the only basis upon which the parleys could result successfully.

Princess "Pat" To Be First Vicereine Under Home Rule

Princess Patricia

London, England, July 17.—Because her mother, Duchess of Connaught, is an invalid, Princess Patricia, loveliest and most popular of English princesses, will act as the vicereine of Ireland if the Duke of Connaught becomes vicereine under home rule.

When the duke was governor-general of Canada, Princess "Pat" frequently acted as official hostess at Rideau Hall, and on which water has accumulated, wherever there is a marsh, there the worms are present by the millions. They have already done a great deal of damage to the pastures.

IN LOW-LYING LAND**
[Canadian Press.]
Brantford, July 17.—Receiving word that the army worm had invaded the New Durham district, Roy Schuyler, district representative for Brant County, motored up there last evening after having worked all day with Burford farmers.

"We found things very bad in the New Durham section," he said this morning when interviewed. "Wherever there is a creek, wherever there is low-lying land, wherever there is a marsh, there the worms are present by the millions. They have already done a great deal of damage to the pastures."

OXFORD FARMERS ALARMED ABOUT MORE OUTBREAKS

Three Army Worm Alarms Are Received During the Day.

TRENCH AROUND FIELDS

Vandecar Farmer Loses Three Acres of Corn in Short Time.

[Special to The Advertiser.]
Woodstock, July 17.—The outbreak of army worms in this county is getting to be a real serious matter for farmers.

The department of agriculture was notified of three fresh outbreaks in different parts of the county this morning.

The first was reported early this morning on N. W. Gould's farm, of the 15th line of Blandford; another was reported near Burgessville on the farm belonging to James Rette, a prominent Holstein breeder of that district.

Mr. Sims, of Norwich, telephoned a hurry up call to the department, that worms had broken out in that section.

The worms have also broken out at Vandecar again, on the farm of A. Holdsworth, and have destroyed three acres of corn.

The agriculture department at Guelph has sent out a circular to the various departments, informing them to notify the farmers that have been invaded by the worms, and to trench around the field where the worms are to keep them in check.

The loss from these pests have not been ascertained up to the present.

WAS FORMERLY IN EMPLOY OF G. T. R.

Londoner Who Died From Draught of Columbian Spirits Was Switchman Here.

FATHER WELL KNOWN

Was Drillmaster of Old Juvenile Branch of Court Robin Hood.

Frank C. Brown, the Londoner who died after drinking the contents from a bottle of Columbian spirits in a freight car at Ignace on Thursday, was in the employ of the Grand Trunk Railway here about five years ago. He was a switchman in the East End yards of the company, and was well-known among the railway crews of both the G. T. R. and the Canadian Pacific.

Brown left the city about five years ago for the west. It is understood that he was connected with the G. T. R. in the same capacity that he occupied with the Grand Trunk when in London. Since his removal few of his friends here have heard of him. He was in London last fall for several weeks.

John Brown, his father, was a prominent drill instructor in London, some years ago. He achieved special prominence in connection with drilling a juvenile branch of Court Robin Hood of the city. Both parents are dead. The family formerly resided on Maitland street.

Three brothers survive. Albert and John reside in this city, and George is located at Cowart.

**PAINTER TOUCHES WIRE;
FALLS TO HIS DEATH**
Quebec Painter Drops Seventy-Five Feet, Bursting Awaiting.

[Canadian Press.]
Quebec, July 17.—Alfred Coulure, a painter, fell to his death shortly after 11 o'clock today, after touching a live wire in front of the Faguy Lepinay stores on St. John street.

The young man was on the roof, and in his fall pierced through the awnings, striking the pavement some 75 feet below.

CITY TO BUILD IT
West London Breakwater Will Be Constructed Departmentally.

The construction of the London West breakwater is to be done departmentally by the city, and the success of such work conducted under the auspices of the city engineering department will depend on other jobs of a like nature in the city. A concrete mixer was purchased for this work, and it is the intention of the department to use this machine on other work.

The breakwater is to be finished by the end of October.

FOUR TEGS. ARE SHOT IN FIGHT WITH VICE MOB

Morals Squad Men and Regular Staff Clash in Mistake.

GANGSTERS OPEN FIRE

Stones, Bottles, as Well as Bullets, Fly at Chicago Officers.

JEALOUSY OF THE POLICE

Believed That Regular Men Had Something to Do With Activities.

Chicago, Ill., July 17.—With one detective dead and three wounded as a result of a revolver battle last night in Chicago's vice district, officially reported closed, police officials attempted today to untangle the accounts of the fatal fray between members of the department.

The dead detective, Stanley J. Byrnes, was a member of the regular plain clothes force. John C. Sloop, Byrnes's partner, was shot through the thigh. Joseph Merrill and Fred Amart, detectives of morals, were wounded less seriously. James C. Carroll, who said he was an investigator and railway fireman, was also wounded.

Shot Down by Gangsters.

In the investigation by Chief of Police Gleason two facts appeared to stand out: that the killing and wounding of the policemen were precipitated by a gang of levee characters, and that many of the volley of shots fired came from weapons in the hands of the gangsters. It was thought that several of the crowd of vice district characters were wounded and had been hidden by their friends.

Followed by Hangers-on.
The affray was possible because the "Morals Squad Men," Merrill and Amart, and Carroll, who was not a member of the force, did not recognize Byrnes and Sloop. Merrill and Amart had been policemen but a short time. They had just raided a disorderly resort and sent a wagonload of prisoners to the station house.

John Brown, his father, was a prominent drill instructor in London, some years ago. He achieved special prominence in connection with drilling a juvenile branch of Court Robin Hood of the city. Both parents are dead. The family formerly resided on Maitland street.

Three brothers survive. Albert and John reside in this city, and George is located at Cowart.

Action Taken to Stop Scurrilous Attacks

The London Advertiser Enters Suit For \$50,000 Damages Against the London Free Press and Walter J. Blackburn—Retraction Also Demanded.

After having for the sake of the city of London stood for many months a series of the most blackguardly attacks ever made by one newspaper against another and its owners, The London Advertiser will enter an action for libel against the London Free Press and Walter J. Blackburn, for a sum not less than \$50,000 and complete retraction of falsehoods published.

DISCONTINUED CONTROVERSY.
Following the campaign on electrification conducted between the two newspapers, The Advertiser resolved to discontinue newspaper controversy in the interests of the community. As a result the name of the other local newspaper was rigidly excluded from these columns, and not one word of contentious matter was printed. This was done at the solicitation of many businessmen, and in accordance with a letter passed by the London Board of Trade, and sent to the publishers of each newspaper.

The London Free Press continued its attack on The Advertiser. A chain of falsehoods, night after night, sought to injure this newspaper in the minds of the reading public. While many recognized that it was purely a case of a competing company "squealing" about its opposition, others have been deceived by the articles.

NOTICE SERVED AT ONCE.
The notice will be served upon The London Free Press and Blackburn at once. Article after article, the absolute falsity of which is established, will be shown to the courts. The newspaper and the general manager will be made to give ample retraction and to pay damages.

The Advertiser takes this step after the most serious consideration. It hopes to settle once and for all the question of any newspaper being able to falsely attack the character of any other newspaper or individual. The suit will be pressed to the end.

UNDERGROUND WIRES UP TO CONTROLLERS

Elimination of Overhead Power and Public Service Corporation Wiring in Their Hands.

At various times London has heard about the elimination of the overhead wiring on the down town streets. It has been promised several times, many times, in fact. When the hydro system was installed in London an expensive conduit underground wiring system, has been left in the hands of the controllers. So far no action has been taken on it, however.

The natural question is, "When will it?"

WATERLOO PAVING BYLAW ADOPTED OVER ARMY WORMS

Board of Control Will Again Recommend Asphalt on Hospital Thoroughfare.

WELLINGTON NEXT YEAR

Survey Is Being Made for a Double Boulevard and City Beautiful Plan.

A bylaw providing for the asphalt pavement on Waterloo street, from the P. T. R. tracks to South street, was adopted by the board of control today and will go to the council at the next meeting. There has been considerable discussion over this pavement, and at the last meeting of the council it was turned back for more information as to the extent of the objection there is to it.

A survey of Wellington street, which runs parallel to Waterloo, is being made by the city, which involves a double boulevard system, as the first step in a beautiful plan. A number of prominent men and organizations are urging that both streets be paved. It will be impossible, owing to the vast amount of concrete work on this street to do anything with Wellington street until next year.

**TERRIBLY BURNED,
BOY SAVES HOUSE**
Kingston Youth Poured Gasoline Into a Stove.

[Canadian Press.]
Kingston, July 17.—In an endeavor to start a quick fire in the kitchen stove at his home this morning, Walter Johnson, aged 12 years, poured some gasoline into the stove and, immediately the flames shot up, and his left arm was terribly burned.

The flames set fire to the wall, but the youngster, although suffering agony, ran for a bucket of water and succeeded in putting out the fire. His prompt action saved the house. He is now a patient at the Hotel Dieu.

"WE HAVE 160 CHICKENS AND A VERY CROSS SHEEP"

Advertiser Fresh Air Girl Says Ducks Are Very Busy at Dinner Time—Also the "Goslings."

It is quite evident that most of The Advertiser's Fresh Air boys and girls are having just too good a time out in the country to bother writing letters. Indirectly, through a number of the little folks' mothers, and from the country people who are entertaining the children, Miss Grey has been assured that they are well and happy, but that the little girl is having the time of her life in the country. That the little girl is having the time of her life in the country is very evident, too, that she is a wide-awake girl, and nothing escapes her eye.

Dear Miss Grey—I will be out here on my birthday, July 23. How are you. I do like Gloucester, it is a nice place. How many weeks do I have to stay. I really think you are kind to me. I am going to be a good girl. What time does the train leave Gloucester. I am getting something nice for my birthday. I am happy out here.

We have 160 chickens and a very cross sheep. I do not want to go over with him. Twenty ducks and they are busy fellows at dinner time, they gobble and gobble. Two goslings, one big, one small; the small follows the big one. We have three calves. We have nine cattle, all the milk I like when it is strained. I can drive our race horse. I am a lucky girl you know. Now I will say good-bye.

Miss Grey is hoping to hear from several of The Advertiser's readers' proteges, whose holiday in the country has only been made possible through the generosity of both city and country subscribers.

**DATA FOR ALDERMEN
PREVENTS SUPERVISION**
London's system of municipal government which allows sixteen aldermen and controllers to roam through various city departments, making personal investigation and take measurements of material and the length, depth and thickness of public opinion, sewers, pavements, curbs and gutters came home to City Engineer Ashplant with crushing force today.

He was summoned before the board of control and grilled for half an hour by the controllers, who told him that some streets were not oiled right, that others were over oiled, that some property owners didn't know what a street sprinkler looked like, and that road rollers were apparently anchored on some streets.

He was told that he ought to get a foreman of the street oiling force who knew enough to use a heavy application of oil on some streets and a light application on others, and one who would be civil to property owners who came out to tell him how he should do his work.

The trouble arose over the street sprinkling that the residents of William street did not get this year. The city engineer explained that the street was being surfaced in some blocks and the street sprinkling and street oiling work, however, decided to refund the ratepayers half of their street sprinkling tax.

Mr. Ashplant explained that he couldn't be in his office getting out the statements demanded by the aldermen and covering in detail all the work being done by the city and being investigated by the aldermen, and at the same time visit all these jobs personally.

**WILL DEPOSED HUERTA
MAKE HIS HOME IN CANADA?**
Says He Intends To, Objecting to Parade as a Fallen Hero.

Havana, July 16.—Quirido Moheño, the secretary of the interior in the late Mexican Cabinet, sailed on the steamship Miami today for Key West. Speaking of the resignation of President Huerta, Senor Moheño said:

"General Huerta is a man of simple habits. In talking with him some time ago about the possibility of this event he told me that in case he resigned he would take refuge in Canada. I am sure he would not parade the French boulevard as a fallen ruler. We all recognize that the feeling of the Latin for a fallen ruler is one of sympathy. General Huerta, who is the bravest man in America, and who is strictly honest, will from tomorrow be the most popular man in Mexico, and within 90 days the cable reports from Mexico will say the people are declaring that the new rebel government is most detestable."

**HON. J. K. FLEMING ON
STAND AT ST. JOHN**
[Canadian Press.]
St. John, N. B., July 17.—Hon. J. K. Fleming resumed his testimony in the Fleming timber fund charges this morning under examination by his own counsel.

Asked how Brankley's name came before him in connection with the fund he said his recollection was that Berry had told him that Brankley would be acting for the lumbermen. He had no recollection of saying what Brankley said he did at a Fredericton hotel about but was willing to accept Brankley's statement. The fund, he said, had no effect on fixing the rate of timber land bonuses or on the rate of stumpage. Mr. Carwell then began cross-examination, starting on the matter of the amount of timber bonuses.

CLEAVES HEAD OF THOMAS CARLYLE CLEAR TO HIS CHIN

Suffragette Slashes Millais' Picture of the Scottish Historian.

FIGHTS WITH GUARDS

Woman Giving Name as Anne Hunt Is Out by Flying Glass.

[Canadian Press.]
London, July 17.—A militant suffragette today slashed with a butcher's cleaver the portrait of Thomas Carlyle, the Scottish historian, painted by Sir John Millais and hanging in the National Portrait Gallery. The woman was arrested after a severe struggle with the attendants and at the police station gave her name as Anne Hunt.

Eluded the Guards.

The attendants of the gallery, who since the occurrence of the recent militant suffragette outrages in national institutions have been keeping guard on the treasures under their care, noticed a young woman walking from picture to picture apparently admiring the work of various artists. Eventually she came to the portrait of Carlyle, and then quickly taking a butcher's cleaver from the folds of her dress, viciously attacked the painting.

The female vandal had succeeded in striking the picture several blows before the nearest attendant could reach her, with the result that it was seriously damaged. The glass covering on it was smashed and a slit was made in the picture from the top of Carlyle's head right through the face to the chin.

Struggles With Guards.
The attendants had the greatest difficulty in preventing Miss Hunt from doing further damage. She struggled desperately, but eventually was secured and handed over to the police. She was violently attacked by the police, and the hands caused by the breaking of the glass.

**Inspector Syme
Sentenced to Jail**
[Canadian Press.]
Montreal, July 17.—A London cable says former Inspector of Police Syme, who has been on trial for criminal libel, the London police commissioner, Sir Edward Henry, was yesterday found guilty and sentenced to eight months imprisonment.

**TITANIC VICTIM'S ESTATE
PROBATED AT \$1,538,250**
WINNIPEG, July 16.—In the matter of the estate of Mark Fortune, who lost his life in the Titanic disaster, application was made in the surrogate court before Judge Meyers, to pass the accounts and fix the compensation payable to the executors, the Standard Trust Company. This was the largest estate ever put through the surrogate court here. It totalled \$1,538,250.

After hearing a long argument and considering the affidavits and papers filed, his lordship awarded the trust company a total of about \$41,000.

Today's Permits—Hyatt Bros. took out building permits today for three dwelling houses on Rosewood avenue to cost \$1,000 each, and two permits were issued to N. A. Johnson for two dwellings on West Moreland street, to cost \$1,000 each.

ELECTRIC TRAIN CRASHES INTO COAL TRAIN; FOUR ARE KILLED

Scores Injured as Wooden Summer Resort Cars Crumple Up—Many, Pinioned in the Wreckage, Are Released With Axes.

[Canadian Press.]
Norfolk, Va., July 17.—Four people were killed and scores injured in a collision between an electric train and the Virginia Passenger and Power Company road and a coal train on the Fairglen Railroad early today at Fairglen Crossing, about three miles from Norfolk. Only two of the dead were identified. They were Samuel K. Cuthrell and Miss Annie Meahan, of Norfolk.

Crashed Through Gates.
The electric train, loaded with men and women, left Ocean View at midday, and would have reached Norfolk at 12:45 o'clock. At the Virginian Railroad crossing, the train crashed through the gates and down a coal train of 70 cars was passing en route to Roanoke.

The electric train crashed through the gates. The entire train made up of two wooden coaches, crumpled up after the collision with the freight train, and passengers were hemmed in the wreckage. They were released only after rescuers cut away the broken seats and timbers that held them prisoners.

Scores Go to Scene.
Many of them had broken limbs. The groans of women could be heard for blocks, and scores of persons residing nearby went to the scene with bandages and water. Ambulances were sent to the scene and scores of doctors hurried there in automobiles.

THE WEATHER

LOCAL TEMPERATURES.
The following were the highest and lowest temperatures recorded in London during the 24 hours previous to 8 o'clock last night: Highest, 87; lowest, 65.

TOMORROW—COOLER.
Toronto, July 17-18 a.m. Forecast: Thunderstorms in a few localities to follow tonight and on Saturday by fresh to strong northwesterly winds and a change to cooler.

The following were the highest and lowest temperatures during the 24 hours previous to 8 a.m. today: Stations. High. Low. Weather. Victoria 75 50 Clear. Calgary 70 40 Clear. Winnipeg 70 40 Cloudy. Port Arthur 84 58 Cloudy. Perry Sound 82 58 Cloudy. Toronto 88 70 Cloudy. Ottawa 88 72 Cloudy. Montreal 88 72 Cloudy. Quebec 82 62 Cloudy. Father Point 72 62 Cloudy.

The disturbance which was centred north of Lake Superior yesterday is now passing eastward across Quebec, and the barometer will soon rise over the Great Lakes.

The weather has turned much cooler in the Western Provinces, but continues very warm in Ontario, Quebec and the Maritime Provinces, except near the coast, where thick fog prevails.

ENGINEER PREPARES TABLE OF PUBLIC WORKS COST

Presents Official Figures To Board of Control This Morning--Comparison Made With Last Year.

City Engineer Ashplant submitted to the board of control today a financial statement of the public works department for the period ending July 15. The statement shows the estimate of expenses and what has been paid out this year. A statement is also given showing what was paid out last year for the period ending July 15, 1913.

The figures are of interest as showing what the public works department is doing with money appropriated for this year. The statement follows:

Commitments for crimes against public order and peace were 9,983 in 1912, and 11,887 in 1913, and commitments for insanity were 512 in 1912, and 491 in 1913. In 1912 there were 10,250 prisoners sentenced, and in 1913, 11,897.

Deaths in jails were 20 in 1912, and 18 in 1913. Boys under 16 committed to jail in 1912 numbered 91; in 1913, only 35. Girls under 16 committed to jail numbered 11 in 1912, and 10 in 1913. Commitments to London jail numbered 674 in 1912, and 743 in 1913.

Some of the commitments in 1913 were as follows: Common assault 537, felonious assault 156, attempted suicide 29, arson and incendiary 92, burglary 56, counterfeiting 5, larceny 2,384, trespass 631, forgery 18, embezzlement 2, bigamy 27, inmates and frequenters of houses of ill-fame 258, keeping houses of ill-fame 223, perjury 15, seduction 56, indecent assault and exposure 199, drunk and disorderly 8,363, illegal selling of liquor 179 (in 1912 it was 289), deserting employment 6, contempt of court 68, debtors 24, detained as witnesses lunatics and persons dangerous to be at large 491.

Drunkennes on Increase. Commitments to the London jail for drunkenness were 277 in 1912, and 339 in 1913. In 1912 and 1913, 1901, 250 in 1902, 261 in 1912, and 488 in 1913.

In 1912 in Ontario 5,444 persons were sentenced to less than 30 days, and 51 to more than three years in the penitentiary. In 1912 none was sentenced to death and executed; one in 1913, and in 1912 one was sentenced to life imprisonment. In 1912 13 were sentenced to imprisonment with corporal punishment; in 1913, 23.

In 1913 there were 17,527 males and 1,723 females committed to prison; 7,459 married and 11,701 unmarried; 3,770 temperate and 15,480 intemperate; 17,256 who could read and write, 1,934 who could do neither.

According to nationality there were 10,212 Canadians, 2,541 English, 1,400 Irish, 1,408 Scotch, 1,151 Americans, and 2,553 foreigners in 1913. In 1912 there were 9,364 Roman Catholics, 4,205 Anglicans, 8,024 Presbyterians, 2,297 Methodists, and 2,260 of others.

Total jail expenditure in 1913 was \$187,628.11; in 1912 it was \$208,074.32. 472 Sentenced Here. A total of 472 prisoners in London jail were sentenced during the year 1913. London prisoners were maintained at an average daily cost for food of \$0.02 cents. Lower figures were reported from Brantford, 1.9 cents, and Walkerton, 3 cents. It cost Hamilton 22.88 cents, and Toronto 10 cents a day. Altogether London prisoners were maintained and confined for an average of 472 days.

NEW ORGAN OPENED AT EGERTON STREET

Handsome New Instrument for East End Baptists Used for First Time.

The new organ in the recently erected Egerton Street Baptist Church, was opened last night, with a musical program. The church was filled with a large audience from the congregations of the Egerton Street Baptist Church, and from the Adelaide Street Baptist Church. The organ was installed recently and was designed by Frank Weaver, organist of the Adelaide Street Baptist Church. The instrument is of the latest design, with an excellent volume and tone qualities. It cost about \$2,500.

Mr. Weaver played numerous selections. Others in the program who pleased the audience were Ed. Webster, who was loudly applauded. Members of the Adelaide Street Baptist Church quartet rendered several selections. The pastor of the new church, Rev. W. C. Riddiford, occupied the chair during the evening.

The Cow Up. William Andrews, who was charged with letting his cow run at large, was dismissed. The court found that the animal had been tied on Andrews' property.

Was Taking Notes. Bruce Pennington, according to Officer Percy Last, would not move on when told to, when he was found standing in the middle of the street, building on the market. He stated that he was making notes in a book that he was carrying, and that he would have left the place in the officer hadn't taken him to police headquarters. He was let go on suspended sentence.

Remanded One Week. John Matthews (17), arraigned for

stealing \$30 worth of copper wire from the London Electric Company, was remanded for one week.

Those Bikes Again. R. W. Smith, James Platino and Mike Kaslo appeared for riding bicycles on the sidewalk. They enriched the police court coffers by \$1 each.

Several drunks who had imbibed too freely because the weather was warm were let go with a warning.

The Destructive Army Worm

(By a London Expert.) The army worm, technically known as *Leucanaumpuncta*, is always with us, but for some unexplained reason its sudden appearance in prodigious numbers occurs at irregular intervals of years. The last serious outbreak in Ontario was in 1896; previous appearances in large numbers were in 1893, 1894, and 1894. In 1896 they were numerous enough in Dorchester, east of Jarvisville, to give their crop to the ground when crossing it on the march.

The larvae, when full-grown, are smooth, worm-like creatures, an inch and a quarter or more in length. They are of greenish-black color, with distinct stripes along the sides, the lower stripe being greenish-yellow with whitish line along the back. The moth has a spread of over an inch. Its wings are clay-fawn color, speckled with dark dots, and bearing a distinct white spot on the front wings.

If the eggs are laid in April or early May there is time for a second generation. The first generation in a season is not numerous enough to attract much notice. The females, which each can deposit several hundred eggs, seem to fly to favorable localities to deposit the eggs. The young larvae, instead of distributing themselves, seem to keep up a regular habit, and do not get scarce, march on to new pasture in a manner that has given rise to the common name of the insect.

The reason that they are not numerous in successive seasons is due to the more rapid development of the parasitic insects which prey upon them. In 1896, in specimens taken late near Avon in Middlesex County, nearly every larva which I examined had several parasites in its body. While grasses and grass-plants, such as oats, wheat, corn, etc., are their natural food, when these are eaten they attack almost anything else green that they can get. They do not like peas, or clover. I do not think they will touch potatoes at all.

BODY OF ASSAYIST IS FOUND IN NORTH WOODS

Missing Hollinger Mine Man Apparently Ended His Life.

Toronto, July 17.--By the discovery of the dead body of a man with a bullet wound in the head in the forest between Porcupine and Schumacher, the provincial police authorities are convinced that the mystery of the disappearance of W. H. Marston, an assayist, is solved.

Marston was employed at the Hollinger mine at Porcupine. He suddenly departed, leaving a letter for his wife, in which he intimated that he was desponded over non-success at his work. The management of the mine had no complaint, however, to make with regard to the manner in which he had discharged his duties. Search was made for him, but no information was obtained about him. A few days ago a badly decomposed body was discovered in the bush and was taken possession of by Provincial Police Constable F. D. Jordan. The features were unrecognizable, but the clothing answered the description of that of Marston. The dead man wore a tweed suit, light blue boots, soft brown hat and a checkered shirt--to those worn by Marston, and a revolver holster and belt which were missed from the Hollinger mine after the assayist's disappearance. Marston's watch and cardcase were also on the body. A gold tooth in the mouth of deceased Marston had been found by the police. The weapon with which the man was killed has not been found, but from the manner in which the skull is splintered the police believe that the bullet entered below the chin and passed out through the top of the head. They are of opinion that death was not instantaneous, and that the wounded man staggered on for some little distance before he expired.

An inquest was held by Coroner Dr. Moore at South Porcupine, the jury found a verdict of death from a gunshot wound.

STEAMERS ARRIVED. New York, July 17.--Arrived: Steamer Apuleia, Liverpool.

Incumbent had made a mistake honestly in giving a signal that she had stopped, when, as a matter of fact, she had not done so. This, he said, had misled those on board the Kaiser Wilhelm II. and had caused the collision which resulted in considerable damage to the German vessel.

BRITISH STR. INCUMBENT IS HELD RESPONSIBLE. Made an "Honest Mistake," Which Caused a Collision With Kaiser.

REFERENDUM TO BE BINDING ONE

Temperance People Will Never Stand for Any Other Kind, Says J. H. Bowman.

CONFERENCE AT TORONTO

Sentiment of Ontario Alliance Leaders Said To Favor Appeal to Province.

Speaking at the meeting of the Ontario Temperance Alliance leaders in Toronto yesterday, when it was reported that the majority of the provincial temperance men favored a referendum on the liquor question, Prof. J. H. Bowman, president of the Middlesex County Temperance Alliance, declared that any referendum submitted would have to be a binding one.

"We have had referendums and plebiscites before in Ontario on the liquor question," said Mr. Bowman to the Advertiser. "The first time we had a majority of \$2,000 in favor of the prohibition of liquor sales and the second time we had \$6,000. Nothing ever came of them."

"I know that the temperance people of the province will insist that any other referendum be so binding that a favorable majority secured prohibition will become law as soon as it is passed. There will be no more fruitless waiting."

GOES TO BRING BODY OF FATHER HOME

Daughter Leaves for Washington to Secure Parent's Remains.

A pitiful story is revealed in the departure Wednesday morning of Miss Bessie Wolf, of this city, to Lake Bay, Washington, to bring back the body of her father, Morris Wolf.

Mr. Wolf at one time was a well-known business man of this city. Some eight years ago his health began to fail and, after spending a small fortune in seeking a cure, he decided to go west. He sold his business on Dundas street, east, and with his family moved to Lake Bay, Washington, where he settled on a farm he purchased.

For a time the change seemed to be beneficial. The weather, being mild, the open air life had a most favorable effect on his health. However, the effect was only one of short duration.

In March, 1911, he took sick again and died. Before his death he left instructions for his body to be buried on the farm. His wishes were carried out.

Soon after his family moved back to London and recently, when the farm was sold, it was decided to bring the body back to London.

His widow lives on Dundas street, where she keeps a grocery store. It was her little son, David, who a few months ago was run over and killed at the Grand Trunk William street crossing. The body of the father will be buried beside that of his little son, when it is brought to this city.

FORD FACTORY STARTED

Operations Commenced On Construction of London Branch.

The Ford Automobile Company has commenced operations on the property at the corner of Waterloo street and the C. P. R. yesterday, where an assembling plant will be built.

Singular factories were started in Toronto and Montreal. Each one will have a capacity of 25 cars a day. The Ford plant in Detroit will supply these assembling plants with the finished parts of the machines. All the factories will be completed before the fall.

DIG TRENCHES TO STOP WORM

Radical Measures Taken To Stop Advance of Devastating Pest.

[By Staff Reporter.]

BRANTFORD, July 16.—That the plague of army worms which have invaded Brant County during the last few days has nearly run its course, was the opinion expressed to The Advertiser tonight by Mr. Fisher, assistant to the representative of the department of agriculture at Paris.

At present, Mr. Fisher said, the only part of the county affected, so far as he knew, was Burford Township, and he believed that the steps now being taken under the direction of the department's representatives for the destruction of the worm were proving effective.

Millions of them. The worst place, he said, is Cathcart in Burford Township, and there the worms are on the meadows and corn patches in billions. However, the farmers have dug trenches along which at intervals holes are sunk. The worms cannot pass the trench easily and proceed along its bed, falling into the holes, into which coal oil is poured and lighted.

"It looks as though the farmers have checked the worms," he continued. "They cannot cross the trenches and we have every hope that before long we shall be able to exterminate all of them."

No Eggs, Says Mr. Fisher.

Mr. Fisher expressed the opinion that grossly exaggerated stories of the army worm invasion had been circulated. For instance, he declared, according to an expert from the Ontario Agricultural College, who at present is at Cathcart, there is no

truth in the story that the worm leaves eggs which hatch out whenever it goes. This expert says that the only breeding times are in June and again in the fall, so if that is correct there is no danger that the numbers of the worms may increase. On the other hand, evidences are not wanting that they are decreasing all the time.

So far as we can learn, the worm after it is hatched, lasts for about two or three weeks, so that it is almost time now for it to disappear.

Apparently they eat nothing but green stuff. In several parts of the township of Burford they have destroyed corn patches, eating the leaves and leaving just the stalks. So far, no grain has been attacked according to the experts, such of the grain as is ripe, at all events, is safe from attack.

In Brantford Township, farmers in Brantford Township fear that the worm may invade their territory, and at least one local man, T. J. Barton, a Brantford butcher, has suffered by their depredations, an acre patch of corn belonging to him having been destroyed at East Brantford, just outside the city, near Mohawk Park.

Mr. Barton first noticed a few worms on the patch on Monday night, but paid no particular attention to them. By today, however, they had stripped the patch almost clean, and Mr. Barton investigating, found that the worms had increased enormously in number and that they tallied with the description given of the army worm.

They are about an inch long and something like an apple tree, except that they have no hair on their bodies and are spotted.

Mr. Barton does not believe there is much danger of the insects spreading, as there is nothing beyond the cornpatch which offers them food.

Says Eggs Were Laid.

In one point, at least, he is not inclined to agree with Mr. Fisher, and that is as to the question of breeding. At any rate, practically every cornstalk on his patch is cov-

ered with what he declares to be eggs laid by the worms.

Mr. Schuyler, the agricultural department's representative at Paris, at present is at Cathcart supervising the work which is being carried on by the farmers with a view to exterminating the worms. The department has sent down another man also, but all that he or any of the others can do is to give advice as to the best methods of dealing with the pests, and so far the method already explained, of digging holes at intervals along a trench surrounding the scene of the worms' activities, seems to be the only effective one.

Two More Outbreaks in Oxford County.

[Special to The Advertiser.]

WOODSTOCK, July 16.—Two more outbreaks of army worms were reported in Oxford County this afternoon, and another outbreak in Brant, and G. R. Green and R. G. Sutton, of the department of agriculture, accompanied by Prof. A. W. Baker, of the biology staff of the O. A. C., Guelph, were busy all day assisting

the farmers in stamping out the pest.

One outbreak occurred at Brighton, the farm of F. Hewitt. The worms appeared on a pasture that covers about six acres. Mr. Hewitt is keeping the worms pretty well in check, and has turned about fifty hogs into the field, and the hogs are eating them in thousands.

The other outbreak is on a ten-acre pasture field belonging to F. Costen, near Princeton. At this place besides destroying the pasture, three acres of corn have also been destroyed. At Costen's place, a large trench is being made around the field where the worms are, and at intervals deep holes are dug in the trench. The worms follow and fall into the holes, where they are easily dispatched.

Fresh Case in Burford. The fresh case in Brant County is at Falklands in Burford Township. R. Skyles, the Brant representative of agriculture, is assisting the farmers at this point.

Mr. Sutton, who fears that outbreaks are liable to occur all over the county, has requested that all the farmers in the county that have low pasture lands should keep a close watch and, if the worms appear, notify the department in order that they can be attended to at once. These fresh outbreaks make things look extremely serious, as the farmers have lost thousands of dollars already and are liable to lose a great deal more before the worms are completely stamped out. Mr. Green, Mr. Sutton and Mr. Baker are still out at Princeton doing everything possible to assist the farmers.

At Mr. Thompson's farm, in Burford, the worms have gone into the corn, and Mr. Thompson is cutting the grain and feeding it to his cattle.

SHEEP AT BYRON HELP TO SPREAD PENINSULA'S FAME

Col. McEwen's Flock Known Over the Entire Continent.

NO TRICK, SAYS HIS SON

Western Ontario the Ideal Spot of America for Farm Animals.

DROUGHT UNKNOWN HERE

Alloway Lodge Farm Also Owns One of the Best Herds of Beef Cattle.

Colonel Robert McEwen, of Byron, is one of the men who is doing much to advertise Western Ontario.

Selling sheep from the Atlantic to the Pacific, and as far south as the state of Texas, the fame of his prize Southdowns has spread all over the continent, and at the present time there are a score of breeders in the United States who advertise the McEwen strain of London, Canada, on their letterheads.

Twenty years ago, Col. McEwen started to breed Southdown sheep. He started with a few individuals until now he has one of the finest flocks of sheep on the American continent.

"Yes, we have a pretty fair flock, and are meeting with fair success," said Robert McEwen who has charge of Alloway Lodge Stock farm, while his father-in-law, buying up the winners of the Royal Show being held there at present. It is no trick to breed sheep in this climate. Western Ontario is the ideal spot of America to breed any kind of farm animals. We are close to the best markets and have excellent shipping facilities.

"They have had three droughts in as many years down in Kentucky, and they think they are living in God's country, while we have not known what the word really means. The climate in this district is ideal for keeping all classes of stock in good health."

Show Flock in the West. At present Colonel McEwen's youngest son is touring the Western provinces with a flock of show sheep. The flock is now in Winnipeg, and will show at all the big exhibitions in the West before returning East to the Canadian National Exhibition at Toronto, the latter end of August, where last year Alloway captured the championships for the best Southdown pen and ewe at the show, while at the Guelph winter fair (Col. McEwen won the famous Drummond cup, emblematic of the finest five lambs, owned and exhibited by an exhibitor.

"We have shipped most of our stuff to the states in the past," said Robert McEwen, when asked where they found the best market for their sheep. "But a gradual change is taking place. Slowly but surely the Canadian West is demanding more and better bred sheep, and our sales to the Western provinces are increasing wonderfully."

Industry is Growing. The farmers of Western Ontario are

waking up to this fact, according to Mr. McEwen who states that in the past couple of years the nucleus of many fine flocks have been started in the vicinity of Byron, and that the next few years will see a rapid increase in the development of the sheep industry.

Sheep are easy to keep, and are useful, if they do nothing else but keep the weeds down. Five to ten ewes will take charge of all the weeds on the farm, and a farmer can feed his sheep for the price of its wool every time leaving the mutton clear profit.

No Dead Losses Here. "There are no dead losses in this country," said Mr. McEwen, when asked about the bad years. "The stock over the border seems to be more susceptible to disease than the Ontario stuff, and, in consequence, the breeders of the United States are coming north for their stock. Do you know that in the last ten years two-thirds of the prize money won at the International Fat Stock Show at Chicago in the sheep classes has been won by the breeders of Western Ontario? It is

a fact, nevertheless, and I look to Western Ontario to produce many winners in the future."

In the past year Alloway Lodge has shipped sheep to the agricultural colleges of New Hampshire, Wisconsin, Illinois, Ohio, North Dakota, and the O. A. C., as well as to the farms of Sir William Van Horne and other breeders of high-class sheep all over the country, especially in British Columbia, where there are several flocks of the McEwen strain.

Third of Farm in Pasture. Three years ago the colonel bought spend their infantile days is made up of 230 acres. One-third is used for pasture, while the rest of the farm is devoted to the growing of roots, corn and grain to keep the sheep and the herd of 4 pure-bred Aberdeen-Angus cattle in food over the winter.

Six years ago Col. McEwen decided that there would be a demand for beef cattle in the near future, and laid his plans accordingly. Today, he possesses probably the best herd in Ontario, and

Demand for Beef Cattle.

The present scarcity of beef has created an unprecedented demand for good stock along this line, and record prices are being obtained for beefy breeds, whose head the Aberdeen-Angus at present stands supreme, for cattle that breed have taken the grand championships of America at all international exhibitions held in Chicago, for the past ten years. Numerous inquiries have been received from prominent western breeders about Col. McEwen's strain of Aberdeen-Angus cattle, and there is no doubt that a few years will see Western Ontario as famous for her cattle as she is at the present time for her sheep, fruit, vegetables and corn.

HUERTA RESIGNS.

THE resignation of Huerta has cleared the atmosphere to some extent, and is a justification of President Wilson's humanitarian attitude towards Mexico. We think the world generally will feel relieved by the resignation of Huerta. There are critics of the Wilson administration who censure it for casting its lot with the Constitutionalists, but Huerta's savage treatment of Madero, coupled with the triumphal progress of Villa, would not permit of any other policy.

President Wilson has once more shown himself a high-minded and far-seeing statesman. Had he yielded to the jingo press of the United States, which has tried to drive him into a war of conquest, the American people would have been plunged into a bloody, prolonged and costly campaign, with the disappearance of Mexico as a nation for a climax. But President Wilson's labors in the cause of peace are by no means ended by the passing of Huerta. Tactful handling of Carranza and Villa will be required. Both of the Constitutional chiefs are uncertain quantities, with Villa furnishing the bigger problem. He has repeatedly declared that he is nothing more than a soldier fighting for the liberation of his country, with no desire to rule; but he is also a good deal of an adventurer, and as there is no love lost between himself and Carranza, he may not relish the position of playing second fiddle to the latter.

A new and grave peril is the possibility of a sack of Mexico City if the Constitutionalists are permitted to march in force. Villa has been compared to Attila in spirit and action, and his semi-disciplined followers, prime for license and loot by many months of fighting in the desert, will have many of the characteristics of the hordes which followed the "Scourge of Europe." It is to be hoped that the powers will unite to prevent wholesale destruction of life and property.

ROBLIN AND ENGLISH EDUCATION.

UNDER the Roblin Government the problems of Manitoba education have become the ground of acute and growing disputes. There is the difficulty over religious separatism, the bilingual or rather, polylingual question, for Manitoba has a doubtful gift of tongues, the battle to secure compulsory primary education, which is opposed by the Roblin system.

Of these questions, perhaps, the second is the most interesting at present to Ontario. The first was mainly settled in 1897, after the defeat of Sir Charles Tupper, though, it is bound up in some degree with the bilingual question. The third, Roblin's refusal to enact a compulsory attendance law is a mere matter of amazement in a civilized country. On the bilingual question Manitoba Liberals hold the same general position as Mr. Rowell in Ontario. This is that limited privileges may reasonably be granted to French and other non-English-speaking nationalities in regard to their mother tongue, but the teaching of the English language and literature must be a prime consideration in all elementary schools. The Liberals purpose to see that an adequate supply of competent bilingual teachers is available. At present, the training schools for bilingual teachers are sadly ill-equipped.

The attitude of the Roblin Government towards English instruction is indicated in the following utterance of "Le Manitoba," the personal organ of Hon. Joseph Bernier, a member of that Government:

"If, unfortunately, local difficulties, scarcity of teachers, or unforeseen circumstances, necessitate one of the two languages being momentarily abandoned in the French schools, it will not be the French language."

The Roblin Government is evidently apathetic as regards the English language. It treats educational matters like all else from the viewpoint of immediate vote-getting. Worse charges than apathy can be maintained against the Manitoba Government. Last summer it appointed a teacher in the Brandon Ruthenian Training School, Prof. Karmansky. At the time of his appointment this gentleman had been in Canada only a few weeks, and was unable to speak English. A notable addition to the staff of a school whose object is to prepare bilingual teachers! About the same time a new Roblin Journal, printed in Ruthenian, and called "Canada," began to appear in Winnipeg, published in a building which houses several offices of the provincial government. From the beginning, Karmansky, holding his Government job, has written articles for "Canada," abusing the Liberals as the foes of the Ruthenian population, and praising Roblin as the savior of his people. The Karmansky person is rhetoric. He says that what "Siberian Jails" are

Cossacks could not do "the Canadian Liberals will find impossible," viz., "to assimilate the Ruthenians." Having been in Canada only a few weeks, and unfurnished with the English language, Mr. Karmansky, if one may yet naturally speak of the boulder so Anglicized as to call him Mr., must have slight information about Canadian Liberals. It must have been rather difficult for the Roblin heeler to impart to him the elementary fact that Manitoba Liberals want an English-speaking Manitoba. Once seized of this, however, he proceeded to make hay for Roblin among the Ruthenian element that does not care to learn English.

Here is a little gem, selected from Karmansky's contributions to the Roblin-Ruthenian organ "Canada":

"Foreigners are splitting in our eyes, doing with us as they please, shutting our children out of our schools, doing away with our mother tongue—and we have to submit to it in silence."

In this we see the prophetic present tense, what will happen if Liberalism has its way, what Roblin exists to prevent or soften, at least. "Foreigners" are English-speaking Canadians! In one article Karmansky, safe in his job under Roblin, declared that the destiny of the Ruthenians of Canada was to found an independent nation, and he threatened that, if they were interfered with in fulfilling that destiny there would be war. He wrote:

"We came to Canada not for the purpose of being the dirt beneath the feet of other nations, or to be slaves to the ruling nationality, and to be submerged in the English sea. We look for an opportunity to live like one of the many independent Canadian nations, united by the idea of a common all-Canadian welfare. We can Canadianize ourselves only to that point. Beyond that we will not move one step. . . . We will find in free Canada that which is refused us by the Poles, Russians and Hungarians. . . . or we will proclaim war for the purpose of preserving our life. One or the other."

When Karmansky talks of "the many independent Canadian nations," he appears to conceive of Canada as a sort of polyglot Austria-Hungary, differing from the Dual Monarchy in that the component nationalities are not under one rule, but merely in alliance!

The seditious Karmansky was thus endorsed by Mr. Coldwell, Roblin's minister of education, speaking in Brandon, in April, at a meeting of Ruthenian electors:

"I would like to see Canada get rid of this type. With great pleasure I have appointed him as a teacher of the Ruthenian language and history. I am sure that you appreciate my good intentions to serve the Ruthenians, and will help me to be elected during the coming elections. I assure you that I will work for you the same in the future as I have done in the past."

Our Whitney government may not have been so utterly brazen in its utterance and procedure, and it had the advantage of following upon the work of so distinguished an educational administrator as the late Sir George Ross. Sir James has not exactly truckled to alien and illiterate electors. But the results of his and Dr. Pyne's "administration" of French-English schools have not been very different from conditions in those schools in Manitoba. Sir James and Sir Rodmond are sworn brothers in mouth-loyalty, as well as in other matters, but both allow more and more children to grow up in ignorance of the English language. With another four years of Dr. Pyne, bilingual conditions may be expected to become about as obvious in Ontario as next door under good Mr. Coldwell.

BRITISH MAGAZINES.

IN 1907 the Liberal Government of Canada made a postal agreement with the imperial authorities by which the postage on British periodicals was greatly reduced. Instead of eight cents a pound a charge of only two cents was imposed. The object, of course, was to encourage the reading of British literature in the Dominion. We were being flooded with magazines from the United States, and without any disparagement to that class of reading matter it was thought that we could get something just as good from England, and at the same time develop a taste for our own national literature, and bring Canadian readers more closely in touch with British ideas. And everybody thought it was a good thing. Even the Tory papers approved of it.

But the present Government is getting tired of the arrangement. Canada is losing money by it, we are told. The British Government collects the two-cent rate and carries the matter to Liverpool. At that port the Canadian Government takes charge of it, and brings it to its destination. This is in accordance with the international postal regulations, as we understand them. We send letters and papers to England, and Canada collects the postage before dispatching them, while the Imperial Government delivers the mail at its destination without getting anything of it.

Of course, while the arrangement equalizes itself so far as letters are concerned, the balance is against us when it comes to periodicals. We send comparatively little to Britain, while we receive a great deal from that quarter. And the amount is increasing continually. It is about three times as much now as it was the first year the arrangement came into force. And our very loyal Government—the bulwark of the Empire in this country—begins to clamor for the cash. It wants a share of the money. It believes that it is a good thing to encourage the reading of British literature in this country—good for the Empire and good for Canada. But then it wants some pay for doing a good thing. Its imperialism and its patriotism always has a financial side. It is the idea of a British preference. The Liberals gave a preference in its customs to British goods, because it was to the advantage of Canada, but the Tories have always held that even if it did benefit us there should be a moral quid pro quo. And so with literature. The Liberals tried to get education on magazine rates from Bri-

ain, because they thought it would be to our advantage. But the Tories want some pay for doing the same thing.

Of course, if the Government persists in its present policy and has the arrangement broken up it will not get any money by so doing. But it will greatly reduce the volume of British mail coming to Canada, and thus save the expense of carrying it. We will save a few thousand dollars each year; the price of English periodicals will go up, and the circulation of periodicals from the United States will increase. That is a specimen of the loyalty of the party that professes to be the imperialist party. Of course, we can understand the Nationalist Postmaster-General. He has no desire to see British ideas develop in this country. But what about our true blue ultra imperialists of the English-speaking race?

We have not the slightest objection to the British postoffice handing over half of the postage it collects on British periodicals if it wants to do so. It would amount to about \$30,000 a year—enough to build a small drill hall for Col. Hughes. But to demand it and haggle over it seems a piquey proceeding for the Canadian Government—especially a Government which professes a willingness to give Britain thirty-five millions to build ships. The main question is this: Will the increased dissemination of British literature in Canada be a benefit to us? If it will, then we need not worry ourselves about the small expense incurred in carrying it. If it is of no benefit then we might as well put a customs tax on it and either keep it out, or make the people who want it pay for it.

SPEEDING UP BASEBALL.

ACCORDING to the American press, a major league baseball is having a bad inning this year. For this many seasons have been advanced, the principal one being the raids of the Federal League on the older organizations and the jumping back and forth of star players, these conditions causing a falling off in the calibre of the play.

Magnates of the American and National leagues state that whatever the cause the attendance has greatly decreased. The baseball expert of the New York Sun declares that the trouble lies with the game, which needs improving along some lines. He states that the supremacy of the pitcher over the batter is so pronounced that a lot of snap and dash has been taken from contests. Year after year fresh handicaps have been put on the man in the box, but invariably he has surmounted these and remains the master. The Sun man says the public is tiring of pitchers' duels and wants more of "lining 'em out" and base running. The average fan always has and always will prefer a hard-hitting, base-running game to a strike-out contest. Whether it is a big or minor league game, he wants to see the Speakers, Cobbs and Jacksons get on the bases more frequently and give him some action for his money. In Washington, when the great Johnson pitches, the attendance shows a remarkable shrinkage, as the regular fan knows that usually his pitching means a one-sided contest.

One remedy suggested is the adoption by the big leagues of a ball with a rubber core to replace the one with a cork core that is now used. The rubber-cored ball is used in many of the smaller leagues and the batting has become livelier. Of course the objection to this is that it would give a big advantage to such teams as the world champion Athletics or the Detroit Tigers. The alternative is to put fresh curb on the pitcher by limiting him to three balls, thus enabling more batters to reach first base. Canadian followers of the sport will be interested in whatever is done in an attempt to speed up the game. Up to date the Canadian League has furnished snappy, interesting ball, with the Tecumsehs standing high in all departments. Any changes in the regulations will be watched with interest, as it is from the big leagues we get our baseball law.

The donkey arrived and the child had many rides around the vicinity. She enjoyed it all hugely except the animal's strange noises which inspired her with the profoundest pity for his evident distress.

One day, after vainly trying to subdue his vocalism, she wrote a letter to her father, in which she said:

"Dear Father: I do wish you would come up here soon, my donkey is so very lonesome."

WHEN BABY HAS THE HIVES.
 [The Khan.]

What evil could be vaster
 To blither all our lives?
 For we have met disaster—
 The baby has the hives.

My happy life is gladdened
 By the sweetest of all wives.
 But oh, her heart is saddened
 When baby has the hives.

Gran'paw is of service
 And poor old gran'mie strives,
 But still we are so nervous
 When baby has the hives.

They come in groups of seven.
 The fewest spots live seven.
 An awful sight, good heavens!
 When baby has the hives.

All hail! with many notions
 Of master and man arrive.
 And soaks her o'er with notions
 When baby has the hives.

At night I get no slumber.
 No rest my soul deprives.
 She's got them without number—
 Yes, baby's got the hives!

Brickbats Fortune at us pelts,
 And all our joy deprives.
 It's measles, chickenpox, or else
 The baby has the hives.

The scarlet rash—for goodness sake!
 To worry all our lives deprives.
 A tooth perhaps a tummyache,
 Or else she's got the hives.

Thus though my life is gladdened
 By the sweetest of all wives,
 Today my soul is saddened
 For baby's got the hives.

 Where the hillside green is sloping
 And the little ones can play.

I am glad they're where the breezes
 Gently kiss them as they run.
 And I'm telling her I'll please
 Me to think of all their fun.
 And I write that I'm not lonely.
 But it's all a fearful sham.
 For they'd come back if they only
 Knew how miserable I am.

BETTER BE A BUSHY.
 [St. Thomas Journal.]

It is really better to be a bush leaguer and hope to get into the big game than to be a major leaguer with the abiding fear of being sent to the bush.

A SERMON IN ITSELF.
 [Guelph Herald.]

A farmer in London Township lost his barn by an incendiary fire, and had no insurance on them. His neighbors took up a collection and raised \$300 to build a new one. Somehow, it does us more good to read of an incident like this than to listen to a weak of special sermons.

TAKE-IT-BACK DAY.
 [Guelph Herald.]

An innovation in the shape of a "take-it-back day" has been introduced by the little town of Carleton Place. We'd like to see the faces on the men as they take back the umbrellas they borrowed; and the ladies, as they take back any nasty remarks made against members of their own sex.

AN IRISH EXAMPLE.
 [St. Mary's Argus.]

Irishmen are gradually showing the world that they are capable of ruling themselves. Witness the fine self-restraint being manifested by the rank and file of Irishmen in Ulster today. It is their leaders, in some instances, who are lacking in self-control.

CURE FOR MILITANCY.
 [Brimford Expositor.]

The latest advice on the treatment of "wild women," as the militants are now called, comes from a woman. The Duchess of Montrose suggests that they be sent to the island of St. Helena, made famous by the deportation of Napoleon. She says that in St. Helena the wild women would not have the notoriety that stimulates them to their outbursts of anger, order and decency. And besides they would enjoy the rest cure, which might cure them of their insanity. For this titled lady evidently considers militancy a form of insanity. But in that case is the suggestion an effective cure?

CLEANING THE GAS STOVE

Kerosene is the Best Cleaner—Do Not Forget the Drip-Trays and Oven.

While a gas stove must be kept clean, it should never be blackened, for the reason that the heat is sufficient to burn off the blacking, and consequently it only rubs off again and the particles must go somewhere about the room or into clothes or clothing.

The best cleaner is a rag dipped into the kerosene applied every part while the stove is still warm. If the burners are red from constant use an oily rag will correct this, but blacking must never be used upon the perforated top. A damp cloth will wipe off any dust that may lodge there, but it is a good idea to cover the range with a newspaper when sweeps. The racks in the oven should be removed at least once a week and be thoroughly scrubbed with hot water containing a little soda. A sheet of newspaper crumpled and rubbed over the burners will be sufficient. You see, unless the grease is removed frequently it will accumulate, and some time when the oven is very hot, the fat will catch on fire, so there is danger in neglect.

The drip trays need to be changed each using. These trays, when boiling in a good plan to put a little water into the pan first, as this will cool the fat as it falls from the meat. If one

wants to broil very quickly and so use the upper rack the door should always be left slightly ajar. This will prevent the meat from catching on fire, as it is apt to do. When cooking meat so close to the light it is well to remove any surplus fat, also to cut the edges when necessary to keep them from curling. Just a short-slit will be sufficient. The oven should be very hot before the meat is put in, then after a couple of three minutes one burner can be turned off.

There are still some women who need reminding that the oven door should always be opened before the gas is lighted, otherwise there may be a small explosion. Just the smallest leakage of gas will so result. The absolutely safe way to light the oven is to first open the door, then turn on the pilot and light it. After a few seconds turn on the gas and do not forget to put out the pilot. Lastly close the oven door.

The triple saucers are an economy when the family is small, because three vessels can be cooked over one burner where before it took over one burner where before it took over one burner. The triple saucers will hold a couple of three irons, again using only one burner. Some women use a small griddle and cover the irons with a large breadpan. This is a good plan, too.

THE ONE BESETTING SIN OF BUSY WINNIE WASP

Winnie Wasp has one besetting sin. She loves rum. After she has had a good meal, she will go off on a spree. But otherwise, Winnie Wasp is a very admirable little woman worker. "Worker" indeed is her middle name. It distinguishes her from the lazy, good-for-nothing men. Folks in the wasp tribe—who are all drones. The drones just loaf all day long about the big grey nest, while Winnie Wasp does the housework and feeds the children. She starts off with a market, and when she hears a locust in a tree suddenly go off like a buzzing alarm clock, she sneaks up behind him, and nips him between the shoulders. Poor old locust is made unconscious by the bite, and Winnie Wasp lugs him home. It is hard work, and sometimes takes hours. But finally she gets him to the nest—and then she chews him up into nice chopped meat balls, and feeds the babies with him.

But after working hard all summer, Winnie Wasp begins to long for amusement. She knows she must die as soon as the cold weather comes. She just aches for one giddy, gay old time. She lets the house run down. She lets the children starve in their little cradle cells. They open their baby mouths wide and cry for food—but Winnie Wasp is off on her spree! She joins a gay party in some orchard cabaret, where peach brandy or hard cider can be had in copious quantities from rotting fruit on the ground. Caught by his Beau Brummel attire, she takes up with a handsome, rakish yellow jacket and they drink and flirt outlandishly all evening.

It is a sad sight then, to see erstwhile respectable Winnie Wasp weaving her wobbly way home that night, in a perfectly disgraceful state of intoxication.

OUR FOLKS' CORNER

"A Former Farm Woman" writes as follows: "I like the idea of an 'Our Folks' Corner' immensely, and am pleased to contribute my little bit to it."

A CHURNING, which I read in a paper recently, and I thought this page would appreciate it. I suppose, you, dear Nomad, have never lived in the country, so cannot understand the satisfaction of churning the butter come 'quicker. Here is the poem:

THE CHURNING SONG.
Apron on and dash in hand,
O'er the old churn—here I stand—
Cachug!
How the thick cream spurts and flies,
Now on shaps and now in eyes!
Cachug! Cachug!

Ah! how soon I tired get!
But the butter lingers yet!
Cachug!
Aching back and weary arm,
Quite rob, churning of its charm—
Cachug! Cachug!

See the golden specks appear!
And the churn rings sharp and clear
Cachug!
Arms that have to flag begun,
Work on, you will soon be done—
Cachug! Cachug!

Rich flakes cling to lid and dash;
Rear the thin milk's watery splash!
Cachug!
Sweetest music to the ear,
For it says the butter's here—
Cachug! Cachug!

—Silas Dinsmore.

Ah, but you are mistaken, Former Farm Woman, for I have lived at least next door to the country, have spent many hours on a real farm, and have very keen recollections of the churning of the churning stone. Churning day was ever anticipated with eagerness, when the old stone churn was brought forth from the cool precincts of the cellar, and given first a thorough scalding, then a rinsing with cold water, the water being poured in to make the churn perfectly cool. And how we used to watch while the thick cream was poured in—chug-chug—and the dasher adjusted. As a child, it was considered an immense privilege to be allowed to "churn," and when the cream spurted "how on shoes and now in eyes." As the cream thickened, it was welcomed with a giggle of delight, the farm cat, who was never far away from the churning, being frequently called upon to "help" the cream. And memory loves to linger over the cool draughts of buttermilk, and the golden, tender bread, home-baked, that formed the reward for "helping." Surely in these days of electric churns, and all sorts of contraptions for bringing the butter up, the churning day has lost much of its romance—but, no doubt, it is less work that Mrs. Farmer is seeking rather than romance, and, after all, who can blame her? I am very glad that Former Farm Woman, to receive your contribution, and hope that others will follow suit, so that we may make this really "Our Folks' Corner"—one of interest to us all.

The Horoscope

SATURDAY, JULY 18, 1914.

This is a day in which to attend to business without letting the emotions exercise a strong influence. The day is friendly early in the morning, but during the middle of the day Venus is strongly adverse.

Astrology finds the configuration unlucky for whatever makes appeal to public favor. It is not a fortunate time for opening new places of amusement, or for making political speeches.

Women should be especially circumspect in business as well as social affairs, while this rule prevails.

In the Western States an uprising among the women who are citizens is foreshadowed. They will demonstrate extraordinary power through organization.

There is an evil sign, which is read to indicate labor troubles and riots. New problems are foreshadowed, and it is predicted that women of affluence will be prominent.

An unprecedented number of deaths in the autumn among men in legislative offices has been foretold. Care of the health during the summer is enjoined.

Shipping is under a most unfortunate omen, which the seers read as indicating losses on the great lakes, as well as on the Pacific and Atlantic Oceans. London astrologers prophesy that the United States will lose the yacht race, in which Sir Thomas Lipton's star promises success.

A political campaign in a western state will be aided by motion pictures, according to the seers.

Insurance in high life is prognosticated. Men of wealth will be harassed, and an increase of blackmailing is indicated.

There is a happy omen for the hiring of men, employees of every sort. While this figure prevails it is well to make necessary changes in business.

9982—A Popular and Pleasing Style. Dress With Over Blouse for Misses and Small Women.

This attractive dress was made of blue and white dotted chaille, with batiste for the underwaist. The over blouse may be omitted. The design is also good for linen, lawn, gingham, or cashmere. The skirt is cut on graceful lines, and with plaited fullness that may be gathered. It is finished with slightly raised waistline. The pattern is cut in 4 sizes, 14, 16, 18, and 20. It requires 5½ yards of 27-inch material with ¾ yard for the underwaist, for a 16-year size. The skirt measures about 14 yards at lower edge.

ADVERTISER. Please send above-mentioned pattern, as per directions given below, to:

CAUTION.—Be careful to inclose the above illustration, and send size of pattern. When the pattern is sent, please measure your bust and waist, and send the measurements. If you are a child, give waist and length measure. When misses' or child's pattern, write only the figure representing the age. It is not necessary to write your name. Patterns cannot reach you in less than one week from the date of order. The price of each pattern is 10 cents, in cash or in post.

Green Corn Balls.
Grate green corn to make 3 cupsful. Beat in this 1 egg, a teaspoon each of sugar and melted butter, and salt to taste. Add enough flour and a ¼ teaspoon of baking powder to make a mixture into soft balls, roll in flour and fry in deep fat.

Pickled Cherries.
Pick cherries over carefully, pack closely in jar, and cover them, with the following: To each pint of vinegar, add one pound of sugar, a few allspice and a stick of cinnamon. Boil this, skim and turn boiling liquid into jar, and turn back over fruit. Let stand two days, drain, scald, skim, and turn over fruit and cover with cotton tied down tight.

Keep in cool place. Great care must be taken when removing cherries from jar, not to get juice on cotton or top of jar.

Winnipeg Wasp has one besetting sin. She loves rum. After she has had a good meal, she will go off on a spree. But otherwise, Winnie Wasp is a very admirable little woman worker. "Worker" indeed is her middle name. It distinguishes her from the lazy, good-for-nothing men. Folks in the wasp tribe—who are all drones. Cynthia Grey's Mail-Box

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn. No letters can be answered privately.]

Dance In Hall.
Dear Miss Grey,—To settle a question with some one, will you please answer me this: At a wedding is it right for the dance to be given at some hall in the evening on account of lack of room in a home?

Thanking you, I am, JUST ME.
Ans.—As to propriety, I am not sure. It is perfectly proper to hold a dance in a hall. Some people of very excellent standing follow this plan of entertaining guests at a wedding. Of course, there are others who deem that to do so is somewhat ostentatious. It is rather a matter of taste, than propriety.

Study Does Wonders.
Dear Miss Grey,—Could you please answer a few questions, as I have not bothered you before?

1. Do you think I could get a position in a paper for telling stories for the children?

2. Will you kindly print the words of "Yarns of the Old Church Choir," and "Silver Threads Among the Gold"?

3. What are the meanings of these names: Gladys, Marilla, James, Violeta and Christina? OLLIE, GLADYOLA, and LUCY.

4. To be frank with you, I am afraid not, Gladys. For one thing, your spelling and grammar are hardly up to the standard required. I do not like to throw cold water on your ambition, but it best to be candid. However, a year or so of study along this particular line might make a wonderful improvement. It's worth working for, for a personal scribbling call.

5. I have a copy of the last named song I have and will publish soon. Would ask my readers if any one has a copy of the first-mentioned.

6. Gladys, charming: James, a supplanter; Violeta, same as Violet, meaning modesty; Christina, generally accepted as being the feminine form of Christian.

Woman Not a Dog.
Additional advice for Lover of Kind Words, whose husband is fault-finding, comes from Sunny Sally. She writes about a personal experience:

"Dear Miss Grey,—I would like to tell 'Lover of Kind Words' how I manage my case. I have been married a short time, but have had a good deal of experience with what I once thought was a man. The first time I went to town everything was wrong—nothing suited him. He wanted me to work more than my strength would allow, and was hateful every way. I gulped everything down for a time and tried to be meek as Moses, but this would not do. I just simply told him I would not, and if he didn't like the meals not to eat them; they suited me and my purse.

I don't nag at my husband, but I let him know I'm a woman, not a dog. Then he can put or do the other things. Never make up with your husband first after you have any words; let him see you can get along without him, no matter how it hurts you. He will soon make up and treat you better if he sees you don't care and can hold your own.

Generally when the father is cranky the children cling to the mother and have her ways. I am very sorry for you. I know how it goes.

SUNNY SALLY.
A Bit of Etiquette.
Dear Miss Grey—Will you come to my rescue?

1. Should a person simply squeeze with the fingers the slice of lemon served with fish?

2. Should the lemon with iced tea be squeezed in the same way, or placed in the glass with the tea?

3. At a large hotel with a lengthy menu, should each course be ordered separately?

Thanking you in advance, ANS.—Yes, take the slice up daintily and squeeze with the tips of the fingers. 2. No, simply place the slice in the glass, and do not squeeze it. Lemon may be refused if you do not care for it. 3. The procedure differs at various hotels. In some cases it is the rule for the guest to write from the menu card the dishes she desires, a small pad is provided for this purpose. At others of the large hotels, the waiter writes down the order as the guest makes her selection. In both these cases, the entire

by bunching hits off Tincup and Alexander, but Philadelphia won out 6 to 3 in the tenth inning. With two out and two on bases, Cravath doubled, scoring two runs. Cravath scored when Peritt threw to centre field trying to get him off second. Lee, Magee and Paskert were banished from the field for disputing a decision by Umpire Riegler.

RUBE JOHNSTON PITCHES NO-HIT, NO-RUN GAME

Not a St. Peter's Player Reached First Base During the Five-Inning Contest.
Rube Johnston pitched sensational ball for Brener Bros. in the Commercial League game at Tecumseh Park last evening, holding St. Peter's without a hit or run, and not permitting a man to reach first base during the five innings played. Brener won by the score of 4 to 0. Baker being hit freely while errors behind him did not help any. The fielding of Gatecliff was a feature of the contest. The score: 2:11 0 1 0—4 8 0

WOODSTOCK BOWLERS WILL VISIT THIS CITY

WOODSTOCK, July 16.—The Woodstock Bowling Club are sending two rinks to London next week to take part in the O. B. R. tournament that is to take place in that city. The two rinks that will represent Woodstock are the Geo. Mahon's crack rink that won the trophy in the Oxford County Bowling Association, and the W. Barrowclough rink.

TORONTO, 4; ERIE, 1.
ERIE, Pa., July 16.—Booby Auld pitched the better ball this afternoon, and Toronto won from Erie, 4 to 1. Until the eighth inning, Auld and Dorbeck went along on even terms, but in the eighth, Dorbeck broke. Five hits in netted Toronto two runs, and put the game beyond Erie's reach. Score: Erie ... 0 0 0 0 0 1 0 0—1 5 2
Toronto ... 0 1 0 0 1 0 0 2—4 9 1
Batteries—Dorbeck and McNeil; Auld and Trout.

FEDERAL LEAGUE

PITTSBURG LOST A PAIR.

PITTSBURG, July 16.—The Brooklyn Federals again took the Pittsburgh men into camp today, and in a double-header did it twice, taking the first game by a score of 6 to 2 and the second 5 to 2. The hitting of the Brooklyn men routed the Pittsburghers. Scores:

First game—R.H.E.

WOODSTOCK BEAT GALT.
[Special to The Advertiser.]
GALT, July 16.—In a W. O. B. L. game here tonight, Woodstock defeated Galt by four to three. As this was "Boosters' Day," a large crowd was present at the game. Batteries—Woodstock, Tyson and Chapdelaine; Galt, Hawkins and Danford.

"Count Discount" Is a Sign of 25 Per Cent Reductions

"The Count" is a scion of the House of Percé N. T.

One of our competitors has said that this "Count Discount" idea was crazy. We will admit that "Count Discount" is off---25 per cent off in the way of reductions on everything in this stock. But "Count Discount" isn't raving—he is saving—dollars for you. Savings is the way it should be spelled here. If you ever had a chance to save dollars on good wearing apparel it is right here now. You not only save on the actual dollars you spend, but you also save on the extra clothes service that such good qualities as we offer are bound to give you. You better take advantage of the savings this crazy idea offers to you. You know everyone that ever startled the world was first considered crazy. Galileo who said the world was round was considered crazy. So was Columbus who proved it. We must have started something in new bargain offerings and we will finish it, too, until this stock is cleared out. Get the benefits of 25 per cent—and more.

TORONTO WIFE ARRESTED AT ONTARIO, CALIFORNIA

Mrs. Willets, It Was Thought, Had Perished On the Empress.

[Canadian Press.]
ONTARIO, Calif., July 16.—Mrs. Hattie Willets, who was believed to have been lost in the Empress of Ireland disaster in the St. Lawrence river, leaving a husband and four children in Toronto, Ont., was arrested here today in company with E. A. Hensen and H. R. Horn, also of Toronto.

The two men were held on a charge of bringing Mrs. Willets here from Canada, and were detained by the police until it is known whether a charge of violating the Mann White Slave Act will be placed against them by the federal authorities.

Mrs. Willets did not engage passage on the Empress of Ireland, but she is alleged to have told her family and friends on leaving home that she was going to board the steamer.

TWO YOUNG MEN DROWN THROUGH ROCKING CANOE

Austin O'Toole and Charles Burgoyne Victims at Peterboro.
PETERBORO, July 16.—Late this afternoon, Austin O'Toole, aged 17, and Charles Burgoyne, this city, aged 24, lost their lives by drowning in the river a few miles below this city. The two young men and another named Fowler were rocking the canoe when it upset. Fowler swam to shore, about twenty-five yards, supposing that the others were good swimmers, were following, but when he looked back, he saw only the overturned canoe and no trace of the young men. Both bodies were recovered.

A ROYAL ROMANCE

Cousin of the King of Spain Weds a Pretty London Girl.
LONDON, July 17.—A romantic courtship culminated yesterday in the marriage of Prince Louis of Bourbon, cousin to the King of Spain, and Miss Beatrice Harrington, a pretty London girl. The wedding was celebrated quietly in a London church, without the knowledge of the royal family of Spain.

IS SLAIN MAN FROM ST. THOMAS?

Duncan Campbell Reported Fatally Stabbed on the Isle of Pines.

[Special to The Advertiser.]
ST. THOMAS, July 16.—It is believed by relatives and friends that the Duncan Campbell, killed in the Isle of Pines, off the coast of Florida, may be Duncan Campbell, the son of Mr. John L. Campbell, clerk in Ingram & Davey's hardware store, this city.

Mr. Campbell's son Duncan was working in an automobile factory in Detroit, until a few months ago, when he, along with a companion, left for Chicago and St. Louis. The latter left him there and returned to Detroit. Nothing has been heard of him since, until today, when Mr. Campbell received a letter, dated at Detroit, containing a newspaper clipping. No explanation as to what paper it had been clipped from, or where the Duncan Campbell referred to, was given.

Fatal Stabbing Affray.
The item read as follows: "Havana, July 13.—The Cuban secretary of justice today ordered Attorney-General Hector De Saavedra to go to the Isle of Pines to investigate the circumstances of the death of Duncan Campbell, an American, who was fatally stabbed by Victor Perez, after a quarrel. His body will be conveyed to the island on board a revenue cutter."

Duncan Campbell's wife is at present visiting in St. Thomas, and intended joining her husband as soon as she received word from her husband. The young man's people are trying to get into communication with the Cuban authorities.

YOUNG MAN PERISHED IN MERLIN RESERVOIR

D. Lee Thought To Have Drowned While Bathing Sunday Night.

[Special to The Advertiser.]
MERLIN, July 16.—A sequel to the disappearance of 17-year-old David Lee Sunday night came at 4 o'clock this afternoon when his body was discovered by some boys in the Pere Marquette reservoir.

The discovery was made by Walter Marshall and some other boys who were in the neighborhood of the water and saw the corpse floating on the surface. They notified Dr. Bell, coroner, who, after examination had been complete, performed an autopsy and decided that an inquest was unnecessary.

How the unfortunate young man happened to meet his death is not known. He came to this district a short time ago with his family, from Paulding County, Ohio, and they located on a farm on the Middle road. He frequently went to call upon friends, and last Sunday visited at the home of J. H. M. Saylor, who also lives on the Middle road. He started for home about 10 o'clock that morning and was not seen again.

A peculiar circumstance is that while his clothes were found on the shore of the reservoir, his shoes were missing. There were no marks on the body, however, to indicate that he had met foul play, and the supposition is that he was drowned while bathing.

The family, which consists of his parents and five brothers and five sisters, are grief-stricken over the tragedy. They will ship the body tomorrow to the former home in Ohio for burial.

MOTHER ADMITS KILLING FOUR-YEAR-OLD CHILD

Chambermaid in Edmonton Hotel Heard Screams During Night.
EDMONTON, Alta., July 17.—Mrs. Mary Marlette, of Eriose, Sask., was arrested this morning after she declared she had killed her four-year-old daughter in the Marlborough Hotel here, on 19th street.

During the night a chambermaid heard the cry of the child, and early this morning, when the police arrived, the child was dead and the woman kneeling beside it.

A postmortem will be held.

Irish Volunteers Get \$100,000 Fund From Americans

[Canadian Press.]
NEW YORK, July 16.—Irish Americans and friends of Ireland from all parts of the United States and Canada attended a meeting of the national directors of the United Irish League of America here today, at which \$100,000 was subscribed for the Irish volunteer fund for use in the movement led by John Redmond in the Irish parliamentary party.

Philadelphia was selected as the place for holding the next national convention, the date to be fixed by Mr. Redmond, who will come from Ireland to attend the gathering.

MASONS ARE FOR WORLD PEACE

Inspiring Sights at Falls, Where Grand Lodge Holds Celebration.

[Canadian Press.]
NIAGARA FALLS, July 16.—An unprecedented sight was presented in the Falls today, both in the afternoon and evening on the occasion of the celebration by the Grand Lodge of Canada, A.F. and A.M., of the hundred years of Masonry in the United States.

The building, which holds over 1,200 persons, was crowded to its utmost capacity, and there was a record attendance of delegates from all sides of the line, many men prominent in United States Masonry being present.

The hall was a riot of color, and hardly a square inch of the walls could be seen for the flags of the two countries and the variegated bunting. Half way up each of the sixteen pillars were two Canadian flags with an American flag in the centre. At the rear of the hall was a huge motto: "Let there be peace." On the platform was a choir of school children bearing flags of both countries.

Telegram From Premier.
Grand Master McPherson, of Toronto, welcomed the delegates and read a telegram from Sir Robert Borden, that every movement which promoted the era of peace between the two countries had the warm sympathy of the Canadian Government. The speaker rejoiced to see the flags united, and said: "God grant they may never be flaunted in defiance of one another."

Rev. Dr. Z. B. Phillips, of St. Louis, gave a vivid picture of the effects of peace in the future.

Presentation to Grand Master.
An interesting presentation of a silver dish was made to the grand master by M. Morrison, grand master of Indiana Grand Lodge, on behalf of the grand lodges of the United States. In his reply, Mr. McPherson showed the minute book of Barton Lodge, Hamilton, 125 years ago, containing a resolution of sympathy on the death of George Washington.

John Ross Robertson, of Toronto, and W. B. Melish, Ohio, also addressed the audience.

At the evening meeting expressions of good-will were voiced by the representatives from the United States. Melvin Johnson, of Boston, grandmaster of the oldest Masonic jurisdiction in America, declared there must be homogeneity introduced in the future to make civilization permanent and peaceable. Other speakers were: Rev. Canon Tucker, London, Ont.; A. C. Stewart, deputy grandmaster of Missouri, and Henry Wilson, Nebraska.

Thos. J. Bonner, of Tennessee, in the course of an address, moved that the gathering place itself on record to labor for universal peace, and call on all Masons to aid in the establishment of a peace commission; no commission had exhausted all means to secure an adjustment.

FREIGHTER MARY BOYCE FAST ON HURON REEF

Lifesavers Ready to Render Any Assistance to the Crew.

[Special to The Advertiser.]
SARNIA, July 16.—Word was received here today that the steamer Mary H. Boyce, laden with lumber from Duluth to Cleveland, today ran on a reef off Port Hope, Lake Huron. A heavy fog prevailed at the time of the accident.

The steamer was carried over the reef and her stern rests on the rocks, 100 feet out of the water. She is in a dangerous position in case of a storm, and the Point Aux Barques life-savers are standing by to render assistance if necessary. Tugs and a lighter will be sent up by the E.C. Ry.

Reckless Violation.
Boat captains are complaining of the reckless violations by pleasure craft of the rules and regulations of navigation. Many of the launches, without lights, others take risks in crossing in front of steamers, and still others neglect to blow whistles. The ferry Hiawatha narrowly escaped running a craft down last night that was operating without lights.

EDWARD J. ROBSON DIES AFTER A BRIEF ILLNESS

Pleurisy Followed by Meningitis Resulted Fatally.
[Special to The Advertiser.]
KINTORE, July 16.—Following an attack of pleurisy which seized him a week ago today, and which was followed yesterday afternoon by an attack of spinal meningitis, Edward James Robson, a well-known resident, died today.

He was the only son of the late Robert Robson. Two sisters live in Regina, Mrs. Rowland and Miss Margaret Robson. Deceased is survived by four children—three daughters and a son.

The funeral will take place at Kintore cemetery on Monday at 3 p.m.

"OPEN ICE EVERYWHERE"

MONTREAL, July 16.—While Montreal is sweltering today in 88 degrees of heat, the following cooling message came from the marine signal office at Belle Isle wireless station: "Heavy open ice everywhere."

EMMELINE AGAIN JAILED.
LONDON, July 16.—Mrs. Emmeline Pankhurst, the militant suffragette leader, who had been out on bail only a few days, was again arrested today and taken to Holloway jail.

FLAMES SWEEP TOWN OF HEARST

Bush Fires Make Four Hundred Homeless in Northern Ontario Town.

COCHRANE, July 16.—Fire yesterday wiped out the town of Hearst, at the junction of the Algoma Central with the transcontinental railway, and between 400 and 500 people were rendered homeless. The only buildings left standing are the transcontinental rounhouse and station and the stores of Jameson and Hayworth.

A relief train arrived here this afternoon with about 300 refugees. They tell stories of a fight which lasted three days and nights. Several times it was thought that the flames had been vanquished, but they sprang up again. The wind increased to a gale, and the battle was given up at three o'clock yesterday afternoon, the inhabitants taking refuge on the transcontinental tracks until the relief train arrived. The homeless ones were housed and fed at a camp of the construction firm of O'Brien, McDougall and O'Gorman.

The town was largely a railway construction centre, being the headquarters of the above mentioned firm. All their buildings have gone, and also most of the buildings erected by the commission. No casualties occurred, and the refugees, most of whom are now destitute, are being well cared for here.

Bush fires have encircled the town for some time.

U. S. TELLS CARRANZA HE MUST BE GOOD

If He Enters Mexico City Forcibly, He Will Not Be Recognized.

WASHINGTON, July 16.—The United States today instructed John R. Silliman, United States consul at

Saltillo, to inform General Carranza that if he arrives at a peaceful agreement with the Carranza Government for the transfer of power at Mexico City, recognition will be extended to the resultant administration.

Should Carranza refuse to complete the settlement of the internal conflict by diplomatic means and insist on a forcible entry into Mexico City, recognition will be deferred until there is a legal election. American forces, according to present plans, will not be withdrawn from Vera Cruz until a government is recognized. This determination was reached by President Wilson and Secretary Bryan after the viewpoint of the South American mediators was laid before them.

FIRE AT BROCKVILLE.
BROCKVILLE, Ont., July 16.—For the second time in the last twenty-four hours fire broke out in the big plant of the National Manufacturing Company at noon today, causing damage which will run into several thousand dollars. A large portion of the plant was destroyed in addition to much finished stock. The loss is covered by insurance.

of former tea and coffee drinkers can tell of freedom from that kind of trouble since the change to Postum—

"There's a Reason"

The drug, caffeine, in both tea and coffee, is a common but often unsuspected cause of headache, nervousness, heart flutter, indigestion, and various other ills.

Postum is the easy, pleasant way back to comfort. It is free from caffeine or any other drug—has fine color—a delightful, snappy taste, and is within reach of all.

Regular Postum—must be boiled—15c and 25c pks.
Instant Postum—a soluble powder—made in the cup with hot water instantly—30c and 50c tins.

Grocers sell both kinds, and the cost per cup is about the same.

NEW HAY IS SOLE MARKET OFFERING

A dozen loads of new hay are the sole offering on the market today. The large market of yesterday, however, was as large as several Saturday markets have been in the last month.

Vegetables were plentiful and much lower in price. Beets, onions, carrots, beans, lettuce and radishes were plentiful and prices dropped to the lowest this season. Old potatoes sold for \$1.50 and \$1.60 a bag, new potatoes brought \$1.60 and \$1.75 a bushel.

Vegetable marrow was on sale at \$1 a dozen. Beans sold for three from \$3 to 5 cents a quart. Tomatoes were 5 to 6 cents a quart. Potatoes were much cheaper, selling at 10 cents a pound.

Raspberries were in demand, but sold as low as 11 cents a bushel. Cherries were slow and the price remained high. Baskets holding 10 quarts sold as usual for 60 cents. Some finer kinds brought up to \$1.50 a basket.

weather there being hot and moist, and favorable to development. Prices at noon were 1/4 to 1/2 lower than the close Wednesday. Nearing the close there was quite a boom in prices, and at 1 o'clock the advance on Wednesday's close was 1/4 to 1/2. The close was 1/4 to 1/2 up. Rust reports were credited, but being the sole cause of the advance.

Cash demand was more active today for all grains, fax being in keen request. They closed: Wheat, 1/4 to 1/2 higher for contract grades; oats unchanged to 1/2 higher; fax 1/4 to 1/2 advance, and barley 1/4 to 1/2 higher.

Deliveries through the clearing house: Wheat, 14,400 bushels; oats, 25,500 bushels; fax, 2,500 bushels; and barley, 10,000 bushels. In sight, 150 cars.

OPHTHOMETRY

PAST AND PRESENT methods of seeing and spectacles are vastly different. Bargain counter methods belong to the days of antiquity. People generally have come to realize that if defective vision is to be remedied, a thorough examination by a competent optometrist is necessary. We make these examinations by the most approved, scientific methods. Then we fit you with lenses that will positively correct your defects of vision, if any are found.

ADDITIONAL FUNDS NEEDED FOR OLD BOYS

Collectors Start Out to Raise Balance of Money Needed for Celebration.

The committee of the Old Boys' Reunion have started a collection to meet the expenses that will be incurred during the reunion week. Mayor Graham has been one of the latest additions to the force of solicitors to gather in collections. His report has been made on the standing of finances which the committee will have this year for the reunion. As in former years, thousands of visitors and home-comers will be here for the reunion, and the expenses largely met by private and public contributions has climbed into four figures. The committee is still short of the required sum.

INDUCTION AT BETHEL PRESBYTERIAN CHURCH

Rev. John Elder Is Inducted Into New Charges in London Township.

Induction services were held in Bethel Church, Frodoe road, yesterday afternoon, when Rev. John Elder was inducted into the charges of Bethel and Bryanston. The service was well attended by members of the congregation and friends of the church.

The induction service was conducted by Rev. George Milne, of Vanneck, Rev. D. Robertson, of Mount Brydges, addressed the ministers, and Rev. Dr. Munro, of this city, preached the sermon to the congregation.

Rev. Mr. Elder is well-known throughout the two charges.

POLICE SERGEANT READS RIOT ACT TO STRIKERS

Dozen Pickets Who Annoyed Workers and Obstructed the Traffic Ordered to Move On.

Police Sgt. Barnhill yesterday afternoon read the Riot Act to a group of striking carpenters who gathered on Richmond street, and leaning over the palisade erected around the ruins of the Dominion Savings building, proceeded to annoy with their conversation the men employed on the reconstruction of the building.

The workmen did not take kindly to the interruption and complained to the police. Sgt. Barnhill pointed out to the dozen or more strikers congregated that they were obstructing the traffic, and after he had read the riot act the strikers moved away.

Since the beginning of the strike the union has had pickets stationed all over the city, but yesterday afternoon a number of the strikers decided to go out together. The carpenters working on the Dominion Savings building did not take kindly to the urging of the strikers that they lay down their tools, and when the strikers persisted in their missionary propaganda, the workers asked the police to make them move away.

UNAFFECTED BY STRIKE ON WESTERN LINES

G. T. R. Not Anticipating Trouble, Says General Superintendent.

That the threatened strike of the western railroads in the United States will not seriously affect the Grand Trunk was the statement of H. E. Whittenberger, general superintendent of the middle division of the G. T. R., yesterday. Mr. Whittenberger passed through London en route to Port Huron on the Limited Express, No. 18, at 11:18.

"The only way in which we may feel the strike, should there be one, is that we may lose some of the western business through delay on these lines," said Mr. Whittenberger. "Everything is running smoothly on our road and there is no cause for fear trouble."

HARBOR AGAIN BLOCKED STATE OF OHIO HELD UP

C. and B. Boat Had to Wait an Hour at Port Stanley Before Being Able to Dock.

(Special to The Advertiser.)
Port Stanley, July 17.—Once again the steamer State of Ohio has been held up in docking at this port. The boat arrived at 5 a.m. this morning, but owing to the harbor being blocked, it was more than an hour later before it docked.

This blockade has happened on practically every trip of the steamer into port this summer, and according to Capt. McLachlan no attention has been paid to his complaints.

Today's passenger list numbered about 75.

The steamer James McGee, the boat that brought in the steel rails for the L. and P. S. Railway, leaves on Saturday for Toledo, to load coal for the return trip to the Soo.

The Ingersoll Sunday School Union is holding its annual picnic here today, large crowds being in attendance from the Methodist, Baptist and Presbyterian Sunday schools of that town. Two special C. P. R. trains, that came via St. Thomas, brought in the crowds.

Mart Berry, of the Hattie Berry fishing tug, seriously cut his hand yesterday while cleaning fish. Slipping of a knife caused the severing of two arteries. Dr. Nettleton dressed the wound.

The following are spending a two-week vacation with Mrs. Motherall William street: Miss E. Hollingshead, Miss M. Graham, Mrs. Murphy, Miss McWilliam, Miss E. Campbell, Miss J. Campbell, Miss L. Campbell, Miss B. Hawkin, Miss E. Black.

Miss Vera Ingersoll, Ingersoll, is spending a few days at Shady-side Cottage, William street.

Miss Alberta MacLachlan, daughter of Capt. MacLachlan, of the State of Ohio, arrived by that boat this morning with her cousin, Miss Isabelle Kerr. They are on a visit to their uncle, W. Blair Stanbury.

The following guests at O. K. Cottage are leaving today after a most enjoyable two weeks' vacation here: Miss S. King, Miss M. King, Miss O. King, Mrs. Harwood, Miss G. Harwood, Mrs. E. H. Weber and Miss L. Weber, all of Woodstock; Mrs. G. A. Rapson, London; Mrs. William Hendry and Miss R. Hendry, of Chelsea, Mich.; Mrs. W. L. Wilson, Miss Edna Wilson and G. L. Wilson, of Ingersoll.

ST. DAVID'S PICNIC

Sunday School of Ealing Church, Enjoys Afternoon's Sport at Port Stanley.

St. David's Sunday school, Ealing, held its annual picnic yesterday at Port Stanley. The attendance was large. A lunch was served on the baseball beach by the ladies of the congregation and afterwards a short program of races and sports was staged. The remainder of the afternoon was devoted to bathing and other amusements.

At 6 p.m. the jolly crowd lunched at the Helka Cafe, Rev. Mr. McKenney, rector of the church presiding.

When a customer says that, no one can doubt her satisfaction.

The immense demand for Rose Ham and Bacon is due to their week-to-week uniformity, the result of our perfected English process of curing which makes them always mild, juicy, crisp and delicious. So that when you ask for the "same as you got last time," you may depend upon getting it. Don't you think that a ham or bacon, possessing such a quality is worth asking for by name? We do; so we have put our mark upon it for your guidance. "Look for the name on the rind."

COUNT DISCOUNT

Is Surely in Reduced Circumstances at Grafton's Now.

The "Count" is a creature of quality. He comes from fine stock, but he is in reduced circumstances now. It would be hard to find another discount sale where the reductions mean as much quality for as little money as "Count Discount" typifies here. Grafton & Co. claim that their clothes were worth in real value more than the original prices earlier in the season. During this sale, when they give you a 25 per cent reduction, you are certainly sure of the greatest values in high-class merchandise. Read over the reduced prices quoted in the advertisement in this issue, and take into consideration that the goodness in quality, make and style of the items make them 25 per cent better than present prices. They were abundant values before reduction—they're overflow bargains now.

precipitation of the pictures, which in many respects quite wonderful and will be long remembered.

The drama will be brought to close by a grand finale on Sunday at which a representative of I.B.S.A. will give a short summary of the teaching of Pastor Russell.

Twice today, at three and eight o'clock, the fourth part will be shown, which illustrates the sufferings and exaltations of God's elect, and the state of the times, also the restitution of all things, showing pictures of earth, which is being restored by great achievements of man and the nations of the earth who are waiting for the Messiah's kingdom according to the doctrines of Pastor Russell.
