GERMANY TO WAGE DEFENSIVE WARFARE IF HER PROPOSALS

Prince Maximilian Says German People Have a Right to Know What President Wilson's Demands Mean to the Country-Asks That Unit ed States' Notes Be Made More Explicit.

Copenhagen, Oct. 23.—Peace conversations between Berlin and Washington have reached a critical point, according to Prince Maximilian, the German imperial chancellor, speaking before the Reichstag yesterday. In the course of his address he urges that debate on the situation arising on the exchange of notes between himself and President Wilson be restricted as much as possible.

"The German people are anxious to hear the views of the Gov ernment regarding prospects of peace," he said. "But I am able to speak only with the greatest reserve and urge that the members of the Reichstag limit debate, as is consistent with the seriousness of the hour. The whole German people have been spoken to by President Wilson, and this fact gives the utterances of the representatives of all parties added force.

"Today, therefore, I am going to say only this regarding the international situation:

Le Brun, minister of blockade and invaded regions; Louis Loucheur, minister of munitions, and senators and deputies from the department of Nord, visited Lille yesterday and received an enthusiastic ovation. In reply to the address of welcome, the president said that "the hour of defeat for the enemy will strike soon." He bestowed the Cross of the Legion of Honor upon the mayor of Lille.

The party then went to Roubaix, where there are many persons from Alsace and Lorraine. During an address there, M. Peincare said that no peace was possible without the return of Alsace and Lorraine to France. At Doual, the president was met by the Prince of Wales. During the trip the party also visited Tourcoing, La Bassee and Lens.

The robber leaped from the train near Sunnyside, held up a citizen motoring near High Park, at the point of a re-volver, commandeered the car and movolver, commandeered the car and motored away at full speed before the citizen could secure another machine. The first the train crew knew of the robbery was when the train pulled into Hamilton an hour later, when the two express messengers were found tied up in the corner of the car. The Toronto citizen, who was held up notified detective headquarters and Detective Geo. Guthrie and John McConnell were rushed to the scene. In the meantime the citizen, with the assistance of another motorist chased the highwayman, but the robber outdistanced his pursuers, but he threw some of the money out of the car, and it was recovered by the detectives, who brought the packages to the police station.

After making arrangements for the rent of the garage, the stranger wanted to find a place where he could secure board and lodging, and was referred to Mrs. Robinson at No. 39. Being somewhat suspicious of the stranger, Mr. Greenaway telephoned quietly to Mrs. Robinson, advising her to have good security before taking the man in, with the result that she ultimately declined to do so at all. The man then asked to be allowed to leave his bundle at the house while he went to look for other quarters. FIGHTING FOR VALENCIENNES.

With the Allied Armies in France and Belgium, Oct. 23 .- (By the Associated Press) .- British troops were fighting their way into the centre of Valenciennes early today. They were facing a strong enemy machine gun fire from the east bank of the Scheldt, which flows through the city.

London, Oct. 23.—The British began a new attack early today on the front between Le Cateau and Colesmes, south of Valenciennes, Field Marshal Haig announces. The British have captured Bruay, 21/2 miles north of Valenciennes, and have reached the west bank of the Scheldt.

The statement follows:

The fight for Bois-de-Foret began a week ago, and has been one of the most stubborn since the beginning of the Meuse-Argonne

The Americans fought with determination. At times they fell back under terrific pressure, and then rushed forward with all their might. On Monday they reached the line crossing the northern half of the wood and completed their task today. Among the prisoners were several officers. The enemy clung to the wood with tenacity owing to the fact that the cleaning-up of this place endangers the commanding positions of the Germans to the north.

Authorities Expect Disease to Soon Be Stamped Out.

SUBSIDING IN THE EAST

Military Authorities Report Abatement in All Camps.

Toronto, Oct. 23.—With the exception of Ottawa and this city and adjacent listricts, towns and cities throughout Ontario report general improvement in the Spanish influenza situation. Re-ports received here indicate that within a week the epidemic may be definitely checked week the epidemic may be usually secked in smaller communities.

Medical health officials here are optimistic in view of the fact that the disease is rapidly being stamped out in the maritime provinces and the Eastern States. Toronto and Ottawa show that the epidemic has gained little headway during the past 24 hours. From towns in wastern sections of the previous of its n western sections of the provinces, dispatches are being received to the effect that the disease is on the decline. Officers commanding military camps in the province announce that as far as liers are concerned the epidemic

Frame Building on Richmond Street Condemned Has Historic Associations.

Another one of the old landmarks is spector Arthur M. Piper, who has or-dered the removal of the frame building cathedral. For 75 years has this braved the storms. Its mate, which stood for a long time on the lot immediately to the south of it, was associated in history with the visit of King Edward VII. to the city when he was Prince of Wales. There was a veranda on it, which had a flat-decked roof, on which seats were erected and sold to citizens who wished to get a good view of the who wished to get a good view of the prince and his suite when the procession passed. "A committee's Work.

"A committee known as the special client's committee was formed and started to work under the Government. It was its business to name a price at which these bonds could be bought and sold, and for which it would act as a clearing house. The price set was according to market conditions.

"An agreement was entered into with all recognized bond and stock houses, by which these houses bound themselves to these prices for the Victory bonds. How successful this committee has been is shown by the fact that it disposed of over fifty million dollars' worth of bonds from the time of the last loan till August of this year. A large proportion was handled at prices higher than the investor paid at the time of the last campaign.

"Victory bonds today are worth one and one-third per cent more in cash than the investor paid."

Seventy-Five Per Cent Are Under 30 Years.

GREAT CALL FOR VACCINE

Licensed Vendors Report a Diminishing Demand for Liquor.

TORONTO, Oct. 22 .- Further evidence that it is younger people who are largely falling victims to the influenza epidemic is furnished in the reports received by the vital statistics branch of the provincial board of health.

For the first 22 days of this month ceived by the department from undertakers outside of cities, the people having died with either influenza or pneumonia. Ordinarily the number of deaths from communicable diseases average between 150 and 200 a month,

Of these 600 deaths, 65 per cent were of persons between 20 and 30 years old, another 10 per cent were of persons between 20 and 30 years old, another 15 and 20, and the remainder over the 30-year mark.

Great Call for Vaccine.

Twenty-six hundred more doses of the preventive were applied for by vartous municipalities today, and it is being sent out as fast as it can be manufactured. Twenty-two thousand doses were placed at the disposal of the military authorities today. By the end of this week the provincial board of health will have large quantities of the vaccine on hand for the treatment of the 600 death certificates have been re-

GREAT MOVIE STARS HAVE GIVEN TALENT FOR VICTORY LOAN

Films Will Be Ready For Next Week.

BIG CAMPAIGN FEATURE

Local Centres Well Organized To Make Big Showings.

TORONTO, Oct. 22 .- A private view of the 1918 Victory Loan films to be used for publicity purposes in the drive which commences on Monday, October 28, was given here today, and it is ex-pected that the ban on movie houses will have been lifted by the various municipal health authorities in time for their use.

The group of stars who have donated their services to the cause includes Mary Pickford, who is a Canadian by birth; Douglas Fairbanks, Charles Chaplin, William S. Hart, Lilian Gish, William Farnum and Geraldine Farrar.

The motion picture interests, headed by Jules and Jay J. Allen, volunteered their services to the Government, with their services to the Government, with the result that in addition to the strong printed arguments for the Victory Loan that have been circulated through the country, these pictures will be shown from place to place throughout the campaign to further its success.

MONTENEGRINS AND SERBS DEFEAT HUN FORCES IN BALKANS

Over 1,600 Prisoners Captured, Besides Considerable Booty.

PARIS, Oct. 22.—The official communication dealing with operations in the eastern theatre, says:

"On October 21 French forces reached on the Danube, Lom-Palanka (Bulgaria), 22 miles southeast of Vidin, which they occupied. They captured a convoy of enemy barges loaded with merchandise and wheat.

"North of Aleksinatz Serbian forces have progressed, notwithstanding very strong resistance by the enemy. Serbian cavalry have reached the region east of Paracin, capturing part of the headquarters staff of a German division, including the archives and baggage of Gen. von Gallwitz, commander of the German division.

"In the region of Novi Pazar and Montenegrins supported by French troops captured, in the course of engagements with the retreating Austro-Germans, more than 1,600 prisoners and much booty."

BORDEN WILL SUMMON PREMIERS' CONFERENCE BEFORE NOVEMBER 15

VICTORIA, B. C., Oct. 22.—Sir Robert Borden has wired Premier Oliver that it is his intention to call a conference of provincial premiers before. November 15 next. On September 17 last Sir Oliver wired Sir Robert asking him to arrange for such a meeting for the purpose of affording the head of each government in the Dominion an opportunity to discuss the problem presented by the demobilization of the Canadian army. Mr. Oliver pointed out the necessity for the action, to be taken immediately so that a broad Canadlan policy might be formulated with provincial machinery working harmoniously with that of the Dominion.

It is understood that the conference held in Regina on Tuesday last was adjourned after one day's session on the understanding that Sir Robert would call the national conference.

The patriotic concert and entertainment under the auspices of the Women's Patriotic League, given in the town hall, was quite well attended. Mr. R. A. Beyer of Detroit, dialect and character reader, delighted the audience with several numbers. Miss Devitt, a guest of Mrs. Fred Crawford, gave two beautiful solos, and two duets were most acceptably sung by Misses Beatrice Brown and Lucille Conklin. The Kingsville Orchestra furnished several selections during the program.

London, Ont., Wednesday, Oct. 23. THE WORTH OF GOOD-WILL.

ERMANY is a shining example of what goodwill is worth. As a personal asset, as a commercial factor, and as a force between nations good-will stands perhaps as the greatest welding influence in the world. It is what men and organizations seek to secure by every act and word. Only the iconoclast or the fatalist disregards its rewards, and Germany after having sought for years to attain a prestige as an honest and trustworthy neighbor suddenly threw aside the whole work of years and, stripping off the disguise, appeared before the world as a criminal.

The criminal has failed to accomplish the crime which he planned, and today is seeking to interest the other nations on the basis of goodwill. The German people are asking the Allied good-will is born of good faith, only by the works of the German people rather than by pledges or promises shall they be known.

Good-will is a system of moral credit. Were it not that the nations have met their notes and conducted business on honorable principles, there would be none of this international credit. Germany refused to meet its notes and sought to bankrupt its competitors by every unfair means, bringing upon itself the eternal suspicion and illwill of those who had believed in its good faith.

And today it stands naked of honor, shamed by its guilt, and pleads with the world for a renewal of credit. But it cannot be trusted. Germany rejected the good-will of the world, and sought to replace it with a system of right by tures the Spanish flu veil was invented for you. might. It gave up the most precious possession an individual or nation may have, and has found that none of its chemists can produce a sub-

The value of good-will in the case of the individual is quite as great. You cannot play Germany's game and retain the good-will of your fellow men. You must invest in the bank that controls moral credit, and the only thing you can invest in that bank is good faith. It may be a diers with kisses. And Antwerp and Brussels have long time before your "deposit" seems to mean still to be relieved. anything, but in the end the accumulation will be enough to serve as an anchor through life. Goodwill is the easiest thing in the world to win. A and Belgians may be measured by the depth of touch of ordinary courtesy may bring lasting their departed despair. gratitude. A simple act of kindness may be a spiritual investment that will pay extraordinary returns. And as it is the easiest thing to win, so the dolls and toys of French children. To the the smallpox and the Huns. may it be as quickly lost. Treachery, deceit, in- meanest nation the meanest men. tolerance, cruelty will destroy good-will. That is like looting the bank. And it is a most difficult undertaking to win it back again.

In so far as a man or woman may win good-will by an honest, fearless and charitable attitude toward those with whom he lives, he should strive for himself to win the favorable opinion that Germany as a nation has lost.

When great businesses are sold, it is not the mere physical assets they may show that count in the selling price to the largest extent. Goodwill is the thing that counts. The name that the goods bear. The worth of the firm's name. Its record for integrity. As ten to one the character of a business is worth its material holdings. So with nations and with men.

"A PEACE OF JUSTICE."

THE GERMAN reply to the President of the United States asks for the last thing Germany should want, "a peace of justice." The reply says: "It (the German Government) trusts that the President of the United States will approve of no demand which would be irreconcilable with the honor of the German people, and with opening a way to a peace of justice."

What would "a peace of justice" mean? Let the wrongs of Belgium speak! Let the evidence of Edith Cavell be given! Let the murdered victims of the Lusitania come back in judgment!

It will be very difficult for the German nation to place itself in such a light that the balance of the world can have any respect for it. This out. can only be done by those who separate the people from the kaiser and the war lords and that number is becoming smaller day by day.

'THERE IS NO DEATH."

THERE IS NO DEATH. They all survive," reads the inscription surmounting an arch erected by organized labor to the memory of the men of Chicago who have fallen in battle. So that "if Christ came to Chicago" He might be inspired by the words that preach the promise for which He passed away from this earth. In the "city of pigs and pagans" is set up the one eternal, lasting truth of life, that death is an absence, a journey, a going before one's friends to in Canada, my Canada, so far, so far away—Oh, so far, so far away. some great realm of peace.

As life rolls on, friends depart on long trips to distant lands and cities. With regret leave is taken of them. Some may send letters back, but with thousands the parting is final. Remain with us only the memories of their lives as they concerned us. They have gone; they shall not return to revisit us. They have been taken as completely out of our local and immediate existence as though they had gone beyond. They may die and we do not know that they are dead. A book or a word or a picture may bring them back to us as they were, and we are again with them in spirit | Unquenchable the sure to play the game, they were, and we are again with them in spirit | And quite as hot an urge to throw away the gains for a while. There is the hope that we may see A creature of the winds of chance, a plaything of the fates them anon, but we do not think of them as dead, although the separation could not be more complete had the earth fallen into their graves.

association leaves space between friends that is never bridged. But that is not regarded as death. And that kind of ministering which makes certain to thousands of mourning people that "There is no death-they all survive" is the only kind that makes life worth the having to many. Separation by the absence that passing from the world entails is only separation. Life in itself is good. It would have been good to possess if nothing lay beyond. But the promise of everlasting peace and happiness is the touchstone of existence to the majority.

Cannot those who have suffered through the war make this thought that confronts the teeming thousands of Chicago a vital factor in their lives, to think of their beloved as though they were merely in another city or countryside and that they were very hopeful and very much at peace?

And people are just waking up to the fact that the loan pays 5½ per cent interest, and that the entire resources of the country are behind the pledges of the Government.

A WAY TO COLLECT.

TT MAY not be possible to make the Germans pay the war debt of the Canadian people by direct settlement.

But it is possible for Canada to collect every dollar if the proper methods are adopted at once. Thousands of German industries will find nations to have faith in their pledges, but as the "Verboten" sign facing them when they

THIRD GERMAN NOTE A SHAM; ENDANGERS ALLIED HOME FRONT

Victorious Peace Unlikely Till Won in 1919 Campaign, and This Can Be the Only Satisfactory Conclusion.

[BY FRANK H. SIMONDS.] [BY FRANK H. SIMONDS.]
(Copyright, 1918, by New York Tribune.)
NEW YORK, Oct. 22.—The third
German communication is a sham. It
is one more step in the deliberate effort
to manoeuvre the German Government
out of an indefensible position and into
a situation where it will regain the support of the German people at the precise moment that the home front of
the late allied nations is again broken
as it was in 1916.
What Germany is striving for is this:

the late allied nations is again broken as it was in 1916.

What Germany is striving for is this: She has lost the war, in so far as she had any hope of gaining territory, indemnity or prestige. She is prepared new to make peace, resigning territorial ambitions and indemnities, but she is determined to avoid having to make any payment in territory or indemnity for what she has done or for what she has a mistake to think of the German armies as routed or as incapable of making a long resistance. Never in all military history has a complex and emormous retreat been carried on after a decisive defeat with more skill or greater success than has been the German retreat up to the present hour, and there is every prospect now that the Germans will be able to get behind the Meuse River and stand on a shorter line, with a good chance of holding up Allied pursuit there until the campaign of 1919.

What the German is now concerned about primarily is his home front. What he is meibly anxious to attack is the home front of his enemies. He desires to convince the German people that a prolongation of the war is inevitable, because the enemy insists upon the return of Allsace-Lorraine to France, the liberation of Russian Poland, and the payment of indemnities based upon the destruction of French and Belgian property.

Attack on Allied Morale.

In our own Allied countries he is the stuffelo forge foundry

turn of Alsace-Lorraine to France, the liberation of Russian Poland, and the payment of indemnities based upon the destruction of French and Belgian property.

Attack on Allied Morale.

In our own Allied countries he is seeking to build up the idea that the war must continue, not because Germany has failed to comply with the reasonable demands of her opponents, but because she is refusing to yeld to their demands, which are aimed at "crushing Germany," at dismembering the fatherland, and at imposing punitive indemnities. In a word, the Germans are appealing to the patriodism of their own people, and to the padrism annot the land Allied countries. More than this, by carrying on conversations with the president of the United States, to the exculsion of all other nations allied against her, Germany is seeking to create a breach between America and her allies, between Mr. Wilson and Lloyd George, Clemenceau and Orlando. She is seeking to make Mr. Wilson her advocate before the Allied council, and to bring about a break between the American Government and the other Allied nations. She is going through the motions of surrendering to Mr. Wilson, that he seek to bind his allies to a covenant made between him and Germany.

Finally, the Germans are league of nations after the war charping to make the concessions to Germany; that German participation in such a league may be assured. Already we have in the United States unmistakable evidence that there are certain elements ready to sacrifice France, and Italy, Belgium and Serbia to the cause of the league of nations, and let Germany scape from justice, and she may be a fellow associate at Utopia.

All of this aims in one direction, it allot this aims in one direction, it allot this plan will be the most ready to sacrifice France, and Italy, Belgium and Serbia to the cause of the league of nations, and let Germany scape from justice, and she may be a fellow associate at Utopia.

All of this aims in one direction, it allows the affirmative phases of the late Sir John Thompso

versations and diplomatic gestures, what has been accomplished by four years of fighting. The German is seeking to put the affirmative phases of our victory in jeopardy. He has lost the war, but he is now shifting the battle from the field to the green table, from the domain of the cannon to that of the cable, in the last hope of escaping the consequences of his attack upon the peace of the world.

ranks in the battles of the Avre, Aisne and Oise, American harvesters were hard at work.

Around Montdidier, where grain fields were part of the battleground, self-binders were gathering a rich harvest. Where the big machines could not reach the grain because of wire entanglements, shell holes and trenches, soldiers armed with scythes and sickles cut the stalks and recovered every kernel that could be saved.

North of the Aisne the advancing French found acres where the Germans had worked hard to reap the wheat they had sown, but had found the time too short. Just a few days previously he received word that his son had been reported missing, but was supposed to have been wounded.

Sergt. Schell, who was 23 years of age, was in his second year in Toronto University when he enlisted in the university company three years ago. This company recruited for the Princess Pats. After training a few months in Montreal when he was made a sergeant-major, he went to England, where he took a course in a military school. In order to go with his company to France he reverted to the ranks, but was soon promoted to sergeant. He was in France continuously two and a half years, serving in the front line.

Paper Controller About To Order Cutting Off of Unpaid Subscriptions

A T a public hearing in Ottawa last week in connection with paper conservation, the Paper Controller for Canada intimated that regulations about to be issued would include one to the effect that:

Publishers of daily newspapers must cease sending their newspapers to subscribers three months in arrears unless subscriptions be definitely renewed and all arrears fully

The reason for this regulation of the Paper Controller is that it is the practice of some publishers to send their newspaper until ordered stopped, and this practice frequently means a failure to collect anything for subscriptions in arrears, in which case there is a virtual waste of paper. It is to prevent paper waste that the new regulation has been decided on.

The manufacture of paper consumes labor, wood, coal, chemicals and transportation facilities, and every ton of paper saved means just so much more labor, raw materials, chemicals, fuel and transportation available for urgent war needs. For these reasons the Government insists that paper shall be saved, and proposes that only those who pay for their publications shall receive them.

Under these regulations The Advertiser will have no choice in the matter of dealing with subscriptions in arrears for over three months.

POSTUM

ST. THOMAS, Oct. 22.—A couple of well-known railwaymen, who were committed for trial a few weeks ago charged with stealing some boxes of chocolate and other articles, including potatoes, from a Pere Marquette car attached to a train of which they had

stealing a bicycle, and who appeared yesterday before Judge Colter and was tached to a train of which they had charge, appeared before Judge Colter this afternoon for trial. The evidence against the men being insufficient to warrant any action the judge honorably discharged both prisoners.

The story leading up to this trial is a peculiar one, and when the men were arrested it caused a sensation among raliwaymen, for the two are among the most popular and trusted employees of the Pere Marquette Railway Company. The case, however, started when Geo. F. Spencer, the convicted bigamist and thief, who stole a diamond ring from his landlady to provide funds on which to get married a second time, offered to tell the court of some petty thieving on the local railways. The men mentioned by Spencer were the two that appeared today, but no one who gave evidence could or would state they knew these two men had committed any crime.

In dismissing the case, Judge Colter stated that he wished to extend a warning through them to other railwaymen against thieving among employees. He said that he himself could never look on an ordinary thief as he did on a railway official who robbed his employers. Should any others come before him at any future time, and be found guilty, the judge declared he would give them the full extent of the law.

alleged misappropriation of the league's funds. Frazee's willingness then to lend his signature to a statement roundly panning Johnson served to widen rather than close the breach. Ban Doesn't Forget. Johnson rarely forgets an injury, and he hardly will forgive the evil genius that inspired the attack in Cleveland on him. Two of the other magnates, Griffith and Comiskey, whose names were part of the decoration on the statement, were said to have repudiated any connection with the thing, but Frazee reiterated it several times. Neither did Johnson get any pleasure out of the strike of the Boston and Chicago players just before the fifth game of the world's series. In fact, Ban was heard very little, and seen much less all during the series. The games were played much against his wishes, his suggestion to conclude the regular eason August 15 and determine the world's champions between that date and September 1, when the war department decreed the game must stop, causing an uprising. Johnson was for closing all parks immediately in compliance with the order of Secretary Baker, which gave their crack at Johnson, whose "ruin or rule" policy would have to be shelved. Ban is not apt to forget that no matter how long the war lasts, and the guilty are certain to suffer. [Special to The Advertiser.] OTTAWA, Oct. 22.-The most recent Union Government appointment cannot be said to have created any degree of enthusiasm at the capital. Some surprise is in the first place felt that Sir Charles Fitzpatrick should accept a transfer from the high position of chief justice of the highest court in Canada, of acting administrator of the Dominion and of Canada's representative on the judicial committee of the imperial privy council, to the comparatively humble post of lieurenant-governor of Quebec. The first is a life position, the second for five years only. Moreover, Sir Charles is an Irishman, and the province which he will now administer over is French-Caradian. of acting administrator of the Dominion

Gives Up "Side Lines."
From the purely monetary standpoint te transfer would not appear to be and transfer would not appear to be devantageous. Both positions carry an annual emolument of \$10,000, but in his former position Sir Charles received extra emolument for acting as administrator in the absence of the governorgeneral, while the Borden Government appropriated a sum of \$2,500 a year in order to defray expenses incurred while der to defray expenses incurred while attendance at the privy council in

For drawing the amount, in spite of the fact that since the war he has seldom been in England, Sir Charles last session came in for severe criticism at the hands of Dr. Edwards of Fron-

at the hands of Dr. Edwards of Frontenac and others.

But There is a Pension.

There is, however, another feature to the case. On his retirement from the supreme court, Sir Charles will draw a pension based on a term of judicial service dating from 1906, and estimated at about \$7,000 a year. The transfer will, therefore, cost the public treasury \$17,000 a year, instead of \$10,000 had the appointment to the lieutenant-governorship been made directly from the appointment to the lieutenant-governorship been made directly from among the public men of Quebec. Whether, in view of the present great need for money, such pension will pass unchailenged in the House, remains to be seen. Still, Hon. C. J. Doherty, minister of justice, is in practically the same position. He draws his pay of \$7,000 as cabinet minister; \$2,500, representing sessional indemnity, and, in addition, a judge's pension of about \$3,000, or a total emolument of about \$12,500.

UNDER CONTROL, IS ST. THOMAS' REPORT

SPANISH "FLU" WELL

Authorities State Disease Is Broken, But Not Yet Wholly Conquered.

ST. THOMAS, Oct. 22.—Only two deaths are reported in this city today from the Spanish flu, and the authorities believe the disease is now well under way, although there is no likell-hood of the ban on public gatherings being lifted for at least a week or two. Every precaution is being taken against a fresh outbreak. The congestion at the Amasa Wood Hospital is reported to be lessening and several of the more serious cases of the first few days are able to be around again, but the medical health officer and board of health authorities still insist that citizens must not take any unnecessary risks. Fresh air, they state, is the only sure preventive, but with this they must avoid contact with all those who are suffering from the disease. Above all, physicians state, anyone suffering from the epidemic must be exceedingly careful after they have recovered, for it is then that they are most susceptible to pneumonfa, which is far more dangerous than the influenza itself.

Although at first the epidemic was confined almost entirely to the city, and the more thickly populated sections of the outlying districts, it is now reported to have spread to several farms in the county, and in some cases whole families are down with the disease, yet their homes are isolated from anyone else by several miles. In view of this fact one prominent local physician has stated that the disease is in the air, and unless the human body is in the best of condition anyone can be stricted and the more though isolated for the stricted and the many

the air, and unless the human body is in the best of condition anyone can be stricken, even though isolated by many miles from other sufferers.

TOOK HEALTH CENSUS.
CHATHAM, Oct. 22.—The local health board this morning passed resolutions to the effect that a census of the number of families in the city needing assistance along nursing lines be taken and that the opinions of the physicians be secured, as to whether the influenza epidemic is increasing or on the decline, and also regarding accepting the assistance of any patriotic organizations in taking care of the sick.

This afternoon Mr. Cowan stated that the unanimous report of all the physi-

This afternoon Mr. Cowan stated that the unanimous report of all the physicians in the city was to the effect that there are no families in the city needing assistance and that the disease was on the decline.

John Frederick Appleby died at noon today following a week's illness with pneumonia. The deceased man was born in Barrie 34 years ago, and moved to Chatham about two fears ago. He only recently recovered from an attack to Chatham about two years ago. He only recently recovered from an attack of typhoid fever. A wife and three small children, his mother and three sisters and four brothers survive. Interment will take place at Barrie.

George Quinton, aged 74 years, passed away at his home on Delaware avenue this morning, following an illness of two weeks. Mr. Quinton was a native of Port Hope, and lived in Chatham 45 years. Besides a wife and daughter at home, one son, of Detroit, and two brothers of Dover Township survive.

Harold Roy Milton, the 2-year-old son Harold Roy Milton, the 2-year-old son of Mr. and Mrs. Thomas Milton, passed away this morning following an illness of a few days. The father is "somewhere in France" doing his bit, and the mother has to bear the sorrow alone, as Harold was the only child.

William Duncan Eberts, aged 29, died at St. Joseph's Hospital this morning, where he was taken yesterday, followwhere he was taken yesterday, follow-ing an illness of eight days with pneumonia. He is survived by his father, Newton Eberts, and one sister.

SIX WALLACEBURG VICTIMS. CHATHAM, Oct. 22.—Pneumonia lowing in the wake of the Spanish influenza has claimed six victims in Wallaceburg in the last few days. On Friday J. Power was claimed as its victim, and on Saturday his 2-year-old daughter followed him. Mrs. Garnet Campbell passed away Saturday, leaving a husband and three small children to mourn her death. Joseph McDougall, son of Mr. and Mrs. James McDougall, and Newton Hayes, son of Mr. and Mrs. Wm. Hayes, died on Sunday.

Dr. John McGinnis, M.O.H., of Wallaceburg, passed away at his home Monlaceburg, passed away at his home Monday. He leaves a wife, who is very ill, and one son, Pte. D. Hubert, C.A.M.C., a medical student at Western University. Dr. McGinnis formerly practiced at Seaforth.

ADMIT THOSE RECOVERED.

WOODSTOCK, Oct. 22.—No deaths directly resulting from the influenza epidemic are reported in the city, or from the surrounding townships, today. This fact, added to the statement of local physicians that fewer new cases are reported today than usual, would indicate that the crisis in Woodstock was perhaps reached over the week-end. The local board of health has passed

The local board of health has passed a resolution to the effect that "the request of M. J. Brophy, superintendent of the local business college, to reopen the college to scholars who have had the influenza and have fully recovered, be granted." This measure has since been criticized by citizens, who claim it is not fair.

Mr. and Mrs. V. L. Francis received word today of the death in New York of their son Teddie, following an attack of influenza. Deceased was but 17 years of age, and the fact that he was ill was not known by his parents until they received a telegram this morning summoning them to his bedside. While preparing to start, a second telegram, informing them of his death, was received. His body will be brought here for burial.

BAN WILL REMAIN.

KITCHENER, Oct. 22.—At a meeting of the board of health here this afternoon it was decided to take no action in connection with lifting the ban on places of public assemblage.

M. O. H. McGillawe stated that reports from three physicians showed fifteen more cases reported since yesterday. There were only three deaths reported in the city today, the smallest number since the epidemic became prevalent. The board of health will meet Friday for the purpose of glving further consideration to the question of lifting the ban on places of public assemblage.

improving AT STRATFORD.

STRATFORD, Oct. 22.—Over 800
meals were prepared yesterday and today at the canning kitchen and distributed to the sick. Twelve volunteer nurses are on duty. Dr. J. A.
Robertson, M. O. H., stated today that
conditions were continuing to improve.
Doctors report receiving fewer calls
and it would lead to the belief that the
epidemic was now on the down grade.
Recent deaths—Grace Currie (infant), George Downes, whose wife died
early Monday morning, and Cecil
Robertson.

Robertson.

PNEUMONIA HITS SEAFORTH.

SEAFORTH. Oct. 22.—In addition to the three deaths from pneumonia last week two more occurred today. One, Mrs. John Quail, wife of the G. T. R. baggageman here, was ill only a week. She leaves one little child. A sad feature of this case is the death of her brother at Galetta, Ontario, at about the same hour and from the same hour and from the same Mr. William Oughton, an employee at the Bell engine works. He leaves a netive of Seaforth, and a member of the Seaforth fire brigade.

AND TENERNOLE.

NONE AT FLORENCE.
FLORENCE, Oct. 22.—There are at present no cases of influenza in the town of Florence, and every precaution is being taken to prevent it. A ban has been placed on gatherings by closing churches, schools and places of amusement. Sunday was the first churchless day for the town.

War Costs and Rates

VEN before the war came along upsetting values and disturbing the balance between costs and revenues, telephone service had been constantly expanded and increased in value, with no corresponding increase in rates.

In the telephone business the burden of such added costs is especially severe, because as a telephone system grows, even in normal times, the cost per telephone increases.

For 1918 our wage bill will total over \$7,000,000 as compared with \$5,100,000 in 1914.

The price record of telephone material since 1914 shows increases ranging from 50 to 200 per cent. Copper wire advanced from 181/2 to 361/2 cents a lb.; lead cable from 74 cents to \$1.59 a foot; conduit from 51/2 cents to 10 cents a foot; poles 67 per cent; dry batteries 107 per cent; desk telephone sets 111 per cent; telephone transmitters 93 per cent; receivers 60 per cent; stationery 98 per cent; bar iron 178 per cent; pig iron 230 per cent, and many other raw materials over 100 per cent.

Ordinary variations in the cost of materials are expected and provided for, but only a complete readjustment of our charges for service can enable us to carry on in the face of such increased costs for operation and maintenance as we are now obliged to meet.

MALADY MILD AT WINGHAM.

WINGHAM. Oct. 22.—While there are a large number of new cases of influenza in and around Wingham, there have been up to date no more deaths. Among those lately stricken is Officer George Phippen, provincial police officer, who has been ill since Saturday.

The Western foundry here is closed down temporarily on account of the large number of employees ill with the disease. Several entire families are down with the malady, and there is no one to take care of them, there being a great scarcity of nurses.

CURTAIL BUSINESS HOURS.
BRANTFORD, Oct. 22. — Although the death rate from Spanish influenza was again higher today, there being seventeen deaths reported over night, the situation was markedly improved. The health authorities expect that there will be many more deaths, but by the end of the week there should be a decided abatement. Few new cases are being reported.

Starting on Thursday local stores will not open until 9:30 a.m., a move to afford more rest for depleted staffs

from influenza, according to word which reached his parents tonight.

Frater Taylor tied up here late last night with every one of the crew affected by the disease. Six of the crew were in bed, and one, a young man named Markey, was taken to the hospital in the ambulance suffering from pneumonia.

Dr. William Logie, M. O. H., stated tonight that the epidemic was thought to be on the decline in this city, as the number of cases being reported is a great deal less than the number reported the first of last week. Up to date there have been six deaths caused by the "flu," but none since last Sunday. There are still about 500 cases in the city.

GUELPH, Oct. 22.—The epidemic of influenza has struck Guelph in real earnest and the physicians, nurses and undertakers are working night and day. There were no less than nine funerals in the city this afternoon, and it was with difficulty that men could be secured to dig the graves at the cemetery.

It is estimated that there are at least 1,500 cases in the city, with the number increasing daily, many of them of a very serious nature. Among those who died today were W. G. Clark, 93 Perth street; Jacob Griffenham, Hooper street; Mrs. Geo. Taylor, 85 Queen street; Mrs. E. N. Worth, 3 Cambrige street; Mrs. E. N. Worth, 3 Cambrige street; Jos. Miller, 129 Water street; Wm. Christie, Liverpool street.

Leonard McCrea of Toronto, whose brother was only buried here yesterday, died last night, and his parents, Mr. and Mrs. W. R. McCrea, are grief-stricken. In connection with the epidemic several persons have been brought before the magistrate and fined for spitting on the sidewalks.

Easy to Make This Pine Cough Remedy Thousands of families swear by its prompt results. Inexpensive, and saves about \$2.

You know that pine is used in nearly all prescriptions and remedies

is usually plain sugar syrup.

To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex (50 cents worth) in a 16-oz. bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make 16 ounces—more than you can buy ready-made for \$2.50. It is pure, good and very pleasant—children like it.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—inflamed membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

He Cannot Sleep

T isn't the body that craves rest, but When you are bodily tired you can

usually fall to sleep at the first opportunity. But when the nerves are irritated by anxiety and worry rest and sleep seem to

be impossible. The mind seems to be most alert, and you are thinking, thinking, thinkingfirst of one thing and then of anotheroften matters of little or no importance.

But you simply cannot sleep. Sleeplessness is the most common and often the first indication of a breaking

down of the nervous system. The object of sleep is to allow the body to rebuild tissue and the nerves to recover tone. Sleep is the ideal condition for this

If you cannot sleep you worry, and worry breaks down nerve cells at a tremendous rate, so that instead of laying up nerve force for the demands of the day you are using up the reserve.

The nerve centres are sometimes likened to storage batteries. If you continue to consume the nervous energy in reserve, without paying back, these centres become sooner or later depleted, and you find your-

self a nervous wreck. After a sleepless night you get up

feeling tired and lacking in mental energy. Your day's work seems more than you can face, and you become down-hearted and discouraged.

The future is not bright, for you must realize that the natural result is exhausted nerves, paralysis, locomotor ataxia or some form of helplessness.

In Dr. Chase's Nerve Food is found the most natural and the most rational treatment for the nerves imaginable, because this food cure contains the vital substances which go to the building up of the blood and the depleted nerve cells.

Dr. Chase's Nerve Food does not induce sleep, but it does restore the nervous system, and after you have been using it for a few days you will begin to find yourself resting and sleeping naturally.

A little patience is necessary if your nervous system is greatly exhausted, but you will be encouraged by the benefits obtained to keep up the treatment until the exhausted nerves are fully restored, and you feel the energy and snap which means success and happiness.

ing developments are promised as the result of a meeting held last night in direct contravention to the orders of the local board of health. The case bids fair to be the more interesting in view of the fact that the violators of the law are the chairman and members of the board of education.

The regular meeting night of the board was Monday, October 14, but owing to the epidemic of Spanish "flu," which caused all public meetings to be cancelled on that day, the board post-poned its gathering. Without notifying the officials of the board of health or anyone else, however, a few of the members met last night, and while there was only a sufficient number to

there was only a sufficient number to form a quorum, they spent two hours in the board of education chambers of the city hall.

The authorities intend to take the matter up at an early date, it was announced tonight. The regular monthly committee meet-

The regular monthly committee meetings of the city council set for next week will be called off, unless the ban has been lifted, and the industrial committee, which was to have met last night, postponed its weekly gathering on account of the "flu." The order of the board of health distinctly states: "All public gatherings shall be cancelled until further notice."

cellor's responsibility, to be secured by the formation of a state "The new system," he said, "involves, as a natural conse-

quence, a new mode of government in Alsace-Lorraine." Speaking of the powers to be vested in the Reichstag under the terms of the new measure, the chancellor said the bill provided for the compulsory embodiment in the constitution of the fundamental idea of the new form of government. He said the effect would be to make the Reichstag the people's house of representatives, which should be responsible "in the decision of the

most important question for the nation, i. e., of peace and war." "That means peaceful development of the empire and its relations with other powers," he continued. "In such an extension of the people's right the imperial government is willing to lend a hand when a league of nations has taken practical form. When such a league puts an end to all secret, separate treaties, I am confident that all agreements can be amplified in this sense.'

POSSESSED POLITICAL RIGHTS. The chancellor said the German nation long had possessed political rights which its neighbors envied. He spoke in praise of the municipal and Reichstag elections, and said that although the German people had not made use of its power in dealing with vital questions, the development which had occurred at the end of September had changed everything.

"Therein lies the guarantee of the continuance and growth of the new system," he added. "This is a better and more real guarshorts, \$42.25; bran, \$37.25; feed flour

government which they did not in their hearts believe in for the sake of foreign countries or to meet the needs of the moment. "The enemy is at our gates," he said. After paying tribute to the men at the front, he added: "Bad

elements are found in every army, but the fundamental will of the

people's army is opposed to them."

ESTABLISH POLITICAL AUTHORITY. The chancellor declared it was the aim of himself and his colleagues to establish the political authority of the German people. After saying that he welcomed expressions of opinion and that he and his colleagues were agreed as to methods and purposes, he

added: "Our aim is the political authority of the German people. This is the guiding star of my collaborators and myself.'

The chancellor said that individual members of the Government at first had different standpoints, but had now been brought nearer together.

"The German people has long been in the saddle," he said; now it is to ride." "Our first and last thought," the chancellor continued, "is for the brave men who are defending themselves against superior forces and whom we must defend against unjust charges. No

one must think he can attack our army without also attacking the honor of our people. "The lot of our soldiers today is terribly hard. They fight with anxiety for the homeland and with their minds fixed on

peace, and they hold their ground." The extraordinary war-time measures, the chancellor explained, could not yet be dispensed with, but they could be carried out only by the chancellor, who would be responsible to the Reichstag for their application.

DECISION MUST BE REACHED.

"His majesty's decrees, which I announced recently, have now been issued," he went on. "They concern not only the censorship, the right of public meeting and restrictions on personal liberty, but have to do with economic, social and political matters.

"If local military commanders disagree with the civil authorities the decision must be reached immediately by the highest commander, who will not be able to promulgate any decision to which agreement is not given by myself or my representative, namely, Secretary of State Groeber. Care will be taken that the state of siege is maintained in the spirit in which I assumed the functions of the Government and in which I am resolved to discharge them."

OBJECTS TO WILSON'S PLAN.

The essence of President Wilson's program for a league of nations cannot be achieved when all peoples have not the right of national self-determination. This realization of community law means the abandonment of part of the unqualified independence, which hitherto has been the indication of sovereignty, both by us and others. Should we at home maintain as fundamental the national egoism, which until a short time ago was the dominating force of the people's life, there would be no restitution and no renovation for us. There would be a feeling of bitterness which would cripple us for generations.

But if we comprehend that the significance of this frightful war is, above all, victory for the idea of justice, and if we do not resist this idea, but submit with all good faith, then we shall find in it a cure for our present wounds and a reservoir of future

HEAVY OPPOSITION EXPECTED.

Prince Maximilian said that he would not deny that heavy opposition in Germany must be conquered before the ideal league of nations could be realized, but, he continued, "whether the next few days or weeks shall call us to fight on, or open the way to peace, there is no doubt we are now equal to the task of either war or peace by carrying out the Government's program and definitely breaking away from the old system."

The imperial chancellor then discussed electoral and parliamentary reforms. He cited bills before the Reichstag, one of which enables members of the House to enter the Government without re-WILLIS, PUBLIC ACCOUNT- signing, and another proposing a change in the laws regarding the -Audits, investigations and sys-s. 384 Burwell street, Phone 2720. responsibility of the chancellor,

ROWAT'S COFFEE WESTERN ONTARIO EDITORS PLEDGE UNDIVIDED SUPPORT FOR BIG VICTORY LOAN DRIVE

Dailies and Weeklies in Several Counties To Vie With Each Other in "Putting Across" Boosts for Campaign Newspapermen Will Leave No Stone Unturned to Make New Mark in Big Push.

A meeting of newspaper editors, chairmen of their respective counties for publicity in the Victory Loan drive, was held yesterday afternoon at the Tecumseh House. The division of which they are members embraces London, Middlesex, Eighn, Kent, Lambton and Essex. Most favorable reports of the co-operation pledged by the editors of all dailies and weeklies circulating in the division were given. Each country chairman is appointed to direct and assist the other editors in his county, and all of those concerned are enthusiastic over the prospects of a publicity campaign without a precedent in Ontario.

No district is more favorably endowed with newspapers and newspaper readers than Western Ontario. There are practically no people who do not take a keen interest in the affairs of their country, and by the agency of the press the need of securing the funds for the prosecution of the war will be brought home vividly to every man, woman and child.

Western Ontario Patriotism, Every newspaper editor is asked to make the campaign in every section of these counties of such a nature as will demonstrate the selling power and patriotism of the Western Ontario newspapers. The whole province is divided into such divisions, and a competitive spirit has been developed which will count in the results.

Editors of newspapers in any of the countes should not hesitate to get in touch with their county chalrman if they require assistance of any kind. Husterions and divisions are divised in a significant country, and so reported as a sweep in such good working order, and Mr. Bradley, for Kent County was never in such good working order, and Mr. Bradley, for Kent County was never in such good working order, and Mr. Bradley, for Kent County was never in such good working order, and Mr. Bradley, for Kent County was never in such good working order, and Mr. Bradley, for the St. Thomas Times-Journal and Eigin County, had a favorable report and many good sug-

Editors of newspapers in any of the counties should not hesitate to get in touch with their county chairman if they require assistance of any kind. First and second year lectures in the Western Medical College were allowed to be resumed Tuesday the medical officer of health stipulating that the students should "spread out" and that all crowding should be prevented. Out of eighteen members in first year class B, only five were present at the first lecture on Tuesday, and the afternoon lecture was cancelled owing to the fact that Fred Campbell, B.A., M.D., the lecturer is suffering from the "flu." Dr. Campbell was gold medallst of the Western a couple of years ago, Resuming the third, fourth and fifth year lectures is out of the question, owing to the fact that the men in these years have been enlisted to help the doctors, and the doctors are unable to give clinics.

FIRST CLASS HOHORS

Pte. Arthur Harrison has been suc sful in obtaining first-class honors mechanical engineering and motor ring, according to a letter received Pte. Harrison left here in April with Section 12 of the 1st Canadian Tank Battalion, now in England. The fact that out of a class of 100 men only 18 passed the examination, shows that the test in which he won a first class certificate, qualifying him to drive a tank, was a stiff one.
